Item 2.05 Costs Associated with Exit or Disposal Activities

On May 16, 2018, First Midwest Bancorp, Inc. (the “Company”) initiated certain actions in connection with its previously announced “Delivering Excellence” initiative. This initiative embodies the Company’s ongoing commitment to providing service excellence to its clients, as well as maximizing both the efficiency and scalability of its operating platform. The Company will leverage these actions, together with its leading distribution network and technology investments, as it responds to evolving client preferences for its services, organizes to deliver those services faster and more efficiently and enhances the scalability of its operating platform for continued growth.

Components of “Delivering Excellence” include several revenue growth opportunities and improved delivery of service to clients through streamlined processes. With a greater number of the Company’s clients relying on its online and mobile applications, this initiative also includes the consolidation or closing of 19 locations across the Company’s footprint, as well as organizational realignments resulting in an approximately 7% net reduction in total workforce, of which nearly one half is expected to result from natural attrition. These actions are expected to be substantially complete by the fourth quarter of 2018.

Through these actions, the Company expects an annual, recurring benefit of approximately \$22 million in 2019, rising to approximately \$27 million by 2021 and in the years thereafter. Approximately 80% of these benefits will be realized from lower costs and the remainder from revenue enhancements in each respective year, largely through greater service penetration. Cost reductions will be largely implemented by the fourth quarter of 2018, with implementation costs expected to exceed these benefits in 2018 and full benefits realized beginning in 2019.

The Company expects to incur total pre-tax implementation expenses associated with “Delivering Excellence” of \$25 million, of which \$22 million is to be incurred in 2018, with approximately 40% of such costs attendant to closed locations, 20% to employee severance, and the remainder to general restructuring and advisory services. The Company expects to recognize the 2018 expenses beginning in the second quarter, with all expenses incurred by 2020.
