5.125% Subordinated Tier 2 Notes due 2024	New York Stock Exchange
Leveraged CPI Linked Securities due January 13, 2020	NYSE MKT

* Not for trading, but only in connection with the registration of American Depositary Shares representing such ordinary shares pursuant to the requirements of the Securities and Exchange Commission.

Securities registered or to be registered pursuant to Section 12(g) of the Act:

None

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:

Perpetual Subordinated Contingent Convertible Additional Tier 1 Capital Notes callable 2020	Irish Stock Exchange
	Irish Stock Exchange
Perpetual Subordinated Contingent Convertible Additional Tier 1 Capital Notes callable 2021	Irish Stock Exchange
Perpetual Subordinated Contingent Convertible Additional Tier 1 Capital Notes callable 2025	

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of December 31, 2016, the close of the period covered by the annual report:

(Title of each class)	(Number of outstanding shares)
Ordinary shares of £1 each	11,823,163,184
11% cumulative preference shares	500,000
5½% cumulative preference shares	400,000
Non-cumulative dollar preference shares, Series F, H, L and S to U	72,430,109
Non-cumulative convertible dollar preference shares, Series 1	64,772
Non-cumulative euro preference shares, Series 1 to 3	2,044,418
Non-cumulative convertible sterling preference shares, Series 1	14,866
Non-cumulative sterling preference shares, Series 1	54,442

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

Yes No

Edgar Filing: ROYAL BANK OF SCOTLAND GROUP PLC - Form 20-F

Note – Checking the box above will not relieve any registrant required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 from their obligations under those Sections.

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of “accelerated filer and large accelerated filer” in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-Accelerated filer

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

U.S. GAAP

International Financial Reporting Standards as issued by the International Accounting Standards Board

Other

If “Other” has been checked in response to the previous question, indicate by check mark which financial statement item the registrant has elected to follow.

Item 17 Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Forward looking statements

Cautionary statement regarding forward-looking statements

Certain sections in this document contain 'forward-looking statements' as that term is defined in the United States Private Securities Litigation Reform Act of 1995, such as statements that include the words 'expect', 'estimate', 'project', 'anticipate', 'commit', 'believe', 'should', 'intend', 'plan', 'could', 'probability', 'risk', 'Value-at-Risk (VaR)', 'target', 'goal', 'objective', 'may', 'endeavour', 'outlook', 'optimistic', 'prospects' and similar expressions or variations on these expressions.

In particular, this document includes forward-looking statements relating, but not limited to: future profitability and performance, including financial performance targets such as return on tangible equity; cost savings and targets, including cost:income ratios; litigation and government and regulatory investigations, including the timing and financial and other impacts thereof; structural reform and the implementation of the UK ring-fencing regime; the implementation of RBS's transformation programme, including the further restructuring of the NatWest Markets business; the satisfaction of the Group's residual EU State Aid obligations; the continuation of RBS's balance sheet reduction programme, including the reduction of risk-weighted assets (RWAs) and the timing thereof; capital and strategic plans and targets; capital, liquidity and leverage ratios and requirements, including CET1 Ratio, RWA equivalents (RWAE), Pillar 2 and other regulatory buffer requirements, minimum requirement for own funds and eligible liabilities, and other funding plans; funding and credit risk profile; capitalisation; portfolios; net interest margin; customer loan and income growth; the level and extent of future impairments and write-downs, including with respect to goodwill; restructuring and remediation costs and charges; future pension contributions; RBS's exposure to political risks, operational risk, conduct risk, cyber and IT risk and credit rating risk and to various types of market risks, including as interest rate risk, foreign exchange rate risk and commodity and equity price risk; customer experience including our Net Promotor Score (NPS); employee engagement and gender balance in leadership positions.

Limitations inherent to forward-looking statements

These statements are based on current plans, estimates, targets and projections, and are subject to significant inherent risks, uncertainties and other factors, both external and relating to the Group's strategy or operations, which may result in the Group being unable to achieve the current targets, predictions, expectations and other anticipated outcomes expressed or implied by such forward-looking statements. In addition certain of these disclosures are dependent on choices relying on key model characteristics and assumptions and are subject to various limitations, including assumptions and estimates made by management. By their nature, certain of these disclosures are only estimates and, as a result, actual future gains and losses could differ materially from those that have been estimated. Accordingly, undue reliance should not be placed on these statements. Forward-looking statements speak only as of the date we make them and we expressly disclaim any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in the Group's expectations with

regard thereto or any change in events, conditions or circumstances on which any such statement is based.

Important factors that could affect the actual outcome of the forward-looking statements

We caution you that a large number of important factors could adversely affect our results or our ability to implement our strategy, cause us to fail to meet our targets, predictions, expectations and other anticipated outcomes or affect the accuracy of forward-looking statements we describe in this document including in the risk factors set as set out on pages 509 to 578 and other uncertainties discussed in this document. These include the significant risks for RBS presented by the outcomes of the legal, regulatory and governmental actions and investigations that RBS is or may be subject to (including active civil and criminal investigations) and any resulting material adverse effect on RBS of unfavourable outcomes and the timing thereof (including where resolved by settlement); economic, regulatory and political risks, including as may result from the uncertainty arising from the EU Referendum; RBS's ability to satisfy its residual EU State Aid obligations and the timing thereof; RBS's ability to successfully implement the significant and complex restructuring required to be undertaken in order to implement the UK ring-fencing regime and related costs; RBS's ability to successfully implement the various initiatives that are comprised in its transformation programme, particularly the proposed further restructuring of the NatWest Markets business, the balance sheet reduction programme and its significant cost-saving initiatives and whether RBS will be a viable, competitive, customer focused and profitable bank especially after its restructuring and the implementation of the UK ring-fencing regime; the exposure of RBS to cyber-attacks and its ability to defend against such attacks; RBS's ability to achieve its capital and leverage requirements or targets which will depend in part on RBS's success in reducing the size of its business and future profitability as well as developments which may impact its CET1 capital including additional litigation or conduct costs, additional pension contributions, further impairments or accounting changes; ineffective management of capital or changes to regulatory requirements relating to capital adequacy and liquidity or failure to pass mandatory stress tests; RBS's ability to access sufficient sources of capital, liquidity and funding when required; changes in the credit ratings of RBS, RBS entities or the UK government; declining revenues resulting from lower customer retention and revenue generation in light of RBS's strategic refocus on the UK; as well as increasing competition from new incumbents and disruptive technologies.

Forward looking statements

In addition, there are other risks and uncertainties that could adversely affect our results, ability to implement our strategy, cause us to fail to meet our targets or the accuracy of forward-looking statements in this document. These include operational risks that are inherent to RBS's business and will increase as a result of RBS's significant restructuring initiatives being concurrently implemented; the potential negative impact on RBS's business of global economic and financial market conditions and other global risks; the impact of a prolonged period of low interest rates or unanticipated turbulence in interest rates, yield curves, foreign currency exchange rates, credit spreads, bond prices, commodity prices, equity prices; basis, volatility and correlation risks; the extent of future write-downs and impairment charges caused by depressed asset valuations; deteriorations in borrower and counterparty credit quality; heightened regulatory and governmental scrutiny and the increasingly regulated environment in which RBS operates as well as divergences in regulatory requirements in the jurisdictions in which RBS operates; the risks relating to RBS's IT systems or a failure to protect itself and its customers against cyber threats, reputational risks; risks relating to increased pension liabilities and the impact of pension risk on RBS's capital position; risks relating to the failure to embed and maintain a robust conduct and risk culture across the organisation or if its risk management framework is ineffective; RBS's ability to attract and retain qualified personnel; limitations on, or additional requirements imposed on, RBS's activities as a result of HM Treasury's investment in RBS; the value and effectiveness of any credit protection purchased by RBS; risks relating to the reliance on valuation, capital and stress test models and any inaccuracies resulting therefrom or failure to accurately reflect changes in the micro and macroeconomic environment in which RBS operates, risks relating to changes in applicable accounting policies or rules which may impact the preparation of RBS's financial statements or adversely impact its capital position; the impact of the recovery and resolution framework and other prudential rules to which RBS is subject; the recoverability of deferred tax assets by the Group; and the success of RBS in managing the risks involved in the foregoing.

The forward-looking statements contained in this document speak only as at the date hereof, and RBS does not assume or undertake any obligation or responsibility to update any forward-looking statement to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

The information, statements and opinions contained in this document do not constitute a public offer under any applicable legislation or an offer to sell or solicit of any offer to buy any securities or financial instruments or any advice or recommendation with respect to such securities or other financial instruments.

Presentation of information

In this document, and unless specified otherwise, the term 'company' or 'RBSG' means The Royal Bank of Scotland Group plc, 'RBS', 'RBS Group' or the 'Group' means the company and its subsidiaries, 'the Royal Bank' or 'RBS plc' means The Royal Bank of Scotland plc and 'NatWest' means National Westminster Bank Plc.

The company publishes its financial statements in pounds sterling ('£' or 'sterling'). The abbreviations '£m' and '£bn' represent millions and thousands of millions of pounds sterling, respectively, and references to 'pence' represent pence in the United Kingdom ('UK'). Reference to 'dollars' or '\$' are to United States of America ('US') dollars. The abbreviations '\$m' and '\$bn' represent millions and thousands of millions of dollars, respectively, and references to 'cents' represent cents in the US. The abbreviation '€' represents the 'euro', and the abbreviations '€m' and '€bn' represent millions and thousands of millions of euros, respectively.

Non-GAAP financial information

RBS prepares its financial statements in accordance with IFRS as issued by the IASB which constitutes a body of generally accepted accounting principles ('GAAP'). This document contains a number of non-GAAP (or non-IFRS) financial measures. A non-GAAP financial measure is defined as one that measures historical or future financial performance, financial position or cash flows but which excludes or includes amounts that would not be so adjusted in the most comparable GAAP measure.

The non-GAAP measures used in this document generally exclude certain items which management believe are not representative of the underlying performance of the business and which distort period-on-period comparison. These measures are used internally by management, in conjunction with IFRS financial measures, to measure performance and make decisions regarding the future direction of the business. Management believes these non-GAAP measures, when provided in combination with reported IFRS results, provide helpful supplementary information for investors. These adjusted measures, derived from the reported results are non-IFRS financial measures but are not a substitute to IFRS reported measures.

The main non-GAAP measures used in this document include:

- 'Adjusted' measures of financial performance, principally operating profit, operating expenses, total income and other performance measures before: own credit adjustments; gain or loss on redemption of own debt; strategic disposals, restructuring costs, litigation and conduct costs and write down of goodwill. RFS Holdings minority interest (RFS MI) was shown separately for 2014 only;

- Certain performance ratios based on the adjusted performance measures described above, including the adjusted cost:income ratio (calculated using adjusted operating income and costs), adjusted return on equity ratio (calculated using adjusted operating profit) and the 2016 cost saving progress and targets (calculated using operating expenses excluding litigation and conduct costs, restructuring costs, write down of goodwill, the impairment of other intangible assets, the operating costs of Williams & Glyn and the VAT recovery);
- Personal & Business Banking (PBB) franchise results, combining the reportable segments of UK Personal & Business Banking (UK PBB) and Ulster Bank RoI, Commercial & Private Banking (CPB) franchise results, combining the reportable segments of Commercial Banking, Private Banking and RBS International (RBSI) and 'core bank' results combining PBB, CPB and NatWest Markets results which are presented to provide investors with a summary of the Group's business performance (see page 172 for further business descriptions); and

Reconciliations of these non-GAAP measures to the closest equivalent GAAP measure are presented throughout this document and in the 2016 performance on page 6.

Key operating indicators

This document includes a number of operational metrics which management believes may be helpful to investors in understanding the Group's business, including the Groups position against its own targets. These metrics include performance, funding and credit metrics such as 'return on tangible equity' and related RWA equivalents incorporating the effect of capital deductions (RWAes), total assets excluding derivatives (funded assets) and net interest margin (NIM) adjusted for items designated at fair value through profit or loss (non-statutory NIM), cost:income ratio, loan:deposit ratio and REIL/impairment provision ratios. These are internal metrics used to measure business performance.

Capital and liquidity measures

Certain liquidity and capital measures and ratios are presented in this document as management believes they are helpful for investors' understanding of the liquidity and capital profile of the business and the Group's position against its own targets and applicable regulatory requirements. Some of these measures are used by management for risk management purposes and may not yet required to be disclosed by a government, governmental authority or self-regulatory organisation. As a result, the basis of calculation of these measures may not be the same as that used by the Group's peers. These capital and liquidity measures and ratios include: the liquidity coverage ratio, stressed outflow coverage and net stable funding ratio.

Transfers

The year on year comparison of the Commercial Banking results is affected by a number of internal business transfers which took place in 2015 and 2016. In line with changes to the business model, the UK and Western European corporate loan portfolios were transferred to Commercial Banking in Q2 2015 and

Q4 2015. Ulster Bank NI transferred Q1 2016 and a transfer of clients to Retail Q2 2016. The prior period financials were not restated.

Presentation of information

Recent developments

Board Appointment

RBS announced on 24 February 2017 that Mark Seligman has been appointed as a Non-executive Director with effect from 1 April 2017.

Payment Protection Insurance (PPI)

On 2 March 2017, the FCA published Policy Statement 17/3 containing its final rules and guidance on PPI complaint handling. The Policy Statement made clear the FCA's intention to implement a two year PPI complaints deadline with effect from 29 August 2017, bringing an end to new PPI complaints in August 2019. New rules for the handling of Plevin complaints will also come into force on 29 August 2017. The proposals in the Policy Statement are largely as previously anticipated and RBS does not currently consider that an additional provision will be required.

London Interbank Offered Rate (LIBOR)

As previously disclosed, certain members of the Group have been named as defendants in US class actions relating to alleged manipulation of various interest rate benchmarks, each of which is pending in the United States District Court for the Southern District of New York. On 10 March 2017, the court in the action relating primarily to over-the-counter derivatives allegedly linked to JPY LIBOR and Euroyen TIBOR dismissed the case on the ground that the plaintiffs lack standing. The dismissal by the court may be subject to appeal.

Claim by the US Federal Deposit Insurance Corporation

On 10 March 2017, the US Federal Deposit Insurance Corporation, on behalf of 39 failed US banks, issued a claim in the High Court of Justice of England and Wales against RBS, other LIBOR panel banks and the British Bankers' Association, alleging collusion with respect to the setting of USD LIBOR. The action alleges that the defendants breached English and European competition law as well as asserting common law claims of fraud under US law.

Regulator requests concerning certain historic Russian transactions

Recent media coverage has highlighted an alleged money laundering scheme involving Russian entities between 2010 and 2014. Allegedly certain European banks, including 17 UK based financial institutions, and certain US banks, were involved in processing certain transactions associated with this scheme.

In common with other banks, in March 2017 RBS received a request for information from the FCA in relation to this matter. RBS has also received similar requests from regulators in other jurisdictions. RBS has responded to the FCA and is in the course of responding to the requests from other regulators.

2016 performance

RBS reported an operating loss before tax of £4,082 million for 2016 and an attributable loss(1) of £6,955 million, which included litigation and conduct costs of £5,868 million, restructuring costs of £2,106 million, the final Dividend Access Share (DAS) dividend of £1,193 million and Capital Resolution disposal losses and impairments of £825 million. Restructuring costs included a £750 million provision in respect of the 17 February 2017 update on RBS's remaining State Aid obligation regarding Williams & Glyn.

Across our Personal & Business Banking (PBB), (which includes the reportable segments UK PBB and Ulster Bank RoI Commercial & Private Banking (CPB) which includes the reportable segments Commercial Banking, Private Banking and RBSI and NatWest Markets (NWM) franchises), (together the 'core bank'), RBS reported a £602 million, or 41%, increase in operating profit before tax to £2,058 million in 2016. Adjusted operating profit before tax increased by £163 million, or 4%, to £4,249 million for 2016 (refer to segmental income statement reconciliations on page 6)

In 2016 RBS delivered against all of its operating financial targets; PBB and CPB had combined income growth of 3%. PBB and CPB had combined adjusted income growth of 2%, (including transfers of £98 million in 2015) underpinned by 10% net lending growth, expenses have been reduced by around £1 billion for the third year in succession as the bank continues to focus on digital channels and on simplification of its processes, and Capital Resolution RWAs have reduced by a further £14.5 billion, or 30%, to £34.5 billion, with 80% of RWAs now relating to PBB, CPB and NatWest Markets compared with 72% at the end of 2015 (refer to segmental income statement reconciliations on page 6). RBS is committed to achieving its sub 50% cost:income ratio and 12% return on tangible equity targets by 2020.

Common Equity Tier 1 ratio of 13.4% reduced by 210 basis points during 2016, but remains ahead of our target despite recognising significant charges relating to remaining legacy issues.

Our 2016 performance at a glance

(£4,082m)	129%	£2,058m
Operating loss before tax (3)	Cost:income ratio - statutory (4)	PBB,CPB & NatWest Markets

		operating profit before tax
(£6,955m)	66%	£4,249m
Loss attributable to ordinary shareholders	Cost:income ratio – adjusted (3)	PBB,CPB & NatWest Markets adjusted operating profit before tax(2,4)
£228.2bn	2.18%	123%
Risk-weighted assets	Net interest margin	Liquidity coverage ratio (5)
13.4%	(17.9%)	£33.7bn
Common Equity Tier 1 ratio (6)	Return on tangible equity (7,8)	Gross new mortgage lending across England, Wales and Scotland (9)
75%	£1.32bn	
Employee engagement score	Total tax paid to the UK Government (10)	

Notes:

(1) Attributable to ordinary shareholders.

(2) Personal & Business Banking consists of the reportable segments UK PBB and Ulster Bank Rol, and Commercial & Private Banking consists of the reportable segments Commercial Banking, Private Banking and RBSI.

(3) Adjusted operating profit before tax means operating profit before tax excluding own credit adjustments (2016 - £180 million; 2015 - £309 million), loss on redemption of own debt (2016 - £126 million; 2015 - £263 million), strategic disposals (2016 - £164 million gain; 2015 - £157 million loss), restructuring costs (£2,106 million; 2015 – £2,931 million), litigation and conduct costs (2016 - £5,868 million; 2015 – £3,568 million) and write down of goodwill (2016 – nil; 2015 – £498 million).

(4) Adjusted cost:income ratio means cost:income ratio excluding own credit adjustments (2016 - £180 million; 2015 - £309 million), loss on redemption of own debt (2016 - £126 million; 2015 - £263 million), strategic disposals (2016 - £164 million gain; 2015 - £157 million loss), restructuring costs (2016 - £2,106 million; 2015 – £2,931 million), litigation and conduct costs (2016 - £5,868 million; 2015 – £3,568 million) and write down of goodwill (2016 – nil; 2015 – £498 million).

(5) On 1 October 2015 the LCR became the Prudential Regulation Authority's (PRA) primary regulatory liquidity standard; UK banks are required to meet a minimum standard of 80% initially, rising to 100% by 1 January 2018. The published LCR excludes Pillar 2 add-ons. RBS calculates the LCR using its own interpretation of the EU LCR Delegated Act, which may change over time and may not be fully comparable with that of other institutions.

(6) Based on end-point Capital Requirements Regulation (CRR) Tier 1 capital and leverage exposure under the CRR Delegated Act.

(7) Tangible equity is equity attributable to ordinary shareholders less tangible assets.

(8) RBS's CET 1 target is 13% but for the purposes of computing segmental return on equity (ROE), to better reflect the differential drivers of capital usage, segmental operating profit after tax and adjusted for preference dividends is divided by notional equity allocated at different rates of 11% (Commercial Banking and Ulster Bank RoI), 12% (RBS International) and 15% for all other segments, of the monthly average of segmental risk-weighted assets incorporating the effect capital deductions (RWAs). RBS Return on equity is calculated using profit for the period attributable to ordinary shareholders.(2) Excluding own credit adjustments, (loss)/gain on redemption of own debt, strategic disposals, restructuring costs, litigation and conduct costs and write down of goodwill.

(9) Gross new mortgage lending in UK PBB, Ulster Bank RoI and RBS International (RBSI).

(10) Comprises 174 million corporate tax, 660 million irrecoverable VAT, 208 million bank levies and 279 million employer payroll taxes.

Chairman's statement

Howard Davies

Chairman

2016 was another difficult year for RBS shareholders, even though there is good progress to report on our strategy to rebuild a strong bank focused primarily on retail and commercial customers in the UK and Ireland.

The core bank(1) performed strongly, and adjusted operating profits were up by around 4%(2), in a year of political and economic uncertainty. That progress reflects growth in our market share in the mortgage market and a resumption of growth in business lending, after many years of decline. It shows, too, that the strong focus on reducing costs is beginning to pay off.

Nonetheless the attributable loss(3), at around £7 billion, was more than three times as large as in 2015. It is hard to present that as a positive outcome for shareholders, though in fact it does reflect the impact of stronger efforts to resolve the bank's legacy problems. We settled a number of regulatory and legal actions and made a large provision for future costs, we retired the Dividend Access Share and made a large number of disposals of legacy assets. Restructuring costs were also large in the year. As a result, the bank is better placed than it was a year ago, though there are still some sizeable legacy problems to resolve. The Board and I are determined to press ahead with resolution of those issues and to continue with the strategy Ross McEwan first outlined in 2014. We are confident that we have the right management team in place to deliver effectively in both areas.

The Economic and Regulatory Environment

The UK economy grew by around 2% in 2016, a little less rapidly than in 2015, but still at a healthy rate in what is now a mature recovery. Unemployment remained low inflation stayed well below the Bank of England's target rate and house prices rose, on average, by around 5%, though the regional variations were wide. These might, overall, seem to be benign conditions for banks, but the low interest rate environment, and especially a relatively flat yield curve, are challenges to profitability. Some central banks are charging negative interest rates, and while the Bank of England has not followed them, the base rate was reduced from 0.5% to 0.25% in August, after the referendum on European Union (EU) membership. This lower interest rate environment puts further pressure on banks to control their costs.

The vote to leave the EU was widely expected to have a negative impact on the economy. So far, we have seen a significant fall in sterling, but consumer spending has remained robust, and growth has continued. Of course the UK has not yet left the EU, and we do not know the terms of our departure, so the long-term impact remains impossible to predict. The short-term effect on banks was felt primarily through the reduction in interest rates.

There has been much debate about the impact on the City, and on UK financial services in general, if, as now seems likely, we also leave the single market. As I write, the Article 50 negotiations have not yet begun, so it is idle to speculate. RBS as a primarily UK bank will be less affected than most, but we own Ulster Bank in Ireland and have modest presences in major EU corporate markets. We will take steps to protect those assets as the regulatory environment becomes clearer.

Our prime focus through this uncertain period has been, and will continue to be, to provide high quality banking services to our customers and to help them to understand the implications of change for their businesses and their families.

Chairman's statement

The regulatory environment continues to be challenging for banks. The Basel Committee is discussing a new set of proposals which could have the effect of increasing capital requirements materially, though no agreement has yet been reached. In the UK, the Bank of England stress tests are built on very rigorous assumptions about growth and asset prices. RBS failed its stress test in 2016, primarily on the basis of assumptions reflecting the uncertainty of future conduct costs, especially from legacy problems in the US. We agreed measures to strengthen our balance sheet as a result, which are already underway.

UK banks are also now heavily engaged in preparations for the implementation of ring-fencing, as required by the legislation implementing the recommendation of the Independent Commission on Banking. We are implementing our own plans and expect to meet the statutory deadline of 1 January 2019.

Strategy

Set against that backdrop our strategy remains consistent. The aim is to make RBS a simpler bank focused on doing fewer things, built around a low risk UK and Irish retail and commercial bank and markets business; a safer bank with a long-term target of a CET1 ratio of at least 13%; and a customer- focused bank that is easier to do business with. Our aspiration remains to be the best UK bank for customer service, trust and advocacy by 2020. We will retain a smaller markets business, which complements our strong domestic franchises. The Board are confident that this is the right path to follow and that the bank will deliver good returns for shareholders when its legacy problems have been resolved.

In early 2016 we renewed our long- term targets of 50% for the cost to income ratio and 12% for return on tangible equity. Given expected slower economic growth over the medium- term, we now think we will achieve those objectives in 2020, a year later than previously communicated. That change aligns the timing of our financial targets with our customer service ambitions. It is not yet possible to give a reliable forecast of when the bank will be able to restore a dividend.

Conduct, litigation and legacy issues

As I have said, during the year we made good progress in dealing with a number of legacy issues that have been clouding our performance and shareholder investment case.

We were able to remove one of the main barriers to paying a dividend by paying the final £1.2 billion to retire the Dividend Access Share.

In January 2016, the Board took the decision to make an accelerated £4.2 billion payment to our main pension scheme. Taking this action reduced the scheme deficit considerably and helped provide certainty on our capital management of the pension scheme for both members and regulators. The next valuation is scheduled for 2018.

We also resolved a number of litigation cases relating to foreign exchange and interest rate fixing allegations. These settlements were costly reminders of past behaviours that have no place in the industry or the bank we are building.

The treatment of some of our small business customers has been under scrutiny. Although the Financial Conduct Authority (FCA) review into the historical operation of our former Global Restructuring Group (GRG) continues, I am pleased that with the endorsement of the FCA we were able to announce a new complaints process, led by Sir William Blackburne, a retired High Court judge, alongside an automatic refund for some of the complex fees charged to customers who were in GRG between 2008 - 2013. While we have acknowledged we did not treat all these troubled business customers as well as we should have done, we do not accept that the bank artificially distressed otherwise viable SME businesses or deliberately caused them to fail. The FCA's skilled person and our independent investigators have also found no evidence that the bank either inappropriately targeted businesses to transfer them into GRG or drove them to insolvency.

Another legacy problem on the way to resolution is the shareholder litigation related to the 2008 rights issue. We announced in December that we made an offer to affected shareholders to resolve that litigation and four out of five groups involved have already accepted it.

Following the Government's injection of capital into the bank in 2008, RBS undertook to carry out five major divestments as part of the State Aid commitments agreed with the European Commission (EC). Four have been successfully implemented. The fifth entailed a divestment of assets to enhance competition in the UK's SME banking market. The bank identified a collection of branches and customer relationships, identified as a new bank to be known as Williams & Glyn.

Chairman's statement

Implementing that divestment has proved extremely difficult, partly for technological reasons. In addition, the lower interest rate environment threatened the viability of the new bank.

In the light of these changed circumstances, on 17 February this year, the EC and HM Treasury announced a consultation on a plan, intended to promote competition in different ways, which can be implemented more easily and rapidly. The plan is not yet firm, but we have prudently provided for its cost to the bank in our accounts. We are grateful to the EC for its willingness to consider alternative means to the same end. If carried through, they will relieve the bank of a major operational burden which has constrained our ability to upgrade and enhance our IT systems in the interests of our customers.

But there are other issues from the past which remain to be resolved, and where it has been frustratingly difficult to make progress. By a distance the most financially significant relates to the bank's participation in the US subprime mortgage market in the run up to the financial crisis, and especially in 2007. The Massachusetts Attorney General's Office has been investigating the circumstances of some of the transactions for some years, and we have been in parallel discussions with the Federal Housing Finance Agency. Shareholders will be aware that a number of other banks, both US and European, have settled their claims over the past year, but RBS remains under investigation and as we have said, faces potential criminal and civil action. At this point we cannot say when the issues will be resolved, as the timing is out of our hands.

Remuneration

While RBS continues to report losses it is vital that the bank remains disciplined in its approach to remuneration. On the other hand, we need to fairly reward our colleagues who work with customers from day to day and who bear no responsibility for the decisions which led to those losses, and it is important for the long-term value of shareholders' investment in the company that we attract and retain well-qualified and motivated people. We believe the decisions we have made this year, on the bonus pool (which has been further reduced) and on the proposed new long-term incentive scheme, strike that balance appropriately. They are more fully explained in the 2016 Remuneration report.

Supporting our communities

We refreshed our main customer facing brands during the year, with a new advertising campaign, emphasising their contribution to the communities in which they operate. In England our principal brand is NatWest, in Ireland it is Ulster Bank, and of course in Scotland it is The Royal Bank of Scotland, which has been providing banking services to the country since 1727. We also have a vital role to play in these communities that goes beyond traditional banking activity. Our support of small businesses continues to

strengthen through our partnership with Entrepreneurial Spark. In 2016 we opened a further six accelerator hubs. These accelerator hubs, which are based in our buildings, provide start-ups with free office space, mentoring and access to our networks. Over 7,000 entrepreneurs will be supported in this way over five years, helping to grow the economy and create thousands of jobs.

Our financial education programme, MoneySense, continues to deliver vital skills to young people that will help them be more financially aware in later life. This year we have helped over 300,000 young people in the UK.

In 2016 we also celebrated our 40th anniversary of supporting The Prince's Trust. To mark this milestone, we raised over £470,000 in just five days, with 566 colleagues cycling across the country in fundraising efforts.

This year, we have taken the first step towards combining our 2016 Sustainability and Strategic reports, bringing together in one place our financial and non financial performance to demonstrate how we are building a more sustainable bank to deliver long term value to all our stakeholders.

Stakeholder Engagement

We welcomed the opportunity to participate in the Department for Business, Energy and Industrial Strategy's (BEIS) Green Paper consultation on Corporate Governance Reform. The chapter on strengthening the employee, customer and wider stakeholder voice was of particular interest. This is a cause that we care about. As noted in our response to BEIS, we are looking at ways of improving and building upon our existing arrangements in order to promote the stakeholder voice at board level. We are supportive of the proposal to increase wide stakeholder engagement, including via a panel arrangement. As an organisation, we have maintained active engagement with stakeholders over several years through our Sustainable Banking Committee which, since 2011, has regularly met with external stakeholders and asks them to challenge the most senior decision makers in RBS. We see increased formal engagement as the natural evolution of that committee's work.

Chairman's statement

Board changes

Frank Dageard is the one new face around the boardroom table since last year. He joined the Board in May 2016 and brings a wealth of experience from a number of senior roles and directorships across a range of technology and financial services companies. This knowledge is vital as the bank adapts to increasing customer use of digital channels, and to the need for ever heightened awareness of the risk of cyber attacks.

Conclusion

I am uncomfortably aware that the reconstruction and rehabilitation of RBS has taken longer than expected, and is still not complete. We can now see clearly the shape of a profitable bank which serves its customers and communities well. There is still a road to travel before we reach that destination, and of course the competitive environment for banks continues to evolve. I assure you that the Board and management are single-mindedly focused on delivering value for our shareholders, and are grateful for your patience as we proceed.

Notes:

(1) The core bank consists of the reportable segments UK PBB, Ulster Bank RoI, Commercial Banking, Private Banking, RBSI and NatWest Markets.

(2) Adjusted operating profit before tax - UK PBB up by £33 million, 2%, to £2,202 million, Ulster Bank RoI down by £35 million, 13%, to £229 million, Commercial Banking down by £111 million, 8%, to £1,273 million, Private Banking up £36 million, 32%, to £149 million, RBSI down by £16 million, 8%, to £195 million and NatWest Markets up by £256 million to £201 million. See page 6 for segmental income statement reconciliations.

(3) Attributable to ordinary shareholders.

Chief Executive's review

Ross McEwan

Chief Executive

In 2016 RBS made an attributable loss(1) of £7.0 billion, mostly reflecting charges for outstanding litigation and conduct, and costs associated with restructuring of the bank. The financial impact of these issues is a difficult but necessary step in working through the bank's legacy issues. These costs are a stark reminder of what happens to a bank when things go wrong and you lose focus on the customer, as this bank did before the financial crisis. The more progress we have made on clearing these past issues, enables us to sharpen our focus on the core bank.

Our service level and product improvements are already delivering benefits for both customers and the core bank. In 2017 our focus will turn to going even further on reducing costs and faster on digital transformation in order to deliver a more simple, safe and customer-focused bank.

The bank we were

I joined RBS because I could see that underneath all the troubles it faced, there was a strong bank, with excellent brands and great colleagues, doing outstanding things for customers each day. This underlying strength is still evident today.

In 2014 I announced a three phase strategy. We are moving to the final phase of this, after delivering much during the first two phases, which were about building a platform of strength and stripping away unnecessary complexity. Our CET1 ratio has now materially improved to 13.4% from 8.6% at the start of 2014. We have thoroughly reshaped our investment banking business, now rebranded NatWest Markets. We have sold Citizens in the US, completing the largest bank IPO in US history in the process, and also sold our international private banking business. We have ended active operations in 26 countries, decommissioned 30% of our IT systems and applications, and almost halved the number of legal entities. We have also completed the run-down or sale of over three quarters of Capital Resolution legacy and non-core assets. We have reduced our cost base by over £3 billion, exceeding our target for the third consecutive year, with an operating cost reduction of £985 million(2).

The past is not completely behind us, with our dealings on Residential Mortgage Backed Securities (RMBS) and Williams & Glyn, our residual European Commission State Aid obligations, two significant issues that we still need to resolve. The recent proposal by HM Treasury on an alternative way to increase competition to allow us to meet our State Aid commitments would deliver an outcome more quickly, and with more certainty than undertaking a complex sale. We have been able to provide for both of these in our accounts, though there may still be substantial additional provisions on RMBS.

The bank we are today

We are now in a much better position to focus on our long term aspiration – to transform the bank into the number one for customer service, trust, and advocacy. While the signs of this transformation have at times been masked by our wider organisational changes, the core bank(3) has already evolved materially since 2014. Our decision to refocus on the UK has seen our balance sheet shrink by £229 billion since the start

of our plan. This is net of the continued growth in our Personal and Business Banking and Commercial and Private Banking franchises(4). We are seeing the benefits of our service-led strategy in the financial performance of the core bank, generating £4.2 billion in adjusted pre-tax operating profit(5) for the year, an average of £1 billion per quarter for the last eight quarters and 4% up on 2015.

Chief Executive's review

While Q4 was down from the levels seen earlier this year, our Net Promoter Scores for Commercial and NatWest Personal in 2016 were the highest they have ever been. With £30 billion of gross new mortgage lending in UK PBB, we helped 320,000 customers with their mortgage in 2016, growing our market share for the fourth consecutive year without leading on price or risk. We are the largest commercial bank in the UK, and are ranked joint number one by Net Promoter Score. Our ability to generate value here is shown by the scale of support we have provided to the economy in the past year, with almost £9 billion of new net commercial lending.

The bank we are becoming

We still have more work to do. In part, that means finishing the restructuring of RBS, resolving the remaining legacy issues, and preparing the bank for ring-fencing. In the main, however, it is about adapting to the changing nature of the UK and Irish banking sectors, and investing to meet our customers' evolving needs.

Digital innovation means customers are doing more of their transactions online. We interact with our customers over 20 times more through digital channels than physical ones. 35% of all new products were taken out digitally in UK PBB, and this is rising steadily. A fifth of our customers now solely use mobile and digital to interact with us. As customers change the way they bank with us, we must change the way we serve them. This means continuing to simplify for our customers, and accelerating our deployment of digital and mobile capabilities. The role of the branch is fast moving to an advice and service centre, away from transactions. While the branch will still be a core part of our offering to customers, inevitably some branches will have to close.

We're working to blur the line between traditional and digital banking channels. We are investing in a video sales and service proposition that will connect customers, no matter where they are, to the right specialist. This shift isn't only in personal banking. We are aiming to service 95% of our commercial customers' needs through mobile and online by 2020, up from nearly 80% today, by introducing a new digital banking service that will greatly improve experience. We're also responding to customer preferences for more innovative lending platforms and products.

We are investing heavily in technology in our NatWest Markets business. Hundreds of separate product databases will be replaced with a single, scalable platform, which will help reduce costs significantly and dramatically increase the speed at which we can deploy new capabilities for our customers. We are also introducing a single dealer platform, an electronic front door, through which we can provide FX and Rates solutions to our clients. These are the kind of changes that will lower costs while protecting revenue and delivering even better customer service at the same time.

We are committed to running the bank as a more sustainable and responsible business, serving today's customers in a way that also helps future generations, generating long term value for all of our stakeholders and society. In 2016, we improved on our position in a number of rankings, including achieving our highest ever score in the Dow Jones Sustainability Index. We continued with our commitment to manage our impacts on climate change and support our customers to move towards the transition to a low-carbon economy. We continue to support financial education and our goal is to help a further one million more young people understand all about money by the end of 2018.

Our commitment to sustainability is also evident in our annual results, where we have replaced our annual Sustainability Report with a more integrated approach. You will see a number of new elements in the Strategic Report that explain the key influences on our operating environment, and some of the impact we have had over the past year. This is an important step towards fully integrated reporting over the coming years.

Delivering our strategy

The decision last summer by UK voters to leave the EU will have wide-reaching consequences. In light of this, we reviewed our plan to ensure that it remained valid in a changed macro and political environment. Following that review, I want to re-iterate our commitment to the strategy we have been pursuing since I became CEO – we firmly believe that our aspiration to reach No.1 for customer service, trust and advocacy will maximise value for our shareholders.

This year we have met all our operating financial targets, though the results of some of our customer NPS and employee engagement surveys show we still have work to do. After the EU referendum result, we promised an update on our targets. We are targeting an unadjusted 12% or greater return on tangible equity, and a below 50% cost to income ratio by 2020, one year later than envisaged when we first set out our plan in 2014.

Chief Executive's review

Our service levels are improving and we believe we can meet our 2020 aspirational customer and colleague targets. Our focus on capital strength remains a cornerstone of our plan. In 2017, we will continue to reduce legacy RWAs, and we will target a CET1 ratio of at least 13%.

This has also been another tough year for our colleagues. I am grateful for their determination in serving our millions of customers every day, despite many negative headlines. Our colleagues are the face of the bank for our customers, and their engagement is critical to our success. One of our five key targets in 2017 is to improve employee engagement.

We no longer have global aspirations and we need to go further still on our operating costs. We expect to take out an additional £750 million of operating costs(6) in 2017 through our focus on simplification and digital transformation. A simpler bank is a more profitable bank and a bank that delivers a better customer experience. Where we can make it easy for our customers, the more business they will do with us and the more sustainable our earnings will become.

Looking ahead

The progress of the last three years positions us well to achieve our vision for the future. We have the right strategy, and it is starting to deliver results. Now, we need to go further on cost reduction and faster on digital transformation.

We aren't alone in searching for efficiency gains and investing in digital capability, but the unique strength of this bank lies in the fact that we have a diverse business profile, with scale in all of our chosen markets. Investment in our market leading brands and better customer service will deliver steadier, higher quality earnings. Our focus on service rather than price has also shown that we can continue to grow in areas of strategic opportunity, such as mortgages, without compromising on risk. All of this will deliver a sustainable competitive advantage and a compelling investment case in the longer term.

This is a bank that has been on a remarkable journey. We still have further to go. But the next three years will not be the same as the past three. Legacy issues will take up a decreasing amount of our time and focus. Our customers, our cost base and the measures we plan to implement to return the bank to sustainable headline profits will be where we focus our efforts. Assuming we can conclude our issues on RMBS this year and resolve our residual State Aid obligations, we aim to have RBS back into profit in 2018 representing a significant step towards being able to start repaying UK taxpayers for their support.

Notes:

(1) Attributable to ordinary shareholders.

(2) Cost saving target and progress 2016 calculated using operating expenses excluding restructuring costs of £2,106 million (2015 – £2,931 million), litigation and conduct costs of £5,868 million (2015 – £3,568 million), write down of goodwill nil (2015 – £498 million), write down of other intangible assets of £117 million (2015 – £75 million), the operating costs of Williams & Glyn £393 million (2015 – £359 million) and the VAT recovery of £227 million.

(3) The core bank consists of the reportable segments UKPBB, Ulster Bank RoI, Commercial Banking, Private Banking, RBSI and NatWest Markets.

(4) Personal & Business Banking consists of the reportable segments UK PBB and Ulster Bank RoI, and Commercial & Private Banking consists of the reportable segments Commercial Banking, Private Banking and RBSI.

(5) Adjusted operating profit before tax - UK PBB up by £33 million, 2%, to £2,202 million, Ulster Bank RoI down by £35 million, 13%, to £229 million, Commercial Banking down by £111 million, 8%, to £1,273 million, Private Banking up £36 million, 32%, to £149 million, RBSI down by £16 million, 8%, to £195 million and NatWest Markets up by £256 million to £201 million. See page 6 for segmental income statement reconciliations.

(6) Cost saving target and progress 2017 calculated using operating expenses excluding restructuring costs, litigation and conduct costs, write down of goodwill and the 2016 VAT recovery.

2016 performance summary

RBS reported a loss attributable to ordinary shareholders of £6,955 million compared with £1,979 million in 2015. The loss attributable to ordinary shareholders for the year included; litigation and conduct costs of £5,868 million, restructuring costs of £2,106 million, payment of the final DAS dividend of £1,193 million, Capital Resolution disposal losses and impairments of £825 million and a £300 million deferred tax asset impairment.

The 2016 operating loss before tax of £4,082 million compared with an operating loss before tax of £2,703 million in 2015. Adjusted operating profit before tax, excluding own credit adjustments (2016 - £180 million; 2015 - £309 million), loss on redemption of own debt (2016 - £126 million; 2015-£263 million loss), strategic disposals (2016 - £164 million gain; 2015 - £157 million loss), restructuring costs (2016 - £2,106 million (2015 – £2,931 million), litigation and conduct costs £5,868 million (2015 – £3,568 million) and write down of goodwill nil (2015 – £498 million), of £3,674 million was £731 million, or 17%, lower than 2015.

The net interest margin (NIM) of 2.18% for 2016 was 6 basis points higher than 2015, as the benefit associated with the reduction in low yielding assets more than offset modest asset margin pressure and mix impacts across the core franchises.

Excluding expenses associated with Williams & Glyn(1,5), write-down of intangible assets and the VAT recovery in Q2, adjusted operating expenses have reduced by £985 million, or 11%, compared with 2015, exceeding our target of £800 million. RBS has reduced adjusted operating expenses(5) by over £3 billion in the last three years. Cost income ratio for 2016 was 129% compared with 127% in 2015 and the adjusted cost:income ratio was 66% compared with 72% in 2015.

Risk elements in lending (REIL) as a % of gross customer loans was 3.1%, 80 basis points lower than 31 December 2015 as RBS continues to de-risk its balance sheet.

PBB, CPB and NatWest Markets delivered increased profits and strong lending growth

RBS reported a £602 million, or 41%, increase in operating profit before tax to £2,058 million in 2016 and an adjusted operating profit before tax of £4,249 million across PBB, CPB and NatWest Markets, 4% higher than 2015 and an average of over £1 billion a quarter.

Income across PBB and CPB increased by 3% in 2016 compared with 2015. PBB and CPB had combined adjusted income growth of 2%, (including transfers of £98 million in 2015), as increased lending volumes more than offset reduced margins. NatWest Markets income of £1,574 million increased by 3% compared with 2015. Adjusted income of £1,521 million increased by 16% compared with 2015, including transfers (2), driven by Rates and Currencies.

PBB and CPB net loans and advances of £272.1 billion have increased by 10%(7) in 2016, compared with a target of 4%, reflecting strong growth across both residential mortgages and commercial lending.

The cost income ratio improved to 81% compared with 88% in 2015. Adjusted cost income ratio improved to 63% compared with 65% in 2015 as we continue to deliver efficiencies across PBB, CPB and NatWest Markets.

RBS continues to address its remaining legacy issues and drive forward its restructuring programme

Restructuring costs were £2,106 million for 2016, compared with £2,931 million in 2015, and included a £750 million provision in respect of the plan by the Commissioner responsible for EU competition policy to propose to the College of Commissioners to open proceedings to gather evidence on an alternative plan for RBS to meet its remaining State Aid obligations in respect of Williams & Glyn. If adopted, this alternative plan would replace the existing requirement to achieve separation and divestment by 31 December 2017. In addition, £706 million of the remaining restructuring costs related to Williams & Glyn, including £146 million of termination costs associated with the decision to discontinue the programme to create a cloned banking platform.

Litigation and conduct costs of £5,868 million included; a £3,107 million provision in relation to various investigations and litigation matters relating to RBS's issuance and underwriting of residential mortgage-backed securities (RMBS), an additional charge in respect of the settlement with the National Credit Union Administration Board to resolve two outstanding RMBS lawsuits, a provision in respect of the UK 2008 rights issue shareholder litigation, additional PPI provisions, a provision in respect of the FCA review of RBS's treatment of SMEs and a provision in Ulster BankRoI in respect of an industry wide examination of tracker mortgages.

A net strategic disposal gain of £164 million includes a £246 million gain on disposal of RBS's stake in Visa Europe partially offset by losses associated with the sale of our Russian subsidiary and exit of Kazakhstan.

PBB, CPB and NatWest Markets operating performance

Across our three customer facing franchises, PBB, CPB and NatWest Markets, operating profit before tax increased by £602 million, or 41%, to £2,058 million in 2016. Adjusted operating profit before tax, which excluded own credit adjustments (2016 - £56 million; 2015 - £120 million), restructuring costs (2016 - £489 million; 2015 – £852 million), litigation and conduct costs (2016 - £1,758 million; 2015 – £1,400 million) and write down of goodwill nil (2015 – £498 million), was £4,249 million, £163 million, or 4% higher than 2015.

2016 performance summary

UK PBB operating profit before tax was £1,381 million compared with £1,030 million in 2015. Adjusted operating profit before tax, which excludes restructuring costs of £187 million (2015 - £167 million) and litigation and conduct costs of £634 million (2015 - £972 million), of £2,202 million was £33 million, or 2%, higher than 2015 as increased income and reduced costs were partially offset by increased impairments. Total income increased by £90 million, or 2%, to £5,290 million compared with 2015 as the benefit of increased lending more than offset reduced margins, down 17 basis points to 3.01%, and lower fee income, reflecting reduced credit card interchange fees and increased cash back payments following the launch of the Reward account. Net loans and advances increased by 10% to £132.1 billion in 2016 principally driven by mortgage growth.

Ulster Bank RoI operating profit before tax was £20 million compared with £262 million in 2015. Adjusted operating profit before tax which excluded restructuring costs of £40 million (2015 - £15 million) and litigation and conduct costs of £172 million (2015 - £13 million credit), of £229 million was £35 million lower than 2015 principally reflecting a £28 million reduction in net impairment releases. REIL decreased by £1.3 billion in Q4 2016 largely driven by the sale of a portfolio of distressed loans.

Commercial Banking profit before tax was £742 million compared with £1,264 million in 2015. Adjusted operating profit before tax which excluded restructuring costs of £108 million (2015 - £69 million) and litigation and conduct costs of £423 million (2015 - £51 million), of £1,273 million was £111 million, or 8%, lower than 2015 primarily reflecting a £137 million increase in net impairment losses, largely driven by a single name charge in respect of the oil and gas portfolio. Excluding the business transfers, a benefit of £218 million (2015 - £79 million), total income increased by £21 million, or 1%, reflecting higher asset and deposit volumes partially offset by asset margin pressure. Net loans and advances increased by 10% in 2016 to £100.1 billion.

Private Banking(3) operating profit before tax was £111 million compared with an operating loss before tax of £470 million in 2015. Adjusted operating profit before tax which excluded restructuring costs of £37 million (2015 - £73 million) and litigation and conduct costs of £1 million (2015 - £12 million) and write down of goodwill (2015 - £498 million), of £149 million increased by £36 million, or 32%, compared with 2015 as increased asset volumes drove a £13 million, or 2%, uplift in income and cost efficiencies resulted in a £7 million, or 1%, reduction in adjusted operating expenses. In addition, net impairment losses reduced by £16 million.

RBS International operating profit before tax was £190 million compared with £207 million in 2015. Adjusted operating profit before tax which excluded restructuring costs of £5 million (2015 - £4 million), of

£195 million was £16 million, or 8%, lower than 2015 largely reflecting a £13 million, or 8%, increase in adjusted operating expenses which excluded restructuring costs of £5 million (2015 - £4 million), driven by a number of one-off charges, and a £10 million net impairment loss in 2016. Partially offsetting, total income increased by £7 million, or 2%, driven by increased asset volumes.

NatWest Markets total income was £1,574 million compared with £1,527 million in 2015. Adjusted income of £1,521 million which excluded the impact of transfers, £98 million in 2015 and own credit adjustments of £53 million (2015 - £120 million), was 16% higher than 2015, driven by Rates and Currencies, which benefited from sustained customer activity and favourable market conditions following the EU referendum and subsequent central bank actions. An adjusted operating profit of £201 million compared with a loss of £55 million in 2015.

Capital Resolution & Central items operating performance

Capital Resolution operating loss before tax was £4,870 million compared with £3,687 million in 2015. Adjusted operating loss before tax which excluded restructuring costs of £78 million (2015 - £1,307 million) and litigation and conduct costs of £3,413 million (2015 - £2,105 million), of £1,432 million compared with a loss of £412 million in 2015 and included disposal losses and impairments of £825 million, of which £683 million related to the shipping portfolio. RWAs reduced by £14.5 billion in 2016 to £34.5 billion.

Central items operating loss before tax was £1,615 million compared with £903 million in 2015. Adjusted operating profit which excluded own credit adjustments, £10 million credit (2015 - £14 million charge), loss on redemption of own debt £126 million (2015 - £263 million), strategic disposals resulting in a £245 million gain (2015 - £119 million loss), restructuring costs of £1,482 million (2015 - £744 million) and litigation and conduct costs of £697 million (2015 - £63 million), of £455 million compared with £272 million in 2015 and included a £349 million FX gain, principally associated with the weakening of sterling against the US dollar, a £227 million VAT recovery, a £97 million foreign exchange reserve recycling gain and other gains, partially offset by a £510 million loss in respect of IFRS volatility(4) due to reductions in long term interest rates (2015 – £15 million profit).

2016 performance summary

Delivery against our 2016 targets

Strategy goal	2016 target	2016
Strength and sustainability	Maintain Bank CET1 ratio of 13%	CET1 ratio of 13.4%
	£2 billion AT1 issuance	£2 billion equivalent AT1 issued in Q3 2016
	Capital Resolution RWAs around £30-35 billion	RWAs down £14.5 billion to £34.5 billion
Customer experience	Narrow the gap to No.1 in NPS in every primary UK brand	Year on year Commercial Banking have narrowed the gap. NatWest Personal, Ulster Business & Commercial in Northern Ireland and Ulster Business Direct in Republic of Ireland, have seen improvements in NPS
Simplifying the bank	Reduce operating expenses by £800 million	Operating expenses down £985 million (5)
Supporting sustainable growth	Net 4% growth in PBB and CPB customer loans	Net lending in PBB and CPB up 10%
Employee engagement	Raise employee engagement to within two points of the Global Finance Services (GFS) norm	Down 3 points to be 6 points adverse to GFS norm

Notes:

(1) Williams & Glyn refers to the business formerly intended to be divested as a separate legal entity and comprises RBS England and Wales branch-based businesses, along with certain small and medium enterprises and corporate activities across the UK. During the period presented Williams & Glyn has not operated as a separate legal entity.

(2) NatWest Markets' results include the following financials for businesses subsequently transferred to Commercial Banking: total income of £98 million for the year ended 2015.

(3) Private Banking serves high net worth individuals through Coutts and Adam & Company.

(4)IFRS volatility arises from the changes to fair value of hedges of loans which do not qualify for hedge accounting under IFRS.

(5)Cost saving target and progress 2016 calculated using operating expenses excluding restructuring costs of £2,106 million (2015 – £2,931 million), litigation and conduct costs of £5,868 million (2015 – £3,568 million), write down of goodwill nil (2015 – £498 million), write down of other intangible assets of £117 million (2015 – £75 million), the operating costs of Williams & Glyn £393 million (2015 – £359 million) and the VAT recovery of £227 million.

(6)Personal & Business Banking consists of the reportable segments UK PBB and Ulster Bank RoI, and Commercial & Private Banking consists of the reportable segments Commercial Banking, Private Banking and RBSI.

(7)Net loans and advances - UK PBB up from £119.8 billion, 10%, to £132.1 billion, Ulster Bank RoI up from £16.7 billion, 13%, to £18.9 billion, Commercial Banking up from £91.3 billion, 10%, to £100.1 billion, Private Banking up from £11.2 billion, 9%, to £12.2 billion and RBSI up from £7.4 billion, 19% to £8.8 billion.

2016 performance summary

Building a stronger RBS

RBS is progressing with its plan to build a strong, simple, fair bank for customers and shareholders. During 2016, RBS narrowed the range of uncertainty around its capital position by addressing a number of legacy issues, and continued to strengthen its capital base.

CET1 ratio remains ahead of our 13.0% target at 13.4%, a 210 basis points reduction compared with Q4 2015 principally reflecting the loss attributable to ordinary shareholders of £6,955 million, equivalent to c.300 basis points, partially offset by a £14.4 billion reduction in RWAs, c.100 basis points. During Q4 2016, the CET1 ratio reduced by 160 basis points as the benefit of the reduction in RWAs was more than offset by the loss attributable to ordinary shareholders.

RWAs reduced by £14.4 billion, or 6%, during 2016 to £228.2 billion driven by £14.5 billion of disposals and run-off in Capital Resolution and a £3.9 billion reduction associated with the removal of Citizens operational risk RWAs, partially offset by an increase associated with the weakening of sterling and lending growth across our core franchises.

On 10 August 2016 RBS announced that it had successfully completed the pricing of \$2.65 billion 8.625% AT1 capital notes, with £4.0 billion equivalent issued since August 2015 (1.8% of Q4 2016 RWAs).

Leverage ratio reduced by 50 basis points during 2016 to 5.1% reflecting the loss attributable to ordinary shareholders for the year partially offset by the AT1 issuance and reduction in leverage exposure.

RBS issued £4.2 billion equivalent senior debt, which it expects to be eligible to meet its 'Minimum Requirement for Own Funds and Eligible Liabilities' (MREL), in line with our targeted £3-5 billion senior debt issuance for the year. €1.5 billion seven year 2.5% notes and \$1.5 billion ten year 4.8% notes were issued in Q1 2016 and \$2.65 billion seven year 3.875% notes were issued in Q3 2016.

In addition, RBS successfully completed the cash tender of £2.3 billion of certain US dollar, sterling and euro senior debt securities. The tender offers were part of the ongoing transition to a holding company capital and term funding model in line with regulatory requirements and included securities that RBS considers non-compliant for MREL purposes. In total, during 2016, £10 billion has matured across our funding pools and we have redeemed £8.2 billion through calls and repurchase.

As part of the 2016 Bank of England stress testing exercise RBS submitted a revised capital plan, incorporating further capital strengthening actions, which was accepted by the PRA Board.

RBS has successfully addressed a number of the remaining legacy issues and continues to de-risk its balance sheet.

During Q1 2016 RBS made the final dividend payment in respect of the DAS, £1,193 million, an action that was taken to normalise the ownership structure of the Bank.

In June 2016, the triennial funding valuation of the Main scheme of The Royal Bank of Scotland Group Pension Fund was agreed which showed that as at 31 December 2015 the value of liabilities exceeded the value of assets by £5.8 billion. In March 2016, to mitigate this anticipated deficit, RBS made a cash payment of £4.2 billion.

The next triennial valuation is due to occur at the end of 2018 with agreement on any additional contributions by the end of March 2020. As at 31 December 2016, the Main scheme had an unrecognised surplus reflected by a ratio of assets to liabilities of c.115% under IAS 19 valuation principles.

On 11 April 2016, RBS completed the successful transfer of the Coutts International businesses in Asia and the Middle East to Union Bancaire Privée, the final milestone in the sale of our International Private Bank. During 2016 we also completed the sale of our Russia and Kazakhstan subsidiaries.

Risk elements in lending (REIL) of £10.3 billion were £1.8 billion lower than 31 December 2015 and represented 3.1% of gross customer loans, compared with 3.9% as at 31 December 2015 and 3.8% at 30 September 2016.

In line with the progress to de-risk the balance sheet, exposures to the shipping and oil and gas sectors continued to reduce during 2016, with potential exposures declining by 29% to £5.2 billion and by 22% to £5.3 billion respectively. As at the end of 2016, our total exposure to the coal mining, oil and gas and power generation sectors represented 1.4% of our total lending.

2016 performance summary

Building the number one bank for customer service, trust and advocacy in the UK

Supporting households and business customers

RBS continued to deliver strong support for both household and business customers. Within UK PBB, gross new mortgage lending of £29.8 billion was 29% higher than 2015. Across 2016, our market share of new mortgages was 12%, supporting a growth in stock share to 8.8% at end 2016 from 8.2% at end 2015. As a result, total UK PBB net loans and advances increased by 10% compared with 2015. Commercial Banking net loans and advances have also grown by 10% over the course of 2016 reflecting increased borrowing across a number of sectors.

The Reward account continued to show positive momentum and now has 1,149,000 fee-paying customers compared with 202,000 at 31 December 2015. We have seen positive evidence of increased levels of engagement, with overall current account attrition levels falling by 7% in the year. This is particularly evident across our Private and Premium customer, with attrition 12% lower. We continue to embed the product across our population of valuable main bank customers.

RBS continues to support UK business growth through the launch of 6 new business accelerator hubs in 2016, bringing the total to 12. This included the opening of an Entrepreneurial Centre in our Edinburgh headquarters. In addition, NatWest launched a £1 billion lending fund to support small businesses.

Investing in our operational capabilities and enhancing digital channels

RBS continued to make better use of our digital channels to make it simpler to serve our customers and easier for them to do business with us. We now have 4.2 million customers regularly using our mobile app in the UK, 19% higher than the end of 2015, and around 60% of our personal customers used a digital channel within the last 90 days. In 2016, we more than doubled the number of customers who purchased a product through our mobile channel compared with 2015. NatWest customers can now apply for personal loans, credit cards and overdrafts via the mobile app, facilitating approximately 8% of total applications. Our new business banking 'Online Account Opening' service now allows start up business customers to submit an application online in just ten minutes and get a sort code and account number in under an hour.

Nearly 80% of our commercial customers' interaction with us is via digital channels, with 270,000 payments processed every day.

In addition to our digital channels, RBS continues to provide multiple physical channels for serving customers, including access to a network of c.11,500 Post Office branches in the UK, c.1,000 An Post branches in the Republic of Ireland, and 41 mobile banking vans, alongside our existing network of 1,425 branches and 4,646 ATMs across PBB.

RBS became the first UK Bank to be accredited by the Royal National Institute for Blind People for having an accessible mobile app for blind and partially sighted customers. In addition, we launched a new service for British Sign Language (BSL) customers, making it possible to instantly chat with an advisor through a BSL interpreter.

Coutts won the best private bank in the UK for the fifth year running, best private bank for philanthropy services and best initiative of the year in client facing technology at the Global Private Banking Awards, and was highly commended for innovation for its 'Coutts Concierge Online'.

Investing in our people

In 2016, RBS was one of only two banks to achieve formal recognition from the Chartered Banker Professional Standards Board for excellence in implementing, monitoring, reporting and commitment to the Foundation Standard for Professional Bankers.

Delivered leadership training to almost 16,000 leaders through a comprehensive 'Determined to Lead' programme.

We continue to work towards our goal of having at least 30% senior women in our top three leadership layers across each business by 2020 and to be fully gender balanced (50/50) by 2030. As at 31 December 2016, in aggregate terms 34% of our top three leadership layers were female.

RBS has attained silver status in the Business Disability Forum's Disability Standard, scoring 88% in its assessment of accessibility and inclusion in the workplace.

RBS has moved up to 13th place, from 32nd last year, in Stonewall's annual Top 100 employers for lesbian, gay, bi and trans (LGBT) staff, the highest position it has achieved in the index to date.

2016 performance summary

Looking forward

Capital reorganisation

It is our intention to implement a capital reorganisation in 2017 in order to increase the distributable reserves of the parent company, RBSG plc, providing greater flexibility for future distributions and preference share redemptions. We intend to seek shareholder approval to reduce the share premium account by around £25 billion and to cancel the capital redemption reserve, around £5 billion. This will, subject to approval by shareholders and regulators, and confirmation by the Court of Session in Edinburgh, increase RBSG plc distributable reserves by around £30 billion.

Ring-fenced structure

As previously announced, on 1 January 2017, RBS made a number of changes to its legal entity structure to support the move towards a ring-fenced structure, with further changes planned prior to 1 January 2019. Our new brand strategy is designed to align with our business strategy and future ring-fenced structure. NatWest will be our main customer facing brand in England, Wales and Western Europe, and in Scotland, Royal Bank of Scotland will be our core brand. In addition, our Corporate & Institutional Banking business has been rebranded as NatWest Markets in readiness for our future ring-fenced structure. The ring-fenced banking group is expected to comprise of 80% of RBS risk-weighted assets.(1)

IFRS9

RBS continues to develop its processes to enable IFRS 9 Financial Instruments to be implemented on 1 January 2018; an estimate of the initial impact will be included in 2017 H1 interim reporting.

Williams & Glyn

On 17 February 2017, RBS announced that it had been informed by HM Treasury (“HMT”) that the Commissioner responsible for EU competition policy plans to propose to the College of Commissioners to open proceedings to gather evidence on an alternative plan for RBS to meet its remaining State Aid obligations. If adopted, this alternative plan would replace the existing requirement to achieve separation and divestment by 31 December 2017 of Williams & Glyn. As previously disclosed, none of the proposals to acquire the business received by RBS can deliver a full separation and divestment before the 31 December 2017 deadline.

RBS has agreed that HMT will now seek formal amendment to RBS's State Aid commitments to pave the way for the Commissioner to propose to open proceedings, as described above. In addition to the Commission's proceedings, HMT will carry out a market testing exercise in parallel. The opening of the Commission's proceedings does not prejudice the outcome of the investigation.

The plan envisages that RBS will deliver the following revised package of remedies to promote competition in the market for banking services to small and medium enterprises ("SMEs") in the UK:

- A fund, administered by an independent body, that eligible challenger banks can access to increase their business banking capabilities;
- Funding for eligible challenger banks to help them incentivise SMEs to switch their accounts from RBS paid in the form of "dowries" to eligible challenger banks;
- RBS granting business customers of eligible challenger banks access to its branch network for cash and cheque handling, to support the measures above; and
- An independent fund to invest in fintech to support the business banking of the future.

The 2016 Annual Results include a £750 million restructuring provision as a consequence of this proposal.

2017 Outlook ⁽²⁾

Subject to providing fully for the remaining legacy issues, RMBS exposures in particular, RBS currently expects that 2017 will be its final year of substantive legacy clean up with significant one-off costs. Consequently, we anticipate that the bank will be profitable in 2018.

We are targeting net loans and advances growth of 3% across PBB and CPB, including taking into account the impact of balance sheet reductions associated with the RWA reduction target. We anticipate that this growth will be largely within PBB as we expect to see moderate growth in some segments in CPB, whilst at the same time selectively reducing exposures with weak returns and continuing to actively manage certain legacy loan exposures.

We expect that income in 2017 will continue to be supported by balance sheet growth across PBB and CPB. Within UK PBB, we anticipate that income will increase in 2017 compared with 2016, as we have already absorbed significant margin pressure from the changing mortgage mix and the impact of the sharp fall in interchange rates. Across CPB, we expect income to be broadly stable with continued competitive

pressure on margins, given the interest rate environment. NatWest Markets is expected to continue to benefit from increased market volatility and customer activity and we anticipate that 2017 income will be above previously indicated targets of £1.3 -£1.4 billion.

RBS plans to reduce adjusted operating expenses⁽³⁾ by a further £750 million in 2017, in addition to the £3.1 billion achieved across 2014 to 2016, and we expect that the adjusted cost:income ratio⁽³⁾ will improve across our combined PBB, CPB and NatWest Markets franchises in 2017 compared with 2016.

2016 performance summary

Net impairment charges should remain meaningfully below normalised levels in 2017. However, we expect the level of net impairment charges to be driven by a combination of increased gross charges and a materially reduced benefit from releases. Recent UK economic performance has been better than previous forecasts leading to improved expectations for the 2017 economic outlook. However, the medium term outlook remains less certain, and together with the increased volatility expected with the introduction of IFRS 9, quantification of future credit losses is more challenging beyond 2017 at this point. We continue to remain mindful of potential downside risks including from single name / sector driven events and lower releases of provisions.

We continue to expect that cumulative Capital Resolution disposal losses will total approximately £2.0 billion since the beginning of 2015, with £1,192 million of losses incurred to date (2016; £825 million, 2015; £367 million) with most of the balance expected to be incurred during 2017. Excluding RBS's stake in Alawwal Bank (previously Saudi Hollandi Bank, £7.9 billion at 31 December 2016), we expect Capital Resolution RWAs to be in the range £15-£20 billion by the end of 2017, at which point we plan to wind up Capital Resolution and transfer the assets back into the rest of the bank.

Excluding restructuring costs associated with the State Aid obligations relating to Williams & Glyn, we expect to incur restructuring costs of approximately £1 billion in 2017 and approximately a further £1 billion in aggregate during 2018 and 2019. Approximately 40% of this cost is expected to relate to the optimisation of our property portfolio.

Further to the update on 17 February 2017 in respect of the remaining State Aid obligations regarding the business known as Williams & Glyn, and subject to the alternative plan being finalised and adopted by the European Commission (EC) and further discussions with the EC and HMT, RBS will assess the timing and manner in which it would reincorporate the business into the RBS franchises. This reintegration would likely create some additional restructuring charges during 2017 and 2018.

We are targeting a CET1 ratio of at least 13% at the end of 2017. As part of the 2016 Bank of England stress testing exercise, RBS submitted a revised capital plan, incorporating further capital strengthening actions, which was accepted by the PRA Board.

RBS issuance plans for 2017 focus on issuing £3-£5 billion MREL-compliant Senior holding company (RBSG) securities. We do not currently anticipate the need for either AT1 or Tier 2 issuances. In addition, and reflecting our strategic progress, we also target a progressive return to other funding markets to support our lending growth.

RBS continues to deal with a range of significant risks and uncertainties in the external economic, political and regulatory environment and manage conduct-related investigations and litigation, including RMBS. Substantial additional charges and costs may be recognised in the coming quarters which would have an impact on RBS's level of capital and financial performance and condition.

2016 performance summary

Medium term outlook ⁽²⁾

We now target achieving our sub 50% cost:income ratio⁽³⁾ and 12% return on tangible equity targets in 2020, one year later than originally planned. Our confidence in achieving the targets is underpinned by our ability to protect income and drive cost reductions whilst managing credit and market risk and driving further capital efficiency.

We expect to be able to grow volumes faster than market growth rates over the coming years in chosen segments across PBB and CPB.

We plan to reduce adjusted operating expenses⁽³⁾ in the order of £2 billion in the next four years with around two thirds of this from the core bank.

We are targeting a gross RWA reduction of approximately £20 billion across PBB, CPB and NatWest Markets by the end of 2018, with some offsetting volume growth. We expect that the reduction will be largely achieved through improvements in the quality of our risk models, exiting low return, non strategic and risk intensive asset pools, improved risk metrics in certain portfolios and benefits from data clean-up. We estimate that the income loss associated with this reduction will be in the range £250 million – £300 million on an annualised, pre tax, basis.

We continue to monitor the ongoing discussions around the potential further tightening of regulatory capital rules and recognise that this could result in RWA inflation in the medium term.

In view of the significant risks and uncertainties in the external economic, political and regulatory environment including uncertainties around the resolution of RMBS, the timing of returning excess capital to shareholders through dividends or buybacks remains uncertain was accepted by the PRA Board.

Notes:

(1) Based on RBS future business profile business and excludes Capital Resolution.

(2) The targets, expectations and trends discussed in this section represent management's current expectations and are subject to change, including as a result of the factors described in this document and

in the “Risk Factors” on pages 509 to 578 of the Annual Report 2016 on Form 20-F. These statements constitute forward looking statements, please see Forward Looking Statements on pages 1 and 2 of the Annual Report 2016 on Form 20-F.

(3) Cost saving target and progress 2017 calculated using operating expenses excluding restructuring costs, litigation and conduct costs, write down of goodwill and the 2016 VAT recovery.

2017 targets

As we works towards our long-term goals, we have set the following targets for 2017.

Strategy goal	Our long-term targets	Our 2017 goals
Strength and sustainability	CET1 ratio of 13% RoTE (1,2) \geq 12%	Maintain bank CET1 ratio of 13%
Customer experience	Number 1 for service, trust and advocacy	Significantly increase NPS or maintain No.1 in chosen customer segments
Simplifying the bank	Headline cost:income ratio <50%	Reduce operating expenses by at least £750 million (3)
Supporting sustainable growth	Leading market positions in every franchise	Net 3% growth in total PBB and CPB loans to customers (4)
Employee engagement	Employee engagement in upper quartile of Global Financial Services (GFS) norm	Improve employee engagement

Notes:

(1) Calculated using (loss)/profit for the period attributable to ordinary shareholders.

(2) Tangible equity is equity attributable to ordinary shareholders less intangible assets.

(3) Cost saving target and progress 2017 calculated using operating expenses excluding restructuring costs, litigation and conduct costs, write down of goodwill and the 2016 VAT recovery.

(4) Lending growth target is after including the impact of balance sheet reductions associated with the RWA reduction target across PBB, CPB and NatWest Markets as outlined in the outlook statement.

Business model and strategy

Our strategy

We are building a better bank for our customers, and one that will deliver sustainable returns for shareholders. Our purpose is to serve customers well, and to do so, we are becoming a safer, simpler, customer-focused UK and Ireland bank.

Our plan

Underpinning that ambition is our blueprint for success. This is our plan which drives our strategic decision making.

RBS is continuing to build a bank that is easy to do business with, and meets customers' continually evolving needs. Our plan focuses on delivering excellent customer service through all of our brands. Creating lasting relationships with our customers, who advocate for our bank, is the key to generating sustainable values.

Notes:

(1) Cost saving target and progress calculated using operating expenses excluding restructuring costs, litigation and conduct costs, write down of goodwill and the 2016 VAT recovery.

(2) Lending growth target is after including the impact of balance sheet reductions associated with the RWA reduction target across PBB, CPB and NatWest Markets as outlined in the outlook statement.

Business model and strategy

Our priorities

Strength and sustainability

We remain focused on building a strong and stable bank. We have continued to improve the fundamentals, by increasing our capital strength, building a robust liquidity position and balancing our loan to deposit ratio.

Customer experience

We are investing in our people, service, and product proposition to ensure we provide market leading technology and signature customer experiences, through a wide variety of channels.

Simplifying the bank

Streamlining of processes and removing unnecessary complexity lowers our operating costs, and makes our customer interactions more straightforward.

Supporting sustainable growth

A strong sustainable business grows with its customers. We continue to support our customers through offering products and services which meet their needs.

Employee engagement

Engaged colleagues lead to engaged customers. At RBS we are committed to investing in our colleagues and creating leaders who inspire and empower their teams.

Business model and strategy

Our structure

We have three customer franchises, and each is underpinned by a range of distinct brands, which are the route through which we engage with our customers.

Our franchises share operational and control functions, deriving economies of scale and diversification benefits. Our brands are personalised and each reflects a particular targeted customer segment.

Personal and Business Banking (PBB) With a branch network and mobile, telephone and online banking propositions, PBB services our retail banking, mass affluent and small business customers in both the UK and Republic of Ireland. PBB provides a simple range of products, including current accounts, loans and mortgages, to meet all core banking needs.

Commercial and Private Banking (CPB) CPB serves our commercial and our high net worth customers in the UK and Western Europe. Commercial Banking supports our corporate clients by providing comprehensive commercial banking and financing services with sector expertise. This includes specialist finance such as invoice finance, asset finance and leasing. Our Private Banking business offers high net worth clients private banking, wealth planning and investment management services. RBS International (RBSI) continues to focus on supporting retail, commercial, corporate and financial institution customers in Jersey, Guernsey, Isle of Man, Gibraltar and Luxembourg.

NatWest Markets

Focusing on our core markets in the UK and Western Europe, NatWest Markets provides financing and risk management to our UK and Western Europe corporate customers and global financial institutions.

Franchises

Our franchises bring together customers determined by the scale and complexity of their financial needs. This groups our business units that have the greatest economies of scale and synergies.

Teams define and deliver the customer proposition, and are accountable for end-to-end customer processes and products. The teams partner with functions and services to develop cost-effective propositions that meet customer needs.

Services

Services provide business-aligned technology, operations and property services across the bank. Operations are centralised to provide cost-efficient and consistently strong customer service, through simple processes and economies of scale. It is also accountable for technology risk, payments, data, change management and the bank's fraud and security functions.

Functions

These teams define functional strategy and the financial plan to support the franchises and other functions. Most functions are a mix of control, expertise and advisory. All common support activities across the organization are included.

Business model and strategy

Business model and strategy

Product and services

Our products and services are designed to ensure that we can create sustainable value for both our shareholders and our customers. We believe that keeping our product range simple and accessible is crucial to our success.

Business model and strategy

Our brands

Our brands are our main connection with customers. Each takes a clear and differentiated position that will help us strengthen our relationships with our customers, stand out in the market, and build the value of our brands.

Business model and strategy

Case Study - Flying High

Sarah-Jane Anthony saw her first falconry display aged seven and was hooked. Twenty years later, she decided to follow her dream and start her own business. Now she runs her own award-winning falconry centre in Essex.

“I’ve banked with NatWest all my life and when I needed a business account, Khaled, the local at West Women in Business specialist, was really supportive. Without his help and advice, I don’t think I’d be here today.”

Through our Chartered Banker accreditation programme in association with Everywoman, we’ve trained 400 Women in Business specialists across the bank. Their knowledge makes them ideally placed to help female business owners and budding entrepreneurs with their banking needs.

28

Business model and strategy

Building a more sustainable bank

Our goal is to be No.1 for customer service, trust and advocacy. We are changing our culture and priorities for the better. We are committed to building a bank that works for all stakeholders.

By delivering the best possible service for customers to meet their needs, we aim to achieve a return for our shareholders. At the same time, we recognise our responsibility towards the society we serve and operate in. It is only by supporting our customers and communities to succeed that we will be able to become a more sustainable bank.

Our key resources and relationships

RBS provides financial services to individuals and businesses, primarily in the UK and Ireland. We rely on financial, human, intellectual, social, infrastructure and natural capital to do so. We leverage these forms of capital through our expertise, technology and customer focus across our different brands. This helps to improve customer service quality, personalised through our brands. We also seek to create sustainable value for our shareholders and other stakeholders, including customers, employees, and civil society.

Our business model

Our purpose is to serve our customers well; we earn income by providing lending and deposit services to our customers. We incur operating expenses in providing these services, and accept risk; including credit risk, liquidity risk and currency risk. The operating profit generated by the bank is targeted to compensate shareholders for the cost of these risks. Building a safe and customer-focused bank is central to our ability to create value.

The main source of our income is the interest income earned from loans and advances to our personal, business and commercial customers. We also earn fees from transactions and other services provided to our customers.

We pay interest to customers and other investors who have placed deposits with us and bought our debt securities. The difference between these is our net interest income. We also pay benefits to our customers, through loyalty products such as our Reward Account.

NatWest Markets puts its customers at the centre of the way it does business, making working with the bank easy and rewarding. The bank is organised around providing the right solution to meet its customers' needs. It anticipates emerging issues and provides depth of insight and innovative ideas.

Business model and strategy

How we create value for customers and society

Financial	Social and Relationship	Infrastructure	Natural	Human and Intellectual
We make use of shareholder capital and other forms of financial capital, including £353.5 billion in customer deposits (1).	18.9 million customers in the UK and Republic of Ireland. In 2016, we opened 40,860 Foundation Accounts(2), helping customers who may otherwise face difficulties when opening a bank account.	We continue to provide multiple physical channels for serving customers, including access to a network of c.12,500 Post Office and An Post branches(3) and 41 mobile banking vans alongside our existing network of 1,425 branches and 4,646 ATMs.	754 GWh of energy consumed and 9,965 tonnes of paper used in 2016(4).	A capable and caring workforce of 79,099 (permanent headcount). In 2016 we recruited 254 graduates and 283 apprentices.

How we create value for customers and society

Our activities generate outcomes across all parts of the economy

- Keeping money safe and accessible for our depositors, including preventing 498,000 cases of attempted fraud amounting to £303 million in the UK(5).
- Offering lending, advice and services to individuals. Supporting customers with financial life events, including £33.7 billion of gross new mortgage lending(6) to help our customers buy homes.
- Enabling individuals and businesses to make payments effectively and efficiently, including more than doubling the number of products sold through our mobile channel compared with 2015.
- Providing working capital and lending to help businesses meet their goals, including £30.5 billion(7) in lending to small and medium-sized enterprises across England, Scotland and Wales, and c.£1.0 billion in lending to infrastructure projects.
- Supporting local communities, including £2.5 million(8) of grants made by our Skills & Opportunities Fund to 125 organisations, who support people from disadvantaged communities start-up in business or get into employment.
- Supporting entrepreneurs to start up in business, including 1,736 businesses(9) helped through Entrepreneurial Spark powered by NatWest.
- Investing in our people and partners to develop a skilled workforce, including the delivery of leadership training to almost 16,000 leaders through a comprehensive 'Determined to Lead' programme.
- Payment of £1.32 billion(10) in tax to the UK Government, which supports central government and local authority spending.

Notes:

- (1) Customer deposits excluding repurchase agreements and stock lending.
- (2) Number of new Foundation Accounts opened across NatWest Plc, Royal Bank of Scotland plc and Ulster Bank Ireland DAC.
- (3) Comprises c.11, 500 Post Office branches in the UK and c.1000 An Post branches in the Republic of Ireland.
- (4) For further details refer to page 39.
- (5) Data relates to reported attempted fraud cases and prevented third party losses in the UK (not including policy declines for debit cards).
- (6) Gross new mortgage lending across UK PBB, Ulster Bank RoI and RBSI.
- (7) SME lending balances in over 9,960 postcode sectors across England, Scotland & Wales.
- (8) Data is compiled by Project North East (PNE) and is based on the total spend allocated by each Regional Board.
- (9) Data is compiled by Entrepreneurial Spark. The data includes all businesses which have been part of the programme since launch in 2012.
- (10) Comprises £174 million corporate tax, £660 million irrecoverable VAT, £208 million bank levies and £279 million employer payroll taxes.

Our Approach

Our Values

Our Values guide our actions every day, in every part of our business. The values are the foundation of how we work at RBS.

Our Approach

Case Study - Power to the people

We continue to play a key role in the transition to a low carbon economy by helping our customers to mitigate their emissions, save energy and reduce costs.

We have over 25 years experience in helping our customers to fund renewable energy and energy efficiency measures. According to InfraDeals, RBS has been the leading lender to the UK renewables sector by number of transactions over the past five years (2012-2016). During 2016 RBS took a lead role in financing the Beatrice Offshore Wind Farm, located 13.5km from the Caithness Coast.

This wind farm projected to power approximately 450,000 homes (around three times the number of homes in the Moray and Highland region). It was one of the first eight UK projects to be awarded an Investment Contract under the Contract for Difference feed in tariff. It will contribute £680m in the construction phase to the economy through supply chain opportunities and employment.

It is estimated to have an on-going £400-525 million impact on the economy over the windfarm's 25 year operational life. An integrated approach was delivered by RBS through close collaboration between teams highlighting the breadth, strength and market leadership of the RBS franchise and ensuring a successful outcome for our customer. An integrated approach was delivered by RBS through close collaboration between teams highlighting the breadth, strength and market leadership of the RBS franchise and ensuring a successful outcome for our customer.

Our Colleagues

Engaging our colleagues is critical to delivering on our strategy and ambition as a bank. Being better for our colleagues means we are better for our customers, and this makes us a better bank.

- Platinum ranking from Opportunity Now (gender)
- Gold ranking for Race for Opportunity (race)
- Time Top 50 Employers for Women
- Top Ten Global Employer in Stonewall's Global Equality Index (LBGT)
- Silver Status from the Business Disability Forum
- Top 10 Employer by Working Families

Creating a Healthy Culture

Building a healthy culture that embodies Our Values is one of our core priorities. Our Values guide the way we identify the right people to serve our customers well, and how we manage, engage and reward our

colleagues. Our Values are at the heart of both Our Standards, the bank-wide behavioural framework and Our Code, the bankwide Code of Conduct.

Our values are integral to the way we behave and do business and we continue to reinforce them in our systems, our policies and processes, our communications and our training and leadership role modelling.

We monitor our progress against our goals and gather feedback from our colleagues. Through metrics and key performance indicators we are able to assess our progress and respond accordingly. We measure our progress through internal reporting and report on progress quarterly. We participate in external benchmarking exercises and fully support the Banking Standards approach.

Our most recent survey, in which almost 63,000 colleagues took part, showed that we are changing the culture of RBS for the better. We remain above the Global Financial Services Norm for wellbeing, our inclusion scores continue to improve and there is a strong sense that managers act consistently with Our Values. However, the choices we've had to make as we move RBS forward have taken a toll on our colleagues. The scaling down of RBS and the impact of dealing with some difficult legacy issues have contributed to a decline in the improvements in engagement, pride and leadership that we saw in 2015.

We encourage colleagues to tell us what they think via the annual colleague survey and our regular comments boards. When colleagues wish to report concerns relating to wrong doing or misconduct they can raise concerns via Speak Up, the bank's whistleblowing service. In 2016 213 cases were raised compared to 142 in 2015.

Our Approach

Performance and Reward

Our approach to performance management provides clarity for our colleagues about how their contribution links to our ambition and all our colleagues have goals set across a balanced scorecard of measures. In 2016 we refreshed our behavioural framework to create one framework for all our colleagues (Our Standards).

We strive to pay the right wage to colleagues and continue to exceed the Living Wage Foundation Benchmarks. We have removed sales incentives for front line colleagues so they can concentrate on great customer service. For 2017, we have simplified how we pay our clerical colleagues, consolidating bonuses, making pay fairer and easier to understand. More information on our remuneration policies can be found on pages 101 to 149 of the Annual Report 2016 on Form 20-F.

Learning

We continue to embed 'Determined to lead' (DtI), our core leadership programme across the bank. DtI provides consistent tools to lead and engage our colleagues and is transforming the way we operate. In 2016 almost 16,000 leaders participated in the programme.

In October, we launched Service Excellence training, our new customer service programme. The first module introduces our Core Service Behaviours and provides an awareness of the tools and techniques that will help us to deliver the best possible service, every time. Since October over 34,000 colleagues have completed this module.

We work closely with the Chartered Banker Institute (CBI) and Chartered Banker Professional Standards Board (CB:PSB) to professionalise our colleagues. In 2016 we achieved an Excel rating in the CB:PSB Foundation Standard review, one of only two CB:PSB member firms to have secured 'Earned Autonomy'.

We also offer a wide range of learning opportunities which can be mandatory, role specific or related to personal development. Our mandatory learning is focused on keeping our customers, our colleagues and the bank safe.

Health and Wellbeing

Wellbeing is a fundamental part of creating a great place to work. We offer a wide range of wellbeing initiatives and benefits to help maintain physical and mental health and support our colleagues if they become unwell.

In 2016, we focused on physical, mental health and social wellbeing. More than 50,000 colleagues took part in the Global Corporate Challenge (GCC), helping us to win the GCC World Most Active Organisation Gold Award.

Our Approach

To support our colleagues through change we continue to promote our Employee Assistance Programme, where we have continued to see a high utilisation rate. We have supported Time to Change (the UK's biggest programme to challenge mental health stigma) since 2014 and launched a number of mindfulness support tools this year.

Inclusion

Building a more inclusive RBS is essential for our customers and colleagues.

Our inclusion policy applies to all our colleagues globally to make sure everyone feels included and valued, regardless of their background.

As at 31 December 2016, our permanent headcount was 79,099. 48% were male and 52% female.

We continue to work towards our goal of having at least 30% senior women in our top three leadership layers across each business by 2020 and to be fully gender balanced by 2030. We have a positive action approach in place, tailored by business, according to the specific challenges they face.

During 2016, we continued to roll out unconscious bias learning to all our colleagues to create a solid platform for the wider inclusion agenda. Almost 30,000 colleagues participated in unconscious bias training in 2016.

Our disability plan will support us becoming a disability smart organisation by 2018. It addresses areas for improvement including branch access, accessible services, improving colleague adjustment processes and inserting disability checkpoints into our key processes and practices.

We continue to focus on building an ethnically diverse RBS. Our plan focuses on positive action and includes reciprocal mentoring, targeted development workshops and leadership programmes and ensuring we have a Black, Asian and Minority Ethnic (BAME) focus on recruitment, talent identification and promotion.

Our LGBT agenda continues to deliver a better experience for our LGBT colleagues and customers. We have processes in place to support updating gender and title on customers' banking records and to support colleagues undergoing gender transition. And, we continue to support our 16,000-strong colleague networks.

Historically we have reported by grade, which has enabled us to track trend year on year, however as the structure of our business has changed, we have evolved our approach to reflect our organisational (CEO) levels. This method more accurately describes our gender balance at leadership/pipeline levels and is reflective of how work gets done across the bank.

Grade	#Women	#Men	%Women
CEO – 1	3	10	23
CEO – 2	33	73	31
CEO – 3	232	443	34
CEO – 4	1512	1891	44
Target population (CEO – 3 and above)	268	526	34

	Male	Female
Executive Employees	113 (78%)	32 (22%)
Directors of Subsidiaries	481 (84%)	90 (16%)

There were 716 senior managers (in accordance with the definition contained within the relevant Companies Act legislation), which comprises our executive population and individuals who are directors of our subsidiaries. The RBS Board of directors has twelve members, consisting of nine male and three female directors.

Our Approach

Our Customers

RBS remains committed to achieving its target of being the number one bank for customer service, trust and advocacy by 2020.

We use independent surveys to measure our customers' experience and track our progress against our goal in each of our markets.

Net Promoter Score (NPS)

Customers are asked how likely they would be to recommend their bank to a friend or colleague, and respond based on a 0-10 scale with 10 indicating 'extremely likely' and 0 indicating 'not at all likely'. Customers scoring 0 to 6 are termed detractors and customers scoring 9 to 10 are termed promoters. NPS is established by subtracting the proportion of detractors from the proportion of promoters.

The table below lists all of the businesses for which we have an NPS for 2016. Year-on-year, NatWest Personal and Commercial Banking have improved, along with Ulster Bank Business and Commercial in Northern Ireland and Ulster Bank Business Direct in the Republic of Ireland. In Great Britain, we have also narrowed the gap to number one in Commercial Banking. We do, however, acknowledge that there is still work to do, with four brands missing their year end targets.

In recent years, RBS has launched a number of initiatives to make it simpler, fairer and easier for customers to do business with the bank.

		Q4 2015	Q3 2016	Q4 2016	Year end 2016 target
Personal Banking	NatWest (England & Wales) (1)	9	11	13	15
	Royal Bank of Scotland (Scotland) (1)	-9	-2	-4	-5
	Ulster Bank (Northern Ireland) (2)	-9	-16	-16	-3
	Ulster Bank (Republic of Ireland) (2)	-14	-8	-7	-10
	NatWest (England & Wales) (3)	9	4	-2	13
	Royal Bank of Scotland (Scotland)	-7	-4	-5	2

Business Banking	(3)				
Business Direct	Ulster Bank (Republic of Ireland) (5)	-21	n/a	-2	-15
Business & Commercial	Ulster Bank (Northern Ireland) (4)	-19	0	0	-4
Commercial Banking (6)		9	21	20	17

Customer Trust

We also use independent experts to measure our customers' trust in the bank. Each quarter we ask customers to what extent they trust or distrust their bank to do the right thing. The score is a net measure of those customers that trust their bank (a lot or somewhat) minus those that distrust their bank (a lot or somewhat).

Customer trust in NatWest in England & Wales has exceeded its 2016 target, improving from 48% at Q4 2015 to 55% at Q4 2016. Trust in RBS in Scotland has fallen year on year (from 14% in Q4 2015 to 13% in Q4 2016) and has fallen behind its target for 2016. This is primarily due to ongoing reputational and legacy issues that the bank continues to work to resolve.

		Q4 2015	Q3 2016	Q4 2016	Year end 2016 target
	NatWest (England & Wales)	48%	48%	55%	51%
Customer trust (7)	Royal Bank of Scotland (Scotland)	14%	13%	13%	26%

Our operating environment

Key influences in our operating environment

Our ability to serve customers and create value for the long term is heavily influenced by the environment in which we operate. We have assessed the importance of these influences both in terms of their relevance to our stakeholders (including customers, investors, UK government, employees and civil society) and their potential commercial impact on us. We have categorised them accordingly, shown in the diagram below. This provides additional context for our performance and future strategy. Each influence is briefly described on the following pages, with links provided to the relevant parts of the Strategic Report for more detail.

Our operating environment

Influences explained and where to find out more.

Our operating enviroment

Our operating environment

Our direct environmental footprint

RBS is committed to reducing the environmental impact of serving our customers. We outperformed our 2020 targets of 20% carbon, 5% water and 50% paper reduction during 2016 and we will increase our ambition in these areas during 2017. Our decrease in total carbon emissions is largely attributable to a 15% per full time equivalents reduction in energy consumption since 2014. We are containing growth in Data Centre energy consumption through legacy IT decommissions and energy reduction initiatives. The rationalisation of property space and investment in building management systems in 384 branches and 17 offices are examples of a number of projects delivering energy reductions. We buy renewable electricity in the UK, reflected in our market-based CO₂e emissions figure. Scope 3 business travel emissions are being driven down by a reduction in long haul flights, a focus on associated cost and improved virtual collaboration tools.

In 2016 we diverted 96% of waste from landfill in the UK, 70% globally. An increase in waste volume compared with 2015 is partly attributed to the destruction of outdated paper records which are recycled along with all paper waste. Removing paper hand towels from 800 branches and 22 offices has helped keep waste volume down. Sending food waste to anaerobic digestion and coffee waste for bio-fuel improves our recycling rate. Paper usage is linked to use of digital channels with approximately 55% of personal and business banking customers receiving online statements and a reduction in internal print of 20% in 2016.

We collaborate with colleagues and suppliers to improve performance in all areas. Our Innovation Gateway crowdsourcing community is a partnership with corporates and universities, now sourcing new solutions from 1,300 SMEs. We've tested 34 of these new products in our facilities since 2014 with notable success in reducing water usage. We engage colleagues via bank wide 'Determined to Make a Difference' campaigns. In 2016, 1,200 colleagues logged over 2500 activities to reduce our environmental impact, via our green reward app JUMP.

Carbon emissions disclosure

Notes:

*Scope 1: Emissions from fluorinated gas loss and fuel combustion in RBS premises/vehicles. **Scope 2: Emissions from electricity, district heating and district cooling used in RBS premises. ***Scope 3: Emissions associated with business travel (air, rail and road) by RBS employees. **** Scope 3 emissions have been restated and rebaselined to include Taxis in India.

***** market-based emissions have been calculated using the GHG Protocol guidelines. RBS has purchased renewable electricity that meets the Good Quality Criteria since March 2016. Paper and business travel targets have a baseline year of 2011.

Our operating environment

Our approach to human rights and modern slavery

RBS takes a proactive approach to upholding our commitment to respect human rights. This includes regular review of our policies and procedures. Our approach is centred on identifying and mitigating potential human rights risks across our business and our sphere of influence.

A main focus during 2016 has been to meet our new obligations under the Modern Slavery Act 2015 (MSA), which aims to protect victims, bring perpetrators to justice and provide more effective tools for law enforcement. We welcome the MSA and its aim to eradicate forced labour and human trafficking.

In accordance with the requirements of the MSA, our first annual statement will be published and available on our website in Spring 2017. Ahead of this we published an interim statement in December 2016 setting out our approach and seeking the input of external stakeholders.

We are taking a human rights approach to understand the impacts of our operations and supply chain. We are also working to ensure our employees, suppliers and customers are aware of the risks and are able to address any issues when they arise.

These steps include: reviewing and updating our policy commitments; raising awareness among employees; targeted training to relevant employees, such as supply chain managers and relationship managers; incorporating requirements under the MSA into our supplier sourcing process; and embedding MSA commitments within our Environment, Social and Ethical (ESE) Risk Policy and processes. Modern slavery, forced labour and harmful child labour are prohibited within our reputational and ESE risk framework, and our Sustainable Procurement Code.

RBS's international human rights' commitments are set out in our Human Rights Position Statement. Our approach is underpinned by our values and standards. For employees this is via the RBS Code of Conduct – 'Our Code' which was updated in 2016. Our Code includes a clear commitment to respect human rights, and the Yes Check, a tool to guide good decision-making. Employees are consulted on key aspects of their working environment, and they can utilise a confidential helpline to discuss any matters of concern. We are an accredited Living Wage employer, and the process of extending the Living Wage to our suppliers continued through 2016.

For suppliers, our Sustainable Procurement Code sets out the international human rights commitments we expect of the companies that we work with, including labour standards and non-discrimination.

Our ESE Risk Policy applies to our customers, and is kept under review. Alongside our sector specific risk appetite positions we have outlined ESE risk concerns for customers operating outside of these sectors. Our policy identifies human rights risks and due diligence is carried out on clients when human rights risks are identified. We expect our customers to share our commitment to respecting human rights within their operations.

Our commitment to the international progress of human rights includes being a signatory of the United Nations Global Compact since 2003, and we reaffirm our commitment to the ten principles of the Global Compact. We are committed to the implementation of the UN Guiding Principles on Business and Human Rights and participate with our peers in initiatives such as the Thun Group and United Nations Environment Programme Finance Initiative, to understand how these can best be applied. We have adopted the Equator Principles, since their inception in 2003, to manage social and environmental risks, including human rights, in project-related transactions.

Our operating environment

Independent assurance

The Royal Bank of Scotland Group plc appointed Ernst & Young LLP to provide limited independent assurance over selected sustainability content within the Strategic Report (“the Report”), as at and for the period ended 31 December 2016. The assurance engagement was planned and performed in accordance with the International Standard for Assurance Engagements (ISAE) 3000 Revised, Assurance Engagements Other Than Audits or Reviews of Historical Financial Information.

These procedures were designed to conclude on:

The consistency of selected narrative claims on sustainability with underlying performance information, and;

The accuracy and completeness of the sustainability performance indicators listed below:

- Value (£) of attempted fraud prevented in UK;
- Number of cases raised via Speak Up, the bank’s whistleblowing service;
- Total gender balance in top 3 senior layers;
- Customer Trust score;
- % personal customers who are digitally active;
- Total scope 1 and 2 location based CO2e emissions and Scope 3 emissions from business travel;
- Number of Foundation accounts opened; and
- Lending to small and medium sized enterprises (SMEs) across England, Scotland and Wales.

An unqualified opinion was issued and is available on rbs.com, along with further details of the scope, respective responsibilities, work performed, limitations and conclusions.

Our operating environment

Key economic indicators

The UK economy grew by 2.1% in 2016, down from 2.2% in 2015 and close to its long-run average.

In a healthy job market, the number of people in work increased by 350,000 and unemployment fell below 5% for the first time since 2005. With inflation of 1.6%, wage growth of 2.8% provided a modest boost to consumers' spending power. Business profitability remained strong and business investment fell by around 2%. House price inflation moderated, but at 5% remained high.

Summary

The main development in 2016 was the fall in the value of sterling, which finished the year down 15%, 10% of that happening after the EU referendum. That quickly fed through to higher import costs, with producers' input prices rising by 16%, squeezing firms' margins. The Bank of England expects consumer price inflation to reach around 2.75% in 2017 and 2018, above the target set by Parliament. However, the Bank of England has not raised interest rates to moderate inflation. Rather, in August it cut Bank Rate to 0.25%. That reflected its concern that leaving the European Union would lead growth to slow and inflation to undershoot the target. In addition, the Bank of England tends to disregard inflation caused by a currency change unless it feeds through to wages.

The Republic of Ireland continued to grow at around 4%, with domestic demand contributing more, and exports less to growth than in recent years. Unemployment continued to fall, ending the year at 7.2%. House price inflation accelerated to 9% from 4.6% in 2015.

Eurozone area growth slowed slightly to 1.7% from 1.8%. Unemployment remained close to 10%. With inflation still close to zero, the European Central Bank reduced interest rates and expanded its quantitative easing programme.

Reflecting continued modest growth 1.6%, rising employment two million, and falling unemployment 4.7%, the US Federal Reserve raised the target range for its main interest rate by 0.25% to 0.5-0.75% in December.

While the year opened with considerable market volatility, which reflected concerns about the outlook for China, growth there was 6.7%, reflecting actions by the authorities to boost activity. That had beneficial

spillover effects among some of China's trading partners.

Despite continued growth and low unemployment in the UK, markets continue to expect interest rates to remain low. At the year's end, the first rise in Bank Rate was expected around mid-2019. While that partly reflects the Bank of England's response to the EU referendum result, more important are structural factors; slower global growth, higher levels of desired saving and lower levels of desired investment, which have been pushing down real interest rates for some time and which are likely to persist.

Our operating enviroment

Our operating environment

Risk overview

Effective risk management plays a central role in the successful development and execution of our strategy. Our Risk appetite is set in line with the overall strategy and approved by the board while the risk management framework identifies and manages current and emerging risks that could materially affect the delivery of the RBS strategy.

Progress in 2016

RBS has continued to make progress against its strategic objectives of reducing risk and strengthening both the balance sheet and the capital position. Against a backdrop of uncertainty in the wider political and economic environment, risk management played a key role in positioning RBS to prepare for, and respond to developments.

In particular, there has been a focus on enhancing our risk appetite framework and communicating and embedding it across the bank. For each of our material risks, significant emphasis has been placed on reviewing current measures along with associated limits and triggers and also the way our risk profile compared to risk appetite is reported across RBS. Risk culture has continued to be at the forefront of our work as RBS moves towards the achievement of its strategic objectives. To that end, the ambition is to make risk management simply part of the way colleagues across RBS work and think. In support of this, during 2016 the RBS-wide action plan focused on assessment, identifying and taking actions to build clarity, develop capability and motivate staff.

Similarly, activity has been underway to enhance our operational risk management framework to help ensure our businesses maintain a safe and secure environment for our customers. As part of this, during 2016 there was a focus on risk and control assessment, particularly relating to our most material products, processes and services. In addition, there continued to be an emphasis on understanding and managing the risks relating to RBS's transformation agenda.

In market risk, sustained effort has been necessary to anticipate and respond to major developments in the wider environment. Managing this has required close collaboration between our first and second lines of defence but, in turn, has demonstrated RBS's continued commitment to its wholesale banking proposition.

RWAs continued to decline (6%), ending the year at £228 billion (from £243 billion in 2015). The decline was driven by continued run down in Capital Resolution, where RWAs fell by £14.5 billion during the year, offset in part by an increase in RWAs in the core franchises.

The Common Equity Tier 1 (CET1) ratio decreased by 210 basis points to 13.4% in 2016, reflecting lower CET1 capital partially offset by a reduction in RWAs. Litigation and conduct charges of £5.9 billion in 2016 contributed to a significant reduction in the CET1 capital. Management actions to normalise the ownership structure and improve the long-term resilience of RBS also contributed to the reduction. These actions included the final Dividend Access Share payment of £1.2 billion and the impact of the accelerated pension payment of £4.2 billion. Tier 1 capital benefitted from the successful issuance of £2 billion of Additional Tier 1 (AT1) capital notes.

The leverage ratio fell by 50bps to 5.1% during 2016. This reflected the fall in the CET1 position, partly offset by the successful issuance of an additional £2 billion equivalent of AT1 instruments as planned at the beginning of the year. The Bank of England leverage ratio benefitted from an additional 50bps uplift following the FPC's guidance on 4 August that allowed banks, under certain conditions, to exclude central bank reserves from the leverage exposure measure. RBS also issued £4.2 billion of MREL-eligible senior debt as part of the issuance plan to meet its steady-state bail-in requirements by 2022.

In the Bank of England 2016 stress test, RBS did not meet its common equity Tier 1 (CET1) capital or Tier 1 leverage hurdle rates before additional Tier 1 (AT1) conversion under the hypothetical adverse scenario. After AT1 conversion, it did not meet its CET1 systemic reference point or Tier 1 leverage ratio hurdle rate. Based on RBS's own assessment of its resilience identified during the stress-testing process, RBS has already updated its capital plan to incorporate further capital strengthening actions and this revised plan has been accepted by the PRA Board. The PRA will continue to monitor RBS's progress against its revised capital plan.

Our operating environment

RBS maintained a robust liquidity and funding risk profile in 2016. Its loan-to-deposit-ratio was 91% at 31 December 2016, compared with 89% in 2015. The latest Internal Liquidity Adequacy Assessment Process (ILAAP) showed that RBS is in a strong position to withstand liquidity stress scenarios. It suggested that RBS's liquidity portfolio was large enough to cover more than 139% of the expected outflows in the worst of three severe scenarios.

Litigation and conduct costs of £5,868 million included a £3,107 million provision in relation to various investigations and litigation matters relating to RBS's issuance and underwriting of residential mortgage-backed securities (RMBS), an additional charge in respect of the settlement with the National Credit Union Administration Board to resolve two outstanding RMBS lawsuits, a provision in respect of the UK 2008 rights issue shareholder litigation, additional PPI provisions, a provision in respect of the FCA review of RBS's treatment of SMEs and a charge in Ulster Bank RoI in respect of an industry-wide examination of tracker mortgages.

Top and emerging risks

RBS employs a continuous process for identifying and managing its top and emerging risks. These are defined as scenarios that could have a significant negative impact on RBS's ability to operate or meet its strategic objectives. A number of scenarios attracted particular attention in 2016.

Macro-economic and political risks:

RBS remains vulnerable to changes and uncertainty in the external economic and political environment, which have intensified in the past year. To mitigate these risks, RBS has taken actions in 2016 with its capital, liquidity and leverage positions. A number of higher-risk portfolios have been exited or reduced. Stress testing and scenario planning is used extensively to inform strategic planning and risk mitigation relating to a range of macro-economic and political risks. Scenarios identified as having a potentially material negative impact on RBS include: the impact of the UK's exit from the EU; a second Scottish independence referendum; a UK recession including significant falls in house prices; global financial market volatility linked to advanced economy interest rate increases or decreases; a protracted period of low interest rates in the UK; vulnerabilities in emerging market economies resulting in contagion in RBS's core markets; a eurozone crisis; and major geopolitical instability.

Risks related to the competitive environment:

RBS's target markets are highly competitive, which poses challenges in terms of achieving some strategic objectives. Moreover, changes in technology, customer behaviour and business models in these markets have accelerated. RBS monitors the competitive environment and associated technological and customer developments as part of its strategy development and makes adjustments as appropriate.

An increase in obligations to support pension schemes:

If economic growth stagnates and interest rates continue to remain low, the value of pension scheme assets may not be adequate to fund pension scheme liabilities. The actuarial deficit in RBS pension schemes – as determined by the most recent triennial valuations – has increased, requiring RBS to increase its current and future cash contributions to the schemes. An acceleration of certain previously-committed pension contributions was made in Q1 2016 to reduce this risk. Depending on the economic and monetary conditions and longevity of scheme members prevailing at that time, the actuarial deficit may increase at subsequent valuations and is expected to be affected by ring-fencing.

Regulatory and legal risks

The impacts of past business conduct: Future litigation and conduct charges could be substantial. RBS is involved

in a number of investigations, including: ongoing class action litigation, securitisation and mortgage-backed securities related litigation, investigations into foreign exchange trading and rate-setting activities, continuing LIBOR-related litigation and investigations, investigations into the treatment of small and medium-sized business customers in financial difficulty, anti-money laundering, sanctions, mis-selling (including mis-selling of payment protection insurance products). Settlements may result in additional financial penalties, non-monetary penalties or other consequences, which may be material.

More detail on these issues can be found in the Litigation, Investigations and Reviews and Risk Factors sections of the 2016 Annual Report on Form 20-F. To prevent future conduct from resulting in similar impacts, RBS continues to embed a strong and comprehensive risk and compliance culture.

Our operating environment

Risks to income, costs and business models arising from regulatory requirements:

RBS is exposed to the risk of further increases in regulatory capital requirements as well as risks related to new regulations that could affect its business models, such as Open Banking. RBS considers and incorporates the implications of proposed or potential regulatory activities in its strategic and financial plans.

Operational and execution risks increased losses arising from a failure to execute major projects successfully:

The successful execution of major projects, including the transformation plan, the restructuring of NatWest Markets, meeting the final European Commission State Aid requirements relating to Williams & Glyn compliance with structural reform requirements including the statutory ring-fencing requirements implemented as a result of the Independent Commission on Banking; delivering a robust control environment and the embedding of a strong and pervasive, customer centred organisational and risk culture, are essential to meet RBS's strategic objectives. These projects cover organisational structure, business strategy, information technology systems, operational processes and product offerings. RBS is working to implement change in line with its project plans while assessing the risks to implementation and is taking steps to mitigate those risks where possible.

Impact of cyber attacks:

Cyber attacks are increasing in frequency and severity across the industry. RBS has participated in industry-wide cyber attack simulations in order to help test and develop defence planning. To mitigate the risks, a large scale programme to continue to improve controls, enhance protections and educate staff on the threat is underway.

Inability to recruit or retain suitable staff:

There is a risk that RBS lacks sufficient capability or capacity at a senior level to deliver – or to adapt to – change.

RBS monitors people risk closely and has plans in place to support retention of key roles, with wider programmes supporting engagement and training for all staff.

Failure of information technology systems:

RBS's information technology systems may be subject to failure. As such systems are complex, recovering from failure is challenging. To mitigate these risks, a major investment programme has significantly improved the resilience of the systems and further progress is expected. Back-up system sustainability has improved, and a 'mirror bank' system, to provide basic services, if needed, has been created.

Full risk factors are discussed on pages 509 to 578 of the 2016 Annual Report on Form 20-F

Case Study - Making sense of money

MoneySense is our flagship financial education programme for young people aged between 5 and 18. It aims to help young people towards a better financial future. Since we started providing financial education in schools over 22 years ago, we've helped an estimated 4.5 million young people understand all about money. By the end of 2018, we'll have helped a further one million young people.

Our programme is used to deliver lessons in primary and secondary schools in the UK and Ireland, thanks to the support of registered teachers and our dedicated volunteer network of over 2,800 employees.

We're proud of the work MoneySense does in our communities. By helping young people understand things like budgeting, saving and online security we're supporting them to become financially independent and confident money managers.

Business review

RBS is structured around becoming number one for service, trust and advocacy as we meet the ambitions and needs of our retail, business, commercial and corporate customers. Organised under three customer-facing franchises, our core businesses are centred around the UK and Ireland markets with a focused international capability.

Personal & Business Banking

Personal & Business Banking (includes reportable segments UK PBB and Ulster Bank RoI); contribution to income of 47%

Les Matheson

CEO, Personal & Business Banking

Personal & Business Banking

Personal & Business Banking (PBB) serves individual and mass affluent customers together with small businesses (generally up to £2 million turnover). Our principal brands are NatWest in England and Wales, Royal Bank of Scotland in Scotland, and Ulster Bank RoI in the Republic of Ireland. The operations of Ulster Bank in Northern Ireland have been combined with the main UK businesses.

Performance overview

PBB recorded an operating profit of £1,401 million in 2016 compared with £1,292 million in 2015 (UK PBB £1,381 million compared with £1,030 million in 2015; Ulster Bank RoI £20 million compared with £262 million in 2015).

Adjusted operating profit which excluded own credit adjustments, restructuring costs and litigation and conduct costs of £2,431 million was in line with 2015 (UK PBB operating profit excluding restructuring costs of £187 million (2015 - £167 million) and litigation and conduct costs of £634 million (2015 - £972 million) was £2,202 million (2015 - £2,169 million; Ulster Bank RoI operating profit excluding own credit adjustments of £3 million (2015 – nil), restructuring costs £40 million (2015 - £15 million) and litigation and conduct costs £172 million (2015 - £13 million credit) was £229 million (2015 - £264 million), as a reduction in net impairment releases was offset by higher income associated with volume growth.

Total income increased by £116 million, or 2%, to £5,866 million compared with 2015 (UK PBB increased by £90 million, or 2%, to £5,290 million compared with 2015 and Ulster Bank RoI increased by £26 million, or 5%, to £576 million compared with 2015) as the benefit of asset volume growth has more than offset margin compression. Net interest margin declined by 13 basis points to 2.80% (UK PBB declined 17 basis points to 3.01% and Ulster Bank RoI increased by 5 basis points to 1.62%) reflecting the impact of the overall portfolio mix being increasingly weighted towards secured lending and mortgage customers switching from standard variable rate (SVR) to lower rate products.

Net loans and advances of £151.0 billion were £14.5 billion, or 11%, higher than in 2015 (UK PBB net loans and advances of £132.1 billion were £12.3 billion, or 10%, higher; Ulster Bank RoI net loans and advances of £18.9 billion were £2.2 billion or 13% higher), principally reflecting mortgage growth.

Business review

Operating expenses were £4,495 million (UK PBB £3,826 million (2015 - £4,177 million); Ulster Bank RoI £669 million; (2015 - £429 million)). Adjusted operating expenses, which exclude restructuring and litigation and conduct costs, were £3,462 million (UK PBB adjusted operating expenses, which exclude restructuring costs of £187 million (2015 - £167 million) and litigation and conduct costs of £634 million (2015 - £972 million) were £3,005 million (2015 - £3,038 million; Ulster Bank RoI adjusted operating expenses, which exclude restructuring costs £40 million (2015 - £15 million) and litigation and conduct costs £172 million (2015 - £13 million credit) were £457 million (2015 - £427 million), in line with 2015.

Credit conditions remained benign, with a net impairment release of £30 million in 2016 compared with £148 million in 2015. (UK PBB net impairment losses were £83 million compared with £7 million releases in 2015; Ulster Bank ROI net impairment releases were £113 million compared with £141 million in 2015).

Case Study - Upwardly mobile

Whether it's logging in with your fingerprint, paying your contacts through your phone, cancelling a direct debit or amending standing orders, we've been working hard to make our apps even more convenient for customers, by making them easier to use and giving them increased functionality. In fact, over a third of all personal product sales are now completed digitally.

We're investing in our apps because increasing numbers of our customers want to be able to do their banking on the move. 4.2 million customers in the UK now use our apps.

Building a better bank that serves customers well

PBB continue to make the bank simpler and fairer for customers by simplifying processes, professional standards training and removing sales based incentives for frontline staff.

Business review

We continued to make better use of our digital channels to make it simpler to serve our customers and easier for them to do business with us. We now have 4.2 million customers in the UK regularly using our mobile app, 19% higher than the end of 2015, and around 60% of our personal customers used a digital channel within the last 90 days. In 2016, we more than doubled the number of customers who purchased a product through our mobile channel compared with 2015. NatWest customers can now apply for personal loans, credit cards and overdrafts via the mobile app, facilitating approximately 8% of total applications. Advocacy amongst our active mobile customers increased significantly over 2016 with NatWest mobile NPS at an all time high of +52.

Our new business banking 'Online Account Opening' service now allows start up business customers to submit an application online in just ten minutes and get a sort code and account number in under an hour. RBS was awarded a Moneyfacts 5 star rating for Business Banking accounts.

In addition to our digital channels, PBB continues to provide multiple physical channels for serving customers, including access to a network of c.11,500 Post Office branches in the UK, c.1,000 An Post branches in the Republic of Ireland, and 41 mobile banking vans alongside our existing network of 1,425 branches and 4,646 ATMs.

PBB continues to help people manage their money better through; MoneySense, First Saver accounts, offering impartial advice, text alerts to customers and in-house Citizens Advice Bureau advisors to help distressed customers.

RBS enhanced its support for social enterprises in 2016. In May, RBS launched a new SE100 Social Business Club with communications agency Matter & Co. The partnership offers a package of business support plus a special programme of regional events. In addition, RBS also increased its support to social enterprises through its lending charity Social & Community Capital.

Following the launch of the Foundation account, an improved version of our Basic bank account, we opened a further 40,860 Foundation accounts in 2016, helping customers who would generally be declined a bank account.

Our customers, the bank and our entire industry faced a bigger threat from fraud, scams and cyber attacks in 2016. In response, we trained our staff to spot phishing e-mails and we ran security awareness seminars and events for around 12,800 customers, staff and industry partners.

Case Study - Committed to service

In 2015, Chief Executive, Ross McEwan, signed the Armed Forces Covenant, pledging that no customers or colleagues would be disadvantaged because of their involvement with the military.

Our Holt's Military Banking colleagues have specialist knowledge of the armed forces, which helps them to better understand, and serve, our armed forces customers. Many bank colleagues are also associated with the armed forces – whether they are reservists, veterans or family members – and need support too.

This year, the bank's support of these customers and colleagues was rewarded, when we were awarded the Gold Award by the Ministry of Defence Employer Recognition scheme.

Defence Secretary Michael Fallon said: "This commitment is making a real difference to everyone who serves and their families – whether giving Reservists more time to train or supporting veterans".

Commercial & Private Banking (CPB)

Commercial & Private Banking (includes reportable segments Commercial Banking, Private Banking and RBSI) contribution to income of 35%

Alison Rose

CEO, Commercial & Private Banking

Commercial & Private Banking

Commercial & Private Banking (CPB) serves commercial and corporate customers, operating principally through the NatWest, Royal Bank of Scotland and Lombard brands, and high net worth individuals, through Coutts and Adam & Company. RBS International (RBSI) continues to focus on supporting retail, commercial, corporate and financial institution customers in Jersey, Guernsey, Isle of Man, Gibraltar and Luxembourg. CPB aims to support the UK and Western European economies through its provision of credit and banking services to help businesses grow.

Performance overview

Commercial & Private Banking (CPB) serves commercial and corporate customers, operating principally through the NatWest,

Royal Bank of Scotland and Lombard brands, and high net worth individuals, through Coutts and Adam & Company. RBS International (RBSI) continues to focus on supporting retail, commercial, corporate and financial institution customers in Jersey, Guernsey, Isle of Man, Gibraltar and Luxembourg. CPB aims to support the UK and Western European economies through its provision of credit and banking services to help businesses grow.

CPB recorded an operating profit of £1,043 million compared with £1,001 million in 2015 (Operating profit for Commercial Banking was £742 million (2015 - £1,264million); Private Banking, £111 million (2015 - £470 million loss) and RBSI, £190 million (2015 - £207 million). Adjusted operating profit which excludes restructuring costs, litigation and conduct costs and write down of goodwill was £1,617 million, £91 million lower than 2015 (Commercial Banking adjusted operating profit which excludes restructuring costs of £108 million (2015 - £69 million) and litigation and conduct costs of £423 million (2015 - £51 million) was £1,273 million compared with £1,384 million in 2015; Private Banking adjusted operating profit which excludes restructuring costs of £37 million (2015 - £73 million), litigation and conduct costs of £1 million (2015 - £12 million) and in 2015 write down of goodwill of £498 million, was £149 million compared with £113 million in 2015; RBSI adjusted operating profit which excludes restructuring costs of £5 million (2015 - £4 million) was £195 million compared with £211 million in 2015), largely reflecting an increase in net impairment losses.

Total income of £4,446 million was 1% higher than 2015. (Commercial Banking was £3,415 million, 5% higher than 2015 including the impact of business transfers(1) ; Private Banking was £657 million, 2% higher than 2015; and RBSI was £374 million, 2% higher than 2015.) Good growth was achieved in lending to UK businesses, with net loans and advances increasing by £11.3 billion, or 10%, to £121.1 billion, (Commercial Banking net loans and advances increased by £8.8 billion, or 10% to £100.1 billion; Private Banking net loans and advances increased by £1.0 billion, or 9%, to £12.2 billion; and RBSI net loans and advances increased by £1.5 billion, or 21%, to £8.8 billion), driven by increased borrowing across a number of sectors.

Business review

Operating expenses remained stable at £3,190 million (Commercial Banking £2,467 million (2015 - £1,921 million); Private Banking £549 million (2015 - £1,101 million); RBSI £174 million (2015 - £160 million)). Adjusted operating expenses, which exclude restructuring costs, litigation and conduct costs and write down of goodwill and including the impact of business transfers(1) , increased by 6% to £2,616 million (Commercial Banking adjusted operating expenses, which exclude restructuring costs of £108 million (2015 - £69 million) and litigation and conduct costs of £423 million (2015 - £51 million and including the impact of business transfers £109 million (2015 - £25 million) was £1,936 million compared with £1,801 million in 2015; Private Banking adjusted operating expenses, which exclude restructuring costs of £37 million (2015 - £73 million), litigation and conduct costs of £1 million (2015 - £12 million) and in 2015 write down of goodwill of £498 million, was £511 million compared with £518 million in 2015; RBSI adjusted operating expenses, which exclude restructuring costs of £5 million (2015 - £4 million) was £169 million compared with £156 million in 2015), reflecting an intangible asset write down and increased investment spend.

Impairment losses of £213 million increased £131 million compared with 2015 (Commercial Banking impairment losses of £206 million increased by £137 million compared with 2015; Private Banking impairment releases were £3 million compared with impairment losses of £13 million in 2015; and RBSI impairment losses were £10 million (2015 – nil), largely reflecting a single name charge taken in respect of the oil and gas portfolio.

Note:

(1) The business transfers included impact of: total income of £218 million (2015 - £79 million); operating expenses of £109 million (2015 - £25 million) and impairment losses of £50 million (2015 - £1 million releases; 2014 - nil).

Case Study - The shipping news

The Port of Dover is Europe's busiest ferry port. It's a vital international gateway for the movement of passengers and trade, handling up to £119 billion of UK trade each year.

The Dover Western Docks Revival is the port's biggest ever single investment. RBS acted as financial advisor in raising a £200 million package of funding and provided a £35 million revolving credit facility.

This funding will support improvements to the port, transform Dover's waterfront and create up to 600 new jobs.

Business review

Building a better bank that serves customers well

Commercial Banking reported the largest (and only significant) year on year improvement in NPS amongst major UK banks.

Nearly 80% of our commercial customers' interaction with us is via digital channels, with around 270,000 payments processed every day.

Coutts won the best private bank in the UK for the fifth year running, best private bank for philanthropy services and best initiative of the year in client facing technology at the Global Private Banking Awards, and was highly commended for innovation for its 'Coutts Concierge Online'.

Our customers continue to benefit from the synergies between Commercial and Private Banking, with 1,100 referrals between Commercial and Private Banking in 2016.

RBS continues to support UK business growth through the launch of 6 new business accelerator hubs in 2016, bringing the total to 12. In addition, NatWest launched a £1 billion lending fund to support small businesses.

Case Study - Bright sparks

Several million homes will be more energy efficient thanks to advice from bank experts on the biggest UK smart metering finance deal to date.

Our Structured Finance team helped Calvin Capital fund its £1 billion 'Project Spark', which will support the installation of smart meters in seven million homes up and down the country.

The project is the largest of its kind in the UK, and represents a major step towards a government target to replace traditional meters in all homes by 2020.

Business review

NatWest Markets

NatWest Markets - Share of non-statutory operating profit, (13%)

Chris Marks

CEO, NatWest Markets

NatWest Markets

NatWest Markets provides financing and risk management solutions and is built around three product lines: Rates, Currencies and Financing. NatWest Markets puts its customers at the centre of the way it does business.

Performance overview

NatWest Markets reported an operating loss of £386 million compared with an operating loss of £837 million in 2015 and included litigation and conduct costs of £528 million. Adjusted operating profit which excludes own credit adjustments of £53 million (2015 - £120 million), restructuring costs of £112 million (2015 - £524 million) and litigation and conduct costs of £528 million (2015 - £378 million), was £201 million compared with a loss of £55 million in 2015. The increase was driven by lower operating expenses, excluding restructuring costs and litigation and conduct costs, and increased income.

Total income increased by £47 million to £1,574 million compared with 2015. Income excluding own credit adjustments of £53 million (2015 - £120 million) increased by £114 million, or 8%, to £1,521 million and included the impact of transfers of £98 million in 2015. The increase was driven by Rates and Currencies, reflecting sustained customer activity throughout the year and favourable market conditions following the EU referendum and subsequent central bank actions.

Operating expenses decreased from £2,369 million to £1,960 million in 2016, driven by lower restructuring costs and lower operating expenses, excluding restructuring costs and litigation and conduct costs. Adjusted operating expenses, which exclude restructuring costs of £112 million (2015 - £524 million) and litigation and conduct costs of £528 million (2015 - £378 million), reduced by £147 million, or 10%, reflecting c.£250 million of cost reductions partially offset by higher investment spend and also included the impact of business transfers of £31 million in 2015.

Case Study - Simple solutions

After buying mobile phone operator EE, telecoms group BT wanted to convert the bank loan it used for the acquisition into a longer-dated format.

We acted as a lead bond arranger as well as a cross- currency swap market hedge coordinator, and billing and delivery bank on the five-year bond. By focusing on excellent customer service and through our integrated one-team approach, we were able to find the best solution and to make the process as simple as possible.

This helped BT to return to the European bond market for the first time in nearly two years.

Building a better bank that serves customers well

The NatWest Markets brand was introduced on 5 December 2016. The new brand is an important step towards our ambition to become No.1 for customers.

NatWest Markets started a Multi-year transformation in February 2015 and real progress is being made towards building a technology-led business with ongoing investment to improve efficiency and reduce costs while sustaining a well-controlled end-to-end model.

The business's progress against its transformation plan is already being recognised externally:

- No.1 for Gilts by Market Share EMEA FIs (Source: Greenwich Associates, European Fixed Income 2016 – Government Bonds)

- No.1 for GBP Options, GBP Inflation and GBP 2Y -10Y IRS (Source: Total Derivatives Dealer Rankings 2016)

- Best bank for FX post-trade services (FX Week Best Bank Awards 2016)

- No.1 for all European Issuers in the private placement market (Source: Dealogic Private Placement Review, Full Year 2016)

- Best for putting corporate client's interest before the bank's (Source: Global Capital Bond Awards 2016)

– NatWest Markets gained or held share in every Rates & FX product category for EMEA and the Americas

Capital Resolution

Mark Bailie

Chief Operating Officer

Capital Resolution

Capital Resolution was established to execute the sale or wind down of most of the global footprint, from 38 countries to 13, and trade finance and cash management outside the UK and Ireland. Additionally non-strategic markets, portfolio and banking assets identified are being sold or wound down.

Performance overview

Risk weighted assets (RWAs) decreased by £14.5 billion to £34.5 billion reflecting disposal activity partially offset by an increase due to the weakening of sterling.

Capital Resolution made an operating loss of £4,870 million, compared with an operating loss of £3,687 million in 2015, including litigation and conduct costs of £3,413 million.

Adjusted operating loss which excludes own credit adjustments of £134 million (2015 - £175 million), restructuring costs £78 million (2015 - £1,307 million) and litigation and conduct costs of £3,413 million

(2015 - £2,105 million, was £1,432 million compared with a loss of £412 million in 2015.

Total income included disposal losses of £572 million, £205 million higher than in 2015.

Operating expenses reduced by £696 million to £4,255 million reflecting a £775 million reduction in operating expenses excluding restructuring costs and litigation and conduct costs, and a £1,229 million reduction in restructuring costs, partially offset by a £1,308 million increase in litigation and conduct costs.

Adjusted operating expenses, which exclude restructuring costs £78 million (2015 - £1,307 million) and litigation and conduct costs of £3,413 million (2015 - £2,105 million) decreased by £775 million, or 50%, to £764 million, principally reflecting a 1,000 reduction in headcount.

A net impairment loss of £253 million compared with a net impairment release of £725 million in 2015 and principally comprised charges relating to a number of shipping assets (£424 million).

Governance at a Glance

Board of directors

<u>Chairman</u> Howard Davies	<u>Executive directors</u> Ross McEwan Ewen Stevenson
<u>Non-executive directors</u> Sandy Crombie (Senior Independent Director) Frank Dangeard Alison Davis Morton Friis Robert Gillespie	Penny Hughes Brendan Nelson Baroness Noakes Mike Rogers
<u>Chief Governance Officer and Board Counsel</u> Aileen Taylor (Company Secretary)	

Our Board

The Board has twelve directors comprising the Chairman, two executive directors and nine independent non-executive directors, one of whom is the Senior Independent Director. Biographies for each director can be found on pages 60 to 65. Mike Rogers was appointed to the Board on 26 January 2016 and Frank Dangeard was appointed to the Board on 16 May 2016.

The Board is collectively responsible for the long-term success of RBS and delivery of sustainable shareholder value. Its role is to provide leadership of RBS within a framework of prudent and effective controls which enables risks to be assessed and managed.

An internal evaluation of the effectiveness of the Board and its committees was conducted in 2016, led by the Chief Governance Officer and Board Counsel.

Our Board committees

In order to provide effective oversight and leadership, the Board has established a number of Board committees with particular responsibilities. The work of the Board committees is discussed in their individual reports. The terms of reference for each of these committees is available on rbs.com.

The full Governance report is on pages 59 to 149 of the 2016 Annual Report on Form 20-F.

Group Audit Committee

Assists the Board in discharging its responsibilities for monitoring the quality of the financial statements of RBS. It reviews the accounting policies, financial reporting and regulatory compliance practices of RBS and RBS's systems and standards of internal controls, and monitors the work of internal audit and external audit.

Board Risk Committee

Provides oversight and advice to the Board on current and potential future risk exposures of RBS and future risk strategy. It reviews RBS's compliance with approved risk appetite and oversees the operation of the RBS Policy Framework and submissions to regulators.

Sustainable Banking Committee Provides support to the Board in overseeing actions being taken by management to run a sustainable long term business, with specific focus on culture, people, customer, brand and environmental social and ethical issues.

Group Performance and Remuneration Committee Responsible for approving remuneration policy and reviewing the effectiveness of its implementation. It also considers senior executive remuneration and makes recommendations to the Board on the remuneration of executive directors.

Group Nominations and Governance Committee

Assists the Board in the selection and appointment of directors. It reviews the structure, size and composition of the Board, and the membership and chairmanship of Board committees. It considers succession planning taking into account the skills and expertise which will be needed on the Board in future. Its remit also includes governance oversight.

Governance at a Glance

Executive Committee

The Board is supported by the Executive Committee comprising the executive directors and other senior executives. It supports the Chief Executive in managing RBS's businesses. It reviews and debates relevant items before consideration by the Board. It is responsible for developing and delivering RBS's strategy and it monitors and manages financial performance, capital allocation, risk strategy and policy, risk management, operational issues and customer issues.

UK Corporate Governance Code

Throughout the year ended 31 December 2016, RBS has complied with all of the provisions of the UK Corporate Governance Code issued by the Financial Reporting Council dated April 2016 except in relation to provision (D.2.2) that the Group Performance and Remuneration Committee should have delegated responsibility for setting remuneration for the Chairman and executive directors. RBS considers that this is a matter which should rightly be reserved for the Board.

Case study

Free to dream

Through our partnership with Entrepreneurial Spark, we're helping entrepreneurs realise their dreams of owning and running their own business. We provide free facilities; free Wi-Fi, access to the bank's networks and suppliers, and free business advice. They don't need to bank with us and we take no equity; we simply believe it's right to support entrepreneurs and in turn help the economy grow.

Lawyer Sharon Amesu joined our Manchester hub in February 2016. "There was a real buzz and an immediate sense that I could be part of something quite special and significant" she says. "It's been instrumental in helping me grow my mentoring business and also a fantastically creative space to get to know, and network with, other aspirational and passionate people."

Across 12 accelerators throughout the UK, we have supported 1,736 companies with an aggregate turnover of more than £176 million. We've helped secure more than £151 million worth of investment for entrepreneurs in the Entrepreneurial Spark programme, and they in turn have created 3,152 jobs. More than 80% of the participating companies are still operating.

Experience: Baroness Noakes is an experienced director on UK listed company boards with extensive and varied political and public sector experience. A qualified chartered accountant, she previously headed KPMG's European and International Government practices and has been President of the Institute of Chartered Accountants in England and Wales. She was appointed to the House of Lords in 2000 and has served on the Conservative front bench in various roles including as shadow treasury minister between 2003 and May 2010. Previously held non-executive roles on the Court of the Bank of England, Hanson, ICI, Severn Trent, Carpetright, John Laing and SThree.

Board Risk Committee (Chairman)

Group Audit Committee

GRG Board Oversight Committee

US Risk Committee

Mike Rogers (age 52)

External appointment(s):

Nationality: British

None

Date of appointment: 26 January 2016

Committee membership(s):

Experience: Mike has extensive experience in retail banking and financial services. Mike joined Barclays in 1986 where he undertook

Group Performance and Remuneration Committee

Sustainable Banking Committee

a variety of roles in the UK and overseas across business banking, wealth management and retail banking. Mike was Managing Director of Small Business, Premier Banking and UK Retail Banking and was latterly Chief Executive of Liverpool Victoria Group for 10 years.

Our Board

Chief Governance Officer and Board Counsel

Aileen Taylor (age 44)

Nationality: British

Date of appointment: 1 May 2010

(Company Secretary)

Aileen is a fellow of the Chartered Institute of Bankers in Scotland and a member of the European Corporate Governance Council. She is also a member of the FCA's Listing Authority Advisory Panel.

Experience: A qualified solicitor, Aileen joined RBS in 2000. She was appointed Deputy Group Secretary and Head of Group Secretariat in 2007, and prior to that held various legal, secretariat and risk roles including Head of External Risk (Retail), Head of Regulatory Risk (Retail Direct) and Head of Legal and Compliance (Direct Line Financial Services).

Executive Committee

The Board is supported by the Executive Committee comprising the executive directors and other senior executives. Details of the composition of the Executive Committee and biographies of its members can be found at [rbs.com>about us>board and governance>ceo and board>executive committee](https://www.rbs.com/about-us/board-and-governance/ceo-and-board/executive-committee).

Corporate governance

Chairman's introduction

I am pleased to introduce the corporate governance report. The following report provides an overview of key roles and responsibilities of the Board, and sets out in greater detail how the Board spent its time in 2016. Board effectiveness and performance evaluation are also covered, as well as an overview of how we communicate with shareholders.

As mentioned in my Chairman's Statement on page 7, the Board has considered a number of key strategic, financial, regulatory and litigation matters during 2016.

Understandably, capital strategy and planning remains a priority for the Board. The Board has continued to provide detailed oversight of litigation and conduct matters, particularly the FCA review of the treatment of SME customers, shareholder litigation and RMBS litigation. The divestment of Williams & Glyn; the implications of the EU Referendum result; and the Transformation agenda were all key strategic challenges deliberated by the Board this year. The Board continues to monitor steps being taken to drive cultural change, including risk culture, and ensuring that the right culture and values are embedded throughout the organisation. The Board has considered the preparations for the implementation of ring-fencing and this will be an area of continued focus in 2017.

On 7 March 2016, the PRA and FCA's Senior Managers' Regime came into effect which, alongside the PRA and FCA's new Certification and Conduct Rules regimes, is aimed at strengthening personal accountability and conduct within banking. The Senior Managers' Regime required us to identify those senior executives and board members (referred to as Senior Managers) who would be allocated specific regulatory responsibilities under the Senior Managers' Regime. The Board has received training and ongoing support to ensure that those members who are Senior Managers are able to demonstrate their compliance with the relevant regulatory requirements.

I and my fellow directors are committed to observing high standards of corporate governance, integrity and professionalism. Our statement of compliance with the UK Corporate Governance Code (the Code) can be found on page 150.

I would like to take this opportunity to thank my fellow Directors for their continued commitment and dedication throughout 2016.

Howard Davies, Chairman of the Board

The Board

The Board has twelve directors comprising the Chairman, two executive directors and nine independent non-executive directors, one of whom is the Senior Independent Director.

Biographies for each director and details of which Board committees they are members of can be found on pages 59 to 65. The Board considers that the Chairman was independent on appointment and that all non-executive directors are independent for the purposes of the Code.

Corporate governance

Board changes

Mike Rogers was appointed as a non-executive director on 26 January 2016. Mike was appointed as a member of the Sustainable Banking Committee with effect from 25 April 2016, and a member of the Group Performance and Remuneration Committee with effect from 1 January 2017. Frank Dangeard was appointed as a non-executive director on 16 May 2016 and as a member of the Board Risk Committee on 4 August 2016.

Roles and responsibilities

The Board

The Board is collectively responsible for the long-term success of RBS and delivery of sustainable shareholder value. The Board's terms of reference include a formal schedule of matters specifically reserved for the Board's decision and are reviewed at least annually. The terms of reference are available at rbs.com/about.

As mentioned above a number of board members have been designated as "Senior Managers" under the PRA and FCA's Senior Managers' Regime. The role profiles of relevant directors have been updated to reflect their regulatory responsibilities and they receive ongoing support to ensure they can demonstrate the reasonable steps they have taken to meet their responsibilities.

Chairman

The role of Chairman is distinct and separate from that of the Chief Executive and there is a clear division of responsibilities with the Chairman leading the Board and the Chief Executive managing RBS business day to day.

The Chairman's key responsibilities are to:

- provide strong and effective leadership to the Board;
- ensure the Board is structured effectively, observes the highest standards of integrity and corporate governance, and sets the tone from the top in terms of culture and values;
- build an effective and complementary Board with an appropriate balance of skills and personalities, and as Chairman of the Group Nominations and Governance Committee consider succession planning for

Board appointments;

- manage the business of the Board and set the agenda, style and tone of Board discussions to promote effective decision-making and constructive debate;
- facilitate the effective contribution and encourage active engagement by all members of the Board;
- in conjunction with the Chief Executive and Chief Governance Officer and Board Counsel, ensure that members of the Board receive accurate, timely and clear information to enable the Board to lead RBS, take sound decisions and monitor effectively the performance of executive management;
- ensure that the performance of individual directors and of the Board as a whole and its committees is evaluated regularly; and
- ensure RBS maintains effective communication with shareholders and other stakeholders.

Corporate governance

Chief Executive

The Chief Executive has responsibility for all of RBS's business and acts in accordance with the authority delegated by the Board.

The Chief Executive's key responsibilities are to:

- exercise executive accountability for the RBS businesses delivering operational management and oversee the full range of activities of the customer businesses and functions;
- develop, drive and deliver the strategy approved by the Board;
- drive and deliver performance against financial plans, acting in accordance with authority delegated by the Board;
- consult regularly with the Chairman and Board on matters which may have a material impact on RBS;
- act as champion of the culture and values of RBS, creating an environment where employees are engaged and committed to good customer outcomes;
- lead, manage and develop RBS's senior leadership team, ensuring professional capability is developed and that succession coverage meets the needs of RBS;
- ensure RBS has effective frameworks and structures to identify, assess and mitigate risks; and
- in conjunction with the Chairman and Chief Governance Officer and Board Counsel, ensure the Board receives accurate, timely and clear information.

Senior Independent Director

Sandy Crombie, as Senior Independent Director, acts as a sounding board for the Chairman and as an intermediary for other directors when necessary. He is also available to shareholders to discuss any concerns they may have, as appropriate.

Non-executive directors

Along with the Chairman and executive directors, the non-executive directors are responsible for ensuring the Board fulfils its responsibilities under its terms of reference. The non-executive directors combine broad

business and commercial experience with independent and objective judgement and they provide independent challenge to the executive directors and the leadership team. The balance between non-executive and executive directors enables the Board to provide clear and effective leadership across RBS's business activities.

The standard terms and conditions of appointment of non-executive directors are available on [rbs.com](https://www.rbs.com) or from RBS Corporate Governance and Regulatory Affairs.

Board Committees

In order to provide effective oversight and leadership, the Board has established a number of Board committees with particular responsibilities. Please see pages 57 and 58 of the Strategic Report for more details. The terms of reference are available on [rbs.com](https://www.rbs.com).

Corporate governance

The Board Committee established in 2015 in relation to the Financial Conduct Authority review of the treatment of SME customers continued to meet during 2016, to oversee and provide advice to the Board in relation to the review, the external independent review of Global Restructuring Group (GRG) instigated by the Group and other matters generally related to GRG. A new US Risk Committee was established to comply with US enhanced prudential standards and reports key matters discussed to the BRC. The first meeting took place in May 2016.

Chief Governance Officer and Board Counsel

Aileen Taylor is the Chief Governance Officer and Board Counsel and the Company Secretary. As of 1 January 2017, she also leads the bank's Regulatory Affairs function as part of an extended remit.

The Chief Governance Officer and Board Counsel's key responsibilities include:

- working closely with the Chairman to ensure effective functioning of the Board and appropriate alignment and information flows between the Board and its committees, including the Executive Committee. This includes Board succession planning, induction, and professional development;
- providing support and advice to the Board on a broad range of strategic, governance, legal and regulatory issues;
- executive responsibility for Chairman/non-executive director search and appointment process;
- management of the bank's profile with key stakeholders, including oversight of relations with key influencers, such as regulators;
- defining and delivering the corporate governance and regulatory affairs strategy across RBS; and
- the provision of professional support to the Board and its committees and leading on implementation of recommendations from the annual Board evaluation.

Conflicts of interests

RBS has procedures in place to ensure that the Board's management of conflicts of interest and its powers for authorising certain conflicts are operating effectively. On appointment, each director is provided with RBS's guidelines for referring conflicts of interest to the Board. Each director is required to notify the Board of any actual or potential situational or transactional conflicts of interest and to update the Board with any changes to the facts and circumstances surrounding such conflicts.

Situational conflicts can be authorised by the Board in accordance with the Companies Act 2006 and the company's Articles of Association. The Board considers each request for authorisation on a case by case basis and has the power to impose conditions or limitations on any authorisation granted as part of the process.

Details of all directors' conflicts of interest are recorded in a register which is maintained by the Chief Governance Officer and Board Counsel and reviewed annually by the Board.

Corporate governance

Board meetings

In 2016, nine Board meetings were scheduled and individual attendance by directors at these meetings is shown in the table below.

In addition to the nine scheduled meetings, 11 additional meetings and committees of the Board were held, including meetings to consider and approve financial statements. The Chairman and the non-executive directors meet at least once per year without executive directors present.

	Attended/ scheduled
Howard Davies	9/9
Ross McEwan	9/9
Ewen Stevenson	9/9
Sandy Crombie	9/9
Frank Dangeard (1)	5/5
Alison Davis	9/9
Morten Friis	9/9
Robert Gillespie	9/9
Penny Hughes	9/9
Brendan Nelson	9/9
Baroness Noakes	9/9
Mike Rogers (2)	9/9

Notes:

(1) Appointed to the Board on 16 May 2016.

(2) Appointed to the Board on 26 January 2016.

Principal areas of Board focus during 2016

In advance of each Board meeting, the directors are provided with comprehensive papers.

At each Board meeting the directors received reports from the Chairman, Chief Executive, Chief Financial Officer, Chief Risk Officer, Chief Conduct and Regulatory Affairs Officer, Franchise CEOs and the Board Committee Chairmen. An overview of the principal areas of Board focus during 2016 is set out below:

Customer

- customer service
- network distribution
- products and innovation
- branding
- culture
- customer trust and advocacy

Finance

- annual financial budget and plan
- capital strategy and planning
- Internal Capital Adequacy Assessment Process
- Individual Liquidity Adequacy Assessment
- pension funding
- recovery and resolution planning
- results and analysts' presentations

Corporate governance

Strategy

- annual Board strategy offsite
- EU referendum implications
- Ring-fencing, including legal entity restructuring
- transactions updates
- transformation programme
- Williams & Glyn disposal
- technology updates

Risk & Conduct

- stress testing
- risk appetite governance and framework
- annual review of strategic risk appetite
- Individual Accountability Regime implementation

Legal & Governance

- Annual Report and Accounts
- AGM arrangements
- board appointments
- board and committee evaluation
- annual PRA and FCA presentation to the Board
- external auditor evaluation
- internal audit evaluation

- legal report, including litigation updates

Human Resources

- employee survey results
- executive director remuneration proposals
- executive talent session

During 2016 the Board also visited the Ulster Bank business in the Republic of Ireland, spending time on the business, risks and challenges. The directors met with key customers, politicians and senior industry and business representatives.

Executive Committee

Executive Committee members attend part of each Board meeting to provide an update on the performance of each of the franchises and risk, operational and conduct issues. Other relevant senior executives attend Board meetings to present reports to the Board as appropriate. This provides the Board with an opportunity to engage directly with management on key issues and supports the Board's succession planning activity.

Board effectiveness

Skills and experience of the Board

The Board is structured to ensure that the directors provide RBS with the appropriate balance of skills, experience and knowledge as well as independence. Given the nature of RBS's businesses, experience of banking and financial services is clearly of benefit, and we have a number of directors with substantial experience in that area. The Board also benefits from directors with experience in other fields.

Corporate governance

The table below illustrates the breadth of skills and experience on the Board.

<ul style="list-style-type: none"> • Retail Banking • Broad Financial Services • Markets/Investment Banking • Government & Regulatory • Mergers & Acquisitions • Corporate Restructuring • Stakeholder Management 	<ul style="list-style-type: none"> • Chief Executive experience • Finance & Accountancy • Risk • Technology/Digital • Operations • Change Management • Consumer Facing
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Board committees also comprise directors with a variety of skills and experience so that no undue reliance is placed on any individual.

Induction and professional development

Each new director receives a formal induction on joining the Board, which is co-ordinated by the Chief Governance Officer and Board Counsel. This includes visits to RBS's major businesses and functions and meetings with directors and senior management. Meetings with external auditors, counsel and stakeholders are also arranged as appropriate. An illustrative list of the meetings arranged during a new director's induction programme is set out below:

Chairman	Director, Finance
Chief Executive	Chief Accountant
Chief Financial Officer	Head of RBS Tax
Senior Independent Director	Chief Human Resources
Other non-executive directors	Officer

Chief Governance Officer and Board Counsel	Chief Administrative Officer
Chief Risk Officer	Head of Investor Relations
Chief Marketing Officer	Head of Public Affairs
Chief Operating Officer	Director of Strategy & Corporate Development
RBS Treasurer	Director of Transformation
Chief Audit Executive	Head of Restructuring
Chief Legal Officer and General Counsel	Chief Economist
Chairmen and CEOs of principal subsidiaries	External Auditors
Franchise Chief Executive Officers	External Counsel
	Regulators
	Institutional Investors
	Business visits (UK and overseas)

The directors have access to a wide range of briefing and training sessions and other professional development opportunities. Internal training relevant to the business of RBS is also provided. Business visits are arranged as part of the Group Audit Committee and Board Risk Committee schedule (details of which can be found on pages 81 and 91) and all non-executive directors are invited to attend. Directors undertake the training they consider necessary to assist them in carrying out their duties and responsibilities as directors. Directors may also request individual in-depth briefings from time to time on areas of particular interest.

Corporate governance

During 2016, the directors received updates on a range of subjects to enhance their knowledge, including:

- investor and rating agencies views on RBS;
- disruptive technologies;
- Market Abuse Regulations (Inside Information and Persons Discharging Management Responsibility aspects);
- corporate investigations;
- Senior Managers' Regime;
- The Conduct Rules;
- PRA's final Supervisory Statement on corporate governance and board responsibilities;
- Ring-fencing;
- board diversity;
- The UK Government's proposals for corporate governance reform;
- Institute of Directors 2016 good governance report;
- FRC's report on corporate culture and the role of the board; and
- key regulatory & supervisory policy developments.

The Chief Governance Officer and Board Counsel maintains continuing professional development logs. These are reviewed regularly between the Chairman and each director individually, to assist in identifying future training and development opportunities that are specific to the individual director's requirements.

Information

All directors receive accurate, timely and clear information on all relevant matters and have access to the advice and services of the Chief Governance Officer and Board Counsel. In addition, all directors are able, if necessary, to obtain independent professional advice at the company's expense.

Time commitment

It is anticipated that non-executive directors will allocate sufficient time to RBS to discharge their responsibilities effectively and will devote such time as is necessary to fulfil their role. Directors have been briefed on the limits on the number of other directorships that they can hold under the requirements of the fourth Capital Requirements Directive (CRD IV). Each director is required to advise RBS as early as possible and to seek the agreement of the Board before accepting additional commitments that might affect the time the director is able to devote to his or her role as a non-executive director of RBS. The Board monitors the other commitments of the Chairman and directors and is satisfied that they are able to allocate sufficient time to enable them to discharge their duties and responsibilities effectively. The time commitment currently required of our non-executive directors continues to be significant.

Election and re-election of directors

In accordance with the provisions of the Code, all directors stand for election or re-election by shareholders at the company's Annual General Meeting. In accordance with the UK Listing Rules, the election or re-election of independent directors also requires approval by a majority of independent shareholders.

Corporate governance

Performance evaluation

In accordance with the Code, an external evaluation of the Board takes place every three years. An internal evaluation takes place in the intervening years.

The 2015 evaluation was conducted externally by a specialist board evaluation consultancy and a number of initiatives were implemented aimed at improving the overall performance and effectiveness of the Board. These included the creation of a Nominations and Governance Committee, adding a governance oversight function and streamlining processes and membership; a range of actions to enhance agenda planning and the Board's overall operating rhythm; and actions to improve alignment between the Board and executives to ensure a consistent "tone from the top". These themes were taken forward during 2016 under an action plan, are being appropriately addressed and will be kept under regular review as a matter of good practice.

In 2016, the Board and committee evaluation process was conducted internally by the Chief Governance Officer and Board Counsel.

Performance evaluation process

The Chief Governance Officer and Board Counsel undertook a formal and rigorous evaluation by:

- preparing surveys that were completed by each director and holding interviews with each director;
- discussing the key themes and recommendations for action with the Chairman; and
- recommending the key themes and proposed actions to the Board.

Outcomes of the 2016 performance evaluation

The 2016 performance evaluation concluded that the Board was strong and operated effectively and within its terms of reference.

Key strengths identified included the following:

- The Chairman provides strong leadership to the Board and has settled into the role well.

- The Board works well together to create effective debate and challenge, and provides effective oversight and challenge to management.
- The Board's composition has been strengthened during 2016 by the appointments of Mr Rogers and Mr Dangeard.
- The quality of information received by the Board continues to improve.
- The Board's committees operated effectively within their terms of reference throughout the year, providing valuable support to the Board.

A summary of the key themes arising from the 2016 performance evaluation is set out below, together with an overview of the key actions proposed:

Key themes

Board composition and succession planning

The importance of keeping Board and committee composition under regular review was highlighted, in order to ensure diversity and an orderly succession as a number of non-executive directors approach the end of their tenure with RBS.

Corporate governance

Quality of information

Paper quality has improved over recent years. There is scope for further enhancement, by continuing to manage paper length and ensuring an appropriate level of detail is shared with the Board. Similar issues were raised during the committee evaluations.

Focus of agenda

The balance of the Board agenda tends towards legacy and internal issues, which reflects the current climate. However, it is also important to ensure continued focus on forward-looking and strategic discussions.

Non-executive director time commitment

Non-executive director time commitment remains significant. This is largely due to the number of extraordinary items which require to be considered by the Board in the current environment.

Customers and culture

The Sustainable Banking Committee has played a key role in customer and culture issues, however the directors would welcome greater Board focus on these priorities.

Proposed actions

Recommendations arising out of the 2016 evaluation have been carefully considered by the Board. An action plan has been agreed for 2017 and key actions include:

- Ensuring board & committee composition and succession plans are kept under regular review, to be led by the Group Nominations and Governance Committee.
- Refreshing Board and committee paper templates and guidance, to ensure consistency across the Board and committees in relation to paper length and content.
- Ensuring Board time is appropriately allocated in response to evaluation feedback, to facilitate the effective use of non-executive director time.

- Further developing the Board's role on culture, to include consideration of how Board time is spent on actions to drive cultural change.

In addition, a list of 2017 priorities for the Board was prepared following evaluation feedback and has been factored into the 2017 agenda planning process, as appropriate.

Individual director and Chairman effectiveness reviews

The Chairman met with each director individually to discuss their own performance and ongoing professional development and also shared peer feedback provided as part of the evaluation process. Separately, the Senior Independent Director sought feedback on the Chairman's performance from the non-executive directors, executive directors and key external stakeholders and discussed it with the Chairman.

Corporate governance

Relations with investors

The Chairman is responsible for ensuring effective communication with shareholders. The company communicates with shareholders through the Annual Report on Form 20-F and by providing information in advance of the Annual General Meeting. Individual shareholders can raise matters relating to their shareholdings and the business of RBS at any time throughout the year by letter, telephone or email via rbs.com/ir.

Shareholders are given the opportunity to ask questions at the Annual General Meeting and any General Meetings held or can submit written questions in advance. The Senior Independent Director and the chairmen of the Board committees are available to answer questions at the Annual General Meeting.

Communication with the company's largest institutional shareholders is undertaken as part of the Investor Relations programme:

- the Chief Executive and Chief Financial Officer meet regularly with UKFI, the organisation set up to manage the Government's investments in financial institutions, to discuss the strategy and financial performance of the business. The Chief Executive and Chief Financial Officer also undertake an extensive annual programme of meetings with the company's largest institutional shareholders;
- the Chairman independently meets with RBS's largest institutional shareholders annually to hear their feedback on management, strategy, business performance and corporate governance. Additionally, the Chairman, Senior Independent Director and chairmen of the Board committees met with the governance representatives of a number of institutional shareholders during the year;
- the Senior Independent Director is available if any shareholder has concerns that they feel are not being addressed through the normal channels; and
- the Chairman of the Group Performance and Remuneration Committee consults extensively with major shareholders in respect of the Group's remuneration policy.

Throughout the year, the Chairman, Chief Executive, Chief Financial Officer and Chairman of the Group Performance and Remuneration Committee communicate shareholder feedback to the Board. The directors also receive reports reviewing share price movements and performance against the sector. Detailed market and shareholder feedback is provided to the Board after major public announcements such as a results release. The arrangements in place are to ensure that directors develop an understanding of the views of major shareholders and that these are considered as part of the annual Board evaluation.

The Investor Relations programme also includes communications aimed specifically at its fixed income (debt) investors. The Chief Financial Officer and/or the RBS Treasurer give regular presentations to fixed income investors to discuss strategy and financial performance. There is also a separate section on the RBS website for fixed income investors which includes information on credit ratings, securitisation programmes and securities documentation. Further information is available at rbs.com/ir.

Report of the Group Nominations and Governance Committee

Letter from Howard Davies

Chairman of the Group Nominations and Governance Committee

Dear Shareholder,

As Chairman of the Board and Chairman of the Group Nominations and Governance Committee I am pleased to present our report on the committee's activity during 2016.

Role and responsibilities

The Group Nominations and Governance Committee was constituted in January 2016 and assumed the responsibilities of the previous Group Nominations Committee to review the structure, size and composition of the Board, and membership and chairmanship of Board Committees. In addition, the Committee monitors the Group's governance arrangements to ensure that best corporate governance standards and practices are upheld and considers developments relating to banking reform and analogous issues affecting the Group in the markets where it operates. The Committee makes recommendations to the Board in respect of any consequential amendments to the Group's operating model.

The Committee engages with external consultants, considers potential candidates and recommends appointments of new directors to the Board.

The terms of reference of the Group Nominations and Governance Committee are reviewed annually, approved by the Board and are available at rbs.com.

Principal activity during 2016

As highlighted in the Board's 2015 performance review, the Committee acknowledges the tenure of a number of the current Board directors and therefore made succession planning a priority in 2016.

		2016
0 - 3 years		40%
3 - 6 years		30%
6 + years		30%
		100%

In addition to recruitment, the Committee assumed oversight of the process to reach agreement with the PRA in respect of a governance model that adheres to ring-fencing legislation. Ring-fencing also gives rise to a requirement to recruit additional non-executive directors to the boards of our material regulated subsidiaries, which the Committee has also been overseeing.

The Committee has spent time considering the Group's arrangements in respect of legal entity governance. This work is ongoing and is complementary to the Group's preparations for the implementation of ring-fencing legislation.

Membership and meetings

The Group Nominations and Governance Committee is comprised of the Chairman of the Board and four independent non-executive directors, which is consistent with the findings of last year's recommendation. The Committee holds at least four scheduled meetings per year and also meets on an ad hoc basis as

required. In 2016, there were four Group Nominations and Governance Committee meetings and individual attendance by directors at these meetings is shown in the table below.

	Attended/ scheduled
Howard Davies (Chairman)	4/4
Sandy Crombie	4/4
Alison Davis	4/4
Robert Gillespie	4/4
Brendan Nelson	4/4

Report of the Group Nominations and Governance Committee

Consideration of new non-executive directors

As previously advised, JCA Group has been engaged to support the search for new non-executive directors. The search and nominations process has been streamlined, including by establishment of this Committee. The Committee has also considered (by reference to peer institutions) the significant time commitment required of the Group's non-executive directors and how this might be reduced to make the position accessible to a larger pool of candidates. JCA group does not provide search services to any other part of RBS. During 2016, the Committee considered a number of potential candidates and in May 2016, Frank Dangeard was appointed to the Board as a non-executive director.

The Committee has overseen the establishment of the Group's Technology Advisory Board, which was constituted on 1 December 2016 with a remit to *provide an external lens to RBS's innovation and technology agenda including consideration of driving a resilient, simple and efficient technology environment*.

In addition to appointments to the Board (and subsidiary appointments being required to specifically comply with ring-fencing legislation), the Committee has also overseen the process for the appointment of a new chairman for Ulster Bank Ireland DAC.

Tenure of non-executive directors

The tenure of non-executive directors is set out below.

Board and Committee membership

As previously mentioned, Frank Dangeard joined the Board as a non-executive director on 16 May 2016 and was subsequently appointed to the Board Risk Committee on 4 August 2016. Frank has substantial Board level experience across a number of sectors, including technology, telecom and financial services. His change management and transformation experience are a real asset to the Board.

The Committee recommended in February 2016 that the CIB Board Oversight Committee should be discontinued, due to its remit having been superseded.

Performance evaluation

The annual review of the effectiveness of the Board and its senior Committees, including the Group Nominations and Governance Committee, was conducted internally in 2016. The Committee has considered and discussed the outcomes of this evaluation and accepts the findings. Overall the review concluded that the Group Nominations and Governance Committee operated effectively. However, certain recommendations for action were recognised including the need to: regularly engage with the external search firm to provide clarity and guidance on RBS's recruitment requirements; and rebalance the agenda of the Committee to ensure greater focus on strategic issues, including director performance and board and senior management succession.

The outcomes of the evaluation have been reported to the Board and the Committee will track progress during the year.

Boardroom diversity

The Board currently meets the target of 25 per cent female board representation as set out in Lord Davies' 2011 report on women on Boards. We acknowledge the updated targets published in the Hampton Alexander and Parker reports and will continue to consider the implications for RBS during 2017.

The gender diversity of the Board is set out below.

	2016
Female	25%
Male	75%
	100%

The Board operates a boardroom diversity policy and a copy of the Board's diversity statement is available on [rbs.com>about us](http://rbs.com/about-us).

RBS understands the importance of diversity and, with regard to gender diversity, recognises the importance of women having greater representation at key decision making points in organisations. The search for Board candidates will continue to be conducted, and nominations/appointments made, with due regard to the benefits of diversity on the Board. However, all appointments to the Board are ultimately based on merit, measured against objective criteria, and the skills and experience the individual can bring to the Board.

The balance of skills, experience, independence, knowledge and diversity on the Board, and how the Board operates together as a unit is reviewed annually as part of the Board evaluation. Where appropriate, findings from the evaluation will be considered in the search, nomination and appointment process. If appropriate, additional targets on diversity will be developed in due course.

Further details on RBS's approach to diversity can be found on pages 163 and 164.

Report of the Group Audit Committee

Letter from Brendan Nelson,

Chairman of the Group Audit Committee

“The first priority of the Group Audit Committee is to ensure the integrity and quality of RBS’s financial statements”

Dear Shareholder,

Throughout 2016 RBS has continued to progress its plan to build a strong, simple, fair bank for customers and shareholders and the Group Audit Committee (GAC) has supported this through the review and consideration of RBS’s financial reports and disclosures. This report also sets out the key areas of focus for the GAC during 2016. I am pleased to confirm that the GAC operated effectively during 2016, as was confirmed by the annual evaluation process, details of which are also set out below.

Accounting and financial reporting

The first priority of the GAC is to ensure the integrity and quality of RBS's financial statements, including its quarterly, interim and full year results and its annual report and accounts. During 2016 the GAC spent considerable time reviewing and discussing RBS's financial results in detail, and challenging the material judgements proposed by management, before recommending them to the Board for approval.

In particular, during 2016 the GAC considered judgements relating to the recoverability of deferred tax assets, the carrying value of goodwill, provisions for litigation and conduct charges, loan impairment provisions and the fair value of financial instruments. Additionally, in the stand-alone parent company accounts, the GAC considered judgements relating to the carrying value of RBSG's investment in subsidiaries.

There were also a number of developments during 2016 which required the GAC's scrutiny from a disclosure perspective. The divestment of Williams & Glyn was an important issue during 2016 and the GAC was fully engaged on this issue in order to ensure that all developments and risks were transparently disclosed to the market. RBS also continues to work through a number of litigation and conduct issues which the GAC has carefully considered in order to ensure its disclosures remain accurate and up to date.

The implications of the EU referendum and subsequent developments in the macro economic environment were an important area of focus for RBS in the second half of 2016. The GAC received reports on the implications for the credit environment which it has considered in the context of RBS's disclosures and financial reports. This will remain an area of ongoing focus into 2017.

The Market Abuse Regulation took effect in July 2016. The GAC reviewed and discussed the implications for RBS's disclosures and the processes RBS has implemented to ensure compliance with these regulations.

The GAC also considered significant developments in relation to financial reporting to ensure that RBS is well prepared for legal and regulatory changes which impact its financial results and disclosures. In particular, the GAC has overseen the preparatory work relating to the introduction of IFRS 9 which will take effect on 1 January 2018.

In relation to the Annual Report and Accounts, the GAC carefully considered the viability report and the 'fair, balanced and understandable' statement, including the processes which support them. The directors are required to make these statements in line with the UK Corporate Governance Code.

Report of the Group Audit Committee

Systems of internal control

RBS continues to work on the improvement of its control environment, which is key to making RBS a safer and more secure bank. However, the level of change RBS is undergoing presents significant challenges and RBS's operational risk profile remains heightened. The GAC oversees the arrangements for RBS's systems of Internal Control relating to financial reporting. During 2016 the GAC received quarterly updates from Internal Audit detailing Internal Audit's control ratings for RBS's businesses and functions. The GAC also received bi-annual updates on the control environment certification process and the material operational risk events which are notified to RBS's senior management, executives and non-executive directors.

During 2016 RBS made good progress in developing its operational risk management framework with the roll-out of bank-wide risk appetite statements for its most material risks, this included financial reporting risk appetite which was considered by the GAC in August 2016. RBS has also developed end to end risk and control assessment for material processes during 2016, and the resulting actions to improve and enhance controls will be taken forward during 2017; this process will be overseen by the Board Risk Committee with the GAC focusing on those aspects impacting financial reporting. The drive to achieve satisfactory controls will benefit from the bank-wide programme to enhance risk culture, with its focus on encouraging a proactive approach to risk and a more open and challenging environment.

External audit

A priority for the GAC during 2016 was to oversee a change of the external auditors. Ernst & Young (EY) assumed the role of RBS's new auditors in March 2016, having been successful in the tender process run in 2014.

On behalf of the GAC, I would like to thank the outgoing external auditors, Deloitte LLP, for their hard work over many years and for their professionalism in ensuring an orderly and smooth handover to EY.

The external auditors have attended each meeting of the GAC in 2016 and have provided the GAC with quarterly reports and ad hoc updates on specific topics as required. I am pleased to confirm that the 2016 evaluation of the external auditor found that EY were performing the audit of RBS effectively.

Key priorities for 2017

Moving into 2017 the GAC will continue its focus on RBS's accounting and financial reporting. The GAC will continue to consider developments in accounting policy and regulations impacting RBS, including IFRS 9 in particular. The impact of developments in the macro economic environment on the credit portfolio and

financial results will also remain a priority, as will the Control Environment and the GAC will continue to monitor these throughout 2017.

Accounting issues and disclosures relating to legacy litigation and conduct issues are also expected to be an important area of attention during 2017 as had been demonstrated by the provision RBS announced on 26 January 2017 in relation to RMBS litigation and investigations.

I would like to take this opportunity to thank my fellow GAC members for their continued support and focus during 2016.

Brendan Nelson

Chairman of the Group Audit Committee

23 February 2017

Report of the Group Audit Committee

Report of the Group Audit Committee

Membership

The Group Audit Committee (GAC) is comprised of the following four independent non-executive directors.

	Attended/ scheduled
Brendan Nelson (Chairman)	7/7
Sandy Crombie	7/7
Morten Friis	7/7
Baroness Noakes	7/7

Brendan Nelson, Morten Friis and Baroness Noakes are also members of the Board Risk Committee. Sandy Crombie is Chairman of the Group Performance and Remuneration Committee. Brendan Nelson and Sandy Crombie are also members of the Group Nominations and Governance Committee. This cross committee membership helps facilitate effective governance across all finance, risk and compensation issues. It also helps to ensure that agendas are aligned and that overlap of responsibilities is avoided where possible.

The members of GAC are selected with a view to the expertise and experience of the GAC as a whole and with proper regard for the key issues and challenges facing RBS.

The Board is satisfied that all GAC members have recent and relevant financial experience and that each member of the GAC is independent as defined in the SEC rules under the US Securities Exchange Act of 1934 (the “Exchange Act”) and related guidance. The Board has further determined that Brendan Nelson, Committee Chairman, and Baroness Noakes are both ‘financial experts’ for the purposes of compliance with the Exchange Act Rules and the requirements of the New York Stock Exchange, and that they have competence in accounting and auditing as required under the Disclosure Guidance and Transparency Rules. Full biographical details of GAC members are set out on pages 59 to 65.

During 2016 GAC meetings were attended by the Chief Executive and Chief Financial Officer; the Group Chairman; the Internal and External Auditors; and Finance, Legal and Risk Management executives. Other executives, subject matter experts and external advisers were also invited to attend, as required, to present and advise on reports commissioned by the GAC. The GAC also met privately with the external auditors and separately with Internal Audit management.

Purpose of the Group Audit Committee

The GAC's responsibilities are set out in more detail in its terms of reference which are reviewed annually by the Committee and approved by the Board. These are available on rbs.com.

Meetings and visits

The GAC held seven scheduled meetings during 2016, four of which were held immediately prior to the submission of the quarterly financial statements to the Board. The GAC also convened three ad hoc meetings to consider:

- the trading statement issued in January 2016;
- documentation relating to disclosures in the 2015 Annual Report and Accounts; and
- disclosure issues relating to the H1 2016 results, including the developments on Payment Protection Insurance.

During 2016, in conjunction with members of the Board Risk Committee, members of the GAC took part in an annual programme of visits to businesses and control functions in order to gain a deeper understanding of the risks and issues they face. This programme comprised two visits to Risk and Restructuring; Conduct and Regulatory Affairs and Internal Audit plus visits to: Personal & Business Banking; Commercial & Private Banking; NatWest Markets (formerly CIB); Capital Resolution, Services; and Finance.

Report of the Group Audit Committee

Allocation of Group Audit Committee agenda time during 2016 was as follows:

Financial affairs of the group	39%
Standards of internal control	21%
Internal audit	13%
External audit	9%
Regulatory relationships and compliance	13%
Governance and procedural	5%
Total	100%

Performance evaluation

The performance of the GAC is evaluated annually, and at least once every three years is facilitated by an external party. Following an externally facilitated evaluation in 2015, the evaluation of the GAC's performance in 2016 was conducted internally. The evaluation process involved the completion of questionnaires by both GAC members and members of management and follow up interviews to discuss the findings. The Board and the GAC have considered and discussed the outcomes of this evaluation. Overall the review concluded that the GAC continued to operate effectively. A number of recommendations for improvement were made which were approved by the GAC and the Board; progress against these will be tracked in 2017.

Report of the Group Audit Committee

Matters considered by the Committee in 2016

Key area		Matters considered and action taken by the Committee
Financial affairs of the Group		
Accounting judgements and reporting issues considered in the preparation of financial reports		<p>The Group Audit Committee focused on a number of salient judgements and reporting issues in the preparation of the financial results throughout 2016, including the quarterly, half year and full year results and the Annual Report and Accounts. In particular, the Committee considered, discussed and, where appropriate, challenged:</p> <ul style="list-style-type: none"> • provision and disclosure for ongoing regulatory and litigation actions including: Payment Protection Insurance claims, RMBS investigations and litigation, UK shareholder actions, the FCA's investigation into RBS's former Global Restructuring Group, the Central Bank of Ireland's review of Irish tracker mortgages and investigations into alleged foreign exchange rate manipulation. During 2016 RBS has recognised £5.9 billion of litigation and conduct provisions; • the adequacy of loan impairment provisions, focusing in particular on judgements and methodology applied to provisions. The Committee was satisfied that the overall loan impairment provisions and underlying assumptions and methodologies were reasonable and applied consistently; • valuation methodologies and assumptions for financial instruments carried at fair value including RBS's credit market exposures and own liabilities assessed at fair value; • judgements made by management in relation to the carrying value of intangible assets. In particular, in light of changes to economic forecasts, the GAC considered whether any adjustments were required to the carrying value of goodwill and of RBS's investment in subsidiaries

within the stand-alone parent company accounts; in its Q3 2016 results RBSG reduced the carrying value of its investment in subsidiaries by £6.0 billion to £44.7 billion in light of the deterioration in the economic outlook. The GAC also challenged the processes and the models used to assess the value of these assets;

- judgements made by management in assessing the recoverability of deferred tax assets, in light of continued execution of the RBS's strategy and changes to the UK corporate tax system. A £300 million impairment of deferred tax assets was recognised in RBS's Q3 2016 results;

- management's assessment of the adequacy of internal controls over financial reporting, and identified deficiencies. Remediation of identified weaknesses in relation to privileged access controls for certain IT applications and in relation to legal entity recharge accounting for the allocation of ATM fees was monitored and tracked by the GAC during 2016;

- the quality and transparency of financial and risk disclosures;

- the viability statement in the 2016 report and accounts. The GAC considered the process to support the assessment of principal risks; assessed the company's prospects in the light of its current position and the identified principal risks; selected the time period to be covered by the statement; and reviewed the disclosure on behalf of the Board;

- the going concern basis of accounting including consideration of evidence of RBS's capital, liquidity and funding position. The GAC supported the directors' going concern conclusion. Further information is set out on page 164; and

• the comprehensive review process which supports the GAC and the Board in reaching the conclusion that the disclosures in the Annual Report and Accounts, taken as a whole, are fair, balanced and understandable and provided the information necessary for shareholders to assess the company's position and performance, business model and strategy. The review process included: central co-ordination of the annual report and accounts by the Director of Finance with guidance on requirements being provided to individual contributors; review of the annual report and accounts by the Executive Disclosure Committee prior to consideration by the GAC; and a management certification process which required members of the Executive Committee and other senior executives to provide confirmation following their review of the annual report and accounts that they considered them to be fair, balanced and understandable. This process was also undertaken in respect of the half year and quarterly results announcements. The External Auditor also considered the Board's statement as part of its audit requirements.

Having considered the above, the Committee recommended the quarterly, interim and full year results announcements and the Annual Report and Accounts to the Board for approval.

Report of the Group Audit Committee

Key area		Matters considered and action taken by the Committee
Standards of internal control		
Annual Risk and Control report		The GAC considered the effectiveness of RBS's internal control system, including any significant failings or weaknesses. The Williams & Glyn divestment programme and the NatWest Markets control environment were both identified as weaknesses, these have both been closely monitored and reviewed by the Board Risk Committee and are discussed further in the report of the Board Risk Committee. The GAC also considered RBS's disclosure on internal control matters in conjunction with the related guidance from the Financial Reporting Council.
Control Environment Certification		The GAC considered the outputs of bi-annual self-assessments of the robustness of the internal control environment for RBS's customer-facing businesses, and its support and control functions. This informs the control environment disclosure in the annual report and accounts.
Integrated Risk Assessment Approach		The GAC reviewed work undertaken on the bank's integrated risk assessment approach which is designed to provide a single approach to the assessment of risk mind sets and behaviours and risk capabilities, leading to a more effective and simplified approach to the assessment of risk culture, the three lines of defence and performance assessments.
Whistleblowing		The GAC received updates on whistleblowing activity and the performance of RBS's whistleblowing service. It monitored the effectiveness of the whistleblowing framework and enquired as to any trends or themes. It also received updates on communications and awareness activity relating to whistleblowing and testing of the framework. The GAC was also advised of the actions RBS has taken to ensure compliance with the new FCA and PRA whistleblowing regulations which applied to RBS from 7 September 2016. In March 2016 the GAC Chairman was appointed as Whistleblowing Champion for RBS, in line with the requirements outlined in the PRA and FCA regulations; this role carries the responsibility for ensuring and overseeing the integrity, independence and effectiveness of the firm's whistleblowing arrangements.

Ledger Transformation Programme		The GAC received updates in relation to the delivery of the new general ledger, the introduction of which has been overseen by the GAC. The new ledger replaces previous legacy systems and supports new functionality such as discrete legal entity views and multi-currency accounting on a single ledger platform. The GAC was provided with updates on the recommended actions and plans to deliver the programme and the key risks and challenges it presented.
Taxation		The GAC reviewed RBS's tax position, including a deep dive on Tax in October 2016 which covered; the structure of the Tax team, Tax Risk within the Risk Management Framework, material tax risks and disputes, UK Corporate tax compliance, deferred tax assets, VAT risks and challenges, external tax developments and the key projects on which the tax team are engaged.
Litigation and Regulation		The GAC considered regular reports on most significant legal risks and developments affecting RBS, including relevant updates on ongoing major litigation and investigations, privacy and competition issues, legal risks within structural reform and recovery and resolution planning, as well as material emerging legal risks and/or changes in law or regulation and any recent provisions and settlements or recoveries. Key themes and observations from RBS's Sensitive Investigations Unit were also highlighted to the GAC.
Notifiable Event Process		The GAC received bi-annual reports on control breaches which are captured by RBS's notifiable event process. Process-related errors were the main root cause of Major notifiable events escalated in 2016. Throughout 2016 senior management has actively promoted an open culture around raising GNEPs and regularly reinforced that these are integral in helping the bank's employees learn from their mistakes. Under this process all Board directors were alerted to the most significant breaches.
Fraud		The GAC reviewed management's processes for identifying and responding to the risk of fraud.
Sarbanes-Oxley Act of 2002		The GAC considered RBS's compliance with the requirements of the Sarbanes-Oxley Act of 2002, and was satisfied in this respect. RBS had no Material Weaknesses as at 31 December 2016, however Significant Deficiencies were identified relating to legal entity recharge arrangements and action is being taken by Management to improve these processes. The GAC has also overseen RBS's drive to continue to improve its SOX processes.

Report of the Group Audit Committee

Key area		Matters considered and action taken by the Committee
Systems of internal control		
Market Abuse Regulation		The GAC considered the impact of the Market Abuse Regulation which took effect in July 2016. The GAC noted the main changes to disclosure requirements and the processes implemented by RBS to address these. This included the establishment of a sub-committee of the executive disclosure committee to consider potential instances of inside information, including whether there are any grounds for delaying disclosure under the Market Abuse Regulation, and escalate these as required to the GAC and Board.
Internal audit		
Reports and Opinions		The GAC received quarterly reports and opinions from Internal Audit throughout 2016. These reports and opinions updated the GAC on the effectiveness of the governance, risk management and internal control framework, ongoing issues and the adequacy of remediation activity. The full year and half year reports included Internal Audit's opinion in relation to RBS's Risk & Control Environment and its Risk & Control Awareness. Internal Audit are now using the new simplified bank-wide risk and control rating metrics, which came into effect on 1 January 2016. The new metrics align the way RBS assesses its risks and controls across the first, second and third lines of defence. The GAC received updates on management's response to Internal Audit's findings and challenged management as to progress on remediating such findings.
Annual Plan and Budget		The GAC considered and approved Internal Audit's plan for 2017, which is focused on the highest risks faced by RBS. The GAC also considered Internal Audit's budget and was satisfied that this was sufficient to allow Internal Audit to deliver the plan.
Internal Audit Charter		Updates to Internal Audit's charter, to reflect changes in reporting structures and amendments to the Institute of Internal Auditors

		International Standards, were approved by the GAC and the GAC confirmed the independence of Internal Audit.
Visits		During two visits to Internal Audit in 2016, the GAC received updates on a variety of issues impacting the internal audit function, including; resourcing, bench strength, risk mindset and behaviours, strategic priorities, use of data analytics and internal quality assurance.
Chief Audit Executive		The Chief Audit Executive continued to report to the Chairman of the GAC, with a secondary reporting line to the Chief Executive for administrative purposes. The GAC assessed the annual performance (including risk performance) of the Chief Audit Executive.
Annual Evaluation		The annual review of effectiveness of Internal Audit was undertaken internally in 2016. Under the evaluation process feedback on Internal Audit was provided by GAC members and attendees (including the external auditors), chairmen of subsidiary audit committees, key members of business risk committees and other key members of management. The evaluation concluded that Internal Audit had operated effectively during the year. Certain recommendations were made to aid continuous improvement within the function; these will be implemented during 2017 and progress will be tracked by the GAC.
Relationship with regulators		
Regulatory Relationships, Risk of Enforcement and Upstream Risk		The GAC received a report on the status of RBS's relationships with its key regulators, the status of regulatory reviews, including any reviews at risk of potential enforcement action in 2016, and key upstream risk developments. The GAC Chairman also attended continuous assessment meetings with the PRA and FCA, meetings with the Bank of England and other audit committee chairmen and trilateral meetings with the PRA and external auditor.
	External audit	
Transition of auditors		The GAC supervised the transition of the external auditor from Deloitte to EY during 2016 with EY assuming the role of external auditor for RBS at the end of March 2016. The Board will recommend the appointment of EY as external auditor to shareholders for approval at the Annual General Meeting.
External Audit Reports		Jon Bourne has been EY's lead audit partner for RBS since EY assumed the role of external auditor in March 2016. Jon Bourne attends each meeting of the GAC and reports to the GAC on the external auditor's observations and conclusions from the year-end audit and half-year review of The Royal Bank of Scotland Group plc, The Royal Bank of Scotland plc and National Westminster Bank Plc, work in connection with the Q1 and Q3 financial results and any recommendations for enhancements to RBS's reporting and controls.
Audit Plan and fees		The GAC received updates in relation to the external auditor's 2016 plan and approved the 2016 audit fees including the fee for the 2016 interim results. The GAC was authorised by shareholders at the Annual General Meeting to fix the remuneration of the external auditors.

Report of the Group Audit Committee

Key area		Matters considered and action taken by the Committee
External audit		
Annual Evaluation		The GAC conducted an internal evaluation to assess the independence and objectivity of the external auditor during 2016. This review included an evaluation of the effectiveness of the audit process and sought the views of the GAC members, attendees and other key members of management. Regard was had to the external auditor's mindset and culture, skills, character and knowledge, quality control and judgement. The evaluation concluded that the external auditor was operating effectively. A number of recommendations for continuous improvement were identified which the external auditor has agreed to take forward during 2017. Following the evaluation the GAC recommended that the Board seek the reappointment of EY as external auditor at the next annual general meeting.
CASS Opinions		At the GAC's request the external auditor presented the results of its assurance procedures on compliance with the FCA's Client Asset Rules for RBS's regulated legal entities for the year ended 31 December 2015. The GAC also considered the CASS Audit plan for 2017, the findings of which will be reported to the GAC once the audit is complete.
External Audit Report to the PRA		The GAC considered the 'dry run' report to the PRA by the external auditor for the 2015 year end. The report responded to specific questions posed by the PRA. This report was produced in preparation for implementation of auditor reporting for the largest UK banks which is required for 2016 year ends, in line with the proposals set out in PRA consultation paper CP8/15.
Audit and non-audit services		
Non-audit services policy		To help safeguard the objectivity and independence of the external auditor, the GAC maintains a policy that sets out the circumstances in which the external auditor is permitted to supply audit and non-audit services. EY were appointed RBS's external auditors in March 2016 but they have been subject to the policy since becoming independent from RBS in 2015 in the lead up to their appointment.

The GAC reviews the non-audit services policy at least annually to ensure it remains fit for purpose. During 2016 the GAC approved a number of amendments to the policy to ensure it met the requirements of the EU Audit Regulation and also to streamline to operation of the policy.

In accordance with the policy, all audit services and permitted non-audit services are approved in advance.

Under the policy certain services are classed as Audit-Related Services and these may be approved by the Director of Finance, on behalf of the GAC, up to a limit of £100,000 each financial quarter. Engagements for Audit-Related Services in excess of this quarterly limit require the approval of the GAC Chairman. All Audit-Related Services are reported to the GAC quarterly.

The GAC has also delegated authority to the Director of Finance to approve the provision of services by the external auditor to non-consolidated subsidiaries of RBS within an annual cap and to approve engagements with the external auditor where RBS has limited or no influence in the selection process. All such engagements are reported to the GAC each quarter.

For all other permitted non-audit service engagements, where the fee is below £5,000 approval by the Director of Finance is required. Where the fee is above £5,000 but below £100,000 approval by the GAC Chairman is required. For engagements where the fee is expected to exceed £100,000 a competitive tender process must be held and approval of the full GAC is required. In addition all engagements must be approved by the Director of Finance and by Supply Chain Services. All such ad hoc approvals of non-audit services are ratified by the GAC each quarter.

Report of the Group Audit Committee

	Key area	Matters considered and action taken by the Committee
Audit and non-audit services		
	Non-audit Services Policy	<p>During 2016, the current and previous external auditors were approved to undertake the significant engagements set out below whilst in the role of external auditor:</p> <ul style="list-style-type: none"> • Deloitte were engaged to prepare an audit opinion, required by the PRA confirming the level of asset run down in RBS Capital Resolution, taking into accounting outstanding liabilities/indemnities to any disposed asset; details of any residual assets and how these will be managed following the closure of RBS Capital Resolution; and details of any ongoing obligations RBS will have to any disposed assets; • Deloitte's role as Reporting Accountant for Williams & Glyn was extended, to permit them to prepare a financial 'fact pack' to support the trade sale marketing of Williams & Glyn; • Deloitte were engaged to support Williams & Glyn with validation, review, quality assurance and documentation activities in relation to Williams and Glyn's capital stress plan; • Deloitte were engaged to support the first phase of a Central Bank of Ireland mandated investigation into tracker mortgages in Ulster Bank Rol. This first phase comprised the development and submission of a detailed plan for conducting the investigation and ensuring that appropriate governance was in place; • EY were engaged to review historical and prospective financial information for certain parts of the business; • EY were engaged to provide an assurance opinion for an information request from the European Commission in connections with its competition

investigation into pre-2012 FX currency trading; and

- EY were engaged to audit the control environment and control objectives for RBS and Ulster Bank's internal reporting procedures relating to the Scottish & Northern Ireland Banknote Rules 2011 and the Note Circulation Scheme Rules, as required by the Bank of England.

The decision to approve the engagement of the external auditor for the services noted above was due to factors including synergies and efficiencies relating to the audit work, their existing knowledge of RBS which allowed work to commence quickly and with minimal disruption and the benefits in maintaining consistency between similar engagements. In each case the GAC was satisfied that the engagement did not impact the external auditor's independence.

Although RBS's previous external auditors are no longer subject to independence requirements, they do have an ongoing role to consent to the release of its prior period audit opinions for US reporting purposes (statutory and comfort letter related). Given any requirement to perform additional audit work for historic periods would require previous external auditors to re-establish independence, a number of safeguards relating to their appointment remain in place under the policy, including the requirement for engagements with Deloitte to be approved by the GAC or on its behalf by the Director of Finance (depending on the value of the engagement. Since Deloitte have been removed from independence requirements with these safeguards in place they have been engaged as follows:

- to provide additional quality assurance over management's assessment of the adequacy of SOX 404 control design and management's testing of the effective operation of SOX 404 controls;
- as the skilled person to support the Bank's ring-fencing programme;
- in relation to the remediation of the tracker mortgage book in Ulster Bank;

		<ul style="list-style-type: none">• to provide resource support to help technology teams to implement and embed a new Technology delivery framework and;• to support the second phase of the Central Bank of Ireland mandated investigation into tracker mortgages in Ulster Bank. This second phase of work involves a review of Ulster Bank Ireland DAC's 2001-2015 mortgage loan book in line with the Central Bank of Ireland 'Framework for Conducting the Tracker Mortgage Examination'. <p>Further details of the non-audit services that are prohibited and permitted under the policy can be found on rbs.com. Information on fees paid in respect of audit and non-audit services carried out by the external auditor can be found in Note 5 on the consolidated accounts on page 412.</p>
<p>Brendan Nelson Chairman of the Group Audit Committee</p>		

Report of the Board Risk Committee

Letter from Baroness Noakes

Chairman of the Board Risk Committee

“RBS as a whole is on a journey towards a robust, well managed control environment”

Dear Shareholder,

Executive Committee

The Committee had a challenging programme of risk issues to consider in 2016 and the report that follows provides details of the topics reviewed and debated by the Committee during the year. The Committee reviewed and provided oversight of the risk profile of the bank relative to the bank's strategy and risk appetite against the backdrop of an economic environment which is challenging for the bank and which was made more uncertain following the outcome of the EU referendum.

Strategic Risk and Transformation

The Committee continued to devote considerable attention to the demanding bank-wide transformation programme in 2016. In particular, it considered execution and delivery risk on behalf of the Board and monitored the amount of change risk faced by the business. We focused on the impact of transformation plans on the bank's control environment and on the control transformation workstream which is a key part of the overall programme. End to end risk and control assessments for material processes were carried out during 2016 and in 2017 we will be overseeing the improvement actions which are needed. The broader cost and control objectives of the transformation programme will continue to be a key priority in 2017 and future years.

Delivery of the Williams & Glyn separation programme remained a significant area of focus of the Committee in the first half of the year. In light of the delivery challenges, the Board decided to change its strategic direction and the committee subsequently focused on the wind-down of the programme.

As the year progressed, increasing agenda time was devoted to the implementation of the bank's ring-fencing programme as the programme moved from the design phase into the execution phase. The Committee reviewed the revised baseline plan before submission to the regulator and oversaw the development of an integrated assurance programme for the project involving Risk, Internal Audit and external third party assurance.

Control Environment

RBS as a whole is on a journey towards a robust, well-managed control environment and the Committee reviews the control ratings of significant business areas twice a year. Challenges are greatest within the bank's NatWest Markets (formerly CIB) franchise and we reviewed management's plans to strengthen substantively its control environment and address known weaknesses. We will oversee the effective delivery of those plans, relying in particular on more detailed challenge in the second line of defence.

Report of the Board Risk Committee

Risk Appetite

The bank's risk appetite framework provides a structured approach to risk taking and the committee reviewed proposed enhancements to the framework prior to Board approval. We have extended our detailed examination beyond the suite of strategic risks to all material risk categories via a series of in depth reviews of the individual risk appetite statements and related metrics. These sessions enabled essential preparatory work to be undertaken prior to transitioning to a Board approval framework for these material risks in 2017. We will continue to supervise closely the maturing risk appetite framework, including remediation where breaches of material risk appetite are identified, in the year ahead.

Stress Testing

The bank conducted a number of stress tests in 2016 including the European Banking Authority and Bank of England stress tests in addition to its own internal stress tests. The Committee played a vital role in reviewing the scenarios and assumptions deployed and in ensuring that the outputs of the tests were subjected to a high degree of scrutiny and challenge. The Committee also oversaw enhancements to the bank's stress testing capability and this will remain a priority in 2017.

Other

Other material areas of Committee focus during the year have included:

- conduct risk and the oversight of on-going regulatory investigations and remediation;
- the capital and liquidity position of RBS and related regulatory submissions;
- cyber security including the outcome of RBS's participation in a cyber testing initiative led by the Bank of England (CBEST);
- risk culture, the three lines of defence model and risk performance assessments, now being combined into an integrated risk assessment process; and
- continued refinements to risk reporting.

Key priorities for 2017

The bank has made significant advances this year towards its goal of becoming a stronger, simpler and fairer bank. However, while progress has been made, more work is required before the bank will be operating fully within risk appetite and the Committee will keep this under review in 2017. In the coming year the Committee will also continue to oversee the work being carried out under the bank's significant change programmes and the impact of those initiatives on the risk profile of the bank. Other areas of focus of the Committee will include cyber risk, IT resilience and assessing the impact of external factors on the

bank's risk profile.

I would like to conclude by welcoming Frank Dageard to the Committee and by thanking my fellow Committee members for their continued support and diligence throughout the year. I would also like to extend my gratitude to Robert Gillespie, who stood down as a member in August, for his valuable contribution.

Baroness Noakes

Chairman of the Board Risk Committee

23 February 2017

Report of the Board Risk Committee

Report of the Board Risk Committee

The role and responsibilities of the Board Risk Committee

The Board Risk Committee (BRC) assumes responsibility on behalf of the Board to provide oversight of current and potential risk exposures and future risk strategy, including the determination of risk appetite and tolerance, and to promote a culture of risk awareness within RBS.

The BRC's responsibilities are set out in more detail in its terms of reference which are reviewed annually by the BRC and approved by the Board. These are available on RBS's website: rbs.com.

Membership

The Board Risk Committee comprises independent non-executive directors. Details of the skills and experience of each of the BRC members are set out in their biographies on pages

55 to 57.

		Attended/ scheduled
Baroness Noakes (Chairman)	9/9	
Frank Dangeard (1)	3/3	
Morten Friis	9/9	
Penny Hughes	9/9	
Brendan Nelson	9/9	
Former Members		
Robert Gillespie(2)	6/6	

Notes:

(1) Appointed to the committee on 4 August 2016.

(2) Stood down from the committee on 4 August 2016.

Brendan Nelson is chairman of the Group Audit Committee of which Baroness Noakes and Morten Friis are also members. Penny Hughes is chairman of the Sustainable Banking Committee. This common membership across Committees helps to ensure effective governance across the committees.

BRC meetings are also attended by the RBS Chairman, relevant executives, including the Chief Executive, Chief Financial Officer, Chief Risk Officer, Chief Conduct & Regulatory Affairs Officer, Chief Legal Officer and General Counsel and Chief Audit Executive, and the lead partner of the External Auditor. External advice is sought by the BRC, where appropriate.

Report of the Board Risk Committee

Meetings and visits

Nine scheduled meetings and six ad hoc meetings were held in 2016. The ad hoc meetings were required to consider: the results of various phases of internal and external stress tests; the Ring-Fencing Revised Baseline Plan; and the draft budgets and related stress test outputs.

In 2016, members of the BRC, in conjunction with members of the Group Audit Committee, undertook a programme of visits to focus on various businesses and control functions including bi-annual visits to Risk and C&RA. The purpose and scope of this programme is discussed in detail in the Report of the Group Audit Committee above.

The BRC also held in-depth sessions on risk reporting and the legal entity framework and associated capital requirements.

Performance Evaluation

The annual review of the effectiveness of the Board and its senior Committees, including the Board Risk Committee, was conducted internally in 2016. The BRC has considered and discussed the outcomes of this evaluation and accepts the findings. Overall the review concluded that the Board Risk Committee continued to operate effectively. However, certain recommendations for action were recognised including the need to: rebalance the agenda of the BRC to ensure sufficient focus on the most pertinent risks and reduce the length of meetings; place more reliance on executive committees to reduce pressure on the BRC' agenda; and hold Executives to account for sign-posting key issues and escalating a unified position from all three lines of defence.

The review included a small number of general recommendations which are relevant for both the Board and its senior committees. Key themes and actions arising from these general recommendations are set out in the Board report on page 74 and will be considered, and addressed as appropriate, at Board level.

The outcomes of the evaluation have been reported to the Board and the BRC will track progress on its 2017 priorities during the year.

Allocation of Board Risk Committee agenda time:

Current risk profile and issues	26%
Change agenda and large projects	10%
Process, policies and risk appetite	15%
Regulatory returns and stress testing	15%
Accountability and remuneration	6%
Risk, conduct and regulatory affairs focus sessions	13%
Franchise and function focus sessions	15%
Total	100%

Report of the Board Risk Committee

Matters considered by the Committee in 2016

Key area	Issues considered and Action taken by the BRC
Risk Profile	
Reporting	<ul style="list-style-type: none"> • Provided oversight of RBS's risk profile relative to RBS's strategy and risk appetite through the review of emerging risks and changes in RBS's most significant portfolios and operations, as presented within the comprehensive Risk Management Report. In order to focus on changes in the RBS's risk profile and to highlight trends, the BRC transitioned during the year to taking this report on a quarterly basis. A short form risk report was considered at all other meetings. • Received oral updates from the Chief Risk Officer and Chief Conduct and Regulatory Affairs Officer on the most current and material risks at each meeting. This enabled the BRC to discuss RBS's top risks and whether these were being managed effectively; whether RBS was operating within risk appetite; and whether business change was being managed effectively. • Held an in-depth session on risk reporting in October 2016 which led to additional recommendations for refinements to the form and content of reporting. Management will progress these improvements during 2017.
External developments	<ul style="list-style-type: none"> • Received reports from the Chief Risk Officer at each meeting highlighting external developments with the potential to affect RBS's ability to meet its strategic objectives or continue its operations. This included updates on the global economic environment, including developments in the US, Europe and China and associated impacts on financial markets; regulatory proposals for potential future capital requirements; and preparation for, and the impact of, the EU referendum result.
General Counsel's report	<ul style="list-style-type: none"> • The General Counsel reported to the BRC at each meeting on current and emerging key legal developments and risk and significant litigation risks affecting RBS.
US Risk Committee	<ul style="list-style-type: none"> • Received quarterly reports from the Chairman of the US Risk Committee on the key matters discussed at that forum. The US Risk Committee was established in May 2016 in response to US regulatory requirements and comprises Morten Friis as Chairman, the Chairman of the Board Risk Committee and the RBS Chief Financial Officer. It provides oversight of the risk management framework of RBS's combined US operations, including the review and approval of US risk management policies and material submissions to US regulators.
Strategic Risk	

Transformation	<ul style="list-style-type: none"> Kept the execution risk of the RBS-wide transformation programme under review, receiving regular updates from the transformation team on progress, including independent opinions from Risk, C&RA and Internal Audit. Considered progress against plan and reviewed interdependencies with other significant change programmes and key threats to delivery. In particular, the impact of the Williams & Glyn programme on transformation was monitored. Reviewed the impact of 2016 cost reductions and the 2017 budget restrictions on the programme. Requested focus sessions on the controls transformation workstream, in particular the prioritisation and completion of the Risk and Control Assessments planned in 2016. A report was received from Internal Audit on the robustness of the assessments and the BRC will oversee management's plans to enhance processes and to remediate control weaknesses identified through completion of the exercise.
Williams & Glyn	<ul style="list-style-type: none"> In Q1 2016, exercised oversight of the risks and challenges to the planned physical separation of assets in advance of the divestment of Williams & Glyn, confirming appropriate governance and assurance processes were in place for the programme. Received independent reports on progress from Risk and Internal Audit, supplemented by independent third party assurance on progress. Received updates on the wind-down of the separation programme after the decision of the Board not to proceed with this method of divestment and considered the impact of the decision upon people, costs, records management and security. Reviewed the impact of the change in strategic direction upon other key deliverables.
Ring-fencing Implementation plan	<ul style="list-style-type: none"> Considered the key risks of the implementation of the ring-fencing programme as it moved from the design phase into execution in H2 2016, including reviewing the revised baseline plan and endorsing its submission to the PRA. Oversaw the development of an integrated assurance programme involving Risk, Internal Audit and external third party assurance.

Report of the Board Risk Committee

Key area	Matters considered and action taken by the BRC
Strategic Risk	
Change Risk	<ul style="list-style-type: none"> Discussed the change risk profile of RBS and the prioritisation and impact of mandatory change programmes and considered the agreed risk appetite statement and measures used to assess change risk across RBS. Suggested refinements to the processes for assessing change risk and the acceptable volume of change.
Client Pricing for Assets and Liabilities	<ul style="list-style-type: none"> Reviewed the client pricing process against regulatory requirements to ensure that the pricing of liabilities and assets takes into account RBS's business model and risk strategy. The BRC noted that additional testing would be undertaken and enhancements made to the process. An annual review will be undertaken in future years.
Enterprise Wide Risk	
Risk appetite	<ul style="list-style-type: none"> Reviewed the risk appetite governance framework for 2016; provided feedback on the mechanism for managing and escalating breaches of risk appetite; and made suggestions in relation to simplification of the framework, before recommending this to the Board for approval. Reviewed risk appetite for strategic risks (earnings volatility, RBS-wide and functions, funding and equity investors) and subject to suggested refinements, recommended this to the Board for approval. Refreshed governance arrangements for material risks and put in place plans to transition to a Board approval framework for the most significant risks in 2017. This involved a number of in depth reviews of risk appetite throughout the year in relation to the following risk areas: tax, pensions, records management, payment processing, IT stability & resilience, people, reputational, traded market risk, non-traded market risk, business risk, financial reporting, legal entity risk, operational risk, information and cyber security, retail credit, mortgage risk, wholesale credit, commercial real estate, acquisition risk, settlement risk and conduct risk. Reviewed the cascade of RBS-wide risk appetite to franchises and functions and the alignment between strategic and material risk appetite statements. Considered the use of risk capacity (being the parameters within which risk appetite is set) and agreed risk capacity limits for strategic risks.
Stress testing	

	<ul style="list-style-type: none"> • In Q1 2016, the BRC considered the results of the 2015 budget and forecast stress testing and reviewed Internal Audit's planned activity for assessing stress testing in 2016. • During the year, the BRC considered the underlying assumptions and scenario selection for the external Bank of England stress test, including Internal Audit's opinion, making recommendations to the Board as appropriate. • Provided challenge and scrutiny to the results of the three phases of the 2016 EBA stress test and the results of the 2016 Bank of England stress test. • Reviewed the results of the reverse stress test and made recommendations to the Board in this regard. • In H2 2016, the BRC considered the 2016 budget and forecast base and stress scenarios together with opinions from the three lines of defence and draft outputs and made recommendations to the Board in this regard. • Oversaw enhancements to RBS's stress testing capability, in particular the remediation actions taken in response to the PRA review of stress testing capability.
Model risk framework	<ul style="list-style-type: none"> • Oversaw the development of a new model risk framework designed to deliver improvements in the management of model risk. This included reviewing progress in remediating areas of identified weaknesses such as model validation and the restructure of model risk management team.
Integrated risk assessment process	<ul style="list-style-type: none"> • Reviewed work undertaken by RBS to understand its risk culture and approaches to its assessment against a clearly articulated target culture. Considered the proposed Integrated Risk Assessment approach which was designed to provide a single approach to the assessment of risk mindsets and behaviours and risk capabilities leading to a more effective and simplified approach to the assessment of risk culture, the three lines of defence and performance assessments. • The BRC reviewed the output of the pilot of the revised approach within certain functions and franchises and Risk.
RDAR	<ul style="list-style-type: none"> • Monitored progress towards full compliance with the Basel Principles on Effective Risk Data Aggregation and Reporting (RDAR). Received a report from Internal Audit on material compliance with RDAR principles and oversaw communications with the PRA in this regard. The BRC will continue to ensure that areas requiring additional improvement are remediated in 2017 alongside plans to achieve full compliance.

Report of the Board Risk Committee

Key area	Matters considered and Action taken by the BRC
Enterprise Wide Risk	
Risk Assurance	<ul style="list-style-type: none"> Received quarterly reports on issues highlighted by reviews conducted in each of the three franchises by Credit Quality Assurance, Market Quality Assurance, Control Assurance and a newly created Stress Testing Assurance team.
Market, Credit and Operational Risk	
Credit, Market and Operational risk MI	<ul style="list-style-type: none"> Reviewed RBS's risk profile relative to credit, market and operational risk, and examined detailed management information (MI) within the Risk Management report in this regard.
Control Environment Certification	<ul style="list-style-type: none"> Received bi-annual reports on the Control Environment of the franchises and functions and sought management's assurance that appropriate measures were in place to ensure that the businesses could continue to operate safely, where control weaknesses had been identified.
NatWest Markets (formerly CIB) Control Environment Remediation	<ul style="list-style-type: none"> Reviewed and challenged management plans to remediate and strengthen the conduct and control environment across the NatWest Markets franchise. Received reports on specific remediation issues and control issues including, Trade and Transaction Reporting; Collateral Management Algorithmic Trading and Intra-Day Risk; IMA waiver and capital implications; and surveillance measures and potential enhancements. Reviewed management's transformation plans for the business, including how these would impact remediation, mandatory change and the control environment. Received reports following challenge by the second line of defence and the Technical Executive Risk Forum of management's views of progress against expected outcomes.
Payments	<ul style="list-style-type: none"> Received progress reports in relation to the payments transformation programme, designed to remediate weaknesses in the payments infrastructure and provide a platform to support mandatory change. Requested updates on compliance with the Payment Card Industry Data Security Standards and Wire Transfer Regulations (WTR) and considered an Internal Audit report on WTR compliance.
Resilience, security and cyber risk	<ul style="list-style-type: none"> The BRC received bi-annual reports on security and resilience and requested a separate update on cyber security. This included a report on the controls and defences in place, an update on improvements identified via RBS's participation in CBEST (a cyber testing initiative led by the Bank of England), and a summary of the alignment of the RBS's security policy with

	the ISO standards.
Material credit exposures	<ul style="list-style-type: none"> • Oversaw the Executive Credit Group (ECG) receiving a summary of the decisions made by the ECG in the period. Reviewed the most material credit decisions made in 2015 and examined trends in the market. • Approved a revised governance for large credit exposure decisions, designed to enhance the level of BRC and Board oversight.
Other operational risks	<p>The BRC also reviewed reports in relation to:</p> <ul style="list-style-type: none"> • the potential risks posed by end of life software; • simplification of the RBS Policy Framework. The BRC requested that greater analysis of the volume of exceptions to policy be undertaken; and • data quality. Following review of progress against a detailed plan, the BRC was pleased to note significant progress in this area.
Capital and Liquidity Risk	
ICAAP and ILAAP	<ul style="list-style-type: none"> • In Q2 2016 the BRC reviewed the draft Internal Capital Adequacy Assessment process (ICAAP) along with an Internal Audit review and recommended the document to the Board for approval subject to certain enhancements. • In Q3 2016 the BRC reviewed both the scenarios assumptions for the 2016 Internal Liquidity Adequacy Assessment Process (ILAAP) and the final ILAAP submission and, after due consideration, recommended them to the Board.
Recovery and Resolution planning	<ul style="list-style-type: none"> • Oversaw the first part of a two year remediation process in designed to deliver a recovery plan in line with industry best practice. • Examined and commented upon the draft 2016 recovery plan and resolution pack and recommended them to the Board for approval. Approved the final version of the recovery plan under delegated authority from the Board.
Capital Management	<ul style="list-style-type: none"> • Reviewed the progress of the capital management capability enhancement programme. • Received an update on proposed regulatory changes to capital requirements and noted the areas most likely to be impacted and the likely implementation timescales.

Report of the Board Risk Committee

Key area	Matters considered and Action taken by the BRC
Capital and Liquidity Risk	
Legal entity control & risk framework	<ul style="list-style-type: none"> Held a detailed session on the internal finance and risk processes relating to subsidiary legal entities in June 2016 and considered an update on the legal entity operating model later in the year, with a particular focus on specific enhancements being developed to improve the robustness of the legal entity control and risk framework. Supported management's plans to create an RBS-wide programme to build legal entity capability and deliver a coordinated framework focusing on specific legal entity control and assurance requirements.
Conduct, Regulatory and Remediation	
Representations to Regulators	<ul style="list-style-type: none"> Reviewed the assurance and governance in place to support representations to regulators. Reviewed attestations requiring Board level approval, including a US Volcker Rule attestation and representations relating to controls in place within the FX business.
Financial Crime	<ul style="list-style-type: none"> Discussed the Group Money Laundering Reporting Officer's (MLRO) Annual Report 2015 and recommended it to the Board.
Other conduct risks	<p>The BRC also reviewed reports in relation to:</p> <ul style="list-style-type: none"> the European Markets Infrastructure and Markets in Financial Instruments regulations; progress to meet the requirements of the European Deposit Guarantee Scheme; RBS's and NatWest's compliance with the FCA client assets rules (CASS) and recommended the reports to the Board for approval; the New Product Risk Assessment (NPRA) process; complaints performance improvement; and individual regulatory investigations and remediation.
Risk and Conduct & Regulatory Affairs	
	<ul style="list-style-type: none"> Oversaw the performance and the independence of the Risk and Compliance functions, through undertaking bi-annual visits to Risk and Conduct & Regulatory Affairs during which the BRC considered people and succession planning, budget and the resource capability of both functions. Received quarterly dashboards of key management information covering headcount, comparisons to budget, high performing staff turnover and

	<p>outputs of staff surveys.</p> <ul style="list-style-type: none"> Assessed the performance of the Chief Risk Officer and Chief Conduct & Regulatory Affairs Officer.
<p>Accountability and Remuneration</p>	
	<p>Continued to provide oversight over the risk dimension of performance and remuneration arrangements, working closely with the Group Performance and Remuneration Committee. The Report of the Group Performance and Remuneration Committee on pages 101 to 149 includes further detail on how risk is taken into account in remuneration decisions. Key matters considered by the BRC included:</p> <ul style="list-style-type: none"> accountability recommendations in respect of significant material events; the risk and control objectives of members and attendees of the RBS's Executive Committee, with additional focus on underlying objectives for the Chief Risk Officer and the Chief Conduct & Regulatory Affairs Officer; an assessment of the risk/conduct performance of members and attendees of RBS's Executive Committee, with recommendations made to the Group Performance and Remuneration Committee as appropriate to inform its decision on pay and awards; an assessment of the risk/conduct performance of the RBS and its businesses, with recommendations made to the Group Performance and Remuneration Committee to inform its decision on adjustments to the annual bonus pools; performance conditions for the RBS's Long Term Incentive Plans and assessment of proposed vesting levels to ensure risk management/conduct performance is fairly reflected in vesting outcomes; and the proposed Executive Director Future Remuneration Policy as detailed on pages 113 to 119 from a risk and control perspective.

Baroness Noakes
 Chairman of the Board Risk Committee

Report of the Sustainable Banking Committee

Letter from Penny Hughes

Chairman of the Sustainable Banking Committee

“Our brand strategy reflects our drive to build a customer focused bank which our people can be proud of and our customers trust”

Dear Shareholder,

The Sustainable Banking Committee (SBC) is primarily concerned with overseeing, supporting and challenging actions taken by management to promote RBS as a sustainable business, capable of generating long term value for its stakeholders.

Despite a challenging year for the Bank in general, we have made progress on our agenda to build a more sustainable bank. The SBC continues to focus on culture, customers, people, brand & communications and environmental, social and ethical (ESE) issues. Engagement with management continues to be good and we have listened, learnt and acted on challenges and ideas from stakeholders we have spoken to throughout the year.

Our ambition to be number one for customer service, trust and advocacy in each of our chosen business areas remains unchanged. Delivering this ambition depends on our ability to demonstrate beyond question that we are a responsible company, that has learnt from the past, doing business in a sustainable way.

We will earn trust by putting customers first, making RBS a great place to work, supporting our communities, and being mindful of environmental impacts.

Report of the Sustainable Banking Committee

Progress made in 2016 includes:

- furthering the integration of sustainable banking into our core businesses and increasing transparency of this with the integration of our previously separate Sustainability Report into the main Annual Report;
- encouraging the development of the sustainable banking strategy, meeting the needs of all our stakeholders whilst aligning with RBS's overall strategy;
- overseeing how management is embedding culture and Determined to lead standards within our employee value proposition;
- overseeing the brand strategy to reposition Royal Bank of Scotland, NatWest and Ulster Bank for customers;
- posing and addressing key challenges with management such as the provision of free banking, supporting enterprise and supporting companies or individuals to seek alternative finance when RBS is unable to help;
- challenging management's efforts on meeting the needs of particular customer groups such as high net worth individuals and small and medium sized enterprises;
- ongoing commitment to both internal and external stakeholder engagement through face to face sessions and visits to customer facing businesses;
- reviewing our progress on environmental targets; and
- reviewing complaint handling and the strategy to identify root cause and resolution.

The efforts to build a responsible and sustainable business are being recognised through independent and external measures. We retained our place in the Dow Jones World Sustainability Index with our highest score to date (84) and achieved a leadership category listing in the Carbon Disclosure Project Index (A-).

We are also increasingly being recognised as an attractive employer. RBS was shortlisted at the 2016 National Diversity Awards as well as being shortlisted for Outstanding Employee Network Group of the Year in the European Diversity Awards. We recently came 13th in Stonewall's top 100 employers, up from 32nd last year.

Report of the Sustainable Banking Committee

The SBC has also seen tangible evidence of good customer outcomes. RBS is the largest lender to small and medium sized business in the UK and gross lending to our Personal and Business Banking customers is up 29% year on year. Building financial capability remains a focus for RBS with financial health checks available to Personal and Business Banking customers. MoneySense, our flagship financial education programme for

5 –18 year-olds, also continues to grow. Raising awareness of the importance of financial education was supported by a NatWest national advertising campaign last year, along with a new commitment to reach another one million young people with MoneySense by the end of 2018.

The repositioning of our primary customer brands was a significant moment for RBS. The SBC played a role in overseeing and challenging the brand strategy which plays an important role in building a customer focused bank which our people can be proud of and our customers trust.

Over a number of years RBS has experienced a shift by setting out a clear and simple purpose and defining our Values. We have restructured our business, made progress on our service proposition but acknowledge there is more to do, introduced the YES Check and made changes to the way we do some of the fundamentals of banking. The SBC will continue to operate at a strategic level to support management on its journey to reaching our ambition to becoming a more sustainable and truly customer focused bank.

My thanks go to the SBC members and attendees for their contribution and support through another challenging year.

Penny Hughes

Chairman of the Sustainable Banking Committee

23 February 2017

Report of the Sustainable Banking Committee

Report of the Sustainable Banking Committee

Meetings

The Sustainable Banking Committee held six scheduled Committee meetings in 2016 which were attended by the Chief Executive, Chairman, senior representatives from the customer-facing franchises as well as Human Resources, Sustainability, Risk, Conduct & Regulatory Affairs, Communications & Marketing, and Strategy.

Stakeholder engagement sessions

In addition to ongoing engagement which takes place across our business each day, the Committee has run a proactive engagement programme since 2011 to which we invite external stakeholders to meet with, and challenge, the most senior decision makers in RBS.

We have met with over 50 different groups of NGOs, civil society groups, government bodies, consumer groups and investors in this way and the purpose is to listen and understand where RBS could do more. These discussions help shape future policies, influence strategic priorities and inform decision making across RBS on our journey to becoming a customer focused bank.

In 2016 we held four such stakeholder engagement sessions covering the following topics:

- how to serve and support scale-up, high growth customers beyond start up stage;
- defining the vision of sustainable banking for RBS and taking a bolder, more integrated approach to delivering it;
- financial capability and the key concerns and challenges faced by Irish consumers in relation to their personal finances; and
- what does sustainable banking mean for our culture, our behaviour, our people and our customers?

Following the sessions we identify opportunities for follow up and further engagement. In December, we welcomed back a number of our past guests to share the progress made and invited further challenge and alternative perspectives.

As part of its programme of stakeholder engagement, members of the SBC undertook a visit to Personal and Business Banking which provided valuable insight to the SBC. There are plans for more frontline customer engagement in 2017.

Membership

The Sustainable Banking Committee comprises four independent non-executive directors. The Chairman and members of the SBC, together with their attendance at meetings, are shown below.

	Attended/ scheduled
Penny Hughes (Chairman)	6/6
Alison Davis	6/6
Robert Gillespie	6/6
Mike Rogers (1)	5/5

Note:

(1) Appointed to the committee on 25 April 2016

Report of the Sustainable Banking Committee

Performance evaluation

The annual review of the effectiveness of the Board and its senior Committees, including the Sustainable Banking Committee, was conducted internally in 2016. The Committee has considered and discussed the outcomes of this evaluation and accepts the findings. Overall the review concluded that the Sustainable Banking Committee continued to operate effectively.

In particular, during 2016 the Committee focused on being more forward looking and strategic with its time, focusing on priorities of culture, people, customer, brand & communications and ESE issues. The stakeholder engagement sessions are regarded as a valuable opportunity to learn how well RBS is aligned to external sustainability priorities. During 2017, the Committee will continue to focus on these priorities, and ensure it undertakes a proactive programme of stakeholder engagement.

The outcomes of the evaluation have been reported to the Board and the Committee will track progress during the year.

Role and responsibilities of the Sustainable Banking Committee

Authority is delegated to the Sustainable Banking Committee by the Board and the SBC reports and makes recommendations to the Board as required. The terms of reference of the SBC are available on rbs.com and these are reviewed annually and approved by the Board. A report on the activities of the SBC in fulfilling its responsibilities is provided to the Board following each meeting. The principal responsibilities of the SBC are shown below:

Culture

- receive updates on actions to drive the Board approved culture;
- oversee progress on standards, competence and capability;

People

- oversee the Employee Value Proposition and initiatives to ensure a diverse workforce which feels clear, capable and motivated;

Customer

- oversee customer centricity priorities and how RBS is supporting and engaging with key customer segments;
- oversee progress being made to achieve the long term target of being number one for customer service, trust and advocacy in each of our chosen businesses;

Brand & Communications

- oversee the brand strategy in moving to a bank of brands approach focusing on building equity in our customer brands;
- oversee actions being taken by management to manage RBS's reputation;

ESE Issues

- receive reports on managing ESE risk;
- consider RBS's environmental footprint and how RBS is operating in its communities; and
- consider activities being undertaken to support the "green" economy

Directors' remuneration report

**Annual statement from Sandy Crombie
Chairman of the Group Performance and Remuneration Committee**

“the focus is on meaningful, long-term shareholding as the mechanism for achieving alignment with shareholders”

Dear Shareholder,

I am pleased to set out the Directors' Remuneration Report for 2016. This report describes the pay decisions that we took for the last financial year and the new remuneration policy that is being proposed to shareholders for approval at the forthcoming AGM.

Policy developments in 2016

I know that views on executive pay are continuing to evolve. The government is consulting on areas of reform aimed at strengthening the UK's corporate governance arrangements. A separate industry-led Executive Remuneration Working Group has also set out areas where it is believed that improvement is needed to restore trust in current remuneration practices. RBS continues to contribute to consultations aimed at strengthening governance and pay arrangements.

It is clear many shareholders value simple remuneration structures. The Committee spent a great deal of time considering alternative constructs and how these would align to RBS's cultural aims on pay. The proposed new policy represents a significant change and has two principal aims: to produce greater alignment with shareholders and to discourage the potential for excessive risk taking.

The design focuses on creating alignment by ensuring executives build up larger shareholdings and retain them for longer. This intent is being reinforced by a significant increase in shareholding requirements from 250% to 400% of salary for the Chief Executive and from 125% to 250% for the Chief Financial Officer. The new policy also encourages sustainable long-term performance by having a lower maximum long-term incentive award level, but with performance assessed on factors that the executive would reasonably be expected to achieve, creating a less leveraged construct and encouraging safe and secure growth. The maximum potential long-term incentive award is being reduced by around 40% for the Chief Executive and by around 30% for the Chief Financial Officer.

Directors' remuneration report

It is also proposed that pro rating of long-term incentive awards will not apply for good leavers under the new policy. The Committee recognises that time pro rating is a common preference for some investors and its removal has only been included after considerable thought, and after consulting with a number of shareholders. The intention is to create high levels of shareholding that persist for a period after leaving and pro rating of awards reduces this alignment. RBS is unusual in having no annual bonus element of pay for executive directors and bonus awards would typically not be subject to pro rating. Furthermore, the policy aims broadly to maintain the expected value of pay to executive directors over their typical tenure in role. This aim is achieved through a combination of reduced award levels, performance factors that are designed to be more within the control of management and the removal of pro rating for good leavers. The circumstances that would be considered for good leaver treatment are set out in more detail in this report.

No change is proposed to the quantum of fixed pay, although fixed share allowances will be released over three, rather than five years to create a more even release of value across fixed and variable pay. A further development is that the pension allowance under the recruitment policy for new executive directors will be reduced from 35% to 25%, bringing the rate closer to that of the wider employee population.

In summary, the focus is on meaningful long-term shareholding as the mechanism for achieving alignment with shareholders. To date, the proposed remuneration policy has been well received in discussions with our largest shareholders.

Considerations for other employees

The Committee recognises that RBS will only achieve its ambitions if all employees are engaged, motivated and supported by appropriate remuneration structures. Average salaries for our UK employees have increased by 7.5% over the last three years while executive directors' salaries have been static. Our rates of pay continue to exceed the living wage and we have removed sales incentives for front line retail staff and increased fixed pay so that they can concentrate on providing great customer service.

Financial performance in 2016

Some important milestones were met in 2016. RBS was able to retire the Dividend Access Share in March and this was a key part in normalising RBS's capital structure. Good progress has also been made in resolving a number of major legacy and conduct issues although these continue to affect financial results. Variable pay across RBS is subject to a robust performance assessment process which allows outcomes to be adjusted if risk management or conduct has fallen short of the required standard.

The restructuring of the business has continued during 2016 but there is a strong business at the heart of RBS, capable of delivering sustainable returns for shareholders. The franchises have performed well with adjusted operating profits of £4,249 million for 2016. The Committee's decisions aim to strike a balance in rewarding employees for good performance but recognising RBS is not yet in the position that it needs to be.

Directors' remuneration report

Pay decisions for 2016

The Group bonus pool has fallen from £373 million in 2015 to £343 million in 2016, a reduction of 8%. Over 93% of this pool will be paid to those below the executive level. Where employees do receive a bonus, the average amounts remain relatively modest with 50% of employees receiving £2,000 or less and a further 23% receiving less than £5,000. The amount of any immediate cash bonuses continues to be limited to £2,000.

The report sets out further information and I hope shareholders will support the resolutions on remuneration arrangements at the forthcoming AGM. I am very grateful for the guidance and support provided by my fellow Committee members as well as those who assist the Committee over the year. I would also like to thank shareholders for their constructive input as we discussed how best to shape the remuneration policy for the years ahead.

Sandy Crombie

Chairman of the Group Performance and Remuneration Committee

Directors' remuneration report

Key features of the new remuneration policy for executive directors

Key features	<p>The new policy is focused on the long term, aimed at attracting and keeping the right people for RBS.</p> <p>The intent is a policy that aligns executives with shareholders predominantly through holding shares rather than formulaic and unpredictable performance conditions.</p> <p>As a result, shareholding requirements will be significantly increased under the new policy and performance testing of LTI awards will be based on factors that executive directors would reasonably be expected to achieve, encouraging executives to operate within risk appetite.</p> <p>The maximum quantum will be reduced in line with a growing consensus on the need to restrain executive pay.</p> <p>The intention is to create a construct that is more highly valued by executives, by assessing performance on factors considered to be more within the control of management and therefore providing greater certainty of outcomes.</p> <p>Combined with the removal of pro rating for good leavers, the expected value of remuneration delivered to executive directors over time is broadly maintained.</p> <p>Longer vesting and retention periods will apply to LTI awards, with the release of shares over an eight year period, helping to ensure decisions and outcomes reflect a truly long-term timeframe and are even further aligned with the experience of shareholders.</p>
---------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

How will performance assessment work under the proposed LTI construct?

For each of the core performance areas of Finance, Risk & Operations, Customers and our People, the Committee will consider whether the executive director has over the relevant period achieved what would

reasonably have been expected in the circumstances. The Committee will review performance against factors (examples are set out below) relevant to RBS's strategic objectives in each area, but will apply its judgement without reference to formulaic targets. Performance will be assessed taking into account circumstances applying over the period of assessment which may have affected the achievability of performance objectives. The majority of the performance variation will take place under a pre-grant test, with a pre-vest assessment representing a final check that, taking all circumstances into account, overall performance has been satisfactory. The achievement of reasonable or 'target' performance expectations will deliver full, or nearly full, payout of the LTI awards, reflecting the significantly reduced level of awards.

Directors' remuneration report

Each year, the performance factors will be determined in light of RBS's priorities for that year. The first awards will not be made under the proposed LTI construct until early 2018 and further details will be disclosed in the 2017 annual remuneration report.

The pre-grant test will constitute a collective and individual view of performance over the prior year. No deduction will be made for target performance. Prior to vesting, a pre-vest test will be based on an assessment of collective performance for the year for which the award was made, knowing 'what we know now', and taking into account all circumstances. This is intended to carry a high degree of certainty, and to vest as long as a threshold level of sustainable performance has been delivered.

The aim is to reward sustained performance and, following the application of both the pre-grant and pre-vest assessment, executive directors should expect to receive 80% of the award on average over time provided that they deliver on the performance factors as determined by the Committee. Awards may be reduced, potentially down to zero, further to the application of either the pre-grant or pre-vest tests where there has been significant underperformance or risk management failings.

Directors' remuneration report

Comparison of the current and new remuneration policy for executive directors

Fixed remuneration - overall, no change in quantum at this time

Current policy – **Salary** £1,000,000 for the Chief Executive £800,000 for the Chief Financial Officer **Fixed share allowance** 100% of salary, delivered in shares released over a five year retention period. **Pension allowance** 35% of salary, delivered in cash. **Standard benefit funding**

£26,250

New policy - No changes to salary levels are proposed at this time. No change to the fixed share allowance amount but shares will be released over a three year retention period, to create a more even release structure between fixed and variable pay. No change to pension allowance for current executive directors. Policy for new executive directors to be reduced to 25% of salary. No changes to standard benefit funding level.

Variable remuneration - significant reduction in maximum potential

Current policy - **Long-term incentive award** Underlying award of 400% of salary but with pay-out capped by regulatory maximum which for performance year 2016 equates to 287% of salary. Pre-vest performance measures based on four categories: Economic Profit, Relative TSR, Safe & Secure Bank and Customers & People together with a risk and conduct underpin. A three year performance period and the award vests in equal amounts in years four and five. A six month retention period applies after vesting and the clawback period is seven years from the date of grant.

New policy - 175% of salary for the current Chief Executive (currently £1.75 million) and 200% of salary for the current Chief Financial Officer (currently £1.6 million). Pre-grant and pre-vest tests, to consider performance in the round, against what would reasonably have been expected in the areas of Finance, Risk & Operations, Customers and our People. Risk & Control and Stakeholder Perception underpins will apply. Extension of the deferral period with vesting taking place in equal amounts over years three to seven. A 12 month retention period applies after vesting. The clawback period is extended to ten years from grant if events are under investigation at the end of the seven year period.

Other elements - better alignment with shareholders

Current policy - **Shareholding requirement** 250% of salary for the Chief Executive 125% of salary for the Chief Financial Officer A period of five years is allowed in which to build up shareholdings to the required level. Any unvested share awards are excluded from the calculation. **Leaver treatment** LTI awards held by

good leavers are normally pro rated based on time served during the performance period

New policy - 400% of salary for the Chief Executive Unvested LTI awards will count towards the requirement once any pre-vest performance has been assessed, three years after grant. The number of unvested shares that count will be reduced to reflect the estimated tax liability arising on vesting. Once shares are free from their respective retention periods, executive directors will be permitted to sell a maximum of 25% of such shares until the requirement is met. It is estimated that it would take a new Chief Executive five years to meet the 400% shareholding requirement. Executive directors will continue to hold significant shareholdings after leaving and a post-employment shareholding requirement is therefore not considered necessary. Depending on leaver circumstances, it would take between three and eight years for an executive director to fully dispose of RBS shares due to the long vesting and retention periods.

Future LTI awards held by good leavers will not be subject to pro rating for time. Removal of pro rating is a key part of the construct in order to achieve the reduction in maximum opportunity while broadly maintaining expected value to executive directors over their typical tenure in role. It also helps to ensure that individuals retain an appropriate long-term focus right up to the point of departure, as well as providing greater shareholder alignment post employment.

Further details on the new remuneration policy and arrangements for the year ahead can be found in the relevant sections of this report.

Directors' remuneration report

Change in maximum remuneration opportunity

Expected target value of remuneration

The new remuneration policy promotes sustainable long-term performance by having a lower maximum LTI award level and performance tests that encourage individuals to operate within risk appetite. The release of shares will extend over an eight year period (vesting over seven years and one year post-vesting retention period), following a year of pre-grant assessment to determine the size of the award.

While the maximum and expected value of pay from a single year's remuneration is being reduced, the policy aims broadly to maintain the expected value of pay to executive directors over their typical tenure in role. The combination of reduced LTI award levels, offset by performance based on factors that the executive would reasonably be expected to achieve and the removal of pro rating for good leavers ensures this aim is achieved.

Timing of remuneration payments – based on the Chief Executive for the 2017 performance year

Directors' remuneration report

Questions and answers on the new remuneration policy

Why are changes being made to the policy at this time?

The current remuneration policy was approved by shareholders at the 2014 AGM for a period of three years and is therefore due for renewal at the 2017 AGM. During 2016, the Committee took the opportunity to assess how the remuneration policy could best fit with RBS's culture and pay philosophy for employees.

What options did the Committee consider?

During 2016, the Committee reviewed the current policy against a range of factors including the latest guidance from shareholders, regulatory requirements, the external environment and wider social considerations in determining executive pay.

Two main options were identified following the review:

- Adopting an alternative LTI construct to replace the current structure, based on reduced maximum quantum but with performance assessed on factors that the executive would reasonably be expected to achieve; or
- Keeping the current construct with changes limited to those required to comply with regulatory requirements.

After consultation with major shareholders, the Committee believes that the alternative LTI construct provides the best fit with RBS's ambitions as well as being strongly aligned to the creation of long-term shareholder value.

What material factors are taken into account when setting remuneration policy?

The intention is to create a remuneration policy that is specific to RBS and its particular circumstances rather than looking to follow standard market practice. The policy aims to reinforce our values and support the delivery of RBS's strategy. The views of shareholders are key in shaping the remuneration policy along with the need to comply with evolving regulatory requirements. The Committee also looks to ensure consistency, where possible, between the executive director policy and pay proposals for the broader employee population. This includes less reliance on variable pay and the use of deferral in shares, malus and clawback to ensure that any variable pay that is awarded is aligned with long-term performance.

What are the key features of the new policy?

RBS-driven features:

- Maximum potential LTI awards will be reduced;
- Performance assessment is based on factors considered to be more within the control of management;
- The policy encourages executive directors to operate within risk appetite and deliver safe and secure growth;
- Shareholding requirements will be increased;
- Fixed share allowances will be released over a three year rather than a five year retention period, in recognition of the impact of the extended deferral period for LTI awards;
- LTI awards held by executive directors who leave in 'good leaver' circumstances will not be subject to time pro rating, helping to maintain expected value and increasing post employment shareholder alignment; and
- The pension allowance under the recruitment policy for new executive directors will be reduced from 35% to 25% of salary, with a corresponding increase to other elements of fixed pay.

Directors' remuneration report

Regulatory-driven features:

- Pre-grant performance tests will be introduced;
- The pre-grant performance test has the effect of preventing the grant of an LTI award in the year of joining;
- The deferral period will be extended with awards vesting between years three to seven from the date of grant;
- The retention period that applies after the vesting date will be increased from six months to twelve months; and
- The clawback period is extended to ten years from grant if events are still under investigation after seven years.

Why will future LTI awards not be subject to pro rating?

The new policy takes into account the significant reduction in maximum opportunity and the regulatory restriction which has the effect of preventing the granting of LTI awards in the first year of employment. The Committee believes that removal of time pro rating for good leavers is fair in order to broadly maintain the expected value of pay over time and is appropriate in RBS's particular circumstances.

RBS is unusual in having no annual bonus element of pay and bonus awards would typically not be subject to pro rating. Under an LTI only construct, removal of pro rating helps to ensure that executive directors are motivated and retain an appropriate long-term focus right up to the point of departure, and also provides greater shareholder alignment and continued accountability for decisions post employment. The departing good leaver retains exposure to RBS shares for up to eight years post leaving due to the long vesting and retention periods that continue to apply.

The removal of pro rating places additional focus on good leaver definitions and further details on the circumstances that will qualify for good leaver treatment are set out on page 120.

Directors' remuneration report

When will the new policy be implemented?

Subject to approval from shareholders, the new policy will be effective from the date of the AGM. The changes will be implemented in a transitional period from 2017 to 2018. The fixed share allowance for 2017 will be awarded after the AGM, to be released over a three year retention period, and the first LTI awards under the new policy will be made in early 2018.

How will LTI awards be made in 2017?

The LTI award to be made in March 2017, for the 2016 performance year, will be the last award made under the existing remuneration policy. This award will include a longer deferral period, with 50% of the award vesting after four years and the remaining 50% vesting in years five to seven, along with an extended clawback period in line with regulatory requirements. Further details for 2017 can be found on page 122 and a summary of the transitional arrangements is set out below.

Awarded in 2017	Awarded in 2018
2017 salary	2018 salary
2017 pension	2018 pension
2017 fixed share allowance (released over 2018-2020)	2018 fixed share allowance (released over 2019-2021)
Current policy LTI for 2016 performance year (vests 50% in 2021, 50% split over 2022-2024)	New policy LTI for 2017 performance year (vests pro-rata over 2021-2025)

Wider employee considerations

To provide the best possible customer service, RBS is building a strong, simple and fair bank. Performance and pay management is part of that process.

RBS needs to build an engaged and inclusive workforce, capable of providing excellent customer service.

- Senior leaders are subject to individual and collective performance assessment based on factors which include financial strength and customer service.

- RBS has set a target for each Executive Committee member to have at least 30% women in senior roles (the top three leadership layers) by 2020.
- Gender targets are one of three People measures, together with engagement and leadership, which are considered when assessing performance for some of our senior leaders.
- Employees are motivated by good leadership and almost 16,000 employees undertook our 'Determined to Lead' leadership programme in 2016.
- We have now trained over 60% of employees at all levels of RBS to tackle unconscious bias, helping to remove bias in our recruitment processes, build more inclusive teams, make well informed decisions and better understand and serve our customers.
- In October 2016 we launched Service Excellence, our new customer service programme with over 34,000 employees receiving training so far.
- Professional Standards Frameworks set out the relevant knowledge, skills, and behaviours expected of RBS employees to embed good conduct.
- While employee engagement has been impacted during 2016 by the ongoing restructuring of the business, it remains higher than when we set out our strategic plan in 2014.

Directors' remuneration report

RBS is simplifying how employees get paid.

- In Personal & Business Banking, pay for frontline roles is linked to supporting customers, rather than short-term incentive schemes, and this was extended to employees in Ulster Bank with effect from 1 January 2017.
- Our clerical population in the UK and Republic of Ireland now receives only fixed pay, making pay arrangements easier to understand.
- Salary ranges have been updated to reflect the external market and to ensure that people doing the same or similar roles are paid more consistently.

The Committee must ensure that good behaviours are encouraged and that conduct issues are accounted for.

- The policy aims to pay people appropriately for their work and commitment to serve customers well.
- RBS continues to operate as a fully accredited living wage employer.
- If conduct falls short of the standard expected, the Committee can adjust variable pay awards through malus (reduction or cancellation of awards prior to payment) or clawback (recovering awards that have already been paid).
- Further information on the accountability review process under which malus and clawback can be applied is set out later in this report.
- The Committee aims to strike a fair balance between adjustments to variable pay as a targeted measure to change behaviour whilst not disproportionately penalising employees who are not directly responsible for events.
- As set out below, bonuses have continued to shrink at RBS, aligned with the restructuring that has taken place and the actions taken by the Committee.
- Pay levels reflect the progress made in 2016 and the bank that RBS is becoming, while ensuring our people are fairly and appropriately rewarded for the work they do.

Bonus pool reduced steadily from 2010 to 2016

Directors' Remuneration Policy

Directors' Remuneration Policy

A new Directors' Remuneration Policy is being proposed to shareholders at the forthcoming Annual General Meeting (AGM). Subject to approval being received, the policy will be effective from the date of the 2017 AGM. The policy will apply for three years, until the AGM in 2020, unless changes are required in which case a revised policy will be submitted to shareholders for approval. The objective of the policy is to support the business strategy and promote the long-term success of RBS.

Fixed pay elements for current executive directors

Fixed pay elements are intended to provide a level of competitive remuneration for performing the role. The intention is to have less reliance on variable pay and thus discourage excessive risk-taking.

Purpose and link to strategy

- **Salary** To aid recruitment and retention of high performing individuals whilst paying no more than is necessary. To provide a competitive level of fixed cash remuneration, reflecting the skills and experience required.
- **Fixed share allowance** To provide fixed pay that reflects the skills and experience required and responsibilities for the role. This will be delivered in shares subject to a retention period.
- **Benefits** To provide a range of flexible and market competitive benefits that are valued and assist key individuals in carrying out their duties effectively.
- **Pension** To encourage planning for retirement and long-term savings.

Operation

- **Salary** Paid monthly and reviewed annually. The rates for 2017 are unchanged: Chief Executive - £1,000,000 Chief Financial Officer - £800,000

Further details on remuneration arrangements for the year ahead are set out in the annual report on remuneration.

- **Fixed share allowance** A fixed allowance paid entirely in shares. Individuals receive shares that vest immediately subject to any deductions required for tax purposes and a retention period will apply. Shares will be released from the retention period in equal tranches over a three year period. The fixed share allowance will broadly be paid in arrears, currently in two instalments per year(1). The fixed share allowance is not pensionable.

- **Benefits** A set level of funding is provided and executive directors can select from a range of standard benefits including, but not limited to: company car, private medical cover, life assurance, critical illness insurance.

In addition, executive directors are entitled to travel assistance in connection with company business including the use of a car and driver. RBS will meet the cost of any tax due on the benefit. On rare occasions where they are accompanied by their spouse / partner to business events, RBS may also meet the costs and any associated tax liability. Executive directors are also entitled to holiday and sick pay.

Further benefits including, but not limited to, relocation costs (e.g. tax advice, shipment and storage facilities, housing and flight allowances and payment of legal fees) may be offered in line with market practice. RBS may also put in place certain security arrangements for executive directors where that is deemed appropriate.

- **Pension** Provision of a monthly cash pension allowance based on a percentage of salary. Opportunity to use the cash to participate in a defined contribution pension scheme.

Maximum potential value

- **Salary** Determined annually. Any future salary increases will be considered against peer companies and will not normally be greater than the average salary increase for RBS employees over the period of the policy. Other than in exceptional circumstances, the salary will not increase by more than 15% over the course of this policy.
- **Fixed share allowance** An award of shares with an annual value of up to 100% of salary at the time of award, or such higher amount which represents such value rounded up to the nearest whole share.
- **Benefits** Set level of funding for standard benefits (currently £26,250) which is subject to review.

The total value of benefits provided is disclosed each year in the annual report on remuneration.

The maximum potential value of benefits will depend on the type of benefit and cost of its provision, which will vary according to market rates

- **Pension** Pension allowance for current executive directors of 35% of salary.

Note:

(1) The company believes that delivery in shares is the most appropriate construct for a fixed allowance to executive directors, qualifying as fixed remuneration for regulatory requirements. If regulatory requirements emerge that prohibit allowances being delivered in shares, or deem that such allowances will not qualify as fixed remuneration, then RBS reserves the right to provide the value of the allowance in cash instead in order to comply with the requirements.

113

Directors' Remuneration Policy

Variable pay

Variable pay is intended to incentivise the delivery of sustainable long-term performance, with rewards aligned to shareholders' interests and adjusted for risk. The first awards under the new policy will be made in early 2018.

Element of pay Variable pay award (long-term incentive)

Purpose and link to strategy To support a culture where individuals are rewarded for the delivery of sustained, target performance, taking into account RBS's strategic objectives.

Performance will include a range of financial and non-financial factors to encourage long-term value creation for shareholders.

Delivery in shares with the ability to apply malus adjustments and clawback further supports longer-term alignment with shareholders' interests.

Operation Any variable pay awarded will be delivered as a long-term incentive, paid in shares and subject to performance assessment and employment conditions.

Awards will be subject to deferral, malus, clawback, post-vesting retention periods and any other terms as required by regulators.

A one year pre-grant performance period will apply and awards will also be subject to a pre-vest performance assessment at the end of a three year period, with vesting taking place from years three to seven after grant.

Awards are subject to malus prior to vesting and clawback post vesting. Clawback applies for seven years from the date of award, extended to ten years if events are under investigation at the end of the normal seven-year clawback period. The post-vesting retention period will be 12 months.

The award will be delivered under the RBS 2014 Employee Share Plan, as approved by shareholders at the 2014 AGM.

Maximum potential value The maximum award for current directors is 175% of salary for the Chief Executive and 200% of salary for the Chief Financial Officer, or such higher amount which represents such value rounded up to the nearest whole share.

Awards are also subject to the regulatory requirement that limits variable pay to the level of fixed pay and can be valued in line with EBA rules, including any available discount for long-term deferral.

The regulatory limit is currently higher than the level under the proposed new policy.

Prior performance will be taken into account when determining the value of the award at the time of grant.

The vesting level of the award can vary between 0% and 100% dependent on the assessment of performance.

Performance assessment Performance will be assessed in the areas of Finance, Risk & Operations, Customers and our People to determine whether the executive has achieved what would reasonably have been expected in the circumstances.

The Committee will consider relevant factors (e.g. CET1 ratio under the Finance heading and others relating to progress in the areas of Risk & Operations, Customers and People objectives) that are relevant to RBS's strategic aims but will apply its judgement for the most part without reference to formulaic targets.

Risk & Control and Stakeholder Perception underpins will apply which may lead to downwards adjustment.

Performance will be assessed in the round. The majority of the performance variation is expected to take place under the pre-grant test, with the pre-vest assessment representing a final check that, taking all circumstances into account, overall performance has been satisfactory.

The Committee has discretion to vary the performance factors in appropriate circumstances.

Further details on the performance factors and assessment will be set out in the annual remuneration report for the relevant

Notes to policy table

- The performance factors for variable pay awards have been chosen to reward sustained performance and are complemented by increased long-term shareholding requirements. Any targets will be set in line with RBS's strategic priorities.
- The fixed share allowance is part of fixed remuneration and is therefore not subject to any performance adjustment.
- Changes have been made under the proposed policy to lower the maximum quantum of LTI awards combined with performance factors considered to be more within the control of management and increased shareholding requirements. Further details on the changes can be found on page 105 to 112.
- Remuneration for executive directors broadly follows the policy for all employees but generally with a higher element of variable pay and greater delivery in shares, held for the long term to ensure appropriate alignment with the interests of shareholders.
- Further details on the remuneration policy for all employees, including details on how malus and clawback can be applied, can be found on pages 144 to 146.

Directors' Remuneration Policy

Other pay elements

Element of pay Shareholding requirements

Purpose and link to strategy To ensure executive directors build and continue to hold a significant shareholding to align with the interests of shareholders

Operation Executive directors are required to build up a shareholding equivalent to a percentage of salary. Unvested shares from LTI awards will count on a net of tax basis towards meeting the shareholding requirement once the pre-vest performance assessment has taken place, at the end of the three year period.

Once the respective retention periods have passed, directors are permitted to dispose of up to 25% of the net of tax shares received until the shareholding requirement is met. Any shares purchased voluntarily will be excluded from this sale restriction.

Maximum potential value Chief Executive 400% of salary Chief Financial Officer 250% of salary Requirements may be reviewed in future but are not expected to be reduced

Element of pay All-employee share plans

Purpose and link to strategy An opportunity to acquire RBS shares.

Operation Opportunity to elect to contribute from salary and acquire shares under any of the company's all-employee share plans in operation from time to time, such as the RBS Sharesave and Buy As You Earn Plan. These plans are not subject to performance conditions.

Maximum potential value Statutory limits imposed by HMRC or the applicable limits under the relevant plans.

Element of pay All-employee share plans

Purpose and link to strategy To ensure RBS can continue to honour payments due to executive directors.

Operation In approving this policy, authority is given to honour any previous commitments or arrangements entered into with current or former directors, including share awards granted under the 2014 Employee Share Plan. LTI awards under the existing policy will normally vest over a three to seven year period subject to the achievement of relevant performance conditions, based on Economic Profit, Relative Total Shareholder Return, Safe & Secure Bank and Customers & People measures. Six month post-vesting

retention periods and service requirements also apply. Further details of the value and terms of the awards can be found in the annual remuneration reports for the relevant years. Authority is also given to honour arrangements agreed for an employee prior to appointment as an executive director that may have different terms or performance conditions.

Maximum potential value In line with existing commitments and arrangements.

Directors' Remuneration Policy

Remuneration scenarios for current executive directors under the new remuneration policy

Notes:

(1) The charts above are for illustration only and do not take into account any share price movement over the period.

(2) The benefits figure includes standard benefit funding as outlined in the policy but excludes exceptional or business related items such as relocation allowances and travel assistance in connection with company business, the value of which will be disclosed in the total remuneration table each year.

(3) Subject to the performance assessment, LTI awards will vest between years three to seven from award and be subject to a 12 month retention period post vesting.

(4) The total maximum opportunity represents a 20% reduction for the Chief Executive and a 17% reduction for the Chief Financial Officer from that available under the current policy. The variable pay element is approximately 40% lower for the Chief Executive and 30% lower for the Chief Financial Officer than the current policy.

(5) The relatively minor difference between expected and maximum shown above is the consequence of a deliberate move to a less leveraged remuneration construct. The expected value has been calculated at 80% of maximum. The policy has a strong focus on long-term shareholding to create alignment with shareholders along with LTI awards assessed on factors that executive directors would reasonably be expected to achieve, encouraging performance within risk appetite.

Directors' Remuneration Policy**Remuneration for the Chairman and non-executive directors**

Element of pay	Purpose and link to strategy	Operation	Maximum potential value
Fees	To provide a competitive level of fixed remuneration that reflects the skills, experience and time commitment required for the role.	<p>Fees are paid monthly in cash. The Board retains discretion to pay fees in shares as well as cash.</p> <p>The level of remuneration reflects the responsibility and time commitment required and the level of fees paid to directors of comparable major UK companies.</p> <p>Fees are reviewed regularly. Additional fees may be paid for new Board Committees provided these are not greater than fees payable for the existing Board Committees as detailed in the annual report on remuneration.</p> <p>No variable pay is provided so that the Chairman and non-executive directors can maintain appropriate independence, focus on long-term decision making and constructively challenge performance of the executive directors.</p>	<p>Following a review of the size of the Board against comparable companies and the relative time commitment for individual non-executive directors at RBS, it is proposed to increase the basic Board fee for non-executive directors in 2017 from the date of the AGM. This would be the first change in the basic Board fee since the policy was last approved in 2014. There is no change at this time to the Chairman's composite fee.</p> <p>The rates for the year ahead are set out in the annual report on remuneration.</p> <p>Any future increases to fees will be considered against fees paid to directors of comparable companies and will not normally be greater than the average inflation rate over the period under review, taking into account that any change in responsibilities, role or time commitment may merit a larger increase. Other than in exceptional circumstances, fees will not increase by more than 15% over the course of this policy.</p>

Benefits	To provide a level of benefits in line with market practice.	<p>Reimbursement of reasonable out-of-pocket expenses incurred in connection with the performance of duties.</p> <p>The Chairman and non-executive directors are entitled to travel assistance in connection with company business including the use of a car and driver. RBS will meet the cost of any tax due on the benefit. On rare occasions where they are accompanied by their spouse / partner to business events, RBS may also meet the costs and any associated tax liability. Other benefits may be offered in line with market practice.</p> <p>The Chairman also receives private medical cover.</p>	The value of the private medical cover provided to the Chairman and any other benefits will be in line with market rates and disclosed in the annual report on remuneration.
----------	--------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Discretion

The Committee has certain discretionary powers under the company's employee share plan rules. For example, the Committee has discretion to determine whether an individual would qualify as a good leaver on departure and also to decide that awards held by good leavers should vest earlier than the normal vesting date. Such discretions would only be used to ensure a fair outcome for the director and for shareholders, taking into account the circumstances of departure, the performance of the director and the need for an orderly transition. If discretion is applied in these circumstances then it will be disclosed.

Further discretions include the ability to: treat LTI awards in a range of ways in the event of a change of control, including the ability for LTI awards to be exchanged for new awards; change any performance measures, targets, and to adjust such awards if major events occur (for example transaction and capital raisings); and make administrative changes to the plan rules. In addition, the Committee retains discretion to apply malus and clawback to LTI awards. When assessing performance, the Committee can also adjust the number of shares that are received under LTI awards through the application of underpins in appropriate circumstances.

The Committee also retains the discretion to make reasonable and proportionate changes to the Directors' Remuneration Policy in order to respond to changing legal or regulatory requirements or guidelines (including but not limited to any PRA or FCA revisions to their remuneration rules and the EBA

remuneration guidelines). Where proposed changes are considered to be material, the Committee will consult with RBS's major shareholders.

Directors' Remuneration Policy

Recruitment remuneration policy

- RBS considers both internal and external candidates and assesses the skills and experience required for each role. Pay is generally set at no more than is required to attract the most suitable candidate for the role;
- The policy on the recruitment of new directors aims to be competitive and to structure pay in line with the framework applicable to current directors, based on the elements of pay detailed in the policy table, recognising that some adjustment to quantum within that framework may be necessary to secure the preferred candidate;
- The pension allowance for new executive directors will be reduced from 35% to 25% of salary, to bring the rate more in line with that of other employees, with a corresponding increase to other elements of fixed pay;
- Consideration will be given to the skills and experience held by the individual being recruited, as well as the incumbent's position;
- In the event of an internal promotion, existing contractual commitments can continue to be honoured;
- A buy-out policy exists to replace awards forfeited or payments foregone. The buy-out policy is in line with regulatory requirements, including the PRA rules that apply to buy-outs concluded on or after 1 January 2017;
- The Committee will minimise buy-outs wherever possible and ensure they are no more generous than, and on substantially similar terms to, the original awards or payments they are replacing. No sign-on awards or other payments will be offered on joining;
- Any awards granted following the recruitment of a candidate may be made under the company's employee share plans from time to time or under the relevant provisions in the Listing Rules and will need to comply with regulatory requirements. Full details will be disclosed in the next remuneration report following recruitment; and
- The maximum level of variable pay which may be granted to new executive directors will be guided by, but not limited to, arrangements for existing executive directors and in any event will not be more than one times the level of fixed pay, valued according to EBA rules. The maximum level excludes any buy-out arrangements.

Other directorships

Agreement from the Board must be sought before directors accept any additional roles outside of RBS. Procedures are in place to make sure that regulatory limits on the number of directorships held are complied with. The Board would also consider whether it was appropriate for executive directors to retain any remuneration receivable in respect of any external directorships, taking into account the nature of the

appointment. Neither of the current executive directors holds a non-executive director role at any other company at this time. Details of the directorships held by other directors can be found in the biographies section of the corporate governance report.

Directors' Remuneration Policy

Consideration of employment conditions elsewhere in the company

The Committee retains oversight of the remuneration policy for all employees to ensure there is a fair and consistent approach throughout the organisation. The policy uses deferral, malus and clawback to promote effective risk management and alignment with shareholders' interests.

Consultation on remuneration generally takes place with our social partners, including representatives from UNITE. RBS is a fully accredited Living Wage employer and we set our minimum pay (including benefit funding) above the level that is required to meet this.

An annual employee opinion survey takes place which includes a number of questions on pay and culture. This includes questions on employees' understanding of how pay is determined and whether employees believe they are paid fairly for the work they do.

While employees are not directly consulted on the directors' remuneration policy, around 24,000 of our employees are shareholders through the company's employee share plans and have the ability to express their views through voting on the Directors' Remuneration Report.

Consideration of shareholders' views

An extensive consultation is undertaken every year with major shareholders, including UKFI and other stakeholders, on our proposed remuneration approach. The consultation process typically involves inviting our largest shareholders to attend either one-to-one meetings or roundtable discussions.

A range of topics are discussed including the remuneration policy for the year ahead and any significant changes. The process takes place in sufficient time for shareholders' views to be considered prior to the Committee making any final decisions on remuneration and variable pay awards.

In late 2016, meetings took place involving a number of institutional shareholders and shareholder bodies representing a substantial portion of the non-UKFI shareholding. The reaction to the consultation process was positive and allowed the Committee to gain valuable insight into any areas of concern. Shareholders and other stakeholders indicated they were supportive of the new remuneration construct, highlighting the reduction in maximum potential variable pay and increased shareholding requirements as favourable features.

Shareholders asked wide-ranging questions including how the performance tests would work and the rationale for removing pro rating for good leavers. The Committee Chairman explained how the expected value of pay would be broadly maintained over time under the new policy, provided that pro rating for good leavers did not apply, and that there were merits in assessing executive directors against factors considered to be more within their control and which they could reasonably be expected to achieve.

Shareholders continue to play a vital role in developing remuneration practices that support the long-term interests of the business and the Committee is grateful and greatly encouraged by their involvement in the process.

Directors' Remuneration Policy**Service contracts and policy on payments for loss of office – directors**

Provision	Policy details for executive directors
Notice period	RBS or the executive director is required to give 12 months' notice to the other party to terminate the executive director's employment.
Payments for loss of office	There are no pre-determined provisions for compensation on termination. There is discretion for RBS to make a payment in lieu of notice (based on salary only) which is released in monthly instalments. The executive director must take all reasonable steps to find alternative work and any remaining instalments will be reduced as appropriate to offset income from any such work.
Treatment of outstanding employee share plan awards on termination	<p>Any shares awarded under the fixed share allowance and LTI awards will be treated in accordance with the relevant plan rules as approved by shareholders.</p> <p>Fixed share allowances</p> <p>Shares will continue to be released over the applicable retention period helping to ensure that former executive directors maintain an appropriate interest in RBS shares. In all leaver circumstances, executive directors will continue to be eligible to receive a pro-rated fixed share allowance to reflect the period up to the termination date.</p> <p>LTI awards made under the existing remuneration policy (approved at the 2014 AGM)</p> <p>LTI awards normally lapse on leaving unless the termination is for one of a limited number of specified 'good leaver' reasons or the Committee exercises its discretion to prevent lapsing. LTI awards held by good leavers will continue to be subject to pro rating, to reflect the proportion of the performance period that has elapsed at the date of termination, unless the Committee exercises its discretion to determine otherwise. LTI awards held by good leavers will normally vest on the original vesting dates, subject to the performance conditions being met.</p> <p>Changes for LTI awards made under the new remuneration policy</p> <p>Under the policy being proposed to the 2017 AGM, LTI awards made in future will not be subject to pro rating for time in good leaver circumstances, for the reasons outlined earlier in</p>

this report. Awards will also generally be made to good leavers in respect of the final year of employment.

Good leaver definition for LTI awards

This definition applies to all LTI awards that the executive director holds. Individuals will qualify for good leaver treatment if they leave due to ill-health, injury, disability, death, retirement, redundancy, the employing company ceasing to be a member of the Group, transfer of the employing business, or any other reason if and to the extent the Committee decides in any particular case.

With respect to the 'retirement' category above, and recognising the typical length of tenure for executive director roles, retirement good leaver treatment for executive directors will typically be considered taking all circumstances into account. Factors the Committee would expect to be present before agreeing to good leaver treatment under retirement include: whether the individual has been in role for at least five years, or otherwise qualifies for retirement criteria under RBS's policy, has demonstrated satisfactory performance, is not leaving to work in a capacity considered to be competing directly and materially with RBS, and is leaving at a time and in a manner that is agreed with the Board.

Directors' Remuneration Policy

Provision	Policy details for the Chairman and non-executive directors
Other provisions	Contracts include standard clauses covering remuneration arrangements and discretionary incentive plans (as set out in this report), reimbursement of reasonable out-of-pocket expenses incurred in performance of duties, redundancy terms and sickness absence, the performance review process, the disciplinary procedure and terms for dismissal in the event of personal underperformance or breaches of RBS policies. The Committee retains the discretion to make payments (including but not limited to professional and outplacement fees) to facilitate smooth handovers, mitigate against legal claims and/or procure reasonable assistance with investigations or claims, subject to any payments being made pursuant to a settlement or release agreement.
Notice and termination provisions	The Chairman and the non-executive directors have letters of appointment reflecting their responsibilities and time commitments. They do not have notice periods and no compensation would be paid to the Chairman or non-executive directors in the event of termination of appointment, other than standard payments payable for the period served up to the termination date.

Election or re-election of directors

In accordance with the provisions of the UK Corporate Governance Code, all directors of the company stand for election or re-election annually by shareholders at the company's AGM.

Annual report on remuneration

Annual report on remuneration

The sections audited by the company's auditors, Ernst and Young LLP, are as indicated.

Implementation of remuneration policy in 2017

Details of remuneration to be awarded in 2017 to executive directors are set out below. The long-term incentive (LTI) award is the grant due to be made in March 2017 for the 2016 performance year and the structure reflects the longer deferral period under PRA requirements. Subject to the performance conditions being met, vesting will take place between years four to seven (with 50% of any vesting in year four and 50% split over years five to seven). This will be the last LTI award under the current remuneration policy with any subsequent awards being made under the proposed new remuneration policy set out on page 113. The fixed share allowance for 2017 will be granted after the 2017 AGM and, subject to shareholder approval of the proposed policy, will be released over a three year retention period.

Executive directors' remuneration to be awarded in 2017

	Salary	Standard benefits	Pension 35% of salary	Fixed share allowance 100% of salary (1)	LTI award calculated in line with regulatory cap (2)
Chief Executive	£1,000,000	£26,250 (3)	£350,000	£1,000,000	£2,870,000
Chief Financial Officer	£800,000	£26,250	£280,000	£800,000	£2,305,000

Notes:

(1) Fixed share allowance will be payable broadly in arrears, currently in two instalments per year, and the shares will be released in equal tranches over a three year period.

(2) The LTI that can be awarded in 2017 is limited to the level of fixed remuneration, taking into account the EBA discount rules for long-term deferral. The discount factor is a mechanism to take account of opportunity costs and inflation risk for the value being provided over time and can be applied if the deferral period is at least five years. By incorporating the current discount factor, LTI awards can be granted in March 2017 with a face value of approximately 121% of fixed remuneration. For example, the Chief Executive received fixed remuneration of £2,376,250 in 2016 (based on standard benefits only) which allows an LTI award to be made at £2,870,000. Performance measures and targets are set out on page 128.

(3) Amount shown relates to standard benefit funding. Executive directors are also entitled to benefits in

line with the stated policy including travel assistance and the Chief Executive is entitled to a flight allowance as part of his relocation arrangements. The value of benefits will be disclosed each year in the total remuneration table.

Annual report on remuneration

Chairman and non-executive directors' fees for 2017

The basic Board fee for non-executive directors has been unchanged since the current remuneration policy was approved by shareholders in 2014. During 2016, the Group's Nominations and Governance Committee considered how Board fees for non-executive directors compared to peer companies. RBS has a smaller number of Board members than most, meaning that the relative time commitment for individual non-executive directors is likely to be greater. Non-executive directors have also absorbed a number of incremental responsibilities arising out of matters considered to be unique to RBS. It is proposed that the basic Board fee is increased from £72,500 to £80,000 per annum and, subject to shareholder approval being obtained, the change will take effect from the date of the AGM. A summary of the proposed annual fees payable is set out below.

Chairman (composite fee)		£750,000
Non-executive director basic fee (for period pre AGM)		£72,500
Non-executive director basic fee (for period post AGM)		£80,000
Senior Independent Director		£30,000
Group Audit Committee (GAC), Group Performance and Remuneration Committee (RemCo),	Member	£30,000
Board Risk Committee (BRC) and Sustainable Banking Committee (SBC)	Chairman	£60,000
Board Oversight Committee (BOC) for GRG, US Risk Committee	Member	£15,000
	Chairman	£30,000
NatWest Markets (formerly CIB) advisory role		£30,000
Group Nominations and Governance Committee	Member	£15,000

The CIB BOC was disbanded at the end of February 2016. However, the Board agreed that Robert Gillespie, the former CIB BOC Chairman, should continue in an advisory role, supporting the NatWest Markets (formerly CIB) CEO and senior management team during a transitional period for the business for which he receives fees of £30,000 per annum.

Annual report on remuneration**Total remuneration paid to executive directors for 2016 (audited)**

	Ross McEwan		Ewen Stevenson	
	2016	2015	2016	2015
	£000	£000	£000	£000
Salary	1,000	1,000	800	800
Fixed share allowance (1)	1,000	1,000	800	800
Benefits (2)	113	149	26	26
Pension	350	350	280	280
Total fixed remuneration (3)	2,463	2,499	1,906	1,906
Annual bonus	n/a	n/a	n/a	n/a
Long-term incentive award (4)	1,030	993	—	—
Total remuneration	3,493	3,492	1,906	1,906

Notes:

(1) The value of the fixed share allowance is based on 100% of salary and, as part of fixed remuneration, it is not subject to any performance conditions. It is delivered in shares and released over a retention period.

(2) Includes standard benefit funding of £26,250 per annum with the remainder being travel assistance in connection with company business (£74,621) and relocation expenses (£11,801) provided to Ross McEwan. The 2015 benefits figure for Ross McEwan has been restated to include a value for travel assistance during that year.

(3) The total fixed remuneration at £2,463,000 is higher than the £2,376,250 fixed remuneration in the implementation of policy section as the lower figure includes standard benefits only.

(4) The 2016 value for Ross McEwan relates to an LTI award granted in 2014 that is due to vest in March 2017. The performance conditions ended on 31 December 2016 and have been assessed as set out below together with an estimate of the vesting value. The value for 2015 has been amended from the estimated value of £1,347,000 provided in the 2015 report to reflect the actual value on the vesting date in March 2016.

Annual report on remuneration

2014 LTI – final assessment of performance measures (audited)

An assessment of performance of each relevant element was provided by internal control functions and PwC assessed relative Total Shareholder Return (TSR) performance against a peer group of comparator banks.

Performance Measures (and weightings)	Performance for minimum vesting	Vesting at minimum	Performance for maximum (100%) vesting	Actual Performance	Vesting outcome	Weighted Vesting %
Economic Profit (25%)	(£1 billion)	25%	£0	(£0.4 billion)	82%	20%
Relative TSR (25%)	TSR at median	20%	TSR at upper quartile	18 th percentile ranking	0%	0%
Safe & Secure Bank (25% split across two measures)	Vesting between 0% - 100% qualified by Committee discretion CET1 ratio target: >=12% Cost:income ratio target: 59%			CET1 ratio: 13.4% Cost:income ratio of 61%	88%	22%
Customers & People (25% split across two measures)	Vesting between 0% - 100% qualified by Committee discretion Net Promoter Score target: Gap to number 1 of 8.7 Engagement Index (EI) target: EI within 3 points of Global Financial Services (GFS) norm			Gap to number 1 of 13.4 EI: 6 points behind GFS norm	0%	0%
Overall vesting outcome (1)						42%

Note:

(1) The Economic Profit outcome was determined according to the vesting scale where target performance of (£0.77 billion) would result in 62.5% vesting.

The vesting within the Safe & Secure Bank and Customers & People categories has been qualified by Committee discretion, taking into account the margin by which targets have been missed or exceeded and any other relevant factors. The CET1 ratio target was exceeded and the cost:income ratio was deemed to have been substantially met, reflecting the significant progress from the 2013 base year of 69% and

recognising the significant headwinds in the external environment since that time. This resulted in 100% and 75% vesting respectively for these elements and a combined vesting outcome under the Safe & Secure category of 88%.

On the Customers measure, whilst absolute performance on the customer position had improved over the period, the target on closing the gap had been missed and in the circumstances the Committee concluded performance was not sufficient in order to justify vesting. On the People measure, the Committee recognised that engagement scores had been impacted by a number of unforeseen factors and difficult decisions required by management during the year but again it was felt that the level of vesting for this element should be nil.

The Committee also received input from the BRC. In making its final judgement, the Committee considered the overall context of performance including a number of factors such as the Williams & Glyn transaction. The Committee believed such factors were already adequately reflected across the performance categories and that the overall vesting outcome above was fair and appropriate.

Annual report on remuneration**2014 LTI vesting amount included in the total remuneration table (audited)**

Ross McEwan was granted an LTI award in March 2014. The performance conditions as set out on the previous page ended on 31 December 2016 and the award is due to vest in March 2017. The average share price over the last three months of the financial year has been used to estimate the vesting value.

	Ross McEwan			
Performance category	% vesting	Maximum RBS shares (1)	Vested RBS shares	Value (2)
Economic Profit	82%	305,064	244,052	
Relative TSR	0%	305,064	—	
Safe & Secure Bank	88%	305,064	268,457	
Customers & People	0%	305,064	—	
Overall vesting outcome based on above	42%		512,509	£1,030,143
<i>Maximum capped shares available to vest</i>			<i>915,193</i>	

Notes:

(1) The maximum number of shares is calculated in line with the underlying award structure where each of the four performance categories could give rise to shares worth 100% of salary at grant but with the overall maximum capped at 300% of salary at grant. The percentage vesting under the Economic Profit category has been rounded from 82% to 80% when calculating the number of vested shares in order to maintain the overall weighted vesting outcome at 42%.

(2) Based on a RBS share price of £2.01, the average over the three month period from October to December 2016.

Annual report on remuneration

2015 and 2016 LTI awards to executive directors – current assessment (audited)

The table represents an early indication of potential vesting outcomes only based on the position at 31 December 2016. Subject to the assessment of performance conditions over a three year period, these LTI awards will vest in years four and five from the date of grant. Details of the final performance assessment and any use of discretion will be disclosed in the remuneration report for the relevant year.

Performance measure	Weighting	Performance for minimum vesting	Vesting at minimum	Performance for maximum vesting	Vesting at maximum	2015 current assessment	2016 current assessment
Economic Profit	25%	Minimum economic profit targets	25%	Performance ahead of the Strategic Plan	100%	Good progress and currently favourable to target set	Currently tracking behind target range
Relative TSR	25%	TSR at median of comparator group	20%	TSR at upper quartile of comparator group	100%	Below median performance for vesting	Below median performance for vesting
Safe & Secure Bank	25%	Target ranges set for: CET1 ratio and Cost:income ratio	Vesting between 0% – 100% qualified by Committee discretion taking into account the margin by which targets have been missed or exceeded			CET1 ratio is in range for vesting.	CET1 ratio is in range for vesting.

						Customer & People measures currently tracking behind target range	Customer & People measures currently tracking behind target range

Annual report on remuneration

LTI awards granted during 2016 (audited)					
	Grant date	Face value of award (£000s)	Number of shares awarded (1)	% vesting at minimum and maximum	Performance Requirements (2)
Ross McEwan	8 March 2016	2,680	1,187,207	Between 0% - 100% with minimum vesting as set out above	Conditional share awards subject to performance conditions, as set out above, measured over the three year period from 1 January 2016 to 31 December 2018
Ewen Stevenson	8 March 2016	2,150	952,424		

Notes:

(1) The number of shares awarded was calculated in line with the regulatory cap that limits variable pay to the level of fixed pay and for this award equated to 268% of salary, The award price of £2.2574 was calculated based on the average share price over five business days prior to the grant date.

(2) The awards are eligible to vest in equal tranches in 2020 and 2021, subject to the achievement of performance conditions. Malus provisions will apply up until vesting and clawback provisions will also apply for a period of seven years from the date of grant.

Performance conditions for LTI awards to be granted to executive directors in 2017, for the 2016 performance year

This will be the last LTI award under the current remuneration policy, with any subsequent awards being made under the new remuneration policy, subject to shareholder approval at the 2017 AGM. A three year performance period will apply until 31 December 2019. Subject to the achievement of the performance conditions, shares will vest 50% four years from the date of grant with the remaining 50% vesting pro rata between years five to seven from grant. Any awards that vest will be subject to a six month retention period.

Awards granted to executive directors in March 2017 will be subject to four equally weighted performance categories, each able to vest up to 100% of base salary, subject to the maximum award that is possible under the policy and the regulatory cap. Details of the performance measures and the Committee's rationale for selecting them are set out below.

Annual report on remuneration

Economic Profit (25%)

Reason: Economic Profit, being a risk-adjusted financial measure, is consistent with regulatory requirements and provides a balance between measuring growth and the cost of capital employed in delivering that growth.

Measure: Economic Profit for RBS defined as profit after tax less preference share charges less tangible net asset value multiplied by the cost of equity.

Performance target and weightings

Weighting	Performance target	Vesting range
25%	Target consistent with the achievement of RBS's strategic long term return on equity target	25% - 100%

Relative Total Shareholder Return (25%)

Reason: Relative TSR provides a direct connection between executive directors' awards and relative returns delivered to shareholders.

Measure: The measure compares performance against a group of comparator banks. The TSR comparator group was updated for awards made in 2016 to more accurately reflect the business strategy with reduced focus on investment banking. No changes have been made for the awards to be granted in March 2017.

Relative TSR Comparator Group

- 1 Barclays
- 2 Lloyds Banking Group
- 3 HSBC
- 4 to 13 BBVA, BNP Paribas, Credit Agricole, ING, Intesa San Paolo, Nordea, Santander, Societe Generale, Standard Chartered

Performance target and weightings

Weighting	Performance target	Vesting range
-----------	--------------------	---------------

25%	TSR between median and upper quartile	20% - 100%
-----	---------------------------------------	------------

Annual report on remuneration

Safe & Secure Bank (25%)

Reason: The Safe & Secure Bank measures have a particular focus on risk reduction and the building of a safe, sustainable business.

Measure: The key measures in this category are the achievement of pre-determined Common Equity Tier 1 (CET1) and Cost:income (C:I) ratios.

Performance target and weightings

Category	Metrics and weighting	Performance target
Safe & Secure Bank	CET1 ratio (12.5%)	CET1 ratio target of \geq 13%
	C:I ratio (12.5%)	C:I ratio target of 56%

Customers & People (25%)

Reason: These measures reward management for building a customer-focused business with engaged employees.

Measure: Net Promoter Scores (NPS) and Net Trust Scores (NTS) will be used. Employee engagement will be measured against the Global Financial Services (GFS) norm.

Performance target and weightings

Category	Metrics and weighting	Performance target
Customers & People	Advocacy (7.5%)	Significant progress on NPS and NTS scores
	Trust (5%)	

Engagement (12.5%)	Employee Engagement Index one point above GFS norm
-----------------------	-------------------------------------------------------

The overall vesting under the Safe & Secure Bank and Customers & People categories will be qualified by the Committee's discretion taking into account changes in circumstances over the performance period, the margin by which individual targets have been missed or exceeded, and any other relevant factors.

Annual report on remuneration

In line with previous practice, the Economic Profit is considered to be commercially sensitive. Within the Customers category, new metrics are being developed which will target trust and advocacy, specific to customers on a segmental basis, and will be consistent with RBS's long-term ambition. Further information on the trust and advocacy targets will be disclosed in the 2017 Directors' Remuneration Report, to the extent permitted by commercial sensitivity. Details of all targets and performance against these will be disclosed retrospectively after any vesting has been determined, in the annual report on remuneration for 2019.

Underpin

The Committee will also review financial and operational performance against the business strategy and the risk environment prior to agreeing vesting of awards. In assessing the risk considerations, the Committee will be advised independently by the BRC. If the Committee considers that the vesting outcome calibrated in line with the performance conditions outlined above does not reflect underlying financial results, or if the Committee is not satisfied that conduct and risk management during the performance period has been effective, then the terms of the awards allow for an underpin to be used to reduce vesting or lapse the award.

Payments for loss of office (audited)

No remuneration payment or payment for loss of office was made to directors during 2016.

Payments to past directors (audited)

Stephen Hester and Bruce Van Saun received shares in March 2016 on the vesting of the LTI award granted in 2013 as set out below. The assessment of RBS-wide performance measures is detailed on page 79 of the 2015 Annual Report on Form 20-F.

Annual report on remuneration

Value of payments on vesting (audited)

Performance category	% vesting	Stephen Hester		Bruce Van Saun		Value (3)
		Maximum RBS shares (2)	Vested RBS shares	Maximum CFG shares (2)	Vested CFG shares	
Economic Profit	62%	107,805	66,839	65,656	40,706	
Relative TSR	0%	107,805	0	65,656	0	
Balance Sheet & Risk	90%	107,805	97,025	65,656	59,090	
Strategic Scorecard	72%	107,805	77,620	65,656	47,272	
Initial vesting outcome based on above					147,068	
					131,377	
Final outcome post application of underpin (1)	56%		241,484			
	50%		215,718	£496,799		\$2,828,547
<i>Maximum capped number of shares available to vest</i>			<i>323,415</i>			<i>196,967</i>

Notes:

(1) The Committee also considered recommendations from the BRC and concluded it would be appropriate to apply the risk and financial performance underpin in respect of the above awards. This resulted in downward discretion being applied to reduce the final vesting outcome from 56% to 50%.

(2) The maximum number of shares is calculated in line with the underlying award structure where each of the four performance categories could give rise to shares worth 100% of salary at grant but with the overall maximum capped at 300% of salary. The number has been reduced on a pro rata basis to reflect time served by Stephen Hester. The interests for Bruce Van Saun's award were converted to shares in Citizens Financial Group, Inc. as part of the IPO of that business.

(3) Based on a RBS share price of £2.303 and Citizens Financial Group, Inc. share price of \$21.53 on the date of vesting.

(1) Howard Davies joined the Board on 14 July 2015 and became Chairman with effect from 1 September 2015. The Benefits column includes private medical cover.

(2) In line with market practice, non-executive directors are reimbursed expenses incurred in connection with their attendance at Board meetings. To the extent that HMRC determines that any amounts are taxable, RBS will settle the associated tax liability on behalf of the non-executive director.

(3) Under the 'Other' column, Sandy Crombie received fees as the Senior Independent Director and Morten Friis received fees for his work on the US steering group until April 2016. The US Risk Committee was established with Morten Friis and Baroness Noakes receiving fees as Chairman and member of the Committee respectively. Robert Gillespie received fees for his role as an advisor to the NatWest Markets (formerly CIB) CEO and senior management.

(4) Frank Dangeard and Mike Rogers joined the Board on 16 May 2016 and 26 January 2016 respectively.

Key to table:

Noms & Gov	Group Nominations and Governance Committee
GAC	Group Audit Committee
RemCo	Group Performance and Remuneration Committee
BRC	Board Risk Committee
SBC	Sustainable Banking Committee
BOC	Board Oversight Committee for the RCR, NatWest Markets (formerly CIB) and GRG business areas

Annual report on remuneration

Directors' interests in shares and shareholding requirements (audited)

The current shareholding requirement is to hold shares to the value of 250% of salary for the Chief Executive and 125% of salary for the Chief Financial Officer. Under the proposed new policy, the requirement will be increased to 400% of salary for the Chief Executive and 250% of salary for the Chief Financial Officer, as detailed in the remuneration policy section of this report.

Shareholding requirements for executive directors

Notes:

- (1) Ross McEwan holds 259,455 shares from his 2015 and 2016 fixed share allowances that are included in the total shares beneficially owned below but these have been excluded from the shareholding requirements calculation as he will transfer these shares to charity at the end of the retention period.
- (2) Value of shares held is based on the share price of £2.246 as at 31 December 2016. During the year ended 31 December 2016, the share price ranged from £1.489 to £3.02.

Mike Rogers	—	—				

Notes:

(1) Ross McEwan holds 259,455 shares from his 2015 and 2016 fixed share allowances that are included in the total shares beneficially owned but these have been excluded from the shareholding requirements calculation as he will transfer these shares to charity at the end of the retention period.

(2) Value of shares held is based on the share price of £2.246 as at 31 December 2016. During the year ended 31 December 2016, the share price ranged from £1.489 to £3.02.

(3) The current shareholding requirement is to hold shares to the value of 250% of salary for the Chief Executive and 125% of salary for the Chief Financial Officer. Under the proposed new policy, the requirement will be increased to 400% of salary for the Chief Executive and 250% of salary for the Chief Financial Officer.

(4) Interest is 10,000 American Depository Receipts representing 20,000 ordinary shares.

No other director had an interest in the company's ordinary shares during the year or held a non-beneficial interest in the shares of the company at 31 December 2016, at 1 January 2016 or date of appointment if later. The interests shown above include shares held by persons closely associated with the directors. As at 23 February 2017, there were no changes to the directors' interests in shares shown in the table above.

Annual report on remuneration

Total Shareholder Return (TSR) performance

The graph below shows the performance of RBS over the past eight years in terms of TSR compared with that of the companies comprising the FTSE 100 Index. This index has been selected because it represents a cross-section of leading UK companies. The TSR for FTSE UK banks for the same period has been added for comparison.
Source: Datastream

Chief Executive pay over same period

	2009	2010	2011	2012	2013 (1) 393 (RM)	2014	2015	2016
Total remuneration (£000s)						1,878	3,492	3,493
Annual bonus against maximum opportunity	1,647 0%	3,687 85%	1,646 0%	1,646 0%	1,235 (SH) 0%	n/a	n/a	n/a
LTI vesting rates against maximum opportunity	0%	0%	0%	0%	0%	72.85%	62%	56%

Notes:

(1) 2013 remuneration includes Stephen Hester (SH) as CEO for the period to 30 September and Ross McEwan (RM) for the period from 1 October to 31 December 2013.

(2) Figures have been amended where appropriate to reflect any restatement of prior year amounts, for example, to reflect the actual rather than estimated value of LTI vestings as part of the total remuneration figure and any revisions to the value of benefits provided.

Annual report on remuneration

Change in Chief Executive pay compared with employees

The table below shows the percentage change in remuneration for the Chief Executive between 2015 and 2016 compared with the percentage change in the average remuneration of RBS employees based in the UK. In each case, remuneration is based on salary, benefits and annual bonus.

	Salary 2015 to 2016 change	Benefits 2015 to 2016 change	Annual Bonus 2015 to 2016 change
Chief Executive (1)	0%	0%	n/a
UK employees (2)	4.51%	4.18%	(4.86%)

Notes:

(1) Executive directors are not eligible for an annual bonus. Standard benefit funding for executive directors remained unchanged between 2015 and 2016. The benefits for the Chief Executive excludes other benefits such as travel assistance in connection with company business and relocation benefits, the value of which is disclosed each year in the total remuneration table. In 2016, Ross McEwan also received a fixed share allowance as part of his fixed pay.

(2) The size of the percentage increase for fixed pay elements to 2016 is partly due to the one-off impact of removing incentives for certain frontline roles. The data represents full year salary costs of the UK based employee population, which covers the majority of RBS employees and is considered to be the most representative comparator group.

Annual report on remuneration

Relative importance of spend on pay

The table below shows a comparison of remuneration expenditure against other distributions and charges.

	2016	2015 (1)	
	£m	£m	change
Remuneration paid to all employees (2)	4,670	5,208	(10.3%)
Distributions to holders of ordinary shares	—	—	
Distributions to holders of preference shares and paid-in equity (3)	1,697	385	341%
Taxation and other charges recognised in the income statement:			
- Social security, Bank levy and Corporation tax	747	597	25.1%
- Irrecoverable VAT and other indirect taxes incurred by RBS (4)	697	691	0.9%

Notes:

- (1) Numbers exclude discontinued operations, principally CFG in 2015.
- (2) Remuneration paid to all employees represents total staff expenses per Note 3 to the Financial Statements, exclusive of social security and other staff costs.
- (3) Includes final payment relating to the Dividend Access Share of £1,193 million in 2016.
- (4) Input VAT and other indirect taxes not recoverable by RBS due to it being partially exempt.

The items above have been included as they reflect the key stakeholders for RBS and the major categories of distributions and charges made by RBS.

Consideration of matters relating to directors' remuneration Membership of the Group Performance and Remuneration Committee

All members of the Committee are independent non-executive directors. The Committee held seven scheduled meetings in 2016 and a further two ad hoc meetings.

Attended/

	scheduled
Sandy Crombie (Chairman)	7/7
Alison Davis	7/7
Robert Gillespie	7/7

Mike Rogers was appointed as a new member of the Committee with effect from 1 January 2017.

The role and responsibilities of the Committee

The Committee is responsible for:

- approving the remuneration policy for all employees and reviewing the effectiveness of its implementation;
- reviewing performance and making recommendations to the Board on remuneration arrangements for executive directors;
- approving remuneration arrangements for members and formal attendees of the Executive Committee and employees with total annual compensation which exceeds an amount determined by the Committee, currently £1 million; and
- setting the remuneration framework and principles for employees identified as Material Risk Takers falling within the scope of UK regulatory requirements.

In mitigating potential conflicts of interest, directors are not involved in decisions regarding their own remuneration and remuneration advisers are appointed by the Committee rather than management. The terms of reference of the Committee are reviewed annually and available on rbs.com.

Annual report on remuneration

Summary of the principal activity of the Committee in 2016

The new executive director remuneration policy and any issues arising under the accountability review process were considered at the majority of meetings. Set out below is a summary of other key activities considered by the Committee.

First quarter

- 2015 performance reviews and remuneration arrangements for members and attendees of the Executive Committee and high earners.
- Approval of variable pay pools and the 2015 Directors' Remuneration Report.
- Assessment of the performance of LTI awards granted in prior years and performance targets for 2016 awards.
- Executive Committee members' 2016 objectives.

Second quarter

- Key external trends and regulatory updates.
- Annual review of external advisers to the Committee.
- Remuneration governance across legal entities and the impact of the Senior Managers Regime.
- Annual review of remuneration policy for all employees.

Third quarter

- 2016 half-year performance reviews for members and attendees of the Executive Committee and high earners.
- Considering the future pay construct for all employees.
- Interim business performance assessment.
- Divestment principles update.

- External stakeholder engagement plan.

Fourth quarter

- Review of the implementation of the remuneration policy.
- 2016 preliminary pay elements including bonus pool, deferral and LTI awards.
- Executive Committee members' annual objectives for 2017.
- Update on regulatory requirements.
- Stakeholder engagement and feedback on new remuneration policy for executive directors.
- Review of draft Directors' Remuneration Report for 2016.

Annual report on remuneration

Performance evaluation process

The Committee has considered the findings of the annual review of the effectiveness of the Committee which was conducted internally by the Chief Governance Officer and Board Counsel.

Positive comments were received on moving to a reduced number of meetings with appropriate use of delegation, giving time to focus on important issues such as the future pay construct. There was good evidence of challenge on key points of principle during debates and overall it was felt that the dynamic of the Committee worked well. The Masterclass sessions, where in-depth consideration is given to specific matters, continued to be well received by members.

On areas for development, the importance of papers containing all the relevant information was highlighted and there was still scope to further improve the articulation of how reward links to strategy. There was also a suggestion that it would be helpful for the Committee to have another member. Subsequently, the Board agreed that Mike Rogers would be appointed to the Committee with effect from 1 January 2017.

Potential areas were identified for future focus by the Committee including absolute pay levels, competitiveness and internal fairness.

Advisers to the Committee

The Committee reviews its selection of advisers annually. PricewaterhouseCoopers LLP (PwC) was appointed as the Committee's remuneration advisers on 14 September 2010 following a review of potential advisers, and the appointment was reconfirmed by the Committee in May 2016 after an annual review of the quality of the advice received and fees charged. PwC is a signatory to the voluntary code of conduct in relation to remuneration consulting in the UK.

PwC also provide professional services in the ordinary course of business including assurance, advisory, tax and legal advice to RBS subsidiaries. There are processes in place to ensure the advice received by the Committee is independent of any support provided to management. As well as receiving advice from PwC in 2016, the Committee took account at meetings of the views of the Chairman; Chief Executive; Chief Financial Officer; Chief HR Officer; the Director of Organisation and Performance; the Chief Governance Officer and Board Counsel; the Chief Risk Officer; and the Chief Conduct and Regulatory Affairs Officer. The fees paid to PwC for advising the Committee in relation to directors' remuneration are charged on a

time/cost basis and in 2016 amounted to £214,706 excluding VAT (2015 - £121,358). The increase in fees is a result of additional work undertaken during 2016 in developing the new directors' remuneration policy.

Annual report on remuneration**Statement of shareholding voting**

The tables below set out the voting by shareholders on the resolution to approve the Annual Report on Remuneration at the AGM held in May 2016 and the resolution at the AGM in June 2014 when the Directors' Remuneration Policy was last approved.

Annual Report on Remuneration – 2016 AGM

For	Against	Total votes cast	Withheld
42,686,046,288	188,029,796	42,874,076,084	6,603,412
(99.56%)	(0.44%)		

Directors' Remuneration Policy – 2014 AGM

For	Against	Total votes cast	Withheld
20,893,215,888	70,382,756	20,963,598,644	170,307,216
(99.66%)	(0.34%)		

Shareholder dilution

During the ten year period to 31 December 2016, awards made that could require new issue shares to be used in connection with the company's employee share plans represented 5.4% of the company's issued ordinary share capital, leaving an available dilution headroom of 4.6%. The company meets its employee share plan obligations through a combination of new issue shares and market purchase shares.

Sandy Crombie

Chairman of the Group Performance and Remuneration Committee

23 February 2017

- (1) Remuneration earned in 2016 for eight members of the Executive Committee.
- (2) Disclosure includes prior year long-term incentive awards which vested during 2016. The amounts shown reflect the value of vested awards using the share price on the day the awards vested.

How risk is reflected in our remuneration process

The RBS remuneration policy explicitly aligns remuneration with effective risk management. Focus on risk is achieved through clear risk input into objectives, performance reviews, the determination of variable pay pools and incentive plan design as well as the application of malus and clawback. The Committee is supported in this by the BRC and the RBS Risk function.

A robust process is used to assess risk performance. A range of measures are considered, specifically the overall Risk Profile; Credit, Regulatory and Conduct Risk; Operational Risk; Enterprise Risk; and Market Risk. The steps we take to ensure appropriate and thorough risk adjustment are also fully disclosed and discussed with the PRA and the FCA.

Other Remuneration Disclosures

Variable pay pool determination

For the 2016 performance year, RBS has operated a multi-step process which is a control function led assessment to determine performance and therefore the appropriate bonus pool by franchise and function.

The process considers a balanced scorecard of performance assessments at the level of each franchise or support function. The assessments are made across financial, customer and people measures. Risk and conduct assessments at the same franchise or functional level are then undertaken to ensure that performance achieved without the appropriate risk and conduct controls and culture is not inappropriately rewarded.

BRC will then review any material risk and conduct events and if appropriate an underpin may be applied to the individual business and function bonus pools and where appropriate to the overall RBS bonus pool. BRC may recommend reduction of a bonus pool if it considers that risk and conduct performance is unacceptable or that the impact of poor risk management has yet to be fully reflected in the respective inputs.

Following further review against overall performance and conduct, the Chief Executive will make a final recommendation to the Committee, informed by all the previous steps in the process and his strategic view of the business. The Committee will then make an independent decision on the final bonus pool taking all of these earlier steps into account.

Accountability review process and malus/clawback

An accountability review process is operated that allows RBS to respond in instances where new information would change the variable pay decisions made in previous years and/or the decisions to be made in the current year. Under the accountability review process, RBS can apply malus and clawback.

- Malus can be applied to reduce (if appropriate to zero) the amount of any variable pay awards prior to payment taking place.
- Clawback provisions can also be applied to recover awards that have vested.

Any variable pay awarded to Material Risk Takers from 1 January 2015 onwards is subject to clawback for seven years from the date of grant. For awards made in respect of the 2016 performance year onwards, this period has been extended to ten years for executive directors and other Senior Managers under the Senior Managers Regime where there are outstanding internal or regulatory investigations at the end of the normal seven-year clawback period. Malus and clawback can be applied to current and former employees.

Other Remuneration Disclosures

There are a number of trigger events under which malus and clawback will be considered including:

- the individual participating in or being responsible for conduct which results in significant losses for RBS;
- the individual failing to meet appropriate standards of fitness and propriety;
- reasonable evidence of an individual's misbehaviour or material error;
- RBS or the individual's relevant business unit suffering a material failure of risk management; and
- in the case of malus only, circumstances where there has been a material downturn in financial performance.

How have we applied this in practice?

During 2016 a number of issues and events were considered under the accountability review framework. The outcomes covered a range of actions including: reduction and forfeiture of unvested awards through malus; reduction of current year variable pay awards; dismissal with forfeiture of unvested awards; and suspension of awards pending further investigation.

Other Remuneration Disclosures

Our remuneration policy for all employees

The remuneration policy supports the business strategy and is designed to promote the long-term success of RBS. It aims to reward employees for delivering good performance against targets provided this is achieved in a manner consistent with our values and within acceptable risk parameters. The remuneration policy applies the same principles to all employees including Material Risk Takers (MRTs) subject to UK regulatory requirements (1). The current key elements underpinning the remuneration policy are set out below.

Element of pay	Objective	Operation
Base salary	To aid recruitment and retention of high performing individuals whilst paying no more than is necessary. To provide a competitive level of fixed cash remuneration, reflecting the skills and experience required, and to discourage excessive risk taking.	Base salaries are reviewed annually and should reflect the talents, skills and competencies that the individual brings to the business.
Role-based allowance	To provide fixed pay that reflects the skills and experience required for the role.	Allowances are provided to certain employees in key roles in line with market practice and qualify as fixed remuneration for regulatory requirements. They are delivered in cash and/or shares depending on the level of the allowance and the seniority of the recipient. Shares are subject to an appropriate retention period, not less than six months.
Benefits (including pension)	To provide a range of flexible and market competitive benefits. To encourage planning for retirement and long-term savings.	In most jurisdictions, employee benefits or a cash equivalent are provided from a flexible benefits account.
Annual bonus	To support a culture where employees recognise the importance of serving customers well and are rewarded for superior performance.	The annual bonus pool is based on a balanced scorecard of measures including Customer, Financial, Risk and People measures. Allocation from the pool depends on performance of the franchise or function and the individual. Individual performance assessment is supported by a structured performance management framework. Immediate cash awards are limited to a maximum of £2,000. Under the deferral arrangements a significant proportion of

		<p>annual bonus awards for our more senior employees are deferred over a three to seven year period. Awards are subject to malus and clawback provisions. For MRTs, a minimum of 50% of any annual bonus is delivered in shares and subject to a minimum six month retention period post vesting in line with regulatory requirements.</p> <p>Guaranteed awards are only used in very limited circumstances in accordance with regulatory requirements.</p>
Long-term incentive awards	To support a culture where good performance against a full range of measures will be rewarded. To encourage the creation of value over the long term and to align further the rewards of the participants with the returns to shareholders.	<p>RBS provides certain employees in senior roles with long-term incentive awards. Awards are structured as performance-vesting shares. Performance is typically measured over a three year period. For awards made in respect of the 2016 performance year, vesting will take place over a three to seven year period.</p> <p>The amount of the award that vests may vary between 0% -100% depending on the performance achieved. Awards are subject to malus and clawback provisions and a minimum six month retention period applies to MRTs post vesting.</p>
Other share plans	To offer employees in certain jurisdictions the opportunity to acquire shares.	Employees in certain countries are eligible to contribute to share plans which are not subject to performance conditions.

Note:

(1) The EBA has issued criteria for identifying MRT roles i.e. staff whose professional activities have a material influence over RBS's performance or risk profile. The criteria for identifying MRTs are both qualitative (based on the nature of the role) and quantitative (i.e. those who exceed the stipulated total remuneration threshold based on the previous year's total remuneration).

The qualitative criteria can be summarised as: staff within the management body; senior management; other staff with key functional or managerial responsibilities; staff, individually or as part of a Committee, with authority to approve new business products or to commit to credit risk exposures and market risk transactions above certain levels.

The quantitative criteria are: individuals earning €500,000 or more in the previous year; individuals in the top 0.3% of earners in the previous year; individuals who earned more than the lowest paid identified staff per the qualitative criteria, subject to specific exceptions in the criteria.

Other Remuneration Disclosures

In accordance with UK regulatory requirements and internal dealing rules that apply to employees, the conditions attached to discretionary share-based awards prohibit the use of any personal hedging strategies to lessen the impact of a reduction in value of such awards. These conditions are explicitly acknowledged and accepted by employees when any share-based awards are granted.

Remuneration of MRTs

The quantitative disclosures below are made in accordance with Article 450 of the EU Capital Requirements Regulation in relation to 665 employees who have been identified as MRTs.

1. Aggregate remuneration expenditure

Aggregate remuneration expenditure in respect of 2016 performance was as follows:

	Franchises		Total
	PBB, CPB and NatWest Markets (formerly CIB)	Rest of RBS	
	£m	£m	£m
	211.6	143.5	355.1

2. Amounts and form of fixed and variable remuneration

Fixed remuneration for 2016

Consisted of salaries, allowances, pensions and benefits.

	Senior management	Other MRTs	Total
Number of beneficiaries	11	654	665
	£m	£m	£m
Total fixed remuneration	17.4	205.7	223.1
			147
Executive Committee			310

Other Remuneration Disclosures

Variable remuneration awarded for 2016 performance

Variable remuneration consisted of a combination of annual bonus and long-term incentive awards, deferred over a three to seven year period in accordance with regulatory requirements. Under the RBS bonus deferral structure, cash awards are limited to £2,000 per employee.

	Senior		
	management	Other MRTs	Total
Annual bonus awards			
Number of beneficiaries	—	510	510
	£m	£m	£m
Variable remuneration (cash)	—	1.2	1.2
Deferred remuneration (bonds)	—	11.3	11.3
Deferred remuneration (shares)	—	86.3	86.3

Long-term incentive awards vest subject to the extent to which performance conditions are met and can result in zero payment.

	Senior		
	management	Other MRTs	Total
Long-term incentive awards			
Number of beneficiaries	10	98	108
	£m	£m	£m
Long-term incentive awards	17.2	16.2	33.4

The variable component of total remuneration for MRTs at RBS shall not exceed 100% of the fixed component. Based on the information disclosed above, the average ratio between fixed and variable remuneration for 2016 is approximately 1 to 0.6.

3. Outstanding deferred remuneration through 2016

The table below includes deferred remuneration awarded or paid out in 2016 in respect of prior performance years. Deferred remuneration reduced during the year relates to long-term incentives lapsed when performance conditions are not met, long-term incentives and deferred awards forfeited on leaving

and malus adjustments of prior year deferred awards and long-term incentives.

	Senior management	Other MRTs
Category of deferred remuneration	£m	£m
Unvested from prior year	34.2	200.8
Awarded during the financial year	17.5	129.4
Paid out	7.4	113.0
Reduced from prior years	1.9	21.8
Unvested at year end	42.4	195.5

148

Other Remuneration Disclosures

4. Sign-on and severance payments

RBS does not operate 'Sign-on awards'. Guaranteed variable remuneration may be used for new hires in compensation for awards foregone in their previous company. Three such payments totalling £442,695 are included in the tables above. This relates to commitments made on recruitment in respect of three new employees. These awards are still subject to deferral.

No severance payments were made during the financial year in excess of contractual payments, local policies, standards or statutory amounts, other than one payment of £219,500 made in commercial settlement of legal proceedings related to the early termination of a contract of employment.

All staff total remuneration

- The average salary for all employees is £32,620.
- 13,664 employees earn between £50,000 and £100,000.
- 5,545 employees earn between £100,000 and £250,000.
- 1,025 employees earn total remuneration over £250,000.

Total remuneration by band for all employees earning >€1 million	Number of employees	
	2016	2015
€1.0m - €1.5m	48	53
€1.5m - €2.0m	20	24
€2.0m - €2.5m	10	11
€2.5m - €3.0m	5	7
€3.0m - €3.5m	0	2
€3.5m - €4.0m	0	2
€4.0m - €4.5m	3	0
€4.5m - €5.0m	0	1
€5.0m - €6.0m	1	0
€6.0m - €7.0m	0	1
Total	87	101

Notes:

(1) Total remuneration in the table above includes fixed pay, pension and benefit funding and variable pay (including actual value of LTI vesting in 2016) after the application of malus.

(2) Executive directors are not included. The table is based on an exchange rate where applicable of €1.224 to £1 as at 31 December 2016 and amounts disclosed for 2015 have been restated using the same exchange rate so that comparison can be made on a like for like basis.

Employees that earned total remuneration of over €1 million in 2016 represent just 0.1% of our employees. This number reduces to 72 employees if we exclude pension and benefit funding. These employees include those who manage major businesses and functions with responsibility for significant assets, earnings or areas of strategic activity and can be grouped as follows:

- The CEOs responsible for each area and their direct reports.
- Employees managing large businesses within a franchise.
- Income generators responsible for high levels of income including those involved in managing trading activity and supporting clients with more complex financial transactions, including financial restructuring.
- Those responsible for managing our balance sheet and liquidity and funding positions across the business.
- Employees managing the successful disposal of assets in Capital Resolution and reducing RBS's capital requirements.

Compliance report

Statement of compliance

RBS is committed to high standards of corporate governance, business integrity and professionalism in all its activities.

Throughout the year ended 31 December 2016, RBS has complied with all of the provisions of the UK Corporate Governance Code issued by the Financial Reporting Council dated April 2016 (the “Code”) except in relation to provision (D.2.2) that the Group Performance and Remuneration Committee should have delegated responsibility for setting remuneration for the Chairman and executive directors. RBS considers that this is a matter which should rightly be reserved for the Board and this is an approach RBS has adopted for a number of years. Remuneration for the executive directors is first considered by the Group Performance and Remuneration Committee which then makes recommendations to the Board for consideration. This approach allows all non-executive directors, and not just those who are members of the Group Performance and Remuneration Committee, to participate in decisions on the executive directors’ and the Chairman’s remuneration and also allows the executive directors to input to the decision on the Chairman’s remuneration. The Board believes this approach is very much in line with the spirit of the Code and no director is involved in decisions regarding his or her own remuneration. We do not anticipate any changes to our approach on this aspect of the Code. Information on how RBS has applied the main principles of the Code can be found in the Corporate governance report on pages 59 to 149. A copy of the Code can be found at www.frc.org.uk.

RBS has also implemented the recommendations arising from the Walker Review and complied in all material respects with the Financial Reporting Council Guidance on Audit Committees issued in September 2012 and April 2016.

Under the US Sarbanes-Oxley Act of 2002, specific standards of corporate governance and business and financial disclosures and controls apply to companies with securities registered in the US. RBS complies with all applicable sections of the US Sarbanes-Oxley Act of 2002, subject to a number of exceptions available to foreign private issuers.

Internal control

Management of The Royal Bank of Scotland Group plc is responsible for the system of internal controls that is designed to maintain effective and efficient operations, compliant with applicable laws and regulations. The system of internal controls is designed to manage, or mitigate, risk to an acceptable residual level rather than eliminate it entirely. Systems of internal control can only provide reasonable and not absolute assurance against material misstatement, fraud or loss.

Compliance report

Management's report on internal control over financial reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting for RBS.

RBS's internal control over financial reporting is a component of an overall system of internal control and is designed to provide reasonable assurance regarding the preparation, reliability and fair presentation of financial statements for external purposes in accordance with International Financial Reporting Standards (IFRS) and includes:

- Policies and procedures that relate to the maintenance of records that, in reasonable detail, fairly and accurately reflect the transactions and disposition of assets.
- Controls providing reasonable assurance that transactions are recorded as necessary to permit the preparation of financial statements in accordance with IFRS, and that receipts and expenditures are being made only as authorised by management.
- Controls providing reasonable assurance regarding the prevention or timely detection of unauthorised acquisition, use or disposition of assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. In addition, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or because the degree of compliance with policies or procedures may deteriorate.

Management assessed the effectiveness of RBS's internal control over financial reporting as of 31 December 2016 based on the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in the 2013 publication of 'Internal Control - Integrated Framework'.

Based on its assessment, management believes that, as of 31 December 2016, RBS's internal control over financial reporting is effective.

The effectiveness of RBS's internal control over financial reporting as of 31 December 2016 has been audited by Ernst & Young LLP, RBS's independent registered public accounting firm. The report of the independent registered public accounting firm to the directors of the Royal Bank of Scotland Group plc expresses an unqualified opinion and have given an unqualified opinion on RBS's internal control over financial reporting as of 31 December 2016.

Compliance report

Report of Independent Registered Public Accounting Firm

Members of The Royal Bank of Scotland Group plc

We have audited The Royal Bank of Scotland Group plc and subsidiaries' (together, the "Group") internal control over financial reporting as of 31 December 2016 based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). The Group's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Group's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Compliance report

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Group maintained, in all material respects, effective internal control over financial reporting as of 31 December 2016 based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of the Group as of 31 December 2016, and the related consolidated statements of income, comprehensive income, changes in equity and cash flows for the year then ended and our report dated 23 February 2017 expressed an unqualified opinion thereon.

/s/ Ernst & Young LLP
London, United Kingdom
23 February 2017

Compliance report

Disclosure controls and procedures

Management, including RBS's Chief Executive and Chief Financial Officer have conducted an evaluation of the effectiveness and design of RBS's disclosure controls and procedures (as such term is defined in Exchange Act Rule 13a-15(e)). Based on this evaluation, RBS's Chief Executive and Chief Financial Officer concluded that RBS's disclosure controls and procedures were effective as of the end of the period covered by this annual report.

Changes in internal control

There was no change in RBS's internal control over financial reporting that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, RBS's internal control over financial reporting.

The New York Stock Exchange

As a foreign private issuer with American Depository Shares representing ordinary shares, preference shares and debt securities listed on the New York Stock Exchange (the "NYSE"), RBS is not required to comply with all of the NYSE standards applicable to US domestic companies (the "NYSE Standards") provided that it follows home country practice in lieu of the NYSE Standards and discloses any significant ways in which its corporate governance practices differ from the NYSE Standards. RBS is also required to provide an Annual Written Affirmation to the NYSE of its compliance with the mandatory applicable NYSE Standards.

The Group Audit Committee fully complies with the mandatory provisions of the NYSE Standards (including by reference to the rules of the Exchange Act) that relate to the composition, responsibilities and operation of audit committees. In March 2016 RBS submitted its required annual written affirmation to the NYSE confirming its full compliance with those and other applicable provisions. More detailed information about the Group Audit Committee and its work during 2016 is set out in the Group Audit Committee report on pages 79 to 87.

RBS has reviewed its corporate governance arrangements and is satisfied that these are consistent with the NYSE Standards, subject to the following departures: (i) NYSE Standards require the majority of the Board to be independent. The NYSE Standards contain different tests from the Code for determining whether a director is independent. RBS follows the Code's requirements in determining the independence of its directors and currently has 9 independent non-executive directors, one of whom is the senior independent director (ii) The NYSE Standards require non-management directors to hold regular sessions without management present and that independent directors meet at least once a year. The Code requires the Chairman to hold meetings with non-executive directors without the executives present and non-executive directors are to meet without the Chairman present at least once a year to appraise the

Chairman's performance and RBS complies with the requirements of the Code. (iii) The NYSE Standards require that the nominating/corporate governance committee of a listed company be composed entirely of independent directors.

Compliance report

The Chairman of the Board is also the Chairman of the Group Nominations and Governance Committee, which is permitted under the Code (since the Chairman was considered independent on appointment). The terms of reference of the Group Nominations and Governance Committee differ in certain limited respects from the requirements set out in the NYSE Standards, including because the Group Nominations and Governance Committee does not have responsibility for overseeing the evaluation of management (iv) The NYSE standards require that the compensation committee of a listed company be composed of entirely of independent directors. Although the members of the Group Performance and Remuneration Committee are deemed independent in compliance with the provisions of the Code, the Board has not assessed the independence of the members of the Group Performance and Remuneration Committee and the Group Performance and Remuneration Committee has not assessed the independence of any compensation consultant, legal counsel or other adviser, in each case, in accordance with the independence tests prescribed by the NYSE Standards.

The NYSE Standards require that the compensation committee must have direct responsibility to review and approve the Chief Executive's remuneration. As stated at the start of this Compliance Report, in the case of RBS, the Board, rather than the Group Performance and Remuneration Committee, reserves the authority to make the final determination of the remuneration of the Chief Executive (v) The NYSE Standards require listed companies to adopt and disclose corporate governance guidelines. Throughout the year ended 31 December 2016, RBS has complied with all of the provisions of the Code (subject to the exception described above) and the Code does not require RBS to disclose the full range of corporate governance guidelines with which it complies (vi) The NYSE Standards require listed companies to adopt and disclose a code of business conduct and ethics for directors, officers and employees, and promptly disclose any waivers of the code for directors or executive officers. RBS has adopted a code of conduct which applies to all directors, officers and employees and is supplemented by a number of key policies and guidance dealing with matters including , among others, anti-bribery and corruption, anti-money laundering, sanctions, confidentiality, inside information, health, safety and environment, conflicts of interest, market conduct and management records. The Code of Conduct is available to view on RBS's website at rbs.com .

This Compliance report forms part of the Corporate governance report and the Report of the directors.

Report of the directors

The directors present their report together with the audited accounts for the year ended 31 December 2016.

Group structure

The company is a holding company owning the entire issued ordinary share capital of The Royal Bank of Scotland plc, the principal direct operating subsidiary undertaking of the company.

Following placing and open offers in December 2008 and in April 2009, HM Treasury (HMT) owned approximately 70.3% of the enlarged ordinary share capital of the company. In December 2009, the company issued a further £25.5 billion of new capital to HMT in the form of B shares. HMT sold 630 million of its holding of the company's ordinary shares in August 2015. In October 2015 HMT converted its entire holding of 51 billion B shares into 5.1 billion new ordinary shares of £1 each in the company.

The final dividend payment on the Dividend Access Share (DAS) owned by HMT of £1.2 billion was paid in March 2016, effecting the immediate retirement of the DAS which was redesignated as a single B share and subsequently cancelled.

At 31 December 2016, HMT's holding in the company's ordinary shares was 71.3%.

RBS Group ring-fencing

The UK ring-fencing legislation requiring the separation of essential banking services from investment banking services will take effect from 1 January 2019.

To comply with these requirements it is RBS's intention to place the majority of the UK and Western European banking business in ring-fenced banking entities under an intermediate holding company. NatWest Markets will be a separate non ring-fenced bank and The Royal Bank of Scotland International (Holdings) Limited (RBSI Holdings) will also be placed outside the ring-fence, both as direct subsidiaries of RBSG.

The final ring-fenced legal structure and the actions to be taken to achieve it, remain subject to, amongst other factors, additional regulatory, Board and other approvals as well as employee information and consultation procedures. All such actions and their respective timings may be subject to change, or additional actions may be required, including as a result of external and internal factors including further

regulatory, corporate or other developments.

Report of the directors

On 1 January 2017 RBS made a number of key changes to the

legal entity structure as detailed below to support the move towards a ring-fenced structure. There are also plans to make further changes prior to 1 January 2019.

NatWest Holdings Limited (NatWest Holdings)

RBS introduced an intermediate holding company, NatWest Holdings, as a direct subsidiary of RBS plc. This is an interim structure as NatWest Holdings is expected to become a direct subsidiary of RBSG in mid 2018.

National Westminster Bank Plc (NatWest) and Adam & Company Group PLC (Adam & Co) transferred from being direct subsidiaries of RBS plc, and Ulster Bank (Ireland) Holdings Unlimited Company (UBIH) transferred from being a direct subsidiary of Ulster Bank Limited, to become direct subsidiaries of NatWest Holdings.

RBS International

RBSI Holdings transferred from being an indirect subsidiary of RBS plc to become a direct subsidiary of RBSG. The intention is for RBS International's operating companies to remain as subsidiaries of RBSI Holdings.

NatWest bought Lombard North Central PLC and RBS Invoice Finance (Holdings) Limited from RBS plc and some smaller companies from other members of the Group.

Business structure

RBS continues to deliver on its plan to build a strong, simple and fair bank for both customers and shareholders. On 5 December 2016 the Corporate & Institutional Banking (CIB) business was re-branded as NatWest Markets (NWM) in readiness for our future ring-fenced structure; this included the renaming of the reportable operating segment as NatWest Markets. NatWest Markets will continue to offer financing, rates and currencies products to its customers. During 2016 RBS's activities were organised on a franchise basis as follows:

Personal & Business Banking (PBB) comprises two reportable segments, UK Personal & Business Banking (UK PBB) and Ulster Bank RoI. UK PBB serves individuals and mass affluent customers in the UK together

with small businesses (generally up to £2 million turnover). UK PBB includes Ulster Bank customers in Northern Ireland. Ulster Bank RoI serves individuals and businesses in the Republic of Ireland (RoI).

Commercial & Private Banking (CPB) comprises three reportable segments, Commercial Banking, Private Banking and RBS International (RBSI). Commercial Banking serves commercial and corporate customers in the UK and Western Europe. Private Banking serves UK connected high net worth individuals and RBSI serves retail, commercial, corporate and financial institution customers in Jersey, Guernsey, Isle of Man and Gibraltar and financial institution customers in Luxembourg.

Report of the directors

NatWest Markets, formerly Corporate and Institutional Banking (CIB), serves UK and Western Europe corporate customers, and global financial institutions, supported by trading and distribution platforms in the UK, US and Singapore.

Capital Resolution was established to execute the sale or wind down of most of the global footprint, from 38 countries to 13, and trade finance and cash management outside the UK and Ireland. Additionally non-strategic markets, portfolio and banking assets

identified are being sold or wound down.

Williams & Glyn (W&G) refers to the business formerly intended to be divested as a separate legal entity and comprises RBS England and Wales branch-based businesses, along with certain small and medium enterprises and corporate activities across the UK. During the periods presented W&G has not operated as a separate legal entity. The perimeter of the segment currently reported does not include certain portfolios that were intended to be divested such as the Scottish branch based activity of NatWest and NatWest Business Direct.

Central items & other includes corporate functions, such as RBS treasury, finance, risk management, compliance, legal, communications and human resources. Central functions manages RBS capital resources and RBS-wide regulatory projects and provides services to the reportable segments. Balances in relation to Citizens and the international private banking business are included in Central items in the relevant periods.

Results and dividends

The loss attributable to the ordinary shareholders of the Group for the year ended 31 December 2016 amounted to £6,955 million compared with a loss of £1,979 million for the year ended 31 December 2015, as set out in the consolidated income statement on page 378.

The company did not pay a dividend on ordinary shares in 2014, 2015 or 2016.

In the context of prior macro-prudential policy discussions, the Board decided to partially neutralise any impact on Core Tier 1 capital of coupon and dividend payments in respect of 2015 and 2016 Group hybrid capital instruments through equity issuances of c.£300 million. Consequently, approximately £300 million was raised during 2015 and 2016 through the issue of new ordinary shares and the Board has decided a further £300 million of new equity will be issued during the course of 2017 to again partially neutralise the

CET1 impact of coupon and dividend payments.

Report of the directors

The Dividend Access Share (DAS) retirement agreement was approved at the General Meeting of shareholders held on 25 June 2014. The first dividend payment on the DAS of £320 million was made in the third quarter of 2014. The balance of £1.2 billion was paid to HMT in March 2016, effecting the immediate retirement of the DAS which was redesignated as a single B share and subsequently cancelled, further normalising the capital structure of RBS and removing an obstacle toward the resumption of capital distributions.

Business review

Activities

RBS is engaged principally in providing a wide range of banking and other financial services. Further details of the organisational structure and business overview of RBS, including the products and services provided by each of its operating segments and the competitive markets in which they operate are contained in the Business review on pages 171 to 217. Details of the strategy for delivering the company's objectives can be found in the Strategic report.

Risk factors

RBS's future performance and results could be materially different from expected results depending on the outcome of certain potential risks and uncertainties. Full details of these and other risk factors are set out on pages 509 to 578.

The reported results of RBS are also sensitive to the accounting policies, assumptions and estimates that underlie the preparation of its financial statements. Details of RBS's critical accounting policies and key sources of accounting judgments are included in Accounting policies on pages 385 to 401.

RBS's approach to risk management, including its financial risk management objectives and policies and information on RBS's exposure to price, credit, liquidity and cash flow risk, is discussed in the Capital and risk management section.

Financial performance

A review of RBS's performance during the year ended 31 December 2016, including details of each operating segment, and RBS's financial position as at that date is contained in the Business review on pages 171 to 217.

RBS Holdings N.V. (formerly ABN AMRO Holding N.V.)

In 2007, RFS Holdings B.V., which was jointly owned by RBS, the Dutch State (successor to Fortis) and Santander completed the acquisition of ABN AMRO Holding N.V.

Report of the directors

Following the announcements in April 2011 by the Boards of RBSG, RBS plc, RBS Holdings and RBS N.V., a substantial part of the business activities of RBS N.V. had been successfully transferred to RBS plc by 2014. There is continued focus on further de-risking the RBS N.V. balance sheet. Ultimately, the objective is that RBS N.V. is in a position to relinquish its banking licence in the Netherlands.

Business divestments

To comply with the European Commission State Aid requirements RBS agreed a series of restructuring measures. These include the sale of 80.01% of RBS's Global Merchant Services business (completed in 2010), the sale of substantially all of the RBS Sempra Commodities joint venture business (largely completed in 2010), the divestment of Direct Line Insurance Group plc (completed in 2014), as well as the divestment of the RBS branch-based business in England and Wales and the NatWest branches in Scotland, along with the direct SME customers across the UK ("UK branch-based businesses").

During 2016 work has continued to explore means to achieve separation and divestment of the business previously described as Williams & Glyn. On 17 February 2017, RBS announced that it had been informed by HM Treasury (HMT) that the Commissioner responsible for EU competition policy plans to propose to the College of Commissioners to open proceedings to gather evidence on an alternative plan for RBS to meet its remaining State Aid obligations. If adopted, this alternative plan would replace the existing requirement to achieve separation and divestment by 31 December 2017 of the business previously described as Williams & Glyn.

As previously disclosed, none of the proposals to acquire the business received by RBS can deliver full separation and divestment before the 31 December 2017 deadline. As RBS no longer intends to pursue divestment of Williams & Glyn by way of an Initial Public Offering, the £600 million exchangeable bond issued to a consortium of investors, led by Centerbridge and Corsair, was redeemed on 21 October 2016 in accordance with the terms of the bond.

RBS completed its divestment of Citizens Financial Group Inc (IPO completed in 2015).

Employees

Our colleagues

As at 31 December 2016, RBS employed 77,900 people (full-time equivalent basis, including temporary workers) throughout the world. Details of related costs are included in Note 3 on the consolidated accounts.

Building a healthy culture

Building a healthy culture that embodies Our Values is one of our core priorities.

Our Values guide the way we identify the right people to serve our customers well, and how we manage, engage and reward our colleagues. They are at the heart of both Our Standards (the bank wide behavioural framework) and Our Code (the bank wide Code of Conduct).

160

Report of the directors

To really live our values we continue to reinforce them in our systems, our policies and processes, our communications, training and leadership role modelling.

We monitor our progress against our goals. We gather feedback from our colleagues, and through metrics and key performance indicators to assess our progress and respond accordingly. We do this in tandem with feedback from regulators and industry bodies.

Engaging our colleagues

We know that building an engaged, healthy and inclusive workforce is crucial to achieving our ambition. Every year we ask our colleagues to share their thoughts on what it's like to work here via our annual colleague survey (OurView). The results help us monitor levels of engagement and enable our people leaders to work with their teams to make improvements. It also helps us measure the progress we are making towards our goals.

Our most recent survey, in which almost 63,000 colleagues took part, showed that we are changing the culture of RBS for the better. We remain above the global financial services norm for wellbeing, our inclusion scores continue to improve and there is a strong sense that managers act consistently with Our Values. However, the choices we've had to make as we move RBS forward have taken a toll on our colleagues. The scaling down of RBS and the impact of dealing with some difficult legacy issues have contributed to a decline in the improvements in engagement, pride and leadership that we saw in 2015.

Rewarding our colleagues

Our approach to performance management provides clarity for our colleagues about how their contribution links to our ambition. It recognises behaviour that supports our values and holds individuals to account for behaviour and performance that does not. In 2016 we refreshed our behavioural framework to create one framework for all our colleagues.

We have a focus on paying the right wage to colleagues and our rates of pay continue to exceed the Living Wage Foundation Benchmarks.

At the start of 2016 we removed sales incentives and we gave every eligible frontline colleague in Personal & Business Banking an increase to their guaranteed pay. This approach remains popular with our colleagues and ensures that our customers can be certain that if they take a product from us, it has no financial impact on what our colleagues are paid.

For 2017, we have simplified how we pay our clerical colleagues, consolidating bonuses, making pay fairer and easier to understand.

161

Report of the directors

We remain focused on our goals in relation to gender equality and have played an active role in the consultation process for upcoming Gender Pay Gap Reporting regulations. We intend to comply fully with the regulations and to make a public disclosure during 2017.

Developing our colleagues

In 2015, we launched 'Determined to Lead', a core management system for RBS. It is the means by which leaders put our values into practice every day and is transforming the way we operate by creating a common language, consistent operating rhythm and improving the competence of our leaders across RBS. It provides consistent tools to lead and engage our colleagues. This programme has continued in 2016 with over 16,000 leaders participating in the programme.

In October 2016 we launched Service Excellence training, our new customer service programme. The first module introduces our Core Service Behaviours and provides an awareness of the tools and techniques that will help us to deliver the best possible service, every time. Service Excellence gives us a shared service language and the behaviours to help us achieve our ambition. Since October over 34,000 colleagues have completed this module.

Professionalising our colleagues is important to us. We work closely with the Chartered Banker Institute (CBI) and Chartered Banker Professional Standards Board (CB:PSB) to offer our colleagues professional qualifications. Over 8,000 of our colleagues completed their CBI qualification in 2016.

We are especially pleased that we achieved an Excel rating in the CB:PSB Foundation Standard review for 2015. We are one of only two CB:PSB member firms to have secured 'Earned Autonomy' - meaning we are exempt from quarterly monitoring over the next 3 years. 95% of our in-scope population have achieved the Foundation Standard. This is a great reflection of the focus we continue to place on professionalising our colleagues.

We also offer a wide range of learning which can be mandatory, role specific or related to personal development. Our mandatory learning has to be completed by everyone and is focused on keeping our our customers, colleagues and RBS safe.

Youth employment

In 2016 we welcomed over 500 people across our Graduate and Apprenticeship schemes, 40% being female hires.

Health and wellbeing of our colleagues

Wellbeing is a big part of how we create a great place to work.

We offer a wide range of health benefits and services to help maintain physical and mental health, and support our colleagues if they become unwell.

162

Report of the directors

In 2016, we focused on physical, mental health and social wellbeing. We participated in the Global Corporate Challenge (GCC) - more than 50,000 colleagues took part helping us to win the GCC World Most Active Organisation Gold Award. We also continued to promote Lifeworks (RBS's Employee Assistance Programme) and launched our Mindfulness toolkit. We continued our support of Time to Change (the UK's biggest programme to challenge mental health stigma).

Employee consultation

We recognise employee representatives such as trade unions and work councils in a number of businesses and countries. There has been ongoing engagement and discussion with those bodies given the scale of change taking place across RBS. Management have continued to meet regularly with our European Employee Council to discuss developments and update on the progress of our strategic plans.

Inclusion

Building a more inclusive RBS is essential for our customers and colleagues. Our inclusion policy standard applies to all our colleagues globally.

During 2016, we continued to roll out unconscious bias learning to all our colleagues to create a solid platform for the wider inclusion agenda. Almost 30,000 colleagues participated in unconscious bias training in 2016 meaning we have trained around 66,000 colleagues across RBS to date.

We continue to work towards our goal of having at least 30% senior women in our top three leadership layers across each Franchise and Function by 2020 and to be fully gender balanced (50/50) by 2030. We have a positive action approach in place, tailored by business, according to the specific challenges they face.

Our disability plan will support us becoming a disability smart organisation by 2018. It addresses areas for improvement including branch access, accessible services, improving colleague adjustment processes and inserting disability checkpoints into our key processes and practices.

We continue to focus on building an ethnically diverse RBS. Our plan focuses on positive action and includes reciprocal mentoring, targeted development workshops and leadership programmes and ensuring we have a Black, Asian and Minority Ethnic (BAME) focus on recruitment, talent identification and promotion.

Our LGBT agenda continues to deliver a better experience for our LGBT colleagues and customers. We have processes in place to support updating gender and title on customers' banking records and to support colleagues undergoing gender transition. And, we continue to support our 16,000 strong employee-led networks.

163

Report of the directors

We have been recognised for our work on Equality, Diversity and Inclusion by our Platinum ranking from Opportunity Now (gender), our Gold ranking for Race for Opportunity (race); retaining a position in the Times Top 50 Employers for Women; becoming a Top Ten Global Employer in Stonewall's Global Equality Index (LGBT), Silver Status from The Business Disability Forum and being rated a Top 10 Employer by Working Families.

Sustainability

Our purpose is to serve customers well. We will rebuild our reputation and earn our customers' trust by putting customers first, making RBS a great place to work, supporting our communities and being mindful of environmental impacts. The Sustainable Banking Committee's role is to support the Board in overseeing, supporting and challenging actions being taken by management to run RBS as a sustainable business.

For more information on our approach and progress please read the RBS Strategic Report. Further information is available on rbs.com/sustainability.

Greenhouse gas emissions

Disclosures relating to greenhouse gas emissions are included in the Strategic Report on page 39.

Going concern

RBS's business activities and financial position, the factors likely to affect its future development and performance and its objectives and policies in managing the financial risks to which it is exposed and its capital are discussed in the Business review. The risk factors which could materially affect RBS's future results are set out on pages 509 to 578. RBS's regulatory capital resources and significant developments in 2016 and anticipated future developments are detailed on pages 230 to 269. The liquidity and funding section on pages 255 to 269 describes RBS's funding and liquidity profile, including changes in key metrics and the build up of liquidity reserves.

Having reviewed RBS's forecasts, projections and other relevant evidence, the directors have a reasonable expectation that RBS and the company will continue in operational existence for the foreseeable future. Accordingly, the financial statements of RBS and of the company have been prepared on a going concern basis.

Report of the directors

BBA disclosure code

RBS's 2016 financial statements have been prepared in compliance with the principles set out in the Code for Financial Reporting Disclosure published by the British Bankers' Association in 2010. The Code sets out five disclosure principles together with supporting guidance. The principles are that RBS and other major UK banks will provide high quality, meaningful and decision-useful disclosures; review and enhance their financial instrument disclosures for key areas of interest to market participants; assess the applicability and relevance of good practice recommendations to their disclosures acknowledging the importance of such guidance; seek to enhance the comparability of financial statement disclosures across the UK banking sector; and clearly differentiate in their annual reports between information that is audited and information that is unaudited.

Enhanced Disclosure Task Force (EDTF)

The EDTF established by the Financial Stability Board, published its report 'Enhancing the Risk Disclosures of Banks' in October 2012. All EDTF recommendations are reflected in the 2016 Annual Report on Form 20-F.

Corporate governance

The company is committed to high standards of corporate governance. Details are given in the Corporate governance report on pages 59 to 149. The Corporate governance report and compliance report (pages 150 to 155) form part of this Report of the directors.

Share capital

Details of the ordinary and preference share capital at 31 December 2016 and movements during the year are shown in Note 25 on the consolidated accounts.

During 2016, the company allotted and issued a total of 142.2 million new ordinary shares of £1 each for the purposes of ensuring 2016 coupon payments on discretionary hybrid capital securities were partly neutralised from a Core Tier 1 capital perspective. The shares were allotted to UBS AG at the subscription prices determined by reference to the average market prices during the sale periods set out below.

Number of shares sold	Subscription price	Sale period	Gross proceeds	Share price on allotment
37.6m	226.250p	26/2/16-14/4/16	£85 million	231.6p
	220.687p	29/4/16-24/5/16	£85 million	245.3p

38.5m

35.5m	196.924p	05/8/16-02/09/16	£70 million	204.3p
30.6m	195.930p	28/10/16-16/11/16	£60 million	208.4p

In the three years to 31 December 2016, the percentage increase in issued share capital due to non-pre-emptive issuance (excluding employee share schemes) for cash was 2.71%.

In addition, the company issued 56 million shares in connection with employee share schemes during 2016.

Report of the directors

In October 2015, HMT converted its entire holding of 51 billion B shares into 5.1 billion new ordinary shares of £1 each.

In March 2016, the company paid a final dividend of £1.2 billion in respect of the Dividend Access Share (DAS) held by HMT, effecting the immediate retirement of the DAS which was redesignated as a single B share and subsequently cancelled.

Authority to repurchase shares

At the Annual General Meeting in 2016 shareholders authorised the company to make market purchases of up to 1,166,108,903 ordinary shares. The directors have not exercised this authority to date. Shareholders will be asked to renew this authorisation at the Annual General Meeting in 2017.

Additional information

Where not provided elsewhere in the Report of the directors, the following additional information is required to be disclosed by Part 6 of Schedule 7 to the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008.

The rights and obligations attached to the company's ordinary shares and preference shares are set out in the company's Articles of Association, copies of which can be obtained from Companies House in the UK or can be found at rbs.com/about/board-and-governance.

On a show of hands at a general meeting of the company every holder of ordinary shares and cumulative preference shares present in person or by proxy and entitled to vote shall have one vote. On a poll, every holder of ordinary shares or cumulative preference shares present in person or by proxy and entitled to vote shall have four votes for every share held. The notices of Annual General Meetings and General Meetings specify the deadlines for exercising voting rights and appointing a proxy or proxies to vote in relation to resolutions to be passed at the meeting.

The cumulative preference shares represent less than 0.008% of the total voting rights of the company, the remainder being represented by the ordinary shares.

There are no restrictions on the transfer of ordinary shares in the company other than certain restrictions which may from time to time be imposed by laws and regulations (for example, insider trading laws).

Pursuant to the Listing Rules of the FCA, certain employees of the company require the approval of the company to deal in the company's shares.

The rules governing the powers of directors, including in relation to issuing or buying back shares and their appointment are set out in the company's Articles of Association. It will be proposed at the 2017 Annual General Meeting that the directors be granted authorities to allot shares under the Companies Act 2006. The company's Articles of Association may only be amended by a special resolution at a general meeting of shareholders.

Report of the directors

The rights and obligations of holders of non-cumulative preference shares are set out in Note 25 on the consolidated accounts.

The company is not aware of any agreements between shareholders that may result in restrictions on the transfer of securities and/or voting rights. There are no persons holding securities carrying special rights with regard to control of the company.

A number of the company's employee share plans include restrictions on transfers of shares while shares are subject to the plans or the terms under which the shares were awarded.

Under the rules of certain employee share plans, eligible employees are entitled to acquire shares in the company, and shares are held in trust for participants by The Royal Bank of Scotland plc and Ulster Bank Dublin Trust Company as Trustees. Voting rights are exercised by the Trustees on receipt of participants' instructions. If a participant does not submit an instruction to the Trustee no vote is registered.

The Royal Bank of Scotland plc 1992 Employee Share Trust, The Royal Bank of Scotland Group plc 2001 Employee Share Trust and The Royal Bank of Scotland Group plc 2007 US Employee Share Trust hold shares on behalf of RBS's employee share plans. The voting rights are exercisable by the Trustees, however, in accordance with investor protection guidelines, the Trustees abstain from voting. The Trustees would take independent advice before accepting any offer in respect of their shareholdings for the company in a takeover bid situation.

Awards granted under the company's employee share plans may be met through a combination of newly issued shares and shares acquired in the market by the company's employee benefit trusts.

A change of control of the company following a takeover bid may cause a number of agreements to which the company is party to take effect, alter or terminate. All of the company's employee share plans contain provisions relating to a change of control. Outstanding awards and options may vest and become exercisable on change of control, subject where appropriate to the satisfaction of any performance conditions at that time and pro-rating of awards. In the context of the company as a whole, these agreements are not considered to be significant.

Directors

The names and brief biographical details of the current directors are shown on pages 59 to 65.

Sandy Crombie, Howard Davies, Alison Davis, Morten Friis, Robert Gillespie, Penny Hughes, Ross McEwan, Brendan Nelson, Baroness Noakes and Ewen Stevenson all served throughout the year and to the date of signing of the financial statements.

Report of the directors

Mike Rogers was appointed to the Board on 26 January 2016 and Frank Dangeard was appointed on 16 May 2016.

All directors of the company are required to stand for election or re-election annually by shareholders at the Annual General Meeting and, in accordance with the UK Listing Rules, the election or re-election of independent directors requires approval by all shareholders and also by independent shareholders.

Directors' interests

The interests of the directors in the shares of the company at 31 December 2016 are shown on page 135. None of the directors held an interest in the loan capital of the company or in the shares or loan capital of any of the subsidiary undertakings of the company, during the period from 1 January 2016 to 23 February 2017.

Directors' indemnities

In terms of section 236 of the Companies Act 2006 (the "Companies Act"), Qualifying Third Party Indemnity Provisions have been issued by the company to its directors, members of the RBS Executive Committee, individuals authorised by the PRA/FCA and certain directors and/or officers of RBS subsidiaries.

In terms of section 236 of the Companies Act, Qualifying Pension Scheme Indemnity Provisions have been issued to all trustees of RBS pension schemes.

Post balance sheet events

Other than the matter disclosed on page 483, there have been no significant events between the year end and the date of approval of these accounts which would require a change to or disclosure in the accounts.

Controlling shareholder

In accordance with the UK Listing Rules, the company has entered into an agreement with HM Treasury (the 'Controlling Shareholder') which is intended to ensure that the Controlling Shareholder complies with the independence provisions set out in the UK Listing Rules. The company has complied with the independence provisions in the relationship agreement and as far as the company is aware the independence and procurement provisions in the relationship agreement have been complied with in the period by the controlling shareholder.

Shareholdings

The table below shows shareholders that have notified RBS that they hold more than 3% of the total voting rights of the company at 31 December 2016.

Solicitor For The Affairs of Her Majesty's Treasury as Nominee for Her Majesty's Treasury	Number of shares		% of total voting rights held
	(millions)	% of share class held	
Ordinary shares	8,434	71.3	71.3

As at 23 February 2017, there were no changes to the shareholdings shown in the table above.

168

Report of the directors

Listing Rule 9.8.4

In accordance with the UK Financial Conduct Authority's Listing Rules the information to be included in the Annual Report and Accounts under LR 9.8.4, is set out in this Directors' report with the exception of details of contracts of significance under LR 9.8.4. (10) and (11) given in Additional Information on pages 505 to 508.

Political donations

At the Annual General Meeting in 2016, shareholders gave authority under Part 14 of the Companies Act, for a period of one year, for the company (and its subsidiaries) to make political donations and incur political expenditure up to a maximum aggregate sum of £100,000. This authorisation was taken as a precaution only, as the company has a longstanding policy of not making political donations or incurring political expenditure within the ordinary meaning of those words. During 2016, RBS made no political donations, nor incurred any political expenditure in the UK or EU and it is not proposed that RBS's longstanding policy of not making contributions to any political party be changed. Shareholders will be asked to renew this authorisation at the Annual General Meeting in 2017.

Directors' disclosure to auditors

Each of the directors at the date of approval of this report confirms that:

(a) so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware; and

(b) the director has taken all the steps that he/she ought to have taken as a director to make himself/herself aware of any relevant audit information and to establish that the company's auditors are aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of section 418 of the Companies Act.

Auditors

EY LLP are the auditors. EY were appointed to fill the casual vacancy arising from Deloitte LLP's resignation following the signing of the 2015 accounts and the Group's Form 20-F and appointed by

shareholders at the 2016 Annual General Meeting . A resolution to reappoint EY as the company's auditors will be proposed at the forthcoming Annual General Meeting.

By order of the Board

Aileen Taylor

Company Secretary

23 February 2017

The Royal Bank of Scotland Group plc

is registered in Scotland No. SC45551

Statement of directors' responsibilities

This statement should be read in conjunction with the responsibilities of the auditor set out in their report on page 376 to 377.

The directors are responsible for the preparation of the Annual Report and Accounts. The directors are required by Article 4 of the IAS Regulation (European Commission Regulation No 1606/2002) to prepare Group accounts, and as permitted by the Companies Act 2006 have elected to prepare company accounts, for each financial year in accordance with International Financial Reporting Standards as adopted by the European Union. They are responsible for preparing accounts that present fairly the financial position, financial performance and cash flows of the Group and the company. In preparing those accounts, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent; and
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the accounts.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Group and to enable them to ensure that the Annual Report and Accounts complies with the Companies Act 2006. They are also responsible for safeguarding the assets of the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors confirm that to the best of their knowledge:

- the financial statements, prepared in accordance with International Financial Reporting Standards, give a true and fair view of the assets, liabilities, financial position and profit or loss of the company and the undertakings included in the consolidation taken as a whole; and
- the Strategic Report and Directors' report (incorporating the Business review) include a fair review of the development and performance of the business and the position of the company and the undertakings included in the consolidation taken as a whole, together with a description of the principal risks and uncertainties that they face.

In addition, the directors are of the opinion that the Annual Report and Accounts, taken as a whole, is fair, balanced and understandable and provides the information necessary for shareholders to assess the company's position and performance, business model and strategy.

Presentation of information

Franchises and reportable segments

RBS continues to deliver on its plan to build a strong, simple and fair bank for both customers and shareholders. On 5 December 2016 the Corporate & Institutional Banking (CIB) business was re-branded as NatWest Markets (NWM) in readiness for the future ring-fenced structure. This included the renaming of the reportable operating segment as NatWest Markets. NatWest Markets will continue to offer financing, rates and currencies products to its customers.

During 2016 RBS's activities were organised on a franchise basis as follows:

Personal & Business Banking (PBB) comprises two reportable segments: UK Personal & Business Banking (UK PBB) and Ulster Bank RoI. UK PBB serves individuals and mass affluent customers in the UK together with small businesses (generally up to £2 million turnover). UK PBB includes Ulster Bank customers in Northern Ireland. Ulster Bank RoI serves individuals and businesses in the Republic of Ireland (RoI).

Commercial & Private Banking (CPB) comprises three reportable segments: Commercial Banking, Private Banking and RBS International (RBSI). Commercial Banking serves commercial and corporate customers in the UK and Western Europe. Private Banking serves UK connected high net worth individuals and RBSI serves retail, commercial, corporate and financial institution customers in Jersey, Guernsey, Isle of Man and Gibraltar and financial institution customers in Luxembourg.

NatWest Markets, formerly Corporate and Institutional Banking (CIB), serves UK and Western European corporate customers, and global financial institutions, supported by trading and distribution platforms in the UK, US and Singapore.

Capital Resolution was established to execute the sale or wind down of most of the global footprint, from 38 countries to 13, and trade finance and cash management outside the UK and Ireland. Additionally non-strategic markets, portfolio and banking assets identified are being sold or wound down.

Williams & Glyn (W&G) refers to the business formerly intended to be divested as a separate legal entity and comprises RBS England and Wales branch-based businesses, along with certain small and medium enterprises and corporate activities across the UK. During the periods presented W&G has not operated as a separate legal entity. The perimeter of the segment currently reported does not include certain portfolios that were intended to be divested such as the Scottish branch based activity of NatWest and NatWest Business Direct.

Central items & other includes corporate functions, such as RBS treasury, finance, risk management, compliance, legal, communications and human resources. Central functions manages RBS capital resources and RBS-wide regulatory projects and provides services to the reportable segments. Balances in relation to Citizens and the international private banking business are included in Central items in the relevant periods.

Allocation of central balance sheet items

RBS allocates all central costs relating to Services and Functions to the business using appropriate drivers, these are reported as indirect costs in the segmental income statements. Assets (and risk-weighted assets) held centrally, mainly relating to RBS Treasury, are allocated to the business using appropriate drivers.

Citizens

RBS sold the final tranche of its interest in Citizens Financial Group, Inc. during the second half of 2015. Consequently, Citizens was classified as a disposal group at 31 December 2014 and presented as a discontinued operation until October 2015. From 3 August 2015 until the final tranche was sold in October 2015, Citizens was an associated undertaking.

RBS Group ring-fencing

The UK ring-fencing legislation requiring the separation of essential banking services from investment banking services will take effect from 1 January 2019.

To comply with these requirements it is RBS's intention to place the majority of the UK and Western European banking business in ring-fenced banking entities under an intermediate holding company. NatWest Markets will be a separate non ring-fenced bank and The Royal Bank of Scotland International (Holdings) Limited (RBSI Holdings) will also be placed outside the ring-fence, both as direct subsidiaries of RBSG.

The final ring-fenced legal structure and the actions to be taken to achieve it, remain subject to, amongst other factors, additional regulatory, Board and other approvals as well as employee information and consultation procedures. All such actions and their respective timings may be subject to change, or additional actions may be required, including as a result of external and internal factors including further regulatory, corporate or other developments.

On 1 January 2017 RBS made a number of key changes to the

legal entity structure as detailed below to support the move towards a ring-fenced structure. There are also plans to make further changes prior to 1 January 2019.

NatWest Holdings Limited (NatWest Holdings)

RBS introduced an intermediate holding company, NatWest Holdings, as a direct subsidiary of RBS plc. This is an interim structure as NatWest Holdings is expected to become a direct subsidiary of RBSG in mid 2018.

National Westminster Bank Plc (NatWest) and Adam & Company Group PLC (Adam & Co) transferred from being direct subsidiaries of RBS plc, and Ulster Bank (Ireland) Holdings Unlimited Company (UBIH) transferred from being a direct subsidiary of Ulster Bank Limited, to become direct subsidiaries of NatWest Holdings.

Presentation of information

RBS International

RBSI Holdings transferred from being an indirect subsidiary of RBS plc to become a direct subsidiary of RBSG. The intention is for RBS International's operating companies to remain as subsidiaries of RBSI Holdings.

NatWest bought Lombard North Central PLC and RBS Invoice Finance (Holdings) Limited from RBS plc and some smaller companies from other members of the Group.

Competition

Personal & Business Banking (comprising UK PBB and Ulster Bank RoI)

In the personal and small business banking business, the Bank competes with a range of providers including UK banks and building societies, major retailers and life assurance companies, as well as the UK subsidiaries of major international banks. In the mortgage market, the Bank competes with UK banks, building societies and specialist lenders. Increasingly, the ambitions of non-traditional players in the UK market are gaining credibility, with new entrants active and seeking to build their platforms either through organic growth or in some cases by acquiring businesses made available through the restructuring of incumbents. Entrants with new business models such as peer-to-peer lending platforms, while currently small, continue to grow rapidly and are emerging as significant competitors. Such competitors often target specific elements of the value chain, providing specialised services to particular customer segments.

RBS distributes life assurance products to banking customers in competition with independent advisors and life assurance companies.

In Ireland, Ulster Bank competes in retail and commercial banking with the major Irish banks and building societies, and with other UK and international banks and building societies active in the market.

In the UK credit card market large retailers and specialist card issuers are active in addition to the UK banks. In addition to physical distribution channels, providers compete through direct marketing activity and digital channels.

In an environment in which central banks have maintained very low interest rates for an unusually long period or introduced negative rates, competitive dynamics have changed in some of the principal markets in which we operate. In this environment an ability to attract and manage funding remains a critical competitive advantage. Other key competitive factors in this market segment include cost management, growing digital sales focus, branch network re-shaping, and product simplification. Cost management remains a key focus in the market, as banks seek to simplify their organisational and IT architectures while at the same time investing to ensure that they can meet customers' evolving channel preferences. Customers have increasingly focused on the use of internet and mobile as sales and service channels for certain types of products. Therefore, competitive position and performance in the sector increasingly depends on the possession of user-friendly, diverse and efficient online solutions.

Although conveniently located branches are still important, RBS faces competitive pressure to adjust its branch formats to meet changing customer expectations and to manage its branch footprint as over-the-counter transaction volumes decline. In terms of product offering, the industry trend is to limit the number of products and present the product structure and costs in a clear and transparent manner.

Commercial & Private Banking (comprising Commercial Banking, Private Banking and RBS International)

Competition for corporate and institutional customers in the UK is from UK banks, from specialised global and regional investment banks and from large foreign universal banks that offer combined investment and commercial banking capabilities as well as from new entrants and non-bank challengers. In asset finance and invoice finance, the bank competes with banks and specialist finance providers, both captive and non-captive. In the small business banking market, the bank competes with other UK banks, specialist finance providers and building societies. In all of these areas, entrants with new technology-based business model are also showing rapid growth. RBS International competes with other UK and international banks to offer offshore banking services as well as domestic banking services in the Channel Islands, Gibraltar and the Isle of Man. Coutts and Adam & Company compete as private banks with UK clearing and private banks, asset managers and with international private banks. Competition in wealth management remains strong as banks maintain their focus on competing for affluent and high net worth customers.

NatWest Markets

NatWest Markets (formerly CIB) focuses on the needs of large corporates operating in the UK and Western Europe as well as global financial institution customers. NatWest Markets provides financing and risk management for these customers, and trades with financial institutions and counterparties for distribution and market making. There are sales and trading operations in London, the US and Singapore and offices in a select number of countries. NatWest Markets therefore competes with large domestic banks, major international banks and a number of investment banks that offer such products in these regions.

The Bank's product proposition is built around our core strengths: supporting customers across currencies, rates and financing. Key competitive factors in this market include the ability to develop automation across flow products as well as delivering value-adding bespoke solutions for our customers.

With an evolving regulatory landscape and continued pressure on margins, competition in this market remains strong. Many market participants are also revising their strategy in order to ensure they deliver sustainable returns.

Notes:

(1) Interest receivable includes £290 million (2015 - £400 million; 2014 - £453 million) in respect of loan fees forming part of the effective interest rate of loans and receivables.

- (2) Negative interest on loans and advances is classed as interest payable.
- (3) Interest receivable and interest payable on trading assets and liabilities are included in income from trading activities.
- (4) Gross yield is the interest earned on average interest-earning assets of the banking book.
- (5) Interest spread is the difference between the gross yield and the interest rate paid on average interest-bearing liabilities of the banking business.
- (6) Net interest margin is net interest income of the banking business as a percentage of interest-earning assets (IEA) of the banking business.
- (7) For the purpose of calculating gross yields and interest spread, interest receivable and interest payable have both been decreased by £76 million in respect of negative interest relating to financial assets that attracted negative interest.
- (8) The analysis into UK and overseas has been compiled on the basis of location of office.

Business review

2016 compared with 2015

Net interest income of £8,708 million reduced by £59 million compared with 2015 principally driven by a £126 million reduction in Capital Resolution, in line with the planned shrinkage of the balance sheet.

Net interest margin (NIM) was 2.18% for 2016, 6 basis points higher than 2015 as the benefit associated with reductions in low yielding 'non-core' assets has been partially offset by modest asset margin pressure and mix impacts across PBB (comprising the reportable segments UK PBB and Ulster Bank RoI) and CPB (comprising the reportable segments Commercial Banking, Private Banking and RBSI).

Average interest earning assets⁽¹⁾ across the combined PBB and CPB increased by 11% on 2015, compared with a 3% decline for RBS total, and represented 82% of total average interest earning assets (2015 - 72%). NIM across PBB and CPB was 2.31%, 13 basis points lower than 2015.

UK PBB NIM decreased by 17 basis points to 3.01% reflecting the impact of the overall portfolio mix being increasingly weighted towards secured lending and mortgage customers switching from standard variable rate (SVR) to lower rate products. During the second half of 2016 SVR balances stabilised at approximately 12% of mortgage balances.

Ulster Bank RoI NIM increased by 5 basis points to 1.62% driven by a continued reduction in the cost of deposits and a reduced volume of low yielding liquid assets, partly offset by reduced income on free funds.

Commercial Banking NIM fell by 12 basis points to 1.76% driven by asset margin pressure in a competitive market and low rate environment.

Private Banking NIM reduced by 9 basis points to 2.66% principally driven by asset margin pressure.

RBSI NIM fell by 12 basis points to 1.36% reflecting asset and liability margin pressures, partially offset by mitigating pricing actions.

Structural hedges of £123 billion generated a benefit of £1.3 billion through net interest income for the year. Around 73% of these hedges are part of a five year rolling hedge programme with around 27% as part of a

ten year hedge) that will progressively roll-off over the coming years.

2015 compared with 2014

Net interest income declined by £491 million, or 5% to £8,767 million compared with £9,258 million, driven principally by a 46% reduction in Capital Resolution, down from £673 million to £365 million, in line with the planned shrinkage of the balance sheet.

Net interest margin (NIM) declined by 2 basis points to 2.12% reflecting new business volumes in core UK businesses, primarily mortgages remaining under competitive margin pressures combined with an increased portion of the book shifting toward lower margin secured assets. This was partly offset by deposit re-pricing and the planned run down of low margin assets in Capital Resolution.

UK PBB net interest income fell by £69 million, 2% to £4,152 million, as competitive front book margin pressures impacted. In addition, customers continued to roll off standard variable rate products (17% of overall mortgage book in 2015) and onto lower margin fixed rate products. As a result NIM fell by 14 basis points to 3.18% compared with 3.32% in 2014.

Ulster Bank RoI net interest income fell by £102 million, 22% to £365 million compared with £467 million primarily due to the weakening of the euro relative to sterling and reduced income on free funds. Ulster Bank RoI NIM continues to be impacted by the low yielding tracker mortgage book.

Note:

(1) See table below for combined net interest income, average interest earning assets and NIM calculation.

Reportable segment	Net interest income		Average interest earning assets		NIM	
	2016	2015	2016	2015	2016	2015
UK PBB	4,287	4,152	142,458	130,702	3.01%	3.18%
Ulster Bank RoI	409	365	25,193	23,232	1.62%	1.57%
Commercial Banking	2,143	1,997	121,677	106,429	1.76%	1.88%
Private banking	449	436	16,887	15,835	2.66%	2.75%
RBSI	303	303	22,254	20,518	1.36%	1.48%

Business review

2016 compared with 2015

Non-interest income was £3,882 million, a reduction of £274 million, or 7%, compared with 2015. Capital Resolution non-interest income reduced by £775 million reflecting planned asset disposal, including £572 million of disposal losses compared with £367 million in 2015, and a funding valuation adjustment of £170 million. In addition, we recognised a charge of £510 million for volatile items under IFRS compared with a £15 million gain in 2015. Partially offsetting, we reported a strategic disposal gain of £164 million, compared with a loss of £157 million in 2015, a loss on redemption of own debt of £126 million, compared with £263 million in 2015, an FX gain of £349 million following the significant weakening of sterling against the dollar and a £97 million foreign exchange reserve recycling gain.

Net fees and commissions decreased by £398 million, or 14%, compared with 2015 reflecting the planned Capital Resolution asset run-down, £168 million, a reduction in NatWest Markets, £175 million, and a £36 million reduction in UK PBB, driven by lower credit card interchange fees and increased cash back payments following the launch of the Rewards account.

Income from trading activities decreased by £86 million to £974 million including a £133 million decrease in Capital Resolution, own credit adjustments of £154 million (2015 - £254 million) and an increased charge for volatile items under IFRS, partially offset by an increase in NatWest Markets, £219 million.

Other operating income increased by £73 million principally reflecting a strategic disposal gain of £164 million, compared with a loss of £157 million in 2015 partially offset by planned asset disposals in Capital Resolution. Own credit adjustments represented a gain of £26 million compared with £55 million in 2015.

2015 compared with 2014

Non-interest income totalled £4,156 million, a decline of £1,736 million, or 29%, compared with £5,892 million in 2014, primarily driven by a reduction of £945 million in Capital Resolution as the business accelerated the planned shrinkage of the balance sheet, including disposal losses from the sale of several portfolios in the year. A movement of £530 million from volatile items under IFRS was recorded, which represented a gain of £15 million in 2015 compared with a charge of £501 million in 2014.

Net fees and commissions fell by £606 million, or 17%, to £2,933 million, compared with £3,539 million, principally from the reduced scale of activity in NatWest Markets (formerly CIB), run down of Capital

Resolution and lower card interchange fees in UK PBB, down £59 million.

Income from trading activities declined by £225 million, or 18%, to £1,060 million compared with £1,285 million, due to the reduced scale and resources in NatWest Markets (formerly CIB) and the continued planned reduction of the Capital Resolution business and the impact of disposal losses partially offset by a gain on own credit adjustments of £254 million compared with a charge of £40 million in 2014.

A loss of £263 million was recognised on redemption of own debt, from a liability management exercise to repurchase certain US dollar, sterling and euro senior debt securities, compared with a gain of £20 million in 2014.

Total disposal losses in Capital Resolution were £367 million, including £38 million of strategic disposal losses. Total strategic disposal losses were £157 million, compared with a gain of £191 million in 2014, principally relating to the international private banking business.

Other operating income reduced by £622 million, or 59%, to £426 million compared with £1,048 million, principally due to the reduced scale of NatWest Markets (formerly CIB) together with the run down of Capital Resolution and the impact of disposal losses. A loss of £67 million on the disposal of available-for-sale securities in Treasury was recorded compared with a gain of £149 million in 2014. Own credit adjustments represented a gain of £55 million compared with a charge of £106 million in 2014.

Business review

2016 compared with 2015

Operating expenses of £16,194 million were £159 million, or 1%, lower than 2015 reflecting a £1,136 million, or 12%, reduction in adjusted operating expenses which excludes a £825 million, or 28%, reduction in restructuring costs. In addition, 2015 included a £498 million write down of goodwill relating to Private Banking. Partially offsetting the above, litigation and conduct costs increased by £2,300 million.

Adjusted operating expenses (which exclude restructuring costs £2,106 million (2015 - £2,931 million), litigation and conduction costs £5,868 million (2015 - £3,568 million), and write down of goodwill in 2015 of £498 million) reduced by £1,136 million, or 12%, compared with 2015 to £8,220 million. Excluding expenses associated with Williams & Glyn £393 million (2015 -£359 million), write down of intangibles £117 million (2015 -£75 million) and a £227 million VAT recovery, expenses reduced by £985 million, or 11%, in excess of our £800 million target. RBS has achieved a cumulative cost reduction of £3.1 billion across 2014 – 2016.

Staff costs of £5,124 million were £602 million, or 11%, lower than 2015 underpinned by a 13,700, or 15%, reduction in FTEs and a reduction in restructuring costs of £188 million, or 23% to £642 million.

Restructuring costs were £2,106 million for 2016, compared with £2,931 million in 2015, and included a £750 million provision in respect of the 17 February 2017 update on RBS's remaining State Aid obligation regarding Williams & Glyn. In addition, £706 million of the remaining restructuring costs relate to Williams & Glyn, including £146 million of termination costs associated with the decision to discontinue the programme to create a cloned banking platform.

Litigation and conduct costs of £5,868 million included; a £3,107 million provision in relation to various investigations and litigation matters relating to RBS's issuance and underwriting of residential mortgage-backed securities (RMBS), £601 million of additional PPI provisions, a £400 million provision in respect of the FCA review of RBS's treatment of SMEs, an additional £169 million charge in respect of the settlement with the National Credit Union Administration Board to resolve two outstanding RMBS lawsuits in the United States relating to residential mortgage backed securities, a £172 million provision in Ulster Bank RoI, principally in respect of remediation and programme costs associated with an industry wide examination of tracker mortgages, and a provision in respect of the UK 2008 rights issue shareholder litigation.

2015 compared with 2014

Total operating expenses of £16,353 million included significantly higher litigation and conduct costs of £3,568 million (2014 - £2,194 million), restructuring costs of £2,931 million (2014 - £1,154 million) and a goodwill impairment of £498 million attributed to Private Banking (2014 - £130 million in Capital Resolution).

Adjusted operating expenses which excludes litigation and conduct costs of £3,568 million (2014 - £2,194 million), restructuring costs of £2,931 million (2014 - £1,154 million) and a write-down of goodwill of £498 million (2014 - £130 million) fell by £1,025 million, 10% to £9,356 million compared with £10,381 million. Excluding expenses associated with Williams & Glyn (2015 - £261 million; 2014 - £232 million) and the benefit of lower intangible asset write offs (2015 - £75 million; 2014 - £146 million), operating expenses reduced by £983 million, exceeding the revised 2015 cost saving target of over £900 million.

Staff costs were 1% lower totalling £5,726 million compared with £5,757 million, with the reductions as a result of lower headcount in NatWest Markets and Capital Resolution offset by increases in restructuring costs to £830 million as the transformation of the bank accelerated, particularly in NatWest Markets.

Restructuring costs totalled £2,931 million compared with £1,154 million in 2014, as the transformation of the bank accelerated, particularly re-engineering the NatWest Markets business. This is in line with prior guidance for total restructuring costs of c.£5 billion from 2015 to 2019. NatWest Markets restructuring costs totalled £524 million, including software and property write downs. Capital Resolution restructuring costs were much higher totalling £1,307 million as the business continues its planned rundown. Williams & Glyn separation costs totalled £630 million. Private Banking also recorded a £91 million asset write down related to software.

Litigation and conduct costs increased by £1,374 million, or 63% to £3,568 million, compared with £2,194 million in 2014. This includes: additional provisions for mortgage backed securities litigation in the US of £2,100 million; provisions for foreign exchange investigations in the US of £334 million; customer redress provisions primarily relating to PPI of £600 million; packaged accounts provisions of £157 million; and other conduct provisions of £377 million.

Securities	(59)	126	12
Losses/(releases) to income statement	478	(727)	(1,352)

2016 compared with 2015

A net impairment loss of £478 million, 15 basis points of gross customer loans, compared with a net impairment release of £727 million in 2015.

Capital Resolution reported a net impairment loss of £253 million in 2016 compared with a release of £725 million in 2015. The loss for the year included a charge of £424 million in respect of the shipping portfolio reflecting difficult conditions in some parts of the sector.

Commercial Banking net impairment loss of £206 million was £137 million higher than 2015 principally reflecting a single name charge in respect of the oil and gas portfolio.

UK PBB reported a net impairment loss of £83 million compared with a net release of £7 million in 2015.

Ulster Bank RoI reported a net impairment release of £113 million (€138 million) compared with £141 million (€194 million) in 2015. The 2016 impairment release included a write back associated with the sale of a portfolio of loans. REIL remained stable at £3.5 billion in 2016 due to the strengthening of the euro but in euro terms reduced by €0.6 billion driven by the portfolio sale, partially offset by a widening of the definition of loans which are considered to be impaired.

REIL reduced by £1,847 million during 2016 to £10,310 million reflecting Capital Resolution run-down and a portfolio sale in Ulster Bank RoI partially offset by an increase in the shipping portfolio, foreign exchange movements and the implementation of a revised mortgage methodology in Ulster Bank RoI. REIL represented 3.1% of gross customer loans compared with 3.9% at 31 December 2015. Provision coverage was 43% compared with 59% at 31 December 2015, with the reduction largely driven by Ulster Bank RoI and Capital Resolution.

Excluding Ulster Bank RoI and Capital Resolution, REIL represented 1.5% of gross customer loans, compared with 2.0% at end 2015, and provision coverage was 54% compared with 56% in 2015.

2015 compared with 2014

Net impairment releases of £727 million were 46% lower compared with net impairment releases of £1,352 million in 2014. Although releases were at lower levels than in 2014, credit quality remained stable, reflecting supportive economic conditions in UK and Ireland with continued elevated recoveries in certain businesses.

Capital Resolution recorded net releases of £725 million, compared with £1,307 million in 2014, with disposal activity continuing. Ulster Bank RoI recorded net impairment releases of £141 million, down from £306 million in 2014, as economic conditions in Ireland continue to improve. UK PBB recorded a release of £7 million compared with a loss of £154 million, due to lower debt flows and increased releases and recoveries. Net impairment releases were also reported in NatWest Markets (formerly CIB), although at more modest levels.

Securities losses rose to £126 million from £12 million in 2014, principally related to a small number of single name exposures, mainly an exposure in the RBS N.V. liquidity portfolio.

Risk elements in lending (REIL) declined from £28.2 billion to £12.2 billion, with REIL as a percentage of gross loans falling from 6.8% to 3.9%. The reduction was driven by the disposal of Citizens and the continued rundown of Capital Resolution.

Business review

Tax			
	2016	2015	2014
	£m	£m	£m
Tax charge	(1,166)	(23)	(1,909)
UK corporation tax rate	20.00%	20.25%	21.50%

2016 compared with 2015

The tax charge for the year ended 31 December 2016 reflects the impact of the banking surcharge, non-deductible bank levy and conduct charges for which no tax relief has been recognised, a reduction in the carrying value and impact of UK tax rate changes on deferred tax balances, and the release of tax provisions that reflect the reduction of exposures in countries where RBS is ceasing operations.

2015 compared with 2014

The tax charge for the year ended 31 December 2015 reflects the impact of non-deductible goodwill and bank levy charges, conduct charges for which no tax relief has been recognised, the impact of UK tax rate changes on the carrying value of deferred tax balances and the release of tax provisions that reflect the reduction of exposures in countries where RBS is ceasing operations.

Business review

Serving our customers

The strategic goal of UK PBB is to become the number one personal and business bank for customer service, trust and advocacy in the UK. As part of our culture change, the removal of frontline incentives has been matched by a reinvestment in our people, both in terms of their fixed pay and their capability, including over seven thousand frontline employees completing their Professional Banking Certificate by the end of 2016. Our values have been reinforced by the huge organisational commitment to our customer focused leadership programme, 'Determined to Lead', and a simple but powerful set of service excellence behaviours. Along with our continued investment in technology, this has helped us deliver strong growth in key areas whilst at the same time making our business simpler and more efficient.

Gross new mortgage lending of £29.8 billion was 29% higher than 2015. Across 2016, our market share of new mortgages was approximately 12%, supporting a growth in stock share to 8.8% from 8.2% at 31 December 2015. Mortgage processing time has reduced by 40 minutes through increased automation and 42% of existing customers in 2016 re-mortgaged on-line in a matter of minutes. In addition, the introduction of electronic signatures has reduced the mortgage switching documentation process from 7 days to less than 2 days. NatWest was awarded Best Bank for Mortgages and Best First Time Buyer Mortgage Lender with NatWest Intermediary Solutions awarded the industry leading 5 star service award.

Gross new business lending to small and medium-sized enterprises of £1.6 billion was up 43% compared with 2015, supported by our business loan application process reducing from 11 days to less than 24 hours on average. Our new business banking 'Online Account Opening' service allows start up business customers to submit an application online in just ten minutes and get a sort code and account number in under an hour. RBS was awarded a Moneyfacts 5 star rating for Business Banking accounts.

Personal unsecured loan gross new lending of £2.3 billion was up 24% versus 2015 supported by the launch of functionality for a customer to apply via the mobile app. Over 2016, the personal loan mobile application process has been significantly simplified making it even easier for our customers.

The Reward account continued to show positive momentum and now has 1,149,000 fee-paying customers compared with 202,000 at 31 December 2015. We have seen positive evidence of increased levels of engagement, with overall current account attrition levels falling by 7% in the year. This is particularly evident across our Private and Premium customer, with attrition 12% lower. We continue to embed the product across our population of valuable main bank customers.

We continued to make better use of our digital channels to make it simpler to serve our customers and easier for them to do business with us. We now have 4.2 million customers regularly using our mobile app, 19% higher than the end of 2015, and around 60% of our personal customers used a digital channel within the last 90 days. In 2016, we more than doubled the number of customers who purchased a product through our mobile channel compared with 2015. NatWest customers can now apply for personal loans, credit cards and overdrafts via the mobile app, facilitating approximately 8% of total applications. Advocacy amongst our active mobile customers increased significantly over 2016 with NatWest mobile NPS at an all time high of +52.

The additional choice, flexibility and convenience provided to customers has, in turn, given our colleagues more time to focus on helping over 750,000 of our customers with a Financial Health Check, discussing the benefits of the Reward current account, and guiding them through more complex financial goals and ambitions such as buying a home.

In addition to our digital channels UK PBB continues to provide multiple physical channels for serving customers, including access to a network of c.11,500 Post Office branches and 39 mobile banking vans alongside our existing network of 1,315 branches and 4,437 ATMs.

Business review

2016 compared with 2015

Operating profit was £1,381 million, compared with £1,030 million in 2015, and included a £634 million litigation and conduct charge, principally in respect of additional PPI provisions. Adjusted operating profit, which excludes restructuring costs of £187 million (2015 - £167 million) and litigation and conduct costs of £634 million (2015 - £972 million), of £2,202 million was £33 million, or 2%, higher than 2015 principally reflecting increased net interest income combined with lower costs, partially offset by a higher impairment charge.

Total income of £5,290 million increased by £90 million, or 2%, compared with 2015, despite the lower rate environment depressing earnings on current accounts and the impact of regulatory changes impacting interchange fees. Net interest income was robust, increasing by £135 million, or 3%, reflecting continued strong asset growth combined with the active repricing of our deposit book. This more than offset the impact of lower current account hedge returns and lower mortgage margins. Net interest margin declined by 17 basis points to 3.01% reflecting the change in the overall portfolio mix and reduced mortgage margins. During the second half of 2016 mortgage SVR balances stabilised at approximately 12%, broadly in line with historical levels.

Non-interest income reduced by £45 million, or 4%, principally reflecting lower credit card interchange fees, following regulatory changes introduced in 2015. In addition, cash back payments on the Reward account have impacted fee income, however, we have seen increased levels of customer engagement. Partially offsetting, we recognised a £19 million debt sale gain in 2016.

Operating expenses decreased £351 million, or 8%, to £3,826 million. Adjusted operating expenses, which exclude restructuring costs of £187 million (2015 - £167 million) and litigation and conduct costs of £634 million (2015 - £972 million), decreased by £33 million, or 1%, to £3,005 million. Direct staff costs were £111 million, or 14%, lower driven by an 18% reduction in headcount reflecting the continued movement to digital channels, exiting of business lines with returns below required levels and some centralisation of administrative activities. This was partially offset by additional investment costs of £102 million, including one-off intangible asset write-downs of £56 million in 2016, together with a £21 million increase in regulatory charges.

The net impairment charge of £83 million reflects continued benign credit conditions and compared with a £7 million release in 2015, with the increase principally reflecting reduced portfolio provision releases. The default driven charge was 13% lower than 2015 with REIL 26% lower and provision coverage remaining strong at 65%.

Net loans and advances of £132.1 billion increased by £12.3 billion, or 10%, compared with 2015 principally driven by mortgage growth of 12%. We continue to see positive momentum across business and personal unsecured lending, up by 6%, excluding transfers⁽¹⁾, and 7% respectively.

Business review

UK Personal & Business Banking [continued](#)

We continue to build on our strong mortgage market position with gross balances increasing by 12% to £117.1 billion compared with 3% growth for the overall mortgage market. Gross new lending in 2016 was £29.8 billion, representing a market share of approximately 12% compared with a stock share of approximately 8.8% at 31 December 2016, up from 8.2% in 2015. New business margins were stable over 2016 whilst margins on existing customers remortgaging have improved. Gross new business lending to small and medium-sized enterprises of £1.6 billion was up 43% compared with 2015. Personal loan gross new lending of £2.3 billion was up 24% supported by the launch of functionality for a customer to apply via the mobile app combined with improvements to customer experience. We have continued to take a cautionary risk approach to personal unsecured lending. As a result, personal unsecured cards and overdrafts balances have decreased by £0.3 billion, or 5%, compared with 2015, and margins have widened.

Deposit balances performed strongly, increasing by £8.0 billion, or 6%, to £145.8 billion driven by 13% growth in personal current account balances. Personal savings balances increased 3% despite repricing activity.

RWAs decreased by £0.6 billion, or 2%, to £32.7 billion due to asset mix benefits and overall improved credit quality, largely reflecting the current benign credit conditions, partly offset by increased lending.

2015 compared with 2014

UK PBB recorded an operating profit of £1,030 million in 2015, a reduction of 9% or £103 million from 2014. This was primarily driven by lower non-interest income combined with increased restructuring costs and litigation and conduct costs. This was partially offset by a small net impairment release compared to a prior year charge. Adjusted operating profit which excludes restructuring costs of £167 million (2014 - £111 million) and litigation and conduct costs of £972 million (2014 - £918 million) was £2,169 million compared to £2,162 million and return on equity of 11.7% were broadly flat compared to prior year.

Total income was £5,200 million, a reduction of 4% from £5,444 million. Net interest income declined 2% to £4,152 million primarily as a result of continued margin pressure in the mortgage market as customers move to lower margin fixed rate products together with higher internal funding costs. The decline was partly offset by improved deposit margins. Reflecting strong mortgage balance growth, net interest margin (NIM) declined 14 basis points from 2014 to 3.18% as the overall portfolio mix continues to be increasingly weighted toward secured lending, together with the decline in unsecured balances. The decline was slightly

offset by improved deposit margins.

Non-interest income was £1,048 million, a reduction of 14% compared with the prior year as interchange fees on credit and debit cards declined £59 million, combined with reduced advice income. Operating expenses were £4,177 million, remaining broadly stable against 2014. Litigation and conduct costs increased 6% due to customer redress provisions, primarily relating to PPI, to £972 million, whilst higher restructuring costs were up £56 million, to £167 million. This was principally offset by a reduction in staff and other costs. Adjusted operating expenses which excludes restructuring costs of £167 million (2014 - £111 million) and litigation and conduct costs of £972 million (2014 - £918 million) totalled £3,038 million (2014 - £3,128 million), 3% lower than 2014.

Net impairment releases totalled £7 million, compared with a net charge of £154 million in 2014, driven by decreased charges from bad debt flows and benefit of provision releases and recoveries.

2015 was a strong year for the mortgage business with net balances growing by £9.3 billion or 10% to £104.8 billion. Gross new lending rose 29% to £23 billion with market share of new mortgages of 10.5% versus a stock share of 8.2%. Mortgage growth was the principal driver of an £8.2 billion increase in net loans and advances to customers. Unsecured balances continued to decline gradually, albeit at a much slower rate.

Customer deposit balances increased £5.2 billion to £137.8 billion due to growth in personal savings, current accounts and business banking. RWAs fell £3.3 billion to £33.3 billion due to the improved quality of portfolio.

Note:

(1) The business transfers included: net loans and advances to customers of £0.8 billion as at 31 December 2016.

Business review

Ulster Bank RoI *continued*

Serving our customers

Ulster Bank RoI continued to strengthen and reshape its balance sheet in 2016, whilst also delivering a number of positive changes to the customer proposition.

The completion of a sale of £1.5 billion (€1.8 billion) of largely underperforming loans in Q4 2016 has served to strengthen and de-risk the balance sheet, building a strong foundation for future growth.

Gross new lending of £2.2 billion (€2.5 billion in euro terms) increased 31% in 2016 supported by investment in the mortgage and asset and invoice finance businesses combined with a revitalisation of the Ulster Bank brand 2016 was a strong year for mortgage lending with gross new lending of £0.9 billion (€1.0 billion in euro terms), an increase of 48%, on the prior year, contributing to an increase in market share of new lending. Performance in personal lending was also positive, growing 44%, while commercial lending increased 19% year on year.

Further strategic investments were made to our digital platform and award winning mobile app in 2016 including product applications for loans, credit cards and overdrafts and clearer transaction detail. Our market leading 'Get Cash' facility is used over 2,000 times a week ensuring customers are never without access to cash. Continued developments in the mobile platform supported a 22% increase in active users of the mobile app in 2016 reflecting the growing customer preference for banking services through this channel.

Ulster Bank RoI continued to make progress on its cost saving programme supported by process automation and an acceleration of digital adoption balanced with investments to support business growth in opportunities.

Ulster Bank RoI became the first major bank in the Republic of Ireland to pay a dividend since the financial crisis.

Significant movements of the euro relative to sterling during 2016 and 2015 had a material impact on Ulster Bank Rol's financial comparison with 2015 and 2014.

2016 compared with 2015

Operating profit decreased by £242 million (€338 million) to £20 million (€24 million) compared with 2015 primarily due to an increase in litigation and conduct costs of £185 million (€229 million) and a £28 million (€56 million) reduction in net impairment releases. Adjusted operating profit of £229 million (€280 million), which excludes own credit adjustments of £3 million (€3 million) (2015 – nil), restructuring costs of £40 million (€48 million) (2015 - £15 million (€21 million)) and litigation and conduct costs of £172 million (€211 million) (2015 – recoveries of £13 million (€18 million)), was £35 million, or 13% (€85 million or 23% in euro terms), lower than prior year. Excluding the impact of the strengthening euro, the decrease in adjusted operating profit was driven by a reduction in adjusted operating expenses which was more than offset by the non recurrence of certain income benefits in 2015 and lower impairment releases.

Net interest income increased £44 million to £409 million compared with 2015 due to the strengthening of the euro but net interest income was stable year on year in euro terms. Net interest margin increased by 5 basis points to 1.62%, compared with 2015, driven by a continued reduction in the cost of deposits and a reduced volume of low yielding liquid assets, partly offset by reduced income on free funds.

Non-interest income decreased by £18 million, or 10% (€52 million or 20% in euro terms), principally reflecting a £24 million (€33 million) gain realised on the closure of a foreign exchange exposure in 2015 and a £11 million (€13 million) interim adjustment to the pricing of FX transactions between Ulster Bank Rol and NatWest Markets in 2016, pending completion of a detailed pricing review.

Operating expenses increased £240 million, or 56%, to £669 million (€228 million, or 39%, to €818 million). Adjusted operating expenses, which excludes restructuring costs of £40 million (€48 million) (2015 - £15 million (€21 million)) and litigation and conduct costs of £172 million (€211 million) (2015 – recoveries of £13 million (€18 millions)), increased £30 million, or 7%, to £457 million due to the strengthening of the euro but reduced by €28 million in euro terms, or 5%, to €559 million reflecting a combination of progress made on cost saving initiatives, the non recurrence of certain costs in 2015 and accrual releases in 2016.

A realignment of costs within direct expenses contributed to an increase in staff costs in 2016 with an offsetting reduction in other costs. This reflects the reallocation of 660 staff from UK PBB to align with current management responsibilities following the separation of the Northern Ireland and Republic of Ireland businesses. Excluding the reallocation from UK PBB and staff supporting the tracker mortgage examination and asset disposal programmes, headcount decreased by 9% year on year.

Business review

Ulster Bank RoI continued

Litigation and conduct costs of £172 million (€211 million) principally reflects a provision for remediation and programme costs associated with an industry wide examination of tracker mortgages. Restructuring costs increased by £25 million (€27 million) to £40 million (€48 million), primarily driven by costs associated with asset disposal activity.

A net impairment release of £113 million (€138 million) comprised write-backs associated with asset disposals and benefited from improved macroeconomic conditions.

Risk elements in lending remained stable at £3.5 billion in 2016 due to the strengthening of the euro but in euro terms the sale of a portfolio of loans contributed to a €0.6 billion, or 13%, reduction in 2016 to €4.1 billion. This was partially offset by a widening of the definition of loans which are considered to be impaired to include multiple forbearance arrangements and probationary mortgages. The provision coverage ratio reduced from 55% in 2015 to 34% in 2016 largely reflecting a further de-risking of the balance sheet following recent asset sales of largely non-performing loans.

Gross new lending increased 31% in 2016, net loans and advances increased £2.2 billion due to the strengthening of the euro but decreased €0.6 billion, or 3%, as new lending was offset by asset disposals and repayments. The low yielding tracker mortgage portfolio increased by £0.6 billion or 7% including the impact of the euro exchange rate movement (decreased €1.0 billion or 9% in euro terms), to £9.2 billion (€10.8 billion) at 31 December 2016 supported by repayments and asset disposals.

RWAs reduced by £1.3 billion or 7% (€5.3 billion or 20% in euro terms) during 2016 to £18.1 billion (€21.1 billion) driven by the sale of a portfolio of loans combined with adjustments to the mortgage modelling approach and an improvement in the macro economic environment. RWAs on the tracker mortgage portfolio reduced by £1.5 billion, or 19% (€3.3 billion or 31% in euro terms), during 2016 to £6.3 billion (€7.4 billion).

Loan:deposit ratio decreased 10 percentage points to 117% in 2016, this was supported by a £3.0 billion (€1.0 billion) growth in deposits.

2015 compared with 2014

Ulster Bank RoI recorded an operating profit of £262 million (€362 million) compared with an operating profit of £489 million (€606 million) in 2014, with the decline primarily due to considerably lower net impairment releases in 2015. Adjusted operating profit, which excludes restructuring costs of £15 million (€21 million) (2014 - £13 million (€16 million)) and litigation and conduct recoveries of £13 million (€18 million) (2014 – recoveries of £19 million (€24 million)), was £264 million (€365 million), a decrease of £219 million (€233 million) from 2014. Return on equity was 10.6%, down from 18.6% in 2014.

Total income was £550 million, a decrease of 9% from the prior year reflecting the weakening of the euro during 2015. In euro terms total income of €758 million increased €9 million or 1% compared with prior year due to a continued improvement in deposit pricing in line with market trends, combined with benefits, including a gain on the sale of a buy-to-let portfolio of £12 million (€17 million) and the closure of a foreign exchange exposure of £24 million (€33 million). These benefits were largely offset by reduced income on free funds.

Net interest margin (NIM) was 1.57%, a decrease of 35 basis points from 2014, primarily driven by reduced income on free funds and an increased drag from liquidity management requirements. NIM continues to reflect a sizeable drag from the low yielding tracker mortgage book.

Operating expenses increased by £8 million (€67 million) from £421 million (€523 million) to £429 million (€590 million), reflecting an increase in pension servicing costs, totalling £22 million (€30 million). Cost savings delivered through a further reduction in both employee numbers and the property footprint, as well as the weakening of euro (an impact of £41 million), were somewhat offset by further investment in the business and operational infrastructure.

Net impairment releases reduced by £165 million (€186 million) to £141 million (€194 million), and although at lower levels, continued to reflect the improving economic conditions and the benefits of proactive debt management.

Gross new mortgage lending increased 53% to £0.5 billion (€0.7 billion in euro terms) whilst gross new lending to commercial customers increased 65% to £1.1 billion (€1.5 billion in euro terms). Strong new lending volumes across the business in 2015 were offset by high levels of customer repayments and the sale of a £0.3 billion (€0.4 billion) buy-to-let mortgage portfolio. Net loans and advances to customers decreased £1.4 billion (€0.6 billion) to £16.7 billion (€22.7 billion), £1 billion of which related to exchange rate movements. The low yielding tracker mortgage portfolio balances reduced from £9.9 billion (€12.7 billion) in 2014 to £8.7 billion (€11.8 billion), but continues to make up a significant part of the overall mortgage book.

RWAs reduced 11% (6% in euro terms) from £21.8 billion (€28.0 billion) to £19.4 billion (€26.4 billion) due to improved credit metrics and the impact of a weakening euro an impact of £1.2 billion, while RWA intensity reduced by 2 percentage points to 104%. RWAs on the tracker mortgage portfolio reduced from £9.3 billion

(€12.0 billion) in 2014 to £7.8 billion (€10.6 billion).

- (2) Excluding restructuring costs and litigation and conduct costs.
- (3) Provision coverage represents loan impairment provisions as a percentage of risk elements in lending.

Business review

Serving our customers

Commercial Banking continued to support the UK and Western Europe business community with lending growth of £8.8 billion, 10% higher compared with 2015, across a variety of sectors and exceeding market indicators.

A continuing focus on end to end business performance aimed at improving customer service, trust and advocacy continues to show signs of success, reporting the largest, and only significant, year on year improvement in NPS amongst major UK banks.

Commercial Banking made progress towards improving customer experience by becoming easier and simpler to do business with through operational investment and process simplifications. Continued enhancements within the business contributed to commercial lending growth in 2016.

We continued to support UK business growth through the launch of 6 new business accelerator hubs in 2016, bringing the total to 12. In addition, NatWest launched a £1 billion lending fund to support small businesses.

We launched several innovative products for our customers. Firstly, Nift a new digital solution that helps encourage increased engagement and understanding of contracts by customers. Secondly, we are supporting business through ESME, an automated lending platform that enables eligible SMEs to borrow up to £150k, with capability to process and fund within an hour.

Our Lending Transformation Programme reached a major milestone with its latest systems upgrade, 79% of Commercial Banking customers can now be automatically assessed against our business appetite.

Nearly 80% of our commercial customers' interaction with us is via digital channels, with around 270,000 payments processed every day.

Business review

Commercial Banking *continued*

2016 compared with 2015

Operating profit was £742 million compared with £1,264 million in 2015 and included a £423 million litigation and conduct charge, principally relating to a provision in respect of the FCA review of RBS's treatment of SMEs. Adjusted operating profit, which excludes restructuring costs of £108 million (2015 - £69 million) and litigation and conduct costs of £423 million (2015 - £51 million) of £1,273 million, was £111 million, or 8%, lower than 2015, mainly reflecting increased impairments, partially offset by increased income.

Total income increased by £161 million to £3,415 million. Excluding the impact of transfers⁽¹⁾, a benefit of £218 million (2015 - £79 million), income increased by £21 million, or 1%, reflecting higher asset and deposit volumes. Net interest margin fell by 12 basis points to 1.76% driven by asset margin pressure in a competitive market and low rate environment.

Operating expenses increased by £546 million to £2,467 million. Adjusted operating expenses, which exclude restructuring costs of £108 million (2015 - £69 million) and litigation and conduct costs of £423 million (2015 - £51 million), and excluding business transfers of £109 million (2015 - £25 million), increased by £51 million reflecting a £25 million intangible asset write-down and increased investment spend.

Net impairment losses increased by £137 million to £206 million primarily reflecting a single name charge taken in respect of the oil and gas portfolio.

Net loans and advances of £100.1 billion increased by £8.8 billion, or 10%, compared with 2015 reflecting increased borrowing across a number of sectors.

RWAs were £78.5 billion, an increase of £6.2 billion compared with 2015 reflecting asset growth partially offset by reduced RWA intensity.

2015 compared with 2014

Comparisons with prior periods are affected by a number of internal business transfers. In line with changes to the business model, the UK and Western European corporate loan portfolios transferred to Commercial Banking on 1 May 2015 and 1 October 2015 respectively. The prior period financials were adjusted for the UK Transaction Services business transfer and do not affect comparisons. The results exclude RBS International which is reported as a separate segment for the first time.

Commercial Banking recorded an operating profit of £1,264 million, broadly in line with the prior year. Adjusted operating profit, which excludes restructuring costs of £69 million (2014 - £108 million) and litigation and conduct costs of £51 million (2014 - £112 million) was £1,384 million, a decrease of £92 million from 2014 due to a marginal fall in income reflecting margin pressure. Return on equity was broadly stable year on year.

Business review

Total income was £3,254 million, compared with £3,305 million in 2014. Net interest income was £1,997 million, a 1% increase from 2014, driven largely by higher asset and deposit volumes. Net interest margin decreased three basis points to 1.88% with improved deposit margins partly offsetting competitive pressures on new business asset margins. Non-interest income fell by 5% to £1,257 million driven by a loss of £34 million from the sale of non-strategic asset portfolios and the transfer of the commercial cards business to UK PBB in 2014.

Operating expenses totalled £1,921 million, a reduction of 2% from 2014, principally driven by tight control on discretionary costs and lower litigation and conduct costs, down 54% to £51 million, combined with restructuring costs falling 36% to £69 million. Adjusted operating expenses, which excludes restructuring costs of £69 million (2014 - £108 million) and litigation and conduct costs of £51 million (2014 - £112 million) were £1,801 million, an increase of £57 million, primarily as a result of a higher UK bank levy charge.

Net impairment losses decreased £16 million to £69 million due to lower individual charges, offsetting lower net provision releases.

Commercial Banking recorded volume growth across segments, resulting in net loans and advances to customers increasing by £6.4 billion to £91.3 billion. This included £5.0 billion from the transferred businesses, offset by strategic run-off and sale of selected assets totalling £2.2 billion. Total net new lending was £1.4 billion.

Customer deposits totalled £88.9 billion, an increase of £4.0 billion reflecting high levels of liquidity in the market.

RWAs increased £9.1 billion to £72.3 billion in 2015, of which £8.4 billion relates to £5 billion of assets transferred in. The higher capital intensity reflects increased level of undrawn commitments in the transferred businesses.

The Commercial Banking run-off portfolio includes funded assets of £12.5 billion and RWAs of £8.5 billion.

Note:

(1) The business transfers included impact of: total income of £218 million (2015 - £79 million; 2014 - nil); operating expenses of £109 million (2015 - £25 million; 2014 - nil); impairment losses of £50 million (2015 - £1 million releases; 2014 - nil); net loans and advances to customers of £6.2 billion (2015 - £5.0 billion; 2014 - nil); customer deposits of £0.4 billion (2015 and 2014 - nil); and RWAs of £9.3 billion (2015 - £8.4 billion; 2014 - nil).

Business review

Private Banking [continued](#)

Serving our customers

Private Banking has been through a period of transition and is now being repositioned to focus on its UK target customer base. The focus will be on creating deep and lasting relationships and implementing growth initiatives that will create long term sustainable returns. Significant progress has been made in rebuilding the business and it continues to drive forward with its goal of being the leading UK-based private bank and wealth manager, through a focus on supporting our customers and reducing complexity:

Continued support of UK customers with balance and AUM growth through an enhanced product proposition, including a range of execution only funds as well as the launch of an investment backed lending product and a market leading multi-currency debit card.

Private Banking Wealth Management globally orientated Tailored Portfolio Service is first quartile compared to peers over 1 & 3 years and Coutts Multi Asset funds continue to outperform peers in Defensive, Balanced and Growth strategies.

Coutts won the best private bank in the UK for the fifth year running, best private bank for philanthropy services and best initiative of the year in client facing technology at the Global Private Banking Awards, and was highly commended for innovation for its 'Coutts Concierge Online'.

Significant progress made to refocus the business and invest for growth with a reduced office footprint, creation of a Jersey booking platform to support on-going customer base following the sale of International Private Banking, and a centralised investment management proposition. This has contributed to a significant improvement in NPS during 2016, from +9 at the start of the year to +18.

Launched Direct to Consumer (D2C) investment proposition, enabling customers to model investment options, target returns and complete transactions themselves.

Incorporated behavioural biometric technology to protect customers and reduce fraud, becoming the first UK bank to allow a client's smart phone to act as the authentication device.

Launch of Coutts Concierge service, an industry first service which allows customers to manage restaurant bookings, purchase tickets, hotels and flights online, 24 hours a day.

Improved mortgage processing for clients with the creation of a mortgage specialist team focused on speeding up the lending process.

Our customers continue to benefit from the synergies between Commercial and Private Banking, with 1,100 referrals between Commercial and Private Banking in 2016.

198

Business review

2016 compared with 2015

An operating profit of £111 million compared with an operating loss of £470 million in 2015 which included a goodwill impairment of £498 million. Adjusted operating profit, which excludes restructuring costs of £37 million (2015 - £73 million), litigation and conduct costs of £1 million (2015 - £12 million) and write down of goodwill (2015 - £498 million) of £149 million was £36 million, or 32%, higher than 2015 reflecting increased income, lower operating expenses and lower impairments.

Total income increased by £13 million to £657 million primarily reflecting higher asset volumes. Net interest margin fell by 9 basis points to 2.66% reflecting asset margin pressures.

Operating expenses of £549 million were £552 million, or 50% lower than 2015. Adjusted operating expenses, which exclude restructuring costs of £37 million (2015 - £73 million), litigation and conduct costs of £1 million (2015 - £12 million) and write down of goodwill (2015 - £498 million) of £511 million were £7 million, or 1%, lower than 2015 driven by reductions in the direct cost base, with employee numbers down 10%, partially offset by increased infrastructure costs absorbed following the sale of the international business.

Net loans and advances of £12.2 billion increased by £1.0 billion compared with 2015 driven by mortgages. Assets under management of £17.0 billion were £3.1 billion higher compared with 2015 reflecting underlying growth and equity index inflation. In addition, investment cash balances were included in assets under management for the first time in Q3 2016, excluding this, growth was £2.0 billion.

2015 compared with 2014

Private Banking recorded an operating loss of £470 million compared with an operating profit of £99 million in 2014. A goodwill impairment charge of £498 million attributed to the business drove this loss. Adjusted operating profit, which excludes restructuring costs of £73 million (2014 - £1 million), litigation and conduct costs of £12 million (2014 - £90 million) and write down of goodwill of £498 million (2014 - nil) was £113 million in 2015, a fall of £77 million from 2014 reflecting lower income and higher net impairment losses.

Total income was £644 million, a reduction of £45 million from 2014. Net interest income was £436 million, down 4% primarily due to lower net interest margin. Non-interest income totalled £208 million, a decrease of 11% driven by lower investment and transactional income as the business adjusted pricing to reflect a more competitive market.

Operating expenses totalled £1,101 million, an increase of £506 million, driven by a £498 million goodwill impairment charge, and considerably higher restructuring costs of £73 million which includes a share of an asset write down related to software of £91 million, and lower litigation and conduct costs of £12 million. Adjusted operating expenses, which exclude restructuring costs of £73 million (2014 - £1 million), litigation and conduct costs of £12 million (2014 - £90 million) and write down of goodwill of £498 million (2014 - nil) were £518 million, up 3%, with reductions in the direct cost base offset by a higher UK bank levy charge.

Net impairment losses totalled £13 million, compared with a release of £5 million, due to higher individual and latent charges.

Despite challenging market conditions, assets under management and net loans and advances to customers were broadly stable compared with the prior year.

Business review

RBS International continued

Serving our customers

RBS International (RBSI) continues to focus on supporting retail, commercial, corporate and financial institution customers in Jersey, Guernsey, Isle of Man, Gibraltar and Luxembourg by leveraging a strong multi-currency banking platform combined with a comprehensive product suite:

Continued to support personal and non-personal businesses with lending growth of 21% during 2016. Meeting customer needs, through improved end to end customer experience, has resulted in Funds sector growth of £0.7 billion and gross new mortgage lending of £0.5 billion.

The business is the market leader in the Isle of Man and has top three market positions in Guernsey and Jersey. It has established strong customer advocacy, with broadly no change in NPS in the past year, despite an ongoing customer remediation programme.

Licensing remains on track as we received our banking licence to operate in Luxembourg, and the application to open a London branch has been submitted with technical build underway thus providing the foundations for growth while supporting the legal entity transfers as part of the Group's ring-fencing programme.

We've made it easier for our customers to do their banking with us through investment in our multi-currency banking platform for Funds, Intermediaries and Corporate customer and transforming our branches.

2016 compared with 2015

Operating profit decreased by £17 million to £190 million principally reflecting increased impairment losses and operating expenses. Adjusted operating profit, which excludes restructuring costs of £5 million (2015 - £4 million), was £195 million, £16 million lower than 2015.

Total income increased by £7 million to £374 million primarily reflecting higher asset volumes. Net interest margin fell by 12 basis points to 1.36% reflecting asset margin pressures.

Operating expenses of £174 million were £14 million, or 9% higher than 2015. Adjusted operating expenses, which exclude restructuring costs of £5 million (2015 - £4 million), were £169 million, £13 million, or 8%, higher than 2015, reflecting a number of one-off charges.

A net impairment loss of £10 million was reported in 2016.

Net loans and advances of £8.8 billion increased by £1.5 billion compared with 2015 reflecting balance draw-downs in the corporate lending portfolio, mainly within the Funds sector.

Customer deposits of £25.2 billion grew by £3.9 billion compared with 2015 principally reflecting the transfer of the Luxembourg branch into RBSI from Capital Resolution during Q2 2016.

RWAs were £9.5 billion, an increase of £1.2 billion compared with 2015 reflecting asset growth.

2015 compared with 2014

RBSI reported an operating profit of £207 million, £31 million lower than 2014, largely due to lower income from deposits which in turn drove return on equity down to 18.5%, from 24.2%.

Total income decreased 6% to £367 million, mainly due to reductions in net interest income, falling £20 million to £303 million, principally reflecting lower deposit margins and lower return on free funds partly offset by higher asset volumes. Non-interest income declined £4 million to £64 million as a result of a lower CIB revenue share and lower net lending fees.

There were no impairments in 2015 compared with modest impairment releases of £7 million in the prior year.

Operating expenses remained stable at £160 million due to control in direct expenditure offset by a slightly higher UK bank levy charge.

Net loans and advances to customers increased by £0.1 billion to £7.3 billion. Customer deposit balances grew £0.5 billion to £21.3 billion. The business is a liability heavy business with a loan:deposit ratio of 35%.

RWAs increased by £0.8 billion to £8.3 billion as a result of a change in business mix and foreign exchange movements.

NatWest Markets *continued*

Serving our customers

NatWest Markets provides financing and risk management solutions and is built around three product lines: Rates, Currencies and Financing. NatWest Markets puts its customers at the centre of the way it does business.

The NatWest Markets brand was introduced on 5 December 2016. The new brand is an important step towards our ambition to become #1 for customers.

NatWest Markets started a multi-year transformation in February 2015 and real progress is being made towards building a technology-led business with ongoing investment to improve efficiency and reduce costs while sustaining a well-controlled end-to-end model. The business's progress against its transformation plan is already being recognised externally:

- for Gilts by Market Share – EMEA FI (Source: Greenwich Associates, European Fixed Income 2016 - Government Bonds)
- for GBP Options, GBP Inflation and GBP 2Y – 10Y IRS (Source: Total Derivatives Dealer Rankings 2016)
- Best bank for FX post-trade services (FX Week Best Bank Awards 2016)
- for all European Issuers in the private placement market (Source: Dealogic Private Placement Review, Full Year 2016)
- Best for putting corporate client's interest before the bank's (Source: Global Capital Bond Awards 2016)
- NatWest Markets gained or held share in every Rates & FX product category for EMEA and the Americas (Source: Coalition Client Analytics Top 500 FI Wallets: G10 Foreign Exchange, G10 Rates)

2016 compared with 2015

An operating loss of £386 million compared with an operating loss of £837 million in 2015 and included litigation and conduct costs of £528 million. The increase was driven by lower operating expenses and increased income. Adjusted operating profit, which excludes own credit adjustments of £53 million (2015 -

£120 million), restructuring costs of £112 million (2015 - £524 million) and litigation and conduct costs of £528 million (2015 - £378 million) was £201 million compared with a loss of £55 million in 2015.

Total income increased by £47 million to £1,574 million. Excluding the impact of transfers, £98 million in 2015 and own credit adjustments of £53 million (2015 - £120 million) income increased by £212 million, or 16%, to £1,521 million. The increase was driven by Rates and Currencies, reflecting sustained customer activity throughout the year and favourable market conditions following the EU referendum and subsequent central bank actions.

Operating expenses decreased from £2,369 million to £1,960 million in 2016, driven by lower restructuring costs and lower adjusted expenses. Excluding business transfers of £31 million in 2015, restructuring costs of £112 million (2015 - £524 million) and litigation and conduct costs of £528 million (2015 - £378 million) adjusted expenses reduced by £116 million, or 8% reflecting c.£250 million of cost reductions partially offset by higher investment spend.

NatWest Markets are currently in the middle of a substantial investment programme which will equip the franchise for new regulatory requirements and provide opportunity to reduce back office support costs. We expect that NatWest Markets adjusted operating expenses, which exclude restructuring costs and litigation and conduct costs will reduce by around £500 million over the next four years.

Total assets of £240.0 billion increased by £24.7 billion compared with 2015. An increase in derivative balances was partially offset by a decrease in funded assets of £2.4 billion compared with 2015 to £100.9 billion, as the business continues to work through re-shaping, despite the headwind from foreign exchange movements following the EU referendum and the substantial weakening of sterling.

RWAs increased by £2.1 billion compared with 2015 to £35.2 billion principally due to business movements and the impact of the weakening of sterling.

Business review

2015 compared with 2014

NatWest Markets (formerly CIB) reported an operating loss of £837 million in 2015, compared with an operating loss of £710 million in 2014. This included restructuring costs of £524 million and litigation and conduct costs of £378 million. The reduction was driven by lower income partially offset by the continued reduction in expenses, down £281 million, or 11%, to £2,369 million as the business continues to take costs out and move towards a more sustainable cost base.

Adjusted operating loss, which excludes a gain on own credit adjustments of £120 million (2014 - £9 million charge), restructuring costs of £524 million (2014 - £102 million) and litigation and conduct costs of £378 million (2014 - £832 million) was £55 million, compared with a profit of £233 million in 2014.

Total income declined by £404 million, or 21%, to £1,527 million in 2015. This includes £120 million relating to own credit adjustments and £98 million relating to the transfer of portfolio businesses to Commercial Banking. NatWest Markets income excluding own credit adjustments (2015 - £120 million; 2014 - £9 million charge), was £1,407 million, in line with previous guidance.

- Rates income declined, reflecting the reduced scale and risk appetite of the business.
- Currencies incurred losses when the Swiss Central Bank unexpectedly removed the Swiss Franc's peg to the Euro.
- Financing was impacted by the strategically reduced corporate footprint especially in the US and by lower levels of EMEA investment grade issuance.

Operating expenses fell by £281 million, or 11%, to £2,369 million in 2015. This includes £31 million relating to the transfer of portfolio businesses to Commercial Banking. Expenses remaining in NatWest Markets were £2,338 million as the business reshaped, including a considerable reduction in headcount. Litigation and conduct costs fell by £454 million, or 55%, to £378 million, primarily relating to foreign exchange settlements in the US. This reduction was offset by an increase in restructuring costs of £422 million to £524 million, primarily relating to property and intangible asset write downs. Adjusted operating expenses, which exclude restructuring costs of £524 million (2014 - £102 million) and litigation and conduct costs of £378 million (£832 million) fell by £249 million or 15% to £1,467 million.

Total assets fell by £60.9 billion to £215.3 billion as the business continues to work through re-shaping, and included £17 billion (2014 - £20 billion) relating to the transfer to Treasury of the Short Term Markets

business and £5 billion from the transfer of the UK and Western European corporate loan portfolios to Commercial Banking. Funded assets fell by £34.4 billion to £103.3 billion.

RWAs reduced by £8.8 billion to £33.1 billion compared with £41.9 billion, nearing the end-state target of c.£30 billion. The reduction was primarily driven by the transfer of the UK and Western European portfolio businesses to Commercial Banking.

Business review

Capital Resolution *continued*

Serving our customers

Capital Resolution continues to run down and dispose of non-strategic assets and remove risk from the balance sheet and good progress has been made in 2016 with RWAs falling by £14.5 billion to £34.5 billion. Key highlights include:

Completion of the sale of our Russia and Kazakhstan subsidiaries.

Significant balance sheet reduction in GTS with almost all customers exited by the end of 2016 with focus on managing the day to day customer exit journey, helping them re-bank and providing transition advice.

Significant Markets derivative mitigation sales and restructure activity.

2016 compared with 2015

RWAs decreased by £14.5 billion, or 30%, to £34.5 billion reflecting disposal activity partially offset by an increase due to the weakening of sterling. Since the end of 2014, RWAs have reduced by £60.6 billion, or 64%.

Total assets decreased by £69.0 billion to £132.5 billion. Funded assets decreased by £25.8 billion to £27.6 billion with the most significant reductions across Markets and GTS.

An operating loss of £4,870 million compared with a loss of £3,687 million in 2015 and included litigation and conduct costs of £3,413 million. The adjusted operating loss, which excludes restructuring costs of £78 million (2015 - £1,307 million) and litigation and conduct costs of £3,413 million (2015 - £2,105 million) was £1,432 million compared with £412 million in 2015.

Income disposal losses were £572 million, £205 million higher than 2015, and included £259 million in respect of the shipping portfolio. In addition, a funding valuation adjustment charge of £170 million was incurred in 2016.

Operating expenses decreased from £4,951 million to £4,255 million in 2016. Adjusted operating expenses, which exclude restructuring costs of £78 million (2015 - £1,307 million) and litigation and conduct costs of £3,413 million (2015 - £2,105 million) decreased by £775 million, or 50%, to £764 million, principally reflecting a 1,000 reduction in headcount.

A net impairment loss of £253 million compared with a net impairment release of £725 million in 2015 and principally comprised charges relating to a number of shipping assets (£424 million).

2015 compared with 2014

Capital Resolution RWAs reduced from £95.1 billion to £49.0 billion driven by significant reductions across a number of business areas, which primarily reflected disposals and repayments activity.

Capital Resolution made an operating loss of £3,687 million, including income related disposal losses of £367 million, restructuring costs of £1,307 million together with litigation and conduct costs of £2,105 million. Operating expenses increased by £2,454 million to £4,951 million, principally reflecting increases in litigation and conduct costs relating to additional provisions for mortgage-backed securities litigation in the United States. Adjusted operating expenses, which exclude restructuring costs of £1,307 million (2014 - £185 million) and litigation and conduct costs of £2,105 million (2014 - £162 million) were reduced by £481 million, or 24% to £1,539 million, principally reflecting a fall in headcount of approximately 1,100. Net impairment releases of £725 million were recorded, driven by the disposal strategy and favourable market and economic conditions.

Capital Resolution total assets fell by £125.8 billion to £201.5 billion, funded assets fell £62.2 billion to £53.4 billion, primarily due to loan portfolio disposals.

Business review

Williams & Glyn continued

Serving our customers

This view of W&G, as it stands as a reportable segment within RBS Group, reflects the contribution made by W&G's ongoing business to RBS, as distinct to the financial effects of any disposal transaction itself. These figures do not reflect the cost base, funding, liquidity and capital profile of W&G as a standalone bank and do not contain certain customer portfolios which are currently reported through other segments within RBS.

Williams & Glyn refers to the business formerly intended to be divested as a separate legal entity and principally comprises RBS England and Wales branch-based businesses, along with certain small and medium enterprises and corporate activities across the UK.

In 2016 both the retail and commercial businesses of W&G continued to perform well despite the competitive low interest rate environment. Gross new lending for mortgages increased by £0.2 billion, or 10%, to £2.1 billion while commercial remained resilient with gross new lending of £2.6 billion.

2016 compared with 2015

An operating profit of £345 million compared with £431 million in 2015. Adjusting operating profit, which excludes restructuring costs of £57 million (2015 - £28 million) was down £57 million to £402 million reflecting higher adjusted operating expenses (which exclude restructuring costs) and increased impairments.

Total income increased by £4 million to £837 million as the benefit of increased volumes was mainly offset by margin pressure from the impact of the competitive lending environment and a further reduction in interest rates. Net interest margin reduced by 16 basis points to 2.71%.

Operating expenses of £450 million increased by £63 million, or 16%, and included a £29 million increase in restructuring costs. Adjusted operating expenses, which exclude restructuring costs of £57 million (2015 - £28 million), increased by £34 million, or 9%, to £393 million reflecting activity undertaken in H1 to create a standalone bank, partially offset by the benefit of the commercial business restructuring which was announced in Q4 2015. Following the announcement to discontinue the programme to create a cloned

banking platform, a further restructuring programme commenced in Q4 2016 resulting in an additional reduction in headcount.

Net impairment losses remained low at £42 million compared with a loss of £15 million in 2015. The 2015 charge benefited from a number of releases, totalling £28 million, in the commercial business.

Net loans and advances increased by £0.6 billion, or 3%, to £20.6 billion principally reflecting growth in mortgages of £0.4 billion, or 4%.

Customer deposits were broadly stable at £24.2 billion, a £1.2 billion increase in retail deposits was offset by a £1.1 billion reduction in commercial deposits.

2015 compared with 2014

Operating profit was £431 million, compared with a profit of £467 million in 2014. The reduction was principally driven by lower non-interest income and restructuring costs attributed to Commercial Banking, partly offset by a lower net impairment charge. Adjusted operating profit, which excludes restructuring costs of £28 million (2014 - nil) was down £8 million from £467 million to £459 million.

Total income was £833 million, compared with £852 million in 2014. Net interest income reduced £6 million to £658 million due to mortgage margin pressure from the impact of market competition on new business pricing. Net interest margin declined 6 basis points to 2.87%, due to the aforementioned margin pressure on new mortgage volumes and a reduction in the number of customers on the standard variable rate. Non-interest income fell by 7%, primarily due to lower fee income from credit and debit cards as well as lower overdraft usage and tariffs.

Operating expenses totalled £387 million, an increase of £57 million as the business continued to stand up the central functions and operations areas resulting in an increase in staff costs of 8% or £15 million, this further included a restructuring charge of £28 million in commercial banking.

Net impairment losses were £15 million, lower than the £55 million loss incurred in 2014 due to portfolio provision releases and reduced levels of defaults in portfolios reflecting a benign UK economy.

Loans and advances grew by £0.4 billion, or 2%, to £20.3 billion. Excluding the transfer of £0.3 billion of commercial lending back to CPB, lending grew £0.7 billion, or 4%, driven by good growth in both mortgage lending and commercial loans. Customer deposits rose £2.1 billion, or 10%, to £24.1 billion with growth in both transactional accounts and savings accounts.

RWAs fell £0.2 billion to £9.9 billion due to the better credit quality of the overall portfolio.

Business review

Central items and other			
	2016	2015	2014
	£m	£m	£m
Central items not allocated	(1,615)	(903)	(931)

Funding and operating costs have been allocated to operating segments based on direct service usage, the requirement for market funding and other appropriate drivers where services span more than one segment.

Residual unallocated items relate to volatile corporate items that do not naturally reside within a segment.

2016 compared with 2015

Central items not allocated represented a charge of £1,615 million in 2016, compared with a £903 million charge in 2015, and included restructuring costs of £1,482 million and litigation and conduct costs of £697 million. Restructuring costs included a £750 million provision in respect of the 17 February 2017 update on RBS's remaining State Aid obligation regarding Williams & Glyn. Treasury funding costs were a charge of £94 million, compared with a gain of £169 million in 2015, and included a £510 million charge for volatile items under IFRS, due to reductions in long term interest rates, and a £349 million foreign exchange gain, principally associated with the weakening of sterling against the US dollar. In addition, there was a £126 million loss on redemption of own debt in 2016. These were partially offset by a VAT recovery of £227 million and a £246 million gain on the sale of the stake in VISA Europe.

2015 compared with 2014

Central items not allocated represented a charge of £903 million compared with a charge of £931 million in 2014. This includes restructuring costs relating to Williams & Glyn of £630 million, a write-off of intangible assets of £59 million, a loss of £263 million on the repurchase of certain US dollar, Sterling and Euro senior debt securities and a loss of £67 million on the disposal of available-for-sale securities. These were partially offset by Treasury funding costs, including volatile items under IFRS, a gain of £169 million. Also included are £56 million of income, £109 million of direct operating expenses and £122 million of indirect operating expenses in relation to the international private banking business.

Business review

Commentary on consolidated balance sheet

2016 compared with 2015

Total assets of £798.7 billion as at 31 December 2016 were down £16.8 billion, 2%, compared with 31 December 2015. This was primarily driven by decreases in derivative assets, primarily reflecting Capital Resolution run-down, partly offset by loan growth in UK PBB and Commercial Banking.

Loans and advances to banks decreased by £0.5 billion, 2%, to £30.1 billion. Excluding reverse repurchase agreements and stock borrowing ('reverse repos'), up £0.6 billion, 5%, to £12.9 billion, bank placings declined £1.1 billion, 6%, to £17.3 billion, mainly reflecting Capital Resolution run-down.

Loans and advances to customers increased £18.1 billion, 5%, to £352.0 billion. Within this, reverse repos were up £1.4 billion, 5%, to £28.9 billion. Customer lending increased by £16.7 billion, 5%, to £323.0 billion, or £14.0 billion to £327.5 billion before impairments. This reflected increases in UK PBB reflecting growth in mortgages, Commercial Banking which recorded strong new business volumes, partially offset by run-down and disposals in Capital Resolution.

Debt securities were down £9.6 billion, 12%, to £72.5 billion, mainly due to reductions in held-for-trading government and financial institution securities in RBS Treasury.

Equity shares decreased by £0.7 billion, 48%, to £0.7 billion, primarily due to the continuing risk reduction and run-down in Capital Resolution.

Movements in the value of derivative assets, down £15.5 billion, 6%, to £247.0 billion, and liabilities, down £18.2 billion, 7% to £236.5 billion, reflecting lower trading volumes of £34 million, partially offset by the impact of foreign exchange movements. Increases in trading activity in NatWest Markets of £15 billion was more than offset by disposals and run-off in Capital Resolution.

Assets and liabilities of disposal groups, decreased £3.5 billion to £13 million and £3.0 billion to £15 million respectively, primarily reflecting the sale of the international private banking business.

Deposits by banks increased by £0.3 billion, 1%, to £38.6 billion, with increases in inter-bank deposits, up £5.3 billion, 19%, to £33.3 billion, primarily driven by increases in NatWest Markets and RBS Treasury offset by reductions in Capital Resolution. Repurchase agreements and stock lending ('repos'), decreased by £5.0 billion, 49%, to £5.2 billion, primarily driven by reductions in NatWest Markets.

Customer accounts increased £10.7 billion, 3%, to £381.0 billion. Within this, repos were stable at £27.1 billion. Excluding repos, customer deposits were up £10.7 billion, 3%, to £353.9 billion, primarily reflecting growth in UK PBB, Commercial Banking, and NatWest Markets offset by run-down in Capital Resolution.

Debt securities in issue decreased £3.9 billion, 13%, to £27.2 billion reflecting a decrease in Capital Resolution and RBS Treasury given the lower funding requirements of a reduced balance sheet.

Subordinated liabilities decreased by £0.4 billion, 2% to £19.4 billion, primarily as a result of the net decrease in dated and undated loan capital with redemptions of £0.9 billion and £2.6 billion respectively. This was offset by exchange rate movements and mark-to-market adjustments of £3.1 billion.

Owners' equity decreased by £4.1 billion, 8%, to £49.4 billion, primarily driven by the £4.5 billion loss for the year.

Business review

Cash flow			
	2016	2015	2014
	£m	£m	£m
Net cash flows from operating activities	(3,650)	918	(20,387)
Net cash flows from investing activities	(4,359)	(4,866)	6,609
Net cash flows from financing activities	(5,107)	(940)	(404)
Effects of exchange rate changes on cash and cash equivalents	8,094	576	909
Net decrease in cash and cash equivalents	(5,022)	(4,312)	(13,273)

2016

The major factors contributing to the net cash outflow from operating activities of £3,650 million were the elimination of foreign exchange differences £6,518 million, contribution to defined benefit schemes of £4,786 million, loans and advances written-off net of recoveries of £3,586 million, operating loss before tax of £4,082 million and other provisions utilised of £2,699 million. These were partially offset by inflows from an increase of £8,413 million in operating assets and liabilities, other provisions charged net of releases of £7,216 million, interest on subordinated liabilities of £845 million and depreciation and amortisation of £778 million.

Net cash outflows from investing activities of £4,359 million related to the net outflows from purchase and sale of securities of £3,008 million, the purchase of property, plant and equipment of £912 million and £886 million outflows from disposals, offset by net cash inflows from the sale of property, plant and equipment of £447 million.

Net cash outflows from financing activities of £5,107 million relate primarily to the redemption of subordinated liabilities of £3,606 million, redemption of equity preference shares of £1,160 million, the final payment to retire the Dividend Access Share of £1,193 million and interest paid on subordinated liabilities of £813 million. These outflows were partly offset by the inflow from the issuance of Additional Tier 1 capital notes of £2,046 million.

2015

The major factors contributing to the net cash inflow from operating activities of £918 million were the increase of £8,589 million in operating assets and liabilities, other provisions charged net of releases of £4,566 million, write down of goodwill and other intangible assets £1,332 million and depreciation and amortisation of £1,180 million. These were partially offset by loans and advances written-off net of

recoveries of £8,789 million, other provisions utilised of £2,202 million, elimination of foreign exchange differences of £1,501 million, profit on sale of subsidiaries and associates of £1,135 million, cash contribution to defined benefit pension schemes of £1,060 million, decrease in income accruals of £1,075 million and the operating loss before tax of £937 million.

Net cash outflows from investing activities of £4,866 million related to the net outflows from purchase of securities of £5,906 million and the purchase of property, plant and equipment of £783 million, offset by inflows of £391 million from disposals, primarily Citizens and net cash inflows from the sale of property, plant and equipment of £1,432 million.

Net cash outflows from financing activities of £940 million relate primarily to the redemption of subordinated liabilities of £3,047 million, redemption of preference shares of £1,214 million and interest paid on subordinated liabilities of £975 million partly offset by the proceeds of non-controlling interests issued of £2,537 million and the issue of Additional Tier 1 capital notes of £2,012 million

2014

The major factors contributing to the net cash outflow from operating activities of £20,387 million were the decrease of £18,260 million in operating assets and liabilities, loans and advances written-off net of recoveries of £5,073 million, other provisions utilised of £3,528 million and the loss before tax of £564 million from continuing and discontinued operations. These were partially offset by the loss on reclassification to disposal groups of £3,994 million and other provisions charged net of releases of £2,711 million.

Net cash inflows from investing activities of £6,609 million related to the net inflows from sales and maturity of securities of £7,744 million and the sale of property, plant and equipment of £1,162 million, offset by net investments in business interests and intangible assets of £1,481 million and net cash outflows from the purchase of property, plant and equipment of £816 million.

Net cash outflows from financing activities of £404 million relate primarily to the redemption of subordinated liabilities of £3,480 million and interest paid on subordinated liabilities of £854 million partly offset by the issue of subordinated liabilities of £2,159 million and proceeds of non-controlling interests issued of £2,147 million.

Risk overview*

Risk culture and appetite

Risk culture

A strong risk culture is essential if RBS is to achieve its ambition to build a truly customer-focused bank.

RBS has measured and benchmarked its risk culture across all functions and businesses. It has set a risk culture target, making risk simply part of the way that employees work and think.

Such a culture must be built on strong risk capabilities, with robust risk practices and appropriate risk behaviours embedded across the organisation.

To achieve this RBS is focusing on leaders as role models and taking actions to build clarity, develop capability and motivate employees to reach the required standards of risk culture behaviours including:

- Taking personal accountability and proactively managing risk;
- Respecting risk management and the part that it plays in daily work;
- Understanding clearly the risks associated with individual roles;
- Aligning decision-making to RBS's risk appetite;
- Considering risk in all actions and decisions;
- Escalating risks and issues early;
- Taking action to mitigate risks;
- Learning from mistakes and near-misses;
- Challenging others' attitudes, ideas and actions; and
- Reporting and communicating about risks transparently.

To embed and strengthen the required risk culture behaviours, a number of RBS-wide activities have been undertaken.

To support a consistent tone from the top, senior management frequently communicate the importance of the required risk behaviours through various channels, linking them to the achievement of good customer outcomes.

RBS's target risk culture behaviours have been embedded into a statement of "Our Standards", which are clearly aligned to the core values of "serving customers", "working together", "doing the right thing" and "thinking long term". They act as a clear starting point for a strong and effective risk culture, as "Our Standards" are used for performance management, recruitment and selection and development.

In addition to embedding risk culture behaviours into performance management, in 2016 an objective aligned to RBS' risk culture target was set for the Executive Committee and made integral to performance reviews.

RBS's policies require that risk behaviour assessment is incorporated into performance assessment and compensation processes for enhanced governance staff.

To track progress towards RBS's risk culture target a programme of assessment commenced in 2016.

Risk overview* continued

Risk-based key performance indicators

RBS-wide remuneration policy ensures that the remuneration arrangements for all employees reflect the principles and standards prescribed by the UK Remuneration Code. For further information refer to page 101.

Training

Enabling employees to have the capabilities and confidence to manage risk is core to RBS's learning strategy.

RBS offers a wide range of risk learning, both technical and behavioural, across the risk disciplines. This training can be mandatory, role-specific or for personal development.

Mandatory learning for all staff is focused on keeping employees, customers and RBS safe. This is easily accessed online and is assigned to each person according to their role and business area. The system allows monitoring at all levels to ensure completion.

Code of Conduct

Aligned to RBS's values is the Code of Conduct. The Code provides guidance on expected behaviour and sets out the standards of conduct that support the values. It explains the effect of decisions that are taken and describes the principles that must be followed.

These principles cover conduct-related issues as well as wider business activities. They focus on desired outcomes, with practical guidelines to align the values with commercial strategy and actions. The embedding of these principles facilitates sound decision-making and a clear focus on good customer outcomes. They are also consistent with the people management and remuneration processes and support a positive and strong risk culture through appropriate incentive structures.

A simple decision-making guide (called the "YES check") has been included in the Code of Conduct. It is a simple, intuitive set of five questions, designed to ensure RBS values guide day-to-day decisions:

- Does what I am doing keep our customers and RBS safe and secure?
- Would customers and colleagues say I am acting with integrity?
- Am I happy with how this would be perceived on the outside?
- Is what I am doing meeting the standards of conduct required?
- In five years' time would others see this as a good way to work?

Each of the five questions is a prompt to think about how the situation fits with RBS Group's values. It ensures that employees can think through decisions that do not have a clear answer, and guides their judgements.

*unaudited

Business review **Capital and risk management**

Risk overview* continued

If conduct falls short of RBS's required standards, the accountability review process is used to assess how this should be reflected in pay outcomes for those individuals concerned. The Group Performance and Remuneration Committee also considers risk performance and conduct when determining overall bonus pools. The Committee's decisions on pay aim to reinforce the need for good behaviours by all employees.

Risk appetite

Risk capacity defines the maximum level of risk RBS can assume before breaching constraints determined by regulatory capital and liquidity needs, the operational environment, and from a conduct perspective. Articulating risk capacity is helpful in determining where risk appetite should be set, ensuring there is a buffer between internal risk appetite and RBS's ultimate capacity to absorb losses.

Risk appetite defines the types of risk RBS is willing to accept, within risk capacity, in order to achieve strategic objectives and business plans. It links the goals and priorities to risk management in a way that guides and empowers staff to serve customers well and achieve financial targets.

Risk Appetite Framework

The Risk Appetite Framework bolsters effective risk management by promoting sound risk taking and ensuring emerging risk and risk taking activities are recognised, assessed, escalated and addressed in a timely manner.

The Board approves the Risk Appetite Framework annually.

Strategic risks

Strategic risks are the foundations on which RBS ensures it remains safe and sound while implementing its strategic business objectives. They are:

- Capital adequacy;
- Earnings volatility;
- Funding and liquidity; and
- Stakeholder confidence.

The Board sets risk appetite for strategic risks to help ensure RBS is well placed to meet its priorities and long-term targets even under challenging economic environments.

All other risk appetites for material risks (such as credit risk, market risk and operational risk) should align to strategic risks. Risk appetite for our strategic risks is tested using a variety of stress tests.

Risk appetite statements

Risk appetite is communicated across RBS through risk appetite statements. Each statement provides clarity on the scale and type of activities permitted, in a manner that is easily conveyed to staff. Risk appetite statements consist of qualitative statements of appetite supported by risk limits and triggers that operate as a defence against excessive risk-taking.

The purpose of risk appetite statements is to strengthen understanding of acceptable levels of risk.

Risk appetite statements are established at an RBS-wide level for strategic risks and material risks, and at a franchise, function and legal entity level.

*unaudited

Business review **Capital and risk management**

Risk overview* [continued](#)

The annual process of establishing risk appetite statements is completed alongside the business and financial planning process to ensure risk appetite remains appropriate given the levels of risk expected over the planning horizon.

The effective communication of risk appetite is essential in embedding appropriate risk-taking into RBS's culture.

RBS frequently reviews its risk profile to ensure it remains within risk appetite and that management focus is brought to bear on all strategic risks, material risks and emerging risk issues. RBS has effective processes in place to report against risk appetite to the RBS Board and senior management.

Three lines of defence

The three lines of defence model is used industry-wide for the management of risk. It provides a clear set of principles by which to implement a cohesive operating model, one that provides a framework for the articulation of accountabilities and responsibilities for managing risk across the organisation.

First line of defence - Management and supervision

The first line of defence includes customer franchises, Technology and Operations and support functions such as Human Resources, Communications and Financial Management Information. Responsibilities include:

- Owning, managing and supervising, within a defined risk appetite, the risks which exist in business areas and support functions.
- Ensuring appropriate controls are in place to mitigate risk, balancing control, customer service and competitive advantage.
- Ensuring that the culture of the business supports balanced risk decisions and compliance with policy, laws and regulations.
- Ensuring that the business has effective mechanisms for identifying, reporting and managing risk and controls.

Second line of defence - Oversight and control

The second line of defence in 2016 included RBS Risk Management and Conduct & Regulatory Affairs (refer below for further information), Legal, and the financial control aspects of Finance. Responsibilities include:

- Working with the businesses and functions to develop the risk and control policies, limits and tools for the business to use in order to discharge its responsibilities.
- Overseeing and challenging the management of risks and controls.
- Leading the articulation, design and development of RBS's risk culture and appetite.
- Analysing the aggregate risk profile and ensuring that risks are being managed to the desired level (risk appetite).

- Providing expert advice to the business on risk management.
- Providing senior executives with relevant management information and reports and escalating concerns where appropriate.
- Undertaking risk assurance (refer below for more information).

Third line of defence - Internal Audit

Responsibilities include:

- Designing and delivering a risk-based audit plan to provide assurance on material risks and report on whether RBS is managing its material risks effectively.
- Monitoring, evaluating and reporting on the remediation of material risks across RBS.
- Engaging with management and participating in key governance fora to provide perspectives, insights and challenge so as to influence the building of a sustainable bank.
- Advising the Group Audit Committee and executive management with respect to RBS's material risks and their associated controls.
- Reporting any matters which warrant escalation to the RBS Board, the Board Risk Committee, Group Audit Committee and the Executive Committee as appropriate.
- Providing independent assurance to the FCA, PRA, CBI and other key jurisdictional regulators on both specific risks and control themes.

[Risk management structure](#)

RBS's management structure in 2016 and the main elements of each role are illustrated below.

*unaudited

226

Business review **Capital and risk management**

Risk overview* continued

Notes:

(1) RBS Risk Management

In 2016, the RBS Chief Risk Officer (CRO) led RBS Risk Management (since 1 January 2017 it has been known as Risk, Conduct & Restructuring). The CRO reported directly to the Chief Executive and had an indirect reporting line to the Chairman of the Board Risk Committee and had a right of access to the Committee's chairman.

RBS Risk Management was a function independent of the franchises, structured by risk discipline to facilitate the effective management of risk.

Risk Management was organised into six functional areas: Credit Risk; Enterprise-Wide Risk; Risk Infrastructure; Operational Risk; Risk Assurance; and Market Risk. There were also directors of risk for each of the franchises and for Services.

The directors of risk functions were responsible for RBS-wide risk appetite and standards within their respective disciplines and reported to the CRO.

CROs were in place for certain jurisdictions and legal entities to meet local regulatory and governance requirements. The key CRO roles reported directly to the RBS CRO.

Risk committees in the customer businesses and key functional risk committees oversaw risk exposures arising from management and business activities and focused on ensuring that they were adequately monitored and controlled.

(2) Conduct & Regulatory Affairs

In 2016, Conduct & Regulatory Affairs (C&RA) was led by the Chief Conduct & Regulatory Affairs Officer, who reported directly to the Chief Executive and had an indirect reporting line to the Board Risk Committee and a right of access to the committee's chairman. C&RA was responsible for providing oversight of conduct risk and regulatory risk at RBS, and did so by setting RBS-wide policy and standards, providing advice to each customer business, and ensuring that the mitigating controls were suitable. C&RA also provided leadership of RBS's relationships with its regulators.

The functional heads (the directors of Financial Crime, Advisory, Remediation, Compliance Services, and Regulatory Affairs) reported to the Chief Conduct & Regulatory Affairs Officer. Each was responsible, where appropriate, for the RBS-wide risk appetite and standards of their respective areas.

(3) Plans to merge parts of the C&RA function with Risk Management were announced in December 2016. The changes, designed to take advantage of synergies across the risk, conduct and regulatory agendas, were effective from 1 January 2017. Regulatory Affairs moved to Corporate Governance & Secretariat, and Remediation and Complaints moved to Services Chief Operating Office.

Business review **Capital and risk management**

Risk overview* continued

Risk Assurance

Risk Assurance is an independent second line of defence function which provides assurance to both internal and external stakeholders including the Board, senior management, risk functions, franchises, Internal Audit and regulators. Teams within Risk Assurance perform quality assurance on both credit and market risk activity, review key controls and manage model risk.

The remit of each team is summarised below.

Franchise Risk Assurance: These teams focus on credit risk and market risk assurance in the customer-facing franchises. The teams undertake qualitative reviews which assess various aspects of risk as appropriate, including: the quality of risk portfolios; the accuracy of the Basel Input and related probability of default/loss given default classification, the quality of risk management practices, policy compliance and adherence to risk appetite. This includes testing the bank's credit portfolios and market risk exposures to assist in early identification of emerging risks, as well as undertaking targeted reviews to examine specific concerns raised either by these teams or by their stakeholders.

Controls Assurance: This team tests the adequacy and effectiveness of key controls owned and operated by the Risk function (with a particular focus on credit risk and market risk controls). The team's remit includes controls within the scope of Section 404 of the US Sarbanes-Oxley Act 2002. During 2016, the team's scope extended to include testing of controls supporting risk data aggregation reporting to support compliance with Basel Committee on Banking Supervision (BCBS) 239.

Risk Assurance Committee

The Risk Assurance Committee (RAC) ensures a consistent and fair approach to all aspects of the credit risk, market risk and control assurance review activities. The RAC also monitors and validates the ongoing programme of reviews and tracks the remediation of review actions. The credit and market risk assurance teams also attend relevant committees run by the customer franchises and other risk functions.

Model Risk

Model Risk Governance

Model Risk Governance is responsible for setting policy and providing a governance framework for all of RBS's modelling processes. It is also responsible for defining and monitoring risk appetite in conjunction with model owners and model users, monitoring the model risk profile and reporting on the model population as well as escalating issues to senior management, through the Model Risk Forum, and the respective franchise and function risk committees.

Model Risk Management

Model Risk Management (MRM) performs independent model validation for material models where necessary. It works with individual businesses and functions to set appropriate model standards and monitor adherence to these, ensure that models are developed and implemented appropriately and that their operational environment is fit for purpose.

*unaudited

Business review **Capital and risk management**

Risk overview* continued

MRM performs reviews of relevant risk and pricing models in two instances: (i) for new models or amendments to existing models and (ii) as part of its ongoing programme to assess the performance of these models.

A new model is typically introduced when an existing model is deemed no longer fit for purpose or when exposure to a new product requires a new approach to ensure that risks are appropriately quantified. Amendments are usually made when a weakness is identified during use of a model or following analysis either by the model developers or by MRM.

MRM reviews may test and challenge the logic and conceptual soundness of the methodology, or the assumptions underlying a model. Reviews may also test whether or not all appropriate risks have been sufficiently captured as well as checking the accuracy and robustness of calculations.

Based on the review and findings from MRM, the bank's model or risk committees with appropriate delegated authority consider whether a model can be approved for use and whether any conditions need to be imposed, including those relating to the remediation of material issues raised through the review process. Once approved through internal governance, the new or amended model is implemented. Models used for regulatory reporting may additionally require regulatory approval before implementation.

MRM reassesses the appropriateness of approved risk models on a periodic basis according to the approved Periodic Review Policy. Each periodic review begins with an initial assessment. A decision is then made by an internal model governance committee with appropriate delegated authority. Based on the initial assessment, the committee will decide to re-ratify a model based on the initial assessment or to carry out additional work prior to making a decision. In the initial assessment, MRM assesses changes since the last approval along the following dimensions, as appropriate: change in size/composition of the portfolio, market changes, model performance, model changes, status of any outstanding issues and scheduled activities including work carried over from previous reviews.

MRM also monitors the performance of RBS's portfolio of models to ensure that they appropriately capture underlying business rationale.

For specific information relating to market risk models and pricing models, refer to Model Validation in the Market Risk section.

Models used in Risk

RBS uses a variety of models as part of its risk management process and activities. Key examples include the use of model outputs to support risk assessments in the credit approval process, ongoing credit risk management, monitoring and reporting, as well as the calculation of risk-weighted assets. Other examples include the use of models to measure market risk exposures and calculate associated capital requirements, as well as for the valuation of positions. The models used for stress-testing purposes also play a key role in ensuring the bank holds sufficient capital, even in stressed market scenarios.

Business review **Capital and risk management**

Capital risk*

Definition and sources

Capital consists of reserves and instruments issued that are available to the Group that have a degree of permanency and are capable of absorbing losses. A number of strict conditions set by regulators must be satisfied to be eligible to count as capital.

Capital risk is the risk that the Group has insufficient capital and other loss absorbing debt instruments to operate effectively including meeting minimum regulatory requirements, operating within Board approved risk appetite and supporting its strategic goals.

Capital management is the process by which the Group manages its capital risk and is a key focus of its risk management activities.

The following disclosures in this section are audited: Capital resources.

Key developments in 2016

13.4% CET1 ratio

- The CET1 ratio decreased by 210 basis points to 13.4% in 2016, reflecting lower CET1 capital partially offset by a reduction in RWAs.
- Litigation and conduct costs of £5.9 billion in 2016 contributed to a significant reduction in the CET1 capital. Management actions to normalise the ownership structure and improve the long-term resilience of RBS also contributed to the reduction. These actions included the final Dividend Access Share payment of £1.2 billion and the impact of the accelerated pension payment of £4.2 billion.
- RWAs decreased by £14.4 billion to £228.2 billion primarily as result of run down of Capital Resolution and the reduction in operational risk (£5.9 billion) partly offset by adverse exchange rate movements (£11.5 billion) as sterling weakened against all major currencies.
- Tier 1 capital benefitted from the successful issuance of £2 billion of Additional Tier 1 (AT1) capital notes in August 2016. Total end-point Capital Requirements Regulation (CRR) compliant AT1 capital now stands at £4.0 billion.

5.1% leverage ratio

- The leverage ratio reduced by 50 basis points to 5.1% at 31 December 2016, primarily reflecting CET1 capital erosion, partially offset by additional AT1 issuance.
- The leverage exposure decreased by £19.2 billion to £683.3 billion at 31 December 2016. Growth in PBB and CPB lending has been more than offset by lower undrawn commitments and derivative potential future exposures (PFE). During 2016, approximately half the interest rate trades cleared through London Clearing House have been settled-to-market each day, rather than being collateralised, reducing PFE by £10.3 billion.
- The UK leverage ratio reflecting the post EU referendum measures announced by the Bank of England in Q3 2016 was estimated at 5.6%.
- RBS's PRA minimum leverage ratio requirement of 3% has been supplemented with an additional GSII leverage ratio buffer of 0.13125%, equivalent to £897 million of CET1 capital.

*unaudited

Business review **Capital and risk management**

Capital risk* continued

MREL and MDA

- RBS issued £4.2 billion of MREL-eligible senior debt, in line with the £3 - £5 billion senior debt issuance target for 2016.
- RBS successfully completed a cash tender for £2.3 billion senior debt securities, including those considered non-MREL compliant, as part of ongoing transition to a holding company capital and term funding model, in line with regulatory requirements.
- The current estimated headroom over the fully phased MDA trigger in 2019 is 2.9%, based on our target CET1 ratio of 13.0% and MDA requirement of 10.1%. This remains subject to change.

Determination of capital sufficiency

In determining whether the Group holds sufficient capital and other loss absorbing debt instruments, the Group assesses the amount and type of capital under a number of different bases:

Going concern vs. gone concern view

Going concern

This determination of capital sufficiency is made on the basis that there is sufficient capital to absorb losses and remain a viable going concern.

The Group is considered a going concern if it can operate in the foreseeable future to carry out its objectives and commitments without the need or intention on the part of management to liquidate.

Gone concern

This determination of capital sufficiency is made on the basis that there is sufficient capital and other loss absorbing instruments to enable an orderly resolution in the event of failure. Gone concern would apply if the Group had been deemed to fail by the Bank of England (BoE). Technically, the Group would have to fail or be likely to fail the BoE's threshold conditions for authorisation in a way that justifies the withdrawal of that authorisation and it must not be reasonably likely that action will be taken that will result in the Group

no longer failing or likely to fail.

Spot vs. forward looking view

Spot view

This determination of capital sufficiency is made on the basis of prevailing actual positions and exposures.

Forward-looking view

This determination of capital sufficiency is made on the basis of positions, balance and exposures under a forward looking view of the balance sheet in line with the Group's planning horizons and parameters. This analysis examines both base and stress views.

*unaudited

Business review **Capital and risk management**

Capital risk* continued

Regulatory vs. risk appetite view

Regulatory requirements

This determination of capital sufficiency is an assessment of whether the Group has sufficient capital and other loss absorbing debt instruments to meet the requirements of prudential regulation.

Regulation may be set by rule-making bodies in the UK and at European level. Individual legal entities within the Group may be subject to requirements set by local regulators in jurisdictions outside of the UK and the EU.

Rule-making bodies may set regulation according to standards agreed at international level, such as those published by the Basel Committee on Banking Supervision (BCBS).

Risk appetite

This determination of capital sufficiency is an assessment of whether the Group has sufficient capital and other loss absorbing debt instruments to meet risk appetite limits.

This Group's risk appetite framework establishes quantitative and qualitative targets and limits within which the Group operates to achieve its strategic objectives.

This framework includes risk appetite in relation to the amount and quality of the Group's capital on both a risk and balance sheet measurement basis. This includes setting management buffers on top of regulatory minima such that the Group operates with sufficient cushioning against those minimum regulatory requirements.

Capital risk is one of the Group's top strategic risk appetite constituents as it is a stand-alone risk and is both influenced by, and influences, other key risks.

Business review [Capital and risk management](#)

Capital risk* [continued](#)

[Capital sufficiency: going concern view](#)

The regulatory requirement for going concern capital typically takes the form of a ratio of capital compared to a defined exposure amount having to exceed a minimum percentage:

Ratio	Exposure type	Description
Capital adequacy ratio	Risk-weighted assets	

		Assesses capital held against both size and inherent riskiness of on and off-balance sheet exposures
Leverage ratio	Leverage exposure	Assesses capital held against the size of on and off-balance sheet exposures (largely based on accounting value with some adjustments)

Constituents of capital held

The determination of what instruments and financial resources are eligible to be counted as capital is laid down by applicable regulation.

Capital is categorised by applicable regulation under two tiers (Tier 1 and Tier 2) according to the ability to absorb losses, degree of permanency and the ranking of absorbing losses. There are three broad categories of capital across these two tiers:

- **CET1 capital.** CET1 capital must be perpetual and capable of unrestricted and immediate use to cover risks or losses as soon as these occur. This includes ordinary shares issued and retained earnings. CET1 capital absorbs losses before other types of capital and any loss absorbing instruments.
- **AT1 capital.** This is the second form of loss absorbing capital and must be capable of absorbing losses on a going concern basis. These instruments are either written down or converted into CET1 capital when a pre-specified CET1 ratio is reached. Coupons on AT1 issuances are discretionary and may be cancelled at the discretion of the issuer at any time. AT1 capital may not be called, redeemed or repurchased for five years from issuance.
- **Tier 2 capital.** Tier 2 capital is the Group's supplementary capital and provides loss absorption on a gone concern basis. Tier 2 capital absorbs losses after Tier 1 capital. It typically consists of subordinated debt securities with a minimum maturity of five years.

*unaudited

Business review **Capital and risk management**

Capital risk* *continued*

In addition to capital, other specific loss absorbing instruments including senior notes issued by RBSG, may be used to cover certain gone concern capital requirements which, in the EU, is referred to as minimum requirement for own funds and eligible liabilities (MREL).

In order for liabilities to be eligible for MREL a number of conditions must be met including the BoE being able to apply its stabilisation powers to them, including the use of bail-in provisions

Capital adequacy ratios

The Group has to hold a minimum amount and quality of capital to satisfy capital adequacy ratio regulatory requirements.

Risk-weighted assets

Capital adequacy ratios compare the amount of capital held to RWAs. RWAs are a measure of the Group's assets and off-balance sheet positions that capture both the size and risks inherent in those positions.

For regulatory purposes, RWAs are grouped into four categories:

Risk	Description
Credit	Risk of loss from a borrower failing to repay amounts due by the due date
Counterparty credit	Risk of loss from a counterparty not meeting its contractual obligations Also included is the risk of loss from changes in the fair value of derivative instruments
Market	Risk of loss arising from fluctuations in market prices
Operational	Risk of loss from inadequate or failed internal processes, people and systems or from external events

Minimum percentage

Regulation defines a minimum percentage of capital compared to RWAs. The percentage comprises of system-wide requirements that apply to all banks and a component where the percentage is specific to the Group. This is summarised as follows:

Type	Name	Description
System-wide	Pillar 1 Pillar 2A	Standard minimum percentages applicable to all banks Captures risks that apply to individual banks that are either not adequately captured or not captured at all under Pillar 1
Bank-specific	PRA buffer	Captures forward looking risks and potential losses under a severe stress scenario

*unaudited

Business review Capital and risk management**Capital risk*** continued

These minimum requirements are explained in more detail on the next page. These ratios apply in full from 1 January 2019. Before this date there are transitional rules in place that mean that the minimum capital requirements that the Group has to comply with are lower although the Group, in line with other UK banks, has been reporting on a fully implemented basis since 2014.

Pillar 1 requirements

The Group is subject to system wide minimum capital adequacy ratio requirements that apply to all banks under applicable regulation. There are two broad categories of capital requirements:

Category	Description
Minimum capital adequacy ratio	Represents the minimum amount of capital that all banks must hold at all times
Capital buffers	Comprises of: <ul style="list-style-type: none"> • Capital required to be held by banks that may be used in periods of stress • Capital held by banks that are deemed to be systemically important

Pillar 2 requirements

In addition to the minimum Pillar 1 requirements that apply to all banks, the Group may be required to hold additional capital if specified by its regulators. This is captured under the Pillar 2 framework and consists of two components:

- Pillar 2A: covers risks to the Group that are not captured or not fully captured under Pillar 1. For example, pension risk is not captured in Pillar 1 therefore capital that may need to be held against this risk is assessed under Pillar 2A.
- PRA buffer: covers risks that the Group may become exposed to across a forward-looking planning horizon (for example due to changes to the economic environment).

The PRA buffer is a capital buffer that is designed to ensure that the Group can continue to meet minimum requirements (Pillar 1 and Pillar 2A) during a stressed period. The PRA buffer is required to be held if Pillar

1 capital buffers are determined to be insufficient.

The assessment of Pillar 2 requirements is an output from the Group's internal capital adequacy assessment process that is described in more detail on page 244. Pillar 2 also utilises the output of the Group's stress testing exercises which is described in more detail on pages 243 and 244.

Future changes to regulation

Throughout 2015 and 2016, UK, EU and international standard and rule-making bodies have issued proposals and final standards on revising the level and measurement of capital adequacy ratios including the measurement of RWAs. This may affect the level of RWAs and the capital that the Group is required to hold in the future years. Further details of prudential regulatory changes that may impact the Group's capital adequacy ratio are set out on page 241.

Leverage ratios

The Group has to hold a minimum amount and quality of capital to satisfy the leverage ratio regulatory requirements. Unlike capital adequacy ratios, leverage ratio requirements do not consider the riskiness of the Group's positions.

The leverage exposure is broadly aligned to the accounting value of the Group's on and off-balance sheet exposures but subject to certain adjustments for trading positions, repurchase agreements and off balance sheet exposures.

In common with capital adequacy ratios, the leverage ratio requirement for the Group consists of a minimum requirement and a leverage ratio buffer. Details of the Group's leverage ratio requirements are set out below.

The leverage ratio requirements that the Group must meet may be subject to change from developing regulation. Further details are set out on page 241.

*unaudited

Business review Capital and risk management**Capital risk*** continued**Minimum percentage for going concern capital requirements under applicable regulation**

Capital adequacy ratios

The Group is subject to minimum requirements in relation to the amount of capital it must hold in relation to its RWAs. The table below summarises the minimum ratios of capital to RWAs that the Group is expected to have to meet once all currently adopted regulation is fully implemented by 1 January 2019. These ratios apply at the consolidated group level. Different minimum capital requirements may apply to individual legal entities or sub-groups.

Minimum requirements	Type	CET1	Total Tier 1	Total capital
System wide	Pillar 1 minimum requirements	4.50%	6.00%	8.00%
	Capital conservation buffer	2.50%	2.50%	2.50%
	UK countercyclical capital buffer ⁽¹⁾	0.00%	0.00%	0.00%
	G-SIB buffer ⁽²⁾	1.00%	1.00%	1.00%
Bank specific	Pillar 2A ⁽⁴⁾	2.10%	2.90%	3.80%
Total (excluding PRA buffer) ⁽⁵⁾		10.10%	12.40%	15.30%

Notes:

(1) The countercyclical capital buffer (CCyB) applied to UK designated assets is set by the Financial Policy Committee (FPC). The UK CCyB may be set between 0% and 2.5% and is linked to the state of the UK economy. On 5 July 2016, the FPC reduced the UK CCyB from 0.5% to 0%. Foreign exposures may be subject to different CCyBs depending on the CCyB rate set in the jurisdiction of the foreign exposure. The net CCyB for the Group is non-zero but rounds to 0.00%.

(2) Globally systemically important banks (G-SIBs), as designated by the Financial Stability Board (FSB), are subject to an additional capital buffer of between 1% and 3.5%. Based on the most recent determination of the FSB, the Group is subject to an additional capital requirement of 1.0%

(3) The Group will be subject to a systemic risk buffer (SRB) of between 0% and 3%. The SRB will apply from 1 January 2019 and will apply at the ring-fenced bank sub-group level rather than at the consolidated group level. The SRB may require the Group to hold a minimum amount of capital at the consolidated group level beyond the levels set out in the table above.

(4) Additional capital requirements under Pillar 2A may be specified by the PRA as a ratio or as an absolute value. The table sets out an implied ratio to cover the full value of Pillar 2A requirements.

(5) The Group may be subject to a PRA buffer requirement as set by the PRA. The PRA buffer consists of two components:

- A risk management and governance buffer that is set as a scalar of the Pillar 1 and Pillar 2A requirements. The scalar could range between 10% and 40%.

- A buffer relating to the results of the BoE concurrent stress testing results.

The PRA requires that the level of this buffer is not publicly disclosed.

(6) The capital conservation buffer, the countercyclical capital buffer, the G-SIB buffer and systemic risk buffer (where applicable) make up the combined buffer. If the Group fails to meet the combined buffer requirement, it is subject to restrictions on distributions on CET1 instruments, discretionary coupons on AT1 instruments and on payment of variable remuneration or discretionary pension benefits. These restrictions are calculated by reference to the Group's Maximum Distributable Amount (MDA). The MDA trigger is below the PRA buffer and MDA restrictions are not automatically triggered if the Group fails to meet its PRA buffer. The MDA is calculated as the amount of interim or year-end profits not yet incorporated into CET1 capital multiplied by a factor ranging from 0 to 0.6 depending on the size of the CET1 shortfall against the combined buffer.

Leverage ratios

The table below summarises the minimum ratios of capital to leverage exposure under the PRA UK leverage framework that the Group must meet. In November 2016, the European Commission published a proposal for the adoption of a legally binding 3% of Tier 1 capital minimum leverage ratio with consideration of a leverage buffer ratio for G-SIBs once a final international agreement had been reached. Different minimum requirements may apply to individual legal entities or sub-groups.

Type	CET1	Total Tier 1
Minimum ratio	2.25%	3.00%
UK countercyclical leverage ratio buffer ⁽¹⁾	0.00%	0.00%
Additional leverage ratio buffer ⁽²⁾	0.35%	0.35%
Total	2.60%	3.35%

Notes:

(1) The countercyclical leverage ratio buffer is set at 35% of the Group's CCyB. As noted above this buffer may be set between 0% and 2.5% and the FPC has currently set the UK CCyB at 0%. The applicable ratio for foreign exposures may be different.

(2) As set out in the FPC's SRB framework, published in May 2016, the FPC intends to direct the PRA to apply an additional leverage ratio buffer to UK G-SIBs set at 35% of the G-SIB buffer rate. As noted above, based on the most recent determination of the FSB, the G-SIB buffer rate for the Group is 1.0%.

Business review **Capital and risk management**

Capital risk* continued

Capital sufficiency: going concern forward looking view

The Group examines its going concern capital requirements on a forward looking basis through assessing the resilience of capital adequacy and leverage ratios under hypothetical future states of the world, including as part of its annual budgeting process.

A range of future states of the world are examined. In particular:

- The Group will assess capital requirements based on a forecast of the Group's future business performance under its expectations of economic and market conditions over the forecast period
- The Group will assess capital requirements based on a forecast of the Group's future business performance under adverse economic and market conditions over the forecast period. A range of scenarios of different severity may be examined

The examination of capital requirements under the base economic and market conditions allows the Group to demonstrate how the projected business performance allows it to meet all internal and regulatory capital requirements as they arise over the plan horizon. For example, the Group will assess its ability issue to loss absorbing debt instruments in sufficient quantity to meet regulatory timelines. The cost of issuance will be factored into business performance metrics.

The examination of capital requirements under adverse economic and market conditions is assessed through stress testing. Stress testing is used to quantify, evaluate and understand the potential impact of the financial strength of the Group, including its capital position, given specified changes to risk factors. This is described in more detail on page 243.

The results of stress tests are not only used widely across the Group but also by the Group's regulators to set bank-specific capital buffers through the PRA buffer.

The Group participates in a number of regulatory stress tests implemented by regulatory authorities to test industry-wide vulnerabilities under crystallising global and domestic systemic risks. In 2016, the Group participated in two regulatory stress tests. Details of these stress tests are set out on the following page.

*unaudited

237

Business review Capital and risk management**Capital risk*** continued

Regulatory stress tests

In 2016, the Group participated in two regulatory stress tests set by the EBA and BoE. These scenarios are hypothetical in nature and do not represent a forecast of the Group's future business or profitability. The results of the regulatory stress tests are carefully assessed by the Group and form part of the wider risk management of the Group.

	EBA Stress Test		BoE Stress Test
Scenario	<ul style="list-style-type: none"> Designed to evaluate impact over three years of an adverse macro financial scenario that examines four systemic risks identified by the European Systemic Risk Board as representing the most material threats to the stability of the EU financial sector. A static balance sheet assumption was made across the period of stress and therefore mitigating actions such as balance sheet reduction, business growth and cost savings are not factored into the stress outcomes. 		<ul style="list-style-type: none"> Designed to assess the resilience of major UK banks to tail risk events. The severity of the test is related to policymakers' assessments of risk levels across markets and regions. The 2016 stress test examined the impact over five years of a synchronised global downturn across the UK and global economies. The stress test also assessed a stressed level of misconduct costs.
	<ul style="list-style-type: none"> The 2016 EBA stress test did not contain a pass/fail threshold. 		<ul style="list-style-type: none"> Under the 2016 BoE stress test, CET1 ratio reached a low point of 5.5% in 2017, below the CET1 hurdle rate of 6.6%.
Results	<ul style="list-style-type: none"> On a fully loaded basis, the Group's CET1 ratio under the adverse scenario was projected to be 8.1% as at 31 December 2018. The low point CET1 ratio of 7.8% occurs in 2017. 		<ul style="list-style-type: none"> Post the impact of management actions and the conversion of £2 billion AT1 capital in place for 2015, the Group's low point CET1 ratio increased from 5.5% to 6.7%, meeting the CET1 ratio hurdle rate.
	<ul style="list-style-type: none"> The Group's modelled leverage ratio under the adverse scenario is projected as 3.6% on a fully loaded Basel 3 basis and 4.2% under the PRA transitional definition for leverage ratio as at 		<ul style="list-style-type: none"> Tier 1 leverage rate was projected to be 2.7% in 2017, which increased to 2.9% after the management actions, below the 3% leverage hurdle rate.

	<p>31 December 2018. The low point occurs in 2017 with a stress leverage ratio of 3.5% on a fully loaded Basel 3 basis as at 31 December 2016 and 4.2% under the PRA transitional definition.</p>		<ul style="list-style-type: none"> The stress was based on an end of 2015 starting balance sheet position. Since then, the Group has taken actions to strengthen its capital position. As a result, the Group now has a revised capital plan that brings it back over the thresholds.
<p>What does this mean?</p>	<ul style="list-style-type: none"> The 2016 EBA and BoE stress test results demonstrate that the Group has made good progress in transforming the balance sheet to being safe and sustainable. However, the legacy issues still heavily impact the Group's performance. Rebuilding the capital strength remains one of the Group's core strategic priorities. During 2016, RBS narrowed the range of uncertainty around its capital and leverage position by addressing a number of legacy issues including recording additional provisions of £5.9 billion for conduct and litigation costs. RBS also continued to de-risk its balance sheet. In August 2016 the Group successfully issued an additional £2 billion AT1 capital, bolstering the Group's capital position and leverage ratio. 		

*unaudited

Business review **Capital and risk management****Capital risk*** continued

Capital sufficiency: gone concern view

The Group will be required to hold sufficient capital and other loss absorbing instruments such that, in the event of failure, there can be an orderly resolution that minimises any adverse impact on financial stability whilst preventing public funds being exposed to loss.

In November 2016, the BoE published its policy statement on its approach to setting MREL.

MREL will be set by the BoE on a case-by-case basis but it has stated that it expects institutions that are G-SIBs and subject to a bail-in resolution strategy, such as the Group, to meet interim MREL requirements from 1 January 2019 and end state MREL requirements from 1 January 2022 as follows:

Interim MREL	
1 January 2019	The minimum requirements set out in the FSB total loss absorbing capacity standard being the higher of: <ul style="list-style-type: none"> • 16% of the Group's RWAs; and • 6% of the Group's leverage exposures
1 January 2020	The higher of: <ul style="list-style-type: none"> • The sum of two times the Group's Pillar 1 requirement and one times the Group's Pillar 2A add-ons; and • Two times the applicable leverage ratio requirement for the Group
End state MREL	
1 January 2022	The higher of: <ul style="list-style-type: none"> • Two times the sum of the Group's Pillar 1 requirement and Group's Pillar 2A add-ons; and • The higher of: <ul style="list-style-type: none"> ○ Two times the applicable leverage ratio requirement for the Group; and

o 6.75% of the Group's leverage exposure

The BoE is intending to review its general approach to the calibration of MREL before the end of 2020 prior to setting end-state MRELS.

MREL may consist of capital and other loss absorbing instruments. In order for liabilities to be eligible for MREL, a number of strict conditions will be set by the BoE including the ability for the BoE to apply its stabilisation powers to those liabilities. In addition, liabilities must have an effective remaining maturity (taking account of any rights of early repayment to investors) of greater than one year.

*unaudited

239

Business review **Capital and risk management**

Capital risk* continued

On the basis of the BoE policy statement, the Group expects to issue between £3 billion and £5 billion of MREL compliant senior debt from the single resolution entity (RBSG) each year to meet this requirement.

In order that there is sufficient loss absorbing capacity pre-positioned across the Group, the proceeds of externally issued MREL will be downstreamed to material operating subsidiaries in the form of capital or other subordinated claims. This ensures that internal MREL will absorb losses before operating liabilities within operating subsidiaries.

Although the BoE continue to develop its approach to the calibration of MREL within banking groups, the BoE policy statement sets out the framework that it will use to determine the distribution of MREL within banking groups. Under this framework, the BoE will set individual MRELs for all institutions within the Group and may also set individual MRELs for entities within the Group that are important from a resolution perspective.

The Group is not planning to downstream the proceeds of external MREL issuance prior to the completion of legal entity and business realignment required to implement ring-fencing.

Regulatory changes that may impact capital requirements

The Group faces a number of changes in prudential regulation that may adversely impact the amount of capital it must hold and consequently may increase funding costs and reduce return on equity. The nature and timing of implementation of a number of these changes is not currently final.

In 2017, the UK, EU and BCBS are expected to further develop prudential regulation including the approach to calculating credit risk and operational risk RWAs, additional details on the MREL framework and a review of the leverage ratio framework.

Regulatory changes are actively monitored by the Group including engagement with industry associations and regulators and participation in quantitative impact studies. Monitoring the changing regulatory landscape forms a fundamental part of capital planning and management of its business.

The Group believes that its strategy to focus on simpler, lower risk activities within a more resilient recovery and resolution framework will enable it to manage the impact of these changes.

Key prudential regulatory developments that have been published and may impact the Group are set out in the following table.

Capital risk* continued

Capital management

Capital management is the process by which the Group ensures that it has sufficient capital and other loss absorbing instruments to operate effectively including meeting minimum regulatory requirements, operating within Board approved risk appetite, maintaining its credit rating and supporting its strategic goals.

Capital management is critical in supporting the Group's business and is enacted through an end to end framework across the Group, its businesses and the legal entities on which it operates.

The key elements of the Group's capital management approach are set out below.

Risk appetite

Capital risk appetite is set by the Board, reflecting the Group's strategic objectives, current and future prudential regulatory requirements and market expectations.

It is expressed as a set of target ratios for CET1 and leverage under both normal and stressed financial conditions. Capital risk appetite is set at various levels including for the Group and its businesses. Performance against risk appetite is regularly monitored.

Capital planning

Capital planning is integrated into the Group's wider annual budgeting process and is assessed and updated at least monthly. Regular returns are submitted to the PRA which include a two year rolling forward view.

- Capital plans are produced for the Group, its key operating entities and its businesses over a five year planning horizon.

Produce capital plans

- Shorter term forecasts are developed frequently in response to actual performance, changes in internal and external business environment and to manage risks and opportunities.

i

Assess

- Capital plans are developed to maintain capital of sufficient quantity and quality to support the Group's business and strategic plans over the planning horizon within approved risk appetite and minimum regulatory requirements.

capital

adequacy

- Capital resources and capital requirements are assessed across a defined planning horizon.

- Impact assessment captures input from across the Group including from businesses.

i

Inform

capital

actions

- Capital planning informs potential capital actions including managing capital through buy backs or through new issuance.

- Decisions on capital actions will be influenced by strategic and regulatory requirements, the cost and prevailing market conditions.

- As part of capital planning, the Group will monitor its portfolio of capital issuance and assess the optimal blend and most cost effective means of financing.

Capital planning is one of the tools that the Group uses to monitor and manage the risk of excessive leverage.

Capital risk* continued

Stress testing

Stress testing is a key risk management tool used by the Group and is a fundamental component of the Group's approach to capital management.

Stress testing is used to quantify, evaluate and understand the potential impact on the financial strength of the Group, including its capital position, given specified changes to risk factors. Stress testing includes:

- Scenario testing: examines the impact of a hypothetical future state of the world to define changes in risk factors affecting the Group; and
- Sensitivity testing: examining the impact of an incremental change to one or more risk factors.

The process for stress testing consists of four broad stages:

- | | |
|----------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Define
scenarios

i</p> | <ul style="list-style-type: none"> • Identify RBS specific vulnerabilities and risks. • Define and calibrate scenarios to examine risks and vulnerabilities. • Formal governance process to agree scenarios. |
| <p>Assess impact

i</p> | <ul style="list-style-type: none"> • Translate scenarios into risk drivers. • Assess impact to positions, income and costs. • Impact assessment captures input from across the Group including from businesses. |
| <p>Calculate
results and</p> | <ul style="list-style-type: none"> • Aggregate impacts into overall results. • Results from part of risk management process. |

actions

*unaudited

Business review **Capital and risk management**

Capital risk* **continued**

Stress testing is used widely across the Group; key areas are summarised in the diagram below:

Specific areas that involve capital management include:

- 1) *Strategic financial and capital planning*: through assessing the impact of sensitivities and scenarios on the capital plan and capital ratios.
- 2) *Risk appetite*: through gaining a better understanding of the drivers of and the underlying risks associated with risk appetite.
- 3) *Risk identification*: through a better understanding of the risks that could potentially impact the Group's financial strength and capital position.
- 4) *Risk mitigation*: through identifying actions that can be taken to mitigate risks or could be taken in the event of adverse changes to the business or economic environment. Risk mitigation is substantially supplemented through the Group's recovery plan.

The Group also undertakes regular reverse stress testing which examines circumstances that can lead to specific, defined business outcomes such as business failure. Reverse stress testing allows the Group to examine potential vulnerabilities in its business model more fully.

Internal assessment of capital adequacy

The Group conducts an annual internal assessment of its material risks and evaluates how much capital is required to cover these risks. This is referred to as the Internal Capital Adequacy Assessment Process (ICAAP). The ICAAP is approved by the Board and submitted to the PRA.

The ICAAP consists of a point in time capital assessment of the Group's exposures and risks at the financial year end and a forward looking stress capital assessment.

The ICAAP is used by the Group to form a view of capital adequacy separately to the regulatory minimum requirements. The ICAAP is used by the PRA to make an assessment of bank-specific capital requirements through the Pillar 2 framework.

*unaudited

Business review **Capital and risk management**

Capital risk* *continued*

Capital allocation

The Group has mechanisms to allocate capital across its legal entities and businesses that aim to optimise the utilisation of capital resources taking into account applicable regulatory requirements, strategic and business objectives and risk appetite.

The framework for allocating capital is approved by the Asset and Liability Committee.

Governance

Capital management is subject to substantial review and governance across the Group including capital management policies that are approved by the Asset and Liability Committee or Board Risk Committee

The Board approves the Group's capital plans, including its key legal entities and businesses, and including the results of the stress tests relating to those capital plans.

Recovery and resolution planning

The Group maintains a recovery plan that sets out credible recovery options that could be implemented in the event of a severe stress to restore its business to a stable and sustainable condition, focussing on addressing the Group's capital and liquidity position.

The recovery plan sets out a range of triggers that activate the implementation of the recovery plan and sets out the operational plan for its implementation.

The recovery plan is a key component of the overall risk management of the Group including the framework for managing its capital.

The recovery plan is prepared and updated annually and approved by the Board. The recovery plan is assessed for appropriateness on an ongoing basis, and is maintained in line with regulatory requirements.

Resolution is implemented if the Group fails and the appropriate regulator places the Group into resolution. Resolution is owned and implemented by the appropriate regulatory authority and the Group has a multi-year programme in place to develop resolution capability and meet regulatory requirements.

The Group is working with global regulators to ensure that the Group is compliant with the principles of resolution planning, demonstrating the process by which the Group and relevant regulatory bodies can develop a set of actions that would be taken to manage the failure of the Group or one of its significant legal entities in an orderly manner.

Ring-fencing

As part of the response to the 2008 financial crisis the UK Government's Independent Commission on Banking report recommended that banks separate their retail and investment banking operations, helping to mitigate against the risk of the investment bank division running into financial difficulty.

Primary legislation and FCA/PRA regulations have been issued which must be complied with by 1 January 2019. For more details on ring-fencing, refer to page 172.

Capital and leverage: Key ratios

Capital, RWAs and risk asset ratios, on the basis of end-point Capital Requirements Regulation (CRR) and transitional rules, calculated in accordance with PRA definitions, are set out below.

	2016		2015	
	End-point CRR basis (1) £bn	PRA transitional basis £bn	End-point CRR basis (1) £bn	PRA transitional basis £bn
Capital				
CET1	30.6	30.6	37.6	37.6
Tier 1	34.7	40.4	39.6	46.3
Total	43.8	52.3	47.6	60.0
RWAs				
Credit risk				
- non-counterparty	162.2	162.2	166.4	166.4
- counterparty	22.9	22.9	23.4	23.4
Market risk	17.4	17.4	21.2	21.2
Operational risk	25.7	25.7	31.6	31.6
Total RWAs	228.2	228.2	242.6	242.6
Risk asset ratios	%	%	%	%
CET1	13.4	13.4	15.5	15.5
Tier 1	15.2	17.7	16.3	19.1
Total	19.2	22.9	19.6	24.7
Leverage	2016		2015	
Tier 1 capital (£bn)	£34.7bn	£40.4bn	39.6	46.3
Leverage exposure (£bn)	£683.3bn	£683.3bn	702.5	702.5
Leverage ratio (%)	5.1%	5.9%	5.6%	6.6%
Average Tier 1 capital (£bn) (2)	£38.0bn	£43.7bn		
Average leverage exposure (£bn) (2)	£712.1bn	£712.1bn		
Average leverage ratio (%) (2)	5.3%	6.1%		

Notes:

- (1) CRR as implemented by the Prudential Regulation Authority in the UK, with effect from 1 January 2014. All regulatory adjustments and deductions to CET1 have been applied in full for both bases with the exception of unrealised gains on available-for-sale securities which has been included from 2015 under the PRA transitional basis.
- (2) Based on 3 month average of month end leverage exposure and Tier 1 Capital.

General:

From 1 January 2015, RBS has been required to meet at least 56% of its Pillar 2A capital requirement with CET1 capital and the balance with Additional Tier 1 and/or Tier 2 capital. The Pillar 2A capital requirement is the additional capital that RBS must hold, in addition to meeting its Pillar 1 requirements in order to comply with the PRA's overall financial adequacy rule.

Measures in relation to end-point CRR basis, including RWAs, are based on the current interpretation, expectations, and understanding, of the CRR requirements, as well as further regulatory clarity and implementation guidance from the UK and EU authorities (end-point CRR basis). The actual end-point CRR impact may differ when the final technical standards are interpreted and adopted.

Capital base:

- (1) Own funds are based on shareholders' equity.
- (2) The adjustment arising from the application of the prudent valuation requirements to all assets measured at fair value, has been included in full. Additional valuation adjustments relating to unearned credit spreads on exposures under the advanced internal ratings approach has been included in the determination of the expected loss amount deducted from CET1.
- (3) Where the deductions from AT1 capital exceed AT1 capital, the excess is deducted from CET1 capital.
- (4) Insignificant investments in equities of other financial entities (net): long cash equity positions are considered to have matched maturity with synthetic short positions if the long position is held for hedging purposes and sufficient liquidity exists in the relevant market. All the trades are managed and monitored together within the equities business.
- (5) Based on our current interpretations of the Commission Delegated Regulation issued in December 2013 on credit risk adjustments, RBS's standardised latent provision has been reclassified to specific provision and is not included in Tier 2 capital.

RWAs:

- (1) Current securitisation positions are shown as risk-weighted at 1,250%.
- (2) RWA uplifts include the impact of credit valuation adjustments and asset valuation correlation on large financial sector entities.
- (3) RWAs reflect implementation of the full internal model method suite, and include methodology changes that took effect immediately on CRR implementation.
- (4) Counterparties which meet the eligibility criteria under CRR are exempt from the credit valuation adjustments volatility charges.
- (5) The CRR final text includes a reduction in the risk-weight relating to small and medium-sized enterprises.

Loss absorbing capital

RBS's capital components and estimated loss absorbing capital (LAC) at 31 December 2016 based on current regulatory interpretations are set out below. For details regarding regulatory developments in relation to MREL requirements, refer to page 239. The roll-off profile and average spread relating to senior debt and Tier 2 instruments is set out on the next page.

The following table illustrates the components of estimated LAC in RBSG and operating subsidiaries.

	2016				2015			
	Par value (1) £bn	Balance sheet value £bn	Regulatory value (2) £bn	LAC value (3) £bn	Par value (1) £bn	Balance sheet value £bn	Regulatory value (2) £bn	LAC value (3) £bn

of which: holdco	6.9	7.0	6.9	5.3	5.8	5.9	5.7	4.4
of which: opcos	6.0	6.4	4.0	5.6	5.1	5.5	3.8	5.5
	12.9	13.4	10.9	10.9	10.9	11.4	9.5	9.9

Tier 2 capital: non end-point CRR compliant									
of which: holdco	0.4	0.4	0.2	0.1	0.3	0.3	0.2	0.1	
of which: opcos	2.5	2.7	2.1	2.1	3.3	3.6	3.0	2.9	
	2.9	3.1	2.3	2.2	3.6	3.9	3.2	3.0	
Senior unsecured debt securities issued by:									
RBSG holdco	6.9	6.8	—	5.0	4.9	5.0	—	2.9	
RBSG opcos	14.8	15.0	—	—	17.7	18.1	—	—	
	21.7	21.8	—	5.0	22.6	23.1	—	2.9	
Total	77.9	78.8	53.6	57.0	85.2	86.5	60.7	60.3	
RWAs				228.2				242.6	
Leverage exposure				683.3				702.5	
LAC as a ratio of RWAs (4)				24.9%				24.9%	
LAC as a ratio of leverage exposure				8.3%				8.6%	

Notes:

- (1) Par value reflects the nominal value of securities issued.
- (2) Regulatory capital instruments issued from operating companies are included in the transitional LAC calculation, to the extent they meet the MREL criteria.
- (3) LAC value reflects RBS's interpretation of the Bank of England's policy statement on the minimum requirements for own funds and eligible liabilities (MREL), published in November 2016. MREL policy and requirements remain subject to further potential development, as such RBS estimated position remains subject to potential change. Liabilities excluded from LAC include instruments with less than one year remaining to maturity, structured debt, operating company senior debt, and other instruments that do not meet the MREL criteria. Includes Tier 1 and Tier 2 securities prior to incentive to redeem.
- (4) CRD IV capital buffers met by CET1 in addition to MREL requirements: being 3.5% in 2017 based on a capital conservation buffer of 2.5% and G-SIB requirement of 1.0%, and 4.0% in 2016 based on a capital conservation buffer of 2.5% and a G-SIB requirement of 1.5%. Excludes consideration of any additional management buffer.
- (5) Corresponding shareholders' equity was £48.6 billion (2015 - £53.4 billion).
- (6) Regulatory amounts reported for AT1, Tier 1 and Tier 2 instruments are before grandfathering restrictions imposed by CRR.

Risk-weighted assets

The table below analyses the movement in credit risk RWAs on the end-point CRR basis during the year, by key drivers.

	Credit risk RWAs		
	Non-counterparty	Counterparty	Total
	£bn	£bn	£bn
At 1 January 2016	166.4	23.4	189.8
Foreign exchange movement	10.1	1.4	11.5
Business movements	(10.5)	(2.4)	(12.9)
Risk parameter changes (1)	(4.5)	0.5	(4.0)
Model updates	0.7	—	0.7
At 31 December 2016	162.2	22.9	185.1

Note:

(1) PD model changes relating to counterparty risks are included with risk parameter changes in line with EBA Pillar 3 Guidelines issued in December 2016.

The table below analyses the movement in market and operational risk RWAs on the end-point CRR basis during the year.

	Market risk RWAs			Operational risk	
	NatWest Markets	Other	Total	RWAs	Total
	£bn	£bn	£bn	£bn	£bn
At 1 January 2016	13.8	7.4	21.2	31.6	52.8
Business and market movements	(2.2)	(1.6)	(3.8)	(5.9)	(9.7)
At 31 December 2016	11.6	5.8	17.4	25.7	43.1

Key points

- RWAs decreased by £14.4 billion to £228.2 billion primarily as result of run down of Capital

Resolution and the reduction in operational risk (£5.9 billion) partly offset by adverse exchange rate movements (£11.5 billion) as sterling weakened against all major currencies.

- The foreign exchange movement occurred primarily in Capital Resolution (£4.2 billion), Ulster Bank RoI (£2.6 billion) Commercial Banking (£2.1 billion) and NatWest Markets (£1.2 billion).
- The annual operational risk recalculation resulted in a decrease of £2.0 billion and a further £3.9 billion reduction relating to the removal of the Citizens related element following PRA approval.
- Growth in UK lending, both new and organic, and the transfer of Northern Ireland loans from UK PBB were the key contributors to the increase in Commercial Banking.
- NatWest Markets RWAs increased by £2.1 billion principally due to business movements and the impact of the weakening of sterling.
- Capital Resolution RWAs continued to decrease in line with risk reduction strategy (£14.5 billion) with the majority of the movement seen in Markets (£4.9 billion), primarily derivative mitigation activities and terminations, and disposals and run-off in Global Transactions Services (£3.1 billion), shipping (£1.7 billion) and legacy loan portfolio (£2.3 billion).
- The Central items decrease of £7.1 billion is significantly driven by the operational risk reduction relating to Citizens.

Business review **Capital and risk management**

Liquidity and funding risk

Definition

Liquidity and funding risk arises when RBS is unable to meet its financial obligations, including financing wholesale maturities or customer deposit withdrawals, as and when they fall due.

All the quantitative disclosures in this section are audited except for those in Liquidity metrics and Behavioural maturity.

Key developments in 2016

Liquidity position:

- The liquidity portfolio of £164 billion covered total wholesale funding, including derivative collateral, by more than two times. The liquidity portfolio increased by £8 billion in the year driven by secondary liquidity, as the volume of mortgage assets placed into the Discount Window Facility (DWF) increased during 2016.
- The regulatory liquidity coverage ratio (LCR) metric decreased to 123% at 31 December 2016 from 136% at the prior year end, driven by Capital Resolution run down and by UK PBB and Commercial Banking lending growth.
- Internal stressed outflow coverage (SOC) was 139% at 31 December 2016, down from 227% in 2015, primarily due to a change in approach that restricts reliance on DWF assets.

Funding position:

- Net stable funding ratio (NSFR) remained broadly unchanged from the prior year at 121%. This is comfortably above the minimum target of 100% and reflects RBS's funding strategy to rely on stable customer deposits.
- Loan:deposit ratio was 91% at the end of 2016, a 2% increase from the prior year, driven by Capital Resolution running down more deposits than loans.

Sources of liquidity and funding

Liquidity and funding risks arise through the maturity transformation role that banks perform. It is dependent on RBS specific factors such as maturity profile, composition of sources and uses of funding and the quality and size of the liquidity portfolio. Broader market factors, such as wholesale market conditions and depositor and investor behaviour, are also contributing factors.

RBS's primary funding sources are as follows:

Type	Description
Customer deposits	PBB and CPB deposit taking franchises.
Wholesale markets	Short-term (less than 1 year) unsecured money markets and secured repo market funding.
Term debt	Issuance of long-term (more than 1 year) unsecured and secured debt securities.

255

Business review **Capital and risk management**

Liquidity and funding risk *continued*

RBS may access various funding facilities offered by central banks from time to time. The use of such facilities can be both part of a wider strategic objective to support initiatives to help stimulate economic growth or as part of the broader liquidity management and funding strategy. Usage and repayment of available central bank facilities will fit within the overall liquidity risk appetite and concentration limits.

Policy, framework and governance

The key elements of the liquidity and funding framework within RBS are as follows:

Type	Description
Risk appetite	Meeting regulatory and set internal risk limits for liquidity and funding.
Policies	How we manage liquidity and funding across RBS.
Governance	Management oversight and three lines of defence.

Internal liquidity and funding policies are designed to ensure that RBS:

- Has a clearly stated liquidity and funding risk tolerance:* The liquidity and funding risk tolerance forms part of RBS's bank-wide risk appetite statement, which is overseen by the Board Risk Committee and approved by the RBS Board. The risk appetite statement defines key metrics, risk trigger levels and capacity for liquidity and funding management within RBS. The Board also sets the appetite for funding risk to ensure that stable sources of funding are used to fund RBS's core assets. RBS monitors its liquidity positions against these risk tolerances on a daily basis. In setting risk limits the Board considers the nature of RBS's activities, overall risk appetite, market best practice and regulatory compliance.
- Has in place strategies, policies and practices to ensure that RBS maintains sufficient liquidity:* the risk management framework determines the sources of liquidity risks and the steps that can be taken when these risks exceed certain monitored limits. These steps include when and how to use the liquid asset portfolio, and other balance sheet actions that can be undertaken. The Asset and Liability Management Committee (ALCo), and by delegation the ALCo Technical Committee, oversees the implementation of liquidity and funding management across RBS within set risk appetite.
- Incorporates liquidity costs, benefits and risks in product pricing and performance management:* RBS uses internal funds transfer pricing to ensure liquidity costs are reflected in the measurement of business performance, and to correctly incentivise the business to source the most appropriate mix of funding.

Business review **Capital and risk management****Liquidity and funding risk** *continued***Regulatory oversight and liquidity framework***

RBS operates across multiple jurisdictions and is subject to a number of regulatory regimes, with the key metrics being:

Ratio	Exposure type	Description
Liquidity coverage ratio	Liquidity profile	Coverage of 30 day net cash outflows in stress - effective from 1 October 2015.
Net stable funding ratio	Structural funding profile	Required and available stable funding sources less than and greater than 1 year timeline. Effective from 1 January 2018.

The principal regulator, the PRA, has a comprehensive set of liquidity regulations which implement the Capital Requirements Directive (CRD) IV liquidity regime in the UK. To comply with the PRA regulatory framework, RBS undertakes the following:

Activity	Description
Individual Liquidity Adequacy Assessment Process (ILAAP)	An ongoing exercise to comply with best practice and regulatory standards for liquidity management.
L-SREP	An annual Liquidity Supervisory Review and Evaluation Process (L-SREP) with the PRA, that involves a comprehensive review of the RBS ILAAP, liquidity policies and risk management framework. This results in the settings of the Individual Liquidity Guidance, which influences the size and overall composition of the liquidity portfolio.

Regulatory developments

LCR is being introduced on a phased basis and UK banks are initially required to maintain a minimum 90% LCR by 1 January 2017, rising to 100% by 1 January 2018.

The Basel Committee on Banking Supervision (BCBS) published its final recommendations for implementation of the NSFR in October 2014. The proposal included an implementation date of 1 January 2018, by which time banks are expected to meet and maintain an NSFR ratio of 100%. The European Commission (EC) is due to submit a legislative proposal to the European Parliament during 2017 for implementing the NSFR in the European Union (EU). In the meantime, RBS uses the definitions from the BCBS guidelines, and its own internal interpretations, to calculate the NSFR.

Measurement, monitoring and contingency planning

In implementing the liquidity risk management framework, a suite of tools are used to monitor, limit and stress test the risks within the balance sheet. Set limits control the amount and composition of funding sources, asset and liability mismatches and funding concentrations, in addition to the level of liquidity risk.

257

Business review **Capital and risk management**

Liquidity and funding risk **continued**

Liquidity risks are reviewed at significant legal entity and business levels daily, with performance reported to ALCos at least monthly.

Any breach of internal metric limits will set in motion a series of actions and escalations outlined under the RBS Recovery Plan (refer to page 245), which covers all legal entities within the Group. The plan sets out credible recovery options that could be implemented in the event of a severe stress to restore the business to a stable and sustainable position, focussing on addressing the bank's capital and liquidity position.

Two significant legal entities, RBS Securities Inc and The Royal Bank of Scotland International Limited, have been requested by local regulators to maintain separate recover plans to address specific liquidity risks. These plans will be aligned to the 2017 RBS Recovery Plan to ensure they operate consistently in the event of a stress scenario.

Stress testing*

Under the liquidity risk management framework RBS maintains the ILAAP, a component of which is an assessment of net stressed liquidity outflows. RBS considers a range of extreme but plausible stress scenarios on cash flows, liquidity resources, profitability, solvency, asset encumbrance and survival horizon.

Type	Description
Idiosyncratic scenario	The market perceives RBS to be suffering from a severe stress event which results in an immediate assumption of increased credit risk or concerns over solvency.
Market-wide scenario	A market stress event affecting all participants in a market through contagion, counterparty failure and other market risks. RBS is impacted under this scenario but no more severely than any other participants with equivalent exposure.
Combined scenario	This scenario models the combined impact of an idiosyncratic and market stress occurring at once. The combined scenario reflects the contingency that a severe name-specific event occurs at RBS in conjunction with a broader market stress, causing wider damage to the market and financial sector and severely impacting funding markets and assets.

RBS uses the most severe combination of these to set the internal stress testing scenario. The results of this enable the bank to set its internal liquidity risk appetite which complements the regulatory LCR requirement.

*unaudited

Business review **Capital and risk management**

Liquidity and funding risk **continued**

Liquidity portfolio

The size of the portfolio is determined under the liquidity risk management framework with reference to RBS's liquidity risk appetite.

The majority of the portfolio is centrally managed by RBS Treasury, ring-fenced from the NatWest Markets trading book, and is the ultimate responsibility of the RBS Treasurer. This portfolio is held in the PRA regulated UK Domestic Liquidity Subgroup (UK DoLSub) comprising RBS's five licensed deposit taking UK banks: The Royal Bank of Scotland plc, National Westminster Bank Plc, Ulster Bank Limited, Coutts & Co and Adam & Company PLC.

Two of RBS's significant operating subsidiaries, RBS N.V. and Ulster Bank Ireland DAC, hold locally managed portfolios that comply with local regulations that may differ from PRA rules.

The UK DoLSub liquidity portfolio accounted for 96% of the total liquidity portfolio; this portion is available to meet liquidity needs as they arise across RBS. The remaining liquidity reserves are held within non-UK bank subsidiaries for local use.

Separate from the liquidity portfolio, RBS holds high quality assets to meet payment systems collateral requirements; these are managed by RBS Treasury.

RBS categorises its liquidity portfolio, including its locally managed liquidity portfolios, into primary and secondary liquid assets:

- Primary liquid assets such as cash and balances at central banks, treasury bills and other high quality government and US agency bonds.
- Secondary liquid assets are eligible as collateral for local central bank liquidity facilities, but do not meet the core local regulatory definition. These assets include own-issued securitisations or whole loans that are retained on balance sheet and pre-positioned with a central bank so that they may be converted into additional sources of liquidity at very short notice.

RBS retains a prudent approach to setting the composition of the liquidity portfolio, which is subject to internal policies and limits over quality of counterparty, maturity mix and currency mix. The liquidity value of

the portfolio is determined with reference to current market prices and the haircuts necessary to generate cash from the asset.

Liquidity risk		
Key metrics*		
The table below sets out the key liquidity and related metrics monitored by RBS. Ratios are set out in order of tenor.		
	2016	2015
Liquidity portfolio	£164bn	£156bn
Liquidity coverage ratio (1)	123%	136%
Stressed outflow coverage (2)	139%	227%
Net stable funding ratio (3)	121%	121%
Loan:deposit ratio	91%	89%

Notes:

(1) On 1 October 2015 the LCR became the PRA's primary regulatory liquidity standard. It is a Pillar 1 metric to which the PRA apply Pillar 2 add-ons. UK banks are required to meet a minimum standard of 90% from 1 January 2017, rising to 100% by 1 January 2018. The published LCR excludes Pillar 2 add-ons. RBS calculates the LCR using its own interpretations of the EU LCR Delegated Act, which may change over time and may not be fully comparable with those of other financial institutions.

(2) RBS's liquidity risk appetite is measured by reference to the liquidity portfolio as a percentage of stressed contractual and behavioural outflows under the worst of three severe stress scenarios of a market-wide stress, an idiosyncratic stress and a combination of both in RBS's ILAAP. This assessment is performed in accordance with PRA guidance.

(3) BCBS issued its final recommendations for the implementation of the net stable funding ratio in October 2014, proposing an implementation date of 1 January 2018. Pending further guidelines from the EU and the PRA, RBS uses the definitions and proposals from the BCBS paper and internal interpretations, to calculate the NSFR. Consequently RBS's ratio may change over time and may not be comparable with those of other financial institutions.

2016	128,614	9,582	24,833	897	163,926
2015	110,289	20,861	24,574		+55,724

Business review Capital and risk management**Liquidity and funding risk** continued**Funding risk**

The composition of RBS's balance sheet is a function of the broad array of product offerings and markets served by its core businesses. The structural composition of the balance sheet is augmented as needed through active management of both asset and liability portfolios. The objective of these activities is to optimise the liquidity profile, while ensuring adequate coverage of all cash requirements under extreme stress conditions.

RBS's asset and liability types broadly match. Customer deposits provide more funding than customer loans utilise; repurchase agreements are largely covered by reverse repurchase agreements; interbank lending and funding largely nets off and this gap has narrowed over the past five years; and derivative assets are largely netted against derivative liabilities.

Key funding metrics

The table below summarises the key funding metrics.

	Short-term wholesale funding (1)		Total wholesale funding		Net inter-bank funding (2)		
	Excluding derivative collateral	Including derivative collateral	Excluding derivative collateral	Including derivative collateral	Deposits	Loans (3)	Net inter-bank funding
	£bn	£bn	£bn	£bn	£bn	£bn	£bn
2016 total	13.9	34.6	59.3	80.0	12.6	(10.6)	2.0
2015 total	17.2	37.6	58.7	79.1	7.7	(7.3)	0.4

Notes:

- (1) Short-term wholesale funding is funding with a residual maturity of less than one year.
- (2) Excludes derivative cash collateral.
- (3) Primarily short-term balances.

Total funding including repos	417,122	49,066	466,188	415,047	47,381	462,428

Notes:

(1) Includes £1.3 billion (2015 - £0.7 billion) relating to RBS's participation in central bank financing operations under the European Central Bank's Targeted Long Term Refinancing Operations.

(2) Cash collateral includes £10,002 million (2015 - £9,504 million) from financial institutions.

Repos		
The table below analyses repos by counterparty type.		
	2016	2015
	£m	£m
Financial institutions		
- central and other banks	5,239	10,266
- other financial institutions	25,652	20,130
Other corporate	1,444	6,982
Total	32,335	37,378

Key point

- Reverse repos at 31 December 2016 were £41.8 billion (2015 - £39.9 billion). Fair value of securities received as collateral for reverse repos was £41.8 billion (2015 - £39.8 billion), of which £30.5 billion (2015 - £29.0 billion) had been rehypothecated for RBS's own transactions, in line with normal market practice.

Disposal groups	—	—	—	—	1,639	2,805	58	1,166	
	323,023	353,872	91	30,849	307,973	345,991	89	38,018	

Notes:

- (1) Excludes reverse repo agreements and net of impairment provisions.
- (2) Excludes repo agreements.
- (3) Calculated as customer deposits less loans and advances to customers.
- (4) nm = not meaningful.

Key points

- The loan:deposit ratio was 91%, up from 89% at the end of 2015 as loans grew more than deposits.
- Loan growth was driven by mortgage lending in UK PBB and corporate lending in Commercial Banking.
- Deposit growth continued in 2016, particularly in UK PBB, Commercial Banking, Private Banking and RBSI. These increases were partially offset by deposit reductions in Capital Resolution as the business continued to run down, and the sale of the International Private Banking business.

Maturity analysis

The contractual maturity of balance sheet assets and liabilities reflects the maturity transformation role banks perform, lending long-term but obtaining funding predominantly through short-term liabilities such as customer deposits. In practice, the behavioural profiles of many liabilities exhibit greater stability and longer maturity than the contractual maturity. This is particularly true of many types of retail and corporate deposits which, despite being repayable on demand or at short notice, have demonstrated very stable characteristics even in periods of acute stress. In its analysis to assess and manage asset and liability maturity gaps RBS determines the expected customer behaviour through qualitative and quantitative techniques, incorporating observed customer behaviours over long periods of time. This analysis is subject to governance through ALCos down to a segment level.

Behavioural analysis*																
Contractual maturity analysis and net behavioural funding surplus/(gap) are set out below.																
Behavioural maturity					Contractual maturity											
Net surplus/(gap)					Net surplus/(gap)				Loans to customers				Customer accounts

Notes:

- (1) NatWest Markets
- (2) Capital Resolution

Key points

- The net customer funding surplus has decreased by £7 billion during 2016 to £31 billion, driven by loan growth in addition to deposit rundown in Capital Resolution, partially offset by underlying deposit growth.
- Customer deposits and customer loans are broadly matched from a behavioural perspective.
- The net funding surplus in 2016 is concentrated in the longer dated buckets, reflecting the stable characteristics of customer deposits and lending that is behaviourally shorter dated.

Contractual maturity

The following table shows the residual maturity of financial instruments, based on contractual date of maturity. Held-for-trading (HFT) assets and liabilities have been excluded from the maturity analysis in view of their short-term nature and are shown in total in the table below. Hedging derivatives are included within the relevant maturity bands.

	Other than held-for-trading									HFT	Total
	Less than 1 month	1-3 months	3-6 months	6 months	Subtotal	1-3 years	3-5 years	More than 5 years	Total excluding HFT
