**PROXY STATEMENT  
For the Annual Meeting of Stockholders  
To Be Held on May 29, 2008**

April 14, 2008

This proxy statement is furnished in connection with the solicitation of proxies by the board of directors of iRobot Corporation, a Delaware corporation (the Company), for use at the annual meeting of stockholders to be held on Thursday, May 29, 2008, at 2:00 p.m., local time, at iRobot Corporation headquarters located at 8 Crosby Drive, Bedford, Massachusetts 01730, and any adjournments or postponements thereof. An annual report to stockholders, containing financial statements for the fiscal year ended December 29, 2007, is being mailed together with this proxy statement to all stockholders entitled to vote at the annual meeting. This proxy statement and the form of proxy are expected to be first mailed to stockholders on or about April 22, 2008.

The purposes of the annual meeting are to elect three class III directors for three-year terms and to ratify the appointment of the Company's independent registered public accountants. Only stockholders of record at the close of business on April 10, 2008 will be entitled to receive notice of and to vote at the annual meeting. As of March 31, 2008, 24,571,519 shares of common stock, \$.01 par value per share, of the Company were issued and outstanding. The holders of common stock are entitled to one vote per share on any proposal presented at the annual meeting.

Stockholders may vote in person or by proxy. If you attend the annual meeting, you may vote in person even if you have previously returned your proxy card. Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before it is voted. Proxies may be revoked by (i) filing with the Secretary of the Company, before the taking of the vote at the annual meeting, a written notice of revocation bearing a later date than the proxy, (ii) duly completing a later-dated proxy relating to the same shares and delivering it to the Secretary of the Company before the taking of the vote at the annual meeting, or (iii) attending the annual meeting and voting in person (although attendance at the annual meeting will not in and of itself constitute a revocation of a proxy). Any written notice of revocation or subsequent proxy should be sent so as to be delivered to iRobot Corporation, 8 Crosby Drive, Bedford, Massachusetts 01730, Attention: Secretary, before the taking of the vote at the annual meeting.

The representation in person or by proxy of at least a majority of the outstanding shares of common stock entitled to vote at the annual meeting is necessary to constitute a quorum for the transaction of business. Votes withheld from any nominee, abstentions and broker non-votes are counted as present or represented for purposes of determining the presence or absence of a quorum for the annual meeting. A non-vote occurs when a nominee holding shares for a beneficial owner votes on one proposal but does not vote on another proposal because, with respect to such other proposal, the nominee does not have discretionary voting power and has not received instructions from the beneficial owner.

For Proposal 1, the election of class III directors, the nominees receiving the highest number of affirmative votes of the shares present or represented and entitled to vote at the annual meeting shall be elected as directors. For Proposal 2, the ratification of the appointment of PricewaterhouseCoopers LLP as the Company's independent registered public accountants for the current fiscal year, an affirmative vote of a majority of the shares present, in person or represented by proxy, and voting on each such matter is required for approval. Abstentions are included in the number of shares present or represented and voting on each matter. Broker non-votes are not considered voted for the particular matter and have the effect of reducing the number of affirmative votes required to achieve a majority for

such matter by reducing the total number of shares from which the majority is calculated.

The person named as attorney-in-fact in the proxies, Glen D. Weinstein, was selected by the board of directors and is an officer of the Company. All properly executed proxies returned in time to be counted at the

annual meeting will be voted by such person at the annual meeting. Where a choice has been specified on the proxy with respect to the foregoing matters, the shares represented by the proxy will be voted in accordance with the specifications. If no such specifications are indicated, such proxies will be voted FOR election of the director nominees, and FOR ratification of the appointment of our independent registered public accountants.

Aside from the election of directors and ratification of the appointment of the independent registered public accountants, the board of directors knows of no other matters to be presented at the annual meeting. If any other matter should be presented at the annual meeting upon which a vote properly may be taken, shares represented by all proxies received by the board of directors will be voted with respect thereto in accordance with the judgment of the person named as attorney-in-fact in the proxies.

The board of directors has determined that Drs. Chwang and Gansler and Messrs. Geisser, McNamee, Meekin and Kern are independent within the meaning of the director independence standards of The NASDAQ Stock Market, Inc., or NASDAQ, and the Securities and Exchange Commission, including Rule 10A-3(b)(1) under the Securities Exchange Act of 1934, as amended, or the Exchange Act. Furthermore, the board of directors has determined that each member of each of the committees of the board of directors is independent within the meaning of the director independence standards of NASDAQ and the Securities and Exchange Commission.

### **Executive Sessions of Independent Directors**

Executive sessions of the independent directors are held prior to each regularly scheduled in-person meeting of the board of directors. Executive sessions do not include any of our non-independent directors and are chaired by a lead independent director who is appointed annually by the board of directors from our independent directors.

Mr. McNamee currently serves as the lead independent director. In this role, Mr. McNamee serves as chairperson of the independent director sessions and assists the board in assuring effective corporate governance. The independent directors of the board of directors met in executive session four (4) times in 2007.

### **Policies Governing Director Nominations**

#### *Director Qualifications*

The nominating and corporate governance committee of the board of directors is responsible for reviewing with the board of directors from time to time the appropriate qualities, skills and characteristics desired of members of the board of directors in the context of the needs of the business and current make-up

**Table of Contents**

of the board of directors. This assessment includes consideration of the following minimum qualifications that the nominating and corporate governance committee believes must be met by all directors:

nominees must have experience at a strategic or policy making level in a business, government, non-profit or academic organization of high standing;

nominees must be highly accomplished in his or her respective field, with superior credentials and recognition;

nominees must be well regarded in the community and shall have a long-term reputation for the highest ethical and moral standards;

nominees must have sufficient time and availability to devote to the affairs of the Company, particularly in light of the number of boards on which the nominee may serve;

nominees must be free of conflicts of interest and potential conflicts of interest, in particular with relationships with other boards; and

nominees must, to the extent such nominee serves or has previously served on other boards, demonstrate a history of actively contributing at board meetings.

The board of directors seeks members from diverse professional backgrounds who combine a broad spectrum of relevant industry and strategic experience and expertise that, in concert, offer us and our stockholders diversity of opinion and insight in the areas most important us and our corporate mission. In addition, nominees for director are selected to have complementary, rather than overlapping, skill sets. All candidates for director nominee must have time available to devote to the activities of the board of directors. The nominating and corporate governance committee also considers the independence of candidates for director nominee, including the appearance of any conflict in serving as a director. Candidates for director nominee who do not meet all of these criteria may still be considered for nomination to the board of directors, if the nominating and corporate governance committee believes that the candidate will make an exceptional contribution to us and our stockholders.

***Process for Identifying and Evaluating Director Nominees***

The board of directors is responsible for selecting its own members. The board of directors delegates the selection and nomination process to the nominating and corporate governance committee, with the expectation that other members of the board of directors, and of management, will be requested to take part in the process as appropriate.

Generally, the nominating and corporate governance committee identifies candidates for director nominee in consultation with management, through the use of search firms or other advisors, through the recommendations submitted by stockholders or through such other methods as the nominating and corporate governance committee deems to be helpful to identify candidates. Once candidates have been identified, the nominating and corporate governance committee confirms that the candidates meet all of the minimum qualifications for director nominees established by the nominating and corporate governance committee. The nominating and corporate governance committee may gather information about the candidates through interviews, detailed questionnaires, comprehensive background checks or any other means that the nominating and corporate governance committee deems to be helpful in the evaluation process. The nominating and corporate governance committee then meets as a group to discuss and evaluate the qualities and skills of each candidate, both on an individual basis and taking into account the overall composition and needs of the board of directors. Based on the results of the evaluation process, the nominating and corporate governance committee recommends candidates for the board of directors approval as director nominees for election to the board of directors. The nominating and corporate governance committee also recommends candidates

to the board of directors for appointment to the committees of the board of directors.

In addition, this report shall not be deemed filed under either the Securities Act or the Exchange Act.*

This report is submitted by the audit committee of the board of directors. The audit committee currently consists of Messrs. Geisser (chairman), McNamee and Meekin. Mr. Geisser is an audit committee financial expert as is currently defined under SEC rules. The audit committee operates under a written charter adopted by the board of directors.

The audit committee oversees the Company's accounting and financial reporting processes on behalf of the board of directors. The Company's management has the primary responsibility for the financial statements, for maintaining effective internal control over financial reporting, and for assessing the effectiveness of internal control over financial reporting. In fulfilling its oversight responsibilities, the audit committee has reviewed and discussed with management the Company's consolidated financial statements for the fiscal year ended December 29, 2007, including a discussion of, among other things, the quality of the Company's accounting principles, the reasonableness of significant estimates and judgments, and the clarity of disclosures in the Company's financial statements.

The audit committee also reviewed with PricewaterhouseCoopers LLP, the Company's independent registered public accounting firm, the results of their audit and discussed matters required to be discussed by the Statement on Auditing Standards No. 61 (*Communication with Audit Committees*), as currently in effect, other standards of the Public Company Accounting Oversight Board, rules of the Securities and Exchange Commission and other applicable regulations. The audit committee has reviewed permitted services under rules of the Securities and Exchange Commission as currently in effect and discussed with PricewaterhouseCoopers LLP their independence from management and the Company, including the matters in the written disclosures and the letter from the independent registered public accounting firm required by Independence Standards Board Standard No. 1 (*Independence Discussions with Audit Committees*), as currently in effect, and has considered and discussed the compatibility of non-audit services provided by PricewaterhouseCoopers LLP with that firm's independence.

The audit committee meets with the independent registered public accounting firm, with and without management present, to discuss the results of their examinations; their evaluations of the Company's internal control, including internal control over financial reporting; and the overall quality of the Company's financial reporting.

Based on its review of the financial statements and the aforementioned discussions, the audit committee concluded that it would be reasonable to recommend, and on that basis did recommend, to the board of directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 29, 2007.

The audit committee has also evaluated the performance of PricewaterhouseCoopers LLP, including, among other things, the amount of fees paid to PricewaterhouseCoopers LLP for audit and non-audit services in 2007. Based on its evaluation, the audit committee has recommended that the Company retain PricewaterhouseCoopers LLP to serve as the Company's

independent registered public accounting firm for the 2008 fiscal year.

**COMPENSATION AND OTHER INFORMATION  
CONCERNING DIRECTORS AND OFFICERS**

**Compensation Discussion & Analysis**

***Overview***

Our compensation philosophy is based on a desire to balance retention of executive talent with pay for performance-based incentive compensation, which is designed to reward our named executive officers for continued service and our sustained financial and operating performance. We believe that the compensation of our named executive officers should align our executives' interests with those of our stockholders and focus executive behavior on the achievement of both near-term corporate targets as well as long-term business objectives and strategies. It is the responsibility of the compensation committee of our board of directors to administer our compensation practices to ensure that they are competitive and include incentives that are designed to appropriately drive our performance, including our revenue and earnings growth. Our compensation committee reviews and approves all of our executive compensation policies, including executive officer salaries, bonuses and equity awards.

***Objectives of Our Compensation Programs***

Our compensation programs for our executive officers are designed to achieve the following objectives:

to provide competitive compensation that attracts, motivates and retains the best talent and the highest caliber executives to serve us and help us to achieve our strategic objectives;

to align management's interest with our success;

to connect a significant portion of the total potential cash compensation paid to executives to our annual financial performance or the division, region or segment of our business for which an executive has management responsibility by basing cash incentive compensation on corresponding financial targets;

to align management's interest with the interests of stockholders through long-term equity incentives; and

to provide management with performance goals that are directly linked to our annual plan for growth and profit.

We believe that the compensation of our named executive officers should reflect their success as a management team, rather than as individuals, in attaining key operating objectives such as revenue growth and gross profit improvement as well as longer-term strategic objectives such as invention and product development.

We also believe that their compensation should not be based on the short-term performance of our stock, whether favorable or unfavorable, but rather that the price of our stock will, in the long-term, reflect our operating performance, and ultimately, the management of the company by our named executive officers. We seek to have the long-term performance of our stock reflected in executive compensation through our stock option and other equity incentive programs.

***Methodologies for Establishing Executive Compensation***

The compensation committee, which is comprised entirely of independent directors, reviews the compensation packages for our named executive officers, including an analysis of all elements of compensation separately and in the aggregate. In determining the appropriate compensation levels for our chief executive officer, the compensation committee meets outside the presence of all our executive officers. With respect to the compensation levels of all other named executive officers, the compensation committee meets outside the presence of all executive officers except our chief executive officer and our chairman. Mr. Angle, our chief executive officer, annually reviews each other named executive officer's performance with the compensation committee.

## **Table of Contents**

With the input of our human resources department and compensation consultants, the chief executive officer makes recommendations to the compensation committee regarding base salary levels, target incentive awards, performance goals for incentive compensation and equity awards for named executive officers, other than Mr. Angle. In conjunction with the annual performance review of each named executive officer in January of each year, the compensation committee carefully considers the recommendations of the chief executive officer when making decisions on setting base salary, bonus payments under the prior year's incentive compensation plan, target amounts and performance goals for the current year's incentive compensation plan, and any other special adjustments or bonuses. In addition, the compensation committee similarly determines equity incentive awards, if any, for each named executive officer.

Our compensation plans are developed, in part, by utilizing publicly available compensation data and subscription compensation survey data for national and regional companies in the technology, defense, household durables and robotics industries. We believe that the practices of this group of companies provide us with appropriate compensation benchmarks, because these companies have similar organizational structures and tend to compete with us to attract executives and other employees. For benchmarking executive compensation, we typically review the compensation data we have collected from the complete group of companies, as well as a subset of the data from companies with revenues, numbers of employees and market capitalizations similar to our profile.

With respect to 2007 base salary and cash incentive compensation, we reviewed companies with similar-sized revenues of greater than \$85 million and less than \$350 million and market capitalizations of between \$240 million to \$1.2 billion, in particular Argon ST, Inc., Cognex Corporation, Directed Electronics, Inc., Dolby Laboratories, Inc., DTS, Inc., Faro Technologies, Inc., GSI Group, Inc., II-VI Inc., L-1 Identity Solutions, Inc., LoJack Corporation, Newport Corporation, Orbital Sciences Corporation, Syntax-Brilliant Corporation, United Industrial Corporation and Universal Electronics Inc. The compensation committee had also engaged a consultant, Watson Wyatt Worldwide, to help us evaluate peer companies for cash compensation purposes and to help us analyze applicable compensation data and to help us determine appropriate compensation levels for our named executive officers.

With respect to 2007 long-term incentives, we reviewed companies with similar-sized revenues of greater than \$100 million and less than \$400 million, focusing on U.S.-based public companies in the consumer electronics and defense industries. These peer companies include Cobra Electronics Corporation, Directed Electronics, Inc., Genesis Microchip, Incorporated, LoJack Corporation, Mad Catz Interactive, Inc., Rockford Corporation, Syntax-Brilliant Corporation, TiVo Inc., Universal Electronics Inc., AeroVironment, Inc., Argon ST, Inc., Axsys Technologies, Inc., Ducommun Incorporated, Force Protection, Inc. HEICO Corporation, Herley Industries, Inc., Integral Systems, Inc. and Sparton Corporation. The compensation committee had also engaged a consultant, DolmatConnell & Partners, to help us evaluate peer companies for long-term incentive compensation purposes and to help us analyze applicable compensation data and to help us determine appropriate long-term compensation levels for our named executive officers.

We will annually reassess the relevance of our peer group and make changes when judged appropriate. We believe that the use of benchmarking is an important factor in remaining competitive with our peers and furthering our objective of attracting, motivating and retaining highly qualified personnel.

The compensation committee reviews all components of compensation for named executive officers. In accordance with its charter, the compensation committee also, among other responsibilities, administers our incentive compensation plan, and reviews and makes recommendations to management on company-wide compensation programs and practices. In setting compensation levels for our executive officers in fiscal 2007, the compensation committee considered many factors in addition to benchmarking described above, including, but not limited to:

the scope and strategic impact of the executive officer's responsibilities;

our past business and segment performance and future expectations;

our long-term goals and strategies;

**Table of Contents**

- the performance and experience of each individual;
- past salary levels of each individual and of the named executive officers as a group;
- relative levels of pay among the executive officers;
- the amount of base salary in the context of the executive officer's total compensation and other benefits;
- for each named executive officer, other than the chief executive officer, the evaluations and recommendations of the chief executive officer, and
- the competitiveness of the compensation packages relative to the selected benchmarks as highlighted by the independent compensation consultant's analysis.

The compensation committee determines compensation for our chief executive officer using the same factors it uses for other executive officers, placing relatively less emphasis on base salary, and instead, creating greater performance-based opportunities through long-term equity and short term cash incentive compensation, which we believe better aligns our chief executive officer's interests with our success and the interests of our stockholders. In assessing the compensation paid to our chief executive officer, the compensation committee relies on both information from our selected benchmarks and its judgment with respect to the factors described above.

***Elements of Compensation***

Our executive compensation program consists of three primary elements: salary, long-term equity interest, primarily in the form of stock options and restricted stock awards, and an annual cash incentive program based on both corporate and, if appropriate, divisional performance. All of our executive officers also are eligible for certain benefits offered to employees generally, including life, health, disability and dental insurance, as well as to participate in our 401(k) plan. We also enter into executive agreements with our executive officers that provide for certain severance benefits upon termination of employment following a change in control of the Company.

***Annual Cash Compensation***

**Base Salary.** The compensation committee believes that our executive officers, including our chief executive officer, are paid salaries in line with their qualifications, experience and responsibilities. Salaries are structured so that they are at least comparable with salaries paid by the peer companies reviewed by the compensation committee in the technology and robotics industry. We target base salaries for each of our executives at the market median (50th percentile) in the technology and robotics industry and also take into consideration many additional factors that we believe enable us to attract, motivate and retain our leadership team in an extremely competitive environment. Salaries are reviewed generally on an annual basis.

Fiscal year 2006 was a year of continued progress and achievements across a number of areas important to strengthening the foundation for our future growth and long-term success. Under Mr. Angle's leadership, we improved our results of operations. As a result, in 2007 Mr. Angle received salary compensation of \$324,820. The increase in Mr. Angle's annual salary from \$287,499 in 2006 to \$330,625 was based on the compensation committee's consideration of the factors described above. Additionally, the decision to increase Mr. Angle's base salary was based on the compensation committee's assessment that Mr. Angle's 2006 salary was below the market median salary for chief executive officers whose companies were included in the selected benchmarks and that it would be appropriate to move towards more closely aligning Mr. Angle's salary with the 50th percentile of such benchmarks.

Fiscal 2007 base salaries for our executive officers, other than Mr. Angle, were determined by the compensation committee after considering the base salary level of the executive officers in prior years and taking into account for each executive officer the amount of base salary as a component of total compensation. Base salary levels for each of our executive officers, other than our chief executive officer, were also based upon evaluations and recommendations made by our chief executive officer. These recommendations include

**Table of Contents**

an assessment of the individual's responsibilities, experience, individual performance and contribution to our performance, and also generally take into account the competitive environment for attracting and retaining executives consistent with our business needs.

In light of the considerations discussed above, for fiscal year 2007, the annual base salaries of our chief executive officer, chief financial officer, chairman, president, home robots and president, government & industrial robots, were \$330,625, \$267,500, \$330,625, \$320,000 and \$303,264, respectively. We believe that the base salaries paid to our executive officers during our fiscal year 2007 achieve our executive compensation objectives, compare favorably to our peer group and, in light of our overall compensation program, are within our target of providing total compensation at the market median.

*Cash Incentive Compensation.* The compensation committee believes that some portion of overall cash compensation for executive officers should be at risk, *i.e.*, contingent upon successful implementation of our strategy. For our named executive officers, including our chief executive officer, the granting of cash incentive payments is based on an evaluation of achievement against predetermined financial and operational metrics in accordance with our Senior Executive Incentive Compensation Plan that was adopted by the compensation committee. Target cash incentives for named executive officers are generally targeted at the 50th percentile of similar cash incentives provided to officers in peer companies reviewed by the compensation committee in the technology and robotics industries. The amount of cash incentives paid to the named executive officers, however, is subject to the discretion of the compensation committee based on its assessment of our performance in general or the achievement of specific goals.

For fiscal 2007, the target bonus awards under our Senior Executive Incentive Compensation Plan for each of our named executive officers, as a percentage of base salary, were 85% for our chief executive officer and chairman, 65% for the president of our Government & Industrial Robots division, 50% for the president of our Home Robots division and 40% for our chief financial officer. This target payout amount was set at levels the compensation committee determined were appropriate in order to achieve our objective of retaining those executives who perform at or above the levels necessary for us to achieve our business plan, which, among other things, involved growing our company in a cost-effective way.

We designed our Senior Executive Incentive Compensation Plan to focus our executives on achieving key corporate financial objectives, and to reward substantial achievement of these company financial objectives. The performance goals and cash incentive payment criteria established by the compensation committee under our 2007 Incentive Compensation Plan were designed to require significant effort and operational success on the part of us and our named executive officers for achievement.

For each executive officer, except Ms. Lawrence, 100% of his or her target bonus in 2007 was tied to a company-wide revenue threshold. We had to achieve minimum revenue of approximately \$225 million for any portion of the bonus to be accrued, with bonus accrual increasing ratably until we achieve revenue of approximately \$238 million, at which 100% of the target bonus would have been accrued; provided, however, that the payment of such bonus was conditioned on our pre-tax net income for fiscal 2007 remaining above a pre-determined threshold of \$3 million. The compensation committee chose revenue achievement as a primary determinant of cash incentive compensation because it believed that, as a growth company, we should reward significant revenue growth. The compensation committee conditioned the payment of cash incentive compensation on the achievement of a minimum level of pre-tax net income because it believed that we must balance our high growth with a disciplined increase in profitability designed to allow us to achieve our more long-term financial goals. We achieved our revenue threshold for 2007, but because we did not achieve the minimum level of pre-tax net income, the executive officers, except Ms. Lawrence, did not earn any of his or her target bonus. Because Ms. Lawrence joined us in May 2007, after a substantial portion of the year had passed, and in accordance with the terms of her employment offer letter, the compensation committee provided that her cash incentive compensation would be paid at 100% of her threshold bonus amount.

*Long-Term Incentives*

Executive officers (and other employees) are eligible to receive restricted stock, stock option grants and other stock awards that are intended to promote success by aligning employee financial interests with long-

**Table of Contents**

term shareholder value. These stock-based incentives are based on various factors primarily relating to the responsibilities of the individual officer or employee, their past performance, anticipated future contributions and prior option grants. In general, our compensation committee bases its decisions to grant stock-based incentives on recommendations of management and the compensation committee's analysis of peer group compensation information, with the intention of keeping the executives' overall compensation, including the equity component of that compensation, at a competitive level with the comparator companies reviewed by the committee in the technology and robotics industries. Our compensation committee also considers the number of shares of common stock outstanding, the number of shares of common stock authorized for issuance under its equity compensation plans, the number of options and shares held by the executive officer for whom an award is being considered and the other elements of the officer's compensation, as well as our compensation objectives and policies described above. During fiscal year 2007, stock options and restricted stock awards were granted to our named executive officers. As with the determination of base salaries and short term incentive payments, the compensation committee exercises subjective judgment and discretion in view of the above criteria.

*Other Compensation*

We also have various broad-based employee benefit plans. Our executive officers participate in these plans on the same terms as other eligible employees, subject to any legal limits on the amounts that may be contributed or paid to executive officers under these plans. We offer a 401(k) plan, which allows our employees to invest in a wide array of funds on a pre-tax basis. We do not provide pension arrangements or post-retirement health coverage for our named executive officers or other employees. We also maintain insurance and other benefit plans for our employees. Executive officers receive higher life, accidental death and dismemberment and disability insurance benefits than other employees. In addition, one executive officer receives amounts allocable to use of our corporate apartment. We also enter into executive agreements with our executive officers providing for certain severance benefits that may be triggered as a result of the termination of such officer's employment under certain circumstances. We offer no perquisites, other than the use of our corporate apartment, that are not otherwise available to all of our employees.

*Executive Agreements*

We entered into executive agreements with each of our executive officers. The executive agreements provide for severance payments equal to 50% of such officer's annual base salary, as well as certain continued health benefits, in the event that we terminate his or her employment other than for cause. In addition, these executive agreements provide that if we experience a change in control and the employment of such officer is terminated without cause, or if such officer terminates his or her employment for certain reasons including a substantial reduction in salary or bonus or geographic movement during the one-year period following the change in control, then all unvested stock options held by such officer become fully-vested and immediately exercisable and such officer is entitled to severance payments equal to 100% of his or her annual base salary and 50% of such officer's annual bonus, as well as certain continued health benefits. The agreements also provide that all options granted to each officer will have their vesting accelerated by 25% upon a change in control. It was the belief of the compensation committee that these provisions were consistent with executive severance arrangements that are customary for public companies at our stage of development and were necessary in order to hire and/or retain the executives.

From time to time, the Company's executive officers enter into stock restriction agreements upon the exercise of their option grants.

We have entered into indemnification agreements with each of our executive officers and directors, providing for indemnification against expenses and liabilities reasonably incurred in connection with their service for us on our behalf.

On December 30, 2002, we entered into an independent contractor agreement with Dr. Rodney Brooks, which shall continue until terminated by either party upon 60 days written notice. If we terminate the agreement, Dr. Brooks will be entitled to twelve months severance.

**Table of Contents***Tax Deductibility of Executive Compensation*

In general, under Section 162(m) of the Internal Revenue Code of 1986, as amended, or the Code, we cannot deduct, for federal income tax purposes, compensation in excess of \$1,000,000 paid to certain executive officers. This deduction limitation does not apply, however, to compensation that constitutes qualified performance-based compensation within the meaning of Section 162(m) of the Code and the regulations promulgated thereunder. We have considered the limitations on deductions imposed by Section 162(m) of the Code and it is our present intention, for so long as it is consistent with our overall compensation objective, to structure executive compensation to minimize application of the deduction limitations of Section 162(m) of the Code.

**Discussion of Summary Compensation and Grants of Plan-Based Awards Tables**

The compensation paid to the named executive officers includes salary, cash incentive compensation and equity incentive compensation. In addition, each named executive officer is eligible to receive contributions to his or her 401(k) plan under our matching contribution program.

***Executive Agreements***

We have entered into executive agreements with each of our executive officers. The executive agreements provide for severance payments equal to 50% of such officer's annual base salary, as well as certain continued health benefits, in the event that we terminate his or her employment other than for cause. In addition, these executive agreements provide that if we experience a change in control and the employment of such officer is terminated without cause, or if such officer terminates his or her employment for certain reasons including a substantial reduction in salary or bonus or geographic movement during the one-year period following the change in control, then all unvested stock options held by such officer become fully-vested and immediately exercisable and such officer is entitled to severance payments equal to 100% of his or her annual base salary and 50% of such officer's annual bonus, as well as certain continued health benefits. The agreements also provide that all options granted to each officer will have their vesting accelerated by 25% upon a change in control

In 2007, salary was approximately 83.7%, 83.7%, 86.9%, 87.9% and 33.5% of the total compensation for Mr. Angle, Ms. Greiner, Messrs. Clear and Dyer and Ms. Lawrence, respectively. In 2006, salary was

**Table of Contents**

approximately 68.5%, 68.6%, 80.3% and 61.7% of the total compensation for Mr. Angle, Ms. Greiner and Messrs. Clear and Dyer, respectively.

***Cash Incentive Compensation***

Our named executive officers are eligible to participate in our Senior Executive Incentive Compensation Plan. Pursuant to this plan, we award our named executive officers cash incentive payments based on an evaluation of the achievement against predetermined measurable financial and operational metrics in accordance with the terms of the plan as adopted by the compensation committee. Target cash incentives for named executive officers are generally targeted at the 50th percentile of similar cash incentives provided to officers in peer companies reviewed by the compensation committee in the technology and robotics industries.

For each executive officer, except Ms. Lawrence, 100% of his or her target bonus in 2007 was tied to a company-wide revenue threshold. We had to achieve minimum revenue of approximately \$225 million for any portion of the bonus to be accrued, with bonus accrual increasing ratably until we achieve revenue of approximately \$238 million, at which 100% of the target bonus would have been accrued; provided, however, that the payment of such bonus was conditioned on our pre-tax net income for fiscal 2007 remaining above a pre-determined threshold of \$3 million. We achieved our revenue threshold for 2007, but because we did not achieve the minimum level of pre-tax net income, the executive officers, except Ms. Lawrence, did not earn any of his or her target bonus. Because Ms. Lawrence joined us in May 2007, after a substantial portion of the year had passed, the compensation committee provided that her cash incentive compensation would be paid at 100% of her threshold, which was approximately 16.3% of her total compensation.

For 2006, non-equity incentive compensation was approximately 25.5%, 25.5%, 13.9% and 34.5% of the total compensation for Mr. Angle, Ms. Greiner and Messrs. Clear and Dyer, respectively.

***Equity Incentive Compensation***

Executive officers are eligible to receive restricted stock, stock option grants and other stock awards. These stock-based incentives are based on various factors primarily relating to the responsibilities of the individual officer or employee, their past performance, anticipated future contributions and prior option grants. In general, our compensation committee bases its decisions to grant stock-based incentives on recommendations of management and the compensation committee's analysis of peer group compensation information, with the intention of keeping the executives' overall compensation, including the equity component of that compensation, at a competitive level with the comparator companies reviewed by the committee in the technology and robotics industries. Our compensation committee also considers the number of shares of common stock outstanding, the number of shares of common stock authorized for issuance under its equity compensation plans, the number of options and shares held by the executive officer for whom an award is being considered and the other elements of the officer's compensation, as well as our compensation objectives and policies described above. In 2007, stock options and restricted stock awards were granted to our named executive officers, as noted in the Grants of Plan-Based Awards- 2007 table above. There were no stock options or restricted stock awards granted to our named executive officers in 2006.

Pursuant to our Non-employee Directors' Deferred Compensation Program, each non-employee director may elect in advance to defer the receipt of these cash fees. During the deferral period, the cash fees will be deemed invested in stock units. The deferred compensation will be settled in shares of our common stock upon the termination of service of the director or such other time as may have been previously elected by the director. The shares will be issued from our 2005 Stock Option and Incentive Plan.

In 2007 each of our non-employee members of our Board was entitled to the following equity compensation: Upon the initial election to the board of directors of a non-employee member of our Board would receive a one-time option to purchase 40,000 shares of our common stock under our 2005 Stock Option and Incentive Plan. All options granted to non-employee members of our board of directors vest in five equal annual installments commencing on the anniversary date of such grant. In addition, each non-employee director will receive an annual stock option award to purchase 10,000 shares of common stock on the date of each annual meeting of stockholders, which will vest in three equal annual installments commencing on the anniversary date of such grant. All such options will be granted at the fair market value on the date of the award. All of our directors are reimbursed for reasonable out-of-pocket expenses incurred in attending meetings of the board of directors.

The following table provides compensation information for the fiscal year ended December 29, 2007 for each non-employee member of our board of directors. No member of our Board employed by us receives separate compensation for services rendered as a member of our board of directors.

**Transactions with Related Persons**

Other than compensation agreements and other arrangements which are described in Compensation Discussion & Analysis, in 2007, there has not been, and there is not currently proposed, any transaction or series of similar transactions to which we were or will be a party in which the amount involved exceeded or will exceed \$120,000 and in which any director, executive officer, holder of five percent or more of any class of our capital stock or any member of their immediate family had or will have a direct or indirect material interest.

In April 2007, our board of directors adopted a written related party transaction approval policy, which sets forth our policies and procedures for the review, approval or ratification of any transaction required to be reported in our filings with the Securities and Exchange Commission. Our policy with regard to related party transactions is that all related

party transactions are to be reviewed by our general counsel, who will determine whether the contemplated transaction or arrangement requires the approval of the board of directors, the nominating and corporate governance committee, both or neither.

**Table of Contents****PROPOSAL 2****RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED  
PUBLIC ACCOUNTANTS**

The audit committee of the board of directors has retained the firm of PricewaterhouseCoopers LLP, independent registered public accountants, to serve as independent registered public accountants for our 2007 fiscal year. PricewaterhouseCoopers LLP has served as our independent registered public accounting firm since 1999. The audit committee reviewed and discussed its selection of, and the performance of, PricewaterhouseCoopers LLP for our 2007 fiscal year. As a matter of good corporate governance, the audit committee has determined to submit its selection to stockholders for ratification. If the selection of independent registered public accountants is ratified, the audit committee in its discretion may select a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of us and our stockholders.

The audit committee of the board of directors has implemented procedures under our audit committee pre-approval policy for audit and non-audit services, or the Pre-Approval Policy, to ensure that all audit and permitted non-audit services to be provided to us have been pre-approved by the audit committee. Specifically, the audit committee pre-approves the use of PricewaterhouseCoopers LLP for specific audit and non-audit services, within approved monetary limits. If a proposed service has not been pre-approved pursuant to the Pre-Approval Policy, then it must be specifically pre-approved by the audit committee before it may be provided by PricewaterhouseCoopers LLP. Any pre-approved services exceeding the pre-approved monetary limits require specific approval by the audit committee. For additional information concerning the audit committee and its activities with PricewaterhouseCoopers LLP, see *The Board of Directors and Its Committees* and *Report of the Audit Committee of the Board of Directors*.

Representatives of PricewaterhouseCoopers LLP attended all of the meetings of the audit committee in 2007. We expect that a representative of PricewaterhouseCoopers LLP will attend the annual meeting, and the representative will have an opportunity to make a statement if he or she so desires. The representative will also be available to respond to appropriate questions from stockholders.

**Recommendation of the Board**

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE *FOR* THE RATIFICATION OF PRICEWATERHOUSECOOPERS LLP AS IROBOT'S INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS FOR 2008.**

**OTHER MATTERS**

The board of directors knows of no other matters to be brought before the annual meeting. If any other matters are properly brought before the annual meeting, the persons appointed in the accompanying proxy intend to vote the shares represented thereby in accordance with their best judgment on such matters, under applicable laws.

**STOCKHOLDER PROPOSALS**

Proposals of stockholders intended for inclusion in the proxy statement to be furnished to all stockholders entitled to vote at our 2009 annual meeting of stockholders, pursuant to Rule 14a-8 promulgated under the Exchange Act by the Securities and Exchange Commission, must be received at the Company's principal executive offices not later than December 15, 2008. Stockholders who wish to make a proposal at the 2009 annual meeting other than one that will be included in the Company's proxy statement must notify us between January 29, 2009 and February 28, 2009. If a stockholder who wishes to present a proposal fails to notify us by February 28, 2009 and such proposal is brought before the 2009 annual meeting, then under the Securities and Exchange Commission's proxy rules, the proxies solicited by management with respect to the 2009 annual meeting will confer discretionary voting authority with respect to the stockholder's proposal on the persons selected by management to vote the proxies. If a stockholder makes a timely notification, the proxies may still exercise discretionary voting authority under circumstances consistent with the Securities and Exchange Commission's proxy rules. In order to curtail controversy as to the date on which we received a proposal, it is suggested that proponents submit their proposals by Certified Mail, Return Receipt Requested, to iRobot Corporation, 8 Crosby Drive, Bedford, Massachusetts 01730, Attention: Secretary.

**SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE**

Section 16(a) of the Exchange Act requires our directors, executive officers and persons who own more than ten percent of a registered class of our equity securities to file reports of ownership and changes in ownership with the Securities and Exchange Commission. Such persons are required by regulations of the Securities and Exchange Commission to furnish us with copies of all such filings. Based solely on our review of copies of such filings we believe that all such persons complied on a timely basis with all Section 16(a) filing requirements during the fiscal year ended December 29, 2007, except that Mr. Clear did not timely file a Form 4 with respect to one transaction, Dr. Chwang did not timely file a Form 4 with respect to three transactions, and Messrs. Geisser and McNamee each did not timely file a Form 4 with respect to four transactions.
