SKYWORKS SOLUTIONS, INC.

NOTES TO UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Skyworks Solutions, Inc. (Skyworks or the Company) designs, manufactures and markets a broad range of high reliability analog and mixed signal semiconductors enabling a broad range of end markets. Our power amplifiers (PAs) and front-end modules (FEMs) can be found in many of the cellular handsets sold by the world's leading manufacturers. Leveraging our core analog technologies, we also offer a diverse portfolio of linear integrated circuits (ICs) that support automotive, broadband, cellular infrastructure, industrial and medical applications.

The accompanying unaudited interim consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC) for interim financial reporting. Certain information and footnote disclosures, normally included in annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America, have been condensed or omitted pursuant to those rules and regulations. However, in the opinion of management, the financial information reflects all adjustments, consisting of adjustments of a normal recurring nature necessary to present fairly the financial position, results of operations, and cash flows of the Company. The results of operations for the three and nine-month periods ended July 3, 2009 are not necessarily indicative of the results to be expected for the full year. This information should be read in conjunction with the Company's financial statements and notes thereto contained in the Company's Form 10-K for the fiscal year ended October 3, 2008 as filed with the SEC.

The Company evaluates its estimates on an ongoing basis using historical experience and other factors, including the current economic environment. The current volatility in the capital markets and the global economy has increased the uncertainty in our estimates, including our estimates impacting marketable securities, long-lived assets and tax valuation allowance. Significant judgment is required in determining the fair value of marketable securities in inactive markets as well as determining when declines in fair value constitute an other-than-temporary impairment. In addition, significant judgment is required in determining whether a potential indicator of impairment of our long-lived assets exists and in estimating future cash flows for any necessary impairment tests. Furthermore, significant judgment is required in determining the timing of the reversal or recording of tax valuation allowances. As future events unfold and their effects cannot be determined with precision, actual results could differ significantly from management's estimates.

The Company's fiscal year ends each year on the Friday closest to September 30. Fiscal 2009 consists of 52 weeks and ends on October 2, 2009. Fiscal 2008 consisted of 53 weeks and ended on October 3, 2008, with the first three quarters of fiscal 2008 consisting of 13 weeks, and the fourth quarter of fiscal 2008 consisting of 14 weeks. The third quarters of fiscal 2009 and fiscal 2008 each consisted of 13 weeks and ended on July 3, 2009 and June 27, 2008, respectively.

2. BUSINESS COMBINATIONS

In 2009, the Company acquired all of the outstanding stock of Axiom Microdevices, Inc. and certain patents from other companies for \$9.1 million in cash. This business combination is not expected to have a significant impact on the Company's future results from operations and financial condition.

In October 2007, the Company paid \$32.6 million in cash to acquire certain assets from two separate companies. The Company acquired raw materials, die bank, finished goods, proprietary designs and related intellectual property in a business combination from Freescale Semiconductor. The Company also acquired sixteen patents in a separate asset acquisition.

3. MARKETABLE SECURITIES

The Company accounts for its investment in debt and equity securities in accordance with SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, and classifies them as available for sale. At July 3, 2009, these securities consisted of \$3.2 million in auction rate securities (ARS), which are long-term debt

Table of Contents

instruments which provide liquidity through a Dutch auction process that resets interest rates each period. The uncertainties in the credit markets have caused the ARS to become illiquid resulting in failed auctions. During the fiscal year ended October 3, 2008, the Company performed a comprehensive valuation and discounted cash flow analysis on the ARS. The Company concluded the value of the ARS was \$2.3 million, thus the carrying value of these securities was reduced by \$0.9 million, reflecting this change in fair value. The Company assessed the decline in fair value to be temporary and recorded this reduction in stockholders' equity in accumulated other comprehensive loss. As of July 3, 2009, the Company re-evaluated the ARS and determined that no further adjustment was required. The Company will continue to closely monitor the ARS and evaluate the appropriate accounting treatment in each reporting period. The Company holds no other auction rate securities.

4. FINANCIAL INSTRUMENTS

On October 4, 2008, the Company adopted SFAS 157, *Fair Value Measurements* (SFAS 157). In accordance with FASB Staff Position (FSP) 157-2, *Effective Date of FASB Statement 157*, the Company has deferred the adoption of SFAS 157 for non-financial assets and liabilities including intangible assets and reporting units measured at fair value in the first step of a goodwill impairment test. The Company will adopt the remainder of SFAS 157 on the first day of fiscal year 2010. In accordance with SFAS 157, the Company groups its financial assets and liabilities measured at fair value on a recurring basis in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

Level 1 Valuation is based upon quoted market price for identical instruments traded in active markets.

Level 2 Valuation is based on quoted market prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3 Valuation is generated from model-based techniques that use significant assumptions not observable in the market. Valuation techniques include use of discounted cash flow models and similar techniques.

Under SFAS 157, the Company groups marketable securities measured at fair value on a recurring basis in three levels, based on the markets in which the assets are traded and the reliability of the assumptions used to determine fair value.

The Company has cash equivalents classified as Level 1 and has no Level 2 securities. The marketable securities classified as Level 3 are auction rate securities.

The following table presents the balances of cash equivalents and marketable securities measured at fair value on a recurring basis as of July 3, 2009 (in thousands):

	Total	Fair Value Measurements		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Cash equivalents:				
Money market/repurchase agreements	\$ 293,025	\$ 293,025	\$	\$
Auction rate securities	2,288			2,288
Total	\$ 295,313	\$ 293,025	\$	\$ 2,288

Table of Contents**5. INVENTORIES**

Inventories consist of the following (in thousands):

Amortization expense related to intangible assets are as follows (in thousands):

	Three-months Ended		Nine-months Ended	
	July 3, 2009	June 27, 2008	July 3, 2009	June 27, 2008
Amortization expense	\$ 1,548	\$ 1,411	\$ 3,943	\$ 5,522

The changes in the gross carrying amount of goodwill and intangible assets are as follows (in thousands):

8

Table of Contents

	Goodwill and Intangible Assets					Total
	Goodwill	Developed Technology	Customer Relationships	Patents and Other	Trademarks	
Balance as of						
October 3, 2008	\$ 483,671	\$ 11,850	\$ 21,210	\$ 3,549	\$ 3,269	\$ 523,549
Additions during period	7,160	1,900	300	2,120		11,480
Balance as of July 3, 2009	\$ 490,831	\$ 13,750	\$ 21,510	\$ 5,669	\$ 3,269	\$ 535,029

Goodwill is adjusted as required as a result of the realization of deferred tax assets. The benefit from the recognition of a portion of these deferred items reduces the carrying value of goodwill instead of reducing income tax expense. Accordingly, future realization of certain deferred tax assets will reduce the carrying value of goodwill. During the nine-month period ended June 27, 2008, goodwill was reduced by \$4.7 million as a result of the realization of deferred tax assets. There was no adjustment to reduce goodwill during the nine-month period ended July 3, 2009. The remaining deferred tax assets that could reduce goodwill in future periods are \$7.6 million as of July 3, 2009.

The Company tests its goodwill for impairment annually as of the first day of its fourth fiscal quarter and in interim periods if certain events occur indicating that the carrying value of goodwill may be impaired. In accordance with SFAS 142, *Goodwill and Other Intangible Assets*, the Company performed a goodwill impairment test and determined that as of July 4, 2009, its goodwill was not impaired.

Annual amortization expense related to intangible assets for the next five years is expected to be as follows (in thousands):

	2009	2010	2011	2012	2013
Amortization expense	\$6,093	\$5,903	\$4,953	\$3,709	\$139

8. BORROWING ARRANGEMENTS**Long-Term Debt**

Long-term debt consists of the following (in thousands):

	July 3, 2009	October 3, 2008
2007 Convertible Notes	\$ 97,116	\$ 137,616
Less-current maturities	50,000	
Total long-term debt	\$ 47,116	\$ 137,616

On March 2, 2007, the Company issued \$200.0 million aggregate principal amount of convertible subordinated notes (2007 Convertible Notes) in two tranches. The first tranche consisted of \$100.0 million of 1.25% convertible subordinated notes due March 2010. The second tranche consisted of \$100.0 million principal amount of 1.50% convertible subordinated notes due March 2012. The conversion price of the 2007 Convertible Notes is 105.0696 shares per \$1,000 principal amount of notes to be redeemed, which is the equivalent of a conversion price of approximately \$9.52 per share, plus accrued and unpaid interest, if any, at the conversion date. Holders may require the Company to repurchase the 2007 Convertible Notes upon a change in control of the Company. The Company pays interest in cash semi-annually in arrears on March 1 and September 1 of each year. It has been the Company's historical practice to cash settle the principal and interest components of convertible debt instruments, and it is our intention to continue to do so in the future, including settlement of the 2007 Convertible Notes. During the three-month period ended January 2, 2009, the Company redeemed \$40.5 million of principal amount of the 1.50%

convertible subordinated notes at an average price of 92.6. A discount of approximately \$2.9 million offset by approximately \$0.9 million in deferred financing costs was recorded as a gain during the period.

Short-Term Debt

Short-term debt consists of the following (in thousands):

	July 3, 2009	October 3, 2008
Current maturities of long-term debt	\$ 50,000	\$
Facility Agreement	50,000	50,000
Total short-term debt	\$ 100,000	\$ 50,000

Table of Contents

On July 15, 2003, the Company entered into a receivables purchase agreement under which it has agreed to sell from time to time certain of its accounts receivable to Skyworks USA, Inc. (Skyworks USA), a wholly-owned special purpose entity that is consolidated for accounting purposes. Concurrently, Skyworks USA entered into an agreement with Wachovia Bank, N.A. providing for a \$50.0 million credit facility (Facility Agreement) secured by the purchased accounts receivable. As a part of the consolidation, any interest incurred by Skyworks USA related to monies it borrows under the Facility Agreement is recorded as interest expense in the Company's results of operations. The Company performs collections and administrative functions on behalf of Skyworks USA. The Company renewed the Facility Agreement on July 9, 2009 for a one year term. Interest related to the Facility Agreement is at LIBOR plus 0.75%. As of July 3, 2009, Skyworks USA had borrowed \$50.0 million under this agreement.

9. INCOME TAXES

We recorded tax provisions of \$0.7 million and \$2.0 million for the three and nine-month periods ended July 3, 2009, and \$1.7 million and \$5.5 million for the three and nine-month periods ended June 27, 2008, respectively. Our effective tax rates were 3.6% and 5.1% for the three and nine-month periods ended July 3, 2009, and 7.8% and 9.0% for the three and nine-month periods ended June 27, 2008, respectively. The difference between our effective tax rates and the 35% federal statutory rate resulted primarily from a tax benefit related to a reduction in the federal and state deferred tax asset valuation allowance, and for the foreign earnings taxed at rates lower than the federal statutory rate. As noted in our most recent Annual Report on Form 10-K, no benefit has been recognized for certain acquisition related deferred tax assets. The benefit from the recognition of these deferred items reduces the carrying value of goodwill instead of reducing income tax expense. We will evaluate the realization of the acquisition related deferred tax assets on a quarterly basis and adjust the provision for income taxes accordingly. As a result, the effective tax rate may vary in subsequent quarters.

We utilize the asset and liability method of accounting for income taxes as set forth in SFAS No. 109, *Accounting for Income Taxes* (SFAS 109). Under the asset and liability method, deferred taxes are determined based on the temporary differences between the financial statement and tax bases of assets and liabilities using tax rates expected to be in effect during the years in which the basis differences reverse. A valuation allowance is recorded when it is more likely than not that some of the deferred tax assets will not be realized.

In accordance with SFAS 109, management has determined that it is more likely than not that a portion of our historic and current year income tax benefits will not be realized. Accordingly, as of July 3, 2009, we have established a valuation allowance of \$70.8 million related to our United States federal deferred tax assets. Deferred tax assets are recognized for foreign operations when management believes that it is more likely than not that they will be recovered during the carryforward period. There is a valuation allowance of \$1.3 million related to our foreign deferred tax assets.

The Company will continue to evaluate its valuation allowance in future periods and depending upon the outcome of that assessment, additional amounts could be reversed or recorded and recognized as a reduction to goodwill or an adjustment to income tax benefit or expense. Such adjustments could cause our effective income tax rate to vary in future periods. We will need to generate \$307.3 million of future United States federal taxable income to utilize all of our net operating loss carryforwards, research and experimentation tax credit carryforwards, and deferred income tax temporary differences as of July 3, 2009.

In July 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes-an interpretation of FASB Statement No. 109* (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS 109. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This statement also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Company adopted FIN 48 on September 29, 2007, and the provisions of FIN 48 are applied to all income tax provisions commencing from that date.

Table of Contents

During the quarter ended July 3, 2009, there were no significant changes in the Company's gross unrecognized tax benefits. Of the total unrecognized tax benefits at July 3, 2009, \$0.6 million would impact the effective tax rate, if recognized. There are no positions which we anticipate could change within the next twelve months. Total year to date accrued interest related to the Company's unrecognized tax benefits is \$0.0 million. During the quarter ended June 27, 2008, the statute of limitations period expired relating to an unrecognized tax benefit. The expiration of the statute of limitations period resulted in the recognition of \$0.6 million of previously unrecognized tax benefit, which impacted the effective tax rate as a discrete item during the quarter. In addition, \$0.5 million of accrued interest related to this tax position was reversed during the quarter, resulting in a total year-to-date benefit for accrued interest of \$0.4 million. The Company's policy is to recognize accrued interest and penalties, if incurred, on any unrecognized tax benefits as a component of income tax expense.

The Company's major tax jurisdictions as of the adoption of FIN 48 are the United States federal and the states of California and Iowa. For United States federal income tax, the statute of limitations is closed on years before fiscal 2005, but because of carryforwards, certain items are open back to fiscal 1998. For California, the statute of limitations is closed on years before fiscal 2004, but because of carryforwards, certain items are open back to fiscal 2002. For Iowa, the statute of limitations is closed on years before fiscal 2005, but because of carryforwards, certain items are open back to fiscal year 2002.

10. COMMITMENTS AND CONTINGENCIES

Legal Matters

From time to time, various lawsuits, claims and proceedings have been, and may in the future be, instituted or asserted against the Company, including those pertaining to patent infringement, intellectual property, environmental, product liability, safety and health, employment and contractual matters.

Additionally, the semiconductor industry is characterized by vigorous protection and pursuit of intellectual property rights. From time to time, third parties have asserted and may in the future assert patent, copyright, trademark and other intellectual property rights to technologies that are important to our business and have demanded and may in the future demand that we license their technology. The outcome of any such litigation cannot be predicted with certainty and some such lawsuits, claims or proceedings may be disposed of unfavorably to the Company. Generally speaking, intellectual property disputes often have a risk of injunctive relief, which, if imposed against the Company, could materially and adversely affect the Company's financial condition, or results of operations. From time to time we are also involved in legal proceedings in the ordinary course of business.

We believe that there is no litigation involving the Company pending that will have, individually or in the aggregate, a material adverse effect on our business.

Guarantees and Indemnifications

The Company has made no contractual guarantees for the benefit of third parties. However, the Company generally indemnifies its customers from third-party intellectual property infringement litigation claims related to its products, and, on occasion, also provides other indemnities related to product sales. In connection with certain facility leases, the Company has indemnified its lessors for certain claims arising from the facility or the lease.

The Company indemnifies its directors and officers to the maximum extent permitted under the laws of the state of Delaware. The duration of the indemnities varies, and in many cases is indefinite. The indemnities to customers in connection with product sales generally are subject to limits based upon the amount of the related product sales and in many cases are subject to geographic and other restrictions. In certain instances, the Company's indemnities do not provide for any limitation of the maximum potential future payments the Company could be obligated to make. The Company has not recorded any liability for these indemnities in the accompanying consolidated balance sheets and does not expect that such obligations will have a material adverse impact on its financial condition or results of operations.

Table of Contents**11. RESTRUCTURING**

Restructuring and other charges consists of the following (in thousands):

	Three-months Ended		Nine-months Ended	
	July 3,	June	July 3,	June
	2009	27,	2009	27,
		2008		2008
Asset impairments	\$	\$	\$ 5,616	\$
Restructuring and other charges			10,366	
	\$	\$	\$ 15,982	\$

2009 Restructuring and Other Charges

On January 22, 2009, the Company implemented a restructuring plan to realign its costs given current business conditions. The Company exited its mobile transceiver product area and reduced global headcount by approximately 4%, or 150 employees. The Company recorded various charges associated with this action. In total, the Company recorded charges of \$15.9 million of restructuring and other charges and \$3.5 million in inventory write-downs that were charged to cost of goods sold.

The \$15.9 million charge includes the following: \$4.5 million related to severance and benefits, \$5.6 million related to the impairment of certain long-lived assets, \$2.0 million related to the exit of certain operating leases, \$2.3 million related to the impairment of technology licenses and design software, and \$1.5 million related to other charges.

The Company made cash payments related to the restructuring plan of \$5.1 million during the nine month period ended July 3, 2009 and \$1.7 million during the quarter ended July 3, 2009, respectively.

Activity and liability balances related to the fiscal 2009 restructuring actions are as follows (in thousands):

	Facility	License and	Workforce	Asset	Total
	Closings	Software	Reductions	Impairments	
		Write-			
		offs and			
		Other			
Charged to costs and expenses	\$ 1,967	\$ 3,892	\$ 4,507	\$ 5,616	\$ 15,982
Other	(121)	(103)	3		(221)
Non-cash items		(955)		(5,616)	(6,571)
Cash payments	(523)	(796)	(3,805)		(5,124)
Restructuring balance, July 3, 2009	\$ 1,323	\$ 2,038	\$ 705	\$	\$ 4,066

The remaining restructuring reserve at July 3, 2009 of \$4.1 million is classified as other current liabilities. The Company anticipates completing the restructuring plan and remitting the remaining payments within the next nine months.

12. SEGMENT INFORMATION

The Company follows SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information* (SFAS No. 131). SFAS No. 131 establishes standards for the way public business enterprises report information about operating segments in annual financial statements and in interim reports to shareholders. The method for determining what information to report is based on the way that management organizes the segments within the Company for making operating decisions and assessing financial performance. Based on the guidance in SFAS No. 131, the Company has one operating segment for financial reporting purposes, which designs, develops, manufactures and markets proprietary semiconductor products, including intellectual property, for manufacturers of wireless

communication products.

Table of Contents**13. EMPLOYEE STOCK BENEFIT PLANS**

Net income for the three-month periods ended July 3, 2009 and June 27, 2008 included share-based compensation expense under SFAS No. 123(R), *Share-Based Payment* (SFAS 123(R)) of \$5.5 million and \$6.1 million, respectively. Net income for the nine-month periods ended July 3, 2009 and June 27, 2008 included share-based compensation expense under SFAS 123(R) of \$16.3 million and \$16.8 million, respectively.

The following table summarizes share-based compensation expense related to employee stock options, restricted stock grants, performance stock grants, and employee stock purchases under SFAS 123(R) for the three and nine-month periods ended July 3, 2009 and June 27, 2008 as follows:

(In thousands)	Three-months Ended		Nine-months Ended	
	July 3, 2009	June 27, 2008	July 3, 2009	June 27, 2008
Stock options	\$ 3,305	\$ 3,863	\$ 8,715	\$ 9,008
Non-vested restricted stock with service and market conditions	209	761	2,854	3,129
Non-vested restricted stock with service conditions	254	270	784	798
Performance shares	1,345	838	2,796	2,653
Employee Stock Purchase Plan	355	380	1,172	1,174
Total share-based compensation expense	\$ 5,468	\$ 6,112	\$ 16,321	\$ 16,762

The Company utilized the following weighted average assumptions in calculating its share-based compensation expense using the Black Scholes model at July 3, 2009 and June 27, 2008:

	July 3, 2009	June 27, 2008
Expected volatility	60.90%	51.56%
Risk free interest rate (7 year contractual life options)	2.53%	3.73%
Risk free interest rate (10 year contractual life options)	2.85%	3.84%
Dividend yield	0.00	0.00
Expected option life (7 year contractual life options)	4.42	4.42
Expected option life (10 year contractual life options)	5.79	5.80

14. EARNINGS PER SHARE

(In thousands, except per share amounts)	Three-months Ended		Nine-months Ended	
	July 3, 2009	June 27, 2008	July 3, 2009	June 27, 2008
Net income	\$ 19,849	\$ 20,466	\$ 37,284	\$ 56,217
Weighted average shares outstanding basic	167,062	162,095	165,971	161,166
Effect of dilutive stock options	2,463	2,554	1,209	2,157
Weighted average shares outstanding diluted	169,525	164,649	167,180	163,323
Net income per share basic	\$ 0.12	\$ 0.13	\$ 0.22	\$ 0.35
Effect of dilutive stock options		(0.01)		(0.01)

Edgar Filing: SKYWORKS SOLUTIONS INC - Form 10-Q

Net income per share	diluted	\$	0.12	\$	0.12	\$	0.22	\$	0.34
----------------------	---------	----	------	----	------	----	------	----	------

Basic earnings per share is calculated by dividing net income by the weighted average number of common shares outstanding. Diluted earnings per share includes the dilutive effect of equity based awards using the treasury stock method, the Company's 4.75% convertible subordinated notes (the Junior Notes), which were retired during the first quarter of 2008, on an if-converted basis and the 2007 Convertible Notes using the treasury stock method, if their effect is dilutive.

Table of Contents

Equity based awards exercisable for approximately 13.2 million shares were outstanding but not included in the computation of earnings per share for the three-month period ended July 3, 2009 as their effect would have been anti-dilutive. Equity based awards exercisable for approximately 20.2 million shares were outstanding but not included in the computation of earnings per share for the nine-month period ended July 3, 2009 as their effect would have been anti-dilutive.

Equity based awards exercisable for approximately 21.6 million shares were outstanding but not included in the computation of earnings per share for the three-month period ended June 27, 2008 as their effect would have been anti-dilutive. Junior Notes convertible into approximately 1.0 million shares and equity based awards exercisable for approximately 23.5 million shares were outstanding but not included in the computation of earnings per share for the nine-month period ended June 27, 2008 as their effect would have been anti-dilutive. If the Company had earned at least \$59.4 million in net income for the nine-month period ended June 27, 2008, the Junior Notes would have been dilutive to earnings per share.

In addition, the Company issued the 2007 Convertible Notes in March 2007. The 2007 Convertible Notes contain cash settlement provisions, which permit the application of the treasury stock method in determining potential share dilution of the conversion spread should the share price of the Company's common stock exceed \$9.52. It has been the Company's historical practice to cash settle the principal and interest components of convertible debt instruments, and it is the Company's intention to continue to do so in the future, including settlement of the 2007 Convertible Notes issued in March 2007. The Company retired \$62.4 million and \$40.5 million of the 2007 Convertible Notes in the fourth quarter of fiscal 2008 and the first quarter of fiscal 2009, respectively. The shares otherwise issuable upon conversion of the 2007 Convertible Notes have not been included in the computation of earnings per share for the three or nine-month periods ended July 3, 2009 as their effect would have been anti-dilutive. The maximum potential dilution from the settlement of the 2007 Convertible Notes would be approximately 10.2 million shares and 10.7 million shares for the three and nine-month periods ended July 3, 2009, respectively. These shares have also not been included in the three or nine-month periods ended June 27, 2008, as their effect would have been anti-dilutive. The maximum potential dilution from the settlement of the 2007 Convertible Notes at June 27, 2008 would have been approximately 21.0 million shares.

15. COMPREHENSIVE INCOME (LOSS)

The components of comprehensive income are as follows:

(In thousands)	Three-months Ended		Nine-months Ended	
	July 3, 2009	June 27, 2008	July 3, 2009	June 27, 2008
Net income	\$ 19,849	\$ 20,466	\$ 37,284	\$ 56,217
Other comprehensive income (loss):				
Unrealized loss on auction rate securities				(1,504)
Total comprehensive (loss) income	\$ 19,849	\$ 20,466	\$ 37,284	\$ 54,713

16. SUBSEQUENT EVENT

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through August 11, 2009, the date the financial statements were issued.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

This report and other documents we have filed with the Securities and Exchange Commission (SEC) contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1934, as amended, and are subject to the safe harbor created by those sections. Words such as believes, expects, may, will, would, should, could, seek, intends, plan, continue, estimates, anticipates, predicts, and similar expressions or variations or negatives of such words are intended to identify forward-looking statements, but are not the exclusive means of identifying forward-looking statements in this report. Additionally, statements concerning future matters such as the development of new products, enhancements or technologies, sales levels, expense levels and other statements regarding matters that are not historical are forward-looking statements. Although forward-looking statements in this report reflect the good faith judgment of our management, such statements can only be based on facts and factors currently known by us. Consequently, forward-looking statements involve inherent risks and uncertainties and actual results and outcomes may differ materially and adversely from the results and outcomes discussed in or anticipated by the forward-looking statements. A number of important factors could cause actual results to differ materially and adversely from those in the forward-looking statements. We urge you to consider the risks and uncertainties discussed in our Annual Report on Form 10-K for the fiscal year ended October 3, 2008, under the heading Risk Factors and in the other documents filed with the SEC in evaluating our forward-looking statements. We have no plans, and undertake no obligation, to revise or update our forward-looking statements to reflect any event or circumstance that may arise after the date of this report. We caution readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made.

In this document, the words we, our, ours and us refer only to Skyworks Solutions, Inc. and not any other person or entity.

RESULTS OF OPERATIONS**THREE AND NINE-MONTHS ENDED JULY 3, 2009 AND JUNE 27, 2008**

The following table sets forth the results of our operations expressed as a percentage of net revenues for the three and nine-month periods ended July 3, 2009 and June 27, 2008:

	Three-months Ended		Nine-months Ended	
	July 3, 2009	June 27, 2008	July 3, 2009	June 27, 2008
Net revenues	100.0%	100.0%	100.0%	100.0%
Cost of goods sold	59.8	59.8	60.7	60.3
Gross profit	40.2	40.2	39.3	39.7
Operating expenses:				
Research and development	15.5	17.0	16.2	17.1
Selling, general and administrative	12.7	12.1	12.9	11.9
Amortization of intangible assets	0.8	0.5	0.7	0.8
Restructuring and other charges			2.8	
Total operating expenses	29.0	29.6	32.6	29.8
Operating income	11.2	10.6	6.7	9.9
Interest expense	(0.5)	(0.8)	(0.5)	(0.9)
Gain on early retirement of convertible debt			0.4	
Other income, net		0.5	0.2	0.8
Income before income taxes	10.7	10.3	6.8	9.8

Edgar Filing: SKYWORKS SOLUTIONS INC - Form 10-Q

Provision for income taxes	0.4	0.8	0.4	0.9
Net income	10.3%	9.5%	6.4%	8.9%

Table of Contents**GENERAL**

During the three and nine-month periods ended July 3, 2009, our financial performance resulted in the following:

Gross profit margin percentage remained consistent at 40.2% for the three-month period ended July 3, 2009 as compared to the three-month period ended June 27, 2008 as we were able to drive further cost efficiencies at our factories and design-for-cost initiatives despite overall revenues declining by 11.1% over the same periods from \$215.2 million to \$191.2 million.

We generated \$140.4 million in cash from operations in the nine-month period ended July 3, 2009, an increase of \$18.3 million from the comparable nine-month period ended June 27, 2008. At July 3, 2009, we had \$308.4 million in cash, cash equivalents and restricted cash compared to \$254.0 million at June 27, 2008.

In the nine-month period ended July 3, 2009 we repurchased \$40.5 million of principal amount of our 2007 Convertible Notes (due in 2012) at an average price of 92.6 percent of par value. This combined with \$140.4 million of cash generated from operations during the nine month period ended July 3, 2009 has allowed us to improve our net cash position from \$43.5 million at October 3, 2008 to \$161.2 million at July 3, 2009.

NET REVENUES

(dollars in thousands)	Three-months Ended			Nine-months Ended		
	July 3, 2009	Change	June 27, 2008	July 3, 2009	Change	June 27, 2008
Net revenues	\$191,213	(11.1)%	\$215,210	\$574,431	(8.4)%	\$627,451

We market and sell our mobile platforms and linear products to top tier Original Equipment Manufacturers (OEMs) of communication electronic products, third-party Original Design Manufacturers (ODMs) and contract manufacturers, and indirectly through electronic components distributors. We periodically enter into strategic arrangements that leverage our broad intellectual property portfolio by licensing or selling our patents or other intellectual property. We anticipate continuing this intellectual property strategy in future periods.

Net revenues decreased 11.1% for the three-month period ended July 3, 2009 as compared to the corresponding period in the prior year. Net revenues decreased 8.4% for the nine-month period ended July 3, 2009 as compared to the same period in the prior year. The revenue decline for both the three and nine-month periods was due to a decline in mobile transceiver product revenues as we exited this product line on January 22, 2009 and an overall slowing of demand for certain of our products due to weak global economic conditions, partially offset by market share gains in our handset business. Net revenues from our top three customers decreased to 33.9% in the third quarter of fiscal 2009 from 41.5% in the third quarter of fiscal 2008, reflecting continued expansion of our customer base and the successful execution of our diversification strategy.

GROSS PROFIT

(dollars in thousands)	Three-months Ended			Nine-months Ended		
	July 3, 2009	Change	June 27, 2008	July 3, 2009	Change	June 27, 2008
Gross profit	\$76,950	(11.0)%	\$86,434	\$225,692	(9.4)%	\$249,139
% of net revenues	40.2%		40.2%	39.3%		39.7%

Gross profit represents net revenues less cost of goods sold. Cost of goods sold consists primarily of purchased materials, labor and overhead (including depreciation and equity based compensation expense) associated with product manufacturing.

Table of Contents

Our ability to maintain consistent gross margin levels for the three-month period ended July 3, 2009 as compared to the three-month period ended June 27, 2008 despite a decrease in the overall lower revenue base of 11.1% is principally the result of sustained cost control measures including capacity management enhanced by the flexibility of our hybrid manufacturing model. The decrease in gross profit as a percentage of revenue for the nine-month period ended July 3, 2009, as compared to the corresponding period in the previous fiscal year, was substantially the result of the \$3.5 million charge we incurred on inventory write-downs due to our exit of the mobile transceiver product area. The decline in gross profit in aggregate dollars for both periods was principally the result of the lower overall revenue base. During the three and nine-month periods ended July 3, 2009 and the corresponding periods in fiscal year 2008, we continued to benefit from higher contribution margins associated with the licensing and/or sale of intellectual property.

RESEARCH AND DEVELOPMENT

	Three-months Ended			Nine-months Ended		
	July 3, 2009	Change	June 27, 2008	July 3, 2009	Change	June 27, 2008
(dollars in thousands)						
Research and development	\$29,666	(18.9)%	\$36,561	\$92,906	(13.4)%	\$107,236
% of net revenues	15.5%		17.0%	16.2%		17.1%

Research and development expenses consist principally of direct personnel costs, costs for pre-production evaluation and testing of new devices, masks and engineering prototypes, equity based compensation expense and design and test tool costs.

The decrease in research and development expenses in aggregate dollars and as a percentage of net revenues for the three and nine-month periods ended July 3, 2009 as compared to the corresponding periods in the previous fiscal year was principally attributable to the restructuring plan implemented on January 22, 2009 and a curtailment of research and development expenditures in product areas with a lower return on investment.

SELLING, GENERAL AND ADMINISTRATIVE

	Three-months Ended			Nine-months Ended		
	July 3, 2009	Change	June 27, 2008	July 3, 2009	Change	June 27, 2008
(dollars in thousands)						
Selling, general and administrative	\$24,215	(6.8)%	\$25,975	\$74,110	(0.7)%	\$74,608
% of net revenues	12.7%		12.1%	12.9%		11.9%

Selling, general and administrative expenses include legal, accounting, treasury, human resources, information systems, customer service, bad debt expense, sales representative commissions, advertising, marketing and other costs.

Selling, general and administrative expenses decreased in the aggregate for the three and nine-month periods ended July 3, 2009, as compared to the corresponding periods in fiscal year 2008 primarily due to lower incentive and travel related costs. Selling, general and administrative expenses increased as a percentage of revenues for both the three and nine-month periods ended July 3, 2009, as compared to the corresponding periods in fiscal year 2008 due to the lower revenue base.

AMORTIZATION OF INTANGIBLE ASSETS

	Three-months Ended			Nine-months Ended		
	July 3, 2009	Change	June 27, 2008	July 3, 2009	Change	June 27, 2008
(dollars in thousands)						
Amortization	\$1,548	40.6%	\$1,411	\$3,943	(19.6)%	\$5,522
% of net revenues	0.8%		0.5%	0.7%		0.8%

Table of Contents

The increase in amortization expense during the three-month period ended July 3, 2009, as compared to the corresponding period of fiscal 2008, was due to an acquisition completed in May 2009 and the corresponding amortization expense recorded on the intangible assets acquired. See Notes 2 and 7 of Notes to Unaudited Interim Consolidated Financial Statements for additional information. The decrease in amortization expense during the nine-month period ended July 3, 2009, as compared to the corresponding period of fiscal 2008, was due to a reduction in amortization of intangible assets associated with an acquisition completed in October 2007.

RESTRUCTURING AND OTHER CHARGES

(dollars in thousands)	Three-months Ended			Nine-months Ended		
	July 3, 2009	Change	June 27, 2008	July 3, 2009	Change	June 27, 2008
Restructuring and other charges	\$	0.0%	\$	\$15,982	100.0%	\$
% of net revenues	0.0%		0.0%	2.8%		0.0%

Restructuring and other charges consist of charges for asset impairments and restructuring activities, as follows:

2009 RESTRUCTURING AND OTHER CHARGES

On January 22, 2009, we implemented a restructuring plan to realign our costs given current business conditions. We exited our mobile transceiver product area and reduced global headcount by approximately 4%, or 150 employees. In connection with this action, we recorded \$15.9 million of restructuring and other charges and \$3.5 million in inventory write-downs that were charged to cost of goods sold.

The \$15.9 million restructuring and other charges includes the following: \$4.5 million related to severance and benefits, \$5.6 million related to the impairment of certain long-lived assets, \$2.0 million related to the exit of certain operating leases, \$2.3 million related to the impairment of technology licenses and design software, and \$1.5 million related to other charges.

For additional information regarding restructuring charges and liability balances, see Note 11 of Notes to Unaudited Interim Consolidated Financial Statements.

INTEREST EXPENSE

(dollars in thousands)	Three-months Ended			Nine-months Ended		
	July 3, 2009	Change	June 27, 2008	July 3, 2009	Change	June 27, 2008
Interest expense	\$890	(46.3)%	\$1,658	\$2,837	(49.6)%	\$5,635
% of net revenues	0.5%		0.8%	0.5%		0.9%

Interest expense is comprised principally of payments in connection with the \$50.0 million credit facility between Skyworks USA, Inc., our wholly owned subsidiary, and Wachovia Bank, N.A. (Facility Agreement), the Company's 4.75% convertible subordinated notes (the Junior Notes), and the Company's 1.25% and 1.50% convertible subordinated notes (the 2007 Convertible Notes).

The decrease in interest expense, both in aggregate dollars and as a percentage of net revenues for the three and nine-month periods ended July 3, 2009, when compared to the corresponding periods in fiscal 2008, was due to the retirement of our higher interest rate Junior Notes, and the early retirement of \$62.4 million principal amount and \$40.5 million principal amount of the 2007 Convertible Notes in the fourth quarter of fiscal 2008 and the first quarter of fiscal 2009, respectively. See Note 8 of Notes to Unaudited Interim Consolidated Financial Statements for information related to our borrowing arrangements.

Table of Contents**GAIN ON EARLY RETIREMENT OF CONVERTIBLE DEBT**

(dollars in thousands)	Three-months Ended			Nine-months Ended		
	July 3, 2009	Change	June 27, 2008	July 3, 2009	Change	June 27, 2008
Gain on early retirement of convertible debt	\$	0.0%	\$	\$2,035	100.0%	\$
% of net revenues	0.0%		0.0%	0.4%		0.0%

In the nine-month period ended July 3, 2009 we retired \$40.5 million principal amount of our 2007 Convertible Notes due in 2012. We recorded income of \$2.0 million in the first quarter of fiscal 2009 related to the early retirement of these notes, reflecting a \$2.9 million discount received on the early retirement of these notes offset by a \$0.9 million write-off of deferred financing costs.

OTHER (EXPENSE) INCOME, NET

(dollars in thousands)	Three-months Ended			Nine-months Ended		
	July 3, 2009	Change	June 27, 2008	July 3, 2009	Change	June 27, 2008
Other (expense) income, net	\$(32)	(103.0)%	\$1,064	\$1,357	(72.8)%	\$4,997
% of net revenues	0.0%		0.5%	0.2%		0.8%

Other (expense) income, net is comprised primarily of interest income on invested cash balances, other non-operating income and expense items and foreign exchange gains/losses.

The decreases in other (expense) income in both aggregate dollars and as a percentage of net revenues for the three and nine-month periods ended July 3, 2009, as compared to the corresponding periods in fiscal 2008, is primarily due to an overall decline in interest income on invested cash balances due to lower interest rates in fiscal 2009 and unfavorable foreign exchange rates.

PROVISION FOR INCOME TAXES

(dollars in thousands)	Three-months Ended			Nine-months Ended		
	July 3, 2009	Change	June 27, 2008	July 3, 2009	Change	June 27, 2008
Provision for income taxes	\$750	(56.8)%	\$1,737	\$2,022	(63.5)%	\$5,536
% of net revenues	0.4%		0.8%	0.4%		0.9%

The combined provision for United States federal and state income taxes for the three and nine-month periods ended July 3, 2009 consists of approximately \$0.3 million and \$1.0 million, respectively. A charge to the United States federal income tax provision was not required to reduce the carrying value of goodwill for the three and nine-month periods ended July 3, 2009, respectively. The provision for United States federal and state income taxes for the three and nine-month period ended June 27, 2008 consists of approximately \$2.5 million and \$6.0 million, respectively. Of the total U.S. income tax provision, \$2.0 million and \$4.7 million were recorded as a charge reducing the carrying value of goodwill for the three and nine-month periods ended June 27, 2008, respectively.

The provision for the three and nine-month periods ended July 3, 2009 consists of approximately \$0.4 million and \$1.0 million, respectively, of foreign income taxes incurred by foreign operations. The provision for the three and nine-month periods ended June 27, 2008, consists of approximately \$0.3 million and \$0.5 million, respectively, of foreign income taxes incurred by foreign operations.

In accordance with SFAS 109, *Accounting for Income Taxes* (SFAS 109), management has determined that it is more likely than not that a portion of our historic and current year income tax benefits will not be realized. Accordingly, as of July 3, 2009, we have established a valuation allowance of \$70.8 million related to our United States federal deferred tax assets. Deferred tax assets are recognized for foreign operations when management

Table of Contents

believes that it is more likely than not that they will be recovered during the carryforward period. There is a valuation allowance of \$1.3 million related to our foreign deferred tax assets.

Realization of benefits from our deferred tax asset (principally deferred income tax temporary differences and research and experimentation credits) is dependent upon generating United States source taxable income in the future, which may result in the existing valuation reserve being reversed in the near term to the extent that the related deferred tax assets no longer require a valuation allowance under the provisions of SFAS 109.

We will continue to evaluate the valuation allowance in future periods and depending upon the outcome of that assessment, additional amounts could be reversed or recorded and recognized as a reduction to goodwill or an adjustment to income tax benefit or expense. Such adjustments could cause our effective income tax rate to vary in future periods. We will need to generate \$307.3 million of future United States federal taxable income to utilize all of our net operating loss carryforwards, research and experimentation tax credit carryforwards, and deferred income tax temporary differences as of July 3, 2009.

As noted in our Annual Report on Form 10-K, no benefit has been recognized for certain acquisition related deferred tax assets. The benefit from the recognition of these deferred items reduces the carrying value of goodwill instead of reducing income tax expense. We will evaluate the realization of the acquisition related deferred tax assets on a quarterly basis and adjust the provision for income taxes accordingly. As a result, the effective tax rate may vary in subsequent quarters.

We adopted FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* an interpretation of FASB *Statement No. 109* (FIN 48), as of the beginning of fiscal year 2008. During the quarter ended July 3, 2009, there were no significant changes in our gross unrecognized tax benefits. Of the total unrecognized tax benefits at July 3, 2009, \$0.6 million would impact the effective tax rate, if recognized. There are no positions which we anticipate could change within the next twelve months. Total year to date accrued interest related to our unrecognized tax benefits is \$0.0 million. During the quarter ended June 27, 2008, the statute of limitations period expired relating to an unrecognized tax benefit. The expiration of the statute of limitations period resulted in the recognition of \$0.6 million of previously unrecognized tax benefit, which impacted the effective tax rate as a discrete item during the quarter. In addition, \$0.5 million of accrued interest related to this tax position was reversed during the quarter, resulting in a total year-to-date benefit for accrued interest of \$0.4 million. Our policy is to recognize accrued interest and penalties, if incurred, on any unrecognized tax benefits as a component of income tax expense.

Our major tax jurisdictions as of the adoption of FIN 48 are the United States federal and the states of California and Iowa. For United States federal income tax, the statute of limitations is closed on years before fiscal 2005, but because of carryforwards, certain items are open back to fiscal 1998. For California, the statute of limitations is closed on years before fiscal 2004, but because of carryforwards, certain items are open back to fiscal 2002. For Iowa, the statute of limitations is closed on years before fiscal 2005, but because of carryforwards, certain items are open back to fiscal year 2002.

LIQUIDITY AND CAPITAL RESOURCES*Cash Provided and Used*

	Nine-months Ended	
	July 3, 2009	June 27, 2008
(dollars in thousands)		
Cash and cash equivalents at beginning of period	\$ 225,104	\$ 241,577
Net cash provided by operating activities	140,387	122,075
Net cash used in investing activities	(33,321)	(81,973)
Net cash used in financing activities	(29,666)	(33,664)
Cash and cash equivalents at end of period	\$ 302,504	\$ 248,015

Based on our results of operations for the first nine months of fiscal 2009, along with current trends, we expect our existing sources of liquidity, together with cash expected to be generated from operations, will be sufficient to fund

our research and development, capital expenditures, debt obligations, working capital and other cash requirements for at least the next 12 months. However, we cannot be certain that the capital required to fund these expenses will

Table of Contents

be available in the future. In addition, any strategic investments and acquisitions that we may make to help us grow our business may require additional capital resources. If we are unable to obtain sufficient capital to meet our capital needs on a timely basis and on favorable terms (if at all), our business and operations could be materially and adversely affected.

Cash and cash equivalent balances increased by \$77.4 million to \$302.5 million at July 3, 2009 from \$225.1 million at October 3, 2008. We generated \$140.4 million in cash from operations during the nine-month period ended July 3, 2009, which was offset by the retirement of \$40.5 million principal amount of the 2007 Convertible Notes, capital expenditures of \$24.3 million along with consideration paid for acquisitions of \$9.1 million. The number of days sales outstanding for the three-month period ended July 3, 2009 decreased to 54 from 72 for the corresponding period in fiscal 2008 due to improved collections activities and billing patterns.

During the nine-month period ended July 3, 2009, we generated net income of \$37.3 million. We experienced a decrease in receivables, and inventories of \$33.5 million and \$12.5 million, respectively. We also incurred multiple non-cash charges (e.g., depreciation, amortization, contribution of common shares to savings and retirement plans, share-based compensation expense, non-cash restructuring expense, asset impairments and inventory write-downs) totaling \$70.6 million. This was offset by an increase in other assets of \$1.2 million, and a decrease in accounts payable and other accrued liabilities of \$10.3 million and \$4.0 million, respectively.

Cash used in investing activities for the nine-month period ended July 3, 2009 consisted of investments in capital equipment of \$24.3 million primarily related to expanded assembly and test capacity and wafer fabrication capacity. We believe a focused program of capital expenditures will be required to sustain our current manufacturing capabilities. We expect that future capital expenditures will be funded by the generation of cash flows from operations. We may also consider future acquisition opportunities to extend our technology portfolio and design expertise and to expand our product offerings. During the nine-month period ended July 3, 2009, we also invested \$9.1 million in the acquisition of Axiom Microdevices, Inc., and two separate patent purchases from two separate companies.

Cash used in financing activities for the nine-month period ended July 3, 2009 consisted of the retirement of \$40.5 million principal amount of our 2007 Convertible Notes, and the repurchase of treasury stock of \$2.0 million, offset by cash provided by stock option exercises of \$12.7 million.

Our invested cash balances primarily consist of mutual funds invested in United States treasury obligations, United States agency obligations, overnight repurchase agreements backed by United States treasuries or United States agency obligations, highly rated commercial paper, certificates of deposit and overnight repurchase agreements. At July 3, 2009, we also held a \$3.2 million auction rate security which historically has provided liquidity through a Dutch auction process. The recent disruptions in the credit markets have substantially eliminated the liquidity of this process resulting in failed auctions. During the fiscal year ended October 3, 2008, we performed a comprehensive valuation and discounted cash flow analysis on the auction rate security. We concluded the value of the auction rate security was \$2.3 million, and the carrying value of these securities was reduced by \$0.9 million, reflecting this change in fair value. Accordingly, in the fiscal year ended October 3, 2008, we recorded unrealized losses on this auction rate security of approximately \$0.9 million. We assessed these declines in fair market value to be temporary and consider the security to be illiquid until there is a successful auction or the investment matures. Accordingly, the remaining auction rate security balance has been reclassified to non-current other assets and the loss was recorded in other comprehensive income. As of July 3, 2009, we re-evaluated our auction rate securities and determined that no adjustment was required. We will continue to monitor the liquidity and accounting classification of this security in future periods. If in a future period, if we determine that the impairment is other than temporary, we will impair the security to its fair value and charge the loss to earnings.

On July 15, 2003, we entered into a receivables purchase agreement under which we have agreed to sell from time to time certain of our accounts receivable to Skyworks USA, Inc. (Skyworks USA), a wholly-owned special purpose entity that is fully consolidated for accounting purposes. Concurrently, Skyworks USA entered into an agreement with Wachovia Bank, N.A. providing for a \$50.0 million credit facility (Facility Agreement) secured by the purchased accounts receivable. As a part of the consolidation, any interest incurred by Skyworks USA related to monies it borrows under the Facility Agreement is recorded as interest expense in the Company's results of operations. We

perform collections and administrative functions on behalf of Skyworks USA. Interest related to the
21

Table of Contents

Facility Agreement is at LIBOR plus 0.75%. We renewed the Facility Agreement for another year on July 9, 2009. As of July 3, 2009, Skyworks USA had borrowed \$50.0 million under this agreement.

CONTRACTUAL OBLIGATIONS

Our contractual obligations disclosure in our annual report on Form 10-K for the year ended October 3, 2008 has not materially changed since we filed that report, with the exception that we retired \$40.5 million principal amount of our 2007 Convertible Notes (due in 2012) at an average price of 92.6 of par value. These retirements reduced the remaining outstanding principal balance on our 2007 Convertible Notes to \$97.1 million as of November 12, 2008. Our short-term and long-term debts are more fully described in Note 8 of Notes to Unaudited Interim Consolidated Financial Statements.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS**SFAS 141(R)**

In December 2007, the FASB issued SFAS No. 141(R), *Business Combinations* (SFAS 141(R)). SFAS 141(R) applies to any transaction or other event that meets the definition of a business combination. Where applicable, SFAS 141(R) establishes principles and requirements for how the acquirer recognizes and measures identifiable assets acquired, liabilities assumed, noncontrolling interest in the acquiree and goodwill or gain from a bargain purchase. In addition, SFAS 141(R) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. This statement is to be applied prospectively for fiscal years beginning after December 15, 2008. The Company will evaluate the impact of SFAS 141(R) on its Consolidated Financial Statements in the event future business combinations are contemplated.

FSP No. FAS 141(R)-1

In April 2009, the FASB issued FSP No. FAS 141(R)-1, *Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies* (FSP 141(R)-1) amending and clarifying SFAS 141(R) to address application issues raised by preparers, auditors, and members of the legal profession on initial recognition and measurement, subsequent measurement and accounting, and disclosure of assets and liabilities arising from contingencies in a business combination. This statement is to be applied prospectively for fiscal years beginning after December 15, 2008. The Company will evaluate the impact of SFAS 141(R)-1 on its Consolidated Financial Statements in the event future business combinations are contemplated.

SFAS 160

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements, an Amendment of ARB No. 51* (SFAS 160). SFAS 160 amends ARB 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It also amends certain of ARB 51's consolidation procedures for consistency with the requirements of SFAS 141(R). This statement is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. The statement shall be applied prospectively as of the beginning of the fiscal year in which the statement is initially adopted. The adoption of SFAS 160 will not impact the Company's results of operations or financial position because the Company does not have any minority interests.

FSP No. APB 14-1

In May 2008, the FASB issued FSP No. APB 14-1, *Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)* (FSP APB 14-1). FSP APB 14-1 alters the accounting treatment for convertible debt instruments that allow for either mandatory or optional cash settlements. FSP APB 14-1 is expected to impact the Company's accounting for its 2007 Convertible Notes and previously held Junior Notes. This FSP requires registrants with specified convertible note features to recognize (non-cash) interest expense based on the market rate for similar debt instruments without the conversion feature. Furthermore, pursuant to its retrospective accounting treatment, the FSP requires prior period interest expense recognition. FSP APB 14-1 is effective for financial statements issued for fiscal years and interim periods beginning after December 15,

Table of Contents

2008. The Company is currently evaluating FSP APB 14-1 and the precise impact that it will have on its Consolidated Financial Statements but the Company believes that the adoption of FSP APB 14-1 will have a material impact on the Company's results of operations. The Company is not required to adopt FSP APB 14-1 until the first quarter of fiscal 2010.

FSP No. FAS 157-3

In October 2008, the Company adopted the provisions of the FASB issued FSP SFAS 157-3, *Determining the Fair Value of a Financial Asset When The Market for That Asset Is Not Active* (FSP 157-3), which clarifies how an entity would determine fair value in an inactive market. FSP 157-3 was effective upon issuance. The application of the provisions of FSP 157-3 did not materially impact the Company's financial position or results of operations.

FSP No. FAS 157-4

In April 2009, the FASB issued FSP No. FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP 157-4) amends SFAS No. 157 and provides additional guidance for estimating fair value in accordance with SFAS No. 157 when the volume and level of activity for the asset and liability have significantly decreased, as well as provides guidance on identifying circumstances that indicate a transaction is not orderly. FSP 157-4 is effective for interim and annual periods ending after June 15, 2009. The adoption of FSP 157-4 did not have a material impact on the Company's consolidated results of operations, cash flows or financial position.

FSP No. FAS 115-2 and FAS 124-2

In April 2009, the FASB issued FSP No. FAS 115-2 and FAS 124-2, *Recognition and Presentation of Other-Than-Temporary Impairments* (FSP 115-2 and FAS 124-2) amending SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities* and FSP No. FAS 115-1 and FAS 124-1, *The Meaning of Other-Than-Temporary Impairment and its Application to Certain Investments*. FAS 115-2 and FAS 124-2 provide additional guidance to make other-than-temporary impairments more operational and to improve the financial statement presentation of such impairments. FAS 115-2 and FAS 124-2 are effective for interim and annual periods ending after June 15, 2009. The adoption of FAS 115-2 and FAS 124-2 did not have a material impact on the Company's consolidated results of operations, cash flows or financial position.

SFAS 168

In June 2009, the Financial Accounting Standards Board (FASB) issued SFAS No. 168, *The FASB Accounting Standards Codification* (SFAS 168). The *FASB Accounting Standards Codification*TM (Codification) will become the source of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. On the effective date of this Statement, the Codification will supersede all then-existing non-SEC accounting and reporting standards. All other nongrandfathered non-SEC accounting literature not included in the Codification will become nonauthoritative. This sets forth the level of authority to a given accounting pronouncement or document by category. Where there might be conflicting guidance between two categories, the more authoritative category will prevail. This Statement replaces FASB Statement No. 162, *The Hierarchy of Generally Accepted Accounting Principles*, and is effective for financial statements issued for interim and annual periods ending after September 15, 2009. SFAS No. 168 has no effect on the Company's financial position, statements of operations, or cash flows at this time.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are subject to foreign currency, market rate and interest risks as described below:

Table of Contents*Investment and Interest Rate Risk*

Our exposure to interest and market risk relates principally to our investment portfolio, which as of July 3, 2009 consisted of the following (in millions):

Cash and cash equivalents (time deposits, overnight repurchase agreements and money market funds)	\$ 302.5
Restricted cash (time deposits and certificates of deposit)	5.9
Available for sale securities (auction rate securities)	2.3
 Total	 \$ 310.7

The main objective of our investment activities is the liquidity and preservation of investment capital. Credit risk associated with our investments is not significant as our investment policy prescribes high credit quality standards and limits the amount of credit exposure to any one issuer. We do not use derivative instruments for speculative or investment purposes.

In general, our cash and cash equivalent investments have short-term maturity periods which dampen the impact of significant market or interest rate risk. We are, however, subject to overall financial market risks, such as changes in market liquidity, credit quality and interest rates. Available for sale securities carry a longer maturity period (contractual maturities exceed ten years). In fiscal 2008 we experienced a temporary unrealized loss on our investment in auction rate securities primarily caused by a disruption in the liquidity of the Dutch auction process which resets interest rates each period. We classified auction rate securities in prior periods as current assets under Short Term Investments. Given the failed auctions, the auction rate securities are effectively illiquid until there is a successful auction. Accordingly, the remaining auction rate securities balance has been reclassified to non-current other assets. However, we have the ability and intent to hold these investments until there is a full recovery of its fair value, which may be at maturity.

Exchange Rate Risk

Substantially all sales to customers and arrangements with third-party manufacturers provide for pricing and payment in United States dollars, thereby reducing the impact of foreign exchange rate fluctuations on our results. A small percentage of our international operational expenses are denominated in foreign currencies. Exchange rate volatility could negatively or positively impact those operating costs. The Company incurred unrealized foreign exchange gains/(losses) of \$(0.1) million and \$0.3 million for the three and nine-month periods ended July 3, 2009, respectively, and unrealized foreign exchange gains/(losses) of \$0.3 million and \$0.2 million for the three and nine-month periods ended June 27, 2008, respectively. Increases in the value of the U.S. dollar relative to other currencies could make our products more expensive, which could negatively impact our ability to compete. Conversely, decreases in the value of the U.S. dollar relative to other currencies could result in our suppliers raising their prices to continue doing business with us. Fluctuations in currency exchange rates could have a greater effect on our business in the future.

Item 4. Controls and Procedures*(a) Evaluation of disclosure controls and procedures.*

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures as of July 3, 2009. The term disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation

Table of Contents

of our disclosure controls and procedures as of July 3, 2009, our chief executive officer and chief financial officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

(b) Changes in internal controls over financial reporting.

No changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) occurred during the fiscal quarter ended July 3, 2009 that has materially affected, or is reasonably likely to materially affect, Skyworks internal control over financial reporting.

PART II. OTHER INFORMATION**Item 1A. Risk Factors**

There have been no significant changes in the risk factors disclosed in Item 1A of our Annual Report on Form 10-K for the year ended October 3, 2008.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) The following table provides information regarding repurchases of common stock made by us during the fiscal quarter ended July 3, 2009:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximately Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs
4/04/09-5/01/09	4,449(1)	\$ 8.86	N/A(2)	N/A(2)
5/02/09-5/29/09	9,991(1)	\$ 9.01	N/A(2)	N/A(2)
5/30/09-7/03/09	2,892(1)	\$ 10.10	N/A(2)	N/A(2)

(1) All shares of common stock reported in the table above were repurchased by Skyworks at the fair market value of the common stock as of the period stated above, in connection with the satisfaction of tax withholding

obligations
under restricted
stock
agreements
between
Skyworks and
certain of its key
employees.

- (2) We have no
