Forward-Looking Statements

This document contains "forward-looking statements" - that is, statements related to future, not past, events. In this context, forward-looking statements often address our expected future business and financial performance and financial condition, and often contain words such as "expect," "anticipate," "intend," "plan," "believe," "seek," "see," or "will. Forward-looking statements by their nature address matters that are, to different degrees, uncertain. For us, particular uncertainties that could cause our actual results to be materially different than those expressed in our forward-looking statements include: current economic and financial conditions, including volatility in interest and exchange rates, commodity and equity prices and the value of financial assets; potential market disruptions or other impacts arising in the United States or Europe from developments in the European sovereign debt situation; the impact of conditions in the financial and credit markets on the availability and cost of our funding and on our ability to reduce our asset levels as planned; the impact of conditions in the housing market and unemployment rates on the level of commercial and consumer credit defaults; changes in Japanese consumer behavior that may affect our estimates of liability for excess interest refund claims (Grey Zone); pending and threatened litigation against WMC, including increased activity by securitization trustees; our ability to maintain our current credit rating and the impact on our funding costs and competitive position if we do not do so; our plan to resume dividends to our parent, General Electric Company, which is subject to Federal Reserve review; the level of demand and financial performance of the major industries we serve, including, without limitation, air transportation, real estate and healthcare; the impact of regulation and regulatory, investigative and legal proceedings and legal compliance risks, including the impact of financial services regulation; strategic actions, including acquisitions, joint ventures and dispositions and our success in completing announced transactions and integrating acquired businesses; the impact of potential information technology or data security breaches; and numerous other matters of national, regional and global scale, including those of a political, economic, business and competitive nature. These uncertainties may cause our actual future results to be materially different than those expressed in our forward-looking statements. We do not undertake to update our forward-looking statements.

Notes to Condensed, Consolidated Financial Statements (Unaudited)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General Electric Company (GE Company or GE) owns all of the common stock of General Electric Capital Corporation (GECC). Our financial statements consolidate all of our affiliates – companies that we control and in which we hold a majority voting interest. We also consolidate the economic interests we hold in certain businesses within companies in which we hold a voting equity interest and are majority owned by our parent, but which we have agreed to actively manage and control. See Note 1 to the consolidated financial statements in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 (2011 consolidated financial statements), which discusses our consolidation and financial statement presentation. GECC includes Commercial Lending and Leasing (CLL), Consumer, Real Estate, Energy Financial Services and GE Capital Aviation Services (GECAS).

On February 22, 2012, our former parent, General Electric Capital Services, Inc. (GECS), merged with and into GECC. The merger simplified GE's corporate structure by consolidating financial services entities and assets within our organization and simplifying Securities and Exchange Commission and regulatory reporting. Upon the completion of the merger, (i) all outstanding shares of GECC common stock were cancelled, (ii) all outstanding shares of common stock of GECS and all outstanding shares of preferred stock of GECS held by GE were converted into an aggregate of 1,000 shares of common stock of GECC and (iii) all treasury shares of GECS and all outstanding shares of preferred stock of GECS and all outstanding shares of preferred stock of GECS and all outstanding shares of preferred stock of GECS and all outstanding shares of preferred stock of GECS and all outstanding shares of preferred stock of GECS and all outstanding shares of preferred stock of GECS and all outstanding shares of preferred stock of GECS and all outstanding shares of preferred stock of GECS and all outstanding shares of preferred stock of GECS and all outstanding shares of preferred stock of GECS and all outstanding shares of preferred stock of GECS and all outstanding shares of preferred stock of GECS held by GECC were cancelled. As a result, GECC, which previously has been an indirect wholly-owned subsidiary of GE, became a direct wholly-owned subsidiary of GE. As a result of the merger, GECC became the surviving corporation and assumed all of GECS' rights and obligations and became wholly-owned directly by GE.

Because both GECS and GECC were wholly-owned either directly or indirectly by GE, the merger was accounted for as a transfer of assets between entities under common control. Transfers of net assets or exchanges of shares between entities under common control are accounted for at historical value, and as if the transfer occurred at the beginning of the period. Prior period results are retrospectively adjusted to furnish comparative information. GECC's continuing operations now include the run-off insurance operations previously held and managed in our former parent, GECS, and which are reported in corporate items and eliminations. The operating businesses that are reported as segments, including CLL, Consumer, Real Estate, Energy Financial Services and GECAS, are not affected by the merger. Unless otherwise indicated, references to GECC and GE Capital relate to the entities as they exist subsequent to the February 22, 2012 merger. In addition, during the first quarter of 2012, we announced the planned disposition of the Consumer mortgage lending business in Ireland (Consumer Ireland). This disposition is reported as a discontinued operation, which requires retrospective restatement of prior periods to classify the assets, liabilities and results of operations as discontinued operations.

As a wholly-owned subsidiary, GECC enters into various operating and financing arrangements with GE. Transactions between related companies are made on an arms-length basis, are eliminated and consist primarily of capital contributions from GE to GECC; GE customer receivables sold to GECC; GECC services for trade receivables management and material procurement; buildings and equipment (including automobiles) leased between GE and GECC; information technology (IT) and other services sold to GECC by GE; aircraft engines manufactured by GE that are installed on aircraft purchased by GECC from third-party producers for lease to others; and various investments, loans and allocations of GE corporate overhead costs.

We have reclassified certain prior-period amounts to conform to the current-period presentation. Unless otherwise indicated, information in these notes to the condensed, consolidated financial statements relates to continuing operations.

Accounting Changes

On January 1, 2012, we adopted Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2011-05, an amendment to Accounting Standards Codification (ASC) 220, Comprehensive Income. ASU 2011-05 introduces a new statement, the Consolidated Statement of Comprehensive Income, which begins with net earnings and adds or deducts other recognized changes in assets and liabilities that are not included in net earnings, but are reported directly to equity, under GAAP. For example, unrealized changes in currency translation adjustments are included in the measure of comprehensive income but are excluded from net earnings. The amendments became effective for the first quarter 2012 financial statements. The amendments affect only the display of those components of equity categorized as other comprehensive income and do not change existing recognition and measurement requirements that determine net earnings.

(8)

On January 1, 2012, we adopted FASB ASU 2011-04, an amendment to ASC 820, Fair Value Measurements. ASU 2011-04 clarifies or changes the application of existing fair value measurements, including: that the highest and best use valuation premise in a fair value measurement is relevant only when measuring the fair value of nonfinancial assets; that a reporting entity should measure the fair value of its own equity instrument from the perspective of a market participant that holds that instrument as an asset; to permit an entity to measure the fair value of certain financial instruments on a net basis rather than based on its gross exposure when the reporting entity manages its financial instruments on the basis of such net exposure; that in the absence of a Level 1 input, a reporting entity should apply premiums and discounts when market participants would do so when pricing the asset or liability consistent with the unit of account; and that premiums and discounts related to size as a characteristic of the reporting entity's holding are not permitted in a fair value measurement. Adopting these amendments had no effect on the financial statements. For a description of how we estimate fair value and our process for reviewing fair value measurements classified as Level 3 in the fair value hierarchy, see Note 1 in our 2011 consolidated financial statements.

See Note 1 in our 2011 consolidated financial statements for a summary of our significant accounting policies.

Interim Period Presentation

The condensed, consolidated financial statements and notes thereto are unaudited. These statements include all adjustments (consisting of normal recurring accruals) that we considered necessary to present a fair statement of our results of operations, financial position and cash flows. The results reported in these condensed, consolidated financial statements should not be regarded as necessarily indicative of results that may be expected for the entire year. It is suggested that these condensed, consolidated financial statements be read in conjunction with the financial statements and notes thereto included in our 2011 consolidated financial statements. We label our quarterly information using a calendar convention, that is, first quarter is labeled as ending on March 31, second quarter as ending on June 30, and third quarter as ending on September 30. It is our longstanding practice to establish interim quarterly closing dates using a fiscal calendar, which requires our businesses to close their books on either a Saturday or Sunday, depending on the business. The effects of this practice are modest and only exist within a reporting year. The fiscal closing calendar from 1993 through 2013 is available on our website, www.ge.com/secreports.
