Explanation of Responses:

No securities are beneficially owned

* If the form is filed by more than one reporting person, *see* Instruction 5(b)(v).

** Intentional misstatements or omissions of facts constitute Federal Criminal Violations. *See* 18 U.S.C. 1001 and 15 U.S.C. 78ff(a).

Note: File three copies of this Form, one of which must be manually signed. If space is insufficient, *See* Instruction 6 for procedure.

Potential persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB number. storage, terminalling, and throughput services for asphalt product and residual fuel oil.

Revenue is generated through short- and long-term storage contracts.

The following table sets forth our operating results from our asphalt services segment for the periods indicated:

Operating results (in thousands)	Three Months ended June 30,		Six Months ended June 30,		Favorable/(Unfavorable)					
	2013	2014	2013	2014	Three Months		Six Months			
					\$	%	\$	%	\$	%
Revenues										
Third Party Revenues	\$15,848	\$16,292	\$29,743	\$30,739	444	3 %	996	3 %		
Related Party Revenues	529	444	1,028	701	(85)	(16)%	(327)	(32)%		
Total Revenues	16,377	16,736	30,771	31,440	359	2 %	669	2 %		
Operating Expenses (excluding depreciation and amortization)	6,608	6,635	12,615	13,487	(27)	— %	(872)	(7)%		
Operating Margin (excluding depreciation and amortization)	\$9,769	\$10,101	\$18,156	\$17,953	332	3 %	(203)	(1)%		

The following is a discussion of items impacting asphalt services segment operating margin for the periods indicated:

In December 2013, we conveyed title of our Northumberland, PA asphalt storage facility to Koch as part of a litigation settlement. We do not anticipate a significant impact on operating margin in 2014 as a result of this conveyance, and we anticipate operating margin for the remainder of 2014 to be largely in-line with 2013 results.

Related party revenues decreased due to lower overall contracted storage from short-term spot contracts during 2014 as compared to 2013.

The increase in operating expenses for the six months ended June 30, 2014 as compared to the six months ended June 30, 2013 is primarily attributed to the timing of maintenance and repair and increased rent expense. We do not anticipate a significant variance in operating expenses for our asphalt services segment for all of 2014 as compared to 2013.

Other Income and Expenses

Depreciation and amortization. Depreciation and amortization increased by \$1.2 million to \$12.8 million for the six months ended June 30, 2014 compared to \$11.6 million for the six months ended June 30, 2013, and \$0.6 million to \$6.5 million for the three months ended June 30, 2014 compared to \$5.8 million for the three months ended June 30, 2013. This increase is primarily due to our Arbuckle pipeline that was placed in service in the fourth quarter of 2013.

General and administrative expenses. General and administrative expenses remained largely consistent at \$8.9 million for the six months ended June 30, 2014 compared to \$9.2 million for the six months ended June 30, 2013, and \$4.4 million for the three months ended June 30, 2014 compared to \$4.5 million for the three months ended June 30, 2013. We do not anticipate material changes in general and administrative expenses for the remainder of 2014.

Gain on sale of assets. Gain on sale of assets was \$1.0 million for the six months ended June 30, 2014 compared to \$0.1 million for the six months ended June 30, 2013. Gain on sale of assets was \$0.6 million for the three months ended June 30, 2014 compared to \$0.3 million for the three months ended June 30, 2013. The gain in 2014 is from the sale of surplus, used property and equipment and \$0.3 million recognized in relation to reimbursable capital projects. The gain in 2013 is from the sale of surplus, used property and equipment and a gain on sale of gathering systems.

Equity earnings (loss) in unconsolidated affiliate. The equity earnings (loss) is attributed to our investment in Advantage Pipeline. Losses for 2013 are the result of expenses incurred during the construction phase of the Pecos River Pipeline. During the three and six months ended June 30, 2014, equity earnings were realized as a result of completing the Crane West station in the second quarter of 2014 which resulted in increased throughput on the pipeline. On September 17, 2013, commercial service started on Phase I of the system consisting of the Highway 18 Station near Grandfalls, Texas and 36 miles of pipeline connecting to the Longhorn Pipeline in Crane, Texas.

Interest expense. Interest expense represents interest on borrowings under our credit facility as well as amortization of debt issuance costs and unrealized losses on the mark-to-market of interest rate swaps. Interest expense related to our credit facility, including amortization of debt issuance costs, decreased by \$0.5 million for the three months ended June 30, 2014 compared to the three months ended June 30, 2013 due to a decrease in our interest rate under our new credit facility. The three months ended June 30, 2014 also included unrealized losses on interest rate swaps of \$1.6 million. The interest rate swap agreements were entered into during the first quarter of 2014. The three months ended June 30, 2013 included the write-off of \$2.0 million in debt issuance costs and the recognition of \$0.2 million of deferred gains related to our prior credit facility. In addition, capitalized interest decreased by \$0.4 million for the three months ended June 30, 2014 compared to the three months ended June 30, 2013 due to placing the Arbuckle pipeline in service in the last quarter of 2013.

Interest expense related to our credit facility, including amortization of debt issuance costs, decreased by \$0.8 million for the six months ended June 30, 2014 compared to the six months ended June 30, 2013 due to a decrease in our interest rate under our new credit facility. The six months ended June 30, 2014 also included unrealized losses on interest rate swaps of \$2.0 million. The interest rate swap agreements were entered into during the first quarter of 2014. The six months ended June 30, 2013 included the write-off of \$2.0 million in debt issuance costs and the recognition of \$0.2 million of deferred gains related to our prior credit facility. In addition, capitalized interest decreased by \$0.5 million for the six months ended June 30, 2014 compared to the six months ended June 30, 2013 due to placing the Arbuckle pipeline in service in the last quarter of 2013.

Income from discontinued operations. During 2013, we sold our Thompson to Webster pipeline system in south Texas. In addition, we conveyed title of our Northumberland, PA asphalt storage facility to our counterpart as part of a litigation settlement. The operations of these business components are presented as discontinued operations for all periods presented.

Effects of Inflation

In recent years, inflation has been modest and has not had a material impact upon the results of our operations.

Off Balance Sheet Arrangements

We do not have any off-balance sheet arrangements as defined by Item 303 of Regulation S-K.

Liquidity and Capital Resources

Cash Flows and Capital Expenditures

The following table summarizes our sources and uses of cash for the six months ended June 30, 2013 and 2014:

	Six Months ended June 30,	
	2013	2014
	(in millions)	
Net cash provided by operating activities	\$21.7	\$19.9
Net cash used in investing activities	(47.8)	(17.2)
Net cash provided by (used in) financing activities	27.7	(4.3)

Operating Activities. Net cash provided by operating activities was \$19.9 million for the six months ended June 30, 2014, as compared to \$21.7 million for the six months ended June 30, 2013. The decrease in cash provided by operating activities is primarily the result of changes in working capital.

Investing Activities. Net cash used in investing activities was \$17.2 million for the six months ended June 30, 2014, as compared to \$47.8 million of net cash used in investing activities for the six months ended June 30, 2013. The six months ended June 30, 2013 included a \$17.0 million investment in Advantage Pipeline. The remaining decrease in cash used in investing activities was primarily the result of a \$13.7 million decrease in capital expenditures. Capital expenditures for the six months ended June 30, 2014 and 2013, respectively, included maintenance capital expenditures of \$3.6 million and \$7.2 million, respectively, and expansion capital expenditures of \$14.6 million and \$24.8 million, respectively.

Financing Activities. Net cash used by financing activities was \$4.3 million for the six months ended June 30, 2014, as compared to \$27.7 million of net cash provided by financing activities for the six months ended June 30, 2013. Financing activities for the six months ended June 30, 2014 consisted primarily of \$17.1 million in distributions to our unitholders and net borrowings on long term debt of \$14.0 million. Financing activities for the six months ended June 30, 2013 consisted primarily of \$16.5 million in distributions to our unitholders and net borrowings of \$51.4 million which were influenced by the timing of our investment in Advantage Pipeline and capital expenditures.

Our Liquidity and Capital Resources

Cash flow from operations and our credit facility are our primary sources of liquidity. At June 30, 2014, we had a working capital surplus of \$4.1 million. This is primarily a function of our approach to cash management. At June 30,

2014, we had approximately \$112.7 million of availability under our revolving credit facility, although our ability to borrow such funds may be limited by the financial covenants in our credit facility. As of June 30, 2014, we could borrow up to \$344.0 million, or an additional \$56.7 million, under our credit facility within our covenant restrictions. As of August 1, 2014, we have aggregate unused commitments under our revolving credit facility of approximately \$116.5 million and cash on hand of approximately \$0.8 million.

Capital Requirements. Our capital requirements consist of the following:

• maintenance capital expenditures, which are capital expenditures made to maintain the existing integrity and operating capacity of our assets and related cash flows, further extending the useful lives of the assets; and

expansion capital expenditures, which are capital expenditures made to expand or to replace partially or fully depreciated assets or to expand the operating capacity or revenue of existing or new assets, whether through construction, acquisition or modification.

Expansion capital expenditures for organic growth projects totaled \$14.6 million in the six months ended June 30, 2014 compared to \$24.8 million in the six months ended June 30, 2013. We currently expect our expansion capital expenditures for organic growth projects to be approximately \$20.0 million to \$25.0 million for all of 2014. Maintenance capital expenditures totaled \$2.9 million, net of reimbursable expenditures of \$0.7 million, in the six months ended June 30, 2014 compared to \$5.8 million, net of reimbursable expenditures of \$1.4 million, in the six months ended June 30, 2013. We currently expect maintenance capital expenditures to be approximately \$12.0 million to \$14.0 million, net of reimbursable expenditures, in 2014.

Our Ability to Grow Depends on Our Ability to Access External Expansion Capital. Our partnership agreement requires that we distribute all of our available cash to our unitholders. Available cash is reduced by cash reserves established by our General Partner to provide for the proper conduct of our business (including for future capital expenditures) and to comply with the provisions of our credit facility. We may not grow as quickly as businesses that reinvest their available cash to expand ongoing operations because we distribute all of our available cash.

Description of Credit Facility. On June 28, 2013, we entered into an amended and restated credit agreement which consists of a \$400.0 million revolving loan facility. The proceeds of loans made under our credit agreement may be used for working capital and other general corporate purposes. All references herein to the credit agreement on or after June 28, 2013 refer to the amended and restated credit agreement.

Our credit agreement is guaranteed by all of our existing subsidiaries. Obligations under our credit agreement are secured by first priority liens on substantially all of our assets and those of the guarantors, including all material pipeline, gathering and processing assets, all material storage tanks and asphalt facilities, all material working capital assets and a pledge of all of our equity interests in our subsidiaries.

Our credit agreement includes procedures for adding financial institutions as revolving lenders or for increasing the revolving commitment of any currently committed revolving lender subject to an aggregate maximum of \$500.0 million for all revolving loan commitments under our credit agreement.

The credit agreement will mature on June 28, 2018, and all amounts outstanding under our credit agreement shall become due and payable on such date. We may prepay all loans under our credit agreement at any time without premium or penalty (other than customary LIBOR breakage costs), subject to certain notice requirements. The credit agreement requires mandatory prepayments of amounts outstanding thereunder with the net proceeds certain asset sales, property or casualty insurance claims, and condemnation proceedings, unless we reinvest such proceeds in accordance with the credit agreement, but these mandatory prepayments will not require any reduction of the lenders' commitments under the credit agreement.

Borrowings under our credit agreement bear interest, at our option, at either the reserve-adjusted eurodollar rate (as defined in the credit agreement) plus an applicable margin that ranges from 2.0% to 3.0% or the alternate base rate (the highest of the agent bank's prime rate, the federal funds effective rate plus 0.5%, and the 30-day eurodollar rate plus 1%) plus an applicable margin that ranges from 1.0% to 2.0%.

We pay a per annum fee on all letters of credit issued under the credit agreement, which fee equals the applicable margin for loans accruing interest based on the eurodollar rate, and we pay a commitment fee on the unused commitments under the credit agreement. The credit agreement does not have a floor for the alternate base rate or the eurodollar rate. The applicable margins for the interest rate, the letter of credit fee and the commitment fee vary

quarterly based on our consolidated total leverage ratio (as defined in the credit agreement, being generally computed as the ratio of consolidated total debt to consolidated earnings before interest, taxes, depreciation, amortization and certain other non-cash charges).

The credit agreement includes financial covenants that will be tested on a quarterly basis, based on the rolling four-quarter period that ends on the last day of each fiscal quarter.

The maximum permitted consolidated total leverage ratio is 4.50 to 1.00, provided that the maximum permitted consolidated total leverage ratio is 5.00 to 1.00 from and after (i) the last day of the fiscal quarter immediately preceding the fiscal quarter in which a specified acquisition (as defined in the credit agreement) occurs to and including the last day of the second full fiscal quarter following the fiscal quarter in which such specified acquisition occurred and (ii) the date on which we issue qualified senior notes (as defined in the credit agreement, but generally being unsecured indebtedness with no required principal payments

29

prior to June 28, 2019) in an aggregate principal amount (when combined with all other qualified senior notes previously or concurrently issued) that equals or exceeds \$200.0 million.

The maximum permitted consolidated senior secured leverage ratio (as defined in the credit agreement, but generally computed as the ratio of consolidated total secured debt to consolidated earnings before interest, taxes, depreciation, amortization and certain other non-cash charges) is 3.50 to 1.00, but this covenant is only tested from and after the date on which we issue qualified senior notes in an aggregate principal amount (when combined with all other qualified senior notes previously or concurrently issued) that equals or exceeds \$200.0 million.

The minimum permitted consolidated interest coverage ratio (as defined in the credit agreement, but generally computed as the ratio of consolidated earnings before interest, taxes, depreciation, amortization and certain other non-cash charges to consolidated interest expense) is 2.50 to 1.00.

In addition, the credit agreement contains various covenants that, among other restrictions, limit our ability to:

- create, issue, incur or assume indebtedness;
- create, incur or assume liens;
- engage in mergers or acquisitions;
- sell, transfer, assign or convey assets;
- repurchase our equity, make distributions to unitholders and make certain other restricted payments;
- make investments;
- modify the terms of certain indebtedness, or prepay certain indebtedness;
- engage in transactions with affiliates;
- enter into certain hedging contracts;
- enter into certain burdensome agreements;
- change the nature of our business;
- enter into operating leases; and
- make certain amendments to our partnership agreement.

At June 30, 2014, our consolidated total leverage ratio was 3.75 to 1.00 and our consolidated interest coverage ratio was 8.74 to 1.00. We were in compliance with all covenants of our credit agreement as of June 30, 2014.

The credit agreement permits us to make quarterly distributions of available cash (as defined in the our partnership agreement) to unitholders so long as no default or event of default exists under the credit agreement on a pro forma basis after giving effect to such distribution. We are currently allowed to make distributions to our unitholders in accordance with this covenant; however, we will only make distributions to the extent we have sufficient cash from operations after establishment of cash reserves as determined by the General Partner in accordance with our cash distribution policy, including the establishment of any reserves for the proper conduct of our business.

Each of the following is an event of default under the credit agreement:

- failure to pay any principal, interest, fees, expenses or other amounts when due;
- failure to meet the quarterly financial covenants;
- failure to observe any other agreement, obligation or covenant in the credit agreement or any related loan document, subject to cure periods for certain failures;
- the failure of any representation or warranty to be materially true and correct when made;
- we, or any of our restricted subsidiaries, default under other indebtedness that exceeds a threshold amount;
- judgments against us or any of our restricted subsidiaries, in excess of a threshold amount;
- certain ERISA events involving us or our restricted subsidiaries resulting in a material adverse effect on us;
- bankruptcy or other insolvency events involving our General Partner, us or any of our restricted subsidiaries; and
-

a change of control (as defined in the credit agreement, but generally being (i) our General Partner ceasing to own 100% of our general partner interest or ceasing to control us, or (ii) Vitol and Charlesbank ceasing to collectively own and control 50.0% or more of the membership interests of our General Partner).

If an event of default relating to bankruptcy or other insolvency events occurs with respect to our General Partner or us, all indebtedness under our credit agreement will immediately become due and payable. If any other event of default exists under our credit agreement, the lenders may accelerate the maturity of the obligations outstanding under our credit agreement and

30

exercise other rights and remedies. In addition, if any event of default exists under our credit agreement, the lenders may commence foreclosure or other actions against the collateral.

If any default occurs under our credit agreement, or if we are unable to make any of the representations and warranties in our credit agreement, we will be unable to borrow funds or have letters of credit issued under our credit agreement.

Contractual Obligations. A summary of our contractual cash obligations over the next several fiscal years, as of June 30, 2014, is as follows:

Contractual Obligations	Payments Due by Period				
	Total	Less than 1 year	1-3 years	4-5 years	More than 5 years
	(in millions)				
Debt obligations ⁽¹⁾	\$322.7	\$8.9	\$17.9	\$295.9	\$—
Operating lease obligations	23.1	7.5	9.1	4.6	1.9
Non-compete agreement ⁽²⁾	0.1	0.1	—	—	—
Employee contract obligations ⁽³⁾	0.2	0.1	0.1	—	—

⁽¹⁾ Represents required future principal repayments of borrowings of \$287.0 million and variable rate interest payments of \$35.7 million. At June 30, 2014, our borrowings had an interest rate of approximately 3.38%. This interest rate was used to calculate future interest payments. All amounts outstanding under our credit agreement mature in June 2018.

⁽²⁾ Represents required future payments under a non-compete agreement related to our acquisition of certain field services assets.

⁽³⁾ Represents required future payments related to employment agreements with certain employees.

Recent Accounting Pronouncements

For information regarding recent accounting developments that may affect our future financial statements, see [Note 15](#) to our Consolidated Financial Statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to market risk due to variable interest rates under our credit facility.

As of August 1, 2014 we had \$283.0 million outstanding under our credit facility that was subject to a variable interest rate. Borrowings under our credit agreement bear interest, at our option, at either the reserve adjusted eurodollar rate (as defined in the credit agreement) plus an applicable margin or the alternate base rate (the highest of the agent bank's prime rate, the federal funds effective rate plus 0.5%, and the 30-day eurodollar rate plus 1%) plus an applicable margin. Interest rate swap agreements are used to manage a portion of the exposure related to changing interest rates by converting floating-rate debt to fixed-rate debt. In March 2014 we entered into two interest rate swap agreements with an aggregate notional value of \$200.0 million. The first agreement became effective June 28, 2014 and matures on June 28, 2018. Under the terms of the first interest rate swap agreement, we will pay a fixed rate of 1.45% and will receive one-month LIBOR with monthly settlement. The second agreement becomes effective January 28, 2015 and matures on January 28, 2019. Under the terms of the second interest rate swap agreement, we will pay a fixed rate of 1.97% and will receive one-month LIBOR with monthly settlement. The fair market value of the interest rate swaps at March 31, 2014 is a liability of \$2.0 million and is recorded in long-term derivative liabilities on the consolidated balance sheet. The interest rate swaps do not receive hedge accounting treatment under ASC 815 - Derivatives and Hedging. Changes in the fair value of the interest rate swaps are recorded in interest expense in the statements of operations.

During the six months ended June 30, 2014, the weighted average interest rate under our credit agreement was 3.41%. As of June 30, 2014, borrowings under our credit facility bore interest at a weighted average interest rate of 3.38%.

Changes in economic conditions could result in higher interest rates, thereby increasing our interest expense and reducing our funds available for capital investment, operations or distributions to our unitholders. Based on borrowings as of June 30, 2014, the terms of our credit agreement, current interest rates and the effect of our interest rate swaps, an increase or decrease of 100 basis points in the interest rate would result in increased annual interest expense of approximately \$1.9 million or decreased annual interest expense of \$0.3 million, respectively.

Item 4. Controls and Procedures

31

Evaluation of disclosure controls and procedures. Our General Partner's management, including the Chief Executive Officer and Chief Financial Officer of our General Partner, evaluated, as of the end of the period covered by this report, the effectiveness of our disclosure controls and procedures as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer of our General Partner concluded that our disclosure controls and procedures, as of June 30, 2014, were effective.

Changes in internal control over financial reporting. There were no changes in our internal control over financial reporting that occurred during the three months ended June 30, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

The information required by this item is included under the caption "Commitments and Contingencies" in Note 13 to our financial statements, and is incorporated herein by reference thereto.

Item 1A. Risk Factors

Information about risk factors for the three months ended June 30, 2014 does not differ materially from that set forth in Part I, Item 1A, of our Annual Report on Form 10-K for the year ended December 31, 2013.

Item 6. Exhibits

The information required by this Item 6 is set forth in the Index to Exhibits accompanying this quarterly report and is incorporated herein by reference.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
