**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)****Note 1.****Basis of Presentation**

The condensed consolidated financial statements include the results of Wausau Paper Corp. and our consolidated subsidiaries. All significant intercompany transactions have been eliminated. The accompanying condensed financial statements, in the opinion of management, reflect all adjustments, which are normal, and recurring in nature and which are necessary for a fair statement of the results for the periods presented. Results for the interim period are not necessarily indicative of future results. In all regards, the financial statements have been presented in accordance with accounting principles generally accepted in the United States of America. Refer to notes to consolidated financial statements, which appear in the Annual Report on Form 10-K for the year ended December 31, 2006, for our accounting policies and other disclosures, which are pertinent to these statements.

**Note 2.****New Accounting Pronouncements**

On January 1, 2007, we adopted Financial Accounting Standards Board ( FASB ) Staff Position ( FSP ) No. AUG AIR-1, Accounting for Planned Major Maintenance Activities. This FSP prohibits companies from recognizing planned major maintenance costs under the accrue-in-advance method that allowed the accrual of a liability over several reporting periods before the maintenance is performed. We have adopted the direct expensing method, under which the costs of planned major maintenance activities are expensed in the period in which the costs are incurred. The condensed consolidated financial statements for 2006 have been adjusted to apply the new method retrospectively. The application of FSP AUG AIR-1 will effect our 2006 interim period reporting and will not result in a cumulative effect adjustment to our annual consolidated financial statements. The following table illustrates the effect of applying the direct expensing method on individual line items in the condensed consolidated financial statements for the three months ended March 31, 2006:

(all amounts in thousands, except per share data)	<b>Before Application of FSP AUG AIR-1</b>	<b>Adjustment</b>	<b>After Application of FSP AUG AIR-1</b>
<b>Condensed Consolidated Statements of Operations</b>			
Cost of products sold	\$ 261,338	\$ (1,281)	\$ 260,057
Credit for income taxes	(538)	474	(64)

Edgar Filing: WAUSAU PAPER CORP. - Form 10-Q

Net earnings (loss)	(1,343)	807	(536)
Net earnings (loss) per share basic and diluted	(0.03)	0.02	(0.01)

The effect of applying the direct expensing method retrospectively will result in an increase in net earnings of \$0.1 million for the three months ended June 30, 2006, a decrease in net earnings of \$0.3 million, or \$0.01 per basic and diluted share for the three months ended September 30, 2006, and a decrease in net earnings of \$0.6 million, or \$0.01 per basic and diluted share for the three months ended December 31, 2006.

**Note 3.**

**Income Taxes**

On January 1, 2007, we adopted the provisions of FASB Interpretation No. 48, Accounting for Income Tax Uncertainties ( FIN 48 ). FIN 48 clarifies whether or not to recognize assets or liabilities for tax positions taken that may be challenged by a taxing authority. As a result of the implementation of FIN 48, we recognized a \$0.04 million increase in the liability for unrecognized tax benefits, which was accounted for as a decrease to retained earnings at January 1, 2007.

On January 1, 2007, the liability for uncertain tax positions was \$4.8 million, all of which would impact our effective tax rate if recognized, and was recorded as a current liability. We record penalties and accrued interest related to uncertain tax positions in miscellaneous expense and interest expense, respectively. At the beginning of 2007, approximately \$0.5 million was included in the liability for uncertain tax positions for the possible payment of interest and penalties. There were no significant changes in the components of the liability in the first quarter of 2007.

The Internal Revenue Service ( IRS ) has commenced examinations of our 1998 to 2003 tax returns that are anticipated to be concluded by the end of 2007. These examinations relate to certain research and development credits recorded during these respective tax return years. In addition, we are currently open to audit under the statute of limitations by the IRS for the years ending December 31, 2004 through 2006. We also file income tax returns in numerous state jurisdictions with varying statutes of limitations. The anticipated charges with respect to the aforementioned items are included in the liability for uncertain tax positions recorded at March 31, 2007.

**Note 4.**

**Reorganization**

Effective January 1, 2007, we reorganized the various subsidiaries which comprised our operating segments to align more closely with our operating structure. Each segment is now organized as a single member limited liability company and operates as a direct subsidiary of Wausau Paper Corp. The new structure allowed us to utilize state net operating loss and credit carryovers of certain subsidiaries for which valuation allowances had been previously established due to the fact that separate state tax returns were filed under our previous structure. During the three months ended March 31, 2007, we recorded state tax benefits of \$12.0 million primarily as a result of the reversal of these valuation allowances. No additional state tax benefits resulting from the reorganization are anticipated.

The major temporary differences that give rise to the deferred tax assets and liabilities are as follows:

(all dollar amounts in thousands)	<b>March 31, 2007</b>	December 31, 2006
Deferred tax assets:		
Accrued compensated absences	<b>\$ 4,251</b>	\$ 4,281
Pensions	<b>2,955</b>	1,648
Post-retirement benefits	<b>41,252</b>	40,522
State net operating loss carry forward	<b>15,279</b>	15,466
Other	<b>25,018</b>	25,088
Gross deferred tax asset	<b>88,755</b>	87,005
Less valuation allowance	<b>(1,591)</b>	(12,267)
Net deferred tax assets	<b>87,164</b>	74,738
Deferred tax liabilities:		
Property, plant, and equipment	<b>(117,972)</b>	(120,271)
Other	<b>(14,030)</b>	(13,597)
Gross deferred tax liability	<b>(132,002)</b>	(133,868)
Net deferred tax liability	<b>\$ (44,838)</b>	\$ (59,130)

#### Note 5.

#### Earnings Per Share

The following table reconciles basic weighted average outstanding shares to diluted weighted average outstanding shares:

(all amounts in thousands, except per share data)	Three Months Ended March 31,	
	<b>2007</b>	2006
Net earnings (loss)	<b>\$ 14,965</b>	\$ (536)
Basic weighted average common shares outstanding	<b>50,746</b>	51,041
Effect of dilutive securities:		

Share-based compensation awards	<b>354</b>	
Diluted weighted average common shares outstanding	<b>51,100</b>	51,041
Net earnings (loss) per share:		
Basic	\$ <b>0.29</b>	\$ (0.01)
Diluted	\$ <b>0.29</b>	\$ (0.01)

Share-based compensation awards for which the exercise price exceeds the average market price over the applicable period have an antidilutive effect on EPS, and accordingly, are excluded from the calculation of diluted EPS. For the three months ended March 31, 2007, 511,326 shares issued under share-based compensation plans were excluded from the diluted EPS calculation because the shares were antidilutive. Due to the loss reported in the three months ended March 31, 2006, 2,180,942 share-based compensation award shares issued were considered to be antidilutive.

**Note 6.****Receivables**

Accounts receivable consisted of the following:

(all dollar amounts in thousands)	<b>March 31, 2007</b>	December 31, 2006
Trade	\$ 110,442	\$ 104,049
Other	2,539	2,113
	<b>112,981</b>	106,162
Less: allowances for doubtful accounts	<b>(1,328)</b>	(1,361)
	<b>\$ 111,653</b>	\$ 104,801

**Note 7.****Inventories**

The various components of inventories were as follows:

(all dollar amounts in thousands)	<b>March 31, 2007</b>	December 31, 2006
Raw materials	\$ 38,081	\$ 37,393
Work in process and finished goods	<b>123,049</b>	114,584
Supplies	<b>7,655</b>	9,457
Inventories at cost	<b>168,785</b>	161,434
Less: LIFO reserve	<b>(38,630)</b>	(38,903)
	<b>\$ 130,155</b>	\$ 122,531

**Note 8.**

### **Accumulated Depreciation**

The accumulated depreciation on fixed assets was \$723.7 million as of March 31, 2007, and \$712.0 million as of December 31, 2006. The provision for depreciation, amortization, and depletion was \$14.6 million for the three months ended March 31, 2007 and 2006.

### **Note 9.**

#### **Debt**

As of March 31, 2007, we had \$6.5 million of commercial paper outstanding under an existing unrated commercial paper placement agreement with a bank. This agreement requires unused credit availability under our \$125 million unsecured revolving-credit agreement that expires July 27, 2011, equal to the amount of outstanding commercial paper.

At March 31, 2007, under the \$125 million facility that expires July 27, 2011, we have the ability and the intent to refinance on a long-term basis the amount of outstanding commercial paper and the \$35 million of unsecured private placement notes maturing on August 31, 2007. As a result, we have classified the amounts as long-term on our Condensed Consolidated Balance Sheets.

**Note 10.****Pension and Other Post-retirement Benefit Plans**

The components of net periodic benefit costs recognized in the Condensed Consolidated Statements of Operations for the three months ended March 31, 2007 and 2006, are as follows:

	Pension Benefits		Other Post-retirement Benefits	
	2007	2006	2007	2006
Service cost	\$ 1,908	\$ 1,958	\$ 641	\$ 804
Interest cost	2,755	2,596	1,304	1,243
Expected return on plan assets	(3,354)	(3,003)		
Amortization of:				
Prior service cost (benefit)	544	539	(908)	(1,038)
Actuarial loss	618	797	583	410
Net periodic benefit cost	\$ 2,471	\$ 2,887	\$ 1,620	\$ 1,419

We previously disclosed in our consolidated financial statements for the year ended December 31, 2006, that although we do not have a minimum funding requirement for defined benefit pension plans in 2007, we may elect to make contributions of up to \$16.2 million directly to pension plans. As of March 31, 2007, we have made payments of approximately \$2.9 million to our pension plans. In addition, as previously reported, we expect to contribute \$4.1 million directly to other post-retirement plans in 2007. As of March 31, 2007, we have contributed \$1.2 million to our post-retirement plans.

**Note 11.****Share-Based Compensation**

Effective January 1, 2006, we adopted Statement of Financial Accounting Standards No. 123 (revised 2004),

Share-Based Payment ( SFAS 123R ), using the modified prospective application transition method. Prior to January 1, 2006, we measured compensation cost for stock-based compensation plans using the intrinsic value based method prescribed under Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees.

Under SFAS 123R, share-based payment awards that are settled in cash continue to be classified as a liability; however, rather than remeasuring the award at the intrinsic value each reporting period, the award is remeasured at its fair value each reporting period until final settlement. The difference between the liability as previously computed (i.e., intrinsic value) and the fair value of the liability award on January 1, 2006, was \$0.4 million, net of any related tax effects (\$0.7 million pretax), and was recorded as a cumulative effect of a change in accounting principle in the accompanying Condensed Consolidated Statements of Operations.

***Stock Options, Restricted Stock Awards, and Performance Units***

During the three months ended March 31, 2007 and March 31, 2006, share-based compensation expense related to fixed option grants and performance unit awards

was approximately \$0.2 million and \$0.1 million, respectively, and was included as a component of selling and administrative expenses in the accompanying Condensed Consolidated Statements of Operations. We recognize compensation expense on grants of stock options, restricted stock, and performance unit share-based compensation awards on a straight-line basis over the requisite service period of each award. Forfeiture rates are estimated based upon our historical experience for each grant type. As of March 31, 2007, total unrecognized compensation cost related to share-based compensation awards was approximately \$0.4 million, net of estimated forfeitures, which we expect to recognize over a weighted average period of approximately 1.0 year.

No grants of restricted stock were made during the three months ended March 31, 2007.

During the first quarter of 2007, we granted 413,102 stock options and 37,410 performance unit awards as part of a performance-based compensation award for the year ended December 31, 2007. The vesting of these performance-based awards is subject to (1) achieving certain operating profit levels and (2) completion of a service requirement. No compensation expense was recognized for this grant for the three months ended March 31, 2007, as it was not probable that the performance based criteria would be achieved as of March 31, 2007.

#### ***Stock Appreciation Rights and Dividend Equivalents***

Share-based compensation provisions or credits related to stock appreciation rights and dividend equivalents are determined based upon a remeasurement to their fair value at each interim reporting period in accordance with the provisions of SFAS 123R. During the three months ended March 31, 2007 and March 31, 2006, we recognized a credit of approximately \$0.1 million and a provision of approximately \$0.8 million, respectively, in share-based compensation as a component of selling and administrative expenses in the accompanying Condensed Consolidated Statements of Operations related to stock appreciation rights and dividend equivalents.

#### **Note 12.**

##### **Pulp Mill Closure**

In July 2005, we announced plans to permanently close the sulfite pulp mill at our Brokaw, Wisconsin, facility. The pulp mill was closed in November 2005 and the related long-lived assets were abandoned. Pre-tax restructuring expense related to certain assets disposed as a direct result of the closure and other associated costs were \$0.1 million for the three months ended March 31, 2006. No restructuring expense was incurred during the three months ended March 31, 2007, and no additional restructuring expenses are anticipated.

#### **Note 13.**

**Interim Segment Information**

We have reclassified certain prior-year interim segment information to conform to the 2007 presentation. The adjustments and reclassifications are the result of a reporting change, effective January 1, 2007, to reflect the adoption of FSP AUG AIR-1 and as a result of restructuring the assets and operating results of one facility from the Corporate and Unallocated segment to the Towel & Tissue segment. For additional information on the adoption of FSP AUG AIR-1, please refer to Note 2 New

Accounting Pronouncements. For additional information on the restructuring, please refer to Note 4 Reorganization.

### ***Factors Used to Identify Reportable Segments***

Our operations are classified into three principal reportable segments: Specialty Products, Printing & Writing, and Towel & Tissue, each providing different products. Separate management of each segment is required because each business unit is subject to different marketing, production, and technology strategies.

### ***Products from which Revenue is Derived***

Specialty Products produces specialty papers at its manufacturing facilities in Rhinelander, Wisconsin; Mosinee, Wisconsin; and Jay, Maine. Specialty Products also includes two converting facilities that produce laminated roll wrap and related specialty finishing and packaging products. Printing & Writing produces a broad line of premium printing and writing grades at manufacturing facilities in Brokaw, Wisconsin; Groveton, New Hampshire; and Brainerd, Minnesota. Printing & Writing also includes a converting facility which converts printing and writing grades. Towel & Tissue produces a complete line of towel and tissue products that are marketed along with soap and dispensing systems for the away-from-home market. Towel & Tissue operates a paper mill in Middletown, Ohio, and a converting facility in Harrodsburg, Kentucky.

### ***Reconciliations***

The following are reconciliations to corresponding totals in the accompanying condensed consolidated financial statements:

(all dollar amounts in thousands)	Three Months Ended March 31,	
	<b>2007</b>	2006
Net sales external customers:		
Specialty Products	<b>\$ 123,955</b>	\$ 121,492
Printing & Writing	<b>105,914</b>	99,318
Towel & Tissue	<b>69,524</b>	62,853
	<b>\$ 299,393</b>	\$ 283,663

Operating profit (loss):

Edgar Filing: WAUSAU PAPER CORP. - Form 10-Q

Specialty Products	\$ 2,673	\$ 3,207
Printing & Writing	(1,792)	(6,846)
Towel & Tissue	9,693	9,181

	<b>\$ 798,663</b>	\$ 799,114

\*

Segment assets do not include intersegment accounts receivable, cash, deferred tax assets, and certain other assets, which are not identifiable with segments.

#### **Note 14.**

##### **Future Accounting Pronouncements**

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Benefit Plans* (SFAS 158), which requires that we recognize in our financial statements the overfunded or underfunded status of a defined benefit post-retirement plan as an asset or liability and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. SFAS 158 also requires additional disclosures regarding certain effects on net periodic benefit cost for the next fiscal year that arise from delayed recognition of the gains or losses, prior service credits, and transition assets or obligations. We adopted the recognition and disclosure provisions of SFAS 158 on December 31, 2006. In addition, SFAS 158 requires the measurement of the funded status of a plan as of the date of the financial statements. SFAS 158's provisions regarding the change in measurement date of post-retirement plans will require us to change our measurement date from September 30 to our fiscal year end date beginning with fiscal year 2008. We are currently evaluating whether we will early adopt the measurement provisions in fiscal 2007.

**Item 2.**

**Management's Discussion and Analysis of Financial Condition and Results of Operations**

**Critical Accounting Policies and Estimates**

The condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America which require us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed consolidated financial statements and revenues and expenses during the periods reported. Actual results could differ from those estimates. Please refer to the notes to the financial statements, which appear in the Annual Report on Form 10-K for the year ended December 31, 2006, for our accounting policies and other disclosures which are pertinent to these statements.

We have reclassified certain prior-year interim segment information to conform to the 2007 presentation. The reclassifications are the result of a reporting change, effective January 1, 2007, in accordance with FSP AUG AIR-1, and as a result of restructuring the assets and operating results of one facility from the Corporate and Unallocated segment to the Towel & Tissue segment. For additional information on the adoption of FSP AUG AIR-1, please refer to Note 2 New Accounting Pronouncements in the Notes to Condensed Consolidated Financial Statements. For additional information on the restructuring, please refer to Note 4 Reorganization in the Notes to Condensed Consolidated Financial Statements.

**Overview**

For the first quarter of 2007, we reported net earnings of \$15.0 million, or \$0.29 per share compared to a prior-year net loss of \$0.5 million or \$0.01 per share. Included in first-quarter 2007, were one-time state tax benefits of \$12.0 million, or \$0.24 per share, related to the January 1, 2007, restructuring of our subsidiaries to realign them more closely with our current operating structure. The subsidiary realignment allows for the future utilization of previously reserved state net operating loss and credit carryovers. For additional information on the restructuring, please refer to Note 4 Reorganization in the Notes to Condensed Consolidated Financial Statements. The net loss for the first three months of 2006 included a charge for the cumulative effect of a change in accounting principle, net of related income taxes, of \$0.4 million or \$0.01 per share as a result of our adoption of Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment on January 1, 2006.

Compared to the first quarter of 2006, net sales increased 6%, with each of our business segments reporting year-over-year improvement. Improvements in product pricing and sales volume, combined with overall lower

energy costs and increased productivity, more than offset significant increases in fiber-related costs experienced in the first three months of 2007 compared to the same period in 2006.

## Operations Review

### Net Sales

(all dollar amounts in thousands)	Three Months Ended March 31,	
	2007	2006
Net sales	\$ 299,393	\$ 283,663
Percent increase	6%	6%

Consolidated net sales of \$299.4 million for the three months ended March 31, 2007, improved 6% over consolidated net sales of \$283.7 million for the three months ended March 31, 2006. Shipments increased approximately 1% quarter-over-quarter with 226,593 tons shipped during the first quarter of 2007 and 224,207 tons shipped during the first quarter of 2006. During the same comparative periods, average net selling price improved nearly 5%, or approximately \$13 million, with actual product selling price improvements fully absorbing a slight erosion in product mix.

Specialty Products net sales for the first quarter of 2007 were \$124.0 million, an increase of 2% over net sales of \$121.5 million reported during the same period in 2006. The increase in net sales was driven by an average net selling price increase of nearly 5% or more than \$5 million, with actual selling price increases generating the entire improvement as mix remained essentially flat. Partially offsetting the improvement in average selling price was a 2% reduction in volume of products shipped. In the first three months of 2007, the business segment shipped 99,919 tons compared to 102,287 tons in the first quarter of 2006. The decline is partially due to reduced paper mill packaging shipments.

For the three months ended March 31, 2007, Printing & Writing recorded net sales of \$105.9 million, an increase of 7% over reported net sales in the first three months of 2006 of \$99.3 million. The current quarter improvement in net sales was due to a 3% increase in volume as 86,101 tons were shipped during the first quarter of 2007 compared to 83,631 tons during the first quarter of 2006 and an improvement in average net selling price of nearly 4% for the same quarterly period. The increase in average net selling price is due to actual selling price increases, as an improving pricing environment in the uncoated freesheet market more than offset a weaker quarter over quarter product mix.

Towel & Tissue reported net sales of \$69.5 million for the three-month period ended March 31, 2007, an increase of 11% from net sales of \$62.9 million reported in the same three-month period of 2006. Shipments of higher-margin value added products increased 23% in the current quarter as total shipments increased 6% to 40,573 tons from 38,289 tons during the same period last year. Average net selling price increased approximately 5%, or more than \$3 million, in the first quarter of 2007 over the first quarter of 2006, with actual selling price increases and stronger product mix contributing equally to the improvement.

*Gross Profit*

(all dollar amounts in thousands)	Three Months Ended March 31,	
	2007	2006
Gross profit on sales	<b>\$ 28,086</b>	\$ 23,606
Gross profit margin	<b>9%</b>	8%

Gross profit for the three months ended March 31, 2007, was \$28.1 million compared to \$23.6 million for the three months ended March 31, 2006. Gross profit margins increased compared to those reported in the same period last year as improvements in average net selling price and declines in energy costs more than offset significant increases in quarter over quarter fiber-related manufacturing costs. In total, energy prices, driven mainly by natural gas, decreased approximately \$4.6 million in the first quarter of 2007, compared to the first quarter of 2006, while fiber related costs increased approximately \$13.9 million in the same comparative period.

The gross profit margin for Specialty Products was comparable at 7% for the first quarter of 2007 and 2006. Specialty Products' selling price gains and improvements in energy costs nearly offset higher fiber related costs, mainly market pulp and linerboard.

Printing & Writing's gross profit margin for the first quarter of 2007 was 4% compared to a negative 1% in the first quarter of 2006. Quarter-over-quarter, favorable impacts of energy, most notably natural gas, and selling price improvements more than offset significant unfavorable increases in costs of market pulp. In addition, the gross profit margin for the first quarter of 2007 was favorably impacted by increased production volumes as we operated at full capacity compared to the first quarter of 2006 when market-related downtime resulted in the idling of a paper machine at the Brokaw papermaking facility for the majority of the first quarter of 2006.

The gross profit margin for Towel & Tissue was 21% in the first quarter of 2007 compared to 22% in the first quarter of 2006. Increased average selling prices were more than offset by increases in manufacturing costs, including wastepaper and purchased towel and tissue parent rolls, and maintenance spending.

Consolidated order backlogs increased to approximately 60,500 tons at March 31, 2007, from approximately 56,900 tons at March 31, 2006. Backlog tons at March 31, 2007 represent \$77.0 million in sales compared to \$69.9 million in sales at March 31, 2006.

Specialty Products backlog tons increased from 35,600 tons as of March 31, 2006, to 43,400 tons at March 31, 2007. Printing & Writing backlog tons declined to 14,000 tons at the end of the first quarter of 2007 compared to 17,800 tons at the end of the first quarter of 2006. Towel & Tissue experienced decreased backlogs with 3,100 tons reported at the end of the first quarter of 2007 and 3,500 tons reported at the end of the first quarter of 2006. The change in customer order backlogs does not necessarily indicate business conditions as a large portion of orders are shipped directly from inventory upon receipt and do not impact backlog numbers.

*Selling and Administrative Expenses*

(all dollar amounts in thousands)	Three Months Ended March 31,	
	2007	2006
Selling and administrative expense	\$ 20,802	\$ 20,976
Percent increase/(decrease)	(1%)	20%
As a percent of net sales	7%	7%

Selling and administrative expenses in the first quarter of 2007 were \$20.8 million compared to \$21.0 million in the same period of 2006. The impact of a stock-based compensation in the first quarter of 2007 was insignificant compared to expense of \$1.3 million for the three months ended March 31, 2006. Excluding stock-based compensation expense, wages and benefit costs accounted for the majority of the quarter over quarter increase in selling and administrative expense.

*Restructuring Charge*

We recorded a pre-tax \$0.1 million closure charge for the three months ended March 31, 2006, for other associated costs directly related to the closure of the sulfite pulp mill located at Printing & Writing's Brokaw papermaking mill. The permanent closure of the pulp mill facility was announced in July 2005. The pulp mill was closed in November 2005 and the related long-lived assets were abandoned. No restructuring expense was incurred during the three months ended March 31, 2007, and no additional restructuring expenses are anticipated. For additional information on the pulp mill closure, please refer to Note 12 Pulp Mill Closure in the Notes to Condensed Consolidated Financial Statements.

*Other Income and Expense*

(all dollar amounts in thousands)	Three Months Ended March 31,	
	2007	2006
Interest expense	\$ 2,807	\$ 2,713
Other income, net	206	42

Interest expense increased slightly to \$2.8 million for the three months ended March 31, 2007, compared to \$2.7 million for the same three-month period of 2006, due principally to increased interest rates year over year. Long-term debt was \$166.6 million and \$170.5 million at March 31, 2007 and 2006, respectively. Long-term debt at December 31, 2006, was \$160.3 million. Interest expense in 2007 is expected to be comparable with 2006 levels. Other income in the first quarter of 2007 is higher than the same period last year due to increased interest income as a result of higher cash and cash equivalent balances in the current period.

*Income Taxes*

(all dollar amounts in thousands)	Three Months Ended March 31,	
	2007	2006
Credit for income taxes	\$ (10,282)	\$ (64)
Effective tax rate	(220%)	37%

Effective January 1, 2007, we reorganized the various subsidiaries which comprised our operating segments to align more closely with our operating structure. Each segment is now organized as a single member limited liability company and operates as a direct subsidiary of Wausau Paper Corp. The new structure will allow us to utilize state net operating loss and credit carryovers of certain subsidiaries for which full valuation allowances had been previously established due to the fact that separate state tax returns were filed under our previous structure. During the three months ended March 31, 2007, we recorded state tax benefits of \$12.0 million primarily as a result of the reversal of these valuation allowances. No additional state tax benefits resulting from the reorganization are anticipated. The effective tax rate for the first quarter 2007, excluding the state tax benefits, was 38%.

**Liquidity and Capital Resources***Cash Flows and Capital Expenditures*

(all dollar amounts in thousands)	Three Months Ended March 31,	
	2007	2006
Cash used in operating activities	\$ 6,355	\$ 10,409
Capital expenditures	5,986	4,912

For the three months ended March 31, 2007, cash used in operating activities was \$6.4 million compared to cash used in operating activities of \$10.4 million for same period in 2006. In the first quarter of 2007, receivables and inventories increased a combined \$14.5 million while accounts payable and other liabilities decreased \$2.6 million. For the three months ended March 31, 2006, receivables and inventories increased a combined \$13.7 million. In addition, accounts payable and other liabilities decreased more than \$5.4 million. Both the first quarter of 2007 and 2006 reflect seasonal builds in receivables and inventories.

We have established an average internal rate of return target of 17% on all capital projects approved in 2007. This objective was achieved on projects approved during the first three months of the year. Capital spending for the first three months of 2007 was \$6.0 million compared to \$4.9 million during the first three months of 2006. Total capital spending for the full-year of 2007 is expected to be approximately \$35.0 million.

For 2007, capital expenditures for projects with total spending expected to exceed \$1.0 million occurred in all three business segments. Specialty Products spent \$0.9 million on a roll wrap project, stoker boiler project, and other paper mill related equipment at the Rhinelander, Wisconsin, facility. Printing & Writing spent \$0.5 million on a sheeter line project at a converting facility and \$0.2 million on a color system project at the Brainerd, Minnesota, facility.

Towel & Tissue spent \$0.4 million on various converting projects at the Harrodsburg, Kentucky, facility.

The balance of spending for the first three months of 2007 was related to projects that individually are expected to cost less than \$1.0 million. These expenditures included approximately \$0.7 million for essential non-or low-return projects, and approximately \$3.3 million on projects expected to provide a return in excess of our targeted internal rate of return.

During 2005, we announced our intent to sell, over the subsequent three to four years, approximately 42,000 acres of timberlands, at values expected to result in an after-tax gain of \$29 million. Since introducing the timberland sales program, we have sold approximately 15,600 acres and have realized after-tax earnings of approximately \$12.6 million. During the first quarter of 2007, we sold approximately 500 acres of timberlands, resulting in an after-tax gain of \$0.4 million, compared to sales of approximately 700 acres of timberlands, resulting in an after-tax gain of \$1.0 million, during the first quarter of 2006. We expect our timberland sales program to continue at a pace that will allow us to complete our sales program within the next two to three years.

#### *Debt and Equity*

(all dollar amounts in thousands)	<b>March 31, 2007</b>	December 31, 2006
Short-term debt	<b>\$ 170</b>	\$ 184
Long-term debt	<b>166,555</b>	160,287
Total debt	<b>166,725</b>	160,471
Stockholders' equity	<b>291,085</b>	274,074
Total capitalization	<b>457,810</b>	434,545
Long-term debt/capitalization ratio	<b>36%</b>	37%

As of March 31, 2007, long-term debt increased \$6.3 million as compared to the \$160.3 million borrowed at December 31, 2006. The increase in debt is due primarily to seasonal builds in inventory and receivables.

As of March 31, 2007, we had \$6.5 million of commercial paper outstanding under an existing unrated commercial paper placement agreement with a bank. This agreement requires unused credit availability under our \$125 million unsecured revolving-credit agreement that expires July 27, 2011, equal to the amount of outstanding commercial paper.

At March 31, 2007, under the \$125 million facility that expires July 27, 2011, we have the ability and the intent to refinance on a long-term basis the amount of outstanding commercial paper and the \$35 million of unsecured private placement notes maturing on August 31, 2007. As a result, we have classified the amounts as long-term on our Condensed Consolidated Balance Sheets.

On March 31, 2007, we had approximately \$98.8 million available borrowing capacity under a bank facility that expires on July 27, 2011. Our cash position and borrowing capacity is expected to provide sufficient liquidity to support operations, meet capital spending requirements, satisfy current maturities of debt obligations, fund dividend payments to shareholders, and pursue a plan to repurchase shares of Wausau Paper common stock.

During 2005, we reactivated our common stock buy-back program. At December 31, 2006, there were approximately 1.5 million shares available for repurchase through an authorization approved by our Board of Directors in 2000. We did not repurchase any shares during the first quarter of 2007. Repurchases may be made from time to time in the open market or through privately negotiated transactions. We anticipate that we will repurchase shares at the modest pace employed in 2006.

### *Dividends*

On December 18, 2006, the Board of Directors declared a quarterly cash dividend of \$0.085 per common share. The dividend was paid on February 15, 2007, to shareholders of record on February 1, 2007. On April 19, 2007, the Board of Directors declared a cash dividend in the amount of \$0.085 per share. The dividend is payable on May 15, 2007, to shareholders of record on May 1, 2007.

### **Information Concerning Forward-Looking Statements**

The foregoing discussion and analysis of our financial condition and results of operations contains forward-looking statements that involve risks, uncertainties, and assumptions. Forward-looking statements are not guarantees of performance. If the risks or uncertainties ever materialize or the assumptions prove incorrect, the results of Wausau Paper and our consolidated subsidiaries may differ materially from those expressed or implied by such forward-looking statements and assumptions. All statements other than statements of historical fact are statements that could be deemed forward-looking statements. Forward-looking statements may be identified by, among other things, beliefs or expectations that certain events may occur or are anticipated and projections or statements of expectations with respect to various aspects of our business, our plans or intentions, our stock performance, the industry within which we operate, the economy, and any other expressions of similar import or covering other matters relating to our business and operations. Risks, uncertainties, and assumptions relating to our forward-looking statements include the level of competition for our products, changes in the paper industry, downturns in our target markets, adverse changes in our relationships with large customers and our labor unions, costs of compliance with environmental regulations, our ability to fund our operations, changes in the price or availability of raw materials and energy, the failure to develop new products that meet customer needs, unforeseen operating problems, changes in strategic plans or our ability to execute such plans, maintenance of adequate internal controls, changes in financial accounting standards, unforeseen liabilities arising from current or prospective claims, and the effect of certain organizational anti-takeover provisions. These and other risks, uncertainties, and assumptions are described under the caption "Risk Factors" in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2006, and from time to time in our other filings with the Securities and Exchange Commission after the date of such annual report. We do not intend to update these forward-looking statements.

**Item 3.**

**Quantitative and Qualitative Disclosures About Market Risk**

There has been no material change in the information provided in response to Item 7A of our Form 10-K for the year ended December 31, 2006.

**Item 4.**

**Controls and Procedures**

As of the end of the period covered by this report, management, under the supervision, and with the participation, of our President and Chief Executive Officer and the Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as such term is defined in Rule 13a-15(e)) under the Securities and Exchange Act of 1934, as amended (the Exchange Act ) pursuant to Exchange Act Rule 13a-15. Based upon, and as of the date of such evaluation, the President and Chief Executive Officer and the Chief Financial Officer concluded that our disclosure controls and procedures were effective. There were no changes in our internal control over financial reporting (as such term is defined in Exchange Act Rule 13a-15(f)) during the fiscal quarter covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II. OTHER INFORMATION

### Item 1A.

#### Risk Factors

In addition to the other information set forth in this report, this report should be considered in light of the risk factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2006, which could materially affect our business, financial condition, or future results of operations. The risks described in our Annual Report on Form 10-K are not the only risks facing Wausau Paper. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition, and/or operating results.
