Item 2.01. Completion of Acquisition or Disposition of Assets.

On December 19, 2007, we transferred 29 of our office properties to a new joint venture (the *Venture*) that we formed with G&I VI Investment Interchange Office LLC (*G&I VI*), an investment vehicle advised by DRA Advisors LLC. We received net cash proceeds from this transaction, net of transaction expenses, of approximately \$230.9 million and a 20% ownership interest in the *Venture*. We used net proceeds that we received in this transaction to reduce outstanding indebtedness under our unsecured revolving credit facility. At the closing, the *Venture* obtained third party non-recourse debt financing of approximately \$184 million, secured by mortgages on the office properties, and used proceeds of this financing, together with cash equity contributed to the *Venture* by *G&I VI*, to fund the cash paid to us. We have provided information on the location, square footage and occupancy of the 29 properties, and additional information regarding the *Venture*, in our Current Report on Form 8-K that we filed with the SEC on November 9, 2007.

As part of the transaction, our subsidiary management company executed an agreement with the *Venture* to provide property management and leasing services to the *Venture* in exchange for a market-based fee. The *Venture* also issued to the management company a *promoted interest* that will entitle the management company to receive a portion of the net proceeds distributed by the *Venture* from capital events (such as property sales) if, and after, each of *G&I VI* and we have received an agreed upon internal rate of return on our respective capital contributions to the *Venture*.

The *Venture* acquired the properties based on an aggregate valuation of the properties, determined through *arm's-length* negotiation, of approximately \$245.4 million. Our receipt of approximately \$230.9 million of net cash at closing includes: (1) an advance from the *Venture* to us of approximately \$3.2 million that we expect to repay, together with interest at 8.5% per annum, in approximately three years and (2) an interest-free advance from the *Venture* to us of \$3.2 million on account of our agreement to fund an equal amount of capital expenditures on behalf of the *Venture* following the closing. We will not receive contingent consideration for the transfers. As part of the transaction, we retained an 11% equity interest in several of the properties transferred to the *Venture*.

We transferred the properties to the *Venture* pursuant to contribution and sale agreements. In these agreements we made customary representations, warranties and indemnities with respect to the properties for the benefit of the *Venture*.
