EXHIBIT 99.1 PRESS RELEASE DATED MAY 26, 2004

EXHIBIT 99.2 CONTRACT STATUS SUMMARY AT MAY 26, 2004

ITEM 5.

On May 26, 2004, the Company announced that Sarawak Shell has reinstated a contract to utilize the ATWOOD FALCON to drill two firm wells with options to drill three additional wells offshore Malaysia. The dayrate for all wells drilled will vary with the water depth of the wells: \$83,300 for water depths in excess of 2,500 feet; \$68,300 for water depths between 1,000 feet and 2,500 feet and \$53,000 for water depths less than 1,000 feet. This drilling program should commence around August 1, 2004, with the drilling of the two firm wells expected to take approximately 60 days to complete. If all three option wells are drilled, the program could extend into December 2004.

## Edgar Filing: ATWOOD OCEANICS INC - Form 8-K

The Company also announced that Woodside Energy Ltd. ("Woodside") has awarded the ATWOOD EAGLE a contract to drill two firm wells, with an option to drill an additional well, offshore Australia; however, Woodside has the option to only drill one well in the event that due to an extension in the rigs current drilling program Woodside cannot drill both firm wells before the end of November 2004. The contract provides for a dayrate of \$89,000 for all wells drilled in up to 600 meters of water. This drilling program will commence immediately upon the rig completing its current drilling program for BHP Billiton Petroleum Pty. and Apache Energy Limited which is currently estimated to be in August 2004. The drilling of the two firm wells is estimated to take approximately 100 days to complete.

### ITEM 9. REGULATION FD DISCLOSURE

The ATWOOD FALCON has completed its contract with Japan Energy Development and is currently mobilizing to China to drill one well for Husky Oil China Ltd. ("Husky"). The drilling of this well should be completed in June 2004. The Company is currently pursuing another one well program for the rig to fill the period from the completion of the Husky work in June 2004 to the commencement of the Sarawak Shell contract in August 2004.

In March 2004, the ATWOOD SOUTHERN CROSS commenced a drilling program for Murphy Sarawak Oil Company, Ltd. ("Murphy") in Malaysia. This program includes the drilling of two firm wells plus options to drill an additional four wells. Murphy has now exercised one option. The rig has commenced drilling of the second of the now three committed wells, with the current drilling program expected to extend into August 2004. The option well will have a dayrate of \$40,000. If the remaining three option wells are drilled, the program could extend into November 2004.

The RICHMOND is in the process of completing its current drilling program with Bois D'Arc Offshore Ltd. Immediately upon completion of this contract, the rig will commence a drilling contract with Helis Oil & Gas Company, L.L.C. ("Helis"), which initially included the drilling of four firm wells plus options to drill four additional wells. Helis has now assigned the first well to Applied Drilling Technology, Inc ("ADTI"). The drilling of the one well for ADTI and the three firm wells for Helis is expected to take around 120 to 150 days to complete and if all four option wells are drilled, the contract could extend to around 240 to 300 days in total.

Additional information with respect to the Company's Contract Status Summary at May 26, 2004 is attached hereto as Exhibit 99.2 which is being furnished in accordance with Rule 101(e)(1) under Regulation FD and should not be deemed to be filed.

Statements contained in this report with respect to the future are forward-looking statements. These statements reflect management's reasonable judgment with respect to future events. Forward-looking statements involve risks and uncertainties. Actual results could differ materially from those anticipated as a result of various factors: the Company's dependence on the oil and gas industry; the risks involved in the construction of a rig; competition; operating risks; risks involved in foreign operations; risks associated with possible disruption in operations due to terrorism; risks associated with a possible disruption in operations due to war; and governmental regulations and
