STYLE="margin-top:0px;margin-bottom:0px">The Plan has entered into several benefit-responsive investment contracts with various insurance companies and other financial institutions. The contract providers maintain the contributions in a general account. Some investment contracts are purchased in conjunction with the investment by the Plan in fixed-income securities. Investment contracts provide for the payment of a specified rate of interest. The account is credited with earnings at the specified rate and charged for participant withdrawals and administrative expenses. The contracts are included in the financial statements at contract value, as reported to the Plan by the contract providers. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The weighted average yield and crediting interest rates for all such contracts were approximately 4.14% and 4.87% for 2004 and 2003, respectively. The crediting interest rate generally cannot be less than the contract rate.

#### NOTES TO FINANCIAL STATEMENTS

#### **DECEMBER 31, 2004 and 2003**

#### NOTE 5 TAX STATUS OF THE PLAN

The Plan obtained its latest determination letter on November 22, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan is qualified under Section 401(a) and 401(k) of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan s tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

#### NOTE 6 DERIVATIVE FINANCIAL INSTRUMENTS

The Plan has limited transactions that fall under the accounting rules of SFAS No. 133, as amended. The Plan does not use derivatives for trading purposes. The Plan owns shares in a commingled international equity fund, and the mangers of this fund may, from time to time, use currency futures and forward contracts to manage the fund s currency position. The Plan also invests in commingled domestic equity funds. The managers of these funds have the authority to invest in futures contracts in the Standards & Poor s 500 stock index to create exposure to equity securities as part of the funds cash management strategy. Daily margin settlement for future contracts results in maintaining a zero market value for the contracts. The plan also invests in a co-mingled bond fund, and the manager of the fund may, from time to time, use derivatives for asset allocation and hedging purposes.

#### NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the rights of the participants in their account balances will become non-forfeitable.

#### NOTE 8 RELATED PARTY TRANSACTIONS

Certain Plan investments are in units in a collective trust fund managed by AMVESCAP National Trust Company. The Plan also invests in guaranteed investment contracts managed by State Street. Additionally, the Plan invests in the Company s common stock.

AMVESCAP National Trust Company administers the Plan, State Street is the custodian, and the Company is the sponsor. Therefore, these transactions qualify as party-in-interest transactions. However, they are exempt from the prohibited transactions rules of ERISA.
