BLACK BOX CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

Note 1: Business and Basis of Presentation

Business

Black Box Corporation ("Black Box" or the "Company") is a leading communications system integrator dedicated to designing, sourcing, implementing and maintaining today's complex communications solutions. The Company offers Products and Services that it distributes through two platforms it has built over its 37-year history. The Products Platform is comprised of global sales and distribution, free 24/7/365 technical support, custom solutions, same-day delivery, lifetime warranties, quality control, global product management and sourcing. The current product categories offered through this platform include: (i) infrastructure, (ii) high performance keyboard, video and mouse (KVM) switches, (iii) audio-visual (AV), multi-media and digital signage and (iv) specialty networking. The Services Platform is comprised of engineering and design, network operations centers, technical certifications, local and national sales teams, remote monitoring, on-site service teams and technology partner centers of excellence, which include dedicated sales and engineering resources. The primary services offered through this platform include: (i) communications lifecycle services, (ii) unified communications, (iii) structured cabling, (iv) video/AV services, (v) in-building wireless and (v) data center services. As of December 31, 2013, the Company had more than 3,000 professional technical experts in approximately 200 offices serving more than 175,000 clients in approximately 150 countries throughout the world. Founded in 1976, Black Box, a Delaware corporation, operates subsidiaries on five continents and is headquartered near Pittsburgh in Lawrence, Pennsylvania.

In connection with a new management team and a renewed business strategy, the Company has realigned its organizational structure which resulted in the identification of new operating segments (North America Products, North America Services, International Products and International Services) for the purpose of making operational decisions and assessing financial performance effective, on a prospective basis, beginning on April 1, 2013. See Note 4 and Note 14 for additional information.

Basis of Presentation

The accompanying unaudited interim consolidated financial statements of Black Box have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. The Company believes that these consolidated financial statements reflect all normal, recurring adjustments needed to present fairly the Company's results for the interim periods presented. The results as of and for interim periods presented may not be indicative of the results of operations for any other interim period or for the full year. These financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's most recent Annual Report on Form 10-K as filed with the Securities and Exchange Commission ("SEC") for the fiscal year ended March 31, 2013 (the "Form 10-K"). The Company's fiscal year ends on March 31. The fiscal quarters consist of 13 weeks and end on the Saturday generally nearest each calendar quarter end, adjusted to provide relatively equivalent business days for each fiscal quarter. The actual ending dates for the periods presented in these Notes to the Consolidated Financial Statements as of December 31, 2013 and 2012 were December 28, 2013 and December 29, 2012, respectively. References herein to "Fiscal Year" or "Fiscal" mean the Company's fiscal year ended March 31 for the year referenced. All references to dollar amounts herein are presented in thousands, except per share amounts, unless otherwise noted.

The consolidated financial statements include the accounts of Black Box Corporation, the ultimate parent company, and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation. Certain items in the consolidated financial statements of prior years have been reclassified to conform to the current year's presentation.

The preparation of financial statements in conformity with GAAP requires Company management ("Management") to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during

the reporting period. Significant estimates in these financial statements include project progress towards completion to estimated budget, allowances for doubtful accounts receivable, sales returns, net realizable value of inventories, loss contingencies, warranty reserves, intangible assets and goodwill. Actual results could differ from those estimates. Management believes these estimates are reasonable.

Table of Contents

Note 2: Significant Accounting Policies

Significant Accounting Policies

The significant accounting policies used in the preparation of the Company's consolidated financial statements are disclosed in Note 2 of the Notes to the Consolidated Financial Statements within the Form 10-K. No additional significant accounting policies have been adopted during Fiscal 2014.

Recent Accounting Pronouncements

There have been no accounting pronouncements adopted during Fiscal 2014 that have had a material impact on the Company's consolidated financial statements. There have been no new accounting pronouncements issued but not yet adopted that are expected to have a material impact on the Company's consolidated financial statements.

Note 3: Inventories

The Company's Inventories consist of the following:

	December 31, 2013	March 31, 2013
Raw materials	\$1,574	\$1,231
Finished goods	68,825	72,278
Inventory, gross	70,399	73,509
Excess and obsolete inventory reserves	(17,664)	(18,040)
Inventories, net	\$52,735	\$55,469

Note 4: Goodwill

As previously disclosed, the Company realigned its organizational structure as a result of a new management team and a renewed business strategy. In connection with this reorganization, the Company evaluated its historical geographic-based operating segments (North America, Europe, Latin America and Pacific Rim) in relation to GAAP and identified the following new operating segments: (i) North America Products, (ii) North America Services, (iii) International Products and (iv) International Services. The new operating segments became effective, on a prospective basis, beginning on April 1, 2013. Note that the Company's operating segments are also its reporting units (for goodwill assessment purposes) and reporting segments (for financial reporting purposes). In connection with the identification of the new operating segments, the Company allocated goodwill from the historical geographic-based reporting units to the new reporting units using a relative fair market value approach. See Note 1 and Note 14 for additional information.

The following table summarizes, as of April 1, 2013, Goodwill at the Company's reporting segments, which has been allocated from the historical geographic-based reporting segments using a relative fair market value approach:

	North America Products	North America Services	International Products	International Services	Total
Goodwill (gross) at March 31, 2013	\$79,763	\$506,222	\$38,524	\$38,685	\$663,194
Accumulated impairment losses at March 31, 2013	(232)	(277,132)	(13,724)	(26,709)	(317,797)
Goodwill (net) at March 31, 2013	\$79,531	\$229,090	\$24,800	\$11,976	\$345,397
Foreign currency translation adjustment (9)		36	391	1,286	1,704
Goodwill (gross) at December 31, 2013	\$79,754	\$506,258	\$38,915	\$39,971	\$664,898
Accumulated impairment losses at December 31, 2013	(232)	(277,132)	(13,724)	(26,709)	(317,797)
Goodwill (net) at December 31, 2013	\$79,522	\$229,126	\$25,191	\$13,262	\$347,101

Table of Contents

Also, as of April 1, 2013, the Company conducted an interim goodwill impairment assessment because data, relevant to a goodwill impairment assessment, was readily available through the reassignment of goodwill to the Company's new business segments using the relative fair market value approach. The first step of the goodwill impairment assessment, used to identify potential impairment, resulted in a surplus of fair value over carrying amount for each of our new reporting units, thus the new reporting units were considered not impaired as of April 1, 2013 and the second step of the impairment test was not necessary.

Consistent with prior years, the Company is conducting its annual goodwill impairment assessment as of the end of the second quarter of its fiscal year (September 28, 2013 for Fiscal 2014). Historically, this assessment was completed during the third quarter. However, given the downward adjustment in the Company's revenue and profitability outlook for Fiscal 2014 in each reporting unit announced in November 2013 with the second fiscal quarter financial results and changes in outlook as a result of the Company's efforts to transform into a more relevant and effective solution provider, the Company determined it was necessary to extend completion of its assessment process in order to take into account a contemporary outlook for the Company's business units that are being developed in connection with Fiscal 2015 planning. As a result, it is expected that our annual goodwill impairment assessment will be completed during the fourth quarter of Fiscal 2014. The Company expects that the downward adjustment in its revenue and profitability outlook noted above and an increase in the Company's weighted-average cost of capital (primarily driven by an increase in the risk-free interest rate) will decrease the fair value of our reporting units. A decrease in the fair value of our reporting units could result in a non-cash goodwill impairment charge, which could have a material adverse effect on our consolidated financial statements.

Note 5: Intangible Assets

The following table summarizes the gross carrying amount, accumulated amortization and net carrying amount by intangible asset class:

	December 31, 2013			March 31, 2013		
	Gross Carrying Amount	Accum. Amort.	Net Carrying Amount	Gross Carrying Amount	Accum. Amort.	Net Carrying Amount
Definite-lived						
Non-compete agreements	\$12,255	\$11,462	\$793	\$12,189	\$10,906	\$1,283
Customer relationships	137,267	66,290	70,977	137,267	58,092	79,175
Acquired backlog	20,838	19,021	1,817	20,838	18,367	2,471
Total	\$170,360	\$96,773	\$73,587	\$170,294	\$87,365	\$82,929
Indefinite-lived						
Trademarks	35,992	8,253	27,739	35,992	8,253	27,739
Total	\$206,352	\$105,026	\$101,326	\$206,286	\$95,618	\$110,668

The Company's indefinite-lived intangible assets consist solely of the Company's trademark portfolio. The Company's definite-lived intangible assets are comprised of employee non-compete agreements, customer relationships and backlog obtained through business acquisitions.

The following table summarizes the changes to the net carrying amounts by intangible asset class:

	Trademarks	Non-Competes and Backlog	Customer relationships	Total
March 31, 2013	\$27,739	\$3,754	\$79,175	\$110,668
Intangibles amortization	—	(1,143)	(8,198)	(9,341)
Foreign currency translation adjustment	—	(1)	—	(1)
December 31, 2013	\$27,739	\$2,610	\$70,977	\$101,326

Table of Contents

The following table details the estimated intangibles amortization expense for the remainder of Fiscal 2014, each of the succeeding four fiscal years and the periods thereafter.

Fiscal	
2014	\$2,685
2015	10,543
2016	10,336
2017	9,425
2018	8,097
Thereafter	32,501
Total	\$73,587

Note 6: Indebtedness

The Company's Long-term debt consists of the following:

	December 31, 2013	March 31, 2013
Revolving credit agreement	\$179,225	\$187,610
Other	286	142
Total debt	\$179,511	\$187,752
Less: current portion (included in Other liabilities)	(206)	(104)
Long-term debt	\$179,305	\$187,648

On March 23, 2012, the Company entered into a Credit Agreement (the "Credit Agreement") with Citizens Bank of Pennsylvania, as administrative agent, and certain other lender parties. The Credit Agreement expires on March 23, 2017. Borrowings under the Credit Agreement are permitted up to a maximum amount of \$400,000, which includes up to \$25,000 of swing-line loans and \$25,000 of letters of credit. The Credit Agreement may be increased by the Company up to an additional \$100,000 with the approval of the lenders and may be unilaterally and permanently reduced by the Company to not less than the then outstanding amount of all borrowings. Interest on outstanding indebtedness under the Credit Agreement accrues, at the Company's option, at a rate based on either: (a) the greater of (i) the prime rate per annum of the agent then in effect and (ii) 0.50% plus the rate per annum announced by the Federal Reserve Bank of New York as being the weighted-average of the rates on overnight Federal funds transactions arranged by Federal funds brokers on the previous trading day, in each case plus 0% to 0.75% (determined by a leverage ratio based on the Company's consolidated Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA")) or (b) a rate per annum equal to the LIBOR rate plus 0.875% to 1.750% (determined by a leverage ratio based on the Company's consolidated EBITDA). The Credit Agreement requires the Company to maintain compliance with certain non-financial and financial covenants such as leverage and fixed-charge coverage ratios. As of December 31, 2013, the Company was in compliance with all covenants under the Credit Agreement.

The maximum amount of debt outstanding under the Credit Agreement, the weighted-average balance outstanding under the Credit Agreement and the weighted-average interest rate on all outstanding debt for the three-months ended December 31, 2013 was \$208,730, \$194,349 and 1.5%, respectively, compared to \$220,470, \$207,910 and 1.6%, respectively, for the three-months ended December 31, 2012. The maximum amount of debt outstanding under the Credit Agreement, the weighted-average balance outstanding under the Credit Agreement and the weighted-average interest rate on all outstanding debt for the nine-months ended December 31, 2013 was \$208,730, \$191,732 and 1.5%, respectively, compared to \$220,470, \$201,631 and 1.5%, respectively, for the nine-months ended December 31, 2012. As of December 31, 2013, the Company had \$4,050 outstanding in letters of credit and \$216,725 in unused commitments under the Credit Agreement.

Table of Contents

Note 7: Derivative Instruments and Hedging Activities

The Company is exposed to certain market risks, including the effect of changes in foreign currency exchange rates and interest rates. The Company uses derivative instruments to manage financial exposures that occur in the normal course of business. It does not hold or issue derivatives for speculative trading purposes. The Company is exposed to non-performance risk from the counterparties in its derivative instruments. This risk would be limited to any unrealized gains on current positions. To help mitigate this risk, the Company transacts only with counterparties that are rated as investment grade or higher and all counterparties are monitored on a continuous basis. The fair value of the Company's derivatives reflects this credit risk.

Foreign currency contracts

The Company enters into foreign currency contracts to hedge exposure to variability in expected fluctuations in foreign currencies. All of the foreign currency contracts have been designated and qualify as cash flow hedges. The effective portion of any changes in the fair value of the derivative instruments is recorded in Accumulated Other Comprehensive Income ("AOCI") until the hedged forecasted transaction occurs or the recognized currency transaction affects earnings. Once the forecasted transaction occurs or the recognized currency transaction affects earnings, the effective portion of any related gains or losses on the cash flow hedge is reclassified from AOCI to the Company's Consolidated Statements of Operations.

As of December 31, 2013, the Company had open contracts in Australian and Canadian dollars, Danish krone, Euros, Mexican pesos, Norwegian kroner, British pounds sterling, Swedish krona, Swiss francs and Japanese yen, all of which have been designated as cash flow hedges. These contracts had a notional amount of \$54,534 and will expire within eleven months. There was no hedge ineffectiveness during Fiscal 2014 or Fiscal 2013.

Interest-rate Swaps

On November 15, 2011, the Company entered into a three-year floating-to-fixed interest-rate swap, with an effective start date of July 26, 2012, which is based on a three-month LIBOR rate versus a 1.25% fixed rate and has a notional value of \$125,000. This interest-rate swap does not qualify for hedge accounting and is hereinafter referred to as the "interest-rate swap."

The following tables summarize the carrying amounts of derivative asset/liability and the impact on the Company's Consolidated Statements of Operations:

		Asset Derivatives		Liability Derivatives	
	Classification	December 31, 2013	March 31, 2013	December 31, 2013	March 31, 2013
Derivatives designated as hedging instruments

Note 8: Fair Value Disclosures

Recurring fair value measurements

The following table presents information about the Company's assets and liabilities measured at fair value on a recurring basis as of December 31, 2013, and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value:

Assets at Fair Value as of December 31, 2013				
	Level 1	Level 2	Level 3	Total
Foreign currency contracts	\$—	\$546	\$—	\$546
Liabilities at Fair Value as of December 31, 2013				
	Level 1	Level 2	Level 3	Total
Foreign currency contracts	\$—	\$417	\$—	\$417
Interest-rate swaps	—	1,743	—	1,743
Total	\$—	\$2,160	\$—	\$2,160

Non-recurring fair value measurements

The Company's assets and liabilities that are measured at fair value on a non-recurring basis include non-financial assets and liabilities initially measured at fair value in a business combination and Goodwill.

Note 9: Acquisitions

Fiscal 2014

There were no acquisitions during the nine-month period ended December 31, 2013.

During the second quarter of Fiscal 2014, the Company recorded a non-cash loss of \$822 due to the write-off of certain non-operating items in connection with the expected divestiture of the Company's non-controlling interest in Genesis Networks Integration Services, LLC. ("GNIS").

Fiscal 2013

There were no acquisitions during the nine-month period ended December 31, 2012.

During the third quarter of Fiscal 2013, the Company recorded a non-cash loss of \$2,670 due to the probable divestiture of our non-controlling interest in GNIS.

Note 10: Income Taxes

The Company's provision for income taxes for the three-months ended December 31, 2013 was \$2,523, an effective tax rate of 27.5% on income before provision for income taxes of \$9,181, compared to a provision for income taxes for the three-months ended December 31, 2012 of \$5,222, an effective tax rate of 38.0% on income before provision for income taxes of \$13,740. The effective tax rate decrease from 38.0% to 27.5% was primarily due to a decrease in uncertain income tax positions (including interest and penalties) and the benefit associated with the Fiscal 2013 federal return to provision reconciliation. The Company's provision for income taxes for the nine-months ended December 31, 2013 was \$12,687, an effective tax rate of 39.9% on income before provision for income taxes of \$31,835 compared to a provision for income taxes for the nine-months ended December 31, 2012 of \$13,229, an effective tax rate of 38.0% on income before provision for income taxes of \$34,812. The effective tax rate increase from 38.0% to 39.9% was primarily due to the write-off of certain deferred tax assets related to equity awards partially offset by a decrease in uncertain income tax positions (including interest and penalties) and the benefit associated with the Fiscal 2013 federal return to provision reconciliation. The effective tax rate for the nine-months ended December 31, 2013 of 39.9% differs from the federal statutory rate primarily due to state income taxes and the write-off of certain deferred tax assets related to equity awards partially offset by foreign earnings taxed at lower statutory rates.

Table of Contents

The Company provides for income taxes at the end of each interim period based on the estimated effective tax rate adjusted for certain discrete items for the full fiscal year. Cumulative adjustments to the Company's estimate are recorded in the interim period in which a change in the estimated annual effective rate is determined.

As previously disclosed, during Fiscal 2013 the Internal Revenue Service ("IRS") commenced an examination of the Company's United States federal income tax return for Fiscal 2011 and 2012. During Fiscal 2014, the IRS concluded its examination with no proposed adjustments for Fiscal 2011 and Fiscal 2012.

Fiscal 2013 remains open to examination by the IRS and Fiscal 2009 through Fiscal 2013 remain open to examination by certain state and foreign taxing jurisdictions.

Note 11: Stock-based Compensation

In August 2008, the Company's stockholders approved the 2008 Long-Term Incentive Plan (the "Incentive Plan"), which replaced the 1992 Stock Option Plan, as amended, and the 1992 Director Stock Option Plan, as amended. As of December 31, 2013, the Incentive Plan is authorized to issue stock options, restricted stock units and performance shares, among other types of awards, for up to 4,782,169 shares of common stock, par value \$0.001 per share (the "common stock").

The Company recognized stock-based compensation expense of \$1,514 and \$1,791 for the three-months ended December 31, 2013 and 2012, respectively, and \$5,486 and \$6,397 for the nine-months ended December 31, 2013 and 2012, respectively. The Company recognized total income tax benefit for stock-based compensation arrangements of \$552 and \$658 for the three-months ended December 31, 2013 and 2012, respectively, and \$2,001 and \$2,351 for the nine-months ended December 31, 2013 and 2012, respectively. Stock-based compensation expense is recorded in Selling, general & administrative expense within the Company's Consolidated Statements of Operations.

Stock options

Stock option awards are granted with an exercise price equal to the closing market price of the common stock on the date of grant; such stock options generally become exercisable in equal amounts over a three-year period and have a contractual life of ten-years from the grant date. The fair value of stock options is estimated on the grant date using the Black-Scholes option pricing model, which includes the following weighted-average assumptions.

	Nine-months ended December 31		
	2013	2012	
Expected life (in years)	6.8	7.0	
Risk free interest rate	1.3	%0.8	%
Annual forfeiture rate	2.5	%2.0	%
Expected Volatility	42.3	%44.6	%
Dividend yield	1.3	%1.0	%

The following table summarizes the Company's stock option activity:

	Shares (in 000's)	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Life (Years)	Intrinsic Value (000's)
Outstanding at March 31, 2013	2,535	\$ 34.02		
Granted	158	26.19		
Exercised	(34))28.46		
Forfeited or cancelled	(614))35.61		
Outstanding at December 31, 2013	2,045	\$ 33.03	3.8	\$1,738
Exercisable at December 31, 2013	1,787	\$ 34.07	3.1	\$701

Table of Contents

The weighted-average grant-date fair value of options granted during the nine-months ended December 31, 2013 and 2012 was \$10.06 and \$9.02, respectively. The intrinsic value of options exercised during the nine-months ended December 31, 2013 and 2012 was \$21 and \$0, respectively. The aggregate intrinsic value in the preceding table is based on the closing stock price of the common stock on December 27, 2013, which was \$29.51.

The following table summarizes certain information regarding the Company's non-vested stock options:

	Shares (in 000's)	Weighted-Average Grant-Date Fair Value
March 31, 2013	348	\$ 10.57
Granted	158	10.06
Vested	(179)) 11.04
Forfeited	(69)) 10.08
December 31, 2013	258	\$ 10.07

As of December 31, 2013, there was \$1,734 of total unrecognized pre-tax stock-based compensation expense related to non-vested stock options, which is expected to be recognized over a weighted-average period of 2.0 years.

Restricted stock units

Restricted stock unit awards are subject to a service condition and typically vest in equal amounts over a three-year period from the grant date. The fair value of restricted stock units is determined based on the number of restricted stock units granted and the closing market price of the common stock on the date of grant.

The following table summarizes the Company's restricted stock unit activity:

	Shares (in 000's)	Weighted-Average Grant-Date Fair Value
March 31, 2013	335	\$ 26.48
Granted	169	26.19
Vested	(179)) 27.62
Forfeited	(31)) 25.46
December 31, 2013	294	\$ 25.71

The total fair value of shares that vested during the nine-months ended December 31, 2013 and 2012 was \$4,675 and \$3,674, respectively.

As of December 31, 2013, there was \$4,684 of total unrecognized pre-tax stock-based compensation expense related to non-vested restricted stock units, which is expected to be recognized over a weighted-average period of 1.9 years.

Table of Contents

Performance share awards

Performance share awards are subject to one of the following performance goals - the Company's Relative Total Shareholder Return ("TSR") Ranking or cumulative Adjusted EBITDA - each over a three-year period. The Company's Relative TSR Ranking metric is based on the three-year cumulative return to shareholders from the change in stock price and dividends paid between the starting and ending dates. The fair value of performance share awards (subject to cumulative Adjusted EBITDA) is determined based on the number of performance shares granted and the closing market price of the common stock on the date of grant. The fair value of performance share awards (subject to the Company's Relative TSR Ranking) is estimated on the grant date using the Monte-Carlo simulation valuation method which includes the following weighted-average assumptions.

	Nine-months ended December 31		
	2013	2012	
Risk free interest rate	0.4	%0.4	%
Expected Volatility	41.1	%41.3	%
Dividend yield	1.3	%1.0	%

The following table summarizes the Company's performance share award activity:

	Shares (in 000's)	Weighted-Average Grant-Date Fair Value
March 31, 2013	275	\$ 29.39
Granted	92	28.92
Vested	(21)) 30.72
Forfeited	(91)) 30.67
December 31, 2013	255	\$ 28.66

The total fair value of shares that vested during the nine-months ended December 31, 2013 and 2012 was \$570 and \$0, respectively.

As of December 31, 2013, there was \$2,209 of total unrecognized pre-tax stock-based compensation expense related to non-vested performance share awards, which is expected to be recognized over a weighted-average period of 2.0 years.

Note 12: Earnings (loss) Per Share

The following table details the computation of basic and diluted earnings (loss) per common share from continuing operations for the periods presented (share numbers in thousands):

	Three-months ended December 31		Nine-months ended December 31	
	2013	2012	2013	2012
Net income	\$6,658	\$8,518	\$19,148	\$21,583
Weighted-average common shares outstanding (basic)	15,771	16,412	15,902	16,783
Effect of dilutive securities from equity awards	96	113	87	80
Weighted-average common shares outstanding (diluted)	15,867	16,525	15,989	16,863
Basic earnings (loss) per common share	\$0.42	\$0.52	\$1.20	\$1.29
Dilutive earnings (loss) per common share	\$0.42	\$0.52	\$1.20	\$1.28

The Weighted-average common shares outstanding (diluted) computation is not impacted during any period where the exercise price of a stock option is greater than the average market price. There were 1,919,667 and 2,651,888 non-dilutive equity awards outstanding for the three-months ended December 31, 2013 and 2012, respectively, and 2,080,532 and 2,713,461 non-dilutive equity awards outstanding for the nine-months ended December 31, 2013 and 2012, respectively, that are not included in the corresponding period Weighted-average common shares outstanding (diluted) computation.

Table of Contents

Note 13: Stockholder's Equity

Accumulated Other Comprehensive Income

The components of AOCI consisted of the following for the periods presented:

	December 31, 2013	March 31, 2013
Foreign currency translation adjustment	\$16,683	\$12,808
Derivative instruments, net of tax	(392)	(171)
Defined benefit pension, net of tax	(10,950)	(11,180)
Accumulated other comprehensive income	\$5,341	\$1,457
Dividends		

The following table presents information about the Company's dividend program:

Period	Record Date	Payment Date	Rate	Aggregate Value
3Q14	December 27, 2013	January 10, 2014	\$0.09	\$1,410
2Q14	September 27, 2013	October 11, 2013	\$0.09	\$1,430
1Q14	June 28, 2013	July 12, 2013	\$0.09	\$1,445
3Q13	December 28, 2012	January 11, 2013	\$0.08	\$1,304
2Q13	September 28, 2012	October 12, 2012	\$0.08	\$1,323
1Q13	June 29, 2012	July 13, 2012	\$0.08	\$1,355

While the Company expects to continue to declare quarterly dividends, the payment of future dividends is at the discretion of the Company's Board of Directors (the "Board") and the timing and amount of any future dividends will depend upon earnings, cash requirements and the financial condition of the Company. Under the Credit Agreement, the Company is permitted to make any distribution or dividend as long as no Event of Default or Potential Default (as defined in the Credit Agreement) shall have occurred and is continuing or shall occur as a result thereof. In addition, no distribution or dividend is permitted under the Credit Agreement if such event would violate a consolidated leverage ratio required to be maintained under the Credit Agreement other than regular quarterly dividends not exceeding \$15,000 per year.

Common Stock Repurchases

The following table presents information about the Company's common stock repurchases:

	Three-months ended		Nine-months ended	
	December 31		December 31	
	2013	2012	2013	2012
Common stock purchased	233,530	235,700	699,036	1,348,258
Aggregate purchase price	\$6,019	\$5,658	\$18,766	\$33,023
Average purchase price	\$25.77	\$24.01	\$26.85	\$24.49

During the nine-month period ended December 31, 2013, the Company made tax payments of \$1,483 and withheld 56,639 shares of common stock, which were designated as treasury shares, at an average price per share of \$26.19, in order to satisfy employee income taxes due as a result of the vesting of certain restricted stock units and performance shares. During the nine-month period ended December 31, 2012, the Company made tax payments of \$983 and withheld 44,697 shares of common stock, which were designated as treasury shares, at an average price per share of \$21.98, in order to satisfy employee income taxes due as a result of the vesting of certain restricted stock units.

Table of Contents

Since the inception of its repurchase programs beginning in April 1999 and through December 31, 2013, the Company has repurchased 10,300,624 shares of common stock for an aggregate purchase price of \$390,383, or an average purchase price per share of \$37.90. These shares do not include the treasury shares withheld for tax payments due upon the vesting of certain restricted stock units and performance shares. As of December 31, 2013, 199,376 shares were available under the most recent repurchase program approved by the Board. On January 27, 2014 the Board approved an additional 1,000,000 shares for repurchase. Additional repurchases of common stock may occur from time to time depending upon factors such as the Company's cash flows and general market conditions. There can be no assurance as to the timing or amount of such repurchases. Under the Credit Agreement, the Company is permitted to repurchase its common stock as long as no Event of Default or Potential Default (as defined in the Credit Agreement) shall have occurred and is continuing or shall occur as a result thereof. In addition, no repurchase of common stock is permitted under the Credit Agreement if such event would violate a consolidated leverage ratio required to be maintained under the Credit Agreement.

Note 14: Segment Information

The Company conducts business globally and is managed on a geographic-service type basis consisting of four operating segments which are (i) North America Products, (ii) North America Services, (iii) International Products and (iv) International Services. These operating segments are also the Company's reporting units for purposes of testing goodwill for impairment and its reporting segments for financial reporting purposes. Revenues within our North America segments are primarily attributed to the United States while revenues within our International segments are attributed to countries in Europe, the Pacific Rim and Latin America. For the past several years and through Fiscal 2013, the Company was organized on a geographic-basis with the following three segments: (i) North America, (ii) Europe and (iii) All Other. As a result of this segment change, which became effective on April 1, 2013 on a prospective basis, the Company has restated prior periods to conform to the current year's presentation. The accounting policies of the operating segments are the same as those of the Company. The Company allocates resources to its operating segments and evaluates the performance of the operating segments based upon operating income.

Table of Contents

The financial results for the Company's reporting segments are as follows:

	North America Products	North America Services	International Products	International Services	Total
3Q14					
Revenues	\$ 19,517	\$ 185,831	\$ 25,011	\$ 9,330	\$ 239,689

Note 15: Commitments and Contingencies

The Company is involved in, or has pending, various legal proceedings, claims, suits and complaints arising out of the normal course of business. Based on the facts currently available to the Company, Management believes these matters are adequately provided for, covered by insurance, without merit or not probable that an unfavorable material outcome will result.

There has been no other significant or unusual activity during Fiscal 2014.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations("MD&A").

The discussion and analysis for the three and nine-months ended December 31, 2013 and 2012 as set forth below in this Part I, Item 2 should be read in conjunction with the response to Part I, Item 1 of this report and the consolidated financial statements of Black Box Corporation ("Black Box," the "Company," "we" or "our"), including the related notes, and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in the Company's most recent Annual Report on Form 10-K, as filed with the Securities and Exchange Commission ("SEC") for the fiscal year ended March 31, 2013 (the "Form 10-K"). References to "3Q14" mean the three-month period ended December 31, 2013 while references to "3Q13" mean the three-month period ended December 31, 2012. References to "3QYTD14" mean the nine-month period ended December 31, 2013 while references to "3QYTD13" mean the nine-month period ended December 31, 2012. The Company's fiscal year ends on March 31. The fiscal quarters consist of 13 weeks and generally end on the Saturday nearest each calendar quarter end, adjusted to provide relatively equivalent business days for each fiscal quarter. The actual ending dates for the periods presented as of December 31, 2013 and 2012 were December 28, 2013 and December 29, 2012, respectively. References to "Fiscal Year" or "Fiscal" mean the Company's fiscal year ended March 31 for the year referenced. All dollar amounts are presented in thousands except for per share amounts or unless otherwise noted.

The Company

Black Box Corporation ("Black Box" or the "Company") is a leading communications system integrator dedicated to designing, sourcing, implementing and maintaining today's complex communications solutions. The Company offers Products and Services that it distributes through two platforms that it has built over its 37-year history.

The Products Platform ("Product") is comprised of global sales and distribution, free 24/7/365 technical support, custom solutions, same-day delivery, lifetime warranties, quality control, global product management and sourcing.

The current product categories offered through this platform include:

- infrastructure,
- high performance keyboard, video and mouse (KVM) switches,
- audio-visual (AV), multi-media and digital signage, and
- specialty networking.

The Company generates revenues in its Product business from the sale of technology products through its catalogs and Internet Web site. These products are sold in a highly fragmented and competitive market. The Company has been in this business for over 37 years and has developed a reputation for being a reliable provider of high-quality communications and infrastructure products. With an average order size of less than one thousand dollars, product revenues are less impacted by capital spending and more so by general information technology spending.

The Services Platform ("Service") is comprised of engineering and design, network operations centers, technical certifications, local and national sales teams, remote monitoring, on-site service teams and technology partner centers of excellence which include dedicated sales and engineering resources. The primary services offered through this platform include:

- communications lifecycle services,
- unified communications,
- structured cabling,
- video/AV services,
- in-building wireless and
- data center services.

Table of Contents

The Company generates revenues in its Service business from the design, sale and/or installation of new communications systems, the support of existing communications systems and moves, adds and changes ("MAC work"). The Company's diverse portfolio of offerings allows it to service the needs of its clients independent of the technology that they choose, which it believes is a unique competitive advantage. For the sale and implementation of new communications systems, or other major projects, most significant orders are subject to competitive bidding processes and, generally, competition can be significant for such new orders. The Company is continually bidding on new projects to maintain and grow service revenues. Projects account for the majority of Service revenues and are primarily driven by the overall economic environment and information technology capital spending. The Company also serves government clients whose revenues are not as dependent on the overall economic environment as commercial clients but are subject to governmental budgetary constraints.

New communications systems orders often generate a post-implementation maintenance agreement to support the system, which generally ranges from 1-3 years for commercial clients and 3-5 years for government clients. Historically, such an agreement would result in a fixed fee earned ratably over the term of the contract. Recently, some of our clients have adopted a variable fee model based on time and materials per occurrence, similar to MAC work. While this shift decreases our contractually obligated revenues, the variable model also generates profitable revenues. Revenues from maintenance contracts generally are not dependent on the economy as clients contract for maintenance to extend the life of their existing equipment and delay capital spending on new communications systems. Maintenance and MAC work revenues are also dependent upon the Company's relationship with its clients and its long track record of providing high-quality service.

Our service business generates backlog which is defined by the Company as orders and contracts considered to be firm. At December 31, 2013, the Company's total backlog, which relates primarily to Services, was \$329,641, of which \$226,183 is expected to be completed within the next twelve months.

Our two platforms introduce scale, flexibility and leverage to the business, and provide the following competitive advantages:

- a diversified client base that ranges from small organizations to many of the world's largest corporations and institutions,
- key relationships with leading technology partners,
- a broad geographic footprint of approximately 200 offices serving more than 175,000 clients in approximately 150 countries throughout the world,
- deep organic resources with approximately 4,000 team members world-wide, approximately 3,000 of whom are technical and engineering talent who provide our clients with on-site and remote services,
- dedicated sales force of over 300 direct sales people world-wide, and
- a strong financial position with a stable balance sheet and positive cash flow for 37 consecutive years.

The Company services a variety of clients within most major industries, with the highest concentration in the government, business services, manufacturing, banking, retail, healthcare and technology industry verticals. Factors that impact those verticals, therefore, could have an impact on the Company. While the Company generates most of its revenues in North America, the Company also generates revenues from around the world, primarily Europe, such that factors that impact European markets could impact the Company. Company management ("Management") strives to develop extensive and long-term relationships with high-quality clients as Management believes that satisfied clients will demand quality services and product offerings from us even in economic downturns.

In connection with a new management team and a renewed business strategy, the Company has realigned its organizational structure, which resulted in the identification of new operating segments (North America Products, North America Services, International Products and International Services) for the purpose of making operational decisions and assessing financial performance which was effective, on a prospective basis, beginning on April 1, 2013. See Note 4 and Note 14 to the Consolidated Financial Statements for additional information.

Table of Contents

3QYTD14 vs 3QYTD13 Summary

	3QYTD14	3QYTD13	% Change	
Revenues	\$733,396	\$760,087	(4))%
Gross profit margin	31.1	% 31.7	%(2)%
Operating income margin	5.0	% 5.7	%(12)%
Diluted EPS	\$1.20	\$1.28	(6)%
Net cash provided by (used for) operating activities	\$27,905	\$30,726	(9)%

Diluted EPS was \$1.20, a decrease of 6% compared to Diluted EPS of \$1.28 in the same period last year as a result of: a \$26,691 decrease in Revenues which includes a decrease in Product Revenues as of result of a decrease in North America Products due to reduced spending in both direct and indirect channels by our government clients as a result of the sequestration and a decrease in Service Revenues due to slower than anticipated client adoption of rapidly changing communications technology in North America,

a \$13,117 decrease in Gross profit as a result of the decrease in Revenues noted above and a decrease in Gross profit margin,

a \$4,962 decrease in Selling, general and administrative expenses which were primarily the result of costs savings from restructuring activity in the prior year, a decrease in restructuring expenses of \$3,767 and a decrease in stock-based compensation expense of \$911 partially offset by current period investments for growth programs,

a \$1,425 decrease in Interest expense (income), net resulting from the change in the fair value of the interest-rate swap of \$1,514 (from a loss of \$878 in 3Q13YTD to a gain of \$636 in 3Q14YTD),

a \$2,678 decrease in Other expenses (income), net as a result of a \$1,848 decrease in non-cash losses related to the Company's non-controlling interest in Genesis Networks Integration Services, LLC. ("GNIS").

a \$542 decrease in Provision for income taxes as a result of a decrease in Income before provision for income taxes partially offset by an increase in the effective rate from 38.0% to 39.9% due to the write-off of certain deferred tax assets related to equity awards, and

a 874 reduction in Diluted weighted-average common shares outstanding resulting from the Company's common stock repurchases.

Net cash provided by operating activities was \$27,905, a decrease of 9% compared to Net cash provided by operating activities of \$30,726 in the same period last year primarily due to a \$14,248 increase in Accounts receivable, net compared to a \$5,364 decrease in Accounts receivable, net in the same period last year, a \$9,702 decrease in Costs/estimated earnings in excess of billings on uncompleted contracts compared to a \$22,715 increase in Costs/estimated earnings in excess of billings on uncompleted contracts in the same period last year and a \$17,638 decrease in All other liabilities compared to a \$6,576 decrease in All other liabilities in the same period last year. As a reminder, Costs/estimated earnings in excess of billings on uncompleted contracts includes contracts for which contract billing terms do not necessarily coincide with percentage-of-completion revenue recognition.

Results of Operations

Segments

We conduct our business globally and manage our business by geographic-service type under the following four operating segments: North America Products, North America Services, International Products and International Services. The Revenues, Gross profit and Operating income amounts in the table below are presented on a basis consistent with accounting principles generally accepted in the United States. As a result of the segment change (discussed in Note 14 of the Notes to the Consolidated Financial Statements), the Company has restated prior period information to conform to the current year's presentation.

Table of Contents

3Q14 vs 3Q13

Total Revenues were \$239,689, a decrease of 5% when compared to Total Revenues of \$252,089 in the same period last year. Product Revenues were \$44,528, a decrease of 7% compared to Product Revenues of \$48,068 in the same period last year primarily as a result of a decrease in North America Products due to reduced spending in both direct and indirect channels by our government clients as a result of the sequestration and budget uncertainty which, the Company believes, may negatively impact Product Revenues, relative to historic levels, for the foreseeable future, and a decrease in demand for International Products. The decrease in Product Revenues was partially offset by sales generated by a new direct sales team focused on larger opportunities. Service Revenues were \$195,161, a decrease of 4% compared to Service Revenues of \$204,021 in the same period last year primarily due to a decrease in commercial revenues in North America Services resulting from slower than anticipated economic recovery and sluggish client adoption of the rapidly changing communications technology along with relatively stable government revenues in North America Services. The decrease in North America Services was partially offset by the success of its Cisco and wireless solutions practices.

Total Gross profit margin was 30.8%, a decrease of 5% compared to Total Gross profit margin of 32.4% in the same period last year. Product Gross profit margin was 42.2%, a decrease of 2% compared to Product Gross profit margin of 43.0% in the same period last year primarily due to product mix and the impact of our new direct sales team focused on large competitive deals which tend to carry lower margins. Service Gross profit margin was 28.2%, a decrease of 6% compared to Service Gross profit margin of 29.9% in the same period last year primarily due to lower than expected Gross profit margins on certain projects that experienced unusual service delivery costs which is believed to be isolated to the quarter.

Total Operating income margin was 4.4%, a decrease of 37% compared to Total Operating income margin of 7.0% in the same period last year. Product Operating income margin was 5.7%, a decrease of 36% compared to Product Operating income margin of 8.8% in the same period last year, primarily due to lower Gross profit margins as noted above and current period investments for growth programs. Service Operating income margin was 4.1%, a decrease of 38% compared to Service Operating income margin of 6.6% in the same period last year, primarily due to lower Gross profit margins as noted above.

3QYTD14 vs 3QYTD13

Total Revenues were \$733,396, a decrease of 4% when compared to Total Revenues of \$760,087 in the same period last year. Product Revenues were \$135,927, a decrease of 4% compared to Product Revenues of \$141,074 in the same period last year primarily as a result of a decrease in North America Products due to reduced spending in both direct and indirect channels by our government clients as a result of the sequestration which, the Company believes, may negatively impact Product Revenues, relative to historic levels, for the foreseeable future, and a decrease in demand for International Products, partially offset by a large order in International Products sold through integrators within business services whose end-users were government clients. The decrease in Product Revenues was partially offset by a new direct sales team focused on larger opportunities. Service Revenues were \$597,469, a decrease of 4% compared to Service Revenues of \$619,013 in the same period last year primarily due to a decrease in commercial revenues in North America Services resulting from slower than anticipated economic recovery and sluggish client adoption of the rapidly changing communications technology along with relatively stable government revenues in North America Services. The decrease in North America Services was partially offset by the success of its Cisco and wireless solutions practices.

Total Gross profit margin was 31.1%, a decrease of 2% compared to Total Gross profit margin of 31.7% in the same period last year. Product Gross profit margin was 42.2%, a decrease of 4% compared to Product Gross profit margin of 44.1% in the same period last year, primarily due to lower gross profit margins on the large order noted above, competitive pricing pressures and product mix. Service Gross profit margin was 28.5%, a decrease of 1% compared to Service Gross profit margin of 28.9% in the same period last year, primarily due to project mix and client-type mix. The selling prices for our services and the resulting gross profit margins continue to be impacted by competition for lower priority budget dollars.

Total Operating income margin was 5.0%, a decrease of 12% compared to Total Operating income margin of 5.7% in the same period last year. Product Operating income margin was 6.7%, a decrease of 26% compared to Product

Operating income margin of 9.0% in the same period last year, primarily due to the lower gross profit margins noted above and current period investments for growth programs. Service Operating income margin was 4.6%, a decrease of 8% compared to Service Operating income margin of 5.0% in the same period last year, primarily due to lower gross profit margins as a result of project and client-type mix noted above partially offset by a decrease in Selling, general and administrative expenses. The decrease in Selling, general and administrative expenses is the result of costs savings from restructuring activity in the prior year, a decrease in restructuring expenses of \$3,767 and a decrease in stock-based compensation expense of \$911 partially offset by current period investments for growth programs.

Table of Contents

For the reasons noted above, and the anticipated continued investment by the Company in longer-term programs designed to accelerate the growth in revenue and market penetration which, the Company anticipates, will result in its Operating income margin remaining at or near current levels for the remainder of Fiscal 2014, the Company recently lowered its revenue and earnings guidance for Fiscal 2014.

Interest expense, Other expense and Income Taxes

	3Q14	3Q13	% Change		3QYTD14	3QYTD13	% Change	
Interest expense	\$1,230	\$1,133	9	%	\$3,531	\$4,956	(29)%
% of Revenues	0.5	%0.4	%25	%	0.5	%0.7	%(29)%
Income taxes	\$2,523	\$5,222	(52)%	\$12,687	\$13,229	(4)%
Effective income tax rate	27.5	%38.0	%(28)%	39.9	%38.0	%5	%

3Q14 vs 3Q13

Interest expense was \$1,230, an increase of 9% compared to Interest expense of \$1,133 in the same period last year primarily as a result of a change in the fair value of the interest-rate swap of \$151 (from a gain of \$317 in 3Q13 to a gain of \$166 in 3Q14). Interest expense as a percent of Revenues was 0.5%, an increase of 25% compared to Interest expense as a percent of Revenues of 0.4% in the same period last year. The weighted-average outstanding debt and weighted-average interest rate was \$194,349 and 1.5%, respectively, compared to \$207,910 and 1.6% in the same period last year.

Income taxes was \$2,523, a decrease of 52% compared to Income taxes of \$5,222 in the same period last year. The effective income tax rate was 27.5%, a decrease of 28% compared to the effective income tax rate of 38.0% in the same period last year. The effective income tax rate decrease from 38.0% to 27.5% was primarily due to a decrease in uncertain income tax positions (including interest and penalties) and the benefit associated with the Fiscal 2013 federal return to provision reconciliation.

3QYTD14 vs 3QYTD13

Interest expense was \$3,531, a decrease of 29% compared to Interest expense of \$4,956 in the same period last year primarily as a result of a change in the fair value of the interest-rate swap of \$1,514 (from a loss of \$878 in 3QYTD13 to a gain of \$636 in 3QYTD14). Interest expense as a percent of Revenues was 0.5%, a decrease of 29% compared to Interest expense as a percent of Revenues of 0.7% in the same period last year. The weighted-average outstanding debt and weighted-average interest rate was \$191,732 and 1.5%, respectively, compared to \$201,631 and 1.5% in the same period last year.

Income taxes was \$12,687, a decrease of 4% compared to Income taxes of \$13,229 in the same period last year. The effective income tax rate was 39.9%, an increase of 5% compared to the effective income tax rate of 38.0% in the same period last year. The effective income tax rate increase from 38.0% to 39.9% was primarily due to the write-off of certain deferred tax assets related to equity awards partially offset by a decrease in uncertain income tax positions (including interest and penalties) and the benefit associated with the Fiscal 2013 federal return to provision reconciliation.

Liquidity and Capital Resources

Overview

A majority of our revenue is generated through individual sales of products and services. Less than 20% of our revenue is generated from long-term support contracts. We depend on repeat client business, as well as our ability to develop new client business, to sustain and grow our revenue. Most significant orders are subject to a competitive bidding process and, generally, competition can be significant for such new orders. Our business model provides us with flexibility in terms of capital expenditures and other required operating expenses. For the foreseeable future, we expect to continue to generate net cash provided by operating activities that exceeds our capital expenditures and other required operating expenses and will be available for discretionary investments.

We seek to allocate the net cash provided by our operating activities in a manner that will enhance per share results. Our historical discretionary investments include: strategic acquisitions of high quality growth-oriented companies, a return to our shareholders through dividends and common stock repurchases and repaying our debt.

Table of Contents**Liquidity Position**

The following is a summary of our capitalization and liquidity position.

	3Q14	4Q13	3Q13
Cash and cash equivalents	\$25,602	\$30,720	\$29,469
Working capital	\$192,095	\$184,229	\$184,312
Long-term debt	\$179,305	\$187,648	\$191,803
Stockholders' equity	\$487,543	\$482,247	\$484,420
Unused portion of the Credit Agreement	\$216,725	\$208,340	\$204,205

We expect that our cash, the unused portion of the Credit Agreement (hereinafter defined) and net cash provided by operating activities should be sufficient to cover the Company's working capital requirements, capital expenditures, dividend program, potential stock repurchases, potential future acquisitions or strategic investments and other cash needs for at least the next 12 months.

Sources and Uses of Cash

The following is a summary of our sources and uses of cash.

	3QYTD14	3QYTD13
Net cash provided by (used for) operating activities	\$27,905	\$30,726
Net cash provided by (used for) investing activities	\$(6,308)	\$(6,232)
Net cash provided by (used for) financing activities	\$(27,158)	\$(17,711)
Net cash provided by (used for) operating activities		

Net cash provided by operating activities was \$27,905, due primarily to Net income of \$19,148, inclusive of non-cash charges and a decrease in Costs/estimated earnings in excess of billings on uncompleted contracts of \$9,702 (primarily due to large contracts where contract billing terms do not necessarily coincide with percentage-of-completion revenue recognition), partially offset by an increase in Accounts receivable, net of \$14,248 and a decrease in All other liabilities of \$17,638, compared to net cash provided by operating activities of \$30,726 in the same period last year, due primarily to Net income of \$21,583, inclusive of non-cash charges and a decrease in Accounts receivable, net of \$5,364, partially offset by an increase in Costs/estimated earnings in excess of billings on uncompleted contracts of \$22,715 (primarily due to large contracts where contract billing terms do not necessarily coincide with percentage-of-completion revenue recognition). Changes in the above accounts are based on average Fiscal 2014 and Fiscal 2013 exchange rates, as applicable.

Changes in working capital, and particularly changes in accounts receivable, costs in excess of billings and billings in excess of cost, can have a significant impact on net cash provided by operating activities, largely due to the timing of payments and receipts. The Company expects that its cash provided by operating activities and the availability under its credit facility will be sufficient to fund the Company's working capital requirements, capital expenditures, dividend program, potential stock repurchases, potential future acquisitions or strategic investments and other cash needs for the next twelve-months.

Net cash provided by (used for) investing activities

Capital expenditures

The Company made investments of \$5,542 compared to \$4,085 in the same period last year which related primarily to information technology infrastructure, computer hardware and software and vehicles.

Net cash provided by (used for) financing activities

Proceeds from long-term debt

Repayment of long-term debt was \$8,480, funded by cash flow provided by operations, compared to proceeds from long-term debt of \$11,903 in the same period last year, used to fund common stock repurchases.

Table of Contents

Common stock repurchases

The Company made discretionary investments in the form of common stock repurchases of \$17,283 compared to \$32,040 in the same period last year. The Company also made tax payments of \$1,483 compared to \$983 in the prior year related to share withholding to satisfy employee income taxes due as a result of the vesting of certain restricted stock units and performance shares.

Since the inception of the repurchase program in April 1999 through December 31, 2013, the Company has repurchased 10,300,624 shares of common stock for an aggregate purchase price of \$390,383, or an average purchase price per share of \$37.90. These shares do not include the treasury shares withheld for tax payments due upon the vesting of certain restricted stock units and performance shares. As of December 31, 2013, 199,376 shares were available under repurchase programs. On January 27, 2014 the Board approved an additional 1,000,000 shares for repurchase. Additional repurchases of common stock may occur from time to time depending upon factors such as the Company's cash flows and general market conditions. There can be no assurance as to the timing or amount of such repurchases. Under the Credit Agreement, the Company is permitted to repurchase its common stock as long as no Event of Default or Potential Default (as defined in the Credit Agreement) shall have occurred and is continuing or shall occur as a result thereof. In addition, no repurchase of common stock is permitted under the Credit Agreement if such event would violate a consolidated leverage ratio required to be maintained under the Credit Agreement.

Dividends

The Company made discretionary investments in the form of dividends to its shareholders of \$4,166 compared to \$3,902 in the prior year. While the Company expects to continue to declare quarterly dividends, the payment of future dividends is at the discretion of the Company's Board of Directors (the "Board") and the timing and amount of any future dividends will depend upon earnings, cash requirements and the financial condition of the Company. Under the Credit Agreement, the Company is permitted to make any distribution or dividend as long as no Event of Default or Potential Default (as defined in the Credit Agreement) shall have occurred and is continuing or shall occur as a result thereof. In addition, no distribution or dividend is permitted under the Credit Agreement if such event would violate a consolidated leverage ratio required to be maintained under the Credit Agreement other than regular quarterly dividends not exceeding \$15,000 per year.

Credit Agreement

On March 23, 2012, the Company entered into a Credit Agreement (the "Credit Agreement") with Citizens Bank of Pennsylvania, as administrative agent, and certain other lender parties. The Credit Agreement expires on March 23, 2017. Borrowings under the Credit Agreement are permitted up to a maximum amount of \$400,000, which includes up to \$25,000 of swing-line loans and \$25,000 of letters of credit. The Credit Agreement may be increased by the Company up to an additional \$100,000 with the approval of the lenders and may be unilaterally and permanently reduced by the Company to not less than the then outstanding amount of all borrowings. Interest on outstanding indebtedness under the Credit Agreement accrues, at the Company's option, at a rate based on either: (a) the greater of (i) the prime rate per annum of the agent then in effect and (ii) 0.50% plus the rate per annum announced by the Federal Reserve Bank of New York as being the weighted-average of the rates on overnight Federal funds transactions arranged by Federal funds brokers on the previous trading day, in each case plus 0% to 0.75% (determined by a leverage ratio based on the Company's consolidated Earnings Before Interest Taxes Depreciation and Amortization ("EBITDA")) or (b) a rate per annum equal to the LIBOR rate plus 0.875% to 1.750% (determined by a leverage ratio based on the Company's consolidated EBITDA). The Credit Agreement requires the Company to maintain compliance with certain non-financial and financial covenants such as leverage and fixed-charge coverage ratios. As of December 31, 2013, the Company was in compliance with all covenants under the Credit Agreement.

Legal Proceedings

See Note 15 of the Notes to the Consolidated Financial Statements of this Quarterly Report on Form 10-Q (this "Form 10-Q"), which information is incorporated herein by reference.

Inflation

The overall effects of inflation on the Company have been nominal. Although long-term inflation rates are difficult to predict, the Company continues to strive to minimize the effect of inflation through improved productivity and cost reduction programs as well as price adjustments within the constraints of market competition.

Table of Contents

Valuation of Goodwill

During the first quarter of Fiscal 2014, the Company conducted an interim goodwill impairment assessment because data, relevant to a goodwill impairment assessment, was readily available through the reassignment of goodwill to the Company's new business segments using the relative fair market value approach. The first step of the goodwill impairment assessment, used to identify potential impairment, resulted in a surplus of fair value over carrying amount for each of our new reporting units, thus the new reporting units were considered not impaired as of April 1, 2013 and the second step of the impairment test was not necessary.

Consistent with prior years, the Company is conducting its annual goodwill impairment assessment as of the end of the second quarter of its fiscal year (September 28, 2013 for Fiscal 2014). Historically, this assessment was completed during the third quarter. However, given the downward adjustment in the Company's revenue and profitability outlook for Fiscal 2014 in each reporting unit announced in November 2013 with the second fiscal quarter financial results and changes in outlook as a result of the Company's efforts to transform into a more relevant and effective solution provider, the Company determined it was necessary to extend completion of its assessment process in order to take into account a contemporary outlook for the Company's business units that are being developed in connection with Fiscal 2015 planning. As a result, it is expected that our annual goodwill impairment assessment will be completed during the fourth quarter of Fiscal 2014. The Company expects that the downward adjustment in its revenue and profitability outlook noted above and an increase in the Company's weighted-average cost of capital (primarily driven by an increase in the risk-free interest rate) will decrease the fair value of our reporting units. A decrease in the fair value of our reporting units could result in a non-cash goodwill impairment charge, which could have a material adverse effect on our consolidated financial statements.

Critical Accounting Policies/Impact of Recently Issued Accounting Pronouncements

Critical Accounting Policies

The Company's critical accounting policies require the most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain and are the most important to the portrayal of the Company's consolidated financial statements. The Company's critical accounting policies are disclosed in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" of the Form 10-K. The significant accounting policies used in the preparation of the Company's consolidated financial statements are disclosed in Note 2 of the Notes to the Consolidated Financial Statements within the Form 10-K. No additional significant accounting policies have been adopted during Fiscal 2014.

Impact of Recently Issued Accounting Pronouncements

There have been no accounting pronouncements adopted during Fiscal 2014 that have had a material impact on the Company's consolidated financial statements. There have been no new accounting pronouncements issued but not yet adopted that are expected to have a material impact on the Company's consolidated financial statements.

Cautionary Forward Looking Statements

When included in this Quarterly Report on Form 10-Q or in documents incorporated herein by reference, the words "should," "expects," "intends," "anticipates," "believes," "estimates," "approximates," "targets," "plans" and analogous expressions are intended to identify forward-looking statements. One can also identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. Such statements are inherently subject to a variety of risks and uncertainties that could cause actual results to differ materially from those projected. Although it is not possible to predict or identify all risk factors, such risks and uncertainties may include, among others, levels of business activity and operating expenses, expenses relating to corporate compliance requirements, cash flows, global economic and business conditions, successful integration of acquisitions, the timing and costs of restructuring programs, successful marketing of the Company's product and services offerings, successful implementation of the Company's M&A program, including identifying appropriate targets, consummating transactions and successfully integrating the businesses, successful implementation of the Company's government contracting programs, competition, changes in foreign, political and economic conditions, fluctuating foreign currencies compared to the U.S. dollar, rapid changes in technologies, client preferences, the Company's arrangements with suppliers of voice equipment and technology, government budgetary constraints and various other matters, many of which are beyond

the Company's control. Additional risk factors are included in the Form 10-K. These forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and speak only as of the date of this Form 10 Q. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to be correct. The Company expressly disclaims any obligation or undertaking to release publicly any updates or any changes in the Company's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Company is exposed to market risks in the ordinary course of business that include interest-rate volatility and foreign currency exchange rates volatility. Market risk is measured as the potential negative impact on earnings, cash flows or fair values resulting from a hypothetical change in interest rates or foreign currency exchange rates over the next year. The Company does not hold or issue any other financial derivative instruments (other than those specifically noted below) nor does it engage in speculative trading of financial derivatives.

Interest-rate Risk

The Company's primary interest-rate risk relates to its long-term debt obligations. As of December 31, 2013, the Company had total long-term obligations of \$179,225 under the Credit Agreement. Of the outstanding debt, \$125,000 was in variable rate debt that was effectively converted to fixed rate debt through an interest-rate swap agreement (discussed in more detail below) and \$54,225 was in variable rate obligations. As of December 31, 2013, an instantaneous 100 basis point increase in the interest rate of the variable rate debt would reduce the Company's earnings in the subsequent fiscal quarter by \$134 (\$81 net of tax) assuming the Company employed no intervention strategies.

To mitigate the risk of interest-rate fluctuations associated with the Company's variable rate long-term debt, the Company has implemented an interest-rate risk management strategy that incorporates the use of derivative instruments to minimize significant unplanned fluctuations in earnings caused by interest-rate volatility. The Company's goal is to manage interest-rate sensitivity by modifying the re-pricing characteristics of certain balance sheet liabilities so that the net-interest margin is not, on a material basis, adversely affected by the movements in interest rates.

On November 15, 2011, the Company entered into a three-year floating-to-fixed interest-rate swap, with an effective start date of July 26, 2012, that is based on a three-month LIBOR rate versus a 1.25% fixed rate and has a notional value of \$125,000. Changes in the fair market value of the interest-rate swap are recorded as an asset or liability within the Company's Consolidated Balance Sheets and Interest expense (income) within the Company's Consolidated Statements of Operations.

Foreign Exchange Rate Risk

The Company has operations, clients and suppliers worldwide, thereby exposing the Company's financial results to foreign currency fluctuations. In an effort to reduce this risk of foreign currency fluctuations, the Company generally sells and purchases inventory based on prices denominated in U.S. dollars. Intercompany sales to subsidiaries are generally denominated in the subsidiaries' local currency. The Company has entered and will continue in the future, on a selective basis, to enter into foreign currency contracts to reduce the foreign currency exposure related to certain intercompany transactions, primarily trade receivables and loans. All of the foreign currency contracts have been designated and qualify as cash flow hedges. The effective portion of any changes in the fair value of the derivative instruments is recorded in Accumulated Other Comprehensive Income ("AOCI") until the hedged forecasted transaction occurs or the recognized currency transaction affects earnings. Once the forecasted transaction occurs or the recognized currency transaction affects earnings, the effective portion of any related gains or losses on the cash flow hedge is reclassified from AOCI to the Company's Consolidated Statements of Operations. In the event it becomes probable that the hedged forecasted transaction will not occur, the ineffective portion of any gain or loss on the related cash flow hedge would be reclassified from AOCI to the Company's Consolidated Statements of Operations.

As of December 31, 2013, the Company had open foreign currency contracts in Australian and Canadian dollars, Danish krone, Euros, Mexican pesos, Norwegian kroner, British pounds sterling, Swedish krona, Swiss francs and Japanese yen. The open contracts have contract rates ranging from 0.96 to 1.14 Australian dollar, 1.04 to 1.07 Canadian dollar, 5.50 to 5.65 Danish krone, 0.72 to 0.77 Euro, 13.75 to 13.75 Mexican peso, 6.04 to 6.16 Norwegian kroner, 0.61 to 0.66 British pound sterling, 6.48 to 6.69 Swedish krona, 0.91 to 0.92 Swiss franc and 94.60 to 102.91 Japanese yen, all per U.S. dollar. The total open contracts had a notional amount of \$54,534 and will expire within eleven-months.

Item 4. Controls and Procedures.

Conclusions Regarding the Effectiveness of Disclosure Controls and Procedures

Management, including the Company's Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining adequate disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), for the Company. Management assessed the effectiveness of the Company's disclosure controls and procedures as of December 28, 2013. Based upon this assessment, Management has concluded that the Company's disclosure controls and procedures were effective as of December 28, 2013 to provide reasonable assurance that information required to be disclosed by the Company in the reports filed or submitted by it under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and to provide reasonable assurance that information required to be disclosed by the Company in such reports is accumulated and communicated to Management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during the most recent fiscal quarter that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

Limitations on the Effectiveness of Controls

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Because of its inherent limitations, the Company's internal control over financial reporting may not prevent or detect misstatements. In addition, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

PART II. OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
September 29, 2013 to October 27, 2013	—	\$—	—	427,461
October 28, 2013 to November 24, 2013	228,085	\$25.68	228,085	199,376
November 25, 2013 to December 28, 2013	—	\$—	—	199,376
Total	228,085	\$25.68	228,085	199,376

As of December 28, 2013, 199,376 shares were available for the Company's repurchase under a repurchase program for 1,000,000 shares by the Board and announced on October 2, 2012. This repurchase program has no expiration date and none of the Company's repurchase programs were terminated prior to the full repurchase of the authorized amount. On January 27, 2014 the Board approved an additional 1,000,000 shares for repurchase.

Additional repurchases of common stock may occur from time to time depending upon factors such as the Company's cash flows and general market conditions. There can be no assurance as to the timing or amount of such repurchases. Under the Credit Agreement, the Company is permitted to repurchase its common stock as long as no Event of Default or Potential Default (as defined in the Credit Agreement) shall have occurred and is continuing or shall occur as a result thereof. In addition, no repurchase of common stock is permitted under the Credit Agreement if such event would violate a consolidated leverage ratio required to be maintained under the Credit Agreement.
