Edgar Filing: INNOFONE COM INC - Form SB-2

If any of the securities being registered on this Form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933, as amended, check the following box:

If this form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act of 1933, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act of 1933, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act of 1933, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. o

If delivery of the prospectus is expected to be made pursuant to Rule 434, check the following box. o

CALCULATION OF REGISTRATION FEE

Title of Each Class of Securities to be Registered	Amount to Be Registered(1)	Proposed Maximum Offering Price Per Share (1)(2)	Proposed Maximum Aggregate Offering Price (2)	Amount of Registration Fee
Common Stock, \$0.001 par value, issuable upon conversion of Series A Convertible Preferred Stock	48,150,000(3) \$	1.12 \$	53,928,000 \$	5,770.30
Common Stock, \$0.001 par value	4,300,000(4) \$	1.12 \$	4,816,000 \$	515.31
		Previously Paid*		\$ 1,540.16
		Total Fee		\$ 4,745.45*

* Amount was previously paid to the SEC on March 29, 2006.

(1) The shares of our Common Stock being registered hereunder are being registered for resale by the selling stockholder named in the prospectus. In accordance with Rule 416(a), the registrant is also registering hereunder an indeterminate number of shares that may be issued and resold to prevent dilution resulting from stock splits, stock dividends or similar transactions.

(2) Estimated solely for the purpose of computing the amount of the registration fee pursuant to Rule 457(c) under the Securities Act of 1933, based on the closing price of \$1.12 on the OTC Bulletin Board on July 11, 2006.

(3) Represents shares of our Common Stock issuable upon the conversion of our Series A Convertible Preferred Stock. In accordance with Rule 416(a), the registrant is also registering hereunder an indeterminate number of shares that may be issued and resold to prevent dilution resulting from stock splits, stock dividends or similar transactions. In addition, should a decrease in the exercise price as a result of an issuance or sale of shares below the then current market price result in our having insufficient shares, we will not rely upon Rule 416, but will file a new registration statement to cover the resale of such additional shares should that become necessary.

(4) Represents (i) 3,600,000 shares of common stock issued to Mr. Alex Lightman, our Chief Executive Officer, President and a Director; (ii) 200,000 shares of common stock issued to Mr. Gerard Casale, our General Counsel and Vice President of Business and Legal Affairs; and (iii) 500,000 shares of common stock issued to Mr. Lawrence Hughes.

The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933, as amended, or until the registration statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

The information in this prospectus is not complete and may be changed. The selling securityholders may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

Subject to Completion, July __, 2006

PROSPECTUS

52,450,000 SHARES

INNOFONE.COM, INCORPORATED
COMMON STOCK

This prospectus relates to the resale of up to 52,450,000 shares of our Common Stock, par value \$0.001 per share ("Common Stock"), consisting of (i) 48,150,000 shares issuable upon conversion of our Series A Convertible Preferred Stock, \$0.01 par value per share, issued to Cogent Capital Financial, LLC ("Cogent"); (ii) 3,600,000 shares issued to Mr. Alex Lightman, our Chief Executive Officer and a Director ("Lightman"); (iii) 200,000 shares issued to Mr. Gerard Casale, our General Counsel, Vice President of Business and Legal Affairs ("Casale"); and (iii) 500,000 shares issued to Mr. Lawrence Hughes ("Hughes") (Hughes, with Cogent, Lightman, Casale and Hughes, collectively the "selling securityholders"). The Selling Securityholders may sell their common stock from time to time at prevailing market prices.

Our Common Stock is registered under Section 12(g) of the Securities Exchange Act of 1934, as amended, and is quoted on the over-the-counter market and prices are reported on the OTC Bulletin Board under the symbol "INFN." On July 11, 2006, the closing price as reported was \$1.12 per share. Since our Common Stock trades below \$5.00 per share, it is considered a "penny stock" and is subject to SEC rules and regulations that impose limitations on the manner in which it can be publicly traded.

The selling securityholders, and any participating broker-dealers may be deemed to be "underwriters" within the meaning of the Securities Act of 1933, as amended, and any commissions or discounts given to any such broker-dealer may be regarded as underwriting commissions or discounts under the Securities Act of 1933. The selling securityholders have informed us that they do not have any agreement or understanding, directly or indirectly, with any person to distribute their common stock. We agreed to pay the expenses of registering the foregoing shares of our Common Stock.

INVESTMENT IN THE COMMON STOCK OFFERED BY THIS PROSPECTUS INVOLVES A HIGH DEGREE OF RISK. YOU MAY LOSE YOUR ENTIRE INVESTMENT. CONSIDER CAREFULLY THE "RISK FACTORS" BEGINNING ON PAGE 7 OF THIS PROSPECTUS BEFORE INVESTING.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR DETERMINED IF THIS PROSPECTUS IS TRUTHFUL OR COMPLETE. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The date of this prospectus is July __, 2006

You should rely only on the information contained in or incorporated by reference in this prospectus. We have not, and the selling securityholders have not, authorized anyone, including any salesperson or broker, to give oral or written information about this offering, Innofone.com, Incorporated, or the shares of common stock offered hereby that is different from the information included in this prospectus. If anyone provides you with different information, you should not rely on it. We are not, and the selling securityholders are not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. You should assume that the information contained in this prospectus is accurate only as of the date on the front cover of this prospectus. Our business, financial condition, results of operations and prospects may have changed since that date.

This prospectus is not an offer to sell any securities other than the shares of common stock offered hereby. This prospectus is not an offer to sell securities in any circumstances in which such an offer is unlawful.

PROSPECTUS SUMMARY

This summary highlights some information from this prospectus, and may not contain all of the information that is important to you. You should read the entire prospectus carefully, including the more detailed information regarding our company, the risks of purchasing our common stock discussed under "risk factors," and our financial statements and the accompanying notes. In this prospectus, "we", "us," "Company" and "our", refer to Innofone.com, Incorporated, unless the context otherwise requires. Unless otherwise indicated, the term "year," "fiscal year" or "fiscal" refers to our fiscal year ending June 30th. Unless we tell you otherwise, the term "common stock" as used in this prospectus refers to our Common Stock.

History

On August 8, 2005, Innofone.com, Incorporated ("Innofone," "we," "us" and "our") entered into a stock purchase agreement with Mr. Alex Lightman, our President and Chief Executive Officer, to purchase 100% of the issued and outstanding shares of IPv6 Summit Inc. ("IPv6 Summit"), an entity engaged in developing new technology referred to as Internet Protocol version 6. At the time of the Agreement, Mr. Lightman was the President, Treasurer, Director and sole shareholder of IPv6 Summit and was not an officer or director of Innofone. Pursuant to the agreement, on October 12, 2005 we issued to Mr. Lightman a promissory note in the principal amount of \$1,000,000 with interest at the rate of four percent (4%) per annum. On October 17, 2005, we amended and restated Mr. Lightman's promissory note to provide for a repayment schedule which will coincide with our receipt of funds under our current financing arrangement with four investors. Further, we issued to Mr. Lightman approximately 33,333,000 shares of our restricted common stock. As a result of the stock purchase agreement, IPv6 Summit became our wholly owned subsidiary Innofone. Prior to this acquisition, we operated as a holding company for companies involved in technology and financial services.

Overview

The Internet as we know it today is based on Internet Protocol version 4, more commonly referred to as IPv4, a 32-year-old protocol. The IPv4 Internet is beginning to receive a major upgrade, with a new format for packets of data called Internet Protocol version 6, or IPv6. We believe that IPv6, sometimes called the New Internet, presents many new business opportunities, in roughly the same manner that the existing Internet did when it first hit the mainstream in the mid-1990s.

We offer three related services that are relevant to IPv6: consulting, training and conference management; we are in the process of developing a fourth service, testing. Our consulting and training is for businesses seeking consulting and training services largely related to the creation of corporate business plans defining the migration or transition from the current IPv4 environment to a future IPv6 Internet environment. Conferences are those events we host through our IPv6 Summit, Inc. subsidiary which typically occur one per calendar quarter and have typically 400-500 attendees mainly from corporations seeking to gain current information on IPv6 and network with others regarding the business of the Internet. Testing will be a service we hope to provide by year end 2006 in conjunction with Spirent Federal and will involve the testing and certification of electronic equipment and appliances which will be capable of being deployed in the IPv6 environment. We believe that we have deep expertise in these areas and hope to further expand these services. We are also in the early stages of a developing IPv6-related technology and have hired a Director of Product Development to assist in developing a strategy plan on developing our own IPv6 products in the future. These products might include secure email systems, wireless networks, mobile virtual networks and payment systems all using IPv6 and other technologies. We envision our IPv6 technology will be utilized in connection with our consulting, training and conference management services. We currently derive 80% of our revenue from our conference management services and 20% of our revenues from our consulting services. We anticipate generating additional revenues from our consulting in 2006. Our training services to date have not generated any revenues.

However, we have incurred losses since inception and our common stock is subject to certain rules and regulations pertaining to "penny stocks". We incurred net losses in fiscal 2005 of \$681,000. In addition, we expect to increase our infrastructure and operating expenses to fund our anticipated growth. We have a history of net loss and our net loss totaling \$6,797,163 and \$8,788,592 for the three and nine months ended March 31, 2006, increased by \$6,798,948 and \$8,784,625 compared to the same periods of the prior year. Further, we have an accumulated deficit of \$14,874,834 for the year ended June 30, 2005.

We began our conference services from our date of incorporation, July 2003 after our Chief Executive Officer and a former employee successfully organized the first IPv6 Summit in the United States that attracted over 300 people. Revenue comes from charging individuals and corporations an admission fee of approximately \$200 to \$500 per person for each event and from charging corporations from \$4,000 to \$18,000 each for sponsorship that include an exhibit booth. There are slight variations to these charges depending on how many benefits are included.

We began offering our training services with the US IPv6 Summit in December 2003 with a tutorial that preceded the three-day IPv6 Summit by adding a day of activity for people who needed initial training, and who wanted to know more about security than could be described in the Summit format. We added a separate training event, the Federal Chief Information Officer workshop, in October 2005. We anticipate that revenues from training services will come from admission fees to the events and are in the hundreds of dollars per person.

We began offering our consulting services in August 2005 with the sales of consulting agreements by our Chief Executive Officer domestically to the US Department of Defense IPv6 Transition Office, as a subcontractor to SI International, and Juniper Networks and internationally to North Atlantic Treaty Organization. Revenues from consulting are based on man-days and/or negotiated fees typically in the tens of thousands of dollars per engagement, with engagements in discussion in the hundreds of thousands of dollars.

We are in the early phases of developing our testing services. No revenues have been received, though we have received interest from a large public company to provide free test equipment. Testing revenues will not be generated until our test center is built and the first customers contracted. Revenues will come from a fixed price schedule with payments in the thousands to tens of thousands of dollars per product or service tested in our lab.

Transition to IPv6

Simply put, one of the limitations of today's Internet is a shortage of addresses, so that the hardware or software equivalents of "middle men" are put into the system to let many people use one address, not unlike the old telephone party lines, where many people had the same "number," and everyone could listen in. The party line system had the advantage that a lot of people could be connected with few switched lines, but led to problems, such as lack of security. There was no way to assure that one person would be speaking with only one person at the other end. When every phone user got his/her own address, it led to many great new capabilities - such as privacy, the ability to deliver new services such as telefax messages to a particular person, and the ability to go mobile with cell phones, and caller ID, which enabled people to screen their calls, accepting only those they wanted to at that moment.

Similarly, the IPv6 will give everyone his or her personal address (or thousands of them, as needed), which enables the potential for "end-to-end" connectivity. Each individual can know for certain who the specific receiver at the other end is, and this allows the system to check for service quality, and allows much easier mobile use and roaming. Furthermore, this connectivity facilitates multiple layers of individual security measures rather than today's firewalls or network address translation, which offer little protection once a hacker has broken through the protective wall. The difference between the New Internet and the existing one is thought by some to be as dramatic as the difference between the phones with individual numbers that we have today and the phones with party lines of yesteryear.

The first major customers for the New Internet in the US were the Department of Defense, which in June 2003 mandated a transition within the Department that would make it “IPv6-capable” by 2008, and the Office of Management and Budget, on behalf of the Federal Government, which recently also mandated transition to IPv6, and the hundreds of large companies that supply these two entities. Many, but not all, major technology companies have appointed IPv6 points of contact and developed IPv6-related marketing messages, including Microsoft, Cisco, Juniper, Nokia, Hewlett-Packard and about fifty others in the US.

In 2005, as in 1995, we believe that the IPv6 space was occupied by first movers that both take advantage of the opportunities offered by the new technology and have a sound business plan to offer needed products and services to the United States and global markets. It is forecast that IPv6 will see some of the same rapid rise as the existing Internet did between 1995 and 2000, quickly growing from millions to billions, and potentially trillions of dollars in global revenues impacted by the Internet. The Japanese government, for instance, which has done a great deal of research into the upcoming IPv6 market, estimates the market size of IPv6-ready goods/services in the year 2010 to be 170 trillion yen, or about \$1.55 trillion in US currency.

We are facilitating this transition by offering our conference management, consulting and training services to government entities and corporations. Specifically, we offer a full range of services to help government organizations and Fortune 1000 companies conduct the transition. Further, we intend to develop products to enable the transition (including servers, routers, software and other network infrastructure, estimated at hundreds of billions of dollars over the next decade.

We will offer and manage our consulting, training and conference management services from two corporate offices: our corporate headquarters in Santa Monica, California, and our Eastern Office in Northern Virginia.

Recent Developments

On July 10, 2006, Innofone.com, Incorporated (the “Company” or “Innofone”) issued a promissory note to 55 South Investments in the face amount of \$500,000, with interest at 12% per annum. The Maturity Date shall be the earlier of: (a) one (1) year from the commencement of that certain equity swap transaction (“Swap”) whereby 30 days have expired thereafter the date in which the Company is granted effectiveness by the Securities and Exchange Commission on a registration statement filed pursuant to certain agreements made in connection with an equity swap made by and between the Company and Cogent Capital Group, LLC and its affiliates as of June 2, 2006 (defined herein as the “Swap Start Date”); or (b) December 1, 2007, whichever is earlier. Repayment of the Principal by Innofone to the Holder shall commence within ten (10) days of the Swap Start Date and shall continue thereafter in equal pro rata monthly installments on the same date of each subsequent month thereafter for the successive eleven (11) months thereafter the Swap Start Date and continue until all principal payments are paid in full. The Principal shall be repaid in full no later than the Maturity Date. Should the Swap Start Date not occur prior to the Maturity Date, then the entirety of Principal shall be due and payable to Holder on the Maturity Date. Further Innofone may, at its option, prepay all amounts owing under this Note prior to the Maturity Date, in whole or in part, without payment of any premium or penalty, after giving written notice thereof to the Holder at least one (1) day prior to the date selected for prepayment. In connection with the issuance of the note, we issued (i) a five-year warrant to 55 South Investments for the right to purchase up to 2,000,000 shares of common stock at \$1.00 per share; and (ii) a five year warrant to Millennium Investment Services, Inc., an affiliate of 55 South, for the right to purchase 500,000 shares of common stock at \$1.00 per share. We have granted certain piggyback registration rights with respect only to the shares underlying the warrant issued to 55 South. The note is secured with approximately \$2,000,000 worth of our restricted common stock and \$2,000,000 worth of restricted common stock owned by Mr. Lightman, our Chief Executive Officer and President. On July 14, 2006, we issued an additional promissory note for \$500,000 on the same terms. In connection with the issuance of the note, we issued 55 South Investments a five year warrant to purchase up to \$2,000,000 shares of common stock at an exercise price of \$1.00 per share. The Company has the right to redeem

1,400,000 of such warrants for \$250,000 until July 13, 2007 except for the right to redeem a portion of the warrants, the deal is on the same terms as the July 10th transaction. We have granted certain demand registration rights with respect to all shares issued as security under the notes. Further, we have agreed to pay to 55 South approximately \$40,000 representing an origination fee and a due diligence fee.

On May 25, 2006, we entered into a Letter Agreement (“Agreement”) with the NIR Group for the repayment (the “Repayment”) of certain notes (“Notes”) and cancellation of certain warrants (“Warrants”) issued on or about August 31, 2005 and October 31, 2005 pursuant to that certain Securities Purchase Agreement (the “SPA”) by and between Innofone and AJW Partners, LLC (“Partners”), New Millennium Capital Partners, II, LLC (“Millennium”), AJW Offshore, Ltd. (“Offshore”) and AJW Qualified Partners, LLC (“Qualified, with Partners, Millennium and Offshore, collectively, the “NIR Group”). The Repayment was applied to the outstanding principal and interest owing under the Notes and as consideration for the cancellation of the Warrants issued to the NIR Group, and the termination of any and all UCC-1s filed in favor of NIR. Further, in connection with the SPA, Notes and Warrants, the following ancillary documents were executed and/or filed: (1) Guaranty and Pledge Agreement, dated August 31, 2005, by and between Innofone, Mr. Alex Lightman, Innofone’s President and Chief Executive Officer, and NIR (“Pledge Agreement”); (2) Security Agreement by and between Innofone and NIR, dated August 31, 2005 (“Security Agreement”); and (3) UCC-1 Financing Statements (“UCC-1s”) filed by NIR in Nevada (the Notes, SPA, Warrants, Pledge Agreement and Security Agreement are referred to collectively as “Original Documents”).

In connection with the Repayment, Innofone and NIR executed and delivered the Agreement, a new promissory note (the “New Notes”), a new stock purchase warrant (the “New Warrants”), and a new registration rights agreement (“New Registration Agreement”) (the Agreement, New Notes, New Warrants and New Registration Agreement and the UCC-3s shall be referred to collectively as the “New Documents”, each of which is filed herewith as an Exhibit). Further, NIR is required to file UCC-3 Termination Statements (“UCC-3s”) necessary to terminate any perfected security interest they had obtained pursuant to the Security Agreement.

The terms of the Repayment, as provided in the Agreement are as follows: (a) upon signing of Agreement, Innofone made a cash Payment to NIR in the amount of \$2,635,400 to be applied to the repayment of all amounts of principal and interest owing and outstanding under the Notes; (b) upon signing of the Agreement, Innofone issued to NIR the New Notes in the aggregate amount of \$1,200,000. The New Notes are self-amortizing over a one-year time period commencing on July 1, 2006, with each installment payment due on the twelve consecutive monthly anniversaries beginning July 1, 2006. Further, pursuant to the New Notes, Innofone will pay to NIR an aggregate of \$100,000 per month. The New Notes may be prepaid by Innofone at anytime without penalty; (c) upon signing of the Agreement, Innofone shall issued to NIR the New Warrants exercisable into an aggregate of 750,000 shares of Innofone’s Common Stock (the “Warrant Shares”). The New Warrants shall have a term of five years and an exercise price equal to \$1.79. The New Warrants may be exercised on a cashless basis only in the event that there is no effective registration statement covering the Warrant Shares. NIR may exercise the New Warrants by utilizing any amounts still owing under the New Notes. Innofone may buy back all of the New Warrants from NIR for an aggregate of \$100,000 at any time prior to the New Warrants being exercised; (d) upon signing of the Agreement, Innofone and NIR executed and delivered the New Registration Agreement providing for the registration of the Warrant Shares with the Securities and Exchange Commission. The New Registration Agreement provides for one piggyback registration right no sooner than six months from the date of hereof; (e) NIR agrees not to sell Innofone's Common Stock short, either directly or indirectly through its affiliates, principals or advisors; (f) the Original Documents were terminated in all respects, and were rendered null and void and no longer binding NIR or Innofone to any obligations, duties and responsibilities contained therein. Further, NIR and Innofone mutually agree that the New Documents shall supersede the Original Documents in all respects; (g) Innofone filed a Form AW to withdraw the Registration Statement on Form SB-2 currently on file with the Securities and Exchange Commission covering the shares of common stock underlying the Notes and the Warrants; (h) All security interests perfected by NIR on the “Collateral” (as defined in the Security Agreement), pursuant to the Original Documents, including the Security Agreement, shall be terminated. Accordingly, NIR agreed to file within (2) days of the Agreement, UCC-3 Termination Statement.

On April 27, 2006, Innofone entered into a term sheet with Mr. Lawrence Hughes providing for an investment by Mr. Hughes in the aggregate amount of \$4,000,000 in exchange for approximately 3,478,260 shares of Innofone's restricted common stock at \$1.15 per share. We have agreed to register 500,000 shares of common stock, which are included in this prospectus. Further, pursuant to the term sheet, Innofone is to issue a warrant to purchase 400,000 shares of Innofone's restricted common stock at an exercise price equal to eighty percent (80%) of the five (5) day trading average close price of Innofone's common stock. Definitive agreements between Innofone and Mr. Hughes are intended to be executed as soon as possible.

On October 18, 2005, we completed the relocation of our corporate headquarters to 1431 Ocean Avenue, Suite 1100, Santa Monica, California 90401 from 3470 Olney-Laytonsville, Road, Suite 118, Olney, Maryland 20832.

On March 20, 2006, we entered into a transaction with Digital Presence, Inc., a recently formed Delaware corporation, whereby we agreed to purchase up to 66.67% of the total issued and outstanding common stock shares of Digital Presence, Inc. in return for cash investment of a total of \$300,000 made in three (3) installment payments commencing on execution and ending on or about June 15, 2006. Digital Presence, Inc. is an entity which was formed for the purpose of creating a scalable and addressable IPv6 identity registry for application in various industries and government. Digital Presence, Inc. will be managed by employees other than those of Innofone but Innofone has the ability to elect one (1) member of the Board of Directors of Digital Presence, Inc. and maintains other rights, preferences and privileges through the subject investment. We have paid \$175,000 of the \$300,000 and intend to pay the balance prior to August 31, 2006.

In May 2006, Innofone announced that they were entering into an agreement to acquire Mobile Technology Group, LLC, a provider of mobile messaging and transactions. The acquisition has not yet been consummated.

Our headquarters are located at 1431 Ocean Ave., Suite 1100, Santa Monica, CA 90401 and our telephone number at that address is (310) 458-3233. We maintain five web sites at www.usipv6.com , www.coalitionsummit.com , www.innofone.net , www.v6tranistion.com and www.v6training.com . COGENT TRANSACTION SUMMARY

As more fully described in this prospectus, on June 2, 2006, we entered into an equity swap arrangement ("Swap Transaction") with Cogent Capital Investments LLC and Cogent Capital Financial LLC (collectively, "Cogent") pursuant to which Innofone issued (i) 1,850,000 shares of common stock ("Common Stock"); and (ii) 4,815,000 shares of Innofone's Series A Convertible Preferred Stock ("Preferred Stock") for an aggregate purchase price of \$50,000,000 in the form of U.S. Treasury Bonds. The initial price per share is \$1.333333 per share, subject to certain adjustments. The Common Stock, Preferred Stock and Bonds are to be delivered pursuant to that certain escrow agreement between Innofone and Cogent. Partial settlements of the equity swap and related collateral releases (together the "Swap Settlements") commence 30 days subsequent to the effective date of this registration statement. Through the Swap Settlements, we may sell a fixed percentage of the Treasury Bonds against a fixed reference price for our common stock shares at any time thereafter, and use any cash proceeds from such sales for working capital purposes. Further, in connection with the Swap Transaction, we issued to Cogent 5,000,000 shares of our Common Stock ("Exchange Shares") and a warrant to purchase 5,000,000 shares of Common Stock ("Warrant Shares"). The Swap Transaction closed on June 5, 2006.

Pursuant to an Amended and Restated Certificate of Designation filed by Innofone, the Preferred Stock issued to Cogent has no voting rights, no dividend rights (unless the Board of Directors elects otherwise) and each shares of Preferred Stock shall be convertible into ten (10) shares of Common Stock, subject to certain adjustments ("Conversion Ratio"). Further, no sooner than two years after June 2, 2006, the issuance date, Innofone has the option to redeem all (but not less than all) of the outstanding Preferred Stock by paying in cash the market price (the trailing ten (10) average of the Common Stock) multiplied by the Conversion Ratio. The Preferred Stock shall rank, with respect to the payment of dividends and the distribution of assets, senior to any other security issued by Innofone.

In connection with the Swap Transaction, in addition to the Shares being registered by this prospectus, we granted certain demand and piggyback registration rights to Cogent covering the Exchange Shares and the Warrant Shares obligating us to file a registration statement with the SEC.

SUMMARY FINANCIAL INFORMATION
