Item 2.02 Results of Operation and Financial Condition

On March 6, 2017, the registrant provided an overview of the Company's audited financial results and highlights for the fiscal year ended December 31, 2017. The Company's full financial results can be found in the Company's Annual Report on Form 10-K, filed with the U.S. Securities and Exchange Commission (the "SEC") and the Canadian securities regulatory authorities on March 6, 2018.

Summary of 2017 Financial Results

We reported a net loss of \$12.0 million or \$0.12 per share for the year ended December 31, 2017. This includes \$10.8 million of operating and other expenses, and a \$1.2 million mark-to-market loss on our investment in Midas Gold Corp.

Our working capital at December 31, 2017 totaled approximately \$19.0 million, including cash and short-term investments (comprised of government securities) of approximately \$16.6 million. The Company currently has no debt.

Frederick H. Earnest, President and Chief Executive Officer, commented, "2017 was a productive year for Vista. Ongoing environmental permitting work and extensive testing to improve the process flowsheet culminated in two important milestones for the Mt Todd gold project early this year. On January 22nd we were notified that our request for authorization of a controlled activity, as required under the Commonwealth Environmental Protection and Biodiversity Conservation Act, had been approved. This means that Vista now has all the major environmental approvals necessary for the development of the Mt Todd gold project. On January 24th we announced the results of an updated Mt Todd preliminary feasibility study (PFS) which demonstrates a large-scale, economically robust gold project at the current gold price. Given its location, advanced permitting status, low-cost profile, and cash-generating capacity, we believe Mt Todd is an attractive undeveloped gold project."
