

SYNGENTA AG
Form 6-K
July 27, 2006

FORM 6-K
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

Report of Foreign Issuer

Pursuant to Rule 13a-16 or 15d-16
of the Securities Exchange Act of 1934

For the month of July 2006

Commission File Number: 001-15152

SYNGENTA AG

(Translation of registrant's name into English)

Schwarzwaldallee 215

4058 Basel

Switzerland

(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F:

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Yes No

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Yes No

Indicate by check mark whether by furnishing the information contained in this Form, the Registrant is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934:

Yes No

If Yes is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): N/A

Re: SYNGENTA AG

Press Release: **Half Year Results 2006**

Filed herewith is a press release related to Syngenta AG. The full text of the press release follows:

Financial Release**Half Year Results 2006**

Basel, Switzerland, 26 July 2006

□ Performance resilient, significant strategic progress □

- Sales 1 percent lower CER⁽¹⁾ at \$5.2 billion
- Crop Protection sales unchanged⁽¹⁾ at \$3.9 billion
- New product sales up 22 percent⁽¹⁾ to \$646 million; AXIAL[®] and AVICTA[®] launches
- Development pipeline accelerating: Crop Protection, Seeds biotech traits
- Earnings per share⁽²⁾ up 9 percent to \$10.44
- \$889 million cash returned to shareholders

Financial Highlights (unaudited)

	Excluding Restructuring & Impairment				As reported under IFRS	
	1 st Half 2006 \$m	1st Half 2005 \$m	Actual %	CER ⁽¹⁾ %	1 st Half 2006 \$m	1st Half 2005 \$m
Sales	5201	5386	- 3	- 1	5201	5386
Net Income⁽³⁾	1056	976	+8		961	912
Earnings per Share	\$10.44	\$9.54	+9		\$9.51	\$8.92

Michael Pragnell, Chief Executive Officer, said:

□ In the first half of 2006 Syngenta performed well. Crop Protection outperformed in challenging northern hemisphere markets where fungicide demand was lower. New products maintained their outstanding record of growth, augmented by the successful launches of AXIAL[®] and AVICTA[®]. Professional Products growth

Edgar Filing: SYNGENTA AG - Form 6-K

accelerated with strong performances in all three businesses. In Seeds, growth was achieved in all businesses with the exception of NAFTA corn due to production-related issues in the first quarter. We also made significant strategic progress: two acquisitions in Lawn & Garden and Vegetables Seeds respectively, a product technology exchange in Crop Protection and a marketing and technology agreement with Pioneer in US corn and soybean seeds. Continued cost discipline enabled us to offset the impact of higher oil-related costs while targeting expenditure to drive future growth, maintaining key performance ratios and increasing earnings.□

- (1) *Growth at constant exchange rates, see Appendix A.*
 - (2) *EPS on a fully-diluted basis, excluding restructuring and impairment.*
 - (3) *Net income attributable to shareholders of Syngenta AG.*
-

Highlights for 2006

Sales at constant exchange rates (CER) were one percent lower. Crop Protection sales* were unchanged; Seeds sales were four percent lower.

EBITDA was unchanged (CER) at \$1.54 billion as operational efficiency savings offset the impact of higher oil-related costs (\$82 million) and funded increased marketing and development expenditure in fast-growing areas of the business.

Earnings per share, excluding restructuring and impairment, were up nine percent to \$10.44, benefiting from higher operating income and a reduction in net financial expense helped by currency exchange gains. After charges for restructuring and impairment, earnings per share were \$9.51 (2005: \$8.92).

Currency: Sales were negatively impacted by two percent due to the relative strength of the US dollar, notably against the Euro. The net impact on EBITDA was one percent.

Crop Protection: Sales in NAFTA were slightly lower mainly as a consequence of lower fungicide sales for soybean rust and reduced corn acres. Double-digit growth was again achieved in Eastern Europe which partially offset a decline in western Europe due to reduced fungicide consumption in cereals and the ongoing impact of subsidy reform. Broad-based sales growth in Asia Pacific was mainly driven by a strong performance in south east Asia. In Latin America, sales increased as a result of effectively combining risk management with successful marketing programs. Sales of new products, notably the CALLISTO® family and ACTARA® again delivered strong growth. AXIAL® was launched successfully in Europe and North America; its strong market reception resulted in an increased peak sales target of over \$200 million. EBITDA was unchanged (CER) at \$1.32 billion.

Professional Products: Sales increased 18 percent as all three businesses: Seed Care, Lawn & Garden and Home Care made important contributions. The main driver was Seed Care where the insecticide CRUISER®, once again, delivered strong US growth; in addition, AVICTA® was launched successfully on cotton in the USA. Performance was also strong in Lawn & Garden, notably Ornamentals; this business was augmented in July by the acquisition of Conrad Fafard, Inc., a leading North American growing media company.

Seeds: Sales increased in all regions with the exception of NAFTA where production-related issues in US corn in the first quarter resulted in lower sales. An important strategic alliance was agreed with Pioneer to create the joint venture, GreenLeaf Genetics, broadening the germplasm and traits offer to independent seeds companies in the USA. In Vegetables, demand for fresh produce continued to grow and the acquisition of Emergent Genetics Vegetable A/S was completed, further expanding the product offer. Sales in Flowers rose slightly. Diverse Field Crops maintained growth momentum driven primarily by demand for oil crops in Eastern Europe. EBITDA was four percent lower (CER) at \$275 million.

R & D Pipeline: In Crop Protection, good progress was made in the development pipeline including the in-licensing of the novel insecticide Rynaxypyr from DuPont. With peak sales potential of more than \$200 million, this product is targeted for launch in 2008. In addition, two fungicides 520 and 524, passed important milestones and were advanced into late development. In Seeds, the development of a complete range of stacked input traits in corn is on track for 2008. In addition, from 2008 the company aims to launch a number of second generation traits including: corn amylase for enhanced bioethanol production; Optimum GAT herbicide-resistant trait in soybean, licensed from Pioneer; lepidoptera insect control in corn; and drought tolerant corn.

* Crop Protection sales include \$36 million of inter-segment sales.

Operational efficiency: Total restructuring and impairment charges during the period were \$130 million (cash: \$70 million; non-cash: \$60 million) largely relating to the program to streamline global operations, announced in February 2004. Savings in the first half were \$106 million and peak savings of \$425 million are expected by the end of 2008. Restructuring costs are expected to be around \$850 million between 2004 and 2008 including non-cash charges of \$350 million.

Cash flow and balance sheet: The ratio of average trade working capital as a percentage of sales was higher at 42 percent (2005: 39 percent) due to an increase in inventories. Fixed capital expenditure of \$81 million was below depreciation of \$109 million.

Taxation: The underlying tax rate for the period was 22 percent (2005: 24 percent). The tax rate is expected to remain in the low twenties over the medium term.

Cash return to shareholders: The company continued its share repurchase program in the first half of 2006, repurchasing 3.3 million shares through the put option structure announced in February; a total dividend of \$260 million was paid on 11 July in the form of a nominal value reduction. The total returned to shareholders to date in 2006 is \$889 million; since May 2004 total cash returned is \$1.6 billion. The 2.3 million shares repurchased in 2005 were cancelled on 6 July.

Outlook

Michael Pragnell, Chief Executive Officer, said:

□ Looking ahead, we see numerous opportunities to capture growth across all our businesses. Continuing market share gains and the exciting potential of the pipeline in Crop Protection, the increasing promise of our biotechnology traits in US corn seeds and the further expansion of Professional Products, coupled with continued cost discipline, reinforce our confidence in targeting double digit growth in earnings per share* through 2008. □

* Fully diluted, before restructuring, impairment and share repurchase program

Crop Protection

For a definition of constant exchange rates, see Appendix A. 2005 product line and regional sales have been restated to include inter-segment sales

Product line	Half Year		Growth		2 nd Quarter		Growth	
	2006 \$m	2005 \$m	Actual %	CER %	2006 \$m	2005 \$m	Actual %	CER %
Selective herbicides	1313	1351	- 3	- 1	703	736	- 5	- 5
Non-selective herbicides	422	391	+8	+8	255	228	+12	+11
Fungicides	1065	1201	-11	- 8	526	605	-13	-12
Insecticides	602	601	-	+3	307	296	+4	+5
Professional products	490	419	+17	+18	246	191	+29	+29
Others	24	24	-2	+2	7	0	-	-
Total	3916	3987	-2	-	2044	2056	-	-

Selective Herbicides: major brands AXIAL[®], CALLISTO[®] family, DUAL[®]/BICEP[®] MAGNUM, ENVOKE[®], FUSILADE[®] MAX, TOPIK[®]

Sales of the CALLISTO[®] family continued to grow in NAFTA offsetting the impact of lower corn acres in the USA and also showed good growth across Europe. AXIAL[®] was launched successfully in the USA, Canada, UK, Germany and Australia. Growth in Latin America largely offset slightly lower sales in NAFTA, in comparison with a strong first half in 2005.

Non-selective Herbicides: major brands GRAMOXONE[®], TOUCHDOWN[®]

TOUCHDOWN[®] registered double digit growth, driven by an expanded product range in the USA and market share gains in Argentina. GRAMOXONE[®] performed well in Latin America and in Asia, with a successful launch of the INTEON[®] formulation in South Korea and good growth in other south east Asian markets.

Fungicides: major brands AMISTAR[®], BRAVO[®], RIDOMIL GOLD[®], SCORE[®], TILT[®], UNIX[®]

Fungicides were lower primarily due to limited advance purchases of soybean rust products in the USA. Sales in Europe were also lower as cold weather reduced consumption in cereals; market position was, however, reinforced through the introduction of new BRAVO[®]/triazole combinations to combat *septoria* resistance. Sales were higher in Brazil.

Insecticides: major brands ACTARA[®], FORCE[®], KARATE[®], PROCLAIM[®], VERTIMEC[®]

ACTARA[®] and PROCLAIM[®] continued their growth trend. FORCE[®] performed well and gained share in the chemical corn rootworm market in the USA. Growth was registered in most regions, notably Asia and Eastern Europe.

Professional Products: major brands AVICTA[®], CRUISER[®], DIVIDEND[®], HERITAGE[®], ICON[®], MAXIM[®]

Growth was achieved in all businesses: Seed Care, Lawn & Garden and Home Care. The main driver was Seed Care, with the successful launch of AVICTA[®] on cotton. CRUISER[®] continued to expand rapidly on a number

of crops, notably corn and soybean in the USA. In Lawn & Garden growth was driven by Ornamentals.

SYNGENTA HALF YEAR RESULTS 2006 / PAGE 4 OF 27

Regional	Half Year		Growth		2 nd Quarter		Growth	
	2006 \$m	2005 \$m	Actual %	CER %	2006 \$m	2005 \$m	Actual %	CER %
Europe, Africa & Middle East	1452	1569	- 7	- 2	708	751	- 6	- 4
NAFTA	1579	1582	-	- 1	928	952	- 3	- 3
Latin America	327	307	+6	+6	145	115	+26	+26
Asia Pacific	558	529	+5	+8	263	238	+11	+12
Total	3916	3987	- 2	-	2044	2056	-	-

Europe, Africa and the Middle East: Western European markets were affected by a late start to the season which reduced cereal fungicide usage and by the progressive implementation of subsidy reform. AXIAL® was launched successfully in the UK and Germany, generating strong grower demand. Eastern Europe continued its double-digit growth trend with a strong performance throughout the region.

In **NAFTA** sales were slightly lower due to a weaker farm economy, a decline in corn acreage and the non-recurrence of advance fungicide sales. These factors were largely offset by the strong performance of non-selective herbicides, insecticides, professional products, the continued success of new products notably CALLISTO®, ACTARA®, the launch of AXIAL® in cereals and in seed treatment CRUISER® and the launch of AVICTA® on expanded cotton acreage.

Latin America: Sales in the low season were higher due primarily to a strong performance in Brazil. The company increased share in Brazil through the expanded implementation of effective risk management and successful marketing programs. This resulted in a resilient performance in the face of lower farmer profitability arising from the appreciation of the Real.

Asia Pacific: Growth was widespread across the region with notable contributions from South East Asia, China, Australia and South Korea. The broad fungicide and insecticide portfolio continues to support expansion in the region in the major crops of rice and vegetables.

Seeds

For a definition of constant exchange rates, see Appendix A.

Product line	Half Year		Growth		2 nd Quarter		Growth	
	2006 \$m	2005 \$m	Actual %	CER %	2006 \$m	2005 \$m	Actual %	CER %
Corn & Soybean	708	791	-10	- 9	210	220	- 4	- 4
Diverse Field Crops	242	242	-	+6	83	84	- 1	-
Vegetables & Flowers	370	376	- 2	+2	181	184	- 1	-
Total	1320	1409	- 6	- 4	474	488	- 3	-2

Field Crops: major brands NK®, GARST®, GOLDEN HARVEST® corn and oilseeds, HILLESHÖG® sugar beet

Edgar Filing: SYNGENTA AG - Form 6-K

First quarter production-related issues in US corn accounted for the decline in Corn and Soybean sales; soybean sales were higher with gains in both volume and price. Diverse field crops performed well with strong growth in oilseeds in Eastern Europe.

SYNGENTA HALF YEAR RESULTS 2006 / PAGE 5 OF 27

Vegetables and Flowers: major brands S&G® vegetables, ROGERS® vegetables, S&G® flowers

Vegetables maintained its record of steady growth with further expansion in the emerging markets of Latin America and Asia-Pacific. In the developed markets, demand for fresh vegetables continues to grow while the processing segment remains competitive. Branded Fresh Produce continued to make good progress with the launch of additional new products. Sales of S&G® flowers improved slightly in more stable market conditions.

SYNGENTA HALF YEAR RESULTS 2006 / PAGE 10 OF 27

Unaudited Interim Condensed Consolidated Financial Statements

The following interim condensed consolidated financial statements and notes thereto have been prepared in accordance with International Financial Reporting Standards (IFRS) as per Note 1. A reconciliation to US GAAP has been prepared for US investors.

Unaudited Interim Condensed Consolidated Income Statement

For the six months to 30 June	2006 \$m	2005 \$m
Sales	5201	5386
Cost of goods sold	(2402)	(2539)
Gross profit	2799	2847
Marketing and distribution	(727)	(727)
Research and development	(387)	(406)
General and administrative	(335)	(406)
Restructuring and impairment	(123)	(68)
Operating income	1227	1240
Income/(loss) from associates and joint ventures	(6)	3
Financial expense, net	12	(46)
Income before taxes	1233	1197
Income tax credit/(expense)	(265)	(281)
Net income from continuing operations	968	916
Discontinued operations	-	-
Net income/(loss)	968	916
Attributable to:		
- Minority interests	7	4
- Syngenta AG shareholders	961	912
Earnings/(loss) per share(1)		
- Basic	\$9.69	\$9.04
- Diluted	\$9.51	\$8.92

(1) The weighted average number of ordinary shares in issue used to calculate the earnings per share were as follows: for 2006 basic EPS 99,137,067 and diluted EPS 101,077,106; 2005 basic EPS 100,914,953 and diluted EPS 102,255,763.

Notes to the Unaudited Interim Condensed Consolidated Financial Statements

Note 1: Basis of Preparation

Nature of operations: Syngenta AG (‘‘Syngenta’’) is a world leading crop protection and seeds business that is engaged in the discovery, development, manufacture and marketing of a range of agricultural products designed to improve crop yields and food quality.

Basis of presentation and accounting policies: The condensed consolidated financial statements for the six months ended 30 June 2006 have been prepared in accordance with International Financial Reporting Standards (IFRS), which comprise standards and interpretations approved by the International Accounting Standards Board (IASB), and International Accounting Standards and Standing Interpretations Committee interpretations approved by the International Accounting Standards Committee (IASC) that remain in effect. The interim consolidated financial statements have been prepared in accordance with our policies as set out in the 2005 Financial Report, except as noted below. These principles differ in certain significant respects from generally accepted accounting principles in the United States (‘‘US GAAP’’). Application of US GAAP would have affected shareholders’ net income for the six months ended, and shareholders’ equity as of, 30 June 2005 and 2006, as detailed in Note 6.

The condensed consolidated financial statements are presented in United States dollars (‘‘\$’’) as this is the major trading currency of the company.

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimated.

Note 2: Changes in Accounting Policies - IFRS

Syngenta has applied IFRIC 4, ‘‘Determining whether an Arrangement contains a Lease’’, and IFRIC 5, ‘‘Rights to Interests arising from Decommissioning, Restoration and Environmental Rehabilitation Funds’’, with effect from 1 January 2006. Neither Interpretation had a material effect on these condensed consolidated financial statements. Also, Syngenta has applied IFRIC 8, ‘‘Scope of IFRS 2’’, early as from 1 January 2006. IFRIC 8 had no effect on these condensed consolidated financial statements.

Note 3: Changes in the Scope of Consolidation

On 1 June 2006, Syngenta acquired 100% of the shares of Emergent Genetics Vegetable A/S (EGV), an established vegetable seed company specialized in breeding and marketing of selected vegetable crops. Also, on 10 July 2006, Syngenta announced that it had entered into an agreement to acquire Conrad Fafard, Inc. (Fafard), a leading North American producer of packaged growing media to professional ornamental growers and the consumer retail market, for \$133 million. The Fafard acquisition is still subject to the approval of Fafard's shareholders and of regulatory authorities.

Syngenta purchased the remaining 2% of Syngenta Nantong Crop Protection Co. Ltd in February 2005, increasing its holding to 100% at a cost of \$1 million.

Note 4: Restructuring and Impairment

For the six months to 30 June	1 st Half 2006			1st Half 2005		
	\$m	\$m	\$m	\$m	\$m	\$m
Reversal of inventory-step-up (in Cost of goods sold)			(7)			(24)
Restructuring costs:						
Write-off or impairment						
- property, plant & equipment	(14)			(5)		
- intangible assets	(38)			-		
- inventories	-			(3)		
Non-cash pension restructuring charges	(1)			2		
Total non-cash restructuring costs		(53)			(6)	
Cash costs						
- operational efficiency	(62)			(49)		
- Seeds acquisition integration	(8)			(12)		
- other cash costs	-			(1)		
Total cash restructuring costs		(70)			(62)	
Other impairment of assets		-			-	
			(123)			(68)
Total restructuring and impairment charge			(130)			(92)

Restructuring represents the effect on reported performance of initiating business changes which are considered major and which, in the opinion of management, will have a material effect on the nature and focus of Syngenta's operations, and therefore require separate disclosure to provide a more thorough understanding of business performance. Restructuring includes the effects of completing and integrating significant business combinations and divestments. The incidence of these business changes may be periodic and the effect on reported performance of initiating them will vary from period to period. Because each such business change is different in nature and scope, there will be little continuity in the detailed composition and size of the reported amounts which affect performance in successive periods. Separate disclosure of these amounts facilitates the understanding of performance including and excluding items affecting comparability. Reported performance before restructuring and impairment is one of the measures used in Syngenta's employee incentive compensation schemes. Syngenta's definition of restructuring and impairment may not be comparable to similarly titled line items in financial statements of other companies.

Restructuring and impairment includes the impairment costs associated with major restructuring and also impairment losses and reversals of impairment losses resulting from major changes in the markets in which a reported segment operates.

In 2006 Syngenta continued to incur costs associated with restructuring announced in 2004 and 2005, under both the operational efficiency program and the integration of the Garst and Golden Harvest Seeds businesses acquired in 2004. In addition, in 2006 Syngenta negotiated an early exit from a long-term supply contract entered into as part of a product acquisition, where lower cost sources are now available. This involved cash costs of \$35 million and a \$38m write-off of an intangible asset for the supply agreement capitalized as part of the product purchase accounting.

Impairment of property, plant & equipment in 2006 includes \$12 million accelerated depreciation of manufacturing sites, whose closure was announced in 2004 and 2005, and \$2 million related to other asset impairments also linked to the operational efficiency restructuring program.

The \$7 million (2005: \$24 million) inventory step-up charge completes the write-off of the purchase accounting adjustments related to seed inventories acquired in the Garst and Golden Harvest business combinations. Purchase accounting rules require the book value of acquired finished goods inventories to be stepped up to fair value less costs to sell, with a corresponding reduction in goodwill. The stepped-up amount is expensed as the acquired inventories are sold. This adjustment does not affect cash flows, and inventories produced after the acquisition date are valued at their production cost.

Restructuring and impairment charges in 2005 included costs associated with the closure of one Crop Protection production site, announced in 2005, together with the rationalization of one further production site, both of which were part of the operational efficiency program. Charges also included the first full year of the program to integrate the Garst and Golden Harvest acquisitions. Cash costs of \$62 million and non-current asset impairments totaling \$5 million were recorded in the first half 2005.

Note 5: Principal Currency Translation Rates

As an international business selling in over 100 countries, with major manufacturing and R&D facilities in Switzerland, the UK and the USA, movements in currencies impact business performance. The principal currencies and adopted exchange rates against the US dollar used in preparing the financial statements contained in this communication were as follows:

	Average 1st Half 2006	Average 1st Half 2005	Period end 30 June 2006	Period end 30 June 2005
Brazilian real. BRL	2.22	2.59	2.18	2.36
Swiss franc. CHF	1.28	1.19	1.23	1.28
Euro. EUR	0.82	0.77	0.79	0.83
British pound. GBP	0.56	0.53	0.55	0.56
Japanese yen. JPY	115.7	105.1	114.7	110.5

The above average rates are an average of the monthly rates used to prepare the consolidated income and cash flow statements. The period end rates were used for the preparation of the consolidated balance sheet.

Note 6: Reconciliation to US GAAP from the Interim Consolidated Financial Statements

The condensed consolidated financial statements have been prepared in accordance with IFRS which, as applied by Syngenta, differs in certain significant respects from US GAAP. The effects of the application of US GAAP to net income and equity are set out in the following tables:

Net income (for the six months ended 30 June)	2006	2005
	\$m	\$m
Net income/(loss) under IFRS attributable to Syngenta AG shareholders	961	912
US GAAP adjustments:		
Purchase accounting:		
Zeneca Agrochemicals	28	3
Other acquisitions	(42)	(42)
Impairment losses	-	(7)
Restructuring charges	(19)	(15)
Pension provisions (including post-retirement benefits)	(3)	(4)
Deferred taxes on stock-based compensation	11	(3)
Deferred taxes on unrealized profit in inventory	23	(22)
Other items	2	22
Deferred tax valuation allowances	4	-
Tax on undistributed earnings of subsidiaries	-	-
Deferred tax effect on US GAAP adjustments	6	10
Net income/(loss) under US GAAP attributable to Syngenta AG shareholders	971	854
Weighted average number of ordinary shares in issue (million) □ basic	99.137	100.915
Weighted average number of ordinary shares in issue (million) □ diluted	100.864	102.256
Earnings/(loss) per share under US GAAP (basic)	9.79	8.46
Earnings/(loss) per share under US GAAP (diluted)	9.63	8.35

For the six months ended 30 June 2006, net income under IFRS attributable to Syngenta AG shareholders was \$961 million, compared to a net income of \$971 million under US GAAP.

In the past, different purchase accounting rules, and different subsequent goodwill accounting, were applied in accordance with IFRS compared to those applied in accordance with US GAAP. For intangible assets, this has led to different balance sheet values and amortization charges in each subsequent accounting period, including 2005 and 2006. The \$(42) million reconciling item for other acquisitions mainly arises because the Sandoz and Ciba-Geigy merger was accounted for as a uniting of interests under IFRS. For US GAAP the merger was accounted for as a purchase, including recognition and subsequent amortization of purchased product rights. The \$28 million reconciling item for Zeneca Agrochemicals for 2006 consists principally of the IFRS net book value of the ACANTO[®] product rights which were sold to DuPont during the period. These product rights were not recognized under US GAAP purchase accounting rules, so that there is no corresponding US GAAP charge to write off the net book value on their disposal.

The \$(19) million reconciling item (2005: \$(15) million) for restructuring charges represents employee termination costs which were recorded under IFRS in previous periods, but, in accordance with US GAAP, are being recognized in the periods in which the employees complete their remaining service. The \$22 million reconciling □other items□ in the first six months of 2005 mainly represents differences in the IFRS and US GAAP rules on recognition in net

income of gains and losses on hedging currency exposures resulting from forecast intercompany cash flows. IFRS and US GAAP rules in this area were aligned by changes to IFRS at the end of 2005 which have been applied prospectively, as permitted by the relevant transition requirements. No corresponding adjustment therefore exists in 2006.

SYNGENTA HALF YEAR RESULTS 2006 / PAGE 19 OF 27

	2006	2005
	\$m	\$m
Shareholders' equity (as at 30 June)		
Shareholders' equity under IFRS	5771	5673
US GAAP adjustments:		
Purchase accounting:		
Zeneca agrochemicals	(458)	(480)
Other acquisitions	682	764
Impairment losses	16	16
Restructuring charges	41	53
Pension provisions (including post-retirement benefits)	17	(180)
Deferred taxes on stock-based compensation	(24)	(30)
Deferred taxes on unrealized profit in inventory	(97)	(106)
Other items	36	33
Deferred tax valuation allowances	-	(30)
Tax on undistributed earnings of subsidiaries	(26)	(27)
Deferred tax effect on US GAAP adjustments	(170)	(117)
Shareholders' equity under US GAAP	5788	5569

The \$180 million reconciling item in shareholders' equity for pension provisions at 30 June 2005 included \$229 million which had been directly charged to US GAAP shareholders' equity to make pension provisions equal to the unfunded pension liability for each pension plan on an accumulated benefit basis. This adjustment has largely been reversed because the \$350 million lump sum contributions made by Syngenta in December 2005 eliminated the accumulated benefit basis deficits in Syngenta's main UK and US pension plans. The deferred tax effect of this reversal accounts for the increase in the "Deferred tax effect on US GAAP adjustments" reconciling item.

Note 7: New US GAAP Accounting Pronouncements and Other Disclosures

No US GAAP pronouncements with a material effect on the condensed consolidated financial statements were adopted by Syngenta in the six months ended 30 June 2006.

The US GAAP expense for pension and other post-retirement benefits for the six months was as follows:

	Pension		Other post-retirement benefits	
	2006	2005	2006	2005
	\$m	\$m	\$m	\$m
For the six months to 30 June				
Current service cost	(62)	(58)	(1)	(1)
Interest cost	(91)	(84)	(5)	(5)
Expected return on assets	101	81	3	3
Employee contributions	14	11	-	-
Amortization of actuarial losses	(15)	(10)	(3)	(3)
Past service cost	(2)	(2)	2	2
Curtailments and settlements	(2)	(16)	-	-
Expense for pension and other post-retirement benefits under US GAAP	(57)	(78)	(4)	(4)

Supplementary Financial Information

Appendix A: Constant Exchange Rates (CER)

In this report results from one period to another period are, where appropriate, compared using constant exchange rates (CER). To present that information, current period results for entities reporting in currencies other than US dollars are converted into US dollars at the prior period's exchange rates, rather than at the exchange rates for the current year. CER margin percentages for gross profit and EBITDA are calculated by the ratio of these measures to sales after restating the measures and sales at prior period exchange rates. The CER presentation indicates the underlying business performance before taking into account currency exchange fluctuations. See Note 5: Principal Currency Translation Rates on page 18 for information on average exchange rates in 2006 and 2005.

Appendix B: Free Cash Flow

Free cash flow comprises cash flow after operating activities and investing activities prior to discontinued operations and capital financing activities such as drawdown or repayment of debt, dividends paid to Syngenta Group shareholders, share repurchase and other equity movements. Free cash flow is not a measure of financial performance under generally accepted accounting principles and the free cash flow measure used by Syngenta may not be comparable to similarly titled measures of other companies. Free cash flow has been included as it is used by many investors as a useful supplementary measure of cash generation.

For the six months to 30 June	2006	2005
	\$m	\$m
Cash flow from operating activities	191	38
Cash flow used for investing activities	(93)	(63)
Free cash flow	98	(25)

Appendix C: Reconciliation of EBITDA⁽¹⁾ to Net Income

EBITDA is defined as earnings before interest, tax, minority interests, depreciation, amortization and impairment. Information concerning EBITDA has been included as it is used by management and by investors as a supplementary measure of operating performance and is used by Syngenta as the basis of part of its employee incentive schemes. Management focuses on EBITDA excluding restructuring as this excludes items affecting comparability from one period to the next. EBITDA is not a measure of cash liquidity or financial performance under generally accepted accounting principles and the EBITDA measures used by Syngenta may not be comparable to other similarly titled measures of other companies. EBITDA should not be construed as an alternative to operating income or cash flow as determined in accordance with generally accepted accounting principles.

	1st Half 2006 \$m	1st Half 2005 \$m
Net income attributable to Syngenta AG shareholders	961	912
Minority interests	7	4
Income tax (credit)/expense	265	281
Financial expenses, net	(12)	46
Pre-tax restructuring and impairment	130	92
Depreciation, amortization and other impairment	192	229
EBITDA excluding restructuring	1543	1564

Appendix D: Reconciliation of Segment EBITDA to Segment Operating Income⁽¹⁾

	1st Half 2006			1st Half 2005		
	Crop Protection	Seeds	Plant Science	Crop Protection	Seeds	Plant Science
	\$m	\$m	\$m	\$m	\$m	\$m
Operating income	1158	248	(44)	1122	270	(60)
Income/(loss) from associates and joint ventures	(1)	-	(5)	-	-	3
Depreciation, amortization and other impairment	163	27	2	196	30	3
EBITDA	1320	275	(47)	1318	300	(54)

(1) Excluding restructuring and impairment, see Note 4 on page 16.

Appendix E: Net Debt Reconciliation

Net debt comprises total debt net of related hedging derivatives and cash and cash equivalents. Net debt is not a measure of financial position under generally accepted accounting principles and the net debt measure used by Syngenta may not be comparable to the similarly titled measure of other companies. Net debt has been included as it is used by many investors as a useful measure of financial position and risk. The following table provides a reconciliation of movements in net debt during the period:

	2006	2005
	\$m	\$m
Opening balance at 1 January	865	864
Acquisitions and other non-cash items	10	20
Foreign exchange effect on net debt	34	(54)
Purchase/(sale) of treasury shares	584	271
Dividends paid to group shareholders	-	-
Dividends paid to minorities	3	1
Discontinued operations	-	-
Free cash flow	(98)	25
Closing balance as at 30 June	1398	1127
Constituents of closing balance;

Cautionary Statement Regarding Forward-Looking Statements

This document contains forward-looking statements, which can be identified by terminology such as "expect", "would", "will", "potential", "plans", "prospects", "estimated", "aiming", "on track" and similar expressions. Such statements may be subject to risks and uncertainties that could cause the actual results to differ materially from these statements. We refer you to Syngenta's publicly available filings with the US Securities and Exchange Commission for information about these and other risks and uncertainties. Syngenta assumes no obligation to update forward-looking statements to reflect actual results, changed assumptions or other factors. This document does not constitute, or form part of, any offer or invitation to sell or issue, or any solicitation of any offer, to purchase or subscribe for any ordinary shares in Syngenta AG, or Syngenta ADSs, nor shall it form the basis of, or be relied on in connection with, any contract therefore.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
