## PUBLIX SUPER MARKETS, INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

#### (1)Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of Publix Super Markets, Inc. and subsidiaries (the Company) have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) and the rules and regulations of the Securities and Exchange Commission (SEC) for interim financial reporting. Accordingly, the accompanying statements do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, these statements include all adjustments that are of a normal and recurring nature necessary to present fairly the Company's financial position, results of operations and cash flows. Due to the seasonal nature of the Company's business, the results of operations for the three and six months ended June 29, 2013 are not necessarily indicative of the results for the entire 2013 fiscal year. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 10-K for the year ended December 29, 2012.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### (2) Recently Adopted Accounting Standard

In February 2013, the Financial Accounting Standards Board issued an Accounting Standards Update that requires expanded disclosures related to accumulated other comprehensive earnings. The amended guidance requires entities to provide information about the amounts reclassified out of accumulated other comprehensive earnings by component. Additionally, entities are required to present, either on the face of the financial statements or in the notes, significant amounts reclassified out of accumulated other comprehensive earnings by the respective line items of net earnings. The amended guidance does not change the current requirements for reporting net earnings or other comprehensive earnings. The amendments are effective prospectively for reporting periods beginning after December 15, 2012. The adoption of this amendment during the quarter ended March 30, 2013 did not have an effect on the Company's financial condition, results of operations or cash flows.

#### (3) Fair Value of Financial Instruments

The fair value of certain of the Company's financial instruments, including cash and cash equivalents, trade receivables and accounts payable, approximates their respective carrying amounts due to their short-term maturity. The fair value of available-for-sale (AFS) securities is based on market prices using the following measurement

Level 1 – Fair value is determined by using quoted prices in active markets for identical investments. AFS securities that are included in this category are primarily a mutual fund and equity securities.

Level 2 – Fair value is determined by using other than quoted prices. By using observable inputs (for example, benchmark yields, interest rates, reported trades and broker dealer quotes), the fair value is determined through processes such as benchmark curves, benchmarking of like securities and matrix pricing of corporate and municipal bonds by using pricing of similar bonds based on coupons, ratings and maturities. In addition, the value of collateralized mortgage obligation securities is determined by using models to develop prepayment and interest rate scenarios for these securities which have prepayment features. AFS securities that are included in this category are primarily debt securities (tax exempt and taxable bonds).

Level 3 – Fair value is determined by using other than observable inputs. Fair value is determined by using the best information available in the circumstances and requires significant management judgment or estimation. No AFS securities are currently included in this category.

Following is a summary of fair value measurements for AFS securities as of June 29, 2013 and December 29, 2012:

·	Fair Value	Level 1	Level 2	Level 3
	(Amounts are in	thousands)		
June 29, 2013	\$5,750,346	904,792	4,845,554	
December 29, 2012	5,033,106	713,741	4,319,365	_

## PUBLIX SUPER MARKETS, INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

#### (4)Investments

All of the Company's debt and equity securities are classified as AFS and are carried at fair value. The Company evaluates whether AFS securities are other-than-temporarily impaired (OTTI) based on criteria that include the extent to which cost exceeds market value, the duration of the market value decline, the credit rating of the issuer or security, the failure of the issuer to make scheduled principal or interest payments and the financial health and prospects of the issuer or security.

Declines in the value of AFS securities determined to be OTTI are recognized in earnings and reported as OTTI losses. Debt securities with unrealized losses are considered OTTI if the Company intends to sell the debt security or if the Company will be required to sell the debt security prior to any anticipated recovery. If the Company determines that a debt security is OTTI under these circumstances, the impairment recognized in earnings is measured as the difference between the amortized cost and the current fair value. A debt security is also determined to be OTTI if the Company does not expect to recover the amortized cost of the debt security. However, in this circumstance, if the Company does not intend to sell the debt security and will not be required to sell the debt security, the impairment recognized in earnings equals the estimated credit loss as measured by the difference between the present value of expected cash flows and the amortized cost of the debt security. Expected cash flows are discounted using the debt security's effective interest rate. An equity security is determined to be OTTI if the Company does not expect to recover the cost of the equity security. Declines in the value of AFS securities determined to be temporary are reported, net of tax, as other comprehensive losses and included as a component of stockholders' equity. Interest and dividend income, amortization of premiums, accretion of discounts and realized gains and losses on AFS securities are included in investment income. Interest income is accrued as earned. Dividend income is recognized as income on the ex-dividend date of the stock. The cost of AFS securities sold is based on the first-in, first-out method. Following is a summary of AFS securities as of June 29, 2013 and December 29, 2012:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
	(Amounts are	in thousands)		
June 29, 2013				
Tax exempt bonds	\$3,456,104	18,819	21,876	3,453,047
Taxable bonds	1,379,442	9,147
