Description

99.1

Announcement dated October 30, 2007.

(Incorporated in Hong Kong with limited liability under the Companies Ordinance)
(Stock Code: 883)

ANNOUNCEMENT

The Board hereby announces certain selected unaudited key operational statistics of the Group for the third quarter of 2007 (ended 30 September 2007). The comparative statistics for the third quarter of 2006 (ended 30 September 2006) are also disclosed in this announcement.

The Board of Directors of CNOOC Limited (the “Company”) (the “Board”) hereby announces certain selected unaudited key operational statistics of the Company and its subsidiaries (the “Group”) for the third quarter of 2007 (ended 30 September 2007). The comparative statistics for the third quarter of 2006 (ended 30 September 2006) are also disclosed in this announcement.

The Company's unaudited oil and gas revenue for the third quarter of 2007 amounted to RMB 18.2 billion (equivalent to US\$2.39 billion). The Company also achieved a total net daily production of 476,937 barrels of oil equivalent (BOE), an increase of 3.8% from the same period in 2006, which exceeded our expectation, mainly attributable to Lihua 11-1 and overseas production growth.

In the third quarter of 2007, the Company's net production offshore China was almost flat from the same quarter last year, reaching 417,482 barrels of oil equivalent (BOE) per day. Crude oil and liquids production offshore China was 347,627 barrels per day. Gas production offshore China was 407 million cubic feet per day. Net production overseas was 59,455 BOE per day, an increase of 43.0%, largely due to increases of production volume from NWS LNG project in Australia.

Total unaudited revenues were RMB18.3 billion (equivalent to US\$2.41 billion) for the third quarter of 2007. In the third quarter of 2007, the Company's realized crude oil price was US\$ 67.37 per barrel, representing a year-on-year (“YOY”) increase of 9.0%. The Company's realized gas price was US\$3.42 per thousand cubic feet, representing a YOY growth of 1.0%.

In the third quarter of 2007, SES Gas Project Phase II in Indonesia has started production. On exploration side, the Company independently made one new discovery offshore China, namely Panyu 10-2. The Company also successfully made eleven appraisal wells offshore China in the third quarter, which will contribute to our reserve growth in the near future.

The Company's development projects announced at the beginning of this year were progressing on track. The Company's development capital expenditure increased by 54.6% to RMB 5,850 million (equivalent to US\$771 million), compared to the same period last year, due to most of our major development projects were still in process for the third quarter of 2007. Meanwhile, exploration capital expenditure increased by 42.0% to RMB1,183 million (equivalent to US\$156 million), compared to the same period last year, as a result of intensified exploration activities.
