MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

For the Six Months Ended June 30, 2006

In the following discussion and analysis of our financial condition and results of operations, unless the context indicates or otherwise requires, references to we, us, our or PLDT Group mean the Philippine Long Distance Telephone Company and its consolidated subsidiaries, and references to PLDT mean the Philippine Long Distance Telephone Company, not including its consolidated subsidiaries (see Note 2 Summary of Significant Accounting Policies and Practices to the accompanying unaudited consolidated financial statements for a list of these subsidiaries, including a description of their respective principal business activities).

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the accompanying unaudited consolidated financial statements and the related notes. Our financial statements, and the financial information discussed below, have been prepared in accordance with Philippine generally accepted accounting principles, or Philippine GAAP, which differ in certain significant respects from generally accepted accounting principles in the United States.

The financial information appearing in this report and in the accompanying unaudited consolidated financial statements is stated in Philippine pesos. All references to pesos, Philippine pesos or Php are to the lawful currency of the Philippines; all references to U.S. dollars, US\$ or dollars are to the lawful currency of the United States; all references to Japanese yen, JP¥ or ¥ are to the lawful currency of Japan and all references to Euro or € are to the lawful currency of the European Union. Translations of Philippine peso amounts into U.S. dollars in this report and in the accompanying unaudited consolidated financial statements were made based on the exchange rate of Php53.220 to US\$1.00, the volume weighted average exchange rate at June 30, 2006 quoted through the Philippine Dealing System.

Some information in this report may contain forward-looking statements within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934. We have based these forward-looking statements on our current beliefs, expectations and intentions as to facts, actions and events that will or may occur in the future. Such statements generally are identified by forward-looking words such as believe, plan, anticipate, continue, estimate, expect, may, will or other similar words.

A forward-looking statement may include a statement of the assumptions or bases underlying the forward-looking statement. We have chosen these assumptions or bases in good faith, and we believe that they are reasonable in all material respects. However, we caution you that forward-looking statements and assumed facts or bases almost always vary from actual results, and the differences between the results implied by the forward-looking statements

and assumed facts or bases and actual results can be material, depending on the circumstances. When considering forward-looking statements, you should keep in mind the description of risks and cautionary statements in this report. You should also keep in mind that any forward-looking statement made by us in this report or elsewhere speaks only as at the date on which we made it. New risks and uncertainties come up from time to time, and it is impossible for us to predict these events or how they may affect us. We have no duty to, and do not intend to, update or revise the forward-looking statements in this report after the date hereof. In light of these risks and uncertainties, any forward-looking statement made in this report or elsewhere might not occur.

(1) *Net debt is derived by deducting cash and cash equivalents and short-term investments from long-term debt.*

Overview

We are the largest and most diversified telecommunications company in the Philippines. We have organized our business into three main segments:

- *Wireless* wireless telecommunications services provided by Smart Communications, Inc., or Smart, and Pilipino Telephone Corporation, or Piltel, our cellular service providers; Smart Broadband, Inc., or Smart Broadband (formerly known as Meridian Telekoms, Inc., or Meridian), our wireless broadband provider; Wolfpac Mobile, Inc., or Wolfpac, our wireless content operator, Mabuhay Satellite Corporation, or Mabuhay Satellite, ACeS Philippines Cellular Satellite Corporation, or ACeS Philippines, and Telesat, Inc., or Telesat, our satellite and very small aperture terminal, or VSAT, operators;

- *Fixed Line* fixed line telecommunications services are primarily provided through PLDT. We also provide fixed line services through PLDT's subsidiaries PLDT Clark Telecom, Inc., Subic Telecommunications Company, Inc., PLDT-Maratel, Inc., Piltel and Bonifacio Communications Corporation, which together account for approximately 3% of our consolidated fixed lines in service, and PLDT Global Corporation, or PLDT Global; and

- *Information and Communications Technology* information and communications infrastructure and services for Internet applications, Internet protocol-based solutions and multimedia content delivery provided by PLDT's subsidiary ePLDT, Inc., or ePLDT; call center services provided under one umbrella brand name *ePLDT Ventus*, including Parlance Systems, Inc., or Parlance and Vocativ Systems, Inc., or Vocativ; Internet access and gaming

services provided by ePLDT's subsidiaries, Infocom Technologies, Inc. or Infocom, Digital Paradise, Inc., or Digital Paradise, Digital Paradise Thailand, Ltd., or Digital Paradise Thailand, netGames, Inc., or netGames, Airborne Access Corporation, or Airborne Access and Level Up!, Inc., or Level Up!; and e-commerce, and IT-related services provided by other investees of ePLDT, as discussed in *Note 9 Investments in Associates* to the accompanying unaudited consolidated financial statements.

We registered total revenues and other income of Php62,361 million in the first half of 2006, an increase of Php1,223 million, or 2%, as compared to Php61,138 million in the same period in 2005 primarily due to an increase in our service revenues and other income of Php1,097 million and Php165 million, respectively, partially offset by a decline in our non-service revenues of Php39 million.

Expenses increased by Php4,633 million, or 12%, to Php43,736 million in the first half of 2006 from Php39,103 million in the same period in 2005, largely resulting from increases in depreciation and amortization, and financing costs partly offset by lower cost of sales.

As a result of the foregoing, net income attributable to equity holders of PLDT decreased by Php1,214 million, or 7%, to Php15,306 million in the first half of 2006 from Php16,520 million in the same period in 2005. Consequently, basic earnings per common share decreased by 10% to Php83.02 in the first half of 2006 from Php92.44 in the same period in 2005.

Results of Operations

The table below shows the contribution by each of our business segments to our revenues and other income, expenses and net income for the six months ended June 30, 2006 and 2005. Most of our revenues are derived from our operations within the Philippines.

Wireless

Revenues and Other Income

Our wireless business segment offers cellular services as well as wireless broadband, satellite, VSAT and other services.

The following table summarizes our service and non-service revenues and other income from our wireless business for the six months ended June 30, 2006 and 2005 by service segment:

Six Months Ended June 30,

(in millions)	2006	%	2005	%	Increase (Decrease) Amount	%
			(Unaudited)			
Wireless services:						
Service Revenues						
Cellular	Php37,076	93	Php35,233	93	Php1,843	5

Sale of cellular handsets and SIM-packs	1,188	3	1,291	4	(103)	(8)
Other Income	133		57		76	133
Total Wireless Revenues and Other Income	Php39,912	100	Php37,831	100	Php2,081	6

Service Revenues

Our wireless service revenues increased by Php2,108 million, or 6%, to Php38,591 million in the first half of 2006 compared to Php36,483 million in the same period in 2005, mainly as a result of the growth of Smart s and Piltel s subscriber base, an increase in international inbound revenues and reductions in domestic interconnection costs due to a shift from off-network to on-network voice and data usage. As a percentage of our total wireless revenues and other income, service revenues increased to 97% in the first half of 2006 compared to 96% in the same period in 2005.

Cellular Service

Our cellular service revenues consist of:

- revenues derived from actual usage of the network by prepaid subscribers and any unused peso value of expired prepaid cards or electronic air time loads, net of content costs and discounts given to dealers;
- monthly service fees from postpaid subscribers, including (1) charges for calls in excess of allocated free local calls, (2) toll charges for national and international long distance calls, (3) charges for text messages of our service customers in excess of allotted free text messages, and (4) charges for value-added services, net of related content provider costs;

- revenues generated from incoming calls and messages to our subscribers, net of interconnection expenses; fees from reciprocal traffic from international correspondents; and revenues from inbound international roaming calls for the service; and
- other charges, including those for reconnection and migration.

Our cellular service revenues in the first half of 2006 amounted to Php37,076 million, an increase of Php1,843 million, or 5%, from Php35,233 million in the same period in 2005. Cellular service revenues accounted for 96% and 97% of our wireless service revenues in the first half of 2006 and 2005, respectively.

As at June 30, 2006, Smart and Piltel cellular subscribers reached 22,465,156, an increase of 1,675,687, or 8%, over their combined cellular subscriber base of 20,789,469 as at June 30, 2005. Prepaid subscribers accounted for 99% of our total subscriber base as at June 30, 2006 and 2005. Prepaid and postpaid subscribers totaled 22,168,122 and 297,034 as at June 30, 2006, reflecting net subscriber activations of 2,039,579 and 16,956, respectively, in the first half of 2006.

Smart markets nationwide cellular communications services under the brand names *Smart Buddy*, *Smart Gold*, *addict mobile*, *addict mobile prepaid*, or *amp*, *Smart Infinity* and *Smart Kid prepaid*. *Smart Buddy*, *amp* and *Smart Kid prepaid* are prepaid services while *Smart Gold*, *Smart Infinity* and *addict mobile* are postpaid services, which are all provided through Smart's digital network. Piltel markets its cellular prepaid service under the brand name *Talk N Text* which is provided through Smart's network.

Beginning March 11, 2005, Smart launched a series of promotions to test the market demand for fixed rate or bucket plans for voice and text services. Under a service branded as *Smart 258*, Smart and *Talk N Text* subscribers had the option to register for unlimited on-network (Smart-to-Smart) voice calls or unlimited on-network (Smart-to-Smart) text messaging service. Since launch, the promotion has taken on several variations involving changes in load denominations, the periods of network availability (peak/off-peak) as well as a double text variation.

The current *Smart 258* promotion has the following features:

- Unlimited Text Php15, Php30 and Php60 denominations with expiry periods of one, two and four days, respectively, with unlimited on-network text all day service; and
- Text and Call Combo Php20 load denomination with unlimited text on-network for one day and a call with a maximum duration of five minutes valid within 24 hours.

On August 23, 2005, Smart introduced a flat rate promotion which allows Smart and *Talk N Text* prepaid subscribers to make a call to another Smart or *Talk N Text* subscriber of up to three minutes for Php10, or extend up to five minutes for a flat rate of Php15. The flat rate promotion was relaunched on February 11, 2006 and has been extended until August 10, 2006.

On February 14, 2006, Smart launched its 3G service on a free-trial basis. Subscribers using Smart's network with 3G handsets in selected key areas could avail of services such as video calling, video streaming, high-speed Internet browsing and special 3G content downloading under Smart's 3G network. Commercial rates were introduced on May 1, 2006 along with new and expanded 3G services. As at June 30, 2006, we offered the following rates for our service:

- Smart-to-Smart video calls are charged Php6.50 per call (same as voice calls) while international video calls, initially available in three countries, are priced similarly to a regular IDD call at US\$0.40 per minute;
- all 3G video and audio streaming are charged a Php15 access fee for every 30 minutes plus a separate fee for content;
- 3G Internet and WAP browsing are priced at Php10 for every 30 minutes;
- downloads of 3G content such as video clips, ringtones, visual ringers and games range from Php20 to Php50 per download; and
- Php1 per MMS for MMS among all Smart subscribers and Php2 for Smart-to-other networks.

On April 1, 2006, Smart rolled out *Smart Click*, a chain of mobile Internet cafés. *Smart Click* Internet cafés are currently housed in air-conditioned 40-foot container vans and designed to provide remote communities with high-speed, wireless Internet access nationwide. *Smart Click* has established 18 mobile Internet cafés to-date.

On April 23, 2006, Smart introduced a new variety of top-ups *Smart Load All Text*, which allows 10 and 20 messages without expiration for a suggested retail price of Php12 and Php23, respectively. On May 1, 2006, the number of messages allocated for the 10-message load was increased to 15. This promotion offering the additional five messages has been extended until June 30, 2006.

On June 25, 2006, Smart launched another variety of top-ups called *Unli* (short for unlimited). *Unli* allows for unlimited on-network texting without need for registration. The *Unli 30* has a Php30 load denomination with an expiration period of two days. The *Unli 40* load denomination offers unlimited on-network texting plus five additional on-network/off-network SMS and two three-minute Smart-to-Smart calls and is also valid for two days.

The following table summarizes key measures of our cellular business as at and for the six months ended June 30, 2006 and 2005:

(in millions)	Six Months Ended June 30,			
	2006	2005	Increase	
		(Unaudited)	Amount	%

(1) Smart 258 Unlimited Call and Text promotion was launched on March 11, 2005.

Voice Services

Cellular revenues from voice services, which include all voice traffic and voice value-added services such as voice mail and international roaming, increased by Php453 million to Php17,343 million in the first half of 2006 from Php16,890 million in the same period in 2005 primarily due to an increase in international inbound revenue partly offset by a decrease in domestic voice revenues. The decline in domestic voice revenue may be attributed to the shift of certain subscribers to bucket plans or unlimited text service due to its economic advantages.

Air time rates for postpaid subscribers vary depending on the type of postpaid plan selected by subscribers.

Data Services

Cellular revenues from data services, which include all text messaging-related services as well as value-added services, increased by Php1,312 million, or 8%, to Php18,753 million in the first half of 2006 from Php17,441 million in the same period in 2005. Cellular data services accounted for 51% of cellular service revenues in the first half of 2006, compared to 50% in the same period in 2005.

The following table shows the breakdown of cellular data revenues for the six months ended June 30, 2006 and 2005:

	Six Months Ended June 30,			
	2006	2005	Increase (Decrease) Amount %	
(in millions)	(Unaudited)			
Text messaging				
Domestic	Php16,235	Php14,832	Php1,403	9
Standard	10,854	13,749	(2,895)	(21)
258 Unlimited	5,381	1,083	4,298	397
International	853	856	(3)	
	17,088	15,688	1,400	9
Value-added services				
Non-Zed(1)	1,135	1,138	(3)	
<i>Smart Zed</i> TM	185	287	(102)	(36)
<i>Smart Money</i>	31	47	(16)	(34)
Mobile Banking	3	2	1	50
Roaming SMS and WAP	311	279	32	11
	1,665	1,753	(88)	(5)
Total	Php18,753	Php17,441	Php1,312	8

(1) Value-added services developed by Smart on its own platform.

Text messaging-related services contributed revenues of Php17,088 million in the first half of 2006, an increase of Php1,400 million, or 9%, compared to Php15,688 million in the same period in 2005, and accounted for 91% and 90% of the total cellular data revenues in the first half of 2006 and 2005, respectively. The increase in revenues from text messaging-related services resulted mainly from the ongoing *Smart 258 Unlimited Text* promotion and an increase in *Pasa Load* transactions. Text messaging revenues from the *Smart 258* promotions totaled Php5,381 million.

Value-added services, which contributed revenues of Php1,665 million in the first half of 2006, decreased by Php88 million from Php1,753 million in the same period in 2005 primarily due to decreased usage of *Smart Zed* and *Smart Money* services, partially offset by higher usage of roaming SMS and WAP in the first half of 2006 as compared to the same period in 2005. The decline in *Smart Zed* usage was due to increased competition from other content providers while the recent restriction on text broadcasting imposed by the NTC to all cellular operators resulted in a decline in both *Zed* and non-*Zed* revenues.

Standard text messages totaled 18,008 million in the first half of 2006, a decrease of 2,770 million, or 13%, from 20,778 million in the same period in 2005 due to a shift to unlimited texting service. *Smart 258* messages in the first half of 2006 totaled 91,851 million, an increase of 78,022 million as compared to 13,829 million in the same period in 2005.

Subscriber Base, ARPU and Churn Rates

Prepaid subscribers accounted for approximately 99% of our 22,465,156 subscribers as at June 30, 2006, while postpaid subscribers accounted for the remaining 1%. The cellular prepaid subscriber base grew by 8% to 22,168,122 as at June 30, 2006 from 20,521,216 as at June 30, 2005, whereas the postpaid subscriber base increased by 11% to 297,034 as at June 30, 2006 from 268,253 as at June 30, 2005.

Our net subscriber activations (reductions) for the six months ended June 30, 2006 and 2005 were as follows:

	Six Months Ended June 30,		Increase (Decrease)	
	2006	2005	Amount	%
			(Unaudited)	
Prepaid	2,039,579	1,587,478	452,101	28
Smart	963,313	1,235,492	(272,179)	(22)
Piltel	1,076,266	351,986	724,280	206
Postpaid	16,956	(6,241)	23,197	372
Total	2,056,535	1,581,237	475,298	30

Revenues attributable to our cellular prepaid service amounted to Php33,693 million in the first half of 2006, a 5% increase over the Php32,224 million earned in the same period in 2005. Prepaid service revenues in the first half of 2006 and 2005 accounted for 93% and 94%, respectively, of voice and data revenues. Revenues attributable to Smart s postpaid service amounted to Php2,403 million in the first half of 2006, a 14% increase over the Php2,107 million earned in the same period in 2005 and accounted for 7% and 6% of voice and data revenues in the first half of 2006 and 2005, respectively.

The following table summarizes our cellular ARPUs for the six months ended June 30, 2006 and 2005:

	Six Months Ended June 30,				Increase (Decrease)			
	Gross		(Decrease)		Net		(Decrease)	
	2006	2005	Amount	%	2006	2005	Amount	%

Fourth Quarter	370	308	261	220	1,923	1,467

Churn, or the rate at which existing subscribers have their service cancelled in a given period, is computed based on total disconnections in the period, net of reconnections in the case of postpaid subscribers, divided by the average of the number of subscribers at the beginning and at the end of a month, all divided by the number of months in the same period.

Prior to June 2004, a prepaid cellular subscriber was recognized as an active subscriber when that subscriber activated and used the SIM card in the handset, which contained pre-stored air time. The pre-stored air time, which can be used for both voice and text, was reduced from Php100 to Php50 in April 2004. In May 2005, this was changed to Php1 plus 50 free SMS which could only be used upon purchase or reload of air time of any value. Subscribers can reload their air time by purchasing prepaid call and text cards; by purchasing additional air time over the air via *Smart Load* or *Smart Load All Text*; and by receiving loads of Php2, Php5, Php10 and Php15 via *Pasa Load*, or through their handsets using *Smart Money*. Reloads have validity periods ranging from one day to two months, depending on the amount reloaded. A prepaid cellular subscriber is disconnected if the subscriber does not reload within four months after the full usage or expiry of the last reload. Our current policy is to recognize a prepaid subscriber as active only when the subscriber activates and uses the SIM card and reloads at least once during the month of initial activation or in the immediate succeeding month. For example, if a customer activated a SIM card in April but had not reloaded by May 31, this customer would not be counted as a subscriber. The rationale for this change stems from our observance of SIM-swapping activities in the market. SIM-swapping refers to the promotional activity wherein subscribers can exchange their current prepaid SIM card for another operator's SIM card at no cost to the subscriber. We believe that these activities have given rise to a situation where certain subscribers swap their SIM cards between mobile operators upon full usage of the pre-stored air time, which may result in our subscriber base reflecting a certain number of transient subscribers at any one point in time. In May 2005, we terminated our SIM swapping promotions; as a result, our churn rates increased in the third and fourth quarters of 2005 but tapered off beginning the first quarter of 2006.

For Smart prepaid, the average monthly churn rate for the first half of 2006 was 2.9% compared to 3.4% in the same period in 2005, while the average monthly churn rate for *Talk N Text* subscribers was 3.3% in the first half of 2006 compared to 4.6% in the same period in 2005.

The average monthly churn rate for Smart's postpaid subscribers for the first half of 2006 was 1.3% compared to 2.3% in the same period in 2005. Smart's policy is to redirect outgoing calls to an interactive voice response system if the postpaid subscriber's account is either 45 days overdue or the subscriber has exceeded the prescribed credit limit. If the subscriber does not make a payment within 44 days of redirection, the account is disconnected. Within this 44-day period, a series of collection activities are implemented, involving the sending of a collection letter, call-out reminders

and collection messages via text messaging.

Wireless Broadband, Satellite, VSAT and Other Services

Our revenues from wireless broadband, satellite, VSAT and other services consist mainly of wireless broadband service revenues for Smart Broadband, rentals received for the lease of Mabuhay Satellite's transponders and Telesat's VSAT facilities to other companies, charges for ACeS Philippines' satellite phone service and service revenues generated from a PLDT Global subsidiary's mobile virtual network operations. Smart Broadband offers a number of wireless broadband services with 57,826 subscribers as at June 30, 2006, including 54,165 *SmartBro* subscribers. *SmartBro*, the fixed wireless broadband service of Smart linked to Smart wireless broadband-enabled base stations, allows people to connect to the Internet using an outdoor aerial antenna installed in a subscriber's home.

Gross revenues from these services for the first half of 2006 amounted to Php1,515 million, an increase of Php265 million, or 21%, from Php1,250 million in the same period in 2005 principally due to the growth in our wireless broadband business.

Non-service Revenues

Our wireless non-service revenues consist of:

- proceeds from sales of cellular handsets; and
- proceeds from sales of cellular SIM-packs.

Our wireless non-service revenues decreased by Php103 million, or 8%, to Php1,188 million in the first half of 2006 as compared to Php1,291 million in the same period in 2005, primarily due to lower handset sales. In the first half of 2006, activations were driven more by SIM-pack sales.

Other Income

Edgar Filing: PHILIPPINE LONG DISTANCE TELEPHONE CO - Form 6-K

All other income/gains such as rental income and gains on short-term financial investments, which do not fall under service and non-service revenues, are included under this classification. Our wireless business segment generated other income of Php133 million in the first half of 2006, an increase of Php76 million, or 133%, as compared to Php57 million in the same period in 2005.

Expenses

Expenses associated with our wireless business in the first half of 2006 amounted to Php21,658 million, an increase of Php1,353 million, or 7%, from Php20,305 million in the same period in 2005. A significant portion of this increase was attributable to higher rent, financing costs and compensation and benefits partially offset by lower cost of sales and selling and promotions. As a percentage of our total wireless revenues and other income, expenses associated with our wireless business remained flat at 54% in the first half of 2006 and 2005.

Cellular business expenses accounted for 95% of our wireless business expenses, while wireless broadband, satellite, VSAT and other business expenses accounted for the remaining 5% of our wireless business expenses in the first half of 2006 as compared to 96% and 4%, respectively, in the same period in 2005.

The following table summarizes the breakdown of our wireless-related expenses for the six months ended June 30, 2006 and 2005 and the percentage of each expense item to the total:

	Six Months Ended June 30,				Increase (Decrease)

Financing charges	31	48	(17)	(35)
Loss on derivative transactions net	29	148	(119)	(80)
Capitalized interest	(143)	(7)	(136)	1,943
Interest income	(585)	(543)	42	8
	Php2,264	Php1,279	Php985	77

Compensation and benefits expenses increased by Php312 million, or 17%, to Php2,202 million primarily due to higher accrued bonuses and employee benefits and higher long-term incentive costs of Smart. Smart's employee headcount increased by 30, or 1%, to 5,135 in the first half of 2006 compared to 5,105 in the same period in 2005.

Maintenance expenses increased by Php178 million, or 11%, to Php1,795 million, mainly on account of higher expenses for electricity and power generation, higher repairs and maintenance costs for network facilities and information technology equipment.

Selling and promotion expenses decreased by Php373 million, or 22%, to Php1,329 million due to efficient media spending and termination of certain media contracts.

Professional and other contracted services increased by Php163 million, or 23%, to Php864 million primarily due to increased call center, legal, contracted service, market research and technical service fees.

Taxes and licenses decreased by Php115 million, or 17%, to Php552 million primarily due to a decrease in Smart's business-related taxes.

Communication, training and travel expenses decreased by Php45 million, or 9%, to Php446 million due to lower mailing and courier, training, communication and local travel expenses incurred in the first half of 2006.

Insurance and security services decreased by Php70 million, or 14%, to Php422 million primarily due to the decrease in site security expenses and lower amortization charges on prepaid insurance contracts.

Provisions decreased by Php153 million, or 35%, to Php284 million primarily due to a decrease in write-down of slow-moving handsets to net realizable values. The breakdown of provisions for the six months ended June 30, 2006 and 2005 is as follows:

	Six Months Ended June 30,			
	2006	2005	Decrease	
(in millions)			Amount	%
	(Unaudited)			
Doubtful accounts	Php98	Php112	(Php14)	(13)
Write-down of inventories to net realizable value	186	325	(139)	(43)
	Php284	Php437	(Php153)	(35)

Amortization of intangible assets decreased by Php2 million, or 1%, to Php137 million mainly due to a reduction in the amount of intangible assets booked by Smart from the purchase of Smart Broadband following the finalization by an independent appraiser of the valuation work on the intangible assets in December 2005.

Other expenses decreased by Php36 million, or 9%, to Php358 million due to lower various business and operational-related expenses such as office supplies expense.

Provision for Income Tax

Provision for income tax decreased by Php1,243 million, or 30%, to Php2,953 million in the first half of 2006 from Php4,196 million in the same period in 2005. In the first half of 2006, the effective tax rate for our wireless business was 16% compared to 24% in the same period in 2005 due to differences in the net movement of deferred tax assets.

Net Income

Our wireless business segment recorded a net income of Php15,301 million in the first half of 2006, an increase of Php1,971 million, or 15%, over Php13,330 million registered in the same period in 2005 primarily due to the growth in our cellular service revenues and lower provision for income tax, partly offset by an increase in operating expenses.

Fixed Line

Revenues and Other Income

Our fixed line business provides local exchange service, international and national long distance services, data and other network services, and miscellaneous services. Total fixed line revenues generated from our fixed line business in the first half of 2006 totaled Php24,318 million, a decrease of Php18 million from Php24,336 million in the same period in 2005.

The following table summarizes revenues from our fixed line business for the six months ended June 30, 2006 and 2005 by service segment:

	Six Months Ended June 30,				Increase (Decrease)	
	2006	%	2005	%	Amount	%
	(Unaudited)					
(in millions)						
Fixed line services:						
Service Revenues

Total Fixed Line Revenues and Other Income	Php24,318	100	Php24,336	100	(Php18)	

Service Revenues**Local Exchange Service**

Our local exchange service revenues consist of:

- flat monthly fees for our postpaid and fixed charges for our bundled services;

- installation charges and other one-time fees associated with the establishment of customer service;
- revenues from usage of prepaid cards for calls within the local area and any unused peso value of expired prepaid cards; and
- charges for special features, including bundled value-added services such as call waiting, call forwarding, multi-party conference calling, speed calling and caller ID.

The following table summarizes key measures of our local exchange service business as at and for the six months ended June 30, 2006 and 2005:

	Six Months Ended June 30,		Increase (Decrease)	
	2006	2005	Amount	%
	(Unaudited)			
Total local exchange service revenues (in millions of P)	8,587	9,247	(660)	(7)
Number of fixed lines in service	2,070,721	2,137,813	(67,092)	(3)
Number of fixed line employees	9,149	9,582	(433)	(5)
Number of fixed lines in service per employee	226	223	3	1

Revenues from our local exchange service decreased by Php660 million, or 7%, to Php8,587 million in the first half of 2006 from Php9,247 million in the same period in 2005. The decrease was primarily due to a 3% decline in the number of fixed lines in service and the appreciation of the peso which required us to make downward adjustments in our monthly local service rates. The percentage contribution of local exchange revenues to our fixed line service revenues decreased to 35% in the first half of 2006 compared to 38% in the same period in 2005.

Fixed line net reduction in the first half of 2006 was 43,078 compared to a net reduction of 14,214 in the same period in 2005. In the first half of 2006, prepaid and postpaid fixed lines in service declined by 37,493 and 5,585, respectively. As at June 30, 2006, postpaid and prepaid fixed line subscribers totaled 1,785,312 and 285,409, which accounted for approximately 86% and 14%, respectively, of our total fixed lines in service.

Initially intended as an affordable alternative telephone service for consumers under difficult economic conditions, our prepaid fixed line services now form an important part of our overall churn and credit risk exposure management and

subscriber retention strategy. Prepaid subscribers are charged based on usage at a rate of Php1.00 per minute for local calls, but the rates for prepaid and postpaid fixed line subscribers for national and international long distance calls are the same. A prepaid fixed line subscriber is recognized as an active subscriber when that subscriber activates and uses a prepaid call card. Prepaid fixed line subscribers can reload their accounts by purchasing call cards that are sold in denominations of Php500, Php300 and Php150. All sales of prepaid cards, whether through dealers or through PLDT's business offices, are non-refundable.

In July 2006, PLDT launched the *Telepwede*, a new brand of our prepaid fixed line service. *Telepwede* subscribers are charged Php2 per local call (for an unlimited duration) and Php5 per hour for Internet connection. *Telepwede* subscribers can reload for as low as Php145 per month which is inclusive of a Php30 load balance that can be used for outgoing calls and a Php115 access charge for incoming calls.

Pursuant to a currency exchange rate adjustment mechanism authorized by the Philippine National Telecommunications Commission, or the NTC, we adjust our postpaid monthly local service rates upward or downward by 1% for every Php0.10 change in the peso-to-dollar exchange rate relative to a base rate of Php11.00 to US\$1.00. During the first half of 2006, we implemented four downward and two upward adjustments in our monthly local service rates, while there were four downward adjustments for the same period in 2005. The average Philippine peso to U.S. dollar rate factored in our monthly local service rates in the first half of 2006 was Php51.97 to US\$1.00, compared to an average of Php54.94 to US\$1.00 in the same period in 2005. This change in the average peso-to-dollar rate translated to a peso appreciation of 5%, which resulted in an average net decrease of approximately 5% in our monthly local service rates in the first half of 2006.

International Long Distance Service

Our international long distance service revenues, which we generate through our international gateway facilities, consist of:

- inbound call revenues representing settlements from foreign telecommunications carriers for inbound international calls, virtual transit and hubbing service and reverse charged calls such as received collect and home country direct service;
- access charges paid to us by other Philippine telecommunications carriers for terminating inbound international calls to our local exchange network; and
- outbound call revenues representing amounts billed to our customers (other than our cellular customers) for outbound international calls, net of amounts payable to foreign telecommunications carriers for terminating calls in their territories.

The following table shows information about our international fixed line long distance business for the six months ended June 30, 2006 and 2005:

	Six Months Ended June 30,			
	2006	2005	Increase (Decrease) Amount	%
	(Unaudited)			
Total international long distance service revenues (in millions)	Php5,051	Php6,253	(Php1,202)	(19)
Inbound	4,265	5,289	(1,024)	(19)
Outbound	786	964	(178)	(18)
International call volumes (in million minutes, except call ratio)	1,031	1,156	(125)	(11)
Inbound	939	1,085	(146)	(13)
Outbound	92	71	21	30
Inbound-outbound call ratio	10.2:1	15.3:1		

Our total international long distance service revenues decreased by Php1,202 million, or 19%, to Php5,051 million in the first half of 2006 from Php6,253 million in the same period in 2005 due to the peso appreciation, decrease in average termination rates for inbound calls and decline in call volumes largely as a result of alternative means of communications such as e-mailing, texting and Internet telephony. The percentage contribution of international long distance service revenues to our fixed line service revenues decreased to 21% in the first half of 2006 from 26% in the same period in 2005.

Our revenues from inbound international long distance service decreased by Php1,024 million, or 19%, to Php4,265 million due to a decrease in inbound traffic volume by 146 million minutes to 939 million minutes in the first half of 2006. In addition, the appreciation of the peso to the U.S. dollar with average rates of Php52.061 during the first half of 2006 and Php54.835 during the same period in 2005 contributed to the decrease in our inbound international long distance revenues in peso terms since settlement charges for inbound calls are billed in U.S. dollars or in special drawing rights, an established method of settlement among international telecommunications carriers using values based on a basket of foreign currencies that are translated into pesos at the time of billing.

Our revenues from outbound international long distance service decreased by Php178 million, or 18%, to Php786 million in the first half of 2006 primarily due to a decline in average revenue per minute as a result of lower average collection rate with the introduction of low-rate services such as *PLDT ID-DSL* and the modified *Budget Card*, and the peso appreciation in the first half of 2006.

On September 15, 2005, we introduced *PLDT ID-DSL*, a service that allows overseas calls for registered *myDSL* plan subscribers using a regular PLDT fixed line or a voice pad dialer for as low as US\$0.10 per minute or US\$0.08 per minute, respectively, depending on the subscribers' DSL plan/package.

To address the market's demand for low-priced international calls, PLDT modified the *Budget Card*, a prepaid call card, offering a reduced IDD rate of Php5 per minute, as a promotional offer starting September 24, 2005, for calls to 89 overseas destinations including the United States, Canada, Japan and China. Beginning March 4, 2006, *Budget Card* has been further modified to Php3, Php5 and Php8 per minute calls depending on the destination and now has 100 overseas destinations, including Saudi Arabia and other Middle East countries. *Budget Cards* are sold in denominations of Php200 and Php100, which must be consumed within 30 days from first use.

National Long Distance Service

Our national long distance service revenues consist of:

- per minute charges for calls made by our fixed line customers outside of the local service areas but within the Philippines, net of interconnection charges payable for calls carried through the backbone network of, and/or terminating to the customer of, another telecommunications carrier;
- access charges received from other telecommunications carriers for calls carried through our backbone network and/or terminating to our customers; and
- fixed charges paid by other telephone companies, charges retained by PLDT for calls terminating to cellular subscribers within the local area, and local access charges paid by cellular operators for calls by cellular subscribers that terminate to our local exchange network.

The following table shows our national long distance service revenues and call volumes for the six months ended June 30, 2006 and 2005:

	Six Months Ended June 30,		
			Decrease
	2006	2005	Amount %
	(Unaudited)		
Total national long distance service revenues (in millions)	Php3,504	Php3,519	(Php15)

Edgar Filing: PHILIPPINE LONG DISTANCE TELEPHONE CO - Form 6-K

National long distance call volumes (in million minutes)	1,122	1,235	(113) (9)
--	-------	-------	-----------

Our national long distance service revenues decreased by Php15 million to Php3,504 million in the first half of 2006 from Php3,519 million in the same period in 2005 due to a decrease in call volumes partially offset by a higher average revenue per minute in 2006 due to the change in mechanics in our Php10 per call promotion. In 2005, the Php10 per call promotion was open to all PLDT Group fixed line subscribers nationwide; in 2006, the Php10 per call service was made available only to registered PLDT subscribers for a monthly service fee. Accordingly, the percentage contribution of national long distance revenues to our fixed line service revenues accounted for 14% in the first half of 2006 and 2005.

On February 14, 2005, we launched a Php10 per call promotion to PLDT landline subscribers nationwide and for calls to PLDT, Smart and *Talk 'N Text* subscribers. This promotion was launched with the objective of determining a more effective tariff structure that would stimulate landline usage. Under the promotion, NDD calls between any PLDT landline subscriber nationwide or to all Smart and *Talk 'N Text* subscribers were charged Php10 per call instead of being charged on a per minute basis.

On May 12, 2005, PLDT began offering the Php10 per call promotion with an additional Php5 per call for the same unlimited talktime to Smart and *Talk 'N Text* subscribers. PLDT to PLDT NDD calls below the equivalent Php10 toll usage were charged based on the regular rate per minute. On August 12, 2005, PLDT ceased offering the Php10 per call promotion to calls terminating to Smart and *Talk 'N Text* subscribers.

Beginning September 12, 2005, PLDT charged an optional Php20 add-on monthly service fee for PLDT landline subscribers who may want to continue to avail themselves of the Php10 per call promotion for calls within our network.

In January 2006, PLDT launched the *10-10-10* promotion. This promotion offers a flat rate of Php10 for unlimited calls terminating PLDT to PLDT and Smart and *Talk 'N Text* subscribers for a Php50 monthly service fee.

PLDT capped the Php10 per call service to Smart and *Talk 'N Text* subscribers to those who registered on or before February 24, 2006. PLDT fixed line subscribers, however, can still register and avail of the unlimited Php10 per call service for national long distance calls within the PLDT network.

Data and Other Network Services

Our data and other network service revenues include charges for leased lines, IP-based, packet-based and switched-based services. These services are used for domestic and international communications such as private networking, broadband and narrowband Internet-based data communications, and packet-based communication.

The following table shows salient information about our data and other network service revenues for the six months ended June 30, 2006 and 2005:

(in millions)	Six Months Ended June 30,			
	2006	2005	Increase	
			Amount	%
	(Unaudited)			
Data and other network service revenues	Php6,242	Php4,589	Php1,653	36
Number of PLDT DSL broadband subscribers	109,245	63,902	45,343	71
Number of PLDT Vibe narrowband subscribers	425,761	364,123	61,638	17

Our data and other network services in the first half of 2006 posted revenues of Php6,242 million, an increase of Php1,653 million, or 36%, from Php4,589 million in the same period in 2005 primarily due to increases in leased lines, IP-based and switched-based data services, particularly Diginet, *PLDT DSL* and *PLDT Vibe* services, respectively. The revenue contribution of this service segment to our fixed line service revenues increased to 26% in the first half of 2006 from 19% in the same period in 2005.

Internet-based products are bannered by *PLDT DSL (myDSL and BizDSL)*, *PLDT Vibe* and I-Gate. *PLDT DSL* broadband Internet service is targeted for heavy individual Internet users as well as for small and medium enterprises, while *PLDT Vibe*, or PLDT's dial-up/narrowband Internet service, is targeted for light to medium residential or individual Internet users. I-Gate, our dedicated leased line Internet access service, on the other hand, is targeted to enterprises and value-added service providers.

PLDT DSL, which contributed revenues of Php1,500 million during the first half of 2006 increased by Php449 million, or 43%, from Php1,051 million in the same period in 2005. *PLDT DSL* has reached 109,245 subscribers as at June 30, 2006 compared with 63,902 subscribers in the same period in 2005. PLDT offers a number of *DSL* packages with speeds and monthly fees varying from 256 kbps at Php999 per month to up to 1 Mbps at Php3,000 per month.

PLDT Vibe revenues increased by Php56 million, or 41%, to Php192 million in the first half of 2006 from Php136 million in the same period in 2005. As at June 30, 2006, the number of PLDT's fixed line subscribers for *PLDT Vibe* stood at 425,761, of which 152,149 were exclusive postpaid users, 246,963 were exclusive prepaid users, and 26,649 were both postpaid and prepaid users. As at June 30, 2005, *PLDT Vibe* subscribers totaled 364,123, of which 143,088 were exclusive postpaid users, 196,232 were exclusive prepaid users, and 24,803 were both postpaid and prepaid users.

The continued growth in data services revenues can be attributed to several product offerings. The steady demand for dedicated connectivity or private networking from the corporate market using PLDT's traditional bandwidth offerings Fibernet, Arcstar, Acacia, I-Gate, Diginet, BRAINS, among others continues to provide us with a stable revenue source. Through Diginet, we provide Smart's increasing fiber optic and leased line data requirements, which are included under our national data services. Diginet contributed Php2,826 million in our data revenues in the first half of 2006, increasing by Php1,074 million, or 61%, from Php1,752 million in the same period in 2005.

We introduced *PLDT WeRoam*, a wireless broadband service offering running on Smart's nationwide wireless network (using GPRS, EDGE and WiFi technologies) and PLDT's extensive IP infrastructure. Some of the recent enhancements to the service are the inclusion of international roaming in key roaming countries all over the globe and national WiFi roaming access. Principally targeted to the corporate market, the service had 6,622 subscribers as at June 30, 2006.

In June 2006, we introduced *Shops.Work UnPlugged*, or SWUP, to address the need of retailers and banks for real-time wireless data communication. SWUP is the first bundled solution that makes wireless cashier point-of-sale and wireless card terminals possible. Retailers will now be able to reach out to a bigger market in areas where physical connections are unavailable and expand the banking system with wireless automated teller machines, or ATMs.

Miscellaneous

Miscellaneous service revenues are derived mostly from directory advertising and facilities rental. In the first half of 2006, these revenues increased by Php42 million, or 7%, to Php669 million from Php627 million in the same period in 2005. The improvement was mainly due to an increase in co-location charges from more co-location sites coupled with an increase in rent income on duct utilization and cable restoration. The percentage contribution of miscellaneous service revenues to our fixed line service revenues was 3% in the first half of 2006 and 2005.

Non-service Revenues

Non-service revenues of Php36 million recognized under our fixed line business represent proceeds of computer sales in the first half of 2006 in relation to our DSL promo.

Other Income

Edgar Filing: PHILIPPINE LONG DISTANCE TELEPHONE CO - Form 6-K

All other income/gains such as rental income, gain on disposal of property, which do not fall under service and non-service revenues are included under this classification. In the first half of 2006, our fixed line business segment registered an increase in other income of Php128 million, or 127%, to Php229 million in the first half of 2006 from Php101 million in the same period in 2005 primarily due to higher rental income, income from disposal of materials, and higher service and facility fees.

Expenses

Expenses related to our fixed line business in the first half of 2006 totaled Php24,022 million, an increase of Php4,126 million, or 21%, compared to Php19,896 million in the same period in 2005. The increase was primarily due to higher depreciation and amortization, compensation and benefits, and financing costs partially offset by lower provisions and maintenance expenses.

The following table shows the breakdown of our total fixed line-related expenses for the six months ended June 30, 2006 and 2005 and the percentage of each expense item to the total:

	Six Months ended June 30,					
	2006		2005		Increase (Decrease)	
(in millions)	Amount	%	Amount	%	Amount	%
Fixed line services:						
Depreciation and amortization	Php10,038	42	Php5,704	29	Php4,334	76
Compensation and benefits(1)	4,560	19	3,977	20	583	15
Financing costs	3,876	16	3,537	18	339	10
Maintenance	1,611	7	1,718	8	(107)	(6)
Selling and promotions	975	4	866	4	109	13
Rent	827	3	860	4	(33)	(4)
Provisions	485	2	1,550	8	(1,065)	(69)
Professional and other contracted services	469	2	432	2	37	9
Taxes and licenses	343	2	330	2	13	4
Insurance and security services	265	1	329	2	(64)	(19)
Communication, training and travel	239	1	215	1	24	11
Cost of sales	77				77	100
Other expenses	257	1	378	2	(121)	(32)
Total	Php24,022	100	Php19,896	100	Php4,126	21

(1) Includes salaries and benefits, incentive plan, pension and MRP costs.

Depreciation and amortization charges increased by Php4,334 million, or 76%, to Php10,038 million mainly due to the effect of our change in estimated useful lives of certain property and equipment in line with our upgrade to the next-generation network which resulted in increased depreciation charges of Php3,882 million for the first half of 2006, and higher depreciation of our regular asset base from additional completed projects. Please see *Note 8 Property, Plant and Equipment* to the accompanying unaudited consolidated financial statements for further discussion.

Compensation and benefits expenses increased by Php583 million, or 15%, to Php4,560 million primarily due to the effect of the collective bargaining agreement-related increases in salaries and benefits and an increase in incentive plan-related accruals partially offset by a reduction in headcount due to PLDT's MRP.

Financing costs increased by Php339 million, or 10%, to Php3,876 million due to lower derivatives and foreign exchange gains recorded in the first half of 2006 compared to the same period in 2005 and higher hedge costs partially offset by lower interest on loans and related items owing to lower debt balances in the first half of 2006 compared to the same period in 2005. The breakdown of financing costs for our fixed line business for the six months ended June 30, 2006 and 2005 is as follows:

	Six Months ended June 30,			
			Change	
	2006	2005	Amount	%
	(Unaudited)			
(in millions)				
Interest on loans and related items	Php3,449	Php4,737	(Php1,288)	(27)
Hedge costs	746	557	189	34
Accretion on financial liabilities net	88	135	(47)	(35)
Financing charges	8	26	(18)	(69)
Gain on derivative transactions net	(6)	(926)	920	(99)
Foreign exchange gains net	(7)	(603)	596	(99)
Capitalized interest	(159)	(196)	37	(19)
Interest income	(243)	(193)	(50)	26
	Php3,876	Php3,537	Php339	10

Maintenance expenses decreased by Php107 million, or 6%, to Php1,611 million primarily due to lower maintenance costs for foreign cable and wire facilities as more operating and maintenance-related restorations were incurred in the first half of 2005 as compared to the same period in 2006.

Selling and promotion expenses increased by Php109 million, or 13%, to Php975 million primarily as a result of an increase in PLDT's promotional activities in relation to various products and services, such as PLDT's *Pwede!* campaign, partially offset by lower commissions paid in the first half of 2006.

Rent expenses decreased by Php33 million, or 4%, to Php827 million due to lower office and building rentals, and decrease in transponder lease charges partially offset by an increase in international leased circuits and rental charges occupied by various equipments.

Provisions decreased by Php1,065 million, or 69%, to Php485 million primarily on account of a lower provision by PLDT for anticipated uncollectible accounts from various specifically identified domestic telecommunications carriers which were provided for in 2005. The breakdown of provisions for our fixed line business for the six months ended June 30, 2006 and 2005 is as follows:

	Six Months Ended June 30,			
	2006	2005	Change Amount	%
	(Unaudited)			
(in millions)				
Doubtful accounts	Php336	Php1,414	(Php1,078)	(76)
Onerous contracts and assessments	149	136	13	10
	Php485	Php1,550	(Php1,065)	(69)

Professional and other contracted services increased by Php37 million, or 9%, to Php469 million primarily due to an increase in facility management fees and collection agency fees, partially offset by lower advisory and legal fees in the first half of 2006 for various services.

Taxes and licenses increased by Php13 million, or 4%, to Php343 million mainly on account of higher NTC supervision and license fees, and other business-related taxes paid in the first half of 2006 as compared to the same period in 2005.

Insurance and security services decreased by Php64 million, or 19%, to Php265 million primarily due to lower premiums on property all-risk, industrial all-risk and industrial fire insurance, partially offset by higher security services due to a rate increase for contracted security guards.

Communication, training and travel expenses increased by Php24 million, or 11%, to Php239 million due to an increase in local and foreign travel and training in the first half of 2006 as compared to the same period in 2005.

Cost of sales of computers amounting to Php77 million were recognized in the first half of 2006 in relation to our DSL promo. No similar charges were incurred in the same period in 2005.

Other expenses decreased by Php121 million, or 32%, to Php257 million due to lower office supplies consumption and printing costs resulting from PLDT's continuing cost-containing activities.

Provision for Income Tax

Provision for income tax amounted to Php45 million in the first half of 2006 as compared to Php1,281 million in the same period in 2005, a decrease of Php1,236 million, or 96% primarily due to lower income subject to tax.

Net Income

In the first half of 2006, our fixed line business segment contributed a net income of Php251 million, a decrease of Php2,908 million, or 92%, as compared to Php3,159 million in the same period in 2005 mainly as a result of a 21% increase in fixed line-related expenses, particularly depreciation and amortization.

Information and Communications Technology

Revenues and Other Income

Our information and communications technology business is conducted by ePLDT and its subsidiaries.

In the first half of 2006, our information and communications technology business generated revenues of Php2,011 million, an increase of Php424 million, or 27%, from Php1,587 million in the same period in 2005. Going forward, we expect revenues from our call center business to continue to contribute significantly to our information and communications technology revenues with the growing demand for our call center services.

The following table summarizes revenues from our information and communications technology business for the six months ended June 30, 2006 and 2005 by service segment:

Six Months Ended June 30,

	2006	%	2005	%	Increase (Decrease)

Total ICT Revenues and Other Income	Php2,011	100	Php1,587	100	Php424	27

Service Revenues

Service revenues generated by our information and communications technology segment amounted to Php1,812 million in the first half of 2006, an increase of Php484 million, or 36%, as compared to Php1,328 million in the same period in 2005 primarily as a result of the continued growth of our call center business.

Call Center

We are focused on developing our call center business which capitalizes on the availability of English-speaking college graduates in the Philippines with a strong customer service orientation. ePLDT now uses one umbrella brand name, *ePLDT Ventus*, for all of its call center businesses, including Vocativ and Parlance. Vocativ provides customer and technical support to its clients in the Philippines, U.S. and U.K., while Parlance provides the exclusive customer support and billing requirements to one of the largest direct-to-home satellite television providers in the U.S. In aggregate, we own and operate approximately 4,660 seats with 3,500 customer service representatives, or CSRs, as at June 30, 2006 compared to approximately 3,180 seats with 2,550 CSRs as at June 30, 2005. In 2006, ePLDT launched two new sites bringing its total call center sites to seven as at June 30, 2006.

Call center revenues consist of:

- inbound calls for customer care, product inquiries, sales and technical support based on active minutes, billable hours and full-time equivalents;
- outbound calls for sales and collections based on active minutes, billable hours and full-time equivalents; and
- service income for e-mail handling, web chat, web co-browsing, data entry and business process outsourcing, or BPO, based on transaction volume.

Revenues related to our call center business in the first half of 2006 increased by Php401 million, or 48%, to Php1,237 million from Php836 million in the same period in 2005 primarily due to the combined effects of the following:

- Vocativ's upward price adjustment for calls and an increase in programs being handled;
- an upward price adjustment by Parlance for its inbound and outbound projects, coupled with an increase in the number of registered minutes for inbound projects and hours for outbound projects;
- expansion of existing Parlance and Vocativ facilities by 560 and 100 seats, respectively, from approximately 1,230 and 1,300 in the first half of 2005 to approximately 1,790 and 1,400 in the same period in 2006;
- commencement of Ventus operations in Iloilo in March 2005; and
- continuous ramp up of CSRs by 950, or 37%, from a total of approximately 2,550 in the first half of 2005 to approximately 3,500 in the same period in 2006.

Call center revenues accounted for 68% and 63% of total information and communications technology service revenues in the first half of 2006 and 2005, respectively.

Internet and gaming

ePLDT has also invested in a number of other e-commerce and Internet-related businesses, which include:

- a 99.6% interest in Infocom, an Internet service provider offering consumer prepaid and postpaid Internet access, corporate leased lines, dedicated dial-up, multi-user dial-up, broadband Internet access through DSL, web consulting and development, hosting and other value-added services;
- a 75% interest in Digital Paradise, an Internet café business with the brand *Netopia*;
- a 60% interest in netGames, a publisher for Massively Multi-player Online Game in the Philippines and the Philippine licensee of Khan Online, Pangya and Flyff, and the owner of Juanworld, a community gaming portal;
- a 60% interest in Level Up!, a leading publisher of online games in the Philippines with about 80% of the online gaming market. Level Up! was acquired on May 1, 2006;
- a 51% interest in Airborne Access, the country's leading operator of WiFi hotspots, which provides wireless Internet access in hotspots equipped with WiFi access points; and
- a 51% interest in Digital Paradise Thailand, an affiliate of Digital Paradise, offering similar products and services with four branches in Bangkok, Thailand.

Internet service revenues consist of:

- revenues derived from actual usage of the Internet access network by prepaid subscribers and any unused peso value of expired prepaid cards or electronic Internet time loads, net of discounts given to dealers;
- monthly service fees from postpaid corporate and consumer subscribers including: (1) charges for Internet usage in excess of allocated free plan Internet hours; (2) one-time installation and activation fees; and (3) fees for value added services including e-mail and web hosting services;
- one-time fees generated from resellership of Internet-related solutions such as security solutions and domain registration;

- franchise and royalty fees for *Netopia* Internet cafés, including a one-time subscription fee and monthly recurring franchise fees based on certain conditions on the franchise agreement;
- revenues from community access of computers and desktop publishing based on actual usage, net of discounts given to users; and
- online gaming revenues from unique subscribers, including one-time sale of gaming cards and electronic pins, and top-up fees upon actual consumption of gaming credits or after expiration of any unused peso value thereof.

Revenues from our Internet business in the first half of 2006 increased by Php53 million, or 18%, to Php340 million from Php287 million in the same period in 2005 primarily due to the consolidation of Airborne Access and Level Up! in October 2005 and May 2006, respectively, which resulted to additional revenues of Php6 million and Php39 million, respectively. Our Internet business revenues accounted for 19% and 22% of service revenues from information and communications technology business in the first half of 2006 and 2005, respectively.

Vitroä data center

ePLDT operates an Internet data center under the brand name *Vitroä* which provides co-location services, server hosting, hardware and software maintenance services, website development and maintenance services, webcasting and webhosting, shared applications, data disaster recovery and business continuity services, intrusion detection, and security services such as firewall and managed firewall.

Vitroä revenues consist of:

- monthly service fees derived from co-location services, server hosting, hardware and software maintenance services, website development and maintenance services, web hosting, data recovery security services and other value added services; and
- installation charges or one-time fees associated with the set-up of services and professional services of *Vitroä* s certified professionals.

In the first half of 2006, *Vitroä* contributed revenues of Php175 million, an increase of Php2 million, or 1%, from Php173 million in the same period in 2005 primarily due to an increase in co-location revenues and server hosting. *Vitroä* revenues accounted for 10% and 13% of service revenues from our information and communications technology business in the first half of 2006 and 2005, respectively.

Others

Other revenues consist of:

- fees generated for issuance of digital certificates and licenses; and
- revenues derived from IT helpdesk/contact center solutions and terminals for credit, debit and credit card transactions.

Revenues from other businesses related to our information and communications technology segment in the first half of 2006 increased to Php60 million from Php32 million in the same period in 2005 largely due to IT helpdesk/contact center services rendered coupled with an increase in the number of digital certificates sold.

Please refer to *Note 9 Investments in Associates* to the accompanying unaudited consolidated financial statements for further discussion on ePLDT's other information and communications technology services.

Non-service Revenues

Non-service revenues consist of sales generated from reselling certain software licenses, server solutions, networking products, storage products and data security products. In the first half of 2006, non-service revenues generated by our information and communications technology business decreased by Php43 million, or 20%, to Php172 million compared to Php215 million in the same period in 2005 primarily due to lower revenues from sales of networking equipment and software licenses.

Other Income

All other income/gains which do not fall under service and non-service revenues are included under this classification. Other income generated from our information and communications technology business segment decreased to Php24 million in the first half of 2006 from Php41 million in the same period in 2005 primarily due to Infocom's sale of its NOW cable Internet business in the first half of 2005; no similar transaction was incurred in the same period in 2006.

Equity Share in Net Income of Associates

Equity share in net income of associates amounted to Php3 million in the first half of 2006 and 2005 due to share in the earnings of its unconsolidated subsidiaries, ePDS, Inc. and Philweb Corporation, or Philweb. ePLDT acquired a 20% interest in Philweb in June 2006.

Expenses

Expenses associated with our information and communications technology business totaled Php1,936 million in the first half of 2006, an increase of Php418 million, or 28%, from Php1,518 million in the same period in 2005, primarily due to an increase in compensation and benefits, depreciation and amortization, and selling and promotions. As a percentage of our information and communications technology revenues, expenses related to our information and communications technology business were at 96% for the first half of 2006 and 2005.

The following table shows the breakdown of our total information and communications technology-related expenses for the six months ended June 30, 2006 and 2005 and the percentage of each expense item to the total:

	2006		2005		Increase (Decrease) Amount	
	Php	%	Php	%	Amount	%
(in millions)						
Information and communications technology services:						
Compensation and benefits(1)	855	44	625	41	230	37

Insurance and security services	10	1	5		5	100
Amortization of intangible assets	3				3	100

Edgar Filing: PHILIPPINE LONG DISTANCE TELEPHONE CO - Form 6-K

Provisions	1			1	100
Financing costs	(5)		8	1	(13) (163)
Other expenses	75	4	36	2	39 108
Total	Php1,936	100	Php1,518	100	Php418 28

(1) Includes salaries and benefits, incentive plan, pension and MRP costs.

Compensation and benefits increased by Php230 million, or 37%, to Php855 million largely due to the expansion of our call center businesses and the consolidation of Level Up! and Airborne Access in the first half of 2006, which resulted to an increase in headcount thereby causing an increase in salaries, bonuses and various incentives of employees.

Depreciation and amortization charges increased by Php65 million, or 35%, to Php252 million primarily due to an increase in the depreciable asset base in relation to the expansion of our call center businesses.

Selling and promotion expenses increased by Php29 million, or 14%, to Php234 million mainly due to an increase in advertising and marketing spending and the consolidation of Level Up! and Airborne Access in the first half of 2006 as compared to the same period in 2005.

Rent expenses increased by Php20 million, or 10%, to Php228 million primarily due to the opening of two additional call center sites during the first half of 2006 which led to increased rental of leased circuits.

Maintenance expenses decreased by Php10 million, or 7%, to Php139 million primarily due to Vitro's lower hardware maintenance costs partially offset by higher hosting-related costs incurred in the first half of 2006 as compared to the same period in 2005.

Communication, training and travel expenses increased by Php37 million, or 97%, to Php75 million due to the increased cost of phone lines, bandwidth and information system charges, coupled by the increase in telecommunications costs incurred by our call center business for its outbound calls.

Professional and other contracted services increased by Php11 million, or 28%, to Php50 million primarily due to an increase in consultancy, legal and audit fees in the first half of 2006 as compared to the same period in 2005.

Taxes and licenses increased by Php1 million, or 6%, to Php19 million due to higher business-related taxes paid in the first half of 2006 as compared to the same period in 2005.

Insurance and security services increased by Php5 million, or 100%, to Php10 million primarily due to higher premium costs and an increase in the assets insured in the first half of 2006 as compared to the same period in 2005.

Amortization of intangible assets amounted to Php3 million in the first half of 2006 in connection with the acquisition of Level Up!. See *Note 11 Goodwill and Intangible Assets* to the accompanying unaudited consolidated financial statements for further discussion. No similar charges were booked in the same period in 2005.

Provisions amounted to Php1 million in the first half of 2006 representing certain doubtful customer accounts. No similar provisions were recorded in the same period in 2005.

Financing costs amounted to a negative Php5 million in the first half of 2006 primarily due to a net interest income balance in 2006 brought about by a decrease in interest expense on loans on account of lower debt balances in the first half of 2006.

Other expenses increased by Php39 million, or 108%, to Php75 million mainly due to higher royalty fees on licenses paid by our Internet and gaming businesses, and increase in other business-related costs.

Provision for (Benefit from) Income Tax

Benefit from income tax amounted to Php12 million in the first half of 2006 primarily due to the recognition of deferred tax assets pertaining to accrued pension costs, net operating loss carry-over and allowance for doubtful accounts as compared to a provision for income tax of Php6 million in the same period in 2005.

Net Income

In the first half of 2006, our information and communications technology business segment registered a net income of Php87 million, an increase of Php24 million, or 38%, as compared to Php63 million in the same period in 2005 mainly as a result of a 27% increase in ICT-related revenues.

Liquidity and Capital Resources

The following table shows our consolidated cash flows for the six months ended June 30, 2006 and 2005 as well as consolidated capitalization and other selected financial data as at June 30, 2006 and December 31, 2005:

Total assets	Php244,771	Php249,713
Property, plant and equipment - net	173,832	176,974
Cash and cash equivalents	25,966	30,064

As at June 30, 2006, our consolidated cash and cash equivalents totaled Php25,966 million. Principal sources of consolidated cash and cash equivalents in the first half of 2006 were cash flows from operating activities amounting to Php33,601 million and drawings from Smart's debt facilities aggregating Php3,435 million. These funds were used principally for capital outlays of Php12,385 million, total debt principal payments of Php17,954 million and interest payments of Php3,977 million.

Operating Activities

Our consolidated net cash flows from operating activities in the first half of 2006 decreased by Php1,550 million, or 4%, to Php33,601 million, from Php35,151 million in the same period in 2005.

A significant portion of our cash flow is generated by our wireless business, which contributed revenues of approximately 60% and 59% of our service revenues in the first half of 2006 and 2005, respectively. Revenues from our fixed line and information and communications technology services accounted for 37% and 3%, respectively, of our service revenues in the first half of 2006 compared to 39% and 2%, respectively, in the same period in 2005.

Cash flows from operating activities of our wireless business amounted to Php17,226 million in the first half of 2006, a decrease of Php3,533 million, or 17%, compared to Php20,759 million in the same period in 2005 partially offset by an increase in our fixed line business which contributed Php14,699 million in the first half of 2006, an increase of Php540 million, or 4%, compared to Php14,159 million in the same period in 2005. The overall decrease in our cash flows from operating activities was due to an increase in working capital requirements with the settlement of various current liabilities complemented by higher billings of accounts receivable. Our wireless business segment accounted for 52% of our cash flows from operating activities while our fixed line segment accounted for 44% in the first half of 2006. We currently believe that our continuing strong cash flows from operating activities on a consolidated basis will allow us to defray our current liabilities despite our current ratio being less than 1:1 as at June 30, 2006.

While Smart is subject to loan covenants that restrict its ability to pay dividends, redeem preferred shares, make distributions to PLDT or otherwise provide funds to PLDT or any associate without the consent of its lenders, Smart had been able to obtain waivers from Finnvera and certain of its lenders for each of the dividend payments made by Smart to PLDT in 2006, 2005, 2004, 2003 and 2002 aggregating Php14,000 million, Php19,717 million, Php16,100 million, Php6,166 million and Php1,540 million, respectively. In September and December 2005, Smart redeemed 200 million and 180.8 million preferred shares, respectively, previously issued to PLDT at a redemption price of Php13.875 per share, or a total redemption price aggregating to Php5,283 million. During the first half of 2006, dividend payments received from Smart amounted to Php14,000 million, of which Php7,000 million was paid in March 2006 and another Php7,000 million was paid in June 2006.

Investing Activities

Net cash used in investing activities in the first half of 2006 amounted to Php13,898 million, an increase of Php11,678 million, or 526%, compared to Php2,220 million in the same period in 2005. This was primarily a result of an increase in capital expenditures by Php5,373 million, payments for purchase of investments in relation to the final settlement of Smart Broadband's acquisition, the purchase of a 60% investment in Level Up! and a 20% equity interest in Philweb of Php1,201 million, Php346 million and Php427 million, respectively, and the increase in short-term investments by Php4,271 million in the first half of 2006 as compared to the decrease in the first half of 2005 mainly due to maturity of Smart's prepaid forward exchange contracts in 2005.

Our consolidated capital expenditures in the first half of 2006 totaled Php12,385 million, an increase of Php5,373 million, or 77%, from Php7,012 million in the same period in 2005 primarily due to PLDT's, Smart's and ePLDT's higher capital spending. Smart's capital spending of Php6,025 million in the first half of 2006 was used to roll-out its 3G network and further expand and upgrade its transmission network facilities to increase capacity and coverage in respect of basic and advanced cellular services. PLDT's capital spending of Php5,765 million was principally used to finance the expansion of its fixed line data and IP-based network services. ePLDT and its subsidiaries' capital spending of Php520 million was primarily used to fund its call center expansion. The balance represented other subsidiaries' capital spending. Consolidated capital expenditures in the same period in 2005 amounted to Php7,012 million, of which Php3,569 million, Php3,118 million and Php305 million were attributable to Smart, PLDT and ePLDT, respectively. The balance represented other subsidiaries' capital spending.

Financing Activities

On a consolidated basis, we used net cash of Php23,943 million for financing activities, net of loan drawings by Smart, in the first half of 2006, a decrease of Php585 million, or 2%, compared to Php24,528 million in the same period in 2005. The net cash used in financing activities in the first half of 2006 was mainly attributable to debt repayments and interest payments by PLDT and Piltel in line with our ongoing debt reduction program and dividend payments distributed by PLDT to its common and preferred stockholders.

Debt Financing

Additions to our consolidated long-term debt in the first half of 2006 totaled Php3,446 million mainly from Smart's drawings related to the financing of its Phase 8 loan facilities. Payments in respect of principal and interest of our total debt amounted to Php17,954 million and Php3,977 million, respectively, in the first half of 2006, of which Php11,395 million and Php3,250 million were attributable to PLDT, respectively.

The following table shows our long-term debt, including current portion, as at June 30, 2006 and December 31, 2005:

June 30, December 31,

	2006	2005	Increase (Decrease)	
	(Unaudited)	(Audited)	Amount	%
(in millions)				
U.S. Dollar Debt:				
Export Credit Agencies-Supported Loans	Php19,088	Php23,126	(Php4,038)	(17)
Fixed Rate Notes	44,838	52,354	(7,516)	(14)
Term Loans	16,971	14,288	2,683	19
Restructured Loans	2,720	4,767	(2,047)	(43)
Satellite Acquisition Loans	2,655	3,040	(385)	(13)
	86,272	97,575	(11,303)	(12)
Japanese Yen Debt:				
JBIC's Overseas Investment Loan	2,593	3,139	(546)	(17)
Export Credit Agency-Supported Loan		709	(709)	(100)
	2,593	3,848	(1,255)	(33)
Philippine Peso Debt:				
Peso Fixed Rate Corporate Notes	1,577	1,576	1	
Term Loans	34	166	(132)	(80)
Restructured Loans	215	379	(164)	(43)
	1,826	2,121	(295)	(14)
	Php90,691	Php103,544	(Php12,853)	(12)

For a complete discussion of long-term debt, see *Note 17 Interest-bearing Financial Liabilities* to the accompanying unaudited consolidated financial statements.

Our long-term debt decreased by Php12,853 million, or 12%, to Php90,691 million as at June 30, 2006 largely due to debt amortizations and prepayments in line with PLDT's efforts to reduce its overall debt level and also due to the appreciation of the peso. PLDT's debt was reduced by 15% to Php62,305 million by June 30, 2006. In addition, the debt levels of Smart decreased by 4%, to Php25,697 million (including Piltel's debt of Php2,984 million), while Mabuhay and ePLDT decreased by 13% and 79%, to Php2,655 million and Php34 million, respectively, as at June 30, 2006 due to amortizations and prepayments during 2006.

As at June 30, 2006, PLDT had no undrawn committed long-term credit facilities. On August 8, 2005, Smart signed a US\$30 million commercial facility with Nordic Investment Bank to partly finance the related Phase 8 GSM equipment and services contracts. The facility was drawn in July 2006. On August 10, 2005, Smart signed a US\$70 million loan facility with Finnish Export Credit Ltd. for its GSM Phase 8 financing. Smart opted to utilize only a total of US\$66.79 million which was drawn on February 15, 2006 and March 13, 2006 for US\$10.02 million and US\$56.77 million, respectively. The balance of US\$3.2 million was cancelled. After the first repayment on March 1, 2006, US\$66 million remained outstanding as at June 30, 2006. Smart also had available facilities under its 50 million Framework Agreement with Bayerische Hypo-und Vereinsbank Aktiengesellschaft up to a maximum aggregate amount of 44 million. Please see *Note 17 Interest-bearing Financial Liabilities* to the accompanying unaudited consolidated financial statements for a detailed discussion of our long-term debt.

Edgar Filing: PHILIPPINE LONG DISTANCE TELEPHONE CO - Form 6-K

The scheduled maturities of our outstanding unaudited consolidated long-term debt at nominal values as at June 30, 2006 are as follows:

Year	US\$ Loans(1)		JP¥ Loans(2) (in millions)		Peso Loans	Total
2006(3)	US\$79	Php4,211	JP¥1,394	Php648	Php793	Php5,652
2007	345	18,379	2,788	1,297	36	19,712
2008	124	6,602	1,394	648	24	7,274
2009	281	14,948			24	14,972
2010	63	3,337			834	4,171
2011 and onwards	872	46,416			170	46,586
	US\$1,764	Php93,893	JP¥5,576	Php2,593	Php1,881	Php98,367

(1) The exchange rate used was Php53.220 to US\$1.00.

(2) The exchange rate used was Php0.4650 to JP¥1.00.

(3) July 1, 2006 to December 31, 2006.

Approximately Php51,781 million principal amount of our consolidated outstanding long-term debt as at June 30, 2006 is scheduled to mature over the period from 2006 to 2010. Of this amount, Php33,669 million was attributable to PLDT, Php15,424 million to Smart (including Piltel's debt of Php1,378 million) and the remainder to Mabuhay Satellite, Maratel and ePLDT.

Debt Covenants

Our debt instruments contain restrictive covenants, including covenants that could prohibit us from paying dividends on common stock under certain circumstances, and require us to comply with specified financial ratios and other financial tests, calculated in conformity with accounting principles generally accepted in the Philippines, at relevant measurement dates, principally at the end of each quarterly period. We have complied with all of our maintenance financial ratios as required under our loan covenants and other debt instruments. In addition, we are required to comply with certain financial ratios for the incurrence of capital expenditures in excess of US\$10 million and incurrence of indebtedness.

Please see Note 17 *Interest-bearing Financial Liabilities* to the accompanying unaudited consolidated financial statements for a detailed discussion of our covenants.

Financing Requirements

We believe that our available cash, including cash flow from operations, will provide sufficient liquidity to fund our projected operating, investment, capital expenditures and debt service requirements for the next 12 months.

Since 2002, we have been utilizing internally generated cash, particularly from our cellular business, to reduce our overall level of indebtedness. In line with this objective, we have managed our capital expenditures, reduced our investments and suspended dividend payments to common shareholders from April 2001. As a result of our improving cash flows and reduced debt levels, we restored the payment of dividends in May 2005 and currently intend to gradually increase our dividend payout ratio in succeeding years as we improve our leverage ratios. For 2006, we are targeting a dividend payout ratio of 60%.

Credit Ratings

None of our existing indebtedness contains provisions under which credit rating downgrades would trigger a default, changes in applicable interest rates or other similar terms and conditions.

PLDT's current credit ratings are as follows:

<u>Rating Agency</u>	<u>Credit Rating</u>	<u>Outlook</u>
Standard and Poor's	Foreign Currency Senior Unsecured Debt Rating	BB+ Stable
Moody's Investor Service	Foreign Currency Senior Unsecured Debt Rating	Ba2 Negative
	Local Currency Corporate Family Rating	Baa3 Positive
Fitch	Long-term Foreign Currency Rating	BB Stable
	Long-term Local Currency Rating	BB+ Stable
	Long-term Foreign Currency Issuer Default Rating	BB Stable
	Long-term Local Currency Issuer Default Rating	BBB- Positive
	National Long-term Rating	AAA(ph1) Stable

On March 29, 2006, Moody's Investor Service, or Moody's, placed the Ba1 local currency corporate family rating of PLDT on review for possible upgrade. At the same time, Moody's affirmed PLDT's Ba2 foreign currency senior unsecured ratings, with a negative outlook.

On July 18, 2006, Moody's upgraded PLDT's local currency corporate family rating from Ba1 to Baa3 with a positive outlook. The upgrade has been prompted by continued improvements in PLDT's credit profile, that it enjoys a lowly geared balance sheet, 65% share in revenue terms of the market where only one major competitor is present and has flexibility significant enough to invest its free cash flows into upgrading its technology base.

On February 20, 2006, Fitch Ratings has revised its outlook on PLDT's long-term foreign currency from negative to stable. PLDT's long-term foreign currency, global bonds and senior notes has been affirmed at BB and convertible preferred stock at B+. The revision in outlook reflects that of the outlook of the Republic of the Philippines as foreign currency and senior debt instrument ratings are constrained by the sovereign foreign currency rating. At the same time, PLDT's long-term local currency rating has been affirmed at BB+ with a stable outlook.

On June 7, 2006, Fitch Ratings upgraded PLDT's long-term local currency Issuer Default Rating, or IDR, to BBB- from BB+ with a positive outlook. At the same time, Fitch affirmed PLDT's long-term foreign currency IDR of BB with a stable outlook, reflecting the outlook on the Republic of the Philippines' long-term foreign currency IDR of BB. Following the licensing of Fitch to provide National ratings in the Philippines, Fitch assigned PLDT a National long-term rating of AAA(ph1) with a stable outlook.

Equity Financing

PLDT raised Php43 million and Php131 million from the exercise by certain officers and executives of stock options in the first half of 2006 and 2005, respectively. In addition, through our subscriber investment plan, or SIP, which provides postpaid fixed line subscribers the opportunity to buy shares of our 10% cumulative convertible preferred stock as part of the upfront payments collected from subscribers, PLDT was able to raise Php3 million and Php2 million in the first half of 2006 and 2005, respectively.

Cash dividend payments in the first half of 2006 amounted to Php5,334 million, of which Php5,099 million and Php235 million were paid to common and preferred shareholders, respectively, compared to Php2,963 million, of which Php2,372 million and Php591 million were paid to common and preferred shareholders, respectively, in the same period in 2005.

The following table sets forth dividend payments on shares of PLDT's common stock for the year 2005 and for the six months ended June 30, 2006:

Class	Declaration	Date Record	Paid	Amount	
				Per Share	Total
Common Stock	March 1, 2005	March 31, 2005	May 12, 2005	Php14.00	Php2,384

May 5, 2005	June 3, 2005	July 14, 2005	21.00	3,598
November 8, 2005	November 28, 2005	December 28, 2005	21.00	3,642
February 27, 2006	March 20, 2006	April 20, 2006	28.00	5,059

As at June 30, 2006, there were 182,820,644 PLDT common shares outstanding.

Contractual Obligations and Commercial Commitments

Contractual Obligations

The following table discloses our consolidated contractual obligations outstanding as at June 30, 2006:

	Total	Payments Due by Period			After 5 years
		Within 1 year	2-3 years	4-5 years	
(in millions)					
Long-term debt (1)	Php98,367	Php18,449	Php26,537	Php9,163	Php44,218
Long-term lease obligations:					
Operating lease	3,435	606	1,067	815	947
Capital lease	1,670	1,001	223	19	427
Unconditional purchase obligations(2)	10,815	4,961	2,129	2,129	1,596
Other long-term obligations	12,389		5,115	7,274	
Total contractual obligations	Php126,676	Php25,017	Php35,071	Php19,400	Php47,188

(1) *Before deducting unamortized debt discount and debt issuance costs.*

-

(2) *Based on the original Air Time Purchase Agreement with AIL.*

Long-term Debt

For a discussion of our long-term debt, see *Note 17 Interest-bearing Financial Liabilities* to the accompanying unaudited consolidated financial statements.

Long-term Operating Lease Obligations

Digital Passage Service Contracts. PLDT has existing Digital Passage Service Contracts with foreign telecommunication administrations for several dedicated circuits to various destinations for ten to 25 years expiring at various dates. As at June 30, 2006, PLDT's aggregate remaining obligation under these contracts amounted to approximately Php12 million.

License Agreement with Mobius Management Systems (Australia) Pty Ltd., or Mobius. PLDT entered into a license agreement with Mobius pursuant to which Mobius has granted PLDT a non-exclusive, non-assignable and non-transferable license for the use of computer software components. Under this agreement, Mobius is also required to provide maintenance services for a period of one year at no additional maintenance charge. PLDT may purchase maintenance services upon expiration of the first year for a fee of 15% of the current published license fee. As at June 30, 2006, PLDT's aggregate remaining obligation under this agreement was approximately Php20 million.

Other Long-term Operating Lease Obligations. The PLDT Group has various long-term lease contracts for periods ranging from two to ten years covering certain offices, warehouses, cell sites, telecommunication equipment locations and various office equipment. In particular, Smart has lease obligations aggregating Php3,171 million as at June 30, 2006 in respect of office and cell site rentals with over 3,000 lessors nationwide, PLDT has lease obligations aggregating Php100 million as at June 30, 2006, and ePLDT has lease obligations aggregating Php132 million as at June 30, 2006 in respect of certain office space rentals.

Long-term Capital Lease Obligations

For a discussion of our long-term capital lease obligations, see *Note 17 Interest-bearing Financial Liabilities* to the accompanying unaudited consolidated financial statements.

Unconditional Purchase Obligations

Air Time Purchase Agreement with AIL. PLDT is a party to a Founder NSP, or National Service Provider, Air Time Purchase Agreement entered into with ACeS International Limited, or AIL, in March 1997, which was amended in December 1998, under which PLDT was granted the exclusive right to sell AIL services in the Philippines. In exchange, the Air Time Purchase Agreement required PLDT to purchase from AIL a minimum of US\$5 million worth of air time annually over ten years commencing on January 1, 2002, the purported date of commercial operations of the Garuda I Satellite.

In the event that AIL's aggregate billing revenue is less than US\$45 million in any given year, the Air Time Purchase Agreement also states that PLDT has to make supplemental air time purchase payments not to exceed US\$15 million per year during the ten-year term.

PLDT and the other founder NSPs are endeavoring to amend the Air Time Purchase Agreement due to the occurrence of partial satellite loss, changes in the primary business of ACeS and other events affecting the business.

In March 2003, PLDT, together with the other founder NSPs, entered into a Standstill Agreement with AIL suspending the application and enforcement of the minimum and supplemental air time payments under the original Air Time Purchase Agreement. The parties agreed that AIL shall provide PLDT and the other founder shareholders with unlimited use of air time for the year 2003 in exchange for a fixed fee in the amount of US\$3.8 million for PLDT. Moreover, PLDT was also obliged to purchase from AIL 13,750 satellite phone units in 2003 at US\$395 F.O.B. per unit, subject to quarterly price adjustments. The parties to the Standstill Agreement also agreed to negotiate in good faith and use their best efforts to reach an agreement on a revised Air Time Purchase Agreement before November 15, 2003 that would cover, among other things, the amended minimum and supplemental air time payment provisions subject to the approval of AIL's creditors.

On February 10, 2004, notwithstanding the ongoing negotiations, AIL advised PLDT of the termination of the Standstill Agreement and the reinstatement of the terms under the original Air Time Purchase Agreement effective January 1, 2002 following the lapse of the November 15, 2003 deadline set in the Standstill Agreement for the negotiation of a revised Air Time Purchase Agreement. Negotiations are continuing with the relevant parties towards an amicable settlement of this matter. See *Note 20 Related Party Transactions* and *Note 23 Provisions and Contingencies* to the accompanying unaudited consolidated financial statements for further details relating to the Air Time Purchase Agreement with AIL.

As at June 30, 2006, PLDT's aggregate remaining minimum obligation under the original Air Time Purchase Agreement was approximately Php10,815 million.

Other Long-term Obligations

Mandatory Conversion and Purchase of Shares. As discussed in *Note 17 Interest-bearing Financial Liabilities* to the accompanying unaudited consolidated financial statements, as at June 30, 2006, PLDT had issued a total of 3 million shares of Series V Convertible Preferred Stock, 5 million shares of Series VI Convertible Preferred Stock and 4 million shares of Series VII Convertible Preferred Stock in exchange for a total of 58 million shares of Series K Class I Convertible Preferred Stock of Piltel, pursuant to the debt restructuring plan of Piltel adopted in June 2001.

Each share of Series V, VI and VII Convertible Preferred Stock is convertible at any time at the option of the holder into one PLDT common share. On the date immediately following the seventh anniversary of the issue date of the Series V and Series VI Convertible Preferred Stocks and on the eighth anniversary of the issue date of the Series VII Convertible Preferred Stock, the remaining outstanding shares under these series will be mandatorily converted to PLDT common shares. Under a put option exercisable for 30 days, holders of common shares received on mandatory conversion of the Series V, VI and VII Convertible Preferred Stocks will be able to require PLDT to purchase such PLDT common shares for Php1,700 per share, US\$36.132 per share, and JP¥4,071.89 per share, respectively.

As at June 30, 2006, 2,668,962 shares of Series V Convertible Preferred Stock and 2,681,644 shares of Series VI Convertible Preferred Stock had been converted to PLDT common shares. As at June 30, 2006, 52,478 shares of Series V, 2,613,460 shares of Series VI and 3,842,000 shares of Series VII Convertible Preferred Stocks remained outstanding. The aggregate value of the put option based on outstanding shares as at June 30, 2006 was Php12,389 million, of which Php5,115 million is puttable on June 4, 2008 and Php7,274 million on June 4, 2009, if all of the outstanding shares of Series V, VI and VII Convertible Preferred Stocks were mandatorily converted and all the underlying shares of common stock were put to PLDT. The market value of the underlying shares of common stock was Php11,910 million, based on the market price of PLDT common shares of Php1,830 per share as at June 30, 2006.

Please refer to *Note 17 Interest-bearing Financial Liabilities* to the accompanying unaudited consolidated financial statements for further discussion.

Commercial Commitments

As at June 30, 2006, our outstanding commercial commitments, in the form of letters of credit, amounted to Php1,836 million. These commitments will expire within one year.

Quantitative and Qualitative Disclosures about Market Risks

Our operations are exposed to various risks, including liquidity risk, foreign exchange risk and interest rate risk. The importance of managing these risks has significantly increased in light of considerable change and continuing volatility in both the Philippine and international financial markets. With a view to managing these risks, we have incorporated financial risk management functions in our organization, particularly in our treasury operations and equity issues and sales of certain assets.

Liquidity Risk Management

We seek to manage our liquidity profile to be able to finance our capital expenditures and service our maturing debts. To cover our financing requirements, we intend to use internally generated funds and proceeds from debt and equity issues and sales of certain assets.

As part of our liquidity risk management program, we regularly evaluate our projected and actual cash flow information and continuously assess conditions in the financial markets for opportunities to pursue fund-raising initiatives. These initiatives may include bank loans, export credit agency-guaranteed facilities, and debt capital and equity market issues.

Foreign Exchange Risk Management

As at June 30, 2006, the Philippine peso had depreciated by Php0.158 against the U.S. dollar to Php53.220 to US\$1.00 from Php53.062 to US\$1.00 as at December 31, 2005. As at June 30, 2005, on the other hand, the peso appreciated by Php0.164 to Php56.177 to US\$1.00 from Php56.341 to US\$1.00 as at December 31, 2004. As at June 30, 2006, the Philippine peso had depreciated by 3% against the Japanese yen to Php0.4650 to JP¥1 from Php0.4504 to JP¥1 as at December 31, 2005. On the other hand, as at June 30, 2005, the peso appreciated by 8% to Php0.5067 to JP¥1 from Php0.5495 to JP¥1 as at December 31, 2004. The revaluation of our foreign-currency denominated assets and liabilities is recognized as foreign exchange gains or losses as at balance sheet date. Since substantially all of our indebtedness is denominated in U.S. dollars and Japanese yen, the depreciation of the peso has resulted to the recognition of foreign exchange losses. The extent of foreign exchange gains or losses is largely dependent on the amount of foreign currency debt we carry. As at June 30, 2006, consolidated foreign currency debt-denominated amounted to Php88,865 million, a reduction from Php101,423 million last December 31, 2005. As such, we recognized foreign exchange loss of Php195 million in the first half of 2006 as compared to foreign exchange gains of Php1,382 million recorded in the same period in 2005.

While a certain percentage of our revenues is either linked to or denominated in U.S. dollars, substantially all of our indebtedness and related interest expense, a substantial portion of our capital expenditures and a portion of our operating expenses are denominated in foreign currencies, mostly in U.S. dollars.

As at June 30, 2006, approximately 98% of our total consolidated debts were denominated in foreign currencies, principally in U.S. dollars. Of our foreign currency-denominated debts, 3% are in Japanese yen on a consolidated basis and the balance in U.S. dollars. Thus, a weakening of the Philippine peso against the U.S. dollar or Japanese yen will increase both the principal amount of our unhedged foreign currency-denominated debts (representing 50% of our consolidated debts, or 35% net of our U.S. dollar cash balances as at June 30, 2006), and interest expense on our debt in peso terms. In addition, many of our financial ratios and other financial tests will be negatively affected. If, among other things, the value of the Philippine peso against the U.S. dollar substantially drops from its current level, we may be unable to maintain compliance with these ratios, which could result in acceleration of some or all of our indebtedness. For further information on our loan covenants, see *Liquidity and Capital Resources Financing Activities Covenants* above and *Note 17 Interest-bearing Financial Liabilities* to the accompanying unaudited consolidated financial statements.

To manage our foreign exchange risks, stabilize cash flows, and improve investment and cash flow planning, we enter into forward foreign exchange contracts, foreign currency swap contracts, currency option contracts and other hedging products aimed at reducing and/or managing the adverse impact of changes in foreign exchange rates on our operating results and cash flows. However, these hedges do not cover all of our exposure to foreign exchange risks.

Specifically, we use forward foreign exchange contracts, foreign currency swap contracts and currency option contracts to manage the foreign currency risk associated with our foreign currency-denominated loans. In order to manage hedge costs of these contracts, we utilize structures that include credit-linkage with PLDT as the reference entity, a combination of currency option contracts, and fixed to floating coupon only swap agreements. Accounted as either cash flow hedges or transactions not designated as hedges, changes in the fair value of these instruments are recognized as cumulative translation adjustments in equity until the hedged item is recognized in earnings or directly to income for the period. As at June 30, 2006, PLDT's outstanding forward foreign exchange contracts, principal-only long-term cross-currency swap contracts and currency option contracts amounted to US\$158 million and JP¥1,516 million; US\$550 million; and US\$175 million, respectively. Smart has no outstanding forward foreign exchange contracts as at June 30, 2006.

For further discussions of these contracts, see *Note 24 Financial Assets and Liabilities - Derivative Financial Instruments* to the accompanying unaudited consolidated financial statements.

Interest Rate Risk Management

On a limited basis, we enter into interest rate swap agreements in order to manage our exposure to interest rate fluctuations. As at June 30, 2006, PLDT's outstanding interest rate swap contracts amounted to US\$63 million. For further discussions of these contracts, see *Note 24 Financial Assets and Liabilities - Derivative Financial Instruments* to the accompanying unaudited consolidated financial statements.

We make use of hedging instruments and structures solely for reducing or managing financial risks associated with our liabilities and not for trading or speculative purposes.

Impact of Inflation and Changing Prices

Inflation can be a significant factor in the Philippine economy, and we are continually seeking ways to minimize its impact. In recent periods, we do not believe inflation has had a material impact on our operations. The average inflation rate in the Philippines in the first half of 2006 was 7.1%, compared to 8.3% in the same period in 2005.

PART II OTHER INFORMATION

PLDT launched fiber optic link to Baguio City

On July 28, 2006, we launched the first DFON link connecting Baguio City to PLDT's nationwide fiber optic network. The fiber optic link has a capacity of 10 gigabit per second of transmission bandwidth equivalent to 120,960 simultaneous voice calls. It will support the city's growing demand for voice, data and video traffic and would further boost Baguio's tourism industry and ICT potential.

ePLDT's Acquisition of SPi Technologies

On July 11, 2006, ePLDT completed the acquisition of 100% of SPi and its direct and indirect Philippine and offshore subsidiaries for a total consideration of US\$135.34 million from SPi's sole shareholder, SPi Tech L.P., or SPi Tech. The acquisition of SPi, combined with *ePLDT Ventus*, creates the largest full service business process outsourcing in the Philippines. As part of the transaction, ePLDT also acquired a US\$7 million debt owed by SPi to SPi Tech at face value. In addition, ePLDT advanced US\$16.43 million to SPi in order for SPi to fully pay its debt owed to DBS Bank Singapore. ePLDT intends to have this debt refinanced by SPi in due course.

Smart's 20% Acquisition of WolfPac

On May 8, 2006, Smart signed a share purchase agreement to acquire the remaining 20% equity interest in Wolfpac, a company engaged in the business of consumer mobile applications software development and content development. Smart acquired 80% equity interest in Wolfpac in October 2003. The remaining 20% equity interest in Wolfpac was paid in July 2006.

Related Party Transactions

Cooperation Agreement with the First Pacific, or FP, Parties, NTT Communications and DoCoMo

In connection with the transfer by NTT Communications of approximately 12.6 million shares of PLDT's common stock to DoCoMo pursuant to the Stock Sale and Purchase Agreement dated January 31, 2006 between NTT

Communications and DoCoMo, the FP Parties, NTT Communications and DoCoMo entered into a Cooperation Agreement, dated January 31, 2006. Under the Cooperation Agreement, the relevant parties extended certain rights of NTT Communications under the Stock Purchase and Strategic Investment Agreement dated September 28, 1999, as amended and the Shareholders Agreement dated March 24, 2000, to DoCoMo, including:

- certain contractual veto rights over a number of major decisions or transactions; and
- rights relating to the representation on the board of directors of PLDT and Smart, respectively, and any committees thereof.

Key provisions of the Cooperation Agreement pertain to, among other things: restriction on ownership of shares of PLDT by NTT Communications and DoCoMo, limitation on competition, business cooperation, additional rights of DoCoMo, change in control and termination. Please see *Note 20 Related Party Transactions* to the accompanying unaudited consolidated financial statements for further details.

Integrated i-mode Services Package Agreement between DoCoMo and Smart the Integrated i-mode Service Package Agreement was entered into by Smart and DoCoMo on February 15, 2006, under which DoCoMo agreed to grant Smart, on an exclusive basis within the territory of the Philippines for a period of five years, an integrated i-mode service package including non-transferable license to use the licensed materials and the i-mode brand, as well as implementation support and assistance and post-commercial launch support from DoCoMo. Pursuant to this agreement, Smart is required to pay an initial license fee and running royalty fees based on the revenue arising from i-mode subscription fees and data traffic. The initial license fee paid as at June 30, 2006 amounted to US\$1 million or Php53 million.

Advisory Services Agreement between DoCoMo and PLDT the Advisory Services Agreement was entered into by DoCoMo and PLDT on June 5, 2006, in accordance with the Cooperation Agreement between PLDT and DoCoMo. Pursuant to the agreement, DoCoMo will provide the services of certain key personnel in connection with certain aspects of the business of PLDT and Smart. Also, the agreement governs the terms and conditions of the appointments and the corresponding fees related thereto.

Other Agreements with NTT Communications and/or its Affiliates agreements under which (1) NTT Communications provides advisory services for various business areas of PLDT; (2) NTT World Engineering Marine Corporation provides maintenance services to PLDT's DFON; (3) PLDT is licensed to market managed data and other services using NTT Communications' Arcstar brand; and (4) PLDT and NTT Communications agreed to cooperative arrangements for conventional international telecommunication services. Total fees under these agreements totaled Php100 million and Php114 million for the six months ended June 30, 2006 and 2005, respectively. PLDT's outstanding obligations under these agreements amounted to Php40 million and Php23 million as at June 30, 2006 and December 31, 2005, respectively.

Agreements between Smart and Asia Link B.V. agreements under which Asia Link undertakes to provide technical support services and assistance in the operations and maintenance of Smart's cellular business. Total fees under these agreements totaled Php299 million and Php278 million for the six months ended June 30, 2006 and 2005, respectively. Outstanding obligations of Smart under the Technical Service Agreement amounted to Php30 million and Php194 million as at June 30, 2006 and December 31, 2005, respectively. Asia Link is a subsidiary of the First Pacific Group.

Agreements relating to insurance companies Gotuaco del Rosario and Associates, or Gotuaco, acts as the broker for certain insurance companies to cover certain insurable properties of the PLDT Group. Insurance premiums are remitted to Gotuaco and the broker's fees are settled between Gotuaco and the insurance companies. In addition, PLDT has an insurance policy with Malayan Insurance Co., Inc., or Malayan, wherein premiums are directly paid to Malayan. Total insurance expenses paid under these agreements amounted to Php189 million and Php268 million for the six months ended June 30, 2006 and 2005, respectively. Two directors of PLDT have a direct/indirect interest in or serve as a director/officer of Gotuaco and Malayan.

For a more detailed discussion of the related party transactions enumerated above, see *Note 20 Related Party Transactions* to the accompanying unaudited consolidated financial statements.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

PHILIPPINE LONG DISTANCE TELEPHONE COMPANY AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information

The Philippine Long Distance Telephone Company, or PLDT, or Parent Company, was incorporated under the old Corporation Law of the Philippines (Act 1459, as amended) on November 28, 1928, following the merger of four telephone companies under common ownership by United States entities. In 1967, effective control of PLDT was sold by General Telephone and Electronics Corporation (a major shareholder since PLDT's incorporation) to a group of Filipino businessmen. In 1981, in furtherance of the then existing policy of the Philippine government to integrate the Philippine telecommunications industry, PLDT purchased substantially all of the assets and liabilities of the Republic Telephone Company, which at that time was the second largest telephone company in the Philippines. In 1998, First Pacific Company Limited, or First Pacific, through its Philippine and other affiliates, acquired a significant interest in PLDT. On March 24, 2000, NTT Communications Corporation, or NTT Communications, through NTT Communications Capital (UK) Ltd., became PLDT's strategic partner with approximately 15% economic and voting interest in the issued common stock of PLDT. Simultaneous with NTT Communications' investment in PLDT, we acquired 100% of Smart Communications, Inc., or Smart. On March 14, 2006, NTT DoCoMo, Inc., or DoCoMo, acquired from NTT Communications 7% of PLDT's outstanding common shares held by NTT Communications; NTT Communications retained a 7% equity shareholding.

The common shares of PLDT are listed and traded on the Philippine Stock Exchange, or PSE, and prior to October 19, 1994, were listed and traded on the American Stock Exchange and the Archipelago Exchange (then the Pacific Exchange) in the United States. On October 19, 1994, an American Depositary Receipt, or ADR, facility was established, pursuant to which Citibank N.A., as the depositary, issued ADRs evidencing American Depositary Shares, or ADSs, with each ADS representing one PLDT common share with a par value of Php5 per share. JP Morgan Chase Bank was appointed as successor depositary for PLDT's ADR facility effective February 10, 2003. The ADSs are listed on the New York Stock Exchange, or NYSE, and on the NYSE Arca (formerly Archipelago Exchange) in the United States and are traded on the NYSE.

PLDT's charter, like those of all other Philippine corporations, was initially limited to a period of 50 years but has since been extended twice for 25 years each, the last extension being for an additional

25-year period through 2028. Under its amended charter (Republic Act No. 7082), which became effective on August 24, 1991, PLDT is authorized to provide virtually every type of telecommunications service, both within the Philippines and between the Philippines and other countries.

PLDT operates under the jurisdiction of the Philippine National Telecommunications Commission, or NTC, which jurisdiction extends, among other things, to approving major services offered by PLDT and certain rates charged by PLDT.

Our registered office address is Ramon Cojuangco Building, Makati Avenue, Makati City , Philippines.

2. Summary of Significant Accounting Policies and Practices

Basis of Preparation

Our unaudited consolidated financial statements have been prepared under the historical cost convention as modified by the revaluation of derivative financial instruments, available-for-sale financial assets and investment properties that have been measured at fair values. The carrying values of recognized assets and liabilities that are hedged items in fair value hedges, and are otherwise carried at cost, are adjusted to record changes in the fair values attributable to the risks that are being hedged.

Our unaudited consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the Philippines as set forth in the Philippine Financial Reporting Standards.

Our unaudited consolidated financial statements include, in our opinion, all adjustments consisting only of normal recurring adjustments, necessary to present fairly the results of operations for the interim periods. The results of operations for the six months ended June 30, 2006 are not necessarily indicative of the results of operations that may be expected for the full year.

Our unaudited consolidated financial statements are presented in Philippine pesos and all values are rounded to the nearest million except when otherwise indicated.

Basis of Consolidation

Our unaudited consolidated financial statements include the financial statements of PLDT and those of the following subsidiaries (collectively, the PLDT Group), which were all incorporated in the Philippines except for PLDT Global Corporation, or PLDT Global, (which was incorporated in the British Virgin Islands) and Digital Paradise Thailand Ltd., or Digital Paradise Thailand, a 51% owned subsidiary of ePLDT (which was incorporated in Thailand).

Name of Subsidiary	Principal Activity	Percentage of Ownership
Wireless		
Smart and subsidiaries	Cellular mobile services	100.0
ACeS Philippines Cellular Satellite Corporation, or ACeS Philippines Telesat, Inc., or Telesat Mabuhay Satellite Corporation, or Mabuhay Satellite	Satellite phone services	100.0
	Satellite communications services	94.4
	Satellite communications services	67.0
Fixed Line		
PLDT Clark Telecom, Inc., or Clark Telecom	Telecommunications services	100.0
Subic Telecommunications Company, Inc., or Subic Telecom	Telecommunications services	100.0
PLDT Global and subsidiaries	Telecommunications services	100.0
Smart-NTT Multimedia, Inc., or SNMI	Data and network services	100.0
PLDT-Maratel, Inc., or Maratel Bonifacio Communications Corporation,	Telecommunications services	97.5
	Telecommunications, infrastructure and related value-added services	
or BCC		75.0
Information and Communications Technology		
ePLDT and subsidiaries	Information and communications infrastructure for internet-based services, e-commerce, call centers and IT-related services	100.0

Subsidiaries are consolidated from the date when control is transferred to the PLDT Group and cease to be consolidated from the date when control is transferred out of the PLDT Group.

We prepare our unaudited consolidated financial statements using uniform accounting policies for like transactions and other events with similar circumstances. Intercompany balances and transactions, including intercompany profits and unrealized profits and losses, are eliminated.

Minority interests represent the equity interests in Piltel, Wolfpac Mobile, Inc., or Wolfpac, Telesat, Mabuhay Satellite, Maratel, BCC, Digital Paradise, Inc., or Digital Paradise, Digital Paradise Thailand, netGames, Inc., or netGames, Infocom Technologies, Inc., or Infocom, and Airborne Access Corporation, or Airborne Access, not held by the PLDT Group.

ePLDT's Acquisition of Level Up!, Inc. or Level Up!

On February 16, 2006, ePLDT acquired a 60% equity interest in Level Up!, a leading publisher of online games in the Philippines with about an 80% share of the online gaming market. The acquisition of Level Up!, together with netGames, ePLDT's online gaming subsidiary, will strengthen the position of ePLDT as the dominant online gaming company in the country.

Smart's 20% Acquisition of Wolfpac

On May 8, 2006, Smart signed a share purchase agreement to acquire the remaining 20% equity interest in Wolfpac, a company engaged in the business of consumer mobile applications software development and content development. Smart acquired an 80% equity interest in Wolfpac in October 2003. The remaining 20% equity interest in Wolfpac was paid in July 2006.

ePLDT's Acquisition of SPi Technologies, Inc., or SPi

On July 11, 2006, ePLDT completed the acquisition of 100% of SPi and its direct and indirect Philippine and offshore subsidiaries for a total consideration of US\$135.34 million from SPi's sole shareholder, SPi Tech L.P., or SPi Tech. The acquisition of SPi, combined with ePLDT Ventus, creates the largest full service business process outsourcing in the Philippines. As part of the transaction, ePLDT also acquired a US\$7 million debt owed by SPi to SPi Tech at face value. In addition, ePLDT advanced US\$16.43 million to SPi in order for SPi to fully pay its debt owed to DBS Bank Singapore. ePLDT intends to have this debt refinanced by SPi in due course.

Investments in Associates

Investments in associates in which we exercise significant influence and which are neither a subsidiary nor a joint venture of the PLDT Group are accounted for under the equity method of accounting. Under the equity method, our investments in associates are carried in the consolidated balance sheets at cost plus post-acquisition changes in our share in net assets of the associates. After application of the equity method, we determine whether it is necessary to recognize any additional impairment loss with respect to our net investment in the associate. The consolidated statements of income reflect our shares of the results of operations of the associate. Where there has been a change recognized directly in the equity of the associate, we recognize our share in any such change and disclose this, when applicable, in our consolidated statement of equity.

Our reporting dates and that of our associates are identical and our associates' accounting policies conform to those we use for like transactions and events in similar circumstances.

Foreign Currency Translation

The functional and presentation currency of the PLDT Group (except for Mabuhay Satellite and PLDT Global) is the Philippine peso. Transactions in foreign currencies are initially recorded in the functional currency rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rate of exchange ruling at the balance sheet date. All differences are taken to the consolidated statements of income except for foreign exchange losses that qualified as capitalizable borrowing costs during the construction period. For income tax purposes, exchange gains or losses are treated as taxable income or deductible expenses in the period such are realized.

The functional currency of Mabuhay Satellite and PLDT Global is the U.S. dollar. As at the reporting date, the assets and liabilities of these subsidiaries are translated into the presentation currency of the PLDT Group at the rate of exchange prevailing at the balance sheet date and, its income and expenses are translated at the weighted average exchange rate for the period. The exchange differences arising on retranslation are taken directly to a separate component of equity as cumulative translation adjustments. On disposal of these subsidiaries, the deferred cumulative amount of translation adjustments recognized in equity relating to subsidiaries shall be recognized in the consolidated statement of income.

Property, Plant and Equipment

Property, plant and equipment, except for land, are stated at cost less accumulated depreciation and amortization and any impairment in value. Land is stated at cost less any impairment in value.

The initial cost of property, plant and equipment comprises its purchase price and any costs directly attributable in bringing the asset to its working condition and location for its intended use. Expenditures incurred after the assets

have been put into operation, such as repairs and maintenance and overhaul costs, are normally charged to income in the period the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property, plant and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as additional costs of property, plant and equipment. Cost also includes asset retirement obligation, interest on borrowed funds used during the construction period and qualified borrowing costs from foreign exchange losses related to foreign currency-denominated liabilities used to acquire such qualifying assets. When assets are sold or retired, their costs and accumulated depreciation, amortization and impairment losses, if any, are eliminated from the accounts and any gain or loss resulting from their disposal is included in the consolidated statement of income of such period.

Depreciation and amortization are calculated on a straight-line basis over the estimated useful lives of the assets.

The useful lives and depreciation and amortization method are reviewed periodically to ensure that the periods and method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property, plant and equipment.

Property under construction is stated at cost. This includes cost of construction, plant and equipment and other direct costs. Property under construction is not depreciated until such time that the relevant assets are completed and put into operational use.

Borrowing Costs

Borrowing costs are capitalized if they are directly attributable to the acquisition, construction or production of a qualifying asset. Capitalization of borrowing costs commences when the activities for intended use are in progress and expenditures and borrowing costs are being incurred. Borrowing costs are capitalized until the assets are ready for their intended use. If the resulting carrying amount of the asset exceeds its recoverable amount, an impairment loss is recognized. Borrowing costs include interest charges and other costs incurred in connection with the borrowing of funds, as well as exchange differences arising from foreign currency borrowings used to finance these projects to the extent that they are regarded as an adjustment to interest cost.

All other borrowing costs are expensed as incurred.

Borrowing costs are treated as deductible expenses for income tax reporting purposes in the period they are incurred or realized.

Asset Retirement Obligations

The net present value of legal and constructive obligations associated with the retirement of an item of property, plant and equipment that resulted from the acquisition, construction or development and the normal operation of property, plant and equipment is recognized in the period in which it is incurred.

Investment Properties

Initially, investment properties are measured at cost including transaction costs. The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met; and excludes the costs of day to day servicing of an investment property. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the balance sheet date. Gains or losses arising from changes in the fair values of investment properties are included in the consolidated statement of income in the period in which they arise.

Investment properties are derecognized when they have either been disposed of or when the investment property is permanently withdrawn from use and no future benefit is expected from its disposal. Any gain and loss on the retirement or disposal of an investment property is recognized in the consolidated statement of income in the period of retirement or disposal.

Goodwill

Goodwill is initially measured at the excess of the acquisition cost over the fair value of identifiable assets, liabilities and contingent liabilities. Following initial recognition, goodwill is measured at cost less any accumulated impairment loss. Goodwill is no longer amortized but reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired.

As at acquisition date, any goodwill acquired is allocated to each of the cash-generating units expected to benefit from the combination's synergies. Impairment is determined by assessing the recoverable amount of the cash-generating unit, to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than the carrying amount, an impairment loss is recognized. Where goodwill forms part of a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in such circumstance is measured on the basis of the relative values of the operation disposed of and the portion of the cash-generating unit retained.

Intangible Assets

Intangible assets acquired separately are measured on initial recognition. The cost of intangible assets acquired from business combinations is initially recognized at fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment loss. The useful lives of intangible assets are assessed at the individual asset level as having either a finite or indefinite life.

Intangible assets with finite lives are amortized over the useful economic life using the straight-line method and assessed for impairment whenever there is an indication that the intangible assets may be impaired. At a minimum, the amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at each financial period-end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortization period, as appropriate, and treated as changes in accounting estimates.

Intangible assets with indefinite useful lives are tested for impairment annually either individually or at the cash-generating unit level. Such intangible assets are not amortized. The useful life of an intangible asset with an indefinite life is reviewed annually to determine whether indefinite life assessment continues to be supportable. If not, the change in the useful life assessment from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the consolidated statement of income when the asset is derecognized.

Intangible assets created within the business are not capitalized and expenditure is charged against operations in the period in which the expenditure is incurred.

Asset Impairment

Property, plant and equipment, investments, goodwill and other long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized in the consolidated statements of income. The recoverable amount is the higher of an asset's net selling price or value in use. The net selling price is the amount obtainable from the sale of an asset in an arm's-length transaction while value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset or from its disposal at the end of its useful life. Recoverable amounts are estimated for individual assets or, if these are not possible, for the cash-generating unit to which the asset belongs. Reversal of impairment losses recognized in prior periods is recorded as income when there is an indication that the impairment losses recognized for the asset no longer

exist or have decreased. However, the increased carrying amount of an asset due to a reversal of an impairment loss is recognized to the extent it does not exceed the carrying amount that would have been determined had the impairment loss not been recognized for that asset in prior periods.

Research and Development Costs

Research and development costs are expensed as incurred.

Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less from the date of acquisition and that are subject to an insignificant risk of change in value.

Trade and Other Receivables

Trade and other receivables are stated at face value, net of allowance for doubtful accounts.

Allowance for Doubtful Accounts

Allowance for doubtful accounts is maintained at a level considered adequate to provide for uncollectible receivables. The level of allowance is based on historical collections, write-off experience, current economic trends, changes in our customer payment terms and other factors that may affect our ability to collect payments. An evaluation of the receivables, designed to identify potential charges to the allowance, is performed on a continuous basis during the period.

Subscribers. Full allowance is provided for receivables from permanently disconnected subscribers. Permanent disconnections are made after a series of collection steps following non-payment by subscribers. Such permanent disconnections generally occur within 105 days from due date. Partial allowance is provided for active subscribers based on the historical loss experience and aging profile of the receivable.

Traffic settlement receivables - net. Full allowance is provided for carrier accounts which are over 360 days past due and after a review of the status of settlement with other carriers.

Inventories and Supplies

Inventories and supplies which include, among other things, cellular phone units, materials, spare parts, terminal units and accessories, are valued at the lower of cost and net realizable value.

Cost is determined using the moving average method. Net realizable value is the current replacement cost.

Interest-bearing Financial Liabilities

All loans and borrowings are initially recognized at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the effective interest method.

Gains and losses are recognized in the statements of income when the liabilities are derecognized as well as through the amortization process.

Financial Assets and Liabilities

We recognize a financial asset or a financial liability in our consolidated balance sheets when we become a party to the contractual provisions governing such financial asset or financial liability and derecognize a financial asset when and only when our contractual rights to the cash flows underlying such financial asset have already expired which is normally the case when the instrument is sold, or all the cash flows attributable to such financial asset are passed through to an independent third party. A financial liability (or a part of a financial liability) is derecognized when the obligation is extinguished. In the case of a regular way purchase or sale of financial assets, recognition and derecognition, as applicable, are done using settlement date accounting.

Financial assets or financial liabilities are recognized initially at fair value. Transaction costs are included in the initial measurement of all financial assets and liabilities, except for financial instruments measured at fair value through profit and loss. Fair value is determined by reference to the transaction price or other market prices. If such market prices are not reliably determinable, the fair value of the consideration is estimated as the sum of all future cash payments or receipts, discounted using the prevailing market rates of interest for similar instruments with similar maturities.

After initial recognition, the following financial assets and liabilities are measured at amortized cost using the effective interest rate method: (a) loans and receivables; (b) held-to-maturity investments; and (c) financial liabilities other than liabilities measured at fair value through profit and loss.

Investments in unquoted equity securities and derivatives linked thereon are measured at cost.

Amortizations of discounts and premiums are taken directly to net profit or loss for the period. Changes in the fair value of financial assets and liabilities measured at fair value of (a) all derivatives (except for those eligible for hedge accounting); (b) other items intended to be actively traded; and (c) any item designated as held at fair value through profit and loss at origination, are taken directly to net profit or loss for the period. Changes in the fair value of available-for-sale securities are recognized in equity, except for the foreign exchange fluctuations on available-for-sale debt securities and the interest component which is taken directly to net profit or loss for the period based on the asset's effective yield. Impairment determined for available-for-sale financial assets are also recognized in net profit or loss for the period.

Financial assets and liabilities include financial instruments which may be a primary instrument, such as receivables, payables and equity securities, or a derivative instrument, such as financial options, futures and forwards, interest rate swaps and currency swaps.

Financial instruments are classified as a financial liability or as equity, in accordance with the substance of the contractual arrangement underlying such financial instruments. Financial instruments that contain both liability and equity elements are classified separately as financial assets, financial liabilities or equity instruments. Interests, dividends, gains and losses relating to a financial instrument or a component that is a financial liability, are reported as expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity, net of any related income tax benefits. Financial instruments are offset when we have a legally enforceable right to offset and we intend to settle either on a net basis or to realize the asset and settle the liability simultaneously.

We use derivative financial instruments such as long-term currency swaps, foreign currency options, interest rate swaps and forward currency contracts to hedge our risks associated with foreign currency and interest rate fluctuations. Such derivative financial instruments are stated at fair value.

Our criteria for a derivative instrument to be classified as a hedge include: (1) that the hedge transaction is expected to be highly effective in achieving offsetting changes in fair value or cash flows attributable to the hedged risk, (2) that the effectiveness of the hedge can be reliably measured, (3) that there is adequate documentation of the hedging relationships at the inception of the hedge, and (4) for cash flow hedges, that the forecast transaction that is the subject of the hedge must be highly probable and must present an exposure to variations in cash flows that could ultimately affect profit or loss.

For purposes of hedge accounting, hedges are classified as either fair value hedges where they hedge the exposure to changes in the fair value of a recognized asset or liability and firm commitment; or cash flow hedges where they hedge exposure to variability in cash flows that is either attributable to a particular risk associated with a recognized asset or liability or a forecasted transaction.

In relation to fair value hedges which meet the conditions for special hedge accounting, any gain or loss from re-measuring the hedging instrument at fair value is recognized immediately in the consolidated statements of income. Any gain or loss on the hedged item attributable to the hedged risk is adjusted against the carrying amount of the hedged item and recognized in the consolidated statements of income.

In relation to cash flow hedges, the portion of the gain or loss on the hedging instrument that is determined to be an effective hedge is recognized directly in equity and the ineffective portion is recognized in net profit or loss. The gains or losses that are accumulated in equity are transferred to the consolidated statement of income in the same period in which the hedged item affects the net profit or loss.

For derivatives that do not qualify for hedge accounting, any gains or losses arising from changes in fair value are taken directly to net profit or loss for the period.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or exercised, or no longer qualifies for hedge accounting. At that point in time, any cumulative gains or losses on the hedging instrument recognized in equity are kept in equity until the forecast transaction occurs. If the forecast transaction is no longer expected to occur, any net cumulative gains or losses previously recognized in equity are transferred to net profit or loss for the period.

Provisions

We recognize provisions when we have present obligations, legal or constructive, as a result of past events, if it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market

assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as additional provisions. Where we expect some or all of a provision to be reimbursed, the reimbursement is recognized.

Retirement Benefits

We have funded, retirement plans, administered by our respective Fund s Trustees, covering permanent employees. Retirement costs are actuarially determined using the projected unit credit of accrued benefit valuation method. This method reflects services rendered by employees to the date of valuation and incorporates assumptions concerning employees projected salaries. Retirement costs include current service cost plus amortization of past service cost, experience adjustments and changes in actuarial assumptions. Past service cost is recognized as an expense on a straight-line basis over the average period until the benefits become vested. Actuarial gains and losses are recognized as income or expense when the net cumulative unrecognized actuarial gains and losses at the end of the previous reporting period exceeded 10% of the higher of the defined benefit obligation and the fair value of plan assets at that date. These gains and losses are recognized over the expected average remaining working lives of the employees participating in the plan.

Share-Based Payment Transactions

Certain of our employees (including directors) receive remuneration in the form of share-based payment transactions, whereby employees render services in exchange for shares or rights over shares (equity-settled transactions).

Equity-settled transactions

The cost of equity-settled transactions with employees is measured by reference to the fair value of the stock options at the date at which they are granted. Fair value is determined using an option-pricing model, further details of which are given in *Note 21 Employee Benefits*. In valuing equity-settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of the shares of PLDT (market conditions).

The cost of equity-settled transactions is recognized, together with a corresponding increase in equity, over the period in which the performance conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award (vesting date). The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the number of awards that will ultimately vest, in the opinion of PLDT s Board of Directors, at that date, based on the best available estimate.

No expense is recognized for awards that do not ultimately vest, except for awards where vesting is conditional upon a market condition, which are treated as vesting irrespective of whether or not the market condition is satisfied, provided that all other performance conditions are satisfied.

Where the terms of an equity-settled award are modified, an expense, at a minimum, is recognized as if the terms had not been modified. An expense is recognized for any increase in the value of the transactions as a result of the modification, as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognized for the award is recognized immediately. However, if a new award is substituted for the cancelled award, and designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were modifications of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of earnings per share, see *Note 7 Earnings Per Common Share*.

Cash-settled transactions

Our Long-Term Incentive Plan, or LTIP, grants share appreciation rights, or SARs, to our eligible key executives and advisors. Under the LTIP, we recognize the services we receive from the eligible key executives and advisors, and our liability to pay for those services, as the eligible key executives and advisors render services during the vesting period. We measure our liability, initially and at each reporting date until settled, at the fair value of the SARs, by applying an option valuation model, taking into account the terms and conditions on which the SARs were granted, and the extent to which the eligible key executives and advisors have rendered service to date. We recognize any changes in fair value at each reporting date until settled, in the results of operations for the period.

Leases

Lease obligations having provisions for bargain purchase options, ownership transfer at the end of the lease term, or the present value of minimum lease payments, approximate the fair market value of the property, are capitalized. Any initial direct costs of the lessee are added to the amount capitalized. The related obligations are recognized as liabilities. Finance lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability.

A finance lease gives rise to a depreciation expense for the asset as well as a borrowing cost for each period. Finance charges are charged directly to current operations in the period such are incurred. The depreciation policy for leased assets is consistent with that for depreciable assets that are owned.

Leases where the lessor retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. Operating lease payments are recognized as an expense in the consolidated statements of income on a straight-line basis over the lease term. For income tax reporting purposes, expenses that should have been incurred under a lease agreement are considered as deductible expenses.

Revenue Recognition

Revenues for services are stated at amounts invoiced to customers, excluding value-added tax, or VAT. We provide wireless communication services, fixed line communication services, and information and communications technology services. We provide such services to mobile, business, residential and payphone customers. Revenues represent the value of fixed consideration that have been received or are receivable. Revenues are recognized when there is evidence of an arrangement, collectibility is reasonably assured and the delivery of the product or service has occurred. In certain circumstances, revenue is split into separately identifiable components and recognized when the related components are delivered in order to reflect the substance of the transactions. The value of components is determined using verifiable objective evidence. We do not provide our customers with the right to a refund.

Service revenues

Subscriptions

We provide telephone and data communication services under prepaid and postpaid payment arrangements. Revenues, including fees for installation and activation, are accrued upon subscription.

Air time, traffic and value-added services

Prepaid service revenues collected in advance are deferred and recognized based on the earlier of actual usage or upon expiration of the usage period. Interconnection revenues for call termination, call transit, and network usage are recognized in the period the traffic occurs. Revenues related to local, long distance, network-to-network, roaming and international call connection services are recognized when the call is placed or connection is provided, net of amounts payable to other telecommunication carriers for terminating calls in their territories. Revenues related to products and value-added services are recognized upon delivery of the product or service.

Directory services

Revenues related to published directory services are recognized on a pro rata basis over the period in which the publication expires, which is generally 12 months. Telephone-based directory service revenues are recognized when the service is provided.

Incentives

We record insignificant commission expense based on the number of new subscriber connections initiated by certain dealers. All other cash incentives provided to dealers and customers are recorded as a reduction of revenue. Product-based incentives provided to dealers and customers as part of a transaction are accounted for as multiple element arrangements and recognized when earned.

Non-service revenues

Handset and equipment sales

Sales of cellular handsets and communication equipment are recognized upon delivery to the customer.

Others

Interest income is recognized as it accrues on a time proportion basis taking into account the principal amount outstanding and the effective interest rate.

Income Taxes

Current tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the tax authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted as at the balance sheet date.

Deferred tax

Deferred income tax is provided using the balance sheet liability method on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognized for all taxable temporary differences. Deferred income tax assets are recognized for all deductible temporary differences, carryforward of unused tax credits from excess minimum corporate income tax, or MCIT, and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and carryforward of unused tax credits and unused tax losses can be utilized. Deferred income tax, however, is not recognized when it arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax liabilities are not provided on non-taxable temporary differences associated with investments in domestic subsidiaries and associates. With respect to investments in other subsidiaries and associates, deferred tax liabilities are recognized except when the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Unrecognized deferred income tax assets are reassessed at each balance sheet date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted as at the balance sheet date.

Income tax relating to items recognized directly in equity is included in the related equity account and not in the consolidated statements of income.

Earnings Per Common Share, or EPS

Basic EPS is calculated by dividing the net income for the period attributable to common shareholders (net income adjusted for dividends on all series of preferred shares except for dividends on preferred stock subject to mandatory redemption) by the weighted average number of common shares outstanding during the period, after giving retroactive effect to any stock dividend declarations.

Diluted EPS is calculated in the same manner assuming that, at the beginning of the period or at the time of issuance during the period, all outstanding options are exercised and convertible preferred shares are converted to common shares and appropriate adjustments to net income are effected for the related expenses and income on preferred shares. Outstanding stock options will have a dilutive effect under the treasury stock method only when the average market price of the underlying common share during the period exceeds the exercise price of the option.

Where the effect of the assumed conversion of the preferred shares and the exercise of all outstanding options have an anti-dilutive effect, basic and diluted EPS are stated at the same amount.

If the required dividends to be declared on each series of convertible preferred shares divided by the number of equivalent common shares, assuming such convertible preferred shares are converted to common shares, would decrease the basic EPS, then such convertible preferred shares would be deemed dilutive. As such, the diluted EPS will be calculated by dividing net income attributable to common shareholders (net income, adding back any dividends and/or other charges recognized in the period related to the dilutive convertible preferred shares classified as liability, less dividends on non-dilutive preferred shares except for dividends on preferred stock subject to mandatory redemption) by the weighted average common shares including the common share equivalent arising from the conversion of the dilutive convertible preferred shares.

3. Management's Use of Estimates and Judgments

Our unaudited consolidated financial statements prepared in Philippine GAAP require management to make estimates and assumptions that affect amounts reported in our unaudited consolidated financial statements and related notes. In preparing our unaudited consolidated financial statements, we have made our best estimates and judgments of certain amounts, giving due consideration to materiality. We believe the following represents a summary of these significant estimates and judgments and related impacts and associated risks to our unaudited consolidated financial statements.

Estimating useful lives of property, plant and equipment

We estimate the useful lives of our property, plant and equipment based on the periods over which our assets are expected to be available for use. The estimated useful lives of our property, plant and equipment are reviewed at least annually and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of our assets. In addition, our estimation of the useful lives of our property, plant and equipment is based on our collective assessment of industry practice, internal technical evaluation and experience with similar assets. It is possible, however, that future results of operations could be materially affected by changes in our estimates brought about by changes in the factors mentioned above. The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances.

A reduction in the estimated useful lives of our property, plant and equipment would increase our recorded operating expenses and decrease our noncurrent assets. Total carrying values of property, plant and equipment amounted to Php173,832 million and Php176,974 million as at June 30, 2006 and December 31, 2005, respectively.

Goodwill and intangible assets

Purchase accounting requires extensive use of accounting estimates and judgments to allocate the purchase price to the fair market values of the acquiree's identifiable assets and liabilities at the acquisition date. It also requires the acquiree to recognize goodwill. Our business acquisitions have resulted in goodwill and intangible assets, which are subject to a periodic impairment test and amortization, respectively.

Total carrying values of goodwill and intangible assets as at June 30, 2006 and December 31, 2005 amounted to Php3,312 million and Php3,049 million, respectively. There are no impairment losses recognized for the six months ended June 30, 2006 and 2005.

Asset impairment

Philippine GAAP requires that an impairment review be performed when certain impairment indicators are present. In the case of goodwill, at a minimum, such asset is subject to a yearly impairment test and whenever there is an indication that such asset may be impaired. This requires an estimation of the value in use of the cash-generating units to which the goodwill is allocated. Estimating the value in use requires us to make an estimate of the expected future cash flows from the cash generating unit and to choose a suitable discount rate in order to calculate the present value of those cash flows.

Determining the fair values of property, plant and equipment, investments and intangible assets, which requires the determination of future cash flows expected to be generated from the continued use and ultimate disposition of such assets, requires us to make estimates and assumptions that can materially affect our unaudited consolidated financial statements. Future events could cause us to conclude that property, plant and equipment, investments and intangible assets associated with an acquired business are impaired. Any resulting impairment loss could have a material adverse impact on our financial condition and results of operations.

The preparation of estimated future cash flows involves significant judgments and estimations. While we believe that our assumptions are appropriate and reasonable, significant changes in our assumptions may materially affect our assessment of recoverable values and may lead to future additional impairment charges under Philippine GAAP.

Investment properties

We have adopted the fair value approach in determining the carrying value of our investment properties. We have opted to rely on independent appraisers to determine the fair values of our investment properties, and such fair values were determined based on recent prices of similar properties, with adjustments to reflect any changes in economic conditions since the date of those transactions. The amounts and timing of recorded changes in fair value for any period would differ if we made different judgments and estimates or utilized a different basis for determining fair value.

Total carrying values of investment properties as at June 30, 2006 and December 31, 2005 amounted to Php691 million and Php701 million, respectively.

Deferred tax assets

We review the carrying amounts of deferred tax assets at each balance sheet date and reduce these to the extent that they are no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. However, there is no assurance that we will generate sufficient taxable profit to allow all or part of our deferred tax assets to be utilized.

Total unrecognized deferred tax assets as at June 30, 2006 amounted to Php2,896 million.

Financial assets and liabilities

Philippine GAAP requires that we carry certain of our financial assets and liabilities at fair value, which requires extensive use of accounting estimates and judgments. In addition, certain liabilities acquired through debt exchange and restructuring are required to be carried at fair value at the time of the debt exchange and restructuring, see *Note 24*

Financial Assets and Liabilities. While significant components of fair value measurement were determined using verifiable objective evidence (i.e., foreign exchange rates, interest rates, volatility rates), the amount of changes in fair value would differ if we utilized a different valuation methodology. Any change in fair value of these financial assets and liabilities would directly affect our profit and loss and equity.

Total fair value of financial assets and liabilities as at June 30, 2006 amounted to Php38,535 million and Php127,072 million, respectively, while the total fair value of financial assets and liabilities as at December 31, 2005 amounted to Php43,063 million and Php148,848 million, respectively.

Estimating allowance for doubtful accounts

We estimate the allowance for doubtful accounts related to our trade receivables based on two methods. The amounts calculated using each of these methods are combined to determine the total amount we reserve. First, we evaluate specific accounts where we have information that certain customers are unable to meet their financial obligations. In these cases, we use judgment, based on the best available facts and circumstances, including but not limited to, the length of our relationship with the customer and the customer's current credit status based on third party credit reports and known market factors, to record specific reserves for customers against amounts due to reduce our receivables to amounts that we expect to collect. These specific reserves are re-evaluated and adjusted as additional information received affects the amounts estimated. Second, a general provision is established as a certain percentage of operating revenues based on the aging profile of receivables. This percentage is based on a collective assessment of historical collection, write-off experience, current economic trends, changes in our customer payment terms and other factors that may affect our ability to collect payments. Full allowance is provided for receivables from permanently disconnected subscribers and carriers. Such permanent disconnections generally occur within 105 days from due date. Partial allowance is provided for active subscribers and carriers based on the age status of receivables.

The amounts and timing of recorded expenses for any period would differ if we made different judgments or utilized different estimates. An increase in our allowance for doubtful accounts would increase our recorded operating expenses and decrease our current assets.

Provision for doubtful accounts amounted to Php435 million and Php1,526 million for the six months ended June 30, 2006 and 2005, respectively. Trade and other receivables, net of allowance for doubtful accounts, amounted to Php7,844 million and Php7,113 million as at June 30, 2006 and December 31, 2005, respectively.

Revenue recognition

Our revenue recognition policies require us to make use of estimates and assumptions that may affect the reported amounts of our revenues and receivables.

Our agreements with domestic and foreign carriers for inbound and outbound traffic subject to settlements require traffic reconciliations before actual settlement is done, which may not be the actual volume of traffic as measured by us. Initial recognition of revenues is based on our observed traffic adjusted by our normal experience adjustments, which historically are not material to our unaudited consolidated financial statements. Differences between the amounts initially recognized and actual settlements are taken up in the accounts upon reconciliation. However, there is no assurance that such use of estimates will not result in material adjustments in future periods.

Revenues under a multiple element arrangement specifically applicable to our wireless business were split into separately identifiable components and recognized when the related components were delivered in order to reflect the substance of the transaction. The fair value of components was determined using verifiable objective evidence. Revenue for handset sales has been quantified and identified separately using the residual value method from our cellular service revenue.

Pension and other retirement benefits

The determination of our obligation and cost for pension and other retirement benefits is dependent on our selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions are described in *Note 21 Employee Benefits* and include, among other things, discount rates, expected returns on plan assets and rates of compensation increase. In conformity with Philippine GAAP, actual results that differ from our assumptions are recognized as income or expense when the net cumulative unrecognized actuarial gains and losses at the end of the previous reporting period exceed 10% of the higher of the defined benefit obligation and the fair value of plan assets at that date. While we believe that our assumptions are reasonable and appropriate, significant differences in our actual experience or significant changes in our assumptions may materially affect our pension and other retirement obligations.

Unrecognized net actuarial gain as at June 30, 2006 amounted to Php162 million. The accrued benefit cost as at June 30, 2006 and December 31, 2005 amounted to Php2,675 million and Php2,275 million, respectively.

Legal Contingencies

We are currently involved in various legal proceedings. Our estimate of the probable costs for the resolution of these claims has been developed in consultation with outside counsel handling our defense in these matters and is based upon an analysis of potential results. We currently do not believe these proceedings will have a material adverse effect on our unaudited consolidated financial statements. It is possible, however, that future results of operations could be

materially affected by changes in our estimates or in the effectiveness of our strategies relating to these proceedings, see *Note 23 Provisions and Contingencies*.

Outstanding provisions to cover these contingencies amounted to Php4,536 million and Php4,374 million as at June 30, 2006 and December 31, 2005, respectively.

4. Segment Information

Operating segments are components of PLDT that engage in business activities from which they may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of PLDT), whose operating results are regularly reviewed by the enterprise's chief operating decision maker to make decisions about how resources are to be allocated to the segment and assess their performances, and for which discrete financial information is available. The accounting policies of the reportable segments are the same as those described in *Note 2 Summary of Significant Accounting Policies and Practices*.

We have organized our business into three main segments:

- **Wireless** wireless telecommunications services provided through our cellular service providers namely, Smart and Piltel, Smart Broadband, Inc., or Smart Broadband (formerly Meridian Telekoms, Inc., or Meridian), our wireless broadband provider; Wolfpac, our wireless content operator, and satellite and very small aperture terminal, or VSAT, operators, namely PLDT's subsidiaries Mabuhay Satellite, ACeS Philippines and Telesat;
- **Fixed Line** fixed line telecommunications services are primarily provided through PLDT. We also provide fixed line services through PLDT's subsidiaries; Clark Telecom, Subic Telecom, Maratel, Piltel, BCC and PLDT Global, which together account for approximately 3% of our consolidated fixed lines service revenues; and
- **Information and Communications Technology** information and communications infrastructure and services for internet applications, internet protocol-based solutions and multimedia content delivery provided by PLDT's subsidiary ePLDT; call center services provided under one umbrella brand name *ePLDT Ventus*, including Parlance Systems, Inc., or Parlance and Vocativ Systems, Inc., or Vocativ; internet access and gaming services provided by ePLDT's subsidiaries Infocom, Digital Paradise, Digital Paradise Thailand, netGames, Airborne Access and Level Up!; and e-commerce and IT-related services provided by other investees of ePLDT, as described in *Note 9 Investments in Associates*.

The segment assets as at June 30, 2006 and December 31, 2005 and results of operations of our reportable segments for the six months ended June 30, 2006 and 2005 are as follows:

	Wireless	Fixed Line	Information and Communications Technology	Inter-segment Transactions	Total

Income subject to final tax	(303)	(228)
Income not subject to tax	(685)	(61)
Net movement in deferred income tax	(2,768)	(1,359)
Actual provision for corporate income tax	2,986	5,483

Mabuhay Satellite and Subic Telecom are registered as Subic Bay Freeport Enterprises while Clark Telecom is registered as a Clark Special Economic Zone Enterprise under R.A. No. 7227, otherwise known as the Bases Conversion and Development Act of 1992, or the Act. As registrants, Mabuhay Satellite, Subic Telecom and Clark Telecom are entitled to all the rights, privileges and benefits established thereunder including tax and duty-free importation of capital equipment and a special income tax rate of 5% of gross income, as defined in the Act.

On December 22, 2000, the Philippine Board of Investments, or BOI, approved ePLDT's registration as a new information technology, or IT, service firm in the field of services related to its internet data center on a pioneer status. As such, ePLDT enjoys, among other incentives, a six-year income tax holiday, or ITH, from January 2001.

Parlance is registered with the BOI as a new IT export service firm in the field of customer interaction center on a pioneer status. Under this registration, Parlance shall be entitled to certain tax incentives like ITH for six years starting June 2002. Parlance is required to comply with specific terms and conditions stated in its BOI registration.

iPlus Intelligent Network, Inc., or iPlus, is a wholly-owned subsidiary of ePLDT and is registered with the BOI as a new IT service firm in the field of application service provider on a pioneer status. Under such registration, iPlus is entitled to a six-year ITH incentive from the actual start of commercial operations until January 1, 2009.

Vocativ is registered with the Philippine Economic Zone Authority, or PEZA, as an Ecozone Export Enterprise to develop and operate a call center business that serves overseas clients by providing customer relationship management

services. As a registered enterprise, Vocativ is entitled to certain tax and nontax incentives which include, among other things, tax and duty-free importations, exemption from local tax and ITH for four years from start of commercial operations. After the ITH period, Vocativ is liable for a final tax, in lieu of all taxes after the expiration of its incentives. The final tax is computed at 5% of gross income less allowable deductions as defined under R.A. No. 7916, The Special Economic Zone Act of 1995, and shall be paid and remitted in accordance with the amendments contained in R.A. No. 8748, as follows: (a) 3% to the National Government; and (b) 2% which shall be directly remitted by the business establishments to the treasurer's office of the municipality or city where the enterprise is located.

On December 5, 2005, Vocativ received approval from PEZA for the adjustment of the start of commercial operations, effectively extending the ITH expiration to the end of March 2006. As at June 30, 2006, PEZA approved ITH extension for another year which effectively extends ITH expiration in April 2007.

mySecureSign, Inc., or mSSI, is a wholly-owned subsidiary of ePLDT and is registered with the BOI as a new IT service firm in the field of services related to public key infrastructure on a pioneer status. Under such registration, mSSI enjoys, among other incentives, a six-year ITH from August 1, 2001 or actual start of commercial operations, whichever comes first. mSSI started commercial operations on January 1, 2002.

ePLDT Ventus is registered with the BOI as a new IT export service firm in the field of customer interaction center on a pioneer status. Under this registration, ePLDT Ventus shall be entitled to certain tax incentives such as an ITH for six years starting March 2005. In relation to this, ePLDT Ventus is required to comply with specific terms and conditions stated in the BOI registration.

Digital Paradise is registered with the BOI as a new IT service firm in the field of community access on a non-pioneer status. Under the provisions of the registration, Digital Paradise's sales generated from its own community access activity and franchise fees shall be entitled to ITH for a period of four years beginning December 2002.

Level Up! is originally registered with the BOI as a new IT service firm in the field of application service provider on a non-pioneer status. Under such registration, Level Up! is entitled to certain tax incentives, which includes a four-year ITH from January 2003 and tax credit for taxes on duties on materials used in export products for ten years starting January 2003. On April 2004, the BOI approved Level Up!'s request for upgrading its status from non-pioneer to pioneer in connection with its IT service activity in the field of application service provider for entertainment and educational project. Accordingly, the ITH period was extended from four to six years.

Wolfpac is registered with the BOI as a new operator of service provider applications. Under the terms of its registration, it is entitled to certain tax and non-tax incentives which include, among other things, ITH for four years from February 2004.

Smart Broadband has three registered activities with the BOI on a pioneer status, namely: (i) new operator of telecommunications systems (inter-exchange carrier for data services); (ii) a new information technology service firm in the field of providing internet services; and (iii) new operator of telecommunications facilities (nationwide broadband wireless access). Under the terms of these registrations, Smart Broadband is entitled to certain tax and non-tax incentives which include, among other things, an ITH for six years from February 2001, August 2001 and July 2005, respectively.

Income derived from non-registered activities with the BOI is subject to the normal income tax rate enacted as at the balance sheet date.

Consolidated tax incentives availed for the six months ended June 30, 2006 and 2005 amounted to Php125 million and Php43 million, respectively.

On May 24, 2005, the President signed into law Republic Act No. 9337 (the Act), which took effect on November 1, 2005. The Act, among others, introduced the following changes:

- a. Regular corporate income tax rate for domestic corporations and resident/ non-resident foreign corporations increased to 35% (from 32%) beginning November 1, 2005 and the rate will be reduced to 30% beginning January 1, 2009. The regular corporate income tax rate shall be applied by multiplying the number of months covered by the new rate with the taxable income of the corporation during the period, divided by twelve months.
- b. VAT rate increased from 10% to 12% effective February 1, 2006.
- c. Input VAT on capital goods should be spread evenly over the useful life or sixty months, whichever is shorter, if the acquisition cost, excluding the VAT component thereof, exceeds one million pesos.

Input VAT credit in every quarter shall not exceed 70% of the output VAT when taxpayer is in an excess input VAT position.

Our deferred income tax assets have been recorded to the extent that such deferred tax assets are expected to be utilized against sufficient future taxable profit. We had unrecognized deferred tax asset of Php2,896 million largely pertaining to asset impairment as at June 30, 2006.

Our unaudited consolidated unutilized NOLCO as at June 30, 2006 is detailed as follows:

Year Incurred	Year Expiring	(in million pesos)
2003	2006	6
2004	2007	35
2005	2008	11,229
2006	2009	3,059
		14,329
Tax benefit at 35%		5,015
Unrecognized deferred income tax assets as at June 30, 2006 (Unaudited)		(14)
		5,001

Our unaudited consolidated MCIT as at June 30, 2006 is detailed as follows:

Year Incurred	Year Expiring	(in million pesos)
2003	2006	42
2005	2008	484
		526

7. Earnings Per Common Share

The following table presents information necessary to calculate the earnings per common share:

Substantially all our telecommunications equipment is purchased from outside the Philippines. Our significant sources of financing for such purchases are foreign loans requiring repayment in currencies other than Philippine pesos, principally in U.S. dollars (see *Note 17 Interest-bearing Financial Liabilities*). Interest, using an average capitalization rate of 9%, and net foreign exchange losses capitalized to property, plant and equipment qualified as borrowing costs for the six months ended June 30, 2006 and 2005 were as follows:

	Six Months Ended June 30, 2006 2005 (Unaudited) (in million pesos)	
Interest	302	203
Foreign exchange loss (gains)	106	(156)

As at June 30, 2006 and December 31, 2005, the undepreciated capitalized net foreign exchange losses which qualified as borrowing costs amounted to Php4,338 million and Php4,276 million, respectively.

The consolidated useful lives of the assets are estimated as follows:

Buildings	25 years
Central office equipment	15 20 years
Cable and wire facilities	10 25 years
Information origination and termination equipment	5 15 years
Communications satellite	15 years
Vehicles, furniture and other work equipment	3 10 years

Edgar Filing: PHILIPPINE LONG DISTANCE TELEPHONE CO - Form 6-K

Cellular facilities	3	10 years
Land improvements		10 years

We recognized additional depreciation and amortization charges of Php4,233 million and Php240 million for the six months ended June 30, 2006 and 2005, respectively, due to a change in the estimated useful lives of certain of our network assets owing to continuing network upgrade and expansion.

Property, plant and equipment includes the following amounts for capitalized leases as at June 30, 2006 and December 31, 2005:

	June 30, 2006 (Unaudited)			December 31, 2005 (Audited)		
	Central office equipment	Vehicles, furniture and other network equipment	Total	Central office equipment	Vehicles, furniture and other network equipment	Total
Cost	447	1,082	1,529	361	1,039	1,400
Less accumulated depreciation	331	852	1,183	293	719	1,012
	116	230	346	68	320	388

(in million pesos)

The following table summarizes all changes to the asset retirement obligations as at June 30, 2006 and December 31, 2005:

	June 30, 2006 (Unaudited)	December 31, 2005 (Audited)
Asset retirement obligations at beginning of period	752	638
Accretion expenses	43	79
Additional liability recognized during the period	14	63
Settlement of obligations	(4)	(28)
Asset retirement obligations at end of period (Note 18)	805	752

(in million pesos)

9. Investments in Associates

This account consists of:

	June 30, 2006 (Unaudited)	December 31, 2005 (Audited)
	(in million pesos)	
ACeS International Limited, or AIL	1,614	1,614
Mabuhay Space Holdings Limited	1,017	1,013
Stradcom International Holdings, Inc.	616	616
Philweb Corporation	427	
BayanTrade Dotcom, Inc.	97	97
ePDS, Inc.	6	6
	3,777	3,346
Less accumulated impairment losses and equity share in net losses of associates	3,332	3,331
Total cost and accumulated impairment losses and equity share in net losses of associates	445	15

Investment of ACeS Philippines in AIL

As at June 30, 2006, ACeS Philippines has a 20% investment in AIL, a company incorporated under the laws of Bermuda. AIL owns the Garuda I Satellite and the related system control equipment in Batam, Indonesia.

In December 1998, AIL and its 95% owned subsidiary, PT Asia Cellular Satellite, entered into an Amended and Restated Credit Agreement, or Amended Agreement, to amend the original Credit Agreement entered into by PT Asia Cellular Satellite and its bank creditors in 1997. Under the Amended Agreement, AIL has, among others, assigned to the banks as collateral all of its tangible properties, including the Garuda I Satellite, the system control facilities and system control equipment. On September 30, 2002, PT Asia Cellular Satellite, AIL, as guarantor, P.T. Bank Internasional Indonesia, as security agent, and various banks signed the Rescheduling Agreement, which amended the terms of the Amended and Restated Credit Agreement dated December 29, 1998, moving the principal repayment dates to agreed periods with the final maturity date on January 31, 2012, see *Note 20 Related Party Transactions*.

AIL has incurred recurring significant operating losses, negative operating cash flows, and significant levels of debt. The financial condition of AIL was partly due to the National Service Providers, or NSPs, inability to generate the amount of revenues originally expected as the growth in subscriber numbers have been significantly lower than budgeted. These factors raise substantial doubt about AIL's ability to continue as a going concern. On this basis, we recognized an impairment provision in respect of our investment in AIL amounting to Php1,614 million in 2003.

Investment of Mabuhay Satellite in Mabuhay Satellite Space Holdings Limited, or MSHL

In 1996, Mabuhay Satellite entered into a Joint Venture Agreement, or JVA, with Space Systems/Loral Inc., or SS/L, to form MSHL for the purpose of providing high-power Ku-Band satellite transmission services using the payload which was added by SS/L aboard Agila II. Under the terms of the JVA, SS/L is required to convey title to the additional payload service to MSHL in consideration for SS/L's 35% equity interest in MSHL and Mabuhay Satellite is required to pay SS/L US\$19 million for a 65% equity interest in MSHL.

In 2000, SS/L filed a Notice of Default and Termination against Mabuhay Satellite arising from the latter's alleged failure to amicably resolve its unpaid obligation to SS/L under the JVA. In 2002, the arbitration panel handed down its decision and provided for payment by Mabuhay Satellite to SS/L of the principal amount of US\$10 million plus accrued interest at 9% per annum. On June 30, 2003, Mabuhay Satellite and SS/L concluded a US\$15 million settlement agreement under which Mabuhay Satellite leased two transponders under a transponder agreement on a life-term basis to SS/L and had offset the lease charges due from SS/L and its receivables from Loral Skynet Network Services, Inc. (formerly known as the Loral Cyberstar, Inc.), among others, for a full and final settlement of the arbitration decision. The agreement was subsequently approved by Mabuhay Satellite's creditors in March 2004.

In accordance with the settlement agreement, Mabuhay Satellite and SS/L shall proceed to dissolve the joint venture under a separate agreement, for which each of the parties shall receive title over such number of transponders owned by the joint venture in proportion to their respective interests. On the basis of the joint venture dissolution, we recognized an impairment provision in respect of our investment in MSHL of Php431 million in 2004.

Investment of ePLDT in Stradcom International Holdings, Inc., or SIHI

ePLDT has a 22.5% interest in convertible securities of SIHI, the parent company of Stradcom Corporation, which has an existing concession agreement with the Philippine Government for the modernization of the Philippine Land Transportation Office, including the computerization of driver's license issuance, vehicle registration and traffic adjudication systems. SIHI has been incurring losses from the start of operations due to Stradcom Corporation's continuous losses and consistent excess of current liabilities over current assets. On this basis, we recognized an impairment provision in respect of our investment in SIHI of Php616 million in 2004.

Investment of ePLDT in Philweb Corporation, or Philweb

In May 2006, ePLDT subscribed to newly issued common shares of Philweb equivalent to 20% of the total outstanding capital stock at a price of Php2 centavos per share or an aggregate amount of Php502 million. Of the total subscription price, Php427 million was paid by ePLDT on closing date. The portion of the unpaid subscription price amounting to Php25 million shall be paid by ePLDT at the same time as the Philweb majority stockholder pays the remaining unpaid portion of the subscription pursuant to a general call on subscription to be made by Philweb's board of directors. The balance of Php50 million shall be paid upon the lapse of the post-closing price adjustment periods.

Philweb is primarily engaged in internet-based gaming, through its appointment as Principal Technology Service Provider under the Marketing Consultancy Agreement for Internet Sports Betting and Internet Casino with the Philippine Amusement and Gaming Corporation, or PAGCOR. As of end April 2006, Philweb offers Internet Sports Betting in over 230 PAGCOR Internet Sports Betting Stations and over 40 Internet Casino Stations nationwide. Philweb is the first Philippine internet company to be listed on the PSE.

Investment of ePLDT in BayanTrade Dotcom, Inc., or BayanTrade

BayanTrade was incorporated and registered with the Securities and Exchange Commission, or SEC, on August 8, 2000 to provide: (a) business-to-business electronic purchasing marketplace to link buyers and suppliers of good services over the Internet; (b) electronic catalogue purchasing facilities over the Internet to buyers and suppliers; (c) link-up with similar horizontal markets and vertical markets across the Asia-Pacific Region and the world; and (d) such facilitating services incidental to the business. BayanTrade is an e-procurement joint venture established together with six of the Philippines leading conglomerates. ePLDT's initial shareholding in BayanTrade was originally 20.5%, which was subsequently diluted to 19.17% in August 2004 due to an equity call to which ePLDT did not subscribe.

In September 2005, ePLDT received 4,794,615 bonus warrants from BayanTrade which entitles ePLDT to purchase 2,794,615 common shares at a price of Php0.50 per share at any time on or before August 31, 2010.

Investment of ePLDT in ePDS, Inc., or ePDS

On June 30, 2003, ePLDT signed a JVA with DataPost Pte Ltd., or DataPost, a subsidiary of Singapore Post, and G3 Worldwide ASPAC, or Spring, pursuant to which the parties formed ePDS, a bills printing company which will do laser printing and enveloping services for statements, bills and invoices, and other value-added services to companies in the Philippines. ePLDT has a 50% interest in ePDS, while DataPost has a 30% interest. Spring, the largest international mail services provider, owns the remaining 20%. ePDS has an initial paid-up capital of Php11 million.

In October 2005, ePDS Board of Directors approved the declaration of a 100% stock dividend on its common stock equivalent to Php11 million. The stock dividends were issued from the increase in authorized capital stock of ePDS which was approved by the SEC in June 2006.

Summarized Financial Information of Equity Investees

The following table presents summarized financial information in conformity with Philippine GAAP for equity investees for which we have significant influence as at June 30, 2006 and December 31, 2005 and for the six months ended June 30, 2006 and 2005.

	June 30, 2006 (Unaudited)	December 31, 2005 (Audited)
	(in million pesos)	
Noncurrent assets	1,471	1,388
Current assets	1,066	652
Capital deficiency	(10,360)	(10,787)
Noncurrent liabilities	11,105	11,242
Current liabilities	1,792	1,585

	Six Months Ended June 30, 2006 (Unaudited)	
	(in million pesos)	
Revenues	353	412
Revenues less cost of revenues	267	318
Expenses	238	276
Net loss	(231)	(188)

10. Investment Properties

	June 30, 2006 (Unaudited)	December 31, 2005 (Audited)
	(in million pesos)	
Balance at beginning of period	701	743
Disposals	(10)	(15)
Net loss from fair value adjustments		(27)
Balance at end of period	691	701

Investment properties are stated at fair values, which has been determined based on the latest valuations performed by an independent firm of appraisers. The valuation undertaken was based on an open market value, supported by market evidence in which assets could be exchanged between a knowledgeable willing buyer and a knowledgeable willing seller in an arms-length transaction at the date of valuation, in accordance with international valuation standards.

11. Goodwill and Intangible Assets

Movements in the goodwill and intangible assets during the periods are as follows:

	June 30, 2006 (Unaudited)			December 31, 2005 (Audited)		
	Goodwill	Intangible assets	Total	Goodwill	Intangible assets	Total
	(in million pesos)					
Cost:						
Balance at beginning of period	1,942	1,991	3,933	1,934	1,991	3,925
Additions	348	55	403	8		8
Balance at end of period	2,290	2,046	4,336	1,942	1,991	3,933
Accumulated amortization and impairment:						
Balance at beginning of period	(438)	(446)	(884)	(438)	(181)	(619)
Additions		(140)	(140)		(265)	(265)
Balance at end of period	(438)	(586)	(1,024)	(438)	(446)	(884)
Net balance	1,852	1,460	3,312	1,504	1,545	3,049

Intangible assets include technology application with an estimated useful life of three years arising from the acquisition of Wolfpac and certain intangible assets arising from the acquisition of Smart Broadband in 2004. In December 2005, an independent appraiser completed the valuation work for certain of Smart Broadband's intangible assets and determined goodwill amounting to Php1,415 million at the time of acquisition. Smart Broadband's intangible asset composition and estimated useful lives were revised as follows:

Licenses	18 years
Spectrum	15 years
Technology	5 years
Customer base	3 years

In 2006, ePLDT acquired a 60% equity interest in Level Up!, to strengthen our on-line gaming business. Fair value of Level Up! s net assets, determined provisionally, was assessed to be equal to its book value, which resulted in goodwill amounting to Php348 million at the time of acquisition. Intangible assets pertaining to Level Up! s customer base was provisionally determined at Php55 million with an estimated useful life of three years.

12. Notes Receivable

Investment of ePLDT in Debt Securities of Technology Support Services, Inc., or TSSI (formerly First Advance Multi-Media Entertainment Corp., or FAME)

On June 1, 2004, ePLDT and FAME entered into an agreement whereby ePLDT would grant a seven-year zero-coupon loan to FAME amounting to US\$3.1 million. Upon maturity of the loan, which is at the end of seven (7) years from issuance, ePLDT may require FAME to redeem or pay the loan at a redemption value amounting to US\$6.1 million. At any time during the life of the outstanding loan, ePLDT may convert the loan into 20% of the total outstanding capital stock of FAME.

On August 20, 2004, FAME changed its corporate name to TSSI.

On September 14, 2004, ePLDT entered into a second agreement with TSSI whereby ePLDT would grant another seven-year zero coupon loan to TSSI amounting to US\$3.1 million with the same terms and features as the first loan. As at December 31, 2005, the aggregate loans of ePLDT to TSSI amounted to US\$6.2 million.

As at June 30, 2006, ePLDT has not yet converted its investment in debt securities into TSSI s shares of stock. TSSI is a systems integrator for the internet and mobile telephone gaming project.

The debt instrument was initially recorded at fair value computed as the present value of estimated future cash flows and subsequently measured at amortized cost at effective yield.

13. Cash and Cash Equivalents

This account consists of:

	June 30, 2006 (Unaudited)	December 31, 2005 (Audited)
	(in million pesos)	
Cash on hand and in banks	2,928	6,496
Temporary cash investments	23,038	23,568
	25,966	30,064

Cash in banks earn interest at prevailing bank deposit rates. Temporary cash investments are made for varying periods of up to two months depending on our immediate cash requirements, and earn interest at the prevailing short-term deposit rates. Due to the short-term nature of such transactions, the carrying value approximates the fair value of our temporary cash investments.

14. Trade and Other Receivables

This account consists of receivables from:

	June 30, 2006 (Unaudited)	December 31, 2005 (Audited)
	(in million pesos)	
Customers and carriers	23,955	24,475
Others (Notes 20, 22 and 23)	1,377	1,184
	25,332	25,659
Less allowance for doubtful accounts	17,488	18,546
	7,844	7,113

Receivables from carriers represent receivables arising from interconnection agreements with other telecommunications carriers. The aforementioned receivable balances are shown net of related payables to the same

telecommunications carriers because an established right of offset exists.

On October 10, 2002, PLDT entered into a Receivables Purchase Deed, or RPD, with a foreign financial institution, or the Purchaser, under which PLDT agreed (1) to sell its receivables from certain eligible foreign carriers for an advance payment of US\$50 million, of which, US\$7 million remains outstanding as at June 30, 2006, and (2) to service, administer and collect the receivables on behalf of the Purchaser. Under the RPD, the Purchaser has no recourse against PLDT should an eligible carrier fail or refuse to settle the assigned/purchased receivables, except when PLDT commits a breach of its representations and warranties under the RPD.

Sale of receivables under the RPD amounted to US\$3 million (Php152 million) and US\$6 million (Php338 million) for the six months ended June 30, 2006 and 2005, respectively. Loss on sale of receivables under the RPD amounted to US\$0.34 million (Php17 million) and US\$0.67 million (Php37 million) for the six months ended June 30, 2006 and 2005, respectively.

15. Inventories and Supplies

This account consists of:

	June 30, 2006 (Unaudited)	December 31, 2005 (Audited)
	(in million pesos)	
Terminal and cellular phone units:		
At net realizable value	759	806
At cost	1,058	1,024
Spare parts and supplies:		
At net realizable value	1,720	493
At cost	2,622	1,376
Others:		
At net realizable value	183	249
At cost	183	249
At lower of cost or net realizable value	2,662	1,548

Preferred Stock

The preferred stock is non-voting, except as specifically provided by law, and is preferred as to liquidation.

The Series A to FF 10% Cumulative Convertible Preferred Stocks earn cumulative dividends at an annual rate of 10%. After the lapse of one (1) year from the last day of the year of issuance of a particular series of 10% Cumulative Convertible Preferred Stock, any holder of such series may convert all or any of the shares of 10% Cumulative Convertible Preferred Stock held by him into fully paid and non-assessable shares of Common Stock of PLDT, at a conversion price equivalent to 10% below the average of the high and low daily sales price of a share of Common Stock on the PSE, or if there shall have been no such sales on the PSE on any day, the average of the bid and the asked prices of a share of Common Stock of PLDT at the end of such day on such Exchange, in each such case averaged over a period of 30 consecutive trading days prior to the conversion date, but in no case shall the conversion price be less than the price set by the Board of Directors which, as at June 30, 2006, was Php5.00 per share. The number of shares of Common Stock issuable at any time upon conversion of one share of subscriber investment plan, or SIP. Cumulative Convertible Preferred Stock shall be determined by dividing Php10.00 by the then applicable conversion price.

In case the shares of Common Stock at anytime outstanding shall be subdivided into a greater or consolidated into a lesser number of shares, then the minimum conversion price per share of Common Stock shall be proportionately decreased or increased, as the case may be, and in the case of a stock dividend, such price shall be proportionately decreased, provided, however, that in every case the minimum conversion price shall not be less than the par value per share of Common Stock. In the event the relevant effective date for any such subdivision or consolidation of shares or stock dividend occurs during the period of 30 trading days preceding the presentation of any shares of 10% Cumulative Convertible Preferred Stock for conversion, a similar adjustment shall be made in the sales prices applicable to the trading days prior to such effective date utilized in calculating the conversion price of the shares presented for conversion.

In case of any other reclassification or change of outstanding shares of Common Stock, or in case of any consolidation or merger of PLDT with or into another corporation, the Board of Directors shall make such provisions, if any, for adjustment of the minimum conversion price and the sales price utilized in calculating the conversion price as the Board of Directors, in its sole discretion, shall be deemed appropriate.

At PLDT's option, the Series A to FF 10% Cumulative Convertible Preferred Stocks are redeemable at par value plus accrued dividends five years after the year of issuance.

On December 6, 2005, the Board of Directors designated 100,000 shares of serial preferred stock as Series GG 10% Cumulative Convertible Preferred Stock for issuance throughout 2006. Confirmation of exemption of this transaction under Section 10.2 of the Securities Regulation Code is still pending with the SEC.

The Series III Convertible Preferred Stock earns cumulative dividends at an annual rate of US\$3.50 a share payable quarterly, free and clear of Philippine withholding taxes. It is convertible into Common Stock at the option of the holder at any time, at the conversion price of US\$29.19 per share of Common Stock (equivalent to a conversion ratio of 1.7129 shares of Common Stock for each share of Series III Convertible Preferred Stock, each share of Series III Convertible Preferred Stock being valued for this purpose at its reference amount of US\$50 a share), subject to adjustment in certain events, and is not redeemable.

On October 24, 2005, PLDT issued to JPMorgan, as depositary, and to the holders of the Series III Convertible Preferred Stock a notice of mandatory conversion of all of its outstanding 4,616,200 Series III Convertible Preferred Stock into shares of PLDT Common Stock. The conditions for mandatory conversion under the terms of the Series III Preferred Stock have been satisfied, including:

(i) that the average closing price of PLDT's ADSs for the 30-day period ending seven days prior to the date in which notice of the mandatory conversion was given was above US\$29.19 a share (ii) that there were no dividends in arrears on any shares of the Series III Convertible Preferred Stock, and (iii) that PLDT had sufficient distributable reserves to pay the fixed preferential dividends on the shares of Series III Convertible Preferred Stock, calculated down to and including the mandatory conversion date.

In November 2005, PLDT issued 710,891 shares of common stock on account of the voluntary conversion of 415,023 shares of Series III Convertible Preferred Stock.

As at December 19, 2005, all of the outstanding shares of Series III Convertible Preferred Stock were mandatorily converted into PLDT Common Stock (the Mandatory Conversion Date) wherein each share of Series III Convertible Preferred Stock was converted into 1.7129 shares of Common Stock.

The Series IV Cumulative Non-Convertible Redeemable Preferred Stock earns cumulative dividends at an annual rate of 13.5% based on the paid-up subscription price. It is redeemable at the option of PLDT at any time one year after subscription and at the actual amount paid for such stock, plus accrued dividends. On February 26, 2002, the Board of Directors called for the payment of a portion of the balance of the subscription price of the Series IV Cumulative Non-Convertible Redeemable Preferred Stock amounting to Php72 million, which was paid on March 5, 2002. On March 22, 2002, PLDT redeemed 60 million shares out of the 360 million subscribed shares of its Series IV Cumulative Non-Convertible Preferred Stock and paid Php72 million, representing the redemption price plus unpaid dividends up to the date of redemption.

The provisions of certain subscription agreements involving preferred stock have an effect on the ability of PLDT to, without written consent, sell certain assets and pay cash dividends unless all dividends for all past quarterly dividend periods have been paid and provision has been made for the currently payable dividends.

17. Interest-bearing Financial Liabilities

This account consists of the following:

	June 30,	December 31, 2005
	2006 (Unaudited)	(Audited)
	(in million pesos)	
Long-term portion of interest-bearing financial liabilities - net of current portion:		
Long-term debt (Note 24)	72,410	84,860
Obligations under capital lease (Notes 8 and 24)	269	381
Preferred stock subject to mandatory redemption (Note 24)	9,854	11,974
	82,533	97,215

(1) July 1, 2006 through December 31, 2006

U.S. Dollar Debt:

Export Credit Agencies-Supported Loans

In order to obtain imported components for our network infrastructure in connection with our expansion and service improvement programs, we obtained loans extended and/or guaranteed by various export credit agencies. These financings account for a significant portion of our indebtedness.

Kreditanstalt für Wiederaufbau, or KfW

KfW, a German state-owned development bank, is PLDT's largest single creditor. As at June 30, 2006, we owed US\$224 million aggregate principal amount of debt to KfW, as follows:

-

- US\$173 million provided under various export credit agency-backed facilities, of which US\$63 million was in connection with our expansion and service improvement programs and US\$110 million in connection with the US\$149 million refinancing facility discussed below; and
- US\$51 million provided for the 15% downpayment portion and credit facilities without guarantee/insurance cover from the export credit agencies, of which US\$30 million was in connection with the US\$149 million

refinancing facility discussed in the following paragraphs.

On January 25, 2002, PLDT signed two loan agreements with KfW, which provided PLDT with a US\$149 million facility to refinance in part the repayment installments under its existing loans from KfW due from January 2002 to December 2004. The facility is composed of a nine-year loan, inclusive of a three-year disbursement period and a two-year grace period during which no principal is payable. It partly enjoys the guarantee of HERMES, the export credit agency of the Federal Republic of Germany. We have drawn US\$140 million (Php7,449 million) under this facility as at June 30, 2006. PLDT waived further disbursements under this refinancing facility effective September 1, 2004. Thus, the undrawn portion of US\$9 million was cancelled.

Of the amounts outstanding under these KfW loans, US\$22 million will mature in 2006, US\$72 million will mature in 2007, US\$55 million will mature in 2008, US\$44 million will mature in 2009 and US\$31 million will mature in 2010. Principal amortizations on these loans are generally payable in equal semi-annual installments.

Finnish Export Credit, plc, or Finnvera

As at June 30, 2006, US\$80 million principal amount of Smart's debt was provided by various banks under an export credit agency-backed facility in connection with Smart's GSM expansion program. This facility is covered by guaranty from Finnvera, the Finnish export credit agency, for 100% of political and commercial risk for the refinancing facility of GSM Phases 5A and 5B. This is the only remaining outstanding facility guaranteed under Finnvera. Other Finnvera Guaranteed GSM loan facilities were already fully paid in the aggregate amount of US\$16.50 million for GSM Phases 3 and 4 loan facilities on April 28, 2006, and aggregate of US\$5.8 million for GSM Phases 1 and 2 loan facilities on October 31, 2005.

The US\$100 million refinancing facility was obtained on February 11, 2005 in relation to Smart's GSM Phases 5A and 5B loans which were prepaid last March 1, 2005 with outstanding balances of US\$60 million and US\$41 million, respectively, at the time of prepayment. This refinancing facility is payable semi-annually over five years starting September 1, 2005 with final repayment due in March 2010. The principal benefit of refinancing the Phase 5 loan was the savings from a lower interest margin on the refinancing facility.

Of the amount outstanding under the remaining Finnvera guaranteed loan, US\$10 million will mature in 2006, US\$20 million will mature in 2007, US\$20 million will mature in 2008, US\$20 million will mature in 2009 and US\$10 million will mature in 2010. Principal amortization on this loan is payable in equal semi-annual installments.

Nippon Export and Investment Insurance of Japan, or NEXI

Edgar Filing: PHILIPPINE LONG DISTANCE TELEPHONE CO - Form 6-K

On November 28, 2002, Smart signed a US\$100 million term loan facility supported by NEXI, of which US\$60 million was drawn on November 28, 2003 and US\$40 million on April 5, 2004. This loan is payable semi-annually over four years in eight equal installments starting May 28, 2004 with final repayment due in November 2007. The outstanding balance as at June 30, 2006 was US\$38 million.

Other Export Credit Agency Supported Loans

PLDT has also obtained loans extended and/or guaranteed by other export credit agencies, including the Export-Import Bank of the United States, and the respective export credit agencies of France, Italy and Australia, in the aggregate outstanding principal amount of US\$15 million as at June 30, 2006. Smart, likewise, obtained loans guaranteed by the export credit agencies of Norway and Italy amounting to US\$4 million. Of the amounts outstanding under these loans, US\$6 million will mature in 2006, US\$9 million will mature in 2007, US\$2 million will mature in 2008, US\$1 million will mature in 2009 and US\$1 million will mature in 2010.

Fixed Rate Notes

PLDT has the following non-amortizing fixed rate notes outstanding as at June 30, 2006 and December 31, 2005:

Term Loans

US\$283 Million Term Loan Facility, or Debt Exchange Facility

On July 2, 2004, Smart acquired from Piltel's creditors approximately US\$289 million, or 69.4%, in the aggregate of Piltel's outstanding restructured debt at that time, in exchange for Smart debt and a cash payment by Smart. In particular, Smart paid an amount in cash of US\$1.5 million, or Php84 million and issued new debt of US\$283.2 million, or Php15,854 million, at fair value of Php8,390 million, net of debt discount amounting to Php7,464 million. As at June 30, 2006, unamortized discount amounted to Php6,347 million.

The breakdown of the total amount of Smart debt issued to participating Piltel creditors is as follows:

- 2007 Facility in the amount of US\$0.2 million payable in full in December 2007;
- 2008 Facility in the amount of US\$2.9 million payable in full in December 2008; and
- 2014 Facility in the amount of US\$280.1 million payable in full in June 2014.

Interest for the above facilities is payable every quarter at a floating rate of three months US\$ LIBOR plus 1.00% for the 2007 and 2008 facilities, and a fixed rate of 2.25% per annum for the 2014 facility. Furthermore, a portion of the 2014 facility amounting to US\$144 million has a variable yield option whereby the creditors have an option to elect for an early repayment at a discount either in December 2007 at 52.5% of the relevant debt amount or in December 2008 at 57.5% of the relevant debt amount.

GSM Network Expansion Facilities

On September 13, 2004, Smart signed a US\$104 million 5-year term loan facility supported by Finnish Export Credit Ltd. as the lender with ABN AMRO Bank, Banque National de Paribas, Calyon, DBS Bank and Sumitomo Mitsui Banking Corporation as the Lead Arrangers. The full amount of the facility was drawn in November 22, 2004, of which US\$73 million remained outstanding as at June 30, 2006. The loan is payable over five years in ten equal semi-annual payments starting May 2005 with final repayment in November 2009.

On June 8, 2001, Smart signed its GSM Phase 5A financing comprised of US\$195 million loans, of which US\$30 million is owed to Nordic Investment Bank, or NIB, US\$15 million to Nederlandse Financierings-Maatschappij Voor Ontwikkelingslanden N.V., or FMO, of the Netherlands and US\$150 million to Finnvera. The NIB loan balance of US\$12.0 million was prepaid in full on December 8, 2005, and the FMO loan balance of US\$4.09 million was prepaid in full on March 1, 2006.

On August 8, 2005, Smart signed a US\$30 million commercial facility with NIB to partly finance the related Phase 8 GSM equipment and services contracts. The facility is a 5-year term loan payable semi-annually in 10 equal installments commencing six months from the first drawdown date at a floating rate of US\$ LIBOR plus .815% margin per annum (with an option to fix the rate prior to the drawdown date). The facility was drawn on July 11, 2006 for the full amount of US\$30 million. The first installment payment will commence on January 2007.

On August 10, 2005, Smart signed a loan facility for its GSM Phase 8 financing in the amount of US\$70 million. The facility was awarded to the Bank of Tokyo Mitsubishi Ltd., Mizuho Corporate Bank Ltd, Standard Chartered Bank and Sumitomo Mitsui Banking Corporation as the Lead Arrangers, with Finnish Export Credit Ltd., as the Lender on Record. Smart opted to utilize only a total of US\$67 million which was drawn in February 15, 2006 and March 13, 2006 for US\$10 million and US\$57 million respectively. The balance of US\$3 million was canceled. After the first repayment on March 1, 2006, US\$66 million remained outstanding as at June 30, 2006. The facility is a 5-year term loan payable in 10 equal semi-annual installments with final repayment on September 1, 2010. Interest is payable semi-annually at a fixed rate of 4.515% per annum.

Restructured Loans

On June 4, 2001, Piltel completed the restructuring of approximately Php41 billion of indebtedness and other claims owed to banks, trade creditors, bondholders and preferred shareholders, representing 98% of its total liabilities as at that date.

As a result of the restructuring, 50% of the financial debt of each participating creditor was released in consideration for the allotment of Piltel Series K Class I Convertible Preferred Stock, which shares were immediately and mandatorily converted into PLDT Convertible Preferred Stock. One PLDT Series V, VI or VII Convertible Preferred Stock was issued for every five (5) Piltel Series K Class I Convertible Preferred Stock. Approximately half of the remaining 50% of all participating creditors (except for bondholders and preferred shareholders) financial debt became their participation in a Tranche B Loan in the same currency as their previous financial debt and the other half became their participation in a Tranche C Loan also in the same currency as their previous financial debt. In the case of bondholders and preferred shareholders, the remaining 50% of their financial debt became their participation in the Conversion Notes Facility and in a single Tranche Peso loan, or the Term Notes Facility, respectively.

Additional creditors participated in the debt restructuring plan, such that only convertible bonds with principal amount of US\$0.7 million (approximately US\$0.9 million redemption price at the option of the holders) remain unrestructured.

Piltel's residual long-term debt to third parties consists of:

Description	June 30, 2006		December 31, 2005

Interest payment dates	Quarterly in arrears		Semi-annually	

Under the terms of Piltel's debt restructuring plan, PLDT issued a Letter of Support, or LOS, for the benefit of Piltel and its creditors under which PLDT has agreed to cover any funding shortfalls of Piltel up to a maximum amount of US\$150 million less all amounts paid or committed to be paid to or on behalf of Piltel or any of its subsidiaries or affiliates on or after March 23, 2000. Under the LOS, PLDT is required to provide funding to Piltel in the event that the cash flows from Piltel's operations fall short of the amount required by it to discharge in full its obligations to any creditor of Piltel and all its operating and financing subsidiaries and affiliates. PLDT is subject to contractual restrictions limiting the amount of financial support it can provide to Piltel up to US\$150 million. As at June 30, 2006 and December 31, 2005, the remaining undrawn balance available under the PLDT LOS was US\$50 million, approximately Php2,672 million and Php2,666 million, due to prior investments made from March 23, 2000 to December 31, 2002 aggregating to US\$100 million through PLDT's subscription to Series J Class I preferred shares of Piltel.

Piltel's restructured obligations are secured by substantially all present and future assets of Piltel under the Mortgage Trust Indenture, or MTI, dated June 4, 2001 between Piltel and Chase Manhattan Bank as security agent for the creditors, which established the security arrangements relating to the restructured debts. The participating creditors (other than the participating holders of the Peso Term Notes Facility) will share equally in first ranking security, while non-participating creditors and the participating holders of the Peso Term Notes Facility will share equally in second ranking security created under the MTI. Such mortgage was approved by at least two-thirds of Piltel's stockholders at its annual meeting on April 18, 2001 and by the NTC on May 18, 2001.

Piltel likewise agreed to pay into a dedicated account (a Sinking Fund Account) the amount by which (a) earnings before interest, tax, depreciation and amortization, and exceptional items for a financial year is greater than (b) 200% of the projected debt service costs and permitted capital expenditure for the following financial year (the Excess Cash flow). The money in that Sinking Fund Account will be used (before any drawings are made under the LOS) to fund cash flow deficiencies of Piltel. Also, if actual capital expenditure for a financial year differs from the projected capital expenditure, Piltel will either pay into the Sinking Fund Account established at the end of that year an amount equal to any over-projection of capital expenditure or will be entitled to withdraw funds, if any, equal to any under-projection. Any credit balance in the Sinking Fund Account after two financial years will be used to prepay all participating creditors on a pro rata basis.

On June 5, 2006, Piltel made a partial voluntary prepayment of principal under its Philippine peso facility, U.S. dollar facilities, Japanese yen facility and conversion notes facility. The voluntary prepayment was made in lieu of depositing the Excess Cash Flow from the operations of Piltel's business into a Sinking Fund Account. The aggregate voluntary prepayment amount was Php9,325 million (Php6,393 million to Smart and Php2,932 million to third party creditors) or US\$176 million (US\$ 121 million to Smart and US\$55 million to third party creditors), which was applied proportionally to the various debt facilities as set out in the Intercreditor Agreement dated June 4, 2001.

On July 7, 2006, Piltel, PLDT and JPMorgan Chase Bank, N.A. (Manila Branch), as Security Agent on behalf of the Finance Parties under the Intercreditor Agreement (ICA), agreed to the amendment of Clause 25 of the ICA to allow the amendment of any term of the Mortgage Trust Indenture (MTI) and the release and sale of certain properties or assets from the security Interests created by the MTI upon the instructions of the Creditor Representatives. On the

same date, and following the effectivity of the amendment of the ICA, Piltel and the Security Agent, executed the Amendment to the Mortgage Trust Indenture, pursuant to which Piltel is allowed to sell or dispose of certain categories of assets or properties with the consent of the Majority Bank Creditors, the Majority Trade Creditors and the Trustee, provided, however that for as long as Avenue Asia holds majority of Piltel's Conversion Notes, the prior consent of Avenue Asia will be required for (i) any sale or disposition of any of the real properties of Piltel, and (ii) any sale or disposition of assets to Smart, PLDT or any of its affiliates.

Satellite Acquisition Loans

Mabuhay Satellite has an existing Credit Agreement with the Export-Import Bank of the United States, or Ex-Im Bank, to finance a portion of the cost of purchasing the Agila II Satellite. In 2004, Ex-Im Bank of the United States approved, in principle, the re-profiling of Mabuhay Satellite's US\$42 million debt with them by extending the maturity of the loan by 1½ years to July 15, 2007 and reducing the interest rate by 1% to 5.6%. The revised repayment terms have been approved by the majority of the local creditor banks. As at June 30, 2006, the remaining outstanding loan amounted to US\$16 million (Php833 million).

Mabuhay Satellite also has an existing Omnibus Agreement with a syndicate of local banks, or the Banks, which includes issuance of irrevocable standby Letters of Credit which as at June 30, 2006 has an aggregate stated value not exceeding US\$17 million (Php879 million) in favor of U.S. Ex-Im Bank, as security under the Credit Agreement and a term loan to Mabuhay Satellite in the aggregate amount of US\$34 million (Php1,822 million), which will mature on various dates from 2006 to 2007.

Mabuhay Satellite has constituted in favor of the Banks: (a) a first mortgage on its leasehold rights under a lease agreement entered into with the Subic Bay Metropolitan Authority and the components of the satellite system; (b) an assignment of its rights under its purchase contract for the satellite system; (c) an assignment of its rights under the transponder lease contracts to be entered into with its shareholders and other parties and the revenues therefrom; and (d) an assignment of the applicable proceeds of insurance to be taken on the satellite system.

As at June 30, 2006, the Banks have approved Mabuhay's request to extend the maturity of the Satellite's loan under the Omnibus Agreement by two years to October 20, 2009, with a 1% increase in the margin on the deferred amount.

Japanese Yen Debt:

JBIC JP¥9,760 Million Overseas Investment Term Loan

On July 26, 2002, PLDT signed a loan agreement with JBIC for a credit facility of JP¥9,760 million under JBIC's OIL program. The loan, which was drawn on July 31, 2002, is being amortized semi-annually beginning March 21, 2005 and will mature on March 21, 2008.

NEXI Supported JP¥5,615 Million Syndicated Term Loan Facility

On June 11, 2003, PLDT signed a JP¥5,615 million syndicated term loan facility supported by NEXI, of which JP¥2,520 million was drawn and all outstanding amounts were repaid in full on June 13, 2006.

Philippine Peso Debt:

-

Php2,770 Million Peso Fixed Rate Corporate Notes

-

In connection with PLDT's service improvement and expansion programs, PLDT has entered into two loan agreements, pursuant to each of which PLDT issued fixed rate corporate notes in three tranches. Interest on each tranche is payable semi-annually.

-

Under the first loan agreement, PLDT borrowed an aggregate amount of Php1,500 million, of which Php230 million matured on November 11, 2002, Php500 million matured on November 9, 2004 and Php770 million will mature on November 9, 2006.

-

Under the second loan agreement, PLDT borrowed an aggregate amount of Php1,270 million, of which Php360 million matured on June 9, 2003, Php100 million matured on June 9, 2005 and Php810 million will mature on June 9, 2010.

Php150 Million Term Loan Facility

-

On March 4, 2002, ePLDT entered into a three-year loan facility with Philippine Bank of Communications amounting to Php150 million. The loan facility was fully drawn on December 31, 2002 and payable in seven quarterly installments, with a grace period of one year, beginning year 2003. The quarterly principal payments of Php15 million started in June 2003 with a balloon payment of Php45 million in March 2005. Interest on this loan was equivalent to 91-day T-bill rate plus 4% per annum payable quarterly in arrears. The loan was secured by ePLDT's deed of assignment of receivables of a subsidiary from a foreign customer and an investment in an associate with an original cost of Php629 million. This loan was fully paid as at March 31, 2005.

-

Php100 Million Term Loan Facility

-

On March 15, 2004, ePLDT entered into another three-year term loan facility with Asia United Bank amounting to Php100 million for the payment of its outstanding short-term bank loan facility and for other working capital requirements. The loan facility was fully drawn as at December 31, 2004. The loan is to be repaid in nine equal quarterly installments starting March 2005 with final repayment in March 2007. Interest on the loan is equivalent to 90-day PHIBOR plus 3% per annum payable quarterly in arrears. The loan is secured by a Mortgage Trust Indenture Agreement, or MTIA, on a parcel of land with a carrying value of Php279 million as at December 31, 2004. As at June 30, 2006, the outstanding balance of this loan amounted to Php33 million which will mature within the first quarter of 2007.

-

Php149 Million Term Loan Facility

-

In January 2006, Vocativ, a wholly-owned call center subsidiary of ePLDT, partially prepaid Php89 million out of its outstanding five-year term loan facility of Php109 million with Asia United Bank for the payment of its additional capital expenditures and working capital requirements. Under the terms of the loan, principal payment is to be paid in 14 equal quarterly installments starting April 2006 with final repayment in July 2009. Interest on the loan is equivalent to 90-day PHIBOR plus 3% per annum payable quarterly in arrears. The loan is secured by a Mortgage Participation Certificate against the MTIA between ePLDT and Asia United Bank Corporation Trust and Investments Group dated March 15, 2004 on a parcel of land, which excludes the buildings and improvements. The remaining balance of Php20 million was pre-terminated in April 2006.

Debt Covenants

Our debt instruments contain restrictive covenants, including covenants that could prohibit us from paying dividends on common stock under certain circumstances, and require us to comply with specified financial ratios and other financial tests, calculated in conformity with accounting principles generally accepted in the Philippines, at relevant measurement dates, principally at the end of each quarterly period. We have complied with all of our maintenance financial ratios as required under our loan covenants and other debt instruments. In addition, we are required to comply with certain financial ratios for the incurrence of capital expenditures in excess of US\$10 million and incurrence of indebtedness.

The principal factors that can negatively affect our ability to comply with these financial ratios and other financial tests are depreciation of the Philippine peso relative to the U.S. dollar, poor operating performance of PLDT and its consolidated subsidiaries, impairment or similar charges in respect of investments or other long-lived assets that may be recognized by PLDT and its consolidated subsidiaries and increases in our interest expenses. Interest expense may increase as a result of various factors including issuance of new debt, the refinancing of lower cost indebtedness by higher cost indebtedness, depreciation of the Philippine peso, the lowering of PLDT's credit ratings or the credit ratings of the Philippines, increase in reference interest rates, and general market conditions. Since approximately 98% of PLDT's total consolidated debts are denominated in foreign currencies, principally in U.S. dollars, many of these financial ratios and other tests are negatively affected by any weakening of the peso.

PLDT's debt instruments contain a number of other negative covenants that, subject to certain exceptions and qualifications, restrict PLDT's ability to take certain actions without lenders' approval, including: (a) incurring additional indebtedness; (b) prepaying other debt; (c) making investments; (d) extending loans; (e) extending guarantees or assuming the obligations of other persons; (f) paying dividends or other distributions or redeeming, repurchasing or otherwise acquiring shares of PLDT's capital stock; (g) disposing of all or substantially all of its assets or of assets in excess of specified thresholds of its tangible net worth; (h) entering into management contracts providing for the management of its business or operations by a third party; (i) creating any lien or security interest;

(j) permitting set-off against amounts owed to PLDT; (k) merging or consolidating with any other company; (l) entering into transactions with stockholders and affiliates; and (m) entering into sale and leaseback transactions.

Further, certain of PLDT's debt instruments contain provisions wherein PLDT may be required to repurchase or prepay certain indebtedness in case of change in control of PLDT or if the ownership of our shares of common stock held by NTT Communications falls below a certain threshold.

PLDT's debt instruments also contain customary and other default provisions that permit the lender to accelerate amounts due or terminate their commitments to extend additional funds under the debt instruments. These default provisions include: (a) cross-defaults and cross-accelerations that permit a lender to declare a default if PLDT is in default under another debt instrument; in some cases, the cross-default provision is triggered upon a payment or other default permitting the acceleration of PLDT's debt, whether or not the defaulted debt is accelerated. In other cases, the cross-default provision requires the defaulted loan to be accelerated. In some debt instruments, the cross-default provision will be triggered only if the principal amount of the defaulted indebtedness exceeds a threshold amount specified in these debt instruments; (b) failure by PLDT to meet certain financial ratio covenants referred to above; (c) the occurrence of any material adverse change in circumstances that a lender reasonably believes materially impairs PLDT's ability to perform its obligations under its debt instrument with the lender; (d) the revocation, termination or amendment of any of the permits or franchises of PLDT in any manner unacceptable to the lender; (e) the abandonment, termination or amendment of the project financed by a loan in a manner unacceptable to the lender; (f) the nationalization or sustained discontinuance of all or a substantial portion of PLDT's business; and (g) other typical events of default, including the commencement of bankruptcy, insolvency, liquidation or winding up proceedings by PLDT.

Smart's debt instruments contain certain restrictive covenants that require Smart to comply with specified financial ratios and other financial tests at semi-annual measurement dates. The financial tests under Smart's loan agreements include compliance with a debt to equity ratio of not more than 1.50:1 and a debt service coverage ratio of not less than 1.50:1. Smart has maintained compliance with all of its financial covenants. The agreements also contain customary and other default provisions that permit the lender to accelerate amounts due under the loans or terminate their commitments to extend additional funds under the loans. These default provisions include: (a) cross-defaults and cross-accelerations that permit a lender to declare a default if Smart is in default under another loan agreement. These cross-default provisions are triggered upon a payment or other default permitting the acceleration of Smart debt, whether or not the defaulted debt is accelerated; (b) failure by Smart to comply with certain financial ratio covenants; (c) any reduction in PLDT's ownership of Smart's shares below 51%; (d) any reduction in First Pacific's and Metro Pacific Corporation's collective direct and/or indirect ownership of PLDT's common stock below 17.5% of the total common stock outstanding; and (e) the occurrence of any material adverse change in circumstances that the lender reasonably believes materially impairs Smart's ability to perform its obligations under its loan agreements.

As at June 30, 2006, Piltel was not in compliance with the terms of convertible bonds with principal amount of US\$0.7 million (approximately US\$0.9 million redemption price at the option of the holders). Piltel may not be able to restructure or otherwise pay the claims of its unstructured debt. However, default on and acceleration of Piltel's unstructured indebtedness does not create a cross-default under Piltel's restructured indebtedness or any indebtedness of PLDT or Smart.

The Credit and Omnibus Agreements of Mabuhay Satellite imposes several negative covenants. In particular, these covenants, among other things, restrict material changes in Mabuhay Satellite's nature of business and ownership structure, any lien upon or with respect to any of its assets or to any right to receive income, acquisition of capital stock, declaration and payment of dividends, merger, consolidation and sale with another entity and incurring or guaranteeing additional long-term debt beyond prescribed amounts.

ePLDT's loan agreement imposes negative covenants which, among other things, restrict ePLDT in regard to payment of cash dividends or any other income or any capital distribution to PLDT, voluntary suspension of its entire business operations for a period of 60 consecutive days, dissolution of its legal existence, and creation of any encumbrances on the shares pledged. One of ePLDT's loan agreements also requires ePLDT to comply with specified financial ratios and other financial tests at quarterly measurement dates. The agreement also contains customary and other default provisions that permit the lender to accelerate amounts due under the loan or terminate their commitments to extend additional funds under the loan. As at June 30, 2006, ePLDT was in compliance with all of its financial covenants.

Obligations Under Capital Lease

The future minimum payments for capitalized leases are as follows as at June 30, 2006:

Year	(Unaudited) (in million pesos)
2006	798
2007	380
2008	36
2009	12
2010	8
2011 and onwards	436
Total minimum lease payments	1,670
Less amount representing interest	573
Present value of net minimum lease payments	1,097
Less obligations under capital lease maturing within one year (Note 8)	828
Long-term portion of obligations under capital lease (Note 8)	269

Municipal Telephone Projects

In 1993, PLDT entered into two lease agreements with the Philippine Department of Transportation and Communications, or DOTC, covering telecommunications facilities in the province of Bohol and Batangas established under the Municipal Telephone Act. Under these agreements, PLDT was granted the exclusive right to provide telecommunications management services, to expand services, and to promote the use of the DOTC-contracted facilities in certain covered areas for a period of 15 years. Title to the properties shall be transferred to PLDT upon expiration of the lease term. As at June 30, 2006, PLDT's aggregate remaining obligation under this agreement was approximately Php858 million. In case of cancellation, PLDT is liable to pay Php100 million under each of the two contracts as liquidated damages.

On June 1, 2004, PLDT served the DOTC a notice of termination of the lease agreement in respect of the telecommunications system in Bohol which state of deterioration, obsolescence and disrepair has made it impossible

for PLDT to continue managing, operating, and maintaining the system. Since 2002, PLDT has been advising the DOTC of the need to review the viability of the system as it has infused more than Php200 million for upgrades and maintenance to keep the system operable. Further, the enactment of Public Telecommunications Policy Act, or R.A. No. 7925, which negated the DOTC's warranty to grant PLDT the exclusive right to provide telecommunication services in the areas stipulated, prevented PLDT from achieving the originally projected profitability, thereby rendering it impossible for PLDT to continue fulfilling its obligation under the lease agreement. Although several discussions have been held since then, no mutually acceptable agreement has been reached. On June 30, 2004, the DOTC advised PLDT that the request for termination of the lease agreement in Bohol has been referred to the Department of Justice, or DOJ, as government agencies are required to refer all interpretation of contracts and agreements to the DOJ secretary as attorney-general of the national government. On May 5, 2005, PLDT received a letter from the DOTC stating that PLDT is in default for failure to remit to the DOTC the quarterly installments under the lease agreement. Due to the failure of the parties to amicably settle their dispute, on September 28, 2005, PLDT demanded that the dispute be referred to arbitration and that the parties agree on the composition of the arbitration committee. In response, the DOTC, in a letter dated October 17, 2005, informed PLDT that pursuant to Executive Order No. 269, series of 2004, dated January 12, 2004, the existing communications programs and projects implemented by DOTC were transferred to the Commission on Information and Communications Technology, or CICT, and that the DOTC had forwarded to CICT PLDT's letter dated September 28, 2005. In a letter dated March 24, 2006, the CICT informed PLDT that the CICT poses no objection on PLDT's stated intentions and preference to refer the unresolved and outstanding issues to the Philippine Dispute Resolution Center, Inc., or PDRCI, per the arbitration clause of the lease agreement. On June 27, 2006, a Request for Arbitration dated June 1, 2006 was filed by PLDT with the PDRCI. The DOTC has not yet filed its Answer to the said Request for Arbitration. As at June 30, 2006, the net book value of the telecommunications system in Bohol, including PLDT's additional capital expenditure relating to the telecommunications system, and corresponding capital lease obligation amounted to Php21 million and Php735 million, respectively.

Other Long-term Capital Lease Obligations

The PLDT Group has various long-term lease contracts for a period of three years covering various office equipment. In particular, Smart and Piltel have capital lease obligations aggregating Php290 million as at June 30, 2006 in respect of office equipment and facilities.

Under the terms of certain loan agreements and other debt instruments, PLDT may not create, incur, assume or permit or suffer to exist any mortgage, pledge, lien or other encumbrance or security interest over the whole or any part of its assets or revenues or suffer to exist any obligation as lessee for the rental or hire of real or personal property in connection with any sale and leaseback transaction.

Preferred Stock Subject to Mandatory Redemption

The movements of PLDT's preferred stock subject to mandatory redemption follow:

	June 30, 2006 (Unaudited)				December 31, 2005 (Audited)			
	Series V	Series VI	Series VII	Total	Series V	Series VI	Series VII	Total
	(in million pesos)							
Balance at beginning of period	272	6,321	5,381	11,974	2,103	6,440	6,072	14,615
Conversion	(216)	(2,672)		(2,888)	(2,083)	(507)		(2,590)
Accretion	9	367	220	596	252	782	451	1,485
Revaluation		(9)	181	172		(394)	(1,142)	(1,536)
Balance at end of period	65	4,007	5,782	9,854	272	6,321	5,381	11,974

As at June 30, 2006, PLDT had issued 3 million shares of Series V Convertible Preferred Stock, 5 million shares of Series VI Convertible Preferred Stock and 4 million shares of Series VII Convertible Preferred Stock in exchange for Series K Class I Convertible Preferred Stock of Piltel, pursuant to the debt restructuring plan of Piltel adopted in June 2001. Shares of Series V, VI and VII Convertible Preferred Stock are entitled to receive annual dividends of Php18.70 per share, US\$0.397 per share and JP¥40.7189 per share, respectively. Each share of Series V, VI and VII Convertible Preferred Stock is convertible at any time at the option of the holder into one PLDT common share. On the date immediately following the seventh anniversary of the issue date of the Series V and Series VI Convertible Preferred Stock and on the eighth anniversary of the issue date of the Series VII Convertible Preferred Stock, the remaining outstanding shares under these series will be mandatorily converted into PLDT common shares. Under a put option exercisable for 30 days, holders of common shares received on mandatory conversion of the Series V, VI and VII Convertible Preferred Stock will be able to require PLDT to purchase such PLDT common shares for Php1,700 per share, US\$36.132 per share, and JPY4,071.89 per share, respectively.

The Series V Convertible Preferred Stock was designated as compound instrument consisting of liability and equity components. The fair value of the Convertible Preferred Stock was determined at issue date, of which the fair value of the liability component as at date of issuance is recorded as Preferred Stock Subject to Mandatory Redemption and is included under the Interest-bearing Financial Liabilities account in the consolidated balance sheets. The residual amount was assigned as the equity component.

The cost of each foreign currency component Convertible Preferred Stock Series VI and VII, was designated as debt instrument with embedded call options. The fair value of the Convertible Preferred Stock was determined at issue date, of which the fair value of embedded call options was bifurcated and accounted for separately, see Note 2 Summary of Significant Accounting Policies and Practices and Note 24 Financial Assets and Liabilities. The residual amount was assigned as liability components and recorded as Preferred Stock Subject to Mandatory Redemption and is included under the Interest-bearing Financial Liabilities account in the consolidated balance sheets.

The difference between the amount designated as liability components of the Series V, VI and VII Convertible Preferred Stock at issue date and the aggregate redemption value is accreted over the period up to the put option date using the effective interest rate method. Accretions added to Preferred Stock Subject to Mandatory Redemption and charged to interest as at June 30, 2006 and 2005 amounted to Php596 million and Php818 million, respectively.

Preferred Stock Subject to Mandatory Redemption amounted to Php9,854 million and Php11,974 million as at June 30, 2006 and December 31, 2005, respectively, after revaluation of Series VI and VII Convertible Preferred Stock to the exchange rates at balance sheet dates and after giving effect to the above accretions, conversions and additional issuances. As at June 30, 2006 and December 31, 2005, 5,350,606 shares and 3,376,743 shares, respectively, of the Convertible Preferred Stock have been converted into PLDT common shares. The outstanding shares of Series V, VI and VII Convertible Preferred Stock as at June 30, 2006 were 52,478, 2,613,460 and 3,842,000, respectively. The aggregate redemption value of the outstanding Series V, VI and VII Convertible Preferred Stock amounted to Php12,389 million and Php15,890 million as at June 30, 2006 and December 31, 2005, respectively.

The corresponding dividends on these shares charged as interest expense amounted to Php93 million and Php132 million for the six months ended June 30, 2006 and 2005, respectively.

18. Other Noncurrent Liabilities

This account consists of:

	June 30, 2006 (Unaudited)	December 31, 2005 (Audited)
	(in million pesos)	
Accrual of capital expenditures under long-term financing	7,656	5,769
Asset retirement obligations (Note 8)	805	752
Prepayments received under receivable purchase facility (Note 14)	307	976
Unearned revenues	70	71
Others	14	32
	8,852	7,600

19. Accrued Expenses and Other Current Liabilities

This account consists of:

	June 30, 2006 (Unaudited)	December 31, 2005 (Audited)
	(in million pesos)	
Accrued utilities and related expenses	7,163	5,559
Accrual for payment for unused sick leave and other employee benefits	2,069	1,760
Accrued interest and other related costs (Notes 17 and 20)	2,016	2,003
Accrued taxes and related expenses	1,114	760
Payable in installment purchase of equity investment		1,278
Others	735	1,946
	13,097	13,306

20. Related Party Transactions

a. Air Time Purchase Agreement between PLDT and AIL and Related Agreements

In March 1997, PLDT entered into a National Service Provider, or Founder NSP, Air Time Purchase Agreement with PT Asia Cellular Satellite, as amended in December 1998 and as assigned and transferred to AIL, under which PLDT was granted the exclusive right to sell ACeS services in the Philippines. In exchange, the Air Time Purchase Agreement required PLDT to purchase from PT Asia Cellular Satellite at least US\$5 million worth of air time annually over ten years, commencing on January 1, 2002, the purported date of commercial operations of the Garuda I Satellite.

In the event that PT Asia Cellular Satellite's aggregate billing revenue is less than US\$45 million in any given year, the Air Time Purchase Agreement states that PLDT has to make supplemental air time purchase payments not to exceed US\$15 million per year during the ten-year term.

PLDT and the other founder NSPs are endeavoring to amend the Air Time Purchase Agreement due to the occurrence of partial satellite loss, changes in the primary business of ACeS and other events affecting the business.

In March 2003, PLDT, together with the other founder NSPs, entered into a Standstill Agreement with AIL suspending the application and enforcement of the minimum and supplemental air time payments under the original Air Time Purchase Agreement. The parties agreed that AIL shall provide PLDT and the other founder shareholders,

with unlimited use of air time for the year 2003 in exchange for a fixed fee in the amount of US\$3.8 million for PLDT. Moreover, PLDT was also obliged to purchase from AIL 13,750 satellite phone units in 2003 at US\$395 F.O.B. per unit, subject to quarterly price adjustments. The parties to the Standstill Agreement also agreed to negotiate in good faith and use their best efforts to reach an agreement on a revised Air Time Purchase Agreement before November 15, 2003 that would cover, among other things, the amended minimum and supplemental air time payment provisions subject to the approval of AIL's creditors.

On February 10, 2004, notwithstanding the ongoing negotiations, AIL advised PLDT of the termination of the Standstill Agreement and the reinstatement of the terms under the original Air Time Purchase Agreement effective January 1, 2002, following the lapse of the November 15, 2003 deadline set in the Standstill Agreement for the negotiation of a revised Air Time Purchase Agreement. Negotiations are continuing with the relevant parties towards an amicable settlement of this matter. As at June 30, 2006, PLDT's outstanding payables under the original Air Time Purchase Agreement was Php4,096 million. See *Note 22 Contractual Obligations and Commercial Commitments* and *Note 23 Provisions and Contingencies* for further discussion.

PLDT also entered into a Founder NSP Operating Agreement with PT Asia Cellular Satellite on March 12, 1997, under which PLDT may:

- authorize distributors to resell ACeS services in the Philippines upon prior approval from PT Asia Cellular Satellite; and
- appoint agents to solicit and bill PLDT's or its authorized distributors' subscribers for ACeS services and to sell terminals on behalf of PLDT.

Under an Assignment and Assumption Agreement dated December 29, 1998, PT Asia Cellular Satellite agreed to assign and transfer to AIL of PT Asia Cellular Satellite's rights under the Founder NSP Air Time Purchase Agreement and Founder NSP Operating Agreement.

Under an Acknowledgment of the Assignment of Air Time Purchase Agreement entered into on December 29, 1998, by and among PLDT, P.T. Bank Internasional Indonesia and AIL, PLDT consented to the assignment by AIL of the Founder NSP Air Time Purchase Agreement to P.T. Bank Internasional Indonesia, as security agent, for the benefit of the secured parties under the Security Agreement dated December 29, 1998, which was executed in connection with the Amended and Restated Credit Agreement dated December 29, 1998 among PT Asia Cellular Satellite, AIL, P.T. Bank Internasional Indonesia and various banks.

On September 30, 2002, PT Asia Cellular Satellite, AIL, as guarantor, P.T. Bank Internasional Indonesia, as security agent, and various other banks signed a Rescheduling Agreement, which amended the terms of the Amended and

Restated Credit Agreement dated December 29, 1998, moving the principal repayment dates to agreed periods with the final maturity date on January 30, 2012.

b. Transactions with Major Stockholders, Directors and Officers

Transactions to which PLDT or any of its subsidiaries is a party, in which a director or key officer or owner of more than 10% of the outstanding common stock of PLDT, or any member of the immediate family of a director or key officer or owner of more than 10% of the outstanding common stock of PLDT had a direct or indirect material interest, as at June 30, 2006 (unaudited) and December 31, 2005 (audited) and for the six months ended June 30, 2006 and 2005 (unaudited) are as follows:

1. Cooperation Agreement with the First Pacific Parties, or FP Parties, NTT Communications and DoCoMo

In connection with the transfer by NTT Communications of approximately 12.6 million shares of PLDT's common stock to DoCoMo pursuant to the Stock Sale and Purchase Agreement dated January 31, 2006 between NTT Communications and DoCoMo, the FP Parties, NTT Communications and DoCoMo entered into a Cooperation Agreement, dated January 31, 2006. Under the Cooperation Agreement, the relevant parties extended certain rights of NTT Communications under the Stock Purchase and Strategic Investment Agreement dated September 28, 1999, as amended and the Shareholders Agreement dated March 24, 2000, to DoCoMo, including:

- certain contractual veto rights over a number of major decisions or transactions; and
- rights relating to the representation on the board of directors of PLDT and Smart, respectively, and any committees thereof.

Moreover, key provisions of the Cooperation Agreement pertain to, among other things:

- *Restriction on Ownership of Shares of PLDT by NTT Communications and DoCoMo.* Each of NTT Communications and DoCoMo has agreed not to beneficially own, directly or indirectly, in the aggregate with their respective subsidiaries and affiliates, more than 21% of then issued and outstanding shares of PLDT's common stock. If such event does occur, the FP Parties, as long as they own in the aggregate not less than 21% of then issued and outstanding shares of PLDT's common stock, have the right to terminate their respective rights and obligations under the Cooperation Agreement, the Shareholders Agreement and the Stock Purchase and Strategic Investment Agreement.

- *Limitation on Competition.* NTT Communications, DoCoMo and their respective subsidiaries are prohibited from investing in excess of certain thresholds in businesses competing with PLDT in respect of customers principally located in the Philippines and from using their assets in the Philippines in such businesses. Moreover, if PLDT, Smart or any of Smart's subsidiaries intends to enter into any contractual arrangement relating to certain competing businesses, PLDT is required to provide, or to use reasonable efforts to procure that Smart or any of Smart's subsidiaries provide NTT Communications and DoCoMo with the same opportunity to enter into such agreement with PLDT or Smart or Smart's subsidiaries, as the case may be.
- *Business Cooperation.* PLDT and DoCoMo agreed in principle to collaborate with each other on the business development, roll-out and use of a W-CDMA mobile communication network. In addition, PLDT agreed, to the extent of the power conferred by its direct or indirect shareholding in Smart, to procure that Smart will (i) become a member of a strategic alliance group for international roaming and corporate sales and services and (ii) enter into a business relationship concerning preferred roaming and inter-operator tariff discount with DoCoMo.
- *Additional Rights of DoCoMo.* Upon NTT Communications, DoCoMo and their subsidiaries owning in the aggregate 20% or more of the shares of PLDT's common stock and for as long as NTT Communications, DoCoMo and their subsidiaries continue to own in the aggregate 17.5% of the shares of PLDT's common stock then outstanding, DoCoMo will be entitled to certain additional rights under the Cooperation Agreement.
- *Change in Control.* Each of NTT Communications, DoCoMo and the FP Parties agreed that to the extent permissible under applicable laws and regulations of the Philippines and other jurisdictions, subject to certain conditions, to cast its vote as a shareholder in support of any resolution proposed by the board of directors of PLDT for the purpose of safeguarding PLDT from any Hostile Transferee. A Hostile Transferee is defined under the Cooperation Agreement to mean any person (other than NTT Communications, DoCoMo, First Pacific or any of their respective affiliates) determined to be so by the PLDT board of directors and includes, without limitation, a person who announces an intention to acquire, seeking to acquire or acquires 30% or more of PLDT common shares then issued and outstanding from time-to-time or having (by itself or together with itself) acquired 30% or more of the PLDT common shares announces an intention to acquire, seeking to acquire or acquires a further 2% of such PLDT common shares (a) at a price per share which is less than the fair market value as determined by the board of directors of PLDT as advised by a professional financial advisor, (b) which is subject to conditions which are subjective or which could not reasonably be satisfied, (c) without making an offer for all PLDT common shares not held by it and/or its affiliates and/or persons who, pursuant to an agreement or understanding (whether formal or informal), actively cooperate to obtain or consolidate control over PLDT, (d) whose offer for the PLDT common shares is unlikely to succeed or (e) whose intention is otherwise not bona fide; provided that, no person will be deemed a Hostile Transferee unless prior to making such determination, the board of directors of PLDT has used reasonable efforts to discuss with NTT Communications and DoCoMo in good faith whether such person should be considered a Hostile Transferee.
- *Termination.* If NTT Communications, DoCoMo or their respective subsidiaries cease to own, in the aggregate, full legal and beneficial title to at least 10% of the shares of PLDT's common stock then issued and outstanding, their respective rights and obligations under the Cooperation Agreement and the Shareholders Agreement will terminate

and the Strategic Arrangements (as defined in the Stock Purchase and Strategic Investment Agreement) will terminate. If the FP Parties and their respective subsidiaries cease to have, directly or indirectly, effective voting power in respect of shares of PLDT's common stock representing at least 18.5% of the shares of PLDT's common stock then issued and outstanding, their respective rights and obligations under the Cooperation Agreement, the Stock Purchase and Strategic Investment Agreement, and the Shareholders Agreement will terminate.

2. Integrated i-mode Services Package Agreement between DoCoMo and Smart

The Integrated i-mode Service Package Agreement was entered into by Smart and DoCoMo on February 15, 2006, under which DoCoMo agreed to grant Smart, on an exclusive basis within the territory of the Philippines for a period of five years, an integrated i-mode service package including non-transferable license to use the licensed materials and the i-mode brand, as well as implementation support and assistance and post-commercial launch support from DoCoMo. Pursuant to this agreement, Smart is required to pay an initial license fee and running royalty fees based on the revenue arising from i-mode subscription fees and data traffic. The initial license fee paid as at June 30, 2006 amounted to US\$1 million or Php53 million.

3. Advisory Services Agreement between DoCoMo and PLDT

The Advisory Services Agreement was entered into by DoCoMo and PLDT on June 5, 2006, in accordance with the Cooperation Agreement between PLDT and DoCoMo. Pursuant to the Agreement, DoCoMo will provide the services of certain key personnel in connection with certain aspects of the business of PLDT and Smart. Also, the agreement governs the terms and conditions of the appointments and the corresponding fees related thereto.

4. Other Agreements with NTT Communications and/or its Affiliates

PLDT is a party to the following agreements with NTT Communications and/or its affiliates:

- *Advisory Services Agreement.* On March 24, 2000, PLDT entered into an agreement with NTT Communications, as amended on March 31, 2003 and March 31, 2005, under which NTT Communications provides PLDT with technical, marketing and other consulting services for various business areas of PLDT starting April 1, 2000;
- *Arcstar Licensing Agreement and Arcstar Service Provider Agreement.* On March 24, 2000, PLDT entered into an agreement with NTT Worldwide Telecommunications Corporation under which PLDT markets managed data and other services under NTT Communications' Arcstar brand to its corporate customers in the Philippines. PLDT also entered into a Trade Name and Trademark Agreement with NTT Communications under which PLDT has been given

the right to use the tradename Arcstar and its related trademark, logo and symbols, solely for the purpose of PLDT's marketing, promotional and sales activities for the Arcstar services within the Philippines; and

- *Conventional International Telecommunications Services Agreement.* On March 24, 2000, PLDT entered into an agreement with NTT Communications under which PLDT and NTT Communications agreed to cooperative arrangements for conventional international telecommunications services to enhance their respective international businesses.

Total fees under these agreements amounted to Php100 million and Php114 million for the six months ended June 30, 2006 and 2005, respectively. As at June 30, 2006 and December 31, 2005, outstanding obligations of PLDT amounted to Php40 million and Php23 million, respectively.

5. *Agreement between Smart and Asia Link B.V., or ALBV.* Smart has an existing Technical Assistance Agreement with ALBV for the latter to provide technical support services and assistance in the operations and maintenance of cellular business for a period of five years, subject to renewal upon mutual agreement between the parties. The agreement provides for quarterly payments of technical service fees equivalent to 2% of the net revenues of Smart. In January 2004, the agreement was amended, reducing the technical service fees to be paid by Smart to ALBV to 1% of net revenues effective January 1, 2004. On February 18, 2004, Smart and ALBV entered into a renewal of the technical service agreement extending the effectivity of the terms of the agreement to February 23, 2008. Furthermore, in view of the acquisition by Smart of Piltel Series K Class I Convertible Preferred Stock held by PLDT, the parties agreed to make the consolidated net revenues of Smart the basis for the computation of the 1% royalty payable by Smart to ALBV, effective from January 1, 2005.

Smart also has an existing Services Agreement with ALBV for a period of 25 years starting January 1, 1999, which shall automatically expire unless renewed by mutual agreement of both parties. Under the agreement, ALBV provides advice and assistance to Smart in sourcing capital equipment and negotiating with international suppliers, arranging international financing and other services therein consistent with and for the furtherance of the objectives of the services. Service agreement fees were paid for the whole 25-year period.

ALBV is a subsidiary of the First Pacific Group.

Total fees under these agreements amounted to Php299 million and Php278 million for the six months ended June 30, 2006 and 2005, respectively. Outstanding obligations of Smart under these agreements amounted to Php30 million and Php194 million as at June 30, 2006 and December 31, 2005, respectively.

6. *Agreements relating to insurance companies.* Gotuaco del Rosario and Associates, or Gotuaco, acts as the broker for certain insurance companies to cover certain insurable properties of the PLDT Group. Insurance

premiums are remitted to Gotuaco and the broker's fees are settled between Gotuaco and the insurance companies. In addition, PLDT has an insurance policy with Malayan Insurance Co., Inc., or Malayan, wherein premiums are directly paid to Malayan. Total insurance expenses under these agreements amounted to Php189 million and Php268 million for the six months ended June 30, 2006 and 2005, respectively. Two directors of PLDT have a direct/indirect interests in or serve as a director/officer of Gotuaco and Malayan.

Compensation of Key Management Personnel of the PLDT Group

PLDT Group's compensation of key management personnel by benefit type follows:

	Six Months Ended June 30, 2006 2005 (Unaudited) (in million pesos)	
Short-term employee benefits	374	323
Share-based payments (Note 21)	282	190
Post-employment benefits	17	15
	673	528

Each of the directors, including the members of the advisory board of PLDT, is entitled to a director's fee in the amount of Php125,000 for each meeting of the board attended, except Manuel V. Pangilinan, who has waived his right to receive a director's fee. Each of the members or advisors of the audit, executive compensation, governance and nomination and finance committees is entitled to a fee in the amount of Php50,000 for each committee meeting attended.

There are no agreements between PLDT Group and any of its key management personnel providing for benefits upon termination of employment, except for such benefits to which they may be entitled under PLDT Group's retirement and incentive plans.

21. Employee Benefits

Executive Stock Option Plan, or ESOP

On April 27, 1999 and December 10, 1999, the Board of Directors and stockholders, respectively, approved the establishment of an ESOP and the amendment of the Seventh Article of the Articles of Incorporation of PLDT denying the pre-emptive right of holders of common stock to subscribe for any issue of up to 1,289,745 common stock pursuant to the ESOP. The ESOP covers management executives, which include officers with rank of Vice President up to the President, executives with the rank of Manager up to Assistant Vice President, and advisors/consultants engaged by PLDT. The ESOP seeks to motivate option holders to achieve PLDT's goals, reward option holders for the creation of shareholder value, align the option holders' interests with those of the stockholders of PLDT and retain the option holders to serve the long-term interests of PLDT. The ESOP is administered by the Executive Compensation Committee of the Board of Directors. About 1.3 million shares of common stock of PLDT had been reserved as underlying shares of options under the ESOP in 1999.

Movements in the number of stock options outstanding under the ESOP are as follows:

	June 30, 2006 (Unaudited)	December 31, 2005 (Audited)
Balance at beginning of period	197,500	536,589
Exercised shares*	(54,504)	(335,605)
Cancellations/forfeitures		(3,484)
Balance at end of period	142,996	197,500

* *Based on date of payment of exercised shares.*

As at June 30, 2006, options covering a total of 726,854 shares had been exercised by certain officers and executives at an exercise price of Php814 per share.

The fair value of the ESOP plan was estimated at the date of grant using an option pricing model, which considered annual stock volatility, risk-free interest rate, expected life of option, exercise share price of Php814 and a weighted average share price of Php870 for the 1999 Grant and of Php315 for the 2002 Grant as at valuation date. Total fair value of shares granted amounted to Php359 million as at June 30, 2006 and December 31, 2005. There was no fair value of options recognized as an expense for the six months ended June 30, 2006 and 2005.

LTIP

On August 3, 2004, PLDT's Board of Directors approved the establishment of the LTIP for eligible key executive officers and advisors of PLDT and its subsidiaries, which is administered by the Executive Compensation Committee. The LTIP is a four-year cash plan covering the period January 1, 2004 to December 31, 2007. The LTIP awards payment at the end of the four-year period (without interim payments) is contingent upon the achievement of an approved target increase in PLDT's common share price by the end of the plan period and a cumulative consolidated net income target for the plan period. The target increase in the PLDT base share price, which is the average of the closing prices of PLDT shares ten trading days before or after December 31, 2003, is approximately 15% per annum compounded for the plan period.

The fair value of the LTIP was estimated using an option pricing model, which considered annual stock volatility, risk-free interest rate, remaining life of option and share price Php1,830.00 as at valuation date. Incentive cost per share as at June 30, 2006 and December 31, 2005 amounted to Php915.95 and Php1,044.01, respectively. The fair value of the options recognized as an expense for the six months ended June 30, 2006 and 2005 amounted to Php933 million and Php610 million, respectively.

Movements in the number of stock options outstanding under the LTIP are as follows:

	June 30, 2006 (Unaudited)	December 31, 2005 (Audited)
Balance at beginning of period	3,884,406	3,685,959
Awards		493,429
Cancellations/forfeitures	(104,212)	(294,982)
Balance at end of period	3,780,194	3,884,406

Pension

Defined Benefit Plans

We have defined benefit pension plans, covering substantially all of our permanent and regular employees, excluding those of Smart and its subsidiary, I-Contacts, Inc., which require contributions to be made to separate administrative funds.

Our actuarial valuation is done on an annual basis. Based on the latest actuarial valuation, the actual present value of accrued liabilities, net of pension cost and average assumptions used in developing the valuation are as follows:

	(in million pesos)
Benefit obligation as at December 31, 2005	7,652
Fair value of plan assets as at December 31, 2005	5,154
Funded status	2,498
Unrealized net transition obligation	(61)
Unrecognized net actuarial gain	(162)
Accrued benefit cost as at December 31, 2005 (Audited)	2,275
Accrual of pension cost during the period	445
Contributions	(45)
Accrued benefit cost as at June 30, 2006 (Unaudited)	2,675

Net pension cost was computed as follows:

	Six Months Ended June 30, 2006 2005 (Unaudited) (in million pesos)
Components of net periodic benefit cost:	
Service cost	245 223
Interest cost	447 345
Actual return on plan assets	(270) (238)
Amortization of unrecognized net transition obligation	23 30
Net periodic benefit cost	445 360

The unaudited weighted average assumptions used to determine pension benefits as at June 30, 2006 are as follows:

Discount rate	12%
Rate of increase in compensation	9%
Expected rate of return on plan assets	10%

As at June 30, 2006, the assets of the beneficial trust fund established for the PLDT pension plan include investments in shares of stock of PLDT and Piltel with fair values aggregating Php1,641 million, which represent about 29% of said beneficial trust fund's net assets available for plan benefits.

The Board of Trustees of the beneficial trust fund adopts an investment approach of mixed equity and fixed income investments to maximize the long-term return of plan assets. The investment portfolio has been structured to achieve

the objective of regular income with capital growth and out-performance of benchmarks. A majority of the investment portfolio consists of fixed income debt securities and various equity securities while the remaining portion consists of multi-currency investments.

The allocation of the fair value of the beneficial trust fund's assets for the PLDT pension plan follows:

	June 30, 2006 (Unaudited)	December 31, 2005 (Audited)
Investments in equity securities	41%	37%
Investments in debt and fixed income securities	30%	40%
Investments in real estate	12%	13%
Investments in mutual funds	8%	6%
Investments in temporary placements	9%	4%
	100%	100%

PLDT expects to make approximately Php558 million of cash contributions to its pension plan in 2006.

Defined Contribution Plan

Smart maintains a trustee-managed, tax-qualified, multi-employer plan covering substantially all permanent and regular employees. The plan has a defined contribution format wherein Smart's obligation is limited to a specified contribution to the plan. It is being financed by the participating companies (Smart and its subsidiary, I-Contacts, Inc.) and employee contribution is optional.

The allocation of the fair value of plan assets for Smart as at June 30, 2006 (unaudited) and as at December 31, 2005 (audited) follows:

Investments in debt securities	71%
Investments in equity securities	24%
Others	5%
	100%

Smart expects to make approximately Php97 million of cash contributions to its pension plan in 2006.

Pension Benefit Cost

Total pension benefit cost follows:

	Six Months Ended June 30, 2006 2005 (Unaudited) (in million pesos)	
Expense recognized for defined benefit plans	445	360
Expense recognized for defined contribution plans	54	24
Total	499	384

22. Contractual Obligations and Commercial Commitments

Contractual Obligations

The following table discloses our unaudited consolidated contractual obligations outstanding as at June 30, 2006:

	Payments Due by Period				
	Total	2-3		4-5	
		Within 1 year	years	years	After 5 years
	(in million pesos)				
Long-term debt(1)	98,367	18,449	26,537	9,163	44,218
Long-term lease obligations:					
Operating lease	3,435	606	1,067	815	947
Capital lease	1,670	1,001	223	19	427
Unconditional purchase obligations(2)	10,815	4,961	2,129	2,129	1,596
Other long-term obligations	12,389		5,115	7,274	
Total contractual obligations	126,676	25,017	35,071	19,400	47,188

(1) Before deducting unamortized debt discount and debt issuance costs.

(2) Based on the original Air Time Purchase Agreement with AIL.

Long-term Debt

For a discussion of our long-term debt, see *Note 17 Interest-bearing Financial Liabilities*.

Long-term Operating Lease Obligations

Digital Passage Service Contracts. PLDT has existing Digital Passage Service Contracts with foreign telecommunication administrations for several dedicated circuits to various destinations for ten to 25 years expiring at various dates. As at June 30, 2006, PLDT's aggregate remaining obligation under these contracts amounted to approximately Php12 million.

License Agreement with Mobius Management Systems (Australia) Pty Ltd., or Mobius. PLDT entered into a license agreement with Mobius pursuant to which Mobius has granted PLDT a non-exclusive, non-assignable and non-transferable license for the use of computer software components. Under this agreement, Mobius is also required to provide maintenance services for a period of one year at no additional maintenance charge. PLDT may purchase maintenance services upon expiration of the first year for a fee of 15% of the current published license fee. As at June 30, 2006, PLDT's aggregate remaining obligation under this agreement was approximately Php20 million.

Other Long-term Operating Lease Obligations. The PLDT Group has various long-term lease contracts for periods ranging from two to ten years covering certain offices, warehouses, cell sites telecommunication equipment locations and various office equipment. In particular, Smart has lease obligations aggregating Php3,171 million as at June 30, 2006 in respect of office and cell site rentals with over 3,000 lessors nationwide, PLDT has lease obligations aggregating Php100 million as at June 30, 2006, and ePLDT has lease obligations aggregating Php132 million as at June 30, 2006 in respect of certain office space rentals.

Long-term Capital Lease Obligations

For a discussion of our long-term capital lease obligations, see *Note 17 Interest-bearing Financial Liabilities*.

Unconditional Purchase Obligations

Air Time Purchase Agreement with AIL. As discussed in *Note 20 Related Party Transactions*, PLDT is a party to a Founder NSP Air Time Purchase Agreement entered into with AIL in March 1997, which was amended in December 1998, under which PLDT was granted the exclusive right to sell AIL services in the Philippines. In exchange, the Air Time Purchase Agreement required PLDT to purchase from AIL a minimum of US\$5 million worth of air time annually over ten years commencing on January 1, 2002, the purported date of commercial operations of the Garuda I Satellite.

In the event that AIL's aggregate billing revenue is less than US\$45 million in any given year, the Air Time Purchase Agreement also states that PLDT has to make supplemental air time purchase payments not to exceed US\$15 million per year during the ten-year term.

PLDT and the other founder NSPs are endeavoring to amend the Air Time Purchase Agreement due to the occurrence of partial satellite loss, changes in the primary business of ACeS and other events affecting the business.

In March 2003, PLDT, together with the other founder NSPs, entered into a Standstill Agreement with AIL suspending the application and enforcement of the minimum and supplemental air time payments under the original Air Time Purchase Agreement. The parties agreed that AIL shall provide PLDT and the other founder shareholders, with unlimited use of air time for the year 2003 in exchange for a fixed fee in the amount of US\$3.8 million for PLDT. Moreover, PLDT was also obliged to purchase from AIL 13,750 satellite phone units in 2003 at US\$395 F.O.B. per unit, subject to quarterly price adjustments. The parties to the Standstill Agreement also agreed to negotiate in good faith and use their best efforts to reach an agreement on a revised Air Time Purchase Agreement before November 15, 2003 that would cover, among other things, the amended minimum and supplemental air time payment provisions subject to the approval of AIL's creditors.

On February 10, 2004, notwithstanding the ongoing negotiations, AIL advised PLDT of the termination of the Standstill Agreement and the reinstatement of the terms under the original Air Time Purchase Agreement effective January 1, 2002 following the lapse of the November 15, 2003 deadline set in the Standstill Agreement for the negotiation of a revised Air Time Purchase Agreement. Negotiations are continuing with the relevant parties towards an amicable settlement of this matter. See *Note 20 Related Party Transactions* and *Note 23 Provisions and Contingencies* for further details relating to the Air Time Purchase Agreement with AIL.

As at June 30, 2006, PLDT's aggregate remaining minimum obligation under the original Air Time Purchase Agreement was approximately Php10,815 million.

Other Long-term Obligations

Mandatory Conversion and Purchase of Shares. As discussed in *Note 17 Interest-bearing Financial Liabilities*, as at June 30, 2006, PLDT had issued a total of 3 million shares of Series V Convertible Preferred Stock, 5 million shares of Series VI Convertible Preferred Stock and 4 million shares of Series VII Convertible Preferred Stock in exchange for a total of 58 million shares of Series K Class I Convertible Preferred Stock of Piltel, pursuant to the debt restructuring plan of Piltel adopted in June 2001.

Each share of Series V, VI and VII Convertible Preferred Stock is convertible at any time at the option of the holder into one PLDT common share. On the date immediately following the seventh anniversary of the issue date of the Series V and Series VI Convertible Preferred Stocks and on the eighth anniversary of the issue date of the Series VII Convertible Preferred Stock, the remaining outstanding shares under these series will be mandatorily converted to PLDT common shares. Under a put option exercisable for 30 days, holders of common shares received on mandatory conversion of the Series V, VI and VII Convertible Preferred Stocks will be able to require PLDT to purchase such PLDT common shares for Php1,700 per share, US\$36.132 per share, and JPY4,071.89 per share, respectively.

As at June 30, 2006, 2,668,962 shares of Series V Convertible Preferred Stock and 2,681,644 shares of Series VI Convertible Preferred Stock had been converted to PLDT common shares. As at June 30, 2006, 52,478 shares of Series V, 2,613,460 shares of Series VI and 3,842,000 shares of Series VII Convertible Preferred Stocks remained outstanding. The aggregate value of the put option based on outstanding shares as at June 30, 2006 was Php12,389 million, of which Php5,115 million is puttable on June 4, 2008 and Php7,274 million on June 4, 2009, if all of the outstanding shares of Series V, VI and VII Convertible Preferred Stocks were mandatorily converted and all the underlying common shares were put to PLDT. The market value of the underlying shares of common stock was Php11,910 million, based on the market price of PLDT common shares of Php1,830.00 per share as at June 30, 2006.

Commercial Commitments

As at June 30, 2006, our outstanding commercial commitments, in the form of letters of credit, amounted to Php1,836 million. These commitments will expire within one year.

23. Provisions and Contingencies

As discussed below, we currently expect that going forward we will pay local franchise taxes on an annual basis and based on the gross receipts received or collected for services rendered within the jurisdiction of the respective taxing authority. For this reason, we have made the appropriate provisions in our unaudited consolidated financial statements as at June 30, 2006.

NTC supervision and regulation fees, or SRF

Since 1976, PLDT has received assessments from NTC for permit, SRF and other charges pursuant to Section 40 of Commonwealth Act 146, otherwise known as the Public Service Act. As at June 30, 2006, PLDT had paid, since 1994, a total amount of Php1,960 million in SRF, of which Php1,724 million was paid under protest.

PLDT is contesting the manner by which these assessments were calculated and the basis for such calculations. The case is now with the Supreme Court and upon the rules and practice of court, stands submitted for decision.

Smart and Piltel have similarly received assessments from NTC for permit, SRF and other charges which were paid under protest. Total payments by Smart amounted to Php122 million each in 2005 and 2004. On February 11, 2005, based on the NTC's deficiency recomputation, Piltel paid the amount of Php559 million in respect of NTC fees for the period from 1992 to 2004. On September 30, 2005, Piltel paid SRF of Php81 million representing amounts due for 2005.

Local business and franchise tax assessments

PLDT is presently a party to several cases involving the issue of exemption of PLDT from local franchise and business taxes. PLDT believes, based on the opinion of its legal counsel, that it is exempt from payment of local franchise and business taxes.

The Local Government Code of 1991, or R.A. No. 7160, which took effect on January 1, 1992, extended to local government units, or LGUs, power to tax businesses within their territorial jurisdiction granted under Batas Pambansa No. 337 and withdrew tax exemptions previously granted to franchise grantees under Section 12 of R.A. No. 7082.

PLDT believes, based on the opinion of its legal counsel, that R.A. No. 7925 which took effect on March 16, 1995, and the grant of local franchise and business taxes exemption privileges to other franchise holders subsequent to the effectivity of R.A. No. 7160, implicitly restored its local franchise and business taxes exemption privilege under Section 12 of R.A. No. 7082, or the PLDT Franchise pursuant to Section 23 thereof or the quality of treatment clause.

To confirm this position, PLDT sought and obtained on June 2, 1998 a ruling from the Bureau of Local Government Finance, or BLGF, of the Philippine Department of Finance, which ruled that PLDT is exempt from the payment of local franchise and business taxes imposed by LGUs under R.A. No. 7160.

By virtue of the BLGF Ruling, PLDT stopped paying local franchise and business taxes starting with the fourth quarter of 1998 and has filed with certain LGUs claims for tax refund covering the period from the second quarter of 1995 to the third quarter of 1998. PLDT has received assessments for local franchise and business taxes from several cities and provinces following PLDT's decision to stop payment of local franchise and business taxes.

Following a decision of the Supreme Court on March 25, 2003, a judgment in the amount of Php4 million against PLDT involving the City of Davao became final and executory on April 9, 2003, pursuant to which PLDT was declared not exempt from the local franchise tax. Pursuant to the said decision, PLDT has voluntarily paid the total amount of Php15 million for the period from the fourth quarter of 1998 until December 31, 2003, which includes the Php4 million subject of the case. The said amount constitutes only the basic franchise tax due for the said period, excluding surcharges and interest which PLDT is asking the City of Davao, through the local council, to waive. PLDT believes, based on the opinion of its legal counsel, that PLDT is not liable for surcharges and interest considering that

the legal issue involved was a difficult one and PLDT's non-payment of the said taxes was made in good faith. On August 2, 2005, the local Sanggunian passed a resolution denying PLDT's request for abatement of surcharges and penalties and directing the city treasurer to update PLDT's liability and immediately collect the same. Accordingly, on August 26, 2005, the city treasurer issued an assessment to PLDT in the amount of Php12 million. In order to maintain and preserve its good standing and relationship with the City of Davao, PLDT has paid the surcharges and penalties as at December 31, 2005.

Although PLDT believes that it is not liable to pay local franchise and business taxes, PLDT has entered into compromise settlements with several LGUs, including the City of Makati, in order to maintain and preserve its good standing and relationship with these LGUs. Under these compromise settlements, which have mostly been approved by the relevant courts, PLDT has paid a total amount of Php565 million for local franchise tax covering prior periods up to the end of 2005 as at June 30, 2006.

PLDT no longer had contested assessments from LGUs for franchise taxes as at June 30, 2006.

PLDT currently expects that going forward it will pay local franchise and business taxes on an annual basis and based on the gross receipts received or collected for services rendered within the jurisdiction of the respective taxing authority.

Smart has, likewise, received assessments for local franchise and business taxes from certain cities and provinces in the aggregate amount of Php313 million, which Smart continues to contest. Smart believes, based on the opinion of its legal counsel, that Smart is not liable to pay the local franchise and business taxes by virtue of (i) the opinion issued by the BLGF dated August 13, 1998; and (ii) Smart's exemption under its legislative franchise which took effect after the effective date of R.A. No. 7160.

Smart has recently been declared exempt from payment of local franchise tax to the City of Makati in a decision dated August 3, 2004 by the Regional Trial Court of Makati. The City of Makati has filed a Motion for Extension to file a Petition for Review with the Court of Appeals. However, on June 9, 2005, the Court of Appeals dismissed the appeal filed by the City of Makati.

The RTC of Iloilo has likewise ruled in a decision dated January 19, 2005 that Smart is exempt from payment of local franchise tax to the City of Iloilo. The City of Iloilo has filed an appeal directly with the Supreme Court which remains pending.

Piltel's Bureau of Internal Revenue, or BIR, Assessment

Piltel received the following assessment notices from the BIR:

Year Tax Assessment Type	Basic Interest Total		
	(in million pesos)		
1998 VAT	85.8	68.7	154.5
Overseas Communications Tax	31.8	25.5	57.3
Income Tax	12.4	9.4	21.8
Administrative Penalties	0.1		0.1
1999 VAT	94.5	67.8	162.3
Income Tax	22.7	13.8	36.5
2001 VAT	56.2	35.1	91.3
Income Tax	13.4	8.9	22.3

On December 12, 2005, Piltel filed a collective application for a compromise settlement with the BIR for the deficiency tax assessments arising from taxable years 1998, 1999 and 2001, citing reasonable doubt as to the validity of the tax assessments as a basis. The prescribed minimum percentage of compromise settlement for such basis is 40% of the basic assessed tax.

On January 27, 2006, Piltel received the favorable recommendation and approval from the BIR on the said application for a compromise settlement. On January 31, 2006, Piltel settled the total amount of Php114 million, which is equivalent to 40% of the basic taxes per final assessment notices received, to effect the immediate cancellation of the tax assessments. On February 24, 2006, the BIR accepted Piltel's application for compromise settlement of income tax and VAT for the years 1998 and 1999 and income taxes and VAT for the year 2001, and accordingly, issued a certificate of availment on the said date.

Enhanced Voluntary Assessment Program, or EVAP, Availment

In 2005, the BIR launched a program called EVAP, which grants taxpayers, who availed of the program, the privilege of last priority in audit. The program covers all types of internal revenue taxes which can be availed of on a per tax type basis and required the payment of a certain percentage increase in the said tax compared with the base year or the established fixed minimum EVAP payment, whichever is higher.

PLDT availed of the program and paid a total of Php6 million for VAT and income tax for taxable year 2004 and VAT and withholding tax for taxable year 2002.

On the other hand, Maratel availed of the EVAP for income tax for the taxable year 2004, Subic Telecom availed of the program for its income tax, withholding tax and percentage tax for taxable year 2002, while Clark Telecom availed of the program for its income tax for both taxable years 2003 and 2004. The total payment of Maratel, Subic Telecom and Clark Telecom amounted to Php800,000. Smart's EVAP availment, for which Php53 million was paid, covered the income tax for the taxable years 2003 and 2004, the VAT for the taxable year 2002, the overseas communications tax for the year 2002, and the withholding taxes for the taxable years 2002 to 2004. Meanwhile, Piltel's EVAP availment, which involved payment of Php3 million, covered the income tax for the taxable year 2003 and the expanded withholding tax for the taxable years 2003 and 2004. Both companies still await the issuance of an EVAP certificate of qualification from the BIR.

PLDT and these subsidiaries are awaiting for the EVAP Certificate of Qualification to be issued by the BIR.

Smart's EVAP availment, for which Php53 million was paid, covered the income tax for the taxable years 2003 and 2004, the VAT for the taxable year 2002, the overseas communications tax for the year 2002, and the withholding taxes for the taxable years 2002 to 2004, while Piltel's EVAP availment, which involved payment of Php3 million, covered the income tax for the taxable year 2003 and the expanded withholding tax for the taxable years 2003 and 2004.

Air Time Purchase Agreement with AIL

In March 1997, PLDT entered into a Founder NSP Air Time Purchase Agreement with PT Asia Cellular Satellite as amended in December 1998 and as assigned and transferred to AIL, under which PLDT was granted the exclusive right to sell ACeS services in the Philippines. The Air Time Purchase Agreement required PLDT to purchase from PT Asia Cellular Satellite at least US\$5 million worth of air time annually over ten years, commencing on January 1, 2002, the purported date of the start of commercial operations, and to make supplemental air time purchase payments not to exceed US\$15 million per year during the ten-year term in the event revenues generated are less than US\$45 million in any given year. Under the Air Time Purchase Agreement, the air time payment obligations remain in effect until all indebtedness incurred by AIL has been fully repaid. See *Note 20 - Related Party Transactions* and *Note 22 - Contractual Obligations and Commercial Commitments* for detailed discussion of the terms of the agreement.

PLDT and the other founder NSPs are endeavoring to amend the Air Time Purchase Agreement due to the occurrence of partial satellite loss, changes in the primary business of ACeS and other events affecting the business.

In March 2003, PLDT, together with the other founder NSPs, entered into a Standstill Agreement with AIL. Payments made to AIL under the Air Time Purchase Agreement based on billings of actual usage and the Standstill Agreement amounted to US\$2 million and US\$1 million for the second quarters of 2005 and 2004, respectively.

On February 10, 2004, notwithstanding the ongoing negotiations, AIL advised PLDT of the termination of the Standstill Agreement and the reinstatement of the terms under the original Air Time Purchase Agreement effective January 1, 2002 following the lapse of the November 15, 2003 deadline set in the Standstill Agreement for the negotiation of a revised Air Time Purchase Agreement. As at June 30, 2006, PLDT's outstanding payables under the original Air Time Purchase Agreement were approximately Php4,096 million. Negotiations are continuing with the relevant parties towards an amicable settlement of this matter.

On June 21, 2004, AIL also sent PLDT a letter citing PLDT in default under the Air Time Purchase Agreement for non-payment of outstanding amounts and for repudiation of its obligations thereunder. PLDT maintains, however, that the termination of the Standstill Agreement and reinstatement of the terms under the original Air Time Purchase Agreement are premature, considering that the discussions or negotiations on the terms of the proposed revised Air Time Purchase Agreement were still pending between the parties, such that it is highly inequitable for AIL to have unilaterally decided to invoke the provisions of the Standstill Agreement and declared PLDT in default. Furthermore, PLDT maintains its position that the Air Time Purchase Agreement has been rendered ineffective by various events, circumstances and technical problems encountered in the operation of the business of AIL. The substantial changes in the circumstances under which AIL must operate, changes which were not contemplated by the parties at the time the commitments were made, have rendered the commitments under the Air Time Purchase Agreement unrealistic and the performance of the same impossible.

As at June 30, 2006, PLDT's aggregate remaining minimum obligation under the original Air Time Purchase Agreement was approximately Php10,815 million.

We made a reasonable estimate of the amount necessary in the event such obligation would be settled and have made the appropriate provisions in our unaudited consolidated financial statements as at June 30, 2006 with due consideration of AIL's existing indebtedness and of PLDT's share as one of the founder NSPs.

24. Financial Assets and Liabilities

Our financial assets and liabilities are recognized initially at fair value. Transaction costs (debt issuance costs) are included in the initial measurement of all financial assets and liabilities except those classified as financial instruments measured at fair value through profit and loss. Subsequent to initial recognition, assets and liabilities are either valued at amortized cost using the effective interest rate method or at fair value depending on classification.

The following table sets forth the carrying values and estimated fair values of our financial assets and liabilities recognized as at June 30, 2006 and December 31, 2005. There are no material unrecognized financial assets and liabilities as at June 30, 2006 and December 31, 2005.

	Carrying Value		Fair Value

Current portion of long-term debt*	18,281	18,684	19,679	19,435
Obligations under capital lease*	828	717	828	717
Total current financial liabilities	30,470	35,075	31,868	35,826
Total Financial Liabilities	118,921	138,067	127,072	148,848

* Included under *Interest-bearing Financial Liabilities* in the consolidated balance sheets.

The following methods and assumptions were used to estimate the fair value of each class of financial instrument for which it is practicable to estimate such value:

Interest-bearing Financial Liabilities:

Long-term debt: Fair value is based on the following:

Debt Type	Fair Value Assumptions
Fixed Rate Loans: U.S. dollar notes/convertible debt Other loans in all other currencies	Quoted market price. Estimated fair value is based on the discounted value of future cash flows using the applicable LIBOR and MART1 rates for similar types of loans.
Variable Rate Loans	The carrying value approximates fair value because of recent and regular repricing based on market conditions.

Preferred stock subject to mandatory redemption: The fair values were determined using a stock option valuation model.

Derivative instruments:

Forward foreign exchange contracts and bifurcated foreign currency forwards: The fair values were determined using forward exchange market rates at the balance sheet date.

Foreign currency options: The fair values were computed using an option pricing model.

Foreign currency and interest rate swaps: The fair values were computed as the present value of estimated future cash flows.

Bifurcated equity call options: The fair values were computed using an option pricing model.

Due to the short-term nature of the transactions, the fair value of cash and cash equivalents, short-term investments, trade and other receivables, notes payable and accounts payable approximate the carrying amounts as of the balance sheet date.

Financial assets and liabilities carried at amortized cost

Unamortized debt discount, representing debt issuance cost and any difference between the fair value of consideration given or received on initial recognition, included in following financial liabilities amounted to Php10,784 million and Php13,347 million as at June 30, 2006 and December 31, 2005, respectively, see *Note 17 Interest-bearing Financial Liabilities*.

Financial assets and liabilities carried at fair value

The following financial assets and liabilities were carried at fair value as at June 30, 2006 and December 31, 2005.

	June 30, 2006 (Unaudited)	December 31, 2005 (Audited)
	(in million pesos)

Derivative instruments	(4,888)	(3,284)
	(4,777)	(3,175)

Derivative Financial Instruments

Our derivative financial instruments are accounted for as either cash flow hedges or transactions not designated as hedges. Cash flow hedges refer to those transactions that hedge our exposure to variability in cash flows attributable to a particular risk associated with a recognized asset or liability. Changes in the fair value of these instruments representing effective hedges are recognized as cumulative translation adjustments in equity until the hedged item is recognized in earnings. For transactions that are not designated as hedges, any gains or losses arising from the changes in fair value are recognized directly to income for the period.

The table below sets out the information about our derivative financial instruments as at June 30, 2006 and December 31, 2005:

PLDT

Cash Flow Hedges

Long-term Currency Swaps

PLDT entered into long-term principal-only currency swap agreements with various foreign counterparties to hedge the currency risk on its fixed rate notes maturing in 2009, 2012 and 2017. As at June 30, 2006 and December 31, 2005, these long-term currency swaps have an aggregate notional amount of US\$550 million. Under the swaps, PLDT effectively exchanges the principal of its U.S. dollar-denominated fixed rate notes into peso-denominated loan exposures at agreed swap exchange rates. The agreed swap exchange rates are reset to the lowest U.S. dollar/Philippine peso spot exchange rate during the term of the swaps, subject to a minimum exchange rate. In March and April 2004, PLDT entered into amendments to keep the lowest reset exchange rate and unwind the downward resettable feature of US\$550 million of its long-term principal-only currency swap agreements in order to lower the running hedging cost of the swaps. As at June 30, 2006 and December 31, 2005, the outstanding swap contracts have an agreed average swap exchange rate of Php50.76.

In order to manage hedge costs, these swaps included a credit-linkage feature with PLDT as the reference entity. The specified credit events include bankruptcy, failure to pay, obligation acceleration, moratorium/repudiation, and restructuring of PLDT bonds or all or substantially all of PLDT's obligations. Upon the occurrence of any of these credit events, subject to agreed threshold amounts where applicable, the obligations to both PLDT and its counterparty under the swap contracts terminate without further settlements to either party, including any mark-to-market value of the swaps. As at June 30, 2006 and December 31, 2005, US\$725 million of PLDT's long-term currency swaps/options have been structured to include credit-linkage with PLDT as the reference entity. The semi-annual fixed or floating swap cost payments that PLDT is required to make to its counterparties averaged about 5.30% and 4.50% per annum as at June 30, 2006 and December 31, 2005, respectively. As cash flow hedges, any movements in the fair value of these instruments will be taken as a cumulative translation adjustment under equity in our consolidated balance sheets.

Long-term Foreign Currency Options

To manage hedging costs, the currency swap agreement relating to the 2009 fixed rate notes has been structured to include currency option contracts. If the Philippine peso to U.S. dollar spot exchange rate on maturity date settles beyond Php90.00 to US\$1.00, PLDT will have to purchase U.S. dollar at an exchange rate of Php52.50 to US\$1.00 plus the excess above the agreed threshold rate. On the other hand, if on maturity, the Philippine peso to US\$1.00 spot exchange rate is lower than the exchange rate of Php52.50 to US\$1.00, PLDT will have the option to purchase at the prevailing Philippine peso to U.S. dollar spot exchange rate. In July 2004, PLDT and its counterparty, agreed to re-document and re-classify the transaction into long-term currency option contracts. The net semi-annual floating hedge cost payments that PLDT is required to pay under these transactions was approximately 6.53% and 5.68% per annum as at June 30, 2006 and December 31, 2005, respectively.

The option currency contract relating to PLDT's option to purchase U.S. dollar at Php52.50 to US\$1.00 or prevailing spot rate at maturity, whichever is lower, qualifies as a cash flow hedge. The option currency contract relating to the counterparty's option to purchase foreign currency from PLDT at Php90.00 to US\$1.00 is not designated as a hedge. Please refer to discussion below (under transactions not designated as hedges).

Transactions Not Designated as Hedges

Due to the amounts of PLDT's foreign currency hedging requirements and the large interest differential between the Philippine peso and the U.S. dollar, the costs to book long-term hedges can be significant. In order to manage such hedging costs, PLDT utilizes structures that include currency option contracts, and fixed-to-floating coupon-only swaps that may not qualify for hedge accounting.

Long-term Foreign Currency Options

With reference to the above-mentioned hedge on PLDT's 2009 fixed rate notes, PLDT simultaneously sold a currency option contract with the same notional amount of US\$175 million with the same maturity that gives the counterparty a right to purchase foreign currency at Php90.00 to US\$1.00. Together with the long-term currency option contract classified under cash flow hedges, PLDT has the obligation to purchase U.S. dollars at an exchange rate of Php52.50 to US\$1.00 plus the excess above the agreed threshold rate. In exchange for this condition, the overall net hedging cost for the transaction is reduced.

Short-term Currency Options

PLDT entered into short-term U.S. dollar subsidized forward contracts to partially hedge PLDT's fixed rate notes due June 2006. In order to reduce overall net hedging cost for the transactions, these forward contracts have been structured to include the sale of currency call option contracts that give the counterparty the right to purchase foreign currency at an agreed exchange rate. PLDT effectively has the obligation to buy U.S. dollars at a subsidized forward rate plus any excess above the agreed threshold rate should the Philippine peso to U.S. dollars spot exchange rate on the maturity date settle beyond that agreed threshold. PLDT's subsidized forward contracts amounting to US\$62 million matured on June 29, 2006. As at June 30, 2006, there are no outstanding subsidized forward contracts.

PLDT also entered into short-term Japanese yen currency option contracts to hedge our other short-term foreign currency obligations.

Interest Rate Swap

A portion of PLDT's currency swap agreements to hedge its 2017 fixed rate notes carry fixed rate swap cost payments. To effectively lower the running cost of such swap agreements, PLDT, in April 2003, entered into an agreement to swap the coupon on US\$125 million of its 2012 fixed rate notes into a floating rate Japanese yen amount. Under this agreement, PLDT is entitled to receive a fixed coupon rate of 11.375%, provided the Japanese yen to U.S. dollar exchange rate stays above JP¥99.90/US\$1.00. Below this level, a reduced fixed coupon rate of 3% will be due to PLDT. In order to mitigate the risk of the Japanese yen strengthening below the agreed threshold, PLDT, in December 2003, entered into an overlay swap transaction to effectively lower the portion of the coupon indexed to the U.S. dollar to Japanese yen rate to 3% such that the fixed coupon rate due to PLDT when the JPY strengthens below the agreed threshold will be 8.375%. Both swap agreements include a credit-linkage feature with PLDT as the reference entity.

In March 2006, the interest rate and overlay swap agreements were partially terminated to effectively lower the outstanding interest rate swap notional amount to US\$62.5 million. Since changes in fair values have already been recognized as profit and loss in prior periods, the corresponding liability settled by PLDT amounted to Php804 million.

Forward Foreign Exchange Contracts

PLDT entered into short-term U.S. dollar and Japanese yen forward foreign exchange contracts to hedge short-term foreign currency obligations.

Bifurcated Embedded Derivatives

Derivative instruments include derivatives (or derivative-like provisions) embedded in non-derivative contracts. PLDT's outstanding bifurcated embedded derivative transactions as at December 31, 2004 covered service contracts denominated in U.S. dollars paid out to a Japanese company in April 2005. There are no outstanding bifurcated embedded derivative transactions as at June 30, 2006.

Bifurcated Equity Call Options

Pursuant to Piltel's debt restructuring plan, PLDT issued its Series VI and VII Convertible Preferred Stock, see *Note 17 Interest-bearing Financial Liabilities*. Each share of Series VI and VII Convertible Preferred Stock is convertible at any time at the option of the holder into one share of PLDT's common stock. On the date immediately following the seventh anniversary of the issue date of the Series VI Convertible Preferred Stock and on the eighth anniversary of the issue date of the Series VII Convertible Preferred Stock, the remaining outstanding shares under these series will be mandatorily converted into shares of PLDT common stock. For 30 days thereafter, the holders of these mandatorily converted shares of common stock have the option to sell such shares of common stock back to PLDT for US\$36.132 per share and JPY4,071.89 per share for Series VI and VII, respectively. As at June 30, 2006 and December 31, 2005, the net negative mark-to-market value of these embedded call options amounted to Php1,215 million and Php1,597 million, respectively.

Smart

Smart's embedded derivatives were also bifurcated from prepaid forwards. As at June 30, 2006 and December 31, 2005, outstanding contracts included service contracts with various contractors and suppliers covering handset importations payable in U.S. dollars.

Smart's other embedded derivatives were bifurcated from service and purchase contracts. As at June 30, 2006 and December 31, 2005, outstanding contracts included a service contract with foreign equipment suppliers and various suppliers covering handset importations payable in U.S. dollars.

Financial Risk Management Objectives and Policies

The main purpose of our financial instruments is to fund our operations. We also enter into derivative transactions, the purpose of which is to manage the currency risks and interest rate risks arising from our operations and our sources of financing. It is, and has been throughout the year under review, our policy that no trading in financial instruments shall be undertaken.

The main risks arising from our financial instruments are liquidity risk, foreign exchange risk, interest rate risk and credit risk. Our Board reviews and approves policies for managing each of these risks. These risks are summarized below. We also monitor the market price risk arising from all financial instruments. Our accounting policies in relation to derivatives are set out in *Note 2 Summary of Significant Accounting Policies and Practices*.

Liquidity Risk

We seek to manage our liquidity profile to be able to finance our capital expenditures and service our maturing debts. To cover our financing requirements, we intend to use internally generated funds and proceeds from debt and equity issues and sales of certain assets.

As part of our liquidity risk management program, we regularly evaluate our projected and actual cash flow information and continuously assess conditions in the financial markets for opportunities to pursue fund-raising initiatives. These initiatives may include bank loans, export credit agency-guaranteed facilities, and debt capital and equity market issues.

Foreign Exchange Risk

The following table shows our consolidated foreign currency-denominated monetary assets and liabilities and their peso equivalents as at June 30, 2006 and December 31, 2005:

Total Financial Liabilities	US\$2,080	Php110,692	US\$2,350	Php124,682

(1) The exchange rate used was Php53.220 to US\$1.00.

(2) The exchange rate used was Php53.062 to US\$1.00.

In translating the foreign currency-denominated monetary assets and liabilities into peso amounts, the exchange rates used were Php53.220 to US\$1.00 and Php53.062 to US\$1.00, the Philippine peso-U.S. dollar exchange rates as at June 30, 2006 and December 31, 2005, respectively.

As at August 7, 2006, the peso-dollar exchange rate was Php51.383 to US\$1.00. Using this exchange rate, our consolidated net foreign currency-denominated liabilities as at June 30, 2006 would have decreased by Php2,732.

While a certain percentage of our revenues is either linked to or denominated in U.S. dollars, substantially all of our indebtedness and related interest expense, a substantial portion of our capital expenditures and a portion of our operating expenses are denominated in foreign currencies, mostly in U.S. dollars.

As at June 30, 2006, approximately 98% of our total consolidated debts were denominated in foreign currencies principally in U.S. dollars. Of our foreign currency-denominated debts, 3% are in Japanese yen on a consolidated basis and the balance in U.S. dollars. Thus, a weakening of the Philippine peso against the U.S. dollar or Japanese yen will increase both the principal amount of our unhedged foreign currency-denominated debts (representing 50% of our consolidated debts, or 35% net of our U.S. dollar cash balances as at June 30, 2006), and interest expense on our debt in Philippine peso terms. In addition, many of our financial ratios and other financial tests will be negatively affected. If, among other things, the value of the Philippine peso against the U.S. dollar substantially drops from its current level, we may be unable to maintain compliance with these ratios, which could result in acceleration of some or all of our indebtedness. For further information on our loan covenants, see *Note 17 Interest-bearing Financial Liabilities*.

To manage our foreign exchange risks, stabilize cash flows, and improve investment and cash flow planning, we enter into forward foreign exchange contracts, foreign currency swap contracts, currency option contracts and other hedging products aimed at reducing and/or managing the adverse impact of changes in foreign exchange rates on our operating results and cash flows. However, these hedges do not cover all of our exposure to foreign exchange risks.

Specifically, we use forward foreign exchange contracts, foreign currency swap contracts and currency option contracts to manage the foreign exchange risk associated with our foreign currency-denominated loans.

Interest Rate Risk

On a limited basis, we enter into interest rate swap agreements in order to manage our exposure to interest rate fluctuations. We make use of hedging instruments and structures solely for reducing or managing financial risks associated with our liabilities and not for trading or speculative purposes.

The following tables set out the carrying amount, by maturity, of our financial instruments that are exposed to interest rate risk:

Fixed rate financial instruments are subject to fair value interest rate risk while floating rate financial instruments are subject to cash flow interest rate risk.

Repricing of floating rate financial instruments is mostly done on intervals of three months or six months. Interest on fixed rate financial instruments is fixed until maturity of instrument. Financial instruments that are not subject to interest rate risk were not included in the above tables.

Credit Risk

We trade only with recognized, creditworthy third parties. It is our policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis to reduce our exposure to bad debts.

With respect to credit risk arising from our financial assets, which comprise cash and cash equivalents, trade and other receivables, notes receivable and certain derivative instruments, our exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

We have no significant concentrations of credit risk.

25. Reclassification of Accounts

Certain accounts in December 31, 2005 audited consolidated financial statements were reclassified to conform with the June 30, 2006 unaudited consolidated financial statements presentation.
