PRESS RELEASE - For Immediate Release

HOME FEDERAL BANCORP, INC. ANNOUNCES FIRST QUARTER EARNINGS

Nampa, ID (January 18, 2007)

- Home Federal Bancorp, Inc. (the "Company") (Nasdaq GSM: HOME), the parent company of Home Federal Bank (the "Bank"), today announced net income for the first quarter of its fiscal year ending September 30, 2007. For the quarter ended December 31, 2006, the Company reported net income of \$1.3 million, or \$0.09 per diluted share compared to \$1.8 million, or \$0.12 per diluted share, for the same period a year ago.

"During the past year, we have maintained solid loan growth and outstanding asset quality despite the challenges of the current interest rate environment," said Daniel L. Stevens, the Company's Chairman and CEO. As a result of a comprehensive and continuing review of the Company's strategic business plan, the Company has recognized an

opportunity to increase its new commercial and small business banking programs. In support of those initiatives, the Bank announced in December 2006 the hiring of Steven D. Emerson as Senior Vice President and Chief Lending Officer of the Bank. "As Chief Lending Officer, Steve will be responsible for expanding the commercial and small business banking programs," said Len Williams, President of Home Federal Bank. "He is well established in the Treasure Valley marketplace and brings tremendous business banking and leadership skills to our management team."

First Quarter Highlights (at or for the periods ended December 31, 2006 compared to December 31, 2005):

- Interest and dividend income increased 17% to \$10.9 million
- Total assets increased 10% to \$767.6 million
- Net loans increased 16% to \$511.6 million
- Non-performing assets decreased from \$180,000 to zero

Operating Results

Revenues for the quarter ended December 31, 2006, which consisted of net interest income before the provision for loan losses plus noninterest income, decreased 5% to \$8.4 million for the quarter, compared to \$8.8 million for the quarter ended December 31, 2005. Net interest income before the provision for loan losses decreased 8% to \$5.5 million for the quarter ended December 31, 2006 compared to \$6.0 million for the same quarter of the prior year as the cost of deposits increased more rapidly than the yield on loans and investments.

A provision for loan losses of \$71,000 was established by management in connection with its analysis of the loan portfolio for the current quarter, compared to a provision for loan losses of \$55,000 established for the same quarter of the prior year. The \$16,000 increase in the provision reflects the increase in loans receivable, partially offset by a reduction of classified assets, nonperforming loans and net charge-offs.

Page 2 of 6

The Company's net interest margin decreased 61 basis points to 3.05% for the quarter ended December 31, 2006, from 3.66% for the same quarter last year. The decline in the net interest margin reflects competitive pricing pressures and the relatively flat yield curve that existed during the quarter, as the cost of shorter-term deposits and borrowed funds increased more rapidly than the yield on longer-term assets. The Company believes the repricing of existing loans and the emphasis on expanding the commercial and small business banking programs, including both loans and deposit products, will help counter the trend in net interest margin, however, pressure will likely continue in the near term as a result of competitive pricing pressures and the flat yield curve environment.

Noninterest income increased 3% to \$2.9 million for the quarter ended December 31, 2006, compared to \$2.8 million for the same quarter a year ago. The increase was primarily attributable to a \$28,000 increase in service charges and fees and a \$52,000 increase in other noninterest income. As a result of the Company's conversion of its core processing system during the quarter ended December 31, 2005, the Company retired fixed assets and software related to the prior system, resulting in an \$86,000 charge to other noninterest income.

Noninterest expense for the quarter ended December 31, 2006 increased \$366,000, or 6%, to \$6.2 million, from \$5.9 million for the comparable period a year earlier. Compensation and benefit expenses increased \$208,000, or 5%, to \$4.0 million for the quarter ended December 31, 2006 as compared to \$3.8 million for the same quarter a year ago. The majority of the increase is attributable to an increase in the number of full-time equivalent employees and annual merit increases. As of December 31, 2006, the Company employed 247 full-time equivalent employees, compared to 231 at December 31, 2005. In October 2006, the Company opened its fifth branch in Canyon County that added 7 full-time equivalent employees. Data processing expenses increased \$167,000, or 49%, as a result of the outsourcing of the Company's check processing function during the conversion of its core processing system in November 2005. The outsourcing costs were offset by a corresponding reduction in compensation, equipment expense and other costs. The Company's efficiency ratio was 74.5% for the quarter ended December 31, 2006 compared to 66.9% for the same quarter a year ago. The efficiency ratio indicates how much is spent on non-interest expenses as a percentage of total revenue.

Balance Sheet Growth

Total assets increased 10% to \$767.6 million at December 31, 2006, compared to \$695.7 million a year earlier. Net loans (excluding loans held for sale) at December 31, 2006 increased 16% to \$511.6 million, compared to \$439.2 million at December 31, 2005. One- to four-family residential loans represented 60% of the Bank's loan portfolio at December 31, 2006, compared to 62% at December 31, 2005. Commercial real estate loans accounted for 30% of the Bank's loan portfolio at December 31, 2006, compared to 28% at December 31, 2005. In the future, the Bank plans to increase its emphasis on commercial and small business banking products.

The Company's credit quality remains exceptional, as there were no non-performing assets at December 31, 2006, compared to \$180,000, or 0.03% of total assets, at December 31, 2005. The allowance for loan losses was \$3.0 million, or 0.59% of gross loans, at December 31, 2006 compared to \$2.9 million, or 0.66% of gross loans, at December 31, 2005.

Deposits increased 4% to \$425.1 million at December 31, 2006 compared to \$410.2 million at December 31, 2005. Demand deposits and savings accounts decreased \$10.9 million, or 5%, as

customers migrated towards higher rate deposit products the past year. Noninterest-bearing demand deposits decreased \$9.5 million, or 20%, to \$37.9 million at December 31, 2006, compared to \$47.4 million at December 31, 2005. The majority of the decrease in noninterest-bearing demand deposits was the result of a single commercial relationship that reduced their outstanding balances by approximately \$8.1 million. Interest-bearing demand deposits increased \$692,000, or less than 1%, to \$130.3 million at December 31, 2006, compared to \$129.6 million at December 31, 2005. Certificates of deposit increased \$25.8 million, or 12%, to \$233.9 million at December 31, 2006, compared to \$208.1 million at December 31, 2005. The majority of the increase in certificates of deposits was in shorter-term deposits of six to 23-month terms. Advances from the Federal Home Loan Bank ("FHLB") increased 29% to \$221.2 million at December 31, 2006 compared to \$171.8 million at December 31, 2005. The Company utilizes advances from the FHLB as an alternative funding source to retail deposits in order to manage funding costs, reduce interest rate risk and to leverage the Balance Sheet.

Stockholders' equity increased \$6.3 million, or 6%, to \$109.5 million at December 31, 2006, compared to \$103.2 million at December 31, 2005. The increase was primarily the result of \$5.7 million in net income for the period, \$738,000 in earned employee stock ownership plan ("ESOP") shares and \$903,000 in equity compensation, offset by

Edgar Filing: HOME FEDERAL BANCORP INC - Form 8-K

\$1.3 million of cash dividends paid to stockholders. The Company's book value per share as of December 31, 2006 was \$7.21 per share based upon 15,189,019 outstanding shares of common stock.
