-

Item 7.01 **Regulation FD Disclosure**

On January 27, 2010, Independent Bank Corporation (the "Corporation"), filed a Registration Statement on Form S-4 (the "Registration Statement") with the Securities and Exchange Commission. The Registration Statement was filed for the purpose of registering shares of the Corporation's common stock to be issued in connection with a proposed offer to exchange shares of common stock for shares of outstanding trust preferred securities issued by the Corporation's trust subsidiaries.

The Registration Statement discloses information regarding certain recent developments involving the Corporation and its business and financial results, including:

- In December of 2009, the Corporation's Board of Directors adopted resolutions that prohibit the Corporation from, among other things, paying any dividends on its common stock, its preferred stock, or its trust preferred securities without the prior approval of the Federal Reserve Board and the Michigan Office of Financial and Insurance Regulation.
 - In December of 2009, the Board of Directors of Independent Bank, the Corporation's subsidiary bank (the "Bank"), adopted resolutions that, among other things, require the Bank to achieve and thereafter maintain a minimum ratio of Tier 1 capital to average assets of 8% and a minimum ratio of total risk based capital to risk weighted assets of 11%. These resolutions were adopted in conjunction with discussions with the Bank's federal and state regulators and in response to issues highlighted in the most recent exam report issued by the Bank's primary federal regulator. These resolutions may not be rescinded or materially modified without notice to such federal and state regulators.
 - As required by the Board resolutions adopted by the Board of Directors of the Bank in December, the Corporation and the Bank adopted a comprehensive Capital Restoration Plan in January 2010. The primary objective of the Capital Restoration Plan is to achieve the minimum capital ratios Board resolutions referenced above. The Capital Restoration Plan outlines three primary capital raising initiatives designed to achieve the minimum capital ratios, which initiatives are described in the Registration Statement.
 - Mepco Finance Corporation, a subsidiary of the Bank, expects to record an expense of at least \$12.4 million in the fourth quarter of 2009 (in addition to the \$6.0 million expense taken in the third quarter of 2009) related to the probable failure of its most significant counterparty. Mepco is actively working to reduce its credit exposure to this counterparty and minimize any loss associated with the counterparty's failure. The failure of this counterparty and other events within the vehicle service contract industry will have other effects on the Corporation's consolidated financial results and condition, as Mepco's total earning assets are expected to decrease by 50% in 2010 and continue to decrease in 2011. In addition, it is likely the Corporation will determine that the \$16.7 million of goodwill associated with Mepco will be impaired at year end, resulting in a write off of all or substantially all of the goodwill.
