#### EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the period ended June 30, 2016 of Corporate Office Properties Trust (“COPT”) and subsidiaries (collectively, the “Company”) and Corporate Office Properties, L.P. (“COPLP”) and subsidiaries (collectively, the “Operating Partnership”). Unless stated otherwise or the context otherwise requires, “we,” “our,” and “us” refer collectively to COPT, COPLP and their subsidiaries.

COPT is a real estate investment trust, or REIT, and the sole general partner of COPLP. As of June 30, 2016, COPT owned approximately 96.3% of the outstanding common units and approximately 95.5% of the outstanding preferred units in COPLP; the remaining common and preferred units in COPLP were owned by third parties. As the sole general partner of COPLP, COPT controls COPLP and can cause it to enter into major transactions including acquisitions, dispositions and refinancings and cause changes in its line of business, capital structure and distribution policies.

There are a few differences between the Company and the Operating Partnership which are reflected in this Form 10-Q. We believe it is important to understand the differences between the Company and the Operating Partnership in the context of how the Company and the Operating Partnership operate as an interrelated, consolidated company. COPT is a real estate investment trust, whose only material asset is its ownership of partnership interests of COPLP. As a result, COPT does not conduct business itself, other than acting as the sole general partner of COPLP, issuing public equity from time to time and guaranteeing certain debt of COPLP. COPT itself is not directly obligated under any indebtedness but guarantees some of the debt of COPLP. COPLP owns substantially all of the assets of COPT either directly or through its subsidiaries, conducts almost all of the operations of the business and is structured as a limited partnership with no publicly traded equity. Except for net proceeds from public equity issuances by COPT, which are contributed to COPLP in exchange for partnership units, COPLP generates the capital required by COPT’s business through COPLP’s operations, by COPLP’s direct or indirect incurrence of indebtedness or through the

issuance of partnership units.

Noncontrolling interests and shareholders' equity and partners' capital are the main areas of difference between the consolidated financial statements of COPT and those of COPLP. The common limited partnership interests in COPLP not owned by COPT are accounted for as partners' capital in COPLP's consolidated financial statements and as noncontrolling interests in COPT's consolidated financial statements. COPLP's consolidated financial statements also reflect COPT's noncontrolling interests in certain real estate partnerships, limited liability companies ("LLCs"), business trusts and corporations; the differences between shareholders' equity, partners' capital and noncontrolling interests result from the differences in the equity issued at the COPT and COPLP levels and in COPT's noncontrolling interests in these real estate partnerships, LLCs, business trusts and corporations. The only other significant differences between the consolidated financial statements of COPT and those of COPLP are assets in connection with a non-qualified elective deferred compensation plan

---

(comprised primarily of mutual funds and equity securities) and the corresponding liability to the plan's participants that are held directly by COPT.

We believe combining the quarterly reports on Form 10-Q of the Company and the Operating Partnership into this single report results in the following benefits:

- combined reports better reflect how management and the analyst community view the business as a single operating unit;
- combined reports enhance investors' understanding of the Company and the Operating Partnership by enabling them to view the business as a whole and in the same manner as management;
- combined reports are more efficient for the Company and the Operating Partnership and result in savings in time, effort and expense; and
- combined reports are more efficient for investors by reducing duplicative disclosure and providing a single document for their review.

To help investors understand the significant differences between the Company and the Operating Partnership, this report presents the following separate sections for each of the Company and the Operating Partnership:

- consolidated financial statements;
- the following notes to the consolidated financial statements:
  - Note 3, Fair Value Measurements of COPT and subsidiaries and COPLP and subsidiaries; and
  - Note 14, Earnings per Share of COPT and subsidiaries and Earnings per Unit of COPLP and subsidiaries;
- "Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources of COPT"; and
- "Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources of COPLP."

This report also includes separate sections under Part I, Item 4. Controls and Procedures and separate Exhibit 31 and Exhibit 32 certifications for each of COPT and COPLP to establish that the Chief Executive Officer and the Chief Financial Officer of each entity have made the requisite certifications and that COPT and COPLP are compliant with Rule 13a-15 and Rule 15d-14 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and 18 U.S.C. §1350.

Corporate Office Properties Trust and Subsidiaries and Corporate Office Properties, L.P. and Subsidiaries  
Notes to Consolidated Financial Statements  
(unaudited)

1. Organization

Corporate Office Properties Trust (“COPT”) and subsidiaries (collectively, the “Company”) is a fully-integrated and self-managed real estate investment trust (“REIT”). Corporate Office Properties, L.P. (“COPLP”) and subsidiaries (collectively, the “Operating Partnership”) is the entity through which COPT, the sole general partner of COPLP, conducts almost all of its operations and owns almost all of its assets. Unless otherwise expressly stated or the context otherwise requires, “we”, “us” and “our” as used herein refer to each of the Company and the Operating Partnership. We own, manage, lease, develop and selectively acquire office and data center properties. The majority of our portfolio is in locations that support United States Government agencies and their contractors, most of whom are engaged in national security, defense and information technology (“IT”) related activities servicing what we believe are growing, durable priority missions (“Defense/IT Locations”). We also own a complementary portfolio of traditional office properties located in select urban/urban-like submarkets within our regional footprint with durable Class-A office fundamentals and characteristics, as well as other properties supporting general commercial office tenants (“Regional Office”). As of June 30, 2016, our properties included the following:

- 181 operating office properties totaling 18.4 million square feet, including 11 triple-net leased, single-tenant data center properties;
- 12 office properties under, or contractually committed for, construction or redevelopment that we estimate will total approximately 1.5 million square feet upon completion, including two partially operational properties included above and two properties completed but held for future lease to the United States Government;
- 1,379 acres of land we control that we believe could be developed into approximately 16.7 million square feet; and
- a wholesale data center with a critical load of 19.25 megawatts.

COPLP owns real estate both directly and through subsidiary partnerships and limited liability companies (“LLCs”). In addition to owning real estate, COPLP also owns subsidiaries that provide real estate services such as property management and construction and development services primarily for our properties but also for third parties. Some of these services are performed by a taxable REIT subsidiary (“TRS”).

Equity interests in COPLP are in the form of common and preferred units. As of June 30, 2016, COPT owned 96.3% of the outstanding COPLP common units (“common units”) and 95.5% of the outstanding COPLP preferred units (“preferred units”); the remaining common and preferred units in COPLP were owned by third parties. Common units in COPLP not owned by COPT carry certain redemption rights. The number of common units in COPLP owned by COPT is equivalent to the number of outstanding common shares of beneficial interest (“common shares”) of COPT, and the entitlement of all COPLP common units to quarterly distributions and payments in liquidation is substantially the same as those of COPT common shareholders. Similarly, in the case of each series of preferred units in COPLP held by COPT, there is a series of preferred shares of beneficial interest (“preferred shares”) in COPT that is equivalent in number and carries substantially the same terms as such series of COPLP preferred units. COPT’s common shares are publicly traded on the New York Stock Exchange (“NYSE”) under the ticker symbol “OFC”.

Because COPLP is managed by COPT, and COPT conducts substantially all of its operations through COPLP, we refer to COPT’s executive officers as COPLP’s executive officers, and although, as a partnership, COPLP does not have a board of trustees, we refer to COPT’s Board of Trustees as COPLP’s Board of Trustees.

2. Summary of Significant Accounting Policies

## Basis of Presentation

The COPT consolidated financial statements include the accounts of COPT, the Operating Partnership, their subsidiaries and other entities in which COPT has a majority voting interest and control. The COPLP consolidated financial statements include the accounts of COPLP, its subsidiaries and other entities in which COPLP has a majority voting interest and control. We also consolidate certain entities when control of such entities can be achieved through means other than voting rights (“variable interest entities” or “VIEs”) if we are deemed to be the primary beneficiary of such entities. We eliminate all intercompany balances and transactions in consolidation.

We use the equity method of accounting when we own an interest in an entity and can exert significant influence over but cannot control the entity’s operations. We discontinue equity method accounting if our investment in an entity (and net

15

---

advances) is reduced to zero unless we have guaranteed obligations of the entity or are otherwise committed to provide further financial support for the entity.

We use the cost method of accounting when we own an interest in an entity and cannot exert significant influence over its operations.

These interim financial statements should be read together with the consolidated financial statements and notes thereto as of and for the year ended December 31, 2015 included in our 2015 Annual Report on Form 10-K. The unaudited consolidated financial statements include all adjustments that are necessary, in the opinion of management, to fairly present our financial position and results of operations. All adjustments are of a normal recurring nature. The consolidated financial statements have been prepared using the accounting policies described in our 2015 Annual Report on Form 10-K.

#### Recent Accounting Pronouncements

We adopted guidance issued by the Financial Accounting Standards Board (“FASB”) effective January 1, 2016 regarding the presentation of extraordinary and unusual items in statements of operations. This guidance eliminates the concept of extraordinary items. However, the presentation and disclosure requirements for items that are either unusual in nature or infrequent in occurrence remain and will be expanded to include items that are both unusual in nature and infrequent in occurrence. Our adoption of this guidance did not affect on our reported consolidated financial statements.

We adopted guidance issued by the FASB effective January 1, 2016 modifying the analysis that must be performed by us in determining whether we should consolidate certain types of legal entities. The guidance did not amend the existing disclosure requirements for VIEs or voting interest model entities. The guidance, however, modified the requirements to qualify under the voting interest model. Under the revised guidance, COPLP is considered a variable interest entity of COPT. As COPLP was already consolidated in the balance sheets of COPT, the identification of COPLP as a variable interest entity had no impact on the consolidated financial statements. There were no other legal entities qualifying under the scope of the revised guidance that were consolidated as a result of the adoption. In addition, there were no voting interest entities under prior existing guidance determined to be variable interest entities under the revised guidance.

We adopted effective January 1, 2016 guidance that eliminates the requirement to restate prior period financial statements for measurement period adjustments following a business combination. The guidance requires that the cumulative impact of a measurement period adjustment (including the impact on prior periods) be recognized in the reporting period in which the adjustment is identified. The prior period impact of the adjustment should be either presented separately on the face of the statement of operations or disclosed in the notes. Our adoption of this guidance did not affect our reported consolidated financial statements.

In May 2014, the FASB issued guidance regarding the recognition of revenue from contracts with customers. Under this guidance, an entity will recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Additionally, this guidance requires improved disclosures regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. We are required to adopt this guidance for our annual and interim periods beginning January 1, 2018 using one of two methods: retrospective restatement for each reporting period presented at the time of adoption, or retrospectively with the cumulative effect of initially applying this guidance recognized at the date of initial application. We are currently assessing the financial impact of this guidance on our consolidated financial statements.

In February 2016, the FASB issued guidance that sets forth principles for the recognition, measurement, presentation and disclosure of leases. This guidance requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase of the leased asset by the lessee. The resulting classification determines whether the lease expense is recognized based on an effective interest method or straight-line basis over the term of the lease. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases. The guidance requires lessors to account for leases using an approach that is substantially equivalent to existing guidance for sales-type leases, direct financing leases and operating leases. This guidance is effective for reporting periods beginning after December 15, 2018, with early adoption permitted. We are currently assessing the financial impact of this guidance on our consolidated financial statements.

In March 2016, the FASB issued guidance intended to simplify certain aspects of the accounting for employee based share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities and classification on the consolidated statement of cash flows. This guidance is effective for annual periods beginning after

December 15, 2016, and interim periods within those annual periods, with early adoption permitted. We are currently assessing the financial impact of this guidance on our consolidated financial statements.

### 3. Fair Value Measurements

#### Recurring Fair Value Measurements

COPT has a non-qualified elective deferred compensation plan for certain members of our management team that permits participants to defer up to 100% of their compensation on a pre-tax basis and receive a tax-deferred return on such deferrals. The assets held in the plan (comprised primarily of mutual funds and equity securities) and the corresponding liability to the participants are measured at fair value on a recurring basis on COPT's consolidated balance sheet using quoted market prices, as are other marketable securities that we hold. The balance of the plan, which was fully funded, totaled \$5.0 million as of June 30, 2016, and is included in the accompanying COPT consolidated balance sheets in the line entitled restricted cash and marketable securities. The offsetting liability associated with the plan is adjusted to fair value at the end of each accounting period based on the fair value of the plan assets and reported in other liabilities on COPT's consolidated balance sheets. The assets of the plan and other marketable securities that we hold are classified in Level 1 of the fair value hierarchy. The liability associated with the plan is classified in Level 2 of the fair value hierarchy.

The fair values of our interest rate derivatives are determined using widely accepted valuation techniques, including a discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate market data and implied volatilities in such interest rates. While we determined that the majority of the inputs used to value our derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with our interest rate derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default. However, as of June 30, 2016, we assessed the significance of the impact of the credit valuation adjustments on the overall valuation of our derivatives and determined that these adjustments are not significant. As a result, we determined that our interest rate derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

The carrying values of cash and cash equivalents, restricted cash, accounts receivable, other assets (excluding investing receivables) and accounts payable and accrued expenses are reasonable estimates of their fair values because of the short maturities of these instruments. As discussed in Note 6, we estimated the fair values of our investing receivables based on the discounted estimated future cash flows of the loans (categorized within Level 3 of the fair value hierarchy); the discount rates used approximate current market rates for loans with similar maturities and credit quality, and the estimated cash payments include scheduled principal and interest payments. For our disclosure of debt fair values in Note 8, we estimated the fair value of our unsecured senior notes based on quoted market rates for publicly-traded debt (categorized within Level 2 of the fair value hierarchy) and estimated the fair value of our other debt based on the discounted estimated future cash payments to be made on such debt (categorized within Level 3 of the fair value hierarchy); the discount rates used approximate current market rates for loans, or groups of loans, with similar maturities and credit quality, and the estimated future payments include scheduled principal and interest payments. Fair value estimates are made as of a specific point in time, are subjective in nature and involve uncertainties and matters of significant judgment. Settlement at such fair value amounts may not be possible and may not be a prudent management decision.

For additional fair value information, please refer to Note 6 for investing receivables, Note 8 for debt and Note 9 for interest rate derivatives.

## COPT and Subsidiaries

The table below sets forth financial assets and liabilities of COPT and its subsidiaries that are accounted for at fair value on a recurring basis as of June 30, 2016 and the hierarchy level of inputs used in measuring their respective fair values under applicable accounting standards (in thousands):

Description	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

## Nonrecurring Fair Value Measurements

During the second quarter of 2016, as part of our closing process, we conducted our quarterly review of our portfolio for indicators of impairment considering the refined investment strategy of our newly-appointed Chief Executive Officer and concluded that we would: (1) not hold our operating properties in Aberdeen, Maryland for the long-term; (2) sell specific properties in our Northern Virginia Defense/IT and Fort Meade/BW Corridor sub-segments; (3) not develop commercial properties on land in Frederick, Maryland; and (4) sell the remaining operating property in Greater Philadelphia that had not previously been classified as held for sale. Accordingly, we performed recoverability analyses for each of these properties and recorded the following impairment losses resulting from nonrecurring fair value measurements:

\$34.4 million on operating properties in Aberdeen, Maryland (included in our Other segment). After shortening our estimated holding period for these properties, we determined that the carrying amount of the properties would not likely be recovered from the operation and eventual dispositions of the properties during the shortened holding period. Accordingly, we adjusted the properties to their estimated fair value;

\$14.1 million on operating properties in our Northern Virginia Defense/IT and Fort Meade/BW Corridor sub-segments that we reclassified to held for sale during the period whose carrying amounts exceeded their estimated fair values less cost to sell;

\$8.2 million on land in Frederick, Maryland. We determined that the carrying amount of the land would not likely be recovered from the sale of this property. Accordingly, we adjusted the land to its estimated fair value;

\$6.2 million on a property in Greater Philadelphia (included in our Regional Office segment) that we reclassified to held for sale during the period whose carrying amounts exceeded its estimated fair value less cost to sell; and

\$4.4 million on land in Aberdeen, Maryland. In performing our analysis related to the operating properties in Aberdeen, we determined that the weakening leasing and overall commercial real estate conditions in that market indicated that our land holdings in the market may be impaired. As a result, we determined that the carrying amount of the land was not recoverable and, accordingly, adjusted the land to its estimated fair value.

During the six months ended June 30, 2016, we also recognized the following impairment losses resulting from nonrecurring fair value measurements:

\$3.4 million (primarily in the three months ended March 31, 2016) on land in Colorado Springs, Colorado, the carrying amount of which exceeded the estimated fair value less costs to sell. Most of these losses pertained to land we decided to sell during the three months ended March 31, 2016 that was reclassified as held for sale, and the remainder was attributable to further decreases in fair value of properties previously classified as held for sale based on recent bids from and negotiations with prospective buyers; and \$1.4 million (primarily in the three months ended March 31, 2016) primarily on operating properties in White Marsh, Maryland (included in our Regional Office segment) classified as held for sale whose carrying amounts exceeded their estimated fair values less costs to sell based on recent negotiations with prospective buyers.

The table below sets forth the fair value hierarchy of the valuation technique we used to determine nonrecurring fair value measurements of these assets as of June 30, 2016 (dollars in thousands):

Description	Fair Values as of June 30, 2016			Total
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Assets:				
Operating properties, net (1)	\$—	—	\$ 13,700	\$13,700
Projects in development or held for future development (2)	—		9,117	9,117
Assets held for sale, net (3)	—		55,322	55,322

(1) Valuations were determined using a discounted cash flow model. Refer to table below for quantitative information about significant unobservable inputs used in the model.

(2) Valuation was determined using the comparable sales approach.

(3) Represents fair value less estimated costs to sell using contract prices or bids that were deemed indicative of fair value.

The table below sets forth quantitative information about significant unobservable inputs used for the Level 3 fair value measurements reported above for operating properties as of June 30, 2016:

Unobservable Input	Range (Weighted Average)
Discount rate	11.0% to 12.0% (11.6%)
Capitalization rate	9.0% to 10.0% (9.5%)

#### 4. Properties, Net

Acquisitions

We acquired the following operating properties in 2015:

250 W. Pratt Street, a 367,000 square foot office property in Baltimore, Maryland that was 96.2% leased, for \$61.8 million on March 19, 2015;

2600 Park Tower Drive, a 237,000 square foot office property in Vienna, Virginia (in the Northern Virginia region) that was 100% leased, for \$80.5 million on April 15, 2015; and

100 Light Street, a 558,000 square foot office property in Baltimore, Maryland that was 93.5% leased, and its structured parking garage, 30 Light Street, for \$121.2 million on August 7, 2015. In connection with that acquisition, we assumed a \$55.0 million mortgage loan with a fair value at assumption of \$55.5 million.

These properties contributed:

revenues of \$9.2 million for the three months ended June 30, 2016, \$4.0 million for the three months ended June 30, 2015, \$18.4 million for the six months ended June 30, 2016 and \$4.3 million for the six months ended June 30, 2015; and

net income from continuing operations of \$1.1 million for the three months ended June 30, 2016, \$40,000 for the three months ended June 30, 2015, \$2.0 million for the six months ended June 30, 2016 and \$210,000 for the six

months ended June 30, 2015.

We accounted for these acquisitions as business combinations. We included the results of operations for the acquisitions in our consolidated statements of operations from their respective purchase dates through June 30, 2016. The following table presents pro forma information for COPT and subsidiaries as if these acquisitions had occurred on January 1, 2014. This pro forma information also includes adjustments to reclassify operating property acquisition costs to the six months ended June 30, 2014 from the 2015 periods in which they were actually incurred. The pro forma financial information was prepared for comparative purposes only and is not necessarily indicative of what would have occurred had these acquisitions been made at that time or of results which may occur in the future (in thousands, except per share amounts).

## 2016 Dispositions

We sold land in the six months ended June 30, 2016 for \$5.7 million, with no gain recognized.

## 2016 Construction Activities

During the six months ended June 30, 2016, we placed into service 298,000 square feet in two newly constructed office properties and 55,000 square feet in two redeveloped properties (including a partially operational property). As of June 30, 2016, we had nine office properties under construction, or for which we were contractually committed to construct, that we estimate will total 1.4 million square feet upon completion (including two properties completed but held for future lease to the United States Government) and three office properties under redevelopment that we estimate will total 104,000 square feet upon completion.

## 5. Real Estate Joint Ventures

The table below sets forth information pertaining to our investments in consolidated real estate joint ventures as of June 30, 2016 (dollars in thousands):

	Date Acquired	Nominal Ownership % as of 6/30/2016	Nature of Activity	June 30, 2016 Total Assets	June 30, 2016 Encumbered Assets	(1) Total Liabilities

(1) Excludes amounts eliminated in consolidation.

(2) This joint venture's properties are in Huntsville, Alabama.

(3) This joint venture's properties are in College Park, Maryland.

(4) This joint venture's property is in Washington, DC.

In January 2016, our partner in Stevens Investors, LLC contributed to the joint venture, for a value of \$22.6 million, interests in contracts controlling land to be developed (including a purchase agreement and a ground lease). Our partner subsequently received a cash distribution from the joint venture of \$13.4 million, which was funded by us. Our partner is also entitled to receive an additional distribution from the joint venture of \$6.7 million to be funded by us

(expected later in 2016 or 2017) that was reported in other liabilities on our consolidated balance sheet as of June 30, 2016.

6. Investing Receivables

Investing receivables, including accrued interest thereon, consisted of the following (in thousands):

	June 30, December 31,	
	2016	2015
Notes receivable from the City of Huntsville	\$47,142	\$ 44,875
Other investing loans receivable	3,020	3,000
	\$50,162	\$ 47,875

Our notes receivable from the City of Huntsville funded infrastructure costs in connection with our LW Redstone Company, LLC joint venture (see Note 5) and carry an interest rate of 9.95%.

We did not have an allowance for credit losses in connection with our investing receivables as of June 30, 2016 or December 31, 2015. The fair value of these receivables approximated their carrying amounts as of June 30, 2016 and December 31, 2015.

7. Prepaid Expenses and Other Assets, Net

Prepaid expenses and other assets consisted of the following (in thousands):

	June 30, December 31,

Other assets	6,132	7,283
Prepaid expenses and other assets, net	\$43,359	\$ 60,024

(1) Represents deferred costs, net of accumulated amortization, attributable to our Revolving Credit Facility and interest rate derivatives.

(2) Includes a valuation allowance of \$2.1 million.

## 8. Debt, Net

Our debt consisted of the following (dollars in thousands):

	Carrying Value (1) as of		Stated Interest Rates as of June 30, 2016	Scheduled Maturity as of June 30, 2016

Unsecured notes payable	1,455	1,508	0% (12)	2026
Total debt, net	\$2,094,486	\$2,077,752		

(1) The carrying values of our loans other than the Revolving Credit Facility reflect net deferred financing costs of \$7.4 million as of June 30, 2016 and \$8.0 million as of December 31, 2015.

(2) Several of the fixed rate mortgages carry interest rates that were above or below market rates upon assumption and therefore were recorded at their fair value based on applicable effective interest rates. The carrying values of these loans reflect net unamortized premiums totaling \$459,000 as of June 30, 2016 and \$514,000 as of December 31, 2015.

(3) The weighted average interest rate on our fixed rate mortgage loans was 5.75% as of June 30, 2016.

(4) The interest rate on our variable rate secured loan as of June 30, 2016 was 2.31%.

(5) The weighted average interest rate on the Revolving Credit Facility was 1.62% as of June 30, 2016.

(6) An additional \$150 million in borrowings is available to be drawn under a term loan. In addition, we have the ability to borrow an additional \$430.0 million in the aggregate under these term loan facilities, provided that there is no default under the facilities and subject to the approval of the lenders.

(7) The weighted average interest rate on these loans was 2.10% as of June 30, 2016.

(8) The carrying value of these notes reflects an unamortized discount totaling \$2.1 million as of June 30, 2016 and \$2.2 million as of December 31, 2015. The effective interest rate under the notes, including amortization of the issuance costs, was 3.70%.

(9) The carrying value of these notes reflects an unamortized discount totaling \$3.6 million as of June 30, 2016 and \$3.8 million as of December 31, 2015. The effective interest rate under the notes, including amortization of the issuance costs, was 5.49%.

(10) The carrying value of these notes reflects an unamortized discount totaling \$1.9 million as of June 30, 2016 and \$2.1 million as of December 31, 2015. The effective interest rate under the notes, including amortization of the issuance costs, was 3.85%.

(11) The carrying value of these notes reflects an unamortized discount totaling \$3.2 million as of June 30, 2016 and \$3.3 million as of December 31, 2015. The effective interest rate under the notes, including amortization of the issuance costs, was 5.15%.

These notes carry interest rates that were below market rates upon assumption and therefore were recorded at (12) their fair value based on applicable effective interest rates. The carrying value of these notes reflects an unamortized discount totaling \$506,000 as of June 30, 2016 and \$554,000 as of December 31, 2015.

All debt is owed by the Operating Partnership. While COPT is not directly obligated by any debt, it has guaranteed the Operating Partnership's Revolving Credit Facility, Term Loan Facilities and Unsecured Senior Notes.

Certain of our debt instruments require that we comply with a number of restrictive financial covenants. As of June 30, 2016, we were within the compliance requirements of these financial covenants.

We capitalized interest costs of \$1.3 million in the three months ended June 30, 2016, \$2.0 million in the three months ended June 30, 2015, \$3.1 million in the six months ended June 30, 2016 and \$4.1 million in the six months ended June 30, 2015.

The following table sets forth information pertaining to the fair value of our debt (in thousands):

The table below presents the effect of our interest rate derivatives on our consolidated statements of operations and comprehensive income (in thousands):

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2016	June 30, 2015	June 30, 2016	June 30, 2015
Amount of (loss) gain recognized in accumulated other comprehensive loss (“AOCL”) (effective portion)	\$(5,704)	\$392	\$(16,988)	\$(3,082)
Amount of losses reclassified from AOCL into interest expense (effective portion)	850	769	1,720	1,542

Amount of loss recognized in interest expense (ineffective portion)	319	—	1,870	—
---	-----	---	-------	---

Over the next 12 months, we estimate that approximately \$5.6 million of losses will be reclassified from AOCL as an increase to interest expense.

We have agreements with each of our interest rate derivative counterparties that contain provisions under which, if we default or are capable of being declared in default on defined levels of our indebtedness, we could also be declared in default on our derivative obligations. These agreements also incorporate the loan covenant provisions of our indebtedness with a lender affiliate of the derivative counterparties. Failure to comply with the loan covenant provisions could result in our being declared in default on any derivative instrument obligations covered by the agreements. As of June 30, 2016, the fair value of interest rate derivatives in a liability position related to these agreements was \$21.1 million, excluding the effects of accrued interest and credit valuation adjustments. As of June 30, 2016, we had not posted any collateral related to these agreements. We are not in default with any of these provisions. If we breached any of these provisions, we could be required to settle our obligations under the agreements at their termination value of \$21.4 million.

#### 10. Redeemable Noncontrolling Interests

Our partners in two real estate joint ventures, LW Redstone Company, LLC and Stevens Investors, LLC (discussed further in Note 5), have the right to require us to acquire their respective interests at fair value; accordingly, we classify the fair value of our partners' interests as redeemable noncontrolling interests in the mezzanine section of our consolidated balance sheet. We determine the fair value of the interests based on unobservable inputs after considering the assumptions that market participants would make in pricing the interest. We apply a discount rate to the estimated future cash flows allocable to our partners from the properties underlying the respective joint ventures. Estimated cash flows used in such analyses are based on our plans for the properties and our views of market and economic conditions, and consider items such as current and future rental rates, occupancies for the properties and comparable properties and estimated operating and capital expenditures. The table below sets forth the activity for these redeemable noncontrolling interests (in thousands):

	For the Six Months

#### 11. Equity

During the six months ended June 30, 2016, certain COPLP limited partners redeemed 26,758 common units in COPLP for an equal number of common shares in COPT.

See Note 13 for disclosure of COPT common share and COPLP common unit activity pertaining to our share-based compensation plans.

## 12. Information by Business Segment

Our segment reporting includes the following segments: Defense/IT Locations; Regional Office; our operating wholesale data center; and other. Our segment reporting also includes reporting for Defense/IT Locations sub-segments, which include the following: Fort George G. Meade and the Baltimore/Washington Corridor (referred to herein as “Fort Meade/BW Corridor”); Northern Virginia Defense/IT Locations; Lackland Air Force Base (in San Antonio); locations serving the U.S. Navy (“Navy Support Locations”), which included properties proximate to the Washington Navy Yard, the Naval Air Station Patuxent River in Maryland and the Naval Surface Warfare Center Dahlgren Division in Virginia; Redstone Arsenal (in Huntsville); and data center shells (properties leased to tenants to be operated as data centers in which the tenants generally fund the costs for the power, fiber connectivity and data center infrastructure). The table below reports segment financial information for our reportable segments (in thousands). We measure the performance of our segments through the measure we define as NOI from real estate operations, which is derived by subtracting property operating expenses from revenues from real estate operations.

As previously discussed, we provide real estate services such as property management and construction and development services primarily for our properties but also for third parties. The primary manner in which we evaluate the operating performance of our service activities is through a measure we define as net operating income from service operations (“NOI from service operations”), which is based on the net of revenues and expenses from these activities. Construction contract and other service revenues and expenses consist primarily of subcontracted costs that are reimbursed to us by the customer along with a management fee. The operating margins from these activities are small relative to the revenue. We believe NOI from service operations is a useful measure in assessing both our level of activity and our profitability in conducting such operations. The table below sets forth the computation of our NOI from service operations (in thousands):

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2016	2015	2016	2015

The following table reconciles our segment assets to the consolidated total assets of COPT and subsidiaries (in thousands):

	June 30, 2016	June 30, 2015
Segment assets	\$3,289,117	\$3,218,657
Non-operating property assets	413,597	527,742
Other assets	138,978	157,660
Total COPT consolidated assets	\$3,841,692	\$3,904,059

The accounting policies of the segments are the same as those used to prepare our consolidated financial statements, except that discontinued operations are not presented separately for segment purposes. In the segment reporting presented above, we did not allocate interest expense, depreciation and amortization, impairment losses, gain (loss) on early extinguishment of debt and gain on sales of real estate to our real estate segments since they are not included in the measure of segment profit reviewed by management. We also did not allocate general, administrative and leasing expenses, business development expenses and land carry costs, interest and other income, equity in income of unconsolidated entities, income taxes and noncontrolling interests because these items represent general corporate or non-operating property items not attributable to segments.

### 13. Share-Based Compensation and Other Compensation Matters

#### Performance Share Units (“PSUs”)

On March 1, 2016, our Board of Trustees granted 26,299 PSUs with an aggregate grant date fair value of \$1.0 million to executives. The PSUs have a performance period beginning on January 1, 2016 and concluding on the earlier of December 31, 2018 or the date of: (1) termination by us without cause, death or disability of the executive or constructive discharge of the executive (collectively, “qualified termination”); or (2) a sale event. The number of PSUs

earned (“earned PSUs”) at the end of the performance period will be determined based on the percentile rank of COPT’s total shareholder return relative to a peer group of companies, as set forth in the following schedule:

Percentile Rank	Earned PSUs Payout %
75th or greater	200% of PSUs granted
50th or greater	100% of PSUs granted
25th	50% of PSUs granted
Below 25th	0% of PSUs granted

If the percentile rank exceeds the 25th percentile and is between two of the percentile ranks set forth in the table above, then the percentage of the earned PSUs will be interpolated between the ranges set forth in the table above to reflect any performance

between the listed percentiles. At the end of the performance period, we, in settlement of the award, will issue a number of fully-vested COPT common shares equal to the sum of:

the number of earned PSUs in settlement of the award plan; plus  
the aggregate dividends that would have been paid with respect to the common shares issued in settlement of the earned PSUs through the date of settlement had such shares been issued on the grant date, divided by the share price on such settlement date, as defined under the terms of the agreement.

If a performance period ends due to a sale event or qualified termination, the number of earned PSUs is prorated based on the portion of the three-year performance period that has elapsed. If employment is terminated by the employee or by us for cause, all PSUs are forfeited. PSUs do not carry voting rights.

We computed a grant date fair value of \$38.21 per PSU using a Monte Carlo model, which included assumptions of, among other things, the following: baseline common share value of \$23.90; expected volatility for COPT common shares of 20.4%; and a risk-free interest rate of 0.96%. We are recognizing the grant date fair value in connection with these PSU awards over the period commencing on March 1, 2016 and ending on December 31, 2018.

Based on COPT's total shareholder return relative to its peer group of companies, for PSUs issued in 2014 and 2015 to Mr. Wayne H. Lingafelter, our former Executive Vice President, Development & Construction Services, who departed on March 31, 2016, we issued 10,326 common shares on May 30, 2016 in settlement of such PSUs.

#### Restricted Shares

During the six months ended June 30, 2016, certain employees were granted a total of 197,087 restricted common shares with an aggregate grant date fair value of \$4.8 million (weighted average of \$24.11 per share). Restricted shares granted to employees vest based on increments and over periods of time set forth under the terms of the respective awards provided that the employees remain employed by us. During the six months ended June 30, 2016, forfeiture restrictions lapsed on 159,171 previously issued common shares; these shares had a weighted average grant date fair value of \$27.62 per share, and the aggregate intrinsic value of the shares on the vesting dates was \$3.8 million.

#### Deferred Share Awards

During the six months ended June 30, 2016, nonemployee members of our Board of Trustees were granted a total of 24,944 deferred share awards with an aggregate grant date fair value of \$671,000 (\$26.89 per share). Deferred share awards vest on the first anniversary of the grant date, provided that the Trustee remains in his or her position. We settle deferred share awards by issuing an equivalent number of common shares upon vesting of the awards or a later date elected by the Trustee (generally upon cessation of being a Trustee). During the six months ended June 30, 2016, we issued 12,028 common shares in settlement of deferred share awards granted in 2015; these shares had a grant date fair value of \$26.70 per share, and the aggregate intrinsic value of the shares on the settlement date was \$322,000.

#### Executive Transition Costs

Our Board of Trustees appointed Stephen E. Budorick, our Executive Vice President and Chief Operating Officer since September 2011, to become our President and Chief Executive Officer effective May 12, 2016, the date of the Company's 2016 Annual Meeting of Shareholders. On that date, Roger A. Waesche, Jr., our current President and Chief Executive Officer, left the Company to pursue other interests, and he was not nominated for reelection as a Trustee. The Board appointed Mr. Budorick to our Board of Trustees after the 2016 Annual Meeting of Shareholders. In addition, our Executive Vice President, Development & Construction Services, Wayne H. Lingafelter, departed the

Company to pursue other interests effective March 31, 2016. We recognized executive transition costs of approximately \$4.4 million in the six months ended June 30, 2016 primarily in connection with the departure of Mr. Waesche and Mr. Lingafelter.

14. Earnings Per Share (“EPS”) and Earnings Per Unit (“EPU”)

COPT and Subsidiaries EPS

We present both basic and diluted EPS. We compute basic EPS by dividing net income available to common shareholders allocable to unrestricted common shares under the two-class method by the weighted average number of unrestricted common shares outstanding during the period. Our computation of diluted EPS is similar except that:

the denominator is increased to include: (1) the weighted average number of potential additional common shares that would have been outstanding if securities that are convertible into COPT common shares were converted; and (2) the effect of dilutive potential common shares outstanding during the period attributable to share-based compensation using the treasury stock or if-converted methods; and the numerator is adjusted to add back any changes in income or loss that would result from the assumed conversion into common shares that we added to the denominator.

Summaries of the numerator and denominator for purposes of basic and diluted EPS calculations are set forth below (in thousands, except per share data):

We had outstanding senior notes, which we redeemed in April 2015, with an exchange settlement feature, but such notes did not affect our diluted EPS reported above since the weighted average closing price of COPT's common shares during each of the periods was less than the exchange prices per common share applicable for such periods.

#### COPLP and Subsidiaries EPU

We present both basic and diluted EPU. We compute basic EPU by dividing net income available to common unitholders allocable to unrestricted common units under the two-class method by the weighted average number of unrestricted common units outstanding during the period. Our computation of diluted EPU is similar except that:

the denominator is increased to include: (1) the weighted average number of potential additional common units that would have been outstanding if securities that are convertible into our common units were converted; and (2) the effect of dilutive potential common units outstanding during the period attributable to share-based compensation using the treasury stock or if-converted methods; and

the numerator is adjusted to add back any changes in income or loss that would result from the assumed conversion into common units that we added to the denominator.

Our diluted EPU computations do not include the effects of the following securities since the conversions of such securities would increase diluted EPU for the respective periods (in thousands):

	Weighted Average Units Excluded from Denominator			
	For the Three Months Ended June 30, 2016		For the Six Months Ended June 30, 2015	
Conversion of Series I preferred units	176	176	176	176
Conversion of Series K preferred units	434	434	434	434

The following share-based compensation securities were excluded from the computation of diluted EPU because their effects were antidilutive:

weighted average restricted units and deferred share awards for the three months ended June 30, 2016 and 2015 of 403,000 and 426,000, respectively, and for the six months ended June 30, 2016 and 2015 of 404,000 and 413,000, respectively; and

weighted average options for the three months ended June 30, 2016 and 2015 of 309,000 and 473,000, respectively, and for the six months ended June 30, 2016 and 2015 of 344,000 and 472,000, respectively.

We had outstanding senior notes, which we redeemed in April 2015, with an exchange settlement feature, but such notes did not affect our diluted EPU reported above since the weighted average closing price of COPT's common shares during each of the periods was less than the exchange prices per common share applicable for such periods.

## 15. Commitments and Contingencies

### Litigation

In the normal course of business, we are involved in legal actions arising from our ownership and administration of properties. We establish reserves for specific legal proceedings when we determine that the likelihood of an unfavorable outcome is probable and the amount of loss can be reasonably estimated. Management does not anticipate that any liabilities that may result from such proceedings will have a materially adverse effect on our financial position, operations or liquidity. Our assessment of the potential outcomes of these matters involves significant judgment and is subject to change based on future developments.

### Environmental

We are subject to various Federal, state and local environmental regulations related to our property ownership and operation. We have performed environmental assessments of our properties, the results of which have not revealed any environmental liability that we believe would have a materially adverse effect on our financial position, operations or liquidity.

### Tax Incremental Financing Obligation

In August 2010, Anne Arundel County, Maryland issued \$30 million in tax incremental financing bonds to third-party investors in order to finance public improvements needed in connection with our project known as National Business

Park North. The real estate taxes on increases in assessed value of a development district encompassing National Business Park North are to be transferred to a special fund pledged to the repayment of the bonds. We recognized a \$1.9 million liability through June 30, 2016 representing our estimated obligation to fund through a special tax any future shortfalls between debt service on the bonds and real estate taxes available to repay the bonds.

## Operating Leases

We are obligated as lessee under operating leases (mostly ground leases) with various expiration dates extending to the year 2100. Future minimum rental payments due under the terms of these operating leases as of June 30, 2016 follow (in thousands):

Year Ending December 31,

2016 (1)	\$603
2017	1,139
2018	1,092
2019	1,067
2020	1,084
Thereafter	86,805
	\$91,790

(1) Represents six months ending December 31, 2016.

## Contractual Obligations

We had amounts remaining to be incurred under various contractual obligations as of June 30, 2016 that included the following:

- new development and redevelopment obligations of \$78.8 million;
- capital expenditures for operating properties of \$48.7 million;
- third party construction and development of \$17.3 million; and
- purchase obligations of \$2.5 million.

## Environmental Indemnity Agreement

In connection with a lease and subsequent sale in 2008 and 2010 of three properties in Dayton, New Jersey, we agreed to provide certain environmental indemnifications. The prior owner of the properties, a Fortune 100 company that is responsible for groundwater contamination at such properties, previously agreed to indemnify us for (1) direct losses incurred in connection with the contamination and (2) its failure to perform remediation activities required by the State of New Jersey, up to the point that the state declares the remediation to be complete. Under the environmental indemnification agreement, we agreed to the following:

- to indemnify the tenant against losses covered under the prior owner's indemnity agreement if the prior owner fails to indemnify the tenant for such losses. This indemnification is capped at \$5.0 million in perpetuity after the State of New Jersey declares the remediation to be complete;
- to indemnify the tenant for consequential damages (e.g., business interruption) at one of the buildings in perpetuity and another of the buildings through 2025. This indemnification is limited to \$12.5 million; and to pay 50% of additional costs related to construction and environmental regulatory activities incurred by the tenant as a result of the indemnified environmental condition of the properties. This indemnification is limited to \$300,000 annually and \$1.5 million in the aggregate.

## 16. Subsequent Event

On July 21, 2016, we sold a 50% interest in six triple-net leased, single-tenant data center properties by contributing them into a newly-formed joint venture for a property value of \$147.6 million. We obtained \$60 million in non-recourse mortgage loans on the properties through the joint venture immediately prior to the sale of our interest

and received the net proceeds. Our partner in the joint venture acquired the 50% interest in the joint venture from us for \$44 million. We will account for our 50% interest in the joint venture using the equity method of accounting. Due to our continuing involvement in the properties through the joint venture, we recognized a partial gain on the sale of our interest of approximately \$18 million.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

During the six months ended June 30, 2016:

we finished the period with occupancy of our portfolio of operating office properties at 91.2%;  
we placed into service an aggregate of 353,000 square feet in newly constructed and redeveloped properties that were 85.6% leased as of June 30, 2016;  
we classified additional properties as held for sale with aggregate carrying amounts of \$211 million after related impairments. We continue to evaluate properties for sale, and decisions to sell certain additional properties could result in additional impairment losses;  
our Board of Trustees appointed Stephen E. Budorick, our Executive Vice President and Chief Operating Officer since September 2011, to become our President and Chief Executive Officer effective May 12, 2016, the date of the Company's 2016 Annual Meeting of Shareholders. On that date, Roger A. Waesche, Jr., our current President and Chief Executive Officer, departed the Company to pursue other interests, and he was not nominated for reelection as a Trustee. The Board appointed Mr. Budorick to our Board of Trustees after the 2016 Annual Meeting of Shareholders; and  
our Executive Vice President, Development & Construction Services, Wayne H. Lingafelter, departed the Company to pursue other interests effective March 31, 2016.

On July 21, 2016, we sold a 50% interest in six triple-net leased, single-tenant data center properties by contributing them into a newly-formed joint venture for a property value of \$147.6 million. We obtained \$60 million in non-recourse mortgage loans on the properties through the joint venture immediately prior to the sale of our interest and received the net proceeds. Our partner in the joint venture acquired the 50% interest in the joint venture from us for \$44 million. We will account for our 50% interest in the joint venture using the equity method of accounting. Due to our continuing involvement in the properties through the joint venture, we recognized a partial gain on the sale of our interest of approximately \$18 million.

We discuss significant factors contributing to changes in our net income in the section below entitled "Results of Operations." The results of operations discussion is combined for COPT and COPLP because there are no material differences in the results of operations between the two reporting entities.

In addition, the section below entitled "Liquidity and Capital Resources" includes discussions of, among other things:

how we expect to generate cash for short and long-term capital needs; and  
our commitments and contingencies.

You should refer to our consolidated financial statements and the notes thereto as you read this section.

This section contains "forward-looking" statements, as defined in the Private Securities Litigation Act of 1995, that are based on our current expectations, estimates and projections about future events and financial trends affecting the financial condition and operations of our business. Forward-looking statements can be identified by the use of words such as "may," "will," "should," "could," "believe," "anticipate," "expect," "estimate," "plan" or other comparable terminology. Forward-looking statements are inherently subject to risks and uncertainties, many of which we cannot predict with accuracy and some of which we might not even anticipate. Although we believe that the expectations, estimates and projections reflected in such forward-looking statements are based on reasonable assumptions at the time made, we can give no assurance that these expectations, estimates and projections will be achieved. Future events and actual results may differ materially from those discussed in the forward-looking statements. Important factors that may affect

these expectations, estimates and projections include, but are not limited to:

- general economic and business conditions, which will, among other things, affect office property and data center demand and rents, tenant creditworthiness, interest rates, financing availability and property values;
- adverse changes in the real estate markets, including, among other things, increased competition with other companies;
- governmental actions and initiatives, including risks associated with the impact of a prolonged government shutdown or budgetary reductions or impasses, such as a reduction in rental revenues, non-renewal of leases and/or a curtailment of demand for additional space by our strategic customers;
- our ability to borrow on favorable terms;

34

---

risks of real estate acquisition and development activities, including, among other things, risks that development projects may not be completed on schedule, that tenants may not take occupancy or pay rent or that development or operating costs may be greater than anticipated;

risks of investing through joint venture structures, including risks that our joint venture partners may not fulfill their financial obligations as investors or may take actions that are inconsistent with our objectives;

- changes in our plans for properties or views of market economic conditions or failure to obtain development rights, either of which could result in recognition of significant impairment losses;

our ability to satisfy and operate effectively under Federal income tax rules relating to real estate investment trusts and partnerships;

the dilutive effects of issuing additional common shares;

our ability to achieve projected results; and

environmental requirements.

We undertake no obligation to update or supplement forward-looking statements.

## Occupancy and Leasing

### Office Properties

The tables below set forth occupancy information pertaining to our portfolio of operating office properties:

	June 30, 2016		December 31, 2015

June 30, 2016	18,402	16,788

(1) Includes lease terminations and space reductions occurring in connection with lease renewals.

(2) Excludes occupancy of vacant square feet acquired or developed.

During the six months ended June 30, 2016, we completed 1.6 million square feet of leasing, including 546,000 of construction and redevelopment space, and renewed 75.3% of the square footage of our lease expirations (including the effect of early renewals).

Occupancy of our Same Office Properties decreased from 91.1% as of December 31, 2015 to 90.8% as of June 30, 2016.

### Wholesale Data Center Property

The leased portion of our 19.25 megawatt wholesale data center property decreased from 17.8 megawatts as of December 31, 2015 to 15.8 megawatts as of June 30, 2016 due to a tenant departure.

### Results of Operations

We evaluate the operating performance of our properties using NOI from real estate operations, our segment performance measure derived by subtracting property operating expenses from revenues from real estate operations. We view our NOI from real estate operations as comprising the following primary categories of operating properties:

- office properties owned and 100% operational throughout the current and prior year reporting periods, excluding properties held for future disposition. We define these as changes from “Same Office Properties”;
- office properties acquired during the current and prior year reporting periods;
- constructed or redeveloped office properties placed into service that were not 100% operational throughout the current and prior year reporting periods;
- our wholesale data center;
- properties held for sale as of June 30, 2016; and
- property dispositions.

In addition to owning properties, we provide construction management and other services. The primary manner in which we evaluate the operating performance of our construction management and other service activities is through a measure we define as NOI from service operations, which is based on the net of the revenues and expenses from these activities. The revenues and expenses from these activities consist primarily of subcontracted costs that are reimbursed to us by customers along with a management fee. The operating margins from these activities are small relative to the revenue. We believe NOI from service operations is a useful measure in assessing both our level of activity and our profitability in conducting such operations.

We believe that operating income, as reported on our consolidated statements of operations, is the most directly comparable generally accepted accounting principles (“GAAP”) measure for both NOI from real estate operations and NOI from service operations. Since both of these measures exclude certain items includable in operating income, reliance on these measures has limitations; management compensates for these limitations by using the measures simply as supplemental measures that are considered alongside other GAAP and non-GAAP measures.

The table below reconciles NOI from real estate operations and NOI from service operations to operating income reported on the consolidated statements of operations of COPT and subsidiaries:
