## FIRST QUARTER RESULTS

We announced on April 25, 2005, our results of operations for the first quarter of 2005. Our press release included the following information:

We reported first-quarter earnings from continuing operations of \$885 million, or \$0.27 per diluted share compared with earnings of \$1.9 billion, or \$0.58 per diluted share in the year-ago quarter. First-quarter 2004 earnings included a one-time gain of \$0.22 per diluted share from the disposition of our investment in Belgacom, S.A. First-quarter 2005 earnings included after-tax expenses of \$242 million, or \$0.07 per diluted share, for SBC 's proportionate share of merger integration and non-cash intangible amortization costs at Cingular related to Cingular 's acquisition of AT&T Wireless in October 2004.

Our first-quarter 2005 reported revenues from continuing operations totaled \$10.2 billion, up 2.4 percent compared with the first quarter of 2004. Cingular reported first-quarter 2005 revenues of \$8.2 billion, up 5.3 percent compared with pro forma revenues for the first quarter of 2004. (Cingular 's 2004 pro forma results include AT&T Wireless and other acquired properties and exclude divested and agreed-to-be divested properties.) Our first-quarter 2005 wireline revenues totaled \$9.3 billion, up 2.8 percent versus the year-ago first quarter. Wireline data revenues grew 6.7 percent to \$2.8 billion, reflecting continued growth in DSL services along with transport and integration services.

Our first-quarter operating expenses totaled \$8.7 billion, and operating income was \$1.6 billion, compared with first-quarter 2004 operating expenses of \$8.5 billion and operating income of \$1.5 billion. Our operating income margin was 15.2 percent, compared with 15.1 percent in the year-earlier first quarter.

We reported a net gain of 504,000 DSL lines for the first-quarter 2005 and as of the end of the quarter, we had 5.6 million DSL lines in service. Our total long distance lines increased by 1.1 million for the quarter and as of the end of the first quarter 2005, we had 22.0 million lines.

Our retail consumer line base declined by 88,000 in the first quarter of 2005, compared with declines of 305,000 in the first quarter of 2004 and 192,000 in the fourth quarter of 2004. A major driver of this quarter's improvement was a continued reversal in wholesale line trends. In the first quarter of 2005, we posted a decline in wholesale lines (UNE-P and resale) of 343,000 compared with an increase of 135,000 in the year-ago first quarter. Wholesale lines decreased 302,000 in the fourth quarter of 2004. SBC's retail business access lines base declined by 45,000 in the first quarter of 2005. This compared with declines of 242,000 in the first quarter a year ago and 74,000 in the fourth quarter of 2004. Our penetration of consumer retail lines with at least one key service—long distance, DSL, joint-billed Cingular or SBC/DISH Network video—increased to 64 percent at the end of the quarter, up from 50 percent a year earlier.

Cingular had net subscriber additions of 1.4 million for the first quarter of 2005 compared with a pro forma gain of 1.8 million in the preceding quarter. Cingular ended the quarter with 50.4 million total subscribers. Cingular revenues totaled \$8.2 billion in the quarter, up 5.3 percent from pro forma results in the year-earlier first quarter. Cingular's first-quarter 2005 operating expenses were \$8.1 billion, including \$591 million of merger integration and non-cash intangible amortization costs related to Cingular's acquisition of AT&T Wireless.
