PART I

ITEM 1. BUSINESS.

a. General.

The Company (unless otherwise indicated by the context, the term "Company" means Oneida Ltd. and its consolidated subsidiaries) was incorporated in New York in 1880 under the name Oneida Community, Limited. In 1935, the Company's name was changed to Oneida Ltd. It maintains its executive offices in Oneida, New York.

Since its inception, the Company has manufactured and marketed tableware - initially silverplated and, later, sterling and stainless steel products. By acquiring subsidiaries, entering into strategic distributorship arrangements and expanding its own tableware lines, the Company has diversified into the manufacture and distribution of commercial and retail china dinnerware and the distribution of other tableware, kitchenware and gift items, most notably crystal and glass stemware, barware and giftware.

b. Industry Segments.

The Company's operations and assets are in one principal industry: tableware products. The Company's principal industry segments are grouped around the manufacture and distribution of three major product categories: metalware, dinnerware and glassware. The Company also distributes a variety of other tabletop accessories, kitchen utensils and giftware.

Information regarding the Company's operations by industry segment for the years ended January 26, 2002, January 27, 2001 and January 29, 2000 is set forth on page 27 of the Company's Annual Report to Stockholders for the year ended January 26, 2002, parts of which are incorporated herein by reference.

c. Narrative Description of Business.

Principal Products.

Metalware:

Metalware is comprised of stainless steel, silverplated and sterling silver flatware (forks, knives, spoons and serving pieces), stainless steel and silverplated holloware (bowls, trays, and tea and coffee sets), cutlery and cookware.

The principal source of the Company's flatware is the Company's Sherrill, New York manufacturing facility. In addition, the Company also utilizes the facilities of Oneida Mexicana, S.A., its wholly owned subsidiary located in

Edgar Filing: ONEIDA LTD - Form 10-K

Toluca, Mexico, to manufacture flatware patterns that are not produced in Sherrill, New York. The Company also imports flatware and cutlery from several international sources.

The Company, through its Oneida International, Inc. subsidiary, manufactures stainless steel holloware in Shanghai, China. The Company also imports stainless steel and silverplated holloware products from several international sources.

The Company imports its aluminum and stainless steel cookware from several international sources.

Dinnerware:

Dinnerware includes domestic and imported china, porcelain and stoneware plates, bowls, cups, mugs, and a variety of serving pieces.

1

In June 2000, the Company acquired substantially all of the assets of Sakura, Inc., a leading marketer of consumer dinnerware and accessories. In business for over 40 years, Sakura's focus is on ceramic, porcelain and melamine dinnerware and accessories. Sakura's products carry both proprietary designs and designs licensed from a wide spectrum of leading artists and designers, including Debbie Mumm and Warren Kimble. The Company imports its consumer dinnerware from several international sources.

Buffalo China, Inc. is a leading manufacturer of vitreous china for the foodservice industry. Buffalo China also operates a subsidiary, Ceramica de Juarez, S.A. de C.V., located in Juarez, Mexico. Ceramica de Juarez produces holloware and other specialty china pieces that are not manufactured in Buffalo, including fully finished items and bisque china which is then finished in Buffalo. THC Systems, Inc., another of the Company's subsidiaries, is a leading importer and marketer of vitreous china and porcelain dinnerware for the foodservice industry. THC does business under the REGO tradename.

The Company is also the exclusive distributor of certain china dinnerware products manufactured by Schonwald and Noritake Co., Inc. for the United States foodservice and institutional markets.

Glassware:

The Company's Glassware segment includes glass and crystal stemware, barware, serveware, giftware and decorative pieces.

In September 1997, the Company became the exclusive distributor of Schott Zwiesel crystal products in the foodservice and consumer markets of the United States, Mexico and the Caribbean. In 1999, this distribution relationship was extended to include the foodservice and consumer markets of Australia, New Zealand, and Central and South America. In 2000, the foodservice and consumer markets of the United Kingdom were added as well. Schott Zwiesel is a German manufacturer of fine crystal stemware, barware and giftware. The Company markets Schott Zwiesel's crystal products under both the Schott Zwiesel and Oneida names.

In February 1999, the Company became the exclusive distributor of the crystal

Edgar Filing: ONEIDA LTD - Form 10-K

products manufactured by Cristalleria Artistica La Piana, SpA, also known as CALP, for the consumer and foodservice markets in the United States. CALP is an Italian manufacturer of fine 24% lead crystal stemware, giftware and decorative pieces. The Company will continue to market CALP's crystal products under CALP's trademarks of RCR, CAPRI, DA VINCI, PRIMA VERA and CRISTALLO, as well as under the Oneida name.

In addition to the distribution of Schott and CALP crystal, the Company significantly expanded its self-branded glassware lines in 1998 with the introduction of Oneida glassware for both foodservice and consumer use. Oneida imports its glassware from several foreign sources, but is supplied primarily by Pasabahce Cam Sanayii ve Ticaret A.S., a Turkish glassware manufacturer. In April 2000, the Company and Pasabahce formalized their relationship whereby the Company will act as Pasabahce's exclusive foodservice distributor in the United States, Canada, Mexico and the Caribbean, and for certain products in Australia and New Zealand.

The Company has and will continue to import other glass and crystal stemware, barware, serveware, giftware and decorative pieces from several international sources.

Other Tabletop Accessories:

The Company, in recent years, expanded its product offerings beyond its main metalware, dinnerware and glassware segments. These other products include ceramic and plastic serveware, kitchen and table linens, picture frames and decorative pieces distributed primarily by the Company's Encore Promotions and Kenwood Silver subsidiaries.

2

The percentages of metalware, dinnerware, glassware and other tabletop accessories sales to total consolidated sales for the fiscal years, which end in January, are as follows:

	2002	2001
	----	----
Metalware:	65%	66%
Dinnerware:	27%	25%
Glassware:	7%	8%
Other Tabletop Accessories:	1%	1%

Principal Markets.

Consumer:

Consumer marketing focuses on individual consumers, and the Company's wide-ranging consumer marketing activities include both retail and direct operations. The Company's retail accounts include national and regional

Edgar Filing: ONEIDA LTD - Form 10-K

department store chains, mass merchandise and discount chains, specialty shops and local establishments. The Company's direct accounts serve business customers in the premium, incentive, mail order and direct selling markets. The Company also reaches consumers with its Kenwood Silver Company, Inc. and Encore Promotions, Inc. subsidiaries, both of which play a significant role in the marketing of the Company's products. Kenwood Silver Company, Inc. operates a chain of 64 Oneida factory outlet stores in resort and destination shopping areas across the United States, while Encore Promotions, Inc. runs supermarket redemption programs featuring a variety of tableware and household items. The Company also markets its products via its web site, www.oneida.com.

Most consumer orders are filled directly by the Company from its primary distribution center located in Sherrill, New York. For some accounts, however, orders are fulfilled by one of the Company's two other distribution centers which are located in Ontario, California and Nashville, Tennessee.

Foodservice:

The Company serves foodservice and institutional accounts of all kinds, including restaurants, hotels, resorts, convention centers, food distributors, airlines, cruise lines, hospitals and educational institutions.

In August 2000, the Company acquired all outstanding shares of Delco International, Ltd., a leading marketer of foodservice tableware products for more than 60 years. Delco's mass-market customer base includes distributors, restaurant and hotel chains and institutional accounts, while Delco's ABCO division is the tableware source for over 50 airlines worldwide.

While most foodservice orders are filled directly by the Company from its primary distribution centers in Sherrill and Buffalo, New York, some orders are filled by the Company's other distribution centers which are located in Ontario, California and Nashville, Tennessee. The Company also utilizes third party warehouses located in Long Beach, California; Miami, Florida; Charlotte, North Carolina; and Fond du Lac, Wisconsin to service certain foodservice customers.

International:

International activities span both the consumer and foodservice markets described above, and include the marketing and sale of the Company's domestically manufactured and internationally sourced products throughout the world.

All sales and marketing functions in the Canadian market are served by the Company's Oneida Canada, Limited subsidiary while all sales and marketing functions in the Mexican, Central and South American and Caribbean markets are served by the Company's Oneida, S.A. de C.V. subsidiary.

In June 2000, the Company's English subsidiary, Oneida U.K. Limited, acquired all outstanding shares of London-based Viners of Sheffield Limited. Oneida U.K. Limited and Viners of Sheffield Limited, the leading marketer of consumer flatware and cookware in the U.K., currently serve the Company's European, African, Middle and Far Eastern and Asian and Pacific markets.

Edgar Filing: ONEIDA LTD - Form 10-K

The Australian and New Zealand markets are served by the Company's subsidiary, Oneida Australia, Pty Ltd. In addition to marketing the Company's existing products, Oneida Australia Pty Ltd. continues the businesses of two 1998 acquisitions: Stanley Rogers & Son, a leading importer and marketer of stainless steel and silverplated flatware to retail customers in Australia and New Zealand, and Westminster China, a leading importer and marketer of porcelain dinnerware to the foodservice industry in Australia and New Zealand.

The Company owns approximately 97% of Oneida International, Inc., a corporation formed to market tabletop products of Italian design, some of which are manufactured in Italy while others are manufactured in Shanghai, China or sourced internationally. Oneida International, Inc. develops and markets these and other of the Company's products in the international foodservice market through its Italian subsidiary, Oneida Italy, S.r.l.

In addition to the foregoing, the Company also uses a network of independent representatives and distributors to market and sell the Company's products in countries where the Company does not have offices or employees of its own.

International orders for both foodservice and consumer products are filled by the Company from a variety of locations, including the Company's United States distribution centers in Sherrill, New York and Nashville, Tennessee, as well as the Company's international facilities in Niagara Falls, Canada; Toluca, Mexico; London, England; Bangor, Northern Ireland; Melbourne, Australia; and Vercelli, Italy. In addition, many orders are shipped directly from the suppliers to the Company's international customers.

Raw Materials.

The principal raw materials used by the Company in its manufacture of metalware are stainless steel, brass, silver and gold. For china, they are various clays, flint, aluminum oxide and glass frit. These materials are purchased in the open market to meet current requirements and have historically been available in adequate supply from multiple sources. The Company experienced no significant or unusual problems in the purchase of raw materials during the fiscal year ended January 2002. Although the Company has successfully met its raw materials requirements in the past, there may in the future be temporary shortages or sharp increases in the prices of raw materials due to a number of factors such as transportation disruptions, or production or processing delays. For example, the price of nickel, one of the components of stainless steel, a principal ingredient of the Company's metalware products, has been volatile since late 1999. While it is impossible to predict the timing or impact of future shortages and price increases, such shortages and increases have not in the past had any material adverse effects on the Company's operations.

Intellectual Property.

The Company owns and maintains many design patents in the United States and Canada. These patents, along with numerous copyrights, protect the Company's product designs and decorations. In addition, the Company has registered its most significant trademarks in the United States and many foreign countries. The consumer, foodservice and international operations use a number of trademarks and trade names which are advertised and promoted extensively including ONEIDA, ABCO, BUFFALO CHINA, COMMUNITY, DELCO, HEIRLOOM, LTD, NORTHLAND, REGO, ROGERS, SAKURA, SANT'ANDREA and VINERS OF SHEFFIELD. Taken as a whole, the Company's intellectual property, especially the market recognition associated with the ONEIDA name, is a material, although intangible, corporate asset.

Edgar Filing: ONEIDA LTD - Form 10-K

Licenses.

The Company continues to explore opportunities to capitalize on the ONEIDA name in new product categories. One vehicle for this expansion has been licensing the ONEIDA name for use by third parties on products complementary to the Company's own core tableware lines. Examples include agreements with Robinson Knife Manufacturing Co., Inc. and Trendex Home Designs, Inc. for the manufacture and marketing of ONEIDA kitchen tools and accessories and ONEIDA kitchen and table linens, respectively. In addition, the Company also maintains license agreements that allow it to market lines of flatware under the WEDGWOOD and ROYAL DOULTON names, a line of dinnerware, flatware, glassware and related accessories under the COCA-COLA name and lines of dinnerware and flatware under the RUSSEL WRIGHT name. The Company began selling its WEDGWOOD flatware and RUSSEL WRIGHT dinnerware in the Spring of 2002. The RUSSEL WRIGHT flatware will follow in the Summer of 2002 and the COCA-COLA tableware and ROYAL DOULTON flatware in late 2002. Neither the terms nor the effects of any of the Company's license agreements are material.

Seasonality of Business.

Although consumer operations normally do a greater volume of business during October, November and December primarily because of holiday-related orders for metalware, dinnerware and glassware products, our businesses are not considered seasonal.

Customer Dependence.

No material part of the Company's business is dependent upon a single customer, the loss of which would have a materially adverse effect. Sufficient inventories of metalware, dinnerware, glassware and other products are maintained by the Company to respond promptly to orders.

Backlog Orders.

Tableware operations had order backlogs of \$26,238,300 as of March 13, 2002 and \$34,365,000 as of March 23, 2001. This backlog is expected to be filled during the current fiscal year, principally in the first quarter. The amount of backlog is reasonable for the tableware industry.

Market Conditions and Competition.

The Company is the only domestic manufacturer of a complete line of stainless steel, silverplated and sterling flatware. The Company believes that it is the largest producer of stainless steel and silverplated flatware in the world. The Company's dinnerware, holloware and crystal and glass lines, along with its flatware lines, make the Company a truly complete tableware supplier. The Company faces competition from several domestic companies that market both imported and domestically manufactured lines and from hundreds of importers engaged exclusively in marketing foreign-made tableware products. In recent years, there is also competition from department and specialty stores and foodservice establishments that import foreign-made tableware products under their own private labels for their sale or use. The Company strives to maintain its market position through product diversity, design innovation, and brand strength, especially among consumers.

The metalware, dinnerware and glassware businesses are each highly competitive. The principal factors affecting domestic consumer competition are design, price, quality and packaging. Other factors that have an effect on consumer competition are availability of replacement pieces, and product warranties. In the opinion of the Company, no one factor is dominant and the significance of the different competitive factors varies from customer to customer.

The principal factors affecting domestic foodservice competition are price,

Edgar Filing: ONEIDA LTD - Form 10-K

service and quality. The Company's foodservice products and service are highly regarded in this industry, and we are one of the largest sources of commercial china dinnerware and stainless steel and silverplated tableware in the United States.

The principal factors affecting international competition are brand recognition, design and quality. Other factors affecting the Company's participation in the international market include competition with local suppliers and high import duties, both of which increase the Company's costs relative to local producers.

5

Research and Development.

The Company places a considerable emphasis on excellence in development and design. To achieve this end, the Company maintains full time in-house design and engineering departments that continuously develop, test and improve products and manufacturing methods. Independent designers and collaborative efforts with other companies contribute to the Company's emphasis on development and design. The Company's actual expenditures on research and development activities during the past three fiscal years, however, have not been material.

Environmental Compliance.

The Company does not anticipate that compliance with federal, state and local environmental laws and regulations will have any material effect upon the capital expenditures, earnings or competitive position of the Company. The Company does not anticipate any material capital expenditures for environmental control facilities for the remainder of the current fiscal year or the succeeding fiscal year.

Employment.

The Company and its subsidiaries employed approximately 2,580 employees in domestic operations and 1,390 employees in foreign operations as of March 1, 2002. The Company maintains positive relations with its domestic and foreign employees. With the exception of its Buffalo China, Inc. subsidiary, the Company's facilities are not unionized. The employees of Buffalo China Inc.'s manufacturing facility in Buffalo, New York are represented by the Glass, Molders, Pottery, Plastics & Allied Workers International Union AFL-CIO, CLC and its local union No. 76A. The current collective bargaining agreement between Buffalo China, Inc. and the Glass, Molders, Pottery, Plastics & Allied Workers International Union AFL-CIO, CLC and its local union No. 76A expires on July 31, 2005. The Company has experienced no work stoppages or strikes in the past five years.

Forward Looking Information.

With the exception of historical data, the information contained in this Form 10-K, as well as those other documents incorporated by reference herein, is forward-looking. For the purposes of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, the Company cautions readers that changes in certain factors could affect the Company's future results and could cause the Company's future consolidated results to differ materially from those expressed herein. Such factors include, but are not limited to: general economic conditions in the Company's markets; difficulties or delays in the development, production and marketing of new products; the impact of competitive products and

Edgar Filing: ONEIDA LTD - Form 10-K

pricing; certain assumptions related to consumer purchasing patterns; significant increases in interest rates or the level of the Company's indebtedness; major slowdowns in the retail, travel or entertainment industries; the loss of several of the Company's major customers; underutilization of the Company's plants and factories; and the amount and rate of growth of the Company's selling, general and administrative expenses.

ITEM 2. PROPERTIES.

The principal properties of the Company and its subsidiaries are situated at the following locations and have the following characteristics:

		Approximate -----
Ontario, California	Warehouse	206,0
Buffalo, New York	Manufacturing China	257,0
Buffalo, New York	Offices, Warehouse and China Decorating Facility	203,0
Buffalo, New York	Offices and Warehouse	82,0
Oneida, New York	Executive Administrative Offices	95,0
Sherrill, New York	Manufacturing Stainless Steel, Silverplated and Sterling Flatware	1,082,0

6

		Approximate -----
Sherrill, New York	Offices and Warehouse	206,0
Sherrill, New York	Manufacturing Knives	135,0
Nashville, Tennessee	Warehouse	293,0
Melbourne, Australia	Offices and Warehouse	60,0
Niagara Falls, Ontario,	Offices and Warehouse	120,0

Edgar Filing: ONEIDA LTD - Form 10-K

Canada

Shanghai, China	Manufacturing Foodservice Holloware	55,0
London, England	Offices and Warehouse	30,0
Bangor, N. Ireland	Offices and Warehouse	32,0
Vercelli, Italy	Offices, Warehouse and Manufacturing Stainless Steel Holloware	84,0
Juarez, Mexico	Manufacturing China	65,0
Mexico City, Mexico	Offices and Warehouse	32,0
Toluca, Mexico	Manufacturing Stainless Steel Flatware	75,0

All of these buildings are owned by the Company with the following exceptions:

o Ownership of the 206,000 square foot Sherrill, New York warehouse and office property was transferred to the Oneida County Industrial Development Agency on February 25, 2000 in exchange for various tax concessions from the county. The property will remain in the ownership of the Oneida County Industrial Development Agency for a term of fifteen years, upon the expiration of which the property will be conveyed back to the Company.

o Ownership of the 203,000 square foot Buffalo, New York office, warehouse and decorating property was transferred to the Erie County Industrial Development Agency on February 29, 2000 in exchange for various tax concessions from the county. The property will remain in the ownership of the Erie County Industrial Development Agency for a term of fifteen years, upon the expiration of which the property will be conveyed back to Buffalo China.

o The offices and warehouses in Ontario, California; Nashville, Tennessee; Melbourne, Australia; Mexico City, Mexico; Bangor, Northern Ireland; and London, England are leased.

In addition to the land primarily associated with its manufacturing operations, the Company owns approximately 600 additional acres in the cities of Sherrill and Oneida and the town of Vernon, New York.

The Company leases sales offices and/or showrooms in New York City and Melville and Malta, New York. The Company also leases retail outlet space in numerous locations throughout the United States through its subsidiary, Kenwood Silver Company, Inc., and in several locations in the United Kingdom through its subsidiary, Oneida U.K. Limited.

All of the Company's buildings are located on sufficient property to accommodate any further expansion or development planned over the next five years. The properties are served adequately by transportation facilities, are well

Edgar Filing: ONEIDA LTD - Form 10-K

maintained and are adequate for the purposes for which they are intended and used.

ITEM 3. LEGAL PROCEEDINGS.

On December 8, 1998, the Oneida Indian Nation of New York, the Oneida Tribe of Indians of Wisconsin and the Oneida of the Thames, as Plaintiffs, along with The United States of America, as Intervenor, moved to amend their Complaint filed on May 3, 1974 in the United States District Court for the Northern District of New York against the Counties of Madison and Oneida, New York. The Amended Complaint sought to add the State of New York, New York State Thruway Authority, Utica-Rome Motorsports, Inc., Niagara Mohawk Power Corporation and the Oneida Valley National Bank, individually and as representatives of the class of similarly situated private landowners in Madison and Oneida Counties. The Complaint alleged that during the nineteenth century the Oneidas' lands were improperly transferred. The Oneidas sought title to the property as well as monetary damages. The Company's headquarters and main manufacturing and distribution facilities are located within this land claim area. On September 25, 2000 the Judge ruled that the private landowners, including the Company, could not be added as Defendants in this action.

On February 16, 2002, the Oneida Indian Nation of New York, the State of New York and Madison and Oneida Counties announced an agreement in principle to resolve the longstanding land claim. Later that month, to demonstrate their opposition to the announced settlement, the Oneida Tribe of Indians of Wisconsin began filing suits against private owners of commercial property within the land claim area. To date, approximately 40 such suits have been filed by the Oneida Tribe of Indians of Wisconsin. As of the date hereof, the Company has not been made the subject of such a suit.

In addition to the foregoing, the Company is involved in various routine legal proceedings incidental to the operation of its business. Other than as discussed herein, the Company's Management does not believe there is any ongoing or pending litigation with a possible material effect on the financial position of the Company.

ITEM 4. SUBMISSIONS OF MATTERS TO A VOTE OF STOCKHOLDERS.

None.

PART II

Information required to be furnished under Items 5 through 9 of this Part is set forth in, and incorporated by reference to, the Company's Annual Report to Stockholders for the year ended January 26, 2002, at the respective pages indicated.

ITEM 5. MARKET FOR THE COMPANY'S COMMON STOCK AND RELATED SECURITY HOLDER MATTERS.

Page 33 of the Company's Annual Report.

ITEM 6. SELECTED FINANCIAL DATA.

Report of Independent Accountants on Financial Statement Schedule

To the Board of Directors and Stockholders of Oneida Ltd.

Our audits of the consolidated financial statements referred to in our report dated February 25, 2002 appearing in the 2002 Annual Report to Shareholders of Oneida Ltd. (which report and consolidated financial statements are incorporated by reference in this Annual Report on Form 10-K) also included an audit of the financial statement schedule listed in Item 14(a)(2) of this Form 10-K. In our opinion, the financial statement schedule presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements.
