Item 1. Report to Shareholders.

The Fund's semi-annual report transmitted to shareholders pursuant to Rule 30e-1 under the Investment Company Act of 1940 is as follows:

Welcome, Shareholder

In this report, you'll learn about how your investment in Van Kampen Bond Fund performed during the semiannual period. The portfolio management team will provide an overview of the market conditions and discuss some of the factors that affected investment performance during the reporting period. In addition, this report includes the fund's financial statements and a list of fund investments as of December 31, 2003.

Market forecasts provided in this report may not necessarily come to pass. There is no assurance that the fund will achieve its investment objective. The fund is subject to market risk, which is the possibility that the market values of securities owned by the fund will decline and, therefore, the value of the fund shares may be less than what you paid for them. Accordingly, you can lose money investing in this fund.

Performance Summary

AVERAGE ANNUAL TOTAL RETURNS

BOND FUND
SYMBOL: VBF

AVERAGE ANNUAL TOTAL RETURNS	BASED ON NAV	BASED ON MARKET PRICE
10-year	7.00%	6.48%
5-year	6.01	5.13
1-year	10.53	3.73
6-month	2.97	-5.06

Past performance is no guarantee of future results. Investment return, net asset value (NAV) and common share market price will fluctuate and fund shares, when sold, may be worth more or less than their original cost.

As a result of recent market activity, current performance may vary from the figures shown. For more up-to-date information, please visit vankampen.com or speak with your financial advisor. The NAV per share is determined by dividing the value of the fund's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding. The common share market price is the price the market is willing to pay for shares of the fund at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions. Total return assumes an investment at the beginning of the period, reinvestment of all distributions for the period in accordance with the fund's dividend reinvestment plan, and sale of all shares at the end of the period.

The Lehman Brothers BBB Corporate Bond Index is generally representative of corporate bonds. The index does not include any expenses, fees or sales charges, which would lower performance. The index is unmanaged and should not be considered an investment.

Fund Report

FOR THE SIX-MONTH PERIOD ENDED DECEMBER 31, 2003

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

Van Kampen Bond Fund is managed by the adviser's Taxable Fixed Income team.(1) Current team members include David S. Horowitz, Executive Director, and Gordon W. Loery, Executive Director.

MARKET CONDITIONS

Throughout the reporting period there was mounting evidence that the economy was moving into a recovery. By September, both consumer and corporate spending showed strength, and GDP growth topped 8 percent. Although the Federal Reserve (the Fed) cut the federal funds target rate by 25 basis points just prior to the beginning of the period, in mid-June, the reduction was half of what had been expected. This appeared to signal that the Fed was less concerned about deflation than had been previously thought. Interest rates moved sharply higher through August in one of their strongest upward moves in decades, and remained largely unchanged through the end of the year.

Non-Treasury sectors of the market generally benefited from high investor demand. Yield spreads in corporate bonds remained wide following the corporate governance scandals in 2002, and investors were drawn to the bonds' attractive relative yields. This pattern continued throughout the period as the economy showed ongoing signs of improvement, and corporate bonds closed the year with strong returns. Sector performance was varied, with economically sensitive segments such as telecommunications, electrics, industrials, media and basic materials leading the pack.

PERFORMANCE ANALYSIS

Closed-end fund returns can be calculated based upon either the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the fund's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding, while market price reflects the supply and demand for the shares. As a result, the two returns

can differ significantly. The fund's return at NAV outperformed the return of its benchmark, the Lehman Brothers BBB Corporate Bond Index. (See performance table.)

The fund benefited from our strategy of emphasizing sectors of the market that

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

we believed were best positioned to gain from an increase in economic activity. This approach led us to emphasize the financials and transportation sectors, both of which performed strongly. We also selectively added to the portfolio's holdings of utilities companies such as Monongahela Power Company, Indianapolis Power & Light and Ohio Edison as regulatory changes took effect and our analysts developed greater comfort with the companies' prospects.

With interest rates earlier in the year at record low levels we kept the portfolio's duration (a measure of interest-rate sensitivity) below that of its benchmark in an effort to mitigate the risk of rising interest rates. We achieved this by moving some assets out of longer-term paper and into shorter-maturity securities. This strategy helped performance when interest rates rose early in the period. The lower yields earned on the shorter-maturity investments however, detracted somewhat from overall returns.

Our strategy in the telecommunications sector was less beneficial to the fund. We were generally conservative in our allocations out of concern over the sector's volatile performance in recent years. The sector went on to rebound off of its lows, and the fund was not able to participate fully.

NOTES TO
FINANCIAL STATEMENTS

December 31, 2003 (Unaudited)

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen Bond Fund (the "Fund") is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The Fund's investment objective is to seek interest income while conserving capital through investing in a diversified portfolio consisting primarily of high-quality debt securities.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Fixed income investments are stated at value using market quotations or indications of value obtained from an independent pricing service. Investments in securities listed on a securities exchange are valued at their

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

sale price as of the close of such securities exchange. Listed securities and unlisted securities for which the last sales price is not available are valued at the mean of the bid and asked prices. For those securities where quotations or prices are not available as noted above, valuations are determined in accordance with procedures established in good faith by the Board of Trustees. Futures contracts are valued at the settlement price established each day on the exchange on which they are traded. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Fund may purchase and sell securities on a "when-issued" or "delayed delivery" basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Fund will segregate assets with its custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At December 31, 2003, there were no when-issued or delayed delivery purchase commitments.

The Fund may invest in repurchase agreements, which are short-term investments in which the Fund acquires ownership of a debt security and the seller agrees to repurchase the security at a future time and specified price. The Fund may invest independently in repurchase agreements, or transfer uninvested cash balances into a pooled cash account along with other investment companies advised by Van Kampen Asset Management (the "Adviser") or its affiliates, the daily aggregate of which is invested in repurchase agreements. Repurchase agreements are fully collateralized by the underlying debt security. The Fund will make payment for such securities only upon physical delivery or evidence of book entry transfer to the account of the custodian bank. The seller is required to maintain the value of the underlying security at not less than the repurchase proceeds due the Fund.

18

NOTES TO FINANCIAL STATEMENTS

December 31, 2003 (Unaudited)

C. INVESTMENT INCOME Interest income is recorded on an accrual basis and dividend income is recorded on the ex-dividend date. Premiums are amortized and discounts are accreted over the expected life of each applicable security.

D. FEDERAL INCOME TAXES It is the Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

The Fund intends to utilize provisions of the federal income tax laws which allow it to carry a realized capital loss forward for eight years following the year of the loss and offset these losses against any future realized capital gains. At June 30, 2003, the Fund had an accumulated capital loss carryforward for tax purposes of \$11,597,056, which will expire between June 30, 2009 and June 30, 2011.

At December 31, 2003, the cost and related gross unrealized appreciation and depreciation are as follows:

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

Cost of investments for tax purposes.....	\$207,173,370
	=====
Gross tax unrealized appreciation.....	\$ 14,441,301
Gross tax unrealized depreciation.....	(643,669)

Net tax unrealized appreciation on investments.....	\$ 13,797,632
	=====

E. DISTRIBUTION OF INCOME AND GAINS The Fund declares and pays quarterly dividends from net investment income. Net realized gains, if any, are distributed annually. Distributions from net realized gains for book purposes may include short-term capital gains and gains on futures transactions. All short-term capital gains and a portion of futures gains are included in ordinary income for tax purposes.

The tax character of distributions paid during the year ended June 30, 2003 was as follows:

	2003
Distributions paid from:	
Ordinary income.....	\$13,747,783
Long-term capital gain.....	-0-

	\$13,747,783
	=====

As of June 30, 2003, the component of distributable earnings on a tax basis were as follows:

Undistributed ordinary income.....	\$392,256
------------------------------------	-----------

Net realized gains or losses may differ for financial reporting and tax purposes primarily as a result of the deferral of losses relating to wash sale transactions.

NOTES TO
FINANCIAL STATEMENTS

December 31, 2003 (Unaudited)

F. EXPENSE REDUCTIONS During the six months ended December 31, 2003, the Fund's custody fee was reduced by \$54 as a result of credits earned on cash balances.

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Fund's Investment Advisory Agreement, the Adviser will provide investment advice and facilities to the Fund for an annual fee payable monthly as follows:

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

AVERAGE DAILY NET ASSETS	% PER ANNUM
First \$150 million.....	.50%
Next \$100 million.....	.45%
Next \$100 million.....	.40%
Over \$350 million.....	.35%

For the six months ended December 31, 2003, the Fund recognized expenses of approximately \$7,500 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom (Illinois), counsel to the Fund, of which a trustee of the Fund is an affiliated person.

Under an Accounting Services agreement, the Adviser provides accounting services to the Fund. The Adviser allocates the cost of such services to each fund. For the six months ended December 31, 2003, the Fund recognized expenses of approximately \$9,000 representing Van Kampen Investments Inc.'s or its affiliates' (collectively "Van Kampen") cost of providing accounting services to the Fund, which are reported as part of "Other" expenses on the Statement of Operations.

Certain officers and trustees of the Fund are also officers and directors of Van Kampen. The Fund does not compensate its officers or trustees who are officers of Van Kampen.

The Fund provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Fund. The maximum annual benefit per trustee under the plan is \$2,500.

3. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments, were \$40,309,177 and \$44,344,692, respectively.

4. DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument in very general terms refers to a security whose value is "derived" from the value of an underlying asset, reference rate or index.

The Fund has a variety of reasons to use derivative instruments, such as to attempt to protect the Fund against possible changes in the market value of its portfolio or to generate potential gain. All of the Fund's portfolio holdings, including derivative instruments, are marked to market each day with the change in value reflected in the unrealized appreciation/ depreciation. Upon disposition, a realized gain or loss is recognized accordingly, except when taking delivery of a security underlying a futures contract. In this instance, the recognition of

NOTES TO FINANCIAL STATEMENTS

gain or loss is postponed until the disposal of the security underlying the

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

futures contract. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts.

During the period, the Fund invested in futures contracts, a type of derivative. A futures contract is an agreement involving the delivery of a particular asset on a specified future date at an agreed upon price. The Fund generally invests in exchange traded futures on U.S. Treasury Bonds and Notes and typically closes the contract prior to delivery date. Upon entering into futures contracts, the Fund maintains an amount of cash or liquid securities with a value equal to a percentage of the contract amount with either a futures commission merchant pursuant to rules and regulations promulgated under the 1940 Act, as amended, or with its custodian in an account in the broker's name. This amount is known as initial margin. During the period the futures contract is open, payments are received from or made to the broker based upon changes in the value of the contract (the variation margin). The risk of loss associated with a futures contract is in excess of the variation margin reflected on the Statement of Assets and Liabilities.

Transactions in futures contracts for the six months ended December 31, 2003, were as follows:

	CONTRACTS
Outstanding at June 30, 2003.....	556
Futures Opened.....	1,042
Futures Closed.....	(1,215)

Outstanding at December 31, 2003.....	383

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSRS

The Fund pays distributions in cash, but if you own more than 100 shares in your own name, you may elect to participate in the Fund's dividend reinvestment plan (the "Plan"). Under the Plan, shares will be issued by the Fund at net asset value on a date determined by the Board of Trustees between the record and payable dates on each distribution; however, if the market price including brokerage commissions, is less than the net asset value, the amount of the distribution will be paid to the Plan Agent, which will buy such shares as are available at prices below the net asset value. (If the market price is not significantly less than the net asset value, it is possible that open market purchases of shares may increase the market price so that such price plus brokerage commissions would equal or exceed the net asset value of such shares.) If the Plan Agent cannot buy the necessary shares at less than net asset value before the distribution date, the balance of the distribution will be made in authorized but unissued shares of the Fund at net asset value. The cost per share will be the average cost, including brokerage commissions, of all shares purchased. Since all shares purchased from the Fund are at net asset value, there will be no dilution, and no brokerage commissions are charged on such shares.

You will receive tax information annually for your personal records and to help you prepare your federal income tax return. The automatic reinvestment of dividends and capital gain distributions does not relieve you of any income tax which may be payable (or required to be withheld) on dividends or distributions.

You may begin or discontinue participation in the Plan at any time by written notice to the address below. If you withdraw from the Plan, you may rejoin at any time if you own the required 100 shares. Elections and terminations will be effective for distributions declared after receipt. If you withdraw from the Plan, a certificate for the whole shares and a check for the fractional shares, if any, credited to your Plan account will be sent as soon as practicable after receipt of your election to withdraw. Except for brokerage commissions, if any, which are borne by Plan participants, all costs of the Plan are borne by the Fund. The Fund reserves the right to amend or terminate the Plan on 30 days' written notice prior to the record date of the distribution for which such amendment or termination is effective.

Record stockholders should address all notices, correspondence, questions or other communications about the Plan to:

State Street Bank and Trust Company
c/o EquiServe LLP
P.O. Box 8200
Boston, MA 02266-8200
1-800-821-1238

If your shares are not held directly in your name, you should contact your brokerage firm, bank or other nominee for more information and to see if your nominee will participate in the Plan on your behalf. If you participate through your broker and choose to move your account to another broker, you will need to re-enroll in the Plan through your new broker.
