INNSUITES HOSPITALITY TRUST AND SUBSIDIARIES  
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS  
AS OF APRIL 30 AND JANUARY 31, 2012  
AND FOR THE THREE MONTHS ENDED APRIL 30, 2012 AND 2011

1. NATURE OF OPERATIONS AND BASIS OF PRESENTATION

InnSuites Hospitality Trust (the “Trust”) is an unincorporated real estate investment trust in the State of Ohio that at April 30, 2012 wholly-owned one InnSuites® hotel located in Yuma, Arizona and together with its affiliate RRF Limited Partnership, a Delaware limited partnership (the “Partnership”), wholly-owned another InnSuites® hotel located in Tucson, Arizona, had a 56.29% interest in another hotel located in Tucson, Arizona and had a 75.55% interest in InnSuites® hotel located in Ontario, California. The Trust also owned a direct 42.25% interest in one InnSuites® hotel located in Albuquerque, New Mexico (all five InnSuites® hotels are hereinafter referred to as the “Hotels”). The Trust is the sole general partner in the Partnership. The Hotels are managed by InnSuites Hotels, Inc. (“InnSuites Hotels”), which is a wholly-owned subsidiary of the Trust.

InnSuites Hotels holds management contracts under which it provides hotel management services to the Hotels, as well as three hotels with an aggregate of 439 suites owned by affiliates of James F. Wirth (“Mr. Wirth”), the Trust’s Chairman and Chief Executive Officer. Under the management agreements, InnSuites manages the hotels’ daily operations, for which it receives a percentage of revenue from the hotels and an accounting fee. InnSuites Hotels also holds licensing agreements and the “InnSuites” trademarks and provides licensing services to the Hotels, as well as the three hotels owned by affiliates of Mr. Wirth with an aggregate of 439 suites. Under the licensing agreements with affiliates of Mr. Wirth, InnSuites Hotels receives a fixed monthly fee based on the number of units in the hotel properties in exchange for use of the “InnSuites” trademark. Additionally, InnSuites Hotels provides trademark and reservation services to 54 unrelated hotel properties. Under these licensing agreements with unrelated properties, InnSuites Hotels receives variable monthly fees based on the number of reservations processed for the hotel property and, in certain cases, the gross room revenue of the hotel property.

Effective February 1, 2012, the management agreements were amended for the Hotels and the three hotels owned by affiliates of Mr. Wirth. Under the new agreements, the employees are no longer employees of InnSuites Hotels and are now employees of the hotels at which they work. As such, each hotel is responsible for their employee’s payroll and payroll reimbursements are no longer required. The primary purpose for the amendment was to streamline the administrative and accounting functions between the management company, the Hotels and the three hotels owned by affiliates of Mr. Wirth, which resulted in a more efficient operation.

The Trust’s general partnership interest in the Partnership was 72.04% and 71.98% as of April 30 and January 31, 2012, respectively. The weighted average for the three months ended April 30, 2012 and 2011 was 72.03% and 71.43%, respectively.

PARTNERSHIP AGREEMENT

The Partnership Agreement of the Partnership (the “Partnership Agreement”) provides for the issuance of two classes of limited partnership units, Class A and Class B. Such classes are identical in all respects, except that each Class A limited partnership unit is convertible into a like number of Shares of Beneficial Interest of the Trust at any time at the option of the limited partner. A total of 286,034 and 293,665 Class A limited partnership units were issued and outstanding as of April 30 and January 31, 2012, respectively. Additionally, as of April 30 and January 31, 2012, a

total of 3,407,938 Class B limited partnership units were held by Mr. Wirth and his affiliates, in lieu of the issuance of Class A limited partnership units. Each Class B limited partnership unit is identical to Class A limited partnership units in all respects, except that Class B limited partnership units are convertible only with the approval of the Board of Trustees of the Trust, in its sole discretion. If all of the Class A and B limited partnership units were converted, the limited partners in the Partnership would receive 3,693,972 Shares of Beneficial Interest of the Trust as of April 30, 2012. The Trust held 9,517,545 and 9,509,914 General Partner Units as of April 30 and January 31, 2012, respectively.

## BASIS OF PRESENTATION

The financial statements of the Partnership, InnSuites Hotels, Yuma Hospitality LP and Albuquerque Suite Hospitality, LLC are consolidated with the Trust, and all significant intercompany transactions and balances have been eliminated.

These consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions for Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete consolidated financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-month period ended April 30, 2012 are not necessarily indicative of the results that may be expected for the year ending January 31, 2013. For further information, refer to the consolidated financial statements and footnotes thereto included in the Trust's Annual Report on Form 10-K as of and for the year ended January 31, 2012.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### USE OF ESTIMATES

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The accounting policies that the Trust believes are most critical and involve the most subjective judgments include estimates and assumptions of future revenue and expenditures used to project cash flows. Future cash flows are used to determine the recoverability (or impairment) of the carrying values of the Trust's long-lived assets in the event management is required to test an asset for recoverability of carrying value under FASB authoritative guidance related to the impairment or disposal of long-lived assets. The Trust's evaluation of future cash flows is based on historical experience and other factors, including certain economic conditions and committed future bookings. The estimated future cash flows are based upon, among other things, assumptions about expected future operating performance and may differ from actual cash flows.

## LIQUIDITY

Our principal source of cash to meet our cash requirements, including distributions to our shareholders, is our share of the Partnership's cash flow, quarterly distributions from the Albuquerque, New Mexico hotel property and our direct ownership of the Yuma, Arizona property. The Partnership's principal source of revenue is hotel operations for the two hotel properties it owns and quarterly distributions from the Tucson Foothills, Arizona property. Our liquidity, including our ability to make distributions to our shareholders, will depend upon our ability and the Partnership's ability to generate sufficient cash flow from hotel operations.

Hotel operations are significantly affected by occupancy and room rates. Occupancy increased from the first three months of fiscal year 2012 to the first three months of fiscal year 2013, while rates decreased. Results are also significantly impacted by overall economic conditions and specifically conditions in the travel industry. Unfavorable changes in these factors could negatively impact hotel room demand and pricing, which would reduce the Trust's profit margins on rented suites.

The Trust has principal of \$565,000 due and payable for the remainder of fiscal year 2013 under mortgage notes payable. For the period between May 1, 2012 and April 30, 2013, the Trust has principal of \$1.0 million due and payable under mortgage notes payable.

The non-recourse mortgage note payable relating to our Ontario, California property, which is secured by the property and the rents, revenues and profits from the property, matured on May 11, 2011 and was modified on February 14, 2012. The lender reduced the principal balance by \$500,000 and waived all penalties and accumulated interest in exchange for a \$1.0 million pay down of the principal balance by the Trust. The interest rate was lowered from 8.28% to 5.0% reducing the monthly principal and interest payments to \$31,700 from \$71,100. The note was extended for three years to January 14, 2015. The Trust accounted for the modification as a troubled debt restructuring. Based on the terms of the modified mortgage note payable, the total future cash payments of \$7,795,006 consists of \$6,905,289 in principal payments and \$889,717 interest payments. As such, total future cash payments exceeded the carrying value of the note payable (including accrued interest) of \$7,610,427 at the date of restructure by \$184,579. As a result, there was no gain or loss recorded during the period. In addition, no adjustment was made to the carrying value of the note at the date of restructure. Instead this requires the Trust to recognize interest expense using an effective interest rate on the debt after the restructuring which results in \$184,579 of interest expense being recognized over the remainder of the term. In addition, the carrying value is reduced over the remaining term by \$705,138. For the three months ended April 30, 2012, principal and interest payments of \$95,000 were paid, \$14,000 of interest expense was recognized and the carrying value of the old debt was reduced by \$81,000.

We anticipate that current cash balances, future cash flows from operations, proceeds from sales of non-controlling interests in the Ontario and Tucson Foothills subsidiaries, and available credit will be sufficient to satisfy our obligations as they become due. The bank line of credit is in final negotiations and is expected to be finalized by June 23, 2012. In the event cash flows from operations are insufficient to satisfy these obligations as they become due, we may seek to refinance properties, negotiate additional credit facilities or issue debt instruments. From sales of non-controlling interests in the Ontario and Tucson Foothills subsidiaries, we received \$1.2 million during the first quarter of fiscal year 2013.

For the remainder of fiscal year 2013 (May 1, 2012 through January 31, 2013), the Trust's management has projected that cash flows from operations alone may not be sufficient to meet all of the Trust's financial obligations as they come due. Based on this projection, the Trust began selling non-controlling ownership interests in its Ontario, California subsidiary, providing enough available liquidity for management to believe that the Trust will meet all of its financial obligations as they come due during fiscal year 2013. See Note 5 – "Note Payable to Bank", Note 6 – "Sale of Membership Interests in Albuquerque Suite Hospitality, LLC", Note 7 – "Sale of Partnership Interests in Tucson Hospitality Properties, LP" and Note 8 – "Sale of Partnership Interests in Ontario Hospitality Properties, LP."

## REVENUE RECOGNITION

Room, food and beverage, telecommunications, management and licensing fees and other revenue are recognized as earned as services are provided and items are sold. Payroll reimbursements are recorded as the Trust provides its personnel to the hotels under management and are not netted with the corresponding payroll expense.

## INCOME PER SHARE

Basic and diluted income per share have been computed based on the weighted-average number of Shares of Beneficial Interest outstanding during the periods and potentially dilutive securities.

For the three-month periods ended April 30, 2012 and 2011, there were Class A and Class B limited partnership units outstanding, which are convertible to Shares of Beneficial Interest of the Trust. The following is a reconciliation of basic and diluted income per share:

	For the three months ended	
	April 30, 2012	April 30, 2011
Net Income attributable to Controlling Interest	\$ 464,214	\$ 50,106
Plus: Net Income (loss) attributable to non-controlling interests	180,608	6,018
Net Income attributable to Controlling Interest after unit conversion	\$ 644,822	\$ 56,124
Weighted average common shares outstanding	8,441,045	8,578,626
Plus: Weighted average incremental shares resulting from unit conversion	3,695,804	3,774,071
Weighted average common shares outstanding after unit conversion	12,136,849	12,352,697
Basic and Diluted Income Per Share	\$ 0.05	\$ 0.01

### 3. STOCK-BASED COMPENSATION

For the three months ended April 30, 2012, the Trust recognized expenses of \$9,900 related to stock-based compensation. During the three months ended April 30, 2011, the Trust recognized expenses of \$12,960. The Trust issued 18,000 restricted shares with a total market value of \$39,600 as compensation to its three outside Trustees during the three months ended April 30, 2012.

The following table summarizes restricted share activity during the three months ended April 30, 2012:

	Shares	Restricted Shares Weighted-Average Per Share Grant Date Fair Value
Balance at January 31, 2012	—	—
Granted	18,000	\$2.20
Vested	(4,500)	\$2.20
Forfeited	—	—
Balance of unvested awards at April 30, 2012	13,500	\$2.20

No cash was paid out or received by the Trust relating to restricted share awards during the three months ended April 30, 2012 or 2011.

### 4. RELATED PARTY TRANSACTIONS

As of April 30, 2012 and 2011, Mr. Wirth and his affiliates held 3,407,938 Class B limited partnership units in the Partnership. As of April 30, 2012 and 2011, Mr. Wirth and his affiliates held 5,573,624 Shares of Beneficial Interest of the Trust.

The Trust recognized related party payroll reimbursement revenue and related payroll expense to Mr. Wirth and his affiliates in the amounts of \$0 and \$680,568 for the three months ended April 30, 2012 and 2011, respectively. As of February 1, 2012, the employees of each hotel at which they work are employees of the hotel and the hotels are responsible for their employee payrolls.

See Note 6 – “Sale of Membership Interests in Albuquerque Suite Hospitality, LLC”, Note 7 – “Sale of Partnership Interests in Tucson Hospitality Properties, LP” and Note 8 – “Sale of Partnership Interests in Tucson Hospitality Properties, LP” for additional information on related party transactions.

### 5. NOTE PAYABLE TO BANK

As of April 30, 2012, the Trust has a revolving bank line of credit agreement, with a credit limit of \$500,000. The line of credit bears interest at the prime rate plus 2.75% per annum and has no financial covenants. If the Trust maintains bank balances of at least \$250,000 with the lender, the line of credit bears interest at the prime rate plus 1.0% with a 6.0% rate floor. The line is secured by a junior security interest in the Yuma, Arizona property and the Trust's trade receivables. Mr. Wirth is a guarantor on the line of credit. The Trust had no funds drawn on this line of credit as of April 30, 2012. Subsequent to the maturity date of May 23, 2012, the line of credit was extended for 30 days to allow time to complete negotiations on a one-year extension.

### 6. SALE OF MEMBERSHIP INTERESTS IN ALBUQUERQUE SUITE HOSPITALITY, LLC

On July 22, 2010, the Board of Trustees unanimously approved, with Mr. Wirth abstaining, for the Partnership to enter into an agreement with Rare Earth Financial, LLC (“Rare Earth”), an affiliate of Mr. Wirth, to sell additional units in Albuquerque Suite Hospitality, LLC (the “Albuquerque entity”), which owns and operates the Albuquerque, New Mexico hotel property. Under the agreement, Rare Earth agreed to either purchase or bring in other investors to purchase at least 51% of the membership interests in the Albuquerque entity and the parties agreed to restructure the operating agreement of the Albuquerque entity. A total of 400 units were available for sale for \$10,000 per unit, with a two-unit minimum subscription. On October 29, 2010, the parties revised the operating agreement.

Under the new operating agreement, Rare Earth became the administrative member of the Albuquerque entity, in charge of the day-to-day management of the company. Additionally, the membership interests in the Albuquerque entity were allocated to three classes with differing cumulative priority distribution rights. Class A units are owned by unrelated third parties and have first priority for distributions, Class B units are owned by the Trust and/or the Partnership and have second priority for distributions, and Class C units are owned by Rare Earth or other affiliates of Mr. Wirth and have the lowest priority for distributions from the Albuquerque entity. Priority distributions are cumulative for five years. Rare Earth also earned a formation fee equal to \$320,000, payable in either cash or units in the Albuquerque entity, which was intended for 32 Class C units in the Albuquerque entity after the sale of at least 160 units. If certain triggering events related to the Albuquerque entity occur prior to the payment of all accumulated distributions to its members, such accumulated distributions will be paid out of any proceeds of the event before general distributions to the members. In the event that the proceeds generated from a triggering event are insufficient to pay the total amount of all such accumulated distributions owed to the members, all Class A members will participate pro rata in the funds available for distribution to them until paid in full, then Class B, and then Class C. After all investors have received their initial capital plus a 7% per annum simple return, any additional profits will be allocated 50% to Rare Earth, with the remaining 50% allocated proportionately to all unit classes. Priority distributions to all Classes are projected to be \$280,000 each year for fiscal years 2013 through 2016. The Albuquerque entity is required to use its best efforts to pay the cumulative priority distributions. The Trust does not guarantee and is not otherwise obligated to pay the priority distributions. InnSuites Hotels will continue to provide management, licensing and reservation services to the property.

On July 29, 2010, the Partnership sold approximately 11% of its sole membership interest in the Albuquerque entity for \$400,000 to Rare Earth. The price paid reflects the net assets of the Albuquerque entity calculated using the third-party appraisal value for the hotel property and the carrying cost of all other assets and liabilities. Subsequently, Rare Earth received an additional 32 units, or approximately 8%, worth \$320,000 as a formation fee resulting in Rare Earth having a total ownership interest of approximately 19% as of January 31, 2011. During the fiscal year ended January 31, 2011, the Partnership sold an additional approximately 47% of its membership interests for \$1,754,000 to unrelated third parties and approximately 1% for \$20,000 to Mr. Lawrence Pelegrin, who is a member of the Board of Trustees. The transactions were a reduction in the Partnership’s controlling interest (see Note 9 – “Variable Interest Entity”), and therefore no gain or loss was reflected in the statements of operations and funds received in excess of cost basis were recorded to equity. On January 24, 2012 the Trust purchased 40 units at \$10,000 per unit from Rare Earth, and on January 31, 2012 the Trust purchased Partnership’s 114 units at \$10,000 per unit by reducing the Trust’s receivable from the Partnership. As of April 30, 2012, the Partnership does not hold any ownership interest in the Albuquerque entity, the Trust holds a 42.25 % ownership interest, Mr. Wirth and his affiliates hold an 8.00% interest, and other parties hold a 49.75% interest. The Albuquerque entity has minimum preference payments to unrelated unit holders of \$139,300, to the Trust of \$118,300 and to Rare Earth of \$22,400 per year payable quarterly for calendar years 2014 and 2015. During calendar year 2013, the Albuquerque entity has remaining minimum preference payments to unrelated unit holders of \$104,475, to the Trust of \$88,725, and to Rare Earth of \$16,800.

## 7. SALE OF PARTNERSHIP INTERESTS IN TUCSON HOSPITALITY PROPERTIES, LP

On February 17, 2011, the Trust and Partnership entered into a restructuring agreement with Rare Earth to allow for the sale of minority interest units in Tucson Hospitality Properties, LP (the “Tucson entity”), which operates the Tucson Foothills hotel property and was then wholly-owned by the Partnership. Under the agreement, Rare Earth agreed to either purchase or bring in other investors to purchase up to 250 units, which represents approximately 41% of the outstanding partnership units in the Tucson entity, on a post-transaction basis, and the parties agreed to restructure the limited partnership agreement of the Tucson entity. The Board of Trustees approved this restructuring on January 31, 2011.

Under the restructured limited partnership agreement, Rare Earth became a general partner of the Tucson entity along with the Partnership. The partnership interests in the Tucson entity were allocated to three classes with differing cumulative priority distribution rights. Class A units are owned by unrelated third parties and have first priority for distributions, Class B units are owned by the Trust and/or the Partnership and have second priority for distributions, and Class C units are owned by Rare Earth or other affiliates of Mr. Wirth and have the lowest priority for distributions from the Tucson entity. Priority distributions are cumulative for five years. Rare Earth also received a formation fee of \$320,000, conditioned upon and arising from the sale of the first 160 units in the Tucson entity. If certain triggering events related to the Tucson entity occur prior to the payment of all accumulated distributions to its members, such accumulated distributions will be paid out of any proceeds of the event before general distribution of the proceeds to the members. In the event that funds generated from a triggering event are insufficient to pay the total amount of all such accumulated distributions owed to the members, all Class A members will participate pro rata in the funds available for distribution to them until paid in full, then Class B, and then Class C. After all investors have received their initial capital plus a 7% per annum simple return, any additional profits will be allocated 50% to Rare Earth, with the remaining 50% allocated proportionately to all unit classes. Priority distributions to all Classes are projected to be \$428,400 each year for fiscal years 2013 through 2017. The Tucson entity is required to use its best efforts to pay the priority distributions. The Trust does not guarantee and is not otherwise obligated to pay the cumulative priority distributions. InnSuites Hotels will continue to provide management, licensing and reservation services to the property.

At April 30, 2012, the Partnership had sold 255.52 units to unrelated parties at \$10,000 per unit totaling \$2,555,200. As of April 30, 2012, the Partnership holds a 54.49% ownership interest in the Tucson entity, the Trust holds a 1.80 % ownership interest, Mr. Wirth and his affiliates hold a 1.96% interest, and other parties hold a 41.75% interest. The Tucson entity has estimated minimum preference payments to unrelated unit holders of \$178,864, to the Trust of \$7,700, to the Partnership of \$233,436 and to Rare Earth of \$8,400 per year payable quarterly for calendar years 2014 and 2015. During calendar year 2013, the Tucson entity has remaining minimum preference payments to unrelated unit holders of \$134,148, to the Trust of \$5,775, to the Partnership of \$175,077 and to Rare Earth of \$6,300.

## 8. SALE OF PARTNERSHIP INTERESTS IN ONTARIO HOSPITALITY PROPERTIES, LP

On February 29, 2012, the Trust and Partnership entered into a restructuring agreement with Rare Earth to allow for the sale of minority interest units in Ontario Hospitality Properties, LP (the “Ontario entity”), which operates the Ontario hotel property and was then wholly-owned by the Partnership. Under the agreement, Rare Earth agreed to either purchase or bring in other investors to purchase up to 250 units, which represents approximately 49% of the outstanding partnership units in the Ontario entity, on a post-transaction basis, and the parties agreed to restructure the limited partnership agreement of the Ontario entity. The Board of Trustees approved this restructuring on February 1, 2012.

Under the restructured limited partnership agreement, Rare Earth became a general partner of the Ontario entity along with the Partnership. The partnership interests in the Ontario entity were allocated to three classes with

differing cumulative priority distribution rights. Class A units are owned by unrelated third parties and have first priority for distributions, Class B units are owned by the Trust and/or the Partnership and have second priority for distributions, and Class C units are owned by Rare Earth or other affiliates of Mr. Wirth and have the lowest priority for distributions from the Ontario entity. Priority distributions are cumulative for five years. Rare Earth also received a formation fee of \$320,000, conditioned upon and arising from the sale of the first 160 units in the Ontario entity. If certain triggering events related to the Ontario entity occur prior to the payment of all accumulated distributions to its members, such accumulated distributions will be paid out of any proceeds of the event before general distribution of the proceeds to the members. In the event that funds generated from a triggering event are insufficient to pay the total amount of all such accumulated distributions owed to the members, all Class A members will participate pro rata in the funds available for distribution to them until paid in full, then Class B, and then Class C. After all investors have received their initial capital plus a 7% per annum simple return, any additional profits will be allocated 50% to Rare Earth, with the remaining 50% allocated proportionately to all unit classes. Priority distributions to all Classes are projected to be \$200,000 for the remainder of fiscal year 2013 and \$357,000 for each of the fiscal years 2014 through 2017. The Ontario entity is required to use its best efforts to pay the priority distributions. The Trust does not guarantee and is not otherwise obligated to pay the cumulative priority distributions. InnSuites Hotels will continue to provide management, licensing and reservation services to the property.

At April 30, 2012, the Partnership had sold 114.68 units to unrelated parties at \$10,000 per unit totaling \$1,146,800. As of April 30, 2012, the Partnership holds a 75.55% ownership interest in the Ontario entity, Mr. Wirth and his affiliates hold a 1.96% interest, and other parties hold a 22.49% interest. The Ontario entity has estimated minimum preference payments to unrelated unit holders of \$80,276, to the Partnership of \$269,724 and to Rare Earth of \$7,000 per year payable quarterly for calendar years 2014 and 2015. During calendar year 2013, the Ontario entity has remaining minimum preference payments to unrelated unit holders of \$60,207, to the Partnership of \$202,293 and to Rare Earth of \$5,250.

## 9. VARIABLE INTEREST ENTITY

Management evaluates the Trust's explicit and implicit variable interests to determine if they have any variable interests in VIEs. Variable interests are contractual, ownership, or other pecuniary interests in an entity whose value changes with changes in the fair value of the entity's net assets, exclusive of variable interests. Explicit variable interests are those which directly absorb the variability of a VIE and can include contractual interests such as loans or guarantees as well as equity investments. An implicit variable interest acts the same as an explicit variable interest except it involves the absorbing of variability indirectly, such as through related party arrangements or implicit guarantees. The analysis includes consideration of the design of the entity, its organizational structure, including decision making ability over the activities that most significantly impact the VIE's economic performance. Generally accepted accounting principles require a reporting entity to consolidate a VIE when the reporting entity has a variable interest, or combination of variable interest, that provides it with a controlling financial interest in the VIE. The entity that consolidates a VIE is referred to as the primary beneficiary of that VIE.

The Partnership has determined that the Albuquerque entity is a variable interest entity with the Partnership as the primary beneficiary. In its determination, management considered the following qualitative and quantitative factors:

- a) The Partnership, Trust and their related parties, which share common ownership and management, have guaranteed material financial obligations of the Albuquerque entity, including its mortgage note payable and distribution obligations, which, based on the capital structure of the Albuquerque entity, management believes could potentially be significant.
- b) The Partnership, Trust and their related parties have maintained, as a group, a controlling ownership interest in the Albuquerque entity, with the largest ownership belonging to the Partnership.

c) The Partnership, Trust and their related parties have maintained control over the decisions which most impact the financial performance of the Albuquerque entity, including providing the personnel to operate the property on a daily basis.

During the first quarters ending April 30, 2012 and 2011, neither the Trust nor the Partnership has provided any implicit or explicit financial support for which they were not previously contracted.

#### 10. STATEMENTS OF CASH FLOWS, SUPPLEMENTAL DISCLOSURES

The Trust paid \$207,626 and \$387,221 in cash for interest for the three months ended April 30, 2012 and 2011, respectively.

During the first quarter of fiscal year 2013, the Trust issued a promissory note for \$15,500 to an unrelated third party for the purchase of 7,631 limited partnership units in the Partnership. The note is due in 36 monthly principal and interest installments of \$479 and matures on February 22, 2015.

## 11. COMMITMENTS AND CONTINGENCIES

Two of the Hotels are subject to non-cancelable ground leases expiring in 2033 and 2050. Total expense associated with the non-cancelable ground leases for the three months ended April 30, 2012 was \$52,543, plus a variable component based on gross revenues of each property that totaled approximately \$4,994.

During the second quarter of fiscal year 2010, the Trust entered into a five-year office lease for its corporate headquarters. The Trust recorded \$8,618 and \$7,387 of general and administrative expense related to the lease during the three-month period ended April 30, 2012 and 2011, respectively. The lease includes a base rent charge of \$24,000 for the first lease year with annual increases to a final year base rent of \$39,600. The Trust has the option to cancel the lease after each lease year for penalties of four months rent after the first year with the penalty decreasing by one month's rent each successive lease year. It is the Trust's intention to remain in the office for the duration of the five-year lease period.

Future minimum lease payments under the non-cancelable ground leases and office lease are as follows:

Fiscal Year Ending	
Remainder of 2013	\$ 163,890
2014	247,760
2015	228,160
2016	206,560
2017	206,560
Thereafter	5,134,332
Total	\$ 6,187,262

The Trust is obligated under loan agreements relating to four of its Hotels to deposit 4% of the individual Hotel's room revenue into an escrow account to be used for capital expenditures. The escrow funds applicable to the four Hotel properties for which a mortgage lender escrow exists are reported on the Trust's Consolidated Balance Sheet as "Restricted Cash."

InnSuites Hotels has entered into membership agreements with Best Western International, Inc. for four of the Hotel properties. These agreements provide for fees to be paid by the Hotels based on revenue and reservations received, and contain no minimum payment provisions.

The nature of the operations of the Hotels exposes them to risks of claims and litigation in the normal course of their business. Although the outcome of these matters cannot be determined, management does not expect that the ultimate resolution of these matters will have a material adverse effect on the consolidated financial position, results of operations or liquidity of the Trust.

The Trust is involved from time to time in various other claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Trust's consolidated financial position, results of operations or liquidity.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### GENERAL

## Edgar Filing: INNSUITES HOSPITALITY TRUST - Form 10-Q

The following discussion should be read in conjunction with our unaudited consolidated financial statements and notes thereto appearing elsewhere in this Form 10-Q.

We own the sole general partner's interest in the Partnership. Our principal source of cash flows is from the operations of the Hotels and management and licensing contracts with affiliated and third-party hotels.

### CRITICAL ACCOUNTING POLICIES AND ESTIMATES

In our Annual Report on Form 10-K for the year ended January 31, 2012, we identified the critical accounting policies that affect our more significant estimates and assumptions used in preparing our consolidated financial statements. We believe that the policies we follow for the valuation of our hotel properties, which constitute the majority of our assets, are our most critical policies. Those policies include methods used to recognize and measure any identified impairment of our hotel properties assets. There have been no material changes to our critical accounting policies since January 31, 2012.

## LIQUIDITY AND CAPITAL RESOURCES

Our principal source of cash to meet our cash requirements, including distributions to our shareholders, is our share of the Partnership's cash flow, quarterly distributions from the Albuquerque, New Mexico hotel property and our direct ownership of the Yuma, Arizona property. The Partnership's principal source of revenue is hotel operations for the two hotel properties it owns and quarterly distributions from the Tucson Foothills, Arizona property. Our liquidity, including our ability to make distributions to our shareholders, will depend upon our ability and the Partnership's ability to generate sufficient cash flow from hotel operations.

Hotel operations are significantly affected by occupancy and room rates. Occupancy increased from the first three months of fiscal year 2012 to the first three months of fiscal year 2013, while rates decreased. Results are also significantly impacted by overall economic conditions and specifically conditions in the travel industry. Unfavorable changes in these factors could negatively impact hotel room demand and pricing, which would reduce the Trust's profit margins on rented suites.

The Trust has principal of \$565,000 due and payable for the remainder of fiscal year 2012 under mortgage notes payable. For the period between May 1, 2012 and April 30, 2013, the Trust has principal of \$1.0 million due and payable under mortgage notes payable.

The non-recourse mortgage note payable relating to our Ontario, California property, which is secured by the property and the rents, revenues and profits from the property, matured on May 11, 2011 and was modified on February 14, 2012. The lender reduced the principal balance by \$500,000 and waived all penalties and accumulated interest in exchange for a \$1.0 million pay down of the principal balance by the Trust. The interest rate was lowered from 8.28% to 5.0% reducing the monthly principal and interest payment to \$31,700 from \$71,100. The note was extended for three years to January 14, 2015.

We anticipate that current cash balances, future cash flows from operations, proceeds from sales of non-controlling interests in the Ontario and Tucson Foothills subsidiaries, and available credit will be sufficient to satisfy our obligations as they become due. The bank line of credit is in final negotiations and is expected to be finalized by June 23, 2012. In the event cash flows from operations are insufficient to satisfy these obligations as they become due, we may seek to refinance properties, negotiate additional credit facilities or issue debt instruments. From sales of non-controlling interests in the Ontario and Tucson Foothills subsidiaries, we received \$1.2 million during the first quarter of fiscal year 2013.

For the remainder of fiscal year 2013 (May 1, 2012 through January 31, 2013), our management has projected that cash flows from operations alone may not be sufficient to meet all of our financial obligations as they come due. Based on this projection, we began selling non-controlling ownership interests in our Ontario, California subsidiary, providing enough available liquidity for management to believe that we will meet all of our financial obligations as they come due during fiscal year 2013. See Note 5 – "Note Payable to Bank", Note 6 – "Sale of Membership Interests in Albuquerque Suite Hospitality, LLC", Note 7 – "Sale of Partnership Interests in Tucson Hospitality Properties, LP" and Note 8 – "Sale of Partnership Interests in Ontario Hospitality Properties, LP."

As of April 30, 2012, we have no commitments for capital expenditures beyond the 4% reserve for refurbishment and replacements set aside annually for each hotel property.

## RESULTS OF OPERATIONS

## Edgar Filing: INNSUITES HOSPITALITY TRUST - Form 10-Q

Our expenses consist primarily of hotel operating expenses, property taxes, insurance, corporate overhead, interest on mortgage debt, professional fees and depreciation of the Hotels. Our operating performance is principally related to the performance of the Hotels. Therefore, management believes that a review of the historical performance of the operations of the Hotels, particularly with respect to occupancy, calculated as rooms sold divided by the number of rooms available, average daily rate ("ADR"), calculated as total room revenue divided by number of rooms sold, and revenue per available room ("REVPAR"), calculated as total room revenue divided by the number of rooms available, is appropriate for understanding revenue from the Hotels. Occupancy was 74.4% for the three months ended April 30, 2012, an increase of 6.5% from the prior year period. ADR decreased \$2.56, or 3.3%, to \$75.86. The decrease in ADR and increased occupancy resulted in an increase of \$3.20, or 6.0%, in REVPAR to \$56.46 from \$53.26 in the prior year period. The increase in occupancy is due to the moderately improving trend in our economy, which caused more vacation and business travelers.

The following table shows occupancy, ADR and REVPAR for the periods indicated:

	FOR THE THREE MONTHS ENDED			
	April 30,			
	2012		2011	
OCCUPANCY	74.4	%	67.9	%
AVERAGE DAILY RATE (ADR)	\$75.86		\$78.42	
REVENUE PER AVAILABLE ROOM (REVPAR)	\$56.46		\$53.26	

No assurance can be given that the trends reflected in this data will be maintained or improve or that occupancy, ADR or REVPAR will not decrease as a result of changes in national or local economic or hospitality industry conditions. We expect the improving economic conditions to positively affect our business levels for the remainder of this current fiscal year.

## RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED APRIL 30, 2012 COMPARED TO THE THREE MONTHS ENDED APRIL 30, 2011

A summary of the operating results for the three months ended April 30, 2012 and 2011 is:

	2012	2011	Change	% Change
Revenue	\$ 4,819,625	\$ 4,998,782	\$ (179,157)	(3.6)%
Operating Income	\$ 852,340	\$ 443,202	\$ 409,138	92.3%
Total Expenses	\$ 4,174,911	\$ 4,942,801	\$ (767,890)	(15.5)%
Net Income Attributable to Controlling Interest	\$ 464,214	\$ 50,106	\$ 414,108	>100.0%
Net Income Per Share – Basic and Diluted	\$ 0.05	\$ 0.01	\$ 0.04	>100.0%

For the three months ended April 30, 2012, our total revenue was \$4.8 million, a decrease of \$179,000, compared with the prior year period total of \$5.0 million. The decrease was due to changing the employees at the Hotels from employees of the management company to employees of each hotel. The management company no longer receives payroll reimbursements, which in the prior year period was \$591,000. Revenues from hotel operations, which include Room, Food and Beverage, Telecommunications and Other revenues, increased 11.7% to \$4.8 million for the three months ended April 30, 2012, from \$4.3 million for the three months ended April 30, 2011. Hotel operations, including Food and Beverage operations, experienced increases in revenues during the first quarter of fiscal year 2013 due to higher occupancy as a result of improving economic conditions.

Total operating expenses were \$4.0 million for the three months ended April 30, 2012, a decrease of \$588,000, or 12.8%, from the prior year period total of \$4.6 million. The decrease was due to payroll reimbursements of \$591,000 in the three months ended April 30, 2011.

General and administrative expense decreased \$42,000 for the three months ended April 30, 2012, or 5.3%, to \$796,000 from \$838,000 in the prior year period primarily due to effective cost controls.

Repairs and maintenance expense was \$396,000 for the three months ended April 30, 2012, a decrease of \$30,000 or 7.6% under the prior year period total of \$426,000. The decrease was primarily due to lower maintenance labor and operating expenses at the Yuma, Arizona location due to significant maintenance projects at the property during the prior year period.

Operating income was \$852,000 for the three months ended April 30, 2012, an increase over the prior year period of \$443,000, or 92.3%. The increase reflects improved efficiencies in sales and management.

Consolidated net income improved by \$589,000 for the three month period ended April 30, 2012 to \$645,000, or \$0.05 per basic share, from \$56,000, or \$0.01 per basic share, during the three months ended April 30, 2011. This increase was due to greater activity at the hotels and a successful debt restructure for our Ontario property.

## EBITDA

We reported earnings before non-controlling interest, interest, taxes, depreciation and amortization (Adjusted EBITDA) of \$1.3 million for the three months ended April 30, 2012, compared to \$892,000 in the prior year, an increase of \$394,000, or 44.1%. Adjusted EBITDA is a non-GAAP financial measure that management believes provides meaningful insight into the Trust's financial performance and its operating profitability before non-operating expenses (such as interest and "other" non-core expenses) and non-cash charges (depreciation and amortization).

# Edgar Filing: INNSUITES HOSPITALITY TRUST - Form 10-Q

A reconciliation of Adjusted EBITDA to net income attributable to Shareholders of Beneficial Interest for the three month periods ended April 30 follows:

	2012	2011
Net Income attributable to controlling interest	\$ 464,214	\$ 50,106
Add back:		
Depreciation	433,657	449,032
Interest expense	207,626	387,221
Non-controlling interest	180,608	6,018
Less:		
Interest income	(108)	(143)
ADJUSTED EBITDA	\$ 1,285,997	\$ 892,234

## OFF-BALANCE SHEET FINANCINGS AND LIABILITIES

Other than lease commitments and legal contingencies incurred in the normal course of business, we do not have any off-balance sheet financing arrangements or liabilities. We do not have any majority-owned subsidiaries that are not included in the consolidated financial statements. (See Note 2 - "Summary of Significant Accounting Policies.")

## SEASONALITY

The Hotels' operations historically have been seasonal. The three southern Arizona hotels experience their highest occupancy in the first fiscal quarter and, to a lesser extent, the fourth fiscal quarter. The second fiscal quarter tends to be the lowest period of occupancy at those three southern Arizona hotels. This seasonality pattern can be expected to cause fluctuations in our quarterly revenue. The two hotels located in California and New Mexico historically experience their most profitable periods during the second and third fiscal quarters (the summer season), providing some balance to the general seasonality of our hotel business. To the extent that cash flows from operations are insufficient during any quarter, because of temporary or seasonal fluctuations in revenue, we may utilize cash on hand or borrowings to make distributions to our shareholders or to meet operating needs. No assurance can be given that we will make distributions in the future.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not required for smaller reporting companies.

### ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, we conducted an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934). Based on this evaluation, the principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of April 30, 2012 to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including the principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

As of January 31, 2012, our management identified a material weakness, and therefore, concluded that at January 31, 2012 our internal control over financial reporting was not effective. Management identified lack of controls related to process monitoring, testing, documentation, and change management within the information technology control environment. Specifically, the following material weakness existed as of January 31, 2012: Policies and procedures over IT program development and change management did not operate at a sufficient level to ensure all changes affecting the financial statements and underlying accounting records and key reports were identified, authorized, tested and implemented appropriately. In addition, certain deficiencies were noted in the monitoring of log security, testing of data transmissions, testing restoration, and incident/error management system. As such, there existed a reasonable possibility that a material error would not be prevented or detected on a timely basis.

We are actively engaged in the development and implementation of a remediation plan to ensure that controls contributing to this material weakness are designed appropriately and are operating effectively. These efforts included but were not limited to the hiring of a third-party contractor to test on a prospective basis our changes and updates made to our information technology environment supporting the financial reporting systems. For those controls that a remediation plan has not yet been specifically set forth, we are evaluating all our controls and procedures related to the information technology environment and are in the process of assessing an appropriate remediation plan.

Other than those discussed above, there was no change in our internal control over financial reporting during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On January 2, 2001, the Board of Trustees approved a share repurchase program under Rule 10b-18 of the Securities Exchange Act of 1934, as amended, for the purchase of up to 250,000 limited partnership units in the Partnership and/or Shares of Beneficial Interest in open market or privately negotiated transactions.
