PART I. FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Flextronics International Ltd.

One Marina Boulevard, #28-00
Singapore, 018989

We have reviewed the accompanying condensed consolidated balance sheet of Flextronics International Ltd. and subsidiaries (the Company) as of December 31, 2008, and the related condensed consolidated statements of operations for the three-month and nine-month periods ended December 31, 2008 and December 31, 2007, and of cash flows for the nine-month periods ended December 31, 2008 and December 31, 2007. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole.

Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Flextronics International Ltd. and subsidiaries as of March 31, 2008, and the related consolidated statements of operations, shareholders' equity, and cash flows for the year then ended (not presented herein); and in our report dated May 23, 2008 (June 23, 2008 as to the caption Relacom AB included in Note 2), we expressed an unqualified opinion on those consolidated financial statements and included an explanatory paragraph regarding the Company's adoption of Statement of Financial Accounting Standards No. 123(R) *Share Based Payment*. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of March 31, 2008 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Table of Contents**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)****1. ORGANIZATION OF THE COMPANY**

Flextronics International Ltd. (Flextronics or the Company) was incorporated in the Republic of Singapore in May 1990. The Company is a leading provider of advanced design and electronics manufacturing services (EMS) to original equipment manufacturers (OEMs) of a broad range of products in the following markets: infrastructure; mobile communication devices; computing; consumer digital devices; industrial, semiconductor and white goods; automotive, marine and aerospace; and medical devices. The Company s strategy is to provide customers with a full range of vertically-integrated global supply chain services through which the Company designs, builds, ships and services a complete packaged product for its OEM customers. OEM customers leverage the Company s services to meet their product requirements throughout the entire product life cycle.

The Company s service offerings include rigid printed circuit board and flexible circuit fabrication, systems assembly and manufacturing (including enclosures, testing services, materials procurement and inventory management), logistics, after-sales services (including product repair, re-manufacturing and maintenance) and multiple component product offerings. Additionally, the Company provides market-specific design and engineering services ranging from contract design services (CDM), where the customer purchases services on a time and materials basis, to original product design and manufacturing services, where the customer purchases a product that was designed, developed and manufactured by the Company (commonly referred to as original design manufacturing, or

ODM). ODM products are then sold by the Company s OEM customers under the OEMs brand names. The Company s CDM and ODM services include user interface and industrial design, mechanical engineering and tooling design, electronic system design and printed circuit board design. The Company also provides after market services such as logistics, repair and warranty services.

On October 1, 2007, the Company completed the acquisition of 100% of the outstanding common stock of Solectron Corporation (Solectron). Refer to Note 12, Business and Asset Acquisitions for further details.

2. SUMMARY OF ACCOUNTING POLICIES***Basis of Presentation and Principles of Consolidation***

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP or GAAP) for interim financial information and in accordance with the requirements of Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements, and should be read in conjunction with the Company s audited consolidated financial statements as of and for the fiscal year ended March 31, 2008 contained in the Company s Annual Report on Form 10-K, as amended. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the three-month and nine-month periods ended December 31, 2008 are not necessarily indicative of the results that may be expected for the fiscal year ending March 31, 2009.

The first fiscal quarter ended on June 27, 2008 and June 29, 2007, respectively, and the second fiscal quarter ended on September 26, 2008 and September 28, 2007, respectively. The third fiscal quarter ends on December 31 and the fourth fiscal quarter and year ends on March 31 of each year.

Customer Credit Risk

The Company has an established customer credit policy, through which it manages customer credit exposures through credit evaluations, credit limit setting, monitoring, and enforcement of credit limits for new and existing customers. The Company performs ongoing credit evaluations of its customers financial condition and makes provisions for doubtful accounts based on the outcome of those credit evaluations. The Company evaluates the collectibility of its accounts receivable based on specific customer circumstances, current economic trends, historical experience with collections and the age of past due receivables.

Table of Contents

To the extent the Company identifies exposures as a result of credit or customer evaluations, the Company also reviews other customer related exposures, including but not limited to inventory and related contractual obligations. During the three-month and nine-month period ended December 31, 2008 the Company incurred \$145.3 million and \$262.7 million of charges for Nortel and other customers that filed for bankruptcy or restructuring protection or otherwise were experiencing significant financial and liquidity difficulties. Of these charges, the Company classified approximately \$98.0 million and \$194.7 million in cost of sales related to the write-down of inventory and associated contractual obligations and \$47.3 million and \$68.0 million as selling, general and administrative expenses for provisions for doubtful accounts during the three-month and nine-month periods ended December 31, 2008, respectively. In the case of Nortel, in developing the charge to cost of sales, the Company considered its negotiated agreement requiring Nortel to purchase \$120.0 million of existing inventory by July 1, 2009. This agreement has received preliminary approval by the Ontario Superior Court of Justice and \$75.0 million has been collected under the arrangement as of January 31, 2009.

Based on all information available through December 31, 2008, including discussions with Nortel and its financial advisors, the Company believed that payment of receivables from Nortel was reasonably assured at the time of shipment, and accordingly, the Company recorded revenues on sales to Nortel at the time of shipment during the period. As part of the contractual arrangement discussed above, the Company also secured five day payment terms on all post-bankruptcy petition and post-CCCA (Companies Creditors Arrangement Act) filing shipments for Nortel. The Company reclassified approximately \$88.2 million of trade receivables from Nortel, net of the \$47.3 million reserve, to other assets as of December 31, 2008, as the Company does not expect these amounts to be collected within one year. In developing the provision for these receivables, the Company considered various mitigating factors including existing provisions for Nortel, off-setting obligations from Nortel and amounts subject to administrative priority claims. As it is early in the restructuring proceedings, these estimates required a considerable amount of judgment and accordingly, the provisions are subject to change.

For all other customers experiencing significant financial and liquidity difficulties and for which the Company recognized associated charges during the nine-month period ended December 31, 2008, the Company recognizes revenues from these customers only when it collects cash for the services, assuming all other criteria for revenue recognition have been met.

Inventories

The components of inventories, net of applicable lower of cost or market write-downs, were as follows:

	As of December 31, 2008	As of March 31, 2008
	(In thousands)	
Raw materials	\$ 2,290,727	\$ 2,435,066
Work-in-progress	630,628	764,860
Finished goods	579,600	918,624
	\$ 3,500,955	\$ 4,118,550

Property and Equipment

Total depreciation expense associated with property and equipment amounted to approximately \$100.8 million and \$284.6 million for the three-month and nine-month periods ended December 31, 2008, respectively, and \$105.0 million and \$246.1 million for the three-month and nine-month periods ended December 31, 2007, respectively. Proceeds from the disposition of property and equipment were \$36.7 million and \$76.3 million during the nine-month periods ended December 31, 2008 and December 31, 2007, respectively, and are presented net with purchases of property and equipment within cash flows from investing activities in the condensed consolidated statements of cash flows.

Table of Contents***Goodwill and Other Intangibles***

The Company tests goodwill for impairment annually as of January 31 and concluded that no impairment existed as of January 31, 2008. The Company also evaluates goodwill for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Recoverability of goodwill is measured at the reporting unit level by comparing the reporting unit's carrying amount, including goodwill, to the fair value of the reporting unit, which is measured based upon, among other factors, market multiples for comparable companies as well as a discounted cash flow analysis. The Company has one reporting unit: Electronic Manufacturing Services. If the recorded value of the assets, including goodwill, and liabilities (net book value) of the reporting unit exceeds its fair value, an impairment loss may be required to be recognized. Further, to the extent the net book value of the Company as a whole is greater than its market capitalization, all, or a significant portion of its goodwill may be considered impaired.

During its third fiscal quarter ended December 31, 2008, the Company concluded that an interim goodwill impairment analysis was required based on the significant decline in the Company's market capitalization during the quarter. This decline in market capitalization was driven largely by deteriorating macroeconomic conditions that contributed to a considerable decrease in market multiples as well as a decline in the Company's estimated discounted cash flows.

Pursuant to the guidance in SFAS 142, *Goodwill and Other Intangible Assets* (SFAS 142), the measurement of impairment of goodwill consists of two steps. In the first step, the fair value of the Company is compared to its carrying value. In connection with the preparation of interim financial statements for the three-month period ended December 31, 2008, management completed a valuation of the Company, which incorporated existing market-based considerations as well as a discounted cash flow methodology based on current results and projections, and concluded the estimated fair value of the Company was less than its net book value. Accordingly the guidance in SFAS 142 requires a second step to determine the implied fair value of the Company's goodwill, and to compare it to the carrying value of the Company's goodwill. This second step includes valuing all of the tangible and intangible assets and liabilities of the Company as if it had been acquired in a business combination, including valuing all of the Company's intangible assets even if they were not currently recorded to determine the implied fair value of goodwill. The result of this assessment indicated that the implied fair value of goodwill was zero. As a result, the Company recognized a non-cash impairment charge of approximately \$5.9 billion for the three-month and nine-month periods ended December 31, 2008, respectively, to write-off the entire carrying value of its goodwill.

The following table summarizes the activity in the Company's goodwill account during the nine-month period ended December 31, 2008:

	Amount (In thousands)
Balance, beginning of the year	\$ 5,559,351
Acquisitions (1)	112,019
Impairment losses	(5,949,978)
Purchase accounting adjustments, net (2)	354,721
Foreign currency translation adjustments	(76,113)
 Balance, end of the quarter	 \$

- (1) Balance is attributable to certain acquisitions that were not

individually, nor in the aggregate, significant to the Company. Refer to the discussion of the Company's acquisitions in Note 12, Business and Asset Acquisitions.

- (2) Includes adjustments and reclassifications resulting from management's review of the valuation of tangible and identifiable intangible assets and liabilities acquired through certain business combinations completed in a period subsequent to the respective acquisition, based on management's estimates, of which approximately \$362.5 million was attributable to the Company's October 2007 acquisition of Solectron, offset by \$7.8 million of other adjustments that were not individually significant. Refer to the

discussion of the
Company's
acquisitions in
Note 12,
Business and
Asset
Acquisitions.

During the nine-month period ended December 31, 2008, there were approximately \$83.4 million of additions to intangible assets related to customer-related intangibles and approximately \$15.8 million related to acquired licenses and other intangibles. The fair value of the Company's intangible assets purchased through business combinations is principally determined based on management's estimates of cash flow and recoverability. The Company is in the process of determining the fair value of intangible assets acquired in certain historical business combinations. Such valuations will be completed within one year of purchase.

Table of Contents

The components of acquired intangible assets are as follows:

	As of December 31, 2008			As of March 31, 2008		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
			(In thousands)			
Intangible assets:						
Customer-related	\$ 533,001	\$ (255,023)	\$ 277,978	\$ 449,623	\$ (160,971)	\$ 288,652
Licenses and other	55,586	(22,923)	32,663	39,797	(11,059)	28,738
Total	\$ 588,587	\$ (277,946)	\$ 310,641	\$ 489,420	\$ (172,030)	\$ 317,390

Intangible assets are amortized over the period and pattern of economic benefit that is expected to be obtained. See Note 12, Business and Asset Acquisitions regarding the finalization of the allocation of purchase price in connection with the Soletron acquisition.

The estimated future annual amortization expense for acquired intangible assets is as follows:

Fiscal Year Ending March 31,	Amount (In thousands)
2009 (1)	\$ 27,390
2010	101,193
2011	70,481
2012	45,943
2013	30,107
Thereafter	35,527
Total amortization expense	\$ 310,641

(1) Represents estimated amortization for the three-month period ending March 31, 2009.

Provision for income taxes

The Company has tax loss carryforwards for which the Company has recognized deferred tax assets. The Company's policy is to provide a reserve against those deferred tax assets that in management's estimate are not more likely than not to be realized. During the nine-month period ended December 31, 2008, the provision for income taxes includes a benefit of approximately \$57.9 million for the reversal of valuation allowances and other tax reserves. The Company received no tax benefit from the write-off of goodwill or distressed customer charges.

During the nine-month period ended December 31, 2007, the Company recognized tax expense of approximately \$661.3 million relating to a re-evaluation of previously recorded deferred tax assets in the United States, which were primarily comprised of tax loss carryforwards. Management believed that the likelihood certain deferred tax assets would be realized had decreased because the Company expected future projected taxable income in the United States would be lower as a result of increased interest expense resulting from the term loan entered into as part of the

acquisition of Solectron. There was no incremental cash expenditure relating to this increase in tax expense.

A number of countries in which the Company is located allow for tax holidays or provide other tax incentives to attract and retain business. In general, these holidays were secured based on the nature, size and location of the Company's operations. The aggregate dollar effect on the Company's income from continuing operations resulting from tax holidays and tax incentives to attract and retain business for the fiscal years ended March 31, 2008, 2007 and 2006 were \$118.0 million, \$98.0 million, \$61.0 million, respectively. The effect on basic and diluted earnings per share from continuing operations for the fiscal years ended March 31, 2008, 2007 and 2006 were \$0.16 and \$0.16, \$0.17 and \$0.16, and \$0.11 and \$0.10, respectively. Unless extended or otherwise renegotiated, the Company's existing holidays will expire in the fiscal years ending March 31, 2010 through fiscal 2018.

Table of Contents***Recent Accounting Pronouncements***

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157), which defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles, and expands the requisite disclosures for fair value measurements. SFAS 157 was effective for the Company beginning April 1, 2008 for financial assets and liabilities, as well as for any other assets and liabilities that are carried at fair value on a recurring basis. The adoption of the provisions of SFAS 157 related to financial assets and liabilities, and other assets and liabilities that are carried at fair value on a recurring basis did not materially impact the Company's consolidated financial position, results of operations and cash flows.

In May 2008, the FASB issued FASB Staff Position No. APB 14-1 (FSP APB 14-1), Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement). FSP APB 14-1 requires that issuers of convertible debt instruments that may be settled in cash upon conversion separately account for the liability and equity components in a manner that will reflect the entity's nonconvertible debt borrowing rate when the interest cost is recognized in subsequent periods. The Company is required to adopt FSP APB 14-1 retrospectively, effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2008. The Company will adopt FSP APB 14-1 beginning April 1, 2009 and is evaluating the impact that the adoption of FSP APB 14-1 will have on its consolidated financial position, results of operations and cash flows.

3. STOCK-BASED COMPENSATION

The Company grants equity compensation awards to acquire the Company's ordinary shares from four plans, which collectively are referred to as the Company's equity compensation plans below. On September 30, 2008, the Company's shareholders approved: (i) an increase in the shares available under its 2001 Equity Incentive plan by 20.0 million ordinary shares to 62.0 million ordinary shares, (ii) a 5.0 million share increase in the amount of such ordinary shares that may be issued as share bonus awards to 20.0 million ordinary shares, and (iii) a 2.0 million share increase in the amount of such ordinary shares subject to awards which may be granted to a person in any calendar year to 6.0 million ordinary shares. For further discussion of these Plans, refer to Note 2, Summary of Accounting Policies, of the Notes to Consolidated Financial Statements in the Company's Annual Report on Form 10-K, as amended, for the fiscal year ended March 31, 2008.

Stock-Based Compensation Expense

The following table summarizes the Company's stock-based compensation expense:

	Three-Month Periods Ended December 31,		Nine-Month Periods Ended December 31,	
	2008	2007	2008	2007
	(In thousands)			
Cost of sales	\$ 2,607	\$ 2,205	\$ 6,798	\$ 4,674
Selling, general and administrative expenses	15,179	12,139	42,500	28,993
Total stock-based compensation expense	\$ 17,786	\$ 14,344	\$ 49,298	\$ 33,667

As of December 31, 2008, the total unrecognized compensation cost related to unvested stock options granted to employees under the Company's equity compensation plans was approximately \$119.9 million, net of estimated forfeitures of \$9.4 million. This cost will be amortized on a straight-line basis over a weighted-average period of approximately 3.2 years, and will be adjusted for subsequent changes in estimated forfeitures. As of December 31, 2008, the total unrecognized compensation cost related to unvested share bonus awards granted to employees under the Company's equity compensation plans was approximately \$74.2 million, net of estimated forfeitures of approximately \$3.5 million. This cost will be amortized generally on a straight-line basis over a weighted-average period of approximately 2.4 years, and will be adjusted for subsequent changes in estimated forfeitures.

Table of Contents***Determining Fair Value***

The fair value of options granted to employees under the Company's equity compensation plans during the three-month and nine-month periods ended December 31, 2008 and December 31, 2007 was estimated using the following weighted-average assumptions:

	Three-Month Periods Ended December 31,		Nine-Month Periods Ended December 31,	
	2008	2007	2008	2007
	Expected term	4.1 years	4.6 years	4.2 years
Expected volatility	62.4%	37.0%	50.2%	36.1%
Expected dividends	0.0%	0.0%	0.0%	0.0%
Risk-free interest rate	1.5%	3.8%	2.2%	4.2%
Weighted-average fair value	\$ 1.10	\$ 4.54	\$ 2.29	\$ 4.33

Options issued during the three-month and nine-month periods ended December 31, 2008 have contractual lives of seven years, respectively, and options issued during the three-month and nine-month periods ended December 31, 2007 have contractual lives of ten years, respectively.

During the nine-month period ended December 31, 2008, 2.7 million options were granted to certain key employees whereby vesting is contingent upon a service requirement over a period of four years. These options expire seven years from the date of grant and are exercisable only when the Company's stock price is \$12.50 per share, or above. The fair value of these options was estimated to be \$4.25 per share and was calculated using a lattice model.

Stock-Based Awards Activity

The following is a summary of option activity for the Company's equity compensation plans, excluding unvested share bonus awards, during the nine-month period ended December 31, 2008:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term in Years	Aggregate Intrinsic Value
Outstanding as of March 31, 2008	52,541,413	\$ 11.67		
Granted	41,194,081	6.45		
Exercised	(2,242,639)	6.13		
Forfeited	(6,096,696)	11.14		
Outstanding as of December 31, 2008	85,396,159	\$ 9.33	6.06	\$ 6,085,261
Vested and expected to vest as of December 31, 2008	82,689,415	\$ 9.41	6.03	\$ 5,717,959
Exercisable as of December 31, 2008	38,184,190	\$ 12.12	5.09	\$

The aggregate intrinsic value of options exercised (calculated as the difference between the exercise price of the underlying award and the price of the Company's ordinary shares determined as of the time of option exercise) under the Company's equity compensation plans was \$0.4 million and \$6.3 million during the three-month and nine-month periods ended December 31, 2008, respectively, and \$6.3 million and \$11.9 million during the three-month and nine-month periods ended December 31, 2007, respectively.

Cash received from option exercises under all equity compensation plans was \$0.9 million and \$13.7 million for the three-month and nine-month periods ended December 31, 2008, respectively, and \$19.1 million and \$29.1 million for the three-month and nine-month periods ended December 31, 2007, respectively.

Table of Contents

The following table summarizes share bonus award activity for the Company's equity compensation plans during the nine-month period ended December 31, 2008:

	Number of Shares	Weighted Average Grant-Date Fair Value
Unvested share bonus awards as of March 31, 2008	8,866,364	\$ 10.70
Granted	2,597,727	9.92
Vested	(1,776,102)	9.36
Forfeited	(604,125)	11.49
Unvested share bonus awards as of December 31, 2008	9,083,864	\$ 10.68

Of the 2.6 million unvested share bonus awards granted under the Company's equity compensation plans during the nine-month period ended December 31, 2008, 700,000 were granted to certain key employees whereby vesting is contingent upon both a service requirement and the Company's achievement of certain longer-term goals over a period of three years. As of December 31, 2008, management believed that the maximum number of shares will be issued at the end of the performance period.

The total fair value of shares vested under the Company's equity compensation plans was \$1.1 million and \$16.6 million during the three-month and nine-month periods ended December 31, 2008, respectively, and \$3.2 million and \$15.9 million during the three-month and nine-month periods ended December 31, 2007, respectively.

4. EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share is measured as net income or loss divided by the weighted average outstanding ordinary shares for the period. Diluted earnings (loss) per share includes the potential dilution from stock options, share bonus awards and convertible securities. As a result of the Company's net losses for the three-month and nine-month periods ended December 31, 2008 and 2007, the following ordinary share equivalents were excluded from the computation of diluted earnings (loss) per share:

Ordinary share equivalents from equity compensation awards to acquire approximately 73.3 million and 68.2 million ordinary shares outstanding during the three-month and nine-month periods ended December 31, 2008, respectively, and 46.1 million and 45.4 million shares outstanding during the three-month and nine-month periods ended December 31, 2007; and

Ordinary share equivalents from the conversion spread (excess of conversion value over face value), of the Company's convertible notes totaling approximately 2.2 million and 1.6 million shares, respectively, during the three-month and nine-month periods ended December 31, 2007. There were no ordinary share equivalents attributable to the Company's convertible notes during the three-month and nine-month periods ended December 31, 2008 because the conversion price was greater than the average stock price during the periods.

5. OTHER COMPREHENSIVE INCOME

The following table summarizes the components of other comprehensive income:

	Three-Month Periods Ended December 31,		Nine-Month Periods Ended December 31,	
	2008	2007	2008	2007
	(In thousands)			
Net loss	\$ (6,015,134)	\$ (774,411)	\$ (5,846,350)	\$ (546,526)
Other comprehensive income:				

Edgar Filing: FLEXTRONICS INTERNATIONAL LTD. - Form 10-Q

Foreign currency translation adjustment	(25,219)	(1,289)	(44,404)	16,359
Unrealized gain (loss) on derivative instruments, and other income (loss), net of taxes	(34,091)	(5,216)	(25,896)	(4,536)
Comprehensive loss	\$ (6,074,444)	\$ (780,916)	\$ (5,916,650)	\$ (534,703)

Table of Contents**6. BANK BORROWINGS AND LONG-TERM DEBT**

As of December 31, 2008 and March 31, 2008, there were \$200.0 and \$161.0 million, respectively, in borrowings outstanding under the Company's \$2.0 billion credit facility. As of December 31, 2008, the Company was in compliance with the financial covenants under the \$2.0 billion credit facility.

As of December 31, 2008, the \$195.0 million aggregate principal amount of the Zero Coupon Convertible Junior Subordinated Notes, due July 31, 2009, was reclassified to current liabilities and included in Bank borrowings, current portion of long-term debt and capital lease obligations in the Condensed Consolidated Balance Sheets.

During October 2008, the Company entered into two interest rate swap transactions to effectively convert the floating interest rate on an additional \$200.0 million outstanding under its \$1.7 billion Term Loan Agreement to a fixed interest rate. The swaps, having notional amounts of \$100.0 million each, become effective on January 2, 2009, expire on January 4, 2010 and are accounted for as cash flow hedges under SFAS 133. The Company pays a fixed interest rate of approximately 2.42% and 2.45% under each of the \$100.0 million swaps, respectively, and receives a floating rate equal to three-month LIBOR for both.

During December 2008, the Company paid approximately \$226.2 million to purchase an aggregate principal amount of \$260.0 million of its outstanding 1% Convertible Subordinated Notes due August 1, 2010 (the Notes) in accordance with a modified Dutch auction procedure. The Company recognized a gain of approximately \$28.1 million during the three-month and nine-month periods ended December 31, 2008 associated with the partial extinguishment of the Notes net of approximately \$5.7 million for estimated transaction costs and the write-off of related debt issuance costs, which is recorded in Other charges (income), net in the Condensed Consolidated Statements of Operations. As of December 31, 2008, \$240.0 million of the Notes remained outstanding.

7. TRADE RECEIVABLES SECURITIZATION

The Company continuously sells designated pools of trade receivables under two asset backed securitization programs, including its new \$300.0 million facility entered into by the Company on September 25, 2008.

Global Asset-Backed Securitization Agreement

The Company continuously sells a designated pool of trade receivables to a third-party qualified special purpose entity, which in turn sells an undivided ownership interest to two commercial paper conduits, administered by an unaffiliated financial institution. In addition to these commercial paper conduits, the Company participates in the securitization agreement as an investor in the conduit. The securitization agreement allows the operating subsidiaries participating in the securitization program to receive a cash payment for sold receivables, less a deferred purchase price receivable. The Company continues to service, administer and collect the receivables on behalf of the special purpose entity and receives a servicing fee of 1.00% of serviced receivables per annum. Servicing fees recognized during the three-month and nine-month periods ended December 31, 2009 were not material and are included in Interest and other expense, net within the Condensed Consolidated Statements of Operations. As the Company estimates the fee it receives in return for its obligation to service these receivables is at fair value, no servicing assets or liabilities are recognized.

The maximum investment limit of the two commercial paper conduits is \$700.0 million, inclusive of \$200.0 million attributable to two Obligor Specific Tranches, which were incorporated in order to minimize the impact of excess concentrations of two major customers. The Company pays annual facility and commitment fees ranging from 0.16% to 0.40% (averaging approximately 0.25%) for unused amounts and an additional program fee of 0.10% on outstanding amounts.

The third-party special purpose entity is a qualifying special purpose entity as defined in SFAS 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* (SFAS 140), and accordingly, the Company does not consolidate this entity pursuant to FASB Interpretation No. 46 (revised December 2003), *Consolidation of Variable Interest Entities* (FIN 46(R)). As of December 31, 2008 and March 31, 2008, approximately \$530.9 million and \$363.7 million of the Company's accounts receivable, respectively, had been sold to this third-party qualified special purpose entity. The amounts represent the face amount of the total outstanding trade receivables on all designated customer accounts on those dates.

Table of Contents

The accounts receivable balances that were sold under this agreement were removed from the Condensed Consolidated Balance Sheets and are reflected as cash provided by operating activities in the Condensed Consolidated Statements of Cash Flows. The Company received net cash proceeds of approximately \$399.0 million and \$274.3 million from the commercial paper conduits for the sale of these receivables as of December 31, 2008 and March 31, 2008, respectively. The difference between the amount sold to the commercial paper conduits and net cash proceeds received from the commercial paper conduits is recognized as a loss on sale of the receivables and recorded in Interest and other expense, net in the Condensed Consolidated Statements of Operations. The Company has a recourse obligation that is limited to the deferred purchase price receivable, which approximates 5% of the total sold receivables, and its own investment participation, the total of which was approximately \$131.9 million and \$89.4 million as of December 31, 2008 and March 31, 2008, respectively, and each is recorded in Other current assets in the Condensed Consolidated Balance Sheet as of December 31, 2008. The amount of the Company's own investment participation varies depending on certain criteria, mainly the collection performance on the sold receivables. As the recoverability of the trade receivables underlying the Company's own investment participation is determined in conjunction with the Company's accounting policies for determining provisions for doubtful accounts prior to sale into the third party qualified special purpose entity, the fair value of the Company's own investment participation reflects the estimated recoverability of the underlying trade receivables.

North American Asset-Backed Securitization Agreement

On September 25, 2008, the Company entered into a new agreement to continuously sell a designated pool of trade receivables to an affiliated special purpose vehicle, which in turn sells an undivided ownership interest to an agent on behalf of two commercial paper conduits administered by unaffiliated financial institutions. The Company continues to service, administer and collect the receivables on behalf of the special purpose entity and receives a servicing fee of 0.50% per annum on the outstanding balance of the serviced receivables. Servicing fees recognized during the three-month and nine-month periods ended December 31, 2009 were not material and are included in Interest and other expense, net within the Condensed Consolidated Statements of Operations. As the Company estimates that the fee it receives in return for its obligation to service these receivables is at fair value, no servicing assets or liabilities are recognized.

The maximum investment limit of the two commercial paper conduits is \$300.0 million. The Company pays commitment fees of 0.50% per annum on the aggregate amount of the liquidity commitments of the financial institutions under the facility (which is 102% of the maximum investment limit) and an additional program fee of 0.45% on the aggregate amounts invested under the facility by the conduits to the extent funded through the issuance of commercial paper.

The affiliated special purpose vehicle is not a qualifying special purpose entity as defined in SFAS 140, since the Company, by design of the transaction, absorbs the majority of expected losses from transfers of trade receivables into the special purpose vehicle and, as such, is deemed the primary beneficiary of this entity. Accordingly, the Company consolidates the special purpose vehicle pursuant to FIN 46(R). As of December 31, 2008, the Company transferred approximately \$592.6 million of receivables into the special purpose vehicle described above. In accordance with SFAS 140, the Company is deemed to have sold approximately \$239.2 million of this \$592.6 million to the two commercial paper conduits as of December 31, 2008, and received approximately \$238.4 million in net cash proceeds for the sale. The accounts receivable balances that were sold to the two commercial paper conduits under this agreement were removed from the Condensed Consolidated Balance Sheets and are reflected as cash provided by operating activities in the Condensed Consolidated Statements of Cash Flows, and the difference between the amount sold and net cash proceeds received was recognized as a loss on sale of the receivables, and is recorded in Interest and other expense, net in the Condensed Consolidated Statements of Operations. Pursuant to SFAS 140, the remaining trade receivables transferred into the special purpose vehicle and not sold to the two commercial paper conduits comprise the primary assets of that entity, and are included in trade accounts receivable, net in the Condensed Consolidated Balance Sheets of the Company. The recoverability of these trade receivables is determined in conjunction with the Company's accounting policies for determining provisions for doubtful accounts. Although the special purpose vehicle is fully consolidated by the Company, it is a separate corporate entity and its assets are available first to satisfy the claims of its creditors.

Table of Contents

The Company also sold accounts receivables to certain third-party banking institutions with limited recourse, which management believes is nominal. The outstanding balance of receivables sold and not yet collected was approximately \$167.4 million and \$478.4 million as of December 31, 2008 and March 31, 2008, respectively. In accordance with SFAS No. 140, these receivables that were sold were removed from the Condensed Consolidated Balance Sheets and are reflected as cash provided by operating activities in the Condensed Consolidated Statement of Cash Flows.

8. RESTRUCTURING CHARGES

The Company recognized restructuring charges of \$29.2 million during the nine-month period ended December 31, 2008 to realign workforce and capacity primarily related to the acquisition of Solectron. These actions encompassed several manufacturing and design locations and were initiated in an effort to consolidate and integrate our global capacity and infrastructure so as to optimize the Company's operational efficiencies post-acquisition. The activities associated with these charges involved multiple actions at each location, were completed in multiple steps and will be substantially completed within one year of the commitment dates of the respective activities. The restructuring charges by reportable geographic region amounted to approximately \$13.4 million, \$10.5 million and \$5.3 million for Asia, the Americas and Europe, respectively. The Company classified approximately \$26.3 million of these charges as a component of cost of sales during the nine-month period ended December 31, 2008.

The main component of the charge was severance related costs, amounting to approximately \$28.3 million, associated with the involuntary terminations of 1,667 identified employees in connection with the charges described above. The identified involuntary employee terminations by reportable geographic region amounted to approximately, 825, 390 and 452 for Asia, the Americas and Europe, respectively. Approximately \$25.4 million of the charges were classified as a component of cost of sales.

The following table summarizes the provisions, respective payments, and remaining accrued balance as of December 31, 2008 for charges incurred in fiscal year 2009 and prior periods:

	Long-Lived Asset	Other Exit Costs	Total
	Severance Impairment		
	(In thousands)		
Balance as of March 31, 2008	\$ 178,769	\$ 106,924	\$ 285,693
Activities during the first quarter:			
Provisions incurred in fiscal year 2009	28,318	121	776
Cash payments for charges incurred in fiscal year 2009	(442)		(442)
Cash payments for charges incurred in fiscal year 2008	(42,097)		(29,793)
Cash payments for charges incurred in fiscal year 2007 and prior	(1,856)		(1,470)
Non-cash charges incurred during the first quarter		(121)	(225)
Balance as of June 27, 2008	162,692		76,212
Activities during the second quarter:			
Cash payments for charges incurred in fiscal year 2009	(8,621)		(8,621)
Cash payments for charges incurred in fiscal year 2008	(51,142)		(7,068)
Cash payments for charges incurred in fiscal year 2007 and prior	(1,569)		(1,836)
Balance as of September 26, 2008	101,360		67,308
Activities during the third quarter:			
Cash payments for charges incurred in fiscal year 2009	(7,093)		(222)
Cash payments for charges incurred in fiscal year 2008	(17,132)		(22,831)
Cash payments for charges incurred in fiscal year 2007 and prior	(1,813)		(2,444)

Edgar Filing: FLEXTRONICS INTERNATIONAL LTD. - Form 10-Q

Balance as of December 31, 2008	75,322	41,811	117,133
Less: current portion (classified as other current liabilities)	(71,850)	(13,157)	(85,007)
Accrued restructuring costs, net of current portion (classified as other liabilities)	\$ 3,472	\$ 28,654	\$ 32,126

As of December 31, 2008, accrued costs related to restructuring charges incurred during fiscal year 2009 were approximately \$12.5 million, the entire amount of which was classified as current.

Table of Contents

As of December 31, 2008 and March 31, 2008, accrued restructuring costs for charges incurred during fiscal year 2008 were approximately \$79.5 million and \$249.6 million, respectively, of which approximately \$20.3 million and \$50.0 million, respectively, was classified as a long-term obligation. As of December 31, 2008 and March 31, 2008, accrued restructuring costs for charges incurred during fiscal years 2007 and prior were approximately \$25.0 million and \$36.1 million, respectively, of which approximately \$11.8 million and \$16.1 million, respectively, was classified as a long-term obligation.

The Company recognized restructuring charges of approximately \$245.8 million and \$256.5 million during the three-month and nine-month periods ended December 31, 2007. These costs were principally incurred in connection with the Company's acquisition of Solectron, were related to restructuring activities for operations that were associated with the Company prior to the acquisition, and were initiated by the Company in an effort to consolidate and integrate the Company's global capacity and infrastructure as a result of the acquisition. These activities, which included closing, consolidating and relocating certain manufacturing and administrative operations, eliminating redundant assets, and reducing excess workforce and capacity, encompass over 25 different manufacturing locations and were intended to optimize the Company's operational efficiencies post acquisition. The Company classified approximately \$211.8 million and \$221.5 million of these charges as a component of cost of sales during the three-month and nine-month periods ended December 31, 2007.

As of December 31, 2008 and March 31, 2008, assets that were no longer in use and held for sale as a result of restructuring activities totaled approximately \$38.5 million and \$14.3 million, respectively, representing manufacturing facilities that have been closed as a part of the Company's facility consolidations. During the period ended December 31, 2008, the increase in assets held for sale of \$24.2 million primarily related to site closures and facility consolidations. For assets held for sale, depreciation ceases and an impairment loss is recognized if the carrying amount of the asset exceeds its fair value less cost to sell. Assets held for sale are included in other current assets in the condensed consolidated balance sheets.

For further discussion of the Company's historical restructuring activities, refer to Note 9 Restructuring Charges to the Consolidated Financial Statements in the Company's 2008 Annual Report on Form 10-K, as amended, for the fiscal year ended March 31, 2008.

9. OTHER CHARGES (INCOME), NET

During the three-month and nine-month periods ended December 31, 2008 the Company recognized a net gain of approximately \$28.1 million associated with the partial extinguishment of its 1% Convertible Subordinated Notes due August 1, 2010. Refer to Note 6, Bank Borrowings and Long-Term Debt for additional information.

During the three-month and nine-month periods ended December 31, 2008, the Company recognized \$25.5 million and \$37.5 million in charges for the other-than-temporary impairment of certain of the Company's investments in companies that are experiencing significant financial and liquidity difficulties. Of the amount recognized during the nine-month period ended December 31, 2008, \$11.9 million was primarily associated with a financially distressed customer as discussed in Note 2, Summary of Accounting Policies Customer Credit Risk.

During the three-month and nine-month periods ended December 31, 2007, the Company recognized approximately \$61.1 million in other charges related to the other-than-temporary impairment and related charges on certain of the Company's investments. Of this amount, approximately \$57.6 million was for the impairment loss and other related charges attributable to the Company's divestiture of its equity interest in Relacom Holding AB (Relacom). In January 2008, the Company liquidated all of its approximately 35% investment in the common stock of Relacom, which was accounted for under the equity method. The Company received approximately \$57.4 million of cash proceeds in January 2008 in connection with the divestiture of this equity investment. The equity in the earnings or losses of the Company's equity method investments was not material to its condensed consolidated results of operations for the three-month and nine-month periods ended December 31, 2007, and were classified as a component of interest and other expense, net in the condensed consolidated statement of operations. Refer to Note 2, Summary of Accounting Policies of the Notes to Consolidated Financial Statements of our Annual Report on our Form 10-K, as amended, for the fiscal year ended March 31, 2008.

Table of Contents**10. INTEREST AND OTHER EXPENSE, NET**

During the three-month periods ended December 31, 2008 and December 31, 2007, the Company recognized total interest expense of \$51.9 million and \$60.5 million, respectively, on its debt obligations outstanding during the period. The Company recognized total interest expense of \$163.5 million and \$123.9 million during the nine-month periods ended December 31, 2008 and December 31, 2007, respectively.

During the nine-month period ended December 31, 2007 the Company recognized a gain of approximately \$9.3 million in connection with the divestiture of a certain international entity. The results of operations for this entity were not significant.

11. COMMITMENTS AND CONTINGENCIES

The Company is subject to legal proceedings, claims, and litigation arising in the ordinary course of business. The Company defends itself vigorously against any such claims. Although the outcome of these matters is currently not determinable, management does not expect that the ultimate costs to resolve these matters will have a material adverse effect on its condensed consolidated financial position, results of operations, or cash flows.

12. BUSINESS AND ASSET ACQUISITIONS

The business and asset acquisitions described below were accounted for using the purchase method of accounting pursuant to SFAS 141, and accordingly, the fair value of the net assets acquired and the results of the acquired businesses were included in the Company's Condensed Consolidated Financial Statements from the acquisition dates forward. The Company has not finalized the allocation of the consideration for certain of its recently completed acquisitions and expects to complete these allocations within one year of the respective acquisition dates.

Solectron Acquisition

On October 1, 2007, the Company completed its acquisition of 100% of the outstanding common stock of Solectron. The results of Solectron's operations were included in the Company's consolidated financial results beginning on the acquisition date.

The Company issued approximately 221.8 million of its ordinary shares, paid approximately \$1.1 billion in cash and assumed approximately 7.4 million fully vested and unvested options to acquire the Company's ordinary shares in connection with the acquisition. The total purchase price for the acquisition is as follows (in thousands):

Fair value of Flextronics ordinary shares issued	\$ 2,518,664
Cash	1,060,943
Estimated fair value of vested options assumed	11,282
Direct transaction costs (1)	26,292
 Total aggregate purchase price	 \$ 3,617,181

- (1) Direct transaction costs consist of legal, accounting, financial advisory and other costs relating to the acquisition.

Purchase Price Allocation

The allocation of the purchase price to Solectron's tangible and identifiable intangible assets acquired and liabilities assumed was based on their estimated fair values as of the date of acquisition. The excess of the purchase price over the tangible and identifiable intangible assets acquired and liabilities assumed has been allocated to goodwill.

Table of Contents

The following represents the Company's final allocation of the total purchase price to the acquired assets and liabilities assumed of Solectron (in thousands):

Current assets:	
Cash and cash equivalents	\$ 637,481
Accounts receivable	1,491,232
Inventories	1,716,055
Other current assets	255,704
Total current assets	4,100,472
Property and equipment	545,791
Goodwill	2,529,945
Other intangible assets	191,600
Other assets	129,723
Total assets	7,497,531
Current liabilities:	
Accounts payable	1,521,654
Other current liabilities	1,492,722
Total current liabilities	3,014,376
Long-term debt and capital lease obligations, net of current portion	630,837
Other liabilities	235,137
Total aggregate purchase price	\$ 3,617,181

During the nine-month period ended December 31, 2008, the Company allocated approximately \$180.3 million and \$114.9 million to current liabilities and other liabilities, respectively, primarily for certain liabilities assumed from Solectron and other liabilities assumed in connection with restructuring activities accounted for in accordance with Emerging Issues Task Force Issue No. 95-3 *Recognition of Liabilities in Connection with a Purchase Business Combination*. Goodwill related to the acquisition increased \$362.8 million during the nine-month period ended December 31, 2008, as a result of the above and other fair value adjustments that were not significant individually or in the aggregate. As a result of the finalization of the purchase price allocation, cumulative catch-up adjustments were recorded to the condensed consolidated statements of operations resulting in a decrease to income before income taxes of approximately \$4.6 million for the nine-month period ended December 31, 2008. These adjustments primarily related to increased amortization expense of approximately \$9.3 million, offset by a reduction in cost of sales for losses on non-cancelable customer contracts of approximately \$4.7 million for the nine-month period ended December 31, 2008. Refer to Note 12, *Business and Asset Acquisitions and Divestitures*, to the Consolidated Financial Statements in the Company's 2008 Annual Report on Form 10-K, as amended, for the fiscal year ended March 31, 2008 for further discussion regarding the Company's acquisition of Solectron.

Pro Forma Financial Information

The following table reflects the pro forma consolidated results of operations for the period presented, as though the acquisition of Solectron had occurred as of the beginning of the period being reported on, after giving effect to certain adjustments primarily related to the amortization of acquired intangibles, stock-based compensation expense, and incremental interest expense, including related income tax effects. The pro forma adjustments are based upon available information and certain assumptions that the Company believes are reasonable. The pro forma financial information presented is for illustrative purposes only and is not necessarily indicative of the results of operations that would have been realized if the acquisition had been completed on the dates indicated, nor is it indicative of future

operating results.

The pro forma consolidated results of operations do not include the effects of:

synergies, which are expected to result from anticipated operating efficiencies and cost savings, including expected gross margin improvement in future quarters due to scale and leveraging of Flextronics' and Solectron's manufacturing platforms;

potential losses in gross profit due to revenue attrition resulting from combining the two companies; and

any costs of restructuring, integration, and retention bonuses associated with the closing of the acquisition.

Table of Contents

	Three-Month Period Ended December 31, 2007	Nine-Month Period Ended December 31, 2007
	(In thousands, except per share amounts)	
Net sales	\$ 9,097,669	\$ 25,858,800
Income (loss) before income taxes	\$ (96,355)	\$ 110,455
Net loss	\$ (773,991)	\$ (586,470)
Basic and diluted loss per share	\$ (0.93)	\$ (0.71)

Other Acquisitions

During the nine-month period ended December 31, 2008, the Company completed six acquisitions that were not individually, or in the aggregate, significant to the Company's consolidated results of operations and financial position. The acquired businesses complement the Company's design and manufacturing capabilities for the computing, infrastructure, industrial and consumer digital market segments, and expanded the Company's power supply capabilities. The aggregate cash paid for these acquisitions totaled approximately \$197.1 million, net of cash acquired. The Company recorded goodwill of \$112.0 million from these acquisitions. The purchase prices for these acquisitions have been allocated on the basis of the estimated fair value of assets acquired and liabilities assumed. The Company has not finalized the allocation of the consideration for certain of its recently completed acquisitions pending the completion of valuations. The Company paid approximately \$2.4 million relating to a contingent purchase price adjustment from a certain historical acquisition. The purchase price for certain acquisitions is subject to adjustments for contingent consideration, based upon the businesses achieving specified levels of earnings through fiscal year 2010. Generally, the contingent consideration has not been recorded as part of the purchase price, pending the outcome of the contingency.

13. SHARE REPURCHASE PLAN

On July 23, 2008, the Company's Board of Directors authorized the repurchase of up to ten percent of the Company's outstanding ordinary shares. Until the Company's 2008 Annual General Meeting, held on September 30, 2008, the Company was authorized to repurchase up to approximately 61.0 million shares. Following shareholder approval at the 2008 Annual General Meeting, the amount authorized for repurchase was increased to approximately 80.9 million shares. The impairment of the Company's goodwill limits its ability to repurchase shares under the current provisions of its debt facilities. The Company did not repurchase any shares under this plan during the three-month period ended December 31, 2008. During the nine-month period ended December 31, 2008, the Company repurchased approximately 29.8 million shares under this plan for an aggregate purchase price of \$260.1 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Unless otherwise specifically stated, references in this report to Flextronics, the Company, we, us, our and similar terms mean Flextronics International Ltd. and its subsidiaries.

This report on Form 10-Q contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended. The words expects, anticipates, believes, intends, plans and similar expressions identify forward-looking statements. In addition, any statements which refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements. We undertake no obligation to publicly disclose any revisions to these forward-looking statements to reflect events or circumstances occurring subsequent to filing this Form 10-Q with the Securities and Exchange Commission. These forward-looking statements are subject to risks and uncertainties, including, without limitation, those discussed in this section, as well as in Part II, Item 1A, Risk Factors of this report on Form 10-Q, and in Part I, Item 1A, Risk Factors and in Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K, as amended, for the year ended March 31, 2008. In addition, new risks emerge from time to time and it is not possible for management to predict all such risk factors or to assess the impact of such risk factors on our business. Accordingly, our future results may differ materially from historical results or from those discussed or implied by these forward-looking statements. Given these risks and uncertainties, the reader should not place undue reliance on these forward-looking statements.

OVERVIEW

We are a leading provider of advanced design and electronics manufacturing services (EMS) to original equipment manufacturers (OEMs) of a broad range of products in the following market segments: infrastructure; mobile communication devices; computing; consumer digital devices; industrial, semiconductor and white goods; automotive, marine and aerospace; and medical devices. We provide a full range of vertically-integrated global supply chain services through which we design, build, ship and service a complete packaged product for our customers. Customers leverage our services to meet their product requirements throughout the entire product life cycle. Our vertically-integrated service offerings include: design services; rigid printed circuit board and flexible circuit fabrication; systems assembly and manufacturing; logistics; after-sales services; and multiple component product offerings.

We are one of the world's largest EMS providers, with revenues of \$8.2 billion and \$25.4 billion during the three-month and nine-month periods ended December 31, 2008, respectively. As of March 31, 2008, our total manufacturing capacity was approximately 27.0 million square feet in over 25 countries across four continents. We have established an extensive network of manufacturing facilities in the world's major electronics markets in order to serve the growing outsourcing needs of both multinational and regional OEMs. For the nine-month period ended December 31, 2008, our net sales in Asia, the Americas and Europe represented approximately 51%, 33% and 16%, respectively, of our total net sales, based on the location of the manufacturing site.

We believe that the combination of our extensive design and engineering services, significant scale and global presence, vertically-integrated end-to-end services, advanced supply chain management, industrial campuses in low-cost geographic areas and operational track record provide us with a competitive advantage in the market for designing, manufacturing and servicing electronics products for leading multinational OEMs. Through these services and facilities, we simplify the global product development and manufacturing process and provide meaningful time to market and cost savings for our OEM customers.

On October 1, 2007, we completed the acquisition of 100% of the outstanding common stock of Solectron in a cash and stock transaction valued at approximately \$3.6 billion, including estimated transaction costs. We issued approximately 221.8 million shares of our ordinary stock and paid approximately \$1.1 billion in cash in connection with the acquisition. The acquisition of Solectron broadened our service offerings, strengthened our capabilities in the high end computing, communication and networking infrastructure market segments, increased the scale of our existing operations and diversified our customer and product mix.

Table of Contents

Our operating results are affected by a number of factors, including the following:

significant changes in the macroeconomic environment and related changes in consumer demand;

exposure to financially troubled customers;

our customers may not be successful in marketing their products, their products may not gain widespread commercial acceptance, and our customers' products have short product life cycles;

our customers may cancel or delay orders or change production quantities;

integration of acquired businesses and facilities;

our operating results vary significantly from period to period due to the mix of the manufacturing services we are providing, the number and size of new manufacturing programs, the degree to which we utilize our manufacturing capacity, seasonal demand, shortages of components and other factors;

our increased design services and components offerings may reduce our profitability as we are required to make substantial investments in the resources necessary to design and develop these products without guarantee of cost recovery and margin generation;

our ability to achieve commercially viable production yields and to manufacture components in commercial quantities to the performance specifications demanded by our OEM customers; and

managing changes in our operations.

Historically, the EMS industry experienced significant change and growth as an increasing number of companies elected to outsource some or all of their design and manufacturing requirements. We have seen an increase in the penetration of the global OEM manufacturing requirements since the 2001-2002 technology downturn as more and more OEMs pursued the benefits of outsourcing rather than internal manufacturing. In recent months, due to the dramatically deteriorating macroeconomic conditions, demand for our customers' products has slowed in all of the industries we serve. This global economic crisis, and related decline in demand for our customers' products, is putting pressure on certain of our OEM customers' cost structures and causing them to reduce their manufacturing and supply chain outsourcing and shift portions of their demand internally as they attempt to leverage their internal capacity and fixed cost structure. This decline in demand has and will continue to negatively affect our capacity utilization levels, and has and will continue to have a negative impact on our operating results.

As a result of the current macroeconomic environment and associated credit market conditions, both liquidity concerns and access to capital have negatively impacted many of our customers. We have increased our efforts to proactively manage our credit exposure with our customers and are re-assessing the financial condition of many of our customers and suppliers to anticipate exposures and minimize our risk. We have identified situations where customers are filing for bankruptcy or restructuring protection or otherwise experiencing severe cash and credit issues. As a result, during the three-month and nine-month periods ended December 31, 2008 we incurred charges of \$145.3 million and \$262.7 million, respectively, for Nortel and other customers that filed for bankruptcy or restructuring protection or were experiencing significant financial and liquidity difficulties. Of these charges, we classified approximately \$98.0 million and \$194.7 million in cost of sales related to the write-down of inventory and associated contractual obligations and \$47.3 million and \$68.0 million as selling, general and administrative expenses for provisions for doubtful accounts during the three-month and nine-month periods ended December 31, 2008, respectively. In the case of Nortel, in developing the charge to cost of sales, the Company considered its negotiated agreement requiring Nortel to purchase \$120.0 million of existing inventory by July 1, 2009. This agreement has received preliminary approval by the Ontario Superior Court of Justice and \$75.0 million has been collected under the arrangement as of January 31, 2009. In developing the provision for receivables, we considered various mitigating

factors including existing provisions for Nortel, off-setting obligations from Nortel and amounts subject to administrative priority claims. As it is early in the restructuring proceedings, these estimates required a considerable amount of judgment and accordingly, the provisions are subject to change. The Company reclassified approximately \$88.2 million of trade receivables from Nortel, net of the \$47.3 million reserve, to other assets as of December 31, 2008, as we do not expect these amounts to be collected within one year.

Table of Contents

As a result of the significant decline in the Company's share value, which was driven largely by deteriorating macroeconomic conditions that contributed to a considerable decrease in market multiples as well as a decline in the our estimated discounted cash flows, we recorded an impairment charge to our goodwill of \$5.9 billion in the third quarter of fiscal 2009. This non-cash charge did not affect our financial covenants or cash flows from operations. See our discussion of goodwill impairment in Results of Operations, below.

We are focused on managing the controllable aspects of business during this economic downturn. We have, and will continue to seek ways to control and reduce costs as required to minimize the impact on our profit level, and continue to attract new customer business.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

We believe the accounting policies discussed under Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K, as amended, for the fiscal year ended March 31, 2008, affect our more significant judgments and estimates used in the preparation of the Condensed Consolidated Financial Statements.

Recent Accounting Pronouncements

Information regarding recent accounting pronouncements is provided in Note 2, Summary of Accounting Policies of the Notes to Condensed Consolidated Financial Statements.

RESULTS OF OPERATIONS

The following table sets forth, for the periods indicated, certain statements of operations data expressed as a percentage of net sales. The financial information and the discussion below should be read in conjunction with the Condensed Consolidated Financial Statements and notes thereto included in this document. In addition, reference should be made to our audited Consolidated Financial Statements and notes thereto and related Management's Discussion and Analysis of Financial Condition and Results of Operations included in our 2008 Annual Report on Form 10-K, as amended.

	Three-Month Periods Ended December 31,		Nine-Month Periods Ended December 31,	
	2008	2007	2008	2007
Net sales	100.0%	100.0%	100.0%	100.0%
Cost of sales	96.4	94.2	95.3	94.3
Restructuring charges		2.3	0.1	1.1
Gross profit	3.6	3.5	4.6	4.6
Selling, general and administrative expenses	3.3	2.9	3.1	2.8
Intangible amortization	0.4	0.2	0.4	0.3
Goodwill impairment charge	73.0		23.5	
Restructuring charges		0.4		0.2
Other charges (income), net		0.7		0.3
Interest and other expense, net	0.6	0.4	0.5	0.3
Income (loss) before income taxes	(73.7)	(1.1)	(22.9)	0.7
Provision for income taxes		7.4	0.1	3.5
Net loss	(73.7)%	(8.5)%	(23.0)%	(2.8)%

Net sales

Net sales during the three-month period ended December 31, 2008 totaled \$8.2 billion, representing a decrease of \$0.9 billion, or 10%, from \$9.1 billion during the three-month period ended December 31, 2007, primarily due to reduced customer demand resulting from a weakening macroeconomic environment. Sales decreased across many of

the markets we serve, consisting of \$618 million in the infrastructure market, \$381 million in the mobile communications market, and \$72 million in the computing market. These decreases were offset, in part, by increased sales of \$95 million in the consumer digital market and \$61 million in the industrial, medical, automotive and other markets. Net sales during the three-month period ended December 31, 2008 decreased by \$986 million in Asia, which was offset, in part, by increases of \$64 million in Europe and \$7 million in the Americas.

Table of Contents

Net sales during the nine-month period ended December 31, 2008 totaled \$25.4 billion, representing an increase of \$5.6 billion, or 28%, from \$19.8 billion during the nine-month period ended December 31, 2007, primarily due to the acquisition of Solectron and to new program wins from various customers across multiple markets. Sales increased across nearly all of the markets we serve, consisting of; (i) \$2.2 billion in the infrastructure market, (ii) \$1.8 billion in the computing market, (iii) \$1.4 billion in the industrial, medical, automotive and other markets, and (iv) \$279 million in the consumer digital market. Sales decreased by \$39 million in the mobile communications market. Net sales during the nine-month period ended December 31, 2008 increased by \$3.2 billion in the Americas, \$1.3 billion in Asia, and \$1.0 billion in Europe.

Our ten largest customers during the three-month and nine-month periods ended December 31, 2008 accounted for approximately 48% and 52% of net sales, respectively, with Sony-Ericsson accounting for greater than 10% of our net sales for the nine-month period. Our ten largest customers during the three-month and nine-month periods ended December 31, 2007 accounted for approximately 55% and 58% of net sales, respectively, with Sony-Ericsson accounting for greater than 10% of our net sales for both periods.

Gross profit

Gross profit is affected by a number of factors, including the number and size of new manufacturing programs, product mix, component costs and availability, product life cycles, unit volumes, pricing, competition, new product introductions, capacity utilization and the expansion and consolidation of manufacturing facilities. Typically, profitability lags revenue growth in new programs due to product start-up costs, lower manufacturing program volumes in the start-up phase, operational inefficiencies, and under-absorbed overhead. Gross margin often improves over time as manufacturing program volumes increase, as our utilization rates and overhead absorption improves, and as we increase the level of vertically-integrated manufacturing services content. As a result, our gross margin varies from period to period.

Gross profit during the three-month period ended December 31, 2008 decreased \$20.6 million to \$297.3 million, or 3.6% of net sales, from \$317.9 million, or 3.5% of net sales, during the three-month period ended December 31, 2007. The 10 basis point period-over-period increase in gross margin was primarily attributable to a 230 basis point decrease in restructuring costs compared to costs recognized during the three-month period ended December 31, 2007, which were incurred in connection with the Solectron acquisition and were related to restructuring activities for operations that were associated with the Company prior to the acquisition of Solectron. These decreases were offset in part by \$98.0 million or 120 basis points in charges for inventory write-downs related to financially distressed customers, and approximately 100 basis points that was primarily attributable to lower capacity utilization.

Gross profit during the nine-month period ended December 31, 2008 increased \$259.0 million to \$1.2 billion, or 4.6% of net sales, from \$912.5 million, or 4.6% of net sales, during the nine-month period ended December 31, 2007. Gross margin was the same in both periods due to a 100 basis point increase in cost of sales during the nine-months ended December 31, 2008 primarily resulting from \$262.7 million in charges for financially distressed customers, offset by a 100 basis point decrease in restructuring costs recognized during the nine-month period ended December 31, 2007, which were incurred in connection with the Solectron acquisition.

Table of Contents***Restructuring charges***

We recognized \$29.2 million of restructuring charges during the nine-month period ended December 31, 2008. Restructuring charges were due to the Company realigning workforce and capacity, primarily related to the acquisition of Solectron. The activities associated with these charges involved multiple actions at each location, were completed in multiple steps, and were completed within one year of the commitment dates of the respective activities. We classified approximately \$26.3 million of the charges as a component of cost of sales during the nine-month period ended December 31, 2008.

As of December 31, 2008, accrued severance costs associated with the restructuring charges recognized during the nine-month period ended December 31, 2008 was \$12.5 million, which was all classified as a current liability.

We recognized restructuring charges of approximately \$245.8 million and \$256.5 million during the three-month and nine-month periods ended December 31, 2007. These costs were principally incurred in connection with the Company's acquisition of Solectron, were primarily related to restructuring activities for operations that were associated with the Company prior to the acquisition, and were initiated in an effort to consolidate and integrate our global capacity and infrastructure as a result of the acquisition. These activities, which included closing, consolidating and relocating certain manufacturing and administrative operations, elimination of redundant assets and reducing excess workforce and capacity, encompassed over 25 different manufacturing locations and were intended to optimize our operational efficiencies post acquisition. We classified approximately \$211.8 million and \$221.5 million of these charges as a component of cost of sales during the three-month and nine-month periods ended December 31, 2007.

Approximately \$130.6 million of the restructuring charges incurred during the three-month and nine-month periods ended December 31, 2007 were non-cash. As of December 31, 2008, accrued severance and facility closure costs related to restructuring charges incurred during the nine-month period ended December 31, 2007 were approximately \$27.7 million, of which approximately \$6.2 million was classified as a long-term obligation.

Refer to Note 8, *Restructuring Charges*, of the Notes to Condensed Consolidated Financial Statements for further discussion of our restructuring activities.

Selling, general and administrative expenses

Selling, general and administrative expenses, or SG&A, amounted to \$275.9 million, or 3.3% of net sales, during the three-month period ended December 31, 2008, compared to \$261.6 million, or 2.9% of net sales, during the three-month period ended December 31, 2007. The 40 basis point increase in SG&A was primarily the result of allowances for accounts receivable from financially distressed customers of approximately 60 basis points, or \$47.3 million, incurred during the three-month period ended December 31, 2008 and a 10 basis point increase in stock-compensation expense, partially offset by a 20 basis point decrease in integration costs recognized during the three-month period ended December 31, 2007, which were incurred in connection with the Solectron acquisition and approximately 10 basis points for savings from a reduced number of employees resulting from restructuring activities incurred during prior periods.

Selling, general and administrative expenses, or SG&A, amounted to \$783.2 million, or 3.1% of net sales, during the nine-month period ended December 31, 2008, compared to \$560.7 million, or 2.8% of net sales, during the nine-month period ended December 31, 2007. The 30 basis point increase in SG&A was primarily the result of allowances for accounts receivable from financially distressed customers of \$68.0 million incurred during the nine-month period ended December 31, 2008. The increase in absolute dollars of SG&A was primarily the result of our acquisition of Solectron as well as other business and asset acquisitions over the past 12 months, continued investments in resources and investments in certain technologies to enhance our overall design and engineering competencies, and the allowances for accounts receivable from distressed customers.

Table of Contents***Intangible amortization***

Amortization of intangible assets during the three-month period ended December 31, 2008 increased by \$11.5 million to \$32.6 million from \$21.1 million during the three-month period ended December 31, 2007. The increase in expense during the three-month period ended December 31, 2008 was principally attributable to acquisitions completed subsequent to December 31, 2007 that were individually not significant. The increase was offset, in part, by the write-off of certain intangible asset licenses, due to technological obsolescence, during the fourth quarter of fiscal year 2008.

Amortization of intangible assets during the nine-month period ended December 31, 2008 increased by \$56.8 million to \$108.2 million from \$51.4 million during the nine-month period ended December 31, 2007. The increase in expense during the nine-month period ended December 31, 2008 was principally attributable to the increase in intangibles arising from the Company's acquisition of Solectron on October 1, 2007, and to a lesser extent from other acquisitions completed subsequent to December 31, 2007 that were individually not significant. The increase was offset, in part, by the write-off of certain intangible asset licenses, due to technological obsolescence, during the fourth quarter of fiscal year 2008.

Goodwill impairment

We test goodwill for impairment annually as of January 31 and concluded that no impairment existed as of January 31, 2008. We also evaluate goodwill for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Recoverability of goodwill is measured at the reporting unit level by comparing the reporting unit's carrying amount, including goodwill, to the fair value of the reporting unit, which is measured based upon, among other factors, market multiples for comparable companies as well as a discounted cash flow analysis. We have one reporting unit: Electronic Manufacturing Services. If the recorded value of our assets, including goodwill, and liabilities (net book value) exceeds our fair value, an impairment loss may be required to be recognized. Further, to the extent the net book value of our company as a whole is greater than our market capitalization, all, or a significant portion of our goodwill may be considered impaired.

During our third fiscal quarter ended December 31, 2008, we concluded that an interim goodwill impairment was required. This conclusion was reached based on the significant decline in the Company's market capitalization during the quarter, which was driven largely by deteriorating macroeconomic conditions that contributed to a considerable decrease in market multiples as well as a decline in the Company's estimated discounted cash flows. As a result of our analysis, we recorded a non-cash impairment charge to goodwill in the amount of \$5.9 billion for the three-month and nine-month periods ended December 31, 2008 to eliminate the carrying value of our goodwill. The non-cash goodwill impairment charge did not impact our debt covenant compliance. For further discussion of goodwill impairment charges recorded, see Note 2, Summary of Accounting Policies - Goodwill and Other Intangibles in the Notes to Condensed Consolidated Financial Statements.

Other charges (income), net

During the three-month and nine-month periods ended December 31, 2008, we recognized a gain of \$28.1 million resulting from the partial extinguishment in the aggregate principal amount of \$260.0 million of our outstanding 1% Convertible Subordinated Notes due August 1, 2010. Refer to Note 6, Bank Borrowings and Long-Term Debt, of the Notes to Condensed Consolidated Financial Statements for further discussion.

During the three-month and nine-month periods ended December 31, 2008, we recognized \$25.5 million and \$37.5 million in charges for the other-than-temporary impairment of certain of our investments in companies that are experiencing significant financial and liquidity difficulties. Of the amount recognized during the nine-month period ended December 31, 2008, \$11.9 million was primarily associated with a financially distressed customer as discussed in Note 2, Summary of Accounting Policies - Customer Credit Risk.

During the three-month and nine-month periods ended December 31, 2007, the Company recognized approximately \$61.1 million in other charges related to the other-than-temporary impairment and related charges on certain of the Company's investments. Of this amount, approximately \$57.6 million was for the sale of its investment in Relacom Holding AB (Relacom), which was liquidated in January 2008 for approximately \$57.4 million of cash proceeds. Relacom's expansion geographically into Eastern Europe and Latin America led Relacom to recognize significant restructuring charges and other costs and resulted in continued losses and diminished cash flows, which

reduced the fair value of the investment. Although we believed this degradation in the fair value of our investment in Relacom was temporary, we decided to sell our interest in this non core investment to the majority holder in December 2007 rather than participate in a new equity round of financing by Relacom to support its need for additional capital. As a result, we recognized an impairment loss of approximately \$48.5 million in the quarter ended December 31, 2007 based on the price at which it was sold on January 7, 2008. Refer to Note 2, Summary of Accounting Policies of the Notes to Consolidated Financial Statements of our Annual Report on our Form 10-K, as amended, for the fiscal year ended March 31, 2008.

Table of Contents***Interest and other expense, net***

Interest and other expense, net was \$53.6 million during the three-month period ended December 31, 2008 compared to \$36.9 million during the three-month period ended December 31, 2007, an increase of \$16.7 million. The increase in expense was primarily the result of lower interest income on cash due to lower yields, losses on foreign exchange as a result of the U.S. dollar appreciating against our primary foreign currencies and interest expense primarily attributable to our \$1.7 billion in borrowings under our term loan facility used to finance the acquisition of Solectron on October 1, 2007, as well as the refinancing of certain Solectron outstanding debt obligations.

Interest and other expense, net was \$141.2 million during the nine-month period ended December 31, 2008 compared to \$59.3 million during the nine-month period ended December 31, 2007, an increase of \$81.9 million. The increase in expense was principally attributable to \$53.2 million of incremental interest expense on our \$1.7 billion in borrowings under our term loan facility used to finance the acquisition of Solectron, as well as the refinancing of certain Solectron outstanding debt obligations, losses on foreign exchange as a result of the U.S. dollar appreciating against our primary foreign currencies and lower interest income on cash due to lower yields. During the nine-month period ended December 31, 2007, we recognized a gain of approximately \$9.3 million in connection with the divestiture of a certain international entity, which also contributed to the current period increase in interest and other expense, net.

Income taxes

Certain of our subsidiaries have, at various times, been granted tax relief in their respective countries, resulting in lower income taxes than would otherwise be the case under ordinary tax rates. Refer to Note 8, *Income Taxes*, of the Notes to the Consolidated Financial Statements in our Annual Report on Form 10-K, as amended, for the fiscal year ended March 31, 2008 for further discussion.

The Company has tax loss carryforwards for which we have recognized deferred tax assets. Our policy is to provide a reserve against those deferred tax assets that in management's estimate are not more likely than not to be realized. During the nine-month period ended December 31, 2008, the provision for income taxes includes a benefit of approximately \$57.9 million for the reversal of valuation allowances and other tax reserves. The Company received no tax benefit for the write-off of goodwill or distressed customer charges.

During the nine-month period ended December 31, 2007, the Company recognized tax expense of approximately \$661.3 million relating to a re-evaluation of previously recorded deferred tax assets in the United States, which were primarily comprised of tax loss carryforwards. Management believed that the likelihood certain deferred tax assets would be realized had decreased because the Company expected future projected taxable income in the United States would be lower as a result of increased interest expense resulting from the term loan entered into as part of the acquisition of Solectron. There was no incremental cash expenditure relating to this increase in tax expense.

The consolidated effective tax rate for a particular period varies depending on the amount of earnings from different jurisdictions, operating loss carryforwards, income tax credits, changes in previously established valuation allowances for deferred tax assets based upon our current analysis of the realizability of these deferred tax assets, as well as certain tax holidays and incentives granted to our subsidiaries primarily in China, Malaysia, Israel, Poland and Singapore. Refer to Note 2, "Summary of Accounting Policies - Provision for Income Taxes" of the Notes to Condensed Consolidated Financial Statements for further discussion of the impact of certain tax holidays and incentives.

LIQUIDITY AND CAPITAL RESOURCES

As of December 31, 2008, we had cash and cash equivalents of approximately \$1.8 billion and bank and other borrowings of \$3.2 billion. We also had a \$2.0 billion credit facility, under which we had \$200.0 million of borrowings outstanding as of December 31, 2008, which is included in the \$3.2 billion outstanding above.

Cash provided by operating activities amounted to \$1.0 billion during the nine-month period ended December 31, 2008. This resulted primarily from a \$5.8 billion net loss for the period before adjustments to include approximately \$6.4 billion of non-cash items consisting of the \$5.9 billion goodwill impairment charge, depreciation, amortization, distressed customer charges, stock-based compensation expense, and interest and other income. Working capital and other net operating assets decreased \$469.4 million primarily as a result of overall lower business volume, which also contributed to cash provided by operating activities. Working capital as of December 31, 2008 and March 31, 2008

was approximately \$2.0 billion and \$2.9 billion, respectively.

Table of Contents

Cash used in investing activities during the nine-month period ended December 31, 2008 amounted to \$575.7 million. This resulted primarily from capital expenditures for equipment, and payments for the acquisitions of businesses including contingent purchase price payments for historical acquisitions.

Cash used in financing activities amounted to \$445.1 million during the nine-month period ended December 31, 2008, which was primarily from \$260.1 million in payments for the repurchase of 29.8 million of our ordinary shares, and \$226.2 million used to repurchase an aggregate principal amount of \$260.0 million of our outstanding 1% Convertible Subordinated Notes due August 1, 2010.

We continue to assess our capital structure, and evaluate the merits of redeploying available cash to reduce existing debt or repurchase ordinary shares. Effective with the quarter ended September 26, 2008, we reclassified the \$195.0 million aggregate principal amount of our Zero Coupon Convertible Junior Subordinated Notes, due July 31, 2009 to a current obligation. On July 23, 2008, our Board of Directors authorized the repurchase of up to ten percent of the Company's outstanding ordinary shares, and as of September 30, 2008, the amount authorized for repurchase was increased to approximately 80.9 million shares. Refer to Note 13, "Share Repurchase Plan" of the Notes to the Condensed Consolidated Financial Statements for further details. The impairment of our goodwill limits our ability to repurchase shares under the current provisions of our debt facilities. During the nine-month period ended December 31, 2008, the Company repurchased approximately 29.8 million shares under this plan for an aggregate purchase price of \$260.1 million.

Liquidity is affected by many factors, some of which are based on normal ongoing operations of our business and some of which arise from fluctuations related to global economics and markets. As evidenced by the recent turmoil in the financial markets, credit has tightened. We are reviewing our debt and capital structure to minimize any impact on the Company, and will attempt to mitigate any reductions in cash flow as a result of an economic slowdown by reducing capital expenditures, acquisitions, and other discretionary spending. Although cash balances are generated and held in many locations throughout the world and local government regulations may restrict our ability to move cash balances to meet cash needs under certain circumstances, we do not currently expect such regulations and restrictions to impact our ability to pay vendors and conduct operations throughout our global organization. We believe that our existing cash balances, together with anticipated cash flows from operations and borrowings available under our credit facilities, will be sufficient to fund our operations through at least the next twelve months.

Future liquidity needs will depend on fluctuations in levels of inventory, accounts receivable and accounts payable, the timing of capital expenditures for new equipment, the extent to which we utilize operating leases for new facilities and equipment, the extent of cash charges associated with any future restructuring activities, timing of cash outlays associated with historical restructuring and integration activities, including obligations assumed by the Company in connection with its acquisition of Solectron, and levels of shipments and changes in volumes of customer orders.

Historically, we have funded our operations from cash and cash equivalents generated from operations, proceeds from public offerings of equity and debt securities, bank debt and lease financings. We also continuously sell a designated pool of trade receivables under asset backed securitization programs, including a \$300.0 million facility entered into by the Company on September 25, 2008, and sell certain trade receivables, which are in addition to the trade receivables sold in connection with these securitization agreements, to certain third-party banking institutions with limited recourse. Our asset backed securitization programs include certain limits on customer default rates. Given the current macroeconomic environment, it is possible that we will experience default rates in excess of those limits. If not waived by the counterparty, our ability to sell receivables under these arrangements in the future could be impaired.

Table of Contents

CONTRACTUAL OBLIGATIONS AND COMMITMENTS

Information regarding our long-term debt payments, operating lease payments, capital lease payments and other commitments is provided in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations of our Annual Report on our Form 10-K, as amended, for the fiscal year ended March 31, 2008. There have been no material changes in our contractual obligations since March 31, 2008.

OFF-BALANCE SHEET ARRANGEMENTS

We continuously sell a designated pool of trade receivables to a third-party qualified special purpose entity, which in turn sells an undivided ownership interest to an investment conduit administered by an unaffiliated financial institution. In addition to this financial institution, we participate in the securitization agreement as an investor in the conduit. The fair value of the Company's investment participation, together with its recourse obligation that approximates 5% of the total receivables sold, was approximately \$131.9 million and \$89.4 million as of December 31, 2008 and March 31, 2008, respectively. The increase in the Company's investment participation was attributable to an increase in receivables sold to the qualified special purpose entity during the nine-month period ended December 31, 2008. Refer to Note 7, Trade Receivables Securitization of the Notes to Condensed Consolidated Financial Statements for further discussion.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There were no material changes in our exposure to market risk for changes in interest and foreign currency exchange rates for the nine-month period ended December 31, 2008 as compared to the fiscal year ended March 31, 2008.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act) as of December 31, 2008, the end of the quarterly fiscal period covered by this quarterly report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of December 31, 2008, such disclosure controls and procedures were effective in ensuring that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934, as amended, is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and (ii) accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

(b) Changes in Internal Control Over Financial Reporting

There were no changes in our internal controls over financial reporting that occurred during the third quarter of fiscal year 2009 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are subject to legal proceedings, claims, and litigation arising in the ordinary course of business. We defend ourselves vigorously against any such claims. Although the outcome of these matters is currently not determinable, management does not expect that the ultimate costs to resolve these matters will have a material adverse effect on our consolidated financial position, results of operations, or cash flows.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K, as amended, for the year ended March 31, 2008, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K, as amended, are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be not material also may materially adversely affect our business, financial condition and/or operating results. Additional and updated risks are as follows:

Table of Contents***Our exposure to financially troubled customers or suppliers may adversely affect our financial results.***

We provide EMS services to companies and industries that have in the past, and may in the future, experience financial difficulty, particularly in light of conditions in the credit markets and the overall economy. Our suppliers may also experience financial difficulty in this environment. If our customers experience financial difficulty, we could have difficulty recovering amounts owed to us from these customers, or demand for our products from these customers could decline. Additionally, if our suppliers experience financial difficulty we could have difficulty sourcing supply necessary to fulfill production requirements and meet scheduled shipments. These conditions could adversely affect our financial position and results of operations. During the three-month and nine month periods ended December 31, 2008, we recognized approximately \$145.3 million and \$262.7 million, respectively, in charges for provisions of accounts receivable, the write-down of inventory and recognition of related obligations for certain distressed customers.

The conditions of the U.S. and international capital markets may adversely affect our ability to draw on our current revolving credit facility.

If financial institutions that have extended credit commitments to us are adversely affected by the conditions of the U.S. and international capital markets, they may become unable to fund borrowings under their credit commitments to us, which could have an adverse impact on our financial condition and our ability to borrow additional funds, if needed, for working capital, capital expenditures, acquisitions, research and development and other corporate purposes.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.
