Dear Shareholder:

PIMCO Funds is pleased to provide you with the initial semi-annual report for PIMCO Municipal Income Fund, PIMCO California Municipal Income Fund and PIMCO New York Municipal Income Fund (the "Municipal Income Funds"), for the period June 29, 2001 (commencement of operations) through October 31, 2001.

I am pleased to report that each of the Municipal Income Funds has consistently met its respective objectives since they were launched, delivering a steady stream of current, tax-exempt income. In fact, at October 31, 2001, all three Funds were yielding approximately 6%. Of course, the Funds' use of leverage--which entails additional risks, including enhanced interest rate risk--contributed to these strong results. Bear in mind that leverage can also amplify negative performance during adverse market conditions.

We believe that the launch of the Municipal Income Funds came at an opportune time in the municipal bond market. With interest rates currently near 40-year lows, PIMCO believes that municipal securities offer some of the most attractive tax-adjusted values in the fixed income marketplace today. In addition, because each Fund focuses primarily on investment-grade quality municipal bonds, we believe these Funds provide a prudent investment option for the long-term taxable investor--especially when part of a well-diversified portfolio.

PIMCO Funds is committed to delivering the highest standard of service to shareholders. For ongoing information about your investment, please contact your financial advisor, or call our shareholder services area at 1-800-331-1710. You can also access a wide range of information and resources through our Web site--www.pimcofunds.com.

Thank you for the trust you have placed in PIMCO Funds. We look forward to working with you and your financial advisor for many years to come.

Sincerely,

/s/ Stephen Treadway

A NYSE TRADED MUNICIPAL BOND FUND

PIMCO MUNICIPAL INCOME FUND

SYMBOL:

PMF

INVESTMENT OBJECTIVE:

PIMCO Municipal Income Fund seeks to provide income exempt from federal income tax.

MAIN INVESTMENTS:

Municipal fixed-income securities the interest from which is exempt from federal income taxes.

FUND INCEPTION DATE:

June 29, 2001

NET ASSETS:

\$552.5 million (as of 10/31/01)

PORTFOLIO MANAGER:

Mark McCray

[PICTURE]

Mark McCray
Fund Manager

Mr. McCray is responsible for municipal bond portfolios at PIMCO. Previously Co-Head of Municipal Bond Trading at Goldman Sachs & Co., he has over 10 years of investment experience.

"In the current market environment, municipal bonds continue to make sense for investors given their attractive yields and strong credit profile."

The Lehman General Municipal Bond Index is an unmanaged index representative of the tax-exempt bond market. The index is made up of all investment grade municipal bonds issued after 12/31/90 having a remaining maturity of at least one-year. It is not possible to invest directly in the index.

The opinions expressed above are those of the Fund's portfolio manager and are current only through October 31, 2001. They should not be considered investment advice. The portfolio manager's views are subject to change at any time based on market and other conditions, and no forecasts are guaranteed.

PIMCO Municipal Income Fund began trading on the New York Stock Exchange on June 27, 2001 and calculated its first net asset value ("NAV") on June 29, 2001. Since the Fund's inception through October 31, 2001, the Fund's common shares provided a total return based on NAV of 5.25%, compared to 3.88% for the Lehman General Municipal Bond Index over the same time period. (For share price information, see opposite page.)

MILITARY UNCERTAINTY AND HISTORIC TREASURY ANNOUNCEMENT DRIVE BOND RETURNS.

The U.S. economy slowed significantly over the four months ended October 21, 2001 as corporate profits continued to deteriorate, capital investment dried up, and unemployment surged. The attacks of September 11 magnified these trends, and caused further risk aversion among investors. In addition, the economy faced deeper economic uncertainty as military action began in Afghanistan, the U.S. faced further security threats and the Treasury Department announced that it

Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-30D

would no longer issue 30-year debt. High quality fixed-income assets performed well during the period, as investors sought safety amid the turmoil. However, municipal bonds underperformed taxable debt during the period due to increased investor preference for high quality, very liquid Treasury and agency securities.

HIGH QUALITY BIAS AND DEFENSIVE FOCUS CONTRIBUTED TO PERFORMANCE.

The Fund's focus on high-quality municipal bonds enhanced returns as it enabled it to withstand the financial shock that occurred in the wake of the September 11 attacks. The Fund's exposure to the healthcare industry was positive as those bonds performed well due to their strong cash flow and defensive characteristics. Extended duration also helped returns as municipal yields fell across all maturities. The Fund's use of leverage through the issuance of preferred shares increased portfolio yield--the municipal yield curve steepened in response to the Fed's easing campaign. Transportation-related securities negatively impacted performance, especially airport bonds, as revenues and prospective debt servicing coverages were adversely affected by the attack. The negative impact on the Fund was limited by holdings of insured issues and minimal overall exposure.

SOME MORE PAIN AHEAD, BUT THEN A POSSIBLE RECOVERY.

After assessing the impact of the September 11 attacks, our secular outlook for weaker global growth remains intact. In the short term, we expect that the U.S. economy will initially experience further contraction, but then recover with the benefit of fiscal and monetary stimulus. On the down side, heightened political and economic uncertainty will reinforce trends already in existence prior to the attacks. We believe that municipal bonds should continue to provide strong relative values even under recessionary conditions as they offer high credit quality and attractive tax-adjusted yields.

quality breakdown, portfolio statistics and portfolio composition are likely to vary from those listed above as of the date of this report.

INVESTMENT PROCESS

The top-down investment process begins with our annual secular forum at which PIMCO develops a 3-5 year outlook for the global economy and interest rates. This helps set the basic portfolio parameters, including duration, yield-curve positioning, sector weightings and credit quality. Our municipal bond team seeks to add value in a number of ways. They believe that investments should be made from the point of view of maximizing after-tax total return as opposed to simply reaching for maximum yield. So the portfolio is scrutinized using a process that models the potential changes in yield and price as the underlying variables of the marketplace change. Yield-to-worst measures are carefully examined, as are the impact of a shifting municipal yield curve and the influence of yield volatility and credit shifts on the portfolio.

Mark McCray
Fund Manager

Mr. McCray is responsible for municipal bond portfolios at PIMCO. Previously Co-Head of Municipal Bond Trading at Goldman Sachs & Co., he has over 10 years of investment experience.

"California municipal bonds are an attractive alternative given the current volatility affecting the financial markets."

Mark McCray

Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-30D

The Lehman Insured California Municipal Debt Index is an unmanaged index comprised of insured California Municipal Bond Issues. It is not possible to invest directly in the index.

The opinions expressed above are those of the Fund's portfolio manager and are current only through October 31, 2001. They should not be considered investment advice. The portfolio manager's views are subject to change at any time based on market and other conditions, and no forecasts are guaranteed.

PIMCO California Municipal Income Fund began trading on the New York Stock Exchange on June 27, 2001 and calculated its first net asset value ("NAV") on June 29, 2001. Since the Fund's inception through October 31, 2001, the Fund's common shares provided a total return based on NAV of 5.17%, compared to 5.09% for the Lehman Insured California Municipal Debt Index over the same time period. (For share price information, see opposite page.)

POLITICAL AND ECONOMIC UNCERTAINTY DRAG DOWN THE ECONOMY.

The U.S economy slowed significantly over the four months ended October 31, 2001, despite a supportive Federal Reserve, which lowered short-term rates by four percentage points since the beginning of the 2001 calendar year. Eroding profits, mounting layoffs and lower consumer confidence all contributed to the weakening of the economy and were exacerbated by the terrorist attacks of September 11. In addition, the economy faced deeper economic uncertainty as military action began in Afghanistan, the U.S. faced further security threats and the Treasury Department announced that it would no longer issue 30-year debt. High quality assets outperformed as investors sought safety amid the turmoil. While municipal debt underperformed taxable debt, the California municipal market outperformed the national municipal market amid modest new issuance and stabilized energy costs.

REVENUE BONDS PROVIDE ANCHOR AMID VOLATILITY

The Fund's exposure to revenue bonds enhanced returns as the Fund benefited from the strong cash flow generated by these issues. Extended duration was also positive for returns as California municipal yields fell across all maturities. Due to its high quality focus, the Fund was also well positioned to withstand the effects of September 11 on the financial markets. While transportation holdings, especially airport bonds, were negative for performance, the Fund benefited from limited exposure to these issues. The Fund's use of leverage through the issuance of preferred shares increased portfolio yield--the California municipal yield curve steepened in response to the Fed's easing campaign.

ECONOMY LIKELY TO WEAKEN IN THE SHORT TERM, BUT IS POISED FOR A REBOUND.

While our secular outlook for weaker global growth remains intact, we do anticipate that sometime in 2002 economic growth could rebound sharply due to the convergence of aggressive monetary easing and increased fiscal stimulus. In the near term, however, the risks remain weighted towards continued economic weakness. As a result, we intend to maintain our focus on high-quality issues. We believe that long-term California municipal bonds offer attractive tax-adjusted yields relative to Treasury and agency issues, despite the higher probability of a state recession after the September 11 attacks.

Mark McCray
Fund Manager

Mr. McCray is responsible for municipal bond portfolios at PIMCO. Previously Co-Head of Municipal Bond Trading at Goldman Sachs & Co., he has over 10

Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-30D

years of investment experience.

"While the outlook for New York remains uncertain, municipal bonds offer refuge amid the turbulence."

Mark McCray

The Lehman Insured NY Municipal Debt Index is an unmanaged index comprised of insured New York Municipal Bond issues. It is not possible to invest directly in the index.

The opinions expressed above are those of the Fund's portfolio manager and are current only through October 31, 2001. They should not be considered investment advice. The portfolio manager's views are subject to change at any time based on market and other conditions, and no forecasts are guaranteed.

PIMCO New York Municipal Income Fund began trading on the New York Stock Exchange on June 27, 2001 and calculated its first net asset value ("NAV") on June 29, 2001. Since the Fund's inception through October 31, 2001, the Fund's common shares provided a total return based on NAV of 2.58%, compared to 3.69% for the Lehman Insured New York Municipal Debt Index over the same time period. (For share price information, see opposite page.)

CORPORATE SLOWDOWN AND ATTACKS CONTRIBUTE TO AILING ECONOMY.

The U.S economy continued to slow drastically over the four months ended October 31, 2001 as corporate profits deteriorated, layoffs mounted and consumer confidence weakened. The September 11 attacks amplified these trends and caused further risk aversion among investors. In addition, the economy faced deeper economic uncertainty as military action began in Afghanistan, the U.S. faced further security threats and the Treasury Department announced that it would no longer issue 30-year debt. High quality assets outperformed as investors sought safety amid the turmoil. Municipal debt underperformed taxable debt, and the New York municipal market underperformed the national municipal market due to weaker financial conditions in the state.

HIGH QUALITY FOCUS AND REVENUE BONDS BOLSTER PORTFOLIO.

The Fund's revenue bond holdings were positive for performance as these bonds generated strong cash flow in an uncertain environment. The Fund's extended duration also contributed to returns as New York municipal yields fell across all maturities. The Fund was also well positioned to withstand the effects of the September 11 attacks on the financial markets due to its high quality focus. The Fund's use of leverage through the issuance of preferred shares increased portfolio yield--the New York municipal yield curve steepened in response to the Fed's easing campaign. Transportation issues, especially airport bonds, experienced negative price returns amid fears that revenues and debt servicing would be impacted by the attacks, but their impact on the Fund was lessened due to limited exposure.

FURTHER SLOWING AHEAD, BUT HELP IS ON THE WAY.

While our secular outlook for weaker global growth remains intact, we do anticipate that sometime in 2002 economic growth could rebound sharply due to the convergence of aggressive monetary easing and increased fiscal stimulus. In the near term, however, the risks remain weighted towards continued economic weakness. As a result, we intend to maintain our focus on high-quality issues. We believe that long-term New York municipal bonds offer attractive tax-adjusted yields relative to Treasuries and agency issues, despite the higher probability of a state recession after the attacks.

NOTES TO FINANCIAL STATEMENTS

October 31, 2001 (unaudited)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

PIMCO Municipal Income Fund ("Municipal"), PIMCO California Municipal Income Fund ("California Municipal") and PIMCO New York Municipal Income Fund ("New York Municipal"), collectively known as the "Funds", were organized as Massachusetts business trusts on May 10, 2001. Prior to commencing operations on June 29, 2001, the Funds had no operations other than matters relating to their organization and registration as non-diversified, closed-end management investment companies registered under the Investment Company Act of 1940 and the rules and regulations thereunder, as amended; and the sale and issuance to PIMCO Advisors L.P. (the "Investment Manager"), an indirect, majority-owned subsidiary of Allianz AG, of 6,667 shares of beneficial interest of each fund at an aggregate purchase price of \$100,005 per fund.

Municipal, California Municipal and New York Municipal issued 20,600,000, 15,200,000 and 6,200,000 shares of common stock, respectively, in their initial public offerings. An additional 3,090,000, 2,280,000 and 930,000 shares of Municipal, California Municipal and New York Municipal, respectively, were issued in connection with the exercise of the underwriters over-allotment option. Offering costs of \$710,700, \$524,400 and \$213,900 (representing \$0.03 per share for each fund), for Municipal, California Municipal and New York Municipal, respectively, were offset against the proceeds of the offerings and have been charged to paid-in capital in excess of par. The Investment Manager has agreed to pay all offering costs (other than the sales load) and organizational expenses exceeding \$0.03 per share for each fund.

In addition, the underwriters discount and offering costs associated with the Funds issuance of Preferred Shares in the amounts of \$2,000,000 and \$325,000, \$1,500,000 and \$246,000 and \$630,000 and \$184,000, for Municipal, California Municipal and New York Municipal, respectively, have been charged to paid-in capital in excess of par.

The preparation of the financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Funds:

Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-30D

(a) VALUATION OF INVESTMENTS

Debt securities are valued daily by an independent pricing service approved by the Boards of Trustees. Any security or other asset for which market quotations are not readily available is valued at fair value as determined in good faith under procedures established by the Boards of Trustees. Municipal Income invests substantially all of its assets in a portfolio of municipal bonds, the interest from which is exempt from federal income taxes. California Municipal invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal and California income taxes. New York Municipal invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal, New York State and New York City income taxes. The Funds will seek to avoid bonds generating interest potentially subjecting individuals to alternative minimum tax. The issuers' abilities to meet their obligations may be affected by economic and political developments in a specific state or region.

(b) FEDERAL INCOME TAXES

The Funds intend to distribute all of their taxable income and to comply with the other requirements of the U.S. Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, no provision for U.S. federal income taxes is required. In addition, by distributing substantially all of their ordinary income and long-term capital gains, if any, during each calendar year, the Funds intend not to be subject to U.S. federal excise tax.

(c) INVESTMENT TRANSACTIONS AND INVESTMENT INCOME

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Interest income is recorded on an accrual basis. Original issue discounts or premiums on debt securities purchased are accreted or amortized daily to non-taxable interest income. Market discounts, if any, are accreted daily to taxable income.

(d) DIVIDENDS AND DISTRIBUTIONS -- COMMON STOCK

The Funds declare dividends from net investment income monthly to common shareholders. Distributions of net realized capital gains, if any, are paid at least annually. Each Fund records dividends and distributions to its shareholders on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from generally accepted accounting principles. These "book-tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal income tax treatment; temporary differences do not require reclassification. To the extent dividends and/or distributions exceed current and accumulated earnings and profits for federal income tax purposes, they are reported as dividends and/or distributions of paid-in capital in excess of par.

(e) EXPENSE OFFSET

The Funds benefit from an expense offset arrangement with their custodian bank whereby uninvested cash balances earn credits which reduce monthly custodian expenses. Had these cash balances been invested in income producing securities,

Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-30D

they would have generated income for the Funds.

10.31.01 | PIMCO Municipal Income Funds Semi-Annual Report 21

2. INVESTMENT MANAGER AND SUB-ADVISER

Each Fund has entered into an Investment Management Agreement (the "Agreements") with the Investment Manager to serve as Investment Manager to each Fund. Subject to the supervision of the Fund's Board of Trustees, the Investment Manager is responsible for managing, either directly or through others selected by it, the investment activities of the Fund and the Fund's business affairs and other administrative matters. Pursuant to the Agreements, the Investment Manager will receive an annual fee, payable monthly, at the annual rate of 0.65% of each Fund's average daily net assets (including net assets attributable to any preferred shares that may be outstanding). In order to reduce Fund expenses, the Investment Manager has contractually agreed to reimburse each Fund for fees and expenses at the annual rate of 0.20% of the Fund's average daily net assets (including net assets attributable to any preferred shares that may be outstanding) from the commencement of operations through June 30, 2006, and for a declining amount thereafter through June 30, 2009.

The Investment Manager has retained its affiliate, Pacific Investment Management Company LLC (the "Sub-Adviser") to manage each Fund's investments. Subject to the supervision of the Investment Manager, the Sub-Adviser makes all determinations with respect to the investment of each Fund's assets. The Investment Manager (not the Funds) pays a portion of the fees it receives to the Sub-Adviser in return for its services, at the maximum annual rate of 0.37% of each Fund's average daily net assets (including net assets attributable to any preferred shares that may be outstanding). The Sub-Adviser has contractually agreed to waive a portion of the fees it is entitled to receive from the Investment Manager, such that the Sub-Adviser will receive 0.25% of each Fund's average daily net assets (including net assets attributable to any preferred shares that may be outstanding) from the commencement of the Funds operations through June 30, 2006, and an increasing amount thereafter through June 30, 2009. The Investment Manager informed the Funds that it paid the Sub-Adviser \$382,951, \$283,348 and \$114,674 in connection with sub-advisory services for Municipal, California Municipal and New York Municipal, respectively, for the period ended October 31, 2001.

3. INVESTMENTS IN SECURITIES

For the period ended October 31, 2001, purchases and sales of investments, other than short-term securities, were as follows:

	Municipal -----	California Municipal -----	New York Municipal -----
Purchases	\$626,224,922	\$524,820,981	\$225,067,092
Sales	97,271,483	131,621,400	63,731,290

4. CAPITAL

The Funds have an unlimited amount of no par value common stock authorized.

Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-30D

5. AUCTION PREFERRED SHARES

Municipal has issued 1,600 shares of Preferred Shares Series A, 1,600 shares of Preferred Shares Series B, 1,600 shares of Preferred Shares Series C, 1,600 shares of Preferred Shares Series D and 1,600 shares of Preferred Shares Series E each with a net asset and liquidation value of \$25,000 per share plus accrued dividends.

California Municipal has issued 2,000 shares of Preferred Shares Series A, 2,000 shares of Preferred Shares Series B and 2,000 shares of Preferred Shares Series C each with a net asset and liquidation value of \$25,000 per share plus accrued dividends.

New York Municipal has issued 2,520 shares of Preferred Shares Series A with a net asset and liquidation value of \$25,000 per share plus accrued dividends.

Dividends are accumulated daily at an annual rate set through auction procedures. Distributions of net realized capital gains, if any, are paid annually.

For the period ended October 31, 2001, the annualized dividend rate ranged from:

	High	Low	At 10/31/01
	----	---	-----
Municipal:			

Series A	2.30%	1.65%	1.65%
Series B	2.40%	1.073%	1.625%
Series C	2.30%	1.50%	1.50%
Series D	2.25%	1.55%	1.65%
Series E	2.20%	1.625%	1.625%
California Municipal:			

Series A	2.02%	1.80%	1.70%
Series B	2.125%	1.04%	1.70%
Series C	2.05%	1.70%	1.70%
New York Municipal:			

Series A	2.20%	1.55%	1.55%

The Funds are subject to certain limitations and restrictions while Preferred Shares are outstanding. Failure to comply with these limitations and restrictions could preclude the Funds from declaring any dividends or distributions to common shareholders or repurchasing common shares and/or could trigger the mandatory redemption of Preferred Shares at their liquidation value.

Preferred Shares, which are entitled to one vote per share, generally vote with the common stock but vote separately as a class to elect two Trustees and on any matters affecting the rights of the Preferred Shares.

Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-30D

6. SUBSEQUENT DIVIDEND DECLARATIONS

On November 1, 2001, the following dividends were declared to common shareholders payable December 3, 2001 to shareholders of record on November 16, 2001:

Municipal	\$0.0769 per common share
California Municipal	\$0.0750 per common share
New York Municipal	\$0.0750 per common share

On December 3, 2001, the following dividends were declared to common shareholders payable December 31, 2001 to shareholders of record on December 14, 2001:

Municipal	\$0.0769 per common share
California Municipal	\$0.0750 per common share
New York Municipal	\$0.0750 per common share

On December 10, 2001, the Boards of Trustees of Municipal and California Municipal announced their intention to increase the monthly per share common dividends. Municipal's dividend will increase from \$0.0769 per common share to \$0.08125 per common share and California Municipal's dividend will increase from \$0.075 per common share to \$0.077 per common share.

7. SUBSEQUENT CAPITAL GAIN DECLARATIONS

On December 17, 2001, the Boards of Trustees of Municipal and New York Municipal declared short-term capital gain distributions of \$0.01846 per common share and \$0.05027 per common share, respectively. The distributions are payable January 4, 2002 to shareholders of record on December 28, 2001.

+ Annualized.

- (1) Total investment return is calculated assuming a purchase of common stock at the current market price on the first day and a sale at the current market price on the last day of the period reported. Dividends are assumed, for purposes of this calculation, to be reinvested at prices obtained under the Funds' dividend reinvestment plan. Total investment return does not reflect brokerage commissions or sales charges. Total investment return for a period of less than one year is not annualized.
- (2) Calculated on the basis of income and expenses applicable to both common and preferred shares relative to the average net assets of common shareholders.
- (3) Inclusive of expenses offset by earning credits from custodian bank. (See note 1e in Notes to Financial Statements).

Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-30D

- (4) During the period indicated above the Investment Manager waived a portion of its investment management fee. If such waiver had not been in effect, the ratio of expenses to average net assets and the ratio of net investment income to average net assets would have been 0.79% (annualized) and 4.64% (annualized), respectively.
- (5) During the period indicated above the Investment Manager waived a portion of its investment management fee. If such waiver had not been in effect, the ratio of expenses to average net assets and the ratio of net investment income to average net assets would have been 0.81% (annualized) and 4.04% (annualized), respectively.
- (6) During the period indicated above the Investment Manager waived a portion of its investment management fee. If such waiver had not been in effect, the ratio of expenses to average net assets and the ratio of net investment income to average net assets would have been 0.87% (annualized) and 3.89% (annualized), respectively.
