- this post-effective amendment designates a new effective date for a previously filed post-effective amendment.

Title of securities being registered:

Units of interest in a separate account under flexible premium individual deferred variable annuity contracts.

The Prospectus for the Merrill Lynch Life Variable Annuity Separate Account C Form N-4 Registration Statement (333-73544 and 811-10585) filed on April 29, 2008 is hereby incorporated by reference.

MERRILL LYNCH LIFE INSURANCE COMPANY
Merrill Lynch Life Variable Annuity
Separate Account C
Supplement Dated August 17, 2009
to the
Prospectus For
CONSULTS ANNUITY® (Dated May 1, 2008)

This supplement describes changes to the variable annuity contracts listed above (the Contracts) issued by Merrill Lynch Life Insurance Company. Please retain this supplement with your Prospectus for future reference.

Liquidation of Portfolios

We have been advised that the MLIG Variable Insurance Trust consisting of the following portfolios:

| | |
|--|--|
| Roszel/AllianceBernstein Large Cap Core Portfolio | Roszel/Allianz NFJ Mid Cap Value Portfolio |
| Roszel/BlackRock Equity Dividend Portfolio | Roszel/BlackRock Fixed-Income Portfolio |
| Roszel/Cadence Mid Cap Growth Portfolio | Roszel/Davis Large Cap Value Portfolio |
| Roszel/Delaware Small-Mid Cap Growth Portfolio | Roszel/Fayez Sarofim Large Cap Core Portfolio |
| Roszel/JPMorgan International Equity Portfolio | Roszel/Lazard International Portfolio |
| Roszel/Lord Abbett Large Cap Value Portfolio | Roszel/Marsico Large Cap Growth Portfolio |
| Roszel/NWQ Small Cap Value Portfolio | Roszel/Santa Barbara Conservative Growth Portfolio |

(the Liquidated Portfolios) will liquidate on or about October 23, 2009 (the Liquidation Date). Because of the liquidation, the subaccounts investing in the Liquidated Portfolios (the Liquidated Subaccounts) will be closed effective as of the close of business on the Liquidation Date.

If you have given us allocation instructions for premium payments, transfers, or other purposes (for example, the Dollar Cost Averaging Program or Rebalancing Program) directing us to invest in the Liquidated Subaccounts, you will need to provide us with new instructions for amounts that would have otherwise gone into those Liquidated Subaccounts. If you are enrolled in the Dollar Cost Averaging Program or Rebalancing Program and we do not receive updated allocation instructions from you as of the Liquidation Date, then the Liquidated Subaccounts used in the programs will be replaced by the Money Market Subaccount on the Liquidation Date. If your premium allocation instructions include one or more Liquidated Subaccount, new allocation instructions must accompany the first premium payment after the Liquidation Date.

Notice to Contract Owners

Prior to the Liquidation Date, you may transfer any contract value allocated to the Liquidated Subaccounts to another subaccount. There is no charge for this transfer and it will not count against the number of free transfers permitted annually. The new portfolios available for investment represent a wide variety of investment objectives and strategies. Please see the section entitled Addition of Portfolios below for a list of the available portfolios. In addition, the prospectuses for each new portfolio, which contain information about its objectives, investment strategies, risks, fees, and expenses will accompany this supplement.

If you still have contract value allocated to the Liquidated Subaccounts on the Liquidation Date, shares of the Liquidated Portfolios held for you in the Liquidated Subaccounts will be exchanged for shares of the BlackRock Money Market V.I. Fund (the Money Market Portfolio), of equal value on the Liquidation Date, and held in the BlackRock Money Market V.I. Subaccount (the Money Market Subaccount). There is no charge for this exchange and it will not count against the number of free transfers permitted annually . The Money Market Portfolio seeks to maintain a stable net asset value (NAV) of \$1.00 per share. The Money Market Portfolio 's investment objective seeks to preserve capital, maintain liquidity, and achieve the highest possible current income. However, there can be no assurance that the Money Market Portfolio will be able to maintain a stable net asset value per share. During extended periods of low interest rates, and partly as a result of contract charges, the yield on the Money Market Portfolio subaccount may become extremely low and possibly negative.

In May you received a new prospectus for the Money Market Portfolio which contains information about its objectives, investment strategies, risks, fees, and expenses. Please read it carefully. You may also call the number below to obtain additional copies of the prospectuses for the Money Market Portfolio or any of the new subaccounts available for investment. As mentioned above, if you would like to make a transfer directly from the Liquidated Subaccounts into one or more of the new portfolios available for investment, we must receive instructions from you prior to the Liquidation Date. Due to the liquidation of the Portfolios and the addition of these funds, the Consults Annuity[®] is no longer part of the Merrill Lynch, Pierce, Fenner and Smith Incorporated Consults Program. Thus, all references to this program in your Prospectus are hereby deleted.

The following replaces, the FEE TABLE in the Prospectus:

FEE TABLE

The following tables describe the fees and expenses that you will pay when buying, owning, and surrendering the Contract. The first table describes the fees and expenses that you will pay at the time that you buy the Contract, surrender the Contract, or transfer contract value between the subaccounts. State premium taxes may also be deducted.

Contract Owner Transaction Expenses

| | |
|--|------|
| Sales Load Imposed on Premiums | None |
| Contingent Deferred Sales Charge (as a % of premium withdrawn) | None |
| Transfer Fee ¹ | \$25 |

The next table describes the fees and expenses that you will pay periodically during the time that you own the Contract, not including Fund fees and expenses. This table also includes the charges you would pay if you added optional riders to your Contract.

Periodic Charges Other Than Fund Expenses

| | |
|---|-------|
| Annual Contract Fee ² | \$50 |
| Separate Account Annual Expenses (as a % of average Separate Account value) Current and Maximum Asset-Based Insurance Charge ³ | 1.85% |
| Additional Death Benefit Charge ⁴ | 0.25% |

The next table shows the Fund fees and expenses that you may pay periodically during the time that you own the Contract. The table shows the minimum and maximum total operating expenses of the Fund for the fiscal year ended December 31, 2008, before and after any contractual waivers and expense reimbursement. More detail concerning each Fund's fees and expenses is contained in the prospectus for each Fund.

¹ There is no charge for the first 12 transfers in a contract year. We currently do not, but may in the future, charge a

\$25 fee on all subsequent transfers.

- 2 The contract fee will be assessed annually at the end of each contract year and upon a full withdrawal only if the greater of contract value, or premiums less withdrawals, is less than \$75,000.
- 3 If your contract value is \$250,000 or greater on specified dates, a Contract Value Credit will be added to your contract value that effectively reduces the rate of this charge. This potential reduction is not reflected in the fee table.
- 4 An additional annual charge is assessed if the Estate Enhancer benefit was elected or was combined with either the Maximum Anniversary Value GMDB or Premiums Compounded at 5%GMDB. The

charge will be assessed at the end of each contract year based on the average of your contract values as of the end of each of the prior four contract quarters. We also impose a pro rata amount of this charge upon surrender, annuitization, death, or termination of the rider. We won't deduct this charge after the annuity date.

| Range of Expenses for the Funds⁵ | Minimum | Maximum |
|---|----------------|----------------|
| Total Annual Fund Operating Expenses (total of all expenses that are deducted from Fund assets, including management fees, 12b-1 fees, and other expenses) | 0.63% | 7.86% |

Example

This Example is intended to help you compare the cost of investing in the Contract with the cost of investing in other variable annuity contracts. These costs include Separate Account Annual Expenses, the Additional Death Benefit Charge, and Annual Fund Operating Expenses.

The Example assumes that you invest \$10,000 in the Contract for the time periods indicated. The Example also assumes that your investment has a 5% return each year and assumes the maximum and minimum fees and expenses of any of the Funds. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

If you surrender, annuitize, or remain invested in the Contract at the end of the applicable time period:

Assuming the *maximum* fees and expenses of any Fund, your costs would be:

| 1 year | 3 years | 5 years | 10 years |
|---------------|----------------|----------------|-----------------|
| \$972 | \$2,774 | \$4,402 | \$7,818 |

Assuming the *minimum* fees and expenses of any Fund, your costs would be:

| 1 year | 3 years | 5 years | 10 years |
|---------------|----------------|----------------|-----------------|
| \$277 | \$849 | \$1,448 | \$3,067 |

Because there is no contingent deferred sales charge, you would pay the same expenses whether you surrender your Contract at the end of the applicable time period or not, based on the same assumptions.

The Example does not reflect the \$50 contract fee because, based on average contract size and withdrawals, its effect on the examples shown would be negligible. They assume that the Estate Enhancer benefit is elected and reflect the annual charge of 0.25% of the average contract value at the end of the four prior contract quarters. Contractual waivers and reimbursements are reflected in the first year of the example, but not in subsequent years. See the Charges and Discussions section in this Prospectus and the Fund prospectuses for a further discussion of fees and charges.

The examples should not be considered a representation of past or future expenses or annual rates of return of any Fund. Actual expenses and annual rates of return may be more or less than those assumed for the purpose of the examples.

Condensed financial information containing the accumulation unit value history appears at the end of this Prospectus Supplement.

⁵ The Fund expenses used to prepare this table were provided to us by the Funds. We have not independently verified such information. The expenses shown are those incurred for the year ended

December 31,
2008 or
estimated for
the current year.
Current or
future expenses
may be greater
or less than
those shown.

Please contact the Service Center at (800)-535-5549 (Monday-Friday 8:30 a.m.-7:00 p.m. Eastern Time) to obtain an additional copy of the prospectus for any Fund available as an investment choice under the Contract.

We do not guarantee that each Fund will always be available for investment through the Contract. We reserve the right, subject to compliance with applicable laws, to add new portfolios or portfolio classes, close existing portfolios or portfolio classes to allocations of new premiums by existing owners or new Contract owners at any time, or substitute portfolio shares that are held by any subaccount for shares of a different portfolio. New or substitute portfolios or portfolio classes may have different fees and expenses and their availability may be limited to certain classes of purchasers. We will not add, delete or substitute any shares attributable to your interest in a subaccount without notice to you and prior approval of the SEC, to the extent required by the 1940 Act or other applicable law. *The following replaces the Certain Payments We Receive With Regard to the Funds section of the Prospectus:*

Certain Payments We Receive With Regard to the Funds

We receive payments from the investment adviser (or affiliates thereof) of the Funds. These payments may be used for a variety of purposes, including payment of expenses that we (and our affiliates) incur in promoting, marketing, and administering the Contract and, in our role as an intermediary, the Funds. We (and our affiliates) may profit from these payments. These payments may be derived, in whole or in part, from the investment advisory fee deducted from Fund assets. Contract owners, through their indirect investment in the Funds, bear the costs of these investment advisory fees. The amount of the payments we receive is based on a percentage of the assets of the particular Funds attributable to the Contract and to certain other variable insurance contracts that we and our affiliates issue. These percentages differ, and some advisers (or affiliates) may pay more than others. These percentages currently range from 0% to 0.25%.

The following section is added to the Prospectus:

Financial Condition of the Company

Many financial services companies, including insurance companies, have been facing challenges in this unprecedented economic and market environment, and we are not immune to those challenges. We know it is important for you to understand how these events may impact your account value and our ability to meet the guarantees under the Contract.

Assets in the Separate Account. You assume all of the investment risk for account value allocated to the subaccounts. Your account value in the subaccounts is part of the assets of the Separate Account. These assets are segregated and insulated from our general account, and may not be charged with liabilities arising from any other business that we may conduct. See The Separate Account.

Assets in the General Account. Any guarantees under the Contract that exceed your account value, such as those associated with any death benefit riders or living benefit riders, are paid from our general account (not the Separate Account). Therefore, any amounts that we may be obligated to pay under the Contract in excess of Account Value are subject to our financial strength and claims-paying ability and our long-term ability to make such payments. The assets of the Separate Account, however, are also available to cover the liabilities of our general account, but only to the extent that the Separate Account assets exceed the Separate Account liabilities arising under the Contracts supported by it. We issue other types of insurance policies and financial products as well and we pay our obligations under these products from our assets in the general account.

Our Financial Condition. As an insurance company, we are required by state insurance regulation to hold a specified amount of reserves in order to meet all the contractual obligations of our general account. In order to meet our claims-paying obligations, we monitor our reserves so that we hold sufficient amounts to cover actual or expected contract and claims payments. However, it is important to note that there is no guarantee that we will always be able to meet our claims paying obligations, and that there are risks to purchasing any insurance product.

State insurance regulators also require insurance companies to maintain a minimum amount of capital, which acts as a cushion in the event that the insurer suffers a financial impairment, based on the inherent risks in the insurer's operations. These risks include those associated with losses that we may incur as the result of defaults on the payment of interest or principal on our general account assets, which include bonds, mortgages, general real estate investments, and stocks, as well as the loss in market value of these investments.

How to Obtain More Information. We encourage both existing and prospective contract owners to read and understand our financial statements. We prepare our financial statements on both a statutory basis and according to Generally Accepted Accounting Principles (GAAP). Our audited GAAP financial statements, as well as the financial statements of the Separate Account, are located in the Statement of Additional Information. For a free copy of the

Statement of Additional Information, simply call or write us at the phone number or address of our Service Center referenced earlier in this Prospectus. In addition, the Statement of Additional Information is available on the SEC's website at <http://www.sec.gov>. For additional information about the Company, please see our Annual Report on Form 10-K, which is available on our website at www.aegonins.com.

The following replaces, the Experts section of the Prospectus:

Experts

The financial statements of Merrill Lynch Life Insurance Company as of December 31, 2008 and 2007, and for the years then ended, and the financial statements of the Merrill Lynch Life Variable Annuity Separate Account C as of December 31, 2008, have been audited by Ernst & Young LLP, an independent registered public accounting firm. Both financial statements are incorporated by reference in this Prospectus and included in the Statement of Additional Information and have been so included and incorporated by reference in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing. The principal business address of Ernst & Young LLP, is 801 Grand Avenue, Suite 3000, Des Moines, Iowa 50309.

The financial statements for the period ended December 31, 2006, incorporated by reference in this Prospectus and included in the Statement of Additional Information have been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their report appearing herein and incorporated by reference. Such financial statements have been so included and incorporated by reference in reliance upon the report of such firm given upon their authority as experts in accounting and auditing. The principal business address of Deloitte & Touche LLP is Two World Financial Center, New York, New York 10281-1414

If you have any questions, please contact your Financial Advisor, or call the Service Center at (800) 535-5549 (for Contracts issued by Merrill Lynch Life Insurance Company), or write the Service Center at 4333 Edgewood Road NE, Cedar Rapids, Iowa 52499.

STATEMENT OF ADDITIONAL INFORMATION

August 17, 2009

**Merrill Lynch Life Variable Annuity Separate Account C
FLEXIBLE PREMIUM INDIVIDUAL DEFERRED VARIABLE ANNUITY CONTRACT**

issued by

MERRILL LYNCH LIFE INSURANCE COMPANY

Home Office: Little Rock, Arkansas 72201

Service Center: 4333 Edgewood Road NE

Cedar Rapids, Iowa 52499-0001

Phone: (800) 535-5549

offered through

Transamerica Capital, Inc.

This individual deferred variable annuity contract (the Contract) is designed to provide comprehensive and flexible ways to invest and to create a source of income protection for later in life through the payment of annuity benefits. An annuity is intended to be a long term investment. Contract owners should consider their need for deferred income before purchasing the Contract. The Contract is issued by Merrill Lynch Life Insurance Company (Merrill Lynch Life) both on a nonqualified basis, and as an Individual Retirement Annuity (IRA) that is given qualified tax status. The Contract may also be purchased through an established IRA or Roth IRA custodial account with Merrill Lynch, Pierce, Fenner & Smith Incorporated. The Contract is currently not available to be issued as a 403(b) Contract and we no longer accept any additional contributions from any source to your 403(b) Contract. In addition, we prohibit the issue of a 403(b) Contract in an exchange for the 403(b) contract or custodial account of another provider. This Statement of Additional Information is not a Prospectus and should be read together with the Contract s Prospectus dated May 1, 2008 (as supplemented), which is available on request and without charge by writing to or calling Merrill Lynch Life at the Service Center address or phone number set forth above.

OTHER INFORMATION

Selling the Contract

The Contracts are offered to the public on a continuous basis. We anticipate continuing to offer the Contracts, but reserve the right to discontinue the offering.

Effective May 1, 2008, Transamerica Capital, Inc. (Transamerica or Distributor) serves as principal underwriter for the Contracts. Distributor is a California corporation and its home office is located at 4600 South Syracuse Street, Suite 1100, Denver Colorado, 80287. Distributor is an indirect, wholly owned subsidiary of AEGON USA, Inc. (AEGON USA). Distributor is registered as a broker-dealer with the Securities and Exchange Commission under the Securities Exchange Act of 1934, as well as with the securities commissions in the states in which it operates, and is a member of FINRA (formerly NASD, Inc.). Merrill Lynch, Pierce, Fenner & Smith Incorporated (MLPF&S) formerly served as principal underwriter for the Contracts. MLPF&S is a Delaware corporation and its home office is located at 4 World Financial Center, New York, New York 10080. MLPF&S is an indirect, wholly owned subsidiary of Merrill Lynch & Co., Inc. MLPF&S is registered as a broker-dealer with the Securities and Exchange Commission under the Securities Exchange Act of 1934, as well as with the securities commissions in the states in which it operates, and is a member of FINRA. For the years ended December 31, 2008, 2007, and 2006, MLPF&S received \$321,909 , \$2,403, and \$12,759, respectively, in commissions. For the year ended December 31, 2008, Transamerica Capital, Inc. received \$336,636 in commissions.

Financial Statements

The financial statements of Merrill Lynch Life included in this Statement of Additional Information should be distinguished from the financial statements of the Account and should be considered only as bearing upon the ability of Merrill Lynch Life to meet any obligations it may have under the Contract.

Administrative Services Arrangements

Merrill Lynch Life has entered into a Service Agreement with its former parent, Merrill Lynch Insurance Group, Inc. (MLIG) pursuant to which Merrill Lynch Life can arrange for MLIG to provide directly or through affiliates certain services. Pursuant to this agreement, Merrill Lynch Life has arranged for MLIG to provide administrative services for the Account and the Contracts, and MLIG, in turn, has arranged for a subsidiary, Merrill Lynch Insurance Group Services, Inc. (MLIG Services), to provide these services. Compensation for these services, which will be paid by Merrill Lynch Life, will be based on the charges and expenses incurred by MLIG Services, and will reflect MLIG Services actual costs. For the years ended December 31, 2008, 2007, and 2006, \$5,221.00, \$27.0 million, and \$29.7 million, respectively, in administrative services fees were paid.

Keep Well Agreement

On December 28, 2007, AEGON USA entered into a keep well agreement with Merrill Lynch Life. Under the agreement, so long as Merrill Lynch Life is a wholly owned subsidiary of AEGON USA, AEGON USA will ensure that Merrill Lynch Life maintains tangible net worth equal to at least \$5 million. At December 31, 2008, the tangible net worth of Merrill Lynch Life was in excess \$5 million. The agreement has a duration of three years so long as Merrill Lynch Life is a wholly owned affiliate of AEGON USA and it may be terminated by either party upon one year's written notice. The agreement does not guarantee, directly or indirectly, any indebtedness, liability, or obligation of Merrill Lynch Life. Upon mutual consent of AEGON USA and Merrill Lynch Life, the agreement may be modified or amended in ways not less favorable to Merrill Lynch Life or its contract owners.

CALCULATION OF YIELDS AND TOTAL RETURNS

Money Market Yield

From time to time, Merrill Lynch Life may quote in advertisements and sales literature the current annualized yield for the BlackRock Money Market V.I. Subaccount for a 7-day period in a manner that does not take into consideration any realized or unrealized gains or losses on shares of the underlying Funds or on their respective portfolio securities. The current annualized yield is computed by: (a) determining the net change (exclusive of realized gains and losses on the sales of securities and unrealized appreciation and depreciation) at the end of the 7-day period in the value of a hypothetical account under a Contract having a balance of 1 unit at the beginning of the period, (b) dividing such net change in account value by the value of the account at the beginning of the period to determine the base period return; and (c) annualizing this quotient on a 365-day basis.

The net change in account value reflects: (1) net income from the Fund attributable to the hypothetical account; and (2) charges and deductions imposed under the Contract which are attributable to the hypothetical account. The charges and deductions include the per unit charges for the hypothetical account for: (1) the asset-based insurance charge; and (2) the annual contract fee, but not the Additional Death Benefit Charge. For purposes of calculating current yield for a Contract, an average per unit contract fee is used. Based on our current estimates of average contract size and withdrawals, we have assumed the average per unit contract fee to be 0.00%. Current yield will be calculated according to the following formula:

$$\text{Current Yield} = ((\text{NCF} - \text{ES})/\text{UV}) \times (365/7)$$

Where:

NCF = the net change in the value of the Fund (exclusive of realized gains and losses on the sale of securities and unrealized appreciation and depreciation) for the 7-day period attributable to a hypothetical account having a balance of 1 unit.

ES = per unit expenses for the hypothetical account for the 7-day period.

UV = the unit value on the first day of the 7-day period.

Merrill Lynch Life also may quote the effective yield of the BlackRock Money Market V.I. Subaccount for the same 7-day period, determined on a compounded basis. The effective yield is calculated by compounding the unannualized base period return according to the following formula:

$$\text{Effective Yield} = (1 + ((\text{NCF} - \text{ES})/\text{UV}))^{5/7} - 1$$

Where:

NCF = the net change in the value of the Fund (exclusive of realized gains and losses on the sale of securities and unrealized appreciation and depreciation) for the 7-day period attributable to a hypothetical account having a balance of 1 unit.

ES = per unit expenses of the hypothetical account for the 7-day period.

UV = the unit value for the first day of the 7-day period.

Because of the charges and deductions imposed under the Contract, the yield for the BlackRock Money Market V.I. Subaccount will be lower than the yield for the corresponding underlying Fund.

The yields on amounts held in the BlackRock Money Market V.I. Subaccount normally will fluctuate on a daily basis. Therefore, the disclosed yield for any given past period is not an indication or representation of future yields or rates of return. The actual yield for the subaccount is affected by changes in interest rates on money market securities, average portfolio maturity of the underlying Fund, the types and qualities of portfolio securities held by the Fund and the Fund's operating expenses. Yields on amounts held in the BlackRock Money Market V.I. Subaccount may also be presented for periods other than a 7-day period.

Other Subaccount Yields

From time to time, Merrill Lynch Life may quote in sales literature or advertisements the current annualized yield of one or more of the subaccounts (other than the BlackRock Money Market V.I. Subaccount) for a Contract for a 30-day or one-month period. The annualized yield of a subaccount refers to income generated by the subaccount over a specified 30-day or one-month period. Because the yield is annualized, the yield generated by the subaccount during the 30-day or one-month period is assumed to be generated each period over a 12-month period. The yield is computed by: (1) dividing the net investment income of the Fund attributable to the subaccount units less subaccount expenses for the period; by (2) the maximum offering price per unit on the last day of the period times the daily average number of units outstanding for the period; then (3) compounding that yield for a 6-month period; and then (4) multiplying that result by 2. Expenses attributable to the subaccount include the asset-based insurance charge and the annual contract fee. For purposes of calculating the 30-day or one-month yield, an average contract fee per dollar

of contract value in the subaccount is used to determine the amount of the charge attributable to the subaccount for the 30-day or one-month period.

Based on our current estimates of average contract size and withdrawals, we have assumed the average contract fee to be 0.00%. The 30-day or one-month yield is calculated according to the following formula:

$$\text{Yield} = 2 \times \left(\frac{((NI - ES)/(U \times UV)) + 1}{1} \right)^{1/2} - 1$$

Where:

NI = net investment income of the Fund for the 30-day or one-month period attributable to the subaccount's units.

ES = expenses of the subaccount for the 30-day or one-month period.

U = the average number of units outstanding.

UV = the unit value at the close of the last day in the 30-day or one-month

Currently, Merrill Lynch Life may quote yields on bond subaccounts. Because of the charges and deductions imposed under the Contracts, the yield for a subaccount will be lower than the yield for the corresponding Fund.

The yield on the amounts held in the subaccounts normally will fluctuate over time. Therefore, the disclosed yield for any given past period is not an indication or representation of future yields or rates of return. A subaccount's actual yield is affected by the types and quality of portfolio securities held by the corresponding Fund, and its operating expenses.

Total Returns

From time to time, Merrill Lynch Life also may quote in sales literature or advertisements, total returns, including average annual total returns for one or more of the subaccounts for various periods of time. Average annual total returns will be provided for a subaccount for 1, 5 and 10 years, or for a shorter period, if applicable.

Total returns assume the Contract was surrendered at the end of the period shown, and are not indicative of performance if the Contract was continued for a longer period. The Contract does not impose any surrender charge.

Average annual total returns for other periods of time may also be disclosed from time to time. For example, average annual total returns may be provided based on the assumption that a subaccount had been in existence and had invested in the corresponding underlying Fund for the same period as the corresponding Fund had been in operation.

The Funds and the subaccounts corresponding to the Funds commenced operations as indicated below:

Average annual total returns represent the average annual compounded rates of return that would equate an initial investment of \$1,000 under a Contract to the redemption value or that investment as of the last day of each of the periods. The ending date for each period for which total return quotations are provided will generally be as of the most recent calendar quarter-end.

Average annual total returns are calculated using subaccount unit values calculated on each valuation day based on the performance of the corresponding underlying Fund, the deductions for the asset-based insurance charge and the contract fee, and assume a surrender of the Contract at the end of the period for the return quotation (although the Contract does not impose a surrender charge). For purposes of calculating total return, an average per dollar contract fee attributable to the hypothetical account for the period is used. Based on our current estimates of average contract size and withdrawals, we have assumed the average contract fee to be 0.00%. The average annual total return is then calculated according to the following formula:

$$TR = ((ERV/P)^{1/N}) - 1$$

6

Where:

TR = the average annual total return net of subaccount recurring charges (such as the asset-based insurance charge and contract fee).

ERV = the ending redeemable value at the end of the period of the hypothetical account with an initial payment of \$1,000.

P = a hypothetical initial payment of \$1,000.

N = the number of years in the period.

From time to time, Merrill Lynch Life also may quote in sales literature or advertisements total returns for other periods.

From time to time, Merrill Lynch Life also may quote in sales literature or advertisements total returns or other performance information for a hypothetical Contract assuming the initial premium is allocated to more than one subaccount or assuming monthly transfers from a specified subaccount to one or more designated subaccounts under a dollar cost averaging program. Merrill Lynch Life also may quote in sales literature or advertisements total returns or other performance information for a hypothetical Contract assuming participation in an asset allocation or rebalancing program. These returns will reflect the performance of the affected subaccount(s) for the amount and duration of the allocation to each subaccount for the hypothetical Contract. They also will reflect the deduction of the charges described above. For example, total return information for a Contract with a dollar cost averaging program for a 12-month period will assume commencement of the program at the beginning of the most recent 12-month period for which average annual total return information is available. This information will assume an initial lump-sum investment in a specified subaccount (the DCA subaccount) at the beginning of that period and monthly transfers of a portion of the contract value from the DCA subaccount to designated other subaccount(s) during the 12-month period. The total return for the Contract for this 12-month period therefore will reflect the return on the portion of the contract value that remains invested in the DCA subaccount for the period it is assumed to be so invested, as affected by monthly transfers, and the return on amounts transferred to the designated other subaccounts for the period during which those amounts are assumed to be invested in those subaccounts. The return for an amount invested in a subaccount will be based on the performance of that subaccount for the duration of the investment, and will reflect the charges described above. Performance information for a dollar cost-averaging program also may show the returns for various periods for a designated subaccount assuming monthly transfers to the subaccount, and may compare those returns to returns assuming an initial lump-sum investment in that subaccount. This information also may be compared to various indices, such as the Merrill Lynch 91-day Treasury Bills index or the U.S. Treasury Bills index and may be illustrated by graphs, charts, or otherwise.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors of
Merrill Lynch Life Insurance Company

We have audited the accompanying statements of assets and liabilities of each of the investment divisions of Merrill Lynch Life Variable Annuity Separate Account C (the Separate Account), comprised of BlackRock Money Market V.I. Fund, Roszel/JPMorgan International Equity Portfolio, Roszel/Lazard International Portfolio, Roszel/Davis Large Cap Value Portfolio, Roszel/Lord Abbett Government Securities Portfolio, Roszel/Lord Abbett Large Cap Value Portfolio, Roszel/BlackRock Fixed-Income Portfolio, Roszel/BlackRock Equity Dividend Portfolio, Roszel/AllianceBernstein Large Cap Core Portfolio, Roszel/Delaware Small-Mid Cap Growth Portfolio, Roszel/Loomis Sayles Large Cap Growth Portfolio, Roszel/NWQ Small Cap Value Portfolio, Roszel/Rittenhouse Large Cap Growth Portfolio, Roszel/Marsico Large Cap Growth Portfolio, Roszel/Cadence Mid Cap Growth Portfolio, Roszel/Fayez Sarofim Large Cap Core Portfolio, and Roszel/Allianz NFJ Mid Cap Value Portfolio, as of December 31, 2008, and the related statements of operations and changes in net assets for the periods indicated thereon. These financial statements are the responsibility of the Separate Account s management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the unit values footnote of Merrill Lynch Life Variable Annuity Separate Account C for each of the years ended December 31, 2006, 2005, and 2004. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Separate Account, is based solely on the report of the other auditors. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Separate Account s internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Separate Account s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of investment divisions owned as of December 31, 2008 by correspondence with the custodian. We believe that our audits and the report of other auditors provide a reasonable basis for our opinion. In our opinion, based on our audits and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of the investment divisions comprising the Merrill Lynch Life Variable Annuity Separate Account C at December 31, 2008, and the results of each of their operations and their changes in net assets for the periods indicated thereon, in conformity with U.S. generally accepted accounting principles.

Des Moines, Iowa

6. UNIT VALUES

The following is a summary of units outstanding, unit values and net assets for variable annuity contracts. In addition, the following ratios and returns are provided:

Investment income ratio:

The investment income ratio represents the dividends, excluding distributions of capital gains, received by the investment division from the underlying mutual fund, net of management fees assessed by the fund manager, divided by the average net assets. These ratios exclude those expenses, such as mortality and expense charges, that result in direct reduction in the unit values. The recognition of investment income by the investment division is affected by the timing of the declaration of the dividends by the underlying fund in which the investment divisions invest.

Expense ratio:

The expense ratio represents the annualized contract expenses of the separate accounts, consisting primarily of mortality and expense charges, for each period indicated. These ratios include only those expenses that result in a direct reduction to unit values. Charges made directly to contract owner accounts through the redemption of units and expenses of the underlying fund are excluded.

Total return:

The total return include changes in the value of the underlying mutual fund, which includes expenses assessed through the reduction of unit values. These returns do not include any expenses assessed through the redemption of units. Investment divisions with a date notation indicated the effective date of that investment division in the separate account. The total return is calculated for the period indicated or from the effective date through the end of the reporting period.

7. CHARGES AND FEES

The following table is a listing of all expenses charged to the separate account. Mortality and expense, rider and administrative charges may be assessed through a reduction in unit value or redemption of units or as fixed charges.

| Charge | When Charge Is Deducted | Amount Deducted |
|---|----------------------------------|--|
| Asset-Based Insurance Charges: | | |
| Mortality and expense charge | Daily reduction of unit values | 1.85% annually |
| Contract Charges: | | |
| Contract maintenance charge | Annually redemption of units | \$50 at the end of each contract year and upon a full withdrawal only if the greater of contract value, or premiums less withdrawals, is less than \$75,000. |
| Additional death benefit charge provides coverage in addition to that provided by the death benefit | Quarterly redemption of units | 0.25% of the contract value at the end of each contract year based on the average contract values as of the end of each of the prior four quarters and a pro rata amount of this charge upon surrender, annuitization, death, or termination of the rider if the Estate Enhancer benefit was combined with either the Maximum Anniversary Value Guaranteed Minimum Death Benefit (GMDB) or premiums compounded at 5% GMDB. |
| Transfer fee | Per incident redemption of units | \$25 for each transfer after the twelfth transfer in a contract year. |

[Ernst & Young LLP]

Report of Independent Registered Public Accounting Firm

The Board of Directors

Merrill Lynch Life Insurance Company

We have audited the accompanying balance sheets of Merrill Lynch Life Insurance Company as of December 31, 2008 and 2007, and the related statements of income, comprehensive income, stockholder's equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Merrill Lynch Life Insurance Company at December 31, 2008 and 2007, and the results of its operations and its cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors

Merrill Lynch Life Insurance Company

We have audited the accompanying statements of income, comprehensive income, stockholder's equity, and cash flows of Merrill Lynch Life Insurance Company (the Company) for the year ended December 31, 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the results of operations and cash flows of Merrill Lynch Life Insurance Company for the year ended December 31, 2006, in conformity with accounting principles generally accepted in the United States of America.

MERRILL LYNCH LIFE INSURANCE COMPANY
(A WHOLLY OWNED SUBSIDIARY OF AEGON USA, LLC.)
NOTES TO FINANCIAL STATEMENTS

(Dollars in Thousands)

Note 1. Summary of Significant Accounting Policies

Description of Business

Merrill Lynch Life Insurance Company (MLLIC or the Company) is a wholly owned subsidiary of AEGON USA, LLC. (AUSA). AUSA is an indirect wholly owned subsidiary of AEGON N.V., a limited liability share company organized under Dutch law. AEGON N.V. and its subsidiaries and joint ventures have life insurance and pension operations in over 20 countries in Europe, the Americas, and Asia and are also active in savings and investment operations, accident and health insurance, general insurance and limited banking operations in a number of these countries.

On December 28, 2007 (the acquisition date), MLLIC and its affiliate, ML Life Insurance Company of New York (MLLICNY) were acquired by AUSA for \$1.12 billion and \$0.13 billion, respectively, for a total price for both entities of \$1.25 billion. Prior to the acquisition date, MLLIC was a wholly owned subsidiary of Merrill Lynch Insurance Group, Inc. (MLIG), which is an indirect wholly owned subsidiary of Merrill Lynch & Co., Inc. (ML&Co.). See Note 2 for additional information on the adjustments to the initial purchase price allocation related to this transaction.

The Company sells non-participating annuity products, including variable annuities, modified guaranteed annuities and immediate annuities. The Company is domiciled in the State of Arkansas and is currently licensed to sell insurance and annuities in forty-nine states, the District of Columbia, the U.S. Virgin Islands and Guam. The Company markets its products solely through the retail network of Merrill Lynch, Pierce, Fenner & Smith, Incorporated (MLPF&S).

Basis of Reporting

The accompanying financial statements have been prepared in conformity with U.S. generally accepted accounting principles (GAAP). The Company also submits financial statements to insurance industry regulatory authorities, which are prepared on the basis of statutory accounting practices (SAP). The significant accounting policies and related judgments underlying the Company's financial statements are summarized below.

On December 28, 2007, AUSA completed the acquisition of MLLIC and its affiliate MLLICNY. In accordance with Statement of Financial Accounting Standard (SFAS) No. 141, *Business Combinations*, and SFAS No. 142, *Goodwill and Other Intangibles*, the acquisition was accounted for by AUSA using the purchase method of accounting, which requires the assets and liabilities of the Company to be identified and measured at their estimated fair values as of the Acquisition date. The estimated fair values are subject to adjustment of the initial allocation for a one-year period as more information relative to the fair values as of the acquisition date becomes available. See Note 2 for additional information on the adjustments to the initial purchase price allocation.

In addition, as required by the U.S. Securities and Exchange Commission (SEC) Staff Accounting Bulletin No. 54, *Push Down Basis of Accounting in Financial Statements of a Subsidiary*, the purchase method of accounting applied by AUSA to the acquired assets and liabilities associated with the Company has been pushed down to the financial statements of the Company, thereby establishing a new basis of accounting. As a result, the Company follows AUSA's accounting policies subsequent to the acquisition date. This new basis of accounting is referred to as the successor basis, while the historical basis of accounting is referred to as the predecessor basis. In general, all 2008 amounts as well as Balance Sheet amounts for 2007 are representative of the successor basis of accounting while the Statements of Income, Stockholder's Equity, Comprehensive Income, and Cash Flows amounts for 2007 and 2006 are representative of the predecessor basis of accounting. Financial statements included herein for periods prior and subsequent to the acquisition date are labeled Predecessor and Successor, respectively.

Certain reclassifications and format changes have been made to prior period financial statements, where appropriate, to conform to the current period presentation. These reclassifications have no effect on net income or stockholder's equity of the prior years.

Accounting Estimates and Assumptions

The preparation of financial statements requires management to make estimates and assumptions affecting the reported amounts of assets, liabilities, revenues and expenses and the disclosures of contingent assets and liabilities. Those estimates are inherently subject to change and actual results could differ from those estimates. Included among the material (or potentially material) reported amounts and disclosures that require extensive use of estimates are: fair value of certain invested assets, asset valuation allowances, deferred policy acquisition costs, deferred sales inducements, goodwill, value of business acquired, other intangibles, policyholder liabilities, income taxes, and potential effects of unresolved litigated matters.

Investments

Fixed maturity and equity securities

G-10

The Company's investments in fixed maturity and equity securities are classified as either available-for-sale or trading and are reported at estimated fair value. Unrealized gains and losses on available-for-sale securities are included in stockholder's equity as a component of accumulated other comprehensive income (loss), net of taxes. These changes in estimated fair value are not reflected in the Statements of Income until a sale transaction occurs or when declines in fair value are deemed other-than-temporary. Unrealized gains and losses on trading account securities are included in net realized investment gains. During the first quarter 2006, the Company liquidated its trading portfolio.

If management determines that a decline in the value of an available-for-sale security is other-than-temporary, the amortized cost is adjusted to estimated fair value and the decline in value is recorded as a net realized investment loss. Management makes this determination through a series of discussions with the Company's portfolio managers and credit analysts, information obtained from external sources (i.e. company announcements, rating agency announcements, or news wire services) and the Company's ability and intent to hold the investments for a period of time sufficient for a forecasted market price recovery up to or beyond the amortized cost of the investment. The factors that may give rise to a potential other-than-temporary impairment include, but are not limited to, i) certain credit-related events such as default of principal or interest payments by the issuer, ii) bankruptcy of issuer, iii) certain security restructurings, and iv) fair market value less than cost or amortized cost for an extended period of time. In the absence of a readily ascertainable market value, the estimated fair value on these securities represents management's best estimate and is based on comparable securities and other assumptions as appropriate. Management bases this determination on the most recent information available.

For fixed maturity securities, premiums are amortized to the earlier of the call or maturity date, discounts are accreted to the maturity date, and interest income is accrued daily. For equity securities, dividends are recognized on the ex-dividend date. Investment transactions are recorded on the trade date. Subsequent to December 28, 2007, realized gains and losses on the sale or maturity of investments are determined on the first-in, first-out (FIFO) basis. Prior to December 28, 2007, realized gains and losses on the sale or maturity of investments were determined on the basis of specific identification.

Certain fixed maturity and equity securities are considered below investment grade. The Company defines below investment grade securities as unsecured debt obligations that have a Standard and Poor's (S&P) or similar rating agency rating lower than BBB-.

For publicly traded securities, the estimated fair value is determined using quoted market prices. For securities without a readily ascertainable market value, the Company utilizes pricing services and broker quotes. Such estimated fair values do not necessarily represent the values for which these securities could have been sold at the dates of the Balance Sheets.

Each month, the Company performs an analysis of the information obtained from third party services and brokers to ensure that the information is reasonable and produces a reasonable estimate of fair value. The Company considers both qualitative and quantitative factors as part of this analysis, including but not limited to, recent transactional activity for similar fixed maturities, review of pricing statistics and trends, and consideration of recent relevant market events.

The Company's portfolio of private placement securities is valued using a matrix pricing methodology. The pricing methodology is obtained from a third party service and indicates current spreads for securities based on weighted average life, credit rating and industry sector. Monthly the Company reviews the matrix to ensure the spreads are reasonable by comparing them to observed spreads for similar securities traded in the market. In order to account for the illiquid nature of these securities, illiquidity premiums are included in the valuation and are determined based upon the pricing of recent transactions in the private placement market as well as comparing the value of the privately offered security to a similar public security. The impact of the illiquidity premium to the overall valuation is immaterial (less than 1% of the value).

Limited partnerships

The Company has investments in three limited partnerships that are not publicly traded. One of the partnerships is carried at fair market value which is derived from management's review of the underlying financial statements that were prepared on a GAAP basis. The remaining two partnerships are carried at cost.

Mortgage Loans on Real Estate

Mortgage loans on real estate are carried at unpaid principal balances adjusted for amortization of premiums and accretion of discounts and are net of valuation allowances. The fair value for mortgage loans on real estate is estimated by discounting the future cash flows using the current rates at which similar loans would be made to borrowers with similar credit ratings and/or similar remaining maturities. Interest income is accrued on the principal balance of the loan based on the loan's contractual interest rate. Premiums and discounts are amortized using the effective yield method over the life of the loan. Interest income and amortization of premiums and discounts are reported in net investment income along with mortgage loan fees, which are recorded as they are incurred. Loans are considered impaired when it is probable that based upon current information and events, the Company will be unable to collect all amounts due under the contractual terms of the loan agreement. When the Company determines that a loan is impaired, a valuation allowance is established for the excess carrying value of the loan over its estimated value. The Company does not accrue interest on impaired loans and loans ninety days past due.

Policy loans

Policy loans on insurance contracts are stated at unpaid principal balances. The Company estimates the fair value of policy loans as equal to the book value of the loans. Policy loans are fully collateralized by the account value of the associated insurance contracts, and the spread between the policy loan interest rate and the interest rate credited to the account value held as collateral is fixed.

Derivative Instruments

Derivatives are financial instruments in which the value changes in response to an underlying variable, that require little or no net initial investment and are settled at a future date. All derivatives recognized on the Balance Sheets are carried at fair value. All changes in fair value are recognized in the Statements of Income. The fair value for exchange traded derivatives, such as futures, is calculated net of the interest accrued to date and is based on quoted market prices. Net settlements on the futures contracts occur daily.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and on deposit and short-term investments with original maturities of three months or less. Cash and cash equivalents are primarily valued at amortized cost, which approximates fair value.

Securities Lending

Financial assets that are lent to a third party or that are transferred subject to a repurchase agreement at a fixed price are not derecognized as the Company retains substantially all the risks and rewards of asset ownership. The lent securities are included in fixed maturity available-for-sales securities in the Balance Sheets. A liability is recognized for cash collateral received, required initially at 102%, on which interest is accrued.

Deferred Policy Acquisition Costs (DAC)

Policy acquisition costs for variable annuities and variable life insurance contracts are deferred and amortized based on the estimated future gross profits for each group of contracts. These future gross profit estimates are subject to periodic evaluation by the Company, with necessary revisions applied against amortization to date. The impact of these revisions on cumulative amortization is recorded as a charge or credit to current operations, commonly referred to as "unlocking". It is reasonably possible that estimates of future gross profits could be reduced in the future, resulting in a material reduction in the carrying amount of DAC.

Policy acquisition costs are principally commissions and a portion of certain other expenses relating to policy acquisition, underwriting and issuance that are primarily related to and vary with the production of new business. Insurance expenses and taxes reported in the Statements of Income are net of amounts deferred. Policy acquisition costs can also arise from the acquisition or reinsurance of existing inforce policies from other insurers. These costs include ceding commissions and professional fees related to the reinsurance assumed. The deferred costs are amortized in proportion to the estimated future gross profits over the anticipated life of the acquired insurance contracts utilizing an interest methodology.

The most significant assumptions involved in the estimation of future gross profits are future net Separate Accounts performance, surrender rates, mortality rates and reinsurance costs. For variable annuities, the Company generally establishes a long-term rate of net Separate Accounts growth. If returns over a determined historical period differ from the long-term assumption, returns for future determined periods are calculated so that the long-term assumption is

achieved. The result is that the long-term rate is assumed to be realized over a specified period. However, the long-term rate may be adjusted if expectations change. This method for projecting market returns is known as reversion to the mean, a standard industry practice. At December 31, 2008, the reversion to the mean assumption was 15% gross short-term equity growth rate for five years and thereafter a 9% gross long-term growth rate. Additionally, the Company may modify the rate of net Separate Accounts growth over the short term to reflect near-term

G-12

expectations of the economy and financial market performance in which Separate Accounts assets are invested. Surrender and mortality rates for all variable contracts are based on historical experience and a projection of future experience.

Future gross profit estimates are subject to periodic evaluation with necessary revisions applied against amortization to date. The impact of revisions and assumptions to estimates on cumulative amortization is recorded as a charge or benefit to current operations, commonly referred to as "unlocking". Changes in assumptions can have a significant impact on the amount of DAC reported and the related amortization patterns. In general, increases in the estimated Separate Accounts return and decreases in surrender or mortality assumptions increase the expected future profitability of the underlying business and may lower the rate of DAC amortization. Conversely, decreases in the estimated Separate Accounts returns and increases in surrender or mortality assumptions reduce the expected future profitability of the underlying business and may increase the rate of DAC amortization.

During 1990, the Company entered into an assumption reinsurance agreement with an unaffiliated insurer. The acquisition costs relating to this agreement are being amortized over a twenty-five year period using an effective interest rate of 7.5%. This reinsurance agreement provided for payment of contingent ceding commissions, for a ten year period, based upon the persistency and mortality experience of the insurance contracts assumed. Payments made for contingent ceding commissions were capitalized and amortized using an identical methodology as that used for the initial acquisition costs.

At December 31, 2008, variable annuities accounted for the Company's entire DAC asset. At December 31, 2007, the DAC balance was zero as a result of push down accounting at the acquisition date. See Note 6 to the Financial Statements for further discussion.

Deferred Sales Inducements (DSI)

The Company offers a sales inducement whereby the contract owner receives a bonus which increases the initial account balance by an amount equal to a specified percentage of the contract owner's deposit. This amount may be subject to recapture under certain circumstances. Consistent with DAC, sales inducements for variable annuity contracts are deferred and amortized based on the estimated future gross profits for each group of contracts. These future gross profit estimates are subject to periodic evaluation by the Company, with necessary revisions applied against amortization to date. The impact of these revisions on cumulative amortization is recorded as a charge or credit to current operations, commonly referred to as "unlocking". It is reasonably possible that estimates of future gross profits could be reduced in the future, resulting in a material reduction in the carrying amount of the deferred sales inducement asset.

The expense and the subsequent capitalization and amortization are recorded as a component of policy benefits in the Statements of Income. At December 31, 2008, variable annuities accounted for the Company's entire DSI asset. At December 31, 2007, the DSI balance was zero as a result of push down accounting at the acquisition date. See Note 6 to the Financial Statements for further discussion.

Value of Business Acquired (VOBA)

VOBA represents the portion of the purchase price that is allocated to the value of the right to receive future cash flows from the insurance and annuity contracts in force at the acquisition date. VOBA is based on actuarially determined projections, by each block of business, of future policy and contract charges, premiums, mortality, policyholder behavior, separate account performance, operating expenses, investment returns and other factors. Actual experience on the purchased business may vary from these projections. Revisions in estimates result in changes to the amounts expensed in the reporting period in which the revisions are made and could result in the impairment of the asset and a charge to income if estimated future gross profits are less than the unamortized balance. In addition, the Company utilizes the reversion to the mean assumption, a common industry practice, in its determination of the amortization of VOBA. This practice assumes that the expectations for long-term appreciation in equity markets is not changed by minor short-term market fluctuations, but that it does change when large interim deviations have occurred. At December 31, 2008, the reversion to the mean assumption was 15% gross short-term equity growth rate for five years and thereafter a 9% gross long-term growth rate. See Note 5 to the Financial Statements for further discussion.

Other Intangibles

Other intangible assets acquired at the acquisition date are a distribution agreement, a tradename and a non-compete agreement. The tradename and the non-compete are required to be amortized on a straight-line basis over their useful life of five years. The distribution intangible is amortized over the expected economic benefit period and at a pace consistent with the expected future gross profit streams generated from the distribution agreement, which is 30 years. The entire asset amount has been allocated to annuities. The carrying values of the intangibles is reviewed periodically for indicators of impairment in value including unexpected or adverse changes in the following: (1) the economic or competitive environments in which the Company operates, (2) the profitability analyses, (3) cash flow analyses, and (4) the fair value of the relevant business operation. See Note 5 to the Financial Statements for further discussion.

G-13

Goodwill

Goodwill is the excess of the purchase price over the estimated fair value of net assets acquired. Under SFAS No. 142, goodwill and intangible assets with indefinite lives are not amortized, but are subject to impairment tests conducted at least annually. Impairment testing is to be performed using the fair value approach, which requires the use of estimates and judgment, at the reporting unit level. A reporting unit represents the operating segment which is the level at which the financial information is prepared and regularly reviewed by management. The entire asset amount has been allocated to annuities. Goodwill is reviewed for indications of value impairment, with consideration given to financial performance and other relevant factors. In addition, certain events including a significant adverse change in legal factors or the business climate, an adverse action or assessment by a regulator, or unanticipated competition would cause the Company to review the carrying amounts of goodwill for impairment. See Note 5 to the Financial Statements for further discussion.

Separate Accounts

The Company's Separate Accounts consist of variable annuities and variable life insurance contracts, of which the assets and liabilities are legally segregated and reported as separate captions in the Balance Sheets. Separate Accounts are established in conformity with Arkansas State Insurance Law and are generally not chargeable with liabilities that arise from any other business of the Company. Separate Accounts assets may be subject to claims of the Company only to the extent the value of such assets exceeds Separate Accounts liabilities. The assets of the Separate Accounts are carried at the daily net asset value of the mutual funds in which they invest.

Absent any contract provision wherein the Company guarantees either a minimum return or account value upon death or annuitization, the net investment income and net realized and unrealized gains and losses attributable to Separate Accounts assets supporting variable annuities and variable life contracts accrue directly to the contract owner and are not reported as revenue in the Statements of Income. Mortality, guaranteed benefit fees, policy administration, maintenance, and withdrawal charges associated with Separate Accounts products are included in policy charge revenue in the Statements of Income.

Policyholder Account Balances

The Company's liability for policyholder account balances represents the contract value that has accrued to the benefit of the policyholder as of the Balance Sheet dates. The liability is generally equal to the accumulated account deposits plus interest credited less policyholders' withdrawals and other charges assessed against the account balance.

Interest-crediting rates for the Company's fixed rate products are as follows:

| | |
|---------------------------------------|-------------|
| | 2008 |
| Interest-sensitive life products | 4.00% 4.85% |
| Interest-sensitive deferred annuities | 0.05% 6.80% |

These rates may be changed at the option of the Company after initial guaranteed rates expire, unless contracts are subject to minimum interest rate guarantees.

Future Policy Benefits

The Company's liability for future policy benefits consists of liabilities for immediate annuities and liabilities for certain guaranteed benefits contained in the variable insurance products the Company manufactures. Liabilities for immediate annuities are equal to the present value of estimated future payments to or on behalf of policyholders, where the timing and amount of payment generally depends on policyholder mortality. Liabilities for guaranteed benefits for variable annuity and life insurance contracts are discussed in more detail in Note 7 of the Financial Statements. Interest rates used in establishing such liabilities are as follows:

| | |
|-------------------------------------|-------------|
| | 2008 |
| Interest rates used for liabilities | 2.55% 5.75% |

Revenue Recognition

Revenues for variable annuity contracts consist of policy charges for i) mortality and expense risks, ii) certain guaranteed benefits selected by the contract owner, iii) administration fees, iv) annual contract maintenance charges, and v) withdrawal charges assessed on contracts surrendered during the withdrawal charge period. Revenues for

variable annuity contracts are recognized when policy charges are assessed or earned.

Revenues for variable life insurance contracts consist of policy charges for i) mortality and expense risks, ii) cost of insurance fees, iii) amortization of front-end and deferred sales charges, and iv) withdrawal charges assessed on contracts surrendered during the

G-14

withdrawal charge period. Revenues for variable life insurance contracts are recognized when policy charges are assessed or earned. The Company does not currently manufacture variable life insurance contracts.

Revenues for interest-sensitive annuity contracts (market value adjusted annuities, immediate annuities, and single premium deferred annuities) and interest-sensitive life insurance contracts (single premium whole life insurance) consist of i) investment income, ii) gains (losses) on the sale of invested assets, and iii) withdrawal charges assessed on contracts surrendered during the withdrawal charge period. Revenues for interest-sensitive annuity and life insurance contracts are recognized when investment income and investment sales are earned while revenues for contract charges are recognized when assessed or earned. The Company does not currently manufacture single premium deferred annuities or single premium whole life contracts.

Claims and Claims Settlement Expenses

Liabilities for claims and claims settlement expenses equal the death benefit (plus accrued interest) for claims that have been reported to the Company but have not settled and an estimate, based upon prior experience, for unreported claims.

Unearned Policy Charge Revenue (UPCR)

Certain variable life insurance products contain policy charges that are assessed at policy issuance. These policy charges are deferred and accreted into policy charge revenue based on the estimated future gross profits for each group of contracts, consistent with the amortization of DAC. The impact of any revisions on cumulative accretion is recorded as a charge or credit to current operations, commonly referred to as "unlocking". The Company records a liability equal to the unaccreted balance of these policy charges on the Balance Sheets. The accretion of the UPCR is recorded as a component of policy charge revenue in the Statements of Income. As of December 31, 2007, the UPCR balance was zero as a result of push down accounting at the acquisition date.

Federal Income Taxes

The Company provides for income taxes on all transactions that have been recognized in the financial statements in accordance with SFAS No. 109, *Accounting for Income Taxes*. Accordingly, deferred taxes are adjusted to reflect the tax rates at which future taxable amounts will likely be settled or realized. The effects of tax rate changes on future deferred tax liabilities and deferred tax assets, as well as other changes in income tax laws, are recognized in net income (loss) in the year during which such changes are enacted.

For federal income tax purposes, an election under Internal Revenue Code Section 338 was made by AUSA in connection with the purchase of the Company. As a result of this election, the income tax bases in the acquired assets and liabilities were adjusted as of the acquisition date resulting in a change to the related deferred income taxes. Subsequent to acquisition, the Company will file a separate federal income tax return for the years 2008 through 2012. Beginning in 2013 and assuming no changes in ownership, the Company will join the affiliated consolidated tax group. The results of operations of the Company through December 28, 2007 were included in the consolidated federal income tax return of ML&Co. The Company had entered into a tax-sharing agreement with ML&Co. whereby the Company calculated its current tax provision based on its operations and periodically remitted its current federal income tax liability to ML&Co. The tax-sharing agreement with ML&Co. was terminated on December 28, 2007. The Company has not entered into a new tax sharing agreement.

The Company is subject to taxes on premiums and is exempt from state income taxes in most states.

Recent Accounting Pronouncements

Current Adoption of Recent Accounting Pronouncements

In January 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) No. EITF 99-20-1, *Amendments to the Impairment and Interest Income Measurement Guidance of EITF Issue No. 99-20* (FSP EITF 99-20-1). The FSP amends the impairment and related interest income measurement guidance in EITF 99-20, *Recognition of Interest Income and Impairment on Purchased Beneficial Interests and Beneficial Interests That Continue to Be Held by a Transferor in Securitized Financial Assets*, to achieve more consistent determination of whether an other-than-temporary impairment has occurred for debt securities classified as available-for-sale or held-to-maturity. The FSP permits the use of reasonable management judgment about the probability that the company will be able to collect all amounts due while previously EITF 99-20 required the use of market participant assumptions which could not be overcome by management judgment. The FSP also retains and emphasizes the

objective of an other-than-temporary impairment assessment and the related disclosure requirements in FASB Statement No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, and other related guidance. The FSP became effective for interim and annual reporting periods ending after December 15, 2008, and shall be applied prospectively. The Company adopted FSP EITF 99-20-1 on December 31, 2008 and it had no material impact on the Company's financial statements.

G-15

In October 2008, the FASB issued FSP No. FAS 157-3, *Determining the Fair Value of a Financial Asset When the Market for That Asset Is Not Active*. The FSP clarifies the application of SFAS No. 157, *Fair Value Measurements*, in a market that is not active and provides an example to illustrate key considerations in determining the fair value of a financial asset when the market for that financial asset is not active. The key considerations illustrated in the FSP No. FAS 157-3 example include the use of an entity's own assumptions about future cash flows and appropriately risk-adjusted discount rates, appropriate risk adjustments for nonperformance and liquidity risks, and the reliance that an entity should place on quotes that do not reflect the result of market transactions. The FSP became effective upon issuance. The FSP adoption did not have a material impact on the Company's financial statements.

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles*. This Statement identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements. SFAS No. 162 became effective on November 15, 2008. The adoption of this Statement did not have a material impact on the Company's financial statements.

In September 2008, the FASB issued FSP No. FAS 133-1 and FIN 45-4, *Disclosures about Credit Derivatives and Certain Guarantees: An Amendment of FASB Statement No. 133 and FASB Interpretation No. 45; and Clarification of the Effective Date of FASB Statement No. 161*. The FSP amends SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, to require disclosures by sellers of credit derivatives, including credit derivatives embedded in hybrid instruments. The FSP amends FASB Interpretation No. 45, *Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness to Others*, to require additional disclosure about the current status of the payment/performance risk of a guarantee. The provisions of the FSP that amended SFAS No. 133 and Interpretation No. 45 are effective for reporting periods (annual or interim) ending after November 15, 2008. The Company adopted FSP No. FAS 133-1 and FIN 45-4 on December 31, 2008. The adoption did not have a material impact on the Company's financial statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*. SFAS No. 159 provides a fair value option election that allows companies to irrevocably elect fair value as the initial and subsequent measurement attribute for certain financial assets and liabilities, with changes in fair value recognized in earnings as they occur. SFAS No. 159 permits the fair value option election on an instrument by instrument basis at initial recognition of an asset or liability or upon an event that gives rise to a new basis of accounting for that instrument. SFAS No. 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. The Company adopted SFAS No. 159 on January 1, 2008. The adoption did not have a material impact on the Company's financial statements. See Note 3 to the Financial Statements for additional disclosures.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosures about fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, with early adoption permitted provided the entity has not yet issued financial statements for the fiscal year, including any interim periods. The provisions of SFAS No. 157 are to be applied prospectively. The Company adopted SFAS No. 157 on January 1, 2008. The adoption did not have a material impact on the Company's financial statements. See Note 3 to the Financial Statements for additional disclosures.

Future Adoption of Recent Accounting Pronouncements

In April 2008, the FASB issued FASB Staff Position No. FAS 142-3, *Determination of the Useful Life of Intangible Assets* (FSP No. FAS 142-3). The FSP amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, *Goodwill and Other Intangible Assets*. FSP No. FAS 142-3 requires entities estimating the useful life of a recognized intangible asset to consider their historical experience in renewing or extending similar arrangements or, in the absence of historical experience, to consider assumptions that market participants would use about renewal or extension as adjusted for entity-specific factors included in SFAS No. 142. The guidance in FSP No. FAS 142-3 is effective for fiscal years beginning after December 15, 2008. The Company expects to adopt FSP No. FAS 142-3 on January 1, 2009, which affects disclosures and therefore will not impact the Company's results of operations or financial position.

The FSP also clarifies that the disclosures required by SFAS No. 161 should be provided for any reporting period (annual or quarterly interim) beginning after November 15, 2008. This is consistent with the Company's plan for adoption of SFAS No. 161 on January 1, 2009.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities* an amendment of FASB Statement No. 133. This Statement amends and expands the disclosure requirements in SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities* to provide users of financial statements with an enhanced

G-16

understanding of (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS No. 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. SFAS No. 161 is effective for fiscal years and interim periods beginning after November 15, 2008 with early application permitted. The Company expects to adopt SFAS No. 161 on January 1, 2009, which affects disclosures and therefore will not impact the Company's results of operations or financial position.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statement*. This statement amends Accounting Research Bulletin No. 51, *Consolidated Financial Statements*. Noncontrolling interest refers to the minority interest portion of the equity of a subsidiary that is not attributable directly or indirectly to a parent. SFAS No. 160 establishes accounting and reporting standards that require for-profit entities that prepare consolidated financial statements to: (a) present noncontrolling interests as a component of equity, separate from the parent's equity, (b) separately present the amount of consolidated net income attributable to noncontrolling interests in the income statement, (c) consistently account for changes in a parent's ownership interests in a subsidiary in which the parent entity has a controlling financial interest as equity transactions, (d) require an entity to measure at fair value its remaining interest in a subsidiary that is deconsolidated, and (e) require an entity to provide sufficient disclosures that identify and clearly distinguish between interests of the parent and interests of noncontrolling owners. SFAS No. 160 applies to all for-profit entities that prepare consolidated financial statements, and affects those for-profit entities that have outstanding noncontrolling interests in one or more subsidiaries or that deconsolidate a subsidiary. SFAS No. 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008 with earlier adoption prohibited. The Company expects to adopt SFAS No. 160 on January 1, 2009 and does not expect the adoption to have a material impact on the results of operation or financial position.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), *Business Combinations* (SFAS No. 141(R)). This statement replaces SFAS No. 141, *Business Combinations* and establishes the principles and requirements for how the acquirer in a business combination: (a) measures and recognizes the identifiable assets acquired, liabilities assumed, and any noncontrolling interests in the acquired entity, (b) measures and recognizes positive goodwill acquired or a gain from bargain purchase (negative goodwill), and (c) determines the disclosure information that is decision-useful to users of financial statements in evaluating the nature and financial effects of the business combination. SFAS No. 141(R) is effective for and shall be applied prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008, with earlier adoption prohibited. Assets and liabilities that arose from business combinations with acquisition dates prior to the SFAS No. 141(R) effective date shall not be adjusted upon adoption of SFAS No. 141(R) with certain exceptions for acquired deferred tax assets and acquired income tax positions. The Company expects to adopt SFAS No. 141(R) and will apply its requirements to acquisitions occurring on or after January 1, 2009, and does not expect the adoption to have a material impact on the results of operation or financial position.

Note 2. Adjustments to Initial Purchase Price Allocation

On December 28, 2007, the Company and its affiliate, MLLICNY, were acquired by AUSA for \$1.12 billion and \$0.13 billion, respectively, for a total price for both entities of \$1.25 billion. The allocation of the purchase price to the entities was based on their relative value. Since the actual results between the period December 28, 2007 and December 31, 2007 were not material, the Company utilized December 31, 2007 as the acquisition date.

In addition, on December 28, 2007, ML&Co. and AUSA entered into a transition services agreement whereby ML&Co. is to provide certain outsourced third-party services required for the normal operations of the business and other services necessary for the migration to AUSA's infrastructure. These services may be provided for a period of up to two years.

The purchase price was initially allocated to the assets acquired and liabilities assumed using management's best estimate of their fair value as of the acquisition date. The Company made refinements during 2008 to the initial estimated fair values as additional information became available.

The following adjustments as of December 31, 2008 were made to the initial purchase price allocation:

| | Purchase Price Allocation | | |
|-----------------------------------|----------------------------------|--------------------|----------------------------------|
| | December 31, 2007 | Adjustments | December 31, 2008 (a) |
| Value of business acquired, gross | \$ 574,950 | \$ (6,759) | \$ 568,191 |
| Goodwill | 156,880 | (14,779) | 142,101 |
| Other intangibles | 74,930 | 5,005 | 79,935 |
| Federal income taxes current | 6,641 | (525) | 6,116 |
| Federal income taxes deferred | 2,031 | (2,031) | |
| Reinsurance receivables | 5,440 | 3,056 | 8,496 |
| Other assets | 40,741 | (1,490) | 39,251 |
| Policyholder account balances | 1,900,837 | 3,556 | 1,904,393 |
| Future policy benefits | 396,760 | (23,014) | 373,746 |
| Federal income taxes deferred | | 5,971 | 5,971 |
| Other liabilities | 10,954 | (4,036) | 6,918 |

(a) This reflects the December 31, 2008 balance before adjustments for unrealized gains (losses) on investments, amortization and/or impairments.

VOBA reflects the estimated fair value of inforce contracts acquired and represents the portion of the purchase price that is allocated to the value of the right to receive future cash flows from the life insurance and annuity contracts inforce at the acquisition date. VOBA is based on actuarially determined projections, by each block of business, of future policy and contract charges, premiums, mortality, separate account performance, surrenders, operating expenses, investment returns and other factors. Actual experience on the purchased business may vary from these projections. If estimated gross profits or premiums differ from expectations, the amortization of VOBA is adjusted to reflect actual experience.

The value of the distribution agreement reflects the estimated fair value of the Company's distribution agreement acquired at the acquisition date. The value of the distribution agreement is based on actuarially determined projections of future sales during the term of the agreement. The distribution intangible will be amortized over the expected economic benefit period and at a pace consistent with the expected future gross profit streams generated from the distribution agreement, which is 30 years.

The value of the trade name and the non-compete agreement reflects the estimated fair value of the trade name and the non-compete agreement at the acquisition date and will be amortized over the five year contractual agreement on a straight-line basis.

If actual experience under the distribution agreement, the trade name and the non-compete agreements differ from expectations, the amortization of these intangibles will be adjusted to reflect actual experience.

For purposes of calculating the VOBA and other intangible assets relating to the acquisition, management considered the Company's weighted average cost of capital, as well as the weighted average cost of capital required by market participants. A discount rate of 9% and 11% were used for VOBA for the life and annuity segments, respectively. A

discount rate of 12% was used to value the distribution agreement, the trade name and the non-compete agreement intangible assets. See Note 5 to the Financial Statements for further discussion on VOBA, Other Intangibles and Goodwill.

Note 3. Fair Value of Financial Instruments

Fair Value Measurements

SFAS No. 157 defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value and enhances disclosure requirements for fair value measurements.

Fair Value Hierarchy

The Company has categorized its financial instruments into a three level hierarchy which is based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument.

G-18

Financial assets and liabilities recorded at fair value on the Balance Sheets are categorized as follows:

Level 1. Unadjusted quoted prices for identical assets or liabilities in an active market.

Level 2. Quoted prices in markets that are not active or inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- a) Quoted prices for similar assets or liabilities in active markets
- b) Quoted prices for identical or similar assets or liabilities in non-active markets
- c) Inputs other than quoted market prices that are observable
- d) Inputs that are derived principally from or corroborated by observable market data through correlation or other means

Level 3. Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. They reflect management's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

The following table presents the Company's hierarchy for its assets and liabilities measured at fair value on a recurring basis at December 31, 2008:

| | 2008 | | | |
|--|---------------------|---------------------|-------------------|---------------------|
| | Level 1 | Level 2 | Level 3 | Total |
| Assets | | | | |
| Fixed maturity securities (a) | \$ 247,254 | \$ 1,012,562 | \$ 112,200 | \$ 1,372,016 |
| Equity securities (a) | | 13,506 | | 13,506 |
| Cash and cash equivalents (b) | | 441,943 | | 441,943 |
| Limited partnerships (c) | | | 9,895 | 9,895 |
| Separate Accounts assets (d) | 7,457,096 | | | 7,457,096 |
| Total assets | \$ 7,704,350 | \$ 1,468,011 | \$ 122,095 | \$ 9,294,456 |
| Liabilities | | | | |
| Future policy benefits (embedded derivatives only) (e) | \$ | \$ | \$ 35,323 | \$ 35,323 |
| Total liabilities | \$ | \$ | \$ 35,323 | \$ 35,323 |

- (a) For publicly traded securities (Level 1), fair value is determined using quoted market prices. For securities without a readily ascertainable market value (Level 2), the

Company utilizes pricing services and corroborated broker quotes. Such estimated fair values do not necessarily represent the values for which these securities could have been sold at the date of the Balance Sheet. Level 3 consists of two types of securities: a) securities whose fair value is estimated based on non-binding broker quotes and b) immaterial mortgage backed securities without a readily ascertainable market value whose amortized cost equals fair value.

- (b) Cash and cash equivalents are primarily valued at amortized cost, which approximates fair value. Operating cash is not included in the abovementioned table.
- (c) The Company has an investment in a limited

partnership for which the fair value was derived from management's review of the underlying financial statements that were prepared on a GAAP basis. The remaining two limited partnerships are carried at cost and are not included in the abovementioned table.

- (d) Separate Accounts assets are carried at the net asset value provided by the fund managers.
- (e) The Company records liabilities, which can be either positive or negative, for contracts containing guaranteed minimum withdrawal benefits (GMWB) and reinsurance on guaranteed minimum income benefit (GMIB reinsurance) riders in accordance with SFAS No. 133, *Accounting for Derivative*

*Instruments and
Hedging*

Activities. The GMWB and GMIB reinsurance provisions are treated as an embedded derivative and are required to be reported separately from the host variable annuity contract. The fair value of the GMWB and GMIB reinsurance obligations are calculated based on actuarial and capital market assumptions related to the projected cash flows, including benefits and related contract charges, over the anticipated life of the related contracts. The cash flow estimates are produced by using stochastic techniques under a variety of market return scenarios and other best estimate assumptions.

G-19

The Company's Level 3 assets consist of an investment in a limited partnership, securities with non-binding broker quotes, and immaterial mortgage backed securities. The limited partnership is treated in accordance with SFAS No. 159, which was adopted on January 1, 2008. As a result of push down accounting at the acquisition date, no cumulative-effect adjustment to retained earnings was recorded with the initial adoption of SFAS No. 159. The following table provides a summary of the change in fair value of the Company's Level 3 assets at December 31, 2008:

| | Limited Partnerships | Fixed Maturity |
|--|---------------------------------|---------------------------|
| Balance at December 31, 2007 | \$ 13,420 | \$ 18,775 |
| Total unrealized loss (a) | | (26,004) |
| Purchases (sales) net | (1,148) | 38,289 |
| Transfers into Level 3 net | | 80,729 |
| Changes in valuation (b) | (3,235) | 603 |
| Net realized investment gains (losses) (c) | 858 | (192) |
| Balance at December 31, 2008 (d) | \$ 9,895 | \$ 112,200 |

(a) Recorded as a component of other comprehensive income (loss).

(b) Recorded as a component of net investment income in the Statements of Income.

(c) Recorded as a component of net realized investment gains (losses) for fixed maturity and net investment income for limited partnerships in the Statements of Income.

(d)

Recorded as a component of limited partnerships and fixed maturity available-for-sale securities in the Balance Sheets.

In certain circumstances, the Company will obtain non-binding broker quotes from brokers to assist in the determination of fair value. If those quotes can be corroborated by other market observable data, the investments will be classified as Level 2 investments. If not, the investments are classified as Level 3 due to the unobservable nature of the brokers' valuation processes. During the year, the transfers to Level 3 principally related to several CMO Agency securities which were valued based on broker quotes that could not be corroborated.

The Company's Level 3 liabilities (assets) consist of provisions for GMWB and GMIB reinsurance. The following table provides a summary of the changes in fair value of the Company's Level 3 liabilities (assets) at December 31, 2008:

| | GMWB | GMIB Reinsurance |
|----------------------------------|-------------|-----------------------------|
| Balance at December 31, 2007 | \$ 13,865 | \$ 744 |
| Purchase price adjustment | (2,243) | (12,884) |
| Changes in valuation (a) | 102,835 | (66,994) |
| Balance at December 31, 2008 (b) | \$ 114,457 | \$ (79,134) |

(a) Recorded as a component of policy benefits in the Statements of Income.

(b) Recorded as a component of future policy benefits in the Balance Sheets.

Note 4. Investments**Fixed Maturity and Equity Securities**

The amortized cost and estimated fair value of investments in fixed maturity securities and equity securities at December 31 were:

| | 2008 Successor | | | Estimated Fair Value |
|--|---------------------------|---|---------------------|--|
| | Amortized Cost | Gross Unrealized Gains Losses | | |
| Fixed maturity securities: | | | | |
| Corporate securities | \$ 805,324 | \$ 4,559 | \$ (76,742) | \$ 733,141 |
| Mortgage-backed securities and other asset backed securities | 457,263 | 3,296 | (86,606) | 373,953 |
| U.S. Government and agencies | 229,878 | 17,387 | (11) | 247,254 |
| Foreign governments | 16,268 | 213 | (358) | 16,123 |
| Municipals | 1,635 | 4 | (94) | 1,545 |
| Total fixed maturity securities | \$ 1,510,368 | \$ 25,459 | \$ (163,811) | \$ 1,372,016 |
| | | | | |
| Equity securities preferred stocks | \$ 21,699 | \$ | \$ (8,193) | \$ 13,506 |
| | | | | |
| | | | | 2007 Successor Estimated Fair Value (a) |
| Fixed maturity securities: | | | | |
| Corporate securities | | | | \$ 1,080,552 |
| Mortgage-backed securities and other asset backed securities | | | | 208,582 |
| U.S. Government and agencies | | | | 102,097 |
| Foreign governments | | | | 18,790 |
| Municipals | | | | 1,709 |
| Total fixed maturity securities | | | | \$ 1,411,730 |
| | | | | |
| Equity securities preferred stocks | | | | \$ 37,182 |

(a) In accordance with push down accounting, amortized cost was equal to estimated fair value at

December 31,
2007.

Excluding investments in U.S. Government and agencies, the Company is not exposed to any significant concentration of credit risk in its fixed maturity securities portfolio.

G-21

The amortized cost and estimated fair value of fixed maturity securities by investment grade at December 31 were:

| | 2008 | 2007 | |
|--|---------------------------|---|---|
| | Amortized Cost | Successor Estimated Fair Value | Estimated Fair Value (a) |
| Investment grade | \$ 1,432,232 | \$ 1,316,909 | \$ 1,399,289 |
| Below investment grade | 78,136 | 55,107 | 12,441 |
| Total fixed maturity securities | \$ 1,510,368 | \$ 1,372,016 | \$ 1,411,730 |

(a) In accordance with push down accounting, amortized cost was equal to estimated fair value at December 31, 2007.

At December 31, 2008 and 2007, the estimated fair value of fixed maturity securities rated BBB- were \$39,860 and \$61,063, respectively, which is the lowest investment grade rating given by S&P.

The amortized cost and estimated fair value of fixed maturity securities at December 31 by expected maturity were:

| | 2008 | 2007 | |
|--|---------------------------|---|---|
| | Amortized Cost | Successor Estimated Fair Value | Estimated Fair Value (a) |
| Fixed maturity securities: | | | |
| Due in one year or less | \$ 129,284 | \$ 128,424 | \$ 342,031 |
| Due after one year through five years | 450,331 | 432,032 | 538,779 |
| Due after five years through ten years | 285,150 | 265,360 | 215,646 |
| Due after ten years | 188,340 | 172,247 | 106,692 |
| | 1,053,105 | 998,063 | 1,203,148 |
| Mortgage-backed securities and other asset backed securities | 457,263 | 373,953 | 208,582 |
| Total fixed maturity securities | \$ 1,510,368 | \$ 1,372,016 | \$ 1,411,730 |

(a) In accordance with push down accounting, amortized cost

was equal to
estimated fair
value at
December 31,
2007.

In the preceding table fixed maturity securities not due at a single maturity date have been included in the year of final maturity. Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

The Company had investment securities with an estimated fair value of \$24,910 and \$23,136 that were deposited with insurance regulatory authorities at December 31, 2008 and 2007, respectively.

Unrealized Gains (Losses) on Fixed Maturity and Equity Securities

The Company's investments in fixed maturity and equity securities are classified as available-for-sale and are carried at estimated fair value. Unrealized gains and losses on available-for-sale securities are included in stockholder's equity as a component of accumulated other comprehensive income (loss), net of taxes.

G-22

The estimated fair value and gross unrealized losses of fixed maturity and equity securities aggregated by length of time that individual securities have been in a continuous unrealized loss position, were as follows:

| | Estimated Fair Value | 2008 (a) Successor Amortized Cost | Continuous Gross Unrealized Losses |
|--|-------------------------------------|--|---|
| Less than or equal to 90 days: | | | |
| Fixed maturities | | | |
| Corporate securities | \$ 142,809 | \$ 154,722 | \$ (11,913) |
| Mortgage-backed securities and other asset backed securities | 86,706 | 108,525 | (21,819) |
| U.S. Government and agencies | 55,105 | 55,116 | (11) |
| Equities | 2,702 | 3,716 | (1,014) |
| | 287,322 | 322,079 | (34,757) |
| Greater than 90 days but less than or equal to 180 days: | | | |
| Fixed maturities | | | |
| Corporate securities | 90,382 | 107,681 | (17,299) |
| Mortgage-backed securities and other asset backed securities | 96,227 | 123,271 | (27,044) |
| Foreign governments | 4,182 | 4,540 | (358) |
| Equities | 3,248 | 4,834 | (1,586) |
| | 194,039 | 240,326 | (46,287) |
| Greater than 180 days but less than or equal to 270 days: | | | |
| Fixed maturities | | | |
| Corporate securities | 241,028 | 268,972 | (27,944) |
| Mortgage-backed securities and other asset backed securities | 37,641 | 56,984 | (19,343) |
| | 278,669 | 325,956 | (47,287) |
| Greater than 270 days but less than or equal to one year: | | | |
| Fixed maturities | | | |
| Corporate securities | 56,022 | 75,608 | (19,586) |
| Mortgage-backed securities and other asset backed securities | 27,281 | 45,681 | (18,400) |
| Municipals | 838 | 932 | (94) |
| Equities | 7,556 | 13,149 | (5,593) |
| | 91,697 | 135,370 | (43,673) |
| Total | \$ 851,727 | \$ 1,023,731 | \$ (172,004) |

- (a) In accordance with push down accounting, amortized cost was equal to estimated fair value at December 31, 2007.

The total number of securities in an unrealized loss position was 330 at December 31, 2008.

G-23

The estimated fair value, gross unrealized losses and number of securities where the fair value had declined below amortized cost by greater than 20% and greater than 40% were as follows:

| | Estimated | 2008 (a) Successor Gross | Number of Securities |
|--|-------------------|--------------------------------|----------------------------|
| | Fair Value | Unrealized Losses | |
| Decline > 20% | | | |
| Less than or equal to 90 days | \$ 51,245 | \$ (25,145) | 20 |
| Greater than 90 days but less than or equal to 180 days | 39,965 | (30,238) | 23 |
| Greater than 180 days but less than or equal to 270 days | 43,697 | (28,498) | 16 |
| Greater than 270 days but less than or equal to one year | 45,479 | (34,743) | 19 |
| Total | \$ 180,386 | \$ (118,624) | 78 |
| Decline > 40% | | | |
| Less than or equal to 90 days | \$ 12,845 | \$ (13,065) | 6 |
| Greater than 90 days but less than or equal to 180 days | 17,079 | (22,307) | 13 |
| Greater than 180 days but less than or equal to 270 days | 13,497 | (14,849) | 6 |
| Greater than 270 days but less than or equal to one year | 22,185 | (23,925) | 10 |
| Total | \$ 65,606 | \$ (74,146) | 35 |

(a) In accordance with push down accounting, amortized cost was equal to estimated fair value at December 31, 2007.

Unrealized losses incurred during 2008 were primarily due to price fluctuations resulting from changes in interest rates and credit spreads. The Company has the ability and intent to hold the investments for a period of time sufficient for a forecasted market price recovery up to or beyond the amortized cost of the investment.

The components of net unrealized loss included in accumulated other comprehensive loss, net of taxes were as follows:

| | December 31, 2008 (a) |
|------------------------------------|--------------------------|
| Assets | |
| Fixed maturity securities | \$ (138,352) |
| Equity securities | (8,193) |
| Deferred policy acquisitions costs | 1,481 |
| Value of business acquired | 45,438 |

(99,626)

Liabilities

| | |
|-------------------------------|--------|
| Policyholder account balances | (647) |
| Federal income taxes deferred | 35,095 |
| | 34,448 |

Stockholder's equity

| | |
|--|-------------|
| Accumulated other comprehensive loss, net of taxes (a) | \$ (65,178) |
|--|-------------|

(a) At
 December 31,
 2007
 accumulated
 other
 comprehensive
 loss, net of
 taxes, was zero
 as a result of
 push down
 accounting at
 the acquisition
 date.

The Company records certain adjustments to policyholder account balances in conjunction with the unrealized holding gains or losses on investments classified as available-for-sale. The Company adjusts a portion of these liabilities as if the unrealized holding gains or losses had actually been realized, with corresponding credits or charges reported in accumulated other comprehensive loss, net of taxes.

G-24

Mortgage Loans on Real Estate

Mortgage loans on real estate consist entirely of mortgages on commercial real estate. Prepayment premiums are collected when borrowers elect to prepay their debt prior to the stated maturity. There were no prepayment premiums for 2008 and 2007.

The fair value for mortgage loans on real estate is estimated by discounting the future cash flows using the current rates at which similar loans would be made to borrowers with similar credit ratings and/or similar remaining maturities. The estimated fair value of the mortgages on commercial real estate at December 31, 2008 was \$70,771. There were no mortgages loans on real estate at December 31, 2007.

Loans are considered impaired when it is probable that based upon current information and events, the Company will be unable to collect all amounts due under the contractual terms of the loan agreement. A valuation allowance is established when a loan is impaired for the excess carrying value of the loan over its estimated value. The valuation allowance as of December 31, 2008 was \$49. There was no valuation allowance at December 31, 2007.

The commercial mortgages are geographically diversified throughout the United States with the largest concentrations in California, New Hampshire, Pennsylvania, Virginia, and Ohio, which account for approximately 75% of mortgage loans as of December 31, 2008.

Securities Lending

The Company loans securities under securities lending agreements. The amortized cost and estimated fair value of securities out on loan for the period ended December 31, 2008 were \$166,427 and \$173,991, respectively. There were no securities lent in 2007.

Derivatives

The Company uses derivatives to manage the capital market risk associated with the GMWB. The derivatives, which are S&P's 500 Composite Stock Price Index futures contracts, are used to hedge the equity risk associated with these types of variable guaranteed products, in particular the claim and/or revenue risks of the liability portfolio. The Company will not seek hedge accounting on these hedges because, in most cases, the derivatives' change in value will create a natural offset in the Income Statement with the change in reserves. As of December 31, 2008, the Company had 990 outstanding short futures contracts with a notional value of \$222,775. There were no futures contracts as of December 31, 2007.

Net Investment Income

Net investment income (loss) by source for the years ended December 31 was as follows:

| | 2008 | 2007 | 2006 |
|-------------------------------------|-------------------|--------------------|-------------|
| | Successor | Predecessor | |
| Fixed maturity securities | \$ 81,569 | \$ 72,597 | \$ 84,176 |
| Policy loans on insurance contracts | 48,742 | 49,497 | 50,755 |
| Cash and cash equivalents | 7,848 | 9,976 | 6,030 |
| Equity securities | 2,038 | 3,593 | 4,739 |
| Limited partnerships | (2,376) | 3,223 | 15 |
| Mortgages | 2,424 | | |
| Other | 1,103 | 113 | (149) |
| Gross investment income | 141,348 | 138,999 | 145,566 |
| Less investment expenses | (6,190) | (2,583) | (2,949) |
| Net investment income | \$ 135,158 | \$ 136,416 | \$ 142,617 |

Realized Investment Gains (Losses)

Proceeds and gross realized investment gains and losses from the sale of available-for-sale securities for the years ended December 31 were as follows:

| | 2008 | 2007 | 2006 |
|----------------------------------|------------------|--------------------|-------------|
| | Successor | Predecessor | |
| Proceeds | \$598,127 | \$262,046 | \$390,637 |
| Gross realized investment gains | 4,853 | 4,119 | 4,533 |
| Gross realized investment losses | 20,018 | 2,064 | 4,009 |

G-25

The Company considers fair value at the date of sale to be equal to proceeds received. Proceeds on the sale of available-for-sale securities sold at a realized loss were \$590,913, \$152,277 and \$201,738 for the years ended December 31, 2008, 2007 and 2006, respectively.

During 2008, 2007 and 2006 the Company incurred realized investment gains (losses) in order to further diversify and match the duration of its invested assets to corresponding policyholder liabilities.

Net realized investment gains (losses) for the years ended December 31 were as follows:

| | 2008 | 2007 | 2006 |
|---------------------------------|------------------|--------------------|-------------|
| | Successor | Predecessor | |
| Fixed maturity securities | \$ (14,751) | \$ 1,727 | \$ 447 |
| Equity securities | (414) | 328 | 77 |
| Mortgages | (49) | | |
| Derivatives | 37,803 | | |
| Trading account securities | | | 712 |
| Associated amortization of VOBA | 5,132 | | |
| Net realized investment gains | \$ 27,721 | \$ 2,055 | \$ 1,236 |

The Company maintained a trading portfolio comprised of convertible debt and equity securities that was liquidated in the first quarter 2006.

If management determines that a decline in the value of an available-for-sale security is other-than-temporary, the amortized cost is adjusted to estimated fair value and the decline in value is recorded as a net realized investment loss. For 2008, the Company recorded a \$14,208 realized investment loss on securities deemed to have incurred other-than-temporary declines in fair value. For 2008 there was associated amortization of value of business acquired on the other-than-temporary declines in fair value of \$5,879. There were no realized investment losses on securities deemed to have incurred other-than-temporary declines in fair value for the years ended December 31, 2007 and 2006.

Note 5. VOBA, Other Intangibles and Goodwill

VOBA reflects the estimated fair value of inforce contracts acquired and represents the portion of the purchase price that is allocated to the value of the right to receive future cash flows from the life insurance and annuity contracts inforce at the acquisition date. VOBA is based on actuarially determined projections, for each block of business, of future policy and contract charges, premiums, mortality, Separate Account performance, surrenders, operating expenses, investment returns and other factors. Actual experience on the purchased business may vary from these projections. If estimated gross profits or premiums differ from expectations, the amortization of VOBA is adjusted to reflect actual experience.

The change in the carrying amount of VOBA for 2008 was as follows:

| VOBA | 2008 |
|--|-------------|
| Purchase price adjustment | \$ (6,759) |
| Accretion (amortization) expense | 30,778 |
| Unlocking | (68,449) |
| Amortization related to realized losses on investments and derivatives | 5,132 |
| Adjustment related to unrealized losses on investments | 45,438 |
| Change in VOBA carrying amount | \$ 6,140 |

During 2008, the Company experienced lower than expected gross profits as a result of market losses which reduced amortization expense and unlocking. In addition, the unlocking includes an impairment charge of \$27,973 as estimated future gross profits were less than the unamortized balance.

The estimated future amortization of VOBA from 2009 to 2013 is as follows:

| | |
|------|----------|
| 2009 | \$30,123 |
| 2010 | \$33,501 |
| 2011 | \$36,099 |
| 2012 | \$38,503 |
| 2013 | \$40,682 |

Other intangibles include the estimated fair values of the distribution agreement, the trade name and the non-compete agreement acquired at the acquisition date. The Company reviews other intangible assets when certain events or circumstances exist, while goodwill is reviewed for impairment on an annual basis and on an interim basis when certain events or circumstances exist. A review was performed at September 30, 2008 and there was no indication of impairment for goodwill or other intangibles. However during the 4th quarter the Company made a business decision to commence selling similar products on affiliate companies through the ML&Co. distribution channel instead of continuing to sell new variable annuities on MLLIC. As a result of this decision, an impairment charge was taken for the entire unamortized other intangible balance (\$76,161) and the entire goodwill balance except for the amount related to MLLIC's state licenses (\$139,301) at December 31, 2008.

Note 6. DAC, DSI and UPCR

At acquisition, DAC, DSI and UPCR were zero as a result of push down accounting. The carrying amount of DAC and DSI for the years ended December 31 was as follows:

| | DAC | DSI |
|---|------------------|-----------------|
| Balance, January 1, 2007 (Predecessor) | \$ 285,648 | \$ 20,606 |
| Capitalization | 31,206 | 14,294 |
| Normal amortization | (48,575) | (2,355) |
| Unlocking | 26,511 | 61 |
| Push down accounting adjustment | (294,790) | (32,606) |
| Balance, December 31, 2007 (Successor) | | |
| Capitalization | 22,095 | 6,975 |
| Normal amortization | 8,038 | 2,444 |
| Unlocking | (7,343) | (2,187) |
| Adjustment related to unrealized loss on investments | 1,481 | |
| Balance, December 31, 2008 (Successor) | \$ 24,271 | \$ 7,232 |

During 2008, the Company experienced lower than expected gross profits as a result of market losses which reduced amortization expense and unlocking. Unlocking during 2007 was impacted by fluctuations in actual Separate Accounts returns as compared to assumptions. The impact of unlocking was mitigated to a certain extent by the application of the mean reversion technique.

During 2007, the Company revised its mortality assumptions and historical claims relating to its variable life insurance products which were favorable as compared to expectations. In addition, the Company updated its DAC model to reflect actual market returns for its variable annuity products, which were favorable as compared to expectations, consistent with the application of the reversion to the mean approach. However, this amount was partially offset by unfavorable unlocking resulting from revised lapse assumptions relating to certain variable annuity

As of December 31, 2007, the UPCR balance was zero as a result of push down accounting at the acquisition date. The components of accretion (amortization) of UPCR for the years ended December 31, 2007 and 2006 were as follows:

| UPCR | 2007 | 2006 |
|--|----------------|--------------------|
| | | Predecessor |
| Normal accretion | \$ 2,874 | \$ 8,825 |
| Unlocking | (4,815) | 1,532 |
| Total accretion (amortization) of UPCR | \$ (1,941) | \$ 10,357 |

During 2007, the Company revised its mortality assumptions and historical claims relating to its variable universal life insurance product resulting in unfavorable unlocking. The decrease in normal UPCR accretion during 2007 is attributable to higher mortality as compared to 2006.

During 2006, the Company revised its reinsurance and mortality assumptions and historical claims for the current year on its variable universal life insurance product.

Note 7. Variable Contracts Containing Guaranteed Benefits

Variable Annuity Contracts Containing Guaranteed Benefits

The Company issues variable annuity contracts in which the Company may contractually guarantee to the contract owner a guaranteed minimum death benefit (GMDB) and/or an optional guaranteed living benefit provision. The living benefit provisions offered by the Company include a guaranteed minimum income benefit (GMIB) and a guaranteed minimum withdrawal benefit (GMWB). Information regarding the general characteristics of each guaranteed benefit type is provided below:

In general, contracts containing GMDB provisions provide a death benefit equal to the greater of the GMDB or the contract value. Depending on the type of contract, the GMDB may equal: i) contract deposits accumulated at a specified interest rate, ii) the contract value on specified contract anniversaries, iii) return of contract deposits, or iv) some combination of these benefits. Each benefit type is reduced for contract withdrawals.

In general, contracts containing GMIB provisions provide the option to receive a guaranteed future income stream upon annuitization. There is a waiting period of ten years that must elapse before the GMIB provision can be exercised.

Contracts containing GMWB provisions provide the contract owner the ability to withdraw minimum annual payments regardless of the impact of market performance on the contract owner's account value. In general, withdrawal percentages are based on the contract owner's age at the time of the first withdrawal. The Company began offering the GMWB benefit provision in the first quarter 2006.

The Company had the following variable annuity contracts containing guaranteed benefits at December 31:

| 2008 | GMDB | GMIB | GMWB |
|---|--------------------|------------------|------------------|
| Net amount at risk (a) | \$2,631,834 | \$766,391 | \$274,296 |
| Average attained age of contract owners | 68 | 61 | 70 |
| Weighted average period remaining until expected annuitization | n/a | 6.0 yrs | n/a |
| 2007 | | | |
| Net amount at risk (a) | \$612,749 | \$14,149 | \$1,866 |
| Average attained age of contract owners | 68 | 60 | 71 |
| Weighted average period remaining until expected annuitization | n/a | 6.8 yrs | n/a |

(a) Net amount at risk for GMDB is defined as the current GMDB in excess of the contract owners account balance at the Balance Sheet date. Net amount at risk for GMIB is defined as the present value of the minimum guaranteed annuity payments available to the contract owner in excess of the contract owners account balance at the Balance Sheet date. Net amount at risk for GMWB is defined as the present value of the minimum guaranteed withdrawals available to the

contract owner
in excess of the
contract owners
account balance
at the Balance
Sheet date.

The Company records liabilities for contracts containing GMDB and GMIB provisions as a component of future policy benefits in the Balance Sheets. Changes in these guaranteed benefit liabilities are included as a component of policy benefits in the Statement of Income. The GMDB and GMIB liabilities are calculated in accordance with SOP 03-1 and are determined by projecting future expected guaranteed benefits under multiple scenarios for returns on Separate Accounts assets. The Company uses estimates for mortality and surrender assumptions based on actual and projected experience for each contract type. These estimates are consistent with the estimates used in the calculation of DAC. The Company regularly evaluates the estimates used and adjusts the GMDB and/or GMIB liability balances with a related charge or credit to earnings (unlocking), if actual experience or evidence suggests that earlier assumptions should be revised.

The changes in the variable annuity GMDB and GMIB liabilities for the years ended December 31 were as follows:

| | GMDB | GMIB |
|---|-------------------|------------------|
| Balance, January 1, 2007 (Predecessor) | \$ 100,301 | \$ 705 |
| Guaranteed benefits incurred | 24,699 | 478 |
| Guaranteed benefits paid | (16,902) | |
| Unlocking | (22,390) | 393 |
| Push down accounting adjustment | (11,067) | (1,576) |
| Balance, December 31, 2007 (Successor) | 74,641 | |
| Purchase price adjustment | (7,887) | |
| Guaranteed benefits incurred | 22,420 | 7,939 |
| Guaranteed benefits paid | (28,447) | |
| Unlocking | 85,162 | 10,596 |
| Balance, December 31, 2008 (Successor) | \$ 145,889 | \$ 18,535 |

Significant market declines in 2008 as compared to the 2007 caused unfavorable unlocking as a result of increasing estimates of future benefit amounts in the GMDB liabilities. During 2007, the Company updated its market return assumptions resulting in favorable unlocking for GMDB liabilities. Unlocking during 2007 was impacted by fluctuations in actual Separate Accounts returns as compared to assumptions. The impact of unlocking was mitigated to a certain extent by the application of the mean reversion technique.

The unlocking for GMIB during 2008 reflects the decrease in gross revenues and the resulting increase in expected future claims due to current market losses.

At December 31, contract owners' account balances by mutual fund class by guaranteed benefit provisions were comprised as follows:

| | Equity | Bond | Balanced | Money Market | Other | Total |
|-------------------------|---------------------|---------------------|---------------------|-------------------|------------------|---------------------|
| 2008 (Successor) | | | | | | |
| GMDB Only | \$ 1,712,586 | \$ 764,563 | \$ 532,448 | \$ 223,531 | \$ 3,388 | \$ 3,236,516 |
| GMDB and GMIB | 880,425 | 348,784 | 338,704 | 77,037 | 9,316 | 1,654,266 |
| GMDB and GMWB | 260,347 | 73,349 | 154,400 | 4,362 | 6,455 | 498,913 |
| GMWB only | 104,486 | 29,037 | 62,796 | 2,796 | 2,416 | 201,531 |
| GMIB only | 64,495 | 13,808 | 33,159 | 1,667 | 1,520 | 114,649 |
| No guaranteed benefit | 14,678 | 4,664 | 12,583 | 2,504 | 366 | 34,795 |
| Total | \$ 3,037,017 | \$ 1,234,205 | \$ 1,134,090 | \$ 311,897 | \$ 23,461 | \$ 5,740,670 |
| 2007 (Successor) | | | | | | |
| GMDB Only | \$ 3,404,287 | \$ 984,755 | \$ 717,798 | \$ 215,326 | \$ 8,142 | \$ 5,330,308 |
| GMDB and GMIB | 1,624,427 | 383,453 | 403,003 | 44,436 | 21,175 | 2,476,494 |
| GMDB and GMWB | 327,786 | 72,025 | 90,578 | 8,759 | 8,866 | 508,014 |

| No guaranteed benefit | 25,430 | 6,151 | 9,754 | 1,479 | 937 | 43,751 |
| Total | \$ 5,610,220 | \$ 1,489,102 | \$ 1,282,944 | \$ 273,044 | \$ 45,818 | \$ 8,701,128 |

Variable Life Contracts Containing Guaranteed Benefits

The Company has issued variable life contracts in which the Company contractually guarantees to the contract owner a GMDB. In general, contracts containing GMDB provisions provide a death benefit equal to the amount specified in the contract regardless of the level of the contract's account value.

The Company recorded liabilities for contracts containing GMDB provisions as a component of future policy benefits. Changes in the GMDB liabilities were included as a component of policy benefits in the Statements of Income. The variable life GMDB liability was set as a percentage of asset-based fees and cost of insurance charges deducted from contracts that include a GMDB provision. The percentage was established based on the Company's estimate of the likelihood of future GMDB claims.

As of December 31, 2007, the variable life GMDB balance was zero as a result of push down accounting at the acquisition date. The change in the variable life GMDB liabilities for the year ended December 31, 2007 was as follows:

| | GMDB Life |
|---|------------------|
| Balance, January 1, 2007 (Predecessor) | \$ 2,286 |
| Guaranteed benefits incurred | 155 |
| Push down accounting adjustment | (2,441) |
| Balance, December 31, 2007 (Successor) | \$ |

At December 31, contract owners' account balances by mutual fund class for contracts containing GMDB provisions were distributed as follows:

| | 2008 | 2007 |
|--------------|---------------------|---------------------|
| | Successor | |
| Balanced | \$ 537,761 | \$ 999,501 |
| Equity | 757,526 | 966,850 |
| Bond | 128,794 | 313,625 |
| Money Market | 292,345 | 251,892 |
| | | |
| Total | \$ 1,716,426 | \$ 2,531,868 |

Note 8. Federal Income Taxes

The following is a reconciliation of the provision for income taxes based on income (loss) before federal income taxes, computed using the federal statutory rate versus the reported provision for income taxes for the years ended December 31.

| | 2008 | 2007 | 2006 |
|--|--------------------|------------------|------------------|
| | Successor | | |
| | Predecessor | | |
| Provisions for income taxes computed at Federal statutory rate (35%) | \$ (79,190) | \$ 55,857 | \$ 48,658 |
| Increase (decrease) in income taxes resulting from: | | | |
| Dividend received deduction | (7,420) | (4,783) | (3,657) |
| Foreign tax credit | (884) | (2,002) | (715) |
| Tax goodwill amortization | (431) | | |
| Other | 6 | | |
| | | | |
| Federal income tax provision | \$ (87,919) | \$ 49,072 | \$ 44,286 |
| | | | |
| Effective tax rate | 39% | 31% | 32% |

The Company provides for deferred income taxes resulting from temporary differences that arise from recording certain transactions in different years for income tax reporting purposes than for financial reporting purposes. The sources of these differences and the tax effect of each were as follows:

| | 2008 | 2007 | 2006 |
|---|--------------------|-------------|-------------|
| | Successor | | |
| | Predecessor | | |
| DAC | \$ 114,706 | \$ 5,141 | \$ (288) |
| Policyholder account balances | (24,325) | 3,149 | (6,168) |
| Liability for guaranty fund assessments | 679 | 100 | 275 |
| Other | 1,939 | 97 | (387) |
| Investment adjustments | 49,527 | 19 | 557 |
| Net operating and capital loss carryforward | 110,255 | | |
| VOBA | (203,294) | | |
| Intangible assets | 67,556 | | |
| Deferred sales inducements | | 4,200 | 4,308 |
| UPCR | | (781) | 3,521 |
| Reinsurance adjustment | | (835) | 2,175 |

| | | | |
|-------|-------------------|-----------|----------|
| Total | \$ 117,043 | \$ 11,090 | \$ 3,993 |
|-------|-------------------|-----------|----------|

G-31

Deferred tax assets and liabilities at December 31 were as follows:

| | 2008 | 2007 (a) |
|---|-------------------|------------------|
| | | Successor |
| Deferred tax assets: | | |
| DAC | \$ 125,732 | \$ 137,200 |
| Tax VOBA | 88 | 10,358 |
| Liability for guaranty fund assessments | 679 | 2,031 |
| Investment adjustments | 49,527 | |
| Net operating and capital loss carryforward | 110,255 | |
| Intangible assets | 67,556 | |
| Other | 1,939 | |
| Policyholder account balances | | 56,549 |
| Total deferred tax assets | 355,776 | 206,138 |
| Deferred tax liabilities: | | |
| Book VOBA | 203,382 | 204,107 |
| DAC | 11,026 | |
| Policyholder account balances | 24,325 | |
| Total deferred tax liabilities | 238,733 | 204,107 |
| Total deferred tax asset | \$ 117,043 | \$ 2,031 |

(a) At December 28, 2007, all deferred tax assets and liabilities associated with the predecessor were adjusted to zero due to the Section 338 tax election made by AUSA. The Section 338 election caused the predecessor to treat the acquisition as a sale of its assets for federal tax purposes which

reversed all of
the predecessor's
temporary
differences.

The Company uses the asset and liability method in providing income taxes on all transactions that have been recognized in the financial statements. The asset and liability method requires that deferred taxes be adjusted to reflect the tax rates at which future taxable amounts will be settled or realized. The Company provides for federal income taxes based on amounts it believes it will ultimately owe. Inherent in the provision for federal income taxes are estimates regarding the realization of certain tax deductions and credits.

Specific estimates include the realization of dividend-received deductions (DRD) and foreign tax credits (FTC). A portion of the Company's investment income related to Separate Accounts business qualifies for the DRD and FTC. Information necessary to calculate these tax adjustments is typically not available until the following year. However, within the current year's provision, management makes estimates regarding the future tax deductibility of these items. These estimates are primarily based on recent historic experience.

At December 31, 2008, the Company has a net operating loss carryforward for federal income tax purposes of \$110,104 with a carryforward period of 15 years. The Company also has a capital loss carryforward for federal income tax purposes of \$151 with a carryforward period of 5 years.

The Company adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN No. 48), on January 1, 2007. The Company has analyzed all material tax positions under the provisions of FIN No. 48, and has determined that there are no tax benefits that should not be recognized as of December 31, 2008 or as of December 31, 2007. There are no unrecognized tax benefits that would affect the effective tax rate. It is not anticipated that the total amounts of unrecognized tax benefits will significantly increase within twelve months of the reporting date.

The Company classifies interest and penalties related to income taxes as interest expense and penalty expense, respectively. The Company has recognized no material interest and penalties in its financial statements for the year ended December 31, 2008 and December 31, 2007.

The Company files a return in the U.S. Federal tax jurisdiction, and various state tax jurisdictions. As a result of the Company's election for Federal income tax purposes of the Internal Revenue Code Section 338, ML&Co. is responsible for any FIN No. 48 obligations that existed prior to the acquisition date. The Company will file a separate federal income tax return for the years 2008 through 2012. Beginning in 2013 and assuming no changes in ownership, the Company will join the affiliated consolidated tax group.

G-32

Note 9. Reinsurance

In the normal course of business, the Company seeks to limit its exposure to loss on any single insured life and to recover a portion of benefits paid by ceding mortality risk to other insurance enterprises or reinsurers under indemnity reinsurance agreements, primarily excess coverage and coinsurance agreements. The maximum amount of mortality risk retained by the Company is approximately \$1,000 on single and joint life policies. Effective second quarter of 2008, the Company began to recapture the majority of its life reinsurance.

Indemnity reinsurance agreements do not relieve the Company from its obligations to contract owners. Failure of reinsurers to honor their obligations could result in losses to the Company. The Company regularly evaluates the financial condition of its reinsurers so as to minimize its exposure to significant losses from reinsurer insolvencies. As of December 31, 2008, the Company held collateral under reinsurance agreements in the form of letters of credit and funds withheld totaling \$605 that can be drawn upon for delinquent reinsurance recoverables.

At December 31, 2008 the Company had the following life insurance inforce:

| | Gross amount | Ceded to other companies | Assumed from other companies | Net amount | Percentage of amount assumed to net |
|------------------------|-----------------|--------------------------------|---------------------------------------|---------------|--|
| Life insurance inforce | \$7,958,811 | \$1,846,950 | \$716 | \$6,112,577 | 0.01% |

The Company is party to an indemnity reinsurance agreement with an unaffiliated insurer whereby the Company coinsures, on a modified coinsurance basis, 50% of the unaffiliated insurer's variable annuity contracts sold through the ML&Co. distribution system from January 1, 1997 to June 30, 2001.

In addition, the Company seeks to limit its exposure to guaranteed benefit features contained in certain variable annuity contracts. Specifically, the Company reinsures certain GMIB and GMDB provisions to the extent reinsurance capacity is available in the marketplace. As of December 31, 2008, 49% and 5% of the account value for variable annuity contracts containing GMIB and GMDB provisions, respectively, were reinsured. As of December 31, 2007, 52% and 6% of the account value for variable annuity contracts containing GMIB and GMDB provisions, respectively, were reinsured.

Note 10. Related Party Transactions

As of December 31, 2008, the Company had the following related party agreements in effect:

The Company is party to a common cost allocation service agreement between AUSA companies in which various affiliated companies may perform specified administrative functions in connection with the operation of the Company, in consideration of reimbursement of actual costs of services rendered. During 2008, the Company incurred \$5,221 in expenses under this agreement. Charges attributable to this agreement are included in insurance expenses and taxes, net of amounts capitalized.

The Company is party to intercompany short-term note receivables with the parent at various times during the year. During 2008, the Company accrued and/or received \$1,669 of interest, which was included in net investment income. AEGON USA Realty Advisors, Inc. acts as the manager and administrator for the Company's real property assets and mortgage loans under an administrative and advisory agreement with the Company. Charges attributable to this agreement are included in net investment income. During 2008, the Company incurred \$70 in expenses under this agreement. In addition, mortgage loan origination fees of \$25 at December 31, 2008 were capitalized and included on the Balance Sheets under mortgage loans on real estate. Mortgage loan origination fees are amortized into net investment income over the life of the mortgage loans.

AEGON USA Investment Management, LLC acts as a discretionary investment manager under an investment management agreement with the Company. During 2008, the Company incurred \$2,029 in expenses under this agreement. Charges attributable to this agreement are included in net investment income.

Transamerica Capital, Inc. provides wholesaling distribution services for the Company under a distribution agreement. During 2008, the Company incurred \$6,498 in expenses under this agreement.

Transamerica Capital, Inc. provides underwriting services for the Company under an underwriting agreement. During 2008, the Company incurred \$29,734 in expenses under this agreement.

G-33

Transamerica Asset Management, Inc acts as the investment advisor for certain related party funds in the Company's Separate Accounts under an administrative services agreement. During 2008, the Company received \$25 under this agreement.

The Company has a participation agreement with Transamerica Series Trust to offer certain funds in the Company's Separate Accounts. Transamerica Capital, Inc. acts as the distributor for said related party funds. The Company has entered into a distribution and shareholder services agreement for certain of the said funds. During 2008, the Company received \$8 under this agreement.

The Company has a reinsurance agreement with Transamerica Life Insurance Company. During 2008, the Company incurred \$257 in reinsurance premium ceded expense under this agreement and there were no reinsurance recoveries on death claims incurred.

The Company is party to the purchasing and selling of investments between various affiliated companies. The investments are purchased and sold at fair value and are included in fixed maturities available-for-sale securities and mortgage loans on real estate in the Balance Sheet. During 2008, the Company purchased \$204,892 of fixed maturities securities. During 2008, the Company purchased \$68,794 of mortgage loans. During 2008, the Company sold \$34,959 of fixed maturities securities to an affiliated company.

While management believes that the service agreements referenced above are calculated on a reasonable basis, they may not necessarily be indicative of the costs that would have been incurred with an unrelated third party. Affiliated agreements generally contain reciprocal indemnity provisions pertaining to each party's representations and contractual obligations thereunder.

Prior to December 28, 2007, the Company had the following affiliated agreements in effect:

The Company and MLIG were parties to a service agreement whereby MLIG agreed to provide certain accounting, data processing, legal, actuarial, management, advertising and other services to the Company. Expenses incurred by MLIG in relation to this service agreement were reimbursed by the Company on an allocated cost basis. Charges allocated to the Company by MLIG pursuant to the agreement were \$27,017 and \$29,692 for 2007 and 2006, respectively. Charges attributable to this agreement were included in insurance expenses and taxes, except for investment related expenses, which were included in net investment income. The Company was allocated interest expense on its accounts payable to MLIG that approximates the daily federal funds rate. Total intercompany interest incurred was \$501 and \$494 for 2007 and 2006, respectively. Intercompany interest was included in net investment income.

The Company had a general agency agreement with Merrill Lynch Life Agency Inc. (MLLA) whereby registered representatives of MLPF&S, who are the Company's licensed insurance agents, solicit applications for contracts to be issued by the Company. MLLA was paid commissions for the contracts sold by such agents. Commissions paid to MLLA were \$61,916 and \$57,298 for 2007 and 2006, respectively. Certain commissions were capitalized as DAC and were being amortized in accordance with the accounting policy discussed in Note 6. Charges attributable to this agreement were included in insurance expenses and taxes, net of amounts capitalized.

Effective September 30, 2006, ML&Co. transferred the Merrill Lynch Investment Managers, L.P. (MLIM) investment management business to BlackRock, Inc. (BlackRock) in exchange for approximately half of the economic interest in the combined firm, including a 45% voting interest. Under this agreement, all previous investment management services performed by MLIM were merged into BlackRock. Prior to September 30, 2006, the Company and MLIM were parties to a service agreement whereby MLIM agreed to provide certain invested asset management services to the Company. The Company paid a fee to MLIM, for these services through the MLIG service agreement. Charges paid to MLIM through the first three quarters of 2006 and allocated to the Company by MLIG were \$1,172.

MLIG had entered into agreements with i) Roszel Advisors, LLC (Roszel), a subsidiary of MLIG, with respect to administrative services for the MLIG Variable Insurance Trust (the Trust) and ii) the former MLIM, now BlackRock, with respect to administrative services for the Merrill Lynch Series Fund, Inc., Merrill Lynch Variable Series Funds, Inc. and Mercury Variable Trust, (collectively, the Funds). Certain Separate Accounts of the Company may invest in the various mutual fund portfolios of the Trust and the Funds in connection with the variable life insurance and annuity contracts the Company had in force. Under these agreements, Roszel and MLIM pay MLIG an amount equal to a percentage of the assets invested in the Trust and the Funds through the Separate Accounts. Revenue attributable

to these agreements is included in policy charge revenue. The Company received from MLIG its allocable share of such compensation from Roszel in the amount of \$2,560 and \$2,492 during 2007 and

G-34

2006, respectively. The Company received from MLIG its allocable share of such compensation from MLIM in the amount of \$12,700 through the first three quarters of 2006.

Note 11. Stockholder s Equity and Statutory Accounting Practices

Applicable insurance department regulations require that the Company report its accounts in accordance with statutory accounting practices. Statutory accounting practices differ from principles utilized in these financial statements as follows: policy acquisition costs are expensed as incurred, policyholder liabilities are established using different actuarial assumptions, provisions for deferred income taxes are limited to temporary differences that will be recognized within one year, and securities are valued on a different basis. In addition, purchase accounting adjustments such as VOBA, goodwill, and other intangibles are not recognized on a statutory basis.

The Company s statutory financial statements are presented on the basis of accounting practices prescribed or permitted by the Arkansas Insurance Department. The State of Arkansas has adopted the National Association of Insurance Commissioners (NAIC) statutory accounting practices as a component of prescribed or permitted practices by the State of Arkansas.

The Company s statutory net income (loss) for 2008, 2007 and 2006 was (\$259,862), \$108,791 and \$193,731, respectively.

Statutory capital and surplus at December 31, 2008 and 2007 were \$356,135 and \$366,011, respectively. At December 31, 2008 and 2007, approximately \$35,593 and \$36,351, respectively, of stockholder s equity was available for dividend distribution that would not require approval by the Arkansas Insurance Department. During 2008, the Company received a \$250,000 capital contribution from AUSA.

During 2008, the Company did not pay any dividends to AUSA. During 2007, the Company paid extraordinary and ordinary dividends of \$152,171 and \$41,560, respectively to MLIG. During 2006, the Company paid extraordinary and ordinary dividends of \$140,155 and \$39,845, respectively to MLIG.

MLLIC and AUSA are parties to a keepwell agreement which, subject to its terms, commits AUSA to maintain MLLIC at a minimum net worth. Prior to the acquisition date, MLLIC and ML&Co. were parties to a keepwell agreement which obligated ML&Co. to maintain a level of capital in MLLIC in excess of minimum regulatory requirements.

The NAIC utilizes the Risk Based Capital (RBC) adequacy monitoring system. The RBC calculates the amount of adjusted capital that a life insurance company should hold based upon that company s risk profile. As of December 31, 2008 and 2007, based on the RBC formula, the Company s total adjusted capital level was well in excess of the minimum amount of capital required to avoid regulatory action.

Note 12. Commitments and Contingencies

State insurance laws generally require that all life insurers who are licensed to transact business within a state become members of the state s life insurance guaranty association. These associations have been established for the protection of contract owners from loss (within specified limits) as a result of the insolvency of an insurer. At the time an insolvency occurs, the guaranty association assesses the remaining members of the association an amount sufficient to satisfy the insolvent insurer s contract owner obligations (within specified limits). The Company has utilized public information to estimate what future assessments it will incur as a result of insolvencies. At December 31, 2008 and 2007, the Company s estimated liability for future guaranty fund assessments was \$5,704 and \$5,720, respectively. If future insolvencies occur, the Company s estimated liability may not be sufficient to fund these insolvencies and the estimated liability may need to be adjusted. The Company regularly monitors public information regarding insurer insolvencies and adjusts its estimated liability appropriately.

In the normal course of business, the Company is subject to various claims and assessments. Management believes the settlement of these matters would not have a material effect on the financial position, results of operations or cash flows of the Company.

Note 13. Segment Information

In reporting to management, the Company's operating results are categorized into two business segments: Annuities and Life Insurance. The Company's Annuity segment consists of variable annuities and interest-sensitive annuities. The Company's Life Insurance segment consists of variable life insurance products and interest-sensitive life insurance products. The Company no longer manufactures or issues life insurance products. The accounting policies of the business segments are the same as those for the Company's financial statements included herein. All revenue and expense transactions are recorded at the product level and accumulated at the business segment level for review by management. The Other category, presented in the following segment financial information, represents net revenues and net earnings on invested assets that do not support annuity or life insurance contract owner liabilities. Subsequent to the acquisition, management no longer considers Other a category for segment reporting purposes. It is impracticable to restate the prior period segment information as well as disclosing the information under both the old basis and the new basis of reporting. Therefore, the predecessor information is shown under the old basis, three segments—annuities, life insurance and other, while the successor information is shown under the new basis, two segments—annuities and life insurance.

The following tables summarize each business segment's contribution to select Statements of Income categories for the years ended December 31.

| | 2008 | | |
|---|-------------------|------------------|-------------------|
| | Successor | | |
| | Life | | |
| | Annuities | Insurance | Total |

C-18

Item 27. Number of Contracts

The number of Contracts in force as of June 30, 2009 was 207.

Item 28. Indemnification

The following provisions regarding the Indemnification of Directors and Officers of the Registrant are applicable:

Amended And Restated By-Laws Of Merrill Lynch Life Insurance Company, Article VI

Sections 1, 2, 3 And 4 Indemnification Of Directors, Officers, Employees And Incorporators

Section 1. Actions Other Than By Or In The Right Of The Corporation. The Corporation shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the Corporation) by reason of the fact that he is or was a director, officer or employee of the Corporation, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with such action, suit or proceeding if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal

C-19

action or proceeding, had no reasonable cause to believe his conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding, had reasonable cause to believe that his conduct was unlawful.

Section 2. Actions By Or In The Right Of The Corporation. The Corporation shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the Corporation to procure a judgment in its favor by reason of the fact that he is or was a director, officer or employee of the Corporation, against expenses (including attorneys' fees) actually and reasonably incurred by him in connection with the defense or settlement of such action or suit if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the Corporation and except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the Corporation unless and only to the extent that the Court of Chancery or the Court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other Court shall deem proper.

Section 3. Right To Indemnification. To the extent that a director, officer or employee of the Corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in Sections 1 and 2 of this Article, or in defense of any claim, issue or matter therein, he shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him in connection therewith.

Section 4. Determination Of Right To Indemnification. Any indemnification under Sections 1 and 2 of this Article (unless ordered by a Court) shall be made by the Corporation only as authorized in the specific case upon a determination that indemnification of the director, officer, or employee is proper in the circumstances because he has met the applicable standard of conduct set forth in Sections 1 and 2 of this Article. Such determination shall be made (i) by the board of directors by a majority vote of a quorum consisting of directors who were not parties to such action, suit or proceeding, or (ii) if such a quorum is not obtainable, or, even if obtainable, a quorum of disinterested directors so directs, by independent legal counsel in a written opinion, or (iii) by the stockholders.

Other Indemnification

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the Depositor pursuant to the foregoing provisions, or otherwise, the Depositor has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event of a claim for indemnification against such liabilities (other than the payment by the Depositor of expenses incurred or paid by a director, officer or controlling person in connection with the securities being registered), the Depositor will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

Item 29. Principal Underwriters

(a) Transamerica Capital, Inc. serves as the principal underwriter for:

Item 30. Location of Accounts and Records

All accounts, books, and records required to be maintained by Section 31(a) of the 1940 Act and the rules promulgated thereunder are maintained by the Manager Regulatory Filing Unit, Merrill Lynch Life Insurance Company at 4333 Edgewood Road, N.E., Cedar Rapids, Iowa 52499-0001; or by the Service Center at 4802 Deer Lake Drive East, Jacksonville, Florida 32246.

Item 31. Not Applicable

Item 32. Undertakings and Representations

(a) Registrant undertakes to file a post-effective amendment to the Registrant Statement as frequently as is necessary to ensure that the audited financial statements in the Registration Statement are never more than 16 months old for so long as payments under the variable annuity contracts may be accepted.

(b) Registrant undertakes to include either (1) as part of any application to purchase a contract offered by the prospectus, a space that an applicant can check to request a statement of additional information, or (2) a postcard or similar written communications affixed to or included in the prospectus that the applicant can remove to send for a statement of additional information.

(c) Registrant undertakes to deliver any statement of additional information and any financial statements required to be made available under this Form promptly upon written or oral request.

(d) Merrill Lynch Life Insurance Company hereby represents that the fees and charges deducted under the Contract, in the aggregate, are reasonable in relation to the services rendered, the expenses expected to be incurred, and the risks assumed by Merrill Lynch Life Insurance Company.

SIGNATURES

As required by the Securities Act of 1933 and the Investment Company Act of 1940, the Registrant hereby certifies that this Amendment to the Registration Statement meets the requirements for effectiveness pursuant to paragraph (b) of Securities Act Rule 485 and has caused this Registration Statement to be signed on its behalf, in the City of Cedar Rapids and State of Iowa, on this 14th day of August, 2009.
