PROXY STATEMENT
April 28, 2005

INTRODUCTION

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors (the Board of Directors or the Board) of Golden Telecom, Inc. (the Company or Golden Telecom) of proxies to be voted at the annual meeting of shareholders of the Company to be held in the Klementinum Salon, 9th Floor, Hotel Intercontinental Praha, Národní Curiových 43/5, Prague, Czech Republic on May 19, 2005 beginning at 1:00 p.m. local time (the Annual Meeting). Enclosed with this Proxy Statement is a Notice of the Annual Meeting of Shareholders, together with a Proxy Card for your signature if you are unable to attend. Shareholders of record who execute Proxy Cards may revoke them at any time before they are voted. Any Proxy Card may be revoked by the person giving it any time before it is voted by delivering to the Corporate Secretary of the Company at the principal executive offices of the Company at the Representative Offices of Golden TeleServices, Inc., 1 Kozhevnichesky Proezd, 2nd Floor, Moscow, Russia, 115114, on or before the business day prior to the Annual Meeting or at the Annual Meeting itself, a subsequent written notice of revocation or a subsequent Proxy Card relating to the same shares or by attending the meeting and voting in person. The approximate date on which this Proxy Statement and the accompanying Proxy Card will be sent to the Company's shareholders is April 28, 2005.

PROXIES AND VOTING PROCEDURES

Shares of the Company's common stock, par value \$0.01 per share (Common Stock), represented by properly executed Proxy Cards received prior to or at the meeting, unless such Proxy Cards have been revoked, will be voted in accordance with the instructions indicated on the Proxy Card.

Shareholders of record (the Shareholders) on April 12, 2005 (the Record Date) are entitled to vote at the Annual Meeting. On April 12, 2005, the Company had outstanding approximately 36,324,490 shares of Common Stock, with each share representing one vote.

If you return your signed Proxy Card to the Company before the Annual Meeting, Golden Telecom will vote your shares as you direct. You can specify on your Proxy Card whether your shares should be voted for all, some or none of the nominees for director. You can also specify whether you approve, disapprove, or abstain from the proposal to ratify the selection of our auditors. The proposals will be presented at the Annual Meeting by management.

If you return the Proxy Card to us and do not specify on your Proxy Card how you want to vote your shares, we will vote them FOR the election of all nominees for director as set

Table of Contents

forth under Election of Directors below; and FOR the proposal to ratify the selection of our auditors.

The affirmative vote of the holders of a plurality of the votes cast by shareholders will elect candidates for director (Item No. 1 on your Proxy Card). The affirmative vote of the holders of at least a majority of the shares of Common Stock present in person or represented by proxy at the meeting and entitled to vote is required to ratify the Board of Directors' appointment of Ernst & Young (CIS) Limited (Ernst & Young) as the Company's independent auditors for 2005 (Item No. 2 on your Proxy Card). The required quorum is a majority of the outstanding shares of voting stock of Golden Telecom. Golden Telecom intends to count abstentions both for purposes of determining presence or absence of a quorum and in the total number of shares represented and voting with respect to a proposal. Accordingly, abstentions will have the same effect as a vote against Item 2.

The nominees for director receiving the highest number of affirmative votes will be elected. Unless authority to vote is withheld or another contrary instruction is indicated, properly executed Proxy Cards received by Golden Telecom prior to or at the Annual Meeting will be voted FOR the election of the nominees listed on the following pages. Should any of the nominees be unavailable to serve at the time the election occurs, the proxyholders named in the Proxy Card will vote for substitute nominees at their discretion.

Broker non-votes occur when nominees have voted on some of the matters to be acted on at a meeting, but fail to vote on certain other matters because they are not permitted to vote on such matters in the absence of instructions from the beneficial owners of shares. Broker non-votes, if any, with respect to a proposal will not be counted for purposes of determining the presence or absence of a quorum, and will not be counted as shares represented and voting with respect to that proposal. A broker non-vote will have no effect on the outcome of the election of directors.

Independence of the Audit Committee. The National Association of Securities Dealers, as a condition for quotation on the Nasdaq National Market, requires the Company to comply with the Nasdaq's Marketplace Rules. One such rule requires the Company to certify that it has and will continue to have an audit committee comprised of at least three members, each of whom is independent, as defined by the Marketplace Rules and Rule 10A-3 of the Securities Exchange Act of 1934. The Company believes that it complies with this requirement.

Audit Committee Financial Expert. The Board of Directors has determined that the Audit Committee members are financially literate under the current listing standards of the Nasdaq National Market and able to devote sufficient time to serving on the Audit Committee. The Board has also determined that Mr. Michael Calvey, who currently is Co-Managing Partner of Baring Vostok Capital Partners Limited and a Senior Partner of Baring Vostok Private Equity Partners Limited, is the Audit Committee financial expert as defined in Item 401 of Regulation S-K under the Securities Exchange Act of 1934. The Board made a qualitative assessment of Mr. Calvey's level of knowledge and experience based on a number of factors, including his formal education and experience as Co-Managing Partner of Baring Vostok Capital Partners Limited and a Senior Partner of Baring Vostok Private Equity Partners Limited and on audit committees of other publicly traded companies.

Compensation Committee. During the fiscal year ended December 31, 2004, the Compensation Committee of the Board of Directors held four meetings and acted through unanimous written consent in lieu of meeting three times. To accomplish these purposes, the Committee develops and implements policies and processes regarding corporate governance matters, assesses Board membership needs and assists the Board in identifying, recruiting and nominating candidates for directorships.

In evaluating and determining whether to nominate a candidate for a position on the Company's Board, the Committee will consider the criteria outlined in the Committee's Charter, which include strength of character, mature judgment, career specialization, relevant technical skills, diversity and the extent to which the candidate would fill a present need on the Board.

Item No. 2 on Your Proxy Card: Ratification of Appointment of Auditors

Golden Telecom's Audit Committee has voted to appoint OOO Ernst & Young as independent auditors to examine the consolidated financial statements of Golden Telecom, Inc. and subsidiaries for the year ending December 31, 2005, and you are asked to ratify that appointment at the Annual Meeting. In keeping with good corporate governance practice, the Audit Committee will periodically assess the suitability of its incumbent independent auditors taking into account all relevant facts and circumstances, including the possible consideration of the qualifications of other accounting firms.

Ernst & Young's report on the Company's consolidated financial statements as of December 31, 2004 and 2003 and for each of the three fiscal years in the period ended December 31, 2004 did not contain any adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope, or accounting principles. During the fiscal years ended December 31, 2003 and 2004 and thereafter through the filing date of the Company's 2004 annual report on Form 10-K, there were no disagreements between the Company and Ernst & Young on any matter of accounting principles or practices, financial statements disclosures, or auditing scope or procedures, which, if not resolved to the satisfaction of Ernst & Young, would have caused Ernst & Young to make reference to the matter in their report. None of the reportable events described in Item 304 (a)(1)(v) of Regulation S-K of the Securities Exchange Act of 1934 have occurred during the fiscal years ended December 31, 2003 and 2004 or through the filing date of the Company's 2004 annual report on Form 10-K.

Audit Fees. For professional services rendered in connection with the audit of the Company's 2004 and 2003 financial statements, the audit of the Company's internal control over financial reporting as of December 31, 2004, and the review of the financial statements included in the Company's 2004 and 2003 Forms 10-Q, Ernst & Young billed the Company a total of \$1,168,000 in 2004 and \$657,000 in 2003. These amounts also include statutory audits of certain subsidiaries, reviews of SEC filings and accounting consultations.

Audit-Related Fees. For professional audit-related services rendered, Ernst & Young billed the Company a total of \$179,000 in 2004 and \$155,000 in 2003. Audit-related services generally include due diligence on potential acquisitions. The amount also includes reviews of documents filed with the SEC and accounting consultations.

Tax Fees. Ernst & Young's fees for the years 2004 and 2003 for tax consulting and expatriate tax services were \$51,000 and \$78,000, respectively.

All other fees. Ernst & Young's fees for 2004 for training courses were \$35,000. There are no such other fees in 2003.

The Company's Audit Committee pre-approved all of the services described above that were provided after the pre-approval requirements under the Sarbanes-Oxley Act that became effective on May 6, 2003.

The Audit Committee considered whether the non-audit services rendered by Ernst & Young were compatible with maintaining Ernst & Young's independence as auditors of the Company's financial statements and determined that they were.

Table of Contents

During 2003, the Company adopted policies and procedures governing pre-approval of services to be provided by the Company's independent auditors consisting of the following key components:

The Audit Committee is directly responsible for the appointment, compensation, retention, and oversight of the Company's independent auditors.

Pre-approval may be, but in the past has not been, delegated to one or more members of the Audit Committee. The details of any services approved under this delegation must be reported to the full Audit Committee at its next regular meeting.

Pre-approval of certain recurring audit, audit-related and tax services may be accomplished through pre-approval of a detailed budget or an updated forecast for such services.

The Company's independent auditors are prohibited from providing certain non-audit services. Any other permissible non-audit service engagement must be specifically approved in advance by the Audit Committee.

Generally, the Audit Committee will not engage the Company's independent auditors for services other than audit, audit-related, and tax services.

The Company provides regular reporting to the Audit Committee regarding all audit, audit-related, tax and non-audit services provided by the Company's independent auditors.

The Company's policy governing the provision of non-audit services by the Company's independent auditors is more restrictive than is required by the regulations implementing the Sarbanes-Oxley Act of 2002.

It is not expected that representatives of Ernst & Young will be present at the Annual Meeting.

The Audit Committee of the Board of Directors has selected Ernst & Young, independent public accountants, to audit the consolidated financial statements of the Company for the fiscal year ending December 31, 2005 and recommends that the shareholders ratify such selection.

The ratification of the appointment of Ernst & Young is not required by law or by the By-laws of the Company. If the shareholders do not ratify the appointment, the selection of other independent public accountants will be considered by the Board of Directors. REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

Overview. The role of the Compensation Committee is to oversee and direct the development of executive compensation policies and programs that are consistent with, explicitly linked to, and supportive of the strategic objectives of growing the Company's businesses in order to maximize shareholder value. The Committee's specific responsibilities consist of determining the appropriate levels of compensation, including salaries, quarterly or annual incentives, long-term incentives and employee benefits for members of the Company's senior management, including executive officers. The Committee believes that a strong link should exist between executive compensation and the financial results of the Company's operations. The Committee seeks to realize this goal by developing incentive compensation programs that provide competitive compensation and reflect Company performance.

Compensation Philosophy. The three fundamental principles to which the Committee adheres in discharging its responsibilities are as follows. First, most annual and long-term incentive compensation for the Company's executive officers should be at risk, with actual compensation levels correlating with the Company's performance in certain key areas determined by the Committee. Second, incentive compensation of the Company's executive officers should focus more heavily on long-term rather than short-term accomplishments and results. Third, the overall executive compensation program should be competitive, equitable and structured so as to ensure the Company's ability to attract, retain, motivate and reward the executives and senior management who are essential to the Company's continuing success in the difficult markets in which the Company operates. Total compensation, rather than distinct compensation elements, is the focus of the Company's goal to provide competitive compensation opportunities.

Compensation Elements. The Company's compensation program for executives and senior management consists of four principal elements, each of which is vitally important in meeting the Company's need to attract, retain, motivate and reward highly-qualified executives and senior management in the markets where the Company operates. The four principal elements are described below and include base salaries, periodic performance incentives, long-term incentives and benefits.

Base Salaries. Base salaries for executive officers and senior management are generally set at levels that reflect the competitive marketplace for companies that are of comparable size and complexity and that would be considered competitors of the Company in attracting and retaining qualified executives. The salaries of the executive officers are reviewed and approved by the Compensation Committee based on its assessment of each executive's experience and performance and a comparison of salaries of peers in other companies.

Periodic Performance Incentives. Incentive awards are made on a quarterly or annual basis to executive officers and senior management on the basis of Company and business unit performance relative to budget in such areas as revenue, net income, and EBITDA, which is a common performance measure in the telecommunications industry and means earnings before interest, tax, depreciation and amortization. The Company adopted a revised executive officer and senior management executive bonus program in 2001, whereby an additional criterion, personal performance objectives, was added and executives and senior management are eligible for an annual incentive payment based on the fulfillment of these personal objectives. The bonus program was revised in 2003 such that all bonus components will be paid annually. The Company intends to continue providing incentives in concert with other compensation elements in order to maintain a competitive total compensation program for its executive officers. The Committee

Table of Contents

reviews and approves all performance measures and goals established under the annual and long-term incentive plans.

Long-Term Incentives. At the time leading up to the Company's initial public offering in 1999, the Company relied on stock options as the principal means of providing long-term incentive compensation. Stock options were granted to executive officers and senior management under the 1999 Equity Participation Plan. The Committee discontinued the policy of periodic option grants. In July 2004, our Board of Directors adopted a Long-Term Incentive Bonus Plan (LTIBP) for our senior management, effective as of January 1, 2004. The LTIBP is designed to reward senior management with annual bonus awards consisting of 100% restricted shares for officers of the Company and 50% restricted shares and 50% cash payments for other qualified employees participating in LTIBP if the Company meets certain targets for net income growth established by the Company's Board of Directors. In addition, the program provides for a one-time grant of a limited amount of shares to senior management in an aggregate amount not exceeding 50,000 shares. The LTIBP is intended to act as a retention mechanism for senior management as the cash payments and the restricted stock vest over a three year period. It is expected that the LTIBP will act as a substitute for the Company's 1999 Equity Participation Plan under which significant amounts of stock options were, in the past, granted to senior management. During the twelve months ended December 31, 2004, the Company did not record any expenses associated with the LTIBP as the Company did not achieve the operational and financial targets for 2004. The Company currently anticipates repurchasing from time to time in the open market, a number of the Company's shares equal to the number of the Company's shares that are subject to awards under the LTIBP. The Company has not granted any shares under the LTIBP.

Benefits. Benefits offered to executive officers serve a different purpose than do other elements of the total compensation program. In general, they act as a safety net against problems that can arise from illness, disability or death. Benefits offered to executive officers are basically those offered to other employees of the Company.

Golden Telecom, Inc. 401(k) Plan. The Company offers a 401(k) retirement savings plan (the 401(k) Plan) to its employees. The 401(k) Plan is a defined contribution retirement benefit, the prototype of which has been submitted by the Company's 401(k) Plan administrators to the Internal Revenue Service for favorable tax treatment under Section 401 of the Internal Revenue Service Code. All employees of Golden Telecom, subject to certain regulatory qualifications, who are U.S. citizens and are at least 21 years of age and have completed the minimum service requirement are eligible to participate in the 401(k) Plan. The 401(k) Plan participants are able to defer pre-tax income by contributing to the plan up to the maximum amount permitted by law. After-tax contributions are also permitted under the 401(k) Plan. Golden Telecom matches 50% of each participant's pre-tax contribution to the 401(k) Plan. In addition, Golden Telecom may, in its sole discretion and in a nondiscriminatory manner, contribute additional amounts as profit sharing to each participant's account. The Company did not contribute additional amounts as profit sharing for the year 2004. The amounts deposited into each participant's account will be invested among various investment options according to the instructions of the participant. Each participant's pre-tax and after-tax contributions will be immediately vested and non-forfeitable. The Company's matching contribution and profit sharing allocations to each participant's account will not vest until the participant has completed three years of service with Golden Telecom at which time the matching contribution and profit sharing allocations become 100% vested.

Evaluation Procedures. In determining matters regarding executive officer compensation (other than the Chief Executive Officer), the Committee, with the Chairman of the Board and Chief

Table of Contents

Executive Officer, reviews the performance of key executives including the executive officers, the respective areas of authority and responsibility of the various executive officers, and the contribution of each to the efforts of the Company in meeting its financial and strategic goals. The Committee has confirmed that the compensation paid in 2004 to the named executive officers is consistent with the Company's compensation philosophy and objectives.

Compensation of the Chief Executive Officer. On November 6, 2001 Mr. Vinogradov was appointed President and Chief Executive Officer of the Company and entered into an employment agreement with Golden TeleServices, Inc., a wholly-owned subsidiary of the Company. Mr. Vinogradov continued his employment as General Director of LLC EDN Sovintel, a fully owned subsidiary of the Company, until November 12, 2002. As of January 1, 2004, Mr. Vinogradov's annual base salary was set at \$350,000 and he was eligible for periodic bonuses throughout the year targeted, in the aggregate, to be 29% of his base salary. As of November 6, 2004, Mr. Vinogradov's annual base salary was set at \$400,000 and he was eligible for periodic bonuses throughout the year targeted, in the aggregate, to be 35% of his base salary. As of January 1, 2005, Mr. Vinogradov's annual base salary was set at \$424,000 and he was eligible for periodic bonuses throughout the year targeted, in the aggregate, to be 33% of his base salary. During 2004, Mr. Vinogradov received \$363,749 as his base salary and \$56,000 in bonus payments. In evaluating Mr. Vinogradov's compensation, the Committee compared the Company's compensation practices and levels to those of other companies involved in similar businesses, including but not limited to, the companies included in the indices indicated in the Performance Graph. Based on this review, the Committee determined Mr. Vinogradov's compensation to be appropriate.

Deductibility of Certain Executive Compensation. Beginning in 1994, the Omnibus Reconciliation Act of 1993 limits to \$1 million the amount that may be deducted by a publicly-held company for compensation paid to each of its named executive officers in a taxable year, unless the compensation in excess of \$1 million is qualified performance-based compensation. The Committee and the Company design short-term and long-term compensation plans to qualify for the exemption from the deduction limitations of Section 162(m) of the Internal Revenue Code and to be consistent with providing appropriate compensation to executives. Shareholder approval of incentive compensation plans and various provisions thereunder covering the executive officers has been sought and obtained and will be sought in the future to continue to qualify performance-based compensation for the exemption. Although it is the Company's intent to qualify compensation for the exemption from the deduction limitations, the Company's compensation practices have been, and will continue to be, designed to serve the best interests of the shareholders regardless of whether specific compensation qualifies for the exemption.
