REGAL-BELOIT SECOND QUARTER EARNINGS PER SHARE DOUBLES

Net Income Increases 142%

July 26, 2005 (Beloit, WI): REGAL-BELOIT CORPORATION (NYSE:RBC) today announced its second quarter 2005 financial results.

Net income in the second quarter of 2005 was \$18.4 million, a 141.8% increase from \$7.6 million reported in the second quarter of 2004. For the first six months of 2005, net income increased 112.1% to \$30.7 million from \$14.5 for the same period of 2004. Earnings per share were \$.62 and \$1.03 for the second quarter and first half of 2005, respectively, increases of 100% and 77.6% from \$.31 and \$.58 in the comparable periods in 2004.

Second quarter net sales increased 107.5% to \$368.8 million from \$177.7 million reported in the second quarter of 2004. Sales attributable to the Commercial AC motor and HVAC motor and capacitor acquisitions of 2004 were \$177.5 million in the quarter. Second quarter sales in the Electrical segment increased 150.7% including the sales attributable to the acquired businesses. Approximately 93% of the sales increase is attributable to sales from the acquired businesses. Sales in the Mechanical segment, which reflect the impact of the sale of the Illinois Gear business in May 2005, increased .8%. Six months sales of the Company of \$706.6 million reflect an increase of 107.4% as compared to the \$340.7 million reported for the same period in 2004. Sales attributable to the acquisitions for this period were \$332.6 million.

Income from operations increased 152.7% to \$35.8 million from \$14.2 million reported for the second quarter of 2004. For the first six months of 2005, income from operations was \$61.7 million as compared to \$26.7 million for the same period of 2004. The gross profit for the second quarter of 2005 was 21.6%, as compared to the 23.0% reported in the second quarter last year and the 20.3% reported in the first quarter of 2005. Our price increases and productivity improvements were offset by the impact of continued raw material inflation. However, our efforts to obtain additional pricing and productivity improvements continue to gain traction.

The Company's long-term debt decreased to \$536.9 million at the end of the second quarter of 2005 from \$563.6 million at the end of the first quarter of 2005.

"We continue to be extremely pleased with our financial performance and the progress on our strategic initiatives," said Henry W. Knueppel, President and CEO. *"Despite continued cost pressures from raw materials and the cooler weather that impacted sales into the HVAC channel, we delivered strong sales and income results. Our legacy Electrical businesses reported strong revenue growth and we continue to see strong results from the acquisitions."*

"Earnings for the third quarter, which reflect the seasonal pattern of our business, are projected to be in a range of \$.52- \$.56 per share using the second quarter's average diluted shares," Knueppel added. *"Reflected in this guidance is our belief that we will continue to see strong performances from our legacy businesses and results from the acquisitions that are in line with the previously announced guidance."*
