REPORT OF INDEPENDENT PUBLIC ACCOUNTING FIRM

To the Retirement Board and Participants in the
Green Mountain Power Corporation
Employee Savings and Investment Plan and Trust

We have audited the accompanying statements of net assets for benefits of Green Mountain Power Corporation Employee Savings and Investment Plan and Trust (the "Plan") as of December 31, 2003 and 2002, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2003 and 2002 and the changes in net assets available for plan benefits for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Edgar Filing: GREEN MOUNTAIN POWER CORP - Form 11-K/A

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. Such supplemental schedule has been subjected to the auditing procedures applied in our audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTE 1 PLAN DESCRIPTION

The following description of the Green Mountain Power Corporation Employee Savings and Investment Plan and Trust (the Plan) is provided for general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Green Mountain Power Corporation. The Plan covers substantially all full-time employees of Green Mountain Power Corporation (the Company).

The Company's Retirement Board is the Plan Administrator with the authority to control and manage the operation and administration of the Plan. Each year, participants may contribute up to 15% of pretax annual compensation, as defined by the Plan. The Company contributes a matching contribution of 100% of the first 4% of contributions made by the participants.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Company's contributions, and plan earnings, and charged with participant's withdrawals, distributions and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account, net of applicable Federal tax.

Vesting

Participants are immediately vested in their voluntary contributions as well as the employers' contribution and any earnings thereon.

5 years or up to 30 years for the purchase of a principal residence. The loans are secured by the balance in the participant's account and bear interest at the Trustee's prime rate. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount or to purchase an annuity equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE 2 SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

The Plan utilizes various investment instruments, including mutual funds and investment contracts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts

Edgar Filing: GREEN MOUNTAIN POWER CORP - Form 11-K/A

reported in the financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. The Company stock is valued at its quoted market price. Participant loans are stated at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits

Benefit payments are recorded when paid.

During 2004, UMB Bank sold its employee benefit accounts, including the Plan, to Marshall & Illsley Trust Company. Prudential Financial, Inc. acquired the retirement business of CIGNA, on April 1, 2004. The Plan's administrative expenses represent fees paid for these services and qualify as party-in-interest transactions. Automatic Data Processing, Inc. provides payroll processing for the Company and qualifies as a party-in-interest, however the Company pays for the cost of the services directly.
