LETTER TO SHAREHOLDERS

December 2003

Dennis H. Ferro
President and Chief
Executive Officer

Dear Evergreen Shareholder,

We are pleased to provide the annual report for the Evergreen Managed Income Fund for the four-month period ended October 31, 2003. You can expect a full 12-month report at the close of the fund's next fiscal year end on October 31, 2004.

Market analysis

After strong market rallies during the first half of the calendar year, the ensuing four-month period provided investors with a challenging environment, as interest rates bounced dramatically in the early summer months. Sound fundamentals ultimately prevailed during the period ended October 2003, as improved economic growth, better than expected corporate profits and a continuing accommodative monetary policy

supported the fixed income market.

The primary reason for the early volatility in market interest rates was the Federal Reserve's perceived stance on monetary policy. After previously suggesting that deflation was its primary concern, market interest rates were driven lower in anticipation of further Fed easings. Yet when the Fed reduced their target for the federal funds rate by a less than expected 25 basis points in late June, many fixed income investors became alarmed. These worries were compounded by optimistic GDP forecasts from Fed Chairman Alan Greenspan during congressional banking committee hearings in July. As a result of these events, the yield on the 10-year Treasury rose from a low of 3.1% in June to 4.6% in late July. The "deflation trade" in bonds had changed from a significant overbought condition to an oversold one in a matter of six weeks.

1

LETTER TO SHAREHOLDERS continued

The swings in bond prices were accentuated by heavy selling in mortgage portfolios, which would no longer need the "hedge" against prepayment risk provided by Treasuries in a falling rate environment. Additionally, concerns that the rising federal budget deficit would push yields higher caused further selling, as did the Fed's comment that they would not pursue "alternative" methods in enacting monetary policy. Since many investors had hoped for rampant Fed purchases of Treasury bonds, this too resulted in disappointment.

The bond market began to stabilize in August with the likelihood that monetary policy makers would keep rates low for the foreseeable future. While the majority of economic data improved in recent months, the wildcard for investors continued to be sustainable employment growth. The massive investment in technology over the past decade has resulted in efficiencies never before experienced by U.S. businesses. Productivity growth remains high and most companies continue to expand without increasing their workforce.

Diversification within the fixed income markets was obviously necessary to weather last summer's storms in the bond market. Those investors in the Managed Income Fund were able to benefit from its emphasis on allocation during the period. Indeed, many corporate and high yield spreads contracted as investors sought companies with strong balance sheets and improved credit quality. Many investors concluded that as the economy expanded, the operating environment for many issuers would also improve with profits. Also, the mortgage component of the fund was flexible enough to shift its risk emphasis from contraction to extension, using more floating rate securities in order to respond in a higher rate environment. Finally, the international fixed income component provided the opportunity to benefit from improved corporate results overseas as well as the strength in foreign currencies.

NOTES TO FINANCIAL STATEMENTS

1. SIGNIFICANT ACCOUNTING POLICIES

Evergreen Managed Income Fund (the "Fund") was organized as a statutory trust under the laws of the state of Delaware on April 10, 2003 and is registered as a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The Fund

Edgar Filing: EVERGREEN MANAGED INCOME FUND - Form N-CSR

commenced operations on June 25, 2003. The Fund's investment objective is to seek a high level of current income consistent with limiting its overall exposure to domestic interest rate risk.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with generally accepted accounting principles in the United States of America, which require management to make estimates and assumptions that affect amounts reported herein. Actual results could differ from these estimates.

a. Valuation of investments

Portfolio debt securities acquired with more than 60 days to maturity are valued at prices obtained from an independent pricing service which takes into consideration such factors as similar security prices, yields, maturities, liquidity and ratings. Securities for which valuations are not available from an independent pricing service may be valued by brokers which use prices provided by market makers or estimates of market value obtained from yield data relating to investments or securities with similar characteristics.

Short-term securities with remaining maturities of 60 days or less at the time of purchase are valued at amortized cost, which approximates market value.

Investments in other mutual funds are valued at net asset value. Securities for which market quotations are not available are valued at fair value as determined in good faith, according to procedures approved by the Board of Trustees.

b. Repurchase agreements

Securities pledged as collateral for repurchase agreements are held by the custodian bank or in a segregated account in the Fund's name until the agreements mature. Each agreement requires that the market value of the collateral be sufficient to cover payments of interest and principal. However, in the event of default or bankruptcy by the other party to the agreement, retention of the collateral may be subject to legal proceedings. The Fund will only enter into repurchase agreements with banks and other financial institutions, which are deemed by the investment advisor to be creditworthy pursuant to guidelines established by the Board of Trustees.

c. Foreign currency translation

All assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of portfolio securities and income items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Fund does not separately account for that portion of the results of operations resulting from changes in foreign exchange rates on investments and the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gains or losses on securities.

NOTES TO FINANCIAL STATEMENTS continued

d. Forward foreign currency contracts

A forward foreign currency contract is an agreement between two parties to purchase or sell a specific currency for an agreed-upon price at a future date. The Fund enters into forward foreign currency contracts to facilitate transactions in foreign-denominated securities and to attempt to minimize the risk to the Fund from adverse changes in the relationship between currencies. Forward foreign currency contracts are recorded at the forward rate and marked-to-market daily. When the contracts are closed, realized gains and losses arising from such transactions are recorded as realized gains or losses on foreign currency related transactions. The Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts or if the value of the foreign currency changes unfavorably.

e. When-issued and delayed delivery transactions

The Fund records when-issued securities as of trade date and maintains security positions such that sufficient liquid assets will be available to make payment for the securities purchased. Securities purchased on a when-issued or delayed delivery basis are marked-to-market daily and

begin earning interest on the settlement date. Losses may occur on these transactions due to changes in market conditions or the failure of counterparties to perform under the contract.

f. Securities lending

The Fund may lend its securities to certain qualified brokers in order to earn additional income. The Fund receives compensation in the form of fees or interest earned on the investment of any cash collateral received. The Fund also continues to receive interest and dividends on the securities loaned. The Fund receives collateral in the form of cash or securities with a market value at least equal to the market value of the securities on loan, including accrued interest. In the event of default or bankruptcy by the borrower, the Fund could experience delays and costs in recovering the loaned securities or in gaining access to the collateral. The Fund has the right under the lending agreement to recover the securities from the borrower on demand.

g. Security transactions and investment income

Security transactions are recorded on trade date. Realized gains and losses are computed using the specific cost of the security sold. Interest income is recorded on the accrual basis and includes accretion of discounts and amortization of premiums. Foreign income and capital gains realized on some securities may be subject to foreign taxes, which are accrued as applicable.

h. Dollar roll transactions

The Fund may enter into dollar roll transactions with respect to mortgage-backed securities. In a dollar roll transaction, the Fund sells mortgage-backed securities to financial institutions and simultaneously agrees to accept substantially similar (same type, coupon and maturity) securities at a later date at an agreed upon price. The Fund will use the proceeds generated from the transactions to invest in short-term investments, which may enhance the Fund's current yield and total return. The Fund accounts for dollar roll transactions as purchases and sales.

NOTES TO FINANCIAL STATEMENTS continued

i. Federal taxes

The Fund intends to continue to qualify as a regulated investment company and distribute all of its taxable income, including any net capital gains (which have already been offset by available capital loss carryovers). Accordingly, no provision for federal taxes is required.

j. Distributions

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with income tax regulations, which may differ from generally accepted accounting principles.

Reclassifications have been made to the Fund's components of net assets to reflect income and gains available for distribution (or available capital loss carryovers, as applicable) under income tax regulations. The primary permanent differences causing such reclassifications are due to net realized foreign currency gains or losses and amortization of bond premium.

2. ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Evergreen Investment Management Company, LLC ("EIMC"), an indirect, wholly-owned subsidiary of Wachovia Corporation ("Wachovia"), is the investment advisor to the Fund and is paid an annual fee of 0.55% of the Fund's average daily net assets applicable to common shareholders if only common shares are outstanding. The advisory fee increases to 0.82% of the Fund's average daily net assets applicable to common shareholders once preferred shares are issued. The Fund issued preferred shares on August 29, 2003.

First International Advisors, Ltd. ("FIA"), an indirect, wholly-owned subsidiary of Wachovia, is the investment sub-advisor to the Fund and is paid by EIMC for its services to the Fund. Subject to the supervision of EIMC, FIA manages the foreign debt securities portion of the Fund's portfolio in accordance with the Fund's investment objective and policies.

From time to time, EIMC may voluntarily or contractually waive its fee and/or reimburse expenses in order to limit operating expenses. For any fee waivers and/or reimbursements made after January 1, 2003, EIMC may recoup any amounts waived and/or reimbursed up to a period of three years following the end of the fiscal year in which the fee waivers and/or reimbursements were made.

Evergreen Investment Services, Inc. ("EIS"), an indirect, wholly-owned subsidiary of Wachovia, is the administrator to the Fund. As administrator, EIS provides the Fund with facilities, equipment and personnel and is paid an annual administrative fee of 0.05% of the Fund's average daily total assets.

NOTES TO FINANCIAL STATEMENTS continued

3. CAPITAL SHARE TRANSACTIONS

The Fund has authorized capital of 100,000,000 common shares with no par value. For the period from June 25, 2003 (commencement of operations), to October 31, 2003 the Fund issued 42,055,000 common shares.

4. SECURITIES TRANSACTIONS

Cost of purchases and proceeds from sales of investment securities (excluding short-term securities) were as follows for the period ended October 31, 2003:

Cost of Purchases		Proceeds from Sales	
U.S. Government	Non-U.S. Government	U.S. Government	Non-U.S. Government
\$ 335,143,411	\$ 928,577,328	\$ 3,047,858	\$ 58,014,224

At October 31, 2003, the Fund had forward foreign currency exchange contracts outstanding as follows:

Forward Foreign Currency Exchange Contracts to Buy:

Exchange Date	Contracts to Receive	U.S. Value at October 31, 2003	In Exchange for U.S. \$	Unrealized Gain
12/22/2003	3,379,000,000 JPY	\$ 30,740,794	\$ 30,017,254	\$ 723,540

During the period ended October 31, 2003, the Fund loaned securities to certain brokers. At October 31, 2003, the value of securities on loan and the value of collateral (including accrued interest) amounted to \$33,656,447 and \$34,342,810, respectively. During the period ended October 31, 2003, the Fund earned \$318 in income from securities lending which is included in interest income on the Statement of Operations.

On October 31, 2003, the aggregate cost of securities for federal income tax purposes was \$1,216,411,968. The gross unrealized appreciation and depreciation on securities based on tax cost was \$21,634,782 and \$6,477,803, respectively, with a net unrealized appreciation of \$15,156,979.

As of October 31, 2003, the Fund had \$655,237 in capital loss carryovers for federal income tax purposes expiring in 2011.

5. DISTRIBUTIONS TO SHAREHOLDERS

As of October 31, 2003, the components of distributable earnings on a tax basis were as follows:

Undistributed Ordinary Income	Unrealized Appreciation	Capital Loss Carryover
\$ 3,305,231	\$ 15,156,979	\$ 655,237

The differences between the components of distributable earnings on a tax basis and the amounts reflected in the Statement of Assets and Liabilities are primarily due to wash sales, amortization of bond premium and foreign currency gain/loss.

The tax character of distributions paid for the year ended October 31, 2003 was \$17,343,978 of ordinary income.

6. AUCTION MARKET PREFERRED SHARES

The Fund has issued 16,000 Auction Market Preferred Shares ("Preferred Shares") consisting of five series, each with a liquidation value of \$25,000 plus accumulated but unpaid dividends (whether or not earned or declared). Dividends on each series of Preferred Shares are cumulative at a rate which is reset based on the result of an auction. The annualized dividend rate was 1.21% during the period ended October 31, 2003. The Fund will not declare, pay or set apart for payment any dividend to its common shareholders unless the Fund has declared and paid or contemporaneously declares and pays full cumulative dividends on each series of Preferred Shares through its most recent dividend payment date.

Each series of Preferred Shares is redeemable, in whole or in part, at the option of the Fund on any dividend payment date at \$25,000 per share plus any accumulated or unpaid dividends (whether or not earned or declared). Each series of Preferred Shares is also subject to mandatory redemption at \$25,000 per share plus any accumulated or unpaid dividends (whether or not earned or declared) if the requirement relating to the asset coverage with respect to the outstanding Preferred Shares would be less than 200%.

The holders of Preferred Shares have voting rights equal to the holders of the Fund's common shares and will vote together with holders of common shares as a single class. Holders of Preferred Shares, voting as a separate class, are entitled to elect two of the Fund's Trustees.

NOTES TO FINANCIAL STATEMENTS continued

7. EXPENSE REDUCTIONS

Through expense offset arrangements with the Fund's custodian, a portion of fund expenses has been reduced.

8. DEFERRED TRUSTEES' FEES

Each independent Trustee of the Fund may defer any or all compensation related to performance of their duties as Trustees. The Trustees' deferred balances are allocated to deferral accounts, which are included in the accrued expenses for the Fund. The investment performance of the deferral accounts are based on the investment performance of certain Evergreen funds. Any gains earned or losses incurred in the deferral accounts are reported in the Fund's Trustees' fees and expenses. At the election of the Trustees, the deferral account will be paid either in one lump sum or in quarterly installments for up to ten years.

9. CONCENTRATION OF RISK

The Fund may invest a substantial portion of its assets in an industry, sector or foreign country and, therefore, may be more affected by changes in that industry, sector or foreign country than would be a comparable mutual fund that is not heavily weighted in any industry, sector or foreign country.

10. SUBSEQUENT DISTRIBUTIONS

On October 20, 2003, the Fund declared distributions from net investment income of \$0.13084 per share, payable on December 1, 2003 to shareholders of record on November 17, 2003. On November 20, 2003, the Fund declared distributions from net investment income of \$0.13084 per share, payable on January, 2, 2004 to shareholders of record on December 15, 2003. These distributions are not reflected in the accompanying financial statements.

INDEPENDENT AUDITORS' REPORT

Board of Trustees and Shareholders
Evergreen Managed Income Fund

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of the Evergreen Managed Income Fund, as of October 31, 2003, and the related statement of operations and statements of changes in net assets and the financial highlights for the period from June 25, 2003 (commencement of operations) to October 31, 2003. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based

on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2003 by correspondence with the custodian and brokers. As to securities purchased or sold but not yet received or delivered, we performed other appropriate auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Evergreen Managed Income Fund as of October 31, 2003, and the results of its operations, changes in its net assets and financial highlights for each of the periods described above in conformity with accounting principles generally accepted in the United States of America.

AUTOMATIC DIVIDEND REINVESTMENT PLAN (unaudited)

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan ("the Plan"). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by EquiServe Trust Company, N.A., as agent for shareholders in administering the Plan ("Plan Agent"), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as "dividends") payable either in shares or in cash, non-participants in the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common shares. The shares are acquired by the Plan Agent for the participant's account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund ("newly issued common shares") or (ii) by purchase of outstanding common shares on the open market (open-market purchases) on the American Stock Exchange or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions ("market premium"), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant's account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value or market premium ("market discount"), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open-market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010.

Proxy Voting Policy and Procedures

Evergreen Investment Management Company, LLC June 16, 2003

Statement of Principles

Evergreen Investment Management Company, LLC (EIMCO) recognizes it has a fiduciary duty to vote proxies on behalf of clients who have delegated such responsibility to EIMCO, and that in all cases proxies should be voted in a manner reasonably believed to be in the clients' best interest.

Corporate Governance Committee

EIMCO has established a corporate governance committee (Committee), which is a sub-committee of EIMCO's Investment Policy Committee. The Committee is responsible for approving EIMCO's proxy voting policies and procedures, for overseeing the proxy voting process, and for reviewing proxy voting on a regular basis. The Committee will meet quarterly to review reports of all proxies voted for the prior period and to conduct other business as required.

Conflicts of Interest

EIMCO recognizes that under certain circumstances it may have a conflict of interest in voting proxies on behalf of its clients. Such circumstances may include, but are not limited to, situations where EIMCO or one or more of its affiliates has a client or customer relationship with the issuer of the security that is the subject of the proxy vote.

Edgar Filing: EVERGREEN MANAGED INCOME FUND - Form N-CSR

In most cases, structural and informational barriers within EIMCO and Wachovia Corporation will prevent EIMCO from becoming aware of the relationship giving rise to the potential conflict of interest. In such circumstances, EIMCO will vote the proxy according to its standard guidelines and procedures described above.

If persons involved in proxy voting on behalf of EIMCO becomes aware of a potential conflict of interest, the Committee shall consult with EIMCO's Legal Department and consider whether to implement special procedures with respect to the voting of that proxy, including whether an independent third party should be retained to vote the proxy.

Share Blocking

EIMCO does not vote global proxies, with share blocking restrictions, requiring shares to be prohibited from sale.

Proxy Voting Guideline Summary

II. Proxy Contests

III. Auditors

IV. Proxy Contest Defenses

V. Tender Offer Defenses

VI. Miscellaneous Governance Provisions

VII. Capital Structure

VIII. Executive and Director Compensation

IX. State of Incorporation

X. Mergers and Corporate Restructurings

XI. Mutual Fund Proxies

XII. Social and Environmental Issues

I. The Board of Directors

Voting on Director Nominees in Uncontested Elections

Votes on director nominees should be made on a **case-by-case** basis, examining the following factors: composition of the board and key board committees, attendance at board meetings, corporate governance provisions and takeover activity, long-term company performance relative to a market index, directors' investment in the company, whether the chairman is also serving as CEO, and whether a retired CEO sits on the board. However, there are some actions by directors that should result in votes being **withheld**. These instances include directors who:

- Attend less than 75 percent of the board and committee meetings without a valid excuse
- Implement or renew a dead-hand or modified dead-hand poison pill
- Ignore a shareholder proposal that is approved by a majority of the shares outstanding
- Ignore a shareholder proposal that is approved by a majority of the votes cast for two consecutive years
- Have failed to act on takeover offers where the majority of the shareholders have tendered their shares
- Are inside directors and sit on the audit, compensation, or nominating committees
- Are inside directors and the full board serves as the audit, compensation, or nominating committee or the company does not have one of these committees

Edgar Filing: EVERGREEN MANAGED INCOME FUND - Form N-CSR

In addition, directors who enacted egregious corporate governance policies or failed to replace management as appropriate would be subject to recommendations to **withhold** votes.

Separating Chairman and CEO

Vote on a **case-by-case** basis on shareholder proposals requiring that the positions of chairman and CEO be held separately.

Proposals Seeking a Majority of Independent Directors

Shareholder proposals asking that a majority of directors be independent should be evaluated on a case-by-case basis. Vote for shareholder proposals asking that board audit, compensation, and/or nominating committees be composed exclusively of independent directors.

Stock Ownership Requirements

Vote **against** shareholder proposals requiring directors to own a minimum amount of company stock in order to qualify as a director or to remain on the board.

Term of Office

Vote against shareholder proposals to limit the tenure of outside directors.

Age Limits

Vote **against** shareholder proposals to impose a mandatory retirement age for outside directors.

Director and Officer Indemnification and Liability Protection

Proposals on director and officer indemnification and liability protection should be evaluated on a **case-by-case** basis, using Delaware law as the standard. Vote **against** proposals to eliminate entirely directors' and officers' liability for monetary damages for violating the duty of care. Vote **against** indemnification proposals that would expand coverage beyond just legal expenses to acts, such as negligence, that are more serious violations of fiduciary obligation than mere carelessness. Vote **for** only those proposals providing such expanded coverage in cases when a director's or officer's legal defense was unsuccessful if: (1) the director was found to have acted in good faith and in a manner that he reasonably believed was in the best interests of the company, *and* (2) only if the director's legal expenses would be covered.

Charitable Contributions

Vote against proposals regarding charitable contributions.

II. Proxy Contests

Voting for Director Nominees in Contested Elections

Votes in a contested election of directors must be evaluated on a **case-by-case** basis, considering the following factors: long-term financial performance of the target company relative to its industry; management's track record; background to the proxy contest; qualifications of director nominees (both slates); evaluation of what each side is offering shareholders as well as the likelihood that the proposed objectives and goals can be met; and stock ownership positions.

Reimburse Proxy Solicitation Expenses

Voting to reimburse proxy solicitation expenses should be analyzed on a **case-by-case** basis. In cases where Evergreen recommends in favor of the dissidents, we also recommend voting **for** reimbursing proxy solicitation expenses.

III. Auditors

Ratifying Auditors

Edgar Filing: EVERGREEN MANAGED INCOME FUND - Form N-CSR

Vote **for** proposals to ratify auditors, unless: an auditor has a financial interest in or association with the company, and is therefore not independent; or there is reason to believe that the independent auditor has rendered an opinion, which is neither accurate nor indicative of the company's financial position.

IV. Proxy Contest Defenses

Board Structure: Staggered vs. Annual Elections

Vote **against** proposals to classify the board.

Vote **for** proposals to repeal classified boards and to elect all directors annually.

Shareholder Ability to Remove Directors

Vote **against** proposals that provide that directors may be removed only for cause.

Vote **for** proposals to restore shareholder ability to remove directors with or without cause.

Vote **against** proposals that provide that only continuing directors may elect replacements to fill board vacancies.

Vote **for** proposals that permit shareholders to elect directors to fill board vacancies.

Cumulative Voting

Vote **against** proposals to eliminate cumulative voting.

Vote proposals to restore or permit cumulative voting on a **case-by-case** basis relative to the company's other governance provisions.

Shareholder Ability to Call Special Meetings

Vote **against** proposals to restrict or prohibit shareholder ability to call special meetings.

Vote **for** proposals that remove restrictions on the right of shareholders to act independently of management.

Shareholder Ability to Act by Written Consent

Vote **against** proposals to restrict or prohibit shareholder ability to take action by written consent.

Vote **for** proposals to allow or make easier shareholder action by written consent.

Shareholder Ability to Alter the Size of the Board

Vote **for** proposals that seek to fix the size of the board.

Vote **against** proposals that give management the ability to alter the size of the board without shareholder approval.

V. Tender Offer Defenses

Poison Pills

Vote for shareholder proposals that ask a company to submit its poison pill for shareholder ratification.

Review on a **case-by-case** basis shareholder proposals to redeem a company's poison pill.

Review on a **case-by-case** basis management proposals to ratify a poison pill.

Fair Price Provisions

Vote proposals to adopt fair price provisions on a **case-by-case** basis, evaluating factors such as the vote required to approve the proposed acquisition, the vote required to repeal the fair price provision, and the mechanism for determining the fair price.

Generally, vote **against** fair price provisions with shareholder vote requirements greater than a majority of disinterested shares.

Greenmail

Vote **for** proposals to adopt antigreenmail charter of bylaw amendments or otherwise restrict a company's ability to make greenmail payments.

Review on a **case-by-case** basis antigreenmail proposals when they are bundled with other charter or bylaw amendments.

Pale Greenmail

Review on a **case-by-case** basis restructuring plans that involve the payment of pale greenmail.

Unequal Voting Rights

Vote **against** dual-class exchange offers.

Vote **against** dual-class recapitalizations.

Supermajority Shareholder Vote Requirement to Amend the Charter or Bylaws

Vote **against** management proposals to require a supermajority shareholder vote to approve charter and bylaw amendments.

Vote **for** shareholder proposals to lower supermajority shareholder vote requirements for charter and bylaw amendments.

Supermajority Shareholder Vote Requirement to Approve Mergers

Vote **against** management proposals to require a supermajority shareholder vote to approve mergers and other significant business combinations.

Vote **for** shareholder proposals to lower supermajority shareholder vote requirements for mergers and other significant business combinations.

White Squire Placements

Vote **for** shareholder proposals to require approval of blank check preferred stock Issues for other than general corporate purposes.

VI. Miscellaneous Governance Provisions

Confidential Voting

Vote **for** shareholder proposals that request companies to adopt confidential voting, use independent tabulators, and use independent inspectors of election as long as the proposals include clauses for proxy contests as follows: In the case of a contested election, management should be permitted to request that the dissident group honor its confidential voting policy. If the dissidents agree, the policy remains in place. If the dissidents do not agree, the confidential voting policy is waived.

Vote **for** management proposals to adopt confidential voting.

Equal Access

Vote **for** shareholder proposals that would allow significant company shareholders equal access to management's proxy material in order to evaluate and propose voting recommendations on proxy proposals and director nominees, and in order to nominate their own candidates to the board.

Bundled Proposals

Review on a case-by-case basis bundled or "conditioned" proxy proposals. In the case of items that are conditioned upon each other, examine the benefits and costs of the packaged items. In instances when the joint effect of the conditioned items is not in shareholders' best interests, vote against the proposals. If the combined effect is positive, support such proposals.

Shareholder Advisory Committees

Review on a case-by-case basis proposals to establish a shareholder advisory committee.

VII. Capital Structure

Common Stock Authorization

Review proposals to increase the number of shares of common stock authorized for issue on a case-by-case basis.

Vote against proposals to increase the number of authorized shares of the class of stock that has superior voting rights in companies that have dual-class capitalization structures.

Stock Distributions: Splits and Dividends

Vote for management proposals to increase common share authorization for a stock split, provided that the increase in authorized shares would not result in an excessive number of shares available for issuance given a company's industry and performance in terms of shareholder returns.

Reverse Stock Splits

Vote for management proposals to implement a reverse stock split when the number of shares will be proportionately reduced to avoid delisting.

Review on a case-by-case basis on proposals to implement a reverse stock split that do not proportionately reduce the number of shares authorized for Issue.

Preferred Stock

Vote against proposals authorizing the creation of new classes of preferred stock with unspecified voting, conversion, dividend distribution, and other rights ("blank check" preferred stock).

Vote for proposals to create blank check preferred stock in cases when the company expressly states that the stock will not be used as a takeover defense.

Vote for proposals to authorize preferred stock in cases where the company specifies the voting, dividend, conversion, and other rights of such stock and the terms of the preferred stock appear reasonable.

Vote case-by-case on proposals to increase the number of blank check preferred shares after analyzing the number of preferred shares available for Issue given a company's industry and performance in terms of shareholder returns.

Shareholder Proposals Regarding Blank Check Preferred Stock

Vote for shareholder proposals to have blank check preferred stock placements, other than those shares issued for the purpose of raising capital or making acquisitions in the normal course of business, submitted for shareholder ratification.

Adjustments to Par Value of Common Stock

Vote for management proposals to reduce the par value of common stock.

Preemptive Rights

Edgar Filing: EVERGREEN MANAGED INCOME FUND - Form N-CSR

Review on a case-by-case basis shareholder proposals that seek preemptive rights. In evaluating proposals on preemptive rights, consider the size of a company and the characteristics of its shareholder base.

Debt Restructurings

Review on a case-by-case basis proposals to increase common and/or preferred shares and to Issue shares as part of a debt restructuring plan. Consider the following Issues: *Dilution* How much will ownership interest of existing shareholders be reduced, and how extreme will dilution to any future earnings be? *Change in Control* Will the transaction result in a change in control of the company? *Bankruptcy* Generally, approve proposals that facilitate debt restructurings unless there are clear signs of self-dealing or other abuses.

VIII. Executive and Director Compensation

Votes with respect to compensation plans should be determined on a case-by-case basis. Our new methodology for reviewing compensation plans primarily focuses on the transfer of shareholder wealth (the dollar cost of pay plans to shareholders instead of simply focusing on voting power dilution). Using the expanded compensation data disclosed under the SEC's new rules, Evergreen will value every award type. Evergreen will include in its analyses an estimated dollar cost for the proposed plan and all continuing plans. This cost, dilution to shareholders' equity, will also be expressed as a percentage figure for the transfer of shareholder wealth, and will be considered along with dilution to voting power. Once Evergreen determines the estimated cost of the plan, we compare it to a company-specific dilution cap.

Our model determines a company-specific allowable pool of shareholder wealth that may be transferred from the company to executives, adjusted for (1) long-term corporate performance (on an absolute basis and relative to a standard industry peer group and an appropriate market index), (2) cash compensation, and (3) categorization of the company as emerging, growth, or mature. These adjustments are pegged to market capitalization. Evergreen will continue to examine other features of proposed pay plans such as administration, payment terms, plan duration, and whether the administering committee is permitted to reprice underwater stock options without shareholder approval.
