APPROXIMATE DATE OF COMMENCEMENT OF PROPOSED SALE TO THE PUBLIC: As soon

Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

as practicable after this Registration Statement becomes effective.

If any of the securities being registered on this form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933, check the following box. [ ]

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. [ ]

If this Form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. [ ]

If this Form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. [ ]

If delivery of the prospectus is expected to be made pursuant to Rule 434, please check the following box. [ ]

THE REGISTRANT HEREBY AMENDS THIS REGISTRATION STATEMENT ON SUCH DATE OR DATES AS MAY BE NECESSARY TO DELAY ITS EFFECTIVE DATE UNTIL THE REGISTRANT SHALL FILE A FURTHER AMENDMENT WHICH SPECIFICALLY STATES THAT THIS REGISTRATION STATEMENT SHALL THEREAFTER BECOME EFFECTIVE IN ACCORDANCE WITH SECTION 8(a) OF THE SECURITIES ACT OF 1933 OR UNTIL THE REGISTRATION STATEMENT SHALL BECOME EFFECTIVE ON SUCH DATE AS THE SECURITIES AND EXCHANGE COMMISSION, ACTING PURSUANT TO SAID SECTION 8(a), MAY DETERMINE.

THE INFORMATION IN THIS PROSPECTUS IS NOT COMPLETE AND MAY BE CHANGED. WE MAY NOT SELL THESE SECURITIES UNTIL THE REGISTRATION STATEMENT FILED WITH THE SECURITIES AND EXCHANGE COMMISSION IS EFFECTIVE. THIS PROSPECTUS IS NOT AN OFFER TO SELL THESE SECURITIES AND IT IS NOT SOLICITING AN OFFER TO BUY THESE SECURITIES IN ANY STATE WHERE THE OFFER OR SALE IS NOT PERMITTED.

SUBJECT TO COMPLETION, DATED OCTOBER 10, 2002

PROSPECTUS

(NATURAL RESOURCE PARTNERS L.P. LOGO)
NATURAL RESOURCE PARTNERS L.P.
4,575,503 COMMON UNITS
REPRESENTING LIMITED PARTNER INTERESTS
\$ PER COMMON UNIT

We are selling 2,598,750 common units and Arch Coal, Inc., as the selling unitholder, is selling 1,901,250 common units. We will not receive any proceeds from the sale of common units by Arch Coal, Inc. We and Arch Coal, Inc. have granted the underwriters a 30-day option to purchase up to an additional 675,000 common units on the same terms and conditions as set forth in this prospectus to cover over-allotments of common units, if any. To the extent the underwriters do not exercise this option in full, affiliates of our general partner will purchase up to an additional 75,503 common units at the initial public offering

Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

price, such that a minimum of 4,575,503 common units will be sold in the offering.

We are a limited partnership recently formed by Western Pocahontas Properties Limited Partnership, Great Northern Properties Limited Partnership, New Gauley Coal Corporation and Arch Coal, Inc. This is the initial public offering of our common units. We expect the initial public offering price to be between \$19.00 and \$21.00 per unit. We intend to make a minimum quarterly distribution of available cash of \$0.5125 per unit, or \$2.05 per unit on an annualized basis, before any distributions are paid on our subordinated units, to the extent we have sufficient cash from operations after establishment of cash reserves and payment of fees and expenses, including payments to our general partner. The common units have been approved for listing on the New York Stock Exchange, subject to official notice of issuance, under the symbol "NRP."

-----  
INVESTING IN THE COMMON UNITS INVOLVES RISK. PLEASE READ "RISK FACTORS" BEGINNING ON PAGE 14.

These risks include the following:

- We may not have sufficient cash from operations to pay the minimum quarterly distribution following establishment of cash reserves and payment of fees and expenses, including payments to our general partner.
- A substantial or extended decline in coal prices could reduce our coal royalty revenues and the value of our coal reserves.
- Our lessees' coal mining operations are subject to operating risks that could result in lower coal royalty revenues to us.
- Our lessees are subject to federal, state and local laws and regulations that may limit their ability to produce and sell coal from our properties.
- We depend on a limited number of primary operators for a significant portion of our coal royalty revenues.
- Due to our lack of asset diversification, adverse developments in the coal industry could reduce our coal royalty revenues.
- A recent federal district court ruling could preclude our lessees from obtaining Clean Water Act permits required for some of their future operations and could also result in the revocation of existing permits.
- The owners of our general partner and their affiliates may engage in substantial competition with us and have other conflicts of interest and limited fiduciary responsibilities that may permit them to favor their own interests to your detriment.
- Even if unitholders are dissatisfied, they cannot easily remove our general partner.
- The control of our general partner may be transferred to a third party without unitholder consent.
- You will experience immediate and substantial dilution of \$6.14 per common unit.
- You may be required to pay taxes on income from us even if you do not receive any cash distributions from us.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR DETERMINED IF THIS PROSPECTUS IS TRUTHFUL OR COMPLETE. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

RISK FACTORS.....	14
Risks Related to Our Business.....	14
We may not have sufficient cash from operations to pay the minimum quarterly distribution following establishment of cash reserves and payment of fees and expenses, including payments to our general partner...	14
A substantial or extended decline in coal prices could reduce our coal royalty revenues and the value of our coal reserves.....	15
Our lessees' coal mining operations are subject to operating risks that could result in lower coal royalty revenues to us.....	15
We depend on a limited number of primary operators for a significant portion of our coal royalty revenues, and the loss of or reduction in production from any of our major operators could reduce our coal royalty revenues.....	16
We may not be able to terminate our leases if any of our lessees declare bankruptcy, and we may experience delays and be unable to replace lessees that do not make royalty payments.....	16
If our lessees do not manage their operations well, their production volumes and our coal royalty revenues could decrease.....	16
Due to our lack of asset diversification, adverse developments in the coal industry could reduce our coal royalty revenues.....	17
Any decrease in the demand for metallurgical coal could result in lower coal production by our lessees, which	

Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

would thereby reduce our coal royalty revenues.....	17
We may not be able to expand and our business will be adversely affected if we are unable to replace or increase our reserves or obtain other mineral reserves through acquisitions.....	17
Any change in fuel consumption patterns by electric power generators resulting in a decrease in the use of coal could result in lower coal production by our lessees, which would reduce our coal royalty revenues.....	17
Current conditions in the coal industry may make it difficult for our lessees to extend existing contracts or enter into supply contracts with terms of one year or more, which could adversely affect the stability and profitability of their operations and adversely affect our coal royalty revenues.....	18
Competition within the coal industry may adversely affect the ability of our lessees to sell coal, and excess production capacity in the industry could put downward pressure on coal prices.....	18
Lessees could satisfy obligations to their customers with coal from properties other than ours, depriving us of the ability to receive amounts in excess of minimum royalty payments.....	19
Fluctuations in transportation costs and the availability or reliability of transportation could reduce the production of coal mined from our properties.....	19
Our reserve estimates depend on many assumptions that may be inaccurate, which could materially adversely affect the quantities and value of our reserves.....	19
Our lessees' work forces could become increasingly unionized in the future.....	19
Regulatory and Legal Risks.....	20
Our lessees are subject to federal, state and local laws and regulations that may limit their ability to produce and sell coal from our properties.....	20
A substantial portion of our coal has a high sulfur content. This coal may become more difficult to sell because the Clean Air Act restricts the ability of electric utilities to burn high sulfur coal.....	21
A recent federal district court ruling could preclude our lessees from obtaining Clean Water Act permits required for some of their future operations and could also result in the revocation of existing permits.....	21

The Clean Air Act affects the end-users of coal and could significantly affect the demand for our coal and reduce our coal royalty revenues.....	22
We may become liable under federal and state mining statutes if our lessees are unable to pay mining reclamation costs.....	23
A recent federal district court decision could limit our lessees' ability to conduct underground mining operations.....	23
Restructuring of the electric utility industry could lead to reduced coal prices.....	24

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

We could become liable under federal and state Superfund and waste management statutes.....	24
Risks Related to Our Partnership Structure.....	24
The WPP Group and Arch Coal may engage in substantial competition with us.....	24
The WPP Group, Arch Coal and their affiliates have conflicts of interest and limited fiduciary responsibilities, which may permit them to favor their own interests to your detriment.....	26
Even if unitholders are dissatisfied, they cannot easily remove our general partner.....	27
The control of our general partner may be transferred to a third party without unitholder consent.....	28
Our general partner's absolute discretion in determining the level of cash reserves may adversely affect our ability to make cash distributions to unitholders.....	28
You will experience immediate and substantial dilution of \$6.14 per common unit.....	28
We may issue additional common units without your approval, which would dilute your existing ownership interests.....	28
Cost reimbursements due our general partner may be substantial and will reduce the cash available for distribution to you.....	29
Our general partner has a limited call right that may require you to sell your units at an undesirable time or price.....	29
Your liability may not be limited if a court finds that unitholder action constitutes control of our business.....	29
Tax Risks to Common Unitholders.....	30
The IRS could treat us as a corporation for tax purposes, which would substantially reduce the cash available for distribution to you.....	30
A successful IRS contest of the federal income tax positions we take may adversely affect the market for our common units, and the cost of any IRS contest will be borne by our unitholders and our general partner...	30
You may be required to pay taxes on income from us even if you do not receive any cash distributions from us.....	30
Tax gain or loss on disposition of common units could be different than expected.....	31
Tax-exempt entities, regulated investment companies and foreign persons face unique tax issues from owning common units that may result in adverse tax consequences to them.....	31
We will register as a tax shelter. This may increase the risk of an IRS audit of us or you.....	31
You will likely be subject to state and local taxes in states where you do not live as a result of an investment in units.....	31

You should rely only on the information contained in this prospectus. We have not, and the underwriters have not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and the underwriters are not, making an offer to sell these securities in any jurisdiction where an offer or sale is not permitted. You should assume that the information appearing in this prospectus is accurate as of the date on the front cover of this prospectus only. Our business, financial condition, results of operations and prospects may have changed since that date.

Until \_\_\_\_\_, 2002 (25 days after the date of this prospectus), all dealers effecting transactions in our common units, whether or not participating in this offering, may be required to deliver a prospectus. This is in addition to the dealers' obligation to deliver a prospectus when acting as underwriters and with respect to their unsold allotments or subscriptions.

vi

#### SUMMARY

This summary highlights information contained elsewhere in this prospectus. It does not contain all of the information that you should consider before investing in the common units. You should read the entire prospectus carefully, including the financial statements and the notes to those statements. The information presented in this prospectus assumes (1) an initial public offering price of \$20.00 per common unit, (2) that the underwriters' over-allotment option is not exercised and (3) that an additional 75,503 common units are purchased by New Gauley Coal Corporation and Great Northern Properties Limited Partnership. We present the reserve information for Natural Resource Partners in this prospectus on a pro forma basis as if the reserves had been contributed to us on December 31, 2001. You should read "Summary of Risk Factors" beginning on page 2 and "Risk Factors" beginning on page 14 for more information about important risks that you should consider before buying common units. In this prospectus, we refer to Western Pocahontas Properties Limited Partnership, Great Northern Properties Limited Partnership and New Gauley Coal Corporation collectively as the WPP Group. The estimates of Arch Coal, Inc.'s and the WPP Group's proven and probable reserves have been audited as of December 31, 2001 by Weir International Mining Consultants and Stagg Resource Consultants, Inc., respectively. Their Coal Reserve Audit Summary Reports have been included in this prospectus as Appendices E and F, respectively. Additionally, we have included a "Glossary of Terms" as Appendix C.

#### NATURAL RESOURCE PARTNERS

We are a limited partnership recently formed by the WPP Group, the largest owner of coal reserves in the United States other than the U.S. government, and Arch Coal, Inc., the second largest U.S. coal producer. We engage principally in the business of owning and managing coal properties in the three major coal-producing regions of the United States: Appalachia, the Illinois Basin and the Western United States. As of December 31, 2001, we controlled approximately 1.15 billion tons of proven and probable coal reserves in eight states. In 2001, our lessees produced 29 million tons of coal from our properties and our total revenues were \$47.2 million on a pro forma basis, including coal royalty revenues of \$42.4 million.

We lease coal reserves to experienced mine operators under long-term leases that grant the operators the right to mine our coal reserves in exchange for

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

royalty payments. Our royalty payments are based on the higher of a percentage of the gross sales price or a fixed price per ton of coal sold, subject to a minimum payment. As of September 1, 2002, our reserves were located on 45 separate properties and are subject to 62 leases with 31 lessees. In 2001, approximately 57% of the coal produced from our properties came from underground mines and 43% came from surface mines. As of December 31, 2001, approximately 65% of our reserves were low sulfur coal. Included in our low sulfur reserves is compliance coal, which meets the standards imposed by the Clean Air Act and constitutes approximately 25% of our reserves. Coal produced from our properties is burned in electric power plants located east of the Mississippi River and in Montana and Minnesota. Approximately 12% of our lessees' 2001 coal production was metallurgical coal, which our lessees sold to steel companies in the Eastern United States, South America, Europe and Asia. The table below shows coal production, coal royalty revenues and reserve tonnage for our properties as of December 31, 2001 on a pro forma basis.

1

### DEMAND FOR COAL

Over the last two decades, total domestic coal consumption in the United States has increased from approximately 733 million tons in 1981 to 1.1 billion tons in 2001. The growth in demand for coal has been primarily driven by growth in electricity consumption. In 2001, electric utilities accounted for approximately 90% of domestic coal consumption.

We believe that demand for coal will continue to grow for the following reasons:

- Demand for electricity will continue to increase as the economy grows. In order to meet the projected increase in demand for electricity, demand for coal by electricity generators is expected to increase by 1.2% per year between 2000 and 2020. We believe much of the projected increase in demand for electricity will be supplied by existing coal-fired power plants because they possess excess capacity that can be utilized at low incremental costs.
- Coal prices have historically been lower and more stable than natural gas prices. The market price of natural gas has historically been more volatile and higher on an energy-equivalent basis than the market price of coal. While new natural gas-fired power plants generally are less

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

expensive to construct than new coal-fired plants, we believe that higher prices and volatility will continue to make natural gas a less attractive energy source than coal for many utilities, particularly for baseload electricity generation.

- There is an abundant supply of coal. Coal makes up approximately 95% of fossil fuel reserves in the United States, with an estimated 250-year supply of coal based on current usage rates.
- Coal is increasingly less polluting. As a result of improved technology and coal consumption trends to lower sulfur coal, sulfur dioxide emissions from U.S. coal-fired power plants have declined by more than 20% since 1970, even as coal consumption for domestic electric power generation has almost tripled.
- Demand for non-compliance coal production will continue. Although the Clean Air Act emission requirements have caused a general shift in demand toward lower sulfur coal, we believe that demand for our medium and high sulfur coal will continue because utilities currently may satisfy the Clean Air Act requirements by (1) burning lower sulfur coal mixed with medium or high sulfur coal, (2) installing pollution control devices, such as scrubbers, to reduce emissions from high sulfur coal or (3) purchasing or trading emission credits.

### SUMMARY OF RISK FACTORS

An investment in our common units involves risks associated with our business, regulatory and legal matters, our partnership structure and the tax characteristics of our common units. Please carefully read the risks relating to these matters under "Risk Factors."

#### RISKS RELATED TO OUR BUSINESS

- We may not have sufficient cash from operations to pay the minimum quarterly distribution following establishment of cash reserves and payment of fees and expenses, including payments to our general partner.
- A substantial or extended decline in coal prices could reduce our coal royalty revenues and the value of our coal reserves.
- Our lessees' coal mining operations are subject to operating risks that could result in lower coal royalty revenues to us.
- We depend on a limited number of primary operators for a significant portion of our coal royalty revenues, and the loss of or reduction in production from any of our major operators could reduce our coal royalty revenues.

2

- We may not be able to terminate our leases if any of our lessees declare bankruptcy, and we may experience delays and be unable to replace lessees that do not make royalty payments.
- If our lessees do not manage their operations well, their production volumes and our coal royalty revenues could decrease.
- Due to our lack of asset diversification, adverse developments in the coal industry could reduce our coal royalty revenues.
- Any decrease in demand for metallurgical coal could result in lower coal production by our lessees, which would thereby reduce our coal royalty

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

revenues.

### REGULATORY AND LEGAL RISKS

- Our lessees are subject to federal, state and local laws and regulations that may limit their ability to produce and sell coal from our properties.
- A substantial portion of our coal has a high sulfur content. This coal may become more difficult to sell because the Clean Air Act restricts the ability of electric utilities to burn high sulfur coal.
- A recent federal district court ruling could preclude our lessees from obtaining Clean Water Act permits required for some of their future operations and could also result in the revocation of existing permits.
- The Clean Air Act affects the end-users of coal and could significantly affect the demand for our coal and reduce our coal royalty revenues.
- We may become liable under federal and state mining statutes if our lessees are unable to pay mining reclamation costs.
- A recent federal district court decision could limit our lessees' ability to conduct underground mining operations.

### RISKS RELATED TO OUR PARTNERSHIP STRUCTURE

- The WPP Group and Arch Coal may engage in substantial competition with us.
- The WPP Group, Arch Coal and their affiliates have conflicts of interest and limited fiduciary responsibilities, which may permit them to favor their own interests to your detriment.
- Even if unitholders are dissatisfied, they cannot easily remove our general partner.
- The control of our general partner may be transferred to a third party without unitholder consent.
- Our general partner's absolute discretion in determining the level of cash reserves may adversely affect our ability to make cash distributions to unitholders.
- You will experience immediate and substantial dilution of \$6.14 per common unit.

### TAX RISKS TO COMMON UNITHOLDERS

- The IRS could treat us as a corporation for tax purposes, which would substantially reduce the cash available for distribution to you.
- A successful IRS contest of the federal income tax positions we take may adversely affect the market for our common units, and the cost of any IRS contest will be borne by our unitholders and our general partner.
- You may be required to pay taxes on income from us even if you do not receive any cash distributions from us.
- Tax gain or loss on disposition of common units could be different than expected.

BUSINESS STRATEGY

We intend to execute the following strategies that we believe reflect our competitive strengths:

- Maximize royalty revenues from our existing properties. We work with our lessees by providing technical knowledge of our reserves, including information about title and geology. We also review mine plans to assure efficient recovery of reserves and periodically audit our lessees to verify that royalties have been properly paid.
- Explore new opportunities with our existing lessees. Our lessees are generally subsidiaries of large coal producers that have long-term plans to expand their operations. We intend to further develop our relationships with our current lessees in order to participate in future opportunities that our lessees may identify for acquiring or leasing new properties.
- Add new lessees to diversify our coal mine operator base. We have identified additional public and private coal mine operators that meet our guidelines as qualified lessee candidates. As we expand our royalty business, we will be seeking new lessees to mine our properties. The addition of these new lessees will allow us to further diversify our coal mine operator base.
- Expand and diversify our coal reserves. We intend to actively pursue opportunities to expand and diversify our reserves by acquiring additional coal properties that generate royalty income. We will review potential reserve acquisitions in all coal producing regions of the United States in order to acquire marketable reserves that we believe will be attractive to lessees. We expect to fund any acquisitions with borrowings under our credit facility and proceeds from the issuance of our common units.

COMPETITIVE STRENGTHS

We believe the following competitive strengths will enable us to execute our business strategies successfully:

- Our royalty structure generates stable production and cash flow. Our leases provide for royalty rates generally equal to the higher of a percentage of the gross sales price or a fixed price per ton of coal, subject to a minimum payment. This structure generally allows our production and cash flow to be stable and predictable in periods of low coal prices, while enabling us to benefit during periods of higher coal prices.
- We do not directly bear operating costs and risks. Because we do not operate any mines, we do not bear ordinary operating costs and have limited direct exposure to environmental compliance, permitting and labor risks, which are principally borne by our lessees, the operators of the mines.
- We primarily lease to large lessees that have a diverse customer base. Our royalty income is primarily from leases to subsidiaries of publicly-held coal companies. In 2001, we derived approximately 76% of our revenues from subsidiaries of seven of the top ten coal producers in the United States.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

- Our reserves are diverse and strategically located. Our reserves are geographically diverse and cover a broad range of heat and sulfur content. By offering both metallurgical and steam coal, our coal reserves are marketable to a diverse customer base, thereby enabling our lessees to adjust to changing markets and sustain sales volumes and prices.
- We are well-positioned to pursue acquisitions of coal reserves and other minerals. The coal royalty business is highly fragmented and characterized by numerous small entities that present potentially attractive acquisition opportunities. In conjunction with this offering, we are entering into a \$100 million credit facility that, combined with our ability to issue additional units, should provide the financial flexibility to pursue acquisitions. Upon the closing of this offering, we anticipate that we will have no outstanding indebtedness.

4

- We have experienced, knowledgeable management. Our management team has a successful record of managing, leasing and acquiring properties. Each member of our management team has at least 20 years of experience in the mining industry.

### OUR RELATIONSHIP WITH THE WPP GROUP AND ARCH COAL

The WPP Group and Arch Coal have a significant interest in our partnership through their combined ownership of a 78.6% limited partner interest and the 2% general partner interest in our partnership. Both the WPP Group and Arch Coal have a history of successfully completing and integrating acquisitions in the coal industry. We expect to pursue acquisitions with the WPP Group and Arch Coal, as well as with other companies. We may acquire coal reserve properties, other mineral properties or producing coal properties, in which event we would expect to work with a coal producing company that would acquire the mine assets and lease the reserves from us. While our relationship with both the WPP Group and Arch Coal should provide significant benefits to us, it is also a source of potential conflict. In addition, the WPP Group and Arch Coal may engage in substantial competition with us. Please read "Conflicts of Interest and Fiduciary Responsibilities" and "Certain Relationships and Related Transactions -- Omnibus Agreement."

5

### PARTNERSHIP STRUCTURE AND MANAGEMENT

Our operations will be conducted through, and our operating assets will be owned by, our subsidiaries. We will own our subsidiaries through an operating company, NRP (Operating) LLC. Upon consummation of the offering of the common units and the related transactions:

- NRP (GP) LP, our general partner, will own the 2% general partner interest in us, as well as 65% of the incentive distribution rights, which entitle the holder to receive a higher percentage of cash distributed in excess of \$0.5625 per unit in any quarter;
- the WPP Group will own 25% of the incentive distribution rights and Arch Coal will own the remaining 10% of the incentive distribution rights;
- we will own 100% of the membership interests in the operating company; and
- the operating company will own 100% of the membership interests in its

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

subsidiaries: NNG LLC, WPP LLC, GNP LLC and ACIN LLC.

Our general partner has sole responsibility for conducting our business and for managing our operations. Because our general partner is a limited partnership, its general partner, GP Natural Resource Partners LLC, will conduct its business and operations and the board of directors and officers of GP Natural Resource Partners LLC will make decisions on behalf of us. Arch Coal owns a 42.25% membership interest in and is entitled to nominate three directors, including one independent director, of GP Natural Resource Partners LLC. Robertson Coal Management LLC, a limited liability company wholly owned by Corbin J. Robertson, Jr., owns a 57.75% membership interest in and is entitled to nominate five directors, including two independent directors, of GP Natural Resource Partners LLC. Corbin J. Robertson, Jr. controls each entity comprising the WPP Group. Mr. Robertson owns the general partner of Western Pocahontas Properties Limited Partnership, 85% of the general partner of Great Northern Properties Limited Partnership and is the Chairman, Chief Executive Officer and controlling stockholder of New Gauley Coal Corporation. For additional disclosure regarding our formation and the negotiations that resulted in the division of responsibilities and ownership, please read "Certain Relationships and Related Transactions."

The senior executives and other officers who currently manage Western Pocahontas Properties Limited Partnership will continue to manage us. They will remain employees of Western Pocahontas Properties Limited Partnership and will allocate varying percentages of their time to managing our operations. Neither our general partner, GP Natural Resource Partners LLC, nor their affiliates will receive any management fee or other compensation in connection with the management of our business but will be entitled to be reimbursed for all direct and indirect expenses incurred on our behalf.

The offices of Western Pocahontas Properties Limited Partnership are located at P.O. Box 2827, 1035 Third Avenue, Suite 300, Huntington, West Virginia 25727 and the telephone number is (304) 522-5757. Our principal executive offices are located at 601 Jefferson Street, Suite 3600, Houston, Texas 77002 and our phone number is (713) 751-7507.

The chart on the following page depicts the organization and ownership of Natural Resource Partners after giving effect to the offering of the common units and the related formation transactions.

6

7

### THE OFFERING

Common units offered by us.... 2,598,750 common units.

2,988,563 common units if the underwriters exercise their over-allotment option from us in full. To the extent the underwriters exercise their over-allotment option, the net proceeds received by us from the sale of 57.75% of the additional units pursuant to the over-allotment option will be used to redeem common units from Western Pocahontas Properties Limited Partnership and New Gauley Coal Corporation. To the extent the underwriters do not exercise this over-allotment option in full, Great

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Northern Properties Limited Partnership and, under certain circumstances, New Gauley Coal Corporation, will purchase up to an aggregate of 75,503 additional common units from us.

Common units offered by Arch Coal as the selling unitholder.....

1,901,250 common units.

2,186,437 common units offered by Arch Coal if the underwriters exercise their over-allotment option in full. We will not receive any proceeds from the sale of common units by Arch Coal.

Units outstanding after this offering.....

11,353,658 common units and 11,353,658 subordinated units, each representing approximately a 49% limited partner interest in us.

Cash distributions.....

We intend to make minimum quarterly distributions of \$0.5125 per common unit to the extent we have sufficient cash from our operations after establishment of cash reserves and payment of fees and expenses, including payments to our general partner. In general, we will pay any cash distributions we make each quarter in the following manner:

- first, 98% to the common units and 2% to the general partner, until each common unit has received a minimum quarterly distribution of \$0.5125 plus any arrearages in the payment of the minimum quarterly distribution from prior quarters;
- second, 98% to the subordinated units and 2% to the general partner, until each subordinated unit has received a minimum quarterly distribution of \$0.5125; and
- third, 98% to all units, pro rata, and 2% to the general partner, until each unit has received a distribution of \$0.5625.

If cash distributions per unit exceed \$0.5625 in any quarter, the holders of the incentive distribution rights will receive, on a pro rata basis, a higher percentage of the cash we distribute in excess of that amount in increasing percentages up to an aggregate of 48%. We refer to these distributions as incentive distributions.

We must distribute all of our cash on hand at the end of each quarter, after payment of fees and expenses, less reserves established by our general partner in its discretion. We refer to this cash as available cash, and we define its meaning in our partnership agreement and in the glossary in Appendix C. The

amount of available cash, if any, at the end of any quarter may be greater than or less than the minimum quarterly distribution.

We believe, based on the assumptions beginning on page 44 of this prospectus, that we will have sufficient cash from operations to enable us to make the minimum quarterly distribution of \$0.5125 on the common units and the subordinated units for each quarter through June 30, 2003. The amount of pro forma cash available for distribution generated during 2001 and the six months ended June 30, 2002 would have been sufficient to allow us to pay the full minimum quarterly distribution on the common units and 70.0% and 80.4%, respectively, of the minimum quarterly distribution on the subordinated units during these periods. Please read "Cash Available for Distribution" and Appendix D to this prospectus for the calculation of our ability to have paid the minimum quarterly distributions during these periods.

Subordination period..... During the subordination period, the subordinated units will not be entitled to receive any distributions until the common units have received the minimum quarterly distribution plus any arrearages from prior quarters. The subordination period will end once we meet the financial tests in the partnership agreement, but it generally cannot end before September 30, 2007. When the subordination period ends, all remaining subordinated units will convert into common units on a one-for-one basis and the common units will no longer be entitled to arrearages.

Early conversion of subordinated units..... If we meet the financial tests in the partnership agreement for any quarter ending on or after September 30, 2005, 25% of the subordinated units will convert into common units. If we meet these tests for any quarter ending on or after September 30, 2006, an additional 25% of the subordinated units will convert into common units. The early conversion of the second 25% of the subordinated units may not occur until at least one year after the early conversion of the first 25% of subordinated units.

Issuance of additional units..... In general, during the subordination period we may issue up to 5,676,829 additional common units, or 50% of the common units outstanding immediately after this offering, without

Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

obtaining unitholder approval. We can also issue an unlimited number of common units for acquisitions that increase cash flow from operations per unit on a pro forma basis, and we can issue additional common units if the proceeds of the issuance are used to repay up to \$25 million of certain of our indebtedness.

Limited voting rights..... Our general partner will manage and operate us. Unlike the holders of common stock in a corporation, you will have only limited voting rights on matters affecting our business. You will have no right to elect our general partner or the directors of GP Natural Resource Partners LLC on an annual or other regular basis. Our general partner may not be removed except by the vote of the holders of at least 66 2/3% of the outstanding units, including units owned by our general partner and its affiliates,

9

voting together as a single class. Upon the consummation of this offering, our general partner and its affiliates will own an aggregate of 80.2% of our common and subordinated units. This will give our general partner the practical ability to prevent its involuntary removal.

Limited call right..... If at any time our general partner and its affiliates own more than 80% of the outstanding common units, our general partner has the right, but not the obligation, to purchase all of the remaining common units at a price not less than their then current market price. Upon completion of this offering, our general partner and its affiliates will own 6,853,658, or 60.4%, of our outstanding common units and will not be able to exercise this call right. If we do not issue any equity securities prior to the expiration of the subordination period, upon the conversion of subordinated units into common units at the end of the subordination period, our general partner and its affiliates will own 80.2% of our outstanding common units and will be able to exercise this call right.

Estimated ratio of taxable income to distributions..... We estimate that if you own the common units that you purchase in this offering through December 31, 2004 you will be allocated, on a cumulative basis, an amount of federal taxable income for that period that will be less than 60% of the cash distributed to you with respect to that period. A substantial portion of the income that will be allocated to you is expected to be long-term capital gain, which for individuals is subject to a significantly lower maximum federal income tax rate

Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

(currently 20%) than ordinary income (currently taxable at a maximum rate of 38.6%). If you are an individual taxable at the maximum rate of 38.6% on ordinary income, the effect of this lower capital gains rate is to produce an after tax return to you that is the same as if the amount of federal ordinary taxable income allocated to you for that period were less than 30% of the cash distributed to you for that period. Please read "Material Tax Consequences -- Tax Consequences of Unit Ownership -- Ratio of Taxable Income to Distributions" for the basis of this estimate.

Exchange listing..... Our common units have been approved for listing on the New York Stock Exchange, or NYSE, subject to official notice of issuance, under the symbol "NRP."

SUMMARY PRO FORMA FINANCIAL AND OPERATING DATA

We derived the summary pro forma combined information by combining the historical financial statements of Western Pocahontas Properties Limited Partnership, Great Northern Properties Limited Partnership, New Gauley Coal Corporation and the Arch Coal Contributed Properties as of June 30, 2002 and for the six months ended June 30, 2002 and the year ended December 31, 2001. We adjusted the summary pro forma combined financial statements to reflect net assets and operations that are not being contributed to us.

The pro forma as adjusted financial statements of Natural Resource Partners L.P. show the pro forma effect of the offering and the related transactions. We derived the summary pro forma as adjusted financial and operating data presented below as of June 30, 2002 and for the six months ended June 30, 2002 and the year ended December 31, 2001 from the unaudited pro forma combined financial statements. The pro forma as adjusted balance sheet assumes the offering and the related transactions occurred as of June 30, 2002, and the pro forma combined statements of revenues and direct costs and expenses assume that the offering and the related transactions occurred as of the beginning of the period presented. A more complete explanation of the pro forma adjustments can be found in "Notes to Pro Forma Financial Statements."

We derived the information in the following table from, and that information should be read together with and is qualified in its entirety by reference to, the audited historical and the unaudited pro forma financial statements and the accompanying notes included elsewhere in this prospectus. You should read the table together with "Management's Discussion and Analysis of Financial Condition and Results of Operations." While the WPP Group will contribute substantially all of its coal royalty producing assets and operations to us, it will retain some assets and liabilities.

-----

- (a) We derived the pro forma combined information by adjusting the historical WPP Group amounts to reflect net assets and operations that are not being contributed to us and by adding the historical Arch Coal Contributed Properties amounts being contributed to us. We also eliminated historical general and administrative expenses for the WPP Group in order to reflect only the direct costs and expenses for its operations.
- (b) The pro forma as adjusted information was derived by adjusting the pro forma combined information for the offering and related transactions.
- (c) We define available cash and operating surplus under "Cash Distribution Policy." Estimated available cash from operating surplus includes annual general and administrative costs of \$4.4 million that reflect our estimates of the costs of operating the properties contributed to us by the WPP Group and Arch Coal and the costs of being a publicly traded partnership. We base these estimates upon currently available information and they are subject to change. Please read "Cash Distribution Policy" and Appendix D. To the extent our general partner and its affiliates incur these costs on our behalf, we will reimburse them prior to making any distribution on the common units.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

- (d) If at any time our general partner and its affiliates own more than 80% of the outstanding common units, our general partner has the right, but not the obligation, to purchase all of the common units at a price not less than their then market price. Upon completion of this offering, our general partner and its affiliates will own 60.4% of the outstanding common units. If we do not issue any equity securities prior to the expiration of the subordination period, upon the conversion of subordinated units into common units at the end of the subordination period, our general partner and its affiliates will own 80.2% of our outstanding common units and will be able to exercise this call right.

12

### SUMMARY OF CONFLICTS OF INTEREST AND FIDUCIARY RESPONSIBILITIES

NRP (GP) LP, our general partner, has a legal duty to manage us in a manner beneficial to our unitholders. This legal duty originates in state statutes and judicial decisions and is commonly referred to as a "fiduciary" duty. Because our general partner and its general partner, GP Natural Resource Partners LLC, are owned by the WPP Group, Robertson Coal Management LLC and Arch Coal, however, the officers and directors of GP Natural Resource Partners LLC also have fiduciary duties to manage GP Natural Resource Partners LLC's and our general partner's business in a manner beneficial to the owners of the WPP Group, Robertson Coal Management LLC and to the stockholders of Arch Coal. The officers of GP Natural Resource Partners LLC have significant relationships with, and responsibilities to, the WPP Group, and the directors of GP Natural Resource Partners LLC have significant relationships with, and responsibilities to, the WPP Group, Robertson Coal Management LLC and Arch Coal. As a result of these relationships, conflicts of interest may arise in the future between us and our unitholders, on the one hand, and our general partner and its affiliates, on the other hand. For a more detailed description of the conflicts of interest and fiduciary responsibilities of our general partner and GP Natural Resource Partners LLC, please read "Conflicts of Interest and Fiduciary Responsibilities."

Our partnership agreement limits the liability and reduces the fiduciary duties owed by our general partner to unitholders. Our partnership agreement also restricts the remedies available to unitholders for actions that might otherwise constitute breaches of our general partner's fiduciary duty. By purchasing a common unit, you are treated as having consented to various actions contemplated in the partnership agreement and conflicts of interest that might otherwise be considered a breach of fiduciary or other duties under applicable state law.

Although the WPP Group and Arch Coal have agreed in the omnibus agreement to restrictions on their ability to compete with us in the leasing of coal reserves, these restrictions are subject to numerous exceptions that will enable the WPP Group and Arch Coal to engage in substantial competition with us should they choose to do so. For a description of the terms of the omnibus agreement that contains these noncompete provisions, please read "Risk Factors -- The WPP Group and Arch Coal may engage in substantial competition with us" and "Certain Relationships and Related Transactions -- Omnibus Agreement."

We will enter into four coal mining leases with Ark Land Company, a subsidiary of Arch Coal. Please read "Certain Relationships and Related Transactions -- Agreements with Ark Land Company" for a description of these leases.

13

# Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

## RISK FACTORS

Limited partner interests are inherently different from capital stock of a corporation, although many of the business risks to which we are subject are similar to those that would be faced by a corporation engaged in a similar business. You should carefully consider the following risk factors together with all of the other information included in this prospectus in evaluating an investment in our common units.

If any of the following risks were actually to occur, our business, financial condition or results of operations could be materially and adversely affected. In that case, we might not be able to pay the minimum quarterly distribution on our common units, the trading price of our common units could decline and you could lose all or part of your investment.

### RISKS RELATED TO OUR BUSINESS

WE MAY NOT HAVE SUFFICIENT CASH FROM OPERATIONS TO PAY THE MINIMUM QUARTERLY DISTRIBUTION FOLLOWING ESTABLISHMENT OF CASH RESERVES AND PAYMENT OF FEES AND EXPENSES, INCLUDING PAYMENTS TO OUR GENERAL PARTNER.

The amount of cash we can distribute on our units principally depends upon the amount of royalties we receive from our lessees, which will fluctuate from quarter to quarter based on, among other things:

- the amount of coal our lessees are able to produce from our properties;
- the price at which our lessees are able to sell coal;
- the level of our operating costs, including payments to our general partner; and
- prevailing economic conditions.

In addition, the actual amount of cash we will have available for distribution will depend on other factors that include:

- the costs of acquisitions, if any;
- fluctuations in our working capital;
- the level of capital expenditures we make;
- the restrictions contained in our debt instruments and our debt service requirements;
- our ability to borrow under our working capital facility to make distributions to our unitholders; and
- the amount, if any, of cash reserves established by our general partner in its discretion.

In determining the number of units and the minimum quarterly distribution, we have made the assumptions set forth in "Cash Available for Distribution" about the factors listed above. These assumptions are inherently uncertain and are subject to significant business, economic, regulatory and competitive risks and uncertainties that could cause actual results to differ materially from those we expect. If these assumptions are not realized, we may not be able to pay the minimum quarterly distribution or any amount on the common units or the subordinated units, in which event the market price of the common units may decline materially.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

You should also be aware that our ability to pay the minimum quarterly distribution each quarter depends primarily on our cash flow, including cash flow from financial reserves and working capital borrowings, and not solely on profitability, which is affected by non-cash items. As a result, we may make cash distributions during periods when we record losses and we may not make distributions during periods when we record net income.

The amount of available cash we need to pay the minimum quarterly distribution for four quarters on the common units, the subordinated units and the general partner interest to be outstanding immediately after the offering is approximately \$47.5 million. If we had completed the transactions contemplated in this prospectus on January 1, 2001, estimated available cash from operating surplus generated during 2001 and

14

the six months ended June 30, 2002 would have been approximately \$40.4 million and \$21.4 million, respectively. These amounts would have been sufficient to allow us to pay the full minimum quarterly distribution on the common units and 70.0% and 80.4%, respectively, of the minimum quarterly distribution on the subordinated units during these periods. For a calculation of our ability to make distributions to unitholders based on our pro forma results, please read "Cash Available for Distribution" and Appendix D.

A SUBSTANTIAL OR EXTENDED DECLINE IN COAL PRICES COULD REDUCE OUR COAL ROYALTY REVENUES AND THE VALUE OF OUR COAL RESERVES.

The prices our lessees receive for their coal depend upon factors beyond their or our control, including:

- the supply of and demand for domestic and foreign coal;
- weather conditions;
- the proximity to and capacity of transportation facilities;
- worldwide economic conditions;
- domestic and foreign governmental regulations and taxes;
- the price and availability of alternative fuels; and
- the effect of worldwide energy conservation measures.

A substantial or extended decline in coal prices could materially and adversely affect us in two ways. First, lower prices may reduce the quantity of coal that may be economically produced from our properties. This, in turn, could reduce our coal royalty revenues and the value of our coal reserves. Second, even if production is not reduced, the royalties we receive on each ton of coal sold may be reduced. Additionally, volatility in coal prices could make it difficult to estimate with precision the value of our coal reserves and any coal reserves that we may consider for acquisition.

OUR LESSEES' COAL MINING OPERATIONS ARE SUBJECT TO OPERATING RISKS THAT COULD RESULT IN LOWER COAL ROYALTY REVENUES TO US.

Our coal royalty revenues are largely dependent on our lessees' level of production from our coal reserves. The level of our lessees' production is subject to operating conditions or events beyond their or our control including:

- the inability to acquire necessary permits or mining or surface rights;

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

- changes or variations in geologic conditions, such as the thickness of the coal deposits and the amount of rock embedded in or overlying the coal deposit;
- changes in governmental regulation of the coal industry or the electric utility industry;
- mining and processing equipment failures and unexpected maintenance problems;
- interruptions due to transportation delays;
- adverse weather and natural disasters, such as heavy rains and flooding;
- labor-related interruptions; and
- fires and explosions.

These conditions may increase our lessees' cost of mining and delay or halt production at particular mines either permanently or for varying lengths of time. Any interruptions to the production of coal from our reserves could reduce our coal royalty revenues.

15

WE DEPEND ON A LIMITED NUMBER OF PRIMARY OPERATORS FOR A SIGNIFICANT PORTION OF OUR COAL ROYALTY REVENUES, AND THE LOSS OF OR REDUCTION IN PRODUCTION FROM ANY OF OUR MAJOR OPERATORS COULD REDUCE OUR COAL ROYALTY REVENUES.

We depend on a limited number of primary operators for a significant portion of our coal royalty revenues. In 2001, the following six operators and their subsidiaries, affiliates or contractors, accounted for approximately 84% of our coal royalty revenues: Arch Coal, Inc. (25%), Massey Energy Company (14%), CONSOL Energy Inc. (12.5%), Western Energy Company (12.5%), Resource Development L.L.C. (11%) and Peabody Energy Corporation (9%). Arch Coal, Massey Energy, Peabody Energy and CONSOL Energy each announced reduced production estimates for 2002, which in some cases have resulted in reduced production on some of our leases. Additionally, we are aware of proposed but unannounced reductions by some of our smaller lessees. If reductions in production by our lessees are implemented on our properties and sustained, our revenues may be substantially affected. Additionally, if a lessee were to experience financial difficulty, the lessee might not be able to pay its royalty payments or continue its operations, which could have a material adverse impact on us.

WE MAY NOT BE ABLE TO TERMINATE OUR LEASES IF ANY OF OUR LESSEES DECLARE BANKRUPTCY, AND WE MAY EXPERIENCE DELAYS AND BE UNABLE TO REPLACE LESSEES THAT DO NOT MAKE ROYALTY PAYMENTS.

A failure on the part of our lessees to make coal royalty payments could give us the right to terminate the lease, repossess the property and enforce payment obligations under the lease. If we repossessed any of our properties, we would seek a replacement lessee. We might not be able to find a replacement lessee and, if we did, we might not be able to enter into a new lease on favorable terms within a reasonable period of time. In addition, the outgoing lessee could be subject to bankruptcy proceedings that could further delay the execution of a new lease or the assignment of the existing lease to another operator. If we enter into a new lease, the replacement operator might not achieve the same levels of production or sell coal at the same price as the lessee it replaced. In addition, it may be difficult for us to secure new or replacement lessees for small or isolated coal reserves, since industry trends

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

toward consolidation favor larger-scale, higher-technology mining operations in order to increase productivity.

IF OUR LESSEES DO NOT MANAGE THEIR OPERATIONS WELL, THEIR PRODUCTION VOLUMES AND OUR COAL ROYALTY REVENUES COULD DECREASE.

We depend on our lessees to effectively manage their operations on our properties. Our lessees make their own business decisions with respect to their operations within the constraints of their leases, including decisions relating to:

- marketing of the coal mined;
- mine plans, including the amount to be mined and the method of mining;
- processing and blending coal;
- credit risk of their customers;
- permitting;
- insurance and surety bonding;
- acquisition of surface rights and other mineral estates;
- employee wages;
- coal transportation arrangements;
- compliance with applicable laws, including environmental laws;
- negotiations and relations with unions; and
- mine closure and reclamation.

16

If our lessees do not manage their operations well, their production could be reduced, which would result in lower coal royalty revenues to us.

DUE TO OUR LACK OF ASSET DIVERSIFICATION, ADVERSE DEVELOPMENTS IN THE COAL INDUSTRY COULD REDUCE OUR COAL ROYALTY REVENUES.

Our coal royalty business generates substantially all of our revenues. Due to our lack of asset diversification, an adverse development in the coal industry would have a significantly greater impact on our financial condition and results of operations than if we owned more diverse assets.

ANY DECREASE IN THE DEMAND FOR METALLURGICAL COAL COULD RESULT IN LOWER COAL PRODUCTION BY OUR LESSEES, WHICH WOULD THEREBY REDUCE OUR COAL ROYALTY REVENUES.

Our lessees produce a significant amount of the metallurgical coal that is used in both the U.S. and foreign steel industries. In 2001, approximately 12% of the coal production from our properties was metallurgical coal that was sold to the steel industry for the manufacture of coke. The steel industry has increasingly relied on electric arc furnaces or pulverized coal processes to make steel. These processes do not use coke. If this trend continues, the amount of metallurgical coal that our lessees mine could further decrease. Additionally, since the amount of steel that is produced is tied to global economic conditions, a decline in those conditions could result in the decline

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

of steel, coke and coal production. Since metallurgical coal is priced higher than steam coal, some mines on our properties may only operate profitably if all or a portion of their production is sold as metallurgical coal. If they are unable to sell metallurgical coal, these mines may not be economically viable and may close.

WE MAY NOT BE ABLE TO EXPAND AND OUR BUSINESS WILL BE ADVERSELY AFFECTED IF WE ARE UNABLE TO REPLACE OR INCREASE OUR RESERVES OR OBTAIN OTHER MINERAL RESERVES THROUGH ACQUISITIONS.

Because our reserves decline as our lessees mine our coal, our future success and growth depend, in part, upon our ability to acquire additional coal reserves or other mineral reserves that are economically recoverable. If we are unable to replace or increase our coal reserves or acquire other mineral reserves on acceptable terms, our royalty revenues will decline as our reserves are depleted. In addition, if we are unable to successfully integrate the companies, businesses or properties we are able to acquire, our royalty revenues may decline and we could experience a material adverse effect on our business, financial condition or results of operations. If we acquire additional reserves, there is a possibility that any acquisition could be dilutive to earnings and reduce our ability to make distributions to unitholders. Any debt we incur to finance an acquisition may similarly affect our ability to make distributions to unitholders. Our ability to make acquisitions in the future also could be limited by restrictions under our existing or future debt agreements, competition from other mineral companies for attractive properties or the lack of suitable acquisition candidates. Please read "Management's Discussion and Analysis of Financial Condition and Results of Operations -- Description of Credit Facility" for a discussion of restrictions on our ability to borrow funds to pay for acquisitions.

ANY CHANGE IN FUEL CONSUMPTION PATTERNS BY ELECTRIC POWER GENERATORS RESULTING IN A DECREASE IN THE USE OF COAL COULD RESULT IN LOWER COAL PRODUCTION BY OUR LESSEES, WHICH WOULD REDUCE OUR COAL ROYALTY REVENUES.

Domestic electric power generation accounts for approximately 90% of domestic coal consumption. The amount of coal consumed for domestic electric power generation is affected primarily by the overall demand for electricity, the price and availability of competing fuels for power plants such as natural gas, nuclear, fuel oil and hydroelectric power and environmental and other governmental regulations. We expect many new power plants will be built to produce electricity during peak periods of demand. Many of these new power plants will likely be fired by natural gas because of lower construction costs compared to coal-fired plants and because natural gas is a cleaner burning fuel. As discussed under "-- Regulatory and Legal Risks," the increasingly stringent requirements of the Clean Air Act may result in more electric power generators shifting from coal to natural gas-fired power plants.

17

CURRENT CONDITIONS IN THE COAL INDUSTRY MAY MAKE IT DIFFICULT FOR OUR LESSEES TO EXTEND EXISTING CONTRACTS OR ENTER INTO SUPPLY CONTRACTS WITH TERMS OF ONE YEAR OR MORE, WHICH COULD ADVERSELY AFFECT THE STABILITY AND PROFITABILITY OF THEIR OPERATIONS AND ADVERSELY AFFECT OUR COAL ROYALTY REVENUES.

As electric utilities adjust to the Phase II requirements of the Clean Air Act and the possible deregulation of their industry, they are becoming increasingly less willing to enter into coal supply contracts with terms of more than one year. Instead, these utilities are purchasing higher percentages of coal on the spot market. The industry shift away from long-term supply contracts could adversely affect our lessees, and the level of our royalties, in several ways. First, fewer electric utilities will have a contractual obligation to

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

purchase coal from our lessees, thereby increasing the risk that our lessees will not have a market for their coal production. Second, the prices our lessees receive in the spot market may be less than a contractual price an electric utility is willing to pay for a committed supply. Finally, spot market prices tend to be more volatile than contractual prices, which could result in decreased coal royalty revenues and adversely affect our ability to pay the minimum quarterly distribution in any one quarter.

In addition, price adjustment, price reopener and other similar provisions in supply contracts with terms of one year or more may reduce the protection from short-term coal price volatility traditionally provided by such contracts. Some coal supply contracts contain provisions which allow for the price at which coal is purchased to be renegotiated at periodic intervals. These price reopener provisions may automatically set a new price based on the prevailing market price or, in some instances, require the parties to agree on a new price. In some circumstances, failure of the parties to agree on a price under a price reopener provision can lead to termination of the contract. Any adjustment or renegotiation leading to a significantly lower contract price could result in decreased coal royalty revenues. Accordingly, supply contracts with terms of one year or more may provide only limited protection during adverse market conditions.

Some supply contracts also contain provisions which allow the customer to suspend or terminate performance under the contract upon the occurrence or continuation of specified events. These events typically include:

- the inability of our lessees to deliver the volume or qualities of coal specified;
- changes in the Clean Air Act rendering use of coal inconsistent with the customer's pollution control strategies; and
- the occurrence of events beyond the reasonable control of the affected party, including labor disputes, mechanical malfunctions and changes in government regulations.

COMPETITION WITHIN THE COAL INDUSTRY MAY ADVERSELY AFFECT THE ABILITY OF OUR LESSEES TO SELL COAL, AND EXCESS PRODUCTION CAPACITY IN THE INDUSTRY COULD PUT DOWNWARD PRESSURE ON COAL PRICES.

Our lessees compete with numerous other coal producers in various regions of the United States for domestic sales. During the mid-1970s and early 1980s, increased demand for coal attracted new investors to the coal industry, spurred the development of new mines and resulted in additional production capacity throughout the industry, all of which led to increased competition and lower coal prices. Any increases in coal prices could also encourage the development of expanded capacity by new or existing coal producers. Any resulting overcapacity could reduce coal prices and therefore reduce our coal royalty revenues.

Competition from coal with lower production costs shipped east from western coal mines has resulted in increased competition for coal sales in the Appalachian region and the Illinois Basin. This competition could result in decreased market share for our lessees operating in these regions and decreased coal royalty revenues to us.

The amount of coal exported from the United States has declined over the last few years due to adverse economic conditions in Asia and the higher relative cost of U.S. coal due to the strength of the U.S. dollar. In addition, the recently imposed tariff on steel imports could exacerbate this decline in coal

exports. This decline could cause competition among coal producers in the United States to intensify, potentially resulting in additional downward pressure on coal prices.

LESSEES COULD SATISFY OBLIGATIONS TO THEIR CUSTOMERS WITH COAL FROM PROPERTIES OTHER THAN OURS, DEPRIVING US OF THE ABILITY TO RECEIVE AMOUNTS IN EXCESS OF MINIMUM ROYALTY PAYMENTS.

Coal supply contracts do not generally require operators to satisfy their obligations to their customers with coal mined from specific reserves. Several factors may influence a lessee's decision to supply its customers with coal mined from properties we do not own or lease, including the royalty rates under the lessee's lease with us, mining conditions, mining operations costs, cost and availability of transportation, and customer coal specifications. If a lessee satisfies its obligations to its customers with coal from properties we do not own or lease, production on our properties will decrease and we will receive lower coal royalty revenues.

FLUCTUATIONS IN TRANSPORTATION COSTS AND THE AVAILABILITY OR RELIABILITY OF TRANSPORTATION COULD REDUCE THE PRODUCTION OF COAL MINED FROM OUR PROPERTIES.

Transportation costs represent a significant portion of the total cost of coal for the customers of our lessees. Increases in transportation costs could make coal a less competitive source of energy or could make coal produced by some or all of our lessees less competitive than coal produced from other sources. On the other hand, significant decreases in transportation costs could result in increased competition for our lessees from coal producers in other parts of the country.

Our lessees depend upon railroads, barges, trucks and beltlines to deliver coal to their customers. Disruption of these transportation services due to weather-related problems, mechanical difficulties, strikes, lockouts, bottlenecks and other events could temporarily impair the ability of our lessees to supply coal to their customers. Our lessees' transportation providers may face difficulties in the future that may impair the ability of our lessees to supply coal to their customers, resulting in decreased coal royalty revenues to us.

OUR RESERVE ESTIMATES DEPEND ON MANY ASSUMPTIONS THAT MAY BE INACCURATE, WHICH COULD MATERIALLY ADVERSELY AFFECT THE QUANTITIES AND VALUE OF OUR RESERVES.

Our reserve estimates may vary substantially from the actual amounts of coal our lessees may be able to economically recover from our reserves. There are numerous uncertainties inherent in estimating quantities of reserves, including many factors beyond our control. Estimates of coal reserves necessarily depend upon a number of variables and assumptions, any one of which may, if incorrect, result in an estimate that varies considerably from actual results. These factors and assumptions relate to:

- future coal prices, operating costs, capital expenditures, severance and excise taxes, and development and reclamation costs;
- future mining technology improvements;
- the effects of regulation by governmental agencies; and
- geologic and mining conditions, which may not be fully identified by available exploration data and may differ from our experiences in areas where our lessees currently mine.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Actual production, revenue and expenditures with respect to our reserves will likely vary from estimates, and these variations may be material. As a result, you should not place undue reliance on the coal reserve data included in this prospectus.

OUR LESSEES' WORK FORCES COULD BECOME INCREASINGLY UNIONIZED IN THE FUTURE.

Eight mines on our properties are operated by unionized employees of our lessees or their affiliates. Our lessees' employees could become increasingly unionized in the future. Some labor unions active in our lessees' areas of operations are attempting to organize the employees of some of our lessees. If some or all

19

of our lessees' non-unionized operations were to become unionized, it could adversely affect their productivity, increase costs and increase the risk of work stoppages. In addition, our lessees' operations may be adversely affected by work stoppages at unionized companies, particularly if union workers were to orchestrate boycotts against our lessees' operations. Any further unionization of our lessees' employees could adversely affect the stability of production from our reserves and reduce our coal royalty revenues.

### REGULATORY AND LEGAL RISKS

OUR LESSEES ARE SUBJECT TO FEDERAL, STATE AND LOCAL LAWS AND REGULATIONS THAT MAY LIMIT THEIR ABILITY TO PRODUCE AND SELL COAL FROM OUR PROPERTIES.

Our lessees may incur substantial costs and liabilities under increasingly strict federal, state and local environmental, health and safety and endangered species laws, including regulations and governmental enforcement policies. Failure to comply with these laws and regulations may result in the assessment of administrative, civil and criminal penalties, the imposition of cleanup and site restoration costs and liens, the issuance of injunctions to limit or cease operations, the suspension or revocation of permits and other enforcement measures that could have the effect of limiting production from our lessees' operations. Our lessees may also incur costs and liabilities resulting from claims for damages to property or injury to persons arising from their operations. If our lessees are pursued for these sanctions, costs and liabilities, their mining operations and, as a result, our coal royalty revenues, could be adversely affected.

For example, in January 2002, the West Virginia Department of Environmental Protection entered an order finding a pattern of violations relating to water quality by Marfork Coal Company, a subsidiary of Massey Energy Company, and suspending its permit for operations adjacent to the Dorothy-Sarita property for 14 days. Marfork Coal filed an appeal and obtained a stay of enforcement of this order. The Surface Mining Board heard the appeal and reduced the suspension to nine days. Marfork Coal has appealed this decision to the circuit court and a hearing has been set for November 22, 2002. The circuit court has granted a stay of the suspension that will end 60 days following the November 22 hearing. The show cause order issued to Marfork Coal could also have an impact on the longwall mining operations of another subsidiary of Massey Energy, Performance Coal, that are conducted at the Eunice property because coal mined from this part of the Eunice property is sent to the Marfork Coal preparation plant for processing. If this show cause order is not resolved on favorable terms, the permits issued to Massey Energy and its subsidiaries could be suspended or revoked and production could be decreased at mines on the Dorothy-Sarita property and at the longwall mine operated by Performance Coal at the Eunice property, reducing our coal royalty revenues.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

If these permits are revoked, Massey Energy and its subsidiaries could be prohibited from obtaining additional permits. In the event of future violations at these properties or at other properties operated by these entities, the existence of those orders may increase the nature and gravity of any sanctions sought in the event that the state decides to pursue any enforcement.

Recently, water from a mine operated by Marfork Coal has leaked through the subsurface strata, resulting in a discharge of water into water from a nearby creek. This discharge is from a mine that is not on our property, but it is possible that Marfork Coal could be subject to further enforcement actions that could impact its ability to continue mining on our property, or that this could be taken into account in connection with the show cause order discussed above.

During its 2002 session, the West Virginia House of Representatives considered legislation that, if passed, would have significantly increased the scope of powers available to enforce the current weight restrictions on trucks carrying coal. Past sessions of the legislature have considered, but not adopted, similar legislation. The legislature and the governor appointed a task force to study the issue, and the task force issued a report recommending legislation that would raise the weight limits on the trucks, but would increase the number of required safety inspections and the amounts of registration fees and fines imposed for violations. The legislature has not yet acted on this recommendation. If increased enforcement of the existing weight restrictions continues, the costs of transporting coal in the state would increase. An increase

20

in transportation costs could have an adverse effect on our lessees' ability to increase or to maintain production on our properties and a similar adverse effect on our coal royalty revenues.

Some species indigenous to our properties are protected under the Endangered Species Act. Federal and state legislation for the protection of endangered species may have the effect of prohibiting or delaying our lessees from obtaining mining permits and may include restrictions on road building and other mining activities in areas containing the affected species. Additional species on our properties may receive protected status, and currently protected species may be discovered within our properties. Either event could result in increased costs to us or our lessees.

New environmental legislation and new regulations under existing environmental laws, including regulations to protect endangered species, could further regulate or tax the coal industry and may also require our lessees to change their operations significantly or to incur increased costs which could decrease our coal royalty revenues. Please read "Business -- Regulation."

A SUBSTANTIAL PORTION OF OUR COAL HAS A HIGH SULFUR CONTENT. THIS COAL MAY BECOME MORE DIFFICULT TO SELL BECAUSE THE CLEAN AIR ACT RESTRICTS THE ABILITY OF ELECTRIC UTILITIES TO BURN HIGH SULFUR COAL.

In 1995, Phase I of the Clean Air Act required high sulfur coal plants to reduce their emissions of sulfur dioxide to 2.5 pounds or less per million Btus, and in 2000, Phase II of the Clean Air Act tightened these sulfur dioxide restrictions further to 1.2 pounds of sulfur dioxide per million Btus. These restrictions may significantly reduce the demand by electric utilities for high sulfur coal. Currently, electric utilities operating coal-fired plants can purchase credits that allow them to comply with the sulfur dioxide emission compliance requirements. Many of the power plants supplied by our lessees do not currently have scrubbers. As of December 31, 2001, 75% of our coal reserves were not compliance coal. If our lessees' customers, or their potential customers in

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

our market areas, choose not to purchase our noncompliance coal, our lessees may be unable to find other buyers for this coal at current price and volume levels, which could materially adversely affect our revenues and our ability to make distributions to our unitholders. See "Business -- Regulation -- Clean Air Act" for a description of the Phase II requirements of the Clean Air Act.

A RECENT FEDERAL DISTRICT COURT RULING COULD PRECLUDE OUR LESSEES FROM OBTAINING CLEAN WATER ACT PERMITS REQUIRED FOR SOME OF THEIR FUTURE OPERATIONS AND COULD ALSO RESULT IN THE REVOCATION OF EXISTING PERMITS.

On May 8, 2002, the United States District Court for the Southern District of West Virginia issued an order in *Kentuckians for the Commonwealth v. Rivenburgh* enjoining the Huntington, West Virginia office of the U.S. Army Corps of Engineers from issuing permits under Section 404 of the Clean Water Act for the construction of valley fills for the disposal of overburden from mountaintop mining operations solely for the purpose of waste disposal. These valleys typically contain streams that, under the Clean Water Act, are considered navigable waters of the United States. The court held that the filling of these waters solely for waste disposal is a violation of the Clean Water Act. The effect of this injunction, if it is not overturned by an appellate court or subsequent legislation, will be to make mountaintop mining uneconomical in those areas subject to the injunction. We would be materially affected by this injunction because a substantial number of mountaintop mining valley fill permits required to be obtained by our lessees would need to be issued by the Huntington, West Virginia office of the U.S. Army Corps of Engineers.

The court's injunction also prohibits the issuance of permits authorizing fill activities associated with types of mining activities other than mountaintop mining where the primary purpose or use of those fill activities is the disposal of waste. Such activities might include those associated with slurry impoundments and coal refuse disposal areas. If the injunction is not overturned by an appellate court or subsequent legislation, our lessees may not be able to obtain permits in many cases to use these common fill activities, which could render these operations uneconomical. Any consequent reduction or cessation of their operations would reduce mining on our properties and our royalty revenue.

21

Following the issuance of the court's May 8, 2002 order, the plaintiff in the *Kentuckians* case filed a motion for further injunctive relief requesting that the court require the Huntington, West Virginia office of the U.S. Army Corps of Engineers to revoke the Section 404 valley fill permit identified in the plaintiff's complaint. In addition, various defendants and intervenors filed motions seeking a clarification of the court's order, a stay pending appeal, and a dismissal for failure to join a necessary party. In response to the defendants' motion for clarification, the court decided that its injunction applies to any fill activity that does not have a "constructive primary purpose," citing as an example fills used solely for the disposal of waste. The court noted that such fills could include not only valley fills, but also other mining activities such as refuse impoundments, fills from standard contour or surface mines, or fills related to mine sites with "approximate original contour" waivers. The court noted, however, that determining whether a particular fill has a "constructive primary purpose" is up to the technical expertise of the U.S. Army Corps of Engineers. The court denied both the defendants' motion for stay pending appeal and their motion for dismissal. Both the U.S. Army Corps of Engineers and the industry parties that have intervened in the lawsuit have appealed this ruling to the Fourth Circuit Court of Appeals.

We are unable to predict the ultimate outcome of this decision or the impact this decision may have on our lessees' operations and, therefore, our

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

results of operations. The ruling could be upheld or reversed on appeal, settled by the parties or overturned by legislation, and this process could take several years to complete. If the decision is ultimately upheld in whole or in part on appeal, we cannot predict how it would be interpreted or implemented by the applicable governmental agencies or courts. Future litigation could result from ambiguities in the current order or ambiguities contained in future orders or decisions. In addition, although this ruling applies only to the Huntington, West Virginia office of the U.S. Army Corps of Engineers, future litigation, including appellate review of this case, could ultimately broaden its applicability to other offices of the U.S. Army Corps of Engineers, including offices which have issued and may issue in the future permits to our lessees for mining on our properties. We are also uncertain as to whether this ruling would impact only our lessees' future permits, or whether it would also apply to renewals of permits or to existing permits.

If lawsuits challenging our lessees' permits were successful, our lessees would be required to suspend or cease their surface mining on our properties. If the decision is not overturned on appeal or by new legislation, we would suffer a material decrease in our royalty revenue. Please read "Business -- Regulation -- Clean Water Act."

THE CLEAN AIR ACT AFFECTS THE END-USERS OF COAL AND COULD SIGNIFICANTLY AFFECT THE DEMAND FOR OUR COAL AND REDUCE OUR COAL ROYALTY REVENUES.

The Clean Air Act and corresponding state and local laws extensively regulate the amount of sulfur dioxide, particulate matter, nitrogen oxides and other compounds emitted from industrial boilers and power plants, including those that use our coal. These regulations constitute a significant burden on coal customers and stricter regulation could adversely affect the demand for and price of our coal, especially higher sulfur coal, resulting in lower coal royalty revenues.

In July 1997, the U.S. Environmental Protection Agency adopted more stringent ambient air quality standards for particulate matter and ozone. Particulate matter includes small particles that are emitted during the coal combustion process. In a February 2001 decision, the U.S. Supreme Court largely upheld the EPA's position, although it remanded the EPA's ozone implementation policy for further consideration. On remand, the Court of Appeals for the D.C. Circuit affirmed the EPA's adoption of these more stringent ambient air quality standards. As a result of the finalization of these standards, states that have not attained these standards will have to revise their State Implementation Plans to include provisions for the control of ozone precursors and/or particulate matter. Revised State Implementation Plans could require electric power generators to further reduce nitrogen oxide and particulate matter emissions. The potential need to achieve such emissions reductions could result in reduced coal consumption by electric power generators. Thus, future regulations regarding ozone, particulate matter and other by-products of coal combustion could restrict the market for coal and the development of new mines by our lessees. This

22

in turn may result in decreased production by our lessees and a corresponding decrease in our coal royalty revenues.

Furthermore, in October 1998, the EPA finalized a rule that will require 19 states in the Eastern United States that have ambient air quality problems to make substantial reductions in nitrogen oxide emissions by the year 2004. To achieve these reductions, many power plants will be required to install additional control measures. The installation of these measures will make it more costly to operate coal-fired power plants and, depending on the

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

requirements of individual state implementation plans, could make coal a less attractive fuel.

Additionally, the U.S. Department of Justice, on behalf of the EPA, has filed lawsuits against several investor-owned electric utilities and brought an administrative action against one government-owned electric utility for alleged violations of the Clean Air Act. The EPA claims that the power plants operated by these utilities have failed to obtain permits required under the Clean Air Act for facility modifications. Our lessees supply coal to some of the affected utilities, and it is possible that other of our lessees' customers will be sued. These lawsuits could require the affected utilities to pay penalties and install pollution control equipment or undertake other emission reduction measures, which could adversely affect their demand for coal. Any outcome that adversely affects our lessees' customers and their demand for coal could adversely affect our coal royalty revenues.

Other proposed initiatives may have an effect upon our lessees' coal operations. One such proposal is the Bush Administration's recently announced Clear Skies Initiative. As proposed, this initiative is designed to reduce emissions of sulfur dioxide, nitrogen oxides and mercury from power plants. Other so-called multi-pollutant bills, which could regulate additional air pollutants, have been proposed in Congress. While the details of all of these proposed initiatives vary, there appears to be a movement towards increased regulation of a number of air pollutants. Were such initiatives enacted into law, power plants could choose to shift away from coal as a fuel source to meet these requirements.

The Clean Air Act also imposes standards on sources of hazardous air pollutants. Although these standards have not yet been extended to coal mining operations, the EPA recently announced that it will regulate hazardous air pollutants from coal-fired power plants. Under the Clean Air Act, coal-fired power plants will be required to control hazardous air pollution emissions by approximately 2009. These controls are likely to require significant new investments in controls by power plant owners. Like other environmental regulations, these standards and future standards could result in a decreased demand for coal. Please read "Business -- Regulation -- Clean Air Act."

WE MAY BECOME LIABLE UNDER FEDERAL AND STATE MINING STATUTES IF OUR LESSEES ARE UNABLE TO PAY MINING RECLAMATION COSTS.

The Surface Mining Control and Reclamation Act of 1977, or SMCRA, and state statutes adopted pursuant to SMCRA impose various permitting and operational requirements on mine operators. In addition, SMCRA assigns to operators the responsibility of restoring the land to its approximate original contour or compensating the surface owner for types of damages occurring as a result of mining operations, and requires mine operators to post performance bonds to ensure compliance with any reclamation obligations. Regulatory authorities may attempt to assign the liabilities of our lessees to us if any of our lessees are not financially capable of fulfilling those obligations. Please read "Business -- Regulation."

A RECENT FEDERAL DISTRICT COURT DECISION COULD LIMIT OUR LESSEES' ABILITY TO CONDUCT UNDERGROUND MINING OPERATIONS.

On March 29, 2002, the U.S. District Court for the District of Columbia issued a ruling that could restrict underground mining activities conducted in the vicinity of public roads, within a variety of federally protected lands, within national forests and within a certain proximity of occupied dwellings. The lawsuit, Citizens Coal Council v. Norton, was filed in February 2000 to challenge regulations issued by the Department of Interior providing, among other things, that subsidence and underground activities that may lead to subsidence are not surface mining activities within the meaning of SMCRA. SMCRA

generally

23

contains restrictions and certain prohibitions on the locations where surface mining activities can be conducted. The District Court entered summary judgment upon the plaintiffs' claims that the Secretary of the Interior's determination violated SMCRA. By order dated April 9, 2002, the court remanded the regulations to the Secretary of the Interior for reconsideration.

None of the deep mining activities undertaken on our properties are within the federally protected lands or national forests where SMCRA restricts surface mining, or within any real proximity to occupied dwellings. However, this case poses a potential restriction on underground mining within 100 feet of a public road. If these SMCRA restrictions ultimately apply to underground mining, considerable uncertainty would exist about the nature and extent of this restriction.

The significance of this decision for the coal mining industry remains unclear because this ruling is subject to appellate review. The Department of Interior and the National Mining Association, a trade group that intervened in this action, appealed the ruling and sought a stay of the order pending appeal to the U.S. Court of Appeals for the District of Columbia Circuit and the stay was granted. If the District Court's decision is not overturned, or if some legislative solution is not enacted, this ruling could have a material adverse affect on all coal mine operations that utilize underground mining techniques, including those of our lessees. While it may still be possible to obtain permits for underground mining operations in these areas, the time and expense of that permitting process are likely to increase significantly.

#### RESTRUCTURING OF THE ELECTRIC UTILITY INDUSTRY COULD LEAD TO REDUCED COAL PRICES.

A number of states and the District of Columbia have passed legislation to allow retail price competition in the electric utility industry. If ultimately implemented at both the state and federal levels, restructuring of the electric utility industry is expected to compel electric utilities to be more aggressive in developing and defending market share, to be more focused on their pricing and cost structures and to be more flexible in reacting to changes in the market. Congress is currently contemplating legislation that would further enhance competition in the electric industry. We believe that a fully competitive electricity market may put downward pressure on fuel prices, including coal, because electric utilities will be competing with other suppliers and will no longer necessarily be able to pass increased fuel costs on to their customers. In addition, some of these initiatives may or do mandate the increased use of alternative or renewable fuels as alternatives to burning fossil fuels.

#### WE COULD BECOME LIABLE UNDER FEDERAL AND STATE SUPERFUND AND WASTE MANAGEMENT STATUTES.

The Comprehensive Environmental Response, Compensation and Liability Act, known as CERCLA or "Superfund," and similar state laws create liabilities for the investigation and remediation of releases and threatened releases of hazardous substances to the environment and damages to natural resources. As landowners, we are potentially subject to liability for these investigation and remediation obligations. Please read "Business -- Regulation."

#### RISKS RELATED TO OUR PARTNERSHIP STRUCTURE

THE WPP GROUP AND ARCH COAL MAY ENGAGE IN SUBSTANTIAL COMPETITION WITH US.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

We rely on the employees of our general partner's affiliates, including the WPP Group, to conduct our business. Although the WPP Group and Arch Coal have agreed in the omnibus agreement to some restrictions on their ability to compete with us in the leasing of coal reserves, these restrictions are subject to numerous exceptions that will enable the WPP Group and Arch Coal to engage in substantial competition with us should they choose to do so. The restrictions on Arch Coal's ability to compete with us are materially less burdensome than the restrictions on the WPP Group. The partnership agreement provides that engaging in competitive activities by Arch Coal and the WPP Group that are not prohibited by the omnibus agreement will not constitute a breach of their fiduciary duties to us or the unitholders. To the extent that Arch Coal or the WPP Group competes with us, our growth prospects may be reduced and our results of operations and financial condition may be materially adversely affected. Furthermore, because they control us, the WPP Group and Arch Coal may have information regarding our operations

24

and business strategies that may give them an advantage in competing with us that a third-party competitor would not have.

The exceptions to the noncompete obligations of the WPP Group and Arch Coal include the following:

- The WPP Group or Arch Coal may lease their owned coal reserves within the United States to affiliates. For example, Arch Coal or an Arch Coal subsidiary may acquire new coal reserves and lease them directly to an operating subsidiary of Arch Coal and collect royalties on the lease without offering us the opportunity to acquire these reserves.
- The WPP Group or Arch Coal may compete with us as long as the fair market value of the assets of any competing business are \$10 million or less; provided, that with respect to the WPP Group, the total value of all competing businesses do not exceed \$75 million. In addition, with respect to the WPP Group, any coal reserves that are owned and unleased at the time of the closing of the offering that are subsequently leased to third parties will not be considered in calculating the \$75 million limitation.
- In certain circumstances, the WPP Group and Arch Coal will be required to offer a competing business to us for purchase, but if they make a good faith decision in their sole discretion not to accept our offer, they will be able to continue to own and operate the business in competition with us. There is no provision in the omnibus agreement requiring the WPP Group or Arch Coal to sell the business to us at a fair market value determined by a third party investment banking firm or appraiser.
- Arch Coal may buy an interest in a competing business that is a general partner interest or a managing member interest in a limited liability company provided it divests itself of such interest within six months of acquisition or it offers us the opportunity to buy its interest. If, however, Arch Coal is unable to divest its interest in the competing business within six months of acquisition despite a good faith, commercially reasonable attempt to do so, and Arch has not received an extension from our conflicts committee or has not offered us the opportunity to buy its competing interest, then Arch Coal may opt to either (1) have its designated directors immediately resign from the board of directors of our general partner, in which case Arch Coal may continue to own and operate the competing business but will continue to relinquish its rights to designate directors of our general partner until such time as it divests the competing business, or (2) hire an independent investment banking firm to determine the fair market value of the competing business. If Arch Coal elects to obtain an independent

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

valuation of its competing business, then:

- if Arch Coal and our general partner (with the concurrence of the conflicts committee) agree upon the price of the competing business, our partnership will purchase the competing business;
- if Arch Coal seeks to sell the competing business to our partnership at the price determined by the investment banking firm and our general partner (with the concurrence of the conflicts committee) declines to purchase the competing business, Arch Coal will be free to continue to own and operate the competing business;
- if Arch Coal does not wish to sell the competing business to our partnership at the price determined by the investment banking firm and our general partner (with the concurrence of the conflicts committee) seeks to purchase the competing business at such price, then Arch Coal's designated directors must immediately resign from the board of directors of our general partner, in which case Arch Coal may continue to own and operate the competing business. Arch Coal will continue to relinquish its rights to designate directors to our general partner until it divests the competing business.
- There is no restriction on the ability of the WPP Group and Arch Coal to compete with us in the ownership and operation of other businesses, including the leasing of other mineral properties such

25

as oil and gas and iron ore. It is our strategy to diversify into the acquisition of mineral properties in addition to coal properties.

- There is no restriction on the ability of the WPP Group and Arch Coal to own a noncontrolling equity interest in a competing business, including an economic stake that is greater than their stake in us.

If the WPP Group or Arch Coal, as applicable, ceases to participate in the control of our general partner, then it will no longer be bound by the noncompetition provisions of the omnibus agreement.

Please see "Certain Relationships and Related Transactions -- Omnibus Agreement" for a description of the omnibus agreement.

THE WPP GROUP, ARCH COAL AND THEIR AFFILIATES HAVE CONFLICTS OF INTEREST AND LIMITED FIDUCIARY RESPONSIBILITIES, WHICH MAY PERMIT THEM TO FAVOR THEIR OWN INTERESTS TO YOUR DETRIMENT.

Following the offering, the WPP Group, Arch Coal and their affiliates will own an aggregate of 80.2% of our common and subordinated units and together will own and control our general partner. Conflicts of interest may arise between the WPP Group, Arch Coal and their affiliates, including our general partner, on the one hand, and us and our unitholders, on the other hand. As a result of these conflicts, our general partner may favor its own interests and the interests of its affiliates over the interests of the unitholders. These conflicts include, among others, the following situations:

- Some officers of the WPP Group, who will provide services to us, will also devote significant time to the businesses of the WPP Group and will be compensated by the WPP Group for the services they provide. Please read "Management -- Directors and Executive Officers of GP Natural Resource Partners LLC."

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

- Neither the partnership agreement nor any other agreement requires the WPP Group or Arch Coal to pursue a business strategy that favors us. The directors and officers of the WPP Group have a fiduciary duty to make decisions in the best interests of the WPP Group's limited partners and shareholders, and Arch Coal's directors and officers have a fiduciary duty to make decisions in the best interests of Arch Coal's shareholders.
- As described above, the WPP Group and its affiliates and Arch Coal and its affiliates may engage in substantial competition with us.
- Our general partner is allowed to take into account the interests of parties other than us, such as the WPP Group and Arch Coal, in resolving conflicts of interest, which has the effect of limiting its fiduciary duty to the unitholders.
- Our general partner may limit its liability and reduce its fiduciary duties, while also restricting the remedies available to unitholders for actions that might, without the limitations, constitute breaches of fiduciary duty. As a result of purchasing units, you are deemed to consent to some actions and conflicts of interest that might otherwise constitute a breach of fiduciary or other duties under applicable law.
- Our general partner determines the amount and timing of asset purchases and sales, capital expenditures, borrowings, issuances of additional limited partner interests and reserves, each of which can affect the amount of cash that is distributed to unitholders.
- Our general partner determines which costs incurred by it and its affiliates are reimbursable by us.
- Our partnership agreement does not restrict our general partner from causing us to pay it or its affiliates for any services rendered on terms that are fair and reasonable to us or entering into additional contractual arrangements with any of these entities on our behalf.
- Our general partner controls the enforcement of obligations owed to us by our general partner and its affiliates.

26

- Our general partner decides whether to retain separate counsel, accountants or others to perform services for us.
- In some instances, our general partner may cause us to borrow funds in order to permit the payment of distributions, even if the purpose or effect of the borrowing is to make a distribution on the subordinated units, to make incentive distributions or to hasten the expiration of the subordination period.

Please read "Certain Relationships and Related Transactions -- Omnibus Agreement" and "Conflicts of Interest and Fiduciary Responsibilities."

EVEN IF UNITHOLDERS ARE DISSATISFIED, THEY CANNOT EASILY REMOVE OUR GENERAL PARTNER.

Unlike the holders of common stock in a corporation, unitholders have only limited voting rights on matters affecting our business and, therefore, limited ability to influence management's decisions regarding our business. Unitholders did not elect our general partner or the board of directors of GP Natural Resource Partners LLC and will have no right to elect our general partner or the board of directors of GP Natural Resource Partners LLC on an annual or other

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

continuing basis.

The board of directors of GP Natural Resource Partners LLC is elected by Robertson Coal Management LLC, which is wholly owned by Corbin J. Robertson, Jr., our chief executive officer and chairman and an affiliate of the WPP Group, and by Arch Coal. Robertson Coal Management LLC has the right to elect five members and Arch Coal has the right to elect three members of the board. Although our general partner has a fiduciary duty to manage our business in a manner beneficial to us and the unitholders, the directors of GP Natural Resource Partners LLC have a fiduciary duty to manage the general partner in a manner beneficial to its members, Robertson Coal Management LLC and Arch Coal.

Furthermore, if unitholders are dissatisfied with the performance of our general partner, they will have little ability to remove our general partner. First, our general partner generally may not be removed except upon the vote of the holders of at least 66 2/3% of the outstanding units voting together as a single class. Because affiliates of the general partner will control approximately 80.2% of all the outstanding units, the general partner currently cannot be removed without the consent of the general partner and its affiliates. Also, if our general partner is removed without cause during the subordination period and units held by the general partner and its affiliates are not voted in favor of that removal, all remaining subordinated units will automatically be converted into common units and any existing arrearages on the common units will be extinguished. A removal of the general partner under these circumstances would adversely affect the common units by prematurely eliminating their distribution and liquidation preference over the subordinated units, which would otherwise have continued until we had met certain distribution and performance tests.

Cause is narrowly defined to mean that a court of competent jurisdiction has entered a final, non-appealable judgment finding the general partner liable for actual fraud, gross negligence, or willful or wanton misconduct in its capacity as our general partner. Cause does not include most cases of charges of poor management of the business, so the removal of the general partner because of the unitholders' dissatisfaction with the general partner's performance in managing our partnership will most likely result in the termination of the subordination period.

Furthermore, unitholders' voting rights are further restricted by the partnership agreement provision providing that any units held by a person that owns 20% or more of any class of units then outstanding, other than the general partner, its affiliates, their transferees and persons who acquired such units with the prior approval of the board of directors of our general partner, cannot be voted on any matter. In addition, the partnership agreement contains provisions limiting the ability of unitholders to call meetings or to acquire information about our operations, as well as other provisions limiting the unitholders' ability to influence the manner or direction of management.

As a result of these provisions, the price at which our common units will trade may be lower because of the absence or reduction of a takeover premium in the takeover price.

27

THE CONTROL OF OUR GENERAL PARTNER MAY BE TRANSFERRED TO A THIRD PARTY WITHOUT UNITHOLDER CONSENT.

Our general partner may transfer its general partner interest to a third party in a merger or in a sale of all or substantially all of its assets without the consent of the unitholders. Furthermore, there is no restriction in the partnership agreement on the ability of the owners of our general partner or its general partner, GP Natural Resource Partners LLC, from transferring their

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

ownership interest in the general partner to a third party. The new owner of our general partner would then be in a position to replace the board of directors and officers of our general partner with its own choices and thereby influence the decisions taken by the board of directors and officers.

OUR GENERAL PARTNER'S ABSOLUTE DISCRETION IN DETERMINING THE LEVEL OF CASH RESERVES MAY ADVERSELY AFFECT OUR ABILITY TO MAKE CASH DISTRIBUTIONS TO UNITHOLDERS.

Our partnership agreement requires our general partner to deduct from operating surplus cash reserves that in its reasonable discretion are necessary to fund our future operating expenditures. In addition, the partnership agreement permits our general partner to reduce available cash by establishing cash reserves for the proper conduct of our business, to comply with applicable law or agreements to which we are a party or to provide funds for future distributions to partners. These cash reserves will reduce the amount of cash available for distribution to unitholders.

YOU WILL EXPERIENCE IMMEDIATE AND SUBSTANTIAL DILUTION OF \$6.14 PER COMMON UNIT.

The assumed initial public offering price of \$20.00 per unit exceeds pro forma net tangible book value of \$13.86 per unit. Based on the assumed initial public offering price, you will incur immediate and substantial dilution of \$6.14 per common unit. The main factor causing dilution is that our general partner and its affiliates acquired interests in us at equivalent per unit prices less than the public offering price. Please read "Dilution."

WE MAY ISSUE ADDITIONAL COMMON UNITS WITHOUT YOUR APPROVAL, WHICH WOULD DILUTE YOUR EXISTING OWNERSHIP INTERESTS.

During the subordination period, our general partner may cause us to issue up to 5,676,829 additional common units without your approval. Our general partner may also cause us to issue an unlimited number of additional common units or other equity securities of equal rank with the common units, without your approval, in a number of circumstances, such as:

- the issuance of common units in connection with acquisitions or capital improvements that our general partner determines would increase cash flow from operations per unit on a pro forma basis;
- the conversion of subordinated units into common units;
- the conversion of units of equal rank with the common units into common units under some circumstances;
- the conversion of the general partner interest and the incentive distribution rights into common units as a result of the withdrawal of our general partner;
- the issuance of common units under our incentive plans; or
- issuances of common units to repay up to \$25 million of certain indebtedness.

After the end of the subordination period, we may issue an unlimited number of limited partner interests of any type without the approval of the unitholders. Our partnership agreement does not give the unitholders the right to approve our issuance at any time of equity securities ranking junior to the common units.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

The issuance of additional common units or other equity securities of equal or senior rank will have the following effects:

- your proportionate ownership interest in us will decrease;
- the amount of cash available for distribution on each unit may decrease;
- because a lower percentage of total outstanding units will be subordinated units, the risk that a shortfall in the payment of the minimum quarterly distribution will be borne by the common unitholders will increase;
- the relative voting strength of each previously outstanding unit may be diminished; and
- the market price of the common units may decline.

COST REIMBURSEMENTS DUE OUR GENERAL PARTNER MAY BE SUBSTANTIAL AND WILL REDUCE THE CASH AVAILABLE FOR DISTRIBUTION TO YOU.

Prior to making any distribution on the common units, we will reimburse our general partner and its affiliates, including GP Natural Resource Partners LLC and the officers and directors of GP Natural Resource Partners LLC, for all expenses they incur on our behalf. Please read "Conflicts of Interest and Fiduciary Responsibilities -- Conflicts of Interest." The reimbursement of expenses could adversely affect our ability to pay cash distributions to you. Please read "Certain Relationships and Related Transactions." Our general partner has sole discretion to determine the amount of these expenses. In addition, our general partner and its affiliates may provide us with other services for which we will be charged fees as determined by our general partner. Excluding reimbursements for costs and expenses associated with this offering and the related transactions, we estimate that the total amount of the reimbursements and fees will be approximately \$4.4 million in the first year following this offering.

OUR GENERAL PARTNER HAS A LIMITED CALL RIGHT THAT MAY REQUIRE YOU TO SELL YOUR UNITS AT AN UNDESIRABLE TIME OR PRICE.

If, at any time, our general partner and its affiliates own more than 80% of the common units then outstanding, our general partner has the right, but not the obligation, which it may assign to any of its affiliates or to us, to acquire all, but not less than all, of the remaining common units at a price not less than the then-current market price of the units. If we do not issue any equity securities prior to the expiration of the subordination period, upon the conversion of subordinated units into common units at the end of the subordination period, our general partner and its affiliates will own 80.2% of our outstanding common units and will be able to exercise this call right. As a result, you may be required to sell your common units at an undesirable time or price and may therefore not receive any return on your investment. You may also incur tax liability upon a sale of your units. For further information about the call right, please read "The Partnership Agreement -- Limited Call Right."

YOUR LIABILITY MAY NOT BE LIMITED IF A COURT FINDS THAT UNITHOLDER ACTION CONSTITUTES CONTROL OF OUR BUSINESS.

A general partner of a partnership generally has unlimited liability for the obligations of the partnership, except for those contractual obligations of the partnership that are expressly made without recourse to the general partner. While our partnership is organized under Delaware law, we conduct business in a number of other states. The limitations on the liability of holders of limited

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

partner interests for the obligations of a limited partnership have not been clearly established in some of the other states in which we do business. You could be liable for our obligations as if you were a general partner if:

- a court or government agency determined that we were conducting business in a state but had not complied with that particular state's partnership statute; or

29

- your right to act with other unitholders to remove or replace the general partner, to approve some amendment to our partnership agreement or to take other actions under our partnership agreement constitute "control" of our business.

In addition, Section 17-607 of the Delaware Revised Uniform Limited Partnership Act provides that, under some circumstances, a unitholder may be liable to us for the amount of a distribution for a period of three years from the date of the distribution. Please read "The Partnership Agreement -- Limited Liability" for a discussion of the implications of the limitations on the liability of a unitholder.

### TAX RISKS TO COMMON UNITHOLDERS

You should read "Material Tax Consequences" for a full discussion of the expected material federal income tax consequences of owning and disposing of common units.

THE IRS COULD TREAT US AS A CORPORATION FOR TAX PURPOSES, WHICH WOULD SUBSTANTIALLY REDUCE THE CASH AVAILABLE FOR DISTRIBUTION TO YOU.

The after-tax economic benefit of an investment in the common units depends largely on our being treated as a partnership for federal income tax purposes. We have not requested, and do not plan to request, a ruling from the IRS on this or any other tax matter affecting us.

If we were treated as a corporation for federal income tax purposes, we would pay federal income tax on our income at the corporate tax rate, which is currently a maximum of 35%. Distributions to you may be taxed again as corporate dividends, and no income, gains, losses or deductions would flow through to you. Because a tax would be imposed upon us as a corporation, our cash available for distribution to you would be substantially reduced. If we were treated as a corporation there would be a material reduction in the after-tax return to the unitholders, likely causing a substantial reduction in the value of our common units.

Current law may change so as to cause us to be treated as a corporation for federal income tax purposes or otherwise subject us to entity-level taxation. The partnership agreement provides that if a law is enacted or existing law is modified or interpreted in a manner that subjects us to taxation as a corporation or otherwise subjects us to entity-level taxation for federal, state or local income tax purposes, the minimum quarterly distribution amount and the target distribution amounts will be adjusted to reflect the impact of that law on us.

A SUCCESSFUL IRS CONTEST OF THE FEDERAL INCOME TAX POSITIONS WE TAKE MAY ADVERSELY AFFECT THE MARKET FOR OUR COMMON UNITS, AND THE COST OF ANY IRS CONTEST WILL BE BORNE BY OUR UNITHOLDERS AND OUR GENERAL PARTNER.

We have not requested a ruling from the IRS with respect to our treatment as a partnership for federal income tax purposes or any other matter affecting

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

us. The IRS may adopt positions that differ from the conclusions of our counsel expressed in this prospectus or from the positions we take. It may be necessary to resort to administrative or court proceedings to sustain some or all of our counsel's conclusions or the positions we take. A court may not agree with all of our counsel's conclusions or positions we take. Any contest with the IRS may materially and adversely impact the market for our common units and the price at which they trade. In addition, our costs of any contest with the IRS will be borne indirectly by our unitholders and our general partner because the costs will reduce our cash available for distribution.

YOU MAY BE REQUIRED TO PAY TAXES ON INCOME FROM US EVEN IF YOU DO NOT RECEIVE ANY CASH DISTRIBUTIONS FROM US.

You will be required to pay any federal income taxes and, in some cases, state and local income taxes on your share of our taxable income even if you receive no cash distributions from us. You may not

30

receive cash distributions from us equal to your share of our taxable income or even the tax liability that results from that income.

TAX GAIN OR LOSS ON DISPOSITION OF COMMON UNITS COULD BE DIFFERENT THAN EXPECTED.

If you sell your common units, you will recognize a gain or loss equal to the difference between the amount realized and your tax basis in those common units. Prior distributions to you in excess of the total net taxable income you were allocated for a common unit, which decreased your tax basis in that common unit, will, in effect, become taxable income to you if the common unit is sold at a price greater than your tax basis in that common unit, even if the price is less than your original cost. A substantial portion of the amount realized, whether or not representing gain, may be ordinary income. In addition, if you sell your units, you may incur a tax liability in excess of the amount of cash you receive from the sale.

TAX-EXEMPT ENTITIES, REGULATED INVESTMENT COMPANIES AND FOREIGN PERSONS FACE UNIQUE TAX ISSUES FROM OWNING COMMON UNITS THAT MAY RESULT IN ADVERSE TAX CONSEQUENCES TO THEM.

Investment in common units by tax-exempt entities, such as individual retirement accounts (known as IRAs), regulated investment companies (known as mutual funds) and non-U.S. persons raises issues unique to them. For example, some of our income allocated to organizations exempt from federal income tax, including individual retirement accounts and other retirement plans, may be unrelated business taxable income and will be taxable to such a unitholder. Very little of our income will be qualifying income to a regulated investment company. Distributions to non-U.S. persons will be reduced by withholding tax at the highest effective tax rate applicable to individuals, and non-U.S. unitholders will be required to file federal income tax returns and pay tax on their share of our taxable income.

WE WILL REGISTER AS A TAX SHELTER. THIS MAY INCREASE THE RISK OF AN IRS AUDIT OF US OR YOU.

We intend to register with the IRS as a "tax shelter." The federal income tax laws require that some types of entities, including some partnerships, register as tax shelters in response to the perception that they claim tax benefits that may be unwarranted. As a result, we may be audited by the IRS and tax adjustments may be made. Any unitholder owning less than a 1% profit interest in us has very limited rights to participate in the income tax audit

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

process. Further, any adjustments in our tax returns will lead to adjustments in your tax returns and may lead to audits of your tax returns and adjustments of items unrelated to us. You would bear the cost of any expense incurred in connection with an examination of your tax return.

YOU WILL LIKELY BE SUBJECT TO STATE AND LOCAL TAXES IN STATES WHERE YOU DO NOT LIVE AS A RESULT OF AN INVESTMENT IN UNITS.

In addition to federal income taxes, you will likely be subject to other taxes, including foreign, state and local taxes, unincorporated business taxes and estate, inheritance or intangible taxes that are imposed by the various jurisdictions in which we do business or own property, even if you do not live in any of those jurisdictions. You will likely be required to file foreign, state and local income tax returns and pay state and local income taxes in some or all of these jurisdictions. Further, you may be subject to penalties for failure to comply with those requirements. We will initially own assets and do business in Alabama, Illinois, Indiana, Kentucky, Maryland, Montana, Virginia and West Virginia. Each of these states currently imposes a personal income tax. It is your responsibility to file all United States federal, foreign, state and local tax returns. Our counsel has not rendered an opinion on the state or local tax consequences of an investment in the common units.

31

### USE OF PROCEEDS

We expect to receive net proceeds of approximately \$50.1 million from the sale of 2,674,253 common units offered by this prospectus, after deducting underwriting discounts but before paying estimated offering expenses. We base these proceeds on an assumed public offering price of \$20.00 per common unit, an assumed purchase of 75,503 common units by New Gauley Coal Corporation and Great Northern Properties Limited Partnership and no exercise of the underwriters' over-allotment option. We will not receive any proceeds from the sale of the common units by Arch Coal.

We anticipate using the aggregate net proceeds of this offering to:

- repay \$46.5 million of debt we will assume from the WPP Group consisting of:
  - \$36.0 million assumed from Western Pocahontas Properties Limited Partnership, of which \$30.0 million was incurred with the purchase of CSX's reversionary interest in March 2002;
  - \$1.5 million assumed from New Gauley Coal Corporation;
  - \$9.0 million assumed from Great Northern Properties Limited Partnership;
- pay \$2.8 million for expenses associated with the offering and related transactions;
- fund working capital of \$0.6 million; and
- distribute \$0.1 million to the WPP Group.

In addition, Arch Coal will contribute \$0.8 million to us to pay \$0.4 million for its share of deferred financing costs and to fund \$0.4 million in working capital.

If the underwriters do not exercise any portion of their over-allotment

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

option, Great Northern Properties Limited Partnership and, in certain circumstances, New Gauley Coal Corporation, will purchase up to an aggregate of 75,503 additional common units from us at the assumed initial public offering price of \$20.00 per unit. We will receive net proceeds of \$1.5 million from such sale, which will not be reduced by the underwriting discount.

If the underwriters exercise their over-allotment option in full, we will sell 389,813 units (57.75% of the total over-allotment option) for net proceeds of \$7.3 million and Arch Coal will sell 285,187 units (42.25% of the total over-allotment option) for net proceeds of \$5.3 million. We will use our net proceeds from this exercise to redeem 312,924 common units from Western Pocahontas Properties Limited Partnership and New Gauley Coal Corporation in reimbursement of capital expenditures made by them, and we will use the remainder to repay indebtedness assumed from New Gauley Coal Corporation and Great Northern Properties Limited Partnership.

As of June 30, 2002, \$6.0 million of the debt to be repaid by Western Pocahontas Properties Limited Partnership bore interest at 7.6% and matures in April 2013 and \$30.0 million bore interest at 4.91% and matures in March 2012; the debt to be repaid by New Gauley Coal Corporation bore interest at 7.6% and matures in April 2013; and the debt to be repaid by Great Northern Properties Limited Partnership bore interest at 4.6% and matures in September 2004.

32

### CAPITALIZATION

The following table shows (1) our historical capitalization as of June 30, 2002 on an actual basis and (2) our pro forma capitalization as of June 30, 2002, as adjusted to reflect the offering of the common units and the application of the net proceeds in the manner described under "Use of Proceeds." This table is derived from, should be read in conjunction with, and is qualified in its entirety by reference to, our historical and pro forma financial statements and the accompanying notes included elsewhere in this prospectus. You should also read the table in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations."

	AT JUNE 30, 2002

(a) \$92.5 million in long-term debt will be retained by the WPP Group following the offering.

33

### DILUTION

Dilution is the amount by which the offering price paid by the purchasers of common units sold in this offering will exceed the pro forma net tangible book value per unit after the offering. On a pro forma basis as of June 30, 2002, after giving effect to the offering of common units and the related transactions, our net tangible book value was \$321.1 million, or \$13.86 per unit. Purchasers of common units in this offering will experience substantial and immediate dilution in net tangible book value per common unit for financial accounting purposes, as illustrated in the following table:

Assumed initial public offering price per common unit.....	\$20.00
Pro forma net tangible book value per common unit before the offering(1).....	\$7.49
Increase in net tangible book value per common unit attributable to purchasers in the offering.....	6.37
	-----
Less: Pro forma net tangible book value per common unit after the offering(2).....	13.86
	-----
Immediate dilution in tangible net book value per common unit to new investors.....	\$ 6.14
	=====

-----

- (1) Determined by dividing the number of units to be issued to affiliates of our general partner (8,754,908 common units, 11,353,658 subordinated units and the 2% general partner interest, which has a dilutive effect equivalent to 463,415 units) for their contribution of assets and liabilities to us into the net pro forma tangible book value of the contributed assets and liabilities.
- (2) Determined by dividing the total number of units to be outstanding after the offering and the related transactions (11,353,658 common units, 11,353,658 subordinated units and the 2% general partner interest, which has a dilutive effect equivalent to 463,415 units) into our pro forma net tangible book value, after giving effect to the application of the net proceeds of the offering and the related transactions.

The following table sets forth the number of units that we will issue and the total consideration contributed to us by the general partner and its affiliates in respect of their units and by the purchasers of common units in this offering upon consummation of the transactions contemplated by this prospectus:

UNITS ACQUIRED		TOTAL

## CASH DISTRIBUTION POLICY

### QUARTERLY DISTRIBUTIONS OF AVAILABLE CASH

General. Within 45 days after the end of each quarter, beginning with the quarter ending December 31, 2002, we will distribute all of our available cash to unitholders of record on the applicable record date. We will adjust the minimum quarterly distribution for the period from the closing of the offering through December 31, 2002 based on the actual length of the period.

Definition of Available Cash. We define available cash in the glossary, and it generally means, for each fiscal quarter, all cash on hand at the end of the quarter:

- less the amount of cash reserves that our general partner determines in its reasonable discretion is necessary or appropriate to:
- provide for the proper conduct of our business;
- comply with applicable law, any of our debt instruments or other

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

agreements; or

- provide funds for distributions to our unitholders and our general partner for any one or more of the next four quarters;
- plus all cash on hand on the date of determination of available cash for the quarter resulting from working capital borrowings made after the end of the quarter. Working capital borrowings are generally borrowings that are made under our credit facility and in all cases are used solely for working capital purposes or to pay distributions to partners.

Intent to Distribute the Minimum Quarterly Distribution. We intend to distribute to the holders of common units and subordinated units on a quarterly basis at least the minimum quarterly distribution of \$0.5125, or \$2.05 per year, to the extent we have sufficient cash from our operations after establishment of cash reserves and payment of fees and expenses, including payments to our general partner and its affiliates. There is no guarantee, however, that we will pay the minimum quarterly distribution on the common units in any quarter, and we will be prohibited from making any distributions to unitholders if it would cause an event of default, or if an event of default is existing, under our credit facility.

### OPERATING SURPLUS AND CAPITAL SURPLUS

General. All cash distributed to unitholders will be characterized as either "operating surplus" or "capital surplus." We distribute available cash from operating surplus differently than available cash from capital surplus.

Maintenance capital expenditures are capital expenditures made to maintain, over the long term, the operating capacity of our assets as they existed at the time of the expenditure. Expansion capital expenditures are capital expenditures made to increase over the long term the operating capacity of our assets as they existed at the time of the expenditure. The general partner has the discretion to determine how to allocate a capital expenditure for the acquisition or expansion of coal reserves between maintenance capital expenditures and expansion capital expenditures, and its good faith allocation will be conclusive. Maintenance capital expenditures reduce operating surplus, from which we pay the minimum quarterly distribution, but expansion capital expenditures do not.

Definition of Operating Surplus. We define operating surplus in the glossary, and it generally means:

- our cash balance on the closing date of this offering; plus
- \$15.0 million (as described below); plus
- all of our cash receipts after the closing of this offering, excluding cash from borrowings that are not working capital borrowings, sales of equity and debt securities and sales or other dispositions of assets outside the ordinary course of business; plus

35

- working capital borrowings made after the end of a quarter but before the date of determination of operating surplus for that quarter; less
- all of our operating expenditures after the closing of this offering, including the repayment of working capital borrowings, but not the repayment of other borrowings, and including maintenance capital expenditures; less

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

- the amount of cash reserves that the general partner deems necessary or advisable to provide funds for future operating expenditures.

Definition of Capital Surplus. We also define capital surplus in the glossary, and it will generally be generated only by:

- borrowings other than working capital borrowings; or
- sales of debt and equity securities; or
- sales or other dispositions of assets for cash, other than inventory, accounts receivable and other current assets sold in the ordinary course of business or as part of normal retirements or replacements of assets.

Characterization of Cash Distributions. We will treat all available cash distributed as coming from operating surplus until the sum of all available cash distributed since we began operations equals the operating surplus as of the most recent date of determination of available cash. We will treat any amount distributed in excess of operating surplus, regardless of its source, as capital surplus. As reflected above, operating surplus includes \$15.0 million in addition to our cash balance on the closing date of this offering, cash receipts from our operations and cash from working capital borrowings. This amount does not reflect actual cash on hand at closing that is available for distribution to our unitholders. Rather, it is a provision that will enable us, if we choose, to distribute as operating surplus up to \$15.0 million of cash we receive in the future from non-operating sources, such as asset sales, issuances of securities, and long-term borrowings, that would otherwise be distributed as capital surplus. We do not anticipate that we will make any distributions from capital surplus.

### SUBORDINATION PERIOD

General. During the subordination period, which we define below and in the glossary, the common units will have the right to receive distributions of available cash from operating surplus in an amount equal to the minimum quarterly distribution of \$0.5125 per unit, plus any arrearages in the payment of the minimum quarterly distribution on the common units from prior quarters, before any distributions of available cash from operating surplus may be made on the subordinated units. The purpose of the subordinated units is to increase the likelihood that during the subordination period there will be available cash to be distributed on the common units.

Definition of Subordination Period. We define the subordination period in the glossary. The subordination period will extend until the first day of any quarter beginning after September 30, 2007 that each of the following tests are met:

- distributions of available cash from operating surplus on each of the outstanding common units and subordinated units equaled or exceeded the minimum quarterly distribution for each of the three consecutive, non-overlapping four-quarter periods immediately preceding that date;
- the "adjusted operating surplus" (as defined below) generated during each of the three consecutive, non-overlapping four-quarter periods immediately preceding that date equaled or exceeded the sum of the minimum quarterly distributions on all of the outstanding common units and subordinated units during those periods on a fully diluted basis and the related distribution on the 2% general partner interest during those periods; and
- there are no arrearages in payment of the minimum quarterly distribution

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

on the common units.

36

Early Conversion of Subordinated Units. Before the end of the subordination period, 50% of the subordinated units, or up to 5,676,829 subordinated units, will convert into common units on a one-for-one basis immediately after the distribution of available cash to partners in respect of any quarter ending on or after:

- September 30, 2005, with respect to 25% of the subordinated units; and
- September 30, 2006, with respect to 25% of the subordinated units.

The early conversions will occur if at the end of the applicable quarter each of the following occurs:

- distributions of available cash from operating surplus on each of the outstanding common units and the subordinated units equaled or exceeded the minimum quarterly distribution for each of the three consecutive, non-overlapping four-quarter periods immediately preceding that date;
- the adjusted operating surplus generated during each of the three consecutive, non-overlapping four-quarter periods immediately preceding that date equaled or exceeded the sum of the minimum quarterly distributions on all of the outstanding common units and subordinated units during those periods on a fully diluted basis and the related distribution on the 2% general partner interest during those periods; and
- there are no arrearages in payment of the minimum quarterly distribution on the common units.

The second early conversion of the subordinated units may not occur, however, until at least one year following the first early conversion of the subordinated units.

Definition of Adjusted Operating Surplus. We define adjusted operating surplus in the glossary and for any period it generally means:

- operating surplus generated with respect to that period; less
- any net increase in working capital borrowings with respect to that period; less
- any net reduction in cash reserves for operating expenditures with respect to that period not relating to an operating expenditure made with respect to that period; plus
- any net decrease in working capital borrowings with respect to that period; plus
- any net increase in cash reserves for operating expenditures with respect to that period required by any debt instrument for the repayment of principal, interest or premium.

Adjusted operating surplus is intended to reflect the cash generated from operations during a particular period and therefore excludes net increases in working capital borrowings and net reductions of reserves of cash generated in prior periods.

Effects of Expiration of Subordination Period. Upon expiration of the

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

subordination period, all remaining subordinated units will convert into common units on a one-for-one basis and will then participate, pro rata, with the other common units in distributions of available cash. In addition, if the unitholders remove our general partner other than for cause and units held by the general partner and its affiliates are not voted in favor of that removal:

- the subordination period will end and each subordinated unit will immediately convert into one common unit;
- any existing arrearages in payment of the minimum quarterly distribution on the common units will be extinguished; and
- the general partner will have the right to convert its general partner interest and its incentive distribution rights into common units or to receive cash in exchange for those interests.

37

### DISTRIBUTIONS OF AVAILABLE CASH FROM OPERATING SURPLUS DURING THE SUBORDINATION PERIOD

We will make distributions of available cash from operating surplus for any quarter during the subordination period in the following manner:

- First, 98% to the common unitholders, pro rata, and 2% to our general partner, until we have distributed for each outstanding common unit an amount equal to the minimum quarterly distribution for that quarter;
- Second, 98% to the common unitholders, pro rata, and 2% to the general partner, until we have distributed for each outstanding common unit an amount equal to any arrearages in payment of the minimum quarterly distribution on the common units for any prior quarters during the subordination period;
- Third, 98% to the subordinated unitholders, pro rata, and 2% to the general partner, until we have distributed for each subordinated unit an amount equal to the minimum quarterly distribution for that quarter; and
- Thereafter, in the manner described in "-- Incentive Distribution Rights" below.

### DISTRIBUTIONS OF AVAILABLE CASH FROM OPERATING SURPLUS AFTER THE SUBORDINATION PERIOD

We will make distributions of available cash from operating surplus for any quarter after the subordination period in the following manner:

- First, 98% to all unitholders, pro rata, and 2% to the general partner, until we have distributed for each outstanding unit an amount equal to the minimum quarterly distribution for that quarter; and
- Thereafter, in the manner described in "-- Incentive Distribution Rights" below.

### INCENTIVE DISTRIBUTION RIGHTS

Incentive distribution rights represent the right to receive an increasing percentage of quarterly distributions of available cash from operating surplus after the minimum quarterly distribution and the target distribution levels have been achieved. Our general partner, the members of the WPP Group and Arch Coal currently hold 65%, 25% and 10%, respectively, of the incentive distribution

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

rights. The WPP Group and Arch Coal may transfer these rights, but our general partner may only transfer these rights separately from its general partner interest in accordance with restrictions in the partnership agreement.

If for any quarter:

- we have distributed available cash from operating surplus on each common unit and subordinated unit in an amount equal to the minimum quarterly distribution; and
- we have distributed available cash from operating surplus on outstanding common units in an amount necessary to eliminate any cumulative arrearages in payment of the minimum quarterly distribution;

then we will distribute any additional available cash from operating surplus for that quarter among the unitholders and the general partner in the following manner:

- First, 98% to all unitholders, pro rata, and 2% to the general partner, until each unitholder has received a total of \$0.5625 per unit for that quarter (the "first target distribution");
- Second, 85% to all unitholders, and 13% to the holders of the incentive distribution rights, pro rata, and 2% to our general partner, until each unitholder has received a total of \$0.6625 per unit for that quarter (the "second target distribution");
- Third, 75% to all unitholders, and 23% to the holders of the incentive distribution rights, pro rata, and 2% to our general partner, until each unitholder has received a total of \$0.7625 per unit for that quarter (the "third target distribution"); and

38

- Thereafter, 50% to all unitholders and 48% to the holders of the incentive distribution rights, pro rata, and 2% to our general partner.

In each case, the amount of the target distribution set forth above is exclusive of any distributions to common unitholders to eliminate any cumulative arrearages in payment of the minimum quarterly distribution.

### PERCENTAGE ALLOCATIONS OF AVAILABLE CASH FROM OPERATING SURPLUS

The following table illustrates the percentage allocations of the additional available cash from operating surplus among the unitholders, our general partner and the holders of the incentive distribution rights up to the various target distribution levels. The amounts set forth under "Marginal Percentage Interest in Distributions" are the percentage interests of the unitholders, our general partner and the holders of the incentive distribution rights in any available cash from operating surplus we distribute up to and including the corresponding amount in the column "Total Quarterly Distribution Target Amount," until available cash we distribute reaches the next target distribution level, if any. The percentage interests shown for the unitholders and our general partner for the minimum quarterly distribution are also applicable to quarterly distribution amounts that are less than the minimum quarterly distribution.

MARGINAL PERCENTAGE INTEREST  
DISTRIBUTIONS

Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

	TOTAL QUARTERLY DISTRIBUTION TARGET AMOUNT	UNITHOLDERS	GENERAL PARTNER	HOLD INCE DISTR RI
	-----	-----	-----	-----
Minimum Quarterly Distribution.....	\$0.5125	98%	2%	
First Target Distribution.....	\$0.5125 up to \$0.5625	98%	2%	
Second Target Distribution.....	above \$0.5625 up to \$0.6625	85%	2%	1
Third Target Distribution.....	above \$0.6625 up to \$0.7625	75%	2%	2
Thereafter.....	above \$0.7625	50%	2%	4

DISTRIBUTIONS FROM CAPITAL SURPLUS

How Distributions from Capital Surplus Will Be Made. We will make distributions of available cash from capital surplus, if any, in the following manner:

- First, 98% to all unitholders, pro rata, and 2% to the general partner, until we have distributed for each common unit that was issued in this offering an amount of available cash from capital surplus equal to the initial public offering price;
- Second, 98% to the common unitholders, pro rata, and 2% to the general partner, until we have distributed for each common unit an amount of available cash from capital surplus equal to any unpaid arrearages in payment of the minimum quarterly distribution on the common units; and
- Thereafter, we will make all distributions of available cash from capital surplus as if they were from operating surplus.

Effect of a Distribution from Capital Surplus. The partnership agreement treats a distribution of capital surplus as the repayment of the initial unit price from this initial public offering, which is a return of capital. The initial public offering price less any distributions of capital surplus per unit is referred to as the "unrecovered initial unit price." Each time a distribution of capital surplus is made, the minimum quarterly distribution and the target distribution levels will be reduced in the same proportion as the corresponding reduction in the unrecovered initial unit price. Because distributions of capital surplus will reduce the minimum quarterly distribution, after any of these distributions are made, it may be easier for the general partner to receive incentive distributions and for the subordinated units to convert into common units. Any distribution of capital surplus before the unrecovered initial unit price is reduced to zero cannot be applied, however, to the payment of the minimum quarterly distribution or any arrearages.

39

Once we distribute capital surplus on a unit issued in this offering in an amount equal to the initial unit price, we will reduce the minimum quarterly distribution and the target distribution levels to zero. We will then make all future distributions from operating surplus, with 50% being paid to the holders of units, 48% to the holders of the incentive distribution rights and 2% to our general partner.

ADJUSTMENT OF MINIMUM QUARTERLY DISTRIBUTION AND TARGET DISTRIBUTION LEVELS

In addition to adjusting the minimum quarterly distribution and target distribution levels to reflect a distribution of capital surplus, if we combine

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

our units into fewer units or subdivide our units into a greater number of units, we will proportionately adjust:

- the minimum quarterly distribution;
- the target distribution levels;
- the unrecovered initial unit price;
- the number of common units issuable during the subordination period without a unitholder vote; and
- the number of common units into which a subordinated unit is convertible.

For example, if a two-for-one split of the common units should occur, the minimum quarterly distribution, the target distribution levels and the unrecovered initial unit price would each be reduced to 50% of its initial level. We will not make any adjustment by reason of the issuance of additional units for cash or property.

In addition, if legislation is enacted or if existing law is modified or interpreted in a manner that causes us to become taxable as a corporation or otherwise subject to taxation as an entity for federal, state or local income tax purposes, we will reduce the minimum quarterly distribution and the target distribution levels by multiplying the same by one minus the sum of the highest marginal federal corporate income tax rate that could apply and any increase in the effective overall state and local income tax rates. For example, if we become subject to a maximum combined marginal federal, and effective state and local income tax rate of 38%, then the minimum quarterly distribution and the target distribution levels would each be reduced to 62% of their previous levels.

### DISTRIBUTIONS OF CASH UPON LIQUIDATION

If we dissolve in accordance with the partnership agreement, we will sell or otherwise dispose of our assets in a process called liquidation. We will first apply the proceeds of liquidation to the payment of our creditors. We will distribute any remaining proceeds to the unitholders and our general partner, in accordance with their capital account balances, as adjusted to reflect any gain or loss upon the sale or other disposition of our assets in liquidation.

The allocations of gain and loss upon liquidation are intended, to the extent possible, to entitle the holders of outstanding common units to a preference over the holders of outstanding subordinated units upon our liquidation, to the extent required to permit common unitholders to receive their unrecovered initial unit price plus the minimum quarterly distribution for the quarter during which liquidation occurs plus any unpaid arrearages in payment of the minimum quarterly distribution on the common units. There may not be sufficient gain upon our liquidation, however, to enable the holder of common units to fully recover all of these amounts, even though there may be cash available for distribution to the holders of subordinated units. Any further net gain recognized upon liquidation will be allocated in a manner that takes into account the incentive distribution rights of our general partner.

40

Manner of Adjustment for Gain. The manner of the adjustment is set forth in the partnership agreement. If our liquidation occurs before the end of the subordination period, we will allocate any gain to the partners in the following manner:

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

- First, to our general partner and the holders of units who have negative balances in their capital accounts to the extent of and in proportion to those negative balances;
- Second, 98% to the common unitholders, pro rata, and 2% to our general partner until the capital account for each common unit is equal to the sum of:
  - (1) the unrecovered initial unit price; plus
  - (2) the amount of the minimum quarterly distribution for the quarter during which our liquidation occurs; plus
  - (3) any unpaid arrearages in payment of the minimum quarterly distribution;
- Third, 98% to the subordinated unitholders, pro rata, and 2% to our general partner until the capital account for each subordinated unit is equal to the sum of:
  - (1) the unrecovered initial unit price; and
  - (2) the amount of the minimum quarterly distribution for the quarter during which our liquidation occurs;
- Fourth, 98% to all unitholders, pro rata, and 2% to our general partner, until we allocate under this paragraph an amount per unit equal to:
  - (1) the sum of the excess of the first target distribution per unit over the minimum quarterly distribution per unit for each quarter of our existence; less
  - (2) the cumulative amount per unit of any distributions of available cash from operating surplus in excess of the minimum quarterly distribution per unit that was distributed 98% to the unitholders, pro rata, and 2% to our general partner for each quarter of our existence;
- Fifth, 85% to all unitholders, pro rata, 13% to the holders of the incentive distribution rights, pro rata, and 2% to our general partner, until we allocate under this paragraph an amount per unit equal to:
  - (1) the sum of the excess of the second target distribution per unit over the first target distribution per unit for each quarter of our existence; less
  - (2) the cumulative amount per unit of any distributions of available cash from operating surplus in excess of the first target distribution per unit that was distributed 85% to the unitholders, pro rata, 13% to the holders of the incentive distribution rights, pro rata, and 2% to our general partner for each quarter of our existence;
- Sixth, 75% to all unitholders, pro rata, 23% to the holders of the incentive distribution rights, pro rata, and 2% to our general partner, until we allocate under this paragraph an amount per unit equal to:
  - (1) the sum of the excess of the third target distribution per unit over the second target distribution per unit for each quarter of our existence; less
  - (2) the cumulative amount per unit of any distributions of available cash from operating surplus in excess of the second target distribution

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

per unit that was distributed 75% to the unitholders, pro rata, 23% to the holders of the incentive distribution rights, pro rata and 2% to our general partner for each quarter of our existence; and

- Thereafter, 50% to all unitholders, pro rata, and 48% to the holders of the incentive distribution rights, pro rata, and 2% to our general partner.

41

If the liquidation occurs after the end of the subordination period, the distinction between common units and subordinated units will disappear, so that clause (3) of the second bullet point above and all of the third bullet point above will no longer be applicable.

Manner of Adjustment for Losses. Upon our liquidation, we will generally allocate any loss to the general partner and the unitholders in the following manner:

- First, 98% to holders of subordinated units, pro rata, and 2% to the general partner, until the capital accounts of the holders of the subordinated units have been reduced to zero;
- Second, 98% to the holders of common units, pro rata, and 2% to the general partner, until the capital accounts of the common unitholders have been reduced to zero; and
- Thereafter, 100% to the general partner.

If the liquidation occurs after the end of the subordination period, the distinction between common units and subordinated units will disappear, so that the first bullet point above will no longer be applicable.

Adjustments to Capital Accounts upon the Issuance of Additional Units. We will make adjustments to capital accounts upon the issuance of additional units. In doing so, we will allocate any unrealized and, for tax purposes, unrecognized gain or loss resulting from the adjustments to the unitholders and the general partner in the same manner as we allocate gain or loss upon liquidation. In the event that we make positive adjustments to the capital accounts upon the issuance of additional units, we will allocate any later negative adjustments to the capital accounts resulting from the issuance of additional units or upon our liquidation in a manner that results, to the extent possible, in the general partner's capital account balances equaling the amount that they would have been if no earlier positive adjustments to the capital accounts had been made.

42

### CASH AVAILABLE FOR DISTRIBUTION

We intend to pay each quarter, to the extent we have sufficient available cash from operating surplus including working capital borrowings, the minimum quarterly distribution of \$0.5125 per unit, or \$2.05 per year, on all the common units and subordinated units. Available cash for any quarter will consist generally of all cash on hand at the end of that quarter, plus working capital borrowings after the end of the quarter, as adjusted for reserves. Operating surplus generally consists of cash on hand at closing, cash generated from operations after deducting related expenditures and other items, plus working capital borrowings after the end of the quarter, plus \$15.0 million, as adjusted for reserves. The definitions of available cash and operating surplus are in the glossary.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

The amount of available cash from operating surplus needed to pay the minimum quarterly distribution for two quarters and for four quarters on the common units and the subordinated units and to pay the related distribution on the general partner interest to be outstanding immediately after this offering are approximately:

	TWO QUARTERS	FOUR QUARTERS
	(IN THOUSANDS)	
Common units.....	\$11,637.5	\$23,275.0
Subordinated units.....	11,637.5	23,275.0
2% general partner interest.....	475.0	950.0
	-----	-----
Total.....	\$23,750.0	\$47,500.0

ESTIMATED AVAILABLE CASH FROM OPERATING SURPLUS DURING 2001 WOULD NOT HAVE BEEN SUFFICIENT TO PAY THE MINIMUM QUARTERLY DISTRIBUTION ON ALL UNITS.

If we had completed the transactions contemplated in this prospectus on January 1, 2001, our pro forma available cash from operating surplus generated during 2001 and the six months ended June 30, 2002 would have been approximately \$44.8 million and \$23.6 million, respectively. Pro forma available cash from operating surplus excludes any expenses associated with the reversionary interest purchased by Western Pocahontas Properties Limited Partnership in December 2001 and March 2002 and eliminates general and administrative expenses in order to reflect only the direct costs and expenses for our operations. Estimated available cash from operating surplus includes general and administrative expenses, such as cost of tax return preparation, accounting support services, annual and quarterly reports to unitholders, investor relations and registrar and transfer agents fees, of approximately \$1.5 million per year that we expect to incur as a result of being a publicly traded partnership and also includes approximately \$2.9 million per year of general and administrative expenses that we will incur related to our operation of the properties contributed to us by the WPP Group and Arch Coal. Our estimated available cash from operating surplus generated during 2001 and the six months ended June 30, 2002 would have been approximately \$40.4 million and \$21.4 million, respectively. These amounts would have been sufficient to allow us to pay the full minimum quarterly distribution on the common units and approximately 70.0% and 80.4%, respectively, of the minimum quarterly distribution on the subordinated units during these periods.

Our pro forma excess of revenues over direct costs and expenses comes from our pro forma financial statements. The pro forma financial statements do not purport to present our results of operations had the transactions contemplated in this prospectus actually been completed as of the dates indicated. Furthermore, available cash from operating surplus as defined in the partnership agreement is a cash accounting concept, while our pro forma financial statements have been prepared on an accrual basis. A more complete explanation of the pro forma adjustments can be found in the Notes to Pro Forma Financial Statements for Natural Resource Partners. We derived the amounts of estimated available cash from operating surplus shown above in the manner described in Appendix D. As a result, the amount of estimated available cash from operating surplus should only be viewed as a general indication of the amount of available cash from operating surplus that we might have generated had we been formed in earlier periods.

WE BELIEVE WE WILL HAVE SUFFICIENT AVAILABLE CASH FROM OPERATING SURPLUS FOLLOWING THE OFFERING TO PAY THE MINIMUM QUARTERLY DISTRIBUTION ON ALL UNITS THROUGH JUNE 30, 2003.

We believe that we will have sufficient available cash from operating surplus to allow us to make the full minimum quarterly distribution on all the common units and subordinated units for each quarter through June 30, 2003.

Our belief is based on a number of general business assumptions that include:

- we will not be obligated to make any unexpected cash payments associated with post-mine reclamation, workers' compensation claims or environmental litigation or cleanup;
- there will be no changes in federal, state or local environmental, regulatory or tax laws or the enforcement or interpretation thereof that would materially affect our lessees' operations;
- none of our lessees will have their permits to mine our properties revoked or suspended;
- we will not experience any unanticipated loss of, or material changes in the terms of, any material lease with a lessee and our lessees will perform their obligations under their leases with us;
- our lessees will not experience any labor or industrial disputes or other disturbances or disputes that would materially affect our operations;
- our lessees will not have any major mine-related accidents or production interruptions;
- we will not make any acquisitions or dispositions of assets; and
- there will not be any material adverse change in the domestic coal industry, the electric power generation industry, the domestic steel industry or in general economic conditions.

In addition to the assumptions above, the financial and operating assumptions include:

- Our coal royalty revenues, including overriding royalty revenues, will increase to \$52.3 million for the 12 months ending June 30, 2003 from \$43.3 million for the year ended December 31, 2001, an increase of \$9.0 million, or 21%, due to a 7% increase in coal production, from 29.0 million tons to 30.9 million tons. This does not include additional cash we expect to receive related to minimum royalty payments (net of recoupments). The increase in production will occur on our Appalachia properties and will be partially offset by a decrease on our Northern Powder River Basin properties. Production on our Illinois Basin properties will remain approximately the same. Coal prices received by our lessees will be marginally higher than prices received in late 2001.
- Production at our Appalachia properties will increase to 24.5 million tons for the 12 months ending June 30, 2003 from 19.6 million tons for the year ended December 31, 2001, an increase of 4.9 million tons, or 25%, for the following principal reasons:
  - Production from the Eunice property will increase 0.6 million tons,

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

from 1.8 million tons for the year ended December 31, 2001 to 2.4 million tons for the 12 months ending June 30, 2003, or 33%, as a longwall mining operation moves onto and off of our property from an adjacent property in 2002. This increase follows a 1.3 million ton decrease from 2000 to 2001 due primarily to the closure of another longwall mine as a result of adverse geologic conditions and a portion of the surface mining being performed on an adjacent property during 2001.

- Production from our West Fork property will increase 2.5 million tons, from 0.2 million tons for the year ended December 31, 2001 to 2.7 million tons for the 12 months ending June 30, 2003, as our lessee moved its longwall mining operations onto our property from an adjacent property in mid-2002.
- Production from our Welch/Wyoming property will increase 464,000 tons, from 221,000 tons for the year ended December 31, 2001 to 685,000 tons for the 12 months ending June 30,

44

2003, primarily because the 12 months ending June 30, 2003 will reflect a full year's operations of a new continuous miner that began operating in mid-2001.

- Production from our Kingston property will increase 589,000 tons, from 740,000 tons for the year ended December 31, 2001 to 1,329,000 tons for the 12 months ending June 30, 2003, or 80%, as a continuous mining operation that had been on an adjacent property during 2001 moved back onto our property in mid-2002. In addition, our lessee opened a new underground mine in early 2002.
- Our Sincell property, which had no production in 2001, will produce 218,000 tons in the 12 months ending June 30, 2003, as our lessee's operations move onto our property from an adjacent property in early 2003.
- Production from our Lynch property will increase 0.5 million tons, from 3.1 million tons for the year ended December 31, 2001 to 3.6 million tons for the 12 months ending June 30, 2003, or 16%, due to an underground mine reaching full production in late 2002 and the commencement of operations of a new surface mine in early 2003.
- Production at our Northern Powder River Basin properties will decline 2.9 million tons, from 6.7 million tons for the year ended December 31, 2001 to 3.8 million tons for the 12 months ending June 30, 2003, or 42%. This decrease is the result of the typical variations that can result from our checkerboard ownership pattern on our properties in this area.
- Other income, excluding overriding royalty revenues, will decrease \$0.4 million, from \$1.1 million for the year ended December 31, 2001 to \$0.7 million for the 12 months ending June 30, 2003, because other income for 2001 included the recognition of transportation fees from a lessee that had been previously unreported by the lessee for several years.
- General and administrative expenses will be \$4.4 million for the 12 months ending June 30, 2003 and will consist of general and administrative expenses of approximately \$2.9 million per year related to the WPP Group and Arch Coal Contributed Properties and annual costs of approximately \$1.5 million that we expect to incur as a result of becoming a publicly traded partnership. These latter expenses include

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

costs associated with tax return preparation, accounting support fees, annual and quarterly reports to unitholders, investor relations and registrar and transfer agent fees.

- We will have no interest expense as we do not anticipate having any outstanding borrowings during the year ending June 30, 2003. We will, however, incur a commitment fee of \$0.5 million on our bank credit facility.
- We will incur less than \$100,000 in capital expenditures, consistent with our assumption that we will not make any acquisitions during this period. If we do make any acquisitions, we will fund them with borrowings under our credit facility and proceeds from the issuance of our common units. A portion of any such capital expenditures may be maintenance capital expenditures, which will be deducted from our pro forma operating surplus for the period.

While we believe that these assumptions are reasonable in light of management's current beliefs concerning future events, the assumptions underlying the projections are inherently uncertain and are subject to significant business, economic, regulatory and competitive risks and uncertainties that could cause actual results to differ materially from those we anticipate. If our assumptions are not realized, the actual available cash from operating surplus that we generate could be substantially less than that currently expected and could, therefore, be insufficient to permit us to make the full minimum quarterly distribution on all units, in which event the market price of the common units may decline materially. Consequently, the statement that we believe that we will have sufficient available cash from operating surplus to pay the full minimum quarterly distribution on all units for each quarter through June 30, 2003 should not be regarded as a representation by us or the underwriters or any other person that we will make such a distribution. When reading this section, you should keep in mind the risk factors and other cautionary statements under the heading "Risk Factors" and elsewhere in this prospectus.

45

### SELECTED HISTORICAL FINANCIAL AND OPERATING DATA

The following tables show selected historical financial and operating data for Western Pocahontas Properties Limited Partnership, Great Northern Properties Limited Partnership, New Gauley Coal Corporation and the Arch Coal Contributed Properties, in each case for the periods and as of the dates indicated. We derived the selected historical financial data for the WPP Group as of and for the years ended December 31, 1997, 1998, 1999, 2000 and 2001 from the audited financial statements of the WPP Group, and we derived the selected historical financial data for the Arch Coal Contributed Properties as of and for the years ended December 31, 1999, 2000 and 2001 from the audited financial statements of the Arch Coal Contributed Properties. We derived the selected historical financial data for the Arch Coal Contributed Properties as of and for the years ended December 31, 1997 and 1998 from the accounting records of Arch Coal. We derived the selected historical financial data for the WPP Group and the Arch Coal Contributed Properties for the six months ended June 30, 2001 and 2002 from the unaudited financial statements of the WPP Group and the Arch Coal Contributed Properties. In the opinion of these entities, the unaudited financial statements have been prepared on the same basis as the audited financial statements and include all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of this information.

We derived the information in the following tables from, and that information should be read together with and is qualified in its entirety by

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

reference to, the historical financial statements and the accompanying notes included elsewhere in this prospectus. The tables should be read together with "Management's Discussion and Analysis of Financial Condition and Results of Operations." While substantially all of the producing coal-related assets and operations of the WPP Group are being contributed to us, some assets and liabilities are being retained by the WPP Group.

46

- (a) Western Pocahontas Properties Limited Partnership sold surface land at a gain of \$4.0 million and \$3.1 million in 2000 and 2001, respectively.
- (b) The previous owner of Western Pocahontas Properties Limited Partnership's coal and timber properties retained a reversionary interest in those properties whereby it received either a 25% or 28% interest in the net revenues of the properties after July 1, 2001. Western Pocahontas Properties Limited Partnership accrued approximately \$1.9 million related to the reversionary interest in 2001 and \$561,000 in the six months ended June 30, 2002. In December 2001, Western Pocahontas Properties Limited Partnership purchased the reversionary interest related to its Kentucky properties for approximately \$8.9 million. In March 2002, Western Pocahontas Properties Limited Partnership purchased the remaining portion of the reversionary interest for approximately \$35.1 million. These purchases were financed with a \$45 million loan.

(a) Great Northern Properties Limited Partnership paid a prepayment penalty and expensed deferred financing costs related to the retirement of \$57.0 million of debt in 1999. These expenses were classified as an extraordinary loss on the early extinguishment of debt. Simultaneously with the debt extinguishment, Great Northern Properties Limited Partnership borrowed \$52.0 million and the partners contributed \$6.0 million to the partnership.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of the financial condition and results of operations should be read in conjunction with the historical and pro forma financial statements and notes thereto included elsewhere in this prospectus. For more detailed information regarding the basis of presentation for the following financial information, see the notes to the historical and pro forma financial statements.

After the Introduction, there is a separate section for each of Western Pocahontas Properties Limited Partnership, Great Northern Properties Limited Partnership, New Gauley Coal Corporation and for the Arch Coal Contributed Properties. The Arch Coal Contributed Properties include the properties contributed to us by Ark Land Company, a subsidiary of Arch Coal, Inc.

This discussion includes certain forward-looking statements. You should not put undue reliance on any forward-looking statements. When considering forward-looking statements, we urge you to review the risk factors set forth in "Risk Factors" beginning on page 14. These and other risks could cause our actual results to differ materially from those contained in any forward-looking statement. Please read "Forward Looking Statements."

#### INTRODUCTION

We are a limited partnership recently formed by the WPP Group, the largest owner of coal reserves in the United States other than the U.S. government, and Arch Coal, Inc., the second largest U.S. coal producer. We engage principally in the business of owning and managing coal properties in the three major coal-producing regions of the United States: Appalachia, the Illinois Basin and

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

the Western United States. As of December 31, 2001, we controlled approximately 1.15 billion tons of proven and probable coal reserves in eight states. In 2001, our lessees produced 29 million tons of coal from our properties and our total revenues were \$47.2 million on a pro forma basis, including coal royalty revenues of \$42.4 million.

We lease coal reserves to experienced mine operators under long-term leases that grant the operators the right to mine our coal reserves in exchange for royalty payments. Our royalty payments are based on the higher of a percentage of the gross sales price or a fixed price per ton of coal sold, subject to a minimum payment. As of September 1, 2002, our reserves were located on 45 separate properties and are subject to 62 leases with 31 lessees. In 2001, approximately 57% of the coal produced from our properties came from underground mines and 43% came from surface mines. As of December 31, 2001, approximately 65% of our reserves were low sulfur coal. Included in our low sulfur reserves is compliance coal, which meets the standards imposed by the Clean Air Act and constitutes approximately 25% of our reserves. Coal produced from our properties is burned in electric power plants located east of the Mississippi River and in Montana and Minnesota. Approximately 12% of our lessees' 2001 coal production was metallurgical coal, which our lessees sold to steel companies in the Eastern United States, South America, Europe and Asia.

The WPP Group retained coal reserve properties that are leased to third parties but that are short-lived, that are subject to leases that contain uneconomic terms or that are experiencing permitting problems. The WPP Group has retained other unleased coal reserve properties, surface lands and timberlands that generated approximately \$5.7 million, \$10.5 million, and \$9.9 million of revenue for 1999, 2000 and 2001, respectively. The historical financial statements and related discussions that follow for the members of the WPP Group include results of operations related to these retained properties. The historical financial statements for the WPP Group do not reflect the historical results that would have been obtained if only the contributed properties had been presented.

The Arch Coal Contributed Properties historical financial statements include only properties that are being contributed to us. The Arch Coal Contributed Properties is not a legal entity and, except for revenues earned from the properties and certain direct costs and expenses of the properties, no separate financial information was maintained or is presented.

51

During the last few years, steam coal prices have varied greatly. At the beginning of 2000, demand for steam coal was depressed due to excessive stockpiling of coal by utilities in anticipation of "Y2K" problems. By late summer of 2000, these stockpiles returned to normal levels, utilities reentered the market to buy coal and sufficient supply was not available to meet demand. These events contributed to a rapid increase in coal prices during late 2000. These higher spot prices prevailed for most of 2001. In late 2001, prices began to decline as demand for coal fell due to unusually warm weather during the winter of 2001-2002 and the sluggish U.S. economy. The effect of these lower spot prices on our results of operations for the near future should be limited because our lessees will receive previously contracted prices for much of their production. The prices have stabilized at recent historical levels during 2002.

During 2001, approximately 14% of our coal royalty revenues were from metallurgical coal. Prices of metallurgical coal have remained relatively stable in the past two years. Metallurgical coal, because of its unique chemical characteristics, is usually priced higher than steam coal. Metallurgical coal production has gradually decreased during the past few years due to a decline in exports as a result of the strength of the U.S. dollar and increasing use of

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

electric arc furnaces and pulverized coal, rather than metallurgical coal, for steel production. Metallurgical coal can also be used as steam coal. However, some metallurgical coal mines on our properties may only operate profitably if all or a portion of their production is sold as metallurgical coal due to its higher price. If they are unable to sell metallurgical coal, these mines may not be economically viable and may close.

In addition to coal royalty revenue, we will generate nominal revenue from the royalty on oil and gas and coalbed methane leases, an overriding royalty arrangement and wheelage payments, which are toll payments for the right to transport third-party coal over or through our property. We will not have any timber revenues in the future because the WPP Group has retained all of the timber on our properties and the Arch Coal Contributed Properties does not include any timber assets.

Most lessees are required to reimburse us for property taxes we pay on the leased property. These property tax reimbursements are shown as revenue on the historical financial statements included in this prospectus. The corresponding property tax expenses are included as "taxes other than income." The WPP Group's property tax expenses are higher than its property tax revenue because the WPP Group is retaining certain properties and because some of the properties contributed by the WPP Group are unleased and, therefore, no reimbursements are received.

General and administrative expenses include salary and benefits, rent, expenses and other costs related to managing the properties. An affiliate charges the WPP Group for certain finance, tax, treasury and insurance expenses. The Arch Coal Contributed Properties do not maintain stand-alone corporate treasury, legal, tax, human resources, general administration or other similar corporate support functions. Corporate general and administrative expenses have not been previously allocated to the Arch Coal Contributed Properties because there was not sufficient information to develop a reasonable cost allocation. In the future, we will reimburse our general partner and its affiliates for direct and indirect expenses they incur on our behalf, including general and administrative expenses.

Depreciation, depletion and amortization consists primarily of depletion on the coal properties. Depletion of coal reserve properties is calculated on a unit-of-production basis and thus closely correlates to the amount of coal production and coal royalty revenue for the period.

### RESULTS OF OPERATIONS

#### WESTERN POCAHONTAS PROPERTIES LIMITED PARTNERSHIP

Six months ended June 30, 2002 compared with six months ended June 30, 2001

Revenues: Combined revenues for the six months ended June 30, 2002 were \$13.4 million compared to \$11.8 million for the six months ended June 30, 2001, an increase of \$1.6 million, or 14%.

Coal royalty revenues for the six months ended June 30, 2002 were \$10.3 million compared to \$6.9 million for the six months ended June 30, 2001, an increase of \$3.4 million, or 49%. Over these same

periods, production increased by 801,000 tons, or 16%, from 4.9 million tons to 5.7 million tons. The increases in production and coal royalties were primarily due to:

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

- Eastern Kentucky: Production from the Evans-Laviers property increased 64,000 tons from 1,527,000 tons to 1,591,000 tons, which resulted in increased revenues of \$254,000. This increase was due to the addition of another section to an underground mine. On the Chesapeake Minerals property, production increased by 57,000 tons for the six months ended June 30, 2002, resulting in a royalty revenue increase of \$175,000. This increase was due to a reopening of a mine after the purchase of the mine by a new owner.
- Southern West Virginia: Production from the Eunice property increased by 267,000 tons from 1,046,000 tons to 1,313,000 tons, resulting in increased royalty revenues of \$931,000. This increase was due to a longwall mining operation moving back onto the property and also to a higher sales price for the coal. Additionally, on the West Fork property, production increased by 690,000 tons from the six months ended June 30, 2001, resulting in increased royalty revenues of \$1,610,000. This increase was the result of a longwall mine moving onto the property. Also, on the Welch/Wyoming property, production increased by 258,000 tons from the six months ended June 30, 2001, resulting in increased royalty revenue of \$739,000. This increase was due to a new mine opening on the property. These increases were partially offset by a decrease in production at the Rockhouse Fork property of 211,000 tons, which led to a royalty revenue reduction of \$545,000. This reduction was due to lower than expected production by the contract miner.
- Northern Appalachia: Production from the Beaver Creek property increased by 292,000 tons from 24,000 tons to 316,000 tons, resulting in increased royalty revenue of \$650,000. This increase was due to production moving back onto the property.
- Indiana: Production from the Hocking-Wolford/Cummings property decreased by 438,000 tons from 864,000 tons to 426,000 tons, resulting in a decrease in royalty revenue of \$515,000. This decrease was due to a shift in mining to adjacent non-owned properties.

Timber revenues decreased by \$1.8 million from \$3.4 million for the six months ended June 30, 2001 to \$1.6 million for the six months ended June 30, 2002. This decrease was due to a greater than normal harvest for the six months ended June 30, 2001 and a smaller than normal harvest for the six months ended June 30, 2002 due to reduced demand for timber.

Expenses: Aggregate expenses for the six months ended June 30, 2002 were \$3.8 million compared to \$3.1 million for the six months ended June 30, 2001, an increase of \$700,000, or 23%. This increase was primarily due to increased depletion due to increased production.

Other Income (Expense): Interest expense was \$2.9 million for the six months ended June 30, 2002 compared to \$2.0 million for the six months ended June 30, 2001. This increase was due to increased debt arising from the acquisition of the CSX reversionary interest in December 2001 and March 2002. Other expense included \$561,000 related to the reversionary interest for the six months ended June 30, 2002.

Net Income: Net income was \$6.2 million for the six months ended June 30, 2002 compared to \$6.9 million for the six months ended June 30, 2001, a decrease of \$700,000, or 10%. This decrease was primarily due to increased operating and interest expenses and the purchase of the CSX reversionary interest, partially offset by increases revenues.

Year ended December 31, 2001 compared with year ended December 31, 2000

Revenues: Combined revenues in 2001 were \$26.0 million compared to \$22.5

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

million in 2000, an increase of \$3.5 million, or 15%.

53

Coal royalty revenues in 2001 were \$15.5 million compared to \$11.6 million in 2000, an increase of \$3.9 million, or 33%. Over these same periods, production increased by 2.9 million tons, or 39%, from 7.4 million tons to 10.3 million tons. The increases in production and coal royalties were primarily due to:

- Eastern Kentucky: Production from the Evans-Laviers property increased 2.6 million tons, from 1.2 million tons to 3.8 million tons, which resulted in increased royalty revenues of \$3.8 million. This increase was primarily due to the opening of a new deep mine late in 2000, a large underground mine reaching full production in 2001 and the reopening of a temporarily idled surface and highwall mine in July 2001 at a higher royalty rate. On the Chesapeake Mineral property, production increased by 218,000 tons in 2001 due to the reopening of the mine under new ownership. This was partially offset by the reduction of production at another lease on this property. This resulted in a royalty revenue increase of \$269,000.
- Southern West Virginia: Production from the Eunice property decreased by 1.3 million tons, from 3.1 million tons to 1.8 million tons, resulting in a decrease in royalty revenues of \$1.1 million. This decrease was due primarily to the closure of a longwall mine as a result of adverse geologic conditions and surface mining being performed on adjacent property during the year. This decrease in production was partially offset by an increase in production from the Dorothy-Sarita property of 301,000 tons, from 351,000 tons to 652,000 tons, that resulted in increased royalty revenues of \$400,000. This increase in production was due to the addition of a surface and highwall mine. On the Rockhouse Fork property, production decreased by 148,000 tons, from 470,000 tons to 322,000 tons, that reduced royalty revenues by \$348,000. This decrease in production was due to a decision to mine in a thinner part of the coal seam, geologic conditions and a change in contractors by the lessee.

Timber revenues decreased to \$3.7 million in 2001 from \$4.2 million in 2000, a decrease of \$0.5 million, or 13%. The decrease was due to a one-time sale of timber in 2000 for \$700,000 on a parcel in Northern Appalachia, which contained 1.5 million board feet of timber.

Gain on sale of property was \$3.1 million in 2001 and \$4.0 million in 2000. These gains were related to the sale of 1,928 and 1,391 acres of land in 2001 and 2000, respectively.

Other revenues increased to \$2.5 million in 2001 from \$1.3 million in 2000, an increase of \$1.2 million, or 92%. This increase was due to a determination that a lessee was required to pay transportation fees that were previously unreported by the lessee for several years.

Expenses: Aggregate expenses for 2001 were \$5.8 million compared to \$5.9 million for 2000, a decrease of \$0.1 million or 1%, primarily due to a decrease in property taxes that was partially offset by increased depletion attributed to higher coal production.

Other Income (Expense): Interest expense was \$4.0 million for 2001 compared to \$4.2 million for 2000, a decrease of \$0.2 million, or 5%. This decrease was due to scheduled principal reductions.

Reversionary Interest: The previous owner of Western Pocahontas Properties

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Limited Partnership's coal and timber properties (CSX Corporation and certain of its affiliates) retained a reversionary interest in those properties whereby it received either a 25% or 28% interest in the properties and the net revenues of the properties after July 1, 2001, and in the net proceeds of any property sale occurring prior to July 1, 2001. In 2001, we accrued \$1.9 million related to the reversionary interest.

**Net Income:** Net income was \$14.5 million in 2001 compared to \$12.8 million in 2000, an increase of \$1.7 million or 13%. This increase was primarily due to increased coal production by our lessees and correspondingly higher royalty payments.

Year ended December 31, 2000 compared with year ended December 31, 1999

**Revenues:** Combined revenues in 2000 were \$22.5 million compared to \$22.2 million in 1999, an increase of \$0.3 million, or 2%.

54

Coal royalty revenues in 2000 were \$11.6 million compared to \$15.8 million in 1999, a decrease of \$4.2 million, or 26%. Over these same periods, production decreased by 2.4 million tons, or 24%, from 9.8 million tons to 7.4 million tons. The decreases in production and coal royalties were primarily due to:

- Eastern Kentucky: Production from the Evans-Laviers property decreased 0.6 million tons, from 1.8 million tons to 1.2 million tons, which resulted in decreased royalty revenue of \$0.8 million. The decrease resulted primarily from a sublessee losing a major sales contract in February 2000 and a resulting decision to temporarily idle the mine.
- Southern West Virginia: Production from the Dorothy-Sarita property decreased by 564,000 tons, from 915,000 tons to 351,000 tons, which resulted in decreased royalty revenue of \$747,000. The decrease resulted primarily from the closing of a deep mine due to exhaustion of reserves in the seam being mined. This decrease in production was partially offset by an increase in certain royalty rates. On the Eunice property, production was nearly constant but royalty revenue decreased \$465,000 because of a decrease in the sales price of the coal and a shift in production to mining methods that yielded a lower royalty rate. On the Y&O property, production decreased 515,000 tons, from 1,249,000 tons to 734,000 tons, which resulted in decreased royalty revenue of \$1.4 million. This decrease was primarily due to the lessee's longwall mine ceasing operations in early 2000 upon exhaustion of reserves in the seam being mined and was partially offset by production increases at two other leases on this property. On the Rockhouse Fork property, production decreased 100,000 tons from 570,000 tons to 470,000 tons, which resulted in a royalty revenue decrease of \$228,000. This decrease was due to the a thinning coal seam and other adverse geologic conditions.

Timber revenues increased to \$4.2 million in 2000 from \$3.8 million in 1999, an increase of \$0.4 million, or 12%. This increase was primarily attributable to higher rates under a renegotiated contract starting in January 2000 with our principal timber operator in Southern West Virginia.

Gain on sale of property was \$4.0 million in 2000 and \$0.2 million in 1999. The gain in 2000 was the result of the sale of 1,391 acres of surface land.

**Other Income (Expense):** Interest expense was \$4.2 million for 2000 compared to \$4.4 million for 1999, a decrease of \$0.2 million, or 4%, resulting from principal reductions.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Net Income: Net income was \$12.8 million for 2000 compared to \$12.2 million for 1999, an increase of \$0.6 million, or 5%. This increase primarily resulted from a gain on sale of property and was partially offset by decreased coal royalty payments.

### GREAT NORTHERN PROPERTIES LIMITED PARTNERSHIP

Six months ended June 30, 2002 compared with six months ended June 30, 2001

Revenues: Combined revenues for the six months ended June 30, 2002 were \$3.9 million compared to \$4.0 million for the six months ended June 30, 2001, a decrease of \$0.1 million. Coal royalty revenues for the six months ended June 30, 2002 were \$3.4 million compared to \$3.2 million for the six months ended June 30, 2001, an increase of \$0.2 million, or 6%. Over these periods, production decreased by 1.0 million tons, from 4.6 million tons to 3.6 million tons, or 22%. The increase in coal royalty revenues and the decrease in production were primarily due to:

- Production from the Washington state property, which is not being contributed to us, increased by 0.4 million, which resulted in increased royalty of \$0.7 million due to production moving onto the property. Production from the Big Sky property increased by 0.1 million, which resulted in increased coal royalty revenues of \$0.2 million, while production from the Western Energy property decreased 1.2 million tons from 2.6 million tons to 1.4 million tons, which resulted in decreased coal royalty revenues of \$0.6 million. The production variances on the Big Sky and Western Energy properties were the result of the typical variations that can result from the checkerboard ownership

55

pattern in these mines. This ownership pattern causes mining operations to periodically move onto the property from contiguous non-owned property and back off again.

Other Income (Expense): Interest expense for the six months ended June 30, 2002 was \$1.1 million compared to \$2.1 million for the six months ended June 30, 2001, a decrease of \$1.0 million, or 48%. This was due to a decrease in interest rates from an average of 8.36% for the six months ended June 30, 2001 to 4.6% for the six months ended June 30, 2002.

Net Income: Net income was \$1.3 million for the six months ended June 30, 2002 compared to \$700,000 for the six months ended June 30, 2001, an increase of \$600,000, or 86%. This increase primarily resulted from a reduction in interest expense.

Year ended December 31, 2001 compared with year ended December 31, 2000

Revenues: Combined revenues in 2001 were \$8.8 million compared to \$9.4 million in 2000, a decrease of \$0.6 million, or 6%. Coal royalty revenues in 2001 were \$7.5 million compared to \$8.0 million in 2000, a decrease of \$0.5 million, or 6%. Over these periods, production decreased by 663,000 tons, or 7%, from 9.2 million tons to 8.5 million tons. These decreases in production and coal royalties were primarily due to:

- Production from the Western Energy property decreased by 783,000 tons, from 5.7 million tons to 4.9 million tons, which resulted in decreased royalty revenues of \$1.1 million. This decrease in production was the result of the typical variations which can result from the checkerboard ownership pattern in this mine. This ownership pattern causes mining operations to periodically move from the property to contiguous non-owned

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

property and back again.

- Production from the Big Sky property increased by 0.4 million tons, from 1.4 million to 1.8 million tons, which resulted in increased royalty revenues of \$0.4 million. These increases were due to the favorable location of mining operations relative to the checkerboard ownership pattern.

Lease and easement income in 2001 was \$787,000 compared to \$583,000 in 2000. This increase was primarily attributable to surface use payments relating to increased mining on surface property owned by us.

Gain on sale of property was \$439,000 in 2001.

Other Income (Expense): Interest expense was \$3.7 million for 2001 compared to \$4.7 million for 2000, a decrease of \$1.0 million, or 21%. This decrease primarily resulted from a reduction in the outstanding principal balance of debt combined with a reduction in interest rates from an average of 9.3% in 2000 to 7.5% in 2001.

Net Income: Net income was \$2.6 million for 2001 compared to \$2.3 million for 2000, an increase of \$0.3 million, or 14%. This increase primarily resulted from a reduction in interest expense that was partially offset by lower coal royalties.

Year ended December 31, 2000 compared with year ended December 31, 1999

Revenues: Combined revenues in 2000 were \$9.4 million compared to \$12.3 million in 1999, a decrease of \$2.9 million, or 24%. Coal royalty revenues in 2000 were \$8.0 million compared to \$11.7 million in 1999, a decrease of \$3.7 million, or 32%. Over these same periods, production decreased by 2.5 million tons, or 22%, from 11.7 million tons to 9.2 million tons. The decrease in production and coal royalties were primarily due to:

- Production from the Western Energy property decreased in 2000 by 1.6 million tons, from 7.3 million tons to 5.7 million tons, and the contract price per ton decreased as a result of a price reopener provision, which resulted in decreased royalty revenues of \$2.2 million. This decrease in

56

production was the result of the typical variations which can result from the checkerboard ownership pattern in the mine.

- Production from the Big Sky property decreased in 2000 by 1.4 million tons, from 2.8 million tons to 1.4 million tons, which resulted in decreased royalty revenues of \$1.4 million. This decrease in production was primarily due to the lessee losing a significant sales contract at the beginning of 2000.

Gain on sale of property was \$709,000 in 2000 resulting from the sale of surface land in Montana.

Lease and easement income in 2000 was \$583,000 compared to \$480,000 in 1999. This increase was primarily attributable to surface use payments from increased mining on surface property owned by us.

Expenses: Aggregate expenses for 2000 were \$2.8 million compared to \$3.4 million for 1999, a decrease of \$0.6 million, or 17%. The decrease in expenses in 2000 primarily related to the decrease in depletion associated with the reduction in production during the period.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Other Income (Expense): Interest expense was \$4.7 million for 2000 compared to \$5.0 million for 1999, a decrease of \$0.3 million, or 6%. This increase was due to an increase in interest rates, which was partially offset by the reduction in the principal balance.

Interest income increased to \$376,000 for 2000 from \$63,000 in 1999, due to cash placed in restricted accounts as required under the loan agreement.

Extraordinary Item: In 1999, there was a one-time loss of \$2.7 million relating to the early extinguishment of debt.

Net Income: Net income was \$2.3 million for 2000 compared to \$1.3 million for 1999, an increase of \$1.0 million, or 77%. This increase was primarily due to the extraordinary item in 1999, partially offset by lower coal revenues in 2000.

### NEW GAULEY COAL CORPORATION

Six months ended June 30, 2002 compared with six months ended June 30, 2001

Revenues: Combined revenues for the six months ended June 30, 2002 were \$990,000 compared to \$859,000 for the six months ended June 30, 2001, an increase of \$131,000, or 15%. Coal royalty revenues for the six months ended June 30, 2002 were \$938,000 compared to \$776,000 for the six months ended June 30, 2001, an increase of \$162,000, or 21%. Over the same period production decreased by 61,000 tons, or 16%, from 372,000 tons to 311,000 tons. This increase in coal royalties and the decrease in production were primarily due to:

- Production on the Alabama property increased by 24,000 tons, which resulted in increased coal royalty revenues of \$269,000, due partially to an increase in average sales. Of the coal royalty revenues, \$140,000 was recognized as revenue due to increased recoupment.
- Production on the West Virginia property decreased by 84,000 tons, which resulted in decreased coal royalty revenues of \$123,000.

Net Income: Net income was \$758,000 for the six months ended June 30, 2002 compared to \$656,000 for the six months ended June 30, 2001, an increase of \$102,000, or 15%. This increase was primarily due to increased coal royalty revenues.

Year ended December 31, 2001 compared with year ended December 31, 2000

Revenues: Combined revenues in 2001 were \$1.7 million compared to \$1.0 million in 2000, an increase of \$0.7 million, or 70%. Coal royalty revenues in 2001 were \$1.6 million compared to \$1.0 million in 2000, an increase of \$0.6 million, or 60%. Over these same periods, production increased by 362,000

57

tons, or 102%, from 356,000 tons to 718,000 tons. This increase in production and coal royalties was primarily due to:

- Production from the West Virginia property increased by 292,000 tons, from 149,000 tons to 441,000 tons, which resulted in increased royalty revenues of \$687,000. This increase resulted from the lessee's mining operations moving onto New Gauley Coal Corporation's property from adjacent reserves and an increase in the royalty rate.

Expenses: Aggregate expenses for 2001 were \$298,000 compared to \$212,000

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

for 2000, an increase of \$86,000, or 41%. This increase was due primarily to increased depletion associated with the increased production during the period.

Net Income: Net income was \$1.2 million for 2001 compared to \$0.7 million for 2000, an increase of \$0.5 million, or 71%. This increase was primarily due to increased coal royalty revenues.

Year ended December 31, 2000 compared with year ended December 31, 1999

Revenues: Combined revenues in 2000 were \$1.0 million compared to \$1.4 million in 1999, a decrease of \$0.4 million, or 29%. Coal royalty revenues in 2000 were \$1.0 million compared to \$1.3 million in 1999, a decrease of \$0.3 million, or 23%. Over these same periods, production decreased by 216,000 tons, or 38%, from 572,000 tons to 356,000 tons. This decrease in production and coal royalties was primarily due to:

- Production from the West Virginia property decreased by 100,000 tons, from 249,000 tons to 149,000 tons, which resulted in decreased royalty revenues of \$70,000. This decrease was caused by the lessee moving its mining operations to adjacent reserves.
- Production from the Alabama property decreased by 117,000 tons, from 323,000 tons to 206,000 tons, which resulted in decreased royalty revenues of \$150,000. This decrease resulted from the lessee's decision to decrease sales and production due to depressed market prices.

Expenses: Aggregate expenses for 2000 were \$212,000 compared to \$295,000 for 1999, a decrease of \$83,000, or 28%. This decrease was primarily related to a decrease in depletion associated with reduced production during the period.

Net Income: Net income was \$661,000 for 2000 compared to \$993,000 for 1999, a decrease of \$332,000, or 33%. This decrease was primarily due to a reduction in coal royalties.

### ARCH COAL CONTRIBUTED PROPERTIES

Six months ended June 30, 2002 compared with six months ended June 30, 2001

Revenues: Revenues for the six months ended June 30, 2002 were \$10.3 million compared with \$10.6 million for the six months ended June 30, 2001, a decrease of \$0.3 million, or 3%.

Coal royalty revenues for the six months ended June 30, 2002 were \$8.9 million compared to \$9.3 million for the six months ended June 30, 2001, a decrease of \$0.4 million or 4%. Production decreased by 0.5 million tons, or 9%, from 5.8 million tons for the six months ended June 30, 2001 to 5.3 million tons for the six months ended June 30, 2002. The decrease in production and coal royalty revenues was primarily attributable to the following:

- Southern West Virginia: Production from the Central Appalachia properties decreased 0.4 million tons, from 1.5 million tons for the six months ended June 30, 2001 to 1.1 million tons for the six months ended June 30, 2002, which resulted in decreased coal royalty revenues of \$714,000. The decrease was primarily due to a reduction in production at the Campbell's Creek and Boone/ Lincoln properties. Production on the Campbell's Creek property decreased 148,000 tons to 546,000 tons and production on the Boone/Lincoln property decreased 262,000 tons to 110,000 tons, primarily as a result of a weaker coal demand.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Direct costs and expenses: Direct costs and expenses for each of the six months ended June 30, 2002 and 2001 were \$3.9 million. Depletion decreased \$0.3 million to \$3.0 million for the six months ended June 30, 2002, primarily as a result of the reduced production during the period. This was offset by increased override royalties due to a third party. Those royalties increased \$264,000 to \$411,000 for the six months ended June 30, 2002 as a result of increased production on the property subject to the override.

Year ended December 31, 2001 compared with year ended December 31, 2000

Revenues: Revenues in 2001 were \$20.8 million compared with \$18.3 million in 2000, an increase of \$2.5 million, or 14%.

Coal royalty revenues in 2001 were \$18.4 million compared to \$16.2 million in 2000, an increase of \$2.2 million, or 14%. Production increased by 1.4 million tons, or 14%, from 9.9 million tons to 11.3 million tons. The increase in production and coal royalties were primarily attributable to the following:

- Eastern Kentucky: Production from the Central Appalachia properties increased 1.2 million tons, from 6.2 million tons to 7.4 million tons, which resulted in increased coal royalty revenues of \$2.0 million. This increase was due primarily to the ramp up of production at various surface and underground mines at the Lynch property that increased production from 2.0 million tons in 2000 to 3.1 million tons in 2001. Production at the Lone Mountain property also increased from 2.2 million tons in 2000 to 2.8 million tons in 2001 due to the installation of additional equipment at the lessee's mine.

Other royalty revenues for 2001 were \$1.4 million compared to \$0.9 million in 2000, an increase of \$0.5 million. Other royalty revenues are primarily attributable to override royalties associated with coal mined by lessees. Override royalties were \$1.2 million in 2001 compared to \$0.8 million in 2000.

Direct costs and expenses: Direct costs and expenses in 2001 were \$7.7 million compared to \$6.6 million in 2000, an increase of \$1.1 million, or 16%. This increase was largely due to increased depletion resulting from the increased production during the period. Depletion expense increased \$1.0 million to \$6.4 million in 2001 from \$5.4 million in 2000.

Year ended December 31, 2000 compared with year ended December 31, 1999

Revenues: Revenues in 2000 were \$18.3 million compared to \$15.3 million in 1999, an increase of \$3.0 million, or 19%.

Coal royalty revenues in 2000 were \$16.2 million compared to \$13.2 million in 1999, an increase of \$3.0 million, or 22%. Production increased by 2.2 million tons, or 28%, from 7.7 million tons to 9.9 million tons. The increase in production and coal royalty revenues was primarily attributable to the following:

- Eastern Kentucky: Production increased on the Central Appalachia properties by 2.3 million tons, from 3.9 million tons to 6.2 million tons, which resulted in an increase in coal royalty revenues of \$3.8 million. This increase was due primarily to the start up of production at various surface and underground mines at the Lynch property that increased production from 0.1 million tons in 1999 to 2.0 million tons in 2000.

Direct Costs and Expenses: Direct costs and expenses in 2000 were \$6.6 million compared to \$72.0 million in 1999, a decrease of \$65.4 million. This decrease is primarily due to a \$65.2 million non-cash impairment charge on certain properties in 1999. During the fourth quarter of 1999, Arch Coal

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

determined that, as a result of several adverse regulatory rulings and the continued negative pricing trends related to Central Appalachian coal production experienced by Arch Coal at that time, an evaluation of the recoverability of its active mining operations and coal reserves was necessary pursuant to SFAS 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of." The evaluation indicated that the future undiscounted cash flows of certain coal reserves were below the carrying value of such assets. Accordingly, Arch Coal adjusted the value of certain reserves. The estimated

59

fair value for the coal reserves with no future mine plans was based upon the fair value of these properties to be derived from subleased operations. The Arch Coal Contributed Properties affected by the write-down were written down to approximately \$47.1 million, resulting in a non-cash impairment charge of \$65.2 million. The impairment loss was recorded as a write-down of impaired assets in the statement of revenues and direct costs and expenses.

Depletion expense decreased \$0.2 million to \$5.4 million in 2000 from \$5.6 million in 1999. The decrease was a result of reduced depletion expense corresponding to the impairment charge. The impairment charge reduced the depletion rate on a per ton basis for 2000. The impact of the lower rates was partially offset by increased production in 2000.

### RELATED PARTY TRANSACTIONS

For a description of our related party transactions, please read "Certain Relationships and Related Transactions."

### LIQUIDITY AND CAPITAL RESOURCES

#### CASH FLOWS AND CAPITAL EXPENDITURES

Historically, each of the WPP Group and the Arch Coal Contributed Properties satisfied their working capital requirements and funded capital expenditures, other than property acquisitions, with cash generated from operations. Funds for property acquisitions have generally been obtained through borrowings.

Following this offering, we believe that cash generated from operations and our borrowing capacity under our new credit facility will be sufficient to meet our working capital requirements and anticipated capital expenditures for the next several years. We anticipate that we will incur less than \$100,000 in capital expenditures in the first year following the offering, consistent with our assumption that we will not make any acquisitions during this period. If we do make any acquisitions, we expect to fund them with borrowings under our credit facility and proceeds from the issuance of common units. A portion of our capital expenditures will be maintenance capital expenditures, which will be deducted from our pro forma operating surplus for the period. Our ability to satisfy any debt service obligations, to fund planned capital expenditures, to make acquisitions and to pay distributions to our unitholders will depend upon our future operating performance, which will be affected by prevailing economic conditions in the coal industry and financial, business and other factors, some of which are beyond our control. For a more complete discussion of factors that will affect cash flow we generate from our operations, please read "Risk Factors." Our capital expenditures have historically been minimal. Please read "Cash Available for Distribution."

Maintenance capital expenditures are capital expenditures made to replace partially or fully depreciated assets in order to maintain the existing

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

operating capacity of our assets and to extend their useful lives. Expansion capital expenditures are capital expenditures made to expand the existing operating capacity of our assets, whether through construction or acquisition. We treat repair and maintenance expenditures that do not extend the useful life of existing assets as plant operating expenses as we incur them.

### Western Pocahontas Properties Limited Partnership

Net cash provided by operations in the six months ended June 30, 2002 was \$5.9 million compared to \$8.5 million in the six months ended June 30, 2001, a decrease of \$2.6 million. This decrease was partially due to a \$1.8 million decrease in timber royalty. Reversionary interest payable decreased \$900,000 as a result of the purchase of the reversionary interest from CSX.

Net cash used in investing activities in the six months ended June 30, 2002 was \$42.9 million compared to \$22,000 in the six months ended June 30, 2001, an increase of \$42.9 million. This increase primarily reflected the purchase of the reversionary interest from CSX in March 2002.

60

Cash provided by financing activities in the six months ended June 30, 2002 was \$39.7 million compared to \$8.1 million of cash used in financing activities in the six months ended June 30, 2001, a change of \$47.8 million. This was primarily attributable to additional debt incurred to finance the reversionary interest purchased from CSX.

Net cash provided by operations was \$13.1 million in 2001, \$10.7 million in 2000 and \$13.8 million in 1999. The decrease in 2000, as compared to 2001 and 1999, resulted from a decline in coal royalty revenues due to the idling of two operations in Kentucky and the exhaustion of reserves on one property in West Virginia. The two mines idled in 2000 resumed production in 2001.

Net cash provided by investing activities was \$2.7 million, \$4.0 million and \$0.2 million in 2001, 2000 and 1999, respectively. Net cash provided by investing activities relates to proceeds from sales of properties partially offset by capital expenditures. Proceeds from sales of surface land were \$3.7 million, \$4.0 million and \$0.2 million in 2001, 2000 and 1999, respectively. Capital expenditures in 2001 increased \$8.9 million due to the acquisition of the reversionary interest from the previous owner of the properties. A portion of this acquisition was financed with a \$7.9 million note payable to the seller of the reversionary interest.

Cash flows from financing activities were \$15.4 million in 2001, \$14.6 million in 2000 and \$14.6 million in 1999. This activity reflects principal repayments on debt, distributions to partners and the placement of cash in restricted accounts as required under the loan agreement.

### Great Northern Properties Limited Partnership

Net cash used in financing activities was \$2.5 million in the six months ended June 30, 2002 compared to \$3.1 million in the six months ended June 30, 2001. This decrease was the result of a decrease in the amount of cash placed in restricted accounts as required by a loan agreement.

Net cash provided by operations was \$3.7 million in 2001, \$5.7 million in 2000 and \$3.2 million in 1999. Cash provided by operating activities in 2000 includes increased accounts receivable collections. Accounts receivable levels declined in 2000 as a result of lower production levels.

Net cash provided by investing activities, primarily from proceeds from the

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

sales of surface land, was \$475,000, \$726,000 and \$2,000 in 2001, 2000 and 1999, respectively.

Cash flows used in financing activities were \$4.6 million in 2001, \$6.2 million in 2000 and \$3.1 million in 1999. This activity reflects principal repayments on debt, distributions to partners and the placement of cash in restricted accounts as required under the loan agreement.

### New Gauley Coal Corporation

Net cash provided by operations and financing activities in the six months ended June 30, 2002 and 2001 was essentially the same.

Net cash provided by operations was \$1,323,000, \$604,000 and \$900,000 for the years 2001, 2000 and 1999, respectively. The decrease in 2000 was primarily the result of a lessee moving onto adjacent property during 2000.

Net cash used in investing activities was \$175,000, \$0, and \$67,000 for the years 2001, 2000 and 1999, respectively. This reflects a \$200,000 note receivable net of proceeds from asset sales in 2001.

Net cash used in financing activities was \$1,091,000, \$591,000 and \$979,000 for the years 2001, 2000 and 1999, respectively. This activity primarily reflects dividends to stockholders.

### Arch Coal Contributed Properties

The Arch Coal Contributed Properties do not maintain cash accounts. Cash receipts and expenditures are maintained by Ark Land.

61

Direct cash flows from the Arch Coal Contributed Properties were \$8.6 million in the six months ended June 30, 2002 compared to \$9.8 million in the six months ended June 30, 2001. The decrease was a result of decreased coal production from the Arch Coal Contributed Properties during the six months ended June 30, 2002. Direct cash flows from the Arch Coal Contributed Properties were \$15.4 million in 1999, \$16.6 million in 2000 and \$19.8 million in 2001. The increase during the three years was a result of increased coal royalties generated from the Arch Coal Contributed Properties.

## CONTRACTUAL OBLIGATIONS AND COMMERCIAL COMMITMENTS

### Description of Credit Facility

In connection with the closing of this offering, our operating company will enter into a three year \$100 million revolving credit facility. The credit facility includes a \$12.0 million distribution loan sublimit that can be used for funding quarterly distributions. The remainder of the revolving credit facility will be available for general, limited partnership and limited liability company purposes, including future acquisitions, but may not be used to fund quarterly distributions. At the closing of this offering, we expect that all of the \$100 million credit facility will be available for borrowing.

Our obligations under the credit facility will be unsecured but will be guaranteed by us and our operating subsidiaries.

We may prepay all loans at any time without penalty. We must reduce all borrowings under the distribution loan subfacility to zero for a period of at least 15 consecutive days once during each twelve-month period.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Indebtedness under the revolving credit facility will bear interest, at our option, at either:

- the higher of the federal funds rate plus 0.50% or the prime rate as announced by the agent bank; or
- at a rate equal to LIBOR plus an applicable margin ranging from 1.25% to 1.75%.

We will incur a commitment fee on the unused portion of the credit facility at a rate of 0.50% per annum.

The credit facility prohibits us from making distributions to unitholders and distributions in excess of available cash if any potential default or event of default, as defined in the credit agreement, occurs or would result from the distribution. In addition, the credit facility will contain various covenants limiting our operating company's and its subsidiaries' ability to:

- incur indebtedness;
- grant liens;
- engage in mergers and acquisitions or change the nature of our business;
- amend our organizational documents or the omnibus agreement;
- make loans and investments;
- sell assets; or
- enter into transactions with affiliates.

The credit agreement also contains covenants requiring us to maintain:

- a ratio of consolidated indebtedness to consolidated EBITDA (as defined in the credit agreement) of 2.5 to 1.0 for the four most recent quarters; and
- a ratio of consolidated EBITDA to consolidated interest expense of 4.0 to 1.0 for the four most recent quarters.

62

If an event of default exists under the credit agreement, the lenders will be able to accelerate the maturity of any indebtedness outstanding under the credit agreement and exercise other rights and remedies. Each of the following will be an event of default:

- failure to pay any principal, interest, fees or other amount when due;
- failure to pay any indebtedness, other than indebtedness under the credit facility, in excess of \$1 million when due or the occurrence and continuance of any other default beyond the applicable grace period, if any, if the default permits or causes the acceleration of the indebtedness or termination of any commitment to lend;
- bankruptcy or insolvency events;
- termination of existence;
- failure to comply with the loan documents, subject to certain grace

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

periods;

- any representation, warranty or document provided is determined to have been materially untrue when made or provided;
- entry and the failure to pay, bond, stay or contest adverse judgments or similar processes in excess of \$1 million more than any applicable insurance coverage; and
- any of the following changes in control:
  - we cease to own all of the member interests of the operating company;
  - our general partner ceases to own directly all of our general partner interests; or
  - Corbin J. Robertson, Jr. and the WPP Group and/or one or more of their direct or indirect subsidiaries cease to own more than 50% of the partnership interests of our general partner.

The credit facility is subject to a number of conditions, including the negotiation, execution and delivery of definitive documentation.

### Partnership Agreement

Our general partner will not receive any management fee or other compensation for its management of Natural Resource Partners. However, in accordance with the partnership agreement, our general partner and its affiliates will be reimbursed for expenses incurred on our behalf. All direct general and administrative expenses will be charged to us as incurred. Indirect general and administrative costs, including certain legal, accounting, treasury, information technology, insurance, administration of employee benefits and other corporate services incurred by our general partner and its affiliates will be reimbursed. Cost reimbursements and fees due our general partner may be substantial and will reduce our cash available for distribution to unitholders. For additional information, please read "Certain Relationships and Related Transactions -- Omnibus Agreement."

### INFLATION

Inflation in the United States has been relatively low in recent years and did not have a material impact on operations for the years ended December 31, 1999, 2000 or 2001.

63

### ENVIRONMENTAL

The operations of our lessees are subject to environmental laws and regulations adopted by various governmental authorities in the jurisdictions in which these operations are conducted. The terms of substantially all of our leases impose liability for all environmental and reclamation liabilities arising under those laws and regulations on the relevant lessees. However, if a particular lessee is not financially capable of fulfilling those obligations, there is a possibility that regulatory authorities could attempt to assign the liabilities to us as the landowner. We would contest such an assignment. Please read "Risk Factors -- Regulatory and Legal Risks" and "Business -- Regulation."

### RECENT ACCOUNTING PRONOUNCEMENTS

In June 1998, the Financial Accounting Standards Board (FASB) issued

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Statement of Financial Accounting Standards (SFAS) No. 133, "Accounting for Derivative Instruments and Hedging Activities." SFAS No. 133, as amended, establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities. It requires an entity to recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value. The adoption of SFAS No. 133 on January 1, 2001 did not have a material impact on the WPP Group's or the Arch Coal Contributed Properties' historical financial position or results of operations.

In June 2001, the FASB issued SFAS No. 141 "Business Combinations" and SFAS No. 142, "Goodwill and Other Intangible Assets." SFAS No. 141 eliminates pooling-of-interests accounting and requires all business combinations initiated after June 30, 2001 to be accounted for using the purchase method. With regard to intangible assets, SFAS No. 141 states that intangible assets acquired in a business combination subsequent to June 30, 2001 should be recognized separately if the benefit of the intangible asset is obtained through contractual rights or if the intangible asset can be sold, transferred, licensed, rented or exchanged, without regard to the acquirer's intent. The adoption of SFAS No. 141 did not have a material impact on the 2001 financial statements. SFAS No. 142 discontinues goodwill amortization; rather, goodwill will be subject to at least an annual fair-value based impairment test. The adoption of SFAS No. 142 on January 1, 2002 did not have a material impact on our financial statements.

In June 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations." SFAS No. 143 requires that the fair value of a liability for an asset retirement obligation be recognized in the period in which it is incurred with the associated asset retirement costs being capitalized as a part of the carrying amount of the long-lived asset. SFAS No. 143 also includes disclosure requirements that provide a description of asset retirement obligations and a reconciliation of changes in the components of those obligations. We are evaluating the future financial effects of adopting SFAS No. 143 and expect to adopt the standard effective January 1, 2003.

In August 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." SFAS No. 144 addresses the accounting and reporting for the impairment or disposal of long-lived assets and supersedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of" and APB Opinion No. 30, "Reporting the Results of Operations -- Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions." The objective of SFAS No. 144 is to establish one accounting model for long-lived assets to be disposed of by sale as well as resolve implementation issues related to SFAS No. 121. The adoption of SFAS No. 144 on January 1, 2002 did not have a material impact on our financial position or results of operations.

In April 2002, the FASB issued SFAS No. 145, "Rescission of FASB Statements No. 4, 44 and 62, Amendment of FASB Statement No. 13, and Technical Corrections." Among other things, SFAS No. 145 will require gains and losses on extinguishments of debt to be classified as income or loss from continuing operations rather than as extraordinary items as previously required under SFAS No. 4. The provisions of this Statement related to the rescission of SFAS No. 4 will be applied in fiscal years beginning after

May 15, 2002. We do not expect the adoption of SFAS No. 145 on January 1, 2003 to have a material impact on our financial position or results of operations.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

In July 2002, the FASB issued SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities." SFAS No. 146 addresses financial accounting and reporting for costs associated with exit or disposal activities and nullifies Emerging Issues Task Force Issue No. 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)." The principal difference between SFAS No. 146 and Issue 94-3 relates to SFAS No. 146's requirements for recognition of a liability for a cost associated with an exit or disposal activity. SFAS No. 146 requires that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred. Under Issue 94-3, a liability for an exit cost as generally defined in Issue 94-3 was recognized at the date of an entity's commitment to an exit plan. A fundamental conclusion reached by the FASB in SFAS No. 146 is that an entity's commitment to a plan, by itself, does not create an obligation that meets the definition of a liability. Severance pay under SFAS No. 146, in many cases, would be recognized over time rather than up front. The FASB decided that if the benefit arrangement requires employees to render future service beyond a "minimum retention period" a liability should be recognized as employees render service over the future service period even if the benefit formula used to calculate an employee's termination benefit is based on length of service. The provisions of SFAS No. 146 are effective for exit or disposal activities that are initiated after December 31, 2002, with early application encouraged.

### CRITICAL ACCOUNTING POLICIES

**Coal Royalties.** We recognize coal royalty revenues on the basis of tons of coal sold by our lessees and the corresponding revenue from those sales. Generally, the lessees make payments to us based on the greater of a percentage of the gross sales price or a fixed price per ton of coal they sell, subject to minimum monthly, quarterly or annual payments. These minimum royalty payments are generally recoupable over certain time periods. We initially record minimum payments as deferred revenue and recognize them as coal royalty revenues either when the lessee recoups the minimum payment through production or when the period during which the lessee is allowed to recoup the minimum payment expires.

**Timber Royalties.** We sell timber on a contract basis where independent contractors harvest and sell the timber and, from time to time, in a competitive bid process involving sales of standing timber on individual parcels. We recognize timber revenues when the timber has been sold or harvested by the independent contractors. Title and risk of loss pass to the independent contractors when they harvest the timber.

**Depletion.** We deplete coal properties on a units-of-production basis by lease based upon coal mined in relation to the net cost of the mineral properties and estimated proved and probable tonnage therein. We estimate proved and probable coal reserves with the assistance of third-party mining consultants and involve the use of estimation techniques and recoverability assumptions. Our estimates of coal reserves are updated periodically and may result in adjustments to coal reserves and depletion rates that are recognized prospectively. Timberlands are stated at cost less depletion. We determine the cost of the timber harvested based on the volume of timber harvested in relation to the amount of estimated net merchantable volume by geographic areas. We estimate our timber inventory using statistical information and data obtained from physical measurements and other information gathering techniques. These estimates are updated annually and may result in adjustments of timber volumes and depletion rates, which are recognized prospectively. Changes in these estimates have no effect on our cash flow. During 1999, Arch Coal determined that as a result of several adverse regulatory rulings and the continued negative pricing trends related to Central Appalachian coal production experienced by Arch Coal at that time, an evaluation of the recoverability of its active mining operations and coal reserves was necessary pursuant to SFAS 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Assets to Be Disposed Of." The evaluation indicated that the future undiscounted cash flows of certain coal reserves were below the carrying value of such assets. Accordingly, Arch Coal adjusted the value of certain reserves. The estimated fair value for the coal reserves with no future mine plans was based upon the fair value of these properties to be derived

65

from leasing operations. The Arch Coal Contributed Properties affected by the write-down were written down to approximately \$47.1 million, resulting in a non-cash impairment charge of \$65.2 million. As a result of this adjustment, we decreased the depletion rates for the affected properties. Except for the impairment charge in 1999, there have been no other adjustments to these estimates in each of the last three years which had a material impact on the financial results.

### QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the risk of loss arising from adverse changes in market rates and prices. The principal market risks to which we are exposed are interest rate risk and coal price risk. Debt we incur under our credit facility will bear variable interest at either the applicable base rate or a rate based on LIBOR. Unless interest rates increase significantly in the future, our exposure to interest rate risk should be minimal. Please read "Coal Industry Overview -- Coal Prices" for a discussion of coal price exposure risk.

66

### COAL INDUSTRY OVERVIEW

We obtained the information provided in this Coal Industry Overview regarding coal consumption, coal market prices and other data from the Energy Information Administration, the independent statistical and analytical agency within the U.S. Department of Energy, which we refer to in this prospectus as "EIA," as well as Platts Global Energy, a division of The McGraw-Hill Companies, Inc., which we refer to in this prospectus as "Platts," and the National Mining Association, the primary trade association for the coal industry, which we refer to in this prospectus as "NMA." The EIA bases its forecasts on assumptions about, among other things, trends in various economic sectors, including the residential, transportation and industrial sectors, economic growth rates, technological improvements and demand for other energy sources. Unless we indicate otherwise below, we have obtained the information in this Coal Industry Overview from the EIA.

### INTRODUCTION

Coal is an abundant, efficient and affordable natural resource used primarily to provide fuel for the generation of electric power. World-wide recoverable coal reserves are estimated to be approximately 1.1 trillion tons. The United States is the world's second largest producer of coal and has approximately 25% of global coal reserves, representing approximately 250 years of supply based on current usage rates. Coal reserves in the United States represent approximately 95% of the nation's total fossil fuel reserves.

### COAL MARKETS

Coal is primarily consumed by utilities to generate electricity, by steel companies to make steel products with blast furnaces and by a variety of industrial users to heat and power foundries, cement plants, paper mills, chemical plants and other manufacturing and processing facilities. In general, coal is characterized by end use as either steam coal or metallurgical coal.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Steam coal is used by electricity generators and by industrial facilities to produce steam, electricity or both. Metallurgical coal is refined into coke, which is used in the production of steel. Over the past quarter century, total coal consumption in the United States has nearly doubled to approximately 1.1 billion tons in 2001. The growth in the demand for coal has coincided with an increased demand for coal from electric power generators. Continued demand for coal will primarily depend on coal consumption patterns of the electricity and steel industries and the industrial sector, and the availability, location and price of alternative fuel sources such as natural gas, oil, nuclear and hydroelectric power.

The following table sets forth historical and projected demand trends for U.S. coal by end use consumer through 2020.

### COAL DEMAND BY END USE CONSUMER

67

Over the past ten years, coal-fired power plants have produced over 50% of the electricity in the United States. Coal is the principal source of fuel for electric utilities because of its relative low cost and availability throughout the United States.

The following table sets forth the fuel sources for the generation of electric power in the United States for the last five years.

### DOMESTIC ELECTRIC POWER GENERATORS' FUEL SOURCES COMPARISON

(1) Includes supplemental gaseous fuels.

(e) estimated

Source: EIA Monthly Energy Review, August 2002.

Coal's primary advantage is its relative low cost compared to other fuels used to generate electricity. On an average cost per megawatt-hour basis, coal-fired generation is substantially less expensive than electricity generated utilizing natural gas, oil or nuclear power. Hydroelectric power is less expensive but is limited geographically, and there are few suitable sites for new hydroelectric power dams.

The following table sets forth historical delivered fuel prices to electric utilities through 2001.

INDUSTRY TRENDS

In recent years, the coal industry has experienced several significant trends including:

**Significant Gains in Mining Productivity.** U.S. coal production more than doubled from 1968 to 1998 due largely to changes in work practices and the introduction of new technologies that have greatly increased mine productivity. According to Platts, overall coal mine productivity, measured in tons produced per miner shift, has increased from 28.5 tons in 1990 to 55.0 tons in 2000.

**Growth in Coal Consumption.** Coal consumption should continue to expand as demand for electricity continues to increase. According to Platts and EIA, between 1990 and 2000, electricity production by domestic electric power producers has increased 27% and coal consumption by electric power producers has increased 20%. To date, the deregulation in the U.S. electric utility industry

is

68

motivating power companies to utilize generating plants with the lowest fuel cost, a trend we believe will continue to contribute to the demand for coal in the future.

**Industry Consolidation.** U.S. coal producers have experienced consolidation over the last 25 years. According to the 1977 Keystone Coal Industry Manual, in 1976, the 10 largest coal companies accounted for approximately 38% of total domestic coal production, whereas in 2001, the 10 largest coal companies accounted for approximately 63% of total domestic coal production. Despite the considerable consolidation, according to Platts the industry still remains relatively fragmented with more than 700 coal producers in the United States.

**Increased Utilization of Existing Capacity of Coal-Fired Power Plants.** We believe that existing coal-fired plants will supply much of the projected increase in the demand for electricity because they possess excess capacity that can be utilized at low incremental costs. The average coal-fired generating plant utilization is projected to increase to 84% in 2020 from 72% in 2000.

**Restructuring of Electricity Industry.** In October 1992, Congress enacted the Energy Policy Act of 1992, which gave wholesale electricity suppliers access to the transmission lines of U.S. utility companies. In May 1996, the Federal Energy Regulatory Commission issued the first of a series of orders establishing rules to promote competition in wholesale electricity markets by providing wholesale electricity suppliers open access to electricity transmission systems. In 1999, the Federal Energy Regulatory Commission issued a rule to encourage the establishment of regional transmission organizations. Wholesale competition has resulted in a substantial increase in non-utility generating capacity in the United States.

**Increasingly Stringent Air Quality Laws.** The coal industry has witnessed a shift in demand to low sulfur coal production driven by regulatory restrictions on sulfur dioxide emissions from coal-fired power plants. In 1995, Phase I of the Clean Air Act required high sulfur coal plants to reduce their emissions of sulfur dioxide to 2.5 pounds or less per million Btu, and in 2000, Phase II of the Clean Air Act tightened these sulfur dioxide restrictions further to 1.2 pounds of sulfur dioxide per million Btu. Currently, electric power generators operating coal-fired plants can comply with these requirements by:

- burning lower sulfur coal, either exclusively or mixed with higher sulfur coal;
- installing pollution control devices such as scrubbers, which reduce the emissions from high sulfur coal;
- reducing electricity generating levels; or
- purchasing or trading emission credits to allow them to comply with the sulfur dioxide emission compliance requirements.

Eventually, however, owners of these plants may have to retrofit their operations or switch to burning Phase II compliance coal. We believe that the Clean Air Act will increase the demand for the lower sulfur coal that our lessees produce and sell. However, we believe demand for medium and high sulfur coal will also remain strong in certain markets as many coal-fired power plants continue to burn medium and high sulfur coal, either exclusively or mixed with lower sulfur coal.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

### COAL ROYALTY BUSINESS

Coal royalty businesses are principally engaged in the business of owning and managing coal reserves. As an owner of coal reserves, royalty businesses typically are not responsible for operating mines, but instead enter into long-term leases with third-party coal mine operators granting them the right to mine coal reserves on the owner's property in exchange for a royalty payment. A standard lease has a 5 to 10 year base term, with the lessee having an option to extend the lease for additional five-year terms. Leases often include the right to renegotiate rents and royalties for the extended term.

Typically, lessees make payments based on the higher of a percentage of the gross sales price or a fixed price per ton of coal sold. Therefore, coal royalty revenues are affected by changes in coal prices, lessees' supply contracts and, to a lesser extent, fluctuations in the spot market prices for coal. The

69

prevailing price for coal depends on a number of factors, including the supply-demand relationship, the price and availability of alternative fuels, overall economic conditions and governmental regulations. In addition to their royalty obligation, lessees are often subject to pre-established minimum monthly, quarterly or annual payments. These minimum rentals reflect amounts owners are entitled to receive even if no mining activity occurred during the period. Minimum rentals are often credited against future production royalties that are earned when coal production commences.

Because royalty businesses do not operate any mines, they do not bear ordinary operating costs and have limited direct exposure to environmental, permitting and labor risks. As operators, the lessees are subject to environmental laws, permitting requirements and other regulations adopted by various governmental authorities. In addition, the lessees bear the labor risks, including health care legacy costs, black lung benefits and workmen's compensation costs, associated with operating the mines. Royalty businesses typically pay property taxes and then are reimbursed by the lessee for the taxes on the leased property, pursuant to the terms of the lease.

### LARGEST U.S. COAL PRODUCERS

The ten largest coal producers in the United States accounted for 63% of total U.S. production in 2001. Our lessees include subsidiaries of seven of the top 10 coal producing companies in the United States.

The following table sets forth the ten largest coal producers in the United States in 2001.

#### TOP TEN U.S. COAL PRODUCERS

COMPANY	TONS IN THOUSANDS	PERCENT OF TOTAL U.S. COAL PRODUCTION
Peabody Energy Corporation*.....	167,402	15%

### IMPORTS AND EXPORTS

Coal imports into the United States represent a very small percentage of the total U.S. market for coal. Of the 1.1 billion tons of coal consumed in the United States in 2001, less than 1.9% came from foreign markets. The United States exported approximately 4.3% of 2001 total domestic production. The majority of coal exported from the United States has historically been metallurgical coal. Due to the increase of metallurgical coal available from other countries and technological advances in steel manufacturing, the export market for this coal has not been as attractive in recent years. Approximately 44.8% of U.S. coal exports in 2001 went to Europe, while the individual nations buying the most U.S. coal in 2001 were Canada, Italy, Brazil, Belgium, the United Kingdom and the Netherlands.

70

### COAL CHARACTERISTICS

There are four types of coal: lignite, subbituminous, bituminous and anthracite. Each has characteristics that make it more or less suitable for different uses. Heat value and sulfur content are two of the most important coal characteristics in determining the best consumer for particular types of coal.

**Heat Value.** The heat value of coal is commonly measured in Btus per pound of coal. A Btu is the amount of heat needed to raise one pound of water one degree Fahrenheit. Coal found in the Eastern and Midwestern regions of the United States tends to have a heat content ranging from 10,000 to 14,000 Btus per pound, as received. As received Btus per pound includes the weight of moisture in the coal on an as sold basis. Most coal found in the Western United States ranges from 8,000 to 10,000 Btus per pound, as received. Our reserves primarily consist of subbituminous and bituminous coal. Unless otherwise stated, all heat values in this prospectus are presented on an as received basis.

Lignite is a brownish-black coal with a heat content that generally ranges from 5,000 to 8,300 Btus per pound. Major lignite operations are located in Louisiana, Montana, North Dakota and Texas. Lignite is used almost exclusively in power plants located adjacent to or near these mines because any significant transportation costs, coupled with mining costs, would render its use uneconomical.

Subbituminous coal is a black coal with a heat content that ranges from 8,300 to 11,500 Btus per pound. Most subbituminous reserves are located in Alaska, Colorado, Montana, New Mexico, Washington and Wyoming. Subbituminous coal is used almost exclusively by electricity generators and some industrial consumers.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Bituminous coal is a soft black coal with a heat content that ranges from 10,500 to 14,000 Btus per pound. This coal is located primarily in Appalachia, Arizona, the Midwest, Colorado and Utah, and is the type most commonly used for electricity generation in the United States. Bituminous coal is also used for industrial steam purposes and as metallurgical coal in steel production.

Anthracite is a hard coal with a heat content that can be as high as 14,000 Btus per pound. There are a limited number of anthracite deposits primarily located in the Appalachian region of Pennsylvania. Anthracite is used primarily for industrial and home heating purposes.

**Sulfur Content.** Sulfur content can vary from coal seam to coal seam and sometimes within each seam. Coal combustion produces sulfur dioxide, the amount of which varies depending on the chemical composition and the concentration of sulfur in the coal. Low sulfur coal has a variety of definitions, but we use it in this prospectus to refer to coal with a sulfur content of 1.0% or less by weight. Compliance coal refers to coal that, when burned, has a sulfur dioxide content of less than 1.2 pounds per million Btus. The strict emissions standards of the Clean Air Act have increased demand for low sulfur coal. We expect continued high demand for low sulfur coal as electricity generators meet the current Phase II requirements of the Clean Air Act. Approximately 65% of our coal reserves are low sulfur coal. Included in our low sulfur reserves is compliance coal, which meets the standards imposed by the Clean Air Act and constitutes approximately 25% of our reserves.

Plants equipped with sulfur-reduction technology, known as scrubbers, reduce sulfur dioxide emissions by 50% to 95% and can use higher sulfur coal. Plants without scrubbers can use medium and high sulfur coal by purchasing emission allowances on the open market or blending medium or high sulfur coal with low sulfur coal. Each emission allowance permits the user to emit a ton of sulfur dioxide. Some older coal-based plants have been retrofitted with scrubbers. Any new coal-based generation built in the United States will likely use clean coal technologies to remove the majority of sulfur dioxide, nitrogen oxide and particulate matter emissions.

**Other Characteristics.** Ash is the inorganic residue remaining after the combustion of coal. As with sulfur content, ash content varies from coal seam to coal seam. Ash content is an important characteristic of coal because it increases transportation costs and electric generating plants must handle and dispose of ash following combustion.

71

Moisture content of coal varies by the type of coal, the region where it is mined and the location of coal within a seam. In general, high moisture content decreases the heat value per pound of coal, thereby increasing the delivered cost per Btu. Moisture content in coal, as sold, can range from approximately 5% to 30% of the coal's weight.

### COAL MINING TECHNIQUES

Coal mining operations use six common techniques to extract coal from the ground. The most appropriate technique is determined by coal seam characteristics such as location and recoverable reserves. Data from core samples is used initially to define the size, depth and quality of the coal reserve area before committing to a specific mining technique. The six most common mining techniques are: continuous, longwall, truck-and-shovel/loader, dragline, highwall and auger.

Because coal mining techniques rely heavily on technology, technological improvements have generally resulted in increased productivity. Coal mining

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

technology is continually evolving and has led to improvements in, among other things, underground mining systems and earth-moving equipment for surface mines. For example, longwall mining technology has increased the average recovery of coal from large blocks of underground coal from 50% to 70%. At larger surface mines, haul truck capacity has nearly doubled in the last decade. This increase in capacity, along with larger shovels and draglines, has increased overall mine productivity.

### Underground Mining

**Continuous Mining.** Continuous mining is an underground mining method in which main airways and transportation entries are developed and continuous miners extract coal from "rooms," leaving "pillars" to support the roof. Production is transported to a beltline for transportation to the surface. Seam recovery for this method is typically up to 60% and productivity for continuous mining averages 25 to 50 tons per miner shift.

**Longwall Mining.** Longwall mining is an underground mining method that uses hydraulic jacks or shields, varying from four feet to twelve feet in height, to support the roof of the mine while a mobile cutting shearer advances through the coal. Chain belts then move the coal to a standard deep mine beltline system for delivery to the surface. Continuous mining is used to develop access to long rectangular panels of coal that are mined with longwall equipment, allowing controlled subsidence behind the advancing machinery. Longwall mining is highly productive, but it is effective only for large blocks of medium to thick coal seams. High capital costs as well as the cost of moving the equipment from block to block demand large, contiguous reserves. Seam recovery using longwall mining is typically 70% and productivity averages 48 to 80 tons per miner shift.

### Surface Mining

**Truck-and-Shovel/Loader Mining.** Truck-and-shovel/loader mining is a surface mining method that uses large shovels or loaders to remove overburden, which is used to backfill pits after coal removal. Shovels or loaders load coal into haul trucks for transportation to a preparation plant or unit train loadout facility. Seam recovery using the truck-and-shovel/loader mining method is typically 90%. Productivity depends on equipment, geologic composition and the ratio of overburden to coal. Productivity varies between 250 to 400 tons per miner shift in the Powder River Basin to 30 to 80 tons per miner shift in the Eastern United States.

**Dragline Mining.** Dragline mining is a surface mining method that uses large capacity draglines to remove overburden to expose the coal seams. Shovels load coal in haul trucks for transportation to a preparation plant or unit train loadout facility. Seam recovery using the dragline method is typically 90% or more and productivity levels are similar to those for truck-and-shovel/loader mining.

**Highwall Mining.** Highwall mining is a surface mining method generally utilized in conjunction with truck-and-shovel/loader surface mining. At the highwall exposed by the truck-and-shovel/loader operation

a modified continuous miner with an attached beltline system cuts horizontal passages from the surface into a seam. These passages can penetrate to a depth of up to 1,000 feet. This method typically recovers 30% to 40% of the reserve block penetrated.

**Auger Mining.** Auger mining is a surface mining method generally utilized in conjunction with truck-and-shovel/loader operations. At the highwall exposed

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

by a truck-and-shovel/loader operation, a spiral steel auger bit is used to bore a horizontal hole into the coal seam up to a depth of 250 feet. The auger also conveys the coal to the surface. Seam recovery using auger mining is typically 30%.

### COAL PREPARATION

Depending on coal quality and customer requirements, raw coal may be shipped directly from the mine to the customer or processed in a coal preparation plant. Most raw coal requires processing in a preparation plant to meet customer specifications. Preparation plants size coal, wash it in a water solution, remove waste materials and separate coal into grades. This processing increases the quality and heat content of the coal, and ultimately the value, by reducing sulfur, ash and moisture content. Coals of various qualities can be blended at a preparation plant or loading facility to meet specific customer requirements. Coal blending can increase profit margins by optimizing quality specifications for individual customer contracts.

### COAL REGIONS

Coal is mined from coal fields throughout the United States, with the major production centers located in Appalachia, the Illinois Basin and the Western United States. The quality of coal varies by region. Heat value and sulfur content are the two most important coal characteristics in measuring quality and determining the best end use of particular coal types. We have properties located in all three major production centers and in all three subregions of Appalachia.

The following table presents U.S. coal production data by region for the five-year period 1997 through 2001.

#### U.S. COAL PRODUCTION

(1) Our interior coal is located in the Illinois Basin, which is the major production center in the Interior United States.

(2) Our western coal is located in the Northern Powder River Basin in Southeastern Montana.

(3) Due to rounding, totals may not equal sum of components.

Appalachia Region

- Northern Appalachia. Northern Appalachia includes Maryland, Ohio, Pennsylvania and Northern West Virginia. Coal from this region generally has a high heat content of between 12,000 and 14,000 Btus per pound. Its typical sulfur content ranges from 1.0% to 4.5%, which does not satisfy the Phase II requirements of the Clean Air Act.
- Central Appalachia. Central Appalachia includes Eastern Kentucky, Virginia and Southern West Virginia. Coal from this region generally has a low sulfur content of 0.7% to 1.5% and a high heat content of between 12,000 and 14,000 Btus per pound. Some of this coal satisfies the Phase II requirements of the Clean Air Act.
- Southern Appalachia. Southern Appalachia includes Alabama and Tennessee. Coal from this region typically has a low sulfur content of 0.7% to 1.5% and a high heat content of between 12,500 and 14,000 Btus per pound. Some of this coal satisfies the Phase II requirements of the Clean Air Act.

Interior United States

- Illinois Basin. The Illinois Basin includes Illinois, Indiana and Western Kentucky and is the major coal production center in the Interior United States. There has been significant consolidation among coal producers in the Illinois Basin over the past several years. Coal from this region varies in heat content from 10,000 to 12,500 Btus per pound and has a high sulfur content of 2.0% to 4.0%, which does not satisfy the Phase II requirements of the Clean Air Act.
- Other Interior. Other coal-producing states in the Interior United States include Arkansas, Kansas, Louisiana, Mississippi, Missouri, Oklahoma and Texas. The majority of production in the Interior region outside of the Illinois Basin consists of lignite production from Texas. This lignite typically has a heat content of between 5,000 and 9,500 Btus per pound and a sulfur content of between 1.0% and 2.0%, which does not satisfy the Phase II requirements of the Clean Air Act.

Western United States

- Four Corners. The Four Corners area includes Northwestern New Mexico, Northeastern Arizona, Southwestern Utah and Southeastern Colorado. The coal from this region typically has a sulfur content of 0.75% to 1% and a heat content of between 9,000 and 10,000 Btus per pound. This coal does not satisfy the Phase II requirements of the Clean Air Act.
- Uinta Basin. The Uinta Basin includes Western Colorado and Eastern Utah. The coal from this region typically has a sulfur content of 0.50% to 1% and a heat content of between 10,500 and 12,500 Btus per pound. Most of this coal satisfies the Phase II requirements of the Clean Air Act.
- Southern Powder River Basin. The Southern Powder River Basin is located in Northeastern Wyoming. This coal has a very low sulfur content of between 0.15% to 1.20% and a low heat content of between 7,500 and 10,000 Btus per pound. Most of this coal satisfies the Phase II requirements of the Clean Air Act.
- Northern Powder River Basin. The Northern Powder River Basin is located in Southeastern Montana and Northeastern Wyoming. This coal has a sulfur

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

content of between 0.30% to 1.0% and a heat content of between 8,400 and 10,000 Btus per pound. Most of this coal does not satisfy the Phase II standards of the Clean Air Act.

### COAL PRICES

Coal prices are influenced by a number of factors and vary dramatically by region. The two principal components of the price of coal are the price of coal at the mine, which is influenced by mine operating costs and coal quality, and the cost of transporting coal from the mine to the point of use. The most important criterion to electricity generators when purchasing coal is its delivered cost per million Btus.

74

The following table summarizes average yearly open market steam coal prices for electric power generation for selected areas.

#### AVERAGE COAL PRICES FOR SELECTED AREAS

	BTUS PER POUND (1)		POUND DIO MILL
<b>APPALACHIA:</b>

-----

Source: Platts.

- (1) Average Btus per pound and pounds of sulfur dioxide per million Btus for spot coals in each quality category over the 1997 -- 2001 period.
- (2) We have calculated these amounts. The percent sulfur values are the maximum sulfur values for the specified limiting Btu value. Where the limiting Btu value is expressed as "greater than," the percent sulfur value may increase only if the Btu value increases or if the sulfur dioxide value is not limited. Where the Btu value is expressed as "less than," the percent sulfur value is the absolute maximum unless the sulfur dioxide value is not limited.
- (3) After the rapid increase in coal prices that began in late 2000 and prevailed through most of 2001, spot prices began to decline in late 2001 as demand for coal fell due to unusually warm weather and the sluggish U.S. economy.

Price at the Mine. The price of coal at the mine is influenced by geologic characteristics such as seam thickness, overburden ratios and depth of underground reserves. It is generally cheaper to mine coal seams that are thick and located close to the surface than to mine thin underground seams. Typically, coal mining operations will begin at the part of the coal seam that is easiest and most economical to mine. As the seam is mined, it becomes more difficult and expensive to mine because the seam either becomes thinner or extends more deeply into the earth, requiring removal of more overburden. Underground mining is generally more expensive than surface mining as a result of high capital costs, including costs for

75

modern mining equipment and construction of extensive ventilation systems and higher labor costs due to lower productivity.

In addition to the cost of mine operations, the price of coal at the mine is also a function of quality characteristics such as heat value, sulfur, ash and moisture content. Metallurgical coal has higher carbon and lower ash content as well as other chemical characteristics and is generally priced higher than steam coal produced in the same regions. Generally, our coal royalty revenues are calculated based on price of coal at the mine.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Transportation Costs. Coal used for domestic consumption is generally sold free on board at a loading point, and the purchaser normally pays the transportation costs. Most electric power generators arrange long-term shipping contracts with rail or barge companies to assure stable delivery costs. Transportation cost can be a large component of the purchaser's cost. Although our lessee's customers typically pay the transportation costs, access to good transportation is still important to us because the customer may choose a supplier based on the cost of transportation. Trucks and beltlines haul coal over shorter distances, while railroad and barges move coal over longer distances. According to NMA, railroads transport approximately 60% of U.S. coal production. CSX and Norfolk Southern railroads are the dominant carriers in the Eastern United States, and the Burlington Northern Santa Fe and Union Pacific railroads are the dominant carriers in the Western United States.

76

### BUSINESS

We are a limited partnership recently formed by the WPP Group, the largest owner of coal reserves in the United States other than the U.S. government, and Arch Coal, Inc., the second largest U.S. coal producer. We engage principally in the business of owning and managing coal properties in the three major coal-producing regions of the United States: Appalachia, the Illinois Basin and the Western United States. As of December 31, 2001, we controlled approximately 1.15 billion tons of proven and probable coal reserves in eight states. We do not operate any mines. We lease coal reserves to experienced mine operators under long-term leases that grant the operators the right to mine our coal reserves in exchange for royalty payments. Our lessees are generally required to make payments to us based on the higher of a percentage of the gross sales price or a fixed price per ton of coal sold, subject to a minimum payment.

The WPP Group includes Western Pocahontas Properties Limited Partnership, New Gauley Coal Corporation and Great Northern Properties Limited Partnership, three privately-held companies that are primarily engaged in owning and managing mineral properties. Western Pocahontas Properties Limited Partnership was established in connection with the acquisition of properties located in West Virginia, Kentucky, Maryland, Indiana and Alabama from CSX Corporation in 1986. Properties contributed to us by Western Pocahontas Properties Limited Partnership constituted approximately 45% of our reserves as of December 31, 2001. As part of Western Pocahontas Properties Limited Partnership's acquisition of the CSX properties, Western Pocahontas Properties Limited Partnership acquired New Gauley Coal Corporation, which held additional properties in West Virginia. Properties contributed to us by New Gauley Coal Corporation constituted approximately 1% of our reserves as of December 31, 2001. Great Northern Properties Limited Partnership was established with the acquisition in 1992 from Burlington Resources of properties primarily located in Montana. Properties contributed by Great Northern Properties Limited Partnership constituted approximately 14% of our reserves as of December 31, 2001. Arch Coal, Inc. is one of the largest coal producers in the United States and has been acquiring coal properties since 1969 in West Virginia, Kentucky, Illinois and Virginia. The Arch Coal Contributed Properties constituted approximately 40% of our reserves as of December 31, 2001.

### BUSINESS STRATEGY

We intend to execute the following strategies that we believe reflect our competitive strengths:

- Maximize royalty revenues from our existing properties. We work with our lessees by providing technical knowledge of our reserves, including

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

information about title and geology. We also review mine plans to assure efficient recovery of reserves and periodically audit our lessees to verify that royalties have been properly paid. We regularly visit mines to assure that the lessees are complying with the lease terms and approved mine plans. Our employees' extensive experience with our properties enables us to use our technical knowledge of the reserves and our knowledge of the coal industry to identify potential lessees who are best suited to develop and market our reserves.

- Explore new opportunities with our existing lessees. Our lessees are generally subsidiaries of large coal producers that have long-term plans to expand their operations. We intend to further develop our relationships with our current lessees in order to participate in future opportunities that our lessees may identify for acquiring or leasing new properties.
- Add new lessees to diversify our coal mine operator base. We have identified additional public and private coal mine operators that meet our guidelines as qualified lessee candidates. As we expand our royalty business, we will be seeking new lessees to mine our properties. The addition of these new lessees will allow us to further diversify our coal mine operator base.
- Expand and diversify our coal reserves. We intend to actively pursue opportunities to expand and diversify our reserves by acquiring additional coal properties that generate royalty income. We will review potential reserve acquisitions in all coal producing regions of the United States in order to acquire marketable reserves that we believe will be attractive to lessees. We expect to fund any

77

acquisitions with borrowings under our credit facility and proceeds from the issuance of our common units.

### COMPETITIVE STRENGTHS

We believe the following competitive strengths will enable us to execute our business strategies successfully:

- Our royalty structure generates stable production and cash flow. Our leases provide for royalty rates generally equal to the higher of a percentage of the gross sales price or a fixed price per ton of coal mined, subject to a minimum monthly, quarterly or annual payment. This structure generally allows our production and cash flow to be stable and predictable in periods of low coal prices, while enabling us to benefit during periods of higher coal prices.
- We do not directly bear operating costs and risks. Because we do not operate any mines, we do not bear ordinary operating costs and have limited direct exposure to environmental compliance, permitting and labor risks. Our lessees bear the labor risks, such as health care legacy costs, black lung benefits and workmen's compensation costs associated with operating the mines. In addition, we are typically not ultimately responsible for property taxes, which are paid by us but reimbursed by the lessee pursuant to the terms of the lease.
- We primarily lease to large lessees that have a diverse customer base. Our royalty income is primarily from leases to subsidiaries of publicly-held coal companies. In 2001, we derived approximately 76% of our revenues from subsidiaries of seven of the top ten coal producers in

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

the United States. These companies have made significant capital investments in the infrastructure on our properties and have effective marketing organizations. Consequently, our reserves are produced, processed and marketed in a highly efficient manner and sold to a diverse group of utilities, steel companies and industrial users.

- Our reserves are diverse and strategically located. Our reserves are geographically diverse and cover a broad range of heat and sulfur content. By offering both metallurgical and steam coal, our coal reserves are marketable to a diverse customer base, thereby enabling our lessees to adjust to changing markets and sustain sales volumes and prices. By having reserves in different geographic areas and by having varied types of coal reserves, our lessees are able to serve a broad number of markets and take advantage of changing customer preferences.
- We are well-positioned to pursue acquisitions of coal reserves and other minerals. The coal royalty business is highly fragmented and characterized by numerous small entities that present potentially attractive acquisition opportunities. We will be seeking acquisitions that complement our existing coal reserves, allow us to enter into additional coal regions and expand our property portfolio beyond coal to include other minerals. In conjunction with this offering, we are entering into a \$100 million credit facility that will give us the ability to take advantage of acquisition opportunities which, combined with our ability to issue additional units, should provide the financial flexibility to pursue acquisitions. Upon the closing of this offering, we anticipate that we will have no outstanding indebtedness. We believe that our affiliation with Arch Coal and the WPP Group will provide us with a competitive advantage in pursuing acquisition opportunities. Both the WPP Group and Arch Coal have proven track records of successfully completing and integrating acquisitions.
- We have experienced, knowledgeable management. Our management team has a successful record of managing, leasing and acquiring properties. Each member of our management team has at least 20 years of experience in the mining industry. We believe our management team has a comprehensive understanding of the areas in which our lessees mine coal, the mining environment and the mining operators who serve as our lessees. Furthermore, we believe our management team has the necessary skills and experience to identify and integrate future acquisitions.

78

### OUR RELATIONSHIP WITH THE WPP GROUP AND ARCH COAL

The WPP Group and Arch Coal have a significant interest in our partnership through their combined ownership of a 78.6% limited partner interest and the 2% general partner interest in our partnership. Both the WPP Group and Arch Coal have a history of successfully completing and integrating acquisitions in the coal industry. We expect to pursue acquisitions with the WPP Group and Arch Coal, as well as with other companies. We may acquire coal reserve properties, other mineral properties or producing coal properties, in which event we would expect to work with a coal producing company that would acquire the mine assets and lease the reserves from us. While our relationship with both the WPP Group and Arch Coal should provide significant benefits to us, it is also a source of potential conflict. In addition, the WPP Group and Arch Coal may engage in substantial competition with us. Please read "Conflicts of Interest and Fiduciary Responsibilities" and "Certain Relationships and Related Transactions -- Omnibus Agreement."

### COAL RESERVES AND PRODUCTION

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

We present the reserve information for Natural Resource Partners in this prospectus on a pro forma basis as if the reserves had been contributed to us on December 31, 2001. As of December 31, 2001, we controlled approximately 1.15 billion tons of proven and probable coal reserves in eight states located in Appalachia, the Illinois Basin and the Northern Powder River Basin. As of September 1, 2002, our reserves were located on 45 separate properties and are subject to 62 leases with 31 lessees. We own 98% of our reserves and control 2% of our reserves under paid-up leases for which we have paid royalties sufficient to allow us to mine all of the coal reserves attributable to the property without further payment. We own the right to mine coal on approximately 446,000 acres.

Reserves are coal tons that can be economically extracted or produced at the time of determination considering legal, economic and technical limitations. All of the estimates of our reserves that we present in this prospectus are of proven and probable reserves, which we define in the glossary. Weir International Mining Consultants has audited Arch Coal's estimates of coal reserves contributed by it as of December 31, 2001, and Stagg Resource Consultants, Inc. has audited the WPP Group's estimates of coal reserves contributed by it as of December 31, 2001. The audits included reviews of reserve maps, data from drill holes, reserve calculation methodologies and assumptions and available quality trend maps. Please see Appendix E, "Coal Reserve Audit Summary Report of Weir International Mining Consultants" and Appendix F, "Coal Reserve Audit Summary Report of Stagg Resource Consultants, Inc."

We prepare our reserve estimates from geologic data assembled and analyzed by the staff of geologists and engineers at the WPP Group and Arch Coal. The geologic data is taken from thousands of drill holes, adjacent mine workings, outcrop prospect openings and other sources, including from third parties. These estimates also take into account legal, technical and economic limitations that may keep coal from being mined. Reserve estimates will change from time to time due to mining activities, analysis of new engineering and geologic data, acquisition or divestment of reserve holdings, modification of mining plans or mining methods, and other factors. In areas where geologic conditions indicate potential inconsistencies related to coal reserves, additional drilling is sometimes performed to ensure the continuity and mineability of the coal reserves. Consequently, sampling in those areas involves drill holes that are spaced closer together.

Our lessees' customers burn coal produced from our properties in power plants located east of the Mississippi River and in Montana and Minnesota. Additionally, our metallurgical coal is processed in coke ovens in the Eastern United States, Europe, South America and Asia. Coal produced from our properties is transported by beltline, rail, barge and truck. All of our properties contain and have access to roads or highways.

79

The following table sets forth on a pro forma basis coal royalty revenues we have received from our properties in each of the following areas: Central Appalachia, Northern Appalachia, Southern Appalachia, the Illinois Basin and the Northern Powder River Basin.

### COAL ROYALTY REVENUES

(1) Of the 1.15 billion tons of reserves, we control approximately 21.0 million tons in Southern West Virginia under paid-up leases for which we have paid royalties sufficient to allow us to mine all of the coal reserves attributable to the properties without further payment.

We classify low sulfur coal as coal with a sulfur content of less than 1.0%, medium sulfur coal as coal with a sulfur content between 1.0% and 1.5% and high sulfur coal as coal with a sulfur content of greater than 1.5%. Compliance coal is that portion of low sulfur coal that, when burned, emits less than 1.2

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

pounds of sulfur dioxide per million Btu. As of December 31, 2001, approximately 25% of our reserves met compliance standards for Phase II of the Clean Air Act. Unless otherwise indicated, we present the quality

80

of the coal throughout this prospectus on an as received basis, which assumes 6% moisture for Appalachian reserves, 12% moisture for Illinois Basin reserves and 25% moisture for Northern Powder River Basin reserves. We own both steam and metallurgical coal reserves in Central and Southern Appalachia, and we own steam coal reserves in Northern Appalachia, the Illinois Basin and the Northern Powder River Basin. In 2001, approximately 12% of the coal production from our properties was metallurgical coal.

The following table sets forth our estimate of the sulfur content, the typical quality of our coal reserves and the type of coal in each area as of December 31, 2001.

### SULFUR CONTENT, TYPICAL QUALITY AND TYPE OF COAL

AREA -----	COMPLIANCE COAL(1) -----	SULFUR CONTENT			TOTAL -----	HEAT CO (BTU PER -----

- (1) Compliance coal meets the sulfur dioxide emission standards imposed by Phase II of the Clean Air Act without blending with other coals or using sulfur dioxide reduction technologies. Compliance coal is a sub-set of low sulfur coal and is, therefore, also reported within the amounts for low sulfur coal.
- (2) For purposes of this table, we have defined metallurgical coal reserves as reserves located in those seams that historically have been of sufficient quality and characteristics to be able to be used in the steel making process. Some of the reserves in the metallurgical category can also be used as steam coal.

### COAL LEASES

We earn our coal royalty revenues under long-term leases that generally require our lessees to make payments to us based on the higher of a percentage of the gross sales price or a fixed price per ton of coal they sell, with minimum monthly, quarterly or annual payments. We currently lease approximately 95% of our reserves to 31 lessees that operate 54 mines. In the last three years, we have entered into nine new leases covering approximately 3% of our reserves. A typical lease has a five to ten year base term, with the lessee having an option to extend the lease for additional five-year terms after the expiration of the base term. Many leases include the right to renegotiate rents and royalties for the extended term. Of our 62 leases, we will have four leases with Ark Land Company, an affiliate of Arch Coal, covering approximately 9% of our reserves. Please read "Certain Relationships and Related Transactions -- Agreements with Ark Land Company."

Substantially all of our leases require the lessee to pay minimum royalties in monthly, quarterly or annual installments, even if no mining activities have begun. Usually, for a period of three to five years from the time of payment of a minimum royalty, the lessee may credit the payment against production

81

royalties. In 2001, the leases on which we received only minimum royalties contained approximately 21% of our reserves and our lessees paid us minimum royalties aggregating \$1,073,450. If none of our lessees had produced coal during 2001, we would have received approximately \$11,943,254 in minimum royalty payments.

Substantially all of our leases impose on the lessee the following obligations:

- to obtain and maintain all necessary permits;
- to diligently mine the greatest amount of coal possible from the leased property using current mining techniques;
- to employ a competent registered professional mining engineer to plan mining development and to plot the development on maps for our review;

Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

- to indemnify and hold us harmless for any damages we incur in connection with the lessee's mining operations;
- to conduct mining operations in compliance with all applicable federal, state and local laws and regulations, including reclamation and bonding obligations;
- to obtain our written consent prior to subleasing or assigning the lease or upon a change of control of the lessee;
- to maintain general liability and property damage insurance in amounts we deem reasonable; and
- to reimburse us for ad valorem property taxes we pay on the property.

Substantially all of our leases grant us the following rights:

- to terminate the lease and take possession of the leased premises in the event of a default by the lessee;
- to review lessee mine plans and maps;
- to enter the leased premises to examine mining operations and to conduct both engineering and financial audits to confirm the amount of coal mined from our properties and the sale price received for the coal by our lessees; and
- to retain all rights to the leased premises other than the right to mine coal, including the right to use the surface of the leased property where we possess that right.

In addition, each lease provides that we expressly deny any warranty as to the quality or quantity of coal on our property. Additionally, we do not ensure that the lessees have surface access. Our lessees are responsible for all processing and transportation of coal mined from our properties. We do not own any coal processing or transportation facilities.

CENTRAL APPALACHIA (EASTERN KENTUCKY AND VIRGINIA)

Our Eastern Kentucky and Virginia properties are comprised of seven properties on approximately 140,000 acres. As of December 31, 2001, these properties contained 510 million tons of coal reserves. The typical quality of the coal produced from these properties is 0.99% sulfur and 13,177 Btus per pound. Production for these properties was 11.7 million tons for the year ended December 31, 2001. As of December 31, 2001, we leased more than 90% of our reserves on these properties to 11 lessees under 15 leases.

82

83

The following is a summary of our major income producing properties in Eastern Kentucky and Virginia.

Evans-Laviers. The Evans-Laviers property is located in Breathitt, Floyd, Knott and Magoffin Counties, Kentucky. As of December 31, 2001, the property included 107 million tons of medium and high sulfur coal. We lease the property to CONSOL of Kentucky Inc., a subsidiary of publicly-held CONSOL Energy Inc., which operates an underground mine and contracts the operations of other mines to third-party operators. Additionally, a sublessee operates a surface and highwall mine on the property. The underground mine is on our property as well as adjacent property. The coal produced from this property is trucked to the Big Sandy River for barge transport or is transported by truck or beltline to preparation plants located on-site and on adjacent property. Coal is shipped from the preparation plants on the CSX railroad to customers such as DuPont, Virginia Electric Power, Southern Company, American Electric Power and Electric Fuels.

Lynch. The Lynch property is located in Harlan and Letcher Counties, Kentucky. As of December 31, 2001, this property contained 310 million tons of reserves, 94% of which were low sulfur coal. We primarily lease the property to Resource Development, L.L.C., an independent coal producer. Production comes from underground mines and a surface mine. Production from the mines is transported by truck to a preparation plant on the property and is shipped primarily on the CSX railroad to utility customers such as Georgia Power and Orlando Utilities.

Lone Mountain. The Lone Mountain property is located in Harlan County, Kentucky. As of December 31, 2001, this property contained 49 million tons of reserves, 90% of which were low sulfur coal. We lease the property to Ark Land Company, a subsidiary of publicly-held Arch Coal, Inc. Production comes from underground mines. Production from the mines is transported primarily by beltline to a preparation plant on adjacent property and shipped on the Norfolk Southern or CSX railroads to utility customers such as Georgia Power and the Tennessee Valley Authority.

Pardee. The Pardee property is located in Letcher County, Kentucky and Wise County, Virginia. As of December 31, 2001, this property contained 21 million tons of reserves, 82% of which were low sulfur coal. We lease the property to Ark Land. Production comes from underground mines and a surface mine. Production from the mines is transported by truck or beltline to a preparation plant on the property and is shipped primarily on the Norfolk Southern railroad to utility customers such as Georgia Power and the Tennessee Valley Authority.

84

CENTRAL APPALACHIA (SOUTHERN WEST VIRGINIA)

Our Southern West Virginia properties are comprised of 17 properties on approximately 125,000 acres. As of December 31, 2001, these properties contained 251 million tons of coal reserves. The typical quality of the coal produced from these properties is 0.90% sulfur and 13,176 Btu per pound. Production from these properties was 6.9 million tons for the year ended December 31, 2001. As of December 31, 2001, we leased more than 90% of our reserves on these properties to 12 lessees under 22 leases.

	=====	=====	=====	=====	=====	=====

The following is a summary of the major income-producing properties in Southern West Virginia.

Eunice. The Eunice property is located in Raleigh and Boone Counties, West Virginia. As of December 31, 2001, this property included 15 million tons of reserves, 84% of which were low sulfur coal. We lease the property to Boone East Development Co., a subsidiary of publicly-held Massey Energy Company. Boone East

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Development, through affiliates, conducts two operations on the property, including a surface operation and an underground (longwall) mine. These operations extend onto adjacent reserves and will also extend onto a portion of our nearby Y&O property. Production from this operation is generally transported by beltline and processed at two preparation plants located off the property. The preparation plants ship both metallurgical and steam coal on the CSX railroad to customers such as American Electric Power, CINergy, Louisville Gas & Electric, Virginia Electric Power, AK Steel and U.S. Steel.

Campbell's Creek. The Campbell's Creek property is located in Kanawha County, West Virginia. As of December 31, 2001, this property contained 11 million tons of reserves, all of which were low sulfur coal. The property is leased to Ark Land. Production comes from an underground mine and is transported by truck to an on-site preparation plant. After preparation, the coal is trucked to various loading points for shipment by barge, or directly to customers such as Dayton Power & Light, Ohio Edison, Kentucky Utilities and Union Carbide.

Y&O. The Y&O property is located in Boone County, West Virginia. As of December 31, 2001, the property contained 65 million tons of reserves, 86% of which were low sulfur coal. The property is subject to four coal leases. Two of the leases are with Boone East Development and the remaining two leases are

86

with Cook Mountain Coal Company and Eastern Associated Coal Corp., subsidiaries of publicly-held Peabody Energy Corporation. The Cook Mountain lease was inactive during 2001 because mining occurred on adjacent property and production from the Eastern Associated Coal lease exhausted the small reserve block being mined. The Boone East leases cover the majority of reserves on the property. Production during 2001 on the leases was from underground mines. Production from the Cook Mountain lease is transported by beltline to a preparation plant owned by Peabody Energy. Both high-volatile metallurgical and steam coal are shipped on the CSX railroad from the plant to customers such as American Electric Power, Carolina Power and Light, Corus and Acominas. Production from the Boone East leases is conveyed by beltline to an off-site preparation plant, which ships both metallurgical and steam coal on the CSX railroad to customers such as American Electric Power, CINergy, Louisville Gas & Electric, Virginia Electric Power, AK Steel and U.S. Steel. A subsidiary of Massey Energy controls an on-site preparation plant with CSX rail service, although the plant is currently inactive.

Kingston. The Kingston property is located in Fayette and Raleigh Counties, West Virginia. As of December 31, 2001, this property contained 11 million tons of reserves, 66% of which were low sulfur coal. We lease the property to Kingston Resources, a subsidiary of RAG American Coal Corporation. In 2001, production came from an underground mine and a surface mine. Production from the underground mine is transported by truck to a preparation plant on the property, after which it is trucked to various loading points for shipment by rail or barge, and production from the surface mine is trucked directly to the loading facility. Most of the coal on this property is sold to metallurgical coal customers.

Dorothy-Sarita. The Dorothy-Sarita property is located in Raleigh County, West Virginia. As of December 31, 2001, this property included 30 million tons of reserves, 21% of which were low sulfur coal. We lease the property to Black King Mine Development Co., a subsidiary of Massey Energy. In 2001, production from this property was primarily from underground mines and a surface mine. Production from these mines is transported by beltline or truck to a preparation plant located on an adjacent property. Both high-volatile metallurgical and steam coal are shipped on the CSX railroad from the plant to customers such as AK Steel, U.S. Steel, American Electric Power and Virginia Electric Power.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Rockhouse Fork. The Rockhouse Fork property is located in Raleigh County, West Virginia. As of December 31, 2001, this property contained 10 million tons of reserves, 92% of which were low sulfur coal. The property produces metallurgical coal and is subject to three coal leases, two of which are with affiliates of The Anker Coal Group, Inc. and the third of which is with White Mountain Mining Company LLC. The White Mountain Mining lease and one of the Anker Coal leases are producing from underground mines. The other lease to an Anker Coal Group affiliate is inactive. The coal from the active Anker Coal lease is processed at an on-site preparation plant and shipped on the CSX railroad to customers such as AK Steel. The coal from the White Mountain Mining lease is trucked to a preparation plant and shipped on either the Norfolk Southern or CSX railroads to customers such as Citizens Gas & Coke Utility. In June 2002, an involuntary bankruptcy petition was filed against White Mountain Mining by four of its creditors. Although this bankruptcy may impact production from the Rockhouse Fork property, we do not believe it will have a material impact on our results of operations or financial condition.

Boone/Lincoln. The Boone/Lincoln property is located in Boone and Lincoln Counties, West Virginia. As of December 31, 2001, this property contained 19 million tons of reserves, 45% of which were low sulfur coal. The property is leased to Ark Land. Production comes from an underground mine and a surface mine and is transported by truck and beltline to a preparation plant on adjacent property. The coal is shipped on the CSX railroad primarily to utility customers such as American Electric Power, Baltimore Gas & Electric and Consumers Power.

West Fork. The West Fork property is located in Boone County, West Virginia. The property is leased to Eastern Associated Coal Corp. As of December 31, 2001, this property included 12 million tons of reserves, all of which were low sulfur coal. Production comes from an underground (longwall) mine. During late 2001, this longwall mine moved onto our property from adjacent property, contributing to an increase in production. Production from this mine is conveyed by beltline to an off-site preparation plant

87

and shipped on the CSX railroad to both metallurgical and steam customers such as South Carolina Power and Light, Detroit Edison, Rouge Steel and U.S. Steel.

### NORTHERN APPALACHIA

Our Northern Appalachian properties are comprised of 13 properties on 115,000 acres in Northern West Virginia and Maryland. As of December 31, 2001, these properties contained 185 million tons of coal reserves. The typical quality of the coal produced from our Northern Appalachian properties is 2.29% sulfur and 13,232 Btus per pound. Production on these properties was 809,000 tons for the year ended December 31, 2001. As of December 31, 2001, we leased more than 90% of our reserves on these properties to eight lessees under 16 leases.

[Map showing the location of properties in Northern West Virginia and Maryland]

88

The following table sets forth production data and reserve information for our properties in the Northern Appalachian area.

	====	====	====	=====	=====

The following is a summary of the major income-producing properties in Northern Appalachia.

**New Gauley.** The New Gauley property is located in Nicholas and Greenbrier Counties, West Virginia. As of December 31, 2001, the property included 8 million tons of reserves, all of which were low sulfur coal. The majority of the property is leased to Green Valley Coal Company, a subsidiary of Massey Energy. Coal is produced from an underground mine and is trucked to a preparation plant on adjacent property. Because of its quality, this coal is consumed in the medium-volatile metallurgical and specialty coal markets by customers such as Citizens Gas, Elkem and Calgon Carbon.

**Stony River.** The Stony River property is located in Grant and Tucker Counties, West Virginia. As of December 31, 2001, the property contained 5 million tons of high sulfur coal. The majority of the property is leased to Buffalo Coal Company, Inc. During 2001, coal was produced from surface mining. Buffalo Coal leases other reserves from us in the area as well as from other parties. A portion of the Buffalo Coal production is sold without processing, and the balance is trucked to Buffalo Coal's off-site preparation plant. This coal is primarily sold and delivered by truck to Virginia Electric Power. Buffalo Coal also can ship coal by rail to utilities such as Potomac Electric Power Company.

SOUTHERN APPALACHIA

Our Southern Appalachian property is comprised of 24,258 acres in Alabama. As of December 31, 2001, this property contained 12 million tons of coal reserves. The typical quality of the coal produced from our Southern Appalachian property is 0.69% sulfur and 13,959 Btus per pound. Production from this property was 277,000 tons for the year ended December 31, 2001. As of December 31, 2001, we leased all of our reserves on this property to two lessees under two leases.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

[Map showing the location of property in Alabama]

90

The following table sets forth production data and reserve information for our property in the Southern Appalachian area.

Twin Pines/Drummond (AL).....	287	206	277	--	11,929	11,929

The following is a summary of the major income-producing leases in Southern Appalachia.

Twin Pines/Drummond: The Twin Pines/Drummond property is located in Cullman County, Alabama. As of December 31, 2001, this property contained 12 million tons of coal, all of which were low sulfur coal. The property is subject to two coal leases. One of the leases is with Twin Pines Coal Company, Inc. and the other is with Drummond Coal Company. In 2001 on the Twin Pines lease, coal was produced from a surface (dragline) mine. Coal produced by Twin Pines Coal Company is shipped by truck without processing to customers such as ABC Coke Division -- Drummond Co., Monsanto and Alabama Power. The other lease with Drummond Coal Company is inactive.

91

### ILLINOIS BASIN

Our Illinois Basin properties are comprised of five properties on 7,570 acres in Indiana and Illinois. As of December 31, 2001, these properties contained 28 million tons of coal reserves. The typical quality of the coal produced from our Illinois Basin properties is 2.42% sulfur and 11,457 Btus per pound. Production from these properties was 2.7 million tons for the year ended December 31, 2001. As of December 31, 2001, we leased all of our reserves on these properties to three lessees under four leases.

[Map showing the location of properties in Illinois]

92

[Map showing the location of properties in Illinois]

The following table sets forth production data and reserve information for each of our properties in the Illinois Basin.

### ILLINOIS BASIN PROPERTIES

93

The following is a summary of our major income producing properties in the Illinois Basin.

Hocking-Wolford/Cummings. The Hocking-Wolford property and the Cummings property are both located in Sullivan County, Indiana. As of December 31, 2001, these two properties contained 12 million tons of medium and high sulfur coal. Both properties are under common lease to Black Beauty Coal Company, an affiliate of Peabody Energy. Production is currently from a surface mine, and a dragline is being moved onto the property. Coal is shipped by truck and railroad to customers such as Public Service of Indiana and Indianapolis Power and Light.

Sato. The Sato property is located in Jackson County, Illinois. As of December 31, 2001, this property contained 4 million tons of medium sulfur coal. We lease the property to Knight Hawk Coal, LLC. Production comes from a surface mine and is transported by truck to the customer or to a loadout facility for transportation by barge. Other coal is processed at a preparation plant on the property and then trucked to the customer or to the loadout facility. Coal is marketed mainly to utility customers such as Ameren.

Trico. The Trico property is located in Perry County, Illinois. As of December 31, 2001, this property contained 2 million tons of high sulfur coal. We lease the property to Knight Hawk Coal, LLC. Production comes from a surface mine and is transported by truck to a preparation plant located on Knight Hawk's Sato lease. The coal is trucked to the customer or to a loadout facility for transportation by barge. Coal is marketed mainly to utility customers such as Ameren.

NORTHERN POWDER RIVER BASIN

Our Northern Powder River Basin properties are comprised of two properties on 34,032 acres in Rosebud and Treasure Counties, Montana. As of December 31, 2001, these properties contained 167 million tons of reserves. The typical quality of the coal produced from our Northern Powder River Basin properties is 0.72% sulfur and 8,444 Btu per pound. Production from these properties was 6.7 million tons for the year ended December 31, 2001. As of December 31, 2001, we leased all of our reserves on these properties to two lessees under three leases.

These properties were part of the original land grant to the Great Northern Railway Company in 1864, and were purchased by Great Northern Properties from Burlington Resources in 1992. As provided in the original land grant, only the odd-numbered sections were conveyed, giving a "checkerboard" appearance to our

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

ownership. The mineral rights on the intervening sections are generally owned either by the federal government or the State of Montana and are under lease to our lessee.

94

[Map showing the location of property in Montana]

The following table sets forth production data and reserve information for each of our properties in the Northern Powder River Basin.

### NORTHERN POWDER RIVER BASIN PROPERTIES

	=====	=====	=====	=====	=====	=====

The following is a summary of our major income producing properties in the Northern Powder River Basin.

**Western Energy.** The Western Energy property is located in Rosebud and Treasure Counties, Montana. As of December 31, 2001, this property contained 163 million tons of low sulfur reserves. Western Energy Company, a subsidiary of publicly-held Westmoreland Coal Company, has two coal leases on the property with nearly identical provisions. Western Energy produces coal by surface (dragline) mining and the coal is transported by either truck or beltline to the four-unit 2,200-megawatt Colstrip generation station located at the mine mouth. A small amount of coal is transported by truck or the Burlington Northern Santa Fe railroad to other customers.

**Big Sky Mine.** The Big Sky Mine property is located adjacent and to the south of the Western Energy property in Rosebud County, Montana. As of December 31, 2001, this property contained 4 million tons of low sulfur reserves. The coal mined from the Big Sky Mine is slightly lower in sulfur than coal mined from the Western Energy mine due to selective mining techniques. The property is leased to Big Sky Coal Company, a subsidiary of Peabody Energy. Big Sky Coal Company produces coal by surface (dragline) mining. Coal is shipped on the Burlington Northern Santa Fe railroad to utilities such as Minnesota Power and Northern States Power.

95

#### OTHER OPERATIONS

We will have revenue from an overriding royalty arrangement and will have a small amount of revenue from wheelage payments, which are tolls paid for the privilege of transporting coal across or through our property. Additionally, we expect to have minimal revenues from royalties on oil and gas leases and coal

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

bed methane leases. In the aggregate, these operations accounted for less than 5% of our total revenues in 2001 on a pro forma basis.

### COAL INDUSTRY SALES CONTRACTS

Our coal reserves are geographically diverse and cover a broad range of heat and sulfur content. By offering both metallurgical and steam coal, our lessees are able to serve a diverse customer base. This market diversity enables our lessees to adjust to changing market conditions and sustain high sales volumes and prices. Our larger lessees have efficient marketing abilities that provide competitive advantages when negotiating and renewing coal sales contracts.

The terms of coal sales contracts are typically the results of both bidding procedures and extensive negotiations with the customers. As a result, the terms of these contracts vary significantly in many respects, including price adjustment features, price and contract reopener terms, permitted sources of supply, force majeure provisions, coal qualities, quantity, flexibility and adjustments. The contracts typically have terms of one to three years and are subject to price adjustment provisions that permit an increase or decrease periodically in the contract price to reflect changes in specified price indices or items such as taxes or royalties or increases and decreases in actual production costs. These provisions, however, may not assure that the contract price will reflect every change in production or other costs. Failure of the parties to agree on a price pursuant to an adjustment or a reopener provision can lead to early termination of a contract. Some multi-year contracts also permit the contract to be reopened to renegotiate terms and conditions in addition to price or to terminate the contract. The contracts typically stipulate procedures for quality control, sampling and weighing. Most contracts require operators to deliver coal within ranges for specific coal characteristics such as heat, sulfur, ash, moisture, volatility and other qualities. Failure to meet these specifications can result in economic penalties or termination of the contracts. While most of the contracts specify the approved seams and/or approved locations from which the coal is to be mined, some contracts allow the coal to be sourced from more than one mine or location. Although the volume to be delivered pursuant to a contract is stipulated, the buyers often have the option to vary the volume within specified limits.

### COMPETITION

The coal industry is intensely competitive primarily as a result of the existence of numerous producers. Our lessees compete with coal producers in various regions of the United States for domestic sales. The industry has undergone significant consolidation since 1976, as the top ten producers have increased their share of total domestic coal production from 38% in 1976 to 63% in 2001. This consolidation has led to a number of our lessees' parent companies having significantly larger financial and operating resources than their competitors. Our lessees primarily compete with both large and small producers nationwide. Our lessees compete on the basis of coal price at the mine, coal quality, transportation cost from the mine to the customer and the reliability of supply. Continued demand for our coal and the prices that our lessees obtain are also affected by demand for electricity and steel, as well as environmental and government regulations, technological developments and the availability and price of alternative fuel supplies, including nuclear, natural gas, oil and hydroelectric power.

### REGULATION

The coal mining industry is subject to regulation by federal, state and

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

local authorities on matters such as:

- the discharge of materials into the environment;
- employee health and safety;
- mine permits and other licensing requirements;
- reclamation and restoration of mining properties after mining is completed;
- management of materials generated by mining operations;
- surface subsidence from underground mining;
- water pollution;
- legislatively mandated benefits for current and retired coal miners;
- air quality standards;
- protection of wetlands;
- endangered plant and wildlife protection;
- limitations on land use;
- storage of petroleum products and substances that are regarded as hazardous under applicable laws; and
- management of electrical equipment containing polychlorinated biphenyls, or PCBs.

In addition, the electric generating industry, which is the most significant end-user of coal, is subject to extensive regulation regarding the environmental impact of its power generation activities, which could affect demand for our lessees' coal. The possibility exists that new legislation or regulations may be adopted or that the enforcement of existing laws could become more stringent, either of which may have a significant impact on the mining operations of our lessees or their customers' ability to use coal and may require our lessees or their customers to change operations significantly or incur substantial costs.

Our lessees are obligated to conduct mining operations in compliance with all applicable federal, state and local laws and regulations. However, because of extensive and comprehensive regulatory requirements, violations during mining operations are not unusual in the industry and, notwithstanding compliance efforts, we do not believe violations by our lessees can be eliminated completely. Except for the issues associated with the operations of the subsidiaries of Massey Energy noted below, we do not currently expect that future compliance will have a material adverse effect on us, our unitholders or our minimum quarterly distributions.

While it is not possible to quantify the expenditures incurred by our lessees to maintain compliance with all applicable federal and state laws, those costs have been and are expected to continue to be significant. Our lessees post performance bonds pursuant to federal and state mining laws and regulations for the estimated costs of reclamation and mine closing, including the cost of treating mine water discharge when necessary. Compliance with these laws has substantially increased the cost of coal mining for all domestic coal producers.

Massey Energy Show Cause Order. As discussed in "Risk

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Factors -- Regulatory and Legal Risks," in January 2002, the West Virginia Department of Environmental Protection entered an order finding a pattern of violations relating to water quality by Marfork Coal Company, a subsidiary of Massey Energy, and suspending its permit for operations adjacent to the Dorothy-Sarita property for 14 days. Marfork Coal filed an appeal and obtained a stay of enforcement of this order. The Surface Mining Board heard the appeal and reduced the suspension to nine days. Marfork Coal has appealed this decision to the circuit

97

court and a hearing has been set for November 22, 2002. The circuit court has granted a stay that will end 60 days following the November 22 hearing. The show cause order issued to Marfork Coal could also have an impact on the longwall mining operations of another subsidiary of Massey Energy, Performance Coal, that are conducted at the Eunice property because coal mined from this part of the Eunice property is sent to the Marfork Coal preparation plant for processing. If this show cause order is not resolved on favorable terms, the permits issued to Massey Energy and its subsidiaries could be suspended or revoked and production could be decreased at the mines on the Dorothy-Sarita property and at the longwall mine operated by Performance Coal at the Eunice property, reducing our coal royalty revenues.

If these permits are revoked, Massey Energy and its subsidiaries could be prohibited from obtaining additional permits. In the event of future violations at these properties or at other properties operated by these entities, the existence of those orders may increase the nature and gravity of any sanctions sought in the event that the state decides to pursue any enforcement.

Recently, water from a mine operated by Marfork Coal has leaked through the subsurface strata, resulting in a discharge of water into a nearby creek. This discharge is from a mine that is not on our property, but it is possible that Marfork Coal could be subject to further enforcement actions which could impact its ability to continue mining on our property, or that this could be taken into account in connection with the show cause order discussed above.

Clean Air Act. The federal Clean Air Act and similar state and local laws, which regulate emissions into the air, affect coal mining and processing operations primarily through permitting and emissions control requirements. The Clean Air Act also indirectly affects coal mining operations by extensively regulating the emissions from coal-fired industrial boilers and power plants, which are the largest end-users of our coal. These regulations can take a variety of forms, as explained below.

The Clean Air Act imposes obligations on the Environmental Protection Agency, or EPA, and the states to implement regulatory programs that will lead to the attainment and maintenance of EPA-promulgated ambient air quality standards, including standards for sulfur dioxide, particulate matter, nitrogen oxides and ozone. Owners of coal-fired power plants and industrial boilers have been required to expend considerable resources in an effort to comply with these ambient air standards. Significant additional emissions control expenditures will be needed in order to meet the current national ambient air standard for ozone. In particular, coal-fired power plants will be affected by state regulations designed to achieve attainment of the ambient air quality standard for ozone. Ozone is produced by the combination of two precursor pollutants: volatile organic compounds and nitrogen oxides. Nitrogen oxides are a by-product of coal combustion. Accordingly, emissions control requirements for new and expanded coal-fired power plants and industrial boilers will continue to become more demanding in the years ahead.

In July 1997, the EPA adopted more stringent ambient air quality standards

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

for particulate matter and ozone. In a February 2001 decision, the U.S. Supreme Court largely upheld the EPA's position, although it remanded the EPA's ozone implementation policy for further consideration. On remand, the Court of Appeals for the D.C. Circuit affirmed EPA's adoption of these more stringent ambient air quality standards. As a result of the finalization of these standards, states that are not in attainment for these standards will have to revise their State Implementation Plans to include provisions for the control of ozone precursors and/or particulate matter. Revised State Implementation Plans could require electric power generators to further reduce nitrogen oxide and particulate matter emissions. The potential need to achieve such emissions reductions could result in reduced coal consumption by electric power generators. Thus, future regulations regarding ozone, particulate matter and other pollutants could restrict the market for coal and the development of new mines by our lessees. This in turn may result in decreased production by our lessees and a corresponding decrease in our coal royalty revenues. Although we cannot predict the future scope of these ozone and particulate matter regulations, future regulations regarding these and other ambient air standards could restrict the market for coal, the development of new mines and our ability to lease coal reserves. This in turn may have a material adverse effect on our royalty revenues.

Furthermore, in October 1998, the EPA finalized a rule that will require 19 states in the Eastern United States that have ambient air quality problems to make substantial reductions in nitrogen oxide

98

emissions by the year 2004. To achieve these reductions, many power plants would be required to install additional control measures. The installation of these measures would make it more costly to operate coal-fired power plants and, depending on the requirements of individual state implementation plans, could make coal a less attractive fuel. Any reduction in coal's share of the electric power generation market could have a material adverse effect on our business, financial condition and results of operations and the business, financial condition and results of operations of our lessees.

Along with these regulations addressing ambient air quality, the EPA has initiated a regional haze program designed to protect and to improve visibility at and around National Parks, National Wilderness Areas and International Parks. This program restricts the construction of new coal-fired power plants whose operation may impair visibility at and around federally protected areas. Moreover, this program may require certain existing coal-fired power plants to install additional control measures designed to limit haze-causing emissions, such as sulfur dioxide, nitrogen oxides and particulate matter. By imposing limitations upon the placement and construction of new coal-fired power plants, the EPA's regional haze program could affect the future market for coal from our leases. Furthermore, the imposition of additional control requirements upon our lessees' customers could adversely affect our financial condition or results of operations.

Additionally, the U.S. Department of Justice, on behalf of the EPA, has filed lawsuits against several investor-owned electric utilities and brought an administrative action against one government-owned electric utility for alleged violations of the Clean Air Act. The EPA claims that these utilities have failed to obtain permits required under the Clean Air Act for alleged major modifications to their power plants. Our lessees supply coal to some of the currently affected utilities, and it is possible that other of our lessees' customers will be sued. These lawsuits could require the utilities to pay penalties and install pollution control equipment or undertake other emission reduction measures, which could adversely impact their demand for coal. Any outcome that adversely affects our lessees' customers and their demand for coal could adversely affect our financial condition or results of operations.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Other Clean Air Act programs are also applicable to power plants that use our coal. For example, the acid rain control provisions of Title IV of the Clean Air Act require a reduction of sulfur dioxide emissions from power plants. Because sulfur is a natural component of coal, required sulfur dioxide reductions can affect coal mining operations. Title IV imposes a two phase approach to the implementation of required sulfur dioxide emissions reductions. Phase I, which became effective in 1995, regulated the sulfur dioxide emissions levels from 261 generating units at 110 power plants and targeted the highest sulfur dioxide emitters. Phase II, implemented January 1, 2000, made the regulations more stringent and extended them to additional power plants, including all power plants of greater than 25 megawatt capacity. Affected electric utilities can comply with these requirements by:

- burning lower sulfur coal, either exclusively or mixed with higher sulfur coal;
- installing pollution control devices such as scrubbers, which reduce the emissions from high sulfur coal;
- reducing electricity generating levels; or
- purchasing or trading emission credits.

Specific emissions sources receive these credits that electric utilities and industrial concerns can trade or sell to allow other units to emit higher levels of sulfur dioxide. Each credit allows its holder to emit one ton of sulfur dioxide.

In addition to emissions control requirements designed to control acid rain and to attain the national ambient air quality standards, the Clean Air Act also imposes standards on sources of hazardous air pollutants. Although these standards have not yet been extended to coal mining operations, the EPA recently announced that it will regulate hazardous air pollutants from coal-fired power plants. Under the Clean Air Act, coal-fired power plants will be required to control hazardous air pollution emissions by no later than 2009. These controls are likely to require significant new improvements in controls by power

99

plant owners. The most prominently targeted pollutant is mercury, although other by-products of coal combustion may be covered by future hazardous air pollutant standards for coal combustion sources.

Other proposed initiatives may have an effect upon coal operations. One such proposal is the Bush Administration's recently announced Clear Skies Initiative. As proposed, this initiative is designed to reduce emissions of sulfur dioxide, nitrogen oxides, and mercury from power plants. Other so-called multi-pollutant bills, which could regulate additional air pollutants, have been proposed by various members of Congress. While the details of all of these proposed initiatives vary, there appears to be a movement towards increased regulation of a number of air pollutants. Were such initiatives enacted into law, power plants could choose to shift away from coal as a fuel source to meet these requirements.

In summary, the effect that a variety of Clean Air Act regulations could have on the coal industry and thus our business cannot be predicted with certainty. We cannot assure you that future regulatory provisions will not materially adversely affect our business, financial condition or results of operations. Additionally, we have no ability to control, or specific knowledge regarding, the environmental and other regulatory compliance of purchasers of

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

coal mined from our properties.

West Virginia Mountaintop Mining/Valley Fill Litigation. A lawsuit, Bragg v. Robertson, was filed in federal court by the West Virginia Highlands Conservancy and several citizens in July 1998, and generally targeted mountaintop mining operations utilizing valley fills for mine overburden disposal. The plaintiffs in this case alleged that the procedures used by the West Virginia Department of Environmental Protection and the U.S. Army Corps of Engineers for issuing permits for valley fills used in mountaintop removal violated SMCRA, the Clean Water Act and the National Environmental Policy Act.

In its ruling on the SMCRA claims, the district court enjoined the West Virginia Department of Environmental Protection from issuing mining permits for the construction of valley fills over both intermittent and perennial stream segments. The Fourth Circuit Court of Appeals vacated the district court's injunction in April 2001, ruling that the Eleventh Amendment to the U.S. Constitution barred suit against the state in federal court for alleged violations of state mining law. The plaintiffs appealed the Fourth Circuit's decision to the U.S. Supreme Court. In January 2002, the U.S. Supreme Court refused to hear the appeal. Because virtually all mining operations in West Virginia, including those of our lessees, utilize valley fills, all or a portion of our lessees' mining operations could have been affected by the permanent injunction. The plaintiffs could file a new lawsuit in state court challenging the West Virginia Department of Environmental Protection's practice of permitting valley fills. If a state court were to enjoin the construction of valley fills, our lessees might not be able to continue mining those reserves in West Virginia that are only accessible through mining techniques that use valley fills, unless such a decision were overturned or if a legislative or other solution were not achieved. The issuance of an injunction by a state court could have a material adverse effect on our lessees and on our acquisition and use of future reserves that require valley fills.

The federal defendants had previously reached a settlement with the plaintiffs in December 1998 regarding the Clean Water Act and the National Environmental Policy Act claims. Under the agreement, the U.S. Army Corps of Engineers, in cooperation with other agencies, must prepare a programmatic environmental impact statement regarding the effects of valley fills on the environment. This environmental impact statement was to have been completed by January 2001. At this time, however, the environmental impact statement has not been completed, and it is uncertain when it will be completed. Until the environmental impact statement is completed, an individual Clean Water Act Section 404 dredge and fill permit is required prior to the construction of any valley fill greater than 250 acres in size.

Mine Health and Safety Laws. Stringent safety and health standards have been imposed by federal legislation since the adoption of the Mine Health and Safety Act of 1969. The Mine Health and Safety Act of 1969 resulted in increased operating costs and reduced productivity. The Mine Safety and Health Act of 1977, which significantly expanded the enforcement of health and safety standards of the Mine Health and Safety Act of 1969, imposes comprehensive safety and health standards on all mining operations. In addition, as part of the Mine Health and Safety Acts of 1969 and 1977, the Black Lung Act requires payments of benefits by all businesses conducting current mining operations to coal miners with

100

black lung and to some survivors of a miner who dies from this disease. Because the regulatory requirements imposed by mine worker health and safety laws are comprehensive and ongoing in nature, non-compliance cannot be eliminated completely. We believe our lessees have made all payments under the Black Lung Act, and are generally in compliance with all applicable mine health and safety

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

laws.

Surface Mining Control And Reclamation Act. SMCRA establishes operational, reclamation and closure standards for all aspects of surface mining as well as many aspects of deep mining. SMCRA requires that comprehensive environmental protection and reclamation standards be met during the course of and upon completion of mining activities. In conjunction with mining the property, our lessees are contractually obligated under the terms of their leases to comply with all laws, including SMCRA and equivalent state and local laws. These obligations include reclaiming and restoring the mined areas by grading, shaping, preparing the soil for seeding and by seeding with grasses or planting trees for use as pasture or timberland, as specified in the approved reclamation plan. Because the regulatory requirements imposed by SMCRA on reclamation and closure are comprehensive and ongoing in nature, non-compliance cannot be eliminated completely.

SMCRA also requires our lessees to submit a bond or otherwise financially secure the performance of their reclamation obligations. The earliest a reclamation bond can be completely released is five years after reclamation has been achieved. Federal law and some states impose on mine operators the responsibility for repairing the property or compensating the property owners for damage occurring on the surface of the property as a result of mine subsidence, a consequence of longwall mining and possibly other mining operations. In addition, the Abandoned Mine Lands Act, which is part of SMCRA, imposes a tax on all current mining operations, the proceeds of which are used to restore mines closed before 1977. The maximum tax is \$0.35 per ton of coal produced from surface mines and \$0.15 per ton of coal produced from underground mines. Since our lessees are responsible for these obligations and any related liabilities, we do not accrue for the estimated costs of reclamation and mine closing and we do not pay the tax described above.

Under SMCRA, responsibility for unabated violations, unpaid civil penalties and unpaid reclamation fees of independent mine lessees and other third parties could potentially be imputed to other companies that are deemed, according to the regulations, to have "owned" or "controlled" the mine operator. Sanctions against the "owner" or "controller" are quite severe and can include civil penalties, reclamation fees and reclamation costs. We are not aware of any currently pending or asserted claims against us asserting that we "own" or "control" our lessees. Except as disclosed herein regarding the Marfork and Green Valley matters, we believe our lessees are generally in compliance with all operation, reclamation and closure requirements under their SMCRA permits.

On March 29, 2002, the U.S. District Court for the District of Columbia issued a ruling that could restrict underground mining activities conducted in the vicinity of public roads, within a variety of federally protected lands, within national forests and within a certain proximity of occupied dwellings. The lawsuit, Citizens Coal Council v. Norton, was filed in February 2000 to challenge regulations issued by the Department of Interior providing, among other things, that subsidence and underground activities that may lead to subsidence are not surface mining activities within the meaning of SMCRA. SMCRA generally contains restrictions and certain prohibitions on the locations where surface mining activities can be conducted. The District Court entered summary judgment upon the plaintiff's claims that the Secretary of the Interior's determination violated SMCRA. By order dated April 9, 2002, the court remanded the regulations to the Secretary of the Interior for reconsideration.

None of the deep mining activities undertaken on our properties are within federally protected lands or national forests where SMCRA restricts surface mining, even though several are within proximity to occupied dwellings. However, this case poses a potential restriction on underground mining within 100 feet of a public road. If these SMCRA restrictions ultimately apply to underground mining, considerable uncertainty would exist about the nature and extent of

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

these restrictions.

The significance of this decision for the coal mining industry remains unclear because this ruling is subject to appellate review. The Department of Interior and the National Mining Association, a trade

101

group that intervened in this action, have appealed the ruling and sought a stay of the order pending appeal to the U.S. Court of Appeals for the District of Columbia Circuit and the stay was granted. If the District Court's decision is not overturned or if some legislative solution is not enacted, this ruling could have a material adverse effect on all coal mine operations that utilize underground mining techniques, including those of our lessees. While it still may be possible to obtain permits for underground mining operations in these areas, the time and expense of that permitting process are likely to increase significantly.

Framework Convention on Global Climate Change. The United States and more than 160 other nations are signatories to the 1992 Framework Convention on Global Climate Change, commonly known as the Kyoto Protocol, that is intended to limit or capture emissions of greenhouse gases such as carbon dioxide and methane. The U.S. Senate has neither ratified the treaty commitments, which would mandate a reduction in U.S. greenhouse gas emissions, nor enacted any law specifically controlling greenhouse gas emissions and the Bush Administration has withdrawn support for this treaty. Nonetheless, future regulation of greenhouse gases could occur either pursuant to future U.S. treaty obligations or pursuant to statutory or regulatory changes under the Clean Air Act. Efforts to control greenhouse gas emissions could result in reduced demand for coal if electric power generators switch to lower carbon sources of fuel. These restrictions or uncertainties could have a material adverse effect on our business.

Clean Water Act. Section 301 of the Clean Water Act prohibits the discharge of a pollutant from a point source into navigable waters except in accordance with a permit issued under either Section 402 or Section 404 of the Clean Water Act. Navigable waters are broadly defined to include streams, even those that are not navigable in fact, and may include wetlands.

All mining operations in Appalachia generate excess material that must be placed in fills in adjacent valleys and hollows. Likewise, coal refuse disposal areas and coal processing slurry impoundments are located in valleys and hollows. Almost all of these areas contain intermittent or perennial streams, which are considered navigable waters. An operator must secure a Clean Water Act permit before filling such streams. For approximately the past twenty-five years, operators have secured Section 404 fill permits to authorize the filling of navigable waters with material from various forms of coal mining. Operators have also obtained permits under Section 404 for the construction of slurry impoundments although the use of these impoundments, including discharges from them, requires permits under Section 402. Section 402 discharge permits are generally not suitable for authorizing the construction of fills in navigable waters. Our leases require our lessees to obtain all necessary permits required under the Clean Water Act. To our knowledge, our lessees have obtained all permits required under the Clean Water Act and equivalent state laws.

On May 8, 2002, the United States District Court for the Southern District of West Virginia issued an order in *Kentuckians for the Commonwealth v. Rivenburgh* enjoining the Huntington, West Virginia office of the U.S. Army Corps of Engineers from issuing permits under Section 404 of the Clean Water Act for the construction of valley fills for the disposal of overburden from mountaintop mining operations solely for the purpose of waste disposal. These valleys typically contain streams that, under the Clean Water Act, are considered

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

navigable waters of the United States. The court held that the filling of these waters solely for waste disposal is a violation of the Clean Water Act. The effect of this injunction, if it is not overturned by an appellate court or subsequent legislation, will be to make mountaintop mining uneconomical in those areas subject to the injunction. We would be materially affected by this injunction because a substantial number of mountaintop mining valley fill permits required to be obtained by our lessees would need to be issued by the Huntington, West Virginia office of the U.S. Army Corps of Engineers.

The court's injunction also prohibits the issuance of permits authorizing fill activities associated with types of mining activities other than mountaintop mining where the primary purpose or use of those fill activities is the disposal of waste. Such activities might include those associated with slurry impoundments and coal refuse disposal areas. If the injunction is not overturned by an appellate court or subsequent legislation, our lessees may not be able to obtain permits in many cases to use these common fill activities,

102

which could render these operations uneconomical. Any consequent reduction or cessation of their operations would reduce mining on our properties and our royalty revenue.

Following the issuance of the court's May 8, 2002 order, the plaintiff in the Kentuckians case filed a motion for further injunctive relief requesting that the court require the Huntington, West Virginia office of the U.S. Army Corps of Engineers to revoke the Section 404 valley fill permit identified in the plaintiff's complaint. In addition, various defendants and intervenors filed motions seeking a clarification of the court's order, a stay pending appeal, and a dismissal for failure to join a necessary party.

On June 17, 2002, the court ruled on all of the parties' motions. In response to the defendants' motion for clarification, the court decided that its injunction applies to any fill activity that does not have a "constructive primary purpose," citing as an example fills used solely for the disposal of waste. The court noted that such fills could include not only valley fills, but also other mining activities such as refuse impoundments, fills from standard contour or surface mines, or fills related to mine sites with "approximate original contour" waivers. The court noted, however, that determining whether a particular fill has a "constructive primary purpose" is up to the technical expertise of the U.S. Army Corps of Engineers. It also appears that the court would allow the U.S. Army Corps of Engineers to take into consideration post-mining land uses when applying the "constructive primary purpose" test to a particular fill activity. This ruling creates additional uncertainty about how the U.S. Army Corps of Engineers is to apply the "constructive primary purpose" test.

Following its discussion of the motion for clarification, the court addressed and denied both the defendants' motion for stay pending appeal and their motion for dismissal. Along with its denials of the defendants' various motions, the court denied the plaintiff's motion for further injunctive relief. Accordingly, the court did not require the U.S. Army Corps of Engineers to revoke the challenged Section 404 permit. The court based its decision on the grounds that it did not have sufficient factual information to determine whether the particular fill at issue had a "constructive primary purpose." The court suggested further that a show cause hearing would be necessary in order for it to make such a determination regarding the validity of an existing permit. In ruling this way, the court left open the possibility that case-by-case challenges to existing permits, including our lessees' permits, could be filed on the basis that the fill activities previously permitted did not have a "constructive primary purpose." Both the U.S. Army Corps of Engineers and the

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

industry parties that have intervened in the lawsuit have appealed this ruling to the Fourth Circuit Court of Appeals. If lawsuits challenging our lessees' permits were successful, our lessees would most likely be required to suspend or cease their surface mining on our properties. If the decision is not overturned on appeal or by new legislation, we would suffer a material decrease in our royalty revenue.

West Virginia Antidegradation Policy. In January 2002, a number of environmental groups and individuals filed suit in the U.S. District Court for the Southern District of West Virginia to challenge the EPA's approval of West Virginia's antidegradation implementation policy. Under the federal Clean Water Act, state regulatory authorities must conduct an antidegradation review before approving permits for the discharge of pollutants to waters that have been designated as high quality by the state. Antidegradation review involves public and intergovernmental scrutiny of permits and requires permittees to demonstrate that the proposed activities are justified in order to accommodate significant economic or social development in the area where the waters are located. The plaintiffs in this lawsuit, Ohio Valley Environmental Coalition v. Whitman, challenge provisions in West Virginia's antidegradation implementation policy that exempt current holders of National Pollutant Discharge Elimination System (NPDES) permits and Section 404 permits, among other parties, from the antidegradation-review process. Our lessees are current NPDES and/or Section 404 permit holders that are exempt from antidegradation review under these provisions. Revoking this exemption and subjecting our lessees to the antidegradation review process could delay the issuance or reissuance of Clean Water Act permits to our lessees or cause these permits to be denied. If the plaintiffs are successful and if our lessees discharge into waters that have been designated as high-quality by the state, the costs, time and difficulty associated with obtaining and complying with Clean Water Act permits for surface mining of operations could increase, which could in turn increase the costs of coal production, potentially reducing our royalty revenues.

103

Comprehensive Environmental Response, Compensation and Liability Act. CERCLA and similar state laws affect coal mining operations by, among other things, imposing cleanup requirements for threatened or actual releases of hazardous substances that may endanger public health or welfare or the environment. Under CERCLA and similar state laws, joint and several liability may be imposed on waste generators, site owners and lessees and others regardless of fault or the legality of the original disposal activity. Although the EPA excludes most wastes generated by coal mining and processing operations from the hazardous waste laws, such wastes can, in certain circumstances, constitute hazardous substances for the purposes of CERCLA. In addition, the disposal, release or spilling of some products used by coal companies in operations, such as chemicals, could implicate the liability provisions of the statute. Thus, coal mines that we or our lessees currently own or have previously owned or operated, and sites to which our lessees sent waste materials, may be subject to liability under CERCLA and similar state laws. In particular, we may be liable under CERCLA or similar state laws for the cleanup of hazardous substance contamination at sites where we own surface rights. We cannot assure you that we or our lessees will not become involved in future proceedings, litigation or investigations or that these liabilities will not be material.

Mining Permits and Approvals. Numerous governmental permits or approvals are required for mining operations. We do not hold any mining permits. Under our leases, our lessees are responsible for obtaining and maintaining all permits. In connection with obtaining these permits and approvals, our lessees may be required to prepare and present to federal, state or local authorities data pertaining to the effect or impact that any proposed production of coal may have upon the environment. The requirements imposed by any of these authorities may

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

be costly and time consuming and may delay commencement or continuation of mining operations. Regulations also provide that a mining permit can be refused or revoked if an officer, director or a shareholder with a 10% or greater interest in the entity is affiliated with another entity that has outstanding permit violations. Thus, past or ongoing violations of federal and state mining laws could provide a basis to revoke existing permits and to deny the issuance of additional permits. Please read "Risk Factors -- Regulatory and Legal Risks."

In order to obtain mining permits and approvals from state regulatory authorities, mine operators, including our lessees, must submit a reclamation plan for restoring, upon the completion of mining operations, the mined property to its prior condition, productive use or other permitted condition. Typically our lessees submit the necessary permit applications between 12 and 18 months before they plan to begin mining a new area. In our experience, permits generally are approved within 12 months after a completed application is submitted. In the past, our lessees have generally obtained their mining permits without significant delay. Our lessees have obtained or applied for permits to mine a majority of the reserves that are currently planned to be mined by our lessees over the next five years. Our lessees are in the planning phase for obtaining permits for the remaining reserves planned to be mined over the next five years. We cannot assure you, however, that they will not experience difficulty in obtaining mining permits in the future.

Future legislation and administrative regulations may emphasize the protection of the environment and, as a consequence, the activities of mine operators, including our lessees, may be more closely regulated. Legislation and regulations, as well as future interpretations of existing laws, may also require substantial increases in equipment expenditures and operating costs, as well as delays, interruptions or the termination of operations. We cannot predict the possible effect of such regulatory changes.

Under some circumstances, substantial fines and penalties, including revocation or suspension of mining permits, may be imposed under the laws described above. Monetary sanctions and, in severe circumstances, criminal sanctions may be imposed for failure to comply with these laws.

West Virginia Cumulative Hydrologic Impact Analysis Litigation. In a lawsuit unrelated to the Bragg case, two environmental groups sued the West Virginia Department of Environmental Protection in January 2000 in federal court, alleging various violations of the Clean Water Act and SMCRA. The lawsuit was amended in September 2001 to name Gale Norton, Secretary of the Interior, as a defendant. The U.S. Office of Surface Mining is a division within the Department of Interior. The lawsuit, Ohio River

Valley Environmental Coalition, Inc. v. Castle, specifically alleges that the West Virginia Department of Environmental Protection has violated its non-discretionary duty to require all surface and underground mining permit applications to include certain stream flow and water quality data and an analysis of the probable hydrologic consequences of the proposed mine, and that the West Virginia Department of Environmental Protection failed to conduct SMCRA-required cumulative hydrologic impacts analysis prior to issuing mining permits. The lawsuit also alleges that the Office of Surface Mining has a non-discretionary duty to apply the federal SMCRA law in West Virginia due to the deficiencies in the state program. In March 2001, the district court denied the plaintiff's motion for a preliminary injunction on its claims against the West Virginia Department of Environmental Protection. In September 2001, the district court denied a motion to dismiss filed by defendant Michael Callaghan, Secretary of the West Virginia Department of Environmental Protection. Callaghan filed an

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

interlocutory appeal of this decision in October 2001. The Fourth Circuit Court of Appeals dismissed this appeal in part and has denied a motion filed by the plaintiffs to dismiss the remaining claims. During the pendency of this appeal, on August 30, 2002, the district court dismissed some of the plaintiffs' claims.

If the plaintiffs are eventually successful in this lawsuit, the West Virginia Department of Environmental Protection will have to modify its procedures and requirements for the content and review of mining permit applications, or the federal government will be ordered to assume control over mining permits in West Virginia. Any of these changes are likely to increase the cost of preparing applications and the time required for their review, and may entail additional operating expenditures and, possibly, restrictions on operating that could adversely impact our coal royalty revenues.

Green Valley Coal Company, one of our lessees and a subsidiary of Massey Energy Company, intervened as a defendant in this lawsuit because a permit issued to Green Valley is alleged to have been improperly issued, and because several pending Green Valley permit applications are also alleged to be deficient.

West Virginia SMCRA Bond Lawsuit. In November 2000, the West Virginia Highlands Conservancy filed a lawsuit in federal district court against the U.S. Department of Interior, the U.S. Office of Surface Mining and the West Virginia Department of Environmental Protection. The lawsuit, West Virginia Highlands Conservancy v. Norton, which seeks declaratory and injunctive relief, generally challenges the adequacy of the two-tier West Virginia alternative reclamation bond program. The first tier requires mine operators to post a bond of up to \$5,000 per acre mined. The second tier creates a special reclamation fund which is funded by an assessment on mine operators of three cents per ton of coal. The West Virginia Highlands Conservancy claims that, individually and collectively, the alternative bond reclamation program has inadequate funds to cover the state's cost of conducting mining site reclamation for those sites where the mine operator has defaulted, or might default, on its reclamation obligations. Based upon the alleged inadequacy of the alternative bonding program, the lawsuit claims that the Department of the Interior and the Office of Surface Mining violated their obligations under SMCRA by either (1) not asserting federal control over the West Virginia SMCRA bonding program or (2) not revoking federal approval of the West Virginia SMCRA program and assuming control under SMCRA. The lawsuit also alleges that the West Virginia Department of Environmental Protection (1) failed to ensure that the state bonding program met certain minimum requirements and (2) improperly issued SMCRA permits without requiring mine operators to post sufficient reclamation bonds.

In May 2001, the district court dismissed all claims against the West Virginia Department of Environment Protection based upon the principles of sovereign immunity articulated by the Fourth Circuit in the Bragg case. Please read "-- West Virginia Mountaintop Mining/Valley Fill Litigation." The Office of Surface Mining, in June 2001, initiated formal administrative action against the West Virginia Department of Environmental Protection regarding the alleged deficiencies in the state bonding program.

The remaining claims in this lawsuit against the federal defendants were the subject of an August 2001 order by the district court. The court denied the federal defendants' motion to dismiss the suit and granted partial summary judgment for the plaintiffs. The court allowed the Office of Surface Mining to continue its administrative action. That action required the West Virginia Department of Environmental

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

legislature's rulemaking committee and, within 45 days of the close of the 2002 legislative session, the state was required to provide final, enacted legislation, signed by the Governor of West Virginia, that addressed all problems with the current state bonding system. The West Virginia Legislature passed, and the Governor of West Virginia signed, an amended alternative bond program, called the 7-Up Plan.

The plaintiffs filed a motion in January 2002 asking the court to compel the Office of Surface Mining to perform its non-discretionary duties and find that the new alternative bonding program promulgated by West Virginia still fails to meet the requirements of the federal SMCRA. In March 2002, the court denied the plaintiffs' motion, based in part upon representations by the Office of Surface Mining that it would make a final determination regarding the adequacy of the 7-Up Plan by no later than May 28, 2002.

On May 29, 2002, the Office of Surface Mining issued a final rule that approved amendments to the West Virginia alternative bonding scheme adopted by the West Virginia Department of Environmental Protection and enacted by the state legislature. These amendments require, among other things, eliminating the current deficit and restoring the Special Reclamation Fund to solvency, removing spending limitations on the expenditure of funds for water treatment, creating a special advisory council to advise on structural reforms to the bonding program to avoid deficits in the future and annual reporting to the state legislature on the adequacy of the funds in the alternative bonding scheme.

The current deficit will be eliminated through special reclamation taxes on clean coal totaling fourteen cents per ton, of which seven cents is an additional temporary tax that will terminate in 39 months. The Office of Surface Mining has projected that these taxes will eliminate the deficit. These taxes and whatever other requirements may be adopted in the future by the advisory council will likely result in increases in the funds that mine operators, including our lessees, are required to post in order to obtain permits and could result in further additional costs or fees related to the operation of a coal mine or the sale of coal. Any changes to the state reclamation bonding program could also complicate and protract the process of applying for and obtaining necessary permits.

On June 25, 2002, the West Virginia Highlands Conservancy filed an amended complaint challenging the Office of Surface Mining's approval of the amendments to the West Virginia alternative bonding program. The plaintiff has moved for summary judgment on the bonding issue.

**Endangered Species.** The federal Endangered Species Act and counterpart state legislation protects species threatened with possible extinction. Protection of endangered species may have the effect of prohibiting or delaying our lessees from obtaining mining permits and may include restrictions on timber harvesting, road building and other mining or silvicultural activities in areas containing the affected species. A number of species indigenous to our properties are protected under the Endangered Species Act. Based on the species that have been identified to date and the current application of applicable laws and regulations, however, we do not believe there are any species protected under the Endangered Species Act that would materially and adversely affect our lessees' ability to mine coal from our properties in accordance with current mining plans. There can be no assurance, however, that additional species on our properties may not receive protected status under the Endangered Species Act or that currently protected species may not be discovered within our properties.

**Other Environmental Laws Affecting Our Lessees.** Our lessees are required to comply with numerous other federal, state and local environmental laws in addition to those previously discussed. These additional laws include, for example, the Resource Conservation and Recovery Act, the Safe Drinking Water Act, the Toxic Substance Control Act and the Emergency Planning and Community

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Right-to-Know Act. We believe that our lessees are in substantial compliance with all applicable environmental laws.

### TITLE TO PROPERTY

Of the 1.15 billion tons of proven and probable coal reserves to which we had rights as of December 31, 2001, we owned approximately 1.13 billion, or 98%, of the reserves in fee. We lease approximately 20 million tons, or 2%, of our reserves from unaffiliated third parties. We believe that we

106

have satisfactory title to all of our mineral properties, but we have not had a qualified title company confirm this belief. Although title to these properties is subject to encumbrances in certain cases, such as customary easements, rights-of-way, interests generally retained in connection with the acquisition of real property, licenses, prior reservations, leases, liens, restrictions and other encumbrances, we believe that none of these burdens will materially detract from the value of our properties or from our interest in them or will materially interfere with their use in the operations of our business. Some of the leases, easements, rights-of-way, and licenses transferred or to be transferred to us require the consent of the grantor to transfer these rights, although the leases that represent the largest portion of the 20 million tons cited above do not require consent for transfer. We believe that we have obtained or will obtain the third-party consents and authorizations sufficient for the transfer to us of the properties necessary for us to operate our business in all material respects as described in the prospectus. With respect to any consents or authorizations that have not yet been obtained, we believe that those consents or authorizations will be obtained, or that the failure to obtain those consents or authorizations will have no material adverse effect on the operation of our business.

For most of our properties, the surface, oil and gas and mineral or coal estates are owned by different entities. Some of those entities are our affiliates. State law and regulations in most of the states where we do business require the oil and gas owner to coordinate the location of wells so as to minimize the impact on the intervening coal seams. We do not anticipate that the existence of the severed estates will materially impede coal development on our properties.

### EMPLOYEES AND LABOR RELATIONS

To carry out our operations, our general partner and its affiliates employ approximately 14 employees who directly support our operations. None of our general partner's employees are subject to a collective bargaining agreement. Some of the employees of our lessees and sublessees are subject to collective bargaining agreements.

### LEGAL PROCEEDINGS

Although we may, from time to time, be involved in litigation and claims arising out of our operations in the normal course of business, we are not currently a party to any material legal proceedings. In addition, we are not aware of any legal or governmental proceedings against us, or contemplated to be brought against us, under the various environmental protection statutes to which we are subject. See "Business -- Regulation" above for a more complete discussion of our material environmental obligations.

107

# Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

## MANAGEMENT

GP NATURAL RESOURCE PARTNERS LLC WILL MANAGE US

Because our general partner is a limited partnership, its general partner, GP Natural Resource Partners LLC, will manage our operations and activities. Our general partner is not elected by our unitholders and will not be subject to re-election on a regular basis in the future. Unitholders will not, directly or indirectly, participate in our management or operation. Our general partner and GP Natural Resource Partners LLC owe a fiduciary duty to our unitholders. Our general partner will be liable, as general partner, for all of our debts (to the extent not paid from our assets), except for indebtedness or other obligations that are made specifically nonrecourse to it. Whenever possible, our general partner intends to incur indebtedness or other obligations on a nonrecourse basis.

At least two members of the board of directors of GP Natural Resource Partners LLC will serve on a conflicts committee to review specific matters that the board believes may involve conflicts of interest. The conflicts committee will determine if the resolution of the conflict of interest is fair and reasonable to us. The members of the conflicts committee may not be officers or employees of our general partner or GP Natural Resource Partners LLC or directors, officers or employees of their affiliates and must meet the independence and experience standards to serve on an audit committee of a board of directors established by the NYSE. Any matters approved by the conflicts committee will be conclusively deemed to be fair and reasonable to us, approved by all of our partners and not a breach by our general partner of any duties it may owe us or our unitholders. In addition, we will have an audit committee that will consist of independent directors and will review our external financial reporting, recommend engagement of our independent auditors and review procedures for internal auditing and the adequacy of our internal accounting controls. Our compensation committee will oversee compensation decisions for the officers of the general partner as well as the compensation plans described below.

In compliance with the rules of the NYSE, the members of the board of directors named below will appoint two independent members within three months of the listing of the common units on the NYSE and one additional independent member within 12 months of that listing. The three newly appointed members will serve as the initial members of the conflicts, audit and compensation committees.

GP Natural Resource Partners LLC was formed in April 2002. We are managed and operated by the directors and officers of GP Natural Resource Partners LLC, and our management has served in their current capacities since our formation. We expect that most of our operational personnel will be employees of Western Pochontas Properties Limited Partnership.

The officers of GP Natural Resource Partners LLC will spend most of their time managing our business and affairs. These officers may face a conflict, however, regarding the allocation of their time between our business and the other business interests of the WPP Group. GP Natural Resource Partners LLC intends to cause its officers to devote as much time to the management of our business and affairs as is necessary for the proper conduct of our business and affairs. The board of directors of GP Natural Resource Partners LLC is presently composed of five directors and will be expanded to eight directors upon the appointment of three additional independent directors following the closing of the offering.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

### DIRECTORS AND EXECUTIVE OFFICERS OF GP NATURAL RESOURCE PARTNERS LLC

The following table shows information for the directors and executive officers of GP Natural Resource Partners LLC. Executive officers and directors are elected for one-year terms.

NAME	AGE	POSITION WITH GP NATURAL RESOURCE PARTNERS LLC	ESTIMATED PERCENTAGE OF TIME DEVOTED TO NATURAL RESOURCE PARTNERS
Corbin J. Robertson, Jr. ....	54	Chief Executive Officer and Chairman of the Board	50%
Nick Carter.....	56	President and Chief Operating Officer	90%
Dwight L. Dunlap.....	49	Chief Financial Officer, Secretary and Treasurer	90%
Kevin Wall.....	46	Vice President and Chief Engineer	90%
Kenneth Hudson.....	48	Controller	90%
Steven F. Leer.....	50	Director	
S. Reed Morian.....	56	Director	
David B. Peugh.....	48	Director	
W. W. Scott, Jr. ....	57	Director	

Corbin J. Robertson, Jr. is the Chief Executive Officer and the Chairman of the Board of Directors of GP Natural Resource Partners LLC. Mr. Robertson has served as the Chief Executive Officer and Chairman of the Board of the general partners of Western Pocahontas Properties Limited Partnership since 1986, Great Northern Properties Limited Partnership since 1992 and Quintana Minerals Corporation since 1978 and as Chairman of the Board of Directors of New Gauley Coal Corporation since 1986. He also serves as Chairman of the Board of the Baylor College of Medicine and of the Cullen Trust for Higher Education and on the boards of the American Petroleum Institute, the National Petroleum Council, the Texas Medical Center and the World Health and Golf Association.

Nick Carter is the President and Chief Operating Officer of GP Natural Resource Partners LLC. He has also served as President of the general partner of Western Pocahontas Properties Limited Partnership and New Gauley Coal Corporation since 1990 and as President of the general partner of Great Northern Properties Limited Partnership from 1992 to 1998. Prior to 1990, Mr. Carter held various positions with MAPCO Coal Corporation and was engaged in the private practice of law. He is President of the National Council of Coal Lessors, the immediate past Chair of the West Virginia Chamber of Commerce and a board member of the Kentucky Coal Association.

Dwight L. Dunlap is the Chief Financial Officer, Secretary and Treasurer of GP Natural Resource Partners LLC. Mr. Dunlap has served as Vice President-Treasurer of Quintana Minerals Corporation and as Chief Financial Officer, Treasurer and Secretary of the general partner of Western Pocahontas Properties Limited Partnership and Great Northern Properties Limited Partnership since 2000. Mr. Dunlap has worked for Quintana Minerals since 1982 and has served as Vice President and Treasurer since 1987. Mr. Dunlap is a Certified Public Accountant with over 25 years of experience in financial management, accounting and reporting including six years of audit experience with a Big Four international public accounting firm.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Kevin Wall is a Vice President and Chief Engineer of GP Natural Resource Partners LLC. Mr. Wall has served as Vice President -- Engineering for the general partner of Western Pocahontas Properties Limited Partnership since 1998 and the general partner of Great Northern Properties Limited Partnership since 1992. He has also served as the Vice President -- Engineering of New Gauley Coal Corporation since 1998. He has performed duties in the land management, planning, project evaluation, acquisition and engineering areas since 1981. He is a Registered Professional Engineer in West Virginia and is a member of the American Institute of Mining, Metallurgical, and Petroleum Engineers and of the National Society

109

of Professional Engineers. Mr. Wall also serves on the Board of Directors of Leadership Tri-State and is the immediate past president of the West Virginia Society of Professional Engineers.

Kenneth Hudson is the Controller of GP Natural Resource Partners LLC. He has served as Controller of the general partner of Western Pocahontas Properties Limited Partnership and of New Gauley Coal Corporation since 1988 and of the general partner of Great Northern Properties Limited Partnership since 1992. He was also Controller of Blackhawk Mining Co., Quintana Coal Co. and other related operations from 1985 to 1988. Prior to that time, Mr. Hudson worked in public accounting.

Steven F. Leer is a member of the Board of Directors of GP Natural Resource Partners LLC. Mr. Leer has also served as President, Chief Executive Officer and a director of Arch Coal, Inc. since 1992. He is also a Director of the Norfolk Southern Corporation, Chairman of the Center for Energy and Economic Development and Chairman of the National Coal Council.

S. Reed Morian is a member of the Board of Directors of GP Natural Resource Partners LLC. Mr. Morian has served as a member of the Board of Directors of the general partner of Western Pocahontas Properties Limited Partnership and New Gauley Coal Corporation since 1986 and has served as a member of the Board of Directors of the general partner of Great Northern Properties Limited Partnership since 1992. Mr. Morian has worked for Dixie Chemical Company since 1971 and has served as its Chairman and Chief Executive Officer since 1981. He has also served as Chairman, Chief Executive Officer and President of DX Holding Company since 1989.

David B. Peugh is a member of the Board of Directors of GP Natural Resource Partners LLC. Mr. Peugh has also served as Vice President -- Business Development of Arch Coal, Inc. since 1993. He is also a director of ZECA Corporation, a company developing an emission-free process of producing electricity from coal.

W. W. Scott, Jr. is a member of the Board of Directors of GP Natural Resource Partners LLC. Mr. Scott was Executive Vice President and Chief Financial Officer of Quintana Minerals Corporation from 1985 to 1999. He served as Executive Vice President and Chief Financial Officer of the general partner of Western Pocahontas Properties Limited Partnership and New Gauley Coal Corporation from 1986 to 1999. He served as Executive Vice President and Chief Financial Officer of the general partner of Great Northern Properties Limited Partnership from 1992 to 1999. Since 1999, he has continued to serve as a director of the general partner of Western Pocahontas Properties Limited Partnership and Quintana Minerals Corporation.

### REIMBURSEMENT OF EXPENSES OF OUR GENERAL PARTNER

Our general partner will not receive any management fee or other

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

compensation for its management of our partnership. Our general partner and its affiliates will, however, be reimbursed for all expenses incurred on our behalf. These expenses include the costs of employee, officer and director compensation and benefits properly allocable to us and all other expenses necessary or appropriate to the conduct of our business and allocable to us. The partnership agreement provides that our general partner will determine the expenses that are allocable to us in any reasonable manner determined by our general partner in its sole discretion.

### EXECUTIVE COMPENSATION

Our general partner and GP Natural Resource Partners LLC were formed in April 2002. Accordingly, GP Natural Resource Partners LLC paid no compensation to its directors and officers in 2001. We have not accrued any obligations with respect to management incentive or retirement benefits for the directors and officers for 2001. Officers and employees of GP Natural Resource Partners LLC may participate in employee benefit plans and arrangements sponsored by GP Natural Resource Partners LLC or its affiliates, including plans that may be established by the general partner or its affiliates in the future.

110

### COMPENSATION OF DIRECTORS

No additional remuneration will be paid to officers or employees of GP Natural Resource Partners LLC who also serve as directors. GP Natural Resource Partners LLC anticipates that each director will receive compensation for attending meetings of the board of directors and committee meetings. The amount of compensation to be paid to directors has not yet been determined. The directors who are appointed by Arch Coal, other than the independent director appointed by Arch Coal, will assign any compensation and benefits they receive in their capacity as directors to Arch Coal. In addition, each director will be reimbursed for his out-of-pocket expenses in connection with attending meetings of the board of directors or committees. Each director will be fully indemnified by us for his actions associated with being a director to the fullest extent permitted under Delaware law.

### LONG-TERM INCENTIVE PLAN

GP Natural Resource Partners LLC has adopted the Natural Resource Partners Long-Term Incentive Plan for employees and directors of GP Natural Resource Partners LLC and its affiliates who perform services for us. The long-term incentive plan consists of two components: restricted units and unit options. The long-term incentive plan currently permits the grant of awards covering a number of common units equal to three percent of the number of common units outstanding immediately following the initial public offering of common units. The plan is administered by the compensation committee of GP Natural Resource Partners LLC's board of directors.

Subject to the rules of the exchange upon which the common units are listed at the time, GP Natural Resource Partners LLC's board of directors or the compensation committee may terminate or amend the long-term incentive plan at any time with respect to any units for which a grant has not yet been made. GP Natural Resource Partners LLC's board of directors or the compensation committee also has the right to alter or amend the long-term incentive plan or any part of the plan from time to time, including increasing the number of units that may be granted, subject to the rules of the exchange upon which the common units are listed at that time. Except upon the occurrence of unusual or nonrecurring events, no change in any outstanding grant may be made that would materially reduce the benefit intended to be made available to a participant without the consent of the participant.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Restricted Units. A restricted unit is a "phantom" unit that entitles the grantee to receive a common unit upon the vesting of the phantom unit or, in the discretion of the compensation committee, its fair market value in cash. The compensation committee may make grants under the plan to employees and directors containing such terms as the compensation committee shall determine. The compensation committee will determine the period over which restricted units granted to employees and directors will vest. The committee may base its determination upon the achievement of specified financial objectives. In addition, the restricted units will vest upon a change of control of Natural Resource Partners, our general partner, or GP Natural Resource Partners LLC.

If a grantee's employment or membership on the board of directors terminates for any reason, the grantee's restricted units will be automatically forfeited unless, and to the extent, the compensation committee provides otherwise. Common units to be delivered upon the vesting of restricted units may be common units acquired by GP Natural Resource Partners LLC in the open market, common units already owned by GP Natural Resource Partners LLC, common units acquired by GP Natural Resource Partners LLC directly from us, from another affiliate or any other person or entity or any combination of the foregoing. GP Natural Resource Partners LLC will be entitled to reimbursement by us for the cost incurred in acquiring common units. If we issue new common units upon vesting of the restricted units, the total number of common units outstanding will increase.

We intend the issuance of the common units upon vesting of the restricted units under the plan to serve as a means of incentive compensation for performance and not primarily as an opportunity to participate in the equity appreciation of the common units. Therefore, plan participants will not pay any consideration for the common units they receive, and we will receive no remuneration for the units.

111

Unit Options. The long-term incentive plan currently permits the grant of options covering common units. The compensation committee may determine to make grants under the plan to employees and directors containing such terms as the committee shall determine consistent with the plan. Unit options will have an exercise price that may not be less than the fair market value of the units on the date of grant. In general, unit options granted will become exercisable over a period determined by the compensation committee. The compensation committee may base its determination upon the achievement of specified financial objectives. In addition, the unit options will become exercisable upon a change in control as described above.

If a grantee's employment or membership on the board of directors terminates for any reason, the grantee's options will be automatically forfeited unless, and to the extent, the compensation committee provides otherwise. Upon exercise of a unit option, GP Natural Resource Partners LLC will acquire common units in the open market, directly from us, from another affiliate or any other person or entity, or use common units already owned by GP Natural Resource Partners LLC, or any combination of the foregoing. GP Natural Resource Partners LLC will be entitled to reimbursement by us for the difference between the cost incurred in acquiring these common units and the proceeds received from an optionee at the time of exercise. Thus, the cost of the unit options will be borne by us. If we issue new common units upon exercise of the unit options, the total number of common units outstanding will increase, and GP Natural Resource Partners LLC will pay us the proceeds it received from the optionee upon exercise of the unit option. The unit option plan has been designed to furnish additional compensation to employees and directors and to align their economic interests with those of common unitholders.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

### ANNUAL INCENTIVE PLAN

The general partner has adopted the Natural Resource Partners Annual Incentive Compensation Plan. The annual incentive plan is designed to enhance the performance of GP Natural Resource Partners LLC's and its affiliates' key employees by rewarding them with cash awards for achieving annual financial and operational performance objectives. The compensation committee in its discretion may determine individual participants and payments, if any, for each fiscal year. The board of directors of GP Natural Resource Partners LLC may amend or change the annual incentive plan at any time. We will reimburse GP Natural Resource Partners LLC for payments and costs incurred under the plan.

112

### SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth the beneficial ownership of units of Natural Resource Partners that will be issued upon the consummation of this offering and the related transactions and held by beneficial owners of 5% or more of the units, by directors of GP Natural Resource Partners LLC and by all directors and executive officers of GP Natural Resource Partners LLC as a group. The address of Western Pocahontas Properties Limited Partnership, Great Northern Properties Limited Partnership and New Gauley Coal Corporation is 601 Jefferson Street, Suite 3600, Houston, Texas 77002. The address of Ark Land Company is One CityPlace Drive, Suite 300, St. Louis, Missouri 63141.

NAME OF BENEFICIAL OWNER -----	COMMON UNITS TO BE BENEFICIALLY OWNED -----	PERCENTAGE OF COMMON UNITS TO BE BENEFICIALLY OWNED -----	SUBORDINATED UNITS TO BE BENEFICIALLY OWNED -----	PERCENTAGE OF SUBORDINATED UNITS TO BE BENEFICIALLY OWNED -----
Western Pocahontas Properties Limited Partnership.....	3,158,166	27.8%	5,231,766	46.1%
Great Northern Properties Limited Partnership.....	673,715	5.9%	1,116,065	9.8%

(1) Arch Coal, Inc. is the parent company of Ark Land Company and, as such, Arch Coal, Inc. may be deemed to beneficially own the units held by Ark Land

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Company

- (2) In the event the underwriters exercise the over-allotment option in full, Ark Land Company will sell 285,187 common units to the underwriters, thereby reducing Arch Coal, Inc.'s and Ark Land Company's beneficial ownership of common units to 2,610,483.
- (3) Mr. Robertson may be deemed to beneficially own the units held by Western Pocahontas Properties Limited Partnership and New Gauley Coal Corporation.

113

### CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In March 2001, Arch Coal contacted the WPP Group regarding its interest in forming a limited partnership to hold and lease coal properties and to conduct a public offering of its securities. The WPP Group expressed interest in pursuing the formation of such a partnership and the parties began negotiations and due diligence on the properties to be contributed. In December 2001, the WPP Group and Arch Coal reached preliminary agreement on the structure of the partnership, the properties each party would contribute to the partnership and their relative values and resulting ownership of the general partner and the partnership and agreed to the lead underwriters for the initial public offering of our common units. Arch Coal and the WPP Group continued negotiations on the value of the properties each would contribute to the Partnership and due diligence with respect to these properties and reached final agreement in March 2002.

After this offering, affiliates of our general partner will own 6,853,658 common units and 11,353,658 subordinated units representing a 78.6% limited partner interest in us. In addition, our general partner will own the 2% general partner interest in us.

Quintana Minerals Corporation, a company controlled by the owner of the general partner of Western Pocahontas Properties Limited Partnership, provided certain administrative services to Western Pocahontas Properties Limited Partnership and charged Western Pocahontas Properties Limited Partnership for direct costs related to the administrative services. The total expenses charged to Western Pocahontas Properties Limited Partnership under this arrangement were approximately \$500,000 for each of the years ended December 31, 1999, 2000 and 2001.

Western Pocahontas Properties Limited Partnership has a management contract to provide certain management, engineering and accounting services to Great Northern Properties Limited Partnership. The contract provides for, and Great Northern Properties Limited Partnership paid, a \$250,000 annual fee, in each of the three years ended December 31, 1999, 2000 and 2001, which is intended to reimburse Western Pocahontas Properties Limited Partnership for its expense. The contract may be canceled upon 90 days advance notice by Great Northern Properties Limited Partnership.

Some of the Arch Coal Contributed Properties are leased to affiliates of Arch Coal that mine on the properties. Contracted royalty rates from these affiliates for the three years ended December 31, 2001 were 6.5% of the gross sales price of coal sold from the property using underground mining methods and 7.5% of the gross sales price of coal sold from the property using surface mining methods. Affiliate royalties amounted to \$10.5 million, \$10.2 million and \$10.3 million during the years ended December 31, 2001, 2000 and 1999, respectively. Please read "-- Coal Leases with Ark Land Company" for a discussion of the leases between the Partnership and Ark Land Company.

We believe that the terms for each of the above transactions are at least

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

as favorable to us as we would have obtained in transactions negotiated with unaffiliated third parties.

### DISTRIBUTIONS AND PAYMENTS TO THE GENERAL PARTNER AND ITS AFFILIATES

The following table summarizes the distributions and payments to be made by us to our general partner and its affiliates in connection with the formation, ongoing operation and any liquidation of Natural Resource Partners. These distributions and payments were determined by and among affiliated entities and, consequently, are not the result of arm's-length negotiations.

#### FORMATION STAGE

The consideration received by our general partner and its affiliates for the contribution of the assets and liabilities to us.....

- 6,853,658 common units;
- 11,353,658 subordinated units;  
114
- 2% general partner interest in Natural Resource Partners;
- the incentive distribution rights; and
- the assumption of \$46.5 million of indebtedness of the WPP Group.

#### OPERATIONAL STAGE

Distributions of available cash to our general partner and its affiliates.....

We will generally make cash distributions 98% to the unitholders, including affiliates of our general partner, as holders of all of the subordinated units, and 2% to the general partner. In addition, if distributions exceed the target distribution levels, the holders of the incentive distribution rights, including our general partner, will be entitled to increasing percentages of the distributions, up to an aggregate of 48% of the distributions above the highest target level.

Assuming we have sufficient available cash to pay the full minimum quarterly distribution on all of our outstanding units for four quarters, our general partner would receive distributions of approximately \$1.0 million on its 2% general partner interest and our affiliates would receive distributions of approximately \$15.0 million on their common units and \$24.0 million on their subordinated units.

Payments to our general partner and its affiliates....

Our general partner and its affiliates will not receive any management fee or other compensation for the management of our partnership. Our general partner and its

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

affiliates will be reimbursed, however, for all direct and indirect expenses incurred on our behalf. Our general partner has the sole discretion in determining the amount of these expenses.

Withdrawal or removal of our  
general partner.....

If our general partner withdraws or is removed, its general partner interest and its incentive distribution rights will either be sold to the new general partner for cash or converted into common units, in each case for an amount equal to the fair market value of those interests. See "The Partnership Agreement -- Withdrawal or Removal of the General Partner."

### LIQUIDATION STAGE

Liquidation.....

Upon our liquidation, the partners, including our general partner, will be entitled to receive liquidating distributions according to their particular capital account balances.

### AGREEMENTS GOVERNING THE TRANSACTIONS

We and other related parties have entered into the various documents and agreements that will effect the transactions, including the vesting of assets in, and the assumption of liabilities by, our subsidiaries, and the application of the proceeds of this offering. These agreements will not be the result of arm's-length negotiations, and we cannot assure you that they, or that any of the transactions which they provide for, will be effected on terms at least as favorable to the parties to these agreements as they could have been

115

obtained from unaffiliated third parties. All of the transaction expenses incurred in connection with these transactions, including the expenses associated with transferring assets into our subsidiaries, will be paid from the proceeds of this offering.

### OMNIBUS AGREEMENT

#### Non-competition Provisions

As part of the omnibus agreement to be entered into among Natural Resource Partners, our general partner, the WPP Group, Arch Coal, Ark Land Company and Corbin J. Robertson, Jr. concurrently with the closing of this offering, the WPP Group, any entity controlled by Corbin J. Robertson, Jr. and Arch Coal, which we refer to in this section as the GP affiliates, have each agreed that neither they nor their affiliates will, directly or indirectly, engage or invest in entities that engage in the following activities (each, a "restricted business") in the specific circumstances described below:

- the entering into or holding of leases with a party other than an affiliate of the GP affiliate for any GP affiliate owned fee coal reserves within the United States; and
- the entering into or holding of subleases with a party other than an affiliate of the GP affiliate for coal reserves within the United States controlled by a paid-up lease owned by any GP affiliate or its affiliate.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

"Affiliate" means, with respect to any GP affiliate or, any other entity in which such GP affiliate owns, through one or more intermediaries, 50% or more of the then outstanding voting securities or other ownership interests of such entity. Except as described below, the WPP Group, Arch Coal and their respective controlled affiliates will not be prohibited from engaging in activities in which they compete directly with us. Please see "Risk Factors -- The WPP Group and Arch Coal may engage in substantial competition with us."

A GP affiliate may, directly or indirectly, engage in a restricted business if:

- the GP affiliate was engaged in the restricted business at the closing of the offering; provided that if the fair market value of the asset or group of related assets of the restricted business subsequently exceeds \$10 million, the GP affiliate must offer the restricted business to Natural Resource Partners under the offer procedures described below.
- the asset or group of related assets of the restricted business have a fair market value of \$10 million or less; provided that if the fair market value of the assets of the restricted business subsequently exceeds \$10 million, the GP affiliate must offer the restricted business to Natural Resource Partners under the offer procedures described below.
- the asset or group of related assets of the restricted business have a fair market value of more than \$10 million and the general partner (with the approval of the conflicts committee) has elected not to cause Natural Resource Partners to purchase these assets under the procedures described below.
- its ownership in the restricted business consists solely of a noncontrolling equity interest.

For purposes of this paragraph, "fair market value" means the fair market value as determined in good faith by the relevant GP affiliate.

The total fair market value in the good faith opinion of the WPP Group of all restricted businesses engaged in by the WPP Group, other than those engaged in by the WPP Group at closing of the offering, may not exceed \$75 million. For purposes of this restriction, the fair market value of any entity engaging in a restricted business purchased by the WPP Group will be determined based on the fair market value of the entity as a whole, without regard for any lesser ownership interest to be acquired. Arch Coal is not subject to a similar restriction on the total fair market value of restricted businesses it may own.

If the WPP Group desires to acquire a restricted business or an entity that engages in a restricted business with a fair market value in excess of \$10 million and the restricted business constitutes greater

116

than 50% of the value of the business to be acquired, then the WPP Group must first offer Natural Resource Partners the opportunity to purchase the restricted business. If (1) Arch Coal desires to acquire a restricted business or an entity that engages in a restricted business with a fair market value in excess of \$10 million or (2) the WPP Group desires to acquire a restricted business or an entity that engages in a restricted business with a value in excess of \$10 million and the restricted business constitutes 50% or less of the value of the business to be acquired, then the GP affiliate may purchase the restricted business first and then offer Natural Resource Partners the opportunity to purchase the restricted business within six months of acquisition. For purposes of this paragraph, "restricted business" excludes a general partner interest or

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

managing member interest, which is addressed in a separate restriction summarized below. For purposes of this paragraph only, "fair market value" means the fair market value as determined in good faith by the relevant GP affiliate.

If Natural Resource Partners wants to purchase the restricted business and the GP affiliate and the general partner, with the approval of the conflicts committee, agree on the fair market value and other terms of the offer within 60 days after the general partner receives the offer from the GP affiliate, Natural Resource Partners will purchase the restricted business as soon as commercially practicable. If the GP affiliate and the general partner, with the approval of the conflicts committee, are unable to agree in good faith on the fair market value and other terms of the offer within 60 days after the general partner receives the offer, then the GP affiliate may sell the restricted business to a third party within two years for no less than the purchase price and on terms no less favorable to the GP affiliate than last offered by Natural Resource Partners. During this two year period, the GP affiliate may operate the restricted business in competition with Natural Resource Partners, subject to the restriction on total fair market value of restricted businesses owned in the case of the WPP Group.

If, at the end of the two year period, the restricted business has not been sold to a third party and the restricted business retains a value, in the good faith opinion of the relevant GP affiliate, in excess of \$10 million, then the GP affiliate must reoffer the restricted business to the general partner. If the GP affiliate and the general partner, with the approval of the conflicts committee, agree on the fair market value and other terms of the offer within 60 days after the general partner receives the second offer from the GP affiliate, Natural Resource Partners will purchase the restricted business as soon as commercially practicable. If the GP Affiliate and the general partner, with the concurrence of the conflicts committee, again fail to agree after negotiation in good faith on the fair market value of the restricted business, then the GP affiliate will be under no further obligation to Natural Resource Partners with respect to the restricted business, subject to the restriction on total fair market value of restricted businesses owned in the case of the WPP Group.

In addition, if during the two year period described above, a change occurs in the restricted business that, in the good faith opinion of the GP affiliate, affects the fair market value of the restricted business by more than 10 percent and the fair market value of the restricted business remains, in the good faith opinion of the relevant GP affiliate, in excess of \$10 million, the GP affiliate will be obligated to reoffer the restricted business to the general partner at the new fair market value, and the offer procedures described above will recommence.

If the restricted business to be acquired is in the form of a general partner interest in a publicly-held partnership or a managing member interest in a publicly-held limited liability company, the WPP Group may not acquire such restricted business even if we decline to purchase the restricted business. If the restricted business to be acquired is in the form of a general partner interest in a non publicly-held partnership or a managing member of a non-publicly-held limited liability company, the WPP Group may acquire such restricted business subject to the restriction on total fair market value of restricted businesses owned and the offer procedures described above. If the restricted business to be acquired is in the form of a general partner interest in a partnership or a managing member interest in a limited liability company, Arch Coal may acquire such restricted business as part of a larger transaction so long as (1) it sells the interest to us or a third party within six months of the acquisition or (2) the general partner, with the approval of the conflicts committee, agrees that the restricted business will be subject to the offer procedures described in the preceding paragraphs without reference again to this paragraph. If, following

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

the six month period, Arch Coal has made a good faith, reasonable attempt to divest the interest, but is unable to do so and Arch has not received an extension from our conflicts committee or has not offered us the opportunity to buy its competing interest, Arch Coal may opt to either (1) have its designated directors immediately resign from the board of directors of our general partner, in which case Arch Coal may continue to own and operate the competing business but will continue to relinquish its rights to designate directors of our general partner until such time as it divests the competing business, or (2) hire an independent investment banking firm to determine the fair market value of the competing business. If Arch Coal elects to obtain an independent valuation of its competing business, then:

- if Arch Coal and our general partner (with the concurrence of the conflicts committee) agree upon the price of the competing business, our partnership will purchase the competing business;
- if Arch Coal seeks to sell the competing business to our partnership at the price determined by the investment banking firm and our general partner (with the concurrence of the conflicts committee) declines to purchase the competing business, Arch Coal will be free to continue to own and operate the competing business;
- if Arch Coal does not wish to sell the competing business to our partnership at the price determined by the investment banking firm and our general partner (with the concurrence of the conflicts committee) seeks to purchase the competing business at such price, then Arch Coal's designated directors must immediately resign from the board of directors of our general partner, in which case Arch Coal may continue to own and operate the competing business. Arch Coal will continue to relinquish its rights to designate directors of our general partner until it divests the competing business.

### Indemnification

Under the omnibus agreement, the WPP Group and Arch Coal, jointly and severally, will indemnify us for (1) three years after the closing of this offering against environmental liabilities associated with the properties contributed to us and occurring before the closing date of this offering and (2) all tax liabilities attributable to the ownership or operation of the partnership assets prior to the closing of this offering. The environmental indemnity will be limited to a maximum amount of \$10.0 million. Liabilities resulting from a change in law after the closing of the offering are excluded from the environmental indemnity.

The omnibus agreement may be amended at any time subsequent to the offering by the general partner, with the concurrence of the conflicts committee. The respective obligations of the WPP Group and Arch Coal under the omnibus agreement terminate when the WPP Group and its affiliates, or Arch Coal and its affiliates, as the case may be, cease to participate in the control of the general partner.

### AGREEMENTS WITH ARK LAND COMPANY

Concurrently with the closing of the offering of common units, we will enter into four coal mining leases with Ark Land Company, a subsidiary of Arch Coal. The Arch leases grant Arch Coal the right to mine our coal on the following properties:

- Lone Mountain located in Kentucky, which contained 49.3 million tons of proven and probable reserves as of December 31, 2001;

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

- Pardee located in Kentucky and Virginia, which contained 20.7 million tons of proven and probable reserves as of December 31, 2001;
- Boone/Lincoln located in West Virginia, which contained 18.7 million tons of proven and probable reserves as of December 31, 2001; and
- Campbell's Creek located in West Virginia, which contained 10.9 million tons of proven and probable reserves as of December 31, 2001.

118

Coal royalty revenues payable under these leases based on 2001 actual production were \$10.5 million, representing 24.8% of our total pro forma coal royalty revenues for the year ended December 31, 2001. If no production had taken place in 2001, minimum royalties of \$5.75 million would have been payable under the leases.

The Arch leases have an initial term of either eight or ten years, each with an automatic year-to-year extension until the earlier to occur of (1) delivery of notice by Ark Land that it will not renew the lease or (2) all mineable and merchantable coal has been mined. The leases provide for payments to us based on the higher of a percentage of the gross sales price or a fixed minimum per ton of coal Ark Land sells from our properties, with minimum annual royalty payments. Under the Arch leases, minimum royalty payments are credited against future production royalties.

The Arch leases are intended to retain some of the legal rights Ark Land possessed when it owned the properties. For this reason, the leases contain some terms and provisions that are different from our third-party coal leases negotiated at arm's length. Some of the more significant differences include:

- Ark Land has the ability to sublease the leased property without our prior approval, although Ark Land is still responsible for sublessee performance;
- minimum royalty payments from Ark Land continue to be payable during the initial lease term even if all mineable and merchantable coal has been mined from the property;
- royalties for coal sold by Ark Land to any of its affiliates may be based on a gross selling price below the market value of the coal;
- the indemnities provided by Ark Land to us do not survive the termination of the leases;
- we only have a limited ability to terminate the leases;
- Arch Coal has royalty-free wheelage rights on the leased properties; and
- the leases do not impose a legal duty to diligently mine the maximum amount of coal possible from the leased property.

We believe that the production and minimum royalty rates contained in the Arch leases are consistent with current market royalty rates.

Ark Land and Arch Coal own an overriding royalty interest in leased coal reserves mined by Black Beauty Coal Company, an affiliate of Peabody Energy, from property located in Knox County, Indiana. Ark Land and Arch Coal will retain the overriding royalty interest following the consummation of this offering. However, ACIN LLC, Ark Land and Arch Coal will enter into an agreement

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

at closing to pass through to ACIN LLC any royalties paid to Ark Land by Black Beauty under the overriding royalty interest, and Arch Coal will guarantee Ark Land's pass-through obligations to the extent of the royalties paid to Ark Land. Annual advance overriding royalty payments, against which production royalties under the leases are credited, are received by Ark Land in June of each year. In 2001, Ark Land received less than \$1 million from the overriding royalty interest, or less than 2% of our partnership's 2001 pro forma revenues. The term of the pass-through agreement expires upon the termination of the overriding royalty interest.

In May 2002, Ark Land received a notice from Black Beauty asserting that Black Beauty is no longer obligated to pay the \$400,000 advance overriding royalty payments to Ark Land associated with a portion of the underlying leased property beginning when the next payment would be due on June 29, 2003. In response, Ark Land has notified Black Beauty that Ark Land disagrees with Black Beauty's right to terminate these payments and intends to assert its right to receive these payments. We cannot assure you as to whether Ark Land will ultimately be successful in this dispute, or whether or when we will receive any or all of the amounts in dispute from Ark Land under our royalty pass-through agreement.

119

### CONFLICTS OF INTEREST AND FIDUCIARY RESPONSIBILITIES

#### CONFLICTS OF INTEREST

Conflicts of interest exist and may arise in the future as a result of the relationships between our general partner and its affiliates (including the WPP Group and Arch Coal) on the one hand, and our partnership and our limited partners, on the other hand. The directors and officers of GP Natural Resource Partners LLC have fiduciary duties to manage GP Natural Resource Partners LLC and our general partner in a manner beneficial to its owners. At the same time, our general partner has a fiduciary duty to manage our partnership in a manner beneficial to us and our unitholders.

Whenever a conflict arises between our general partner or its affiliates, on the one hand, and our partnership or any other partner, on the other, our general partner will resolve that conflict. Our general partner may, but is not required to, seek the approval of the conflicts committee of the board of directors of our general partner of such resolution. The partnership agreement contains provisions that allow our general partner to take into account the interests of other parties in addition to our interests when resolving conflicts of interest. In effect, these provisions limit our general partner's fiduciary duties to our unitholders. The partnership agreement also restricts the remedies available to unitholders for actions taken by our general partner that might, without those limitations, constitute breaches of fiduciary duty.

Our general partner will not be in breach of its obligations under the partnership agreement or its duties to us or our unitholders if the resolution of the conflict is considered to be fair and reasonable to us. Any resolution is considered to be fair and reasonable to us if that resolution is:

- approved by the conflicts committee, although our general partner is not obligated to seek such approval and our general partner may adopt a resolution or course of action that has not received approval;
- on terms no less favorable to us than those generally being provided to or available from unrelated third parties; or
- fair to us, taking into account the totality of the relationships between

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

the parties involved, including other transactions that may be particularly favorable or advantageous to us.

In resolving a conflict, our general partner, including its conflicts committee, may, unless the resolution is specifically provided for in the partnership agreement, consider:

- the relative interests of any party to such conflict and the benefits and burdens relating to such interest;
- any customary or accepted industry practices or historical dealings with a particular person or entity;
- generally accepted accounting practices or principles; and
- such additional factors it determines in its sole discretion to be relevant, reasonable or appropriate under the circumstances.

Conflicts of interest could arise in the situations described below, among others.

ACTIONS TAKEN BY OUR GENERAL PARTNER MAY AFFECT THE AMOUNT OF CASH AVAILABLE FOR DISTRIBUTION TO UNITHOLDERS OR ACCELERATE THE RIGHT TO CONVERT SUBORDINATED UNITS.

The amount of cash that is available for distribution to unitholders is affected by decisions of our general partner regarding such matters as:

- amount and timing of asset purchases and sales;
- cash expenditures;
- borrowings;

120

- the issuance of additional units; and
- the creation, reduction or increase of reserves in any quarter.

In addition, borrowings by us and our affiliates do not constitute a breach of any duty owed by our general partner to the unitholders, including borrowings that have the purpose or effect of:

- enabling our general partner to receive distributions on any subordinated units held by our general partner or the incentive distribution rights; or
- hastening the expiration of the subordination period.

For example, in the event we have not generated sufficient cash from our operations to pay the minimum quarterly distribution on our common units and subordinated units, our partnership agreement permits us to borrow funds which may enable us to make this distribution on all outstanding units. Please read "Cash Distribution Policy -- Subordination Period."

The partnership agreement provides that we and our subsidiaries may borrow funds from our general partner and its affiliates. Our general partner and its affiliates may not borrow funds from us or our subsidiaries.

WE DO NOT HAVE ANY OFFICERS OR EMPLOYEES AND RELY SOLELY ON OFFICERS AND EMPLOYEES OF GP NATURAL RESOURCE PARTNERS LLC AND ITS AFFILIATES.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

We will not have any officers or employees and will rely solely on officers and employees of GP Natural Resource Partners LLC, its affiliates and the employees of our subsidiaries. Affiliates of GP Natural Resource Partners LLC will conduct businesses and activities of their own in which we will have no economic interest. If these separate activities are significantly greater than our activities, there could be material competition for the time and effort of the officers and employees who provide services to our general partner. The officers of GP Natural Resource Partners LLC will not be required to work full time on our affairs. These officers will devote significant time to the affairs of the WPP Group or its affiliates and will be compensated by these affiliates for the services rendered to them.

WE WILL REIMBURSE OUR GENERAL PARTNER AND ITS AFFILIATES FOR EXPENSES.

We will reimburse our general partner and its affiliates for costs incurred in managing and operating us, including costs incurred in rendering corporate staff and support services to us. The partnership agreement provides that our general partner will determine the expenses that are allocable to us in any reasonable manner determined by our general partner in its sole discretion.

OUR GENERAL PARTNER INTENDS TO LIMIT ITS LIABILITY REGARDING OUR OBLIGATIONS.

Our general partner intends to limit its liability under contractual arrangements so that the other party has recourse only to our assets, and not against our general partner or its assets. The partnership agreement provides that any action taken by our general partner to limit its liability or our liability is not a breach of our general partner's fiduciary duties, even if we could have obtained more favorable terms without the limitation on liability.

COMMON UNITHOLDERS WILL HAVE NO RIGHT TO ENFORCE OBLIGATIONS OF OUR GENERAL PARTNER AND ITS AFFILIATES UNDER AGREEMENTS WITH US.

Any agreements between us on the one hand, and our general partner and its affiliates, on the other, will not grant to the unitholders, separate and apart from us, the right to enforce the obligations of our general partner and its affiliates in our favor.

121

CONTRACTS BETWEEN US, ON THE ONE HAND, AND OUR GENERAL PARTNER AND ITS AFFILIATES, ON THE OTHER, WILL NOT BE THE RESULT OF ARM'S-LENGTH NEGOTIATIONS.

The partnership agreement allows our general partner to pay itself or its affiliates for any services rendered to us, provided these services are rendered on terms that are fair and reasonable. Our general partner may also enter into additional contractual arrangements with any of its affiliates on our behalf. Neither the partnership agreement nor any of the other agreements, contracts and arrangements between us, on the one hand, and our general partner and its affiliates, on the other, are or will be the result of arm's-length negotiations.

All of these transactions entered into after the sale of the common units offered in this offering are to be on terms that are fair and reasonable to us.

Our general partner and its affiliates will have no obligation to permit us to use any facilities or assets of our general partner and its affiliates, except as may be provided in contracts entered into specifically dealing with that use. There will not be any obligation of our general partner and its affiliates to enter into any contracts of this kind.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

COMMON UNITS ARE SUBJECT TO OUR GENERAL PARTNER'S LIMITED CALL RIGHT.

Our general partner may exercise its right to call and purchase common units as provided in the partnership agreement or assign this right to one of its affiliates or to us. Our general partner may use its own discretion, free of fiduciary duty restrictions, in determining whether to exercise this right. As a result, a common unitholder may have his common units purchased from him at an undesirable time or price. If we do not issue any equity securities prior to the expiration of the subordination period, upon the conversion of subordinated units into common units at the end of the subordination period, our general partner and its affiliates will own 80.2% of our outstanding common units and will be able to exercise this call right. For a description of this right, please read "The Partnership Agreement -- Limited Call Right."

WE MAY NOT CHOOSE TO RETAIN SEPARATE COUNSEL FOR OURSELVES OR FOR THE HOLDERS OF COMMON UNITS.

The attorneys, independent auditors and others who have performed services for us regarding the offering have been retained by our general partner, its affiliates and us and may continue to be retained by our general partner, its affiliates and us after the offering. Attorneys, independent auditors and others who will perform services for us in the future will be selected by our general partner or the conflicts committee and may also perform services for our general partner and its affiliates. We may retain separate counsel for ourselves or the holders of common units in the event of a conflict of interest arising between our general partner and its affiliates, on the one hand, and us or the holders of common units, on the other, after the sale of the common units offered in this prospectus, depending on the nature of the conflict. We do not intend to do so in most cases. Delaware case law has not definitively established the limits on the ability of a partnership agreement to restrict such fiduciary duties.

OUR GENERAL PARTNER'S AFFILIATES MAY COMPETE WITH US.

The partnership agreement provides that our general partner will be restricted from engaging in any business activities other than those incidental to its ownership of interests in us. Except as provided in our partnership agreement and in the omnibus agreement, affiliates of our general partner will not be prohibited from engaging in activities in which they compete directly with us. Please read "Certain Relationships and Related Transactions -- Omnibus Agreement."

### FIDUCIARY RESPONSIBILITIES

Our general partner is accountable to us and our unitholders as a fiduciary. Fiduciary duties owed to unitholders by our general partner are prescribed by law and the partnership agreement. The Delaware Revised Uniform Limited Partnership Act, which we refer to in this prospectus as the Delaware Act,

122

provides that Delaware limited partnerships may, in their partnership agreements, restrict or expand the fiduciary duties owed by a general partner to limited partners and the partnership.

In order to induce our general partner to manage our business, the partnership agreement contains various provisions restricting the fiduciary duties that might otherwise be owed by our general partner. We have adopted these restrictions to allow our general partner to take into account the interests of parties in addition to our interests when resolving conflicts of interest. We believe this is appropriate and necessary because GP Natural

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Resource Partners LLC's directors have fiduciary duties to manage our general partner in a manner beneficial both to its owners as well as to you. Without these modifications, the general partner's ability to make decisions involving conflicts of interest would be restricted. The modifications to the fiduciary standards benefit the general partner by enabling it to take into consideration all parties involved in the proposed action, so long as the resolution is fair and reasonable to us as described above. These modifications represent a detriment to the common unitholders because they restrict the remedies available to unitholders for actions that, without those limitations, might constitute breaches of fiduciary duty, as described below. The following is a summary of the material restrictions of the fiduciary duties owed by our general partner to the limited partners:

### State-law fiduciary duty

standards.....

Fiduciary duties are generally considered to include an obligation to act with due care and loyalty. The duty of care, in the absence of a provision in a partnership agreement providing otherwise, would generally require a general partner to act for the partnership in the same manner as a prudent person would act on his own behalf. The duty of loyalty, in the absence of a provision in a partnership agreement providing otherwise, would generally prohibit a general partner of a Delaware limited partnership from taking any action or engaging in any transaction where a conflict of interest is present.

The Delaware Act generally provides that a limited partner may institute legal action on behalf of the limited partnership to recover damages from a third party where a general partner has refused to institute the action or where an effort to cause a general partner to do so is not likely to succeed. In addition, the statutory or case law of some jurisdictions may permit a limited partner to institute legal action on behalf of himself and all other similarly situated limited partners to recover damages from a general partner for violations of its fiduciary duties to the limited partners.

### Partnership agreement modified

standards.....

The partnership agreement contains provisions that waive or consent to conduct by our general partner and its affiliates that might otherwise raise issues as to compliance with fiduciary duties or applicable law. For example, the partnership agreement permits our general partner to make a number of decisions in its "sole discretion." This entitles our general partner to consider only the interests and factors that it desires and it has no duty or obligation to give any consideration to any interest of, or factors affecting, us, our affiliates or any limited partner. Other provisions of the partnership agreement provide that our general partner's actions must be made in its reasonable discretion. These standards reduce the obligations to which our general

partner would otherwise be held.

123

The partnership agreement generally provides that affiliated transactions and resolutions of conflicts of interest not involving a required vote of unitholders must be "fair and reasonable" to us under the factors previously set forth. In determining whether a transaction or resolution is "fair and reasonable" our general partner may consider the interests of all parties involved, including its own. Unless our general partner has acted in bad faith, the action taken by our general partner will not constitute a breach of its fiduciary duty. These standards reduce the obligations to which our general partner would otherwise be held.

In addition to the other more specific provisions limiting the obligations of our general partner, the partnership agreement further provides that our general partner and its officers and directors will not be liable for monetary damages to us, our limited partners or assignees for errors of judgment or for any acts or omissions if our general partner and those other persons acted in good faith.

Rights and remedies of  
unitholders.....

The Delaware Act generally provides that a limited partner may institute legal action on behalf of the partnership to recover damages from a third party where a general partner has refused to institute the action or where an effort to cause a general partner to do so is not likely to succeed. These actions could include actions against a general partner for breach of its fiduciary duties or of the partnership agreement. In addition, the statutory or case law of some jurisdictions may permit a limited partner to institute legal action on behalf of himself and all other similarly situated limited partners to recover damages from a general partner for violations of its fiduciary duties to the limited partners.

In order to become a limited partner of our partnership, a common unitholder is required to agree to be bound by the provisions in the partnership agreement, including the provisions discussed above. This is in accordance with the policy of the Delaware Act favoring the principle of freedom of contract and the enforceability of partnership agreements. The failure of a limited partner or assignee to sign a partnership agreement does not render the partnership agreement unenforceable against that person.

We are required to indemnify our general partner and its officers, directors, employees, affiliates, partners, members, agents and trustees, to the fullest extent permitted by law, against liabilities, costs and expenses incurred by our general partner or these other persons. This indemnification is

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

required if our general partner or any of these persons acted in good faith and in a manner they reasonably believed to be in, or (in the case of a person other than our general partner) not opposed to, our best interests. Indemnification is also required for criminal proceedings if our general partner or these other persons had no reasonable cause to believe their conduct was unlawful. Thus, our general partner could be indemnified for its negligent acts if it met these requirements concerning good faith and our best interests. To the extent that these provisions purport to include indemnification for liabilities arising under the Securities Act, in the opinion of the SEC, such indemnification is contrary to public policy and therefore unenforceable. If you have questions regarding the fiduciary duties of our general partner, you should consult with your own counsel. Please read "The Partnership Agreement -- Indemnification."

124

### SELLING UNITHOLDER

Arch Coal is selling 1,901,250 common units in the initial public offering. Arch Coal will sell an additional 285,187 common units if the underwriters exercise the over-allotment option in full. Please read "Security Ownership of Certain Beneficial Owners and Management."

125

### DESCRIPTION OF THE COMMON UNITS

#### THE UNITS

The common units and the subordinated units represent limited partner interests in us. The holders of units are entitled to participate in partnership distributions and exercise the rights or privileges available to limited partners under our partnership agreement. For a description of the relative rights and preferences of holders of common units and subordinated units in and to partnership distributions, please read this section, "Cash Distribution Policy" and "Description of Subordinated Units." For a description of the rights and privileges of limited partners under our partnership agreement, including voting rights, please read "The Partnership Agreement."

#### TRANSFER AGENT AND REGISTRAR

Duties. American Stock Transfer & Trust Company will serve as registrar and transfer agent for the common units. We will pay all fees charged by the transfer agent for transfers of common units except the following fees that will be paid by unitholders:

- surety bond premiums to replace lost or stolen certificates, taxes and other governmental charges;
- special charges for services requested by a holder of a common unit; and
- other similar fees or charges.

There will be no charge to holders for disbursements of our cash distributions. We will indemnify the transfer agent, its agents and each of their shareholders, directors, officers and employees against all claims and losses that may arise out of acts performed or omitted for its activities in that capacity, except for any liability due to any gross negligence or intentional misconduct of the indemnified person or entity.

Resignation or Removal. The transfer agent may at any time resign, by

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

notice to us, or be removed by us. The resignation or removal of the transfer agent will become effective upon our appointment of a successor transfer agent and registrar and its acceptance of the appointment. If no successor has been appointed and accepted the appointment within 30 days after notice of the resignation or removal, our general partner is authorized to act as the transfer agent and registrar until a successor is appointed.

### TRANSFER OF COMMON UNITS

The transfer of the common units to persons who purchase directly from the underwriters will be accomplished through the completion, execution and delivery of a transfer application by the investor. Any later transfers of a common unit will not be recorded by the transfer agent or recognized by us unless the transferee executes and delivers a transfer application. The form of transfer application is set forth as Appendix B to this prospectus and is also set forth on the reverse side of the certificates representing units. By executing and delivering a transfer application, the transferee of common units:

- becomes the record holder of the common units and is an assignee until admitted into our partnership as a substituted limited partner;
- automatically requests admission as a substituted limited partner in our partnership;
- agrees to be bound by the terms and conditions of, and is deemed to have executed, our partnership agreement;
- represents that the transferee has the capacity, power and authority to enter into the partnership agreement;
- grants powers of attorney to officers of the general partner and any liquidator of our partnership as specified in the partnership agreement; and
- makes the consents and waivers contained in the partnership agreement.

126

An assignee will become a substituted limited partner of our partnership for the transferred common units upon the consent of our general partner and the recording of the name of the assignee on our books and records. The general partner may withhold its consent in its sole discretion.

Transfer applications may be completed, executed and delivered by a transferee's broker, agent or nominee. We are entitled to treat the nominee holder of a common unit as the absolute owner. In that case, the beneficial holders' rights are limited solely to those that it has against the nominee holder as a result of any agreement between the beneficial owner and the nominee holder.

Common units are securities and are transferable according to the laws governing transfer of securities. In addition to other rights acquired upon transfer, the transferor gives the transferee the right to request admission as a substituted limited partner in our partnership for the transferred common units. A purchaser or transferee of common units who does not execute and deliver a transfer application obtains only:

- the right to assign the common unit to a purchaser or other transferee; and
- the right to transfer the right to seek admission as a substituted

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

limited partner in our partnership for the transferred common units.

Thus, a purchaser or transferee of common units who does not execute and deliver a transfer application:

- will not receive cash distributions or federal income tax allocations, unless the common units are held in a nominee or "street name" account and the nominee or broker has executed and delivered a transfer application; and
- may not receive some federal income tax information or reports furnished to record holders of common units.

The transferor of common units will have a duty to provide the transferee with all information that may be necessary to transfer the common units. The transferor will not have a duty to insure the execution of the transfer application by the transferee and will have no liability or responsibility if the transferee neglects or chooses not to execute and forward the transfer application to the transfer agent. Please read "The Partnership Agreement -- Status as Limited Partner or Assignee."

Until a common unit has been transferred on our books, we and the transfer agent, notwithstanding any notice to the contrary, may treat the record holder of the unit as the absolute owner for all purposes, except as otherwise required by law or stock exchange regulations.

127

### DESCRIPTION OF THE SUBORDINATED UNITS

The subordinated units are a separate class of limited partner interests in our partnership, and the rights of holders of subordinated units to participate in distributions to partners differ from, and are subordinated to, the rights of the holders of common units. For any given quarter, any available cash will first be distributed to our general partner and to the holders of common units, until the holders of common units have received the minimum quarterly distribution plus any arrearages, and then, to the extent there is available cash remaining, will be distributed to the holders of subordinated units. Please read "Cash Distribution Policy."

### CONVERSION OF SUBORDINATED UNITS

The subordination period will generally extend from the closing of this offering until the first day of any quarter beginning after September 30, 2007 in which each of the following events occur:

- distributions of available cash from operating surplus on each of the outstanding common units and subordinated units equaled or exceeded the minimum quarterly distribution for each of the three consecutive, non-overlapping four-quarter periods immediately preceding that date;
- the adjusted operating surplus generated during each of the three consecutive, non-overlapping four-quarter periods immediately preceding that date equaled or exceeded the sum of the minimum quarterly distributions on all of the outstanding common units and subordinated units during those periods on a fully diluted basis and the related distribution on the 2% general partner interest during those periods; and
- there are no arrearages in payment of the minimum quarterly distribution on the common units.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Before the end of the subordination period, 25% of the subordinated units will convert early into common units on a one-for-one basis immediately after the distribution of available cash to the partners in respect of any quarter ending on or after September 30, 2005 and 25% of the subordinated units will convert early into common units on a one-for-one basis immediately after the distribution of available cash to the partners in respect of any quarter ending on or after September 30, 2006 if at the end of the applicable quarter each of the following three events occurs:

- distributions of available cash from operating surplus on each of the outstanding common units and subordinated units equaled or exceeded the minimum quarterly distribution for each of the three consecutive, non-overlapping four-quarter periods immediately preceding that date;
- the adjusted operating surplus generated during each of the three consecutive, non-overlapping four-quarter periods immediately preceding that date equaled or exceeded the sum of the minimum quarterly distributions on all of the outstanding common units and subordinated units during those periods on a fully diluted basis and the related distribution on the 2% general partner interest during those periods; and
- there are no arrearages in payment of the minimum quarterly distribution on the common units.

provided, however, that the early conversion of the second 25% of the subordinated units may not occur until at least one year following the early conversion of the first 25% of the subordinated units.

Upon expiration of the subordination period, all remaining subordinated units will convert into common units on a one-for-one basis and will then participate, pro rata, with the other common units in distributions of available cash. In addition, if NRP (GP) LP is removed as our general partner under circumstances where cause does not exist and units held by the general partner and its affiliates are not voted in favor of that removal:

- the subordination period will end and each outstanding subordinated unit will immediately convert into one common unit;

128

- any existing arrearages in payment of the minimum quarterly distribution on the common units will be extinguished; and
- our general partner will have the right to convert its general partner interest and its incentive distribution rights into common units or to receive cash in exchange for those interests.

### LIMITED VOTING RIGHTS

Holders of subordinated units will sometimes vote as a single class together with the holders of common units and sometimes vote as a class separate from the holders of common units and, as in the case of holders of common units, will have very limited voting rights. During the subordination period, common units and subordinated units each vote separately as a class on the following matters:

- a sale or exchange of all or substantially all of our assets;
- the election of a successor general partner in connection with the removal of our general partner;

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

- a dissolution or reconstitution of our partnership;
- a merger of our partnership;
- issuance of limited partner interests in some circumstances; and
- some amendments to the partnership agreement, including any amendment that would cause us to be treated as an association taxable as a corporation.

The subordinated units are not entitled to vote on approval of the withdrawal of our general partner or the transfer by our general partner of its general partner interest or incentive distribution rights under some circumstances. Removal of our general partner requires:

- the affirmative vote of 66 2/3% of all outstanding units voting as a single class; and
- the election of a successor general partner by the holders of a majority of the outstanding common units and subordinated units, voting as separate classes.

Under the partnership agreement, our general partner generally will be permitted to effect amendments to the partnership agreement that do not materially and adversely affect unitholders without the approval of any unitholders.

### DISTRIBUTIONS UPON LIQUIDATION

If we liquidate during the subordination period, in some circumstances holders of outstanding common units will be entitled to receive more per unit in liquidating distributions than holders of outstanding subordinated units. The per-unit difference will be dependent upon the amount of gain or loss recognized by us in liquidating our assets. Following conversion of the subordinated units into common units, all units will be treated the same upon liquidation of our partnership.

129

### THE PARTNERSHIP AGREEMENT

The following is a summary of the material provisions of our partnership agreement. The form of the partnership agreement is included in this prospectus as Appendix A. The form of limited liability company agreement of the operating company is included as an exhibit to the registration statement of which this prospectus constitutes a part. We will provide prospective investors with a copy of the forms of these agreements upon request at no charge.

We summarize the following provisions of our partnership agreement elsewhere in this prospectus:

- with regard to distributions of available cash, please read "Cash Distribution Policy."
- with regard to the transfer of common units, please read "Description of the Common Units -- Transfer of Common Units."
- with regard to allocations of taxable income and taxable loss, please read "Material Tax Consequences."

### ORGANIZATION

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Our partnership was formed on April 9, 2002 and will remain in existence until dissolved in accordance with our partnership agreement.

### PURPOSE

Our purpose under our partnership agreement is limited to serving as a member of the operating company and engaging in any business activities that may be engaged in by the operating company or its subsidiaries or that are approved by our general partner. The limited liability company agreement of the operating company provides that the operating company may, directly or indirectly, engage in:

- its operations as conducted immediately before our initial public offering;
- any other activity approved by our general partner but only to the extent that our general partner reasonably determines that, as of the date of the acquisition or commencement of the activity, the activity generates "qualifying income" as this term is defined in Section 7704 of the Internal Revenue Code; or
- any activity that enhances the operations of an activity that is described in either of the preceding two clauses.

Notwithstanding the foregoing, our general partner does not have the authority to cause us to engage, directly or indirectly, in any business activity that it reasonably determines would cause us to be treated as an association taxable as a corporation or otherwise taxable as an entity for federal income tax purposes.

Although our general partner has the ability to cause us and the operating company or its subsidiaries to engage in activities other than the ownership of coal and mineral reserves and the leasing of those reserves to mine operators in exchange for royalties from the sale of coal or other minerals mined from our reserves, our general partner has no current plans to do so. Our general partner is authorized in general to perform all acts deemed necessary to carry out our purposes and to conduct our business.

### POWER OF ATTORNEY

Each limited partner and each person who acquires a unit from a unitholder and executes and delivers a transfer application grants to our general partner (and, if appointed, a liquidator), a power of attorney to, among other things, execute and file documents required for our qualification, continuance or dissolution. The power of attorney also grants our general partner the authority to amend, and to make consents and waivers under, and in accordance with, our partnership agreement.

130

### CAPITAL CONTRIBUTIONS

Unitholders are not obligated to make additional capital contributions, except as described below under "-- Limited Liability."

### LIMITED LIABILITY

Participation in the Control of Our Partnership. Assuming that a limited partner does not participate in the control of our business within the meaning of the Delaware Act and that it otherwise acts in conformity with the provisions of our partnership agreement, its liability under the Delaware Act will be

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

limited, subject to possible exceptions, to the amount of capital it is obligated to contribute to us for its common units plus his share of any undistributed profits and assets. If it were determined, however, that the right or exercise of the right by the limited partners as a group:

- to remove or replace the general partner;
- to approve some amendments to our partnership agreement; or
- to take other action under our partnership agreement;

constituted "participation in the control" of our business for the purposes of the Delaware Act, then the limited partners could be held personally liable for our obligations under Delaware law to the same extent as the general partner. This liability would extend to persons who transact business with us and who reasonably believe that the limited partner is a general partner. Neither our partnership agreement nor the Delaware Act specifically provides for legal recourse against our general partner if a limited partner were to lose limited liability through any fault of the general partner. While this does not mean that a limited partner could not seek legal recourse, we have found no precedent for this type of a claim in Delaware case law.

**Unlawful Partnership Distributions.** Under the Delaware Act, a limited partnership may not make a distribution to a partner if, after the distribution, all liabilities of the limited partnership, other than liabilities to partners on account of their partnership interests and liabilities for which the recourse of creditors is limited to specific property of the partnership, would exceed the fair value of the assets of the limited partnership. For the purpose of determining the fair value of the assets of a limited partnership, the Delaware Act provides that the fair value of property subject to liability for which recourse of creditors is limited shall be included in the assets of the limited partnership only to the extent that the fair value of that property exceeds the nonrecourse liability. The Delaware Act provides that a limited partner who receives a distribution and knew at the time of the distribution that the distribution was in violation of the Delaware Act shall be liable to the limited partnership for the amount of the distribution for three years. Under the Delaware Act, an assignee who becomes a substituted limited partner of a limited partnership is liable for the obligations of his assignor to make contributions to the partnership, except the assignee is not obligated for liabilities unknown to him at the time he became a limited partner and that could not be ascertained from the partnership agreement.

**Failure to Comply with the Limited Liability Provisions of Jurisdictions in Which We Do Business.** Our subsidiaries will initially conduct business in eight states. Maintenance of limited liability for Natural Resource Partners, as the sole member of the operating company, may require compliance with legal requirements in the jurisdictions in which the operating company conducts business, including qualifying our subsidiaries to do business there. Limitations on the liability of members for the obligations of a limited liability company have not been clearly established in many jurisdictions. If it were determined that we were, by virtue of our member interest in the operating company or otherwise, conducting business in any state without compliance with the applicable limited partnership or limited liability company statute, or that the right or exercise of the right by the limited partners as a group to remove or replace our general partner, to approve some amendments to our partnership agreement, or to take other action under our partnership agreement constituted "participation in the control" of our business for purposes of the statutes of any relevant jurisdiction, then the limited partners could be held personally liable for our obligations under the law of that jurisdiction to the same extent as the general partner under the

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

circumstances. We will operate in a manner that our general partner considers reasonable and necessary or appropriate to preserve the limited liability of the limited partners.

### VOTING RIGHTS

The following matters require the unitholder vote specified below:

Issuance of additional common units or units of equal rank with the common units during the subordination period.....	Unit majority, with certain exceptions described under "-- Issuance of Additional Securities."
Issuance of units senior to the common units during the subordination period.....	Unit majority.
Issuance of units junior to the common units during the subordination period.....	No approval right.
Issuance of additional units after the subordination period.....	No approval right.
Amendment of the partnership agreement.....	Certain amendments may be made by the general partner without the approval of the unitholders. Other amendments generally require the approval of a unit majority. Please read "-- Amendment of the Partnership Agreement."
Merger of our partnership or the sale of all or substantially all of our assets.....	Unit majority. Please read "-- Merger, Sale or Other Disposition of Assets."
Amendment of the limited liability company agreement and other action taken by us as sole member of the operating company.....	Unit majority if such amendment or other action would adversely affect our limited partners (or any particular class of limited partners) in any material respect. Please read "-- Action Relating to Operating Company."
Dissolution of our partnership.....	Unit majority. Please read "-- Termination and Dissolution."
Reconstitution of our partnership upon dissolution.....	Unit majority.
Withdrawal of the general partner.....	The approval of a majority of the common units, excluding common units held by the general

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

partners and its affiliates, is required for the withdrawal of the general partner prior to September 30, 2012 to prevent the withdrawal from being deemed a breach of our partnership agreement. Please read "-- Withdrawal or Removal of the General Partner."

Removal of the general partner..... Not less than 66 2/3% of the outstanding units, including units held by our general partner and its affiliates. Please read "-- Withdrawal or Removal of the General Partner."

Transfer of the general partner interest..... The general partner may transfer its general partner interest without a vote of our unitholders to an affiliate (other than an

132

individual) or in connection with the general partner's merger or consolidation with or into, or sale of all or substantially all of its assets to another person (other than an individual). The approval of a majority of the common units, excluding common units held by the general partner and its affiliates, is required in other circumstances for a transfer of the general partner interest to a third party prior to September 30, 2012. Please read "-- Transfer of General Partner Interest."

Transfer of incentive distribution rights..... Except for transfers to an affiliate (other than an individual) or another person (other than an individual) as part of the general partner's merger or consolidation with or into, or sale of all or substantially all of its assets to such person, the approval of a majority of the common units, excluding common units held by the general partner and its affiliates, is required in most circumstances for a transfer of the incentive distribution rights to a third party prior to September 30, 2012. Please read "-- Transfer of Incentive Distribution Rights."

Transfer of ownership interests in the general partner..... No approval required at any time. Please read "-- Transfer of Ownership Interests in the General Partner."

Matters requiring the approval of a "unit majority" require:

- during the subordination period, the approval of a majority of the common units, excluding those common units held by our general partner and its affiliates, and a majority of the subordinated units, voting as separate classes; and
- after the subordination period, the approval of a majority of the common

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

units.

### ISSUANCE OF ADDITIONAL SECURITIES

Our partnership agreement authorizes us to issue an unlimited number of additional partnership securities and rights to buy partnership securities for the consideration and on the terms and conditions established by our general partner in its sole discretion without the approval of any limited partners. During the subordination period, however, except as we discuss in the following paragraph, we may not issue equity securities ranking senior to the common units or an aggregate of more than 5,676,829 additional common units or units on a parity with the common units, in each case, without the approval of a unit majority.

During the subordination period or thereafter, we may issue an unlimited number of common units without the approval of the unitholders as follows:

- upon exercise of the underwriters' overallotment option;
- upon conversion of the subordinated units;
- under employee benefit plans;
- upon conversion of the general partner interest and incentive distribution rights as a result of a withdrawal of our general partner;
- upon conversion of units of equal rank with the common units into common units under some circumstances;
- in the event of a combination or subdivision of common units;

133

- in connection with an acquisition or a capital improvement that the general partner determines would increase cash flow from operations per unit on a pro forma basis; or
- if the proceeds of the issuance are used exclusively to repay up to \$25.0 million of our indebtedness.

During the subordination period, we may also issue, without unitholder approval, an unlimited number of partnership securities that are similar to subordinated units because such units are not entitled, during the subordination period, to receive distributions of available cash from operating surplus until after the common units and parity units have been paid the minimum quarterly distribution and any arrearages.

It is possible that we will fund acquisitions through the issuance of additional common units or other equity securities. Holders of any additional common units we issue will be entitled to share equally with the then-existing holders of common units in our distributions of available cash. In addition, the issuance of additional partnership common units or other equity securities may dilute the value of the interests of the then-existing holders of common units in our net assets.

In accordance with Delaware law and the provisions of our partnership agreement, we may also issue additional partnership securities that, in the sole discretion of our general partner, may have special voting rights to which the common units are not entitled.

Upon issuance of additional partnership securities, other than upon

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

exercise of the underwriters' over-allotment option, our general partner will be required to make additional capital contributions to the extent necessary to maintain its 2% general partner interest in us. Moreover, our general partner will have the right, which it may from time to time assign in whole or in part to any of its affiliates, to purchase common units, subordinated units or other equity securities whenever, and on the same terms that, we issue those securities to persons other than our general partner and its affiliates, to the extent necessary to maintain the percentage interest of the general partner and its affiliates, including such interest represented by common units and subordinated units, that existed immediately prior to each issuance. The holders of common units will not have preemptive rights to acquire additional common units or other partnership securities.

### AMENDMENT OF THE PARTNERSHIP AGREEMENT

General. Amendments to our partnership agreement may be proposed only by or with the consent of our general partner, which consent may be given or withheld in its sole discretion. In order to adopt a proposed amendment, other than the amendments discussed below, our general partner is required to seek written approval of the holders of the number of units required to approve the amendment or call a meeting of the limited partners to consider and vote upon the proposed amendment. Except as described below, an amendment must be approved by a unit majority.

Prohibited Amendments. No amendment may be made that would:

- enlarge the obligations of any limited partner without its consent, unless approved by at least a majority of the type or class of limited partner interests so affected;
- enlarge the obligations of, restrict in any way any action by or rights of, or reduce in any way the amounts distributable, reimbursable or otherwise payable by us to our general partner or any of its affiliates without the consent of our general partner, which may be given or withheld in its sole discretion;
- change the duration of our partnership;
- provide that we are not dissolved upon an election to dissolve our partnership by our general partner that is approved by a unit majority; or
- give any person the right to dissolve our partnership other than our general partner's right to dissolve our partnership with the approval of a unit majority.

134

The provision of our partnership agreement preventing the amendments having the effects described in any of the clauses above can be amended upon the approval of the holders of at least 90% of the outstanding units, voting together as a single class (including units owned by the general partner and its affiliates). Upon completion of the offering, our general partner and its affiliates will own approximately 80.2% of the outstanding units.

No Unitholder Approval. Our general partner may generally make amendments to our partnership agreement without the approval of any limited partner or assignee to reflect:

- a change in our name, the location of our principal place of our business, our registered agent or our registered office;

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

- the admission, substitution, withdrawal or removal of partners in accordance with our partnership agreement;
- a change that, in the sole discretion of our general partner, is necessary or advisable for us to qualify or continue our qualification as a limited partnership or a partnership in which the limited partners have limited liability under the laws of any state or to ensure that neither we, the operating company nor any of its subsidiaries will be treated as an association taxable as a corporation or otherwise taxed as an entity for federal income tax purposes;
- an amendment that is necessary, in the opinion of our counsel, to prevent us or our general partner or its directors, officers, agents or trustees from in any manner being subjected to the provisions of the Investment Company Act of 1940, the Investment Advisors Act of 1940, or "plan asset" regulations adopted under the Employee Retirement Income Security Act of 1974, or ERISA, whether or not substantially similar to plan asset regulations currently applied or proposed;
- subject to the limitations on the issuance of additional partnership securities described above, an amendment that in the discretion of our general partner is necessary or advisable for the authorization of additional partnership securities or rights to acquire partnership securities;
- any amendment expressly permitted in our partnership agreement to be made by our general partner acting alone;
- an amendment effected, necessitated or contemplated by a merger agreement that has been approved under the terms of our partnership agreement;
- any amendment that, in the discretion of our general partner, is necessary or advisable for the formation by us of, or our investment in, any corporation, partnership or other entity, as otherwise permitted by our partnership agreement;
- a change in our fiscal year or taxable year and related changes;
- a merger, conversion or conveyance effected in accordance with the partnership agreement; and
- any other amendments substantially similar to any of the matters described in the clauses above.

In addition, our general partner may make amendments to our partnership agreement without the approval of any limited partner or assignee if those amendments, in the discretion of our general partner:

- do not adversely affect the limited partners (including any particular class of limited partners as compared to other classes of limited partners) in any material respect;
- are necessary or advisable to satisfy any requirements, conditions or guidelines contained in any opinion, directive, order, ruling or regulation of any federal or state agency or judicial authority or contained in any federal or state statute;
- are necessary or advisable to facilitate the trading of limited partner interests or to comply with any rule, regulation, guideline or requirement of any securities exchange on which the limited partner interests are or will be listed for trading, compliance with any of which

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

our general partner deems to be in the best interests of us and our limited partners;

135

- are necessary or advisable for any action taken by our general partner relating to splits or combinations of units under the provisions of our partnership agreement; or
- are required to effect the intent expressed in this prospectus or the intent of the provisions of our partnership agreement or are otherwise contemplated by our partnership agreement.

Opinion of Counsel and Unitholder Approval. Our general partner will not be required to obtain an opinion of counsel that an amendment will not result in a loss of limited liability to the limited partners or result in our being treated as an entity for federal income tax purposes if one of the amendments described above under "-- No Unitholder Approval" should occur. No other amendments to our partnership agreement will become effective without the approval of holders of at least 90% of the units unless we obtain an opinion of counsel to the effect that the amendment will not affect the limited liability under applicable law of any limited partner in our partnership.

Any amendment that would have a material adverse effect on the rights or preferences of any type or class of outstanding units in relation to other classes of units will require the approval of at least a majority of the type or class of units so affected. Any amendment that reduces the voting percentage required to take any action is required to be approved by the affirmative vote of limited partners whose aggregate outstanding units constitute not less than the voting requirement sought to be reduced.

### ACTIONS RELATING TO OPERATING COMPANY

Without the approval of a unit majority, our general partner is prohibited from consenting on our behalf as the sole member of the operating company to any amendment to the limited liability company agreement of our operating company or taking any action on our behalf permitted to be taken by a member of our operating company, in each case that would adversely affect our limited partners (or any particular class of limited partners as compared to other classes of limited partners) in any material respect.

### MERGER, SALE OR OTHER DISPOSITION OF ASSETS

Our general partner is generally prohibited, without the prior approval of the holders of a unit majority, from causing us to, among other things, sell, exchange or otherwise dispose of all or substantially all of our assets in a single transaction or a series of related transactions, including by way of merger, consolidation or other combination, or approving on our behalf the sale, exchange or other disposition of all or substantially all of the assets of our subsidiaries; provided that our general partner may mortgage, pledge, hypothecate or grant a security interest in all or substantially all of our assets without that approval. Our general partner may also sell all or substantially all of our assets under a foreclosure or other realization upon the encumbrances above without that approval.

If the conditions specified in the partnership agreement are satisfied, our general partner may merge our partnership or any of its subsidiaries into, or convey all of our assets to, a newly formed entity if the sole purpose of that merger or conveyance is to effect a mere change in our legal form into another limited liability entity. The unitholders are not entitled to dissenters' rights of appraisal under the partnership agreement or applicable Delaware law in the event of a merger or consolidation, a sale of all or substantially all of our

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

assets or any other transaction or event.

### TERMINATION AND DISSOLUTION

We will continue as a limited partnership until terminated under our partnership agreement. We will dissolve upon:

- the election of our general partner to dissolve us, if approved by the holders of a unit majority;
- the sale, exchange or other disposition of all or substantially all of the assets and properties of our partnership and the subsidiaries;

136

- the entry of a decree of judicial dissolution of our partnership; or
- the withdrawal or removal of our general partner or any other event that results in its ceasing to be our general partner other than by reason of a transfer of its general partner interest in accordance with our partnership agreement or withdrawal or removal following approval and admission of a successor.

Upon a dissolution under the last clause above, a unit majority may also elect, within specific time limitations, to reconstitute our partnership and continue its business on the same terms and conditions described in our partnership agreement by forming a new limited partnership on terms identical to those in our partnership agreement and having as general partner an entity approved by a unit majority, subject to our receipt of an opinion of counsel to the effect that:

- the action would not result in the loss of limited liability of any limited partner; and
- neither our partnership, the reconstituted limited partnership, our operating company nor any of our other subsidiaries would be treated as an association taxable as a corporation or otherwise be taxable as an entity for federal income tax purposes upon the exercise of that right to continue.

### LIQUIDATION AND DISTRIBUTION OF PROCEEDS

Upon our dissolution, unless we are reconstituted and continued as a new limited partnership, the liquidator authorized to wind up our affairs will, acting with all of the powers of our general partner that the liquidator deems necessary or desirable in its judgment, liquidate our assets and apply the proceeds of the liquidation as provided in "Cash Distribution Policy -- Distributions of Cash upon Liquidation." The liquidator may defer liquidation or distribution of our assets for a reasonable period of time or distribute assets to partners in kind if it determines that a sale would be impractical or would cause undue loss to our partners.

### WITHDRAWAL OR REMOVAL OF THE GENERAL PARTNER

Except as described below, our general partner has agreed not to withdraw voluntarily as general partner of our partnership prior to September 30, 2012 without obtaining the approval of the holders of at least a majority of the outstanding common units, excluding common units held by the general partner and its affiliates, and furnishing an opinion of counsel regarding limited liability and tax matters. On or after September 30, 2012, our general partner may withdraw as general partner without first obtaining approval of any unitholder

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

by giving 90 days' written notice, and that withdrawal will not constitute a violation of our partnership agreement. Notwithstanding the information above, our general partner may withdraw without unitholder approval upon 90 days' notice to the limited partners if at least 50% of the outstanding common units are held or controlled by one person and its affiliates other than our general partner and its affiliates. In addition, our partnership agreement permits our general partner in some instances to sell or otherwise transfer all of its general partner interests in our partnership without the approval of the unitholders. See "-- Transfer of General Partner Interest."

Upon the withdrawal of our general partner under any circumstances, other than as a result of a transfer by our general partner of all or a part of its general partner interest in us, the holders of a majority of the outstanding common units and subordinated units, voting as separate classes, may select a successor to that withdrawing general partner. If a successor is not elected, or is elected but an opinion of counsel regarding limited liability and tax matters cannot be obtained, we will be dissolved, wound up and liquidated, unless within 180 days after that withdrawal, the holders of a majority of the outstanding common units and subordinated units, voting as separate classes, agree in writing to continue the business of Natural Resource Partners and to appoint a successor general partner. See "-- Termination and Dissolution."

Our general partner may not be removed unless that removal is approved by the vote of the holders of not less than 66 2/3% of the outstanding units, voting together as a single class, including units held by our

137

general partner and its affiliates, and we receive an opinion of counsel regarding limited liability and tax matters. Any removal of our general partner is also subject to the approval of a successor general partner by the vote of the holders of a majority of the outstanding common units and subordinated units, voting as separate classes. The ownership of more than 33 1/3% of the outstanding units by our general partner and its affiliates would give them the practical ability to prevent our general partner's removal. At the closing of this offering, affiliates of our general partner will own 80.2% of the outstanding units.

Our partnership agreement also provides that if NRP (GP) LP is removed as our general partner under circumstances where cause does not exist and units held by the general partner and its affiliates are not voted in favor of that removal:

- the subordination period will end and each outstanding subordinated unit will immediately and automatically convert into one common unit;
- any existing arrearages in payment of the minimum quarterly distribution on the common units will be extinguished; and
- the general partner will have the right to convert its general partner interest and its incentive distribution rights into common units or to receive cash in exchange for those interests based on the fair market value of those interests at the time.

In the event of removal of a general partner under circumstances where cause exists or withdrawal of a general partner where that withdrawal violates our partnership agreement, a successor general partner will have the option to purchase the general partner interest and incentive distribution rights of the departing general partner for a cash payment equal to the fair market value of those interests. Under all other circumstances where a general partner withdraws or is removed by the limited partners, the departing general partner will have

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

the option to require the successor general partner to purchase the general partner interest of the departing general partner and its incentive distribution rights for fair market value. In each case, this fair market value will be determined by agreement between the departing general partner and the successor general partner. If no agreement is reached, an independent investment banking firm or other independent expert selected by the departing general partner and the successor general partner will determine the fair market value. Or, if the departing general partner and the successor general partner cannot agree upon an expert, then an expert chosen by agreement of the experts selected by each of them will determine the fair market value.

If the above-described options are not exercised by either the departing general partner or the successor general partner, the departing general partner's general partner interest and its incentive distribution rights will automatically convert into common units equal to the fair market value of those interests as determined by an investment banking firm or other independent expert selected in the manner described in the preceding paragraph.

In addition, we will be required to reimburse the departing general partner for all amounts due to the departing general partner, including, without limitation, all employee-related liabilities, including severance liabilities, incurred for the termination of any employees employed by the departing general partner or its affiliates for our benefit.

### TRANSFER OF GENERAL PARTNER INTEREST

Except for transfer by our general partner of all, but not less than all, of its general partner interest in our partnership to:

- an affiliate of our general partner (other than an individual); or
- another entity as part of the merger or consolidation of our general partner with or into another entity or the transfer by our general partner of all or substantially all of its assets to another entity,

138

our general partner may not transfer all or any part of its general partner interest in our partnership to another person prior to September 30, 2012 without the approval of the holders of at least a majority of the outstanding common units, excluding common units held by our general partner and its affiliates. As a condition of this transfer, the transferee must, among other things, assume the rights and duties of our general partner, agree to be bound by the provisions of the partnership agreement, and furnish an opinion of counsel regarding limited liability and tax matters. Our general partner and its affiliates may at any time, however, transfer units to one or more persons without unitholder approval, except that they may not transfer subordinated units to us.

### TRANSFER OF INCENTIVE DISTRIBUTION RIGHTS

The WPP Group and Arch Coal may freely transfer their incentive distribution rights at any time. Our general partner or a later holder of the general partner's incentive distribution rights may transfer its incentive distribution rights to an affiliate of the holder (other than an individual) or to another entity as part of the merger or consolidation of such holder with or into such other entity or the transfer by such holder or its affiliates, of all or substantially all of its assets to another entity, without the prior approval of the unitholders; provided that the transferee agrees to be bound by the provisions of the partnership agreement. Prior to September 30, 2012, other transfers of incentive distribution rights will require the affirmative vote of

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

holders of a majority of the outstanding common units, excluding common units held by the general partner or its affiliates. On or after September 30, 2012, all of the incentive distribution rights will be freely transferable.

### TRANSFER OF OWNERSHIP INTERESTS IN THE GENERAL PARTNER

At any time, the partners of our general partner may sell or transfer all or part of their partnership interests in our general partner without the approval of the unitholders.

### CHANGE OF MANAGEMENT PROVISIONS

Our partnership agreement contains specific provisions that are intended to discourage a person or group from attempting to remove NRP (GP) LP as our general partner or otherwise change our management. If any person or group other than our general partner and its affiliates acquires beneficial ownership of 20% or more of any class of units, that person or group loses voting rights on all of its units. This loss of voting rights does not apply to any person or group that acquires the units from our general partner or its affiliates and any transferees of that person or group approved by our general partner or to any person or group who acquires the units with the prior approval of the board of directors of our general partner.

Our partnership agreement also provides that if our general partner is removed under circumstances where cause does not exist and units held by our general partner and its affiliates are not voted in favor of that removal:

- the subordination period will end and each outstanding subordinated unit will immediately and automatically convert into one common unit;
- any existing arrearages in payment of the minimum quarterly distribution on the common units will be extinguished; and
- our general partner will have the right to convert its general partner interest and its incentive distribution rights into common units or to receive cash in exchange for those interests.

### LIMITED CALL RIGHT

If at any time our general partner and its affiliates own more than 80% of the then-issued and outstanding limited partner interests of any class, our general partner will have the right, which it may assign in whole or in part to any of its affiliates or to us, to acquire all, but not less than all, of the remaining limited partner interests of the class held by unaffiliated persons as of a record date to be

139

selected by our general partner, on at least 10 but not more than 60 days' notice. If we do not issue any equity securities prior to the expiration of the subordination period, upon the conversion of subordinated units into common units at the end of the subordination period, our general partner and its affiliates will own 80.2% of our outstanding common units and will be able to exercise this call right. The purchase price in the event of this purchase is the greater of:

- the highest cash price paid by either of our general partner or any of its affiliates for any limited partner interests of the class purchased within the 90 days preceding the date on which our general partner first mails notice of its election to purchase those limited partner interests; and

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

- the current market price as of the date three days before the date the notice is mailed.

As a result of our general partner's right to purchase outstanding limited partner interests, a holder of limited partner interests may have his limited partner interests purchased at an undesirable time or price. The tax consequences to a unitholder of the exercise of this call right are the same as a sale by that unitholder of his common units in the market. See "Material Tax Consequences -- Disposition of Common Units."

### MEETINGS; VOTING

Except as described below regarding a person or group owning 20% or more of any class of units then outstanding, unitholders or assignees who are record holders of units on the record date will be entitled to notice of, and to vote at, meetings of our limited partners and to act upon matters for which approvals may be solicited. Common units that are owned by an assignee who is a record holder, but who has not yet been admitted as a limited partner, shall be voted by our general partner at the written direction of the record holder. Absent direction of this kind, the common units will not be voted, except that, in the case of common units held by our general partner on behalf of non-citizen assignees, our general partner shall distribute the votes on those common units in the same ratios as the votes of limited partners on other units are cast.

Our general partner does not anticipate that any meeting of unitholders will be called in the foreseeable future. Any action that is required or permitted to be taken by the unitholders may be taken either at a meeting of the unitholders or without a meeting if consents in writing describing the action so taken are signed by holders of the number of units as would be necessary to authorize or take that action at a meeting. Meetings of the unitholders may be called by our general partner or by unitholders owning at least 20% of the outstanding units of the class for which a meeting is proposed. Unitholders may vote either in person or by proxy at meetings. The holders of a majority of the outstanding units of the class or classes for which a meeting has been called represented in person or by proxy shall constitute a quorum unless any action by the unitholders requires approval by holders of a greater percentage of the units, in which case the quorum shall be the greater percentage.

Each record holder of a unit has a vote according to his percentage interest in us, although additional limited partner interests having special voting rights could be issued. See "-- Issuance of Additional Securities." However, if at any time any person or group, other than our general partner and its affiliates, or a direct or subsequently approved transferee of our general partner or its affiliates or a person or group who acquires the units with the prior approval of the board of directors, acquires, in the aggregate, beneficial ownership of 20% or more of any class of units then outstanding, the person or group will lose voting rights on all of its units and the units may not be voted on any matter and will not be considered to be outstanding when sending notices of a meeting of unitholders, calculating required votes, determining the presence of a quorum or for other similar purposes. Common units held in nominee or street name accounts will be voted by the broker or other nominee in accordance with the instruction of the beneficial owner unless the arrangement between the beneficial owner and its nominee provides otherwise. Except as otherwise provided in the partnership agreement, subordinated units will vote together with common units as a single class.

Any notice, demand, request, report or proxy material required or permitted to be given or made to record holders of common units under our partnership agreement will be delivered to the record holder by us or by the transfer agent.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

### STATUS AS LIMITED PARTNER OR ASSIGNEE

Except as described above under "-- Limited Liability," the common units will be fully paid, and unitholders will not be required to make additional contributions.

An assignee of a common unit, after executing and delivering a transfer application, but pending its admission as a substituted limited partner, is entitled to an interest equivalent to that of a limited partner for the right to share in allocations and distributions from us, including liquidating distributions. Our general partner will vote and exercise other powers attributable to common units owned by an assignee who has not become a substitute limited partner at the written direction of the assignee. See "-- Meetings; Voting." Transferees who do not execute and deliver a transfer application will be treated neither as assignees nor as record holders of common units, and will not receive cash distributions, federal income tax allocations or reports furnished to holders of common units. See "Description of the Common Units -- Transfer of Common Units."

### NON-CITIZEN ASSIGNEES; REDEMPTION

If we or any of our subsidiaries are or become subject to federal, state or local laws or regulations that, in the reasonable determination of our general partner, create a substantial risk of cancellation or forfeiture of any property that we have an interest in because of the nationality, citizenship or other related status of any limited partner or assignee, we may redeem, upon 30 days' advance notice, the units held by the limited partner or assignee at their current market price. In order to avoid any cancellation or forfeiture, our general partner may require each limited partner or assignee to furnish information about his nationality, citizenship or related status. If a limited partner or assignee fails to furnish information about his nationality, citizenship or other related status within 30 days after a request for the information or our general partner determines after receipt of the information that the limited partner or assignee is not an eligible citizen, the limited partner or assignee may be treated as a non-citizen assignee. In addition to other limitations on the rights of an assignee who is not a substituted limited partner, a non-citizen assignee does not have the right to direct the voting of his units and may not receive distributions in kind upon our liquidation.

### INDEMNIFICATION

Under our partnership agreement, in most circumstances, we will indemnify the following persons, to the fullest extent permitted by law, from and against all losses, claims, damages or similar events:

- our general partner;
- any departing general partner;
- any person who is or was an affiliate of a general partner or any departing general partner;
- any person who is or was a member, partner, officer, director, employee, agent or trustee of any of our subsidiaries, a general partner or any departing general partner or any affiliate of any of our subsidiaries, a general partner or any departing general partner; or
- any person who is or was serving at the request of a general partner or any departing general partner or any affiliate of a general partner or any departing general partner as an officer, director, employee, member, partner, agent or trustee of another person.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Any indemnification under these provisions will only be out of our assets. Unless it otherwise agrees in its sole discretion, our general partner will not be personally liable for, or have any obligation to contribute or loan funds or assets to us to enable us to effectuate indemnification. We are authorized to purchase

141

insurance against liabilities asserted against and expenses incurred by persons for our activities, regardless of whether we would have the power to indemnify the person against liabilities under our partnership agreement.

### REIMBURSEMENT OF EXPENSES

Our partnership agreement requires us to reimburse our general partner for all direct and indirect expenses it incurs or payments it makes on our behalf and all other necessary appropriate expenses allocable to us or otherwise reasonably incurred by our general partner in connection with operating our business. These expenses include salary, bonus, incentive compensation and other amounts paid to persons who perform services for us or on our behalf and expenses allocated our general partner by its affiliates. The general partner is entitled to determine expenses that are allocable to us in any reasonable manner determined by our general partner in its sole discretion.

### BOOKS AND REPORTS

Our general partner is required to keep appropriate books of our business at our principal offices. The books will be maintained for both tax and financial reporting purposes on an accrual basis. For tax and fiscal reporting purposes, our fiscal year is the calendar year.

We will furnish or make available to record holders of common units, within 120 days after the close of each fiscal year, an annual report containing audited financial statements and a report on those financial statements by our independent public accountants. Except for our fourth quarter, we will also furnish or make available summary financial information within 90 days after the close of each quarter.

We will furnish each record holder of a unit with information reasonably required for tax reporting purposes within 90 days after the close of each calendar year. This information is expected to be furnished in summary form so that some complex calculations normally required of partners can be avoided. Our ability to furnish this summary information to unitholders will depend on the cooperation of unitholders in supplying us with specific information. Every unitholder will receive information to assist him in determining his federal and state tax liability and filing his federal and state income tax returns, regardless of whether he supplies us with information.

### RIGHT TO INSPECT OUR BOOKS AND RECORDS

Our partnership agreement provides that a limited partner can, for a purpose reasonably related to his interest as a limited partner, upon reasonable demand and at his own expense, have furnished to him:

- a current list of the name and last known address of each partner;
- a copy of our tax returns;
- information as to the amount of cash, and a description and statement of the agreed value of any other property or services, contributed or to be

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

contributed by each partner and the date on which each became a partner;

- copies of our partnership agreement, the certificate of limited partnership of the partnership, related amendments and powers of attorney under which they have been executed;
- information regarding the status of our business and financial condition; and
- any other information regarding our affairs as is just and reasonable.

Our general partner may, and intends to, keep confidential from the limited partners trade secrets or other information the disclosure of which our general partner believes in good faith is not in our best interests or which we are required by law or by agreements with third parties to keep confidential.

142

### REGISTRATION RIGHTS

Under our partnership agreement, we have agreed to register for sale under the Securities Act and applicable state securities laws any common units, subordinated units or other partnership securities proposed to be sold by our general partner or any of its affiliates if an exemption from the registration requirements is not otherwise available. These registration rights continue for two years following any withdrawal or removal of our general partner. We have also agreed to include any partnership securities held by our general partner or its affiliates in any registration statement that we file to offer partnership securities for cash, except an offering relating solely to an employee benefit plan, for the same period. We are obligated to pay all expenses incidental to the registration, excluding underwriting discounts and commissions. See "Units Eligible for Future Sale."

143

### UNITS ELIGIBLE FOR FUTURE SALE

After the sale of the common units offered hereby, and assuming that the over-allotment option is not exercised, affiliates of the WPP Group and Arch Coal will hold an aggregate of 6,853,658 common units and 11,353,658 subordinated units. All of the subordinated units will convert into common units at the end of the subordination period and some may convert earlier. The sale of these units could have an adverse impact on the price of the common units or on any trading market that may develop.

The common units sold in the offering will generally be freely transferable without restriction or further registration under the Securities Act, except that any common units owned by an "affiliate" of ours may not be resold publicly except in compliance with the registration requirements of the Securities Act or under an exemption under Rule 144 or otherwise. Rule 144 permits securities acquired by an affiliate of the issuer to be sold into the market in an amount that does not exceed, during any three-month period, the greater of:

- 1% of the total number of the securities outstanding; or
- the average weekly reported trading volume of the common units for the four calendar weeks prior to the sale.

Sales under Rule 144 are also subject to specific manner of sale provisions, notice requirements and the availability of current public

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

information about us. A person who is not deemed to have been an affiliate of ours at any time during the three months preceding a sale, and who has beneficially owned his common units for at least two years, would be entitled to sell common units under Rule 144 without regard to the public information requirements, volume limitations, manner of sale provisions and notice requirements of Rule 144.

Prior to the end of the subordination period, we may not issue equity securities of the partnership ranking prior or senior to the common units or an aggregate of more than 5,676,829 additional common units or an equivalent amount of securities ranking on a parity with the common units, without the approval of the holders of a majority of the outstanding common units and subordinated units, voting as separate classes, subject to certain exceptions described under "The Partnership Agreement -- Issuance of Additional Securities."

Our partnership agreement provides that, after the subordination period, we may issue an unlimited number of limited partner interests of any type without a vote of the unitholders. Our partnership agreement does not restrict our ability to issue equity securities ranking junior to the common units at any time. Any issuance of additional common units or other equity securities would result in a corresponding decrease in the proportionate ownership interest in us represented by, and could adversely affect the cash distributions to and market price of, common units then outstanding. See "The Partnership Agreement -- Issuance of Additional Securities."

Under our partnership agreement, our general partner and its affiliates have the right to cause us to register under the Securities Act and state laws the offer and sale of any units that they hold. Subject to the terms and conditions of our partnership agreement, these registration rights allow our general partner and its affiliates or their assignees holding any units to require registration of any of these units and to include any of these units in a registration by us of other units, including units offered by us or by any unitholder. Our general partner will continue to have these registration rights for two years following its withdrawal or removal as our general partner. In connection with any registration of this kind, we will indemnify each unitholder participating in the registration and its officers, directors and controlling persons from and against any liabilities under the Securities Act or any state securities laws arising from the registration statement or prospectus. We will bear all costs and expenses incidental to any registration, excluding any underwriting discounts and commissions. Except as described below, our general partner and its affiliates may sell their units in private transactions at any time, subject to compliance with applicable laws.

144

The WPP Group, Arch Coal and their affiliates, including our partnership, our operating company, our general partner and the directors and executive officers of our general partner, have agreed not to sell any common units they beneficially own for a period of 180 days from the date of this prospectus. Please read "Underwriting" for a description of these lock-up provisions.

145

### MATERIAL TAX CONSEQUENCES

This section addresses all of the material tax consequences that may be relevant to prospective unitholders who are individual citizens or residents of the United States and, unless otherwise noted in this section, is the opinion of Vinson & Elkins L.L.P., special counsel to our general partner and us, insofar as it relates to legal conclusions with respect to United States federal income

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

tax matters. This section is based upon current provisions of the Internal Revenue Code, existing and proposed regulations and current administrative rulings and court decisions, all of which may be changed. Later changes in these authorities may cause the tax consequences to vary substantially from the consequences described below. Unless the context otherwise requires, references in this section to "us" or "we" are references to Natural Resource Partners and the operating company.

No attempt has been made in this section to comment on all federal income tax matters affecting us or the unitholders. Moreover, this section focuses on unitholders who are individual citizens or residents of the United States and has only limited application to corporations, estates, trusts, non-resident aliens or other unitholders subject to specialized tax treatment, such as tax-exempt institutions, foreign persons, individual retirement accounts (IRAs), real estate investment trusts (REITs) or mutual funds. Accordingly, we urge each prospective unitholder to consult, and depend on, his own tax advisor in analyzing the federal, state, local and foreign tax consequences to him of the ownership or disposition of common units.

All statements as to matters of law and legal conclusions, but not as to factual matters, contained in this section are the opinion of Vinson & Elkins L.L.P., unless otherwise noted, and are based upon the accuracy of representations made by us.

No ruling has been or will be requested from the IRS regarding any matter affecting us or our unitholders. An opinion of counsel represents only that counsel's best legal judgment and does not bind the IRS or the courts. Accordingly, the opinions and statements made here may not be sustained by a court if contested by the IRS. Any contest of this sort with the IRS may materially and adversely impact the market for the common units and the price at which the common units trade. In addition, the costs of any contest with the IRS will be borne indirectly by the unitholders and the general partner. Furthermore, the treatment of Natural Resource Partners, or an investment in Natural Resource Partners, may be significantly modified by future legislative or administrative changes or court decisions. Any modifications may or may not be retroactively applied.

For the reasons described below, Vinson & Elkins L.L.P. has not rendered an opinion with respect to the following specific federal income tax issues:

- the treatment of a unitholder whose common units are loaned to a short seller to cover a short sale of common units (please read "-- Tax Consequences of Unit Ownership -- Treatment of Short Sales"); and
- whether our monthly convention for allocating taxable income and losses is permitted by existing Treasury Regulations (please read "-- Disposition of Common Units -- Allocations Between Transferors and Transferees").

### PARTNERSHIP STATUS

A partnership is not a taxable entity and incurs no federal income tax liability. Instead, each partner of a partnership is required to take into account his share of items of income, gain, loss and deduction of the partnership in computing his federal income tax liability, even if no cash distributions are made to him by the partnership. Distributions by a partnership to a partner generally are not taxable unless the amount of cash distributed is in excess of the partner's adjusted basis in his partnership interest.

Section 7704 of the Internal Revenue Code provides that publicly-traded partnerships will, as a general rule, be taxed as corporations. However, an exception, referred to as the "Qualifying Income Exception," exists with respect

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

to publicly-traded partnerships whose gross income for every taxable year

146

consists of at least 90% "qualifying income." Qualifying income includes income and gains derived from the marketing of coal. Other types of qualifying income include interest (from other than a financial business), dividends, gains from the sale or lease of real property and gains from the sale or other disposition of capital assets held for the production of income that otherwise constitutes qualifying income. We estimate that less than 1% of our current income is not qualifying income; however, this estimate could change from time to time. Based upon and subject to this estimate, the factual representations made by us and the general partner and a review of the applicable legal authorities, Vinson & Elkins L.L.P. is of the opinion that more than 90% of our gross income constitutes qualifying income.

No ruling has been or will be sought from the IRS and the IRS has made no determination as to the status of Natural Resource Partners or the operating company for federal income tax purposes. Instead, we will rely on the opinion of Vinson & Elkins L.L.P. that, based upon the Internal Revenue Code, applicable regulations, published revenue rulings and court decisions and the representations described below, Natural Resource Partners will be treated as a partnership and the operating company will be disregarded as an entity separate from Natural Resource Partners for federal income tax purposes.

In rendering its opinion, Vinson & Elkins L.L.P. has relied on factual representations made by us and our general partner. The representations made by us and our general partner upon which Vinson & Elkins L.L.P. has relied are:

- Neither Natural Resource Partners nor the operating company will elect to be treated as an association or corporation; and
- For each taxable year, more than 90% of our gross income will be income that Vinson & Elkins L.L.P. has opined or will opine is "qualifying income" within the meaning of Section 7704(d) of the Internal Revenue Code.

If we fail to meet the Qualifying Income Exception, other than a failure which is determined by the IRS to be inadvertent and which is cured within a reasonable time after discovery, we will be treated as if we had transferred all of our assets, subject to liabilities, to a newly formed corporation, on the first day of the year in which we fail to meet the Qualifying Income Exception, in return for stock in that corporation, and then distributed that stock to the unitholders in liquidation of their interests in us. This contribution and liquidation should be tax-free to unitholders and Natural Resource Partners so long as we, at that time, do not have liabilities in excess of the tax basis of our assets. Thereafter, we would be treated as a corporation for federal income tax purposes.

If we were treated as a corporation in any taxable year, either as a result of a failure to meet the Qualifying Income Exception or otherwise, our items of income, gain, loss and deduction would be reflected only on our tax return rather than being passed through to the unitholders, and our net income would be taxed to us at corporate rates. In addition, any distribution made to a unitholder would be treated as either taxable dividend income, to the extent of our current or accumulated earnings and profits, or, in the absence of earnings and profits, a nontaxable return of capital, to the extent of the unitholder's tax basis in his common units, or taxable capital gain, after the unitholder's tax basis in his common units is reduced to zero. Accordingly, treatment of us as a corporation would result in a material reduction in a unitholder's cash flow and after-tax return and thus would likely result in a substantial

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

reduction of the value of the units.

The remainder of this section is based on Vinson & Elkins L.L.P.'s opinion that we will be treated as a partnership for federal income tax purposes.

### LIMITED PARTNER STATUS

Unitholders who have become limited partners of Natural Resource Partners will be treated as partners of Natural Resource Partners for federal income tax purposes. Also:

- assignees who have executed and delivered transfer applications, and are awaiting admission as limited partners, and

147

- unitholders whose common units are held in street name or by a nominee and who have the right to direct the nominee in the exercise of all substantive rights attendant to the ownership of their common units

will be treated as partners of Natural Resource Partners for federal income tax purposes.

As there is no direct authority addressing assignees of common units who are entitled to execute and deliver transfer applications and thereby become entitled to direct the exercise of attendant rights, but who fail to execute and deliver transfer applications, the opinion of Vinson & Elkins L.L.P. does not extend to these persons. Furthermore, a purchaser or other transferee of common units who does not execute and deliver a transfer application may not receive some federal income tax information or reports furnished to record holders of common units unless the common units are held in a nominee or street name account and the nominee or broker has executed and delivered a transfer application for those common units.

A beneficial owner of common units whose units have been transferred to a short seller to complete a short sale would appear to lose his status as a partner with respect to these units for federal income tax purposes. Please read "-- Tax Consequences of Unit Ownership -- Treatment of Short Sales."

Income, gain, deductions or losses would not appear to be reportable by a unitholder who is not a partner for federal income tax purposes, and any cash distributions received by a unitholder who is not a partner for federal income tax purposes would therefore be fully taxable as ordinary income. These holders are urged to consult their own tax advisors with respect to their status as partners in Natural Resource Partners for federal income tax purposes.

### TAX CONSEQUENCES OF UNIT OWNERSHIP

**Flow-Through of Taxable Income.** We will not pay any federal income tax. Instead, each unitholder will be required to report on his income tax return his share of our income, gains, losses and deductions without regard to whether cash distributions are received by him. Consequently, we may allocate income to a unitholder even if he has not received a cash distribution from us. Each unitholder will be required to include in income his share of income, gain, loss and deduction for our taxable year ending with or within his taxable year.

**Treatment of Distributions.** Our distributions to a unitholder generally will not be taxable to him for federal income tax purposes to the extent of his tax basis in his common units immediately before the distribution. Our cash distributions in excess of a unitholder's tax basis generally will be considered to be gain from the sale or exchange of the common units, taxable in accordance

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

with the rules described under "-- Disposition of Common Units" below. To the extent our distributions cause a unitholder's "at risk" amount to be less than zero at the end of any taxable year, he must recapture any losses deducted in previous years. Please read "-- Limitations on Deductibility of Losses."

Any reduction in a unitholder's share of our liabilities for which no partner, including the general partner, bears the economic risk of loss, known as "nonrecourse liabilities," will be treated as a distribution of cash to that unitholder. A decrease in a unitholder's percentage interest in us because of our issuance of additional common units will decrease his share of our nonrecourse liabilities, and thus will result in a corresponding deemed distribution of cash. A non-pro rata distribution of money or property may result in ordinary income to a unitholder, regardless of his tax basis in his common units, if the distribution reduces his share of our "unrealized receivables," including depreciation recapture, and/or substantially appreciated "inventory items," both as defined in the Internal Revenue Code, and collectively, "Section 751 assets." To that extent, he will be treated as having received his proportionate share of our Section 751 assets and having exchanged those assets with us in return for the non-pro rata portion of the actual distribution made to him. This latter deemed exchange will generally result in the unitholder's realization of ordinary income. That income will equal the excess of (1) the non-pro rata portion of that distribution over (2) the unitholder's tax basis for the share of Section 751 assets deemed relinquished in the exchange.

Ratio of Taxable Income to Distributions. We estimate that a purchaser of common units in the offering who holds those common units from the date of closing of the offering through December 31,

148

2004, will be allocated an amount of federal taxable income for that period that will be less than 60% of the cash distributed with respect to that period. A substantial portion of the income that will be allocated to a unitholder is expected to be long-term capital gain which for individuals is subject to a significantly lower maximum federal income tax rate (currently 20%) than ordinary income (currently taxable at a maximum rate of 38.6%). If a unitholder is an individual taxable at the maximum rate of 38.6% on ordinary income, the effect of this lower capital gains rate is to produce an after tax return to the unitholder which is the same as if the amount of ordinary taxable income allocated to the unitholder for that period were less than 30% of the cash distributed to him for that period. These estimates are based upon the assumption that gross income from operations will approximate the amount required to make the minimum quarterly distribution on all units and other assumptions with respect to capital expenditures, cash flow and anticipated cash distributions. These estimates and assumptions are subject to, among other things, numerous business, economic, regulatory, competitive and political uncertainties beyond our control. Further, the estimates are based on current tax law and tax reporting positions that we intend to adopt and with which the IRS could disagree. Accordingly, these estimates may prove to be incorrect. The actual percentage of distributions that will constitute taxable income could be higher or lower, and any differences could be material and could materially affect the value of the common units.

Basis of Common Units. A unitholder's initial tax basis for his common units generally will be the amount he paid for the common units plus his share of our nonrecourse liabilities. That basis generally will be increased by his share of our income and by any increases in his share of our nonrecourse liabilities. That basis generally will be decreased, but not below zero, by our distributions to him, by his share of our losses, by any decreases in his share of our nonrecourse liabilities and by his share of our expenditures that are not deductible in computing taxable income and are not required to be capitalized. A

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

unitholder generally will have no share of our debt that is recourse to the general partner, but will have a share of our nonrecourse liabilities, generally based on his share of our profits. Please read "-- Disposition of Common Units -- Recognition of Gain or Loss."

**Limitations on Deductibility of Losses.** The deduction by a unitholder of his share of our losses will be limited to the tax basis in his units and, in the case of an individual unitholder or a corporate unitholder, if more than 50% of the value of its stock is owned directly or indirectly by five or fewer individuals or some tax-exempt organizations, to the amount for which the unitholder is considered to be "at risk" with respect to our activities, if that is less than his tax basis. A unitholder must recapture losses deducted in previous years to the extent that distributions cause his at risk amount to be less than zero at the end of any taxable year. Losses disallowed to a unitholder or recaptured as a result of these limitations will carry forward and will be allowable to the extent that his tax basis or at risk amount, whichever is the limiting factor, is subsequently increased. Upon the taxable disposition of a unit, any gain recognized by a unitholder can be offset by losses that were previously suspended by the at risk limitation but may not be offset by losses suspended by the basis limitation. Any excess loss above that gain previously suspended by the at risk or basis limitations is no longer utilizable.

In general, a unitholder will be at risk to the extent of the tax basis of his units, excluding any portion of that basis attributable to his share of our nonrecourse liabilities, reduced by any amount of money he borrows to acquire or hold his units, if the lender of those borrowed funds owns an interest in us, is related to the unitholder or can look only to the units for repayment. A unitholder's at risk amount will increase or decrease as the tax basis of the unitholder's units increases or decreases, other than tax basis increases or decreases attributable to increases or decreases in his share of our liabilities.

The passive loss limitations generally provide that individuals, estates, trusts and some closely-held corporations and personal service corporations can deduct losses from passive activities, which are generally corporate or partnership activities in which the taxpayer does not materially participate, only to the extent of the taxpayer's income from those passive activities. The passive loss limitations are applied separately with respect to each publicly-traded partnership. Consequently, any losses we generate will only be available to offset our passive income generated in the future and will not be available to offset income from other passive activities or investments, including our investments or investments in other publicly-traded partnerships, or salary or active business income. Passive losses that are not deductible because they

149

exceed a unitholder's share of our income may be deducted in full when he disposes of his entire investment in us in a fully taxable transaction with an unrelated party. The passive activity loss rules are applied after other applicable limitations on deductions, including the at risk rules and the basis limitation.

A unitholder's share of our net income may be offset by our passive losses, but it may not be offset by any other current or carryover losses from other passive activities, including those attributable to other publicly-traded partnerships.

**Limitations on Interest Deductions.** The deductibility of a non-corporate taxpayer's "investment interest expense" is generally limited to the amount of that taxpayer's "net investment income." Investment interest expense includes:

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

- interest on indebtedness properly allocable to property held for investment;
- our interest expense attributed to portfolio income; and
- the portion of interest expense incurred to purchase or carry an interest in a passive activity to the extent attributable to portfolio income.

The computation of a unitholder's investment interest expense will take into account interest on any margin account borrowing or other loan incurred to purchase or carry a unit.

Net investment income includes gross income from property held for investment and amounts treated as portfolio income under the passive loss rules, less deductible expenses, other than interest, directly connected with the production of investment income, but generally does not include gains attributable to the disposition of property held for investment. The IRS has indicated that the net passive income earned by a publicly-traded partnership will be treated as investment income to its unitholders. In addition, a unitholder's share of our portfolio income will be treated as investment income.

Entity-Level Collections. If we are required or elect under applicable law to pay any federal, foreign, state or local income tax on behalf of any unitholder or the general partner or any former unitholder, we are authorized to pay those taxes from our funds. That payment, if made, will be treated as a distribution of cash to the unitholder on whose behalf the payment was made. If the payment is made on behalf of a unitholder whose identity cannot be determined, we are authorized to treat the payment as a distribution to all current unitholders. We are authorized to amend the partnership agreement in the manner necessary to maintain uniformity of intrinsic tax characteristics of units and to adjust later distributions, so that after giving effect to these distributions, the priority and characterization of distributions otherwise applicable under the partnership agreement is maintained as nearly as is practicable. Payments by us as described above could give rise to an overpayment of tax on behalf of a unitholder in which event the unitholder would be required to file a claim in order to obtain a credit or refund.

Allocation of Income, Gain, Loss and Deduction. In general, if we have a net profit, our items of income, gain, loss and deduction will be allocated among the general partner and the unitholders in accordance with their percentage interests in us. At any time that distributions are made to the common units and not to the subordinated units, or incentive distributions are made to the general partner, gross income will be allocated to the recipients to the extent of these distributions. If we have a net loss for the entire year, the amount of that loss will be allocated first to the general partner and the unitholders in accordance with their percentage interests in us to the extent of their positive capital accounts and, second, to the general partner.

Specified items of our income, gain, loss and deduction will be allocated to account for the difference between the tax basis and fair market value of property contributed to us by the general partner and certain limited partners referred to in this discussion as "Contributed Property." The effect of these allocations to a unitholder will be essentially the same as if the tax basis of the Contributed Property were equal to its fair market value at the time of contribution. In addition, recapture income will be allocated to the extent possible to the unitholder who was allocated the deduction giving rise to the treatment of that gain as recapture income in order to minimize the recognition of ordinary income by other unitholders. Finally, although we do not expect that our operations will result in the creation of negative capital

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

accounts, if negative capital accounts nevertheless result, items of our income and gain will be allocated in an amount and manner sufficient to eliminate the negative balance as quickly as possible.

Vinson & Elkins L.L.P. is of the opinion that, with the exception of the issues described in "-- Tax Consequences of Unit Ownership -- Section 754 Election" and "-- Disposition of Common Units -- Allocations Between Transferors and Transferees," allocations under our partnership agreement will be given effect for federal income tax purposes in determining a unitholder's distributive share of an item of income, gain, loss or deduction.

Treatment of Short Sales. A unitholder whose units are loaned to a "short seller" to cover a short sale of units may be considered as having disposed of ownership of those units. If so, he would no longer be a partner for tax purposes with respect to those units during the period of the loan and may recognize gain or loss from the disposition. As a result, during this period:

- any of our income, gain, loss or deduction with respect to those units would not be reportable by him;
- any cash distributions received by him for those units would be fully taxable; and
- all of these distributions would appear to be treated as ordinary income.

Vinson & Elkins L.L.P. has not rendered an opinion regarding the treatment of a unitholder whose common units are loaned to a short seller. Therefore, unitholders desiring to assure their status as partners and avoid the risk of gain recognition are urged to modify any applicable brokerage account agreements to prohibit their brokers from loaning their units. The IRS has announced that it is studying issues relating to the tax treatment of short sales of partnership interests. Please read also "-- Disposition of Common Units -- Recognition of Gain or Loss."

Alternative Minimum Tax. Although it is not expected that we will generate significant tax preference items or adjustments, each unitholder will be required to take into account his share of any items of our income, gain, loss or deduction for purposes of the alternative minimum tax. The minimum tax rate for noncorporate taxpayers is 26% on the first \$175,000 of alternative minimum taxable income in excess of the exemption amount and 28% on any additional alternative minimum taxable income. Prospective unitholders are urged to consult with their tax advisors as to the impact of an investment in units on their liability for the alternative minimum tax.

Tax Rates. In general the highest effective United States federal income tax rate for individuals for 2002 is 38.6% and the maximum United States federal income tax rate for net capital gains of an individual for 2002 is 20% if the asset disposed of was held for more than 12 months at the time of disposition.

Section 754 Election. We will make the election permitted by Section 754 of the Internal Revenue Code. That election is irrevocable without the consent of the IRS. The election will generally permit us to adjust a common unit purchaser's tax basis in our assets ("inside basis") to reflect his purchase price. This election does not apply to a person who purchases common units directly from us. Instead, allocations as to contributed property will be made generally with the same effect. The Section 743(b) adjustment belongs to the purchaser and not to other unitholders.

A Section 754 election is advantageous if the transferee's tax basis in his units is higher than the units' share of the aggregate tax basis of our assets immediately prior to the transfer. In that case, as a result of the election, the transferee would have a higher tax basis in his share of our assets for

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

purposes of calculating, among other items, his depletion deductions and his share of any gain or loss on a sale of our assets. Conversely, a Section 754 election is disadvantageous if the transferee's tax basis in his units is lower than those units' share of the aggregate tax basis of our assets immediately prior to the transfer. Thus, the fair market value of the units may be affected either favorably or unfavorably by the election.

The calculations involved in the Section 754 election are complex and we will make them on the basis of assumptions as to the value of our assets and other matters. For example, the allocation of the

151

Section 743(b) adjustment among our assets must be made in accordance with the Internal Revenue Code. The IRS could seek to reallocate some or all of any Section 743(b) adjustment allocated by us to our tangible assets to goodwill instead. Goodwill, as an intangible asset, is generally amortizable over a longer period of time or under a less accelerated method than tangible assets. We cannot assure you that the determinations made by us will not be successfully challenged by the IRS and the deductions resulting from them may not be reduced or disallowed altogether. Should the IRS require a different basis adjustment to be made, and should, in our opinion, the expense of compliance exceed the benefit of the election, we may seek permission from the IRS to revoke our Section 754 election. If permission is granted, a subsequent purchaser of units may be allocated more income than he would have been allocated had the election not been revoked.

### TAX TREATMENT OF OPERATIONS

**Accounting Method and Taxable Year.** We will use the year ending December 31 as our taxable year and we will adopt the accrual method of accounting for federal income tax purposes. Each unitholder will be required to include in income his share of our income, gain, loss and deduction for our taxable year ending within or with his taxable year. In addition, a unitholder who has a taxable year ending on a date other than December 31 and who disposes of all of his units following the close of our taxable year but before the close of his taxable year must include his allocable share of our income, gain, loss and deduction in income for his taxable year, with the result that he will be required to include in income for his taxable year his share of more than one year of our income, gain, loss and deduction. See "-- Disposition of Common Units -- Allocations Between Transferors and Transferees."

**Initial Tax Basis, Depletion and Amortization.** The tax basis of our assets will be used for purposes of computing depletion deductions and, ultimately, gain or loss on the disposition of these assets. The federal income tax burden associated with the difference between the fair market value of property contributed to us and the tax basis established for that property will be borne by the partner that contributed the property to us. Please read "-- Tax Consequences of Unit Ownership -- Allocation of Income, Gain, Loss and Deduction."

We will not be entitled to any amortization deductions with respect to any goodwill conveyed to us on formation. Property we subsequently acquire or construct may be depreciated using accelerated methods permitted by the Internal Revenue Code.

If we dispose of depletable property by sale, foreclosure, or otherwise, all or a portion of any gain, determined by reference to the amount of depletion previously deducted will be subject to the recapture rules and taxed as ordinary income rather than capital gain. Similarly, a unitholder who has taken depletion deductions with respect to property owned by us may be required to recapture

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

those deductions as ordinary income upon a sale of his units in us. Please read "-- Tax Consequences of Unit Ownership -- Allocation of Income, Gain, Loss and Deduction" and "-- Disposition of Common Units -- Recognition of Gain or Loss."

The costs incurred in selling our units (known as syndication expenses) must be capitalized and cannot be deducted currently, ratably or upon termination of Natural Resource Partners. There are uncertainties regarding the classification of costs as organization expenses, which may be amortized, and as syndication expenses, which may not be amortized. The underwriting discounts and commissions we incur will be treated as syndication expenses.

Coal Income. Section 631 of the Internal Revenue Code provides special rules by which gains or losses on the sale of coal may be treated, in whole or in part, as gains or losses from the sale of property used in a trade or business under Section 1231 of the Internal Revenue Code. Specifically, Section 631(c) of the Internal Revenue Code provides that if the owner of coal held for more than one year disposes of that coal under a contract by virtue of which the owner retains an economic interest in the coal, the gain or loss realized will be treated under Section 1231 of the Internal Revenue Code as gain or loss from property used in a trade or business. Section 1231 gains and losses may be treated as capital gains and losses. Please read "-- Sales of Coal Reserves." In computing such gain or loss, the amount realized is

152

reduced by the adjusted depletion basis in the coal, determined as described in "-- Coal Depletion." For purposes of Section 631(c) of the Internal Revenue Code, the coal generally is deemed to be disposed of on the day on which the coal is mined.

Our royalties from coal leases generally will be treated as proceeds from sales of coal to which Section 631 of the Internal Revenue Code applies. Accordingly, the difference between the royalties paid to us by the lessees and the adjusted depletion basis in the extracted coal generally will be treated as gain from the sale of property used in a trade or business, which may be treated as capital gain under Section 1231 of the Internal Revenue Code. Please read "-- Sales of Coal Reserves." Our royalties that do not qualify under Section 631(c) of the Internal Revenue Code generally will be taxable as ordinary income in the year of receipt.

Coal Depletion. In general, we are entitled to depletion deductions with respect to coal mined from the underlying mineral property. We generally are entitled to the greater of cost depletion limited to the basis of the property or percentage depletion. The percentage depletion rate for coal is 10%. If Section 631(c) of the Internal Revenue Code applies to the disposition of the coal, however, we are not eligible for percentage depletion. Please read "-- Coal Income."

Depletion deductions we claim generally will reduce the tax basis of the underlying mineral property. Depletion deductions can, however, exceed the total tax basis of the mineral property. The excess of our percentage depletion deductions over the adjusted tax basis of the property at the end of the taxable year is subject to tax preference treatment in computing the alternative minimum tax. Please read "-- Tax Consequences of Unit Ownership -- Alternative Minimum Tax." In addition, a corporate unitholder's allocable share of the amount allowable as a percentage depletion deduction for any property will be reduced by 20% of the excess, if any, of that partner's allocable share of the amount of the percentage depletion deductions for the taxable year over the adjusted tax basis of the mineral property as of the close of the taxable year.

Sales of Coal Reserves. If any coal reserves are sold or otherwise disposed of in a taxable transaction, we will recognize gain or loss measured by

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

the difference between the amount realized (including the amount of any indebtedness assumed by the purchaser upon such disposition or to which such property is subject) and the adjusted tax basis of the property sold. Generally, the character of any gain or loss recognized upon that disposition will depend upon whether our coal reserves are held:

- for sale to customers in the ordinary course of business (i.e., we are a "dealer" with respect to that property),
- for use in a trade or business within the meaning of Section 1231 of the Internal Revenue Code or
- as capital assets within the meaning of Section 1221 of the Internal Revenue Code.

In determining dealer status with respect to coal reserves and other types of real estate, the courts have identified a number of factors for distinguishing between a particular property held for sale in the ordinary course of business and one held for investment. Any determination must be based on all the facts and circumstances surrounding the particular property and sale in question.

We intend to hold our coal reserves for the purposes of generating cash flow from coal royalties and achieving long-term capital appreciation. Although our general partner may consider strategic sales of coal reserves consistent with achieving long-term capital appreciation, our general partner does not anticipate frequent sales, nor significant marketing, improvement or subdivision activity in connection with any strategic sales. In light of the factual nature of this question, however, there is no assurance that our purposes for holding our properties will not change and that our future activities will not cause us to be a "dealer" in coal reserves.

If we are not a dealer with respect to our coal reserves and we have held the disposed property for more than one year period primarily for use in our trade or business, the character of any gain or loss realized from a disposition of the property will be determined under Section 1231 of the Internal Revenue

153

Code. If we have not held the property for more than one year at the time of the sale, gain or loss from the sale will be taxable as ordinary income.

A unitholder's distributive share of any Section 1231 gain or loss generated by us will be aggregated with any other gains and losses realized by that unitholder from the disposition of property used in the trade or business, as defined in Section 1231(b) of the Internal Revenue Code, and from the involuntary conversion of such properties and of capital assets held in connection with a trade or business or a transaction entered into for profit for the requisite holding period. If a net gain results, all such gains and losses will be long-term capital gains and losses; if a net loss results, all such gains and losses will be ordinary income and losses. Net Section 1231 gains will be treated as ordinary income to the extent of prior net Section 1231 losses of the taxpayer or predecessor taxpayer for the five most recent prior taxable years to the extent such losses have not previously been offset against Section 1231 gains. Losses are deemed recaptured in the chronological order in which they arose.

If we are not a dealer with respect to our coal reserves, and that property is not used in a trade or business, the property will be a "capital asset" within the meaning of Section 1221 of the Internal Revenue Code. Gain or loss recognized from the disposition of that property will be taxable as capital gain

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

or loss, and the character of such capital gain or loss as long-term or short-term will be based upon our holding period in such property at the time of its sale. The requisite holding period for long-term capital gain is more than one year.

Upon a disposition of coal reserves, a portion of the gain, if any, equal to the lesser of (i) the depletion deductions that reduced the tax basis of the disposed mineral property plus deductible development and mining exploration expenses, or (ii) the amount of gain recognized on the disposition, will be treated as ordinary income to us.

Valuation and Tax Basis of Our Properties. The federal income tax consequences of the ownership and disposition of units will depend in part on our estimates of the relative fair market values, and determinations of the initial tax bases, of our assets. Although we may from time to time consult with professional appraisers regarding valuation matters, we will make many of the relative fair market value estimates ourselves. These estimates and determinations of basis are subject to challenge and will not be binding on the IRS or the courts. If the estimates of fair market value or determinations of basis are later found to be incorrect, the character and amount of items of income, gain, loss or deductions previously reported by unitholders might change, and unitholders might be required to adjust their tax liability for prior years and incur interest and penalties with respect to those adjustments.

### DISPOSITION OF COMMON UNITS

Recognition of Gain or Loss. Gain or loss will be recognized on a sale of units equal to the difference between the amount realized and the unitholder's tax basis for the units sold. A unitholder's amount realized will be measured by the sum of the cash or the fair market value of other property received plus his share of our non-recourse liabilities. Because the amount realized includes a unitholder's share of our non-recourse liabilities, the gain recognized on the sale of units could result in a tax liability in excess of any cash received from the sale.

Prior distributions from us in excess of cumulative net taxable income for a common unit that decreased a unitholder's tax basis in that common unit will, in effect, become taxable income if the common unit is sold at a price greater than his tax basis in that common unit, even if the price is less than his original cost.

Except as noted below, gain or loss recognized by a unitholder, other than a "dealer" in units, on the sale or exchange of a unit held for more than one year will generally be taxable as capital gain or loss. Capital gain recognized by an individual on the sale of units held more than 12 months will generally be taxed a maximum rate of 20%. A portion of this gain or loss, however, will be separately computed and taxed as ordinary income or loss under Section 751 of the Internal Revenue Code to the extent attributable to assets giving rise to depletion recapture or other "unrealized receivables" or to "inventory

items" owned by us. The term "unrealized receivables" includes potential recapture items, including depletion recapture. Ordinary income attributable to unrealized receivables, inventory items and depletion recapture may exceed net taxable gain realized upon the sale of the unit and may be recognized even if there is a net taxable loss realized on the sale of the unit. Thus, a unitholder may recognize both ordinary income and a capital loss upon a disposition of units. Net capital loss may offset no more than \$3,000 of ordinary income in the case of individuals and may only be used to offset capital gain in the case of corporations.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

The IRS has ruled that a partner who acquires interests in a partnership in separate transactions must combine those interests and maintain a single adjusted tax basis for all those interests. Upon a sale or other disposition of less than all of those interests, a portion of that tax basis must be allocated to the interests sold using an "equitable apportionment" method. Treasury regulations under Section 1223 of the Internal Revenue Code allow a selling unitholder who can identify common units transferred with an ascertainable holding period to elect to use the actual holding period of the common units transferred provided that he consistently uses that method for all subsequent unit transactions. Thus, according to the ruling, a common unitholder will be unable to select high or low basis common units to sell as would be the case with corporate stock but, under the Treasury regulations, can designate specific common units sold for purposes of determining the holding period of the units sold. A unitholder considering the purchase of additional units or a sale of common units purchased in separate transactions is urged to consult his tax advisor as to the possible consequences of this ruling and application of the regulations.

Provisions of the Internal Revenue Code affect the taxation of some financial products and securities, including partnership interests such as our units, by treating a taxpayer as having sold an "appreciated" partnership interest, one in which gain would be recognized if it were sold, assigned or terminated at its fair market value, if the taxpayer or related persons enter(s) into:

- a short sale;
- an offsetting notional principal contract; or
- a futures or forward contract with respect to the partnership interest or substantially identical property.

Moreover, if a taxpayer has previously entered into a short sale, an offsetting notional principal contract or a futures or forward contract with respect to the partnership interest, the taxpayer will be treated as having sold that position if the taxpayer or a related person then acquires the partnership interest or substantially identical property. The Secretary of Treasury is also authorized to issue regulations that treat a taxpayer that enters into transactions or positions that have substantially the same effect as the preceding transactions as having constructively sold the financial position.

**Allocations Between Transferors and Transferees.** In general, our taxable income and losses will be determined annually, will be prorated on a monthly basis and will be subsequently apportioned among the unitholders in proportion to the number of units owned by each of them as of the opening of the NYSE on the first business day of the month (the "Allocation Date"). However, gain or loss realized on a sale or other disposition of our assets other than in the ordinary course of business will be allocated among the unitholders on the Allocation Date in the month in which that gain or loss is recognized. As a result, a unitholder transferring units in the open market may be allocated income, gain, loss and deduction realized after the date of transfer.

The use of this method may not be permitted under existing Treasury Regulations. Accordingly, Vinson & Elkins L.L.P. is unable to opine on the validity of this method of allocating income and deductions between the transferors and the transferees of units. If this method is not allowed under the Treasury Regulations, or only applies to transfers of less than all of the unitholder's interest, our taxable income or losses might be reallocated among the unitholders. We are authorized to revise our method of allocation between transferors and transferees, as well as among unitholders whose interests otherwise vary during a taxable period, to conform to a method permitted under

future Treasury Regulations.

155

A unitholder who owns units at any time during a quarter and who disposes of those units prior to the record date set for a cash distribution for that quarter will be allocated items of our income, gain, loss and deductions attributable to that quarter but will not be entitled to receive that cash distribution.

**Notification Requirements.** A person who purchases units from a unitholder is required to notify us in writing of that purchase within 30 days after the purchase. We are required to notify the IRS of that transaction and to furnish specified information to the transferor and transferee. However, these reporting requirements do not apply to a sale by an individual who is a citizen of the United States and who effects the sale or exchange through a broker. Failure to notify us of a purchase may lead to the imposition of substantial penalties.

**Constructive Termination.** We will be considered to have been terminated for tax purposes if there is a sale or exchange of 50% or more of the total interests in our capital and profits within a 12-month period. A termination of us will result in the closing of our taxable year for all unitholders. In the case of a unitholder reporting on a taxable year other than a fiscal year ending December 31, the closing of our taxable year may result in more than 12 months' of our taxable income or loss being includable in his taxable income for the year of termination. We would be required to make new tax elections after a termination, including a new election under Section 754 of the Internal Revenue Code, and a termination would result in a deferral of any deductions for depreciation. A termination could also result in penalties if we were unable to determine that the termination had occurred. Moreover, a termination might either accelerate the application of, or subject us to, any tax legislation enacted before the termination.

#### TAX-EXEMPT ORGANIZATIONS AND OTHER INVESTORS

Ownership of units by employee benefit plans, other tax-exempt organizations, nonresident aliens, foreign corporations, other foreign persons and regulated investment companies raises issues unique to those investors and, as described below, may have substantially adverse tax consequences. Employee benefit plans and most other organizations exempt from federal income tax, including individual retirement accounts and other retirement plans, are subject to federal income tax on unrelated business taxable income. Some of our income allocated to a unitholder which is a tax-exempt organization will be unrelated business taxable income and will be taxable to the unitholder.

A regulated investment company or "mutual fund" is required to derive 90% or more of its gross income from interest, dividends and gains from the sale of stocks or securities or foreign currency or specified related sources. It is not anticipated that any significant amount of our gross income will include that type of income.

Non-resident aliens and foreign corporations, trusts or estates that own units will be considered to be engaged in business in the United States on account of ownership of units. As a consequence they will be required to file federal tax returns for their share of our income, gain, loss or deduction and pay federal income tax at regular rates on any net income or gain. Under rules applicable to publicly traded partnerships, we will withhold at the highest marginal tax rate applicable to individuals from actual cash distributions made quarterly to foreign unitholders. Each foreign unitholder must obtain a taxpayer identification number from the IRS and submit that number to our transfer agent on a Form W-8 BEN or applicable substitute form in order to obtain credit for

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

the taxes withheld. A change in applicable law may require us to change these procedures.

Because a foreign corporation that owns units will be treated as engaged in a United States trade or business, that corporation may be subject to United States branch profits tax a rate of 30%, in addition to regular federal income tax, on its share of our income and gain, as adjusted for changes in the foreign corporation's "U.S. net equity," which are effectively connected with the conduct of a United States trade or business. That tax may be reduced or eliminated by an income tax treaty between the United States and the country in which the foreign corporate unitholder is a "qualified resident." In addition, this type of unitholder is subject to special information reporting requirements under Section 6038C of the Internal Revenue Code.

156

Under a ruling of the IRS, a foreign unitholder who sells or otherwise disposes of a unit will be subject to federal income tax on gain realized on the disposition of that unit to the extent that this gain is effectively connected with a United States trade or business of the foreign unitholder. Apart from the ruling, a foreign unitholder will not be taxed or subject to withholding upon the disposition of a unit if he has owned less than 5% in value of the units during the five-year period ending on the date of the disposition and if the units are regularly traded on an established securities market at the time of the disposition.

### ADMINISTRATIVE MATTERS

Information Returns and Audit Procedures. We intend to furnish to each unitholder, within 90 days after the close of each calendar year, specific tax information, including a Schedule K-1, which describes each unitholder's share of our income, gain, loss and deduction for our preceding taxable year. In preparing this information, which will generally not be reviewed by counsel, we will use various accounting and reporting conventions, some of which have been mentioned earlier, to determine the unitholder's share of income, gain, loss and deduction. We cannot assure you that any of those conventions will yield a result that conforms to the requirements of the Internal Revenue Code, regulations or administrative interpretations of the IRS. Neither we nor counsel can assure prospective unitholders that the IRS will not successfully contend in court that those accounting and reporting conventions are impermissible. Any challenge by the IRS could negatively affect the value of the units.

The IRS may audit our federal income tax information returns. Adjustments resulting from any audit of this kind may require each unitholder to adjust a prior year's tax liability, and possibly may result in an audit of that unitholder's own return. Any audit of a unitholder's return could result in adjustments not related to our returns as well as those related to our returns.

Partnerships generally are treated as separate entities for purposes of federal tax audits, judicial review of administrative adjustments by the IRS and tax settlement proceedings. The tax treatment of partnership items of income, gain, loss and deduction are determined in a partnership proceeding rather than in separate proceedings with the partners. The Internal Revenue Code provides for one partner to be designated as the "Tax Matters Partner" for these purposes. The partnership agreement appoints the general partner as the Tax Matters Partner of Natural Resource Partners.

The Tax Matters Partner will make some elections on our behalf and on behalf of unitholders. In addition, the Tax Matters Partner can extend the statute of limitations for assessment of tax deficiencies against unitholders for items in our returns. The Tax Matters Partner may bind a unitholder with

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

less than a 1% profits interest in us to a settlement with the IRS unless that unitholder elects, by filing a statement with the IRS, not to give that authority to the Tax Matters Partner. The Tax Matters Partner may seek judicial review, by which all the unitholders are bound, of a final partnership administrative adjustment and, if the Tax Matters Partner fails to seek judicial review, judicial review may be sought by any unitholder having at least a 1% interest in profits or by any group of unitholders having in the aggregate at least a 5% interest in profits. However, only one action for judicial review will go forward, and each unitholder with an interest in the outcome may participate. However, if we elect to be treated as a large partnership, a unitholder will not have the right to participate in settlement conferences with the IRS or to seek a refund.

A unitholder must file a statement with the IRS identifying the treatment of any item on his federal income tax return that is not consistent with the treatment of the item on our return. Intentional or negligent disregard of the consistency requirement may subject a unitholder to substantial penalties.

157

Nominee Reporting. Persons who hold an interest in our partnership as a nominee for another person are required to furnish to us:

- the name, address and taxpayer identification number of the beneficial owner and the nominee;
- whether the beneficial owner is a person that is not a United States person, a foreign government, an international organization or any wholly owned agency or instrumentality of either of the foregoing, or a tax-exempt entity;
- the amount and description of units held, acquired or transferred for the beneficial owner; and
- specific information including the dates of acquisitions and transfers, means of acquisitions and transfers, and acquisition cost for purchases, as well as the amount of net proceeds from sales.

Brokers and financial institutions are required to furnish additional information, including whether they are United States persons and specific information on units they acquire, hold or transfer for their own account. A penalty of \$50 per failure, up to a maximum of \$100,000 per calendar year, is imposed by the Internal Revenue Code for failure to report that information to us. The nominee is required to supply the beneficial owner of the units with the information furnished to us.

Registration as a Tax Shelter. The Internal Revenue Code requires that "tax shelters" be registered with the Secretary of the Treasury. The temporary Treasury Regulations interpreting the tax shelter registration provisions of the Internal Revenue Code are extremely broad. It is arguable that we are not subject to the registration requirement on the basis that we will not constitute a tax shelter. However, the general partner, as the principal organizer of us, has applied to register us as a tax shelter with the Secretary of Treasury in the absence of assurance that we will not be subject to tax shelter registration and in light of the substantial penalties which might be imposed if registration is required and not undertaken.

We will supply our tax shelter registration number to you when one has been assigned to us. A unitholder who sells or otherwise transfers a unit in a later transaction must furnish this registration number to the transferee. The penalty for failure of the transferor of a unit to furnish the registration number to

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

the transferee is \$100 for each failure. In addition, unitholders must disclose our tax shelter registration number on Form 8271 to be attached to the tax return on which any deduction, loss or other benefit generated by us is claimed or on which any of our income is included. A unitholder who fails to disclose the tax shelter registration number on his return, without reasonable cause for that failure, will be subject to a \$250 penalty for each failure. Any penalties discussed are not deductible for federal income tax purposes.

ISSUANCE OF THIS REGISTRATION NUMBER DOES NOT INDICATE THAT INVESTMENT IN US OR THE CLAIMED TAX BENEFITS HAVE BEEN REVIEWED, EXAMINED OR APPROVED BY THE IRS.

**Accuracy-related Penalties.** An additional tax equal to 20% of the amount of any portion of an underpayment of tax that is attributable to one or more specified causes, including negligence or disregard of rules or regulations, substantial understatements of income tax and substantial valuation misstatements, is imposed by the Internal Revenue Code. No penalty will be imposed, however, for any portion of an underpayment if it is shown that there was a reasonable cause for that portion and that the taxpayer acted in good faith regarding that portion.

A substantial understatement of income tax in any taxable year exists if the amount of the understatement exceeds the greater of 10% of the tax required to be shown on the return for the taxable year or \$5,000 (\$10,000 for most corporations). The amount of any understatement subject to penalty generally is reduced if any portion is attributable to a position adopted on the return:

- for which there is, or was, "substantial authority"; or
- as to which there is a reasonable basis and the pertinent facts of that position are disclosed on the return.

158

More stringent rules apply to "tax shelters," a term that in this context does not appear to include us. If any item of income, gain, loss or deduction included in the distributive shares of unitholders might result in that kind of an "understatement" of income for which no "substantial authority" exists, we must disclose the pertinent facts on our return. In addition, we will make a reasonable effort to furnish sufficient information for unitholders to make adequate disclosure on their returns to avoid liability for this penalty.

A substantial valuation misstatement exists if the value of any property, or the adjusted basis of any property, claimed on a tax return is 200% or more of the amount determined to be the correct amount of the valuation or adjusted basis. No penalty is imposed unless the portion of the underpayment attributable to a substantial valuation misstatement exceeds \$5,000 (\$10,000 for most corporations). If the valuation claimed on a return is 400% or more than the correct valuation, the penalty imposed increases to 40%.

### STATE, LOCAL AND OTHER TAX CONSIDERATIONS

In addition to federal income taxes, you will be subject to other taxes, including foreign, state and local income taxes, unincorporated business taxes, and estate, inheritance or intangible taxes that may be imposed by the various jurisdictions in which we do business or own property. Although an analysis of those various taxes is not presented here, each prospective unitholder is urged to consider their potential impact on his investment in us. We will initially own property or do business in Alabama, Illinois, Indiana, Kentucky, Maryland, Montana, Virginia, and West Virginia. A unitholder will likely be required to file state income tax returns and to pay state income taxes in these states and

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

may be subject to penalties for failure to comply with those requirements. In some states, tax losses may not produce a tax benefit in the year incurred and also may not be available to offset income in subsequent taxable years. Some of the states may require us, or we may elect, to withhold a percentage of income from amounts to be distributed to a unitholder who is not a resident of the state. Withholding, the amount of which may be greater or less than a particular unitholder's income tax liability to the state, generally does not relieve a nonresident unitholder from the obligation to file an income tax return. Amounts withheld may be treated as if distributed to unitholders for purposes of determining the amounts distributed by us. Please read "-- Tax Consequences of Unit Ownership -- Entity-Level Collections." Based on current law and our estimate of our future operations, the general partner anticipates that any amounts required to be withheld will not be material. We may also own property or do business in other states or in foreign jurisdictions in the future.

It is the responsibility of each unitholder to investigate the legal and tax consequences, under the laws of pertinent states and localities, of his investment in us. Accordingly, we strongly recommend that each prospective unitholder consult, and depend upon, his own tax counsel or other advisor with regard to those matters. Further, it is the responsibility of each unitholder to file all foreign, state and local, as well as United States federal tax returns that may be required of him. Vinson & Elkins L.L.P. has not rendered an opinion on the foreign, state or local tax consequences of an investment in us.

159

### INVESTMENT IN NATURAL RESOURCE PARTNERS BY EMPLOYEE BENEFIT PLANS

An investment in us by an employee benefit plan is subject to additional considerations because the investments of these plans are subject to the fiduciary responsibility and prohibited transaction provisions of ERISA, and restrictions imposed by Section 4975 of the Internal Revenue Code. For these purposes the term "employee benefit plan" includes, but is not limited to, qualified pension, profit-sharing and stock bonus plans, Keogh plans, simplified employee pension plans and tax deferred annuities or IRAs established or maintained by an employer or employee organization. Among other things, consideration should be given to:

- whether the investment is prudent under Section 404(a)(1)(B) of ERISA;
- whether in making the investment, that plan will satisfy the diversification requirements of Section 404(a)(1)(C) of ERISA; and
- whether the investment will result in recognition of unrelated business taxable income by the plan and, if so, the potential after-tax investment return.

The person with investment discretion with respect to the assets of an employee benefit plan, often called a fiduciary, should determine whether an investment in us is authorized by the appropriate governing instrument and is a proper investment for the plan.

Section 406 of ERISA and Section 4975 of the Internal Revenue Code prohibit employee benefit plans, and also IRAs that are not considered part of an employee benefit plan, from engaging in specified transactions involving "plan assets" with parties that are "parties in interest" under ERISA or "disqualified persons" under the Internal Revenue Code with respect to the plan.

In addition to considering whether the purchase of common units is a prohibited transaction, a fiduciary of an employee benefit plan should consider whether the plan will, by investing in us, be deemed to own an undivided

Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

interest in our assets, with the result that the general partner also would be a fiduciary of the plan and our operations would be subject to the regulatory restrictions of ERISA, including its prohibited transaction rules, as well as the prohibited transaction rules of the Internal Revenue Code.

The Department of Labor regulations provide guidance with respect to whether the assets of an entity in which employee benefit plans acquire equity interests would be deemed "plan assets" under some circumstances. Under these regulations, an entity's assets would not be considered to be "plan assets" if, among other things,

(a) the equity interests acquired by employee benefit plans are publicly offered securities -- i.e., the equity interests are widely held by 100 or more investors independent of the issuer and each other, freely transferable and registered under some provisions of the federal securities laws,

(b) the entity is an "operating company," -- i.e., it is primarily engaged in the production or sale of a product or service other than the investment of capital either directly or through a majority-owned subsidiary or subsidiaries, or

(c) there is no significant investment by benefit plan investors, which is defined to mean that less than 25% of the value of each class of equity interest, disregarding some interests held by the general partner, its affiliates, and some other persons, is held by the employee benefit plans referred to above, IRAs and other employee benefit plans not subject to ERISA, including governmental plans.

Our assets should not be considered "plan assets" under these regulations because it is expected that the investment will satisfy the requirements in (a) above.

Plan fiduciaries contemplating a purchase of common units should consult with their own counsel regarding the consequences under ERISA and the Internal Revenue Code in light of the serious penalties imposed on persons who engage in prohibited transactions or other violations.

160

UNDERWRITING

Subject to the terms and conditions stated in the underwriting agreement dated the date of this prospectus, each underwriter named below has agreed to purchase from us, and we and Arch Coal have agreed to sell to the underwriters, the number of common units set forth opposite the underwriter's name.

UNDERWRITERS -----	NUMBER OF COMMON UNITS -----
Salomon Smith Barney Inc.....	
Lehman Brothers Inc.....	
CIBC World Markets Corp. ....	
Friedman Billings Ramsey.....	
RBC Dain Rauscher Inc. ....	
	-----
Total.....	4,500,000

=====

The underwriting agreement provides that the obligations of the underwriters to purchase the common units included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all the common units offered (other than those covered by the over-allotment option described below) if they purchase any of the common units.

The underwriters propose to offer some of the common units directly to the public at the public offering price set forth on the cover page of this prospectus and some of the common units to dealers at the public offering price less a concession not to exceed \$ \_\_\_\_\_ per common unit. The underwriters may allow, and dealers may realow, a concession not to exceed \$ \_\_\_\_\_ per common unit on sales to other dealers. If all of the units are not sold at the initial public offering price, the underwriters may change the public offering price and the other selling terms. The underwriters have advised us that they do not intend to confirm any sales to any accounts over which they exercise discretionary authority.

Of the common units offered by this prospectus, Arch Coal, as the selling unitholder, is offering 1,901,250 common units for its own account. Arch Coal may be deemed to be an underwriter within the meaning of the Securities Act of 1933 in connection with the sale of these common units.

We and Arch Coal have granted to the underwriters an option, exercisable for 30 days from the date of this prospectus, to purchase up to an aggregate of 675,000 additional common units at the public offering price less the underwriting discount. We will sell 57.75% of the over-allotment units and Arch Coal will sell 42.25% of the over-allotment units. We will not receive any of the proceeds from sales of common units by Arch Coal. The underwriters may exercise this option solely for the purpose of covering over-allotments, if any, in connection with this offering. To the extent this option is exercised, each underwriter will be obligated, subject to conditions, to purchase a number of additional common units approximately proportionate to the underwriter's initial purchase commitment. To the extent the underwriters do not exercise this option in full, Great Northern Properties Limited Partnership and, under certain circumstances, New Gauley Coal Corporation, together will purchase up to an aggregate of 75,503 additional common units from Natural Resource Partners at the initial public offering price, and the proceeds from this sale will not be reduced by the underwriting discount and commission described below.

The WPP Group, Arch Coal and their affiliates, including our partnership, the operating company, the general partner and the executive officers and directors of our general partner, have agreed that, for a period of 180 days from the date of this prospectus, we and they will not, without the prior written consent of Salomon Smith Barney, dispose of or hedge any of our common units or subordinated units or any securities convertible into or exchangeable for our common units or subordinated units. Salomon Smith Barney in its sole discretion may release any of the common units or subordinated units subject to the lock-up agreements at any time without notice.

161

Salomon Smith Barney has informed us that it has no present intent or arrangement to release any of the units subject to the lock-up agreements. The release of units subject to any of the lock-up agreements is considered on a case by case basis. Factors in deciding whether to release these units may include the length of time before the particular lock-up expires, the number of

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

units involved, historical trading volumes of our common units and whether the person seeking the release is an officer, director or affiliate of us or our general partner.

At our request, the underwriters have reserved up to 315,000 of the common units for sale at the initial public offering price to persons who are officers, directors, employees or who are otherwise associated with the WPP Group, Arch Coal and their affiliates through a directed unit program. The number of common units available for sale to the general public will be reduced by the number of directed units purchased by participants in the program. Any directed units not purchased will be offered by the underwriters to the general public on the same basis as all other common units offered. We have agreed to indemnify the underwriters against certain liabilities and expenses, including liabilities under the Securities Act, in connection with the sales of the directed units.

Prior to this offering, there has been no public market for our common units. Consequently, the initial public offering price for the common units was determined by negotiations among our general partner, Arch Coal and the underwriters. The material factors considered in determining the initial public offering price were our record of operations, our current financial condition, our future prospects, our markets, the economic conditions in and future prospects for the industry in which we compete, our management and current prevailing conditions in the equity securities markets, including current market valuations of publicly traded companies comparable to our company. We cannot assure you, however, that the prices at which the common units will sell in the public market after this offering will not be lower than the initial public offering price or that an active trading market in our common units will develop and continue after this offering.

Our common units have been approved for listing on the NYSE, subject to official notice of issuance, under the symbol "NRP." The underwriters have undertaken to sell the common units to a minimum of 2,000 beneficial owners in lots of 100 or more units to meet the NYSE distribution requirements for trading.

The following table shows the per common unit and total underwriting discounts and commissions to be paid to the underwriters in connection with this offering. The amounts shown assume both no exercise and full exercise of the underwriters' option to purchase additional common units.

	PAID BY NATURAL RESOURCE PARTNERS		PAID BY ARCH COAL	
	NO EXERCISE	FULL EXERCISE	NO EXERCISE	FULL EXERCISE
Per common unit.....	\$	\$	\$	\$
Total.....	\$	\$	\$	\$

In addition to the underwriting fee, we will pay a fee of 0.375% of gross proceeds of the offering to Lehman Brothers Inc. for advisory services rendered to us in connection with the evaluation, analysis and structuring of our partnership.

In connection with this offering, Salomon Smith Barney on behalf of the underwriters, may purchase and sell common units in the open market. These transactions may include short sales, syndicate covering transactions and stabilizing transactions. Short sales involve syndicate sales of common units in excess of the number of common units to be purchased by the underwriters in the

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

offering, which creates a syndicate short position. "Covered" short sales are sales of common units made in an amount up to the number of common units represented by the underwriters' over-allotment option. In determining the source of common units to close out the covered syndicate short position, the underwriters will consider, among other things, the price of common units available for purchase in the open market as compared to the price at which they may purchase common units through the over-allotment option. Transactions to close out the covered syndicate short involve either purchases of the common units in the open market after the

162

distribution has been completed or the exercise of the over-allotment option. The underwriters may also make "naked" short sales of common units in excess of the over-allotment option. The underwriters must close out any naked short position by purchasing common units in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common units in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of bids for or purchases of common units in the open market while the offering is in progress.

The underwriters also may impose a penalty bid. Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when Salomon Smith Barney repurchases common units originally sold by that syndicate member in order to cover syndicate short positions or make stabilizing purchases.

Any of these activities by the underwriters may have the effect of preventing or retarding a decline in the market price of the common units. They may also cause the price of the common units to be higher than the price that otherwise would exist in the open market in the absence of such transactions. The underwriters may conduct these transactions on the New York Stock Exchange, in the over-the-counter market, or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

The underwriters have performed certain investment banking and advisory services for us from time to time for which they have received customary fees and expenses. The underwriters may, from time to time, engage in transactions with and perform services for us in the ordinary course of their business.

We estimate that our portion of the total expenses of the offering, excluding underwriting discounts and commissions, will be approximately \$2.2 million.

The WPP Group, Arch Coal, Natural Resource Partners, our general partner and certain of their affiliates have agreed to indemnify the underwriters against liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of these liabilities.

Because the National Association for Securities Dealers, Inc. views the common units offered by this prospectus as interests in a direct participation program, the offering is being made in compliance with Rule 2810 of the NASD's Conduct Rules.

### VALIDITY OF THE COMMON UNITS

The validity of the common units will be passed upon for Natural Resource Partners by Vinson & Elkins L.L.P., Houston, Texas. Certain legal matters in connection with the common units offered hereby will be passed upon for the

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

underwriters by Baker Botts L.L.P., Houston, Texas.

### EXPERTS

Ernst & Young LLP, independent auditors, have audited (i) the Western Pocahontas Properties Limited Partnership, the Great Northern Properties Limited Partnership, the New Gauley Coal Corporation and the Arch Coal, Inc. Contributed Properties financial statements at December 31, 2000 and 2001, and for each of the three years in the period ended December 31, 2001 and (ii) the balance sheets of Natural Resource Partners L.P., NRP (GP) LP and GP Natural Resource Partners LLC as of April 15, 2002, as set forth in their reports. We have included these financial statements in the prospectus and elsewhere in the registration statement in reliance on Ernst & Young LLP's reports, given on their authority as experts in accounting and auditing.

On April 26, 2002, each of Western Pocahontas Properties Limited Partnership, Great Northern Properties Limited Partnership and New Gauley Coal Corporation dismissed Arthur Andersen LLP as their independent public accountants due to the adverse publicity being experienced by Arthur Andersen LLP and concerns regarding the acceptance of its audits. Ernst & Young LLP was engaged on May 3, 2002 by each of Western Pocahontas Properties Limited Partnership, Great Northern Properties Limited

163

Partnership and New Gauley Coal Corporation to serve as their independent auditors for the three years ended December 31, 1999, December 31, 2000 and December 31, 2001.

Arthur Andersen LLP's reports on the financial statements of each of Western Pocahontas Properties Limited Partnership, Great Northern Properties Limited Partnership and New Gauley Coal Corporation for the past two years did not contain an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principles. During the most recent two fiscal years and through April 26, 2002:

- there were no disagreements with Arthur Andersen LLP on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure which, if not resolved to Arthur Andersen LLP's satisfaction, would have caused them to make reference to the subject matter in connection with their reports on the financial statements of any of Western Pocahontas Properties Limited Partnership, Great Northern Properties Limited Partnership or New Gauley Coal Corporation for such years;
- there were no reportable events, as listed in Item 304(a)(1)(v) of Regulation S-K; and
- none of Western Pocahontas Properties Limited Partnership, Great Northern Properties Limited Partnership and New Gauley Coal Corporation consulted Ernst & Young LLP with respect to the application of accounting principles to a specified transaction either completed or proposed, or the type of audit opinion that might be rendered on the financial statements of any of Western Pocahontas Properties Limited Partnership, Great Northern Properties Limited Partnership or New Gauley Coal Corporation, or any other matters or reportable events listed in Items 304(a)(2)(i) and (ii) of Regulation S-K.

The reserve report and estimates of our proven and probable coal reserves attributable to properties contributed to us by Arch Coal included in this prospectus have, to the extent described in this prospectus, been prepared by

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Arch Coal and audited by Weir International Mining Consultants. The reserve report and estimates of our proven and probable coal reserves attributable to properties contributed to us by the WPP Group included in this prospectus have, to the extent described in this prospectus, been prepared by the WPP Group and audited by Stagg Resource Consultants, Inc. A summary of the estimates contained in the coal reserve audit summary reports of Weir International Mining Consultants and Stagg Resource Consultants, Inc. have been included in this prospectus as Appendix E and Appendix F, respectively, in reliance upon those firms as experts with respect to the measurement of coal reserves.

### WHERE YOU CAN FIND MORE INFORMATION

We have filed with the SEC a registration statement on Form S-1 regarding the common units. This prospectus does not contain all of the information set forth in the registration statement. For further information regarding us and the common units offered in this prospectus, you may desire to review the full registration statement, including its exhibits and schedules. You may desire to review the full text of any contracts, agreements or other documents filed as exhibits to the registration statement for a more complete description of the matter involved. The registration statement, including the exhibits and schedules, may be inspected and copied at the public reference facilities maintained by the SEC at Judiciary Plaza, 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of this material can also be obtained upon written request from the Public Reference Section of the SEC at Judiciary Plaza, 450 Fifth Street, N.W., Washington, D.C. 20549, at prescribed rates or from the SEC's web site on the Internet at <http://www.sec.gov>. Please call the SEC at 1-800-SEC-0330 for further information on public reference rooms.

As a result of the offering, we will file periodic reports and other information with the SEC. These reports and other information may be inspected and copied at the public reference facilities maintained by the SEC at 450 Fifth Street, N.W., Washington, DC 20549, at prescribed rates, or obtained from the SEC's web site on the Internet at <http://www.sec.gov>.

164

We intend to furnish or make available to our unitholders within 90 days following the close of our fiscal year end annual reports containing audited financial statements prepared in accordance with generally accepted accounting principles and furnish or make available within 45 days following the close of each fiscal quarter quarterly reports containing unaudited interim financial information, including the information required by Form 10-Q, for the first three fiscal quarters of each of our fiscal years. Our annual report will include a detailed statement of any transactions with the general partner or its affiliates, and of fees, commissions, compensation and other benefits paid, or accrued to the general partner or its affiliates for the fiscal year completed, showing the amount paid or accrued to each recipient and the services performed.

### FORWARD-LOOKING STATEMENTS

Statements included in this prospectus which are not historical facts (including any statements concerning plans and objectives of management for future operations or economic performance, or assumptions related thereto) are forward-looking statements. In addition, we and our representatives may from time to time make other oral or written statements which are also forward-looking statements.

Such forward-looking statements include, among other things, statements regarding capital expenditures, acquisitions and dispositions, expected commencement dates of coal mining, projected quantities of future coal production by our lessees producing coal from our reserves leased, projected

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

demand or supply for coal which will affect sales levels, prices and royalties realized by us.

These forward-looking statements are made based upon management's current plans, expectations, estimates, assumptions and beliefs concerning future events impacting us and therefore involve a number of risks and uncertainties. We caution that forward-looking statements are not guarantees and that actual results could differ materially from those expressed or implied in the forward-looking statements.

Important factors that could cause our actual results of operations or our actual financial condition to differ include, but are not necessarily limited to:

- the cost of acquiring new coal reserves;
  - the ability to acquire coal reserves on satisfactory terms;
  - the prices for which coal from our properties can be sold;
  - the volatility of commodity prices for coal;
  - our ability to lease new and existing coal reserves;
  - the ability of our lessees to produce sufficient quantities of coal on an economic basis from our reserves;
  - the ability of our lessees to obtain favorable sales contracts for coal produced from our reserves;
  - competition among producers in the coal industry generally;
  - the extent to which the amount and quality of actual production differs from estimated coal reserves;
  - unanticipated geologic problems;
  - availability of required materials and equipment;
  - the occurrence of unusual weather events, accidents, changes in governmental regulation, equipment failures, transportation delays, labor-related interruptions or operating conditions, including force majeure;
  - the timing of receipt by our lessees of necessary governmental permits;
- 165
- the outcome of several ongoing environmental lawsuits relating to federal and state regulation of and permitting for the mining industry;
  - our lessees' labor relations and costs;
  - changes in governmental regulation or enforcement practices, especially with respect to mining environmental, health and safety matters, such as emissions levels applicable to coal-burning power generators and steel manufacturers;
  - the experience and financial condition of lessees of coal reserves, including their ability to satisfy their royalty, environmental, reclamation and other obligations to us and others; and

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

- fluctuations in transportation costs and the availability or reliability of transportation of coal from our properties;
- any future announcements of production cuts or implementation of previously announced cuts by our lessees;
- a decrease in the demand for coal by the electricity generation or steel production industries;
- any increase or decrease in coal imports or exports; and
- risks and uncertainties relating to general domestic and international economic (including inflation and interest rates) and political conditions.

Many of such factors are beyond our ability to control or predict. Readers are cautioned not to put undue reliance on forward-looking statements.

166

NATURAL RESOURCE PARTNERS L.P.

UNAUDITED PRO FORMA FINANCIAL STATEMENTS

BASIS OF PRESENTATION

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Following are the unaudited pro forma financial statements of Natural Resource Partners L.P., a newly formed limited partnership, as of June 30, 2002 and for the six months ended June 30, 2002 and the year ended December 31, 2001. The pro forma balance sheet assumes that the offering and related transactions occurred as of the balance sheet date, and the pro forma statements of revenues and direct costs and expenses assume that the offering and related transactions occurred as of the beginning of the period presented. We presented the transaction adjustments in the notes to the unaudited pro forma financial statements. You should read the unaudited pro forma financial statements and accompanying notes together with the financial statements and related notes of the WPP Group and the Arch Coal Contributed Properties included elsewhere in the prospectus.

We derived the pro forma balance sheet by adjusting the historical balance sheets of Western Pocahontas Properties Limited Partnership ("Western Pocahontas"), Great Northern Properties Limited Partnership ("Great Northern"), New Gauley Coal Corporation ("New Gauley") and the Arch Coal Contributed Properties. We derived the pro forma statements of revenues and direct costs and expenses by extracting the revenues and direct costs and expenses from the historical statements of income of Western Pocahontas, Great Northern and New Gauley included elsewhere in this prospectus and adding them to the Arch Coal Contributed Properties historical statements of revenues and direct costs and expenses. As a result, the pro forma statements of revenues and direct costs and expenses do not reflect general and administrative expenses and other income and expense from the historical statements of income of the WPP Group included elsewhere in this prospectus. The pro forma statements of revenues and direct costs and expenses were adjusted to exclude revenues and direct costs and expenses related to properties not being contributed to us by the WPP Group. We based the pro forma adjustments upon currently available information and certain estimates and assumptions, and therefore the actual adjustments made to effect the transactions may differ from the pro forma adjustments. However, management believes that the assumptions provide a reasonable basis for presenting the significant effects of the transactions as contemplated and that the pro forma adjustments give appropriate effect to these assumptions and are properly applied in the pro forma financial information.

We have no employees and our operations are conducted by our general partner and affiliates pursuant to contractual arrangements. Please read "Risk Factors -- Risks Related to Our Partnership Structure."

Western Pocahontas is contributing nearly all of its coal royalty producing properties, while retaining the surface and timber properties. Coal royalties accounted for approximately 60% of Western Pocahontas' total revenues in 2001. New Gauley is contributing all of its coal royalty producing properties. Great Northern is contributing the coal royalty producing properties related to two leases. The assets retained by Great Northern include one producing property with insignificant royalty income, one producing property with a productive reserve life of less than two years and non-producing properties. The properties being contributed by the WPP Group account for approximately 79% of WPP Group's total revenues in 2001.

Corbin J. Robertson, Jr. controls the general partners of Western Pocahontas and Great Northern and is the controlling stockholder of New Gauley. Corbin J. Robertson, Jr. will also control the general partner of Natural Resource Partners L.P. As a result, the assets of the WPP Group are being contributed at historical costs in accordance with EITF 87-21, "Change of Accounting Basis in Master Limited Partnership Transactions."

The Arch Coal Contributed Properties are indirectly wholly-owned by Arch Coal, Inc. and comprise only a small percentage of its coal properties. Coal royalty revenues from the Arch Coal Contributed Properties were approximately 1.3% of Arch Coal, Inc.'s 2001 revenues.

Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

F-3

The historical financial statements of the Arch Coal Contributed Properties reflect the revenues and direct costs and expenses of the properties to be contributed to Natural Resource Partners L.P. at the closing of this offering. These properties do not comprise a legal entity. Except for revenues earned from the properties and certain direct costs and expenses of the properties and assets acquired and liabilities assumed, no separate financial information is maintained. The Arch Coal Contributed Properties do not maintain stand-alone corporate treasury, legal, tax, human resources, general and administrative and other similar corporate support functions. Corporate general and administrative expenses have not been previously allocated in connection with the preparation of the historical financial statements of the Arch Coal Contributed Properties included elsewhere in the prospectus because there was not sufficient information to develop a reasonable cost allocation. Because the separate and distinct accounts necessary to present individual balance sheets and income statements of the Arch Coal Contributed Properties have not been maintained as of June 30, 2002 and for the six months ended June 30, 2002 and the year ended December 31, 2001, Statements of Revenues and Direct Costs and Expenses and Statements of Assets Purchased and Liabilities Assumed have been prepared and included elsewhere in the prospectus. The historical Statements of Revenues and Direct Costs and Expenses and Statements of Assets Purchased and Liabilities Assumed are not intended to be a complete presentation of financial position and results of operations of the Arch Coal Contributed Properties and are not indicative of the financial condition or results of operations of the Arch Coal Contributed Properties going forward due to the changes in the business and the omission of various operation expenses.

The WPP Group will comprise a majority of the revenues and total net book value of assets contributed to Natural Resource Partners L.P. Additionally, the senior executives and other officers who currently manage Western Pocahontas will continue to manage Natural Resource Partners L.P. The WPP Group will control approximately 58% of the common units of Natural Resource Partners L.P. The general partner and majority stockholder of the entities comprising the WPP Group will hold the controlling general partner interests of Natural Resource Partners L.P. and is entitled to nominate five directors out of the eight directors of the general partner of Natural Resources Partners L.P. As a result, the WPP Group is considered to be the accounting acquirer and the assets and liabilities of the Arch Coal Contributed Properties will be recorded at their fair values upon consummation of the transaction.

All properties contributed by the WPP Group and the Arch Coal Contributed Properties will be contributed to Natural Resource Partners L.P. in exchange for common and subordinated units in Natural Resource Partners L.P. and its assumption of debt upon the closing of this offering. A table of coal reserve quantities, assuming the reserves were contributed to us on December 31, 2001, is summarized below (tons in thousands):

	=====	=====	=====	=====	=====

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

The unaudited pro forma financial statements do not purport to present the financial position or the results of operations of Natural Resource Partners L.P. had the offering actually been completed as of the dates indicated. Moreover, the statements do not project the financial position or results of operations of Natural Resource Partners L.P. for any future date or period.

NATURAL RESOURCE PARTNERS L.P.

NOTES TO PRO FORMA FINANCIAL STATEMENTS  
(DOLLAR AMOUNTS IN THOUSANDS)  
(UNAUDITED)

OFFERING AND TRANSACTIONS

The pro forma financial statements reflect the closing of the following transactions:

- The transfer of certain assets and liabilities by the WPP Group to Natural Resources Partners in exchange for the issuance by Natural Resource Partners to the WPP Group of 3,882,485 common units and 6,556,738 subordinated units and 25% of the incentive distribution rights.
- The transfer of certain assets and liabilities by Arch Coal to Natural Resource Partners in exchange for the issuance by Natural Resource Partners to Arch Coal of 4,796,920 common units and 4,796,920 subordinated units and 10% of the incentive distribution rights.
- The public offering by Natural Resource Partners of 2,598,750 common units at an assumed initial offering price of \$20.00 per common unit, resulting in gross proceeds to Natural Resource Partners of \$52.0 million. Arch Coal will sell 1,901,250 of its common units. Natural Resource Partners will not receive any proceeds from the sale of the

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

common units by Arch Coal.

- The sale by Natural Resource Partners of 75,503 common units at an assumed initial public offering price of \$20.00 per common unit to Great Northern and New Gauley (which assumes that the underwriters do not exercise their over-allotment option).
- The repayment of \$46.5 million of debt contributed by the WPP Group with proceeds from the offering.
- The contribution of \$0.8 million by Arch Coal to Natural Resource Partners, representing Arch Coal's share of the deferred financing costs and initial working capital.
- The payment of \$0.1 million by Natural Resource Partners to the WPP Group, which represents excess proceeds from the offering after the repayment of \$46.5 million of debt contributed by the WPP Group, the payment of expenses associated with the offering and related transactions and the funding of working capital.

### PRO FORMA ADJUSTMENTS TO BALANCE SHEET

- (a) Represents the working capital of the WPP Group and the Arch Coal Contributed Properties that will not be contributed to Natural Resource Partners.
- (b) Represents the property, plant and equipment and related accumulated depletion, depreciation and amortization of the WPP Group that will not be contributed to Natural Resource Partners. The property retained is as follows (in thousands):

GROSS PROPERTY (EXCLUDING ACCUMULATED DEPLETION, DEPRECIATION AND AMORTIZATION)	WESTERN PROPERTIES	GREAT NORTHERN	NEW GAULEY	TOTAL
Coal.....	\$19,866	\$12,585	\$88	\$32,5
Timber.....	18,366	--	--	18,3
Land.....	4,144	1,938	--	6,0
Other.....	441	57	--	4
	-----	-----	---	-----
Total.....	\$42,817	\$14,580	\$88	\$57,4
	=====	=====	===	=====

- (c) Represents deferred financing costs, a note receivable and deferred revenues of the WPP Group that will not be contributed to Natural Resource Partners. The deferred revenues not contributed relate to a coal property that is not contributed to Natural Resource Partners.

F-9

NATURAL RESOURCE PARTNERS L.P.

NOTES TO PRO FORMA FINANCIAL STATEMENTS -- (CONTINUED)

- (d) Represents debt which will not be contributed to Natural Resource Partners by the WPP Group. The total debt not contributed to Natural Resource Partners is as follows (in thousands):

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Western Pocahontas.....	\$55,146
Great Northern.....	37,375
New Gauley.....	--
	-----
Total.....	\$92,521
	=====

- (e) Reflects gross proceeds to Natural Resource Partners of \$53.5 million from the issuance and sale of 2,674,253 common units at an assumed initial offering price of \$20.00 per share, of which 2,598,750 common units were sold to the public and 75,503 were sold to Great Northern and New Gauley.
- (f) Reflects payment of fees of \$577,500 for the new credit facility, underwriting discount of approximately \$3,378,000 (assuming the underwriters do not exercise their over-allotment option) and legal and other professional fees and expenses of approximately \$2,310,000 associated with the offering and \$577,500 for working capital purposes. The fees for the new revolving credit facility that will be capitalized and amortized and the underwriting commissions and offering expenses will be allocated to the common units. Also reflects \$845,000 cash contribution by Arch Coal to provide \$422,500 of working capital and \$422,500 for fees for the new revolving credit facility that will be capitalized and amortized. Also reflects payment of \$111,000 by Natural Resource Partners to the WPP Group which represents excess proceeds from the offering after the repayment of \$46.5 million of debt contributed by the WPP Group, the payment of expenses associated with the offering and related transactions and the funding of working capital.
- (g) Represents the repayment of \$46.5 million of debt assumed from the WPP Group.
- (h) Represents the pro rata allocation of the net assets contributed by the WPP Group and Arch Coal of \$154.1 million.
- (i) Reflects the acquisition of the net assets of Arch Coal in exchange for common and subordinated units and the general partner interest in Natural Resource Partners. The purchase price related to the Arch Coal Contributed Properties is calculated as follows:

	(IN THOUSANDS)
	-----
11,353,658 common units issued at the assumed initial offering price of \$20.00 per unit.....	\$ 227,073
11,353,658 subordinated units issued at the assumed initial offering price for the common units of \$20.00 per unit....	227,073
2% general partner interest equivalent to 463,415 units issued at \$20.00 per unit.....	9,268

Total purchase price for Arch Coal Contributed Properties...	\$ 196,638 =====
--	---------------------

F-10

### NATURAL RESOURCE PARTNERS L.P.

#### NOTES TO PRO FORMA FINANCIAL STATEMENTS -- (CONTINUED)

Under the purchase method of accounting, the purchase price was allocated to the Arch Coal assets based on the fair value determination indicated above. The total purchase price in excess of the historical cost of Arch Coal's assets was calculated as follows:

Total purchase price for Arch Coal Contributed Properties...	\$196,638
Less: Historical net book value of Arch Coal Contributed Properties.....	(77,371)
	-----
Total purchase price in excess of historical cost of Arch Coal Contributed Properties.....	\$119,267
	-----
Allocation to cash.....	423
Allocation to deferred financing costs.....	423
Allocation to mineral reserves.....	118,421
	-----
Allocation of purchase price in excess of historical cost...	\$119,267
	-----

The allocation of the purchase price of the Arch Coal Contributed Properties based on their relative fair values resulted in an increase to property and equipment of \$118,421, to reflect these assets at their estimated fair values. This allocation is preliminary and may change based on the final terms of the transactions, including the offering price and the number of units offered. The final purchase allocation is expected to be completed upon the consummation of the offering and related transactions.

The excess purchase price is allocated to the WPP Group and Arch Coal on a pro rata basis.

- (j) Represents the elimination of accumulated depletion associated with the acquisition of the Arch Coal Contributed Properties.
  
- (k) If at any time our general partner and its affiliates own more than 80% of the outstanding common units, our general partner has the right, but not the obligation, to purchase all of the common units at a price not less than their then market price. Upon completion of this offering, our general partner and its affiliates will own 60.4% of the outstanding common units. If we do not issue any equity securities prior to the expiration of the subordination period, upon the conversion of subordinated units into common units at the end of the subordination period, our general partner and its affiliates will own 80.2% of our outstanding common units and will be able to exercise this call right.

#### PRO FORMA ADJUSTMENTS TO REVENUES AND DIRECT COSTS AND EXPENSES

- (l) Represents coal royalties, timber royalties, gain on sale of property, lease and easement income and other revenue related to properties not

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

contributed to Natural Resource Partners by the WPP Group.

- (m) Represents property tax revenue and expenses and depletion directly related to properties not contributed to Natural Resource Partners by the WPP Group.
- (n) Represents the incremental depletion associated with the assets contributed by Arch Coal being recorded at fair value by Natural Resource Partners.
- (o) Pro forma as adjusted excess of revenues over direct costs and expenses does not include the historical general and administrative expenses related to the WPP Group and Arch Coal since these are not direct costs and expenses.

F-11

NATURAL RESOURCE PARTNERS L.P.

NOTES TO PRO FORMA FINANCIAL STATEMENTS -- (CONTINUED)

### RECENT FEDERAL DISTRICT COURT RULINGS

- (p) On May 8, 2002, the United States District Court for the Southern District of West Virginia issued an order in *Kentuckians for the Commonwealth v. Rivenburgh* enjoining the Huntington, West Virginia office of the U.S. Army Corps of Engineers from issuing permits under Section 404 of the Clean Water Act for the construction of valley fills for the disposal of overburden from mountaintop mining operations solely for the purpose of waste disposal. In connection with this case, the plaintiffs also filed a motion to revoke an existing permit. The court did not rule on this motion because it did not have sufficient factual information. On June 17, 2002, the court denied a motion from the U.S. Army Corps of Engineers requesting a stay of the initial order and indicated that it would consider a properly filed motion to revoke the existing permit. The Corps filed an appeal on July 3, 2002. For a further discussion of this case, please read "Business -- Regulation -- Clean Water Act."

We are unable to predict the ultimate outcome of this decision or the impact this decision may have on our lessees' operations and, therefore, our results of operations. The ruling could be upheld or reversed on appeal, settled by the parties or overturned by legislation, and this process could take several years to complete. If the decision is ultimately upheld in whole or in part on appeal, we cannot predict how it would be interpreted or implemented by the applicable governmental agencies or courts. Future litigation could result from ambiguities in the current order or ambiguities contained in future orders or decisions. In addition, although this ruling applies only to the Huntington, West Virginia office of the U.S. Army Corps of Engineers, future litigation, including appellate review of this case, could ultimately broaden its applicability to other offices of the U.S. Army Corps of Engineers, including offices which have issued and may issue in the future permits to our lessees for mining on our properties. We are also uncertain as to whether this ruling would impact only our lessees' future permits, or whether it would also apply to renewals of permits or to existing permits.

As a result of the uncertain disposition and effect on our lessees' operations from this ruling, we are unable to quantify or estimate the effect on our results of operations from this ruling. However, our properties that are subject to the Huntington district generated \$11.2

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

million, or 49%, of our pro forma coal royalty revenues for the six months ended June 30, 2002 and \$18.6 million, or 44%, of our pro forma coal royalty revenues for the year ended December 31, 2001. In addition, the properties contained 396 million tons, or 34%, of our proven and probable coal reserves as of December 31, 2001 and constituted \$116 million, or 34%, of our pro forma net property and equipment as of June 30, 2002.

While it is possible that the ruling may result in a material adverse effect upon our results of operations or financial condition, the financial information presented above is not intended to indicate the potential impact of Kentuckians decision for the reasons discussed above. Please read "Risk Factors -- A recent federal district court ruling could preclude our lessees from obtaining Clean Water Act permits required for some of their future operations and could also result in the revocation of existing permits" and "Business -- Regulation."

NATURAL RESOURCE PARTNERS L.P.

REPORT OF INDEPENDENT AUDITORS

To Natural Resource Partners L.P.:

We have audited the accompanying balance sheet of Natural Resource Partners L.P. as of April 15, 2002. This financial statement is the responsibility of the Partnership's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the balance sheet is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the balance sheet referred to above presents fairly, in all material respects, the financial position of Natural Resource Partners L.P. as of April 15, 2002 in conformity with accounting principles generally accepted in the United States.

NATURAL RESOURCE PARTNERS L.P.

NOTE TO BALANCE SHEET

The accompanying April 15, 2002 balance sheet of Natural Resource Partners L.P. (the "Partnership") has been audited. The June 30, 2002 interim period balance sheet and related disclosures have not been audited. In management's opinion, the unaudited balance sheet included herein contains all adjustments necessary to present fairly the Partnership's financial position as of the period indicated. Such adjustments are of a normal, recurring nature. The unaudited balance sheet should be read in conjunction with the audited balance sheet and the notes thereto.

The Partnership is a Delaware limited partnership formed on April 9, 2002 to acquire certain of the producing coal royalty related assets of Western Pocahontas Properties Limited Partnership, Great Northern Properties Limited Partnership, New Gauley Coal Corporation and Ark Land Company.

The Partnership intends to offer common units, representing limited partner interests, pursuant to a public offering, and to concurrently issue common units and subordinated units, representing additional limited partner interests, to Western Pocahontas Properties Limited Partnership, Great Northern Properties Limited Partnership, New Gauley Coal Corporation and Arch Coal, Inc.

NRP (GP) LP, as general partner, contributed \$20 and affiliates of the Partnership, as limited partners, contributed \$980 in proportion to their ownership on April 15, 2002. There have been no other transactions involving the Partnership as of April 15, 2002.

F-15

WESTERN POCAHONTAS PROPERTIES LIMITED PARTNERSHIP FINANCIAL STATEMENTS

REPORT OF INDEPENDENT AUDITORS

The Partners of Western Pocahontas Properties Limited Partnership

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

We have audited the accompanying balance sheets of Western Pocahontas Properties Limited Partnership as of December 31, 2000 and 2001, and the related statements of income, changes in partners' capital and cash flows for each of the three years in the period ended December 31, 2001. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Western Pocahontas Properties Limited Partnership at December 31, 2000 and 2001, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2001, in conformity with accounting principles generally accepted in the United States.

WESTERN POCAHONTAS PROPERTIES LIMITED PARTNERSHIP

NOTES TO FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION AND ORGANIZATION

The accompanying 1999, 2000 and 2001 financial statements of Western Pocahontas Properties Limited Partnership (the "Partnership") have been audited. The June 30, 2001 and 2002 interim period financial statements and related

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

disclosures have not been audited. In management's opinion, the unaudited financial statements included herein contain all adjustments necessary to present fairly the Partnership's financial position, results of operations and cash flows for the periods indicated. Such adjustments are of a normal, recurring nature. The unaudited financial statements should be read in conjunction with the audited financial statements and the notes thereto.

The Partnership, a Delaware limited partnership, was formed in 1986 to own and manage land and mineral rights and timber located in West Virginia, Kentucky, Alabama, Maryland and Indiana. Western Pocahontas Corporation ("WPC"), a Texas corporation, serves as the general partner. All items of income and loss of the Partnership are allocated 1% to the general partner and 99% to the limited partners.

The Partnership enters into leases with various third-party operators for the right to mine coal reserves and harvest timber on the Partnership's land in exchange for royalty payments. Generally, the coal lessees make payments to the Partnership based on the greater of a percentage of the gross sales price or a fixed price per ton of coal they sell, subject to minimum annual or quarterly payments. The timber lessees make payments to the Partnership based on pre-determined rates per board foot harvested.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### USE OF ESTIMATES

Preparation of the accompanying financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### CASH AND CASH EQUIVALENTS

The Partnership considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. Restricted cash represents cash and cash equivalents placed in a defeasance trust and are pledged to the Partnership's lender for debt service requirements. Cash placed in escrow in the amount of \$1.0 million relates to the purchase of a reversionary interest by the Partnership subsequent to December 31, 2001 (see Note 3).

#### PROPERTY AND EQUIPMENT

Land, coal property and timberlands are carried at cost and include expenditures for additions and improvements, such as roads and land improvements, which substantially increase the productive lives of the existing assets. Maintenance and repair costs are expensed as incurred. Coal properties are depleted on a unit-of-production basis by lease based upon coal mined in relation to the net cost of the mineral properties and estimated proven and probable tonnage therein. Timberlands are depleted based on the volume of timber harvested in relation to the amount of estimated merchantable timber volume.

#### ASSET IMPAIRMENT

If facts and circumstances suggest that a long-lived asset may be impaired, the carrying value is reviewed. If this review indicates that the value of the asset will not be recoverable, as determined based on projected undiscounted cash flows related to the asset over its remaining life, then the carrying value of the asset is reduced to its estimated fair value.

WESTERN POCAHONTAS PROPERTIES LIMITED PARTNERSHIP

NOTES TO FINANCIAL STATEMENTS -- (CONTINUED)

CONCENTRATION OF CREDIT RISK

Substantially all of the Partnership's accounts receivable result from amounts due from third party companies in the coal industry. This concentration of customers may impact the Partnership's overall credit risk, either positively or negatively, in that these entities may be similarly affected by changes in economic or other conditions. Receivables are generally not collateralized. Historical credit losses incurred by the Partnership on receivables have not been significant.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The Partnership's financial instruments consist of cash and cash equivalents, accounts receivable, accounts payable and long-term debt. The carrying value of these financial instruments approximate fair value. Fair values of debt instruments were determined using discounted cash flow techniques.

DEFERRED FINANCING COSTS

Deferred financing costs consists of legal and other costs related to the issuance of the Partnership's long-term note payable. These costs are amortized over the term of the note payable.

REVENUES

Coal Royalties. Coal royalty revenues are recognized on the basis of tons of coal sold by the Partnership's lessees and the corresponding revenue from those sales. Generally, the coal lessees make payments to the Partnership based on the greater of a percentage of the gross sales price or a fixed price per ton of coal they sell, subject to minimum annual or quarterly payments.

Timber Royalties. Timber is sold on a contract basis where independent contractors harvest and sell the timber. Timber revenues are recognized when the timber has been harvested by the independent contractors.

Minimum Royalties. Most of the Partnership's lessees must make minimum annual or quarterly payments which are generally recoupable over certain time periods. These minimum payments are recorded as deferred revenue. The deferred revenue attributable to the minimum payment is recognized as coal royalty revenues either when the lessee recoups the minimum payment through production or when the period during which the lessee is allowed to recoup the minimum payment expires.

PROPERTY TAXES

The Partnership is responsible for paying property taxes on the properties it owns. The lessees are responsible for reimbursing the Partnership for property taxes on the leased properties. The reimbursement of property taxes is included in revenues in the statement of income as property tax.

INCOME TAXES

The Partnership is not a taxpaying entity as the individual partners are responsible for reporting their pro-rata share of the Partnership's taxable income or loss. In the event of an examination of the Partnership's tax return,

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

the tax liability of the partners could be changed if an adjustment in the Partnership's income is ultimately sustained by the taxing authorities.

### NEW ACCOUNTING STANDARDS

In June 2001, the FASB issued SFAS No. 141, "Business Combinations," and SFAS No. 142, "Goodwill and Other Intangible Assets." SFAS No. 141 eliminates pooling-of-interests accounting and requires all business combinations initiated after June 30, 2001 to be accounted for using the purchase

F-22

### WESTERN POCAHONTAS PROPERTIES LIMITED PARTNERSHIP

#### NOTES TO FINANCIAL STATEMENTS -- (CONTINUED)

method. With regard to intangible assets, SFAS No. 141 states that intangible assets acquired in a business combination subsequent to June 30, 2001 should be recognized separately if the benefit of the intangible asset is obtained through contractual rights or if the intangible asset can be sold, transferred, licensed, rented to or exchanged, without regard to the acquirer's intent. The adoption of SFAS No. 141 did not have a material impact on the 2001 financial statements. SFAS No. 142 discontinues goodwill amortization; rather, goodwill will be subject to at least an annual fair-value based impairment test. The adoption of SFAS No. 142 on January 1, 2002 did not have a material impact on our financial statements.

In June 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations." SFAS No. 143 requires that the fair value of a liability for an asset retirement obligation be recognized in the period in which it is incurred with the associated asset retirement cost being capitalized as a part of the carrying amount of the long-lived asset. SFAS No. 143 also includes disclosure requirements that provide a description of asset retirement obligations and a reconciliation of changes in the components of those obligations. We are evaluating the future financial effects of adopting SFAS No. 143 and expect to adopt the standard effective January 1, 2003.

In August 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." SFAS No. 144 addresses the accounting and reporting for the impairment or disposal of long-lived assets and supersedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" and APB Opinion No. 30, "Reporting the Results of Operations -- Reporting the Effects of the Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions." The objective of SFAS No. 144 is to establish one accounting model for long-lived assets to be disposed of by sale as well as resolve implementation issues related to SFAS No. 121. The adoption of SFAS No. 144 on January 1, 2002 did not have a material impact on our financial position or results of operations.

In April 2002, the FASB issued SFAS No. 145, "Rescission of FASB Statements No. 4, 44 and 62, Amendment of FASB Statement No. 13, and Technical Corrections." Among other things, SFAS No. 145 will require gains and losses on extinguishments of debt to be classified as income or loss from continuing operations rather than as extraordinary items as previously required under SFAS No. 4. The provisions of this Statement related to the rescission of SFAS No. 4 shall be applied in fiscal years beginning after May 15, 2002. We do not expect the adoption of SFAS No. 145 on January 1, 2003 to have a material impact on our financial position or results of operations.

### 3. REVERSIONARY INTEREST

The previous owner of the Partnership's coal and timber properties (CSX

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Corporation and certain of its affiliates, or "CSX") retained a reversionary interest in those properties whereby it receives either a 25% or 28% interest in the properties and the net revenues, as defined, from the properties after July 1, 2001, and in the net proceeds, as defined, from any property sale occurring prior to July 1, 2001.

In 2000, the Partnership sold 1,391 acres of surface land to a third party and paid \$1.3 million to CSX related to its reversionary interest in the property. In 2001, the Partnership sold 1,928 acres of surface land to various third parties and paid \$936,000 to CSX related to its reversionary interest in these properties (see Note 4).

In December 2001, the Partnership purchased from CSX its reversionary interest in the Partnership's Kentucky properties for \$2.0 million in cash and a note payable of \$7.9 million (see Note 5). The Partnership allocated \$8.8 million to coal and timber properties and \$1.1 million to a reduction in the reversionary interest payable for the six months ended December 31, 2001.

In March 2002, the Partnership purchased from CSX its reversionary interest in the remaining assets subject to the reversionary interest. The Partnership allocated \$35 million to coal and timber properties

F-23

### WESTERN POCAHONTAS PROPERTIES LIMITED PARTNERSHIP

#### NOTES TO FINANCIAL STATEMENTS -- (CONTINUED)

and \$1.4 million to a reduction in the reversionary interest payable for the six months ended June 30, 2002. The purchase was financed with a \$45.0 million loan and a portion of the proceeds were used to retire the \$7.9 million note that the Partnership issued in December 2001 as part of the consideration for the purchase of the reversionary interest in Kentucky (see Note 5).

#### 4. PROPERTY AND EQUIPMENT

Property and equipment includes:

	DECEMBER 31,		JUNE 30,
	2000	2001	2002
			(UNAUDITED)
			(IN THOUSANDS)
Land.....	\$ 4,497	\$ 4,144	\$ 4,144
Coal properties.....	95,799	103,922	133,595
Timberlands.....	12,420	12,915	18,365
Other.....	421	443	443
	\$113,137	\$121,424	\$156,547

In 2000, the Partnership sold 1,391 acres of surface land and recognized a gain of \$4.0 million after considering CSX's reversionary interest (see Note 3). In connection with the sale, the Partnership was required to place \$1.9 million in its debt service account (see Note 5).

In 2001, the Partnership sold 1,928 acres of surface land and recognized a gain of \$3.1 million after considering CSX's reversionary interest (see Note 3).

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

In connection with the sale, the Partnership was required to place \$2.1 million in its debt service account (see Note 5).

As explained in Note 3, the Partnership completed the acquisition of the reversionary interest from CSX in December 2001 and March 2002.

### 5. LONG-TERM DEBT

Long-term debt consisted of the following:

	DECEMBER 31,		JUNE 30,
	2000	2001	2002
			(UNAUDITED)
	(IN THOUSANDS)		
7.6% fixed notes payable due April 1, 2013.....	\$53,430	\$50,682	\$49,226
7.84% fixed notes payable due March 1, 2012.....	--	--	15,000
Variable rate senior notes bearing interest at 4.91% at June 30, 2002, due March 1, 2012.....	--	--	30,000
Less -- Current portion of notes payable.....	(2,749)	(2,966)	(3,080)
Long-term debt.....	\$50,681	\$47,716	\$91,146
	=====	=====	=====

F-24

### WESTERN POCAHONTAS PROPERTIES LIMITED PARTNERSHIP

#### NOTES TO FINANCIAL STATEMENTS -- (CONTINUED)

As of December 31, 2001, principal maturities of long-term debt over the next five years were as follows:

	YEAR ENDED DECEMBER 31,
	(IN THOUSANDS)
2002.....	\$ 2,966
2003.....	3,199
2004.....	3,451
2005.....	3,722
2006.....	4,015
Thereafter.....	33,329

The notes are collateralized by a mortgage on the Partnership's properties, a security interest in accounts receivable, other assets and the partners' interest in the Partnership and the common stock of WPC. The Partnership is required to maintain an aggregate minimum balance of \$3.0 million in cash and cash equivalents, which is pledged to its lenders. The Partnership is allowed to make cash distributions to its partners provided no event of default exists, as defined, and the aggregate cash balance is not reduced below \$4.0 million by any distribution.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

The Partnership is required to contribute cash or cash equivalents to a debt service account when the Partnership receives royalties related to coal tonnage or timber harvested greater than a predetermined amount or sells certain properties. Pursuant to these provisions, the Partnership contributed \$2.1 million and \$2.4 million to the debt service account for the years ended December 31, 2000 and 2001, respectively.

On December 10, 2001, the Partnership issued a \$7.9 million non-interest bearing note payable to an affiliate of CSX in conjunction with the purchase of CSX's reversionary interest in properties located in Kentucky (see Note 3), and is subject to a Purchase and Sale Agreement between the CSX affiliate and the Partnership. The note was due and paid-off in March 2002. A discount of \$152,000 was imputed for the period ended December 31, 2001 (see Note 3).

### 6. RELATED PARTY TRANSACTIONS

A company controlled by the owner of WPC provides certain administrative services to the Partnership and charges the Partnership for the direct costs related to the administrative services. The total expenses charged to the Partnership under this arrangement were \$500,000 for each of the years ended December 31, 1999, 2000 and 2001. These costs are reflected in the general and administrative expenses in the accompanying statements of income.

The Partnership has a management contract to provide certain management, engineering and accounting services to Great Northern Properties Limited Partnership ("GNP"), a limited partnership which has certain common ownership with the Partnership. The contract provides for a \$250,000 annual fee, which is intended to reimburse the Partnership for its expense. This fee is presented as other revenue in the accompanying statement of income. The contract may be canceled upon 90 days advance notice by GNP.

### 7. EMPLOYEE BENEFIT PLANS

Substantially all employees of the Partnership are covered by a noncontributory retirement plan and a defined contribution thrift plan. Under the retirement plan, the Partnership contributes annually an amount

F-25

## WESTERN POCAHONTAS PROPERTIES LIMITED PARTNERSHIP

### NOTES TO FINANCIAL STATEMENTS -- (CONTINUED)

equal to one-twelfth of each participant's base compensation. Participants vest in the retirement plan based on the following:

YEARS OF SERVICE -----	PERCENT VESTED -----
0-4.....	50%
5.....	60%
6.....	80%
7 or more.....	100%

A participant is fully vested upon termination of employment as a result of death, disability, reduction of labor force or retirement on or after age 55. For each of the years ended December 31, 1999, 2000 and 2001, the Partnership contributed approximately \$90,000 to the retirement plan.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Under the thrift plan, participants may contribute up to 12% of their base compensation, subject to a maximum set by IRS regulations, on a tax-deferred basis. The Partnership makes matching contributions equal to 100% of each participant's contributions to the extent of 3% of base compensation and 50% of each participant's contributions between 3% and 6% of base compensation. The Partnership's contribution is 40% vested after two years of service with the vested interest increasing by 20% for each additional year of service. A participant is fully vested as to his own contributions and is fully vested as to the Partnership's contributions upon termination of employment as a result of death, reduction of labor force, disability or retirement on or after age 55. For each of the years ended December 31, 1999, 2000 and 2001, the Partnership made matching contributions in an amount of approximately \$50,000.

### 8. COMMITMENTS AND CONTINGENCIES

#### LEGAL

The Partnership is involved, from time to time, in various legal proceedings arising in the ordinary course of business. While the ultimate results of these proceedings cannot be predicted with certainty, Partnership management believes these claims will not have a material effect on the Partnership's financial position, liquidity or operations.

#### ENVIRONMENTAL COMPLIANCE

The operations conducted on Partnership properties by its lessees are subject to environmental laws and regulations adopted by various governmental authorities in the jurisdictions in which these operations are conducted. As owner of surface interests in some properties, the Partnership may be liable for certain environmental conditions occurring at the surface properties. The terms of substantially all of the Partnership's coal leases require the lessee to comply with all applicable laws and regulations, including environmental. The lessees obtain reclamation bonds and substantially all of the leases require the lessee to indemnify the Partnership against, among other things, environmental liabilities. Some of these indemnifications survive the termination of the lease. Employees of the Partnership regularly visit the mines to ensure compliance with lease terms, but the duty to comply with all regulations rests with the lessees. Management believes that the Partnership's lessees will be able to comply with existing regulations and does not expect any material impact on its financial condition or results of operations. The Partnership has neither incurred, nor is aware of, any material environmental charges imposed on it related to its properties for the years ended December 31, 1999, 2000 and 2001. The Partnership is not associated with any environmental contamination that may require remediation costs. However, our lessees do, from time to time, conduct reclamation work on our properties under lease to them. Because the Partnership is not the permittee of the mines being reclaimed, it is not responsible for the costs associated with these reclamation operations. Each of our lessees is required to post a bond assuring that the reclamation will be

F-26

#### WESTERN POCAHONTAS PROPERTIES LIMITED PARTNERSHIP

#### NOTES TO FINANCIAL STATEMENTS -- (CONTINUED)

completed as required by the permit. However, in the event any of our lessees is unable to complete the reclamation obligations and their bonding company likewise fails to meet the obligations or provide money to the state to perform the reclamation, the Partnership could be held liable for these costs.

#### LEASE COMMITMENTS AND GUARANTEES

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

The total rental and lease expenses for each of the years ended December 31, 1999, 2000 and 2001 were approximately \$143,000, \$167,000 and \$142,000, respectively. The minimum rental payments for the next five years are as follows:

	YEAR ENDED DECEMBER 31,
	(IN THOUSANDS)
2002.....	\$110
2003.....	110
2004.....	110
2005.....	115
2006.....	115

The Partnership guaranteed a \$2.0 million note payable of New Gauley Coal Corporation, the outstanding balance of which totaled approximately \$1.8 million and \$1.7 million at December 31, 2000 and 2001, respectively. New Gauley Coal Corporation was formerly wholly owned by the Partnership.

### 9. MAJOR LESSEES

The Partnership depends on a few lessees for a significant portion of its revenues. Revenues from major lessees which exceed ten percent of total revenues are as follows:

	YEAR ENDED DECEMBER 31,					
	1999		2000		2001	
	REVENUES	PERCENT	REVENUES	PERCENT	REVENUES	PERCENT
	(DOLLARS IN THOUSANDS)					
Lessee A.....	\$4,263	19.2%	\$3,800	16.9%	\$2,658	10.2%
Lessee B.....	1,367	6.2%	\$1,139	5.1%	--	--
Lessee C.....	2,036	9.2%	\$1,287	5.7%	5,117	19.7%

### 10. SEGMENT INFORMATION

Segment information has been provided in accordance with SFAS No. 131, "Disclosure about Segments of an Enterprise and Related Information." The Partnership's reportable segments are as follows:

**Coal Royalty.** The coal royalty segment is engaged in managing the Partnership's coal properties.

**Timber Royalty.** The Partnership's timber segment is engaged in the selling of standing timber on the Partnership's properties.

### 11. SUBSEQUENT EVENT

In connection with the formation of Natural Resource Partners L.P. and its proposed public offering of limited partnership units, the Partnership intends to transfer to Natural Resource Partners L.P. at historical cost value certain coal royalty producing properties that are currently under lease to coal mine operators. The Partnership will also transfer portions of deferred revenue and long-term debt to Natural Resource Partners L.P. The Partnership will retain a coal reserve property that is leased to a third party that is experiencing permitting problems. Additionally, the Partnership will retain unleased coal reserve properties, surface land and timberlands.

GREAT NORTHERN PROPERTIES LIMITED PARTNERSHIP FINANCIAL STATEMENTS

REPORT OF INDEPENDENT AUDITORS

The Partners of Great Northern Properties Limited Partnership

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

We have audited the accompanying balance sheets of Great Northern Properties Limited Partnership as of December 31, 2000 and 2001, and the related statements of income, changes in partners' capital and cash flows for each of the three years in the period ended December 31, 2001. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Great Northern Properties Limited Partnership at December 31, 2000 and 2001, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2001, in conformity with accounting principles generally accepted in the United States.

F-34

GREAT NORTHERN PROPERTIES LIMITED PARTNERSHIP

NOTES TO FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION AND ORGANIZATION

The accompanying 1999, 2000 and 2001 financial statements of Great Northern Properties Limited Partnership (the "Partnership") have been audited. The June 30, 2001 and 2002 interim period financial statements and related disclosures have not been audited. In management's opinion, the unaudited financial statements included herein contain all adjustments necessary to present fairly the Partnership's financial position, results of operations and cash flows for the periods indicated. Such adjustments are of a normal, recurring nature. The unaudited financial statements should be read in conjunction with the audited financial statements and the notes thereto.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

The Partnership, a Delaware limited partnership, was formed in 1992 to own and manage land and mineral rights located in Montana, North Dakota, Wyoming, Illinois and Washington. GNP Management Corporation ("GNP"), a Delaware corporation, serves as its general partner. All items of income and loss of the Partnership are allocated 1% to the general partner and 99% to the limited partners. In 1999, a limited partner's interest in the Partnership was redeemed by the partners for \$1,000.

The Partnership enters into leases with various coal mine operators for the right to mine coal reserves on the Partnership's land in exchange for royalty payments. Generally, the lessees make payments to the Partnership based on the greater of a percentage of the gross sales price or a fixed price per ton of coal they sell, subject to minimum annual or quarterly payments.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### USE OF ESTIMATES

Preparation of the accompanying financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### CASH AND CASH EQUIVALENTS

The Partnership considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. Restricted cash represents cash and cash equivalents placed in a debt service account and is pledged to the Partnership's lender for debt service requirements.

#### PROPERTY AND EQUIPMENT

Land and coal property are carried at cost and include expenditures for additions and improvements, such as roads and land improvements, which substantially increase the productive lives of the existing assets. Maintenance and repair costs are expensed as incurred. Coal properties are depleted on a unit-of-production basis by lease based upon coal mined in relation to the net cost of the mineral properties and estimated proven and probable tonnage therein.

#### ASSET IMPAIRMENT

If facts and circumstances suggest that a long-lived asset may be impaired, the carrying value is reviewed. If this review indicates that the value of the asset will not be recoverable, as determined based on projected undiscounted cash flows related to the asset over its remaining life, then the carrying value of the asset is reduced to its estimated fair value.

F-35

GREAT NORTHERN PROPERTIES LIMITED PARTNERSHIP

NOTES TO FINANCIAL STATEMENTS -- (CONTINUED)

#### CONCENTRATION OF CREDIT RISK

Substantially all of the Partnership's accounts receivable result from amounts due from third party companies in the coal industry. Coal royalties are principally received from two lessees (see Note 8). This concentration of

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

customers may impact the Partnership's overall credit risk, either positively or negatively, in that these entities may be similarly affected by changes in economic or other conditions. Receivables are generally not collateralized. Historical credit losses incurred by the Partnership on receivables have not been significant.

### FAIR VALUE OF FINANCIAL INSTRUMENTS

The Partnership's financial instruments consist of cash and cash equivalents, accounts receivable, accounts payable and long-term debt. The carrying value of these financial instruments approximate fair value. Fair values of debt instruments were determined using discounted cash flow techniques.

### DEFERRED FINANCING COSTS

Deferred financing costs consist of legal and other costs related to the issuance of the Partnership's long-term debt. These costs are amortized over the term of the debt.

### REVENUES

**Coal Royalties.** Coal royalty revenues are recognized on the basis of tons of coal sold by the Partnership's lessees and the corresponding revenue from those sales. Generally, the lessees make payments to the Partnership based on the greater of a percentage of the gross sales price or a fixed price per ton of coal they sell, subject to minimum annual or quarterly payments.

**Lease and Easement Income.** Lease and easement income is generated through contracts with third parties for use of the Partnership's land for transportation of coal mined on adjacent properties, agricultural grazing and recreational uses.

**Minimum Royalties.** Most of the Partnership's lessees must make minimum annual or quarterly payments which are generally recoupable over certain time periods. These minimum payments are recorded as deferred revenue. The deferred revenue attributable to the minimum payment is recognized as coal royalty revenues either when the lessee recoups the minimum payment through production or when the period during which the lessee is allowed to recoup the minimum payment expires.

### PROPERTY TAXES

The Partnership is responsible for paying property taxes on the properties it owns. The lessees are responsible for reimbursing the Partnership for property taxes on the leased properties. The reimbursement of property taxes is included in revenues in the statement of income as property tax.

### INCOME TAXES

The Partnership is not a taxpaying entity as the individual partners are responsible for reporting their pro rata share of the Partnership's taxable income or loss. In the event of an examination of the Partnership's tax return, the tax liability of the partners could be changed if an adjustment in the Partnership's income is ultimately sustained by the taxing authorities.

### NEW ACCOUNTING STANDARDS

In June 2001, the FASB issued SFAS No. 141, "Business Combinations", and SFAS No. 142, "Goodwill and Other Intangible Assets." SFAS No. 141 eliminates pooling-of-interests accounting and

# Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

## GREAT NORTHERN PROPERTIES LIMITED PARTNERSHIP

### NOTES TO FINANCIAL STATEMENTS -- (CONTINUED)

requires all business combinations initiated after June 30, 2001 to be accounted for using the purchase method. With regard to intangible assets, SFAS No. 141 states that intangible assets acquired in a business combination subsequent to June 30, 2001 should be recognized separately if the benefit of the intangible asset is obtained through contractual rights or if the intangible asset can be sold, transferred, licensed, rented to or exchanged, without regard to the acquirer's intent. The adoption of SFAS No. 141 did not have a material impact on the 2001 financial statements. SFAS No. 142 discontinues goodwill amortization; rather, goodwill will be subject to at least an annual fair-value based impairment test. The adoption of SFAS No. 142 on January 1, 2002 did not have a material impact on our financial statements.

In June 2001, the FASB issued SFAS No. 143, "Accounting for Assets Retirement Obligations." SFAS No. 143 requires that the fair value of a liability for an asset retirement obligation be recognized in the period in which it is incurred with the associated asset retirement cost being capitalized as a part of the carrying amount of the long-lived asset. SFAS No. 143 also includes disclosure requirements that provide a description of asset retirement obligations and a reconciliation of changes in the components of those obligations. We are evaluating the future financial effects of adopting SFAS No. 143 and expect to adopt the standard effective January 1, 2003.

In August 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." SFAS No. 144 addresses the accounting and reporting for the impairment or disposal of long-lived assets and supersedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" and APB Opinion No. 30, "Reporting the Results of Operations -- Reporting the Effects of the Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions." The objective of SFAS No. 144 is to establish one accounting model for long-lived assets to be disposed of by sale as well as resolve implementation issues related to SFAS No. 121. The adoption of SFAS No. 144 on January 1, 2002 did not have a material impact on our financial position or results of operations.

In April 2002, the FASB issued SFAS No. 145, "Rescission of FASB Statements No. 4, 44 and 62, Amendment of FASB Statement No. 13, and Technical Corrections." Among other things, SFAS No. 145 will require gains and losses on extinguishments of debt to be classified as income or loss from continuing operations rather than as extraordinary items as previously required under SFAS No. 4. The provisions of this Statement related to the rescission of SFAS No. 4 shall be applied in fiscal years beginning after May 15, 2002. We do not expect the adoption of SFAS No. 145 on January 1, 2003 to have a material impact on our financial position or results of operations.

### 3. NONPARTICIPATING ROYALTY INTEREST

The previous owner of the Partnership's coal properties, Meridian Minerals Company ("Meridian"), a subsidiary of Burlington Resources, Inc., retained a nonparticipating royalty interest in certain properties, which were not leased at the time of acquisition, at a royalty rate ranging from 2% to 5%. Such properties are presently not leased. In the event any of the properties subject to the nonparticipating royalty interest are sold to a third party, Meridian will receive a certain percentage of the selling price as defined in the asset purchase agreement.

# Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

GREAT NORTHERN PROPERTIES LIMITED PARTNERSHIP

NOTES TO FINANCIAL STATEMENTS -- (CONTINUED)

## 4. PROPERTY AND EQUIPMENT

Property and equipment includes:

	DECEMBER 31,		JUNE 30,
	2000	2001	2002
			(UNAUDITED)
	(IN THOUSANDS)		
Land.....	\$ 2,207	\$ 2,172	\$ 2,172
Coal properties.....	70,491	70,491	70,491
Other.....	57	57	57
	-----	-----	-----
	\$72,755	\$72,720	\$72,720
	=====	=====	=====

In 2000, the Partnership sold 5,628 acres of surface land in Montana and recognized a gain of \$709,000.

In 2001, the Partnership sold 3,194 acres of surface land in Montana and recognized a gain of \$439,000.

## 5. LONG-TERM DEBT

Long-term debt consisted of the following:

	DECEMBER 31,		JUNE 30,
	2000	2001	2002
			(UNAUDITED)
	(IN THOUSANDS)		
Floating rate notes, bearing interest at 9.37 percent, 4.70 percent and 4.70 percent at December 31, 2000, December 31, 2001 and June 30, 2002, respectively, due September 30, 2004.....	\$50,125	\$48,625	\$47,875
Less -- Current portion of notes payable.....	(1,500)	(1,500)	(1,500)
	-----	-----	-----
Long-term debt.....	\$48,625	\$47,125	\$46,375
	=====	=====	=====

As of December 31, 2001, principal maturities of long-term debt over the next three years were as follows:

YEAR ENDED  
DECEMBER 31,

# Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

-----  
(IN THOUSANDS)

2002.....		\$ 1,500
2003.....		1,500
2004.....		45,625

The notes are collateralized by a mortgage on the Partnership's properties, a security interest in accounts receivable, other assets, the partners' interest in the Partnership and the debt service account established by the Partnership. The debt service account is funded quarterly with 100% of the Partnership's cash flows, defined as all cash revenue received by the Partnership, net of any operating expenses, management fees and up to a maximum of 20% of positive operating income to be used to pay the income tax liabilities of the partners as they relate to the Partnership properties, except that the Partnership may maintain \$250,000 in cash for general operating purposes. The debt service account will be used to collateralize the notes until the balance of the account reaches a minimum of \$10.0 million, after which the amount in excess of \$10.0 million may be applied directly to the outstanding balance of the notes. The Partnership contributed \$4.7 million and \$2.2 million to the debt service account for the years ended December 31, 2000 and 2001, respectively.

F-38

## GREAT NORTHERN PROPERTIES LIMITED PARTNERSHIP

### NOTES TO FINANCIAL STATEMENTS -- (CONTINUED)

In 1999, the Partnership retired senior and revolving notes with a carrying value of \$57.0 million. The Partnership paid a \$1.8 million prepayment penalty and expensed approximately \$878,000 of deferred financing costs related to the retired notes. These expenses have been classified as an extraordinary loss on the early extinguishment of debt in the statement of income.

#### 6. RELATED PARTY TRANSACTIONS

The Partnership has a management contract to receive management, engineering and accounting services from Western Pocahontas Properties Limited Partnership ("WPP"), a limited partnership which has some common ownership with the Partnership. The contract provides for a \$250,000 fee to be paid annually. Such amounts are reflected in general and administrative expenses in the statements of income. The contract may be canceled upon 90 days advance notice to the Partnership.

#### 7. COMMITMENTS AND CONTINGENCIES

##### LEGAL

The Partnership is involved, from time to time, in various legal proceedings arising in the ordinary course of business. While the ultimate results of these proceedings cannot be predicted with certainty, Partnership management believes these claims will not have a material effect on the Partnership's financial position, liquidity or operations.

##### ENVIRONMENTAL COMPLIANCE

The operations conducted on Partnership properties by its lessees are subject to environmental laws and regulations adopted by various governmental authorities in the jurisdictions in which these operations are conducted. As owner of surface interests in some properties, the Partnership may be liable for certain environmental conditions occurring at the surface properties. The terms

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

of substantially all of the Partnership's coal leases require the lessee to comply with all applicable laws and regulations, including environmental. The lessees obtain reclamation bonds and substantially all of the leases require the lessee to indemnify the Partnership against, among other things, environmental liabilities. Some of these indemnifications survive the termination of the lease. Employees regularly visit the mines to ensure compliance with lease terms, but the duty to comply with all regulations rests with the lessees. Management believes that the Partnership's lessees will be able to comply with existing regulations and does not expect any material impact on its financial condition or results of operations. The Partnership has neither incurred, nor is aware of, any material environmental charges imposed on it related to its properties for the years ended December 31, 1999, 2000 and 2001. The Partnership is not associated with any environmental contamination that may require remediation costs. However, our lessees do, from time to time, conduct reclamation work on our properties under lease to them. Because the Partnership is not the permittee of the mines being reclaimed, it is not responsible for the costs associated with these reclamation operations. Each of our lessees is required to post a bond assuring that the reclamation will be completed as required by the permit. However, in the event any of our lessees is unable to complete the reclamation obligations and their bonding company likewise fails to meet the obligations or provide money to the state to perform the reclamation, the Partnership could be held liable for these costs.

F-39

### GREAT NORTHERN PROPERTIES LIMITED PARTNERSHIP

#### NOTES TO FINANCIAL STATEMENTS -- (CONTINUED)

#### 8. MAJOR LESSEES

The Partnership depends on a few lessees for a significant portion of its revenues. Revenues from major lessees which exceed ten percent of total revenues are as follows:

	YEAR ENDED DECEMBER 31,					
	1999		2000		2001	
	REVENUES	PERCENT	REVENUES	PERCENT	REVENUES	PERCENT
	(IN THOUSANDS)					
Lessee A.....	\$8,637	70.0%	\$6,467	81.2%	\$5,324	60.5%
Lessee B.....	2,260	18.3%	1,233	15.5%	1,634	18.6%

#### 9. SUBSEQUENT EVENT

In connection with the formation of Natural Resource Partners L.P. and its proposed public offering of limited partnership units, the Partnership intends to transfer to Natural Resource Partners L.P. at historical cost certain coal royalty producing properties that are currently under lease to coal mine operators. The Partnership will also transfer portions of deferred revenue and long-term debt to Natural Resource Partners L.P. The Partnership will retain unleased coal reserve properties and surface land.

## NEW GAULEY COAL CORPORATION FINANCIAL STATEMENTS

### REPORT OF INDEPENDENT AUDITORS

The Stockholders of New Gauley Coal Corporation

We have audited the accompanying balance sheets of New Gauley Coal Corporation as of December 31, 2000 and 2001, and the related statements of income, changes in stockholders' equity (deficit) and cash flows for each of the three years in the period ended December 31, 2001. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of New Gauley Coal Corporation at December 31, 2000 and 2001, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2001, in conformity with accounting principles generally accepted in the United States.

NEW GAULEY COAL CORPORATION

NOTES TO FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION AND ORGANIZATION

The accompanying 1999, 2000 and 2001 financial statements of New Gauley Coal Corporation (the "Company") have been audited. The June 30, 2001 and 2002 interim period financial statements and related disclosures have not been audited. In management's opinion, the unaudited financial statements included herein contain all adjustments necessary to present fairly the Company's financial position, results of operations and cash flows for the periods indicated. Such adjustments are of a normal, recurring nature. The unaudited financial statements should be read in conjunction with the audited financial statements and the notes thereto.

The Company, a West Virginia subchapter S corporation, was incorporated in

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

1918 to own and manage land and mineral rights. The Company owns property located in Alabama and West Virginia.

The Company enters into leases with various coal mine operators for the right to mine coal reserves on the Company's land in exchange for royalty payments. Generally, the lessees make payments to the Company based on the greater of a percentage of the gross sales price or a fixed price per ton of coal they sell, subject to minimum annual or quarterly payments.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### USE OF ESTIMATES

Preparation of the accompanying financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### CASH AND CASH EQUIVALENTS

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

#### PROPERTY AND EQUIPMENT

Land and coal property are carried at cost and include expenditures for additions and improvements, such as roads and land improvements, which substantially increase the productive lives of the existing assets. Maintenance and repair costs are expensed as incurred. Coal properties are depleted on a unit-of-production basis by lease based upon coal mined in relation to the net cost of the mineral properties and estimated proven and probable tonnage therein.

#### ASSET IMPAIRMENT

If facts and circumstances suggest that a long-lived asset may be impaired, the carrying value is reviewed. If this review indicates that the value of the asset will not be recoverable, as determined based on projected undiscounted cash flows related to the asset over its remaining life, then the carrying value of the asset is reduced to its estimated fair value.

#### CONCENTRATION OF CREDIT RISK

Substantially all of the Company's accounts receivable result from amounts due from third party companies in the coal industry. Coal royalties are principally received from two lessees (see Note 8). This concentration of customers may impact the Company's overall credit risk, either positively or negatively, in that these entities may be similarly affected by changes in the economic or other conditions. Receivables

F-46

#### NEW GAULEY COAL CORPORATION

#### NOTES TO FINANCIAL STATEMENTS -- (CONTINUED)

are generally not collateralized. Historical credit losses incurred by the Company on receivables have not been significant.

#### FAIR VALUE OF FINANCIAL INSTRUMENTS

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

The Company's financial instruments consist of cash and cash equivalents, accounts receivable, accounts payable and long-term debt. The carrying value of these financial instruments approximate fair value. Fair values of debt instruments were determined using discounted cash flow techniques.

### DEFERRED FINANCING COSTS

Deferred financing costs consist of legal and other costs related to the issuance of the Company's long-term note payable. These costs are amortized over the term of the note payable.

### REVENUES

**Coal Royalties.** Coal royalty revenues are recognized on the basis of tons of coal sold by the Company's lessees and the corresponding revenue from those sales. Generally, the lessees make payments to the Company based on the greater of a percentage of the gross sales price or a fixed price per ton of coal they sell, subject to minimum annual or quarterly payments.

**Minimum Royalties.** Most of the Company's lessees must make minimum annual or quarterly payments which are generally recoupable over certain time periods. These minimum payments are recorded as deferred revenue. The deferred revenue attributable to the minimum payment is recognized as coal royalty revenues either when the lessee recoups the minimum payment through production or when the period during which the lessee is allowed to recoup the minimum payment expires.

### PROPERTY TAXES

The Company is responsible for paying property taxes on the properties it owns. One of the lessees is not responsible for reimbursing the Company for property taxes on the leased properties. The reimbursement of property taxes is included in revenues in the statement of income as property tax.

### INCOME TAXES

The Company is not a taxpaying entity as the individual stockholders are responsible for reporting their pro rata share of the Company's taxable income or loss. In the event of an examination of the shareholders' tax return, the tax liability of the shareholders could be changed if an adjustment in the shareholders' income is ultimately sustained by the taxing authorities.

### NEW ACCOUNTING STANDARDS

In June 2001, the FASB issued SFAS No. 141, "Business Combinations," and SFAS No. 142, "Goodwill and Other Intangible Assets." SFAS No. 141 eliminates pooling-of-interests accounting and requires all business combinations initiated after June 30, 2001 to be accounted for using the purchase method. With regard to intangible assets, SFAS No. 141 states that intangible assets acquired in a business combination subsequent to June 30, 2001 should be recognized separately if the benefit of the intangible asset is obtained through contractual rights or if the intangible asset can be sold, transferred, licensed, rented to or exchanged, without regard to the acquirer's intent. The adoption of SFAS No. 141 did not have a material impact on the 2001 financial statements. SFAS No. 142 discontinues goodwill amortization; rather, goodwill will be subject to at least an annual fair-value based impairment test. The adoption of SFAS No. 142 on January 1, 2002 did not have a material impact on our financial statements.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

### NOTES TO FINANCIAL STATEMENTS -- (CONTINUED)

In June 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations." SFAS No. 143 requires that the fair value of a liability for an asset retirement obligation be recognized in the period in which it is incurred with the associated asset retirement cost being capitalized as a part of the carrying amount of the long-lived asset. SFAS No. 143 also includes disclosure requirements that provide a description of asset retirement obligations and a reconciliation of changes in the components of those obligations. We are evaluating the future financial effects of adopting SFAS No. 143 and expect to adopt the standard effective January 1, 2003.

In August 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." SFAS No. 144 addresses the accounting and reporting for the impairment or disposal of long-lived assets and supersedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" and APB Opinion No. 30, "Reporting the Results of Operations -- Reporting the Effects of the Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions." The objective of SFAS No. 144 is to establish one accounting model for long-lived assets to be disposed of by sale as well as resolve implementation issues related to SFAS No. 121. The adoption of SFAS No. 144 on January 1, 2002 did not have a material impact on our financial position or results of operations.

In April 2002, the FASB issued SFAS No. 145, "Rescission of FASB Statements No. 4, 44 and 62, Amendment of FASB Statement No. 13, and Technical Corrections." Among other things, SFAS No. 145 will require gains and losses on extinguishments of debt to be classified as income or loss from continuing operations rather than as extraordinary items as previously required under SFAS No. 4. The provisions of this Statement related to the rescission of SFAS No. 4 shall be applied in fiscal years beginning after May 15, 2002. We do not expect the adoption of SFAS No. 145 on January 1, 2003 to have a material impact on our financial position or results of operations.

#### 3. REVERSIONARY INTEREST

The previous owner of the Company's coal properties (CSX Corporation and certain of its affiliates, or "CSX") retained a reversionary interest in certain of those properties whereby it receives a 25% interest in the properties and the net revenues, as defined, from the properties after July 1, 2001, and in the net proceeds, as defined, of any property sale occurring prior to July 1, 2001. The reversionary interest only applies to the Company's Alabama property. In March 2002, Western Pocahontas Properties Limited Partnership (the "Partnership"), who formerly owned the Company, purchased the reversionary interest from CSX. As a result of this transaction, the Alabama property is now owned 25% by the Partnership and 75% by the Company.

#### 4. NOTE RECEIVABLE

In June 2001, the Company loaned \$200,000 to a third party. The agreement requires the third party to use the proceeds to develop certain coal properties it owned. In exchange for the loan, the Company will receive a royalty on coal produced from the developed properties. The total royalty received by the Company is limited to the greater of \$200,000 plus 15% interest per year or \$240,000. If no royalties are received by June 2005, the third party is required to repay the note with interest. Currently, the Company has recognized \$15,000 of interest income related to this note. This agreement may be terminated at any time by the third party by repaying the note under the terms described above.

Thereafter.....	1,104

The note is collateralized by a mortgage on the Company's properties, a security interest in accounts receivable, other assets, the stockholders' interest in the Company and the debt service account established by the Company. The notes are guaranteed by the Partnership.

The Company is required to contribute cash or cash equivalents to a debt service account when the Company receives royalties greater than a predetermined amount or sells qualified properties. The Company was not required to contribute to the debt service account for the years ended December 31, 1999, 2000 and 2001.

7. COMMITMENTS AND CONTINGENCIES

LEGAL

The Company is involved, from time to time, in various legal proceedings arising in the ordinary course of business. While the ultimate results of these proceedings cannot be predicted with certainty,

F-49

NEW GAULEY COAL CORPORATION

NOTES TO FINANCIAL STATEMENTS -- (CONTINUED)

Company management believes these claims will not have a material effect on the Company's financial position, liquidity or operations.

ENVIRONMENTAL COMPLIANCE

The operations conducted on Company properties by its lessees are subject to environmental laws and regulations adopted by various governmental authorities in the jurisdictions in which these operations are conducted. As owner of surface interests in some properties, the Company may be liable for certain environmental conditions occurring at the surface properties. The terms of substantially all of the Company's coal leases require the lessee to comply with all applicable laws and regulations, including environmental. The lessees obtain reclamation bonds and substantially all of the leases require the lessee to indemnify the Company against, among other things, environmental liabilities. Some of these indemnifications survive the termination of the lease. Employees of the Company regularly visit the mines to ensure compliance with lease terms, but the duty to comply with all regulations rests with the lessees. Management believes that the Company's lessees will be able to comply with existing regulations and does not expect any material impact on its financial condition or results of operations. The Company has neither incurred, nor is aware of, any material environmental charges imposed on it related to its properties for the years ended December 31, 1999, 2000 and 2001. The Company is not associated with any environmental contamination that may require remediation costs. However, our lessees do, from time to time, conduct reclamation work on our properties under lease to them. Because the Company is not the permittee of the mines being reclaimed, it is not responsible for the costs associated with these reclamation operations. Each of our lessees is required to post a bond assuring that the reclamation will be completed as required by the permit. However, in the event any of our lessees is unable to complete the reclamation obligations and their bonding company likewise fails to meet the obligations or provide money to the state to perform the reclamation, the Company could be held liable for these costs.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

### 8. MAJOR LESSEES

The Company depends on a few lessees for a significant portion of its revenues. Revenues from major lessees which exceed ten percent of total revenues are as follows:

	YEAR ENDED DECEMBER 31,					
	1999		2000		2001	
	REVENUES	PERCENT	REVENUES	PERCENT	REVENUES	PERCENT
	(DOLLARS IN THOUSANDS)

Lessee B.....	640	44.6%	464	45.9%	477	27.7%

### 9. SUBSEQUENT EVENT

In connection with the formation of Natural Resource Partners L.P. and its proposed public offering of limited partnership units, the Company intends to transfer to Natural Resource Partners L.P. at historical cost certain coal royalty producing properties that are currently under lease to coal mine operators. The Company will also transfer portions of deferred revenue and long-term debt to Natural Resource Partners L.P. The Company will retain unleased coal reserve properties.

### ARCH COAL, INC. CONTRIBUTED PROPERTIES FINANCIAL STATEMENTS

#### REPORT OF INDEPENDENT AUDITORS

To the Stockholders and Board of Directors  
Arch Coal, Inc.

We have audited the accompanying statements of assets purchased and liabilities assumed as of December 31, 2000 and 2001, and the related statements of revenues and direct costs and expenses for each of the three years in the period ended December 31, 2001. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 1, the accompanying financial statements have been prepared solely to present the assets purchased and liabilities assumed of the properties acquired by Natural Resource Partners L.P. from Arch Coal, Inc., as of December 31, 2000 and 2001 and the revenue and direct costs and expenses of the acquired properties for each of the three years in the period ended December

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

31, 2001, for the purpose of complying with the requirements of the Securities and Exchange Commission and are not intended to be a complete presentation of the financial position and results of operations of the acquired properties on a stand-alone basis.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets purchased and liabilities assumed of the properties acquired from Arch Coal, Inc. as of December 31, 2000 and 2001, and the revenues and direct costs and expenses of the acquired properties for each of the three years in the period ended December 31, 2001, in conformity with accounting principles generally accepted in the United States.

## ARCH COAL, INC. CONTRIBUTED PROPERTIES

### NOTES TO FINANCIAL STATEMENTS

#### 1. BASIS OF PRESENTATION

The accompanying 1999, 2000 and 2001 financial statements of Arch Coal, Inc. Contributed Properties have been audited. The June 30, 2001 and 2002 interim period financial statements and related disclosures have not been audited. In management's opinion, the unaudited financial statements included herein contain all adjustments necessary to present fairly the assets purchased and liabilities assumed of the properties acquired from Arch Coal, Inc. and the revenues and direct costs and expenses of the acquired properties for the periods indicated. Such adjustments are of a normal, recurring nature. The unaudited financial statements should be read in conjunction with the audited financial statements and notes thereto.

Ark Land Company ("Ark Land") is a wholly owned subsidiary of Arch Coal, Inc. ("Arch Coal"). Ark Land owns and manages land and mineral rights primarily located in the Western, Central Appalachian and the Illinois Basins. In conjunction with the formation of Natural Resource Partners, Ark Land intends to contribute certain owned land and coal interests on which coal leasing activity

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

occurs ("Contributed Properties") to the Natural Resource Partners. Ark Land will retain owned land and mineral reserves with no leasing activity as well as other land and mineral reserves controlled through leasing arrangements. The accompanying statements have been prepared on Ark Land's historical cost basis in the Contributed Properties.

The Contributed Properties are not a legal entity and, except for revenues earned from the properties and certain direct costs and expenses of the properties and assets acquired and liabilities assumed, no separate financial information is maintained. The Contributed Properties do not maintain stand-alone corporate treasury, legal, tax, human resources, general administration and other similar corporate support functions. Corporate general and administrative expenses have not been previously allocated to the Contributed Properties, nor were they allocated in connection with the preparation of the accompanying statements because there was not sufficient information to develop a reasonable cost allocation. Because the separate and distinct accounts necessary to present individual balance sheets and income statements of the Contributed Properties have not been maintained as of December 31, 2000 and 2001 and for each of the three years ended December 31, 2001, Statements of Revenues and Direct Costs and Expenses and Assets Purchased and Liabilities Assumed have been prepared.

The accompanying Statements of Revenues and Direct Costs and Expenses and Statements of Assets Purchased and Liabilities Assumed are not intended to be a complete presentation of the financial position and results of operations of the Contributed Properties. The accompanying financial statements were prepared to comply with the requirements of the Securities and Exchange Commission for inclusion in the registration statement, and to provide information regarding the Contributed Properties to potential investors in Natural Resource Partners.

With respect to cash flows, the Contributed Properties do not maintain cash accounts. Cash receipts and expenditures are maintained by Ark Land. A description of cash flows directly attributable to the Contributed Properties is included in Note 6.

## 2. ACCOUNTING POLICIES

### ACCOUNTING ESTIMATES

Preparation of the accompanying financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

F-54

### ARCH COAL, INC. CONTRIBUTED PROPERTIES

### NOTES TO FINANCIAL STATEMENTS -- (CONTINUED)

### COAL PROPERTIES

Coal properties are carried at cost. Coal properties are depleted on a unit-of-production basis by lease based upon coal mined in relation to the net cost of the mineral properties and estimated proven tonnage therein. Depletion occurs either as Arch Coal mines on the property, or as others mine on the property through leasing transactions.

### ASSET IMPAIRMENT

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

If facts and circumstances suggest that a long-lived asset may be impaired, the carrying value is reviewed. If this review indicates that the value of the asset will not be recoverable, as determined based on projected undiscounted cash flows related to the asset over its remaining life, then the carrying value of the asset is reduced to its estimated fair value. See additional discussion in Note 7, "Write-Down of Impaired Assets".

### REVENUES

**Coal Royalties.** Coal royalty revenues are recognized on the basis of tons of coal sold by the Partnership's lessees and the corresponding revenue from those sales. Generally, the coal lessees make payments to the Contributed Properties based on the greater of a percentage of the gross sales price or a fixed price per ton of coal they sell, subject to minimum annual or quarterly payments.

**Minimum Royalties.** Most of the Contributed Properties' lessees must make minimum annual or quarterly payments which are generally recoupable over certain time periods. These minimum payments are recorded as deferred revenue. The deferred revenue attributable to the minimum payment is recognized as coal royalty revenues either when the lessee recoups the minimum payment through production or when the period during which the lessee is allowed to recoup the minimum payment expires.

### PROPERTY TAXES

Ark Land is responsible for paying property taxes on the properties it owns. The lessees are responsible for reimbursing Ark Land for property taxes on the leased properties. The reimbursement of property taxes is included in revenues in the statement of revenues and direct costs and expenses as property tax.

### NEW ACCOUNTING STANDARDS

While these financial statements are not intended to be a complete presentation of financial statements prepared in conformity with accounting principles generally accepted in the United States, the following recent accounting pronouncements are included in consideration of potential impacts associated with the accounts included in these financial statements.

In June 1998, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 133, "Accounting for Derivative Instruments and Hedging Activities." SFAS No. 133, as amended, establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities. It requires an entity to recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value. The adoption of SFAS No. 133 on January 1, 2001 did not have a material impact on the Contributed Properties' financial position or results of operations. The Contributed Properties currently do not use derivative instruments.

F-55

ARCH COAL, INC. CONTRIBUTED PROPERTIES

NOTES TO FINANCIAL STATEMENTS -- (CONTINUED)

On July 20, 2001, the FASB issued SFAS No. 142, "Goodwill and Other Intangible Assets." SFAS No. 142 discontinues goodwill amortization over its estimated useful life; rather, goodwill will be subject to at least an annual

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

fair-value based impairment test. With regard to intangible assets, SFAS No. 142 states that acquired intangible assets should be recognized separately if the benefit of the intangible asset is obtained through contractual rights or if the intangible asset can be sold, transferred, licensed, rented or exchanged, without regard to the acquirer's intent. The future adoption of SFAS No. 142 on January 1, 2002 will not have a material impact on the Contributed Properties' financial position or results of operations. The Contributed Properties currently do not have any goodwill or intangible assets recorded in its financial statements.

In June 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations." SFAS No. 143 requires that the fair value of a liability for an asset retirement obligation be recognized in the period in which it is incurred with the associated asset retirement costs being capitalized as a part of the carrying amount of the long-lived asset. SFAS No. 143 also includes disclosure requirements that provide a description of asset retirement obligations and a reconciliation of changes in the components of those obligations. The Contributed Properties are evaluating the future financial effects of adopting SFAS No. 143 and expects to adopt the standard effective January 1, 2003.

In August 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." SFAS No. 144 addresses accounting and reporting for the impairment or disposal of long-lived assets and supersedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of" and APB Opinion No. 30, "Reporting the Results of Operations -- Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions." The objective of SFAS No. 144 is to establish one accounting model for long-lived assets to be disposed of by sale as well as resolve implementation issues related to SFAS No. 121. The Contributed Properties expect to adopt SFAS No. 144 effective January 1, 2002 and does not expect such adoption to have a material impact on its financial position or results of operations.

### 3. RELATED PARTY TRANSACTIONS

Certain of the Contributed Properties are leased to affiliates of Arch Coal that mine on the properties. Contracted royalty rates from these affiliates ("affiliate royalties") for the three years ended December 31, 2001 were 6.5% of the gross sales price of coal sold from the property using underground mining methods and 7.5% of the gross sales price of coal sold from the property using surface mining methods, which are similar to those that are received from third parties. Affiliate royalties amounted to \$10.5 million, \$10.2 million and \$10.3 million during the years ended December 31, 2001, 2000 and 1999, respectively.

### 4. MAJOR LESSEES

The Contributed Properties depend on a few lessees for a significant portion of its revenues. Revenues from major lessees, which exceed 10% of total revenues, are as follows:

YEAR ENDED DECEMBER 31,					
1999		2000		2001

F-56

ARCH COAL, INC. CONTRIBUTED PROPERTIES

NOTES TO FINANCIAL STATEMENTS -- (CONTINUED)

5. ENVIRONMENTAL COMPLIANCE

The operations conducted on our property by our lessees are subject to environmental laws and regulations adopted by various governmental authorities in the jurisdictions in which these operations are conducted. As owner of surface interests in some properties, Ark Land may be liable for certain environmental conditions occurring at the surface properties. The terms of substantially all of Ark Land's coal leases require the lessee to comply with all applicable laws and regulations, including environmental. The lessees obtain reclamation bonds and substantially all of the leases require the lessee to indemnify Ark Land against, among other things, environmental liabilities. Some of these indemnifications survive the termination of the lease. Employees of Ark Land regularly visit the mines to ensure compliance with lease terms, but the duty to comply with all regulations rests with the lessees. Management of Ark Land believes that Ark Land's lessees will be able to comply with existing regulations and does not expect any material impact on the financial condition or results of operations of the Contributed Properties. Ark Land has neither incurred, nor is aware of, any material environmental charges imposed on it related to the Contributed Properties for the years ended December 31, 2001, 2000 and 1999.

6. CASH FLOW

The Contributed Properties do not maintain cash accounts. Cash receipts and expenditures are maintained by Ark Land. However, the following information is provided to identify direct cash flows generated from the Contributed Properties:

	YEAR ENDED DECEMBER 31,			SIX MONTHS ENDED	
	1999	2000	2001	JUNE 30,	2002

	=====	=====	=====	=====	=====

F-57

ARCH COAL, INC. CONTRIBUTED PROPERTIES

NOTES TO FINANCIAL STATEMENTS -- (CONTINUED)

7. WRITE-DOWN OF IMPAIRED ASSETS

During 1999, Arch Coal determined that as a result of several adverse regulatory rulings and the continued negative pricing trends related to Central Appalachian coal production experienced by Arch Coal that existed at that time, an evaluation of the recoverability of its active mining operations and coal reserves was necessary pursuant to SFAS 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of." The evaluation indicated that the future undiscounted cash flows of certain coal reserves were below the carrying value of such assets. Accordingly, Arch Coal adjusted the value of certain reserves. The estimated fair value for the coal reserves with no future mine plans was based upon the fair value of these properties to be derived from leasing operations. The Contributed Properties affected by the write-down were written down to approximately \$47.1 million, resulting in a non-cash impairment charge of \$65.2 million.

NRP (GP) LP

REPORT OF INDEPENDENT AUDITORS

To NRP (GP) LP:

We have audited the accompanying balance sheet of NRP (GP) LP as of April 15, 2002. This financial statement is the responsibility of the Partnership's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the balance sheet is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the balance sheet referred to above presents fairly, in all material respects, the financial position of NRP (GP) LP as of April 15, 2002 in conformity with accounting principles generally accepted in the United States.

NOTE TO BALANCE SHEET

NRP (GP) LP (the "Partnership") is a Delaware limited partnership formed on April 9, 2002 by GP Natural Resource Partners LLC as the general partner, and by Western Pocahontas Properties Limited Partnership, Great Northern Properties Limited Partnership, New Gauley Coal Corporation and Ark Land Company as limited partners to manage Natural Resource Partners L.P.

On April 15, 2002 GP Natural Resource Partners LLC, its general partner contributed \$1, and the limited partners contributed \$999 to the Partnership in exchange for 0.001% and 99.999% ownership interest respectively.

The Partnership has invested \$20 in Natural Resource Partners L.P. There have been no other transactions involving the Partnership as of April 15, 2002.

F-61

GP NATURAL RESOURCE PARTNERS LLC

REPORT OF INDEPENDENT AUDITORS

To the Board of Directors of  
GP Natural Resource Partners LLC:

We have audited the accompanying balance sheet of GP Natural Resource Partners LLC as of April 15, 2002. This financial statement is the responsibility of the LLC's management. Our responsibility is to express an opinion on this financial statement based on our audit.

Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the balance sheet is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the balance sheet referred to above presents fairly, in all material respects, the financial position of GP Natural Resource Partners LLC as of April 15, 2002 in conformity with accounting principles generally accepted in the United States.

### FIRST AMENDED AND RESTATED AGREEMENT OF LIMITED PARTNERSHIP OF NATURAL RESOURCE PARTNERS L.P.

THIS FIRST AMENDED AND RESTATED AGREEMENT OF LIMITED PARTNERSHIP OF NATURAL RESOURCE PARTNERS L.P., dated as of \_\_\_\_\_, 2002, is entered into by and among NRP (GP) LP, a Delaware limited partnership, as the General Partner, and GP Natural Resource Partners LLC, a Delaware limited liability company, as the Organizational Limited Partner, together with any other Persons who become Partners in the Partnership or parties hereto as provided herein. In consideration of the covenants, conditions and agreements contained herein, the parties hereto hereby agree as follows:

### ARTICLE I

#### DEFINITIONS

#### SECTION 1.1 Definitions.

The following definitions shall be for all purposes, unless otherwise clearly indicated to the contrary, applied to the terms used in this Agreement.

"Acquisition" means any transaction in which any Group Member acquires

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

(through an asset acquisition, merger, stock acquisition or other form of investment) control over all or a portion of the assets, properties or business of another Person for the purpose of increasing the operating capacity or revenues of the Partnership Group from the operating capacity or revenues of the Partnership Group existing immediately prior to such transaction.

"Additional Book Basis" means the portion of any remaining Carrying Value of an Adjusted Property that is attributable to positive adjustments made to such Carrying Value as a result of Book-Up Events. For purposes of determining the extent that Carrying Value constitutes Additional Book Basis:

(i) Any negative adjustment made to the Carrying Value of an Adjusted Property as a result of either a Book-Down Event or a Book-Up Event shall first be deemed to offset or decrease that portion of the Carrying Value of such Adjusted Property that is attributable to any prior positive adjustments made thereto pursuant to a Book-Up Event or Book-Down Event.

(ii) If Carrying Value that constitutes Additional Book Basis is reduced as a result of a Book-Down Event and the Carrying Value of other property is increased as a result of such Book-Down Event, an allocable portion of any such increase in Carrying Value shall be treated as Additional Book Basis; provided that the amount treated as Additional Book Basis pursuant hereto as a result of such Book-Down Event shall not exceed the amount by which the Aggregate Remaining Net Positive Adjustments after such Book-Down Event exceeds the remaining Additional Book Basis attributable to all of the Partnership's Adjusted Property after such Book-Down Event (determined without regard to the application of this clause (ii) to such Book-Down Event).

"Additional Book Basis Derivative Items" means any Book Basis Derivative Items that are computed with reference to Additional Book Basis. To the extent that the Additional Book Basis attributable to all of the Partnership's Adjusted Property as of the beginning of any taxable period exceeds the Aggregate Remaining Net Positive Adjustments as of the beginning of such period (the "Excess Additional Book Basis"), the Additional Book Basis Derivative Items for such period shall be reduced by the amount that bears the same ratio to the amount of Additional Book Basis Derivative Items determined without regard to this sentence as the Excess Additional Book Basis bears to the Additional Book Basis as of the beginning of such period.

"Additional Limited Partner" means a Person admitted to the Partnership as a Limited Partner pursuant to Section 10.4 and who is shown as such on the books and records of the Partnership.

A-1

"Adjusted Capital Account" means the Capital Account maintained for each Partner as of the end of each fiscal year of the Partnership, (a) increased by any amounts that such Partner is obligated to restore under the standards set by Treasury Regulation Section 1.704-1(b)(2)(ii)(c) (or is deemed obligated to restore under Treasury Regulation Sections 1.704-2(g) and 1.704-2(i)(5)) and (b) decreased by (i) the amount of all losses and deductions that, as of the end of such fiscal year, are reasonably expected to be allocated to such Partner in subsequent years under Sections 704(e)(2) and 706(d) of the Code and Treasury Regulation Section 1.751-1(b)(2)(ii), and (ii) the amount of all distributions that, as of the end of such fiscal year, are reasonably expected to be made to such Partner in subsequent years in accordance with the terms of this Agreement or otherwise to the extent they exceed offsetting increases to such Partner's Capital Account that are reasonably expected to occur during (or prior to) the year in which such distributions are reasonably expected to be made (other than increases as a result of a minimum gain chargeback pursuant to Section 6.1(d)(i)

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

or 6.1(d) (ii)). The foregoing definition of Adjusted Capital Account is intended to comply with the provisions of Treasury Regulation Section 1.704-1(b) (2) (ii) (d) and shall be interpreted consistently therewith. The "Adjusted Capital Account" of a Partner in respect of a General Partner Interest, a Common Unit, a Subordinated Unit or an Incentive Distribution Right or any other specified interest in the Partnership shall be the amount which such Adjusted Capital Account would be if such General Partner Interest, Common Unit, Subordinated Unit, Incentive Distribution Right or other interest in the Partnership were the only interest in the Partnership held by such Partner from and after the date on which such General Partner Interest, Common Unit, Subordinated Unit, Incentive Distribution Right or other interest was first issued.

"Adjusted Operating Surplus" means, with respect to any period, Operating Surplus generated during such period (a) less (i) any net increase in Working Capital Borrowings with respect to such period and (ii) any net reduction in cash reserves for Operating Expenditures with respect to such period not relating to an Operating Expenditure made with respect to such period, and (b) plus (i) any net decrease in Working Capital Borrowings with respect to such period, and (ii) any net increase in cash reserves for Operating Expenditures with respect to such period required by any debt instrument for the repayment of principal, interest or premium. Adjusted Operating Surplus does not include that portion of Operating Surplus included in clause (a) (i) of the definition of Operating Surplus.

"Adjusted Property" means any property the Carrying Value of which has been adjusted pursuant to Section 5.5(d) (i) or 5.5(d) (ii).

"Affiliate" means, with respect to any Person, any other Person that directly or indirectly through one or more intermediaries controls, is controlled by or is under common control with, the Person in question. Each of Ark Land and Arch Coal, Inc. (and any successor thereto) shall be deemed to be an Affiliate for purposes of this definition for so long as Arch Coal, Inc. or any of its Subsidiaries holds an interest in the general partner of the General Partner. Great Northern (and any successor thereto) shall be deemed to be an Affiliate for purposes of this definition for so long as it holds an interest in the general partner of the General Partner. As used herein, the term "control" means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a Person, whether through ownership of voting securities, by contract or otherwise.

"Aggregate Remaining Net Positive Adjustments" means, as of the end of any taxable period, the sum of the Remaining Net Positive Adjustments of all the Partners.

"Agreed Allocation" means any allocation, other than a Required Allocation, of an item of income, gain, loss or deduction pursuant to the provisions of Section 6.1, including, without limitation, a Curative Allocation (if appropriate to the context in which the term "Agreed Allocation" is used).

"Agreed Value" of any Contributed Property means the fair market value of such property or other consideration at the time of contribution as determined by the General Partner using such reasonable method of valuation as it may adopt. The General Partner shall, in its discretion, use such method as it deems reasonable and appropriate to allocate the aggregate Agreed Value of Contributed Properties contributed to the Partnership in a single or integrated transaction among each separate property on a basis proportional to the fair market value of each Contributed Property.

A-2

"Agreement" means this First Amended and Restated Agreement of Limited

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Partnership of Natural Resource Partners L.P., as it may be amended, supplemented or restated from time to time.

"Ark Land" means Ark Land Company, a Delaware corporation.

"Assignee" means a Non-citizen Assignee or a Person to whom one or more Limited Partner Interests have been transferred in a manner permitted under this Agreement and who has executed and delivered a Transfer Application as required by this Agreement, but who has not been admitted as a Substituted Limited Partner.

"Associate" means, when used to indicate a relationship with any Person, (a) any corporation or organization of which such Person is a director, officer or partner or is, directly or indirectly, the owner of 20% or more of any class of voting stock or other voting interest; (b) any trust or other estate in which such Person has at least a 20% beneficial interest or as to which such Person serves as trustee or in a similar fiduciary capacity; and (c) any relative or spouse of such Person, or any relative of such spouse, who has the same principal residence as such Person.

"Available Cash" means, with respect to any Quarter ending prior to the Liquidation Date:

(a) the sum of (i) all cash and cash equivalents of the Partnership Group on hand at the end of such Quarter, and (ii) all additional cash and cash equivalents of the Partnership Group on hand on the date of determination of Available Cash with respect to such Quarter resulting from Working Capital Borrowings made subsequent to the end of such Quarter, less

(b) the amount of any cash reserves that are necessary or appropriate in the reasonable discretion of the General Partner to (i) provide for the proper conduct of the business of the Partnership Group (including reserves for future capital expenditures and for anticipated future credit needs of the Partnership Group) subsequent to such Quarter, (ii) comply with applicable law or any loan agreement, security agreement, mortgage, debt instrument or other agreement or obligation to which any Group Member is a party or by which it is bound or its assets are subject or (iii) provide funds for distributions under Section 6.4 or 6.5 in respect of any one or more of the next four Quarters; provided, however, that the General Partner may not establish cash reserves pursuant to (iii) above if the effect of such reserves would be that the Partnership is unable to distribute the Minimum Quarterly Distribution on all Common Units, plus any Cumulative Common Unit Arrearage on all Common Units, with respect to such Quarter; and, provided further, that disbursements made by a Group Member or cash reserves established, increased or reduced after the end of such Quarter but on or before the date of determination of Available Cash with respect to such Quarter shall be deemed to have been made, established, increased or reduced, for purposes of determining Available Cash, within such Quarter if the General Partner so determines.

Notwithstanding the foregoing, "Available Cash" with respect to the Quarter in which the Liquidation Date occurs and any subsequent Quarter shall equal zero.

"Book Basis Derivative Items" means any item of income, deduction, gain or loss included in the determination of Net Income or Net Loss that is computed with reference to the Carrying Value of an Adjusted Property (e.g., depreciation, depletion, or gain or loss with respect to an Adjusted Property).

"Book-Down Event" means an event which triggers a negative adjustment to the Capital Accounts of the Partners pursuant to Section 5.5(d).

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

"Book-Tax Disparity" means with respect to any item of Contributed Property or Adjusted Property, as of the date of any determination, the difference between the Carrying Value of such Contributed Property or Adjusted Property and the adjusted basis thereof for federal income tax purposes as of such date. A Partner's share of the Partnership's Book-Tax Disparities in all of its Contributed Property and Adjusted Property will be reflected by the difference between such Partner's Capital Account balance as maintained pursuant to Section 5.5 and the hypothetical balance of such Partner's Capital Account computed as if it had been maintained strictly in accordance with federal income tax accounting principles.

"Book-Up Event" means an event which triggers a positive adjustment to the Capital Accounts of the Partners pursuant to Section 5.5(d).

A-3

"Business Day" means Monday through Friday of each week, except that a legal holiday recognized as such by the government of the United States of America or the State of Texas shall not be regarded as a Business Day.

"Capital Account" means the capital account maintained for a Partner pursuant to Section 5.5. The "Capital Account" of a Partner in respect of a General Partner Interest, a Common Unit, a Subordinated Unit, an Incentive Distribution Right or any other Partnership Interest shall be the amount which such Capital Account would be if such General Partner Interest, Common Unit, Subordinated Unit, Incentive Distribution Right or other Partnership Interest were the only interest in the Partnership held by such Partner from and after the date on which such General Partner Interest, Common Unit, Subordinated Unit, Incentive Distribution Right or other Partnership Interest was first issued.

"Capital Contribution" means any cash, cash equivalents or the Net Agreed Value of Contributed Property that a Partner contributes to the Partnership pursuant to this Agreement or the Contribution Agreement, or any payment made by the General Partner to the Partnership described in Section 5.2(c).

"Capital Improvement" means any (a) addition or improvement to the capital assets owned by any Group Member or (b) acquisition of existing, or the construction of new, capital assets (including, without limitation, coal mines and related assets), in each case if such addition, improvement, acquisition or construction is made to increase the operating capacity or revenues of the Partnership Group from the operating capacity or revenues of the Partnership Group existing immediately prior to such addition, improvement, acquisition or construction.

"Capital Surplus" has the meaning assigned to such term in Section 6.3(a).

"Carrying Value" means (a) with respect to a Contributed Property, the Agreed Value of such property reduced (but not below zero) by all depreciation, amortization and cost recovery deductions charged to the Partners' and Assignees' Capital Accounts in respect of such Contributed Property, and (b) with respect to any other Partnership property, the adjusted basis of such property for federal income tax purposes, all as of the time of determination. The Carrying Value of any property shall be adjusted from time to time in accordance with Sections 5.5(d)(i) and 5.5(d)(ii) and to reflect changes, additions or other adjustments to the Carrying Value for dispositions and acquisitions of Partnership properties, as deemed appropriate by the General Partner.

"Cause" means a court of competent jurisdiction has entered a final, non-appealable judgment finding the General Partner liable for actual fraud, gross negligence or willful or wanton misconduct in its capacity as a general

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

partner of the Partnership.

"Certificate" means a certificate (i) substantially in the form of Exhibit A to this Agreement, (ii) issued in global form in accordance with the rules and regulations of the Depositary or (iii) in such other form as may be adopted by the General Partner in its discretion, issued by the Partnership evidencing ownership of one or more Common Units or a certificate, in such form as may be adopted by the General Partner in its discretion, issued by the Partnership evidencing ownership of one or more other Partnership Securities.

"Certificate of Limited Partnership" means the Certificate of Limited Partnership of the Partnership filed with the Secretary of State of the State of Delaware as such Certificate of Limited Partnership may be amended, supplemented or restated from time to time.

"Citizenship Certification" means a properly completed certificate in such form as may be specified by the General Partner by which an Assignee or a Limited Partner certifies that he (and if he is a nominee holding for the account of another Person, that to the best of his knowledge such other Person) is an Eligible Citizen.

"Claim" has the meaning assigned to such term in Section 7.12(c).

"Closing Date" means the first date on which Common Units are sold by the Partnership to the Underwriters pursuant to the provisions of the Underwriting Agreement.

A-4

"Closing Price" has the meaning assigned to such term in Section 15.1(a).

"Code" means the Internal Revenue Code of 1986, as amended and in effect from time to time. Any reference herein to a specific section or sections of the Code shall be deemed to include a reference to any corresponding provision of any successor law.

"Combined Interest" has the meaning assigned to such term in Section 11.3(a).

"Commission" means the United States Securities and Exchange Commission.

"Common Unit" means a Partnership Security representing a fractional part of the Partnership Interests of all Limited Partners and Assignees, and having the rights and obligations specified with respect to Common Units in this Agreement. The term "Common Unit" does not refer to a Subordinated Unit prior to its conversion into a Common Unit pursuant to the terms hereof.

"Common Unit Arrearage" means, with respect to any Common Unit, whenever issued, as to any Quarter within the Subordination Period, the excess, if any, of (a) the Minimum Quarterly Distribution with respect to a Common Unit in respect of such Quarter over (b) the sum of all Available Cash distributed with respect to a Common Unit in respect of such Quarter pursuant to Section 6.4(a) (i).

"Conflicts Committee" means a committee of the Board of Directors of the general partner of the General Partner (or the applicable governing body of any successor to the General Partner) composed entirely of two or more directors who are not (a) security holders, officers or employees of the General Partner, (b) officers, directors or employees of any Affiliate of the General Partner or (c) holders of any ownership interest in the Partnership Group other than Common Units and who also meet the independence standards required to serve on an audit

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

committee of a board of directors by the National Securities Exchange on which the Common Units are listed for trading.

"Contributed Property" means each property or other asset, in such form as may be permitted by the Delaware Act, but excluding cash, contributed to the Partnership. Once the Carrying Value of a Contributed Property is adjusted pursuant to Section 5.5(d), such property shall no longer constitute a Contributed Property, but shall be deemed an Adjusted Property.

"Contribution Agreement" means that certain Contribution, Conveyance and Assumption Agreement, dated as of the Closing Date, among the General Partner, the Partnership, the Operating Company and certain other parties, together with the additional conveyance documents and instruments contemplated or referenced thereunder.

"Cumulative Common Unit Arrearage" means, with respect to any Common Unit, whenever issued, and as of the end of any Quarter, the excess, if any, of (a) the sum resulting from adding together the Common Unit Arrearage as to an Initial Common Unit for each of the Quarters within the Subordination Period ending on or before the last day of such Quarter over (b) the sum of any distributions theretofore made pursuant to Section 6.4(a)(ii) and the second sentence of Section 6.5 with respect to an Initial Common Unit (including any distributions to be made in respect of the last of such Quarters).

"Curative Allocation" means any allocation of an item of income, gain, deduction, loss or credit pursuant to the provisions of Section 6.1(d)(xi).

"Current Market Price" has the meaning assigned to such term in Section 15.1(a).

"Delaware Act" means the Delaware Revised Uniform Limited Partnership Act, 6 Del. C. Section 17-101, et seq., as amended, supplemented or restated from time to time, and any successor to such statute.

"Departing Partner" means a former General Partner from and after the effective date of any withdrawal or removal of such former General Partner pursuant to Section 11.1 or 11.2.

"Depository" means, with respect to any Units issued in global form, The Depository Trust Company and its successors and permitted assigns.

"Economic Risk of Loss" has the meaning set forth in Treasury Regulation Section 1.752-2(a).

A-5

"Eligible Citizen" means a Person qualified to own interests in real property in jurisdictions in which any Group Member does business or proposes to do business from time to time, and whose status as a Limited Partner or Assignee does not or would not subject such Group Member to a significant risk of cancellation or forfeiture of any of its properties or any interest therein.

"Event of Withdrawal" has the meaning assigned to such term in Section 11.1(a).

"Final Subordinated Units" has the meaning assigned to such term in Section 6.1(d)(x).

"First Liquidation Target Amount" has the meaning assigned to such term in Section 6.1(c)(i)(D).

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

"First Target Distribution" means \$0.5625 per Unit per Quarter (or, with respect to the period commencing on the Closing Date and ending on December 31, 2002, it means the product of \$0.5625 multiplied by a fraction of which the numerator is the number of days in such period, and of which the denominator is 92), subject to adjustment in accordance with Sections 6.6 and 6.9.

"Fully Diluted Basis" means, when calculating the number of Outstanding Units for any period, a basis that includes, in addition to the Outstanding Units, all Partnership Securities and options, rights, warrants and appreciation rights relating to an equity interest in the Partnership (a) that are convertible into or exercisable or exchangeable for Units that are senior to or pari passu with the Subordinated Units, (b) whose conversion, exercise or exchange price is less than the Current Market Price on the date of such calculation, and (c) that may be converted into or exercised or exchanged for such Units prior to or during the Quarter following the end of the last Quarter contained in the period for which the calculation is being made without the satisfaction of any contingency beyond the control of the holder other than the payment of consideration and the compliance with administrative mechanics applicable to such conversion, exercise or exchange; provided that for purposes of determining the number of Outstanding Units on a Fully Diluted Basis when calculating whether the Subordination Period has ended or Subordinated Units are entitled to convert into Common Units pursuant to Section 5.8, such Partnership Securities, options, rights, warrants and appreciation rights shall be deemed to have been Outstanding Units only for the four Quarters that comprise the last four Quarters of the measurement period; provided, further, that if consideration will be paid to any Group Member in connection with such conversion, exercise or exchange, the number of Units to be included in such calculation shall be that number equal to the difference between (i) the number of Units issuable upon such conversion, exercise or exchange and (ii) the number of Units which such consideration would purchase at the Current Market Price.

"General Partner" means NRP (GP) LP and its successors and permitted assigns as general partner of the Partnership.

"General Partner Interest" means the ownership interest of the General Partner in the Partnership (in its capacity as a general partner without reference to any Limited Partner Interest held by it) which may be evidenced by Partnership Securities or a combination thereof or interest therein, and includes any and all benefits to which the General Partner is entitled as provided in this Agreement, together with all obligations of the General Partner to comply with the terms and provisions of this Agreement.

"Great Northern" means Great Northern Properties Limited Partnership, a Delaware limited partnership.

"Group" means a Person that with or through any of its Affiliates or Associates has any agreement, arrangement or understanding for the purpose of acquiring, holding, voting (except voting pursuant to a revocable proxy or consent given to such Person in response to a proxy or consent solicitation made to 10 or more Persons) or disposing of any Partnership Securities with any other Person that beneficially owns, or whose Affiliates or Associates beneficially own, directly or indirectly, Partnership Securities.

"Group Member" means a member of the Partnership Group.

"Holder" as used in Section 7.12, has the meaning assigned to such term in Section 7.12(a).

"Incentive Distribution Right" means a non-voting Limited Partner Interest issued to the General Partner, Western Pocahontas, Great Northern, New Gauley and Ark Land in connection with their Capital

Contributions to the Partnership pursuant to Section 5.2, which Partnership Interest will confer upon the holder thereof only the rights and obligations specifically provided in this Agreement with respect to Incentive Distribution Rights (and no other rights otherwise available to or other obligations of a holder of a Partnership Interest). Notwithstanding anything in this Agreement to the contrary, the holder of an Incentive Distribution Right shall not be entitled to vote such Incentive Distribution Right on any Partnership matter except as may otherwise be required by law.

"Incentive Distributions" means any amount of cash distributed to the holders of the Incentive Distribution Rights pursuant to Sections 6.4(a) (v), (vi) and (vii) and 6.4(b) (iii), (iv) and (v).

"Indemnified Persons" has the meaning assigned to such term in Section 7.12(c).

"Indemnitee" means (a) the General Partner, (b) any Departing Partner, (c) any Person who is or was an Affiliate of the General Partner or any Departing Partner, (d) any Person who is or was a member, partner, officer, director, employee, agent or trustee of any Group Member, the General Partner or any Departing Partner or any Affiliate of any Group Member, the General Partner or any Departing Partner, and (e) any Person who is or was serving at the request of the General Partner or any Departing Partner or any Affiliate of the General Partner or any Departing Partner as an officer, director, employee, member, partner, agent, fiduciary or trustee of another Person; provided, that a Person shall not be an Indemnitee by reason of providing, on a fee-for-services basis, trustee, fiduciary or custodial services.

"Initial Common Units" means the Common Units sold in the Initial Offering.

"Initial Limited Partners" means the General Partner, Western Pocahontas, Great Northern, New Gauley, Ark Land and the Underwriters, in each case upon being admitted to the Partnership in accordance with Section 10.1.

"Initial Offering" means the initial offering and sale of Common Units to the public, as described in the Registration Statement.

"Initial Unit Price" means (a) with respect to the Common Units and the Subordinated Units, the initial public offering price per Common Unit at which the Underwriters offered the Common Units to the public for sale as set forth on the cover page of the prospectus included as part of the Registration Statement and first issued at or after the time the Registration Statement first became effective or (b) with respect to any other class or series of Units, the price per Unit at which such class or series of Units is initially sold by the Partnership, as determined by the General Partner, in each case adjusted as the General Partner determines to be appropriate to give effect to any distribution, subdivision or combination of Units.

"Interim Capital Transactions" means the following transactions if they occur prior to the Liquidation Date: (a) borrowings, refinancings or refundings of indebtedness and sales of debt securities (other than Working Capital Borrowings and other than for items purchased on open account in the ordinary course of business) by any Group Member; (b) sales of equity interests by any Group Member (including the Common Units sold to the Underwriters pursuant to the exercise of the Over-Allotment Option); and (c) sales or other voluntary or involuntary dispositions of any assets of any Group Member other than (i) sales or other dispositions of inventory, accounts receivable and other assets in the ordinary course of business, and (ii) sales or other dispositions of assets as part of normal retirements or replacements.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

"Issue Price" means the price at which a Unit is purchased from the Partnership, after taking into account any sales commission or underwriting discount charged to the Partnership.

"Limited Partner" means, unless the context otherwise requires, (a) the Organizational Limited Partner prior to its withdrawal from the Partnership, each Initial Limited Partner, each Substituted Limited Partner, each Additional Limited Partner and any Departing Partner upon the change of its status from General Partner to Limited Partner pursuant to Section 11.3 or (b) solely for purposes of Articles V, VI, VII and IX, each Assignee; provided, however, that when the term "Limited Partner" is used herein in the context of any vote or other approval, including without limitation Articles XIII and XIV, such

A-7

term shall not, solely for such purpose, include any holder of an Incentive Distribution Right except as may otherwise be required by law.

"Limited Partner Interest" means the ownership interest of a Limited Partner or Assignee in the Partnership, which may be evidenced by Common Units, Subordinated Units, Incentive Distribution Rights or other Partnership Securities or a combination thereof or interest therein, and includes any and all benefits to which such Limited Partner or Assignee is entitled as provided in this Agreement, together with all obligations of such Limited Partner or Assignee to comply with the terms and provisions of this Agreement; provided, however, that when the term "Limited Partner Interest" is used herein in the context of any vote or other approval, including without limitation Articles XIII and XIV, such term shall not, solely for such purpose, include any holder of an Incentive Distribution Right except as may otherwise be required by law.

"Liquidation Date" means (a) in the case of an event giving rise to the dissolution of the Partnership of the type described in clauses (a) and (b) of the first sentence of Section 12.2, the date on which the applicable time period during which the holders of Outstanding Units have the right to elect to reconstitute the Partnership and continue its business has expired without such an election being made, and (b) in the case of any other event giving rise to the dissolution of the Partnership, the date on which such event occurs.

"Liquidator" means one or more Persons selected by the General Partner to perform the functions described in Section 12.3 as liquidating trustee of the Partnership within the meaning of the Delaware Act.

"Merger Agreement" has the meaning assigned to such term in Section 14.1.

"Minimum Quarterly Distribution" means \$0.5125 per Unit per Quarter (or with respect to the period commencing on the Closing Date and ending on December 31, 2002, it means the product of \$0.5125 multiplied by a fraction of which the numerator is the number of days in such period and of which the denominator is 92), subject to adjustment in accordance with Sections 6.6 and 6.9.

"National Securities Exchange" means an exchange registered with the Commission under Section 6(a) of the Securities Exchange Act of 1934, as amended, supplemented or restated from time to time, and any successor to such statute, or the Nasdaq Stock Market or any successor thereto.

"Net Agreed Value" means, (a) in the case of any Contributed Property, the Agreed Value of such property reduced by any liabilities either assumed by the Partnership upon such contribution or to which such property is subject when contributed, and (b) in the case of any property distributed to a Partner or Assignee by the Partnership, the Partnership's Carrying Value of such property

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

(as adjusted pursuant to Section 5.5(d)(ii)) at the time such property is distributed, reduced by any indebtedness either assumed by such Partner or Assignee upon such distribution or to which such property is subject at the time of distribution, in either case, as determined under Section 752 of the Code.

"Net Income" means, for any taxable year, the excess, if any, of the Partnership's items of income and gain (other than those items taken into account in the computation of Net Termination Gain or Net Termination Loss) for such taxable year over the Partnership's items of loss and deduction (other than those items taken into account in the computation of Net Termination Gain or Net Termination Loss) for such taxable year. The items included in the calculation of Net Income shall be determined in accordance with Section 5.5(b) and shall not include any items specially allocated under Section 6.1(d); provided that the determination of the items that have been specially allocated under Section 6.1(d) shall be made as if Section 6.1(d)(xii) were not in this Agreement.

"Net Loss" means, for any taxable year, the excess, if any, of the Partnership's items of loss and deduction (other than those items taken into account in the computation of Net Termination Gain or Net Termination Loss) for such taxable year over the Partnership's items of income and gain (other than those items taken into account in the computation of Net Termination Gain or Net Termination Loss) for such taxable year. The items included in the calculation of Net Loss shall be determined in accordance with Section 5.5(b) and shall not include any items specially allocated under Section 6.1(d); provided that the

A-8

determination of the items that have been specially allocated under Section 6.1(d) shall be made as if Section 6.1(d)(xii) were not in this Agreement.

"Net Positive Adjustments" means, with respect to any Partner, the excess, if any, of the total positive adjustments over the total negative adjustments made to the Capital Account of such Partner pursuant to Book-Up Events and Book-Down Events.

"Net Termination Gain" means, for any taxable year, the sum, if positive, of all items of income, gain, loss or deduction recognized by the Partnership after the Liquidation Date. The items included in the determination of Net Termination Gain shall be determined in accordance with Section 5.5(b) and shall not include any items of income, gain or loss specially allocated under Section 6.1(d).

"Net Termination Loss" means, for any taxable year, the sum, if negative, of all items of income, gain, loss or deduction recognized by the Partnership after the Liquidation Date. The items included in the determination of Net Termination Loss shall be determined in accordance with Section 5.5(b) and shall not include any items of income, gain or loss specially allocated under Section 6.1(d).

"New Gauley" means New Gauley Coal Corporation, a West Virginia corporation.

"Non-citizen Assignee" means a Person whom the General Partner has determined in its discretion does not constitute an Eligible Citizen and as to whose Partnership Interest the General Partner has become the Substituted Limited Partner, pursuant to Section 4.9.

"Nonrecourse Built-in Gain" means with respect to any Contributed Properties or Adjusted Properties that are subject to a mortgage or pledge securing a Nonrecourse Liability, the amount of any taxable gain that would be allocated to the Partners pursuant to Sections 6.2(b)(i)(A), 6.2(b)(ii)(A) and

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

6.2(b)(iii) if such properties were disposed of in a taxable transaction in full satisfaction of such liabilities and for no other consideration.

"Nonrecourse Deductions" means any and all items of loss, deduction or expenditure (including, without limitation, any expenditure described in Section 705(a)(2)(B) of the Code) that, in accordance with the principles of Treasury Regulation Section 1.704-2(b), are attributable to a Nonrecourse Liability.

"Nonrecourse Liability" has the meaning set forth in Treasury Regulation Section 1.752-1(a)(2).

"Notice of Election to Purchase" has the meaning assigned to such term in Section 15.1(b).

"Omnibus Agreement" means that Omnibus Agreement, dated as of the Closing Date, among Arch Coal, Inc., Ark Land, Great Northern, New Gauley, Western Pocahontas, the General Partner, the Partnership, the Operating Company and certain other parties.

"Operating Company" means NRP (Operating) LLC, a Delaware limited partnership, and any successors thereto.

"Operating Company Agreement" means the Amended and Restated Limited Liability Company Agreement of the Operating Company, as it may be amended, supplemented or restated from time to time.

"Operating Expenditures" means all Partnership Group expenditures, including, but not limited to, taxes, reimbursements of the General Partner, repayment of Working Capital Borrowings, debt service payments and capital expenditures, subject to the following:

(a) Payments (including prepayments) of principal of and premium on indebtedness other than Working Capital Borrowings shall not constitute Operating Expenditures; and

(b) Operating Expenditures shall not include (i) capital expenditures made for Acquisitions or for Capital Improvements, (ii) payment of transaction expenses relating to Interim Capital Transactions or (iii) distributions to Partners. Where capital expenditures are made in part for Acquisitions or for Capital Improvements and in part for other purposes, the General Partner's good faith allocation between the amounts paid for each shall be conclusive.

A-9

"Operating Surplus" means, with respect to any period ending prior to the Liquidation Date, on a cumulative basis and without duplication,

(a) the sum of (i) \$15.0 million plus all cash and cash equivalents of the Partnership Group on hand as of the close of business on the Closing Date, (ii) all cash receipts of the Partnership Group for the period beginning on the Closing Date and ending with the last day of such period, other than cash receipts from Interim Capital Transactions (except to the extent specified in Section 6.5) and (iii) all cash receipts of the Partnership Group after the end of such period but on or before the date of determination of Operating Surplus with respect to such period resulting from Working Capital Borrowings, less

(b) the sum of (i) Operating Expenditures for the period beginning on the Closing Date and ending with the last day of such period and (ii) the amount of cash reserves that is necessary or advisable in the reasonable

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

discretion of the General Partner to provide funds for future Operating Expenditures; provided, however, that disbursements made (including contributions to a Group Member or disbursements on behalf of a Group Member) or cash reserves established, increased or reduced after the end of such period but on or before the date of determination of Available Cash with respect to such period shall be deemed to have been made, established, increased or reduced, for purposes of determining Operating Surplus, within such period if the General Partner so determines.

Notwithstanding the foregoing, "Operating Surplus" with respect to the Quarter in which the Liquidation Date occurs and any subsequent Quarter shall equal zero.

"Opinion of Counsel" means a written opinion of counsel (who may be regular counsel to the Partnership or the General Partner or any of its Affiliates) acceptable to the General Partner in its reasonable discretion.

"Option Closing Date" means the date or dates on which any Common Units are sold by the Partnership to the Underwriters upon exercise of the Over-Allotment Option.

"Organizational Limited Partner" means GP Natural Resource Partners LLC in its capacity as the organizational limited partner of the Partnership pursuant to this Agreement.

"Outstanding" means, with respect to Partnership Securities, all Partnership Securities that are issued by the Partnership and reflected as outstanding on the Partnership's books and records as of the date of determination; provided, however, that if at any time any Person or Group (other than the General Partner or its Affiliates) beneficially owns 20% or more of any Outstanding Partnership Securities of any class then Outstanding, all Partnership Securities owned by such Person or Group shall not be voted on any matter and shall not be considered to be Outstanding when sending notices of a meeting of Limited Partners to vote on any matter (unless otherwise required by law), calculating required votes, determining the presence of a quorum or for other similar purposes under this Agreement, except that Common Units so owned shall be considered to be Outstanding for purposes of Section 11.1(b)(iv) (such Common Units shall not, however, be treated as a separate class of Partnership Securities for purposes of this Agreement); provided, further, that the foregoing limitation shall not apply (i) to any Person or Group who acquired 20% or more of any Outstanding Partnership Securities of any class then Outstanding directly from the General Partner or its Affiliates, (ii) to any Person or Group who acquired 20% or more of any Outstanding Partnership Securities of any class then Outstanding directly or indirectly from a Person or Group described in clause (i) provided that the General Partner shall have notified such Person or Group in writing that such limitation shall not apply, or (iii) to any Person or Group who acquired 20% or more of any Partnership Securities issued by the Partnership with the prior approval of the board of directors of the General Partner.

"Over-Allotment Option" means the over-allotment option granted to the Underwriters and described in Section 2 of the Underwriting Agreement.

"Parity Units" means Common Units and all other Units of any other class or series that have the right (i) to receive distributions of Available Cash from Operating Surplus pursuant to each of

subclauses (a)(i) and (a)(ii) of Section 6.4 in the same order of priority with respect to the participation of Common Units in such distributions or (ii) to

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

participate in allocations of Net Termination Gain pursuant to Section 6.1(c)(i)(B) in the same order of priority with the Common Units, in each case regardless of whether the amounts or value so distributed or allocated on each Parity Unit equals the amount or value so distributed or allocated on each Common Unit. Units whose participation in such (i) distributions of Available Cash from Operating Surplus and (ii) allocations of Net Termination Gain are subordinate in order of priority to such distributions and allocations on Common Units shall not constitute Parity Units even if such Units are convertible under certain circumstances into Common Units or Parity Units.

"Partner Nonrecourse Debt" has the meaning set forth in Treasury Regulation Section 1.704-2(b)(4).

"Partner Nonrecourse Debt Minimum Gain" has the meaning set forth in Treasury Regulation Section 1.704-2(i)(2).

"Partner Nonrecourse Deductions" means any and all items of loss, deduction or expenditure (including, without limitation, any expenditure described in Section 705(a)(2)(B) of the Code) that, in accordance with the principles of Treasury Regulation Section 1.704-2(i), are attributable to a Partner Nonrecourse Debt.

"Partners" means the General Partner and the Limited Partners.

"Partnership" means Natural Resource Partners L.P., a Delaware limited partnership, and any successors thereto.

"Partnership Group" means the Partnership, the Operating Company and any Subsidiary of any such entity, treated as a single consolidated entity.

"Partnership Interest" means an interest in the Partnership, which shall include the General Partner Interest and Limited Partner Interests.

"Partnership Minimum Gain" means that amount determined in accordance with the principles of Treasury Regulation Section 1.704-2(d).

"Partnership Security" means any class or series of equity interest in the Partnership (but excluding any options, rights, warrants and appreciation rights relating to an equity interest in the Partnership), including without limitation, Common Units, Subordinated Units and Incentive Distribution Rights.

"Percentage Interest" means as of any date of determination (a) as to the General Partner (in its capacity as General Partner without reference to any Limited Partner Interests held by it), 2.0%, (b) as to any Unitholder or Assignee holding Units, the product obtained by multiplying (i) 98.0% less the percentage applicable to paragraph (c) by (ii) the quotient obtained by dividing (A) the number of Units held by such Unitholder or Assignee by (B) the total number of all Outstanding Units, and (c) as to the holders of additional Partnership Securities issued by the Partnership in accordance with Section 5.6, the percentage established as a part of such issuance. The Percentage Interest with respect to an Incentive Distribution Right shall at all times be zero.

"Person" means an individual or a corporation, limited liability company, partnership, joint venture, trust, unincorporated organization, association, government agency or political subdivision thereof or other entity.

"Per Unit Capital Amount" means, as of any date of determination, the Capital Account, stated on a per Unit basis, underlying any Unit held by a Person other than the General Partner or any Affiliate of the General Partner who holds Units.

"Pro Rata" means (a) when modifying Units or any class thereof, apportioned

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

equally among all designated Units in accordance with their relative Percentage Interests, (b) when modifying Partners and Assignees, apportioned among all Partners and Assignees in accordance with their relative Percentage Interests and (c) when modifying holders of Incentive Distribution Rights, apportioned equally among all

A-11

holders of Incentive Distribution Rights in accordance with the relative number of Incentive Distribution Rights held by each such holder.

"Purchase Date" means the date determined by the General Partner as the date for purchase of all Outstanding Units of a certain class (other than Units owned by the General Partner and its Affiliates) pursuant to Article XV.

"Quarter" means, unless the context requires otherwise, a fiscal quarter, or, with respect to the first fiscal quarter after the Closing Date, the portion of such fiscal quarter after the Closing Date, of the Partnership.

"Recapture Income" means any gain recognized by the Partnership (computed without regard to any adjustment required by Section 734 or Section 743 of the Code) upon the disposition of any property or asset of the Partnership, which gain is characterized as ordinary income because it represents the recapture of deductions previously taken with respect to such property or asset.

"Record Date" means the date established by the General Partner for determining (a) the identity of the Record Holders entitled to notice of, or to vote at, any meeting of Limited Partners or entitled to vote by ballot or give approval of Partnership action in writing without a meeting or entitled to exercise rights in respect of any lawful action of Limited Partners or (b) the identity of Record Holders entitled to receive any report or distribution or to participate in any offer.

"Record Holder" means the Person in whose name a Common Unit is registered on the books of the Transfer Agent as of the opening of business on a particular Business Day, or with respect to other Partnership Securities, the Person in whose name any such other Partnership Security is registered on the books which the General Partner has caused to be kept as of the opening of business on such Business Day.

"Redeemable Interests" means any Partnership Interests for which a redemption notice has been given, and has not been withdrawn, pursuant to Section 4.10.

"Registration Statement" means the Registration Statement on Form S-1 (Registration No. 333-86582) as it has been or as it may be amended or supplemented from time to time, filed by the Partnership with the Commission under the Securities Act to register the offering and sale of the Common Units in the Initial Offering.

"Remaining Net Positive Adjustments" means as of the end of any taxable period, (i) with respect to the Unitholders holding Common Units or Subordinated Units, the excess of (a) the Net Positive Adjustments of the Unitholders holding Common Units or Subordinated Units as of the end of such period over (b) the sum of those Partners' Share of Additional Book Basis Derivative Items for each prior taxable period, (ii) with respect to the General Partner (as holder of the General Partner Interest), the excess of (a) the Net Positive Adjustments of the General Partner as of the end of such period over (b) the sum of the General Partner's Share of Additional Book Basis Derivative Items with respect to the General Partner Interest for each prior taxable period, and (iii) with respect to the holders of Incentive Distribution Rights, the excess of (a) the Net

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Positive Adjustments of the holders of Incentive Distribution Rights as of the end of such period over (b) the sum of the Share of Additional Book Basis Derivative Items of the holders of the Incentive Distribution Rights for each prior taxable period.

"Required Allocations" means (a) any limitation imposed on any allocation of Net Losses or Net Termination Losses under Section 6.1(b) or 6.1(c)(ii) and (b) any allocation of an item of income, gain, loss or deduction pursuant to Section 6.1(d)(i), 6.1(d)(ii), 6.1(d)(iv), 6.1(d)(vii) or 6.1(d)(ix).

"Residual Gain" or "Residual Loss" means any item of gain or loss, as the case may be, of the Partnership recognized for federal income tax purposes resulting from a sale, exchange or other disposition of a Contributed Property or Adjusted Property, to the extent such item of gain or loss is not allocated pursuant to Section 6.2(b)(i)(A) or 6.2(b)(ii)(A), respectively, to eliminate Book-Tax Disparities.

"Restricted Business" has the meaning assigned to such term in the Omnibus Agreement.

A-12

"Second Liquidation Target Amount" has the meaning assigned to such term in Section 6.1(c)(i)(E).

"Second Target Distribution" means \$0.6625 per Unit per Quarter (or, with respect to the period commencing on the Closing Date and ending on December 31, 2002, it means the product of \$0.6625 multiplied by a fraction of which the numerator is equal to the number of days in such period and of which the denominator is 92), subject to adjustment in accordance with Sections 6.6 and 6.9.

"Securities Act" means the Securities Act of 1933, as amended, supplemented or restated from time to time and any successor to such statute.

"Share of Additional Book Basis Derivative Items" means in connection with any allocation of Additional Book Basis Derivative Items for any taxable period, (i) with respect to the Unitholders holding Common Units or Subordinated Units, the amount that bears the same ratio to such Additional Book Basis Derivative Items as the Unitholders' Remaining Net Positive Adjustments as of the end of such period bears to the Aggregate Remaining Net Positive Adjustments as of that time, (ii) with respect to the General Partner (as holder of the General Partner Interest), the amount that bears the same ratio to such additional Book Basis Derivative Items as the General Partner's Remaining Net Positive Adjustments as of the end of such period bears to the Aggregate Remaining Net Positive Adjustment as of that time, and (iii) with respect to the Partners holding Incentive Distribution Rights, the amount that bears the same ratio to such Additional Book Basis Derivative Items as the Remaining Net Positive Adjustments of the Partners holding the Incentive Distribution Rights as of the end of such period bears to the Aggregate Remaining Net Positive Adjustments as of that time.

"Special Approval" means approval by a majority of the members of the Conflicts Committee.

"Subordinated Unit" means a Unit representing a fractional part of the Partnership Interests of all Limited Partners and Assignees and having the rights and obligations specified with respect to Subordinated Units in this Agreement. The term "Subordinated Unit" as used herein does not include a Common Unit or Parity Unit. A Subordinated Unit that is convertible into a Common Unit or a Parity Unit shall not constitute a Common Unit or Parity Unit until such

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

conversion occurs.

"Subordination Period" means the period commencing on the Closing Date and ending on the first to occur of the following dates:

(a) the first day of any Quarter beginning after September 30, 2007 in respect of which (i) (A) distributions of Available Cash from Operating Surplus on each of the Outstanding Common Units and Subordinated Units and any other Outstanding Units that are senior or equal in right of distribution to the Subordinated Units with respect to each of the three consecutive, non-overlapping four-Quarter periods immediately preceding such date equaled or exceeded the sum of the Minimum Quarterly Distribution (or portion thereof for the first fiscal quarter after the Closing Date) on all Outstanding Common Units and Subordinated Units and any other Outstanding Units that are senior or equal in right of distribution to the Subordinated Units during such periods and (B) the Adjusted Operating Surplus generated during each of the three consecutive, non-overlapping four-Quarter periods immediately preceding such date equaled or exceeded the sum of the Minimum Quarterly Distribution on all of the Common Units and Subordinated Units and any other Units that are senior or equal in right of distribution to the Subordinated Units that were Outstanding during such periods on a Fully Diluted Basis, plus the related distribution on the General Partner Interest, during such periods and (ii) there are no Cumulative Common Unit Arrearages; and

(b) the date on which the General Partner is removed as general partner of the Partnership upon the requisite vote by holders of Outstanding Units under circumstances where Cause does not exist and Units held by the General Partner and its Affiliates are not voted in favor of such removal.

"Subsidiary" means, with respect to any Person, (a) a corporation of which more than 50% of the voting power of shares entitled (without regard to the occurrence of any contingency) to vote in the election of directors or other governing body of such corporation is owned, directly or indirectly, at the

A-13

date of determination, by such Person, by one or more Subsidiaries of such Person or a combination thereof, (b) a partnership (whether general or limited) in which such Person or a Subsidiary of such Person is, at the date of determination, a general or limited partner of such partnership, but only if more than 50% of the partnership interests of such partnership (considering all of the partnership interests of the partnership as a single class) is owned, directly or indirectly, at the date of determination, by such Person, by one or more Subsidiaries of such Person, or a combination thereof, or (c) any other Person (other than a corporation or a partnership) in which such Person, one or more Subsidiaries of such Person, or a combination thereof, directly or indirectly, at the date of determination, has (i) at least a majority ownership interest or (ii) the power to elect or direct the election of a majority of the directors or other governing body of such Person.

"Substituted Limited Partner" means a Person who is admitted as a Limited Partner to the Partnership pursuant to Section 10.2 in place of and with all the rights of a Limited Partner and who is shown as a Limited Partner on the books and records of the Partnership.

"Surviving Business Entity" has the meaning assigned to such term in Section 14.2(b).

"Third Liquidation Target Amount" has the meaning assigned to such term in

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Section 6.1(c)(i)(F).

"Third Target Distribution" means \$0.7625 per Unit per Quarter (or, with respect to the period commencing on the Closing Date and ending on December 31, 2002, it means the product of \$0.7625 multiplied by a fraction of which the numerator is equal to the number of days in such period and of which the denominator is 92), subject to adjustment in accordance with Sections 6.6 and 6.9.

"Trading Day" has the meaning assigned to such term in Section 15.1(a).

"Transfer" has the meaning assigned to such term in Section 4.4(a).

"Transfer Agent" means such bank, trust company or other Person (including the General Partner or one of its Affiliates) as shall be appointed from time to time by the Partnership to act as registrar and transfer agent for the Common Units; provided that if no Transfer Agent is specifically designated for any other Partnership Securities, the General Partner shall act in such capacity.

"Transfer Application" means an application and agreement for transfer of Units in the form set forth on the back of a Certificate or in a form substantially to the same effect in a separate instrument.

"Underwriter" means each Person named as an underwriter in Schedule I to the Underwriting Agreement who purchases Common Units pursuant thereto.

"Underwriting Agreement" means the Underwriting Agreement dated \_\_\_\_\_, 2002 among the Underwriters, the Partnership, the General Partner, the Operating Company, Western Pochontas, Great Northern, New Gauley, Ark Land, Arch Coal, Inc. and certain other parties, providing for the purchase of Common Units by the Underwriters.

"Unit" means a Partnership Security that is designated as a "Unit" and shall include Common Units and Subordinated Units but shall not include (i) a General Partner Interest or (ii) Incentive Distribution Rights.

"Unitholders" means the holders of Units.

"Unit Majority" means, during the Subordination Period, at least a majority of the Outstanding Common Units (excluding Common Units owned by the General Partner and its Affiliates) voting as a class and at least a majority of the Outstanding Subordinated Units voting as a class, and thereafter, at least a majority of the Outstanding Common Units.

"Unpaid MQD" has the meaning assigned to such term in Section 6.1(c)(i)(B).

"Unrealized Gain" attributable to any item of Partnership property means, as of any date of determination, the excess, if any, of (a) the fair market value of such property as of such date (as

A-14

determined under Section 5.5(d)) over (b) the Carrying Value of such property as of such date (prior to any adjustment to be made pursuant to Section 5.5(d) as of such date).

"Unrealized Loss" attributable to any item of Partnership property means, as of any date of determination, the excess, if any, of (a) the Carrying Value of such property as of such date (prior to any adjustment to be made pursuant to Section 5.5(d) as of such date) over (b) the fair market value of such property as of such date (as determined under Section 5.5(d)).

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

"Unrecovered Capital" means at any time, with respect to a Unit, the Initial Unit Price less the sum of all distributions constituting Capital Surplus theretofore made in respect of an Initial Common Unit and any distributions of cash (or the Net Agreed Value of any distributions in kind) in connection with the dissolution and liquidation of the Partnership theretofore made in respect of an Initial Common Unit, adjusted as the General Partner determines to be appropriate to give effect to any distribution, subdivision or combination of such Units.

"Western Pocahontas" means Western Pocahontas Properties Limited Partnership, a Delaware limited partnership.

"U.S. GAAP" means United States Generally Accepted Accounting Principles consistently applied.

"Withdrawal Opinion of Counsel" has the meaning assigned to such term in Section 11.1(b).

"Working Capital Borrowings" means borrowings used solely for working capital purposes or to pay distributions to Partners made pursuant to a credit facility or other arrangement to the extent such borrowings are required to be reduced to a relatively small amount each year (or for the year in which the Initial Offering is consummated, the 12-month period beginning on the Closing Date) for an economically meaningful period of time.

### SECTION 1.2 Construction.

Unless the context requires otherwise: (a) any pronoun used in this Agreement shall include the corresponding masculine, feminine or neuter forms, and the singular form of nouns, pronouns and verbs shall include the plural and vice versa; (b) references to Articles and Sections refer to Articles and Sections of this Agreement; and (c) the term "include" or "includes" means includes, without limitation, and "including" means including, without limitation.

## ARTICLE II

### ORGANIZATION

#### SECTION 2.1 Formation.

The General Partner and the Organizational Limited Partner have previously formed the Partnership as a limited partnership pursuant to the provisions of the Delaware Act and hereby amend and restate the original Agreement of Limited Partnership of Natural Resource Partners L.P. in its entirety. This amendment and restatement shall become effective on the date of this Agreement. Except as expressly provided to the contrary in this Agreement, the rights, duties (including fiduciary duties), liabilities and obligations of the Partners and the administration, dissolution and termination of the Partnership shall be governed by the Delaware Act. All Partnership Interests shall constitute personal property of the owner thereof for all purposes and a Partner has no interest in specific Partnership property.

#### SECTION 2.2 Name.

The name of the Partnership shall be "Natural Resource Partners L.P." The Partnership's business may be conducted under any other name or names deemed necessary or appropriate by the General Partner in its sole discretion, including the name of the General Partner. The words "Limited Partnership," "L.P.," "Ltd." or similar words or letters shall be included in the Partnership's name where

necessary for the purpose of complying with the laws of any jurisdiction that so requires. The General Partner in its discretion may change the name of the Partnership at any time and from time to time and shall notify the Limited Partners of such change in the next regular communication to the Limited Partners.

SECTION 2.3 Registered Office; Registered Agent; Principal Office; Other Offices.

Unless and until changed by the General Partner, the registered office of the Partnership in the State of Delaware shall be located at 1209 Orange Street, Wilmington, Delaware 19801, and the registered agent for service of process on the Partnership in the State of Delaware at such registered office shall be The Corporation Trust Company. The principal office of the Partnership shall be located at 601 Jefferson Street, Suite 3600, Houston, Texas 77002 or such other place as the General Partner may from time to time designate by notice to the Limited Partners. The Partnership may maintain offices at such other place or places within or outside the State of Delaware as the General Partner deems necessary or appropriate. The address of the General Partner shall be 601 Jefferson Street, Suite 3600, Houston, Texas 77002 or such other place as the General Partner may from time to time designate by notice to the Limited Partners.

SECTION 2.4 Purpose and Business.

The purpose and nature of the business to be conducted by the Partnership shall be to (a) serve as a member of the Operating Company and, in connection therewith, to exercise all the rights and powers conferred upon the Partnership as a member of the Operating Company pursuant to the Operating Company Agreement or otherwise, (b) engage directly in, or enter into or form any corporation, partnership, joint venture, limited liability company or other arrangement to engage indirectly in, any business activity that the Operating Company is permitted to engage in by the Operating Company Agreement or that its subsidiaries are permitted to engage in by their limited liability company or partnership agreements and, in connection therewith, to exercise all of the rights and powers conferred upon the Partnership pursuant to the agreements relating to such business activity, (c) engage directly in, or enter into or form any corporation, partnership, joint venture, limited liability company or other arrangement to engage indirectly in, any business activity that is approved by the General Partner and which lawfully may be conducted by a limited partnership organized pursuant to the Delaware Act and, in connection therewith, to exercise all of the rights and powers conferred upon the Partnership pursuant to the agreements relating to such business activity; and (d) do anything necessary or appropriate to the foregoing, including the making of capital contributions or loans to a Group Member; provided, however, that the General Partner shall not cause the Partnership to engage, directly or indirectly, in any business activity that the General Partner reasonably determines would cause the Partnership to be treated as an association taxable as a corporation or otherwise taxable as an entity for federal income tax purposes. The General Partner has no obligation or duty to the Partnership, the Limited Partners or the Assignees to propose or approve, and in its discretion may decline to propose or approve, the conduct by the Partnership of any business.

SECTION 2.5 Powers.

The Partnership shall be empowered to do any and all acts and things necessary, appropriate, proper, advisable, incidental to or convenient for the furtherance and accomplishment of the purposes and business described in Section

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

2.4 and for the protection and benefit of the Partnership.

### SECTION 2.6 Power of Attorney.

(a) Each Limited Partner and each Assignee hereby constitutes and appoints the General Partner and, if a Liquidator shall have been selected pursuant to Section 12.3, the Liquidator (and any successor to the Liquidator by merger, transfer, assignment, election or otherwise) and each of their authorized

A-16

officers and attorneys-in-fact, as the case may be, with full power of substitution, as his true and lawful agent and attorney-in-fact, with full power and authority in his name, place and stead, to:

(i) execute, swear to, acknowledge, deliver, file and record in the appropriate public offices (A) all certificates, documents and other instruments (including this Agreement and the Certificate of Limited Partnership and all amendments or restatements hereof or thereof) that the General Partner or the Liquidator deems necessary or appropriate to form, qualify or continue the existence or qualification of the Partnership as a limited partnership (or a partnership in which the limited partners have limited liability) in the State of Delaware and in all other jurisdictions in which the Partnership may conduct business or own property; (B) all certificates, documents and other instruments that the General Partner or the Liquidator deems necessary or appropriate to reflect, in accordance with its terms, any amendment, change, modification or restatement of this Agreement; (C) all certificates, documents and other instruments (including conveyances and a certificate of cancellation) that the General Partner or the Liquidator deems necessary or appropriate to reflect the dissolution and liquidation of the Partnership pursuant to the terms of this Agreement; (D) all certificates, documents and other instruments relating to the admission, withdrawal, removal or substitution of any Partner pursuant to, or other events described in, Article IV, X, XI or XII; (E) all certificates, documents and other instruments relating to the determination of the rights, preferences and privileges of any class or series of Partnership Securities issued pursuant to Section 5.6; and (F) all certificates, documents and other instruments (including agreements and a certificate of merger) relating to a merger or consolidation of the Partnership pursuant to Article XIV; and

(ii) execute, swear to, acknowledge, deliver, file and record all ballots, consents, approvals, waivers, certificates, documents and other instruments necessary or appropriate, in the discretion of the General Partner or the Liquidator, to make, evidence, give, confirm or ratify any vote, consent, approval, agreement or other action that is made or given by the Partners hereunder or is consistent with the terms of this Agreement or is necessary or appropriate, in the discretion of the General Partner or the Liquidator, to effectuate the terms or intent of this Agreement; provided, that when required by Section 13.3 or any other provision of this Agreement that establishes a percentage of the Limited Partners or of the Limited Partners of any class or series required to take any action, the General Partner and the Liquidator may exercise the power of attorney made in this Section 2.6(a)(ii) only after the necessary vote, consent or approval of the Limited Partners or of the Limited Partners of such class or series, as applicable.

Nothing contained in this Section 2.6(a) shall be construed as authorizing the General Partner to amend this Agreement except in accordance with Article XIII or as may be otherwise expressly provided for in this Agreement.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

(b) The foregoing power of attorney is hereby declared to be irrevocable and a power coupled with an interest, and it shall survive and, to the maximum extent permitted by law, not be affected by the subsequent death, incompetency, disability, incapacity, dissolution, bankruptcy or termination of any Limited Partner or Assignee and the transfer of all or any portion of such Limited Partner's or Assignee's Partnership Interest and shall extend to such Limited Partner's or Assignee's heirs, successors, assigns and personal representatives. Each such Limited Partner or Assignee hereby agrees to be bound by any representation made by the General Partner or the Liquidator acting in good faith pursuant to such power of attorney; and each such Limited Partner or Assignee, to the maximum extent permitted by law, hereby waives any and all defenses that may be available to contest, negate or disaffirm the action of the General Partner or the Liquidator taken in good faith under such power of attorney. Each Limited Partner or Assignee shall execute and deliver to the General Partner or the Liquidator, within 15 days after receipt of the request therefor, such further designation, powers of attorney and other instruments as the General Partner or the Liquidator deems necessary to effectuate this Agreement and the purposes of the Partnership.

A-17

### SECTION 2.7 Term.

The term of the Partnership commenced upon the filing of the Certificate of Limited Partnership in accordance with the Delaware Act and shall continue in existence until the dissolution of the Partnership in accordance with the provisions of Article XII. The existence of the Partnership as a separate legal entity shall continue until the cancellation of the Certificate of Limited Partnership as provided in the Delaware Act.

### SECTION 2.8 Title to Partnership Assets.

Title to Partnership assets, whether real, personal or mixed and whether tangible or intangible, shall be deemed to be owned by the Partnership as an entity, and no Partner or Assignee, individually or collectively, shall have any ownership interest in such Partnership assets or any portion thereof. Title to any or all of the Partnership assets may be held in the name of the Partnership, the General Partner, one or more of its Affiliates or one or more nominees, as the General Partner may determine. The General Partner hereby declares and warrants that any Partnership assets for which record title is held in the name of the General Partner or one or more of its Affiliates or one or more nominees shall be held by the General Partner or such Affiliate or nominee for the use and benefit of the Partnership in accordance with the provisions of this Agreement; provided, however, that the General Partner shall use reasonable efforts to cause record title to such assets (other than those assets in respect of which the General Partner determines that the expense and difficulty of conveyancing makes transfer of record title to the Partnership impracticable) to be vested in the Partnership as soon as reasonably practicable; provided, further, that, prior to the withdrawal or removal of the General Partner or as soon thereafter as practicable, the General Partner shall use reasonable efforts to effect the transfer of record title to the Partnership and, prior to any such transfer, will provide for the use of such assets in a manner satisfactory to the General Partner. All Partnership assets shall be recorded as the property of the Partnership in its books and records, irrespective of the name in which record title to such Partnership assets is held.

## ARTICLE III

### RIGHTS OF LIMITED PARTNERS

#### SECTION 3.1 Limitation of Liability.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

The Limited Partners and the Assignees shall have no liability under this Agreement except as expressly provided in this Agreement or the Delaware Act.

### SECTION 3.2 Management of Business.

No Limited Partner or Assignee, in its capacity as such, shall participate in the operation, management or control (within the meaning of the Delaware Act) of the Partnership's business, transact any business in the Partnership's name or have the power to sign documents for or otherwise bind the Partnership. Any action taken by any Affiliate of the General Partner or any officer, director, employee, manager, member, general partner, agent or trustee of the General Partner or any of its Affiliates, or any officer, director, employee, manager, member, general partner, agent or trustee of a Group Member, in its capacity as such, shall not be deemed to be participation in the control of the business of the Partnership by a limited partner of the Partnership (within the meaning of Section 17-303(a) of the Delaware Act) and shall not affect, impair or eliminate the limitations on the liability of the Limited Partners or Assignees under this Agreement.

### SECTION 3.3 Outside Activities of the Limited Partners.

Subject to the provisions of Section 7.5 and the Omnibus Agreement, which shall continue to be applicable to the Persons referred to therein, regardless of whether such Persons shall also be Limited Partners or Assignees, any Limited Partner or Assignee shall be entitled to and may have business

A-18

interests and engage in business activities in addition to those relating to the Partnership, including business interests and activities in direct competition with the Partnership Group. Neither the Partnership nor any of the other Partners or Assignees shall have any rights by virtue of this Agreement in any business ventures of any Limited Partner or Assignee.

### SECTION 3.4 Rights of Limited Partners.

(a) In addition to other rights provided by this Agreement or by applicable law, and except as limited by Section 3.4(b), each Limited Partner shall have the right, for a purpose reasonably related to such Limited Partner's interest as a limited partner in the Partnership, upon reasonable written demand and at such Limited Partner's own expense:

(i) to obtain true and full information regarding the status of the business and financial condition of the Partnership;

(ii) promptly after becoming available, to obtain a copy of the Partnership's federal, state and local income tax returns for each year;

(iii) to have furnished to him a current list of the name and last known business, residence or mailing address of each Partner;

(iv) to have furnished to him a copy of this Agreement and the Certificate of Limited Partnership and all amendments thereto, together with a copy of the executed copies of all powers of attorney pursuant to which this Agreement, the Certificate of Limited Partnership and all amendments thereto have been executed;

(v) to obtain true and full information regarding the amount of cash and a description and statement of the Net Agreed Value of any other Capital Contribution by each Partner and which each Partner has agreed to

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

contribute in the future, and the date on which each became a Partner; and

(vi) to obtain such other information regarding the affairs of the Partnership as is just and reasonable.

(b) The General Partner may keep confidential from the Limited Partners and Assignees, for such period of time as the General Partner deems reasonable, (i) any information that the General Partner reasonably believes to be in the nature of trade secrets or (ii) other information the disclosure of which the General Partner in good faith believes (A) is not in the best interests of the Partnership Group, (B) could damage the Partnership Group or (C) that any Group Member is required by law or by agreement with any third party to keep confidential (other than agreements with Affiliates of the Partnership the primary purpose of which is to circumvent the obligations set forth in this Section 3.4).

### ARTICLE IV

#### CERTIFICATES; RECORD HOLDERS; TRANSFER OF PARTNERSHIP INTERESTS; REDEMPTION OF PARTNERSHIP INTERESTS

##### SECTION 4.1 Certificates.

Upon the Partnership's issuance of Common Units or Subordinated Units to any Person, the Partnership shall issue one or more Certificates in the name of such Person evidencing the number of such Units being so issued. In addition, (a) upon the General Partner's request, the Partnership shall issue to it one or more Certificates in the name of the General Partner evidencing its interests in the Partnership and (b) upon the request of any Person owning Incentive Distribution Rights or any other Partnership Securities other than Common Units or Subordinated Units, the Partnership shall issue to such Person one or more certificates evidencing such Incentive Distribution Rights or other Partnership Securities other than Common Units or Subordinated Units. Certificates shall be executed on behalf of the Partnership by

A-19

the Chairman of the Board, President or any Vice President and the Secretary or any Assistant Secretary of the General Partner. No Common Unit Certificate shall be valid for any purpose until it has been countersigned by the Transfer Agent; provided, however, that if the General Partner elects to issue Common Units in global form, the Common Unit Certificates shall be valid upon receipt of a certificate from the Transfer Agent certifying that the Common Units have been duly registered in accordance with the directions of the Partnership and the Underwriters. Subject to the requirements of Section 6.7(b), the Partners holding Certificates evidencing Subordinated Units may exchange such Certificates for Certificates evidencing Common Units on or after the date on which such Subordinated Units are converted into Common Units pursuant to the terms of Section 5.8.

##### SECTION 4.2 Mutilated, Destroyed, Lost or Stolen Certificates.

(a) If any mutilated Certificate is surrendered to the Transfer Agent, the appropriate officers of the General Partner on behalf of the Partnership shall execute, and the Transfer Agent shall countersign and deliver in exchange therefor, a new Certificate evidencing the same number and type of Partnership Securities as the Certificate so surrendered.

(b) The appropriate officers of the General Partner on behalf of the Partnership shall execute and deliver, and the Transfer Agent shall countersign a new Certificate in place of any Certificate previously issued if the Record

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Holder of the Certificate:

(i) makes proof by affidavit, in form and substance satisfactory to the General Partner, that a previously issued Certificate has been lost, destroyed or stolen;

(ii) requests the issuance of a new Certificate before the General Partner has notice that the Certificate has been acquired by a purchaser for value in good faith and without notice of an adverse claim;

(iii) if requested by the General Partner, delivers to the General Partner a bond, in form and substance satisfactory to the General Partner, with surety or sureties and with fixed or open penalty as the Partnership may reasonably direct, in its sole discretion, to indemnify the General Partner, the Partners, the General Partner and the Transfer Agent against any claim that may be made on account of the alleged loss, destruction or theft of the Certificate; and

(iv) satisfies any other reasonable requirements imposed by the General Partner.

If a Limited Partner or Assignee fails to notify the General Partner within a reasonable time after he has notice of the loss, destruction or theft of a Certificate, and a transfer of the Limited Partner Interests represented by the Certificate is registered before the Partnership, the General Partner or the Transfer Agent receives such notification, the Limited Partner or Assignee shall be precluded from making any claim against the Partnership, the General Partner or the Transfer Agent for such transfer or for a new Certificate.

(c) As a condition to the issuance of any new Certificate under this Section 4.2, the General Partner may require the payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in relation thereto and any other expenses (including the fees and expenses of the Transfer Agent) reasonably connected therewith.

### SECTION 4.3 Record Holders.

The Partnership shall be entitled to recognize the Record Holder as the Partner or Assignee with respect to any Partnership Interest and, accordingly, shall not be bound to recognize any equitable or other claim to or interest in such Partnership Interest on the part of any other Person, regardless of whether the Partnership shall have actual or other notice thereof, except as otherwise provided by law or any applicable rule, regulation, guideline or requirement of any National Securities Exchange on which such Partnership Interests are listed for trading. Without limiting the foregoing, when a Person (such as a broker, dealer, bank, trust company or clearing corporation or an agent of any of the foregoing) is acting as nominee,

A-20

agent or in some other representative capacity for another Person in acquiring and/or holding Partnership Interests, as between the Partnership on the one hand, and such other Persons on the other, such representative Person (a) shall be the Partner or Assignee (as the case may be) of record and beneficially, (b) must execute and deliver a Transfer Application and (c) shall be bound by this Agreement and shall have the rights and obligations of a Partner or Assignee (as the case may be) hereunder and as, and to the extent, provided for herein.

### SECTION 4.4 Transfer Generally.

(a) The term "transfer," when used in this Agreement with respect to a

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Partnership Interest, shall be deemed to refer to a transaction by which the General Partner assigns its General Partner Interest to another Person who becomes a General Partner, by which the holder of a Limited Partner Interest assigns such Limited Partner Interest to another Person who is or becomes a Limited Partner or an Assignee, and includes a sale, assignment, gift, pledge, encumbrance, hypothecation, mortgage, exchange or any other disposition by law or otherwise.

(b) No Partnership Interest shall be transferred, in whole or in part, except in accordance with the terms and conditions set forth in this Article IV. Any transfer or purported transfer of a Partnership Interest not made in accordance with this Article IV shall be null and void.

(c) Nothing contained in this Agreement shall be construed to prevent a disposition by any member of the General Partner of any or all of the membership interests of the General Partner.

### SECTION 4.5 Registration and Transfer of Limited Partner Interests.

(a) The General Partner shall keep or cause to be kept on behalf of the Partnership a register in which, subject to such reasonable regulations as it may prescribe and subject to the provisions of Section 4.5(b), the Partnership will provide for the registration and transfer of Limited Partner Interests. The Transfer Agent is hereby appointed registrar and transfer agent for the purpose of registering Common Units and transfers of such Common Units as herein provided. The Partnership shall not recognize transfers of Certificates evidencing Limited Partner Interests unless such transfers are effected in the manner described in this Section 4.5. Upon surrender of a Certificate for registration of transfer of any Limited Partner Interests evidenced by a Certificate, and subject to the provisions of Section 4.5(b), the appropriate officers of the General Partner on behalf of the Partnership shall execute and deliver, and in the case of Common Units, the Transfer Agent shall countersign and deliver, in the name of the holder or the designated transferee or transferees, as required pursuant to the holder's instructions, one or more new Certificates evidencing the same aggregate number and type of Limited Partner Interests as was evidenced by the Certificate so surrendered.

(b) Except as otherwise provided in Section 4.9, the General Partner shall not recognize any transfer of Limited Partner Interests until the Certificates evidencing such Limited Partner Interests are surrendered for registration of transfer and such Certificates are accompanied by a Transfer Application duly executed by the transferee (or the transferee's attorney-in-fact duly authorized in writing). No charge shall be imposed by the General Partner for such transfer; provided, that as a condition to the issuance of any new Certificate under this Section 4.5, the General Partner may require the payment of a sum sufficient to cover any tax or other governmental charge that may be imposed with respect thereto.

(c) Limited Partner Interests may be transferred only in the manner described in this Section 4.5 and in Section 4.7. The transfer of any Limited Partner Interests and the admission of any new Limited Partner shall not constitute an amendment to this Agreement.

(d) Until admitted as a Substituted Limited Partner pursuant to Section 10.2, the Record Holder of a Limited Partner Interest shall be an Assignee in respect of such Limited Partner Interest. Limited Partners may include custodians, nominees or any other individual or entity in its own or any representative capacity.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

(e) A transferee of a Limited Partner Interest who has completed and delivered a Transfer Application shall be deemed to have (i) requested admission as a Substituted Limited Partner, (ii) agreed to comply with and be bound by and to have executed this Agreement, (iii) represented and warranted that such transferee has the right, power and authority and, if an individual, the capacity to enter into this Agreement, (iv) granted the powers of attorney set forth in this Agreement and (v) given the consents and approvals and made the waivers contained in this Agreement.

(f) The General Partner and its Affiliates shall have the right at any time to transfer their Subordinated Units and Common Units (whether issued upon conversion of the Subordinated Units or otherwise) to one or more Persons.

### SECTION 4.6 Transfer of the General Partner's General Partner Interest.

(a) Subject to Section 4.6(c) below, prior to September 30, 2012, the General Partner shall not transfer all or any part of its General Partner Interest to a Person unless such transfer (i) has been approved by the prior written consent or vote of the holders of at least a majority of the Outstanding Common Units (excluding Common Units held by the General Partner and its Affiliates) or (ii) is of all, but not less than all, of its General Partner Interest to (A) an Affiliate of the General Partner (other than an individual) or (B) another Person (other than an individual) in connection with the merger or consolidation of the General Partner with or into another Person (other than an individual) or the transfer by the General Partner of all or substantially all of its assets to another Person (other than an individual).

(b) Subject to Section 4.6(c) below, on or after September 30, 2012, the General Partner may transfer all or any of its General Partner Interest without Unitholder approval.

(c) Notwithstanding anything herein to the contrary, no transfer by the General Partner of all or any part of its General Partner Interest to another Person shall be permitted unless (i) the transferee agrees to assume the rights and duties of the General Partner under this Agreement and to be bound by the provisions of this Agreement, (ii) the Partnership receives an Opinion of Counsel that such transfer would not result in the loss of limited liability of any Limited Partner or of any member of the Operating Company or cause the Partnership or the Operating Company to be treated as an association taxable as a corporation or otherwise to be taxed as an entity for federal income tax purposes (to the extent not already so treated or taxed) and (iii) such transferee also agrees to purchase all (or the appropriate portion thereof, if applicable) of the partnership or membership interest of the General Partner as the general partner or managing member, if any, of each other Group Member. In the case of a transfer pursuant to and in compliance with this Section 4.6, the transferee or successor (as the case may be) shall, subject to compliance with the terms of Section 10.3, be admitted to the Partnership as the General Partner immediately prior to the transfer of the Partnership Interest, and the business of the Partnership shall continue without dissolution.

### SECTION 4.7 Transfer of Incentive Distribution Rights.

Prior to September 30, 2012, the General Partner or a subsequent holder of its Incentive Distribution Rights may transfer any or all of such Incentive Distribution Rights without any consent of the Unitholders (a) to an Affiliate of such holder (other than an individual) or (b) to another Person (other than an individual) in connection with (i) the merger or consolidation of such holder of Incentive Distribution Rights with or into such other Person or (ii) the transfer by such holder of all or substantially all of its assets to such other Person or (iii) the sale of all or substantially all of the equity interests of such holder to such other Person. Western Pocahontas, Great Northern, New Gauley and Ark Land and any subsequent holder of their Incentive Distribution Rights

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

may transfer any of their Incentive Distribution Rights at any time without Unitholder approval. Any other transfer of the Incentive Distribution Rights prior to September 30, 2012, shall require the prior approval of holders of at least a majority of the Outstanding Common Units (excluding Common Units held by the General Partner and its Affiliates). On or after September 30, 2012, the General Partner or any other holder of Incentive Distribution Rights restricted by this Section 4.7 may transfer any or all of its Incentive Distribution

A-22

Rights without Unitholder approval. Notwithstanding anything herein to the contrary, no transfer of Incentive Distribution Rights to another Person shall be permitted unless the transferee agrees to be bound by the provisions of this Agreement.

### SECTION 4.8 Restrictions on Transfers.

(a) Except as provided in Section 4.8(d) below, but notwithstanding the other provisions of this Article IV, no transfer of any Partnership Interests shall be made if such transfer would (i) violate the then applicable federal or state securities laws or rules and regulations of the Commission, any state securities commission or any other governmental authority with jurisdiction over such transfer, (ii) terminate the existence or qualification of the Partnership or the Operating Company under the laws of the jurisdiction of its formation, or (iii) cause the Partnership or the Operating Company to be treated as an association taxable as a corporation or otherwise to be taxed as an entity for federal income tax purposes (to the extent not already so treated or taxed).

(b) The General Partner may impose restrictions on the transfer of Partnership Interests if a subsequent Opinion of Counsel determines that such restrictions are necessary to avoid a significant risk of any Group Member becoming taxable as a corporation or otherwise to be taxed as an entity for federal income tax purposes. The restrictions may be imposed by making such amendments to this Agreement as the General Partner may determine to be necessary or appropriate to impose such restrictions; provided, however, that any amendment that the General Partner believes, in the exercise of its reasonable discretion, could result in the delisting or suspension of trading of any class of Limited Partner Interests on the principal National Securities Exchange on which such class of Limited Partner Interests is then traded must be approved, prior to such amendment being effected, by the holders of at least a majority of the Outstanding Limited Partner Interests of such class.

(c) The transfer of a Subordinated Unit that has converted into a Common Unit shall be subject to the restrictions imposed by Section 6.7(b).

(d) Nothing contained in this Article IV, or elsewhere in this Agreement, shall preclude the settlement of any transactions involving Partnership Interests entered into through the facilities of any National Securities Exchange on which such Partnership Interests are listed for trading.

### SECTION 4.9 Citizenship Certificates; Non-citizen Assignees.

(a) If any Group Member is or becomes subject to any federal, state or local law or regulation that, in the reasonable determination of the General Partner, creates a substantial risk of cancellation or forfeiture of any property in which the Group Member has an interest based on the nationality, citizenship or other related status of a Limited Partner or Assignee, the General Partner may request any Limited Partner or Assignee to furnish to the General Partner, within 30 days after receipt of such request, an executed Citizenship Certification or such other information concerning his nationality, citizenship or other related status (or, if the Limited Partner or Assignee is a

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

nominee holding for the account of another Person, the nationality, citizenship or other related status of such Person) as the General Partner may request. If a Limited Partner or Assignee fails to furnish to the General Partner within the aforementioned 30-day period such Citizenship Certification or other requested information or if upon receipt of such Citizenship Certification or other requested information the General Partner determines, with the advice of counsel, that a Limited Partner or Assignee is not an Eligible Citizen, the Partnership Interests owned by such Limited Partner or Assignee shall be subject to redemption in accordance with the provisions of Section 4.10. In addition, the General Partner may require that the status of any such Partner or Assignee be changed to that of a Non-citizen Assignee and, thereupon, the General Partner shall be substituted for such Non-citizen Assignee as the Limited Partner in respect of his Limited Partner Interests.

(b) The General Partner shall, in exercising voting rights in respect of Limited Partner Interests held by it on behalf of Non-citizen Assignees, distribute the votes in the same ratios as the votes of Partners (including without limitation the General Partner) in respect of Limited Partner Interests other than those of Non-citizen Assignees are cast, either for, against or abstaining as to the matter.

A-23

(c) Upon dissolution of the Partnership, a Non-citizen Assignee shall have no right to receive a distribution in kind pursuant to Section 12.4 but shall be entitled to the cash equivalent thereof, and the Partnership shall provide cash in exchange for an assignment of the Non-citizen Assignee's share of the distribution in kind. Such payment and assignment shall be treated for Partnership purposes as a purchase by the Partnership from the Non-citizen Assignee of his Limited Partner Interest (representing his right to receive his share of such distribution in kind).

(d) At any time after he can and does certify that he has become an Eligible Citizen, a Non-citizen Assignee may, upon application to the General Partner, request admission as a Substituted Limited Partner with respect to any Limited Partner Interests of such Non-citizen Assignee not redeemed pursuant to Section 4.10, and upon his admission pursuant to Section 10.2, the General Partner shall cease to be deemed to be the Limited Partner in respect of the Non-citizen Assignee's Limited Partner Interests.

### SECTION 4.10 Redemption of Partnership Interests of Non-citizen Assignees.

(a) If at any time a Limited Partner or Assignee fails to furnish a Citizenship Certification or other information requested within the 30-day period specified in Section 4.9(a), or if upon receipt of such Citizenship Certification or other information the General Partner determines, with the advice of counsel, that a Limited Partner or Assignee is not an Eligible Citizen, the Partnership may, unless the Limited Partner or Assignee establishes to the satisfaction of the General Partner that such Limited Partner or Assignee is an Eligible Citizen or has transferred his Partnership Interests to a Person who is an Eligible Citizen and who furnishes a Citizenship Certification to the General Partner prior to the date fixed for redemption as provided below, redeem the Partnership Interest of such Limited Partner or Assignee as follows:

(i) The General Partner shall, not later than the 30th day before the date fixed for redemption, give notice of redemption to the Limited Partner or Assignee, at his last address designated on the records of the Partnership or the Transfer Agent, by registered or certified mail, postage prepaid. The notice shall be deemed to have been given when so mailed. The notice shall specify the Redeemable Interests, the date fixed for redemption, the place of payment, that payment of the redemption price will

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

be made upon surrender of the Certificate evidencing the Redeemable Interests and that on and after the date fixed for redemption no further allocations or distributions to which the Limited Partner or Assignee would otherwise be entitled in respect of the Redeemable Interests will accrue or be made.

(ii) The aggregate redemption price for Redeemable Interests shall be an amount equal to the Current Market Price (the date of determination of which shall be the date fixed for redemption) of Limited Partner Interests of the class to be so redeemed multiplied by the number of Limited Partner Interests of each such class included among the Redeemable Interests. The redemption price shall be paid, in the discretion of the General Partner, in cash or by delivery of a promissory note of the Partnership in the principal amount of the redemption price, bearing interest at the rate of 10% annually and payable in three equal annual installments of principal together with accrued interest, commencing one year after the redemption date.

(iii) Upon surrender by or on behalf of the Limited Partner or Assignee, at the place specified in the notice of redemption, of the Certificate evidencing the Redeemable Interests, duly endorsed in blank or accompanied by an assignment duly executed in blank, the Limited Partner or Assignee or his duly authorized representative shall be entitled to receive the payment therefor.

(iv) After the redemption date, Redeemable Interests shall no longer constitute issued and Outstanding Limited Partner Interests.

(b) The provisions of this Section 4.10 shall also be applicable to Limited Partner Interests held by a Limited Partner or Assignee as nominee of a Person determined to be other than an Eligible Citizen.

(c) Nothing in this Section 4.10 shall prevent the recipient of a notice of redemption from transferring his Limited Partner Interest before the redemption date if such transfer is otherwise permitted

A-24

under this Agreement. Upon receipt of notice of such a transfer, the General Partner shall withdraw the notice of redemption, provided the transferee of such Limited Partner Interest certifies to the satisfaction of the General Partner in a Citizenship Certification delivered in connection with the Transfer Application that he is an Eligible Citizen. If the transferee fails to make such certification, such redemption shall be effected from the transferee on the original redemption date.

## ARTICLE V

### CAPITAL CONTRIBUTIONS AND ISSUANCE OF PARTNERSHIP INTERESTS

#### SECTION 5.1 Organizational Contributions.

In connection with the formation of the Partnership under the Delaware Act, the General Partner made an initial Capital Contribution to the Partnership in the amount of \$20.00, for a 2% General Partner Interest in the Partnership and has been admitted as the General Partner of the Partnership, and the Organizational Limited Partner made an initial Capital Contribution to the Partnership in the amount of \$980.00 for a 98% Limited Partner Interest in the Partnership and has been admitted as a Limited Partner of the Partnership. As of the Closing Date, the interest of the Organizational Limited Partner shall be redeemed as provided in the Contribution Agreement; the initial Capital

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Contributions of the Organizational Limited Partner shall thereupon be refunded; and the Organizational Limited Partner shall cease to be a Limited Partner of the Partnership. Ninety-eight percent of any interest or other profit that may have resulted from the investment or other use of such initial Capital Contributions shall be allocated and distributed to the Organizational Limited Partner, and the balance thereof shall be allocated and distributed to the General Partner.

### SECTION 5.2 Contributions by the General Partner and its Affiliates.

(a) On the Closing Date and pursuant to the Contribution and Conveyance Agreement, (i) New Gauley shall contribute to the Partnership as a Capital Contribution all of its interest in NNG LLC in exchange for (A) a special limited partner interest, (B) 116,957 Common Units, (C) 208,907 Subordinated Units and (D) 0.8% of the Incentive Distribution Rights; (ii) Western Pocahontas shall contribute to the Partnership as a Capital Contribution all of its interest in WPP LLC to the Partnership in exchange for (A) a special limited partner interest, (B) 3,158,166 Common Units, (C) 5,231,766 Subordinated Units and (D) 19.94% of the Incentive Distribution Rights; (iii) Great Northern shall contribute to the Partnership as a Capital Contribution all of its interest in GNP LLC in exchange for (A) a special limited partner interest, (B) 607,362 Common Units, (C) 1,116,065 Subordinated Units and (D) 4.26% of the Incentive Distribution Rights; (iv) Ark Land shall contribute to the Partnership as a Capital Contribution all of its interest in ACIN LLC in exchange for (A) a special limited partner interest, (B) 4,796,920 Common Units, (C) 4,796,920 Subordinated Units and (D) 10.0% of the Incentive Distribution Rights; and (v) New Gauley, Western Pocahontas, Great Northern and Ark Land each contribute such special limited partner interests to the General Partner and such special limited partner interests shall (A) be deemed to be an additional Capital Contribution by the General Partner and a continuation of its General Partner Interest and (B) shall no longer be treated as a special limited partner interest.

(b) Upon the issuance of any additional Limited Partner Interests by the Partnership (other than the issuance of Limited Partner Interests (i) in the Initial Offering, (ii) pursuant to the Over-Allotment Option and (iii) to the extent the Over-Allotment Option is not exercised in full, to New Gauley and Great Northern), the General Partner shall be required to make additional Capital Contributions equal to 2/98ths of any amount contributed to the Partnership by the Limited Partners in exchange for such additional Limited Partner Interests. Except as set forth in the immediately preceding sentence and Article XII, the General Partner shall not be obligated to make any additional Capital Contributions to the Partnership.

A-25

### SECTION 5.3 Contributions by Initial Limited Partners.

(a) On the Closing Date and pursuant to the Underwriting Agreement, each Underwriter shall contribute to the Partnership cash in an amount equal to the Issue Price per Initial Common Unit, multiplied by the number of Common Units specified in the Underwriting Agreement to be purchased by such Underwriter at the Closing Date. In exchange for such Capital Contributions by the Underwriters, the Partnership shall issue Common Units to each Underwriter on whose behalf such Capital Contribution is made in an amount equal to the quotient obtained by dividing (i) the cash contribution to the Partnership by or on behalf of such Underwriter by (ii) the Issue Price per Initial Common Unit.

(b) Upon the exercise of the Over-Allotment Option and pursuant to the Underwriting Agreement, each Underwriter shall contribute to the Partnership cash in an amount equal to the Issue Price per Initial Common Unit, multiplied

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

by the number of Common Units specified in the Underwriting Agreement to be purchased by such Underwriter at the Option Closing Date. In exchange for such Capital Contributions by the Underwriters, the Partnership shall issue Common Units to each Underwriter on whose behalf such Capital Contribution is made in an amount equal to the quotient obtained by dividing (i) the cash contributions to the Partnership by or on behalf of such Underwriter by (ii) the Issue Price per Initial Common Unit. Upon receipt by the Partnership of the Capital Contributions from the Underwriters as provided in this Section 5.3(b), the Partnership shall use 57.75% of such cash to redeem from Western Pocahontas and New Gauley an aggregate number of Common Units held by Western Pocahontas and New Gauley equal to the amount of such cash divided by the Initial Unit Price. To the extent that the Over-Allotment Option is not exercised in full and Great Northern and/or New Gauley purchases additional Common Units from the Partnership pursuant to the second paragraph of Section 2 of the Underwriting Agreement, then the Capital Contributions received by the Partnership from Great Northern and/or New Gauley shall be used to redeem from Great Northern and New Gauley that same number of Common Units held by the General Partner equal to the number of Common Units issued to Great Northern and/or New Gauley, respectively, pursuant to this Section 5.3(b).

(c) No Limited Partner Interests will be issued or issuable as of or at the Closing Date other than (i) the Common Units issuable pursuant to subparagraph (a) hereof in aggregate number equal to 2,674,253, (ii) the "Additional Units" as such term is used in the Underwriting Agreement in an aggregate number up to 675,000 issuable upon exercise of the Over-Allotment Option pursuant to subparagraph (b) hereof or up to 75,503 units to New Gauley and Great Northern to the extent the Over-Allotment Option is not exercised in full, (iii) the 11,353,658 Subordinated Units issuable to Western Pocahontas, Great Northern, New Gauley and Ark Land pursuant to Section 5.2 hereof, and (iii) the Incentive Distribution Rights.

### SECTION 5.4 Interest and Withdrawal.

No interest shall be paid by the Partnership on Capital Contributions. No Partner or Assignee shall be entitled to the withdrawal or return of its Capital Contribution, except to the extent, if any, that distributions made pursuant to this Agreement or upon termination of the Partnership may be considered as such by law and then only to the extent provided for in this Agreement. Except to the extent expressly provided in this Agreement, no Partner or Assignee shall have priority over any other Partner or Assignee either as to the return of Capital Contributions or as to profits, losses or distributions. Any such return shall be a compromise to which all Partners and Assignees agree within the meaning of Section 17-502(b) of the Delaware Act.

### SECTION 5.5 Capital Accounts.

(a) The Partnership shall maintain for each Partner (or a beneficial owner of Partnership Interests held by a nominee in any case in which the nominee has furnished the identity of such owner to the Partnership in accordance with Section 6031(c) of the Code or any other method acceptable to the General Partner in its sole discretion) owning a Partnership Interest a separate Capital Account with respect to such Partnership Interest in accordance with the rules of Treasury Regulation Section

A-26

1.704-1(b)(2)(iv). Such Capital Account shall be increased by (i) the amount of all Capital Contributions made to the Partnership with respect to such Partnership Interest pursuant to this Agreement and (ii) all items of Partnership income and gain (including, without limitation, income and gain exempt from tax) computed in accordance with Section 5.5(b) and allocated with

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

respect to such Partnership Interest pursuant to Section 6.1, and decreased by (x) the amount of cash or Net Agreed Value of all actual and deemed distributions of cash or property made with respect to such Partnership Interest pursuant to this Agreement and (y) all items of Partnership deduction and loss computed in accordance with Section 5.5(b) and allocated with respect to such Partnership Interest pursuant to Section 6.1.

(b) For purposes of computing the amount of any item of income, gain, loss or deduction which is to be allocated pursuant to Article VI and is to be reflected in the Partners' Capital Accounts, the determination, recognition and classification of any such item shall be the same as its determination, recognition and classification for federal income tax purposes (including, without limitation, any method of depreciation, cost recovery or amortization used for that purpose), provided, that:

(i) Solely for purposes of this Section 5.5, the Partnership shall be treated as owning directly its proportionate share (as determined by the General Partner based upon the provisions of the Operating Company Agreement) of all property owned by the Operating Company or any other Subsidiary that is classified as a partnership for federal income tax purposes.

(ii) All fees and other expenses incurred by the Partnership to promote the sale of (or to sell) a Partnership Interest that can neither be deducted nor amortized under Section 709 of the Code, if any, shall, for purposes of Capital Account maintenance, be treated as an item of deduction at the time such fees and other expenses are incurred and shall be allocated among the Partners pursuant to Section 6.1.

(iii) Except as otherwise provided in Treasury Regulation Section 1.704-1(b)(2)(iv)(m), the computation of all items of income, gain, loss and deduction shall be made without regard to any election under Section 754 of the Code which may be made by the Partnership and, as to those items described in Section 705(a)(1)(B) or 705(a)(2)(B) of the Code, without regard to the fact that such items are not includable in gross income or are neither currently deductible nor capitalized for federal income tax purposes. To the extent an adjustment to the adjusted tax basis of any Partnership asset pursuant to Section 734(b) or 743(b) of the Code is required, pursuant to Treasury Regulation Section 1.704-1(b)(2)(iv)(m), to be taken into account in determining Capital Accounts, the amount of such adjustment in the Capital Accounts shall be treated as an item of gain or loss.

(iv) Any income, gain or loss attributable to the taxable disposition of any Partnership property shall be determined as if the adjusted basis of such property as of such date of disposition were equal in amount to the Partnership's Carrying Value with respect to such property as of such date.

(v) In accordance with the requirements of Section 704(b) of the Code, any deductions for depreciation, cost recovery or amortization attributable to any Contributed Property shall be determined as if the adjusted basis of such property on the date it was acquired by the Partnership were equal to the Agreed Value of such property. Upon an adjustment pursuant to Section 5.5(d) to the Carrying Value of any Partnership property subject to depreciation, cost recovery or amortization, any further deductions for such depreciation, cost recovery or amortization attributable to such property shall be determined (A) as if the adjusted basis of such property were equal to the Carrying Value of such property immediately following such adjustment and (B) using a rate of depreciation, cost recovery or amortization derived from the same method and useful life (or, if applicable, the remaining useful life) as is applied for federal income tax purposes; provided, however, that, if the asset has a zero adjusted basis

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

for federal income tax purposes, depreciation, cost recovery or amortization deductions shall be determined using any reasonable method that the General Partner may adopt.

A-27

(vi) If the Partnership's adjusted basis in a depreciable or cost recovery property is reduced for federal income tax purposes pursuant to Section 48(q) (1) or 48(q) (3) of the Code, the amount of such reduction shall, solely for purposes hereof, be deemed to be an additional depreciation or cost recovery deduction in the year such property is placed in service and shall be allocated among the Partners pursuant to Section 6.1. Any restoration of such basis pursuant to Section 48(q) (2) of the Code shall, to the extent possible, be allocated in the same manner to the Partners to whom such deemed deduction was allocated.

(c) (i) A transferee of a Partnership Interest shall succeed to a pro rata portion of the Capital Account of the transferor relating to the Partnership Interest so transferred.

(ii) Immediately prior to the transfer of a Subordinated Unit or of a Subordinated Unit that has converted into a Common Unit pursuant to Section 5.8 by a holder thereof (other than a transfer to an Affiliate unless the General Partner elects to have this subparagraph 5.5(c) (ii) apply), the Capital Account maintained for such Person with respect to its Subordinated Units or converted Subordinated Units will (A) first, be allocated to the Subordinated Units or converted Subordinated Units to be transferred in an amount equal to the product of (x) the number of such Subordinated Units or converted Subordinated Units to be transferred and (y) the Per Unit Capital Amount for a Common Unit, and (B) second, any remaining balance in such Capital Account will be retained by the transferor, regardless of whether it has retained any Subordinated Units or converted Subordinated Units. Following any such allocation, the transferor's Capital Account, if any, maintained with respect to the retained Subordinated Units or converted Subordinated Units, if any, will have a balance equal to the amount allocated under clause (B) hereinabove, and the transferee's Capital Account established with respect to the transferred Subordinated Units or converted Subordinated Units will have a balance equal to the amount allocated under clause (A) hereinabove.

(d) (i) In accordance with Treasury Regulation Section 1.704-1(b) (2) (iv) (f), on an issuance of additional Partnership Interests for cash or Contributed Property or the conversion of the General Partner's Combined Interest to Common Units pursuant to Section 11.3(b), the Capital Account of all Partners and the Carrying Value of each Partnership property immediately prior to such issuance shall be adjusted upward or downward to reflect any Unrealized Gain or Unrealized Loss attributable to such Partnership property, as if such Unrealized Gain or Unrealized Loss had been recognized on an actual sale of each such property immediately prior to such issuance and had been allocated to the Partners at such time pursuant to Section 6.1 in the same manner as any item of gain or loss actually recognized during such period would have been allocated. In determining such Unrealized Gain or Unrealized Loss, the aggregate cash amount and fair market value of all Partnership assets (including, without limitation, cash or cash equivalents) immediately prior to the issuance of additional Partnership Interests shall be determined by the General Partner using such reasonable method of valuation as it may adopt; provided, however, that the General Partner, in arriving at such valuation, must take fully into account the fair market value of the Partnership Interests of all Partners at such time. The General Partner shall allocate such aggregate value among the assets of the Partnership (in such manner as it determines in its discretion to be reasonable) to arrive at a fair market value for individual properties.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

(ii) In accordance with Treasury Regulation Section 1.704-1(b)(2)(iv)(f), immediately prior to any actual or deemed distribution to a Partner of any Partnership property (other than a distribution of cash that is not in redemption or retirement of a Partnership Interest), the Capital Accounts of all Partners and the Carrying Value of all Partnership property shall be adjusted upward or downward to reflect any Unrealized Gain or Unrealized Loss attributable to such Partnership property, as if such Unrealized Gain or Unrealized Loss had been recognized in a sale of such property immediately prior to such distribution for an amount equal to its fair market value, and had been allocated to the Partners, at such time, pursuant to Section 6.1 in the same manner as any item of gain or loss actually recognized during such period would have been allocated. In determining such Unrealized Gain or Unrealized Loss the aggregate cash amount and fair market value of all Partnership assets (including, without limitation, cash or cash equivalents) immediately prior to a distribution shall (A) in the case of an actual distribution which is not made pursuant to Section 12.4 or in the case of

A-28

a deemed distribution, be determined and allocated in the same manner as that provided in Section 5.5(d)(i) or (B) in the case of a liquidating distribution pursuant to Section 12.4, be determined and allocated by the Liquidator using such reasonable method of valuation as it may adopt.

### SECTION 5.6 Issuances of Additional Partnership Securities.

(a) Subject to Section 5.7, the Partnership may issue additional Partnership Securities and options, rights, warrants and appreciation rights relating to the Partnership Securities for any Partnership purpose at any time and from time to time to such Persons for such consideration and on such terms and conditions as shall be established by the General Partner in its sole discretion, all without the approval of any Limited Partners.

(b) Each additional Partnership Security authorized to be issued by the Partnership pursuant to Section 5.6(a) may be issued in one or more classes, or one or more series of any such classes, with such designations, preferences, rights, powers and duties (which may be senior to existing classes and series of Partnership Securities), as shall be fixed by the General Partner in the exercise of its sole discretion, including (i) the right to share Partnership profits and losses or items thereof; (ii) the right to share in Partnership distributions; (iii) rights upon dissolution and liquidation of the Partnership; (iv) whether, and the terms and conditions upon which, the Partnership may redeem the Partnership Security; (v) whether such Partnership Security is issued with the privilege of conversion or exchange and, if so, the terms and conditions of such conversion or exchange; (vi) the terms and conditions upon which each Partnership Security will be issued, evidenced by certificates and assigned or transferred; and (vii) the right, if any, of each such Partnership Security to vote on Partnership matters, including matters relating to the relative rights, preferences and privileges of such Partnership Security.

(c) The General Partner is hereby authorized and directed to take all actions that it deems necessary or appropriate in connection with (i) each issuance of Partnership Securities and options, rights, warrants and appreciation rights relating to Partnership Securities pursuant to this Section 5.6, (ii) the conversion of the General Partner Interest or any Incentive Distribution Rights into Units pursuant to the terms of this Agreement, (iii) the admission of Additional Limited Partners and (iv) all additional issuances of Partnership Securities. The General Partner is further authorized and

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

directed to specify the relative rights, powers and duties of the holders of the Units or other Partnership Securities being so issued. The General Partner shall do all things necessary to comply with the Delaware Act and is authorized and directed to do all things it deems to be necessary or advisable in connection with any future issuance of Partnership Securities or in connection with the conversion of the General Partner Interest or any Incentive Distribution Rights into Units pursuant to the terms of this Agreement, including compliance with any statute, rule, regulation or guideline of any federal, state or other governmental agency or any National Securities Exchange on which the Units or other Partnership Securities are listed for trading.

### SECTION 5.7 Limitations on Issuance of Additional Partnership Securities.

Except as otherwise specified in this Section 5.7, the issuance of Partnership Securities pursuant to Section 5.6 shall be subject to the following restrictions and limitations:

(a) During the Subordination Period, the Partnership shall not issue (and shall not issue any options, rights, warrants or appreciation rights relating to) an aggregate of more than 5,676,829 additional Parity Units without the prior approval of the holders of a Unit Majority. In applying this limitation, there shall be excluded Common Units and other Parity Units issued (A) in connection with the Underwriting Agreement, (B) in accordance with Sections 5.7(b) and 5.7(c), (C) upon conversion of Subordinated Units pursuant to Section 5.8, (D) upon conversion of the General Partner Interest or any Incentive Distribution Rights pursuant to Section 11.3(b), (E) pursuant to the employee benefit plans of the General Partner, the Partnership or any other Group Member, (F) upon a conversion or exchange of Parity Units issued after the date hereof into Common Units or other Parity Units; provided that the total amount of Available Cash required to pay the aggregate

A-29

Minimum Quarterly Distribution on all Common Units and all Parity Units does not increase as a result of this conversion or exchange and (F) in the event of a combination or subdivision of Common Units.

(b) During the Subordination Period, the Partnership may also issue an unlimited number of Parity Units without the prior approval of the Unitholders, if such issuance occurs (i) in connection with an Acquisition or a Capital Improvement or (ii) within 365 days of, and the net proceeds from such issuance are used to repay debt incurred in connection with, an Acquisition or a Capital Improvement, in each case where such Acquisition or Capital Improvement involves assets that, if acquired by the Partnership as of the date that is one year prior to the first day of the Quarter in which such Acquisition is to be consummated or such Capital Improvement is to be completed, would have resulted, on a pro forma basis, in an increase in:

(A) the amount of Adjusted Operating Surplus generated by the Partnership on a per-Unit basis (for all Outstanding Units) with respect to each of the four most recently completed Quarters (on a pro forma basis as described below) as compared to

(B) the actual amount of Adjusted Operating Surplus generated by the Partnership on a per-Unit basis (for all Outstanding Units) (excluding Adjusted Operating Surplus attributable to the Acquisition or Capital Improvement) with respect to each of such four most recently completed Quarters.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

The General Partner's good faith determination that such an increase would have resulted shall be conclusive. If the issuance of Parity Units with respect to an Acquisition or Capital Improvement occurs within the first four full Quarters after the Closing Date, then Adjusted Operating Surplus as used in clauses (A) (subject to the succeeding sentence) and (B) above shall be calculated (i) for each Quarter, if any, that commenced after the Closing Date for which actual results of operations are available, based on the actual Adjusted Operating Surplus of the Partnership generated with respect to such Quarter, and (ii) for each other Quarter, on a pro forma basis consistent with the procedures, as applicable, set forth in Appendix D to the Registration Statement. Furthermore, the amount in clause (A) shall be determined on a pro forma basis assuming that (1) all of the Parity Units to be issued in connection with or within 365 days of such Acquisition or Capital Improvement had been issued and outstanding, (2) all indebtedness for borrowed money to be incurred or assumed in connection with such Acquisition or Capital Improvement (other than any such indebtedness that is to be repaid with the proceeds of such issuance of Parity Units) had been incurred or assumed, in each case as of the commencement of such four-Quarter period, (3) the personnel expenses that would have been incurred by the Partnership in the operation of the acquired assets are the personnel expenses for employees to be retained by the Partnership in the operation of the acquired assets, and (4) the non-personnel costs and expenses are computed on the same basis as those incurred by the Partnership in the operation of the Partnership's business at similarly situated Partnership facilities. For the purposes of this Section 5.7(b), the term "debt" shall be deemed to include indebtedness used to extend, refinance, renew, replace or defease debt originally incurred in connection with an Acquisition or Capital Improvement; provided that the amount of such extended, refinanced, renewed, replaced or defeased indebtedness does not exceed the principal sum of, plus accrued interest on, the indebtedness so extended, refinanced, renewed, replaced or defeased.

(c) During the Subordination Period, without the prior approval of the holders of a Unit Majority, the Partnership shall not issue any additional Partnership Securities (or options, rights, warrants or appreciation rights related thereto) (i) that are entitled in any Quarter to receive in respect of the Subordination Period any distribution of Available Cash from Operating Surplus before the Common Units and any Parity Units have received (or amounts have been set aside for payment of) the Minimum Quarterly Distribution and any Cumulative Common Unit Arrearage for such Quarter or (ii) that are entitled to allocations in respect of the Subordination Period of Net Termination Gain before the Common Units and any Parity Units have been allocated Net Termination Gain pursuant to Section 6.1(c) (i) (B).

(d) During the Subordination Period, without the prior approval of the holders of a Unit Majority, the Partnership may issue additional Partnership Securities (or options, rights, warrants or appreciation

A-30

rights related thereto) (i) that are not entitled in any Quarter during the Subordination Period to receive any distributions of Available Cash from Operating Surplus until after the Common Units and any Parity Units have received (or amounts have been set aside for payment of) the Minimum Quarterly Distribution and any Cumulative Common Unit Arrearage for such Quarter and (ii) that are not entitled to allocations in respect of the Subordination Period of Net Termination Gain before the Common Units and Parity Units have been allocated Net Termination Gain pursuant to Section 6.1(c) (i) (B), even if (A) the amount of Available Cash from Operating Surplus to which each such Partnership Security is entitled to receive after the Minimum Quarterly Distribution and any Cumulative Common Unit Arrearage have been paid or set aside for payment on the Common Units exceeds the Minimum Quarterly Distribution, or (B) the amount of Net Termination Gain to be allocated to such Partnership Security after Net

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

Termination Gain has been allocated to any Common Units and Parity Units pursuant to Section 6.1(c)(i)(B) exceeds the amount of such Net Termination Gain to be allocated to each Common Unit or Parity Unit.

(e) During the Subordination Period, the Partnership may also issue an unlimited number of Parity Units without the approval of the Unitholders, if the proceeds from such issuance are used exclusively to repay up to \$25.0 million of indebtedness of a Group Member where the aggregate amount of distributions that would have been paid with respect to such newly issued Units or Partnership Securities, plus the related distributions on the General Partner Interest in respect of the four-Quarter period ending prior to the first day of the Quarter in which the issuance is to be consummated (assuming such additional Units or Partnership Securities had been Outstanding throughout such period and that distributions equal to the distributions that were actually paid on the Outstanding Units during the period were paid on such additional Units or Partnership Securities) would not have exceeded the interest costs actually incurred during such period on the indebtedness that is to be repaid (or, if such indebtedness was not outstanding throughout the entire period, would have been incurred had such indebtedness been outstanding for the entire period). In the event that the Partnership is required to pay a prepayment penalty in connection with the repayment of such indebtedness, for purposes of the foregoing test the number of Parity Units issued to repay such indebtedness shall be deemed increased by the number of Parity Units that would need to be issued to pay such penalty.

(f) No fractional Units shall be issued by the Partnership.

### SECTION 5.8 Conversion of Subordinated Units.

(a) A total of 2,838,415 of the Outstanding Subordinated Units will convert into Common Units on a one-for-one basis immediately after the distribution of Available Cash to Partners pursuant to Section 6.3(a) in respect of any Quarter ending on or after September 30, 2005 in respect of which:

(i) distributions under Section 6.4 in respect of all Outstanding Common Units and Subordinated Units and any other Outstanding Units that are senior or equal in right of distribution to the Subordinated Units with respect to each of the three consecutive, non-overlapping four-Quarter periods immediately preceding such date equaled or exceeded the sum of the Minimum Quarterly Distribution on all of the Outstanding Common Units and Subordinated Units and any other Outstanding Units that are senior or equal in right of distribution to the Subordinated Units during such periods;

(ii) the Adjusted Operating Surplus generated during each of the three consecutive, non-overlapping four-Quarter periods immediately preceding such date equaled or exceeded the sum of the Minimum Quarterly Distribution on all of the Common Units, Subordinated Units and any other Units that are senior or equal in right of distribution to the Subordinated Units that were Outstanding during such periods on a Fully Diluted Basis, plus the related distribution on the General Partner Interest in the Partnership, during such periods; and

(iii) the Cumulative Common Unit Arrearage on all of the Common Units is zero.

A-31

(b) An additional 2,838,414 of the Outstanding Subordinated Units will convert into Common Units on a one-for-one basis immediately after the distribution of Available Cash to Partners pursuant to Section 6.3(a) in respect of any Quarter ending on or after September 30, 2006, in respect of which:

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

(i) distributions under Section 6.4 in respect of all Outstanding Common Units and Subordinated Units and any other Outstanding Units that are senior or equal in right of distribution to the Subordinated Units with respect to each of the three consecutive, non-overlapping four-Quarter periods immediately preceding such date equaled or exceeded the sum of the Minimum Quarterly Distribution on all of the Outstanding Common Units and Subordinated Units and any other Outstanding Units that are senior or equal in right of distribution to the Subordinated Units during such periods;

(ii) the Adjusted Operating Surplus generated during each of the three consecutive, non-overlapping four-Quarter periods immediately preceding such date equaled or exceeded the sum of the Minimum Quarterly Distribution on all of the Common Units, Subordinated Units and any other Units that are senior or equal in right of distribution to the Subordinated Units that were Outstanding during such periods on a Fully Diluted Basis, plus the related distribution on the General Partner Interest during such periods; and

(iii) the Cumulative Common Unit Arrearage on all of the Common Units is zero;

provided, however, that the conversion of Subordinated Units pursuant to this Section 5.8(b) may not occur until at least one year following the conversion of Subordinated Units pursuant to Section 5.8(a).

(c) In the event that less than all of the Outstanding Subordinated Units shall convert into Common Units pursuant to Section 5.8(a) or 5.8(b) at a time when there shall be more than one holder of Subordinated Units, then, unless all of the holders of Subordinated Units shall agree to a different allocation, the Subordinated Units that are to be converted into Common Units shall be allocated among the holders of Subordinated Units pro rata based on the number of Subordinated Units held by each such holder.

(d) Any Subordinated Units that are not converted into Common Units pursuant to Section 5.8(a) and (b) shall convert into Common Units on a one-for-one basis immediately after the distribution of Available Cash to Partners pursuant to Section 6.3(a) in respect of the final Quarter of the Subordination Period.

(e) Notwithstanding any other provision of this Agreement, all the then Outstanding Subordinated Units will automatically convert into Common Units on a one-for-one basis as set forth in, and pursuant to the terms of, Section 11.4.

(f) A Subordinated Unit that has converted into a Common Unit shall be subject to the provisions of Section 6.7(b).

### SECTION 5.9 Limited Preemptive Right.

Except as provided in this Section 5.9 and in Section 5.2, no Person shall have any preemptive, preferential or other similar right with respect to the issuance of any Partnership Security, whether unissued, held in the treasury or hereafter created. The General Partner shall have the right, which it may from time to time assign in whole or in part to any of its Affiliates, to purchase Partnership Securities from the Partnership whenever, and on the same terms that, the Partnership issues Partnership Securities to Persons other than the General Partner and its Affiliates, to the extent necessary to maintain the Percentage Interests of the General Partner and its Affiliates equal to that which existed immediately prior to the issuance of such Partnership Securities.

### SECTION 5.10 Splits and Combinations.

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

(a) Subject to Sections 5.10(d), 6.6 and 6.9 (dealing with adjustments of distribution levels), the Partnership may make a Pro Rata distribution of Partnership Securities to all Record Holders or may

A-32

effect a subdivision or combination of Partnership Securities so long as, after any such event, each Partner shall have the same Percentage Interest in the Partnership as before such event, and any amounts calculated on a per Unit basis (including any Common Unit Arrearage or Cumulative Common Unit Arrearage) or stated as a number of Units (including the number of Subordinated Units that may convert prior to the end of the Subordination Period and the number of additional Parity Units that may be issued pursuant to Section 5.7 without a Unitholder vote) are proportionately adjusted retroactive to the beginning of the Partnership.

(b) Whenever such a distribution, subdivision or combination of Partnership Securities is declared, the General Partner shall select a Record Date as of which the distribution, subdivision or combination shall be effective and shall send notice thereof at least 20 days prior to such Record Date to each Record Holder as of a date not less than 10 days prior to the date of such notice. The General Partner also may cause a firm of independent public accountants selected by it to calculate the number of Partnership Securities to be held by each Record Holder after giving effect to such distribution, subdivision or combination. The General Partner shall be entitled to rely on any certificate provided by such firm as conclusive evidence of the accuracy of such calculation.

(c) Promptly following any such distribution, subdivision or combination, the Partnership may issue Certificates to the Record Holders of Partnership Securities as of the applicable Record Date representing the new number of Partnership Securities held by such Record Holders, or the General Partner may adopt such other procedures as it may deem appropriate to reflect such changes. If any such combination results in a smaller total number of Partnership Securities Outstanding, the Partnership shall require, as a condition to the delivery to a Record Holder of such new Certificate, the surrender of any Certificate held by such Record Holder immediately prior to such Record Date.

(d) The Partnership shall not issue fractional Units upon any distribution, subdivision or combination of Units. If a distribution, subdivision or combination of Units would result in the issuance of fractional Units but for the provisions of Section 5.7(e) and this Section 5.10(d), each fractional Unit shall be rounded to the nearest whole Unit (and a 0.5 Unit shall be rounded to the next higher Unit).

### SECTION 5.11 Fully Paid and Non-Assessable Nature of Limited Partner Interests.

All Limited Partner Interests issued pursuant to, and in accordance with the requirements of, this Article V shall be fully paid and non-assessable Limited Partner Interests in the Partnership, except as such non-assessability may be affected by Section 17-607 of the Delaware Act.

## ARTICLE VI

### ALLOCATIONS AND DISTRIBUTIONS

#### SECTION 6.1 Allocations for Capital Account Purposes.

For purposes of maintaining the Capital Accounts and in determining the rights of the Partners among themselves, the Partnership's items of income, gain, loss and deduction (computed in accordance with Section 5.5(b)) shall be

## Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form S-1/A

allocated among the Partners in each taxable year (or portion thereof) as provided herein below.

(a) Net Income. After giving effect to the special allocations set forth in Section 6.1(d), Net Income for each taxable year and all items of income, gain, loss and deduction taken into account in computing Net Income for such taxable year shall be allocated as follows:

(i) First, 100% to the General Partner, in an amount equal to the aggregate Net Losses allocated to the General Partner pursuant to Section 6.1(b)(iii) for all previous taxable years until the aggregate Net Income allocated to the General Partner pursuant to this Section 6.1(a)(i) for the current taxable year and all previous taxable years is equal to the aggregate Net Losses allocated to the General Partner pursuant to Section 6.1(b)(iii) for all previous taxable years;

A-33

(ii) Second, 2% to the General Partner, in an amount equal to the aggregate Net Losses allocated to the General Partner pursuant to Section 6.1(b)(ii) for all previous taxable years and 98% to the Unitholders, Pro Rata, until the aggregate Net Income allocated to such Partners pursuant to this Section 6.1(a)(ii) for the current taxable year and all previous taxable years is equal to the aggregate Net Losses allocated to such Partners pursuant to Section 6.1(b)(ii) for all previous taxable years; and

(iii) Third, 2% to the General Partner, and 98% to the Unitholders, Pro Rata.

(b) Net Losses. After giving effect to the special allocations set forth in Section 6.1(d), Net Losses for each taxable period and all items of income, gain, loss and deduction taken into account in computing Net Losses for such taxable period shall be allocated as follows:
