Our solid balance sheet as well as our ability to generate significant cash flow enabled us to repurchase almost 26% of our total shares outstanding, said Serge Godin, executive chairman and founder. Following this investment, the Company retains its flexibility to pursue both large outsourcing opportunities and acquisitions.

First Quarter Financials

Edgar Filing: CGI GROUP INC - Form 6-K

Revenue for the first quarter ended December 31, 2005 totaled \$898.5 million, compared with \$929.1 million in the same quarter last year. Before the impact of foreign exchange, mainly the strengthening of the Canadian dollar, revenue was 1.3% lower than a year ago. This change in revenue mainly reflected the previously announced termination, earlier in fiscal 2005, of a contract that was not meeting our profitability standards as well as normal fluctuations in the level of work received from our outsourcing clients. Currency fluctuations negatively impacted revenue by \$18.5 million or 2.0%, compared with the previous year. Year-over-year, external growth was 1.8%.

Earnings before interest, income taxes and entities subject to significant influence and discontinued operations (adjusted EBIT) were \$78.7 million in the first quarter, compared with \$86.2 million in last year's first quarter. The adjusted EBIT margin was 8.8% for the quarter compared to 9.3% a year ago.

During the quarter, the Company completed the \$28 million divestiture of its electronic switching assets to Everlink Services and recorded a pre-tax gain of \$11 million.

Net earnings from continuing operations in the first quarter were \$56.9 million, or \$0.13 per share compared to \$53.1 million or \$0.12 per share in the same quarter of 2005. The margin on net earnings from continuing operations increased to 6.3% in the first quarter from 5.7% a year ago.

All per share data is on a basic and diluted basis, and at the end of the quarter there were 3.2% fewer average weighted shares outstanding than a year ago. As at January 12, 2006, compared with December 31, 2004, that number would be down 25.7%. By taking into consideration the new number of shares outstanding following the recent cancellation of 100 million shares, as well as the interest expense related to our debt, EPS in the first quarter would have been \$0.15 per share.

Cash net earnings, which are before the amortization of intangibles, were \$76.8 million or \$0.18 per share in the first quarter of fiscal 2006, compared with \$72.6 million or \$0.16 per share achieved in the same quarter a year ago. Cash net earnings in the quarter represented 8.5% of revenue, compared with 7.8% a year ago. Amortization of intangibles relates mainly to the value of internal software, business solutions and client relationships gained through acquisitions and new outsourcing contracts.

First Quarter Operating Highlights

During the quarter, CGI announced the following transactions:

October: **Two year, \$20 million contract** with the Quebec revenue ministry to adapt and integrate IT and new accounting systems related to the provincial Goods and Services Tax.

October: **Four year, \$60 million contract** renewal with the Alberta Health and Wellness Ministry

November: **Up to five years, US\$44 million contract** to administer housing units within the state of New York for The Housing Trust Fund Corporation of New York.

December: **Seven year US\$300 million contract** with two optional three-year renewal periods, with The Commonwealth of Virginia to partner on a sweeping initiative to transform the state's business and information technology program.

December: the signing of a **multi-year contract valued between US\$30 and 40 million** with Medco Health Solutions (Medco), one of the leading pharmacy benefit managers in the US

under which member billing, Medicare payment reconciliation, enrollment form processing, and IT hosting services will be performed.

January: **\$859 million** to repurchase and cancel 100 million shares from BCE.

January: **\$1.1 billion added to backlog**, following the extensions of BCE outsourcing agreements, until June 2016. CGI's agreement outsourcing its Canadian communications network management requirements to Bell will be similarly extended. As well, the commercial alliance between CGI and Bell Canada's Enterprise Group will be extended until 2016.

Market Outlook

As outsourcing deals become larger and more complex, the Company is experiencing longer selling cycles. If it were between 6 and 18 months in the past, it is now between 12 and 24 months. However, there is a lot of activity in the marketplace.

CGI's 2006-2008 business plan reaffirms its successful four pillar growth strategy, with CGI a consolidator in its industry through a balance of organic and external growth. While CGI already has critical mass in its main geographies, it will continue to increase its presence through acquisitions in selected metro markets where it sees the greatest potential to drive organic growth.

Normal Course Issuer Bid

This morning, the Company's Board of Directors authorized the renewal of a Normal Course Issuer Bid and the purchase of up to 10% of the public float of the Company's Class A subordinate shares during the next year. The Company has received approval from the Toronto Stock Exchange for its intention to make an Issuer Bid.

The Issuer Bid enables CGI to purchase on the open market through the facilities of the Toronto Stock Exchange up to 29,288,443 Class A subordinate shares for cancellation. At the close of business on January 27, 2006, there were 297,298,451 Class A subordinate shares of the Company outstanding of which approximately 98.5% were widely held. The Class A subordinate shares may be purchased under the Issuer Bid commencing February 3, 2006 and ending no later than February 2, 2007, or on such earlier date when the Company completes its purchases or elects to terminate the bid.

Use of Non-GAAP Financial Information

CGI reports its financial results in accordance with GAAP. However, we also use certain non-GAAP performance measures which include: adjusted earnings before interest, other income, gain on sale of assets, entity subject to significant influence, income taxes and discontinued operations (adjusted EBIT) and net earnings from continuing operations before amortization of finite-life intangibles (cash net earnings).

Management believes that these non-GAAP measures provide useful information to investors regarding the Company's financial condition and results of operations as they provide additional measures of its performance. Adjusted EBIT provides information that can be used to evaluate the effectiveness of our business from an operational perspective, exclusive of the costs to finance our activities and exclusive of income taxes, neither of which are directly relevant to the operations. Cash net earnings provides better visibility of our ability to generate cash from our assets. Amortization of finite life intangibles is a non-cash item that relates mainly to the estimated value of internal software, business solutions and customer relationships gained through acquisitions and new outsourcing contracts.

These non-GAAP financial measures do not have any standardized meaning prescribed by GAAP and are therefore unlikely to be comparable to similar measures presented by other issuers. They should be considered as supplemental in nature and not as a substitute for the related financial information prepared in accordance with GAAP.

Page 4

A reconciliation of these non-GAAP measures with GAAP financial statements is provided in the MD&A which is posted on CGI's website at www.cgi.com, and filed with SEDAR and EDGAR.

Notes to the consolidated financial statements

For the three months ended December 31, 2005 and 2004

(tabular amounts only are in thousands of Canadian dollars, except share data) (unaudited)

Note 1 - Summary of significant accounting policies

Interim consolidated financial statements

The interim consolidated financial statements for the three months ended December 31, 2005 and 2004 are unaudited and include all adjustments that the management of CGI Group Inc. (the "Company") considers necessary for a fair presentation of the financial position, results of operations and cash flows.

The disclosure provided for these interim periods does not conform in all respects to the requirements of generally accepted accounting principles ("GAAP") for the annual consolidated financial statements; therefore, the interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements of the Company for the year ended September 30, 2005. These interim consolidated financial statements have been prepared using the same accounting policies and methods of their application as the annual consolidated financial statements for the year ended September 30, 2005.

Edgar Filing: CGI GROUP INC - Form 6-K

Certain comparative figures have been reclassified in order to conform to the current period presentation.

Restatement

The Company provides a centralized service to the Canadian property and casualty insurance industry for the purpose of ordering abstracts of driving records from government authorities. Following its accounting reviews performed during the year ended September 30, 2005, the Company revised its interpretation of the accounting treatment related to those services. The revised interpretation required that the revenue and applicable costs of services charged to clients, which are included in Costs of services, selling and administrative expenses, be presented on a net basis rather than on a gross basis as they had been presented previously. For comparative purposes, the reclassification amounted to \$11,911,000 for the three-month period ended December 31, 2004. The revised presentation is in accordance with Emerging Issue Committee ("EIC") Abstract 123, "Reporting Revenue Gross as a Principal versus Net as an Agent", which addresses whether an enterprise should recognize revenue based upon the gross amount billed to the client or the net amount retained. This reclassification had no impact on net earnings or cash flows.

Future Accounting Changes

The Canadian Institute of Chartered Accountants ("CICA") has issued the following new Handbook Sections:

a) Handbook Section 3855, "Financial Instruments - Recognition and Measurement", effective for interim periods beginning on or after October 1, 2006. The section describes the standards for recognizing and measuring financial assets, financial liabilities and non-financial derivatives. All financial assets, except for those classified as held-to-maturity, and derivative financial instruments must be measured at their fair value. All financial liabilities must be measured at their fair value if they are classified as held for trading purposes, if not, they are measured at their carrying value. The Company is currently evaluating the impact of the adoption of this new section on the consolidated financial statements.

b) Handbook Section 1530, "Comprehensive Income", and Section 3251, "Equity", effective for interim periods beginning on or after October 1, 2006. Comprehensive income is the change in equity of an enterprise during a period arising from transactions and other events and circumstances from non-owner sources. It includes items that would normally not be included in net income such as changes in the foreign currency translation adjustment relating to self-sustaining foreign operations and unrealized gains or losses on available-for-sale financial instruments. This section describes how to report and disclose comprehensive income and its components. Section 3251, "Equity", replaces Section 3250, "Surplus", and describes the changes in how to report and disclose equity and changes in equity as a result of the new requirements of Section 1530, "Comprehensive Income". Upon adoption of this section, the consolidated financial statements will include a statement of comprehensive income.

c) Handbook Section 3865, "Hedges", effective for interim periods beginning on or after October 1, 2006. This section describes when hedge accounting is appropriate. Hedge accounting ensures that all gains, losses, revenues and expenses from the derivative and the item it hedges are recorded in the statement of earnings in the same period. The Company is currently evaluating the impact of the adoption on the consolidated financial statements.

d) Handbook Section 3831, "Non-Monetary Transactions", effective for transactions initiated in periods beginning on or after January 1, 2006.

Consolidated financial statements of CGI Group Inc. For the three months ended December 31, 2005 and 2004

Edgar Filing: CGI GROUP INC - Form 6-K

This section prescribes to record non-monetary transactions at fair value unless the transaction has no commercial substance, it is an exchange of inventory, it is a non-monetary, non-reciprocal transfer to owners or it is not reliably measurable. The Company does not believe that the adoption of this section will have a significant impact on the consolidated financials statements.

e) EIC 156, "Accounting by a Vendor for Consideration Given to a Customer (Including a Reseller of the Vendor's Product)" provides guidance to companies that give incentives to customers or resellers in the form of cash, equity, free gifts, coupons and other. The adoption of EIC 156 is effective for all interim and annual financial statements for fiscal years beginning on or after January 1, 2006. There will be no impact on the consolidated financial statements since the Company already adopted the US equivalent of EIC 156 which is the EITF 01-9 "Accounting for Consideration Given by a Vendor to a Customer" issued by the Financial Accounting Standards Board's Emerging Issues Task Forces as at September 30, 2002.

Note 9 - Contingencies and guarantees

Contingencies

From time to time, the Company is involved in various litigation matters arising in the ordinary course of its business. The Company has no reason to believe that the disposition of any such current matter could reasonably be expected to have a material adverse impact on the Company's financial position, results of operations, or the ability to carry on any of its business activities.

Guarantees

Sale of assets and business divestitures

In connection with sale of assets and business divestitures, the Company may be required to pay counterparties for costs and losses incurred as a result of breaches in representations and warranties, intellectual property right infringement and litigation against counterparties. While some of the agreements specify a maximum potential exposure of approximately \$108,500,000 in total, many do not specify a maximum amount or limited period. It is impossible to reasonably estimate the maximum amount that may have to be paid under such guarantees. The amounts are dependent upon the outcome of future contingent events, the nature and likelihood of which cannot be determined at this time. No amount has been accrued in the consolidated balance sheets relating to this type of indemnification as at December 31, 2005. The Company does not expect to incur any potential payment in connection with these guarantees which will have a materially adverse effect on its consolidated financial statements.

U.S. Government contracts

The Company is engaged to provide services under contracts with the U.S. Government. The contracts are subject to extensive legal and regulatory requirements and, from time to time, agencies of the U.S. Government investigate whether the Company's operations are being conducted in accordance with these requirements. Generally, the Government has the right to change the scope of, or terminate, these projects at its convenience. The termination or a reduction in the scope of a major government project could have a material adverse effect on the Company's results of operations and financial condition.

Other transactions

In the normal course of business, the Company may provide certain clients, principally governmental entities, with financial performance guarantees, which are generally backed by surety bonds. In general, the Company would only be liable for the amount of these guarantees in the event of default in the performance of its obligations, the probability of which is remote in management's opinion. As at December 31, 2005, the Company has US \$48,044,000 and \$2,911,000 outstanding surety bonds relating to these performance guarantees. The Company believes it is in compliance with its performance obligations under all service contracts for which there is a financial performance guarantee, and the ultimate liability, if any, incurred in connection with these guarantees would not have a material adverse effect on the Company's consolidated results of operations or financial condition.

Note 10 - Related party transactions

During the three months ended December 31, 2005, the Company entered into transactions that were not in the normal course of operations as follows:

On December 16, 2005, the Company reached an agreement with BCE (a shareholder) to purchase 100 million of its Class A subordinate shares currently held by BCE at a price of \$8.5923 per share. Refer to Note 12 for additional information.

On December 5, 2005, the Company leased a private aircraft for business purposes from a leasing company that had acquired it from a limited partnership of which a director of the Company is the sole limited partner. The transaction was measured at the exchange amount, which was supported by an independent evaluation at the date of the transaction.
