THE STANDARD REGISTER COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

NOTE 1 BASIS OF PRESENTATION

The accompanying consolidated financial statements include the accounts of The Standard Register Company and its wholly-owned subsidiaries (collectively, the Company) after elimination of intercompany transactions, profits, and balances. The consolidated financial statements are unaudited and have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required for complete annual financial statements and should be read in conjunction with the Company s audited consolidated financial statements and notes included in the Company s Annual Report on Form 10-K for the year ended December 30, 2007 (Annual Report).

In our opinion, all adjustments (consisting only of normal recurring accruals) necessary for a fair presentation have been included. The results for interim periods are not necessarily indicative of trends or of results to be expected for a full year.

Certain prior-year amounts have been reclassified to conform to the current-year presentation.

NOTE 2 RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS

Effective December 31, 2007, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements, which provides a common definition of fair value as the price that would be received to sell an asset or paid to transfer a liability in a transaction between market participants. SFAS 157 does not require any new fair value measurements, but is applicable under most current accounting pronouncements that require or permit fair value measurements.

The new standard provides guidance on the methods used to measure fair value, including the market, income, and cost approach. These approaches require us to use certain assumptions in our models that market participants would use in pricing assets and liabilities. The models may use readily observable, market corroborated, or generally unobservable inputs.

The new standard also requires expanded disclosures related to fair value measurements. Assets and liabilities that are measured at fair value on a recurring basis (at least annually) subsequent to initial recognition will be classified and disclosed in one of the following three categories:

- Level 1 Quoted market prices in active markets for identical assets or liabilities

- Level 2 Observable market based inputs or unobservable inputs that are corroborated by market data

- Level 3 Unobservable inputs that are not corroborated by market data.

We do not have any financial instruments carried at fair value that required a cumulative effect adjustment to beginning retained earnings, and there was no material effect on our consolidated results of operations, financial position, or cash flows as a result of the adoption of SFAS 157. We currently do not have any financial assets or liabilities measured at fair value that would require the expanded disclosures under SFAS 157.

We are not required to apply the new standard to nonfinancial assets and liabilities not currently recognized or disclosed at fair value on a recurring basis until 2009. The major categories of nonfinancial assets and liabilities that apply to us include goodwill, trademark intangible asset, and property and equipment reported at fair value as a result of impairment testing.

Effective December 31, 2007, the Company adopted SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, which permits us to voluntarily choose, at specified election dates, to measure specified financial assets and liabilities and other items at fair value that are not currently required to be measured at fair value. Subsequent changes in fair value would then be required to be reported in earnings each reporting period. At the date of adoption, we did not elect the fair value option for eligible items that existed at December 31, 2007; therefore, the adoption of this standard did not have any effect on our consolidated results of operations, financial position, or cash flows. Any future effect will be dependent upon the nature and amount of eligible items that the Company elects to account for using the fair value option.

Effective December 31, 2007, the Company adopted EITF No. 06-11, Accounting for Income Tax Benefits of Dividends on Share-Based Payment Awards. EITF 06-11 requires companies to recognize the income tax benefit realized from dividends or dividend equivalents that are charged to retained earnings and paid to employees for nonvested equity-classified employee share-based awards as an increase to additional paid-in capital instead of a credit to income tax expense. The amount recognized in additional paid-in capital is available to absorb potential future tax deficiencies on share-based payment awards. The adoption of this standard did not have a material effect on the Company s consolidated results of operations, financial position, or cash flows.

NOTE 3 RESTRUCTURING AND OTHER EXIT COSTS

The Company has undertaken restructuring actions as part of an ongoing effort to improve efficiencies and reduce cost. The 2007 restructuring plan and costs are more fully described in Note 3 to the Consolidated Financial Statements included in our Annual Report. All costs related to restructuring actions are included in restructuring charges in the accompanying Consolidated Statements of Income.

Pre-tax components of restructuring and other exit costs are as follows:

	13 Weeks Ended		***39 Weeks Ended***	
	September 28, 2008	***September 30, 2007***	***September 28, 2008***	***September 30, 2007***
2008 Restructuring Actions				
Involuntary termination costs	**$ 1,911**	$ -	**$ 1,911**	$ -
Contract termination costs	**698**	-	**698**	-
Associated costs	**103**	-	**103**	-
Total 2008	**2,712**	-	**2,712**	-
2007 Restructuring Actions				
Involuntary termination costs	**4**	2,820	**9**	4,606
Associated costs	**22**	742	**22**	3,114
Total 2007	**26**	3,562	**31**	7,720
Total restructuring expense	**$ 2,738**	**$ 3,562**	**$ 2,743**	**$ 7,720**

2008

During the quarter, we initiated plans to integrate several of our POD Services print centers and Document Management distribution warehouses in order to improve efficiency and reduce cost. This move was in response to a changing product mix in POD Services away from traditional short-run offset to increased print-on-demand and allows us to reduce operating expenses by leveraging more cross-functional roles in production and distribution. We

closed two print centers and plan to integrate three other print centers with warehouses in the fourth quarter. We expect to have involuntary termination costs of approximately $600; contract termination costs of $2,000; and other associated exit costs of $400. This will result in annualized cost savings of approximately $3,000 in compensation and facility rent. These actions are expected to be completed by the end of 2008.

We also began implementing a twelve-month plan to redesign our sales support infrastructure to more of a centralized model. We will transition customer transactional and administrative functions from our field sales offices to one of three client support centers, one of which is new. This action will generate approximately $5,600 annually in compensation and related cost savings. We expect to have involuntary termination costs of $1,500 and contract termination costs of $200.

	Total Costs Expected to be Incurred	Total Q3 2008 Restructuring Expense
Involuntary termination costs	$ 2,100	$ 1,911
Contract termination costs	2,200	698
Other associated exit costs	400	103
Total	$ 4,700	$ 2,712
BY SEGMENT:		
Document Management	$ 700	$ 375
POD Services	2,300	947
Other	1,700	1,390
Total	$ 4,700	$ 2,712

A summary of the 2008 restructuring accrual activity is as follows:

	Charged to Accrual	Incurred in 2008	Balance 2008
Involuntary termination costs	$ 1,911	$ (136)	$ 1,775
Contract termination costs	489	(30)	459
Total	$ 2,400	$ (166)	$ 2,234

2007

Within the Document Management segment, we closed our Middlebury, Vermont production plant as part of a plan to consolidate our manufacturing and distribution capabilities. The plant s productive capacity was transferred to three other existing plants. In addition, we eliminated approximately 250 positions, primarily in management and overhead. Costs incurred for these actions included involuntary termination costs and other associated exit costs, primarily equipment removal and relocation. All actions were completed at the end of 2007.

A summary of the 2007 restructuring accrual activity is as follows:

	Balance 2007	Incurred in 2008	Balance 2008

Involuntary termination costs	$	404	$	(404)	$	-
Total	$	404	$	(404)	$	-

Subsequent Event

On October 27, 2008, we committed to a restructuring plan to lower costs in response to recent revenue decreases and management s expectation that soft industry demand for some traditional printed products will continue and that the overall economy will remain weak during 2009.

Substantially all of the actions will take place in the fourth quarter of 2008. Annualized savings are expected to total approximately $11,000; total restructuring costs are estimated at $2,200 for involuntary termination costs.

NOTE 4 INVENTORIES

Inventories consist of the following:

	September 28, 2008		***December 30, 2007***	
Finished Products	**$**	**31,804**	$	38,197
Jobs In Process		**2,950**		3,181
Materials and Supplies		**3,322**		3,973
Total	**$**	**38,076**	$	45,351

9

NOTE 5 OTHER CURRENT LIABILITIES

Other current liabilities consist of the following:

	September 28, 2008	*December 30, 2007*
Non-income taxes	**$ 5,296**	$ 5,158
Customer deposits and rebates	**5,114**	2,969
Dividends payable	**-**	6,714
Accrued restructuring	**2,234**	404
Current portion of pension and postretirement obligations	**3,636**	3,636
Other current liabilities	**10,474**	10,598
Total	**$ 26,754**	$ 29,479

NOTE 6 EARNINGS PER SHARE

The number of shares outstanding for calculation of earnings per share (EPS) is as follows:

	13 Weeks Ended		*39 Weeks Ended*	
(Shares in thousands)	*September 28, 2008*	*September 30, 2007*	*September 28, 2008*	*September 30, 2007*
Weighted average shares outstanding - basic	**28,766**	28,705	**28,752**	28,672
Effect of potentially dilutive securities	**27**	69	**18**	-
Weighted average shares outstanding - diluted	**28,793**	28,774	**28,770**	28,672

The effects of stock options and nonvested shares on diluted EPS are reflected through the application of the treasury stock method. Outstanding options to purchase approximately 2,094,700 and 2,136,000 shares for the 13-week and 39-week periods ending September 28, 2008 and 2,271,000 shares for the 13-week period ended September 30, 2007 were not included in the computation of diluted EPS because the exercise price of the options were greater than the average market price at the end of the period; therefore, the effect would be anti-dilutive. Due to the loss from continuing operations for the 39-week period ending September 30, 2007, no outstanding options or nonvested shares were included in the diluted EPS computation because they would automatically result in anti-dilution.

NOTE 7 SHARE BASED COMPENSATION

Total share-based compensation expense by type of award is as follows:

	13 Weeks Ended		*39 Weeks Ended*	
	September 28, 2008	*September 30, 2007*	*September 28, 2008*	*September 30, 2007*
Nonvested stock awards, service based	**$ 99**	$ 64	**$ 245**	$ 756
Nonvested stock awards, performance based	**149**	155	**422**	814
Stock options	**81**	147	**395**	386
Total share-based compensation expense	**329**	366	**1,062**	1,956
Tax effect on share-based compensation expense	**131**	146	**422**	777
Net effect included in continuing operations	**$ 198**	$ 220	**$ 640**	$ 968
Net effect included in discontinued operations	**$ -**	$ -	**$ -**	$ 211

Stock Options

During 2008, we granted 195,700 stock option awards. The fair value of stock options granted was estimated at $1.57 per share, using the Black-Scholes option-pricing model, and is being amortized to expense on a straight-line basis over a vesting period of 4 years. The assumptions used to calculate fair value include a weighted-average risk-free interest rate of 2.8%; dividend yield of 9.67%; expected life of 4 years; and expected volatility of 42%.

Stock Awards

During 2008, we awarded 36,650 shares of nonvested stock with a fair value of $9.48 per share and 35,210 shares of nonvested stock with a fair value of $9.51 per share that vest based on service requirements. The fair value of the service-based stock awards granted was based on the closing market price of our common stock on the date of award and is being amortized to expense on a straight-line basis over a vesting period of 4 years.

During 2008, the Company awarded 312,600 shares of nonvested performance-based stock with a fair value of $9.48 per share which vest subject to attainment of a pre-determined Company performance goal by fiscal year-end 2009. These shares are entitled to receive dividends during the performance period and have voting rights. During the third quarter of 2008, we canceled 100,000 shares and reversed the expense recognized to date.

The performance goal is a cumulative goal which allows partial vesting if a minimum level of performance is attained over the two-year period. If the minimum level of performance is not attained by the end of 2009, these stock awards will be forfeited and canceled, and all expense recognized to that date will be reversed. The amount of shares that ultimately vest could range from 50% to 150% of the initial shares granted. Additional shares will be granted and automatically vested upon performance above the target level.

The fair value of the performance-based stock awards is being amortized to expense on a straight line basis over the anticipated vesting period. Compensation expense is being recognized for the total amount of performance-based shares expected to vest and is subject to adjustment based on changes in our expectations and on the actual level of achievement of the performance goal.

NOTE 8 PENSION PLANS

Net periodic benefit cost includes the following components:

	13 Weeks Ended		***39 Weeks Ended***	
	September 28, 2008	***September 30, 2007***	***September 28, 2008***	***September 30, 2007***
Service cost of benefits earned	**$ 27**	$ 1,682	**$ 3,361**	$ 5,772
Interest cost on projected benefit obligation	**7,036**	6,834	**21,048**	21,132
Expected return on plan assets	**(7,385)**	(7,538)	**(22,027)**	(21,771)
Amortization of prior service costs	**148**	97	**338**	277
Amortization of net actuarial loss from prior periods	**4,798**	5,526	**15,217**	19,665
Curtailment gain	**-**	(137)	**(746)**	(137)
Settlement loss	**-**	-	**-**	3,222
Total	**$ 4,624**	$ 6,464	**$ 17,191**	$ 28,160

Effective June 30, 2008, the Company modified its qualified and nonqualified defined benefit pension plans for participants still accruing benefits under the plans. As a result, these participants ceased accruing pension benefits and final pension benefit amounts will be based on pay and service through June 29, 2008. Additionally, Company match in the 401(k) savings plan was increased for the affected employees from 10% to 75% on the first six percent of eligible compensation deferred.

As a result, we remeasured our pension obligations under these plans as of June 29, 2008. The plan modification resulted in a reduction of our pension obligations of $23,213 which was recorded as a reduction in the pension liability, a $9,218 reduction in noncurrent deferred tax assets, and a net increase to other comprehensive income of $13,995. This action also resulted in a one-time curtailment gain of $746 recorded in the second quarter of 2008.

Additionally, as part of the remeasurement, plan asset valuations and actuarial assumptions were also updated, and we recognized a net actuarial loss of $27,189 primarily due to the actual rate of investment return on the qualified plan being less than the expected rate of return. The actuarial loss increased our pension liability by $27,189, increased noncurrent deferred taxes by $10,797, with a net decrease in other accumulated comprehensive income of $16,392.

As a result of associates retiring in 2007 and electing a lump-sum payment of their pension benefit from the nonqualified defined benefit pension plan, we recognized a settlement of $3,222 in the second quarter of 2007. A pension settlement is recorded when the total lump sum payments exceed total service and interest costs recognized for that year. As part of the settlement, we recognized a pro-rata portion of the unrecognized actuarial net losses equal to the percentage reduction in the pension benefit obligation.

Restructuring actions undertaken in 2007 resulted in a reduction of associates that participated in our qualified defined benefit pension plan. The remeasurement of our pension obligation resulted in a curtailment gain of $137.

NOTE 9 POSTRETIREMENT BENEFIT PLANS

Net postretirement benefit cost includes the following components:

	13 Weeks Ended		***39 Weeks Ended***	
	September 28, 2008	***September 30, 2007***	***September 28, 2008***	***September 30, 2007***
Interest cost	**295**	308	**885**	922
Amortization of prior service cost	**(884)**	(884)	**(2,652)**	(2,652)
Amortization of net actuarial loss from prior periods	**162**	183	**486**	551
Total	**$ (427)**	$ (393)	**$ (1,281)**	$ (1,179)

The funding policy is to pay claims as they occur. As of September 28, 2008, we paid $1,186 to cover claims under our postretirement medical plan and currently expect to pay an additional $400 to cover benefit claims during the remainder of 2008.

NOTE 10 SEGMENT REPORTING

Information about the Company s operations by segment for the 13-week periods ended September 28, 2008 and September 30, 2007 is as follows:

		Document Management	***Label Solutions***	***POD Services***	***Document Systems***	***PathForward***	***Total***
Revenue from external customers	**2008**	**$ 101,756**	**$ 25,462**	**$ 55,783**	**$ 4,964**	**$ 1,043**	**$ 189,008**
	2007	116,662	25,660	59,732	4,788	1,443	208,285

Operating income (loss)	**2008**	**$ 5,294**	**$ 771**	**$ 5,910**	**$ 450**	**$ (739)**	**$ 11,686**

Income (loss) from continuing operations before income taxes	**$ 4,176**	$ 3,431	**$ 10,979**	$ (6,116)

NOTE 11 COMMITMENTS AND CONTINGENCIES

The Company has participated with other Potentially Responsible Parties (PRPs) in the investigation, study, and remediation of the Pasco Sanitary Landfill Superfund Site (the Pasco Site) in eastern Washington State since 1998. The Company is a member of a PRP Group known as the Industrial Waste Area Generators Group II (the IWAG Group). In 2000, the IWAG Group and several other PRP groups entered into agreed orders with the Department of Ecology for implementation of interim remedial actions and expansion of groundwater monitoring. The Department has recently required the PRP groups to implement additional interim actions and delay implementation of a final remedy. This regulatory development has caused an increase in the projected expenses associated with the Pasco Site through the interim and final remedy stages. We have a discounted reserve of $1,055 that we currently believe is adequate to cover the Company s portion of the total future potential costs of remediation. In addition, we have undiscounted reserves totaling $611 for environmental remediation at one previously owned facility and one currently owned facility.

NOTE 12 PRIOR PERIOD ADJUSTMENT

During the third quarter of 2008, we discovered that we had made an error on our 2004 income tax return related to the classification of gains reported on the sale of a business unit. The error in gain classification caused us not to utilize capital loss carryforwards available on our 2004 tax return. The capital loss carryforward available to the Company was included in our deferred tax assets with a full valuation allowance in 2004. As a result of this error, we understated our deferred tax assets and income tax benefit by $1,420 in 2004. An amended return to correct the gain classification was filed during the third quarter 2008.

For financial reporting purposes, this error has been accounted for as a prior period adjustment in accordance with SFAS No. 154, Accounting Changes and Error Corrections . We do not believe that any of our prior period financial statements were materially misstated as a result of not adjusting our deferred tax assets as described above. We have restated the December 30, 2007 balance sheet to appropriately reflect the deferred tax asset. As a result, retained earnings and deferred tax assets reported on the balance sheet for 2007 were increased by $1,420.

Item 2 -

MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (*Dollars in Millions, Except Per Share Amounts)*

FORWARD-LOOKING INFORMATION

This report includes forward-looking statements covered by the Private Securities Litigation Reform Act of 1995. A forward-looking statement is neither a prediction nor a guarantee of future events or circumstances, and those future events or circumstances may not occur. All statements regarding our expected future financial condition, revenues or revenue growth, Adjusted Operating Income improvement, projected costs or cost savings, cash flows and future cash obligations, dividends, capital expenditures, business strategy, competitive positions, growth opportunities for existing products or products under development, and objectives of management are forward-looking statements that involve certain risks and uncertainties. In addition, forward-looking statements include statements in which we use words such as anticipates, projects, expects, plans, intends, believes, estimates, targets, and other simila that indicate trends and future events. These forward-looking statements are based on current expectations and estimates; we cannot assure you that such expectations will prove to be correct. The Company undertakes no obligation to update forward-looking statements as a result of new information, since these statements may no longer be accurate or timely.

Because such statements deal with future events, actual results for fiscal year 2008 and beyond could differ materially from our current expectations depending on a variety of factors including, but not limited to, the risk factors discussed in Item 1A to Part I of the Company s Annual Report on Form 10-K for the year ended December 30, 2007 (Annual Report). You should read this Management Discussion and Analysis in conjunction with those risk factors and the financial statements and related notes included in this Quarterly Report on Form 10-Q (Quarterly Report) and included in our Annual Report.

CRITICAL ACCOUNTING POLICIES

In preparing the accompanying unaudited financial statements and accounting for the underlying transactions and balances, we applied the accounting policies disclosed in the Notes to the Consolidated Financial Statements contained in our Annual Report. Preparation of these unaudited financial statements requires us to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Although we believe our estimates and assumptions are reasonable, they are based on information presently available and actual results may differ significantly from those estimates.

We believe that some of the more critical estimates and related assumptions are in the areas of pension and postretirement healthcare benefits, fair value measurements, deferred taxes, inventories, contingent liabilities, and share-based compensation. For a detailed discussion of these critical accounting estimates, see the Management Discussion and Analysis included in our Annual Report. Management believes there were no significant changes in these critical accounting policies and estimates in the first nine months of 2008, except as discussed below.

We have discussed the development and selection of the critical accounting policies and the related disclosures included in this Quarterly Report with the Audit Committee of our Board of Directors.

Fair Value Measurements

Effective December 31, 2007, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements, which provides a common definition of fair value as the price that would be received to sell an asset or paid to transfer a liability in a transaction between market participants. SFAS 157 does not require any new fair value measurements, but is applicable under most current accounting pronouncements that require or permit fair value measurements.

The new standard provides guidance on the methods used to measure fair value, including the market, income, and cost approach. These approaches require us to use certain assumptions in our models that market participants would use in pricing assets and liabilities. The models may use readily observable, market corroborated, or generally unobservable inputs.

The new standard also requires expanded disclosures related to fair value measurements. Assets and liabilities that are measured at fair value on a recurring basis (at least annually) subsequent to initial recognition will be classified and disclosed in one of the following three categories:

- Level 1 Quoted market prices in active markets for identical assets or liabilities

- Level 2 Observable market based inputs or unobservable inputs that are corroborated by market data

- Level 3 Unobservable inputs that are not corroborated by market data.

We do not have any financial instruments carried at fair value that required a cumulative effect adjustment to beginning retained earnings and there was no material effect on our consolidated results of operations, financial position, or cash flows as a result of the adoption of SFAS 157. We currently do not have any financial assets or liabilities measured at fair value that would require the expanded disclosures under SFAS 157.

We are not required to apply the new standard to nonfinancial assets and liabilities not currently recognized or disclosed at fair value on a recurring basis until 2009. The major categories of nonfinancial assets and liabilities that apply to us include goodwill, trademark intangible asset, and property and equipment reported at fair value as a result of impairment testing.

Share-Based Compensation

During the first quarter of 2008, the Company awarded 312,600 shares of nonvested performance-based stock which vest subject to attainment of a pre-determined performance goal by the Company by fiscal year-end 2009. The performance goal is a cumulative goal which allows partial vesting if a minimum level of performance is attained over the two-year period. If the minimum level of performance is not attained by the end of 2009, these stock awards will be forfeited and canceled, and all expense recognized to that date will be reversed. The amount of shares that ultimately vest could range from 50% to 150% of the initial shares granted. Additional shares would be granted and automatically vested upon performance above the target level.

The amount of compensation expense recognized is dependent on the total amount of performance-based shares we expect to vest. This requires us to evaluate the probability of achieving the performance goal and assess the level of goal achievement each quarter. The amount of compensation expense recorded is subject to adjustment based on changes in our expectations and the actual level of achievement of the performance goal.

2008 HIGHLIGHTS

-

On a year-to-date basis, net income from continuing operations was $6.0 million or $.21 per share in 2008, up substantially from a loss of $3.6 million, or $.12 per share in 2007.

•

Year-to-date cash flow from operating activities increased by $32 million in 2008 compared with 2007.

•

Net debt as of September 2008 declined by $10.8 million from year-end 2007.

•

Paper prices have continued to increase during 2008. We have increased our selling prices and are currently negotiating with customers to recover these paper cost increases. Despite a competitive marketplace, we have generally been able to pass through these paper cost increases, although it often takes several quarters due to the custom nature of our products and our contractual relationships with many of our customers. We expect this trend to continue.

•

Effective June 30, 2008, the Company modified its qualified and nonqualified defined benefit pension plans for employees still accruing benefits under the plans. Accordingly, these participants ceased accruing pension benefits and their final pension benefit amount will be based on pay and service through June 29, 2008. As a result, we recorded a curtailment gain of $0.7 million in the second quarter of 2008. Additionally, we reduced our pension liabilities by $23.2 million to reflect the reduction in plan obligations as a result of the plan modification. However, as part of the remeasurement, asset valuations and actuarial assumptions were also updated which resulted in an increase in our pension liabilities of $27.2 million, primarily reflecting the decline in the fair value of assets in the first half of 2008.

The company match in the 401(k) saving plan was increased for the affected employees from 10% to 75% on the first six percent of eligible compensation deferred, effective June 30, 2008.

Excluding pension loss amortization, we expect to realize annualized savings of approximately $4.4 million as a result of these changes.

•

During the third quarter, we initiated the following restructuring actions:

○

We implemented plans to integrate several of our POD Services print centers and Document Management distribution warehouses in order to improve efficiency and reduce cost. This move will allow us to reduce operating expenses by leveraging more cross-functional roles in production and distribution. We expect these changes to result in annualized cost savings of approximately $3.0 million.

○

We began implementing a plan to redesign our sales support infrastructure to more of a centralized model. Over the next twelve months, we will transition customer transactional and administrative functions from our field sales offices to one of three client support centers, one of which is new. We expect this action to generate approximately $5.6 million annually in compensation and related cost savings.

•

In the fourth quarter, we announced a 5 percent reduction in force to be completed before the end of the year that will result in an additional $11.0 million in annualized savings. We also announced policy changes and the elimination of some programs resulting in additional annualized savings of $9.0 million.

RESULTS OF OPERATIONS

The discussion that follows provides information which we believe is relevant to an understanding of our consolidated results of operations and financial condition, supplemented by a discussion of segment results where appropriate. The discussion is focused on continuing operations.

We evaluate the Company s financial results and those of our segments on the basis of income from continuing operations excluding restructuring charges, asset impairments, pension loss amortization, and pension settlements, referred to as Adjusted Operating Income. We believe that this non-GAAP financial measure enhances the understanding of our results of operations due to the non-operational nature of the excluded items and the significant and varying effect they have on our reported results from period to period. This presentation is consistent with the manner in which our Board of Directors establishes incentives and internally evaluates financial performance. This non-GAAP information is not meant to be considered in isolation or as a substitute for results prepared in accordance with accounting principles generally accepted in the United States.

Consolidated Summary

•

Year-to-date revenue was $595 million, down 8% from the prior year. Software and other digital technologies have continued to erode the demand for certain traditional business documents, which in turn has put pressure on pricing in

an already over supplied marketplace. Aside from these factors, which will continue to impact certain traditional segments of our business, the weak economy has had an adverse effect on our revenue. Our analysis indicates that the majority of our year-to-date decline is attributed to the recent downturn in the economy.

- Year-to-date gross margin as a percentage of revenue improved to 34.1% compared to 33.0% in 2007, despite the decline in revenue. This result reflects continued cost savings from our restructuring and cost reduction activities undertaken in 2007 and 2008. In addition, during the quarter, we concluded that it was not probable that we would meet our 2008 performance goal for annual cash incentives. As a result, we reversed approximately $2.0 million in compensation expense recorded in the first half of the year; $1.2 million in cost of sales and $0.8 million in selling, general and administrative expenses.

- Year-to-date Adjusted Operating Income for 2008 was $30.7 million, up 16% from the prior year, despite the decrease in consolidated revenues of $51.9 million. A significant reduction in costs from the restructuring actions and other cost reduction plans implemented in mid 2007 was largely responsible for the earnings growth.

The following table presents Revenue, Gross Margin, and Operating Income for each of our reportable segments. The table also reconciles our presentation of Adjusted Operating Income to Income (Loss) from Continuing Operations on a GAAP basis.

	13 Weeks Ended				*39 Weeks Ended*

(1) SG&A expense above excludes pension loss amortization and pension settlements.

Document Management

Document Management year-to-date revenue was $324.2 million, down $31.8 million or 8.9% compared with the same period of 2007. Unit sales were down approximately 14.2% while overall pricing was about 5.3% higher, the latter primarily reflecting the recovery of higher paper costs. The rate of decline in unit sales was higher than expected and partially reflects increased pressure on customers to cut costs in response to the continued overall downturn in the economy during this period. Customer cost-cutting initiatives have led to decreased demand as well as significant price competition within the market in this segment.

As a percentage of revenue, gross margin improved to 31.4% compared with 29.6%. This improvement reflects the prior year cost reduction carried forward to this year, plus ongoing cost reduction efforts.

Label Solutions

Label Solutions year-to-date revenue decreased $8.2 million or 9.5% in 2008 compared with the same period in 2007. The decrease primarily reflects the impact of the loss of a single account. Excluding this account, revenue was down $0.8 million.

Gross margin decreased $2.2 million in 2008 compared with the same period in 2007. As a percentage of revenue, gross margin improved to 33.2% compared with 32.7%, primarily reflecting an improved mix of business.

POD Services

POD Services year-to-date revenue was down $10.6 million, or 5.7% compared with the same period of 2007, primarily the result of a decline in traditional short-run offset printed products. The decrease was greater than in previous periods as a result of the weak economy, which has reduced units and prices.

The gross margin decreased by $5.3 million in 2008 compared to the same period in 2007. As a percentage of revenue, the gross margin was 38.8% versus 39.5% in 2007. These declines were primarily a result of the decreased unit sales.

Document Systems

Document Systems reported year-to-date revenue of $16.0 million, down $0.5 million compared with 2007. Lower software sales and the accompanying professional services contributed to the slight decrease in revenue and gross margin.

PathForward

The 2008 year-to-date revenue and gross margin for our PathForward segment were down compared with the same period in 2007. The revenue decline was primarily the result of decreased unit sales. Lower revenue combined with increased fixed costs associated with the development and purchase of newer software products resulted in the decline in gross margin.

Current economic conditions in the financial services industry

One of the primary industries we serve is the financial services industry. At this time, we do not expect the recent acquisitions and disruptions that occurred to date in the financials services market to have a material adverse effect on our business. During the third quarter, we reserved $0.5 million for a potential bad debt from a single financial services customer.

Selling, General, and Administrative (SG&A) Expenses

	13 Weeks Ended		*39 Weeks Ended*	
	September 28, 2008	*September 30, 2007*	*September 28, 2008*	*September 30, 2007*
Total selling, general and administrative expense	**$ 52.3**	**$ 55.9**	**$ 167.5**	**$ 190.3**
Amortization of pension net acturial losses	**(4.8)**	**(5.5)**	**(15.2)**	**(19.6)**
Pension settlement	**-**	**-**	**-**	**(3.2)**
Selling, general and administrative expense, excluding the above	**$ 47.5**	**$ 50.4**	**$ 152.3**	**$ 167.5**

As shown in the table above, excluding pension amortization and settlements, year-to-date SG&A expense decreased by $15.2 million in 2008 as compared with 2007. The decrease is primarily a result of the restructuring actions completed in 2007, decreased pension expense as a result of the recent plan modifications, and lower incentive compensation and travel-related expenses.

In the third quarter, we incurred higher than usual bad debt expense and additional severance costs related to the departure of our Chief Executive Officer.

Restructuring and Other Exit Costs

The Company has undertaken restructuring actions in 2007 and 2008 as part of ongoing efforts to improve efficiencies and reduce cost. Total expense for these actions was $2.7 million and $3.6 million for the third quarter of 2008 and 2007. On a year-to-date basis, total expense was $2.7 million and $7.7 million. All costs related to these actions are included in restructuring charges in the accompanying Consolidated Statements of Income.

2008

During the third quarter, we closed two print centers and plan to integrate three other print centers into our distribution warehouses in the fourth quarter. We expect to have involuntary termination costs of approximately $0.6 million; contract termination costs of $2.0 million; and other associated exit costs of $0.4 million. This should result in annualized cost savings of approximately $3.0 million in compensation and facility rent that will be reflected in cost of sales.

We also began implementing a twelve-month plan to redesign our sales support infrastructure to more of a centralized model. We will transition customer transactional and administrative functions from our field sales offices to one of three client support centers, one of which is new. This action should generate approximately $5.6 million annually in compensation and related cost savings that will be reflected in selling, general, and administrative expenses. We expect to have involuntary termination costs of $1.5 million and contract termination costs of $0.2 million.

	Total Costs Expected to be Incurred	*Total Q3 2008 Restructuring Expense*
Involuntary termination costs	$ 2.1	$ 1.9
Contract termination costs	2.2	0.7
Other associated exit costs	0.4	0.1
Total	$ 4.7	$ 2.7
BY SEGMENT:		
Document Management	$ 0.7	$ 0.4
POD Services	2.3	0.9
Other	1.7	1.4
Total	$ 4.7	$ 2.7

2007

In 2007, we implemented plans to reduce our annual operating costs by $40 million in order to improve profitability, maintain competitiveness, and fund future initiatives essential to the Company s strategy. These restructuring plans are more fully described in Note 3 to the Consolidated Financial Statements included in the Company s Annual Report on Form 10-K for the year ended December 30, 2007. Restructuring expense during 2007 for these actions totaled $8.0 million for severance and employer related costs and other associated costs directly related to the restructuring, primarily equipment removal and relocation. All actions were completed at the end of 2007.

Second half 2007 costs and expenses were $17.5 million lower than the first half 2007. The restructuring actions have continued to produce benefits in 2008, contributing to the significant reduction in SG&A expense and increasing gross margin percentages despite declining revenue.

Subsequent Event

On October 27, 2008, we committed to a restructuring plan to lower costs in response to recent revenue decreases and management s expectation that soft industry demand for some traditional printed products will continue and that the overall economy will remain weak during 2009.

Substantially all of the actions will take place in the fourth quarter of 2008. Annualized savings are expected to total approximately $11.0 million; total restructuring costs are estimated at $2.2 million for involuntary termination costs.

Taxes

The effective tax rate increased 7.1% for the quarter and 3.3% on a year-to-date basis compared to 2007. This increase was primarily due to a significant increase in permanent tax differences related to the cash surrender value of life insurance policies.

FOURTH QUARTER OUTLOOK

Our past guidance called for second half revenue to slightly exceed that for the first half of the year. In light of the third quarter results and our expectation that there will be no significant change in economic or market conditions during the fourth quarter, we now expect the second half revenue to trail that for the first half.

Past earnings guidance was for the total year Adjusted Operating Income to come in above the prior year. Notwithstanding on-going expense reduction initiatives, lowered second half revenue outlook increases the likelihood that the Adjusted Operating Income will come in below that for 2007.

LIQUIDITY AND CAPITAL RESOURCES

Our discussion will provide information on cash flow, capital structure, and our significant contractual obligations.

This discussion also presents financial measures that are considered non-GAAP. Generally, a non-GAAP financial measure is a numerical measure of a company s performance, financial position, or cash flows where amounts are either excluded or included not in accordance with generally accepted accounting principles. The presentation of non-GAAP information is not meant to be considered in isolation or as a substitute for results prepared in accordance with accounting principles generally accepted in the United States. In particular, we will segregate and highlight cash flows related to restructuring and contributions to our qualified pension plan, both of which are carefully monitored by management and have a significant and variable impact on cash flow. In addition, because our outstanding debt is borrowed under a revolving credit agreement which currently permits us to borrow and repay at will up to a balance of $100 million, we take the measure of cash flow performance prior to debt borrowing or repayment; in effect, we evaluate cash flow as the change in net debt (total debt less cash and cash equivalents).

The major elements of the Statements of Cash Flows are summarized below:

	39 Weeks Ended	
	September 28,	September 30,
CASH INFLOW (OUTFLOW)	*2008*	*2007*
Net income plus non-cash items	**$ 51.2**	**$ 49.0**
Working capital	**15.3**	**(3.4)**
Restructuring payments	**(0.9)**	**(6.2)**
Contributions to qualified pension plan	**(20.0)**	**(20.0)**
Other (1)	**(4.3)**	**(10.1)**
Net cash provided by operating activities	**41.3**	**9.3**
Capital expenditures	**(10.4)**	**(17.2)**
Proceeds from sale of discontinued operations	**-**	**2.5**
Proceeds from sale of plant and equipment	**0.1**	**2.5**
Net cash used in investing activities	**(10.3)**	**(12.2)**
Net change in long-term debt	**(11.7)**	**22.7**
Dividends paid	**(20.0)**	**(20.0)**
Other	**0.3**	**(0.3)**
Net cash (used in) provided by financing activities	**(31.4)**	**2.4**
Net cash flow	**$ (0.4)**	**$ (0.5)**
Memo:		
Add back debt paid (borrowed)	**11.7**	**(22.7)**
Cash flow before change in debt	**$ 11.3**	**$ (23.2)**

(1) Includes deferred compensation and non-qualified pension payments and changes in other non-current assets and liabilities

Operating Activities

Cash provided by operations was $32.0 million higher for the first nine months of 2008 compared with 2007. This increase was primarily driven by improved operating results, lower working capital, and reduced spending related to

restructuring and our deferred compensation and non-qualified pension plans.

We contributed $20 million to our qualified defined benefit pension plan in the first nine months of 2008 and 2007. We currently have met our mandatory pension-funding requirement for 2008 and do not plan additional pension funding during the balance of the year.

Investing Activities

Capital expenditures totaled $10.4 million thus far in 2008, which is down approximately $6.8 million compared to spending in the prior year. Capital spending trended downward as we prioritized our capital projects and focused on those with higher returns on invested capital. We expect our capital spending for the year will be in the range of $13 to $15 million.

Financing Activities

As a result of increases in available cash due to improved working capital management, cost savings, and relatively low capital expenditures, we reduced borrowings under our revolving credit facility by $11.7 million during the first nine months of 2008. Our current revolving credit agreement does not expire until 2010. Despite the turmoil in the current credit markets, we have not experienced any restrictions or constraints on our ability to utilize the facility per our agreement. We believe our credit agreements reside with sound financial institutions; therefore, we do not anticipate any such restrictions in the near future.

Capital Structure

	September 28, 2008	*December 30, 2007*	*Change*
Total Debt	**$ 40.8**	$ 52.0	$ (11.2)
Less Cash and Short-term Investments	**(0.3)**	(0.7)	0.4
Net Debt	**40.5**	51.3	(10.8)
Equity	**110.6**	111.4	(0.8)
Total	**$ 151.1**	$ 162.7	$ (11.6)
Net Debt:Total Capital	***27%***	*32%*	

Our net debt decreased $10.8 million during the first nine months of 2008, reflecting the $11.2 million decrease in borrowings and a $0.4 million decrease in cash reserves. Net debt represented 27% of total capital at quarter end, compared to 32% at the beginning of the year. The Company believes its balance sheet reflects a strong financial condition.

Contractual Obligations

There have been no material changes in our contractual obligations since year-end 2007 outside the normal course of business.

With the exception of the cash requirements related to our restructuring plans initiated during the year, there have been no material changes to our near-term cash requirements.

RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS

Effective December 31, 2007, the Company adopted SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, which permits us to voluntarily choose, at specified election dates, to measure specified financial assets and liabilities and other items at fair value that are not currently required to be measured at fair value. Subsequent changes in fair value would then be required to be reported in earnings each reporting period. At the date of adoption, we did not elect the fair value option for eligible items that existed at December 31, 2007; therefore, the adoption of this standard did not have any effect on our consolidated results of operations, financial position, or cash flows. Any future effect will be dependent upon the nature and amount of eligible items that the Company elects to account for using the fair value option.

Effective December 31, 2007, the Company adopted EITF No. 06-11, Accounting for Income Tax Benefits of Dividends on Share-Based Payment Awards. EITF 06-11 requires companies to recognize the income tax benefit realized from dividends or dividend equivalents that are charged to retained earnings and paid to employees for nonvested equity-classified employee share-based awards as an increase to additional paid-in capital instead of a credit to income tax expense. The amount recognized in additional paid-in capital is available to absorb potential

future tax deficiencies on share-based payment awards. The adoption of this standard did not have a material effect on the Company s consolidated results of operations, financial position, or cash flows.

ITEM 3 - QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

The Company is exposed to interest rate risk on its borrowing under a revolving credit facility. The Company is also exposed to market risk from changes in the cost of paper, the principal raw material used in the production of business forms. There have been no material changes in the Company s exposure to market risk since the Company s disclosure in Item 7A, Part II of our Annual Report.

ITEM 4 - CONTROLS AND PROCEDURES

Controls Evaluation

We conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures over financial reporting (Disclosure Controls) as of September 28, 2008. The evaluation was carried out under the supervision, and with the participation, of our management including our Chief Executive Officer (CEO) and Chief Financial Officer (CFO).

Definition of Disclosure Controls

Disclosure Controls are controls and procedures designed to reasonably assure that information required to be disclosed in our Securities Exchange Act reports, such as this Form 10-Q, is recorded, processed, summarized and reported within the time periods specified in the U.S. Securities and Exchange Commission s (SEC) rules and forms. Disclosure Controls are also designed to reasonably assure that such information is accumulated and communicated to our management, including our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure. Our quarterly evaluation of Disclosure Controls includes an evaluation of some components of our internal control over financial reporting, and internal control over financial reporting is also separately evaluated on an annual basis.

Limitations on the Effectiveness of Disclosure Controls

Our Company s management, including the CEO and CFO, does not expect that our Disclosure Controls will prevent or detect all error and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system s objectives will be met. The design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Scope of Evaluation

Our evaluation of Disclosure Controls included a review of their objectives, design, and effectiveness, including their effect on the information generated for use in this Quarterly Report on Form 10-Q. This evaluation is performed on a quarterly basis so that the conclusions of management, including the CEO and CFO, concerning the effectiveness of our Disclosure Controls can be reported upon in our quarterly reports on Form 10-Q.

Conclusion

Based on that evaluation, our CEO and CFO have concluded that, subject to the limitations noted above, as of the end of the period covered by this Quarterly Report on Form 10 Q, our Disclosure Controls were effective to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed,

summarized, and reported within the time periods specified by the SEC and that material information relating to The Standard Register Company is made known to management, including the CEO and CFO, particularly during the period when our periodic reports are being prepared.

Changes in Internal Control

During the third quarter of fiscal 2008, there have been no material changes in our internal controls or in other factors that could materially affect these controls, and no corrective actions taken with regard to material weaknesses in such controls.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

There have been no material legal proceedings within the reporting period that the Company has been involved with beyond those conducted in a normal course of business.

Item 1A - RISK FACTORS

There have been no material changes from risk factors as previously disclosed in the Company s Form 10-K for the year ended December 30, 2007 in response to Item 1A to Part I of Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

ITEM 5. OTHER INFORMATION

On October 27, 2008, we committed to a restructuring plan to lower costs in response to recent revenue decreases and management s expectation that soft industry demand for some traditional printed products will continue and that the overall economy will remain weak during 2009.

Substantially all of the actions will take place in the fourth quarter of 2008. Annualized savings are expected to total approximately $11.0 million; total restructuring costs are estimated at $2.2 million for involuntary termination costs.
