announcing the financial results for the quarter
ended June 30, 2002.

Edgar Filing: NOBLE CORP - Form 8-K

ITEM 9. REGULATION FD DISCLOSURE.

The Registrant hereby incorporates by reference into this Item 9 the information set forth in its press release dated July 25, 2002, which is attached hereto as Exhibit 99.1 and will be published on the Registrant's web site at <http://www.noblecorp.com>. The press release is being furnished in accordance with Rule 101(e)(1) under Regulation FD and shall not be deemed to be filed.

The press release contains forward-looking statements about the Registrant's business, financial condition and prospects. The Registrant's actual results could differ materially from those indicated by the forward-looking statements because of various risks and uncertainties, including, without limitation, changes in United States tax laws, or the enactment of new United States tax laws, that may result in the Registrant being subject to taxation in the United States on its worldwide earnings, other material changes in the tax laws of the United States or other countries in which the Registrant operates which could increase its effective tax rate, volatility in crude oil and natural gas prices, the discovery of significant additional oil and/or gas reserves or the construction of significant oil and/or gas delivery or storage systems that impact regional or worldwide energy markets, potential deterioration in the demand for the drilling services of the Registrant and resulting declining dayrates, changes in customers' drilling programs or budgets due to factors discussed herein or due to their own internal corporate events, the cancellation by customers of drilling contracts or letter agreements or letters of intent for drilling contracts or their exercise of early termination provisions generally found in the Registrant's drilling contracts, intense competition in the drilling industry, changes in oil and gas drilling technology or in competitors' drilling rig fleets that could make the Registrant's drilling rigs less competitive or require major capital investment to keep them competitive, political and economic conditions in the United States and in international markets where the Registrant operates, acts of war or terrorism and the aftermath of the September 11, 2001 terrorist attacks on the United States, cost overruns or delays on shipyard repair, maintenance, conversion or upgrade projects, adverse weather (such as hurricanes) and seas, operational risks (such as blowouts and fires), limitations on the Registrant's insurance coverage, and requirements and potential liability imposed by governmental regulation of the drilling industry (including environmental regulation). All of the foregoing risks and uncertainties are beyond the Registrant's ability to control, and in many cases, the Registrant cannot predict the risks and uncertainties that could cause its actual results to differ materially from those indicated by the forward-looking statements. When used in the report, the words "believes", "anticipates", "expects", "plans" and similar expressions as they relate to the Registrant or its management are intended to identify forward-looking statements.
