QUESTIONS & ANSWERS

Although we recommend that you read the complete Joint Proxy Statement/
Prospectus, we have provided for your convenience a brief overview of the issues
to be voted on.

Q WHY IS A SHAREHOLDER
MEETING BEING HELD?

A Shareholders of
Van Kampen Advantage Pennsylvania Municipal Income Trust, Van Kampen
Pennsylvania Quality Municipal Trust and Van Kampen Trust for Investment Grade
Pennsylvania Municipals: You are being asked to vote on a reorganization (each a
"Reorganization" and collectively the "Reorganizations") of your fund (each such
fund being referred to herein as a "Target Fund" and together as the "Target
Funds") into Van Kampen Pennsylvania Value Municipal Income Trust (the
"Acquiring Fund"), a closed-end investment company that pursues the same
investment objective and has similar investment policies and which is managed by
the same investment advisory personnel as the Target Funds.

Shareholders of Van Kampen Pennsylvania Value Municipal Income Trust: You are
being asked to vote on the issuance of additional common shares of beneficial
interest by the Acquiring Fund in connection with the Reorganizations.

Q WHY IS EACH
REORGANIZATION BEING RECOMMENDED?

A The Board of Trustees of
each Fund has determined that each Reorganization will benefit common
shareholders of the respective Target Fund and the Acquiring Fund. The Target
Funds and the Acquiring Fund are similar. Each Fund seeks to provide a high
level of current income exempt from federal and Pennsylvania income taxes and,
where possible under local law, local income and personal property taxes,
consistent with preservation of capital, by investing substantially all of its
assets in Pennsylvania municipal securities rated investment grade at the time
of investment. Each Fund is managed by the same investment advisory personnel.
After the Reorganizations, it is anticipated that common shareholders of each
Fund will experience a reduced annual operating expense ratio, as certain fixed
administrative costs will be spread across the combined fund's larger asset
base. It is not anticipated that the Reorganizations will directly benefit

preferred shareholders of the Funds; however, the Reorganizations will not adversely affect preferred shareholders, and none of the expenses of the Reorganizations will be borne by preferred shareholders.

Q HOW WILL THE REORGANIZATIONS AFFECT ME?

A Assuming shareholders approve the Reorganizations of the Target Funds and shareholders of the Acquiring Fund approve the issuance of additional common shares of the Acquiring Fund, the assets and liabilities of the Target Funds will be combined with those of the Acquiring Fund and the Target Funds will dissolve.

Shareholders of the Target Funds: You will become a shareholder of the Acquiring Fund. If you are a holder of common shares of a Target Fund, you will receive newly-issued common shares of the Acquiring Fund, the aggregate net asset value of which will equal the aggregate net asset value of the common shares you held immediately prior to the Reorganization, less the costs of the Reorganization (though you may receive cash for fractional shares). If you are a holder of preferred shares of a Target Fund, you will receive newly-issued preferred shares of the Acquiring Fund, the aggregate liquidation preference of which will equal the aggregate liquidation preference of the preferred shares you held immediately prior to the Reorganization.

Shareholders of the Acquiring Fund: You will remain a shareholder of the Acquiring Fund.

Q WILL I HAVE TO PAY ANY SALES LOAD, COMMISSION OR OTHER SIMILAR FEE IN CONNECTION WITH THE REORGANIZATIONS?

A You will pay no sales loads or commissions in connection with the Reorganizations. However, if the Reorganizations are completed, the costs associated with the Reorganizations, including the costs associated with the shareholder meeting, will be borne by common shareholders of the Target Funds and the Acquiring Fund in proportion to their projected annual expense savings as a result of the Reorganizations.

Q WILL I HAVE TO PAY ANY FEDERAL TAXES AS A RESULT OF THE REORGANIZATIONS?

A Each of the Reorganizations is intended to qualify as a "reorganization" within the meaning of Section 368(a)(1) of the Internal Revenue Code of 1986, as amended. If the Reorganizations so qualify, in general, shareholders of the Target Funds will recognize no gain or loss upon the receipt of shares of the Acquiring Fund in connection with the Reorganizations. Additionally, the Target Funds will recognize no gain or loss as a result of the transfer of all of their assets and liabilities in exchange for the shares of the Acquiring Fund or as a result of their dissolution. Neither the Acquiring Fund nor its shareholders will recognize any gain or loss in connection with the Reorganizations.

Q WHAT HAPPENS IF SHAREHOLDERS OF ONE TARGET FUND DO NOT APPROVE ITS REORGANIZATION BUT SHAREHOLDERS OF THE OTHER TARGET FUNDS DO APPROVE THEIR REORGANIZATIONS?

A An unfavorable vote on a proposed Reorganization by the shareholders of one Target Fund will not affect the implementation of a Reorganization by any other Target Fund, if such Reorganization is approved by the shareholders of such Target Fund and the issuance of additional common shares is approved by the shareholders of the Acquiring Fund.

Q WHY IS THE VOTE OF
COMMON SHAREHOLDERS OF THE ACQUIRING FUND BEING SOLICITED?

A Although the Acquiring Fund will continue its legal existence and operations after the Reorganizations, the rules of the New York Stock Exchange and the Chicago Stock Exchange (on which the Acquiring Fund's common shares are listed) require the Acquiring Fund's common shareholders to approve the issuance of additional common shares in connection with the Reorganizations. If the issuance of additional common shares of the Acquiring Fund is not approved, none of the Reorganizations will occur.

Q HOW DOES THE BOARD OF
TRUSTEES OF MY FUND SUGGEST THAT I VOTE?

A After careful consideration, the Board of Trustees of your fund recommends that you vote "FOR" the item proposed for your fund.

Q HOW DO I VOTE MY PROXY?

A You may cast your vote by mail, phone or internet. To vote by mail, please mark your vote on the enclosed proxy card and sign, date and return the card in the postage-paid envelope provided. Advantage Pennsylvania Municipal Income Trust, Pennsylvania Quality Municipal Trust and Trust for Investment Grade Pennsylvania Municipals are sometimes referred to herein individually as a "Target Fund" or collectively as the "Target Funds." The Target Funds and the Acquiring Fund are sometimes referred to herein each as a "Fund" and collectively as the "Funds." Each Agreement and Plan of Reorganization is sometimes referred to herein individually as a "Reorganization Agreement" or collectively as the "Reorganization Agreements." Each Reorganization Agreement that Target Fund shareholders are being asked to consider involves a transaction that will be referred to in this Joint Proxy Statement/Prospectus individually as a "Reorganization" and collectively as the

"Reorganizations."

The Reorganizations seek to combine four similar Funds to achieve certain economies of scale and other operational efficiencies. The investment objective of each Fund is to seek to provide a high level of current income exempt from federal and Pennsylvania income taxes and, where possible under local law, local income and personal property taxes, consistent with preservation of capital. Each Fund

2

seeks to achieve its investment objective by investing substantially all of its assets in Pennsylvania municipal securities rated investment grade at the time of investment. In each Reorganization, the Acquiring Fund will acquire substantially all of the assets and assume substantially all of the liabilities of the Target Fund in exchange for an equal aggregate value of newly-issued common shares of beneficial interest of the Acquiring Fund, par value \$0.01 per share ("Acquiring Fund Common Shares"), and newly-issued auction preferred shares of the Acquiring Fund with a par value of \$0.01 per share and a liquidation preference of \$25,000 per share ("Acquiring Fund APS"). Each of the Target Funds will distribute Acquiring Fund Common Shares to common shareholders of such Target Fund and Acquiring Fund APS to preferred shareholders of such Target Fund, and will then terminate its registration under the 1940 Act and dissolve under applicable state law. The aggregate net asset value of Acquiring Fund Common Shares received in each Reorganization will equal the aggregate net asset value of Target Fund common shares held immediately prior to such Reorganization, less the costs of such Reorganization (though common shareholders may receive cash for their fractional shares). The aggregate liquidation preference of Acquiring Fund APS received in each Reorganization will equal the aggregate liquidation preference of Target Fund preferred shares held immediately prior to such Reorganization. The Acquiring Fund will continue to operate after the Reorganizations as a registered closed-end investment company with the investment objective and policies described in this Joint Proxy Statement/Prospectus.

In connection with the Reorganizations, common shareholders of the Acquiring Fund are being asked to approve the issuance of additional Acquiring Fund Common Shares.

The Board of Trustees of each Fund has determined that including these proposals in one Joint Proxy Statement/Prospectus will reduce costs and is in the best interests of each Fund's shareholders.

In the event that shareholders of one or more of the Target Funds do not approve the Reorganization(s), such Target Fund(s) will continue to exist and the Board of Trustees of such Target Fund(s) will consider what additional action, if any, to take. In the event Acquiring Fund common shareholders do not approve the issuance of additional Acquiring Fund Common Shares, then all of the Funds will continue to exist and the respective Board of Trustees of each Fund will consider what additional action, if any, to take.

This Joint Proxy Statement/Prospectus sets forth concisely the information shareholders of each Fund should know before voting on the proposals for their Fund and constitutes an offering of Acquiring Fund Common Shares and Acquiring Fund APS. Please read it carefully and retain it for future reference. SUMMARY

The following is a summary of certain information contained elsewhere in this Joint Proxy Statement/Prospectus and is qualified in its entirety by reference to the more complete information contained in this Joint Proxy Statement/Prospectus and in the Reorganization Statement of Additional Information. Shareholders should read the entire Joint Proxy Statement/Prospectus carefully.

PROPOSAL 1: REORGANIZATIONS OF THE TARGET FUNDS

THE PROPOSED REORGANIZATIONS. The Board of Trustees of each Fund, including the trustees who are not "interested persons" of each Fund (as defined in the 1940 Act), has unanimously approved each Reorganization Agreement. If the shareholders of a Target Fund approve their Reorganization Agreement and the common shareholders of the Acquiring Fund approve the issuance of additional Acquiring Fund Common Shares (see Proposal 2: "Issuance of Additional Acquiring Fund Common Shares"), Acquiring Fund Common Shares and Acquiring Fund APS will be issued to the common shareholders and preferred shareholders of such Target Fund, respectively, in exchange for substantially all of the assets of the Target Fund and the assumption of substantially all of the liabilities of the Target Fund. The Target Fund will then terminate its registration under the 1940 Act and dissolve under applicable state law. The aggregate net asset value of Acquiring Fund Common Shares received in the Reorganization will equal the aggregate net asset value of Target Fund common shares held immediately prior to the Reorganization, less the costs of the Reorganization (though holders of Target Fund common shares may receive cash for their fractional shares). The aggregate liquidation preference of Acquiring Fund APS received in the Reorganization will equal the aggregate liquidation preference of Target Fund preferred shares held immediately prior to the Reorganization.

BACKGROUND AND REASONS FOR THE PROPOSED REORGANIZATIONS. The Reorganizations seek to combine four similar Funds to achieve certain economies of scale and other operational efficiencies. Each Fund is registered as a non-diversified, closed-end management investment company under the 1940 Act. The investment objective of each Fund is to seek to provide a high level of current income exempt from federal and Pennsylvania income taxes and, where possible under local law, local income and personal property taxes, consistent with preservation of capital. Each Fund seeks to achieve its investment objective, under normal market conditions, by investing substantially all of its assets in Pennsylvania municipal securities rated investment grade at the time of investment. Pennsylvania Quality Municipal Trust and the Acquiring Fund may invest up to 20% of their assets in unrated Pennsylvania municipal securities believed, at the time of investment, by the Adviser to have credit characteristics equivalent to, and to be of comparable quality as,

8

Pennsylvania municipal securities that are rated investment grade. Each Fund may invest all or a substantial portion of its assets in Pennsylvania municipal securities that pay interest that is subject to the federal alternative minimum tax. The Funds are managed by the same investment advisory personnel.

The proposed Reorganizations will combine the assets of these similar Funds by reorganizing the Target Funds into the Acquiring Fund. The Board of Trustees of each Target Fund (the "Target Fund Board"), based upon its evaluation of all relevant information, anticipates that the common shareholders of each Target Fund will benefit from their Fund's respective Reorganization. The Board of Trustees of the Acquiring Fund (the "Acquiring Fund Board"), based upon its evaluation of all relevant information, anticipates that each Reorganization will benefit holders of Acquiring Fund Common Shares. Each Board believes, based on data presented by Van Kampen Asset Management, investment adviser to each of the Funds (the "Adviser"), that common shareholders of each Fund will experience a reduced annual operating expense ratio as a result of their Fund's respective Reorganization. The combined fund resulting from the Reorganizations will have a larger asset base than any of the Funds has currently; certain fixed administrative costs, such as costs of printing shareholder reports and proxy statements, legal expenses, audit fees, mailing costs and other expenses, will be spread across this larger asset base, thereby lowering the expense ratio for common shareholders of the combined fund.

9

The table below illustrates the anticipated reduction in operating expenses expected as a result of the Reorganizations. The table sets forth (i) the fees, expenses and distributions to preferred shareholders paid by the Target Funds for the 12-month period ended January 31, 2005, (ii) the fees, expenses and distributions to preferred shareholders paid by the Acquiring Fund for the 12-month period ended January 31, 2005 and (iii) the pro forma fees, expenses and distributions to preferred shareholders for the Acquiring Fund for the 12-month period ended January 31, 2005, assuming all of the Reorganizations had been completed at the beginning of such period. As shown below, the Reorganizations are expected to result in decreased total annual expenses for shareholders of each Fund (although such savings will not be immediately realized (see footnote (c) to the table)). The increase in "Distributions on Preferred Shares" from the actual to the pro forma column for Pennsylvania

Edgar Filing: VAN KAMPEN PENNSYLVANIA VALUE MUNICIPAL INCOME TRUST - Form N-14 8C/A

Quality Municipal Trust is due primarily to changes in the expected preferred share leverage ratio of the combined fund (see footnote (e) to the table).

(a) No expense information is presented with respect to preferred shares because holders of preferred shares do not bear any transaction or operating expenses of any of the Funds and will not bear any of the Reorganization expenses or any transaction or operating expenses of the combined fund.

(b) Common shares purchased in the secondary market may be subject to brokerage

commissions or other charges. No sales load will be charged on the issuance of common shares in the Reorganizations. Common shares are not available for purchase from the Funds but may be purchased through a broker-dealer subject to individually negotiated commission rates.

(c) In connection with the Reorganizations, there are certain other transaction expenses which include, but are not limited to: all costs related to the preparation, printing and distributing of this Joint Proxy Statement/Prospectus to shareholders; costs related to preparation and distribution of materials distributed to each Fund's Board of Trustees; all expenses incurred in connection with the preparation of the Reorganization Agreements and the registration statement on Form N-14; SEC and state securities commission filing fees; legal and audit fees; portfolio transfer taxes (if any); and any similar expenses incurred in connection with the Reorganizations. In accordance with applicable SEC rules, the Board of Trustees of each Fund reviewed the fees and expenses that will be borne directly or indirectly by the Funds in connection with the Reorganizations. After considering various alternatives for allocating these costs, the Board of Trustees of each Fund agreed that, in the event the Reorganizations are approved and completed, the expenses of the Reorganizations will be shared by the Target Funds and the Acquiring Fund in proportion to their projected annual expense savings as a result of the Reorganizations. The table below summarizes each Fund's net assets (common shares only) at January 31, 2005, projected annual expense savings to each Fund as a result of the Reorganizations, allocation of Reorganization expenses among the Funds in dollars and percentages, an estimated pay-back period (in years) and the resulting effect on each Fund's net asset value per common share at January 31, 2005. Some Funds will benefit more from projected annual expense savings of the Reorganizations than other Funds. The projected annual expense savings are generally not expected to be immediately realized. If shareholders sell their common shares prior to the estimated pay-back period, then they may not realize any of the projected expense savings resulting from the reduced expense ratio of the combined fund. The net asset value per common share of each Fund will be reduced at the closing date of the respective Reorganization to reflect the allocation of Reorganization expenses to each Fund. The reduction in net asset value per common share resulting from the allocation of Reorganization expenses, when compared to the relative net asset sizes of each Fund involved in the Reorganizations, will be greater in some Funds than others. In the event a Reorganization is not completed, the Adviser will bear the costs associated with such Reorganization. The numbers presented in the table are estimates; actual results may differ.

fees effective as of November 1, 2004. If assets attributable to preferred shares were included, the investment advisory fee would be 0.55% for each Fund and for the Acquiring Fund on a pro forma basis.

(e) In seeking to enhance the income for its common shareholders, each of the Funds uses preferred shares as financial leverage. Leverage created by borrowing or other forms of indebtedness would create interest expenses which would, if used by the Funds, be charged to common shareholders (shown above as "Interest Payments on Borrowed Funds"). Leverage created by preferred shares creates dividend payments and/or capital gains distributions to preferred shareholders which are charged to common shareholders (shown above as "Distributions on Preferred Shares"). The dividend rates are based on periodic auctions as described herein and thus will differ based on varying market conditions at the times of such auctions. As of January 31, 2005, VAP had an outstanding preferred share leverage ratio (i.e., the liquidation preference of preferred shares relative to total assets of such Fund) of approximately 35%, VTP had an outstanding preferred share leverage ratio of approximately 36%, VPQ had an outstanding preferred share leverage ratio of approximately 32% and VPV had an outstanding preferred share leverage ratio of approximately 38%. Assuming the Reorganizations were completed as of January 31, 2005, the combined fund on a pro forma basis would have had a preferred share leverage ratio of approximately 35%. Because the line "Distributions on Preferred Shares" shows preferred share distributions as a percentage of net assets attributable to common shares, the amount shown is affected not only by the applicable preferred share dividend rates and capital gain distribution rates but also by the applicable preferred share leverage ratio of each Fund. Funds with higher preferred share leverage ratios, all other things equal, would have higher "Distributions on Preferred Shares" than funds with lower leverage ratios; and, if the leverage is producing its intended results (i.e., providing more income for common shareholders than its costs), funds with higher preferred share leverage ratios, all other things equal, would have higher distributions on common shares than funds with lower leverage ratios. Thus, the increase in "Distributions on Preferred Shares" for VPQ from the actual to the pro forma column is due primarily to changes in the expected leverage ratio of the combined fund. The proposed Reorganizations are intended to combine the Funds with their existing capital structures, which will result in a weighted combined leverage ratio that each Fund's Board and management believe is within an appropriate range under current market conditions; the combined fund may consider changes to its leverage ratio based on varying market conditions in the future.

12

(f) As described above the table, the pro forma column shown above assumes all of the Reorganizations are completed. As described herein, an unfavorable vote by one or more of the Target Funds will not affect the implementation of the Reorganization by the other Target Funds if approved by such other Target Funds. As such, there could be other combinations of approved Reorganizations, and the pro forma columns below present these various combinations.

EXAMPLE. The following example is intended to help you compare the costs of investing in the Acquiring Fund pro forma after the Reorganizations with the costs of investing in the Target Funds and the Acquiring Fund without the Reorganizations. An investor would pay the following expenses on a \$1,000 investment, assuming (1) the operating expense ratio for each Fund (as a

13

percentage of net assets attributable to common shares) set forth in the table above and (2) a 5% annual return throughout the period:

(a) Consistent with footnote (f) to the preceding table, the pro forma row shown above assumes each of the Reorganizations is completed. As described herein,

an unfavorable vote by one of the Target Funds will not affect the implementation of the Reorganizations of the other Target Funds if approved by such other Target Funds. This means that there could be other combinations of approved Reorganizations, and the pro forma rows below present these various combinations:

The example set forth above assumes the reinvestment of all dividends and distributions. The example should not be considered a representation of past or future expenses or annual rates of return. Actual expenses or annual rates of return may be more or less than those assumed for purposes of the example.

FURTHER INFORMATION REGARDING THE REORGANIZATIONS. The Target Fund Board has determined that each Reorganization is in the best interests of common shareholders of the respective Target Fund and that the interests of such shareholders will not be diluted as a result of their Fund's Reorganization. Similarly, the Acquiring Fund Board has determined that each Reorganization is in the best

interests of common shareholders of the Acquiring Fund and that the interests of such shareholders will not be diluted as a result of any Reorganization. It is not anticipated that any of the Reorganizations will directly benefit preferred shareholders of any of the Funds; however, the Reorganizations will not adversely affect preferred shareholders of any of the Funds, and the expenses of the Reorganizations will not be borne by preferred shareholders of any of the Funds. As a result of the Reorganizations, however, a shareholder of a Fund will hold a reduced percentage of ownership in the larger combined fund than he or she did in any of the separate Funds.

Each of the Reorganizations is intended to qualify as a "reorganization" within the meaning of Section 368(a)(1) of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"). If the Reorganizations so qualify, in general, shareholders of the Target Funds will recognize no gain or loss upon the receipt of shares of the Acquiring Fund in connection with the Reorganizations. Additionally, the Target Funds will recognize no gain or loss as a result of the transfer of all of their assets and liabilities in exchange for shares of the Acquiring Fund or as a result of their dissolution. Neither the Acquiring Fund nor its shareholders will recognize any gain or loss in connection with the Reorganizations.

The Target Fund Board requests that shareholders of each Target Fund approve

their Fund's proposed Reorganization at the Special Meeting to be held on September 23, 2005. Shareholder approval of each Reorganization requires the affirmative vote of shareholders of the respective Target Fund representing more than 50% of the outstanding common shares and preferred shares of such Target Fund, entitled to vote, each voting separately as a class. Subject to the requisite approval of the shareholders of each Fund with regard to each Reorganization, it is expected that the closing date of the transaction (the "Closing Date") will be after the close of business on or about October 7, 2005, but it may be at a different time as described herein.

The Target Fund Board recommends that you vote "FOR" your Target Fund's proposed Reorganization.

PROPOSAL 2: ISSUANCE OF ADDITIONAL ACQUIRING FUND COMMON SHARES

In connection with each proposed Reorganization described under "Proposal 1: Reorganizations of the Target Funds," the Acquiring Fund will issue additional Acquiring Fund Common Shares and list such shares on the NYSE and CHX. The Acquiring Fund will acquire substantially all of the assets and assume substantially all of the liabilities of each Target Fund in exchange for newly-issued Acquiring Fund Common Shares and newly-issued Acquiring Fund APS. The Reorganizations will result in no reduction of the net asset value of the Acquiring Fund Common Shares, other than to reflect the costs of the Reorganizations. No gain or loss will be recognized by the Acquiring Fund or its shareholders in connection with the

15

Reorganization. The Acquiring Fund Board, based upon its evaluation of all relevant information, anticipates that each Reorganization will benefit holders of Acquiring Fund Common Shares. In particular, the Acquiring Fund Board believes, based on data presented by the Adviser, that the Acquiring Fund will experience a reduced annual operating expense ratio as a result of the Reorganizations.

The Acquiring Fund Board requests that common shareholders of the Acquiring Fund approve the issuance of additional Acquiring Fund Common Shares at the Special Meeting to be held on September 23, 2005. Shareholder approval of the issuance of additional Acquiring Fund Common Shares requires the affirmative vote of a majority of the votes cast on the proposal, provided that the total votes cast on the proposal represents more than 50% in interest of all securities entitled to vote on the proposal. Subject to the requisite approval of the shareholders of each Fund with regard to the Reorganizations, it is expected that the Closing Date will be after the close of business on or about October 7, 2005, but it may be at a different time as described herein.

The Acquiring Fund Board recommends that you vote "FOR" the issuance of additional Acquiring Fund Common Shares in connection with the Reorganizations.

16

PROPOSAL 1: REORGANIZATIONS OF THE TARGET FUNDS

The Reorganizations seek to combine four similar Funds to achieve certain

economies of scale and other operational efficiencies. Each Fund is registered as a non-diversified, closed-end management investment company under the 1940 Act. The investment objective of each Fund is to seek to provide a high level of current income exempt from federal and Pennsylvania income taxes and, where possible under local law, local income and personal property taxes, consistent with preservation of capital. Each Fund seeks to achieve its investment objective, under normal market conditions, by investing substantially all of its assets in Pennsylvania municipal securities rated investment grade at the time of investment. Pennsylvania Quality Municipal Trust and the Acquiring Fund may invest up to 20% of their assets in unrated Pennsylvania municipal securities believed, at the time of investment, by the Adviser to have credit characteristics equivalent to, and to be of comparable quality as, Pennsylvania municipal securities that are rated investment grade. The Funds are managed by the same investment advisory personnel.

In each Reorganization, the Acquiring Fund will acquire substantially all of the assets and assume substantially all of the liabilities of the Target Fund in exchange for an equal aggregate value of Acquiring Fund Common Shares and Acquiring Fund APS. The Target Fund will distribute Acquiring Fund Common Shares to common shareholders of the Target Fund and Acquiring Fund APS to preferred shareholders of the Target Fund, and will then terminate its registration under the 1940 Act and dissolve under applicable state law. The aggregate net asset value of Acquiring Fund Common Shares received in the Reorganization will equal the aggregate net asset value of the Target Fund common shares held immediately prior to the Reorganization, less the costs of the Reorganization (though holders of Target Fund common shares may receive cash for their fractional shares). The aggregate liquidation preference of Acquiring Fund APS received in the Reorganization will equal the aggregate liquidation preference of Target Fund preferred shares held immediately prior to the Reorganization. The Acquiring Fund will continue to operate as a registered closed-end investment company with the investment objective and policies described in this Joint Proxy Statement/Prospectus.

The Target Fund Board, based upon its evaluation of all relevant information, anticipates that the common shareholders of each Target Fund will benefit from their Fund's respective Reorganization. In particular, the Target Fund Board believes, based on data presented by the Adviser, that common shareholders of each Target Fund will experience a reduced annual operating expense ratio as a result of their Fund's respective Reorganization. The combined fund resulting from the Reorganizations will have a larger asset base than any of the Funds has currently; certain fixed administrative costs, such as costs of printing shareholder reports and

17

proxy statements, legal expenses, audit fees, mailing costs and other expenses, will be spread across this larger asset base, thereby lowering the expense ratio for common shareholders of the combined fund.

RISK FACTORS AND SPECIAL CONSIDERATIONS

Because each Fund, under normal market conditions, invests substantially all of its assets in municipal securities rated investment grade at the time of investment, any risks inherent in such investments are equally applicable to each Fund and will apply to the combined fund after the Reorganizations. The Reorganizations themselves are not expected to adversely affect the rights of

shareholders of any of the Funds or to create additional risks.

MARKET RISK

Market risk is the possibility that the market values of securities owned by each Fund will decline. The prices of debt securities tend to fall as interest rates rise, and such declines tend to be greater among debt securities with longer maturities. Market risk is often greater among certain types of debt securities, such as zero coupon bonds which do not make regular interest payments but are instead bought at a discount to their face values and paid in full upon maturity. As interest rates change, these securities often fluctuate more in price than securities that make regular interest payments and therefore subject the Funds to greater market risk than a fund that does not own these types of securities. When-issued and delayed delivery transactions are subject to changes in market conditions from the time of the commitment until settlement. This may adversely affect the prices or yields of the securities being purchased. The greater the Funds' outstanding commitments for these securities, the greater the Funds' exposure to market price fluctuations.

INTEREST RATE RISK

Interest rate risk is the risk that prices of municipal securities generally increase when interest rates decline and decrease when interest rates increase. Prices of longer-term securities generally change more in response to interest rate changes than prices of shorter-term securities.

CREDIT RISK

Credit risk refers to an issuer's ability to make timely payments of interest and principal. The degree of credit risk depends on both the financial condition of the issuer and the terms of the obligation. Each Fund invests substantially all of its assets in municipal securities rated investment grade at the time of investment. However, to the extent that a Fund may hold securities rated below investment grade, it may be subject to a higher level of credit risk than a fund that holds solely

investment grade securities. Securities rated BBB by Standard & Poor's ("S&P") or Baa by Moody's Investors Service, Inc. ("Moody's") are in the lowest of the four investment grades and are considered by the rating agencies to be medium-grade obligations which possess speculative characteristics so that changes in economic conditions or other circumstances are more likely to lead to a weakened capacity of the issuer to make principal and interest payments than in the case of higher-rated securities. The credit quality of non-investment grade securities is considered speculative by recognized rating agencies with respect to the issuer's continuing ability to pay interest and principal. Lower-grade securities may have less liquidity and a higher incidence of default than higher-grade securities. A Fund may incur higher expenditures to protect its interests in such securities. The credit risks and market prices of lower-grade securities generally are more sensitive to negative issuer developments, such as reduced revenues or increased expenditures, or adverse economic conditions, such as a recession, than are higher-grade securities. Pennsylvania Quality Municipal Trust and the Acquiring Fund may invest up to 20% of their assets in unrated Pennsylvania municipal securities believed, at the time of investment, by the Adviser to have credit characteristics equivalent to, and to be of comparable quality as, Pennsylvania municipal securities that are

rated investment grade. Pennsylvania Quality Municipal Trust and the Acquiring Fund may therefore be more dependent on the Adviser's investment analysis of unrated Pennsylvania municipal securities than is the case with respect to rated Pennsylvania municipal securities.

INCOME RISK

The income shareholders receive from their Fund is based primarily on interest rates of securities in that Fund's portfolio, which can vary widely over the short- and long-term. If interest rates drop, the income from the Funds may drop as well.

CALL RISK

If interest rates fall, it is possible that issuers of securities with high interest rates will prepay or "call" their securities before their maturity dates. In this event, the proceeds from the called securities would likely be reinvested by the Funds in securities bearing the new, lower interest rates, resulting in a possible decline in the Funds' income and distributions to shareholders.

NON-DIVERSIFICATION RISK

Each Fund is classified as a non-diversified fund, which means each Fund may invest a greater portion of its assets in a more limited number of issuers than a diversified fund. As a result, each Fund may be subject to greater risk than a diversified fund because changes in the financial condition or market assessment of a single issuer may cause greater fluctuations in the value of such Fund's shares.

19

PENNSYLVANIA MUNICIPAL SECURITIES RISK

Since each Fund, under normal market conditions, invests substantially all of its assets in investment grade Pennsylvania municipal securities, each Fund is more exposed to risks affecting issuers of Pennsylvania municipal securities than is a municipal bond fund that invests more widely. Many different social, environmental and economic factors may affect the financial condition of Pennsylvania and its political subdivisions. The yields of Pennsylvania municipal securities may move differently and adversely compared to the yields of overall debt securities markets. Although the interest received from Pennsylvania municipal securities in which the Funds invest generally is exempt from regular federal income tax as well as Pennsylvania personal income taxes, and where possible under local law, local income and personal property taxes, each Fund may invest an unlimited portion of its assets in Pennsylvania municipal securities that pay interest that is subject to the federal alternative minimum tax. In addition, there could be changes in applicable tax laws or tax treatments that reduce or eliminate the current federal income tax exemption generally applicable to interest received on municipal securities or otherwise adversely affect the current federal or state tax status of Pennsylvania municipal securities.

RISKS OF USING STRATEGIC TRANSACTIONS

Each Fund may engage in certain transactions ("Strategic Transactions")

designed to, among other things, reduce its exposure to interest rate movements. For example, each Fund may purchase and sell exchange-listed and over-the-counter put and call options on securities, financial futures and other financial instruments, purchase and sell financial futures contracts and enter into various interest rate transactions such as swaps, caps, floors or collars. If a Fund incorrectly forecasts market values, interest rates or other factors, that Fund's performance could suffer as a result of its Strategic Transactions. Each Fund also may suffer a loss if the other party to the Strategic Transaction fails to meet its obligations. The Funds are not required to use Strategic Transactions and may choose not to do so.

MANAGER RISK

As with any managed fund, the investment adviser to each Fund may not be successful in selecting the best-performing securities or investment techniques, and a Fund's performance may lag behind that of similar funds.

MARKET DISCOUNT RISK

Whether investors will realize gains or losses upon the sale of shares of a Fund will depend upon the market price of the shares at the time of original purchase and subsequent sale, which may be less or more than such Fund's net asset value per share. Since the market price of the shares will be affected by such factors as the

20

relative demand for and supply of the shares in the market, general market and economic conditions and other factors beyond the control of the Funds, the Funds cannot predict whether shares of the Funds will trade at, below or above net asset value. Shares of closed-end funds often trade at a discount to their net asset values, and the Funds' shares may trade at such a discount.

In order to reduce or eliminate a market value discount from net asset value, the Board of Trustees of a Fund may, subject to the terms of its preferred shares, authorize such Fund from time to time to repurchase its common shares in the open market or to tender for its common shares at net asset value. The Board of Trustees of a Fund, in consultation with the Adviser, reviews on a quarterly basis the possibility of open-market repurchases and/or tender offers for such Fund's common shares. Subject to its borrowing restrictions, a Fund may incur debt to finance such repurchases, which entails risks. The ability of a Fund to enter into tender offers and the common share repurchases may be limited by the 1940 Act asset coverage requirements and any additional asset coverage requirements which may be imposed by a rating agency in connection with any rating of the preferred shares. No assurance can be given that the Board of Trustees of a Fund will, in fact, authorize such Fund to undertake such repurchases and/or tender offers or that, if undertaken, such actions would result in such Fund's common shares trading at a price which is equal or close to net asset value.

LEVERAGE RISK

Use of leverage, through the issuance of preferred shares, involves certain risks to holders of common shares of the Funds. For example, each Fund's issuance of preferred shares may result in higher volatility of the net asset value of its common shares and potentially more volatility in the market value of its common shares. In addition, changes in the short-term and medium-term dividend rates on, and the amount of taxable income allocable to, the preferred shares of a Fund will affect the yield to holders of common shares of such Fund. In certain circumstances, when a Fund is required to allocate taxable income to holders of its preferred shares, such Fund may be required to make an additional distribution to such holders in an amount approximately equal to the tax

liability resulting from the allocation (an "Additional Dividend"). Leverage will allow holders of each Fund's common shares to realize a higher current rate of return than if a Fund were not leveraged as long as such Fund, while accounting for its costs and operating expenses, is able to realize a higher net return on its investment portfolio than the then-current dividend rate (and any Additional Dividend) paid on its preferred shares. Similarly, since a pro rata portion of each Fund's net realized capital gains is generally payable to holders of a Fund's common shares, the use of leverage will increase the amount of such gains distributed to holders of a Fund's common shares. However, short-term, medium-term and long-term interest rates change from time to time as do their relationships to each other (i.e., the slope of the yield curve) depending upon such

21

factors as supply and demand forces, monetary and tax policies and investor expectations. Changes in any or all of such factors could cause the relationship between short-term, medium-term and long-term rates to change (i.e., to flatten or to invert the slope of the yield curve) so that short-term and medium-term rates may substantially increase relative to the long-term obligations in which each Fund may be invested. To the extent that the current dividend rate (and any Additional Dividend) on a Fund's preferred shares approaches the net return on such Fund's investment portfolio, the benefit of leverage to holders of common shares of such Fund will be decreased. If the current dividend rate (and any Additional Dividend) on the preferred shares were to exceed the net return on a Fund's portfolio, holders of common shares of such Fund would receive a lower rate of return than if the Fund were not leveraged. Similarly, since both the costs of issuing preferred shares and any decline in the value of a Fund's investments (including investments purchased with the proceeds from any preferred shares offering) will be borne entirely by holders of such Fund's common shares, the effect of leverage in a declining market would result in a greater decrease in net asset value to holders of common shares than if a Fund were not leveraged. If a Fund is liquidated, holders of that Fund's preferred shares will be entitled to receive liquidating distributions before any distribution is made to holders of common shares of such Fund.

In an extreme case, a decline in net asset value could affect a Fund's ability to pay dividends on its common shares. Failure to make such dividend payments could adversely affect a Fund's qualification as a regulated investment company under the federal tax laws. However, each Fund intends to take all measures necessary to make required common share dividend payments. If a Fund's current investment income is ever insufficient to meet dividend payments on either its common shares or its preferred shares, such Fund may have to liquidate certain of its investments. In addition, each Fund has the authority to redeem its preferred shares for any reason and may be required to redeem all or part of its preferred shares in the following circumstances:

- if the asset coverage for the preferred shares declines below 200%, either as a result of a decline in the value of a Fund's portfolio investments or as a result of the repurchase of common shares in tender offers or otherwise, or
- in order to maintain the asset coverage guidelines established by Moody's and S&P in rating the preferred shares.

Redemption of the preferred shares or insufficient investment income to make dividend payments may reduce the net asset value of a Fund's common shares and require a Fund to liquidate a portion of its investments at a time when it may be disadvantageous to do so.

22

ANTI-TAKEOVER PROVISIONS

The Declaration of Trust of each Fund (in each case, the "Declaration of Trust") includes provisions that could limit the ability of other entities or persons to acquire control of that Fund or to change the composition of its Board of Trustees. Such provisions could limit the ability of common shareholders to sell their common shares at a premium over prevailing market prices by discouraging a third party from seeking to obtain control of either Fund.

SPECIAL RISKS RELATED TO PREFERRED SHARES

AUCTION RISK. The dividend rate for the preferred shares of each Fund, including the Acquiring Fund, normally is set through an auction process. These preferred shares are referred to as "auction preferred shares." In the auction, preferred shareholders may indicate the dividend rate at which they would be willing to hold or sell their auction preferred shares or purchase additional shares. An auction fails if there are more auction preferred shares offered for sale than there are buyers, in which case preferred shareholders may not be able to sell their shares. Also, if preferred shareholders place bids to retain shares at an auction only at a specified dividend rate and that rate exceeds the rate set at the auction, they will not retain their shares. Additionally, if preferred shareholders buy auction preferred shares or elect to retain shares without specifying a dividend rate below which they would not wish to buy or continue to hold those shares, they could receive a lower rate of return on their auction preferred shares than the market rate. Finally, the dividend period for the auction preferred shares may be changed by the Funds, subject to certain conditions, including notice to preferred shareholders, which could also affect the liquidity of an investment in those shares.

SECONDARY MARKET RISK. Broker-dealers may maintain a secondary trading market in the preferred shares outside of auctions; however, they are not obligated to do so and there can be no assurance that such a secondary market will develop or, if it does develop, that it will provide preferred shareholders with a liquid trading market. It may not be possible to sell preferred shares between auctions, or it may only be possible to sell them for a price less than their liquidation preference plus any accumulated dividends. An increase in the level of interest rates likely will have an adverse effect on the secondary market price of the preferred shares. Auction preferred shares may only be transferred outside of auctions to or through broker-dealers or other persons as the Funds permit.

RATINGS AND ASSET COVERAGE RISKS. Although the preferred shares of each Fund have been rated "Aaa" by Moody's and "AAA" by S&P, such ratings do not eliminate or necessarily mitigate the risks of investing in preferred shares. Moody's or S&P could downgrade its rating of the preferred shares or withdraw its rating at any time, which may make the preferred shares less liquid at an auction or in the secondary market. If a Fund fails to satisfy its asset coverage ratios, it will be

required to redeem a sufficient number of preferred shares in order to return to compliance with the asset coverage ratios. A Fund may voluntarily redeem preferred shares under certain circumstances in order to meet asset coverage tests.

COMPARISON OF THE FUNDS

INVESTMENT OBJECTIVE AND POLICIES

The Funds pursue the same investment objective and have similar investment policies. Each Fund's investment objective is to seek to provide common shareholders with a high level of current income exempt from federal and Pennsylvania income taxes and, where possible under local law, local income and personal property taxes, consistent with preservation of capital. Under normal market conditions, each Fund invests at least 80% of its assets in Pennsylvania municipal securities.

Under normal market conditions, each Fund invests substantially all of its assets in Pennsylvania municipal securities rated investment grade at the time of investment. Investment grade rated securities are rated BBB or higher by S&P or Baa or higher by Moody's (or comparably rated by any other nationally recognized statistical rating organization) in the case of long-term obligations, and have equivalent ratings in the case of short-term obligations. Securities rated BBB by S&P are regarded by S&P as having an adequate capacity to pay interest and repay principal. Securities rated Baa by Moody's are considered by Moody's as medium-grade obligations which lack outstanding investment characteristics and in fact have speculative characteristics as well.

Pennsylvania Quality Municipal Trust and the Acquiring Fund may invest up to 20% of their assets in unrated Pennsylvania municipal securities believed, at the time of investment, by the Adviser to have credit characteristics equivalent to, and to be of comparable quality as, Pennsylvania municipal securities that are rated investment grade.

The foregoing policies with respect to credit quality of portfolio investments apply only at the time of purchase of a security, and the Funds are not required to dispose of a security in the event that S&P or Moody's (or any other nationally recognized statistical rating organization) downgrades its assessment of the credit characteristics of a particular issuer or, in the case of unrated securities in which Pennsylvania Quality Municipal Trust and the Acquiring Fund may invest, in the event the Adviser reassesses its view with respect to the credit quality of the issuer thereof. In determining whether a Fund will retain or sell such a security, the Adviser may consider such factors as the Adviser's assessment of the credit quality of the issuer of such security, the price at which such security could be sold and the rating, if

24

any, assigned to such security by other nationally recognized statistical rating organizations.

Each Fund may invest an unlimited portion of its assets in Pennsylvania municipal securities that pay interest that is subject to the alternative minimum tax provisions of federal tax law. A substantial portion of the income produced by each Fund may be taxable under the alternative minimum tax. The Funds may not be suitable investments for investors who are already subject to the federal alternative minimum tax or who would become subject to the federal alternative minimum tax as a result of an investment in the Funds.

Each Fund may engage in certain Strategic Transactions. Such transactions are not treated as investments in municipal securities for the purpose of each Fund's policy of investing 80% of its total assets in Pennsylvania municipal securities.

PENNSYLVANIA MUNICIPAL SECURITIES. Municipal securities are obligations issued by or on behalf of states, certain territories and possessions of the United States and the District of Columbia and their political subdivisions, agencies and instrumentalities, the interest on which is, in the opinion of bond counsel or other counsel to the issuer of such securities, at the time of issuance, not includable in gross income for regular federal income tax purposes. Pennsylvania municipal securities are municipal securities, the interest on which is, in the opinion of bond counsel or other counsel to the issuer of such securities, at the time of issuance, exempt from Pennsylvania personal income taxes. Under normal market conditions, at least 80% of each Fund's net assets are invested in Pennsylvania municipal securities.

The two principal classifications of municipal securities are "general obligation" securities and "revenue" securities. "General obligation" securities are secured by the issuer's pledge of its faith, credit and taxing power for the payment of principal and interest. "Revenue" securities are usually payable only from the revenues derived from a particular facility or class of facilities or, in some cases, from the proceeds of a special excise tax or other specific revenue source. Industrial development bonds are usually revenue securities, the credit quality of which is normally directly related to the credit standing of the industrial user involved.

Within these principal classifications of municipal securities, there are a variety of categories of municipal securities, including fixed and variable rate securities, municipal bonds, municipal notes, municipal leases, custodial receipts, participation certificates and municipal securities the terms of which include elements of, or are similar in effect to, certain Strategic Transactions in which the Funds may engage. Variable rate securities bear rates of interest that are adjusted periodically according to formulae intended to reflect market rates of interest and include securities whose rates vary inversely with changes in market rates of interest. Municipal notes include tax, revenue and bond anticipation notes of short maturity, generally less than three years, which are issued to obtain temporary funds for various public

25

purposes. Municipal leases are obligations issued by state and local governments or authorities to finance the acquisition of equipment and facilities. Certain municipal lease obligations may include "nonappropriation" clauses which provide that the municipality has no obligation to make lease or installment purchase payments in future years unless money is appropriated for such purpose on a yearly basis. Advantage Pennsylvania Municipal Income Trust and Trust for Investment Grade Pennsylvania Municipals will invest in lease obligations which contain non-appropriation clauses only if such obligations are rated investment grade at the time of investment, and Pennsylvania Quality Municipal Trust and the Acquiring Fund may invest in investment grade non-appropriation lease obligations and in unrated non-appropriation lease obligations believed, at the time of investment, by the Adviser to have credit characteristics equivalent to, and to be comparable quality as, securities rated investment grade. Custodial receipts are underwritten by securities dealers or banks and evidence ownership of future interest payments, principal payments or both on certain municipal securities. Participation certificates are obligations issued by state and local governments or authorities to finance the acquisition of equipment and facilities. They may represent participations in a lease, an installment purchase contract, or a conditional sales contract. Municipal securities may not be backed by the faith, credit and taxing power of the issuer.

The Funds do not generally invest 25% or more of their respective total assets in any one industry. Governmental issuers of Pennsylvania municipal securities are not considered part of any "industry" and are accordingly not subject to

this 25% limitation. However, Pennsylvania municipal securities backed only by the assets and revenues of non-governmental users may for this purpose be deemed to be issued by such non-governmental users, and the 25% limitation would apply to such obligations. It is nonetheless possible that a Fund may invest 25% or more of its total assets in a broader segment of the Pennsylvania municipal securities market (if such Fund is a Target Fund) or in one or more broad segments or sectors of the Pennsylvania municipal securities market (if such Fund is the Acquiring Fund), such as revenue obligations of hospitals and other health care facilities, housing agency revenue obligations, transportation revenue obligations or education related revenue obligations, if the Adviser determines that the yields available from obligations in one or more particular segments or sectors of the market justify the additional risks associated with a large investment in such segments or sectors.

Each Fund may invest up to 15% of its net assets in "inverse floating rate obligations." Floating rate obligations bear rates of interest that are adjusted periodically to reflect changes in market rates of interest. Inverse floating rate obligations have rates that vary inversely with changes in market rates of interest. These securities have varying degrees of liquidity and the market value of such securities generally will fluctuate in response to changes in market rates of interest to a greater extent than the value of an equal principal amount of a fixed rate security having similar credit quality, redemption provisions and maturity. These

26

securities tend to underperform the market for fixed rate bonds in a rising interest rate environment, but tend to outperform the market for fixed rate bonds when interest rates decline or remain relatively stable.

The amount of available information about the financial condition of Pennsylvania municipal securities issuers may be less extensive than that for corporate issuers with publicly traded securities. Pennsylvania municipal securities in which the Funds may each invest include special obligation bonds, lease obligations, participation certificates, variable rate instruments and Pennsylvania municipal securities the terms of which include elements of, or are similar in effect to, certain Strategic Transactions in which the Funds may engage. Certain of these instruments represent relatively recent innovations in the municipal securities markets. While the markets for such recent innovations progress through stages of development, such markets may be less liquid than more fully developed markets for municipal securities. Liquidity relates to the ability of a Fund to sell a security in a timely manner at a price which reflects the value of that security. Although it is generally the policy of the Funds to hold Pennsylvania municipal securities until their maturity, the relative illiquidity of some of a Fund's portfolio securities may adversely affect the ability of the Fund to dispose of such securities in a timely manner and at a fair price.

TEMPORARY DEFENSIVE STRATEGIES. At times, the Adviser may judge that conditions in the markets for Pennsylvania municipal securities make pursuing a Fund's basic investment strategy inconsistent with the best interests of its shareholders. At such times, the Adviser may use alternative strategies, primarily designed to reduce fluctuations in the value of such Fund's assets. In implementing these "defensive" strategies, a Fund may invest to a substantial degree in other investment grade municipal securities, including liquid, high-quality, short-term municipal securities. If these other municipal securities are not available or, in the Adviser's judgment, do not afford sufficient protection against adverse market conditions, each Fund may invest in investment grade taxable securities. To the extent that a Fund invests in taxable securities for temporary defensive purposes, that Fund will not be invested in a manner primarily designed to achieve its investment objective of

seeking to provide common shareholders with a high level of current income exempt from federal and Pennsylvania income taxes and, where possible under local law, local income and personal property taxes, consistent with preservation of capital. Additionally, each of Pennsylvania Quality Municipal Trust and Trust for Investment Grade Pennsylvania Municipals may generally invest up to 20% of its total assets in taxable obligations if such investment is determined by the Adviser to be in the best interest of such Fund, provided, however, that such Fund will not invest in taxable obligations rated below BBB by S&P or below Baa by Moody's, or if such Fund is Pennsylvania Quality Municipal Trust, in taxable obligations regarded as comparable in quality to such rated securities by the Adviser.

27

OTHER INVESTMENT PRACTICES AND POLICIES

In connection with the investment objective and policies described above, each Fund may, but is not required to, utilize various other investment strategies as described below to earn income, to facilitate portfolio management and to mitigate risk. Such strategies are generally accepted by modern portfolio managers and are regularly utilized by many investment companies and other institutional investors. These investment practices entail risks. Although the Adviser believes that these investment practices may further the Funds' respective investment objectives, no assurance can be given that these investment practices will achieve this result.

STRATEGIC TRANSACTIONS. Each Fund may engage in certain Strategic Transactions to attempt to protect against possible changes in the market value of securities held in or to be purchased for its portfolio resulting from securities markets fluctuations, to protect unrealized gains in the value of its portfolio securities, to facilitate the sale of such securities for investment purposes, to manage the effective maturity or duration of its portfolio, or to establish a position in the derivatives markets as a temporary substitute for purchasing or selling particular securities. Any or all of these investment techniques may be used at any time and there is no particular strategy that dictates the use of one technique rather than another, as use of any Strategic Transaction is a function of numerous variables, including market conditions. The ability of a Fund to utilize these Strategic Transactions successfully depends on the Adviser's ability to predict pertinent market movements, which cannot be assured. Each Fund complies with applicable regulatory requirements when implementing these strategies, techniques and instruments.

Pennsylvania Quality Municipal Trust and Trust for Investment Grade Pennsylvania Municipals each have certain limits on their use of Strategic Transactions as follows: In general, each such Fund may purchase and sell (write) options on up to 20% of its assets. Each such Fund will only engage in over-the-counter options ("OTC options") transactions with respect to U.S. government securities with primary dealers that have been specifically approved by the Board of Trustees of such Fund. Such Funds will engage in OTC options transactions with respect to municipal securities only with dealers that have been specifically approved by the Board of Trustees. Neither such Fund will engage in interest rate hedging transactions for speculative purposes, but only as a means to hedge risks associated with management of the respective Fund's portfolio. Similarly, neither such Fund will engage in transactions in financial futures contracts or options thereon for speculation, but only to attempt to hedge against changes in market conditions affecting the values of securities which such Fund holds or intends to purchase. When futures contracts or options thereon are purchased to protect against a price increase on securities intended to be purchased later, it is anticipated that at least 75% of such intended purchases will be completed. When other futures contracts or options thereon are purchased, the underlying value of such contracts will at all times not

exceed the sum of: (1) accrued profit on such contracts held by the broker, (2) cash or high quality money market instruments set aside in an identifiable manner, and (3) cash proceeds from investments due in 30 days. Such Funds will not sell interest rate caps or floors that the applicable Fund does not own. Such Funds will not enter into swaps, caps or floors if, on a net basis, the aggregate notional principal amount with respect to such agreements exceeds the net assets of the applicable Fund.

The Acquiring Fund and Advantage Pennsylvania Municipal Income Trust each have certain limits on their use of Strategic Transactions as follows: Strategic Transactions involving financial futures and options thereon will be purchased, sold or entered into by such Funds only for bona fide hedging, risk management or portfolio management purposes and not for speculative purposes. Such Funds may use Strategic Transactions, other than Strategic Transactions involving financial futures and options thereon, to enhance potential gain although no more than 5% of such Fund's assets will be committed to such Strategic Transactions for non-hedging purposes. Such Funds will only enter into over-the-counter options ("OTC options") that have a buy-back provision permitting the Fund to require the counterparty to buy back the option at a formula price within seven days. Such Funds will engage in OTC option transactions only with U.S. government securities dealers recognized by the Federal Reserve Bank in New York as "primary dealers", broker dealers, domestic or foreign banks or other financial institutions which have received a short-term credit rating of A-1 from S&P or P-1 from Moody's or any equivalent rating from any other nationally recognized statistical rating organization ("NRSRO"). All calls sold by such Funds must be "covered" or meet asset segregation requirements as long as the call is outstanding (i.e., such Funds must own the securities or futures contract subject to the call). Such Funds will not sell put options if, as a result, more than 50% of such Fund's assets would be required to be segregated to cover its potential obligations under its hedging, duration management, risk management, and other Strategic Transactions other than those with respect to futures and options thereon. Each of such Funds intends to use interest rate and index swaps and the purchase or sale of related caps, floors and collars as hedges and not as speculative investments and will not sell interest rate caps or floors where it does not own securities or other instruments providing the income stream that such Fund may be obligated to pay. Such Funds will not enter into any swap, cap, floor or collar transaction unless, at the time of entering into such transaction, the unsecured long-term debt of the counterparty, combined with any credit enhancements, is rated at least A by S&P or Moody's or has an equivalent rating from an NRSRO or is determined to be of equivalent credit quality by the Adviser.

Strategic Transactions have risks associated with them, including possible default by the other party to the transaction, liquidity and, to the extent the Adviser's view as to certain market movements is incorrect, the risk that the use of such Strategic

Transactions could result in losses greater than if they had not been used. Use of put and call options may result in losses to a Fund, force the sale of portfolio securities at inopportune times or for prices other than at current market values, limit the amount of appreciation a Fund can realize on its investments or cause a Fund to hold a security it might otherwise sell. The use

of options and futures transactions entails certain other risks. In particular, the variable degree of correlation between price movements of futures contracts and price movements in the related portfolio position of a Fund creates the possibility that losses on the hedging instrument may be greater than gains in the value of the Fund's position. In addition, futures and options markets may not be liquid in all circumstances and certain over-the-counter options may have no markets. As a result, in certain markets, a Fund might not be able to close out a transaction without incurring substantial losses, if at all. Although the contemplated use of these futures contracts and options thereon should tend to minimize the risk of loss due to a decline in the value of the hedged position, at the same time they tend to limit any potential gain which might result from an increase in value of such position. Finally, the daily variation margin requirements for futures contracts and the sale of options thereon would create, a greater ongoing potential financial risk than would purchases of options, where the exposure is limited to the cost of the initial premium.

Losses resulting from the use of Strategic Transactions would reduce net asset value, and possibly income, and such losses can be greater than if the Strategic Transactions had not been utilized. Income earned or gains realized or deemed to be earned or realized, if any, by a Fund from engaging in Strategic Transactions generally will be taxable income of the Fund. Such income is allocated among the common shares and the preferred shares of a Fund on a pro rata basis.

"WHEN-ISSUED" AND "DELAYED DELIVERY" TRANSACTIONS. Each Fund may also purchase and sell municipal securities on a "when-issued" and "delayed delivery" basis. No income accrues to a Fund on municipal securities in connection with such transactions prior to the date such Fund actually takes delivery of such securities. These transactions are subject to market fluctuation; the value of the municipal securities at delivery may be more or less than their purchase price, and yields generally available on municipal securities when delivery occurs may be higher than yields on the municipal securities obtained pursuant to such transactions. Because a Fund engaging in such transactions relies on the buyer or seller, as the case may be, to consummate the transaction, failure by the other party to complete the transaction may result in such Fund missing the opportunity of obtaining a price or yield considered to be advantageous. When a Fund is the buyer in such a transaction, however, it will maintain, in a segregated account with its custodian, cash or liquid portfolio securities having an aggregate value equal to the amount of such purchase commitments until payment is made. A Fund will make commitments to purchase municipal securities on such basis only with the intention of actually acquiring these securities, but a Fund may sell such securities prior to the settlement date if such

30

sale is considered to be advisable. To the extent a Fund engages in "when-issued" and "delayed delivery" transactions, it will do so for the purpose of acquiring securities for a Fund's portfolio consistent with a Fund's investment objective and policies and not for the purpose of investment leverage. No specific limitation exists as to the percentage of a Fund's assets which may be used to acquire securities on a "when-issued" or "delayed delivery" basis.

INVESTMENT RESTRICTIONS

Each Fund's investment objective, each Fund's investment policy with respect to investing at least 80% of its assets in Pennsylvania municipal securities and the following investment restrictions are fundamental and cannot be changed without the approval of the holders of a majority of the Fund's outstanding voting securities (defined in the 1940 Act as the lesser of (i) more than 50% of the Fund's outstanding common shares and of its outstanding preferred shares,

voting by class, or (ii) 67% of such outstanding common shares and preferred shares, voting by class, present at a meeting at which the holders of more than 50% of the outstanding shares of each such class are present in person or by proxy). All other investment policies or practices are considered by the Funds not to be fundamental and accordingly may be changed without shareholder approval. If a percentage restriction on investment or use of assets set forth below is adhered to at the time a transaction is effected, later changes in percentage resulting from changing market values will not be considered a deviation from policy. With respect to the limitations on borrowings, the percentage limitations apply at the time of purchase and on an ongoing basis.

The Funds may not:

1. Invest more than 25% of their total assets in a single industry; however, as described above, the Funds may from time to time invest more than 25% of their total assets in a particular segment of the municipal securities market (if such Fund is a Target Fund) or in one or more particular segments or sectors of the municipal securities market (if such Fund is the Acquiring Fund).
2. Issue senior securities, as defined in the 1940 Act, other than preferred shares of beneficial interest, except to the extent such issuance might be involved with borrowings described under subparagraph (3) below or with respect to Strategic Transactions (if such Fund is Advantage Pennsylvania Municipal Income Trust or the Acquiring Fund) or with respect to hedging and risk management transactions or the writing of options within limits described in this Proxy Statement/Prospectus (if such Fund is Pennsylvania Quality Municipal Trust or Trust for Investment Grade Pennsylvania Municipals).
3. Borrow money, except for temporary or emergency purposes from banks or for repurchase of its shares, and then only in an amount not exceeding one-third of a Fund's total assets, including the amount borrowed. The Funds will not mortgage, pledge or hypothecate any assets except in connection with a borrowing or, with respect to Advantage Pennsylvania Municipal Income Trust and the Acquiring Fund only, a Strategic Transaction. The Funds will not purchase portfolio securities during any period that such borrowings exceed 5% of the total asset value of a Fund. Notwithstanding this investment restriction, the Funds may enter into "when-issued" and "delayed delivery" transactions.
4. Make loans of money or property to any person, except to the extent the securities in which the Funds may invest are considered to be loans and except that the Funds may lend money or property in connection with maintenance of the value of or a Fund's interest with respect to the municipal securities owned by such Fund (if such Fund is a Target Fund) or a Fund's interest with respect to the securities owned by such Fund (if such Fund is the Acquiring Fund).
5. Buy any securities "on margin." Neither the deposit of initial or variation margin in connection with Strategic Transactions (if such Fund

is Advantage Pennsylvania Municipal Income Trust or the Acquiring Fund) or in connection with hedging and risk management transactions (if such Fund is Pennsylvania Quality Municipal Trust or Trust for Investment Grade Pennsylvania Municipals) nor short-term credits as may be necessary for the clearance of transactions is considered the purchase of a security on margin.

6. Sell any securities "short," write, purchase or sell puts, calls or combinations thereof, or purchase or sell financial futures or options, except in connection with Strategic Transactions (if such Fund is Advantage Pennsylvania Municipal Income Trust or the Acquiring Fund) or except as described in this Proxy Statement/Prospectus (if such Fund is Pennsylvania Quality Municipal Trust or Trust for Investment Grade Pennsylvania Municipals).
7. Act as an underwriter of securities, except to the extent the Funds may be deemed to be underwriters in connection with the sale of securities held in their portfolios.
8. Make investments for the purpose of exercising control or participation in management, except to the extent that exercise by the Funds of their rights under agreements related to municipal securities would be deemed to constitute such control or participation and except that the Funds may purchase securities of other investment companies to the extent permitted by (i) the 1940 Act, as amended from time to time, (ii) the rules and regulations promulgated by the SEC under the 1940 Act, as amended from

32

time to time, or (iii) an exemption or other relief from the provisions of the 1940 Act.

9. Invest in securities issued by other investment companies except as part of a merger, reorganization or other acquisition and except to the extent permitted by (i) the 1940 Act, as amended from time to time, (ii) the rules and regulations promulgated by the SEC under the 1940 Act, as amended from time to time, or (iii) an exemption or other relief from the provisions of the 1940 Act.
10. Invest in equity interests in oil, gas or other mineral exploration or development programs except pursuant to the exercise by the Funds of their rights under agreements relating to municipal securities.
11. Purchase or sell real estate, commodities or commodity contracts, except to the extent the securities the Fund may invest in (if such Fund is the Acquiring Fund) or except to the extent the municipal securities the Funds may invest in (if such Fund is a Target Fund) are considered to be interests in real estate, commodities or commodity contracts or to the extent a Fund exercises its rights under agreements relating to such municipal securities (in which case such Fund may liquidate real estate acquired as a result of a default on a mortgage), and except to the extent that the Strategic Transactions the Funds may engage in (if such Fund is Advantage Pennsylvania Municipal Income Trust or the Acquiring Fund) and except to the extent that financial futures and related options the Funds

may invest in (if such Fund is Pennsylvania Quality Municipal Trust or Trust for Investment Grade Pennsylvania Municipals) are considered to be commodities or commodities contracts.

As a matter of operating policy, each Fund will not invest 25% or more of its assets in a single industry; however, each Fund may from time to time invest 25% or more of its assets in a particular segment of the municipal securities market (if such Fund is a Target Fund) or in one or more particular segments or sectors of the municipal securities market (if such Fund is the Acquiring Fund).

MANAGEMENT OF THE FUNDS

THE BOARDS. The Board of Trustees of each Fund is responsible for the overall supervision of the operations of its respective Fund and performs the various duties imposed on trustees of investment companies by the 1940 Act and under applicable state law.

THE ADVISER. The investment adviser for each Fund is Van Kampen Asset Management. The Adviser is a wholly owned subsidiary of Van Kampen Investments Inc. ("Van Kampen Investments"). Van Kampen Investments is a diversified asset management company that administers more than three million retail investor accounts, has extensive capabilities for managing institutional

33

portfolios and has more than \$103 billion under management or supervision as of July 31, 2005. Van Kampen Investments is an indirect wholly owned subsidiary of Morgan Stanley, a preeminent global financial services firm that maintains leading market positions in each of its three primary businesses: securities, asset management and credit services. Morgan Stanley is a full service securities firm engaged in securities trading and brokerage activities, investment banking, research and analysis, financing and financial advisory services. The principal business address of the Adviser and Van Kampen Investments is 1221 Avenue of the Americas, New York, New York 10020.

Pursuant to separate investment advisory agreements between each Fund and the Adviser, each Fund pays the Adviser a monthly fee at the annual rate of 0.55% of such Fund's average daily net assets, including assets attributable to its preferred shares. Effective November 1, 2004, the investment advisory fee paid by each Fund was reduced from 0.60% to 0.55%. Subsequent to the Reorganizations, the Adviser will continue to receive compensation at the rate of 0.55% of the average daily net assets, including assets attributable to preferred shares, of the combined fund. Because the fees paid to the Adviser are calculated on net assets, including assets attributable to preferred shares, the fees earned by the Adviser will be higher when preferred shares are outstanding.

Under a separate accounting services and legal services agreement, the Adviser (or its affiliate) provides accounting and legal services to each Fund. The Adviser (or its affiliate) allocates the cost of such services to each Fund.

PORTFOLIO MANAGEMENT. Each Fund's portfolio is managed by members of the Adviser's Municipal Fixed Income team. Current members of the team jointly and primarily responsible for the day-to-day management of each Fund's portfolio are Dennis Pietrzak, Executive Director of the Adviser; Robert W. Wimmel, Vice

President of the Adviser; and John R. Reynoldson, Executive Director of the Adviser.

Mr. Pietrzak has worked for the Adviser since 1995 and began managing the Funds in 1995. Mr. Wimmel has worked for the Adviser since 1996 and began managing the Funds in 2002. Mr. Reynoldson has worked for the Adviser since 1987 and began managing the Funds in 2002. Prior to 2002, Messrs. Wimmel and Reynoldson worked in an investment management capacity for the Adviser.

Mr. Pietrzak is the lead portfolio manager of each Fund. Messrs. Wimmel and Reynoldson are co-portfolio managers of each Fund. All team members are responsible for the execution of the overall strategy of each Fund.

The Reorganization Statement of Additional Information provides additional information about the portfolio managers' compensation, other accounts managed by the portfolio managers and the portfolio managers' ownership of securities in the Funds.

34

PORTFOLIO TRANSACTIONS WITH AFFILIATES. The Adviser may place portfolio transactions, to the extent permitted by law, with brokerage firms affiliated with the Funds and the Adviser, if it reasonably believes that the quality of execution and the commission are comparable to that available from other qualified firms.

LEGAL PROCEEDINGS INVOLVING THE ADVISER. The Adviser, certain affiliates of the Adviser, and certain investment companies advised by the Adviser or its affiliates were named as defendants in a number of similar class action complaints which were consolidated. The amended complaint also names as defendants certain individual trustees and directors of certain investment companies advised by affiliates of the Adviser; the complaint does not, however, name the individual trustees of any Van Kampen funds. The complaint generally alleges that defendants violated their statutory disclosure obligations and fiduciary duties by failing properly to disclose (i) that the Adviser and certain affiliates of the Adviser allegedly offered economic incentives to brokers and others to steer investors to the funds advised by the Adviser or its affiliates rather than funds managed by other companies, and (ii) that the funds advised by the Adviser or its affiliates allegedly paid excessive commissions to brokers in return for their alleged efforts to steer investors to these funds. The complaint seeks, among other things, unspecified compensatory damages, rescissionary damages, fees and costs. The defendants' motion to dismiss this action is pending. After defendants moved to dismiss, the plaintiffs filed a motion for leave to amend the complaint, which is also pending. The proposed amendment drops all claims against the named investment companies, which are listed only as nominal defendants. The proposed amendment raises similar claims against the Adviser and its affiliates with respect to the investment companies advised by the Adviser or its affiliates, and, in addition, alleges that affiliates of the Adviser received undisclosed compensation for steering investors into thirteen non-affiliated fund families. The defendants intend to continue to defend this action vigorously. While the defendants believe that they have meritorious defenses, the ultimate outcome of this matter is not presently determinable at this early stage of litigation.

The Adviser and certain affiliates of the Adviser are also named as defendants

in a derivative suit which additionally names as defendants individual trustees of certain Van Kampen funds; the named investment companies are listed as nominal defendants. The complaint alleges that defendants caused the Van Kampen funds to pay economic incentives to a proprietary sales force to promote the sale of Van Kampen funds. The complaint also alleges that the Van Kampen funds paid excessive commissions to Morgan Stanley and its affiliates in connection with the sales of the funds. The complaint seeks, among other things, the removal of the current trustees of the funds, rescission of the management contracts for the funds, disgorgement of profits by Morgan Stanley and its affiliates and monetary damages. This complaint has been coordinated with the action described in the preceding paragraph. The defendants have moved to dismiss this action and otherwise intend to defend it vigorously. This action is currently stayed until the later of (i) a ruling on the motion

35

to dismiss the action described in the preceding paragraph or (ii) a ruling on a motion to dismiss the action described in the next paragraph. While the defendants believe that they have meritorious defenses, the ultimate outcome of this matter is not presently determinable at this early stage of litigation.

The plaintiff in the action described in the preceding paragraph filed a separate derivative action against the Adviser, certain affiliates of the Adviser, the individual trustees of certain Van Kampen funds, and certain unaffiliated entities. The named investment companies are listed as nominal defendants. The complaint alleges that certain unaffiliated entities engaged in or facilitated market timing and late trading in the Van Kampen funds, and that the Adviser, certain affiliates of the Adviser, and the trustees failed to prevent and/or detect such market timing and late trading. The complaint seeks, among other things, the removal of the current trustees of the funds, rescission of the management contracts and distribution plans for the funds, disgorgement of fees and profits from the Adviser and its affiliates, and monetary damages. The defendants' motion to dismiss this action is pending. While the defendants believe that they have meritorious defenses, the ultimate outcome of this matter is not presently determinable at this early stage of litigation.

The Adviser and one of the investment companies advised by the Adviser were named as defendants in a class action complaint generally alleging that the defendants breached their duties of care to long-term shareholders of the investment company by valuing portfolio securities at the closing prices of the foreign exchanges on which they trade without accounting for significant market information that became available after the close of the foreign exchanges but before calculation of net asset value. As a result, the complaint alleged, short-term traders were able to exploit stale pricing information to capture arbitrage profits that diluted the value of shares held by long-term investors. The complaint sought unspecified compensatory damages, punitive damages, fees and costs. The case was recently dismissed with prejudice but remains subject to appeals.

The Adviser, an affiliate of the Adviser and the individual trustees of certain Van Kampen funds are named as defendants in a recently filed class action complaint that alleges the defendants breached various fiduciary and statutory duties to investors by failing to ensure that the funds participated in securities class action settlements involving securities held in the funds' portfolios. The complaint seeks, among other things, compensatory and punitive damages. None of the funds are named as defendants, and no claims are asserted against them. The court recently granted the Adviser and its affiliate's motion to dismiss the complaint, subject to plaintiffs' right to amend. The trustees' motion to dismiss is pending.

The Adviser, one of the investment companies advised by the Adviser, and certain officers and directors of the investment company are defendants in a class action filed in 2001 alleging that the defendants issued a series of prospectuses and registration statements that were materially false and misleading. Among other

36

things, the complaint alleges that the prospectuses and registration statements contained misleading descriptions of the method defendants used to value senior loan interests in the fund's portfolio, and that defendants materially overstated the net asset value of the fund. The court has preliminarily approved a settlement agreement, subject to a later hearing on the fairness of the settlement agreement.

OTHER SERVICE PROVIDERS

State Street Bank and Trust Company, 225 West Franklin Street, Boston, Massachusetts 02110, is the custodian for each of the Funds. EquiServe Trust Company, N.A., 250 Royall Street, Canton, Massachusetts 02021, is the transfer agent, dividend disbursing agent and registrar for the common shares of each Fund. ADDITIONAL INFORMATION ABOUT COMMON SHARES OF THE FUNDS

GENERAL. Common shareholders of a Fund are entitled to share equally in dividends declared by the Fund's Board of Trustees payable to holders of the common shares and in the net assets of the Fund available for distribution to holders of the common shares after payment of the preferential amounts payable to preferred shareholders. Common shareholders do not have preemptive or conversion rights and a Fund's common shares are not redeemable. The outstanding common shares of each Fund are fully paid and nonassessable (except as described under "Governing Law" below). So long as any preferred shares of a Fund are outstanding, holders of the Fund's common shares will not be entitled to receive any dividends or other distributions from the Fund unless all accumulated dividends on the Fund's outstanding preferred shares have been paid, and unless asset coverage (as defined in the 1940 Act) with respect to such preferred shares would be at least 200% after giving effect to such distributions.

PURCHASE AND SALE. Purchase and sale procedures for the common shares of each of the Funds are identical. Investors typically purchase and sell common shares of

39

the Funds through a registered broker-dealer on the NYSE or CHX, thereby incurring a brokerage commission set by the broker-dealer. Alternatively, investors may purchase or sell common shares of the Funds through privately negotiated transactions with existing shareholders.

COMMON SHARE PRICE DATA. The following table sets forth the high and low sales prices for common shares of each Fund on the NYSE, for each full quarterly period within each Fund's two most recent fiscal years and for each full fiscal quarter of the current fiscal year, along with the net asset value and discount or premium to net asset value for each quotation.

As of July 29, 2005, (i) the net asset value per share for common shares of Advantage Pennsylvania Municipal Income Trust was \$16.88 and the market price per share was \$15.10, representing a discount to net asset value of 10.55%, (ii) the net asset value per share for common shares of Pennsylvania Quality Municipal Trust was \$16.80 and the market price per share was \$15.11, representing a discount to net asset value of 10.06%, (iii) the net asset value per share for common shares of Trust for Investment Grade Pennsylvania Municipals was \$16.89 and the market price per share was \$15.43, representing a discount to net asset value of 8.64%, and (iv) the net asset value per share for Acquiring Fund Common Shares was \$16.23 and the market price per share was \$15.09, representing a discount to net asset value of 7.02%.

41

Common shares of each of the Acquiring Fund, Advantage Pennsylvania Municipal Income Trust and Trust for Investment Grade Pennsylvania Municipals have historically traded primarily at a discount to net asset value. Common shares of Pennsylvania Quality Municipal Trust have traded at both a discount and a premium to net asset value for extended periods since such Fund's inception. In order to reduce or eliminate a market value discount from net asset value, the Board of Trustees of each Fund may, subject to the terms and conditions of its preferred shares, authorize that Fund from time to time to repurchase the common shares in the open market or to tender for the common shares at net asset value. The Board of Trustees of each Fund, in consultation with the Adviser, will review on a quarterly basis the possibility of open market repurchases and/or tender offers for the common shares. Subject to its borrowing restrictions, each Fund may incur debt to finance such repurchases, which entails risks. The ability of a Fund to enter into tender offers and the common share repurchases may be limited by the 1940 Act asset coverage requirements and any additional asset coverage requirements which may be imposed by a rating agency in connection with any rating of the preferred shares. No assurance can be given that the Board of Trustees of any Fund will, in fact, authorize that Fund to undertake such repurchases and/or tender offers or that, if undertaken, such actions would result in the common shares trading at a price which is equal or close to net asset value.

DIVIDENDS AND DISTRIBUTIONS. The Funds' current policies with respect to dividends and distributions relating to their common shares are similar. It is each Fund's present policy, which may be changed by its Board of Trustees, to make monthly distributions to holders of its common shares of substantially all of a Fund's net investment income remaining after the payment of dividends on any outstanding preferred shares. Net income of each Fund consists of all interest income accrued on portfolio assets less all expenses of such Fund. Each Fund, including the Acquiring Fund, is required to allocate net capital gains and other taxable income, if any, received by the Fund among its common shares and preferred shares on a pro rata basis in the year for which such capital gains and other income is realized.

Expenses of each Fund are accrued each day. Net realized capital gains, if any, are expected to be distributed to shareholders at least once a year. While

there are any preferred shares of a Fund outstanding, such Fund may not declare any cash dividend or other distribution on their common shares, unless at the time of such declaration, (1) all accumulated preferred share dividends have been paid and (2) the value of such Fund's total assets (determined after deducting the amount of such dividend or other distribution), less all liabilities and indebtedness of such Fund, is at least 200% (as required by the 1940 Act) of the liquidation value of the outstanding preferred shares (expected to equal the aggregate original purchase price of the outstanding preferred shares plus any accumulated and unpaid dividends thereon, whether or not earned or declared on a cumulative basis). In addition to the requirements of the 1940 Act, each Fund may be required to comply

42

with other asset coverage requirements as a condition of a Fund obtaining a rating of its preferred shares from a nationally recognized rating service. These requirements may include an asset coverage test more stringent than under the 1940 Act. This limitation on a Fund's ability to make distributions on its common shares could in certain circumstances impair the ability of a Fund to maintain its qualification for taxation as a regulated investment company. Each Fund intends, however, to the extent possible, to purchase or redeem preferred shares from time to time to maintain compliance with such asset coverage requirements and may pay special dividends to the holders of the preferred shares in certain circumstances in connection with any such impairment of such Fund's status as a regulated investment company.

For information concerning the manner in which dividends and distributions to holders of a Fund's common shares may be reinvested automatically in such Fund's common shares, see "-- Dividend Reinvestment Plan" below.

DIVIDEND REINVESTMENT PLAN. Each Fund offers a Dividend Reinvestment Plan (each a "Plan," and collectively the "Plans") pursuant to which holders of common shares may elect to have all distributions of dividends and all capital gains automatically reinvested in common shares pursuant to such Plan. Unless common shareholders elect to participate in a Plan, all common shareholders receive distributions of dividends and capital gains in cash. The Plans for the Target Funds and the Acquiring Fund are similar. EquiServe Trust Company, N.A., as plan agent (the "Plan Agent"), serves as agent for the holders of common shares of each Fund in administering the Plans.

After the Reorganizations, a holder of shares of a Fund who currently elects to receive dividends in cash will continue to receive dividends in cash; all holders who currently elect to participate in the Plan of a Fund will have their dividends automatically reinvested in shares of the combined fund. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43011, Providence, Rhode Island 02940-3011. Telephone calls concerning the Plan may be directed to the Plan Agent between the hours of 7:30 a.m. and 5:00 p.m. Central Standard Time at (800) 341-2929.

ADDITIONAL INFORMATION ABOUT PREFERRED SHARES OF THE FUNDS

GENERAL. The preferred shares of each Fund are labeled "auction preferred shares" ("APS"). APS are preferred shares of beneficial interest which entitle their holders to receive dividends when, as and if declared by the Board of Trustees of a Fund, out of funds legally available therefore, at a rate per annum that may vary for the successive dividend periods. The liquidation preference of each Fund's APS is \$25,000 per share. APS are not traded on a stock exchange or over-the-counter. Holders of a Fund's preferred shares do not have preemptive rights to purchase any shares of the same series or any other

preferred shares that might be issued. The net

43

asset value per share of a Fund's preferred shares equals its liquidation preference plus accumulated but unpaid dividends per share.

SERIES. Under the 1940 Act, each Fund is permitted to have outstanding more than one series of preferred shares as long as no single series has priority over another series as to the distribution of assets of the Fund or the payment of dividends. Each Fund currently has only one series of preferred shares outstanding. If the Reorganizations are approved and completed, the combined fund will have four series. The existing series of Acquiring Fund APS will comprise Series A, and the Acquiring Fund will issue Series B APS in exchange for the preferred shares of Advantage Pennsylvania Municipal Income Trust, Series C APS in exchange for the preferred shares of Pennsylvania Quality Municipal Trust and Series D APS in exchange for the preferred shares of Trust for Investment Grade Pennsylvania Municipals. The aggregate liquidation preference of each new series will equal the aggregate liquidation preference of the existing shares that the respective new series replaces. For each series, the number of days in the regular dividend period, the number of shares and the liquidation preference per share will be the same as the existing shares that the respective series replaces.

PURCHASE AND SALE. Each Fund's APS are purchased and sold at separate auctions conducted on a regular basis (every 7 days for the Acquiring Fund's APS and every 28 days for the APS of Advantage Pennsylvania Municipal Income Trust, Pennsylvania Quality Municipal Trust and Trust for Investment Grade Pennsylvania Municipals, unless the applicable Fund elects, subject to certain limitations, to declare a special dividend period) by Deutsche Bank, as the auction agent for each Fund's APS (the "Auction Agent"). Unless otherwise permitted by the Funds, existing and potential holders of each Fund's APS only may participate in auctions through their broker-dealers. Broker-dealers submit the orders of their respective customers who are existing and potential holders of APS to the Auction Agent. On or prior to each auction date for the APS (the business day next preceding the first day of each dividend period), each holder may submit orders to buy, sell or hold APS to its broker-dealer. Outside of these auctions, shares of APS may be purchased or sold through broker-dealers for the APS in a secondary trading market maintained by the broker-dealers. However, there can be no assurance that a secondary market will develop or, if it does develop, that it will provide holders with a liquid trading market.

DIVIDENDS AND DISTRIBUTIONS. The holders of each Fund's preferred shares are entitled to receive, when, as and if declared by the Board of Trustees of the Fund, out of funds legally available therefor, cumulative cash dividends on their shares. Dividends on each Fund's preferred shares so declared and payable shall be paid in preference to and in priority over any dividends so declared and payable on the Fund's common shares.

44

Prior to each dividend payment date, the Funds are required to deposit with the Auction Agent sufficient funds for the payment of such declared dividends. The Funds do not intend to establish any reserves for the payment of dividends, and no interest will be payable in respect of any dividend payment or payment on a Fund's preferred shares which may be in arrears.

Each Fund, including the Acquiring Fund, is required to allocate net capital gains and other taxable income, if any, proportionately among its common shares and preferred shares. The amount of taxable income allocated to the APS depends upon the amount of such income realized by a Fund.

In the case of the Acquiring Fund and Advantage Pennsylvania Municipal Income Trust, in normal circumstances, whenever such Fund intends to include any net capital gains or other taxable income in any dividend on APS, such Fund may notify the Auction Agent of the amount to be so included prior to the auction establishing the applicable rate for such dividend. In the case of Pennsylvania Quality Municipal Trust and Trust for Investment Grade Pennsylvania Municipals, in normal circumstances, whenever such Fund intends to include any net capital gains on other taxable income on APS, such Fund will notify the Auction Agent of the amount to be so included prior to the auction establishing the applicable rate for such dividend. The Auction Agent will in turn notify each broker-dealer who will notify existing and potential holders of the APS. As a result, auction participants may, in response to such information, place bids which take account of the inclusion of net capital gains or other taxable income in the dividend. If the Acquiring Fund retroactively allocates any net capital gains or other taxable income to the APS as a result of (1) the realization of net capital gains on other income taxable for federal income tax purposes; (2) the redemption of all or a portion of the outstanding APS or (3) the liquidation of such Fund, such Fund will pay an Additional Dividend to offset substantially the tax effect thereof. If a Target Fund retroactively allocates any net capital gains or other taxable income to the APS without having given notice to the Auction Agent, in the case of Advantage Pennsylvania Municipal Income Trust or Trust for Investment Grade Pennsylvania Municipals, as a result of (1) the realization of net capital gains or other income taxable for federal income tax purposes; (2) the redemption of all or a portion of the outstanding APS or (3) the liquidation of the Fund in question, or in the case of Pennsylvania Quality Municipal Trust, as a result of the redemption of all or a portion of the outstanding APS or the liquidation of the Fund in question, such Target Fund will pay an Additional Dividend to offset substantially the tax effect thereof.

45

DIVIDEND RATES. The following table provides information about the dividend rates for each Fund's preferred shares as of a recent auction date:

AUCTION DATE -----	FUND ----	RATE ----
July 14, 2005	Advantage Pennsylvania Municipal Income Trust.....	2.37%
July 6, 2005	Pennsylvania Quality Municipal Trust.....	2.33%
July 25, 2005	Trust for Investment Grade Pennsylvania Municipals.....	2.30%
July 27, 2005	Acquiring Fund.....	2.27%

The dividend rates in effect at the closing of the Reorganizations will be the rates determined in the auction most recently preceding such closing.

RATINGS. The Funds' preferred shares have all been assigned a rating of "AAA" from S&P and "Aaa" from Moody's. Each Fund intends that, so long as its

preferred shares are outstanding, the composition of its portfolio will reflect guidelines established by S&P and Moody's in connection with each Fund's receipt of a rating for such shares of at least "AAA" from S&P and "Aaa" from Moody's. S&P and Moody's, which are nationally recognized statistical rating organizations, issue ratings for various securities reflecting the perceived creditworthiness of such securities. The guidelines for rating such preferred shares have been developed by S&P and Moody's in connection with issuances of asset-backed and similar securities, including debt obligations and variable rate preferred stock, generally on a case-by-case basis through discussions with the issuers of these securities. The guidelines are designed to ensure that assets underlying outstanding debt or preferred stock will be varied sufficiently and will be of sufficient quality and amount to justify investment grade ratings. The guidelines do not have the force of law but have been adopted by each Fund in order to satisfy current requirements necessary for S&P and Moody's to issue the above-described ratings for the preferred shares, which ratings generally are relied upon by institutional investors in purchasing such securities. The guidelines provide a set of tests for portfolio composition and asset coverage that supplement (and in some cases are more restrictive than) the applicable requirements under the 1940 Act.

Each Fund may, but is not required to, adopt any modifications to these guidelines that hereafter may be established by S&P or Moody's. Failure to adopt any such modifications, however, may result in a change in the ratings described above or a withdrawal of the ratings altogether. In addition, any rating agency providing a rating for a Fund's preferred shares, at any time, may change or withdraw any such rating. As set forth in the Certificate of Vote of Trustees Establishing Preferred Shares of each Fund (each a "Certificate of Vote"), the Board of Trustees of each Fund, without shareholder approval, may modify certain definitions or restrictions that have been adopted by the Fund pursuant to the rating agency guidelines, provided the Board of Trustees has obtained written confirmation from S&P and Moody's that any such change would not impair the ratings then assigned by S&P and Moody's to the preferred shares. For so long as any of its

46

preferred shares are rated by S&P or Moody's, as the case may be, a Fund's use of options and financial futures contracts and options thereon will be subject to certain limitations mandated by the rating agencies.

REDEMPTIONS. The redemption provisions pertaining to the preferred shares of each Fund are similar. Preferred shares of each Fund are generally redeemable at the option of the Fund at a price equal to their liquidation preference of \$25,000 per share plus accumulated but unpaid dividends (whether or not earned or declared) to the date of redemption plus, in certain circumstances, a redemption premium. Preferred shares of each Fund are also subject to mandatory redemption at a price equal to their liquidation preference plus accumulated but unpaid dividends (whether or not earned or declared) to the date of redemption upon the occurrence of certain specified events, such as the failure of a Fund to maintain asset coverage requirements for its preferred shares specified by Moody's and S&P in connection with their issuance of ratings on the preferred shares.

LIQUIDATION RIGHTS. Upon any liquidation, dissolution or winding up of any of the Funds, whether voluntary or involuntary, the holders of such Fund's preferred shares will be entitled to receive, out of the assets of the Fund available for distribution to shareholders, before any distribution or payment is made upon any of the Fund's common shares or any other capital shares of the Fund ranking junior in right of payment upon liquidation to preferred shares, \$25,000 per share together with the amount of any dividends accumulated but unpaid (whether or not earned or declared) thereon to the date of distribution,

and after such payment the preferred shareholders will be entitled to no other payments except for any Additional Dividends. If such assets of the Fund are insufficient to make the full liquidation payment on the preferred shares and liquidation payments on any other outstanding class or series of preferred shares of the Fund ranking on a parity with the preferred shares as to payment upon liquidation, then such assets will be distributed among the preferred shareholders and the holders of shares of such other class or series ratably in proportion to the respective preferential amounts to which they are entitled. After payment of the full amount of liquidation distribution to which they are entitled, the holders of a Fund's preferred shares will not be entitled to any further participation in any distribution of assets by the Fund except for any Additional Dividends. A consolidation, merger or share exchange of a Fund with or into any other entity or entities or a sale, whether for cash, shares of stock, securities or properties, of all or substantially all or any part of the assets of the Fund shall not be deemed or construed to be a liquidation, dissolution or winding up of the Fund for this purpose.

ADDITIONAL INFORMATION. For additional information on Acquiring Fund APS, Target Fund shareholders should consult the Certificate of Vote governing the Acquiring Fund APS, included as Appendix B to the Reorganization Statement of Additional Information. APS issued in connection with the Reorganizations will be

47

governed by the Certificate of Vote of the Acquiring Fund, which, upon completion of the Reorganizations, will be amended to reflect the creation of new series and the issuance of additional APS. As a result of the Reorganizations, the last dividend periods for the Target Funds' preferred shares prior to the Closing Date and the initial dividend periods for the Acquiring Fund APS issued in connection with the Reorganizations after the Closing Date may be shorter than the regular dividend periods for such shares.

GOVERNING LAW

Each Fund is organized as an unincorporated trust under the laws of The Commonwealth of Pennsylvania. Advantage Pennsylvania Municipal Income Trust was organized on July 8, 1992 and commenced investment operations on September 25, 1992; Pennsylvania Quality Municipal Trust was organized on July 26, 1991 and commenced investment operations on September 27, 1991; Trust for Investment Grade Pennsylvania Municipals was organized on January 21, 1992 and commenced investment operations on April 24, 1992; and the Acquiring Fund was organized on December 21, 1992 and commenced investment operations on April 30, 1993.

Under Pennsylvania law, shareholders of an unincorporated trust may, under certain circumstances, be held personally liable for the obligations of the trust as though they were partners in a partnership. However, the Declaration of Trust of each Fund contains an express disclaimer of shareholder liability in connection with Fund property or the acts, obligations or affairs of the Fund and provides for indemnification and reimbursement of expenses out of the Fund's property for any shareholder held personally liable for the obligations of that Fund. Thus, the risk of a shareholder incurring financial loss on account of shareholder liability is limited to circumstances in which the Fund itself would be unable to meet its obligations. Given the nature of each Fund's assets and operations, the possibility of a Fund being unable to meet its obligations is remote and, in the opinion of counsel to the Funds, the risk to the Funds' respective shareholders is remote.

Each Fund is also subject to federal securities laws, including the 1940 Act and the rules and regulations promulgated by the SEC thereunder, and applicable state securities laws. Each Fund is registered as a non-diversified, closed-end management investment company under the 1940 Act.

CERTAIN PROVISIONS OF THE DECLARATIONS OF TRUST

Each Fund's Declaration of Trust includes provisions that could have the effect of limiting the ability of other entities or persons to acquire control of the Fund or to change the composition of its Board of Trustees, and could have the effect of depriving common shareholders of an opportunity to sell their common shares at a premium over prevailing market prices by discouraging a third party from seeking to

48

obtain control of the Fund. The Board of Trustees of each Fund is divided into three classes, with the term of one class expiring at the annual meeting of shareholders. At each annual meeting, each class whose term is expiring will be elected to a three-year term. This provision could delay for up to two years the replacement of a majority of the Board of Trustees. A trustee may be removed from office only for cause by a written instrument signed by at least two-thirds of the remaining trustees or by a vote of the holders of at least two-thirds of the class of shares of the Fund that elected such trustee and entitled to vote on the matter.

In addition, each Fund's Declaration of Trust requires the favorable vote of the holders of at least 75% of the outstanding shares of each class of the Fund, voting as a class, then entitled to vote to approve, adopt or authorize certain transactions with 5%-or-greater holders of a class of shares and their associates, unless the Board of Trustees shall by resolution have approved a memorandum of understanding with such holders, in which case normal voting requirements would be in effect. For purposes of these provisions, a 5%-or-greater holder of a class of shares (a "Principal Shareholder") refers to any person who, whether directly or indirectly and whether alone or together with its affiliates and associates, beneficially owns 5% or more of the outstanding shares of any class of beneficial interest of the Fund. The transactions subject to these special approval requirements are: (i) the merger or consolidation of the Fund or any subsidiary of the Fund with or into any Principal Shareholder; (ii) the issuance of any securities of the Fund to any Principal Shareholder for cash (except pursuant to the Plan); (iii) the sale, lease or exchange of all or any substantial part of the assets of the Fund to any Principal Shareholder (except assets having an aggregate fair market value of less than \$1,000,000, aggregating for the purpose of such computation all assets sold, leased or exchanged in any series of similar transactions within a twelve-month period); or (iv) the sale, lease or exchange to the Fund or any subsidiary thereof, in exchange for securities of the Fund, of any assets of any Principal Shareholder (except assets having an aggregate fair market value of less than \$1,000,000, aggregating for purposes of such computation all assets sold, leased or exchanged in any series of similar transactions within a twelve-month period).

The Board of Trustees of each Fund has determined that the 75% voting requirements described above, which are greater than the minimum requirements under the 1940 Act, are in the best interest of shareholders of each respective Fund generally. Reference should be made to the Declaration of Trust of each Fund on file with the SEC for the full text of these provisions.

The Declaration of Trust of each Fund further provides that no trustee, officer, employee or agent of the Fund is liable to the Fund or to any shareholder, nor is any trustee, officer, employee or agent liable to any third persons in connection with the affairs of the Fund, except as such liability may arise from his or her own bad faith, willful misfeasance, gross negligence, or reckless disregard of their duties. It also

49

provides that all third persons shall look solely to the Fund property for satisfaction of claims arising in connection with the affairs of the Fund. With the exceptions stated, the Declaration of Trust provides that a trustee or officer is entitled to be indemnified against all liability in connection with the affairs of the Fund.

CONVERSION TO OPEN-END FUNDS

Each Fund may be converted to an open-end investment company at any time by an amendment to its Declaration of Trust. Each Fund's Declaration of Trust provides that such an amendment would require the approval of (a) a majority of the trustees, including the approval by a majority of the disinterested trustees of the Fund, and (b) the lesser of (i) more than 50% of the Fund's outstanding common and preferred shares, each voting as a class or (ii) 67% of the common and preferred shares, each voting as a class, present at a meeting at which holders of more than 50% of the outstanding shares of each such class are present in person or by proxy. If approved in the foregoing manner, conversion of the Fund would require notice to all shareholders within a reasonable period of time. Conversion of a Fund to an open-end investment company would require the redemption of all outstanding preferred shares, which would eliminate the leveraged capital structure of the Fund. In the event of conversion, the common shares would cease to be listed on the NYSE, CHX, NASDAQ National Market System or other national securities exchange or national market system. Shareholders of an open-end investment company may require the company to redeem their shares at any time (except in certain circumstances as authorized by or under the 1940 Act) at their net asset value, less such redemption charge, if any, as might be in effect at the time of a redemption. If a Fund were converted to an open-end fund, it is likely that new common shares would be sold at net asset value plus a sales load. Following any such conversion, it is also possible that certain of the Fund's investment policies and strategies would have to be modified to assure sufficient portfolio liquidity. In particular, the Fund would be required to maintain its portfolio such that not more than 15% of its assets would be invested in illiquid securities. Such requirement could cause the Fund to dispose of portfolio securities or other assets at a time when it is not advantageous to do so, and could adversely affect the ability of the Fund to meet its investment objective.

VOTING RIGHTS

Voting rights are identical for the holders of each Fund's common shares. Common shareholders of each Fund are entitled to one vote for each share held. Except as set forth above under "Certain Provisions of the Declarations of Trust" or "Conversion to Open-End Funds," or except as expressly required by applicable law or expressly set forth in the designation of rights and preferences with respect to a Fund's preferred shares, preferred shareholders have no voting rights. When

preferred shareholders are entitled to vote, they are also entitled to cast one vote per share held.

Preferred shareholders of a Fund, voting as a class, are entitled to elect two of the Fund's trustees. Under the 1940 Act, if at any time dividends on a Fund's preferred shares are unpaid in an amount equal to two full years dividends thereon, the holders of all outstanding preferred shares, voting as a class, are entitled to elect a majority of the Fund's trustees until all dividends have been paid or declared and set apart for payment. The Certificate of Vote establishing the preferred shares of each Fund provides that such Fund shall not take certain actions relating to the preferences, rights or powers of holders of such Fund's preferred shares without the affirmative vote of the holders of a majority of the outstanding preferred shares. Additionally, if a Fund has more than one series of preferred shares outstanding, an affirmative vote of a majority of the outstanding shares of each series of preferred shares, each voting separately as a class, is required with respect to any matter that materially affects the series in a manner different from that of other series of such Fund's preferred shares. The specific provisions of each Fund's Certificate of Vote with respect to the voting rights of holders of preferred shares may differ and shareholders of the Target Funds should consult the Certificate of Vote governing the Acquiring Fund APS, included as Appendix B to the Reorganization Statement of Additional Information.

INFORMATION ABOUT THE REORGANIZATIONS

GENERAL

Under the Reorganization Agreements (a form of which is included as Appendix A to the Reorganization Statement of Additional Information), the Acquiring Fund will acquire substantially all of the assets, and will assume substantially all of the liabilities, of the Target Funds, in exchange for Acquiring Fund Common Shares and Acquiring Fund APS to be issued by the Acquiring Fund. The Acquiring Fund will issue and cause to be listed on the NYSE and CHX additional Acquiring Fund Common Shares. The Acquiring Fund Common Shares issued to the Target Funds will have an aggregate net asset value equal to the aggregate net asset value of the Target Funds' common shares, less the costs of the Reorganizations. The Acquiring Fund APS issued to the Target Funds will have an aggregate liquidation preference equal to the aggregate liquidation preference of the Target Funds' preferred shares. Upon receipt by the Target Funds of such shares, the Target Funds will (i) distribute the Acquiring Fund Common Shares to the Target Funds' common shareholders and (ii) distribute the Acquiring Fund APS to the Target

Funds' preferred shareholders. As soon as practicable after the Closing Date for the Reorganizations, the Target Funds will deregister as investment companies under the 1940 Act and dissolve under applicable state law.

The Target Funds will distribute the Acquiring Fund Common Shares and the Acquiring Fund APS received by them pro rata to the holders of record of their common shares and preferred shares, as applicable, in exchange for such shareholders' shares in the Target Funds. Such distribution will be accomplished by opening new accounts on the books of the Acquiring Fund in the names of the common and preferred shareholders of the Target Funds and transferring to those shareholder accounts the Acquiring Fund Common Shares and the Acquiring Fund APS previously credited on those books to the accounts of the Target Funds. Each newly-opened account on the books of the Acquiring Fund for the former common shareholders of the Target Funds will represent the respective pro rata number of Acquiring Fund Common Shares (rounded down, in the case of fractional shares held other than in a Plan account, to the next largest number of whole shares) due such shareholder. No fractional Acquiring Fund Common Shares will be issued (except for shares held in a Plan account). In the event of fractional shares in an account other than a Plan account, the Acquiring Fund's transfer agent will aggregate all such fractional Acquiring Fund Common Shares and sell the resulting whole shares on the NYSE for the account of all holders of such fractional interests, and each such holder will be entitled to the pro rata share of the proceeds from such sale upon surrender of the Target Fund common share certificates. Similarly, each newly-opened account on the books of the Acquiring Fund for the former preferred shareholders of Target Fund would represent the respective pro rata number of Acquiring Fund APS due such shareholder. See "Terms of the

56

Reorganization Agreements -- Surrender and Exchange of Share Certificates" below for a description of the procedures to be followed by the Target Funds' shareholders to obtain their Acquiring Fund Common Shares or Acquiring Fund APS (and cash in lieu of fractional shares, if any).

As a result of the Reorganizations, each common shareholder of a Target Fund will own Acquiring Fund Common Shares that (except for cash payments received in lieu of fractional shares) will have an aggregate net asset value immediately after the Closing Date equal to the aggregate net asset value of that shareholder's Target Fund common shares immediately prior to the Closing Date. Since the Acquiring Fund Common Shares will be issued at net asset value in exchange for the net assets of each Target Fund having a value equal to the aggregate net asset value of those Acquiring Fund Common Shares, the net asset value per share of Acquiring Fund Common Shares should remain virtually unchanged by the Reorganizations except for its share of the costs of the Reorganizations. Similarly, the aggregate liquidation preference of the Acquiring Fund APS to be issued to each Target Fund will equal the aggregate liquidation preference of each Target Fund's preferred shares. Each preferred shareholder of a Target Fund will receive Acquiring Fund APS that will have an aggregate liquidation preference immediately after the Closing Date equal to the aggregate liquidation preference of that shareholder's Target Fund preferred shares immediately prior to the Closing Date. The liquidation preference per share of the Acquiring Fund APS will remain unchanged by the Reorganizations. Thus, the Reorganizations will result in no dilution of net asset value of the Acquiring Fund Common Shares or the Target Fund's common shares, other than to reflect the costs of the Reorganizations, and will result in no dilution of the value per share for preferred shareholders of the Acquiring Fund or the Target Funds. However, as a result of the Reorganizations, a shareholder of any of the

Funds will hold a reduced percentage of ownership in the larger combined entity than he or she did in any of the separate Funds. No sales charge or fee of any kind will be charged to shareholders of the Target Funds in connection with their receipt of Acquiring Fund Common Shares or Acquiring Fund APS in the Reorganizations.

TERMS OF THE REORGANIZATION AGREEMENTS

The following is a summary of the significant terms of a Reorganization Agreement. The terms of each Reorganization Agreement are similar. This summary is qualified in its entirety by reference to the form of Reorganization Agreement, included as Appendix A to the Reorganization Statement of Additional Information.

VALUATION OF ASSETS AND LIABILITIES. The assets of each Fund will be valued after the close of business on the NYSE (generally, 4:00 p.m., Eastern time) on the Closing Date. For the purpose of determining the net asset value of a common share of each Fund, the value of the securities held by the Fund plus any cash or other

57

assets (including interest accrued but not yet received) minus all liabilities (including accrued expenses) and the aggregate liquidation value of the outstanding preferred shares of the Fund is divided by the total number of common shares of the Fund outstanding at such time. Daily expenses, including the fees payable to the Adviser, will accrue on the Closing Date.

AMENDMENTS AND CONDITIONS. The Reorganization Agreement may be amended at any time prior to the Closing Date with respect to any of the terms therein. The obligations of each Fund pursuant to the Reorganization Agreement are subject to various conditions, including a registration statement on Form N-14 being declared effective by the SEC, approval by the shareholders of the Target Fund, approval of the issuance of additional Acquiring Fund Common Shares by the common shareholders of the Acquiring Fund, receipt of an opinion of counsel as to tax matters, receipt of an opinion of counsel as to corporate and securities matters and the continuing accuracy of various representations and warranties of the Funds being confirmed by the respective parties.

POSTPONEMENT; TERMINATION. Under the Reorganization Agreement, the Board of Trustees of either Fund may cause the Reorganization to be postponed or abandoned in certain circumstances should such Board determine that it is in the best interests of the shareholders of its respective Fund to do so.

The Reorganization Agreement may be terminated, and the Reorganization abandoned at any time (whether before or after adoption thereof by the shareholders of either of the Funds) prior to the Closing Date, or the Closing Date may be postponed: (i) by mutual consent of the Boards of Trustees of the Funds and (ii) by the Board of Trustees of either Fund if any condition to that Fund's obligations set forth in the Reorganization Agreement has not been fulfilled or waived by such Board.

SURRENDER AND EXCHANGE OF SHARE CERTIFICATES. After the Closing Date, each holder of an outstanding certificate or certificates formerly representing Target Fund common shares will be entitled to receive, upon surrender of his or

her certificate or certificates, a certificate or certificates representing the number of Acquiring Fund Common Shares distributable with respect to such holder's Target Fund common shares, together with cash in lieu of any fractional Acquiring Fund Common Shares held other than in a Plan account. Promptly after the Closing Date, the transfer agent for the Acquiring Fund Common Shares will mail to each holder of certificates formerly representing Target Fund common shares a letter of transmittal for use in surrendering his or her certificates for certificates representing Acquiring Fund Common Shares and cash in lieu of any fractional shares held in an account other than a Plan account.

Please do not send in any share certificates at this time. Upon consummation of the Reorganization, holders of Target Fund common shares will be furnished with

58

instructions for exchanging their share certificates for Acquiring Fund share certificates and, if applicable, cash in lieu of fractional shares.

From and after the Closing Date, certificates formerly representing Target Fund common shares will be deemed for all purposes to evidence ownership of the number of full Acquiring Fund Common Shares distributable with respect to the Target Fund common shares held before the Reorganization as described above, provided that, until such share certificates have been so surrendered, no dividends payable to the holders of record of Target Fund common shares as of any date subsequent to the Closing Date will be reinvested pursuant to the Acquiring Fund's Plan, but will instead be paid in cash. Once such Target Fund share certificates have been surrendered, participants in the Target Fund's Plan will automatically be enrolled in the Plan of the Acquiring Fund.

From and after the Closing Date, there will be no transfers on the share transfer books of the Target Fund. If, after the Closing Date, certificates representing Target Fund common shares are presented to the Acquiring Fund, they will be cancelled and exchanged for certificates representing Acquiring Fund Common Shares, as applicable, and cash in lieu of fractional shares, if any, distributable with respect to such Target Fund common shares in the Reorganization.

Preferred shares are held in "street name" by the Depository Trust Company and all transfers will be accomplished by book entry.

EXPENSES OF THE REORGANIZATION. In the event the Reorganization is approved and completed, the expenses of the Reorganization will be shared by the Target Fund and the Acquiring Fund in proportion to their respective projected annual expense savings as a result of the Reorganization. The expenses of the Reorganization will not be borne by the preferred shareholders of either Fund. In the event the Reorganization is not completed, the Adviser will bear the costs associated with the Reorganization. Neither the Funds nor the Adviser will pay any expenses of shareholders arising out of or in connection with the Reorganization.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE REORGANIZATIONS

The following is a general summary of the material anticipated U.S. federal income tax consequences of the Reorganizations. The discussion is based upon the Internal Revenue Code, Treasury regulations, court decisions, published

positions of the Internal Revenue Service ("IRS") and other applicable authorities, all as in effect on the date hereof and all of which are subject to change or differing interpretations (possibly with retroactive effect). The discussion is limited to U.S. persons who hold shares of a Target Fund as capital assets for U.S. federal income tax purposes (generally, assets held for investment). This summary does not address all of the U.S. federal income tax consequences that may be relevant to a particular shareholder or to shareholders who may be subject to special treatment

59

under U.S. federal income tax laws. No ruling has been or will be obtained from the IRS regarding any matter relating to the Reorganizations. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of the tax aspects described below. Prospective investors must consult their own tax advisers as to the U.S. federal income tax consequences of the Reorganizations, as well as the effects of state, local and non-U.S. tax laws.

It is a condition to closing each Reorganization that the respective Target Fund and the Acquiring Fund receive an opinion from Skadden, Arps, Slate, Meagher & Flom LLP ("Skadden Arps"), dated as of the Closing Date, regarding the characterization of such Reorganization as a "reorganization" within the meaning of Section 368(a) of the Internal Revenue Code. As such a reorganization, the U.S. federal income tax consequences of each Reorganization can be summarized as follows:

- No gain or loss will be recognized by a Target Fund or the Acquiring Fund upon the transfer to the Acquiring Fund of substantially all of the assets of the Target Fund in exchange for Acquiring Fund Common Shares and Acquiring Fund APS and the assumption by the Acquiring Fund of substantially all of the liabilities of the Target Fund and the subsequent liquidation of the Target Fund.
- No gain or loss will be recognized by a shareholder of a Target Fund who exchanges, as the case may be, all of his, her or its Target Fund common shares for Acquiring Fund Common Shares pursuant to a Reorganization (except with respect to cash received in lieu of a fractional share, as discussed below) or all of his, her or its Target Fund preferred shares solely for Acquiring Fund APS pursuant to a Reorganization.
- The aggregate tax basis of the Acquiring Fund Common Shares or Acquiring Fund APS, as the case may be, received by a shareholder of a Target Fund pursuant to a Reorganization will be the same as the aggregate tax basis of the shares of the Target Fund surrendered in exchange therefor (reduced by any amount of tax basis allocable to a fractional share for which cash is received).
- The holding period of the Acquiring Fund Common Shares or Acquiring Fund APS, as the case may be, received by a shareholder of a Target Fund pursuant to a Reorganization will include the holding period of the shares of the Target Fund surrendered in exchange therefor.
- A shareholder of a Target Fund that receives cash in lieu of a fractional Acquiring Fund Common Share pursuant to a Reorganization will recognize capital gain or loss with respect to the fractional share in an amount equal to the difference between the amount of cash received for the fractional share and the portion of such shareholder's tax basis in its Target Fund common shares that is allocable to the fractional share. The capital gain or loss will be

long-term if the holding period for such Target Fund common shares is more than one year as of the date of the exchange.

- The Acquiring Fund's tax basis in a Target Fund's assets received by the Acquiring Fund pursuant to a Reorganization will, in each instance, equal the tax basis of such assets in the hands of such Target Fund immediately prior to such Reorganization, and the Acquiring Fund's holding period of such assets will, in each instance, include the period during which the assets were held by such Target Fund.

The Acquiring Fund intends to continue to be taxed under the rules applicable to regulated investment companies as defined in Section 851 of the Internal Revenue Code, which are the same rules currently applicable to each of the Target Funds and their shareholders.

The opinion of Skadden Arps will be based on U.S. federal income tax law in effect on the Closing Date. In rendering its opinion, Skadden Arps will also rely upon certain representations of the management of the Acquiring Fund and the Target Funds and assume, among other things, that the Reorganizations will be consummated in accordance with the Reorganization Agreements and as described herein. An opinion of counsel is not binding on the IRS or any court.

SHAREHOLDER APPROVAL

Under the Declaration of Trust of each Target Fund (as amended to date and including the Certificate of Vote of each Target Fund), relevant Pennsylvania law and the rules of the NYSE and CHX, shareholder approval of each Reorganization Agreement requires the affirmative vote of shareholders of the respective Target Fund representing more than 50% of the outstanding common shares and preferred shares of such Target Fund entitled to vote, each voting separately as a class.

PROPOSAL 2: ISSUANCE OF ACQUIRING FUND COMMON SHARES

Pursuant to the Reorganization Agreements, which are described more fully under "Proposal 1: Reorganizations of the Target Funds" herein, the Acquiring Fund will acquire substantially all of the assets and assume substantially all of the liabilities of each Target Fund in exchange for Acquiring Fund Common Shares and Acquiring Fund APS. Each Target Fund will distribute Acquiring Fund Common Shares to its common shareholders and Acquiring Fund APS to its preferred shareholders, and will then terminate its registration under the 1940 Act and dissolve under applicable state law. The Acquiring Fund Board, based upon its evaluation of all relevant information, anticipates that each Reorganization will benefit holders of Acquiring Fund Common Shares.

The aggregate net asset value of Acquiring Fund Common Shares received in each Reorganization will equal the aggregate net asset value of the Target Fund's common shares held immediately prior to the Reorganization, less the costs of the Reorganization (though holders of Target Fund common shares may receive cash for their fractional shares). The aggregate liquidation preference of Acquiring Fund APS received in each Reorganization will equal the aggregate liquidation preference of the Target Fund's preferred shares held immediately prior to the

Reorganization. The Reorganizations will result in no reduction of the net asset value of the Acquiring Fund Common Shares, other than to reflect the costs of each Reorganization. No gain or loss will be recognized by the Acquiring Fund or its shareholders in connection with each Reorganization. The Acquiring Fund will continue to operate as a registered closed-end investment company with the investment objective and policies described in this Joint Proxy Statement/Prospectus.

In connection with the Reorganizations and as contemplated by the Reorganization Agreements, the Acquiring Fund will issue additional Acquiring Fund Common Shares and list such shares on the NYSE and the CHX. While applicable state and federal law does not require the shareholders of the Acquiring Fund to approve the Reorganizations, applicable NYSE and CHX rules require the common shareholders of the Acquiring Fund to approve the issuance of additional Acquiring Fund Common Shares to be issued in connection with the Reorganizations.

SHAREHOLDER APPROVAL

Shareholder approval of the issuance of additional Acquiring Fund Common Shares requires the affirmative vote of a majority of the votes cast on the proposal, provided that the total votes cast on the proposal represents more than 50% in interest of all securities entitled to vote on the proposal. For more information regarding voting requirements, see the section entitled "Other Information -- Voting Information and Requirements" below.

62

OTHER INFORMATION

VOTING INFORMATION AND REQUIREMENTS

GENERAL. A list of shareholders of each Fund entitled to be present and vote at the Special Meeting will be available at the offices of the Funds, 1 Parkview Plaza, Oakbrook Terrace, Illinois 60181-5555, for inspection by any shareholder during regular business hours for ten days prior to the date of the Special Meeting.

RECORD DATE. The Board of Trustees of each Fund has fixed the close of business on July 29, 2005 as the record date (the "Record Date") for the determination of shareholders entitled to notice of, and to vote at, the Special Meeting or any adjournment thereof. Shareholders on the Record Date will be entitled to one vote for each share held, with no shares having cumulative voting rights. At the Record Date, Advantage Pennsylvania Municipal Income Trust had outstanding 4,368,552 common shares and 1,600 preferred shares, Pennsylvania Quality Municipal Trust had outstanding 8,268,008 common shares and 2,600 preferred shares, Trust for Investment Grade Pennsylvania Municipals had outstanding 7,432,384 common shares and 2,800 preferred shares and the Acquiring Fund had outstanding 4,476,965 common shares and 1,800 preferred shares.

PROXIES. Shareholders may vote by appearing in person at the Special Meeting,

by returning the enclosed proxy card or by casting their vote via telephone or the internet using the instructions provided on the enclosed proxy card and more fully described below. Shareholders of each Fund have the opportunity to submit their voting instructions via the internet by utilizing a program provided by a third-party vendor hired by the Funds, or by "touch-tone" telephone voting. The giving of such a proxy will not affect your right to vote in person should you decide to attend the Special Meeting. To use the internet, please access the internet address found on your proxy card. To record your voting instructions by automated telephone, please call the toll-free number listed on your proxy card. The internet and automated telephone voting instructions are designed to authenticate shareholder identities, to allow shareholders to give their voting instructions, and to confirm that shareholders' instructions have been recorded properly. Shareholders submitting their voting instructions via the internet should understand that there may be costs associated with internet access, such as usage charges from internet access providers and telephone companies, that must be borne by the shareholders. Any person giving a proxy may revoke it at any time prior to its exercise by giving written notice of the revocation to the Secretary of the Funds at the address indicated above, by delivering a duly executed proxy bearing a later date, by recording later-dated voting instructions via the internet or automated telephone or by attending the Special Meeting and voting in person. The giving of a proxy will not affect your right to vote in person if you attend the Special Meeting and wish to do so.

63

All properly executed proxies received prior to the Special Meeting will be voted in accordance with the instructions marked thereon or otherwise as provided therein. Unless instructions to the contrary are marked, proxies will be voted "FOR" the approval of each proposal. Abstentions and broker non-votes (i.e., where a nominee such as a broker holding shares for beneficial owners votes on certain matters pursuant to discretionary authority or instructions from beneficial owners, but with respect to one or more proposals does not receive instructions from beneficial owners or does not exercise discretionary authority) are not treated as votes "FOR" a proposal.

With respect to Proposal 1, abstentions and broker non-votes have the same effect as votes "AGAINST" the proposals since their approvals are based on the affirmative vote of a majority of each Target Fund's outstanding common shares and preferred shares, each voting as a separate class. With respect to Proposal 2, abstentions will not be treated as votes "FOR" the proposal but will be counted as votes cast on the proposal and will therefore have the same effect as votes "AGAINST" the proposal. Broker non-votes will not be treated as votes "FOR" the proposal and will not be counted as votes cast on the proposal and will therefore have the effect of reducing the aggregate number of shares voting on the proposal and reducing the number of votes "FOR" required to approve the proposal.

With respect to each proposal, a majority of the outstanding shares of each class entitled to vote on the proposal must be present in person or by proxy to have a quorum to conduct business at the Special Meeting. Abstentions and broker non-votes will be deemed present for quorum purposes.

CERTAIN VOTING INFORMATION REGARDING PREFERRED SHARES OF THE TARGET FUNDS. Pursuant to the rules of the NYSE, preferred shares of each Target Fund held in "street name" may be voted under certain conditions by broker-dealer firms and counted for purposes of establishing a quorum of that Fund if no instructions are received one business day before the Special Meeting or, if adjourned, one business day before the day to which the Special Meeting is adjourned. These conditions include, among others, that (i) at least 30% of a Target Fund's preferred shares outstanding have voted on such Fund's Reorganization and (ii)

less than 10% of a Target Fund's preferred shares outstanding have voted against such Fund's Reorganization. In such instance, the broker-dealer firm will vote such uninstructed Target Fund's preferred shares on such Reorganization in the same proportion as the votes cast by all Target Fund preferred shareholders who voted on such Reorganization. Each Target Fund will include shares held of record by broker-dealers as to which such authority has been granted in its tabulation of the total number of shares present for purposes of determining whether the necessary quorum of shareholders of such Fund exists.

SHAREHOLDER INFORMATION

As of July 29, 2005, to the knowledge of the Funds, no shareholder owned beneficially more than 5% of the outstanding common shares of any Fund.

To the knowledge of the Funds, no trustee or executive officer owned, directly or beneficially, common shares of the Funds as of July 29, 2005, and no trustee or executive officer owned preferred shares of the Funds as of that date.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 30(f) of the 1940 Act and Section 16(a) of the Securities Exchange Act of 1934, as amended, require the Funds' trustees, officers, investment adviser, affiliated persons of the investment adviser and persons who own more than 10% of a registered class of a Fund's equity securities to file forms with the SEC and the NYSE reporting their affiliation with such Fund and reports of ownership and changes in ownership of Fund shares. These persons and entities are required by SEC regulation to furnish a Fund with copies of all such forms they file. Based on a review of these forms furnished to each Fund, each Fund believes that during its last fiscal year, its trustees, officers, investment adviser and affiliated persons of the investment adviser complied with the applicable filing requirements.

SHAREHOLDER PROPOSALS

To be considered for presentation at a shareholder's meeting, rules promulgated by the SEC generally require that, among other things, a shareholder's proposal must be received at the offices of the relevant Fund a reasonable time before solicitation is made. Timely submission of a proposal does not necessarily mean that such proposal will be included. Any shareholder who wishes to submit a proposal for consideration at a meeting of such shareholder's Fund should send such proposal to the relevant Fund at the principal executive offices of the Fund at 1221 Avenue of the Americas, New York, New York 10020.

Information regarding the deadline for timely submission of proposals intended to be presented at the year 2006 Annual Meeting of the Funds will be provided in the proxy statement relating to the 2005 Annual Meeting of the Funds, which is expected to take place later this year. Shareholder proposals intended to be presented at the 2005 Annual Meeting of the Funds pursuant to Rule 14a-8 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), must be received by the respective Fund at such Fund's principal executive offices by August 16, 2005. In order for proposals made outside of Rule 14a-8 under the

Exchange Act to be considered "timely" within the meaning of Rule 14a-4(c) under the Exchange Act, such proposals must be received by the respective Fund at such Fund's principal executive offices by August 16, 2005. If the Reorganizations of the Target Funds are approved and completed prior to their 2005 Annual

65

Meeting, the Target Funds will cease to exist and will not hold their 2005 Annual Meeting.

SOLICITATION OF PROXIES

Solicitation of proxies on behalf of the Funds is being made primarily by the mailing of this Notice and Joint Proxy Statement/Prospectus with its enclosures on or about August 12, 2005. Shareholders of the Target Funds whose shares are held by nominees such as brokers can vote their proxies by contacting their respective nominee. In addition to the solicitation of proxies by mail, employees of the Adviser and its affiliates as well as dealers or their representatives may, without additional compensation, solicit proxies in person or by mail, telephone, telegraph, facsimile or oral communication. The Funds have retained Computershare Fund Services ("CFS") to make telephone calls to shareholders to remind them to vote. CFS will be paid a project management fee as well as fees charged on a per call basis and certain other expenses. Management estimates that the telephone solicitation by CFS will cost approximately \$10,537 for Advantage Pennsylvania Municipal Income Trust, \$17,761 for Pennsylvania Quality Municipal Trust, \$15,061 for Trust for Investment Grade Pennsylvania Municipals and \$10,511 for the Acquiring Fund. Proxy solicitation expenses are an expense of the Reorganizations which will be borne by the Target Funds and the Acquiring Fund in proportion to their projected annual expense savings as a result of the Reorganizations.

LEGAL MATTERS

Certain legal matters concerning the federal income tax consequences of the Reorganizations and the issuance of Acquiring Fund Common Shares and Acquiring Fund APS will be passed upon by Skadden Arps, which serves as counsel to the Target Funds and the Acquiring Fund, and concerning matters of Pennsylvania law will be passed upon by Saul Ewing LLP. Wayne W. Whalen, a partner of Skadden Arps, is a trustee of both the Target Funds and the Acquiring Fund.

OTHER MATTERS TO COME BEFORE THE MEETING

The Board of Trustees of each Fund knows of no business other than that described in this Joint Proxy Statement/Prospectus which will be presented for consideration at the Special Meeting. If any other matters are properly presented, it is the intention of the persons named on the enclosed proxy card to vote proxies in accordance with their best judgment.

In the event that a quorum is present at the Special Meeting but sufficient votes to approve any of the proposals are not received, proxies (including abstentions and broker non-votes) will be voted in favor of one or more adjournments of the Special Meeting to permit further solicitation of proxies on such proposals, provided that the Board of Trustees of each Fund determines that such an adjournment and

additional solicitation is reasonable and in the interest of shareholders based on a consideration of all relevant factors, including the percentage of votes then cast, the percentage of negative votes cast, the nature of the proposed solicitation activities and the nature of the reasons for such further solicitation. Any such adjournment will require the affirmative vote of the holders of a majority of the outstanding shares of the respective Fund voted at the session of the Special Meeting to be adjourned.

If you cannot be present in person at the Special Meeting, please fill in, sign and return the enclosed proxy card or please record your voting instructions by telephone or via the internet promptly. No postage is necessary if the enclosed proxy card is mailed in the United States.

EXHIBIT I

DESCRIPTION OF SECURITIES RATINGS

STANDARD & POOR'S -- A brief description of the applicable Standard & Poor's (S&P) rating symbols and their meanings (as published by S&P) follows:

A S&P issue credit rating is a current opinion of the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations, or a specific financial program (including ratings on medium-term note programs and commercial paper programs). It takes into consideration the creditworthiness of guarantors, insurers, or other forms of credit enhancement on the obligation and takes into account the currency in which the obligation is denominated. The issue credit rating is not a recommendation to purchase, sell, or hold a financial obligation, inasmuch as it does not comment as to market price or suitability for a particular investor. Issue credit ratings are based on current information furnished by the obligors or obtained by S&P from other sources it considers reliable. S&P does not perform an audit in connection with any credit rating and may, on occasion, rely on unaudited financial information. Credit ratings may be changed, suspended, or withdrawn as a result of changes in, or unavailability of, such information, or based on other circumstances. Issue credit ratings can be either long-term or short-term. Short-term ratings are generally assigned to those obligations considered short term in the relevant market. In the U.S., for example, that means obligations with an original maturity of no more than 365 days, including commercial paper. Short-term ratings are also used to indicate the creditworthiness of an obligor with respect to put features on long-term

obligations. The result is a dual rating, in which the short-term ratings address the put feature, in addition to the usual long-term rating. Medium-term notes are assigned long-term ratings.

LONG-TERM ISSUE CREDIT RATINGS

Issue credit ratings are based, in varying degrees, on the following considerations:

- Likelihood of payment -- capacity and willingness of the obligor to meet its financial commitment on an obligation in accordance with the terms of the obligation;
- Nature of and provisions of the obligation;
- Protection afforded by, and relative position of, the obligation in the event of bankruptcy, reorganization, or other arrangement under the laws of bankruptcy and other laws affecting creditors' rights.

The issue rating definitions are expressed in terms of default risk. As such, they pertain to senior obligations of an entity. Junior obligations are typically rated lower

I-1

than senior obligations, to reflect the lower priority in bankruptcy, as noted above. (Such differentiation applies when an entity has both senior and subordinated obligations, secured and unsecured obligations, or operating company and holding company obligations.) Accordingly, in the case of junior debt, the rating may not conform exactly with the category definition.

AAA: An obligation rated "AAA" has the highest rating assigned by S&P. The obligor's capacity to meet its financial commitment on the obligation is extremely strong.

AA: An obligation rated "AA" differs from the highest-rated obligations only in small degree. The obligor's capacity to meet its financial commitment on the obligation is very strong.

A: An obligation rated "A" is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong.

BBB: An obligation rated "BBB" exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

SPECULATIVE GRADE

BB, B, CCC, CC, C: Obligations rated "BB", "B", "CCC", "CC" and "C" are regarded as having significant speculative characteristics. "BB" indicates the least degree of speculation and "C" the highest. While such obligations will likely have some quality and protective characteristics, these may be outweighed by large uncertainties or major exposures to adverse conditions.

BB: An obligation rated "BB" is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial, or economic conditions which could lead to the obligor's inadequate capacity to meet its financial commitment on the

obligation.

B: An obligation rated "B" is more vulnerable to nonpayment than obligations rated "BB", but the obligor currently has the capacity to meet its financial commitment on the obligation. Adverse business, financial, or economic conditions will likely impair the obligor's capacity or willingness to meet its financial commitment on the obligation.

CCC: An obligation rated "CCC" is currently vulnerable to nonpayment, and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitment on the obligation. In the event of adverse

I-2

business, financial, or economic conditions, the obligor is not likely to have the capacity to meet its financial commitment on the obligation.

CC: An obligation rated "CC" is currently highly vulnerable to nonpayment.

C: A subordinated debt or preferred stock obligation rated "C" is CURRENTLY HIGHLY VULNERABLE to nonpayment. The "C" rating may be used to cover a situation where a bankruptcy petition has been filed or similar action taken, but payments on this obligation are being continued. A "C" also will be assigned to a preferred stock issue in arrears on dividends or sinking fund payments, but that is currently paying.

D: An obligation rated "D" is in payment default. The "D" rating category is used when payments on an obligation are not made on the date due even if the applicable grace period has not expired, unless S&P believes that such payments will be made during such grace period. The "D" rating also will be used upon the filing of a bankruptcy petition or the taking of a similar action if payments on an obligation are jeopardized.

Plus (+) or minus (-): The ratings from "AA" to "CCC" may be modified by the addition of a plus or minus sign to show relative standing within the major rating categories.

r: This symbol is attached to the ratings of instruments with significant noncredit risks. It highlights risks to principal or volatility of expected returns which are not addressed in the credit rating.

N.R.: This indicates that no rating has been requested, that there is insufficient information on which to base a rating, or that S&P does not rate a particular obligation as a matter of policy.

SHORT-TERM ISSUE CREDIT RATINGS

A-1: A short-term obligation rated "A-1" is rated in the highest category by S&P. The obligor's capacity to meet its financial commitment on the obligation is strong. Within this category, certain obligations are designated with a plus sign (+). This indicates that the obligor's capacity to meet its financial commitment on these obligations is extremely strong.

A-2: A short-term obligation rated "A-2" is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor's capacity to meet its financial commitment on the obligation is satisfactory.

A-3: A short-term obligation rated "A-3" exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are

more

I-3

likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

B: A short-term obligation rated "B" is regarded as having significant speculative characteristics. The obligor currently has the capacity to meet its financial commitment on the obligation; however, it faces major ongoing uncertainties which could lead to the obligor's inadequate capacity to meet its financial commitment on the obligation.

C: A short-term obligation rated "C" is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitment on the obligation.

D: A short-term obligation rated "D" is in payment default. The "D" rating category is used when payments on an obligation are not made on the date due even if the applicable grace period has not expired, unless S&P believes that such payments will be made during such grace period. The "D" rating also will be used upon the filing of a bankruptcy petition or the taking of a similar action if payments on an obligation are jeopardized.

MOODY'S INVESTORS SERVICE INC. -- A brief description of the applicable Moody's Investors Service, Inc. (Moody's) rating symbols and their meanings (as published by Moody's) follows:

Aaa: Obligations rated Aaa are judged to be of the highest quality with minimal credit risk.

Aa: Obligations rated Aa are judged to be of high quality and are subject to very low credit risk.

A: Obligations rated A are considered upper-medium grade and are subject to low credit risk.

Baa: Obligations rated Baa are subject to moderate credit risk. They are considered medium-grade and as such may possess certain speculative characteristics.

Ba: Obligations rated Ba are judged to have speculative elements and are subject to substantial credit risk.

B: Obligations rated B are considered speculative and are subject to high credit risk.

Caa: Obligations rated Caa are judged to be of poor standing and are subject to very high credit risk.

Ca: Obligations rated Ca are highly speculative and are likely in, or very near, default, with some prospect of recovery of principal and interest.

I-4

C: Obligations rated C are the lowest rated class of bonds, and are typically in default, with little prospect for recovery of principal or interest.

Note: Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation

ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

Moody's assigns long-term ratings to individual debt securities issued from medium-term note (MTN) programs, in addition to indicating ratings to MTN programs themselves. Notes issued under MTN programs with such indicated ratings are rated at issuance at the rating applicable to all pari passu notes issued under the same program, at the program's relevant indicated rating, provided such notes do not exhibit any of the characteristics listed below:

- Notes containing features that link interest or principal to the credit performance of any third party or parties.
- Notes allowing for negative coupons, or negative principal.
- Notes containing any provision that could obligate the investor to make any additional payments.
- Notes containing provisions that subordinate the claim.

For notes with any of these characteristics, the rating of the individual note may differ from the indicated rating of the program.

Market participants must determine whether any particular note is rated, and if so, at what rating level. Moody's encourages market participants to contact Moody's Ratings Desks directly or visit www.moodys.com directly if they have questions regarding ratings for specific notes issued under a medium-term note program. Unrated notes issued under an MTN program may be assigned an NR symbol.

I-5

SHORT-TERM RATINGS

Moody's short-term ratings are opinions of the ability of issuers to honor short-term financial obligations. Ratings may be assigned to issuers, short-term programs or to individual short-term debt instruments. Such obligations generally have an original maturity not exceeding thirteen months, unless explicitly noted. Moody's employs the following designations to indicate the relative repayment ability of rated issuers:

P-1

Issuers (or supporting institutions) rated Prime-1 have a superior ability to repay short-term debt obligations.

P-2

Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

P-3

Issuers (or supporting institutions) rated Prime-3 have an acceptable ability to repay short-term obligations.

NP

Issuers (or supporting institutions) rated Not Prime do not fall within any of the Prime rating categories.

NOTE: Canadian issuers rated P-1 or P-2 have their short-term ratings enhanced by the senior-most long-term rating of the issuer, its guarantor or support-provider.

COMPENSATION

Each trustee/director/managing general partner (hereinafter referred to in this section as "trustee") who is not an affiliated person (as defined in the 1940 Act) of Van Kampen Investments, the Adviser or the Administrator (each a "Non-Affiliated Trustee") is compensated by an annual retainer and meeting fees for services to funds in the Fund Complex. Each fund in the Fund Complex (except Van Kampen Exchange Fund) provides a deferred compensation plan to its Non-Affiliated Trustees that allows trustees to defer receipt of their compensation until retirement and earn a return on such deferred amounts. Amounts deferred are retained by the Funds and earn a rate of return determined by reference to the return on the common shares of the Funds or other funds in the Fund Complex as selected by the respective Non-Affiliated Trustee. To the extent permitted by the 1940 Act, the Funds may invest in securities of those funds selected by the Non-Affiliated Trustees in order to match the deferred compensation obligation. The deferred compensation plan is not funded and obligations thereunder represent general unsecured claims against the general assets of the Funds. Deferring compensation has the same economic effect as if the Non-Affiliated Trustee reinvested his or her compensation into the Funds. Each fund in the Fund Complex (except Van Kampen Exchange Fund) provides a retirement plan to its Non-Affiliated Trustees that provides Non-Affiliated Trustees with compensation after retirement, provided that certain eligibility requirements are met. Under the retirement plan, a Non-Affiliated Trustee who is receiving compensation from the Funds prior to such Non-Affiliated Trustee's retirement, has at least 10 years of service (including years of service prior to adoption of the retirement plan) and retires at or after attaining the age of 60, is eligible to receive a retirement benefit per year for each of the 10 years following such retirement from the Funds. Non-Affiliated Trustees retiring prior to the age of 60 or with fewer than 10 years but more than 5 years of service may receive reduced retirement benefits from the Funds.

Additional information regarding compensation and benefits for trustees of each Fund is set forth below for the periods described in the notes accompanying the table.

BOARD COMMITTEES

The Board of Trustees of each Fund has the same three standing committees (an audit committee, a brokerage and services committee and a governance committee). Each committee is comprised solely of "Independent Trustees," which is defined for purposes herein as trustees who: (1) are not "interested persons" of the Funds as defined by the 1940 Act and (2) are "independent" of the Funds as defined by the New York Stock Exchange, American Stock Exchange and Chicago Stock Exchange listing standards.

S-12

Each Board's audit committee consists of Jerry D. Choate, Rod Dammeyer and R. Craig Kennedy. In addition to being Independent Trustees as defined above, each of these trustees also meets the additional independence requirements for audit committee members as defined by the New York Stock Exchange, American Stock Exchange and Chicago Stock Exchange listing standards. Each audit committee makes recommendations to its Board of Trustees concerning the selection of its Fund's independent registered public accounting firm, reviews with such independent registered public accounting firm the scope and results of its Fund's annual audit and considers any comments which the independent registered public accounting firm may have regarding its Fund's financial statements, books of account or internal controls. Each Board of Trustees has adopted a formal written charter for its audit committee which sets forth the audit committee's responsibilities. Each audit committee has reviewed and discussed the financial statements of its Fund with management as well as with the independent registered public accounting firm of the Fund, and discussed with the independent registered public accounting firm the matters required to be discussed under the Statement of Auditing Standards No. 61. Each audit committee has received the written disclosures and the letter from the independent registered public accounting firm required under Independence

Standards Board Standard No. 1 and has discussed with the independent registered public accounting firm its independence. Based on this review, each audit committee recommended to its Board of Trustees that its Fund's audited financial statements be included in the Fund's annual report to shareholders for the most recent fiscal year for filing with the SEC.

Each Board's brokerage and services committee consists of Linda Hutton Heagy, Hugo F. Sonnenschein and Suzanne H. Woolsey. Each brokerage and services committee reviews its Fund's allocation of brokerage transactions and soft-dollar practices.

Each Board's governance committee consists of David C. Arch, Howard J Kerr and Jack E. Nelson. In addition to being Independent Trustees as defined above, each of these trustees also meets the additional independence requirements for nominating committee members as defined by the New York Stock Exchange, American Stock Exchange and Chicago Stock Exchange listing standards. Each governance committee identifies individuals qualified to serve as Independent Trustees on its Board and on committees of the Board, advises its Board with respect to Board composition, procedures and committees, develops and recommends to its Board a set of corporate governance principles applicable to the Fund, monitors corporate governance matters and makes recommendations to its Board, and acts as the administrative committee with respect to Board policies and procedures, committee policies and procedures and codes of ethics. The Independent Trustees of each Fund select and nominate any other nominee Independent Trustees for each Fund. While the Independent Trustees of each Fund expect to be able to continue to identify from their own resources an ample number of qualified candidates for each Board of Trustees as they deem appropriate, they will consider nominations from shareholders to each Board. Nominations from shareholders should be in writing and sent to the Independent Trustees of the Funds at the Funds' offices at 1221 Avenue of the Americas, New York, New York 10020 or directly to the Independent Trustees at the address specified above for each trustee.

During each Fund's last fiscal year, each Board of Trustees held 16 meetings. During each Fund's last fiscal year, the audit committee of each Board held five meetings,

S-13

the brokerage and services committee of each Board held four meetings and the governance committee of each Board held five meetings.

INVESTMENT ADVISORY AGREEMENT

Each Fund and the Adviser are parties to an investment advisory agreement (each an "Advisory Agreement"). Under each Advisory Agreement, a Fund retains the Adviser to manage the investment of such Fund's assets, including the placing of orders for the purchase and sale of portfolio securities. The Adviser obtains and evaluates economic, statistical and financial information to formulate strategy and implement such Fund's investment objective. The Adviser also furnishes offices, necessary facilities and equipment, provides administrative services to such Fund, renders periodic reports to such Fund's

S-15

Board of Trustees and permits its officers and employees to serve without compensation as trustees or officers of such Fund if elected to such positions. A Fund, however, bears the costs of its day-to-day operations, including auction agent fees, fees for broker-dealers participating in auctions of such Fund's APS, custodian fees, legal and independent registered public accounting firm fees, the costs of reports and proxies to shareholders, compensation of trustees of such Fund (other than those who are affiliated persons of Van Kampen Investments, the Adviser or the Administrator) and all other ordinary business expenses not specifically assumed by the Adviser. Each Advisory Agreement also provides that the Adviser shall not be liable to a Fund for any actions or omissions in the absence of willful misfeasance, bad faith, negligence or reckless disregard of its obligations and duties under such Advisory Agreement.

Each Advisory Agreement may be continued from year to year if specifically approved at least annually (a) (i) by a Fund's Board of Trustees or (ii) by a vote of a majority of a Fund's outstanding voting securities and (b) by a vote of a majority of the trustees who are not parties to the agreement or interested persons of any such party by votes cast in person at a meeting called for such purpose. Each Advisory Agreement provides that it shall terminate automatically if assigned and that it may be terminated without penalty by either party on 60 days' written notice.

In approving each Advisory Agreement, the Board of Trustees of each Fund, including the non-interested trustees, considered the nature, quality and scope of the services provided by the Adviser, the performance, fees and expenses of a Fund compared to other similar investment companies, the Adviser's expenses in providing the services and the profitability of the Adviser and its affiliated companies. The Board of Trustees of each Fund also reviewed the benefit to the Adviser of receiving research paid for by Fund assets and the propriety of such an arrangement and evaluated other benefits the Adviser derives from its relationship with a Fund. The Board of Trustees of each Fund considered the extent to which any economies of scale experienced by the Adviser are shared with a Fund's shareholders, and the propriety of alternative breakpoints in a Fund's advisory fee schedule. The Board of Trustees of each Fund considered comparative advisory fees of a Fund and other investment companies at different

asset levels. The Board of Trustees of each Fund reviewed reports from third parties about the foregoing factors and considered changes, if any, in such items since its previous approval. The Board of Trustees of each Fund discussed the financial strength of the Adviser and its affiliated companies and the capability of the personnel of the Adviser. The Board of Trustees of each Fund reviewed the statutory and regulatory requirements for approval of advisory agreements. The Board of Trustees of each Fund, including the non-interested trustees, evaluated all of the foregoing and determined, in the exercise of its business judgment, that approval of each Advisory Agreement was in the best interests of the respective Fund and its shareholders.

Payment by the funds for such services is made on a cost basis for the salary and salary-related benefits, including but not limited to bonuses, group insurance and other regular wages for the employment of personnel. Of the total costs for legal services provided to the funds, one half of such costs are allocated equally to each fund and the remaining one half of such costs are allocated to specific funds based on monthly time records.

FUND MANAGEMENT

OTHER ACCOUNTS MANAGED BY THE PORTFOLIO MANAGERS

As of October 31, 2004, Dennis Pietrzak managed 16 registered investment companies with a total of approximately \$4.4 billion in assets; 0 pooled investment vehicles other than registered investment companies; and 0 other accounts.

As of October 31, 2004, Robert W. Wimmel managed 36 registered investment companies with a total of approximately \$11.0 billion in assets; 0 pooled investment vehicles other than registered investment companies; and 0 other accounts.

As of October 31, 2004, John R. Reynoldson managed 33 registered investment companies with a total of approximately \$7.8 billion in assets; 0 pooled investment vehicles other than registered investment companies; and 0 other accounts.

S-18

Because the portfolio managers manage assets for other investment companies, pooled investment vehicles, and/or other accounts (including institutional clients, pension plans and certain high net worth individuals), there may be an incentive to favor one client over another resulting in conflicts of interest. For instance, the Adviser may receive fees from certain accounts that are higher than the fee it receives from the Funds, or it may receive a performance-based fee on certain accounts. In those instances, the portfolio managers may have an incentive to favor the higher and/or performance-based fee accounts over the Funds. The portfolio managers of the Funds do not currently manage assets for other investment companies, pooled investment vehicles or other accounts that charge a performance fee. The Adviser has adopted trade allocation and other policies and procedures that it believes are reasonably designed to address these and other conflicts of interest.

PORTFOLIO MANAGER COMPENSATION STRUCTURE

Portfolio managers receive a combination of base compensation and discretionary compensation, comprised of a cash bonus and several deferred compensation programs described below. The methodology used to determine portfolio manager compensation is applied across all accounts managed by the portfolio manager.

BASE SALARY COMPENSATION. Generally, portfolio managers receive base salary compensation based on the level of their position with the Adviser.

DISCRETIONARY COMPENSATION. In addition to base compensation, portfolio managers may receive discretionary compensation.

Discretionary compensation can include:

- Cash Bonus;
- Morgan Stanley's Equity Incentive Compensation Program (EICP) awards -- a mandatory program that defers a portion of discretionary year-end compensation into restricted stock units or other awards based on Morgan Stanley common stock that are subject to vesting and other conditions;
- Investment Management Deferred Compensation Plan (IMDCP) awards -- a mandatory program that defers a portion of discretionary year-end compensation and notionally invests it in designated funds advised by the Adviser or its affiliates. The award is subject to vesting and other conditions. Portfolio managers must notionally invest a minimum of 25% to a maximum of 50% of the IMDCP deferral into a combination of the designated funds they manage that are included in the IMDCP fund menu;
- Select Employees' Capital Accumulation Program (SECAP) awards -- a voluntary program that permits employees to elect to defer a portion of their discretionary year-end compensation and notionally invest the deferred amount across a range of designated investment funds, including funds advised by the Adviser or its affiliates; and
- Voluntary Equity Incentive Compensation Program (VEICP) awards -- a voluntary program that permits employees to elect to defer a portion of their discretionary year-end compensation to invest in Morgan Stanley stock units.

S-19

Several factors determine discretionary compensation, which can vary by portfolio management team and circumstances. In order of relative importance, these factors include:

- Investment performance. A portfolio manager's compensation is linked to the pre-tax investment performance of the accounts managed by the portfolio manager. Investment performance is calculated for one-, three- and five-year periods measured against a fund's primary benchmark (as set forth in the fund's prospectus), indices and/or peer groups. Generally, the greatest weight is placed on the three- and five-year periods.
- Revenues generated by the investment companies, pooled investment vehicles and other accounts managed by the portfolio manager.
- Contribution to the business objectives of the Adviser.
- The dollar amount of assets managed by the portfolio manager.
- Market compensation survey research by independent third parties.
- Other qualitative factors, such as contributions to client objectives.
- Performance of Morgan Stanley and Morgan Stanley Investment Management, and the overall performance of the Global Investor Group, a department within Morgan Stanley Investment Management that includes all investment professionals.

Occasionally, to attract new hires or to retain key employees, the total amount of compensation will be guaranteed in advance of the fiscal year end based on current market levels. In limited circumstances, the guarantee may continue for more than one year. The guaranteed compensation is based on the same factors as those comprising overall compensation described above.

SECURITIES OWNERSHIP OF PORTFOLIO MANAGERS

As of each Fund's fiscal year end, none of the portfolio managers owned equity securities in any of the Funds.

CODE OF ETHICS

The Funds and the Adviser have adopted a Code of Ethics (the "Code of Ethics") that sets forth general and specific standards relating to the securities trading activities of their employees. The Code of Ethics does not prohibit employees from acquiring securities that may be purchased or held by the Funds, but is intended to ensure that all employees conduct their personal transactions in a manner that does not interfere with the portfolio transactions of the Funds or other Van Kampen funds, or that such employees take unfair advantage of their relationship with the Funds. Among other things, the Code of Ethics prohibits certain types of transactions absent prior approval, imposes various trading restrictions (such as time periods during which personal transactions may or may not be made) and requires quarterly reporting of securities transactions and other reporting matters. All reportable securities transactions and other required reports are to be reviewed by appropriate personnel for compliance with the Code of Ethics. Additional restrictions

S-20

apply to portfolio managers, traders, research analysts and others who may have access to nonpublic information about the trading activities of the Funds or other Van Kampen funds or who otherwise are involved in the investment advisory process. Exceptions to these and other provisions of the Code of Ethics may be granted in particular circumstances after review by appropriate personnel.

PORTFOLIO TRANSACTIONS AND BROKERAGE ALLOCATION

The Adviser is responsible for decisions to buy and sell securities for the Funds, the selection of brokers and dealers to effect the transactions and the negotiation of prices and any brokerage commissions on such transactions. While the Adviser will be primarily responsible for the placement of each Fund's portfolio business, the policies and practices in this regard are subject to review by each Fund's Board of Trustees.

As most transactions made by a Fund are principal transactions at net prices, a Fund generally incurs little or no brokerage costs. The portfolio securities in which a Fund invests are normally purchased directly from the issuer or in the over-the-counter market from an underwriter or market maker for the securities. Purchases from underwriters of portfolio securities include a commission or concession paid by the issuer to the underwriter and purchases from dealers serving as market makers include a spread or markup to the dealer between the bid and asked price. Sales to dealers are effected at bid prices. A Fund may also purchase certain money market instruments directly from an issuer, in which case no commissions or discounts are paid, or may purchase and sell listed securities on an exchange, which are effected through brokers who charge a commission for their services.

The Adviser is responsible for placing portfolio transactions and does so in a manner deemed fair and reasonable to each Fund and not according to any formula. The primary consideration in all portfolio transactions is prompt execution of orders in an effective manner at the most favorable price. In selecting broker-dealers and in negotiating prices and any brokerage commissions on such transactions, the Adviser considers the firm's reliability, integrity and financial condition and the firm's execution capability, the size and breadth of the market for the security, the size of and difficulty in executing the order, and the best net price. There are many instances when, in the judgment of the Adviser, more than one firm can offer comparable execution services. In selecting among such firms, consideration may be given to those firms which supply research and other services in addition to execution services. The Adviser is authorized to pay higher commissions to brokerage firms that provide it with investment and research information than to firms which do not provide such services if the Adviser determines that such commissions are reasonable in relation to the overall services provided. No specific value can be assigned to such research services which are furnished without cost to the Adviser. Since statistical and other research information is only supplementary to the research efforts of the Adviser and still must be analyzed and reviewed by its staff, the receipt of research information is not expected to reduce its expenses materially. The investment advisory fee is not reduced as a result of the Adviser's receipt of such research services. Services provided may include (a) furnishing advice as to the value of securities, the advisability of investing in, purchasing or selling securities, and the availability of securities or purchasers or sellers of securities; (b) furnishing analyses and reports concerning issuers, industries, securities, economic factors and trends, portfolio strategy, and the performance of accounts; and

S-21

(c) effecting securities transactions and performing functions incidental thereto (such as clearance, settlement and custody). Research services furnished by firms through which a Fund effects its securities transactions may be used by the Adviser in servicing all of its advisory accounts; not all of such services may be used by the Adviser in connection with a Fund.

The Adviser also may place portfolio transactions, to the extent permitted by law, with brokerage firms affiliated with a Fund and the Adviser if it reasonably believes that the quality of execution and the commission are comparable to that available from other qualified firms.

The Adviser may place portfolio transactions at or about the same time for other advisory accounts, including other investment companies. The Adviser seeks to allocate portfolio transactions equitably whenever concurrent decisions are made to purchase or sell securities for a Fund and another advisory account. In some cases, this procedure could have an adverse effect on the price or the amount of securities available to a Fund. In making such allocations among a Fund and other advisory accounts, the main factors considered by the Adviser are the respective sizes of such Fund and other advisory accounts, the respective investment objectives, the relative size of portfolio holdings of the same or comparable securities, the availability of cash for investment, the size of investment commitments generally held and opinions of the persons responsible for recommending the investment.

Certain broker-dealers, through which a Fund may effect securities transactions, are affiliated persons (as defined in the 1940 Act) of a Fund or affiliated persons of such affiliates, including Morgan Stanley or its subsidiaries. Each Fund's Board of Trustees has adopted certain policies incorporating the standards of Rule 17e-1 issued by the SEC under the 1940 Act which require that the commissions paid to affiliates of the Fund must be

Edgar Filing: VAN KAMPEN PENNSYLVANIA VALUE MUNICIPAL INCOME TRUST - Form N-14 8C/A

reasonable and fair compared to the commissions, fees or other remuneration received or to be received by other brokers in connection with comparable transactions involving similar securities during a comparable period of time. The rule and procedures also contain review requirements and require the Adviser to furnish reports to the trustees and to maintain records in connection with such reviews. After consideration of all factors deemed relevant, the trustees will consider from time to time whether the advisory fee for each Fund will be reduced by all or a portion of the brokerage commission paid to affiliated brokers.

No Fund paid commissions to affiliated brokers during the last three fiscal years. The Funds paid the following commissions to brokers during the fiscal years shown:

FORM OF AGREEMENT AND PLAN OF REORGANIZATION

In order to consummate the Reorganization and in consideration of the promises and the covenants and agreements hereinafter set forth, and intending to be legally bound, Van Kampen XXXXXX, a registered closed-end investment company, File No. 811-XXXX (the "Target Fund") and Van Kampen XXXXXX (the "Acquiring Fund"), a registered closed-end investment company, File No. 811-XXXX, each hereby agree as follows:

1. Representations and Warranties of the Acquiring Fund.

The Acquiring Fund represents and warrants to, and agrees with, the Target Fund that:

- (a) The Acquiring Fund is a trust, with transferable shares, duly organized, validly existing and in good standing in conformity with the laws of its jurisdiction of organization, and has the power to own all of its assets and to carry out this Agreement. The Acquiring Fund has all necessary federal, state and local authorizations to carry on its business as it is now being conducted and to carry out this Agreement.

- (b) The Acquiring Fund is duly registered under the Investment Company Act of 1940, as amended (the "1940 Act") as a [non-]diversified, closed-end management investment company and such registration has not been revoked or rescinded and is in full force and effect. The Acquiring Fund has elected and qualified for the special tax treatment afforded regulated investment companies ("RICs") under Section 851 of the Internal Revenue Code (the "Code") at all times since its inception and intends to continue to so qualify until consummation of the reorganization contemplated hereby (the "Reorganization") and thereafter.
- (c) The Target Fund has been furnished with the Acquiring Fund's Annual Report to Shareholders for the fiscal year ended XXXX, 2004, and the audited financial statements appearing therein, having been audited by Deloitte & Touche LLP, independent registered public accounting firm, fairly present the financial position of the Acquiring Fund as of the respective dates indicated, in conformity with accounting principles generally accepted in the United States applied on a consistent basis.

laws relating to or affecting creditors' rights generally and court decisions with respect thereto.

- (f) There are no material legal, administrative or other proceedings pending or, to the knowledge of the Acquiring Fund, threatened against it which assert liability on the part of the Acquiring Fund or which materially affect its financial condition or its ability to consummate the Reorganization. The Acquiring Fund is not charged with or, to the best of its knowledge, threatened with any violation or investigation of

any possible violation of any provisions of any federal, state or local law or regulation or administrative ruling relating to any aspect of its business.

- (g) The Acquiring Fund is not obligated under any provision of its Declaration of Trust, as amended, or its by-laws, as amended, and is not a party to any contract or other commitment or obligation, and is not subject to any order or decree which would be violated by its execution of or performance under this Agreement, except insofar as the Funds have mutually agreed to amend such contract or other commitment or obligation to cure any potential violation as a condition precedent to the Reorganization.

- (l) The Acquiring Fund is authorized to issue an unlimited number of common shares of beneficial interest, par value \$.01 per share (the "Acquiring Fund Common Shares"), and XXXX preferred shares of beneficial interest, par value \$.01 per share. All tax liabilities of the Acquiring Fund have been adequately provided for on its books, and no tax deficiency or liability of the Acquiring Fund has been asserted and no question with respect thereto has been raised by the Internal Revenue Service or by any state or local tax authority for taxes in excess of those already paid, up to and including the taxable year in which the Closing Date occurs.

- (r) The Acquiring Fund has elected to qualify and has qualified as a RIC as of and since its inception; has been a RIC under the Code at all times since the end of its first taxable year when it so qualified; qualifies and will continue to qualify as a RIC under the Code; and has satisfied the distribution requirements imposed by the Code for each of its taxable years.

- (d) The Target Fund has full power and authority to enter into and perform its obligations under this Agreement. The execution, delivery and performance of this Agreement has been duly authorized by all necessary action of its Board of Trustees and this Agreement constitutes a valid and binding contract enforceable in accordance with its terms, subject to the effects of bankruptcy, insolvency, moratorium, fraudulent conveyance and similar laws relating to or affecting

creditors' rights generally and court decisions with respect thereto.

- (e) The Acquiring Fund has been furnished with the Target Fund's Annual Report to Shareholders for the fiscal year ended XXXX, 2004, and the audited financial statements appearing therein, having been audited by Deloitte & Touche LLP, independent registered public accounting firm, fairly present the financial position of the Target Fund as of the respective dates indicated, in conformity with accounting principles generally accepted in the United States applied on a consistent basis.
- (f) An unaudited statement of assets, liabilities and capital of the Target Fund and an unaudited schedule of investments of the Target Fund, each as of the Valuation Time, will be furnished to the Acquiring Fund at or prior to the Closing Date for the purpose of determining the number of shares of Acquiring Fund Common Shares and Acquiring Fund APS to be issued to the Target Fund pursuant to Section 3 of this Agreement; each will fairly present the financial position of the Target Fund as of the Valuation Time in conformity with generally accepted accounting principles applied on a consistent basis.
- (g) There are no material legal, administrative or other proceedings pending or, to the knowledge of the Target Fund, threatened against it which assert liability on the part of the Target Fund or which materially affect its financial condition or its ability to consummate the Reorganization. The Target Fund is not charged with or, to the best of its knowledge, threatened with any violation or investigation of any possible violation of any provisions of any federal, state or local law or regulation or administrative ruling relating to any aspect of its business.

A-4

mutually agreed to amend such contract or other commitment or obligation to cure any potential violation as a condition precedent to the Reorganization.

- (j) The Target Fund has no known liabilities of a material amount, contingent or otherwise, other than those shown on its

statements of assets, liabilities and capital referred to above, those incurred in the ordinary course of its business as an investment company and those incurred in connection with the Reorganization. As of the Valuation Time, the Target Fund will advise the Acquiring Fund in writing of all known liabilities, contingent or otherwise, whether or not incurred in the ordinary course of business, existing or accrued as of such time.

- (k) The Target Fund has filed, or intends to file, or has obtained extensions to file, all federal, state and local tax returns which are required to be filed by it, and has paid or has obtained extensions to pay, all federal, state and local taxes shown on said returns to be due and owing and all assessments received by it, up to and including the taxable year in which the Closing Date occurs. All tax liabilities of the Target Fund have been adequately provided for on its books, and no tax deficiency or liability of the Target Fund has been asserted and no question with respect thereto has been raised by the Internal Revenue Service or by any state or local tax authority for taxes in excess of those already paid, up to and including the taxable year in which the Closing Date occurs.

At the Closing Date, subject only to the obligation to deliver the Target Fund Investments as contemplated by this Agreement, the Target Fund will have good and marketable title to all of the Target Fund Investments, and the Acquiring Fund will acquire all of the Target Fund Investments free and clear of any encumbrances, liens or security interests and without any restrictions upon the transfer thereof (except those imposed by the federal or state securities laws and those imperfections of title or encumbrances as do not materially detract from the value or use of the Target Fund Investments or materially affect title thereto).
- (m) No consent, approval, authorization or order of any court or governmental authority is required for the consummation by the Target Fund of the Reorganization, except such as may be required under the 1933 Act, the 1934 Act, the 1940 Act or state securities laws.
- (n) The N-14 Registration Statement, on its effective date, at the time of the shareholders' meetings called to vote on this Agreement and on the Closing Date, insofar as it relates to the Target Fund (i) complied or will comply in all material respects with the provisions of the 1933 Act, the 1934 Act and the 1940 Act and the rules and regulations thereunder, and (ii) did not or will not contain any untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary to make the statements therein not misleading; and the Joint Proxy Statement/Prospectus included therein did not or will not contain any untrue statement of a material fact or omit to state any material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading; provided, however, that the representations and warranties in this subsection shall apply only to statements in or omissions from the N-14 Registration Statement made in reliance upon and in conformity with information furnished by the Target Fund

for use in the N-14 Registration Statement.

A-5

- (o) The Target Fund is authorized to issue an unlimited number of common shares of beneficial interest, par value \$.01 per share (the "Target Fund Common Shares"), and XXXX preferred shares of beneficial interest, par value \$.01 per share. The Board of Trustees of the Acquiring Fund has designated XXXX preferred shares as Target Fund Preferred Shares (the "Target Fund Preferred Shares"). Each outstanding Target Fund Common Share and each of the outstanding Target Fund Preferred Shares is fully paid and, except as provided in Section 5.1 of the Target Fund's Declaration of Trust, nonassessable, and has full voting rights.
- (p) All of the issued and outstanding Target Fund Common Shares and Target Fund Preferred Shares were offered for sale and sold in conformity with all applicable federal and state securities laws.
- (q) The books and records of the Target Fund made available to the Acquiring Fund and/or its counsel are substantially true and correct and contain no material misstatements or omissions with respect to the operations of the Target Fund.
- (r) The Target Fund will not sell or otherwise dispose of any of the Acquiring Fund Common Shares or Acquiring Fund APS to be received in the Reorganization, except in distribution to the shareholders of the Target Fund, as provided in Section 3 of this Agreement.
- (s) The Target Fund has elected to qualify and has qualified as a "RIC" under the Code as of and since its inception; has been a RIC under the Code at all times since the end of its first taxable year when it so qualified; qualifies and will continue to qualify as a RIC under the Code for its taxable year ending upon its liquidation; and has satisfied the distribution requirements imposed by the Code for each of its taxable years.

3. The Reorganization.

- (a) Subject to receiving the requisite approvals of the shareholders of the Target Fund, and to the other terms and conditions contained herein, (i) the Target Fund agrees to convey, transfer and deliver to the Acquiring Fund and the Acquiring Fund agrees to acquire from the Target Fund, on the Closing Date, all of the Target Fund Investments (including interest accrued as of the Valuation Time on debt instruments), and assume substantially all of the liabilities of the Target Fund, in exchange for that number of Target Fund Common Shares and Target Fund Preferred Shares provided in Section 4 of this Agreement. Pursuant to this Agreement, as soon as practicable after the Closing Date, the Target Fund will distribute all Acquiring Fund Common Shares and Acquiring Fund APS received by it to its shareholders in exchange for their Target Fund Common Shares and Target Fund Preferred Shares. Such distributions shall be accomplished by the

opening of shareholder accounts on the share ledger records of the Acquiring Fund in the amounts due the shareholders of the Target Fund based on their respective holdings in the Target Fund as of the Valuation Time.

- (b) If it is determined that the portfolios of the Target Fund and the Acquiring Fund, when aggregated, would contain investments exceeding certain percentage limitations imposed upon the Acquiring Fund with respect to such investments, the Target Fund, if requested by the Acquiring Fund, will dispose of a sufficient amount of such investments as may be necessary to avoid violating such limitations as of the Closing Date. Notwithstanding the foregoing, (a) nothing herein will require the Target Fund to dispose of any portfolios, securities or other investments, if, in the reasonable judgment of the Target Fund's trustees or investment adviser, such disposition would adversely affect the tax-free nature of the Reorganization for federal income tax purposes or would otherwise not be in the best interests of the Target Fund, and (b) nothing will permit the Target Fund to dispose of any portfolio securities or other investments if, in the reasonable judgment of the Acquiring Fund's trustees or investment adviser, such disposition would adversely affect the tax-free nature of the Reorganization for federal income tax purposes or would otherwise not be in the best interests of the Acquiring Fund.
- (c) Prior to the Closing Date, the Target Fund shall declare a dividend or dividends which, together with all such previous dividends, shall have the effect of distributing to their respective shareholders all of their respective net investment company taxable income to and including the Closing Date, if any (computed without regard to any deduction for dividends paid), and all of its net capital gain, if any, realized to and including the Closing Date. In this regard and in connection with the Reorganization, the last dividend period for the Target Fund Preferred Shares prior to the Closing Date may be shorter than the dividend period for such Target Fund Preferred Shares determined as set forth in the applicable Certificate of Vote pertaining to such Target Fund Preferred Shares.
- (d) The Target Fund will pay or cause to be paid to the Acquiring Fund any interest the Target Fund receives on or after the Closing Date with respect to any of the Target Fund Investments transferred to the Acquiring Fund hereunder.

A-6

- (e) The Valuation Time shall be 4:00 p.m., Eastern time, on XXXX, 2005, or such earlier or later day and time as may be mutually agreed upon in writing (the "Valuation Time").
- (f) Recourse for liabilities assumed from the Target Fund by the Acquiring Fund in the Reorganization will be limited to the net assets acquired by the Acquiring Fund. The known liabilities of the Target Fund, as of the Valuation Time, shall be confirmed to the Acquiring Fund pursuant to Section 2(j) of this Agreement.

- (g) The Target Fund will be terminated following the Closing Date by terminating its registration under the 1940 Act and its organization under Pennsylvania law and will withdraw its authority to do business in any state where it is required to do so.

4. Issuance and Valuation of Acquiring Fund Common Shares and Acquiring Fund APS in the Reorganization.

Acquiring Fund Common Shares and Acquiring Fund APS of an aggregate net asset value or aggregate liquidation preference, as the case may be, equal to the value of the assets of the Target Fund acquired in the Reorganization determined as hereinafter provided, reduced by the amount of liabilities of the Target Fund assumed by the Acquiring Fund in the Reorganization, shall be issued by the Acquiring Fund to the Target Fund in exchange for such assets of the Target Fund. The Acquiring Fund will issue to the Target Fund (i) a number of Acquiring Fund Common Shares, the aggregate net asset value of which will equal the aggregate net asset value of the Target Fund Common Shares, determined as set forth below, and (ii) a number of Acquiring Fund APS, the aggregate liquidation preference and value of which will equal the aggregate liquidation preference and value of the Target Fund Preferred Shares, determined as set forth below.

The net asset value of each of the Funds and the liquidation preference and value of each of the Target Fund Preferred Shares and the Acquiring Fund APS shall be determined as of the Valuation Time in accordance with the regular procedures of the investment adviser, and no formula will be used to adjust the net asset value so determined of any Fund to take into account differences in realized and unrealized gains and losses. Values in all cases shall be determined as of the Valuation Time. The value of the Target Fund Investments to be transferred to the Acquiring Fund shall be determined pursuant to the regular procedures of the investment adviser.

Such valuation and determination shall be made by the Acquiring Fund in cooperation with the Target Fund and shall be confirmed in writing by the Acquiring Fund to the Target Fund. The net asset value per share of the Acquiring Fund Common Shares and the liquidation preference and value per share of the Acquiring Fund APS shall be determined in accordance with such procedures and the Acquiring Fund shall certify the computations involved. For purposes of determining the net asset value of each of a Target Fund Common Share and an Acquiring Fund Common Share, the value of the securities held by the applicable Fund plus any cash or other assets (including interest accrued but not yet received) minus all liabilities (including accrued expenses) and the aggregate liquidation value of the outstanding shares of Target Fund Preferred Shares or Acquiring Fund APS, as the case may be, is divided by the total number of Target Fund Common Shares or Acquiring Fund Common Shares, as the case may be, outstanding at such time.

A-7

The Acquiring Fund shall issue to the Target Fund separate certificates or share deposit receipts for the Acquiring Fund Common Shares and the Acquiring Fund APS, each registered in the name of the Target Fund. The Target Fund shall then distribute the Acquiring Fund Common Shares and the Acquiring Fund APS to the holders of Target Fund Common Shares and Target Fund Preferred Shares by redelivering the certificates or share deposit receipts evidencing ownership of (i) the Acquiring Fund Common Shares to EquiServe Trust Company, N.A., as the transfer agent and registrar for the Acquiring Fund Common Shares, for

distribution to the holders of Target Fund Common Shares on the basis of such holder's proportionate interest in the aggregate net asset value of the Target Fund Common Shares and (ii) the Acquiring Fund APS to Deutsche Bank Trust Company Americas, as the transfer agent and registrar for the Acquiring Fund APS, for distribution to the holders of Target Fund Preferred Shares on the basis of such holder's proportionate interest in the aggregate liquidation preference and value of the Target Fund Preferred Shares. With respect to any Target Fund shareholder holding certificates evidencing ownership of Target Fund Common Shares as of the Closing Date, and subject to the Acquiring Fund being informed thereof in writing by the Target Fund, the Acquiring Fund will not permit such shareholder to receive new certificates evidencing ownership of the Acquiring Fund Common Shares or Acquiring Fund APS, exchange Acquiring Fund Common Shares or Acquiring Fund APS credited to such shareholder's account for shares of other investment companies managed by the Adviser or any of its affiliates, or pledge or redeem such Acquiring Fund Common Shares or Acquiring Fund APS, in any case, until notified by the Target Fund or its agent that such shareholder has surrendered his or her outstanding certificates evidencing ownership of Target Fund Common Shares or Target Fund Preferred Shares or, in the event of lost certificates, posted adequate bond. The Target Fund, at its own expense, will request its shareholders to surrender their outstanding certificates evidencing ownership of Target Fund Common Shares or Target Fund Preferred Shares, as the case may be, or post adequate bond therefor.

No fractional shares of Acquiring Fund Common Shares will be issued to holders of Target Fund Common Shares unless such shares are held in a Dividend Reinvestment Plan account. In lieu thereof, the Acquiring Fund's transfer agent, EquiServe Trust Company, N.A., will aggregate all fractional Acquiring Fund Common Shares to be issued in connection with the Reorganization (other than those issued to a Dividend Reinvestment Plan account) and sell the resulting full shares on the New York Stock Exchange at the current market price for Acquiring Fund Common Shares for the account of all holders of such fractional interests, and each such holder will receive such holder's pro rata share of the proceeds of such sale upon surrender of such holder's certificates representing Acquiring Fund Common Shares.

5. Payment of Expenses.

- (a) With respect to expenses incurred in connection with the Reorganization, the Target Fund and the Acquiring Fund will share, in proportion to their respective projected annual expense savings, all expenses incurred in connection with the Reorganization, including, but not limited to, all costs related to the preparation and distribution of materials distributed to each Fund's Board of Trustees; expenses incurred in connection with the preparation of the Agreement and Plan of Reorganization and a registration statement on Form N-14; SEC and state securities commission filing fees and legal and audit fees in connection with the Reorganization; costs of printing and distributing the Joint Proxy Statement/ Prospectus; legal fees incurred preparing each Fund's board materials, attending each Fund's board meetings and preparing the minutes; auditing fees associated with each Fund's financial statements; stock exchange fees, rating agency fees, portfolio transfer taxes (if any) and any similar expenses incurred in connection with the Reorganization.
- (b) If for any reason the Reorganization is not consummated, no party shall be liable to any other party for any damages resulting therefrom, including, without limitation, consequential damages, and the investment adviser shall pay all expenses incurred by each Fund in connection with the Reorganization.

Neither the Acquiring Fund nor the Target Fund shall take any action or cause any action to be taken (including, without limitation, the filing of any tax return) that is inconsistent with such treatment or results in the failure of the transaction to qualify as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code. At or prior to the Closing Date, the Acquiring Fund and the Target Fund will take such action, or cause such action to be taken, as is reasonably necessary to enable Skadden, Arps, Slate, Meagher & Flom LLP ("Skadden"), special counsel to the

Funds, to render the tax opinion required herein (including, without limitation, each party's execution of representations reasonably requested by and addressed to Skadden.

In connection with this covenant, the Funds agree to cooperate with each other in filing any tax return, amended return or claim for refund, determining a liability for taxes or a right to a refund of taxes or participating in or conducting any audit or other proceeding in respect of taxes. Notwithstanding the aforementioned provisions of this subsection, any expenses incurred by the Target Fund (other than for payment of taxes) in connection with the preparation and filing of said tax returns after the Closing Date shall be borne by such Fund to the extent such expenses have been accrued by such Fund in the ordinary course without regard to the Reorganization; any excess expenses shall be borne by the investment adviser or an affiliate thereof.

At any time after ten (10) days from the giving of such notice, Indemnified Party may, at its option, resist, settle or otherwise compromise, or pay such claim unless it shall have received notice from Indemnitor that Indemnitor intends, at Indemnitor's sole cost and expense, to assume the defense of any such matter, in which case Indemnified Party shall have the right, at no cost or expense to Indemnitor, to participate in such defense. If Indemnitor does not assume the defense of such matter, and in any event until Indemnitor states in writing that it will assume the defense, Indemnitor shall pay all costs of Indemnified Party arising out of the defense until the defense is assumed; provided, however, that Indemnified Party shall consult with Indemnitor and obtain indemnitor's prior written consent to any payment or settlement of any such claim. Indemnitor shall keep Indemnified Party fully apprised at all times as to the status of the defense. If Indemnitor does not assume the defense, Indemnified Party shall keep Indemnitor apprised at all times as to the status of the defense. Following indemnification as provided for hereunder, Indemnitor shall be subrogated to all rights of Indemnified Party with respect to all third parties, firms or corporations relating to the matter for which indemnification has been

made.

(c) The APS shall rank on a parity with shares of any other series of Preferred Shares (including any other series of APS) as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund.

2. Dividends. (a) The Holder of any of the APS shall be entitled to receive, when, as and if declared by the Board of Trustees, out of funds legally available therefor, cumulative cash dividends at the Applicable Rate per annum thereof, determined as set forth in paragraph (c) of this Section 2, and no more

(except to the extent set forth in Section 12 of this Part I), payable on the respective dates (each a "Dividend Payment Date") determined as set forth in paragraph (b) of this Section 2. Dividends on the APS shall accumulate at the Applicable Rate per annum from the Date of Original Issue thereof.

(b) (i) Dividends shall be payable subject to subparagraph (b)(ii) of this Section 2, on Thursday, July 29, 1993 and each Thursday thereafter, provided that if the Fund, subject to the conditions set forth in Section 4 of this Part I, designates any Subsequent Dividend Period as a Special Dividend Period, dividends will be payable: (1) with respect to a Special Dividend Period of less than 35 days, the day after the last day thereof and (2) with respect to a Special Dividend Period of 35 days or more, the first Business Day of each calendar month thereafter provided that, in any calendar month in which an Auction Date is scheduled to occur, dividends shall be payable on the first Business Day next succeeding such Auction Date.

After any Special Dividend Period, dividends on the APS shall be payable, subject to subparagraph (b)(ii) of this Section 2, on each fourth succeeding Thursday, subject to the options of the Fund to further designate from time to time any Subsequent Dividend Period as a Special Dividend Period.

(ii) In the case of dividends that would otherwise be payable on a Monday, Tuesday, Wednesday, Thursday or Friday as determined by subparagraph (b)(i) of this Section 2, including clause (1), (2) or (3) of the proviso thereto, if (i) the Monday or Tuesday

B-2

that would otherwise be the Dividend Payment Date is not a Business Day, then dividends shall be payable on the first Business Day that falls after such Monday or Tuesday, or (ii) the Wednesday, Thursday or Friday that would otherwise be the Dividend Payment Date is not a Business Day, then dividends shall be payable on the first Business Day that falls prior to such Wednesday, Thursday or Friday.

(iii) The Fund shall pay to the Auction Agent not later than 12:00 noon, New York City time, on the Business Day next preceding each Dividend Payment Date of the APS, an aggregate amount of funds available on the next Business Day in The City of New York, New York, equal to the dividends to be paid to all Holders of shares on such Dividend Payment Date.

(iv) All moneys paid to the Auction Agent for the payment of dividends (or for the payment of any late charges pursuant to subparagraph (c)(i) of this Section 2) shall be held in trust for the payment of such dividends (and any such late charge) by the Auction Agent for the benefit of the Holders specified in subparagraph (b)(v) of this Section 2. Any moneys paid to the Auction Agent in accordance with the foregoing but not applied by the Auction Agent to the payment of dividends (and any late charge) will, to the extent permitted by law, be repaid to the Fund at the end of 90 days from the date on which such moneys were so to have been applied.

(v) Each dividend on the APS shall be paid on the

Dividend Payment Date therefor to the Holders as their names appear on the share books of the Fund on the Business Day next preceding such Dividend Payment Date. Dividends in arrears for any past Dividend Period may be declared and paid at any time, without reference to any regular Dividend Payment Date, to the Holders as their names appear on the share books of the Fund on such date, not exceeding 15 days preceding the payment date thereof, as may be fixed by the Board of Trustees.

(c) (i) The dividend rate on the APS during the period from and after the Date of Original Issue thereof to and including the last day of the Initial Dividend Period therefor shall be equal to the rate per annum set forth with respect to such APS under "Designation," above. For each Subsequent Dividend Period of any of the APS outstanding thereafter, the dividend rate shall be equal to the rate per annum that results from an Auction for such APS on the Auction Date next preceding such Subsequent Dividend Period; provided, however, that if an Auction for any Subsequent Dividend Period of the APS is not held for any reason or if a Failure to Deposit occurs with respect to the Initial Dividend Period or any Subsequent Dividend Period and such failure has not been cured as set forth below prior to any succeeding Subsequent Dividend Period thereof, then, subject to the next succeeding provision, the dividend rate on the APS for the Initial Dividend Period or any such Subsequent Dividend Period shall be the Maximum Rate (as defined herein) on the Auction Date for such Subsequent

B-3

Dividend Period; provided, further, however, that if any Failure to Deposit shall have occurred with respect to the APS during any Rate Period thereof, and prior to 12:00 noon, New York City time, on the third Business Day next succeeding the date on which such Failure to Deposit occurred, such Failure to Deposit shall not have been cured in accordance with the next succeeding sentence or the Fund shall not have paid to the Auction Agent a late charge equal to the sum of (1) if such Failure to Deposit consisted of the failure timely to pay to the Auction Agent the full amount of dividends with respect to any Dividend Period on the APS, an amount computed by multiplying (x) 200% of the Reference Rate (or Treasury Rate, if applicable) for the Rate Period during which such Failure to Deposit occurs on the Dividend Payment Date for such Dividend Period by (y) a fraction, the numerator of which shall be the number of days for which such Failure to Deposit has not been cured in accordance with the next succeeding sentence (including the day such Failure to Deposit occurs and excluding the day such Failure to Deposit is cured) and the denominator of which shall be 365, and applying the rate obtained against the aggregate liquidation preference of the outstanding APS and (2) if such Failure to Deposit consisted of the failure timely to pay to the Auction Agent the Redemption Price of the APS, if any, for which Notice of Redemption has been given by the Fund pursuant to paragraph (b) of Section 3 of this Part I, an amount computed by multiplying (x) 200% of the Reference Rate (or Treasury Rate, if applicable) for the Rate Period during which such Failure to Deposit occurs on the redemption date by (y) a fraction, the numerator of which shall be the number of days for which such failure is not cured in accordance with the next succeeding sentence (including the day such Failure to Deposit occurs and excluding the day such Failure to Deposit is cured) and the denominator of which shall be 365, and applying the rate obtained against the aggregate liquidation preference of the Outstanding APS to be redeemed, and such failure shall not have been cured as described herein, Auctions will be suspended until such failure is so cured and the

dividend rate for the APS for each Subsequent Dividend Period thereof commencing after such failure to and including the Subsequent Dividend Period, if any, during which such Failure to Deposit is so cured shall be a rate per annum equal to the Maximum Rate on the Auction Date for such Subsequent Dividend Period (but with the prevailing rating for such shares, for purposes of determining such Maximum Rate, being deemed to be "Below "ba3"/BB-") (the rate per annum at which dividends are payable on the APS for any Rate Period being herein referred to as the "Applicable Rate"). A Failure to Deposit with respect to the APS shall have been cured (if such Failure to Deposit is not solely due to the willful failure of the Fund to make the required payment to the Auction Agent) with respect to any Rate Period if, not later than 12:00 noon, New York City time, on the fourth Business Day preceding the Auction Date for the Rate Period subsequent to such Rate Period the Fund shall have paid to the Auction Agent (A) all accumulated and unpaid dividends on the APS and (B) without duplication, the Redemption Price for the APS, if any, for which Notice of Redemption has been given by the Fund pursuant to paragraph (b) of Section 3 of this Part I.

(ii) The amount of dividends per share payable on the APS on any date on which dividends shall be payable on shares shall be computed by multiplying the respective Applicable Rate in effect for such Dividend Period or Dividend Periods or part thereof for which dividends have not been paid by a fraction, the numerator of which shall

B-4

be the number of days in such Dividend Period or Dividend Periods or part thereof and the denominator of which shall be 365 if such Dividend Period is a Rate Period, or is contained in a Rate Period, of less than one year and 360 for all other Dividend Periods, and applying the rate obtained against \$50,000.

(d) Any dividend payment made on the APS shall first be credited against the earliest accumulated but unpaid dividends due with respect to such APS.

(e) Except as set forth in the next sentence, no dividends shall be declared or paid or set apart for payment on the shares of any class or series of shares ranking, as to the payment of dividends, on a parity with the APS for any period unless full cumulative dividends have been or contemporaneously are declared and paid on the APS through the most recent Dividend Payment Date. When dividends are not paid in full upon the APS through their most recent respective Dividend Payment Dates or upon the shares for any other class or series of shares ranking on a parity as to the payment of dividends with the APS through their most recent respective dividend payment dates, all dividends declared upon the APS and any other such class or series of shares ranking on a parity as to the payment of dividends with the APS shall be declared pro rata so that the amount of dividends declared per share on the APS and such other class or series of shares shall in all cases bear to each other the same ratio that accumulated dividends per share on the APS and such other class or series of shares bear to each other (for purposes of this sentence, the amount of dividends declared per share shall be based on the Applicable Rate for such shares for the Dividend Periods during which dividends were not paid in full). Holders of the APS shall not be entitled to any dividend, whether payable in cash, property or shares, in excess of full cumulative dividends, as herein provided, on the APS. No interest, or sum of money in lieu of interest, shall be payable in respect of any dividend payment or payments on the APS which may be

in arrears, and, except to the extent set forth in subsection (c)(i) of this Section 2, no additional sum of money shall be payable in respect of any such arrearage.

(f) Dividends on the APS shall be designated as exempt-interest dividends up to the amount of tax-exempt income of the Fund, to the extent permitted by, and for purposes of, Section 852 of the Internal Revenue Code of 1986, as amended from time to time.

(g) The Board of Trustees shall not declare any dividend (except a dividend payable in Common Shares), or declare any other distribution, upon the Common Shares, or purchase Common Shares, unless in every such case the APS have, at the time of any such declaration or purchase, an asset coverage (as defined in and determined pursuant to the 1940 Act) of at least 200% (or such other asset coverage as may in the future be specified in or under the 1940 Act as the minimum asset coverage for senior securities which are stock of a closed-end investment company as a condition of declaring dividends on its common stock) after deducting the amount of such dividend, distribution or purchase price, as the case may be.

B-5

3. Redemption. (a) (i) After the Initial Dividend Period with respect to the APS and upon giving a Notice of Redemption, as provided below, the Fund at its option may redeem the APS, in whole or in part, on the second Business Day next preceding any Dividend Payment Date applicable to those APS called for redemption, out of funds legally available therefor, at the Optional Redemption Price; provided that during a Special Dividend Period of 365 days or more no APS will be subject to optional redemption during any Non-Call Period; provided, that the APS may not be redeemed in part if after such partial redemption fewer than 250 shares remain outstanding.

(ii) If fewer than all of the outstanding APS are to be redeemed pursuant to subparagraph (a)(i) of this Section 3, the number of APS to be redeemed shall be determined by the Board of Trustees, and such APS shall be redeemed pro rata from the Holders in proportion to the number of such APS held by such Holders.

(iii) No APS shall be redeemed pursuant to subparagraphs (a)(i) or (a)(ii) of this Section 3 unless, on the date on which the Fund intends to give notice of such redemption pursuant to paragraph (b) of this Section 3, (a) the Fund has available Deposit Securities with maturity or tender dates not later than the day preceding the applicable redemption date and having a value not less than the amount (including the applicable premium, if any) due to Holders of the APS by reason of the redemption of such shares on such redemption date and (b) a Discounted Value of Moody's Eligible Assets (if Moody's is then rating the APS) and S&P Eligible Assets (if S&P is then rating the APS) each at least equal the APS Basic Maintenance Amount immediately subsequent to such redemption, if such redemption were to occur on such date, and on the date of redemption.

(iv) Subject to Section 3(g), the Fund shall redeem at the Mandatory Redemption Price certain of the APS if the Fund fails to maintain a Discounted Value of Moody's Eligible Assets or S&P Eligible Assets in an amount greater than or equal to the APS Basic

Maintenance Amount or fails to maintain 1940 Act APS Asset Coverage in accordance with the requirements of the rating agency or agencies when rating the APS and such failure is not cured on or before the APS Basic Maintenance Cure Date or the 1940 Act Cure Date, as the case may be. The number of APS to be redeemed shall be equal to the lesser of (i) the minimum number of APS the redemption of which, if deemed to have occurred immediately prior to the opening of business on the Cure Date, together with all other Preferred Shares subject to redemption or retirement, would result in the satisfaction of the APS Basic Maintenance Amount or the 1940 Act APS Asset Coverage, as the case may be, on such Cure Date (provided that, if there is no such minimum number of APS and other Preferred Shares the redemption of which would have such result, all the APS and preferred then outstanding shall be redeemed), and (ii) the maximum number of APS, together with all other Preferred Shares subject

B-6

to redemption or retirement, that can be redeemed out of funds expected to be legally available therefor. In determining the APS required to be redeemed in accordance with the foregoing, the Fund shall allocate the number required to be redeemed to satisfy the APS Basic Maintenance Amount or the 1940 Act APS Asset Coverage, as the case may be, pro rata among the APS and other Preferred Shares subject to redemption provisions similar to those contained in this subparagraph (a)(iv) of this Section 3. The Fund shall effect such redemption not earlier than 20 days and not later than 40 days after such Cure Date, except that if the Fund does not have funds legally available for the redemption of all of the required number of APS and other Preferred Shares which are subject to redemption provisions similar to those contained in this subparagraph (a)(iv) of this Section 3 or the Fund otherwise is unable to effect such redemption on or prior to 40 days after such Cure Date, the Fund shall redeem those APS and other Preferred Shares which it was unable to redeem on the earliest practicable date on which it is able to effect such redemption. If fewer than all of the outstanding APS are to be redeemed pursuant to this Section 3(a)(iv), the number of APS to be redeemed shall be redeemed pro rata from the Holders of such APS in proportion to the number of shares held by such Holders.

(b) The Fund is required to give 30 days Notice of Redemption. In the event the Fund obtains appropriate exemptive or no-action relief from the Securities and Exchange Commission, the number of days' notice required for a mandatory redemption may be reduced by the Board of Trustees of the Fund to as few as two Business Days if Moody's and S&P each has agreed in writing that the revised notice provision would not adversely affect its then-current ratings of the APS. The Auction Agent will use its reasonable efforts to provide telephonic notice to each holder of APS called for redemption not later than the close of business on the Business Day on which the Auction Agent determines the shares to be redeemed (as described above) (or, during the occurrence of a Failure to Deposit with respect to such shares, not later than the close of business on the Business Day immediately following the day on which the Auction Agent receives Notice of Redemption from the Fund). Such telephonic notice will be confirmed promptly in writing not later than the close of business on the third Business Day preceding the redemption date by notice sent by the Auction Agent to each holder of record of the APS called for redemption, the Broker-Dealers and the

Securities Depository. Every Notice of Redemption and other redemption notice with respect to APS will state: (1) the redemption date, (2) the number of APS to be redeemed, (3) the redemption price, (4) that dividends on the APS to be redeemed will cease to accumulate as of such redemption date and (5) the provision of the APS Provisions pursuant to which such shares are being redeemed. No defect in the Notice of Redemption or other redemption notice or in the transmittal or the mailing thereof will affect the validity of the redemption proceedings, except as required by applicable law. If fewer than all of the APS held by any Holder are to be redeemed, the Notice of Redemption mailed to such Holder shall also specify the number of APS to be redeemed from such Holder.

B-7

(c) Notwithstanding the provisions of paragraph (a) of this Section 3, if any dividends on the APS are in arrears, none of the APS shall be redeemed unless all outstanding shares of the APS are simultaneously redeemed, and the Fund shall not purchase or otherwise acquire any such APS; provided, however, that the foregoing shall not prevent the purchase or acquisition of all outstanding APS pursuant to the successful completion of an otherwise lawful purchase or exchange offer made on the same terms to, and accepted by, Holders of all outstanding APS.

(d) Upon the deposit of funds sufficient to redeem the APS with the Auction Agent and the giving of Notice of Redemption under Paragraph (b) of this Section 3, dividends on such shares shall cease to accumulate and such shares shall no longer be deemed to be outstanding for any purpose, and all rights of the Holders of the shares so called for redemption shall cease and terminate, except the right of such Holders to receive the Optional Redemption Price or Mandatory Redemption Price, as the case may be, but without any interest or other additional amount, except as provided in Section 2(c)(i) and in Section 12. Upon surrender in accordance with the Notice of Redemption of the certificates for any shares so redeemed (properly endorsed or assigned for transfer, if the Board of Trustees shall so require and the Notice of Redemption shall so state), the Optional Redemption Price or Mandatory Redemption Price, as the case may be, shall be paid by the Auction Agent to the Holders of the APS subject to redemption. In the case that fewer than all of the shares represented by any such certificate are redeemed, a new certificate shall be issued, representing the unredeemed shares, without cost to the Holder thereof. The Fund shall be entitled to receive from the Auction Agent, promptly after the date fixed for redemption, any cash deposited with the Auction Agent in excess of (i) the aggregate Optional Redemption Price of the APS called for redemption on such date and (ii) all other amounts to which Holders of the APS called for redemption may be entitled. Any funds so deposited that are unclaimed at the end of 90 days from such redemption date shall, to the extent permitted by law, be repaid to the Fund, after which time the Holders of the APS so called for redemption may look only to the Fund for payment of the Optional Redemption Price or Mandatory Redemption Price, as the case may be, and all other amounts to which they may be entitled. The Fund shall be entitled to receive, from time to time after the date fixed for redemption, any interest on the funds so deposited.

(e) To the extent that any redemption for which Notice of Redemption has been given is not made by reason of the absence of legally available funds therefor, such redemption shall be made as soon as practicable to the extent such funds become available. Failure to redeem the APS shall be

deemed to exist at any time after the date specified for redemption in a Notice of Redemption when the Fund shall have failed, for any reason whatsoever, to deposit in trust with the Auction Agent the Redemption Price with respect to any shares for which such Notice of Redemption has been given. Notwithstanding the fact that the Fund may not have redeemed the APS for which a Notice of Redemption has been given, dividends may be declared and paid on the APS and shall include those APS for which a Notice of Redemption has been given.

(f) All moneys paid to the Auction Agent for payment of the Optional Redemption Price or Mandatory Redemption Price, as the case may be, of the

B-8

APS called for redemption shall be held in trust by the Auction Agent for the benefit of Holders of shares so to be redeemed.

(g) In effecting any redemption pursuant to this Section 3, the Fund shall use its best efforts to comply with all applicable procedural conditions precedent to effecting such redemption under the 1940 Act and Pennsylvania law, but shall effect no redemption except to the extent permitted by the 1940 Act and Pennsylvania law.

(h) In the case of any redemption pursuant to this Section 3, only whole APS shall be redeemed, and in the event that any provision of the Declaration of Trust would require redemption of a fractional share, the Auction Agent shall be authorized to round up so that only whole shares are redeemed.

4. Designation of Special Dividend Periods. (a) The Fund, at its option, may designate any succeeding Subsequent Dividend Period of the APS as a Special Rate Period; provided, however, that such designation shall be effective only if (A) notice thereof shall have been given in accordance with paragraph (b) and clause (i) of paragraph (c) of this Section 4, (B) any Failure to Deposit that shall have occurred with respect to the APS during any Dividend Period shall have been cured in accordance with the provisions of the third sentence of paragraph (c)(i) of Section 2 of this Part I, (C) Sufficient Clearing Bids (as defined in Section 1 of Part II hereof) for such APS shall have existed in an Auction held on the Auction Date immediately preceding the first day of such proposed Special Dividend Period, (D) if any Notice of Redemption shall have been mailed by the Fund pursuant to paragraph (b) of Section 3 of this Part I with respect to any of the APS, the Redemption Price with respect to such shares shall have been deposited with the Auction Agent and (E) in the event the Fund wishes to designate any succeeding Subsequent Dividend Period for such APS as a Special Dividend Period consisting of more than 28 Rate Period Days, the Fund has provided notice and an APS Basic Maintenance Report that states that the Discounted Value of S&P Eligible Assets or Moody's Eligible Assets, as the case may be is greater than or equal to the APS Basic Maintenance Amount to S&P (if S&P is then rating the APS) and Moody's (if Moody's is then rating the APS).

(b) If the Fund proposes to designate any succeeding Subsequent Dividend Period of the APS as a Special Dividend Period of more than 28 Rate Period Days pursuant to paragraph (a) of this Section 4, not less than 20 nor more than 30 days prior to the date the Fund proposes to designate as the first day of such Special Dividend Period (which shall be such day that would otherwise be the first day of a Minimum Dividend Period), notice shall be (i)

published or caused to be published by the Fund in a newspaper of general circulation to the financial community in The City of New York, New York, which carries financial news, and (ii) communicated by the Fund by telephonic or other means to the Auction Agent and confirmed in writing promptly thereafter. Each such notice shall state (A) that the Fund may exercise its option to designate a succeeding Subsequent Dividend Period of such APS as a Special Dividend Period, specifying the first day thereof and (B) that the Fund will by 11:00 a.m., New York City time, on the second Business Day next preceding such date notify the Auction

B-9

Agent of either (x) its determination, subject to certain conditions, to exercise such option, in which case the Fund shall specify the Special Dividend Period designated and the terms of the Specific Redemption Provisions, if any, or (y) its determination not to exercise such option.

(c) No later than 11:00 a.m., New York City time, on the second Business Day next preceding the first day of any proposed Special Dividend Period the Fund shall delivery to the Auction Agent either:

(i) a notice stating (A) that the Fund has determined to designate the next succeeding Dividend Period as a Special Dividend Period, specifying the same and the first day thereof, (B) the Auction Date immediately prior to the first day of such Special Dividend Period, (C) the terms of the Specific Redemption Provisions, if any, (D) that such Special Dividend Period shall not commence if (1) on such Auction Date Sufficient Clearing Bids shall not exist (in which case the succeeding Rate Period shall be a Minimum Dividend Period) or (2) a Failure to Deposit shall have occurred prior to the first day of such Special Dividend Period and (E) the scheduled Dividend Payment Dates for such APS during such Special Dividend Period; provided - ----- that, if such Special Dividend Period consists of more than 28 Rate Period Days, such notice will be accompanied by an APS Basic Maintenance Report showing that, as of the third Business Day next preceding such proposed Special Dividend Period, (1) a Discounted Value of Moody's Eligible Assets, assuming for the purposes of calculating Moody's Eligible Assets, in connection with an APS Basic Maintenance Report required to be prepared pursuant to this Section 4(c)(i), a Moody's Exposure Period of "eight weeks or less but greater than seven weeks" (if Moody's is then rating such APS) and (2) a Discounted Value of S&P Eligible Assets (if S&P is then rating such APS) each at least equal the APS Basic Maintenance Amount as of such Business Day (assuming for purposes of the foregoing calculation that the Maximum Rate is the Maximum Rate on such Business Day as if such Business Day were the Auction Date for the proposed Special Dividend Period); or

(ii) a notice stating that the Fund has determined not to exercise its option to designate a Special Dividend Period for such APS and that the next succeeding Dividend Period of such APS shall be a Minimum Dividend Period.

If the Fund fails to deliver either such notice with respect to any designation of any proposed Special Dividend Period to the Auction Agent by 11:00 a.m., New York City time, on the second Business Day next preceding the first day of such proposed Special Dividend Period, the Fund shall be deemed to have delivered a

notice to the Auction Agent with respect to such Special Dividend Period of the effect such forth in clause (ii) of the preceding sentence.

B-10

5. Voting Rights. (a) Except as otherwise provided in the Declaration of Trust or as otherwise required by law, (i) each holder of APS shall be entitled to one vote for each of the APS held on each matter submitted to a vote of shareholders of the Fund, and (ii) the holders of outstanding Preferred Shares, including APS, and of Common Shares shall vote together as a single class; provided that, at a meeting of the shareholders of the Fund held for the election of the trustees, the holders of outstanding Preferred Shares, including APS, represented in person or by proxy at said meeting, shall elect two trustees of the Fund, each Preferred Share, including each of the APS, entitling the holder thereof to one vote. Subject to paragraph (b) of this Section 5, the holders of outstanding Common Shares shall elect the balance of the trustees.

(b) During any period in which any one or more of the conditions described below shall exist (such period being referred to herein as a "Voting Period"), the number of trustees constituting the Board of Trustees shall be automatically increased by the smallest number that, when added to the two trustees elected exclusively by the holders of Preferred Shares, including APS, would constitute a majority of the Board of Trustees as so increased by such smallest number, and the holders of Preferred Shares, including APS, shall be entitled, voting as a class on a one-vote-per-share basis (to the exclusion of the holders of all other securities and class of capital shares of the Fund), to elect such smallest number of additional trustees, together with the two trustees that such holders are in any event entitled to elect. A Voting Period shall commence:

(i) if at the close of business on any Dividend Payment Date accumulated dividends (whether or not earned or declared) on Preferred Shares, including any outstanding APS, equal to at least two full years' dividends shall be due and unpaid and sufficient cash or specified securities shall not have been deposited with the Auction Agent for the payment of such accumulated dividends; or

(ii) if at any time holders of any other Preferred Shares are entitled under the 1940 Act to elect a majority of the trustees of the Fund.

Such Voting Period shall terminate if (i) the Fund thereafter shall pay, or declare a dividend and deposit cash or securities with the Auction Agent, equal to accumulated dividends payable on outstanding Preferred Shares; or (ii) such voting right to the holders of any other Preferred Shares to elect a majority of the trustees of the Fund shall cease. Upon the termination of a Voting Period, the voting rights described in this paragraph (b) of Section 5 shall cease, subject always, however, to the reversion of such voting rights in the Holders upon the further occurrence of any of the events described in this paragraph (b) of Section 5.

(c) (i) As soon as practicable after the accrual of any right of the holders of Preferred Shares to elect additional trustees as described in paragraph (b) of this Section 5, the Fund shall notify the Auction Agent and the Auction Agent shall call a special meeting of such holders, by mailing a notice of such special meeting to such holders, such meeting to be held not less than 10 nor more than 20 days after the date of

B-11

mailing of such notice. If the Fund fails to send such notice to the Auction Agent or if the Auction Agent does not call such a special meeting, it may be called by any such holder on like notice. The record date for determining the holders entitled to notice of and to vote at such special meeting shall be the close of business on the fifth Business Day preceding the day on which such notice is mailed. At any such special meeting and at each meeting of holders of Preferred Shares held during a Voting Period at which trustees are to be elected, such holders, voting together as a class (to the exclusion of the holders of all other securities and classes of capital shares of the Fund), shall be entitled to elect the number of trustees prescribed in paragraph (b) of this Section 5 on a one-vote-per-share basis.

(ii) For purposes of determining any rights of the Holders to vote on any matter, whether such right is created by this Certificate of Vote, by the other provisions of the Declaration of Trust, by statute or otherwise, no Holder shall be entitled to vote and no APS shall be deemed to be "outstanding" for the purpose of voting or determining the number of shares required to constitute a quorum if, prior to or concurrently with the time of determination of shares entitled to vote or shares deemed outstanding for quorum purposes, as the case may be, the Redemption Price for the redemption of such shares has been deposited in trust with the Auction Agent for that purpose and the requisite Notice of Redemption with respect to such shares shall have been given as provided in Section 3 of this Part I. None of the APS held by the Fund or any affiliate of the Fund shall have any voting rights or be deemed to be outstanding for voting or other purposes.

(iii) The terms of office of all persons who are Trustees of the Fund at the time of a special meeting of Holders and holders of other Preferred Shares to elect trustees shall continue, notwithstanding the election at such meeting by the Holders and such other holders of the number of directors that they are entitled to elect, and the persons so elected by the Holders and such other holders, together with the two incumbent trustees elected by the Holders and such other holders of Preferred Shares and the remaining incumbent trustees elected by the holders of the Common Shares, shall constitute the duly elected trustees of the Fund.

(iv) Simultaneously with the termination of a Voting Period, the terms of office of the additional trustees elected by the Holders and holders of other Preferred Shares pursuant to paragraph (b) of this Section 5 shall terminate, the remaining trustees shall constitute the trustees of the Fund and the voting rights of the Holders and such other holders to elect additional trustees pursuant to paragraph (b) of this Section 5 shall cease, subject to the provisions of the last sentence of paragraph (b) of this Section 5.

B-12

(d) (i) So long as any of the APS are Outstanding, the Fund shall not, without the affirmative vote of the Holders of the Outstanding APS determined with reference to a "majority of outstanding voting securities" as that term is defined in Section 2(a)(42) of the 1940 Act (voting separately as one class): (a) authorize, create or issue any class or series of shares of beneficial interest ranking prior to or on a parity with the APS with respect to the payment of dividends or the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund, or increase the authorized amount of APS (except that, notwithstanding the foregoing, but subject to the provisions of Section 13, the Board of Trustees, without the vote or consent of the Holders of APS, may from time to time authorize and create, and the Fund may from time to time issue, classes or series of Preferred Shares, including APS, ranking on a parity with the APS with respect to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund, subject to continuing compliance by the Fund with 1940 Act APS Asset Coverage and APS Basic Maintenance Amount requirements, provided that the Fund obtains written confirmation from Moody's (if Moody's is then rating APS) and S&P (if S&P is then rating APS) that the issuance of such class or series would not impair the rating then assigned by such rating agency to the APS), (b) amend, alter or repeal the provisions of the Declaration of Trust, including this Certificate of Vote, whether by merger, consolidation or otherwise, so as to affect any preferences, right or power of such APS or the Holders thereof; provided that (i) none of the actions permitted by the exception to (a) above will be deemed to affect such preferences, rights or powers and (ii) the authorization, creation and issuance of classes or series of shares ranking junior to the APS with respect to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund, will be deemed to affect such preferences, rights or powers only if Moody's or S&P is then rating the APS and such issuance would, at the time thereof, cause the Fund not to satisfy the 1940 Act APS Asset Coverage or the APS Basic Maintenance Amount, or (c) file a voluntary application for relief under Federal bankruptcy law or any similar application under state law for so long as the Fund is solvent and does not foresee becoming insolvent.

(ii) The Board of Trustees, without the vote or consent of the Holders of APS, may from time to time amend, alter or repeal any or all of the definitions of the terms listed below, and any such amendment, alteration or repeal will not be deemed to affect the preferences, rights or powers of the APS or the Holders thereof, provided the Board of Trustee receives written confirmation from Moody's (such confirmation being required to be obtained only in the event Moody's is rating the APS and in no event being required to be obtained in the case of the definitions of Deposit Securities, Discounted Value and Receivables for Pennsylvania Municipal Securities Sold as such terms apply to S&P Eligible Assets, Dividend Coverage Amount, Dividend Coverage Assets, Minimum Liquidity Level, S&P Discount Factor, S&P Eligible Assets, S&P Exposure Period and Valuation Date as such term applies to the definitions of Dividend Coverage Amount, Dividend Coverage Assets and Minimum Liquidity Level) and S&P (such confirmation being required to be obtained only in the event S&P is rating the APS and in no event being

required to be obtained in the case of the definitions of Discounted Value and Receivables for Pennsylvania Municipal Securities Sold as such terms apply to Moody's Eligible Assets, Moody's Discount Factor, Moody's Eligible Asset and Moody's Exposure Period) that any such amendment, alteration or repeal would not impair the ratings then assigned by Moody's or S&P, as the case may be, to the APS (provided that, with respect to the Maximum Rate, such amendment or alteration shall not, in any event, cause the Maximum Rate to fall below the Maximum Rate that would have resulted absent such amendment or alteration):

(e) Unless otherwise required by law, the Holders of the APS shall not have any relative rights or preferences or other special rights other than those specifically set forth herein. The Holders of the APS shall have no preemptive rights or rights to cumulative voting. In the event that the Fund fails to pay any dividends on the APS, the exclusive remedy of the Holders shall be the right to vote for trustees pursuant to the provisions of this Section 5.

B-14

(f) Unless a higher percentage is provided for in the Declaration of Trust, the affirmative vote of the Holders of a majority of the outstanding APS, voting as a separate class, shall be required to approve any plan of reorganization (as such term is used in the 1940 Act) adversely affecting such shares or any action requiring a vote of security holders of the Fund under Section 13(a) of the 1940 Act. In the event a vote of Holders of APS

is required pursuant to the provisions of Section 13(a) of the 1940 Act, the Fund shall, not later than ten Business Days prior to the date on which such vote is to be taken, notify Moody's (if Moody's is then rating the APS) and S&P (if S&P is then rating the APS) that such vote is to be taken and the nature of the action with respect to which such vote is to be taken. In addition, the Fund shall notify Moody's (if Moody's is then rating the APS) and S&P (if S&P is then rating the APS) of the results of any vote described in the proceeding sentence.

6. Liquidation Rights. (a) Upon the dissolution, liquidation or winding up of the affairs of the Fund, whether voluntary or involuntary, the Holders of the APS then outstanding shall be entitled to receive and to be paid out of the assets of the Fund available for distribution to its shareholders, before any payment or distribution shall be made on the Common Shares or on any other class of shares of the Fund ranking junior to the APS upon dissolution, liquidation or winding up, an amount equal to the liquidation preference with respect to such shares. The liquidation preference for the APS shall be \$50,000 per share, plus an amount equal to all dividends thereon (whether or not earned or declared) accumulated but unpaid to the date of final distribution in same-day funds, together with any payments required to be made pursuant to Section 12 in connection with the liquidation of the Fund.

(b) Neither the sale of all or substantially all the property or business of the Fund, nor the merger or consolidation of the Fund into or with any other corporation nor the merger or consolidation of any other corporation into or with the Fund shall be a dissolution, liquidation or winding up, whether voluntary or involuntary, for the purposes of this Section 6.

(c) After the payment to the Holders of the APS of the full preferential amounts provided for in this Section 6, the Holders of the APS as such shall have no right or claim to any of the remaining assets of the Fund.

(d) In the event the assets of the Fund available for distribution to the Holders of the APS upon any dissolution, liquidation or winding up of the affairs of the Fund, whether voluntary or involuntary, shall be insufficient to pay in full all amounts to which such Holders are entitled pursuant to paragraph (a) of this Section 6, no such distribution shall be made on account of any shares of any other class or series of Preferred Shares ranking on a parity with the APS with respect to the distribution of assets upon such dissolution, liquidation or winding up unless proportionate distributive amounts shall be paid on account of the APS, ratably, in proportion to the full distributable amounts for which holders of all such parity shares are respectively entitled upon such dissolution, liquidation or winding up.

B-15

(e) Subject to the rights of the holders of shares of any series or class or classes of shares ranking on a parity with the APS with respect to the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund, after payment shall have been made in full to the Holders of the APS as provided in paragraph (a) of this Section 6, but not prior thereto, any other series or class or classes of shares ranking junior to the APS with respect to the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund shall, subject to the respective terms and provisions (if any) applying thereto, be entitled to receive any and all assets remaining to be paid or distributed, and the Holders of the APS shall not be entitled to share therein.

7. Auction Agent. For so long as any of the APS is outstanding, the Auction Agent, duly appointed by the Fund to so act, shall be in each case a commercial bank, trust company or other financial institution independent of the Fund and its affiliates (which, however, may engage or have engaged in business transactions with the Fund or its affiliates) and at no time shall the Fund or any of its affiliates act as the Auction Agent in connection with the Auction Procedures. If the Auction Agent resigns or for any reason its appointment is terminated during any period that any of the APS is outstanding, the Board of Trustees shall use its best efforts promptly thereafter to appoint another qualified commercial bank, trust company or financial institution to act as the Auction Agent.

8. 1940 Act APS Asset Coverage. The Fund shall maintain, as of the last Business Day of each month in which any of the APS is outstanding, the 1940 Act APS Asset Coverage.

9. APS Basic Maintenance Amount. (a) So long as APS are Outstanding, the Fund shall maintain, on each Valuation Date, and shall verify to its satisfaction that it is maintaining on such Valuation Date, (i) S&P Eligible Assets having an aggregate Discounted Value equal to or greater than the APS Basic Maintenance Amount (if S&P is then rating the APS) and (ii) Moody's Eligible Assets having an aggregate Discounted Value equal to or greater than the APS Basic Maintenance Amount (if Moody's is then rating the APS). In managing the Fund's portfolio, the Adviser will not alter the composition of the Fund's portfolio if, in the reasonable belief of the Adviser, the effect of any such alteration would be to cause the Fund to have Eligible Assets with an aggregate Discounted Value, as of the immediately preceding Valuation Date, less than the APS Basic Maintenance Amount as of such Valuation Date; provided, however, that in the event that, as of the immediately preceding Valuation Date, the aggregate Discounted Value of the Fund's Eligible Assets exceeded the APS Basic Maintenance Amount by five percent or less, the Adviser will not alter the composition of the Fund's portfolio in a manner reasonably expected to reduce the aggregate Discounted Value of the Fund's Eligible Assets unless the Fund shall have confirmed that, after giving effect to such alteration, the aggregate Discounted Value of the Fund's Eligible Assets would exceed the APS Basic Maintenance Amount.

(b) On or before 5:00 p.m., New York City time, on the third Business Day after a Valuation Date on which the Fund fails to maintain a Discounted

B-16

Value of Moody's Eligible Assets or S&P Eligible Assets in an amount greater than or equal to the APS Basic Maintenance Amount, and on the third Business Day after the APS Basic Maintenance Cure Date with respect to such Valuation Date, the Fund shall complete and deliver to S&P (if S&P is then rating the APS), Moody's (if Moody's is then rating the APS) and the Auction Agent (if either S&P or Moody's is then rating the APS) an APS Basic Maintenance Report as of the date of such failure or such APS Basic Maintenance Cure Date, as the case may be, which will be deemed to have been delivered to the Auction Agent if the Auction Agent receives a copy or telecopy, telex or other electronic transcription thereof and on the same day the Fund mails to the Auction Agent for delivery on the next Business Day the full APS Basic Maintenance Report. The Fund will also deliver an APS Basic Maintenance Report to Moody's and S&P on any Valuation Date that (i) the Discounted Value of Moody's Eligible Assets or S&P

Eligible Assets, as the case may be, is greater than the APS Basic Maintenance Amount by 5% or less or (ii) on any date which the Fund redeems Common Shares. The Fund will also deliver an APS Basic Maintenance Report to S&P upon its request. A failure by the Fund to deliver an APS Basic Maintenance Report under subparagraph (b) of this Section 9 shall be deemed to be delivery of an APS Basic Maintenance Report indicating the Discounted Value for all assets of the Fund is less than the APS Basic Maintenance Amount, as of the relevant Valuation Date.

(c) Within ten Business Days after a Quarterly Valuation Date, the Fund shall cause the Independent Accountant to confirm in writing to S&P (if S&P is then rating the APS), Moody's (if Moody's is then rating the APS) and the Auction Agent (if either S&P or Moody's is then rating the APS) (i) the mathematical accuracy of the calculations reflected in the APS Basic Maintenance Report prepared by the Fund on such date (and in any other APS Basic Maintenance Report, randomly selected by the Independent Accountant, that was delivered by the Fund during the quarter ending on such Quarterly Valuation Date) and (ii) that, in such Report (and in such randomly selected Report), the Fund determined in accordance with this Certificate of Vote whether the Fund had, at such Quarterly Valuation Date (and at the Valuation Date addressed in such randomly-selected Report), S&P Eligible Assets (if S&P is then rating the APS) of an aggregate Discounted Value at least equal to the APS Basic Maintenance Amount and Moody's Eligible Assets (if Moody's is then rating the APS) of an aggregate Discounted Value at least equal to the APS Basic Maintenance Amount (such confirmation being herein called the "Accountant's Confirmation").

(d) Within ten Business Days after the date of delivery of an APS Basic Maintenance Report in accordance with paragraph (b) of this Section 9 relating to any Valuation Date on which the Fund failed to maintain a Discounted Value of Moody's Eligible Assets or S&P Eligible Assets in an amount greater than or equal to the APS Basic Maintenance Amount, and relating to the APS Basic Maintenance Cure Date with respect to such failure to exceed or equal the APS Basic Maintenance Amount, the Fund shall cause the Independent Accountant to provide to S&P (if S&P is then rating the APS), Moody's (if Moody's is then rating the APS) and the Auction Agent (if either S&P or Moody's is then rating the APS) an Accountant's Confirmation as to such APS Basic Maintenance Report.

B-17

(e) If any Accountant's Confirmation delivered pursuant to subparagraph (c) or (d) of this Section 9 shows that an error was made in the APS Basic Maintenance Report for a particular Valuation Date for which such Accountant's Confirmation was required to be delivered, or shows that a lower aggregate Discounted Value for the aggregate of all S&P Eligible Assets (if S&P is then rating the APS) or Moody's Eligible Assets (if Moody's is then rating the APS), as the case may be, of the Fund was determined by the Independent Accountant, the calculation or determination made by such Independent Accountant shall be final and conclusive and shall be binding on the Fund, and the Fund shall accordingly amend and deliver the APS Basic Maintenance Report to S&P (if S&P is then rating the APS), Moody's (if Moody's is then rating the APS) and the Auction Agent (if either S&P or Moody's is then rating the APS) promptly following receipt by the Fund of such Accountant's Confirmation.

(f) On or before 5:00 p.m., New York City time, on the first Business Day after the Date of Original Issue of the APS, the Fund shall complete and deliver to S&P (if S&P is then rating the APS) and to Moody's (if

Moody's is then rating the APS), an APS Basic Maintenance Report as of the close of business of such Date of Original Issue. Within five Business Days of such Date of Original Issue, the Fund shall cause the Independent Accountant to confirm in writing to S&P (if S&P is then rating the APS) and to Moody's (if Moody's is then rating the APS) (i) the mathematical accuracy of the calculations reflected in such Report and (ii) that the Discounted Value of S&P Eligible Assets or Moody's Eligible Assets, as the case may be, reflected thereon equals or exceeds the APS Basic Maintenance Amount reflected thereon.

10. Minimum Liquidity Level. So long as S&P is rating the APS, the Fund shall have, as of each Valuation Date, Dividend Coverage Assets, with respect to each then Outstanding APS, having a value not less than the Dividend Coverage Amount with respect to such share (the "Minimum Liquidity Level"). If, as of each Valuation Date, the Fund does not have the required Dividend Coverage Assets, the Fund shall, as soon as practicable, adjust its portfolio in order to meet the Minimum Liquidity Level, but only so long as S&P is rating the APS. So long as S&P is rating the APS, the Fund shall notify S&P on any Valuation Date which the Fund does not have the required Dividend Coverage Assets and does not adjust its portfolio as described in the immediately preceding sentence.

11. Restrictions on Certain Distributions. For as long as any of the APS is Outstanding, and except as set forth in Sections 2(e) and 6(d) of this Part I, (A) the Fund shall not declare, pay or set apart for payment any dividend or other distribution (other than a dividend or distribution paid in shares of, or options, warrants or rights to subscribe for or purchase, Common Shares or other shares, if any, ranking junior to the APS as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up) in respect of the Common Shares or any other shares of the Fund ranking junior to or on a parity with the APS as to the payment of dividends or the distribution of assets upon dissolution, liquidation or winding up, or call for redemption, redeem, purchase or otherwise acquire for consideration any Common Shares or any other such junior shares (except by conversion into or exchange for shares of the Fund ranking junior to the APS as to the payment of dividends and the distribution of assets

B-18

upon dissolution, liquidation or winding up), or any such parity shares (except by conversion into or exchange for shares of the Fund ranking junior to or on a parity with APS as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up), unless (i) full cumulative dividends on the APS through its most recently ended Dividend Period shall have been paid or shall have been declared and sufficient funds for the payment thereof deposited with the Auction Agent and (ii) the Fund has redeemed the full number of shares of APS required to be redeemed by any provision for mandatory redemption pertaining thereto, and (B) if either Moody's or S&P is rating the APS, the Fund shall not declare, pay or set apart for payment any dividend or other distribution (other than a dividend or distribution paid in shares of, or options, warrants or rights to subscribe for or purchase, Common Shares or other shares, if any, ranking junior to the APS as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up) in respect of Common Shares or any other shares of the Fund ranking junior to the APS as to the payment of dividends or the distribution of assets upon dissolution, liquidation or winding up, or call for redemption, redeem, purchase or otherwise acquire for consideration any shares of Common Shares or any other such junior shares (except by conversion into or exchange for shares of the Fund ranking

junior to the APS as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up), unless immediately after such transaction the Discounted Value of Moody's Eligible Assets and S&P Eligible Assets would each at least equal the APS Basic Maintenance Amount.

12. Additional Dividends. If the Fund retroactively allocates any net capital gains or other income taxable for federal income tax purposes to the APS by reason of the fact that such allocation is made as a result of (i) the realization of net capital gains or other income taxable for federal income tax purposes, (ii) the redemption of all or a portion of the outstanding APS or (iii) the liquidation of the Fund (such allocation being referred to herein as a "Retroactive Taxable Allocation"), the Fund will simultaneously, if practicable, with such allocation but in no event later than 270 days after the end of the Fund's taxable year in which a Retroactive Taxable Allocation is made, provide notice thereof to the Auction Agent and to each Holder of such shares during such taxable year at such Holder's address as the same appears or last appeared on the share books of the Fund. Such Holders of such shares shall be entitled to receive, when, as and if declared by the Board of Trustees, out of funds legally available therefor, dividends in an amount equal to the aggregate Additional Dividends with respect to all Retroactive Taxable Allocations made to such shares during the taxable year in question, such dividends to be payable by the Fund to the Auction Agent, for distribution to such Holders, within 30 days after the notice described above is given to the Auction Agent.

13. Certain Other Restrictions. (a) For so long as any of the APS is outstanding and Moody's is then rating such shares, the Fund will not, unless it has received written confirmation from Moody's that any such action would not impair the ratings then assigned by Moody's to the APS, engage in any one or more of the following transactions:

(i) transactions in options on securities, futures contracts or options on futures contracts except as necessary to effect

B-19

Closing Transactions and except that in connection with Moody's Hedging Transactions: (A) the Fund may buy call or put option contracts on securities; (B) the Fund may write covered call options on securities; and (C) the Fund may write put options on securities. For purposes of valuation of Moody's Eligible Assets: (A) if the Fund writes a call option, the underlying asset will be valued as follows: (1) if the option is exchange-traded and may be offset readily or if the option expires within the Moody's Exposure Period, at the lower of the Discounted Value of the underlying security of the option and the exercise price of the option or (2) otherwise, it has no value; (B) if the Fund writes a put option, the underlying asset will be valued as follows: the lesser of (1) exercise price and (2) the Discounted Value of the underlying security; and (C) call or put option contracts which the Fund buys have no value. For so long as any APS are rated by Moody's: (A) the Fund will not engage in options and futures transactions for leveraging or speculative purposes; (B) the Fund will not write or sell any anticipatory contracts pursuant to which the Fund hedges the anticipated purchase of an asset prior to completion of such purchase; (C) the Fund will not enter into an option or futures transaction unless, after giving effect thereto, the Fund would continue to have Moody's Eligible Assets with an aggregate Discounted

Value equal to or greater than the APS Basic Maintenance Amount; (D) for purposes of the APS Basic Maintenance Amount, assets in margin accounts are not Moody's Eligible Assets; (E) the Fund shall enter into only exchange-traded futures and shall write only exchange-traded options on exchanges approved by Moody's; (F) where delivery may be made to the Fund with any of a class of securities, the Fund shall assume for purposes of the APS Basic Maintenance Amount that it takes delivery of that security which yields it the least value; (G) the Fund will not engage in forward contracts; and (H) there shall be a quarterly audit made of the Fund's futures and options transactions by the Fund's independent accountants to confirm that the Fund is in compliance with these standards;

(ii) incur any indebtedness, without prior written approval of Moody's that such indebtedness would not adversely affect the then current rating by Moody's of the APS except that the Fund may, without obtaining the written confirmation described above, incur indebtedness for the purpose of clearing securities transactions if the Discounted Value of Moody's Eligible Assets would equal or exceed the APS Basic Maintenance Amount after giving effect to such indebtedness; provided, however, that any such indebtedness shall be repaid within 60 days and will not be extended or renewed;

(iii) issue any class or series of shares ranking prior to or on a parity with the APS with respect to the payment of dividends or the distribution of assets upon dissolution, liquidation or winding up of the Fund, or reissue any APS previously purchased or redeemed by the Fund; or

B-20

(iv) engage in short sale transactions;

(b) For so long as any of the APS is Outstanding and S&P is rating such shares, the Fund will not, unless the Fund has received written confirmation from S&P that any such action would not impair the rating then assigned by such rating agency to the APS, engage in any one or more of the following transactions:

(i) transactions in any reverse repurchase agreements;

(ii) lend portfolio securities;

(iii) borrow money, except that the Fund may, without obtaining the written confirmation described above, borrow money for the purposes of clearing securities transactions if the Discounted Value of S&P Eligible Assets would equal or exceed the APS Basic Maintenance Amount after giving effect to such borrowing;

(iv) issue any class or series of shares ranking prior to or on a parity with the APS with respect to the payment of dividends or the distribution of assets upon dissolution, liquidation or winding up of the Fund, or reissue any APS previously purchased or redeemed by the Fund, or merge or consolidate with any corporation;

(v) engage in repurchase agreement transactions in

which the term of such repurchase obligation is longer than 90 days, in which the underlying security is a security other than United States treasury securities (not inclusive of zero-coupon securities), demand deposits, certificates of deposits or bankers acceptance and in which the counter-party or its affiliates have unsecured debt rated A-1+ by S&P with respect to such underlying security;

(vi) engage in short sale transactions; or

(vii) purchase or sell futures contracts or options thereon or write uncovered put or uncovered call options on portfolio securities except that (A) the Fund may engage in any S&P Hedging Transactions based on the Municipal Index, provided that the Fund shall not engage in any S&P Hedging Transaction based on the Municipal Index (other than Closing Transactions) which would cause the Fund at the time of such transaction to own or have sold the least of (1) more than 1,000 outstanding futures contracts based on the Municipal Index, (2) outstanding futures contracts based on the Municipal Index and on the Treasury Bonds exceeding in number 25% of the quotient of the fair market value of the Fund's total assets divided by 100,000 or (3) outstanding futures contract based on the Municipal Index exceeding in number 10% of the average number of daily traded futures contracts based on the Municipal Index in the month prior to the time of effecting such

B-21

transaction as reported by The Wall Street Journal and (B) the Fund may engage in S&P Hedging Transactions based on Treasury Bonds, provided that the Fund shall not engage in any S&P Hedging Transaction based on Treasury Bonds (other than Closing Transactions) which would cause the Fund at the time of such transaction to own or have sold the lesser of (1) outstanding futures contracts based on Treasury Bonds and on the Municipal Index exceeding in number 25% of the quotient of the fair market value of the Fund's total assets divided by 100,000 or (2) outstanding futures contracts based on Treasury Bonds exceeding in number 10% of the average number of daily traded futures contracts based on Treasury Bonds in the month prior to the time of effecting such transaction as reported by The Wall Street Journal. For so long as the APS are rated by S&P, the Fund will engage in Closing Transactions to close out any outstanding futures contracts which the Fund owns or has sold or any outstanding option thereon owned by the Fund in the event (A) the Fund does not have S&P Eligible Assets with an aggregate Discounted Value equal to or greater than the APS Basic Maintenance Amount on two consecutive Valuation Dates and (B) the Fund is required to pay Variation Margin on the second such Valuation Date. For so long as the APS are rated by S&P, the Fund will engage in a Closing Transaction to close out any outstanding futures contract or option thereon in the month prior to the delivery month under the terms of such futures contract or option thereon unless the Fund holds securities deliverable under such terms. For purposes of determining S&P Eligible Assets to determine compliance with the APS Basic Maintenance Amount, no amounts on deposit with the Fund's custodian or broker representing Initial Margin or Variation Margin shall constitute S&P Eligible Assets. For so long as the APS are rated by S&P, when the Fund writes a futures contract or option thereon, it will maintain an

amount of cash, cash equivalents or short-term, money market securities in a segregated account with the Fund's custodian, so that the amount so segregated plus the amount of Initial Margin and Variation Margin held in the account of the Fund's broker equals the fair market value of the futures contract, except that in the event the Fund writes a futures contract or option thereon which requires delivery of an underlying security, the Fund shall hold such underlying security.

14. Notice. All notices or communications, unless otherwise specified in the By-Laws of the Fund or this Certificate of Vote, shall be sufficiently given if in writing and delivered in person or mailed by first-class mail, postage prepaid. Notice shall be deemed given on the earlier of the date received or the date seven days after which such notice is mailed.

15. Definitions. As used in Parts I and II hereof, the following terms shall have the following meanings (with terms defined in the singular having comparable meanings when used in the plural and vice versa), unless the context otherwise requires:

B-22

"AA' Composite Commercial Paper Rate," on any date for any Rate Period, shall mean (i) (A) in the case of any Minimum Dividend Period or any Rate Period between 7 and 28 Rate Period Days, the interest equivalent of the 30-day rate; provided, however, in the case of any Minimum Dividend Period of 7 days or any Rate Period with 7 Rate Period Days and the "AA" Composite Commercial Paper Rate is being used to determine the Applicable Rate when all of the Outstanding APS are subject to Submitted Hold Orders, then the interest equivalent of the 7-day rate, and (B) in the case of any Rate Period with more than 28 Rate Period Days, the interest equivalent of the 180-day rate, on commercial paper placed on behalf of issuers whose corporate bonds are rated "AA" by S&P or the equivalent of such rating by S&P or another rating agency, as made available on a discount basis or otherwise by the Federal Reserve Bank of New York for the Business Day immediately preceding such date; or (ii) in the event that the Federal Reserve Bank of New York does not make available any such rate, then the arithmetic average of such rates, as quoted on a discount basis or otherwise, by the Commercial Paper Dealers to the Auction Agent for the close of business on the Business Day next preceding such date. If any Commercial Paper Dealer does not quote a rate required to determine the "AA" Composite Commercial Paper Rate, the "AA" Composite Commercial Paper Rate shall be determined on the basis of the quotation or quotations furnished by the remaining Commercial Paper Dealer or Commercial Paper Dealers and any Substitute Commercial Paper Dealer or Substitute Commercial Paper Dealers selected by the Fund to provide such rate or rates not being supplied by any Commercial Paper Dealer or Commercial Paper Dealers, as the case may be, or, if the Fund does not select any such Substitute Commercial Paper Dealer or Substitute Commercial Paper Dealers, by the remaining Commercial Paper Dealer or Commercial Paper Dealers. For purposes of this definition, the "interest equivalent" of a rate stated on a discount basis (a "discount rate") for commercial paper of a given days' maturity shall be equal to the quotient (rounded upwards to the next higher one-thousandth (.001) of 1%) of (A) the discount rate divided by (B) the difference between (x) 1.00 and (y) a fraction the numerator of which shall be the product of the discount rate times the number of days in which such commercial paper matures and the denominator of which shall be 360.

"Accountant's Confirmation" shall have the meaning set forth in paragraph (c) of Section 9 of this Part I.

"Additional Dividends" means payment to a Holder of APS of an amount which, when taken together with the aggregate amount of Retroactive Taxable Allocations made to such Holder with respect to the taxable year in question, would cause such Holder's dividends in dollars (after federal and Pennsylvania income tax consequences) from the aggregate of both the Retroactive Taxable Allocations and the Additional Dividends to be equal to the dollar amount of the dividends which would have been received by such Holder if the amount of the aggregate Retroactive Taxable Allocations would have been excludable from the gross income of such Holder. State taxes imposed on the Additional Dividends, however, may reduce the amount of after tax cash a holder would have had if there were no Retroactive Taxable Allocations. Such Additional Dividends shall be calculated (i) without consideration being given to the time value of money; (ii) assuming that no Holder of APS is subject to the federal alternative minimum tax with respect to dividends received from the Fund; and (iii) assuming that

B-23

each Retroactive Taxable Allocation would be taxable in the hands of each Holder of APS at the maximum marginal combined regular federal and Pennsylvania individual income tax rate applicable to ordinary income or net capital gains, as applicable (taking into account the federal income tax deductibility of state and local income tax paid or incurred), or the maximum marginal regular federal corporate income tax rate, whichever is greater, in effect during the taxable year in question.

"Anticipation Notes" means the following Pennsylvania municipal securities: tax anticipation notes, revenue anticipation notes and tax and revenue anticipation notes.

"Applicable Rate" shall have the meaning specified in subparagraph (c) (i) of Section 2 of this Part I.

"APS Basic Maintenance Amount," as of any Valuation Date, shall mean the dollar amount equal to the sum of (i) (A) the product of the number of APS outstanding on such date multiplied by \$50,000; (B) the aggregate amount of dividends that will have accumulated at the Applicable Rate (whether or not earned or declared) to (but not including) the first respective Dividend Payment Dates for each of the APS outstanding that follow such Valuation Date (or to the 47th day after such Valuation Date, if such 47th day is earlier than the first following Dividend Payment Date); (C) the amount equal to the Projected Dividend Amount (based on the number of APS Outstanding on such date); (D) the amount of anticipated expenses of the Fund for the 90 days subsequent to such Valuation Date; (E) the amount of the Fund's Maximum Potential Additional Dividend Liability as of such Valuation Date; (F) the amount of any premium payable pursuant to a Premium Call Period; and (G) any current liabilities as of such Valuation Date to the extent not reflected in any of (i) (A) through (i) (F) (including, without limitation, any amounts described in Section 13 of Part I as required to be treated as liabilities in connection with the Fund's transactions in futures and options and including any payables for municipal securities purchased as of such Valuation Date) less (ii) either (A) the face value of any of the Fund's assets irrevocably deposited by the Fund for the payment of any of (i) (A) through (i) (G) if such assets mature prior to or on the date of payment of the liability for which such assets are deposited and are either securities issued or guaranteed by the United States Government or have a rating assigned

by Moody's of P-1, VMIG-1 or MIG-1 (or, with respect to S&P, SP-1+ or A-1+) or (B) the Discounted Value of such assets. B-28

Notwithstanding the foregoing, (i) no Moody's Discount Factor will be applied to short-term Pennsylvania municipal securities so long as such Pennsylvania municipal securities are rated at least MIG-1, VMIG-1 or P-1 by Moody's and mature or have a demand feature at par exercisable within the Moody's Exposure Period and the Moody's Discount Factor for such Pennsylvania municipal securities will be 125% as long as such Pennsylvania municipal securities are rated at least A-1-/AA or SP-1+/AA by S&P and mature or have a demand feature at par exercisable within the Moody's Exposure Period and (ii) no Moody's Discount Factor will be applied to cash or to Receivables for Pennsylvania Municipal Securities Sold.

Pennsylvania municipal securities issued by any one issuer and rated BBB by S&P may comprise no more than 4% of total Moody's Eligible Assets; such BBB-rated Pennsylvania municipal securities, if any, together with any Pennsylvania municipal securities issued by the same issuer and rated Baa by Moody's or A by S&P, may comprise no more than 6% of total Moody's Eligible Assets; such BBB, Baa and A-rated Pennsylvania municipal securities, if any, together with any Pennsylvania municipal securities issued by the same issuer and rated A by Moody's or AA by S&P, may comprise no more than 10% of total Moody's Eligible Assets; and such BBB, Baa, A and AA-rated Pennsylvania municipal securities, if any, together with any Pennsylvania municipal securities issued by the same issuer and rated Aa by Moody's or AAA by S&P, may comprise no more than 20% of total Moody's Eligible Assets. B-29

For purposes of minimum issue size, maximum underlying obligor, maximum issue type concentration and maximum county concentration, Moody's Eligible Assets shall be calculated without including cash and Pennsylvania municipal securities rated MIG-1 or VMIG-1 or, if not rated by Moody's, rated SP-1+ by S&P, which either mature or have a demand feature at par exercisable within the Moody's Exposure Period. In the event any of the Moody's Eligible Assets in the Fund's portfolio consist of municipal securities of issuers other than Pennsylvania municipal securities, then such municipal securities shall be subject to the following requirements regarding the maximum percentage of Moody's Eligible Assets that may be invested in municipal securities of issuers located in a particular state or United States territory: such municipal securities rated BBB or BBB+ by S&P may comprise no more than 12% of total Moody's Eligible Assets; such BBB or BBB+ rated municipal securities, if any, together with any such municipal securities rated Baa by Moody's or A by S&P, may comprise no more than 20% of total Moody's Eligible Assets; such BBB, BBB+, Baa and A-rated municipal securities, if any, together with any such municipal securities rated A by Moody's or AA by S&P, may comprise no more than 40% of total Moody's Eligible Assets; such BBB, BBB+, Baa, A and AA-rated municipal securities, if any, together with any such municipal securities rated Aa by Moody's or AAA by S&P, may comprise no more than 60% of total Moody's Eligible Assets; and such municipal securities rated Aaa by Moody's may comprise 100% of Moody's Eligible Assets; provided, however, that notwithstanding the foregoing no more than an aggregate of 10% of Moody's

of issuers located in United States territories, other than Puerto Rico. Where the Fund sells an asset and agrees to repurchase such asset in the future, the Discounted Value of such asset will constitute a Moody's Eligible Asset and the amount the Fund is required to pay upon repurchase of such asset will count as a liability for the purposes of the APS Basic Maintenance Amount. Where the Fund purchases an asset and agrees to sell it to a third party in the future, cash receivable by the Fund thereby will constitute a Moody's Eligible Asset if the long-term debt of such other party is rated at least A2 by Moody's and such agreement has a term of 30 days or less; otherwise the Discounted Value of such asset will constitute a Moody's Eligible Asset. For the purposes of calculation of Moody's Eligible Assets, Pennsylvania municipal securities which have been called for redemption by the issuer thereof shall be valued at the lower of Market Value or the call price of such Pennsylvania municipal securities.

Notwithstanding the foregoing, an asset will not be considered a Moody's Eligible Asset to the extent that it has been irrevocably deposited for the payment of (i) (A) through (i) (G) under the definition of APS Basic Maintenance Amount or it is subject to any material lien, mortgage, pledge, security interest or security agreement of any kind (collectively, "Liens"), except for (a) Liens which are being contested in good faith by appropriate proceedings and which Moody's has indicated to the Fund will not affect the status of such asset as a Moody's Eligible Asset, (b) Liens for taxes that are not then due and payable or that can be paid thereafter without penalty, (c) Liens to secure payment for services rendered or cash advanced to the Fund by Van Kampen Merritt Investment Advisory Corp., the Administrator, State Street Bank and Trust Company or the Auction Agent and (d) Liens by virtue of any repurchase agreement.

(B) the number of Outstanding APS subject to Submitted Bids by Existing Holders specifying one or more rates higher than the Maximum Rate; and

(C) the number of Outstanding APS subject to Submitted Sell Orders

(iii) if Sufficient Clearing Bids exist, the lowest rate specified in such Submitted Bids (the "Winning Bid Rate") which if:

(A) (I) each such Submitted Bid from Existing Holders specifying such lowest rate and (II) all other such Submitted Bids from Existing Holders specifying lower rates were rejected, thus entitling such Existing Holders to continue to hold the APS that are subject to such Submitted Bids; and

(B) (I) each such Submitted Bid from Potential Holders specifying such lowest rate and (II) all other such Submitted Bids from Potential Holders specifying lower rates were accepted;

B-47

would result in such Existing Holders described in subclause (A) above continuing to hold an aggregate number of Outstanding APS which, when added to the number of Outstanding APS to be purchased by such Potential Holders described in subclause (B) above, would equal not less than the Available APS.

(b) Promptly after the Auction Agent has made the determinations pursuant to paragraph (a) of this Section 4, the Auction Agent shall advise the Fund of the Maximum Rate for which an Auction is being held on the Auction Date and, based on such determination, the Applicable Rate for the next succeeding Rate Period thereof as follows:

(iii) if all of the Outstanding APS are subject to Submitted Hold Orders, that the Applicable Rate for such APS for the next succeeding Rate Period thereof shall be equal to the product of (A) (I) the "AA" Composite Commercial Paper Rate on such Auction Date for such Rate Period, if such Rate Period is less than one year or (II) the Treasury Rate on such Auction Date for such Rate Period, if such Rate Period is one year or greater and (B) 1 minus the maximum combined marginal regular federal and Pennsylvania individual income tax rate applicable to ordinary income (taking into account the federal income tax deductibility of state and local income tax paid or incurred) or the maximum marginal regular federal corporate income tax rate, whichever is greater; provided, however, that if the Fund has notified the Auction Agent of its intent to allocate to the APS in such Rate Period any net capital gains or other income taxable for federal income tax purposes, the Applicable Rate in respect of that portion of the dividend on the APS for such Rate Period that represents the allocation of net capital gains or other income taxable for federal income tax purposes will be the rate described in the preceding clause (A) (I) or (II), as applicable, without being multiplied by the factor set forth in the preceding clause (B).

(ii) Existing Holders' Submitted Bids for APS specifying any rate that is lower than the Winning Bid Rate shall be rejected, thus entitling each such Existing Holder to continue to hold the APS subject to such Submitted Bids;

(iii) Potential Holders' Submitted Bids for APS specifying any rate that is lower than the Winning Bid Rate shall be accepted;

(iv) each Existing Holder's Submitted Bid for APS specifying a rate that is equal to the Winning Bid Rate shall be rejected, thus entitling such Existing Holder to continue to hold the APS subject to such Submitted Bid, unless the number of Outstanding APS subject to all such Submitted Bids shall be greater than the number of APS ("remaining shares") in the excess of the Available APS over the number of the APS subject to Submitted Bids described in clauses (ii) and (iii) of this paragraph (a), in which event such Submitted Bid of such Existing Holder shall be rejected in part, and such Existing Holder shall be entitled to continue to hold APS subject to such Submitted Bid, but only in an amount equal to the number of APS obtained by multiplying the number of remaining shares by a fraction, the numerator of which shall be the number of Outstanding APS held by such Existing Holder subject to such Submitted Bid and the denominator of which shall be the aggregate number of Outstanding APS subject to such Submitted Bids made by all such Existing Holders that specified a rate equal to the Winning Bid Rate; and

(v) each Potential Holder's Submitted Bid for APS specifying a rate that is equal to the Winning Bid Rate shall be accepted but only in an amount equal to the number of APS obtained by multiplying the number of shares in the excess of the Available APS over the number of the APS subject to Submitted Bids described in clauses (ii) through (iv) of this paragraph (a) by a fraction, the numerator of which shall be the number of Outstanding APS subject to such Submitted Bid and the denominator of which shall be the aggregate number of Outstanding APS subject to such Submitted Bids made by all such Potential Holders that specified a rate equal to the Winning Bid Rate; and

B-49

(b) If Sufficient Clearing Bids have not been made (other than because all of the Outstanding APS are subject to Submitted Hold Orders), subject to the provisions of paragraph (d) of this Section 5, Submitted Orders shall be accepted or rejected as follows in the following order of priority and all other Submitted Bids shall be rejected:

(i) Existing Holders' Submitted Bids for APS specifying any rate that is equal to or lower than the Maximum Rate shall be rejected, thus entitling such Existing Holders to continue to hold the APS subject to such Submitted Bids;

(ii) Potential Holders' Submitted Bids for APS specifying any rate that is equal to or lower than the Maximum Rate shall be accepted; and

(iii) Each Existing Holder's Submitted Bid for APS specifying any rate that is higher than the Maximum Rate and the Submitted Sell Orders for APS of each Existing Holder shall be accepted, thus entitling each Existing Holder that submitted any such Submitted Bid or Submitted Sell Order to sell the APS subject to such Submitted Bid or Submitted Sell Order, but in both cases only in an amount equal to the number of APS obtained by multiplying the number of APS subject to Submitted Bids described in clause (ii) of this paragraph (b) by a fraction, the numerator of which shall be the number of Outstanding APS held by such Existing Holder subject to such Submitted Bid or Submitted Sell Order and the denominator of which shall be the aggregate number of Outstanding APS subject to all such

Submitted Bids and Submitted Sell Orders.

(c) If all of the Outstanding APS are subject to Submitted Hold Orders, all Submitted Bids shall be rejected.

(d) If, as a result of the procedures described in clause (iv) or (v) of paragraph (a) or clause (iii) of paragraph (b) of this Section 5, any Existing Holder would be entitled or required to sell, or any Potential Holder would be entitled or required to purchase, a fraction of a share of APS on any Auction Date, the Auction Agent shall, in such manner as it shall determine in its sole discretion, round up or down the number of APS to be purchased or sold by any Existing Holder or Potential Holder on such Auction Date as a result of such procedures so that the number so purchased or sold by each Existing Holder or Potential Holder on such Auction Date shall be whole shares of APS.

(e) If, as a result of the procedures described in clause (v) of paragraph (a) of this Section 5, any Potential Holder would be entitled or required to purchase less than a whole share of APS on any Auction Date, the Auction Agent shall, in such manner as it shall determine in its sole discretion, allocate shares of APS for purchase among Potential Holders so that only whole shares of APS are purchased on

B-50

such Auction Date as a result of such procedures by any Potential Holder, even if such allocation results in one or more Potential Holders not purchasing the APS on such Auction Date.

(f) Based on the results of each Auction, the Auction Agent shall determine the aggregate number of APS to be purchased and the aggregate number of APS to be sold by Potential Holders and Existing Holders on whose behalf each Broker-Dealer submitted Bids or Sell Orders and, with respect to each Broker-Dealer, to the extent that such aggregate number of shares to be purchased and such aggregate number of shares to be sold differ, determine to which other Broker-Dealer or Broker-Dealers acting for one or more purchasers of APS such Broker-Dealer shall deliver, or from which other Broker-Dealer or Broker-Dealers acting for one or more sellers of APS such Broker-Dealer shall receive, as the case may be, of APS.

6. Notification of Allocations. In normal circumstances, whenever the Fund intends to include any net capital gains or other income taxable for Federal income tax purposes in any dividend on the APS, the Fund may notify the Auction Agent of the amount to be so included 15 days prior to the Auction Date on which the Applicable Rate for such dividend is to be established. Whenever the Auction Agent receives such notice from the Fund, it will in turn notify each Broker-Dealer, who, on or prior to such Auction Date, in accordance with its Broker-Dealer Agreement, will notify its Existing Holders and Potential Holders believed by it to be interested in submitting an Order in the Auction to be held on such Auction Date.

7. Miscellaneous. (a) To the extent permitted by applicable law, the Board of Trustees may interpret or adjust the provisions of this Certificate of Vote to resolve any inconsistency or ambiguity or to remedy any formal defect, and may amend this Certificate of Vote with respect to the APS prior to the issuance of the APS.

(b) An Existing Holder may sell, transfer or otherwise dispose of APS only in whole shares and only pursuant to a Bid or Sell Order in accordance with the procedures described in this Part II or to or through a

Broker-Dealer or to a Person that has delivered a signed copy of a Master Purchaser's Letter to the Auction Agent; provided that, in the case of all transfers other than pursuant to Auctions, such Existing Holder, its Broker-Dealer or its Agent Member advises the Auction Agent of such transfer.

(c) All of the APS outstanding from time to time shall be represented by one global certificate registered in the name of the Securities Depository or its nominee.

(d) Neither the Fund nor any affiliate thereof may submit an Order in any Auction, except that any Broker-Dealer that is an affiliate of the Fund may submit Orders in an Auction, but only if such Orders are not for its own account.

CERTIFICATE OF VOTE OF TRUSTEES
ESTABLISHING A CLASS OF PREFERRED SHARES OF
VAN KAMPEN PENNSYLVANIA VALUE MUNICIPAL INCOME TRUST

Van Kampen Pennsylvania Value Municipal Income Trust, a trust with preferred shares organized and existing under and by virtue of the laws of the Commonwealth of Pennsylvania (the "Fund"), certifies as follows:

FIRST: On October 8, 1998, the Board of Trustees, pursuant to the provisions of Article VI of the Amended and Restated Declaration of Trust (the "Declaration of Trust") of the Fund and Section 5 of Part I and Section 7 of Part II of the Certificate of Vote of Trustees Establishing a Class of Preferred Shares (the "Certificate of Vote") of the Fund, authorized and declared a 2-for-1 split of the preferred shares of beneficial interest of the Fund, par value \$.01 per share, liquidation preference \$50,000 per share, designated Auction Preferred Shares (the "APS"). The stock split is to be effected by means of a division of each outstanding share of APS into two preferred shares of beneficial interest, par value \$.01 per share, liquidation preference \$25,000 per share.

SECOND: Pursuant to the provisions of Article VI of the Declaration of Trust and Section 5 of Part I and Section 7 of Part II of the Certificate of Vote, the following amendments to the Certificate of Vote have been duly adopted and approved by a majority of the Trustees of the Fund.

a. The first paragraph of the vote establishing a class of preferred shares of beneficial interest is hereby amended by replacing such paragraph with the following:

First: Pursuant to authority expressly vested in the Board of Trustees of the Fund by Article VI of its Declaration of Trust (which, as amended or restated from time to time is, together with this Certificate of Vote, herein called the "Declaration of Trust"), the Board of Trustees hereby authorizes the issuance of a series of 1,800 shares of its authorized preferred shares of beneficial interest, par value \$.01 per share ("Preferred Shares"), liquidation preference of \$25,000 per share, designated Auction Preferred Shares ("APS").

b. The first paragraph under the heading "DESIGNATION" of the Certificate of Vote is hereby amended by replacing such paragraph with the following paragraph.

APS: The series of 1,800 preferred shares of beneficial interest, \$.01 par value, liquidation preference \$25,000 per share, is hereby designated "Auction Preferred Shares" (hereinafter, "APS"). Each APS shall be issued on July 21, 1993; have an Applicable Rate for its Initial Dividend Period (which period shall continue to and include Wednesday, July 28, 1993) equal to 2.15% per annum; have an Initial Dividend Payment Date of Thursday, July 29, 1993; and have such other preferences, limitations and relative voting rights, in addition to those required by applicable law or set forth in

B-53

the Declaration of Trust applicable to preferred shares of beneficial interest

of the Fund, as are set forth in Part I and Part II of this Certificate of Vote. The APS shall constitute a separate series of Preferred Shares of beneficial interest of the Fund, and each share of APS shall be identical except as provided in Section 3 of Part I of this Certificate of Vote.

c. Section 2(c)(ii) of Part I of the Certificate of Vote is hereby amended to replace such section with the following:

The amount of dividends per share payable on the APS on any date on which dividends shall be payable on shares shall be computed by multiplying the respective Applicable Rate in effect for such Dividend Period or Dividend Periods or part thereof for which dividends have not been paid by a fraction, the numerator of which shall be the number of days in such Dividend Period or Dividend Periods or part thereof and the denominator of which shall be 365 if such Dividend Period is a Rate Period, or is contained in a Rate Period, of less than one year and 360 for all other Dividend Periods, and applying the rate obtained against \$25,000.

d. Section 3(a)(i) of Part I of the Certificate of Vote is hereby amended to replace such section with the following:

After the Initial Dividend Period with respect to any series of APS and upon giving a Notice of Redemption, as provided below, the Fund at its option may redeem shares of any series of APS, in whole or in part, on the second Business Day next preceding any Dividend Payment Date applicable to those shares of APS called for redemption, out of funds legally available therefor, at the Optional Redemption Price; provided that during a Special Dividend Period of 365 days or more no share of APS will be subject to optional redemption during any Non-Call Period; provided, that shares of any series of APS may not be redeemed in part of any such partial redemption fewer than 500 shares of such series remain outstanding.

e. Section 5 of Part I of the Certificate of Vote is hereby amended to add to such section as Section 5(g) the following :

Right to Vote with Respect to Certain Other Matters. If the Fund has more than one series of APS outstanding, the affirmative vote of the holders of a majority (unless a higher percentage vote is required under the Declaration of Trust or under this Certificate of Vote) of the outstanding shares of each series of APS, each voting as a separate class, is required with respect to any matter that materially affects the series in a manner different from that of other series of classes of the Fund's shares, including without limitation any proposal to do the following: (1) increase or decrease the aggregate number of authorized shares of the series; (2) effect any exchange, reclassification, or cancellation of all or part of the shares of the series; (3) effect an exchange, or create a right of exchange, of all or any part of the shares of the series; (4) change the rights or preferences of the shares of the series; (5) change the shares of the series, whether with or without par value, of the same or another class or series; (6) create a new class or series of shares having rights and preferences prior and superior to the shares of the series, or increase the rights and preferences or the number of authorized

shares of a series having rights and preferences prior or superior to the shares of the series; or (7) cancel or otherwise affect distributions on the shares of the series that have accrued but have not been declared. To the extent that the interest of a series of APS affected by a matter are substantially identical to the interests of another series of APS affected by such matter (e.g., a vote of shareholders required under Section 13(a) of the 1940 Act), each such series shall vote together collectively as one class. The vote of holders of each series of APS described above will in each case be in addition to a separate vote of the requisite percentage of Common Shares and APS necessary to authorize the action in question.

f. Section 6(a) of Part I of the Certificate of Vote is hereby amended to replace such section with the following:

Upon the dissolution, liquidation or winding up of the affairs of the Fund, whether voluntary or involuntary, the Holders of the APS then outstanding shall be entitled to receive and to be paid out of the assets of the Fund available for distribution to its shareholders, before any payment or distribution shall be made on the Common Shares or on any other class of shares of the Fund ranking junior to the APS upon dissolution, liquidation or winding up, an amount equal to the liquidation preference with respect to such shares. The liquidation preference for the APS shall be \$25,000 per share, plus an amount equal to all dividends thereon (whether or not earned or declared) accumulated but unpaid to the date of final distribution in same-day funds, together with any payments required to be made pursuant to Section 12 in connection with the liquidation of the Fund.

g. Section 15 of Part I of the Certificate of Vote is hereby amended to replace the definition of "APS Basic Maintenance Amount" with the following:

"APS Basic Maintenance Amount," as of any Valuation Date, shall mean the dollar amount equal to the sum of (i) (A) the product of the number of APS Outstanding on such date multiplied by \$25,000; (B) the aggregate amount of dividends that will have accumulated at the Applicable Rate (whether or not earned or declared) to (but not including) the first respective Dividend Payment Dates for each of the APS Outstanding that follow such Valuation Date (or to the 47th day after such Valuation Date, if such 47th day is earlier than the first following Dividend payment Date); (C) the amount equal to the Projected Dividend Amount (based on the number of APS Outstanding on such date); (D) the amount of anticipated expenses of the Fund for the 90 days subsequent to such Valuation Date; (E) the amount of the Fund's Maximum Potential Additional Dividend Liability as of such Valuation Date; (F) the amount of any premium payable pursuant to a Premium Call Period; and (G) any current liabilities as of such Valuation Date to the extent not reflected in any of (i) (A) through (i) (F) (including, without limitation, any amounts described in Section 13 of Part I as required to be treated as liabilities in connection with the Fund's transactions in futures and options and including any payables for municipal securities purchased as of such Valuation Date) less (ii) either (A) the face value of any of the Fund's assets irrevocably deposited by the Fund for the payment of any of (i) (A) through (i) (G) if such assets mature prior to or on the date of payment of the liability for which such assets are deposited and are either securities issued or guaranteed by the United States Government or have a rating assigned by Moody's of P-1, VMIG-1 or MIG-1 (or, with respect to S&P, SP-1+ or A-1+)

or (B) the Discounted Value of such assets. For purposes of the APS Basic Maintenance Amount in connection with S&P's ratings of the APS, with respect to any transactions by the Fund in futures contracts, the Fund shall include as liabilities (i) 30% of the aggregate settlement value, as marked to market, of any outstanding futures contracts based on the Municipal Index which are owned by the Fund plus (ii) 25% of the aggregate settlement value, as marked to market, of any outstanding futures contracts based on Treasury Bonds which contracts are owned by the Fund. For purposes of the APS Basic Maintenance Amount in connection with Moody's rating of the APS, with respect to any transactions by the Fund in securities options, the Fund shall include as liabilities (i) 10% of the exercise price of a call option written by the Fund and (ii) the exercise price of any written put option.

h. Section 15 of Part I of the Certificate of Vote is hereby amended to replace the definition of "Mandatory Redemption Price" with the following:

"Optional Redemption Price" shall mean (i) \$25,000 per share of APS in the case of a Rate Period less than one year, including any Special Dividend Period of less than 365 days or (ii) with respect to a Special Dividend Period of 365 days or more the Optional Redemption Price set forth in the Specific Redemption Provisions in connection therewith; in each case plus an amount equal to accumulated but unpaid dividends thereon to the date of redemption (whether or not earned or declared).

j. Section 15 of Part I of the Certificate of Vote is hereby amended to replace the definition of "Specific Redemption Provisions" with the following:

"Specific Redemption Provisions" means, with respect to any Special Dividend Period of 365 or more days, either, or any combination of, (i) a period (a "Non-Call Period") determined by the Board of Trustees, after consultation with the Broker-Dealers, during which the shares subject to such Special Dividend Period are not subject to redemption at the option of the Fund, and (ii) a period (a "Premium Call Period"), consisting of a number of whole years and determined by the Board of Trustees, after consultation with the Broker-Dealers, during each year of which the shares subject to such Special Dividend Period shall be redeemable at the Fund's option at a price per share equal to \$25,000 plus accumulated but unpaid dividends plus a premium expressed as a percentage of \$25,000 as determined by the Board of Trustees after consultation with the Broker-Dealers; provided, that during any Special Dividend Period of 365 or more days if, on the date of determination of the Applicable Rate, such Applicable Rate equaled or exceeded the Treasury Rate, the Fund may redeem APS without regard to any Non-Call Period or Premium Call Period at the Mandatory Redemption Price.

NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding. The common share market price is the price the market is willing to pay for shares of the trust at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions. Total return assumes an investment at the beginning of the period, reinvestment of all distributions for the period in accordance with the trust's dividend reinvestment plan, and sale of all shares at the end of the period.

The Lehman Brothers Pennsylvania Municipal Bond Index is a broad-based statistical composite of Pennsylvania municipal bonds. The index is unmanaged and does not include any sales charges or fees. Such costs would lower performance. It is not possible to invest directly in an index.

Trust Report

FOR THE 12-MONTH PERIOD ENDED OCTOBER 31, 2004

Van Kampen Pennsylvania Value Municipal Income Trust is managed by the Adviser's Municipal Fixed Income team. (1) Current members include Dennis Pietrzak, Executive Director; Robert Wimmel, Vice President; and John Reynoldson, Executive Director.

MARKET CONDITIONS

The interest-rate environment of the 12 months ended October 31, 2004 was marked by two periods of steadily declining yields, with a significant sell-off in the

middle. Yields fell steadily through the first half of the period, approaching the historical lows of 2003. This trend persisted until March, at which point yields reversed direction and began an upward march as prices fell. These losses were steepest in April, as a surprisingly strong employment report and signals from members of the Federal Open Market Committee (the Fed) caused investors to expect a near-term rate increase. Rates went on to decline from May through the end of the period as the market digested the Fed's newly hawkish rate stance. Investors were further comforted when, after the Fed raised rates at its June 30, 2004 meeting, its members indicated that the path of future rate increases would be measured.

Unusually, longer-maturity securities largely outperformed in this period of Fed tightening. Historically, the typical pattern in periods of tightening policy has seen yields rise across all maturities. During the review period, however, yields of shorter maturity bonds rose while those of bonds with longer maturities declined slightly.

Lower-quality municipal bonds also performed strongly in this environment, as the difference in yields (known as the "yield spread") between AAA and BBB rated bonds decreased by roughly 20 basis points for 20-year bonds. As a result, sectors with heavy exposure to lower-rated debt, such as hospitals and industrial-revenue bonds, posted higher total returns than sectors dominated by higher-rated debt.

Issuance for the first ten months of 2004 (the final ten months of the review period) was roughly six percent lower than in the same period in 2003. That said, 2003 was a record year, and at the current pace of issuance, 2004 could well be one of the largest years in recent memory. The strong supply met with faltering demand from mutual funds, as fund investors withdrew over \$15 billion in net cash during the period. This faltering demand was largely offset by increased participation in the market by insurance companies and individual investors.

(1) Team members may change without notice at any time.

C-4

In keeping with national patterns, issuance in the Pennsylvania market fell by 17.6 percent for the first nine months of 2004 compared to the same period one year earlier. Many local municipalities moved to take advantage of relatively low interest rates during the period by refinancing their existing debt. The state's economy remained one of the most solid in the country, and its credit ratings remained strong.

PERFORMANCE ANALYSIS

The trust's return can be calculated based upon either the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding, while market price reflects the supply and demand for the shares. As a result, the two returns can differ significantly, as they did during the reporting period. On an NAV basis, the trust outperformed its benchmark, the Lehman Brothers Pennsylvania Municipal Bond Index. (See table below.)

The trust uses leverage to enhance its dividend to common shareholders. The trust borrows money at short-term rates through the issuance of preferred shares. The proceeds are reinvested in longer-term securities, taking advantage of the difference between short- and longer-term rates. The Fed's policy of

raising interest rates in the final months of the period made the trust's borrowing activity more expensive. These expenses, however, were more than offset by the strong performance of the bonds we invested in, leading to the trust's outperformance versus its benchmark, which is unleveraged.

Interest rates spent much of the period at or near historic lows. Given these levels, our analysis indicated that there was little room for rates to fall further, and that as a result rates were more likely to go up than down over the intermediate term. This analysis led us to reduce the trust's interest-rate sensitivity to a level that was near that of its benchmark. While this approach served the trust well when rates declined during the summer, it was an overall drag on performance for the one-year period.

TOTAL RETURN FOR THE 12-MONTH PERIOD ENDED OCTOBER 31, 2004

C-5

With interest rates at such low levels, several of the trust's holdings were called away by issuers seeking to refinance their bonds at lower yields. Several of the trust's shorter maturity bonds were also prerefunded, and we sold many of these securities to take advantage of more compelling opportunities elsewhere. We reinvested the proceeds into securities that we believed had attractive total-return prospects, emphasizing bonds in the 13- to 18-year portion of the yield curve, especially those with the relatively lower interest-rate sensitivity. These bonds offer the dual benefit of a strong income stream and moderate vulnerability to shifting interest rates.

We continued to pursue relative-value opportunities at the long end of the market, buying securities when they offered attractive value and selling them once they met our performance targets in order to reinvest the proceeds elsewhere. As part of our conservative approach to interest-rate positioning, we also trimmed the trust's holdings of highly rate-sensitive zero coupon bonds.

We remained focused on keeping the trust's risk profile within a reasonable range through attention to credit quality and diversification. By the end of the 12-month period, more than 77 percent of the trust's total investments were invested in bonds rated AAA and AA; these represent the two highest tiers of credit ratings. The portfolio was also well diversified across the major sectors of the municipal bond market. Its three largest sector exposures were higher education, public education, and health care.

While it is impossible to predict the exact turning point when interest rates will move decisively higher, we believe the trust remains well positioned for the near future. We will continue to comb the municipal bond markets for interesting opportunities.

There is no guarantee that any securities mentioned will continue to perform well or be held by the trust in the future.

In addition to the semiannual and annual reports that Van Kampen delivers to shareholders and makes available through the Van Kampen public web site, each trust files a complete schedule of portfolio holdings with the SEC for the trust's first and third fiscal quarters on Form N-Q. Van Kampen does not deliver the reports for the first and third fiscal quarters to shareholders, nor are the reports posted to the Van Kampen public web site. You may,

however, obtain the Form N-Q filings (as well as the Form N-CSR and N-CSRS filings) by accessing the SEC's web site, <http://www.sec.gov>. You may also review and copy them at the SEC's Public Reference Room in Washington, DC. Information on the operation of the SEC's Public Reference Room may be obtained by calling the SEC at 1-202-942-8090. You can also request copies of these materials, upon payment of a duplicating fee, by electronic request at the SEC's e-mail address (publicinfo@sec.gov) or by writing the Public Reference section of the SEC, Washington, DC 20549-0102.

In addition to filing a complete schedule of portfolio holdings with the SEC each fiscal quarter, each Van Kampen trust makes portfolio holdings information available by periodically providing the information on its public web site, www.vankampen.com. Each Van Kampen trust provides a complete schedule of portfolio holdings on the public web site on a calendar-quarter basis approximately 30 days after the close of the calendar quarter. Van Kampen closed-end funds do not presently provide partial lists of their portfolio holdings on a monthly basis, but may do so in the future.

You may obtain copies of a trust's fiscal quarter filings, or its monthly or calendar-quarter web site postings, by contacting Van Kampen Client Relations at 1-800-847-2424.

VAN KAMPEN PENNSYLVANIA VALUE MUNICIPAL INCOME TRUST

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2004

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen Pennsylvania Value Municipal Income Trust (the "Trust") is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The Trust's investment objective is to provide a high level of current income exempt from federal and Pennsylvania income taxes and, where possible under local law, local income and personal property taxes, consistent with preservation of capital. The Trust will invest substantially all of its assets in Pennsylvania municipal securities rated investment grade at the time of investment. The Trust commenced investment operations on April 30, 1993. Effective November 30, 2003, the Trust's investment adviser, Van Kampen Investment Advisory Corp. merged into its affiliate, Van Kampen Asset Management.

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Municipal bonds are valued by independent pricing services or dealers using the mean of the bid and asked prices or, in the absence of market quotations, at fair value based upon yield data relating to municipal bonds with similar characteristics and general market conditions. Securities which are not valued by independent pricing services or dealers are valued at fair value using procedures established in good faith by the Board of Trustees. Short-term securities with remaining maturities of 60 days or less are valued at

amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Trust may purchase and sell securities on a "when-issued" or "delayed delivery" basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Trust will segregate assets with the custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. As of October 31, 2004, the Trust had \$1,061,370 of when-issued and delayed delivery purchase commitments.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis. Bond premium is amortized and discount is accreted over the expected life of each applicable security.

D. FEDERAL INCOME TAXES It is the Trust's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

VAN KAMPEN PENNSYLVANIA VALUE MUNICIPAL INCOME TRUST

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2004 continued

At October 31, 2004, the cost and related gross unrealized appreciation and depreciation are as follows:

Cost of investments for tax purposes.....	\$109,939,547	=====
Gross tax unrealized appreciation.....	\$ 8,064,296	
Gross tax unrealized depreciation.....	(9,188)	-----
Net tax unrealized appreciation on investments.....	\$ 8,055,108	=====

E. DISTRIBUTION OF INCOME AND GAINS The Trust declares and pays monthly dividends from net investment income to common shareholders. Net realized gains, if any, are distributed annually on a pro rata basis to common and preferred shareholders. Distributions from net realized gains for book purposes may include short-term capital gains, which are included as ordinary income for tax purposes.

The tax character of distributions paid during the years ended October 31, 2004 and 2003 was as follows:

	2004	2003
Distributions paid from:		
Ordinary income.....	\$255,535	\$15,447
Long-Term Capital Gain.....	513,737	-0-
	-----	-----
	\$769,272	\$15,447

=====

Due to inherent differences in the recognition of income, expenses and realized gains/losses under accounting principles generally accepted in the United States of America and federal income tax purposes, permanent differences between financial and tax basis reporting for the 2004 fiscal year have been identified and appropriately reclassified. A permanent difference of \$5 relating to book to tax accretion differences was reclassified from accumulated undistributed net investment income to accumulated net realized gain.

As of October 31, 2004, the components of distributable earnings on a tax basis were as follows:

Undistributed long-term capital gain..... \$329,947

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Trust's Investment Advisory Agreement, Van Kampen Asset Management (the "Adviser") will provide investment advice and facilities to the Trust for an annual fee payable monthly of .60% of the average daily net assets of the Trust. Effective November 1, 2004, the investment advisory fee was reduced from .60% to .55%. In addition, the Trust paid a monthly administrative fee to Van Kampen Investments Inc. or its affiliates (collectively "Van Kampen"), the Trust's Administrator, at an annual rate of .05% of the average daily net assets of the Trust. Effective June 1, 2004, the administrative fee was reduced from .05% to .00%.

For the year ended October 31, 2004, the Trust recognized expenses of approximately \$8,000 representing legal services provided by Skadden, Arps, Slate, Meagher, & Flom LLP,

counsel to the Trust, of which a trustee of the Trust is a partner who provides legal services to the Trust, and is therefore an affiliated person.

Under separate Accounting Services and Legal Services agreements, the Adviser provides accounting and legal services to the Trust. The Adviser allocates the cost of such services to each trust. For the year ended October 31, 2004, the Trust recognized expenses of approximately \$26,300 representing Van Kampen's cost of providing accounting and legal services to the Trust, which are reported as part of "Other" and "Legal" expenses, respectively, in the Statement of Operations.

Certain officers and trustees of the Trust are also officers and directors of Van Kampen. The Trust does not compensate its officers or trustees who are also officers of Van Kampen.

The Trust provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a

later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Trust. The maximum annual benefit per trustee under the plan is \$2,500.

3. CAPITAL TRANSACTIONS

At October 31, 2004 and October 31, 2003, paid in surplus related to common shares aggregated \$64,698,968 and \$64,644,252, respectively.

Transactions in common shares were as follows:

Ending Shares.....	4,476,965	4,473,660
	=====	=====

4. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments, were \$22,076,581 and \$21,140,801, respectively.

5. PREFERRED SHARES

The Trust has outstanding 1,800 Auction Preferred Shares ("APS"). Dividends are cumulative and the dividend rate is currently reset every seven days through an auction process. The rate in effect on October 31, 2004 was 1.700%. During the year ended October 31, 2004, the rates ranged from 0.800% to 1.950%.

The Trust pays annual fees equivalent to .25% of the preferred share liquidation value for the remarketing efforts associated with the preferred auctions. These fees are included as a component of "Preferred Share Maintenance" expense in the Statement of Operations.

The APS are redeemable at the option of the Trust in whole or in part at the liquidation value of \$25,000 per share plus accumulated and unpaid dividends. The Trust is subject to certain asset coverage tests and the APS are subject to mandatory redemption if the tests are not met.

VAN KAMPEN PENNSYLVANIA VALUE MUNICIPAL INCOME TRUST

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees and Shareholders of Van Kampen Pennsylvania Value Municipal Income Trust

We have audited the accompanying statement of assets and liabilities of Van Kampen Pennsylvania Value Municipal Income Trust (the "Trust"), including the portfolio of investments, as of October 31, 2004, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. The Trust's financial highlights for the periods ended prior to October 31, 2000 were audited by other auditors whose report, dated December 6, 1999, expressed an unqualified opinion on those financial highlights.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2004, by correspondence with the Trust's custodian and brokers. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Van Kampen Pennsylvania Value Municipal Income Trust as of October 31, 2004, the results of its operations for the year then ended, the changes in its net assets and the financial highlights for the respective stated periods, in conformity with accounting principles generally accepted in the United States of America.

VAN KAMPEN PENNSYLVANIA VALUE MUNICIPAL INCOME TRUST

DIVIDEND REINVESTMENT PLAN

The Trust offers a dividend reinvestment plan (the "Plan") pursuant to which Common Shareholders may elect to have dividends and capital gains distributions reinvested in Common Shares of the Trust. The Trust declares dividends out of net investment income, and will distribute annually net realized capital gains,

if any. Common Shareholders may join or withdraw from the Plan at any time.

If you decide to participate in the Plan, State Street Bank and Trust Company, as your Plan Agent, will automatically invest your dividends and capital gains distributions in Common Shares of the Trust for your account.

HOW TO PARTICIPATE

If you wish to participate and your shares are held in your own name, call 1-800-341-2929 for more information and a Plan brochure. If your shares are held in the name of a brokerage firm, bank, or other nominee, you should contact your nominee to see if it would participate in the Plan on your behalf. If you wish to participate in the Plan, but your brokerage firm, bank or nominee is unable to participate on your behalf, you should request that your shares be re-registered in your own name which will enable your participation in the Plan.

HOW THE PLAN WORKS

Participants in the Plan will receive the equivalent in Common Shares valued on the valuation date, generally at the lower of market price or net asset value, except as specified below. The valuation date will be the dividend or distribution payment date or, if that date is not a trading day on the national securities exchange or market system on which the Common Shares are listed for trading, the next preceding trading day. If the market price per Common Share on the valuation date equals or exceeds net asset value per Common Share on that date, the Trust will issue new Common Shares to participants valued at the higher of net asset value or 95% of the market price on the valuation date. In the foregoing situation, the Trust will not issue Common Shares under the Plan below net asset value. If net asset value per Common Share on the valuation date exceeds the market price per Common Share on that date, or if the Board of Trustees should declare a dividend or capital gains distribution payable to the Common Shareholders only in cash, participants in the Plan will be deemed to have elected to receive Common Shares from the Trust valued at the market price on that date. Accordingly, in this circumstance, the Plan Agent will, as agent for the participants, buy the Trust's Common Shares in the open market for the participants' accounts on or shortly after the payment date. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value per share of the Common Shares, the average per share purchase price paid by the Plan Agent may exceed the net asset value

C-23

VAN KAMPEN PENNSYLVANIA VALUE MUNICIPAL INCOME TRUST

DIVIDEND REINVESTMENT PLAN continued

of the Trust's Common Shares, resulting in the acquisition of fewer Common Shares than if the dividend or distribution had been paid in Common Shares issued by the Trust. All reinvestments are in full and fractional Common Shares and are carried to three decimal places.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Trust reserves the right to amend or terminate the Plan as applied to any dividend or distribution paid subsequent to written notice of the changes sent to all Common Shareholders of the Trust at least 90 days before the record date for the dividend or distribution. The Plan also may be amended or terminated by the Plan Agent by at least 90 days written notice to all Common Shareholders of the Trust.

COSTS OF THE PLAN

The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Trust. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. No other charges will be made to participants for reinvesting dividends or capital gains distributions, except for certain brokerage commissions, as described above.

TAX IMPLICATIONS

You will receive tax information annually for your personal records and to help you prepare your federal income tax return. The automatic reinvestment of dividends and capital gains distributions does not relieve you of any income tax which may be payable on dividends or distributions.

RIGHT TO WITHDRAW

Plan participants may withdraw at any time by calling 1-800-341-2929 or by writing State Street Bank and Trust Company, P.O. Box 8200, Boston, MA 02266-8200. If you withdraw, you will receive, without charge, a share certificate issued in your name for all full Common Shares credited to your account under the Plan and a cash payment will be made for any fractional Common Share credited to your account under the Plan. You may again elect to participate in the Plan at any time by calling 1-800-341-2929 or writing to the Trust at:

NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding. The common share market price is the price the market is willing to pay for shares of the trust at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions. Total return assumes an investment at the beginning of the period, reinvestment of all distributions for the period in accordance with the trust's dividend reinvestment plan, and sale of all shares at the end of the period.

The Lehman Brothers Pennsylvania Municipal Bond Index is a broad-based statistical composite of Pennsylvania municipal bonds. The index is unmanaged and does not include any sales charges or fees. Such costs would lower performance. It is not possible to invest directly in an index.

Trust Report

FOR THE 6-MONTH PERIOD ENDED APRIL 30, 2005

Van Kampen Pennsylvania Value Municipal Income Trust is managed by the Adviser's Municipal Fixed Income team.(1) Current members include Dennis Pietrzak and John Reynoldson, Executive Directors of the Adviser; and Robert Wimmel, Vice President of the Adviser.

MARKET CONDITIONS

The six-month period ended April 30, 2005, was characterized by continued short-term interest rate increases. As crude oil prices reached record highs, the prospect of rising inflation also cast a shadow. The Federal Open Market Committee (the "Fed") raised the federal funds target rate 100 basis points during the period through a series of four "measured" 0.25 percent tightenings to 2.75 percent by the end of April. Although rates in the short and intermediate areas of the yield curve shifted upward as the Fed tightened, long-term interest rates fell as buyers did not seem deterred by the prospect of rising inflation. As a result, the yield curve (the difference between short and longer-term yields) flattened and the long end of the municipal market handily outperformed the shorter end.

The municipal market in total posted positive returns during the period, though it was not uniformly strong. In contrast to the strong showing by longer-term bonds, shorter-term municipals were hampered by the Fed's tightening and turned in a flat to slightly negative showing. Within the investment-grade segment of the market, yield differentials between BBB-rated and AAA-rated municipal securities were slightly wider, though BBB-rated securities still outperformed high grades due to their higher coupons, while securities rated below investment grade strongly outperformed as investors sought out their higher yields.

The Fed's interest rate hikes did not appear to dampen investors' appetites for municipal bonds, as net inflows into municipal bond funds topped \$290 million during the period. The supply of new issues was modest during the closing months of 2004 (the first two months of the period) before soaring in the opening months of 2005 as long-term issuers rushed to bring securities to market in anticipation of additional interest rate increases in the near term.

The most significant development in the Pennsylvania municipal market during the period was the ongoing trend of refundings of municipal securities by issuers. Municipal borrowers were able to take advantage of rising short-term rates and relatively stable long-term rates, which in turn allowed them to refund outstanding debt. As a result, the Pennsylvania market saw a wave of refinancings, especially in education-related sectors.

PERFORMANCE ANALYSIS

The trust's return can be calculated based upon either the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding, while market price reflects the supply and demand for the shares. As a result, the two returns can differ, as they did during the reporting period. On an NAV basis, the trust outperformed its benchmark index, the Lehman Brothers Pennsylvania Municipal Bond Index. On a market price basis, the trust underperformed its benchmark.

TOTAL RETURNS FOR THE SIX-MONTH PERIOD ENDED APRIL 30, 2005

BASED ON NAV	BASED ON MARKET PRICE	LEHMAN BROTHERS PENNSYLVANIA MUNICIPAL BOND INDEX
2.58%	-1.65%	1.82%

FUTURE RESULTS, AND CURRENT PERFORMANCE MAY BE LOWER OR HIGHER THAN THE FIGURES SHOWN. INVESTMENT RETURN, NET ASSET VALUE AND COMMON SHARE MARKET PRICE WILL FLUCTUATE AND TRUST SHARES, WHEN SOLD, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST. SEE PERFORMANCE SUMMARY FOR ADDITIONAL PERFORMANCE INFORMATION AND INDEX DEFINITION.

The trust uses leverage to enhance its dividend to common shareholders. The trust borrows money at short-term rates through the issuance of preferred shares. The proceeds are reinvested in longer-term securities, taking advantage of the difference between short- and longer-term rates. The Fed's policy of raising interest rates throughout the period made the trust's borrowing activity more expensive. These expenses, however, were more than offset by the positive performance of the bonds held by the trust.

One of our key strategies in managing the trust during the period was to position it for rising interest rates. This approach was largely the result of our analysis of interest rates, which remained relatively low by historical standards even after rising from their multi-decade lows earlier. First, we kept the trust's duration (a measure of interest-rate sensitivity) below that of its benchmark. Second, to limit the trust's exposure to areas of the market that would be most likely susceptible to rising rates, we trimmed the trust's shorter-maturity bonds. We reinvested the proceeds from those sales into bonds with premium coupons and maturities between 20 and 30 years. In addition to offering relatively attractive income streams, these securities positioned the trust to benefit from any future flattening of the yield curve.

D-5

We kept the trust's exposure well diversified across the major sectors of the Pennsylvania municipal market. Much of our relative-value trading activity was focused on selling issues that had been pre-refunded, many of which were in the public education sector; and purchasing what we believed to be more attractive securities in the public education sector. The trust remained focused on investment-grade securities, with 100 percent of the portfolio rated BBB or higher at the end of the period.

There is no guarantee the security sectors mentioned will continue to perform well or be held by the trust in the future.

VAN KAMPEN PENNSYLVANIA VALUE MUNICIPAL INCOME TRUST

NOTES TO FINANCIAL STATEMENTS -- APRIL 30, 2005 (UNAUDITED)

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen Pennsylvania Value Municipal Income Trust (the "Trust") is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The Trust's investment objective is to seek to provide a high level of current income exempt from federal and Pennsylvania income taxes and, where possible under local law, local income and personal property taxes, consistent with preservation of capital. The Trust will invest substantially all of its assets in Pennsylvania municipal securities rated investment grade at the time of investment, but may invest up to 20% of its assets in unrated securities which are believed to be of comparable quality to those rated investment grade. The Trust commenced investment operations on April 30, 1993.

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Municipal bonds are valued by independent pricing services or dealers using the mean of the bid and asked prices or, in the absence of market quotations, at fair value based upon yield data relating to municipal bonds with similar characteristics and general market conditions. Securities which are not valued by independent pricing services or dealers are valued at fair value using procedures established in good faith by the Board of Trustees. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Trust may purchase and sell securities on a "when-issued" or "delayed delivery" basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Trust will segregate assets with the custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until

payment is made. As of April 30, 2005, the Trust had \$3,354,723 of when-issued and delayed delivery purchase commitments.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis. Bond premium is amortized and discount is accreted over the expected life of each applicable security.

D. FEDERAL INCOME TAXES It is the Trust's policy to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

Effective November 1, 2004, the investment advisory fee was reduced from .60% to .55%.

The rate in effect on April 30, 2005 was 2.850%. During the six months ended April 30, 2005, the rates ranged from 1.500% to 2.850%.

The Trust pays annual fees equivalent to .25% of the preferred share liquidation value for the remarketing efforts associated with the preferred auctions. These fees are included as a component of "Preferred Share Maintenance" expense on the Statement of Operations.

The APS are redeemable at the option of the Trust in whole or in part at the liquidation value of \$25,000 per share plus accumulated and unpaid dividends. The Trust is subject to certain asset coverage tests and the APS are subject to mandatory redemption if the tests are not met.

6. INDEMNIFICATIONS

7. DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument in very general terms refers to a security whose value is "derived" from the value of an underlying asset, reference rate or index.

The Trust may invest up to 15% of its net assets in "inverse floating rate obligations." The inverse floating rate obligations in which the Trust may invest are typically created through a division of a fixed-rate municipal obligation into two separate instruments, a short-term obligation and a long-term obligation. The interest rate on the short-term obligation is set at periodic auctions. The interest rate on the long-term obligation which the

NOTES TO FINANCIAL STATEMENTS -- APRIL 30, 2005 (UNAUDITED) continued

Trust may purchase is the rate the issuer would have paid on the fixed-income obligation, (i) plus the difference between such fixed rate and the rate on the

short-term obligation, if the short-term rate is lower than the fixed rate; or (ii) minus such difference if the interest rate on the short-term obligation is higher than the fixed rate. These securities have varying degrees of liquidity and the market value of such securities generally will fluctuate in response to changes in market rates of interest to a greater extent than the value of an equal principal amount of a fixed rate security having similar credit quality, redemption provisions and maturity. These securities tend to underperform the market for fixed rate bonds in a rising interest rate environment, but tend to outperform the market for fixed rate bonds when interest rates decline or remain relatively stable. Although volatile, inverse floating rate obligations typically offer the potential for yields exceeding the yields available on fixed rate bonds with comparable credit quality, coupon, call provisions and maturity. These securities usually permit the investor to convert the floating rate security counterpart to a fixed rate (normally adjusted downward), and this optional conversion feature may provide a partial hedge against rising rates if exercised at an opportune time.

NAV per share is determined by dividing the value of the trust's portfolio

securities, cash and other assets, less all liabilities, by the total number of common shares outstanding. The common share market price is the price the market is willing to pay for shares of the trust at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions. Total return assumes an investment at the beginning of the period, reinvestment of all distributions for the period in accordance with the trust's dividend reinvestment plan, and sale of all shares at the end of the period.

The Lehman Brothers Pennsylvania Municipal Bond Index is a broad-based statistical composite of Pennsylvania municipal bonds. The index is unmanaged and should not be considered an investment. It is not possible to invest directly in an index.

Trust Report

FOR THE 12-MONTH PERIOD ENDED OCTOBER 31, 2004

Van Kampen Advantage Pennsylvania Municipal Income Trust is managed by the Adviser's Municipal Fixed Income team. (1) Current members include Dennis Pietrzak, Executive Director; Robert Wimmel, Vice President; and John Reynoldson, Executive Director.

MARKET CONDITIONS

The interest-rate environment of the 12 months ended October 31, 2004 was marked by two periods of steadily declining yields, with a significant sell-off in the middle. Yields fell steadily through the first half of the period, approaching the historical lows of 2003. This trend persisted until March, at which point yields reversed direction and began an upward march as prices fell. These losses were steepest in April, as a surprisingly strong employment report and signals from members of the Federal Open Market Committee (the Fed) caused investors to expect a near-term rate increase. Rates went on to decline from May through the end of the period as the market digested the Fed's newly hawkish rate stance. Investors were further comforted when, after the Fed raised rates at its June 30, 2004 meeting, its members indicated that the path of future rate increases would be measured.

Unusually, longer-maturity securities largely outperformed in this period of Fed tightening. Historically, the typical pattern in periods of tightening policy has seen yields rise across all maturities. During the review period, however, yields of shorter maturity bonds rose while those of bonds with longer maturities declined slightly.

Lower-quality municipal bonds also performed strongly in this environment, as the difference in yields (known as the "yield spread") between AAA and BBB rated bonds decreased by roughly 20 basis points for 20-year bonds. As a result, sectors with heavy exposure to lower-rated debt, such as hospitals and industrial-revenue bonds, posted higher total returns than sectors dominated by higher-rated debt.

Issuance for the first 10 months of 2004 (the final 10 months of the review period) was roughly six percent lower than in the same period in 2003. That said, 2003 was a record year, and at the current pace of issuance, 2004 could well be one of the largest years in recent memory. The strong supply met with faltering demand from mutual funds, as fund investors withdrew over \$15 billion

in net cash during the period. This faltering demand was largely offset by increased participation in the market by insurance companies and individual investors.

(1) Team members may change without notice at any time.

E-4

In keeping with national patterns, issuance in the Pennsylvania market fell by 17.6 percent for the first nine months of 2004 compared to the same period one year earlier. Many local municipalities moved to take advantage of relatively low interest rates during the period by refinancing their existing debt. The state's economy remained one of the most solid in the country, and its credit ratings remained strong.

PERFORMANCE ANALYSIS

The trust's return can be calculated based upon either the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding, while market price reflects the supply and demand for the shares. As a result, the two returns can differ significantly, as they did during the reporting period. On both an NAV basis and a market price basis, the trust outperformed its benchmark index, the Lehman Brothers Pennsylvania Municipal Bond Index. (See table below.)

The trust uses leverage to enhance its dividend to common shareholders. The trust borrows money at short-term rates through the issuance of preferred shares. The proceeds are reinvested in longer-term securities, taking advantage of the difference between short- and longer-term rates. The Fed's policy of raising interest rates in the final months of the period made the trust's borrowing activity more expensive. These expenses, however, were more than offset by the strong performance of the bonds we invested in, leading to the trust's outperformance versus its benchmark, which is unleveraged.

Interest rates spent much of the period at or near historic lows. Given these levels, our analysis indicated that there was little room for rates to fall further, and that as a result, rates were more likely to go up than down over the intermediate term. This analysis led us to reduce the trust's interest-rate sensitivity to a level that was near that of its benchmark. While this approach served the trust well when rates declined during the summer, it was overall a drag on performance for the one-year period.

TOTAL RETURN FOR THE 12-MONTH PERIOD ENDED OCTOBER 31, 2004

E-5

With interest rates at such low levels, several of the trust's holdings were called away by issuers seeking to refinance their bonds at lower yields. Several of the trust's shorter maturity bonds were also prerefunded, and we sold many of these securities to take advantage of more compelling opportunities elsewhere. We reinvested the proceeds into securities that we believed had attractive total-return prospects, emphasizing bonds in the 13- to 18-year portion of the yield curve, especially those with the relatively lower interest-rate sensitivity. These bonds offer the dual benefit of a strong income stream and moderate vulnerability to shifting interest rates.

We continued to pursue relative value opportunities at the long end of the market, buying securities when we believed they offered attractive value and selling them once they met our performance targets in order to reinvest the proceeds elsewhere. As part of our conservative approach to interest-rate positioning, we also trimmed the trust's holdings of highly rate-sensitive zero coupon bonds.

We remained focused on keeping the trust's risk profile within a reasonable range through attention to credit quality and diversification. By the end of the 12-month period, more than 86 percent of the trust's total investments was invested in bonds rated AAA and AA; these represent the two highest tiers of credit ratings. The portfolio was also well diversified across the major sectors of the municipal bond market. Its three largest sector exposures were water and sewer, public education, and higher education.

While it is impossible to predict the exact turning point when interest rates will move decisively higher, we believe the trust remains well positioned for the near future. We will continue to comb the municipal bond markets for interesting opportunities.

There is no guarantee that any securities mentioned will continue to perform well or be held by the trust in the future.

VAN KAMPEN ADVANTAGE PENNSYLVANIA MUNICIPAL INCOME TRUST

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2004

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen Advantage Pennsylvania Municipal Income Trust (the "Trust") is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The Trust's investment objective is to provide a high level of current income exempt from federal and Pennsylvania income taxes and, where possible under local law, local income and personal property taxes, consistent with preservation of capital. The Trust will invest substantially all of its assets in Pennsylvania municipal securities rated investment grade at the time of investment. The Trust commenced investment operations on September 25, 1992. Effective November 30, 2003, the Trust's investment adviser, Van Kampen Investment Advisory Corp., merged into its affiliate, Van Kampen Asset Management.

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Municipal bonds are valued by independent pricing services

or dealers using the mean of the bid and asked prices or, in the absence of market quotations, at fair value based upon yield data relating to municipal bonds with similar characteristics and general market conditions. Securities which are not valued by independent pricing services or dealers are valued at fair value using procedures established in good faith by the Board of Trustees. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Trust may purchase and sell securities on a "when-issued" or "delayed delivery" basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Trust will segregate assets with the custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At October 31, 2004, the Trust had no when-issued and delayed delivery purchase commitments.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis. Bond premium is amortized and discount is accreted over the expected life of each applicable security.

D. FEDERAL INCOME TAXES It is the Trust's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

VAN KAMPEN ADVANTAGE PENNSYLVANIA MUNICIPAL INCOME TRUST

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2004 continued

At October 31, 2004, the cost and related gross unrealized appreciation and depreciation are as follows:

Cost of investments for tax purposes.....	\$104,016,610
	=====
Gross tax unrealized appreciation.....	\$ 9,659,275
Gross tax unrealized depreciation.....	-0-

Net tax unrealized appreciation on investments.....	\$ 9,659,275
	=====

E. DISTRIBUTION OF INCOME AND GAINS The Trust declares and pays monthly dividends from net investment income to common shareholders. Net realized gains, if any, are distributed annually on a pro rata basis to common and preferred shareholders. Distributions from net realized gains for book purposes may include short-term capital gains, which are included as ordinary income for tax purposes.

The tax character of distributions paid during the years ended October 31, 2004 and 2003 was as follows:

	2004	2003
Distributions paid from:		
Ordinary income.....	\$ 155,669	\$ 43,589
Long-term capital gain.....	1,897,804	962,055
	-----	-----
	\$2,053,473	\$1,055,644
	=====	=====

Due to inherent differences in the recognition of income, expenses and realized gains/ losses under accounting principles generally accepted in the United States of America and federal income tax purposes, permanent differences between financial and tax basis reporting for the 2004 fiscal year have been identified and appropriately reclassified. A permanent difference relating to excise taxes paid which are not deductible for tax purposes totaling \$2,488 was reclassified from accumulated undistributed net investment income to paid in surplus. Also, a permanent difference of \$141 relating to book to tax accretion differences was reclassified from accumulated undistributed net investment income to accumulated net realized gain.

As of October 31, 2004, the components of distributable earnings on a tax basis were as follows:

Undistributed ordinary income.....	\$ 38,539
Undistributed long-term capital gain.....	\$791,896

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Trust's Investment Advisory Agreement, Van Kampen Asset Management (the "Adviser") provides investment advice and facilities to the Trust for an annual fee payable monthly of .60% of the average daily net assets of the Trust. Effective November 1, 2004, the investment advisory fee was reduced from .60% to .55%. In addition, the Trust paid a monthly administrative fee to Van Kampen Investments Inc. or its affiliates (collectively "Van Kampen"), the Trust's Administrator, at an annual rate of .05% of the

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2004 continued

average daily net assets of the Trust. Effective June 1, 2004, the administrative fee was reduced from .05% to .00%.

For the year ended October 31, 2004, the Trust recognized expenses of approximately \$7,700 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom LLP, counsel to the Trust, of which a trustee of the Trust is a partner who provides legal services to the Trust, and is therefore an affiliated person.

Under separate Accounting Services and Legal Services agreements, the

Adviser provides accounting and legal services to the Trust. The Adviser allocates the cost of such services to each trust. For the year ended October 31, 2004, the Trust recognized expenses of approximately \$26,600 representing Van Kampen's cost of providing accounting and legal services to the Trust, which are reported as part of "Other" and "Legal" expenses, respectively, in the Statement of Operations.

Certain officers and trustees of the Trust are also officers and directors of Van Kampen. The Trust does not compensate its officers or trustees who are also officers of Van Kampen.

The Trust provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Trust. The maximum annual benefit per trustee under the plan is \$2,500.

3. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments, were \$9,357,961 and \$15,194,550, respectively.

4. PREFERRED SHARES

The Trust has outstanding 1,600 Auction Preferred Shares ("APS"). Dividends are cumulative and the dividend rate is currently reset every 28 days through an auction process. The rate in effect on October 31, 2004 was 1.450%. During the year ended October 31, 2004, the rates ranged from 0.880% to 1.490%.

The Trust pays annual fees equivalent to .25% of the preferred share liquidation value for the remarketing efforts associated with the preferred auctions. These fees are included as a component of "Preferred Share Maintenance" expense in the Statement of Operations.

The APS are redeemable at the option of the Trust in whole or in part at the liquidation value of \$25,000 per share plus accumulated and unpaid dividends. The Trust is subject to certain asset coverage tests and the APS are subject to mandatory redemption if the tests are not met.

5. INDEMNIFICATIONS

The Trust enters into contracts that contain a variety of indemnifications. The Trust's maximum exposure under these arrangements is unknown. However, the Trust has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

VAN KAMPEN ADVANTAGE PENNSYLVANIA MUNICIPAL INCOME TRUST

DIVIDEND REINVESTMENT PLAN

The Trust offers a dividend reinvestment plan (the "Plan") pursuant to which Common Shareholders may elect to have dividends and capital gains distributions reinvested in Common Shares of the Trust. The Trust declares dividends out of net investment income, and will distribute annually net realized capital gains, if any. Common Shareholders may join or withdraw from the Plan at any time.

If you decide to participate in the Plan, State Street Bank and Trust Company, as your Plan Agent, will automatically invest your dividends and capital gains distributions in Common Shares of the Trust for your account.

HOW TO PARTICIPATE

If you wish to participate and your shares are held in your own name, call 1-800-341-2929 for more information and a Plan brochure. If your shares are held in the name of a brokerage firm, bank, or other nominee, you should contact your nominee to see if it would participate in the Plan on your behalf. If you wish to participate in the Plan, but your brokerage firm, bank or nominee is unable to participate on your behalf, you should request that your shares be

re-registered in your own name which will enable your participation in the Plan.

HOW THE PLAN WORKS

Participants in the Plan will receive the equivalent in Common Shares valued on the valuation date, generally at the lower of market price or net asset value, except as specified below. The valuation date will be the dividend or distribution payment date or, if that date is not a trading day on the national securities exchange or market system on which the Common Shares are listed for trading, the next preceding trading day. If the market price per Common Share on the valuation date equals or exceeds net asset value per Common Share on that date, the Trust will issue new Common Shares to participants valued at the higher of net asset value or 95% of the market price on the valuation date. In the foregoing situation, the Trust will not issue Common Shares under the Plan below net asset value. If net asset value per Common Share on the valuation date exceeds the market price per Common Share on that date, or if the Board of Trustees should declare a dividend or capital gains distribution payable to the Common Shareholders only in cash, participants in the Plan will be deemed to have elected to receive Common Shares from the Trust valued at the market price on that date. Accordingly, in this circumstance, the Plan Agent will, as agent for the participants, buy the Trust's Common Shares in the open market for the participants' accounts on or shortly after the payment date. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value per share of the Common Shares, the average per share purchase price paid by the Plan Agent may exceed the net asset value

DIVIDEND REINVESTMENT PLAN continued

of the Trust's Common Shares, resulting in the acquisition of fewer Common Shares than if the dividend or distribution had been paid in Common Shares issued by the Trust. All reinvestments are in full and fractional Common Shares and are carried to three decimal places.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Trust reserves the right to amend or terminate the Plan as applied to any dividend or distribution paid subsequent to written notice of the changes sent to all Common Shareholders of the Trust at least 90 days before the record date for the dividend or distribution. The Plan also may be amended or terminated by the Plan Agent by at least 90 days written notice to all Common Shareholders of the Trust.

COSTS OF THE PLAN

The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Trust. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. No other charges will be made to participants for reinvesting dividends or capital gains distributions, except for certain brokerage commissions, as described above.

TAX IMPLICATIONS

You will receive tax information annually for your personal records and to

help you prepare your federal income tax return. The automatic reinvestment of dividends and capital gains distributions does not relieve you of any income tax which may be payable on dividends or distributions.

RIGHT TO WITHDRAW

Plan participants may withdraw at any time by calling 1-800-341-2929 or by writing State Street Bank and Trust Company, P.O. Box 8200, Boston, MA 02266-8200. If you withdraw, you will receive, without charge, a share certificate issued in your name for all full Common Shares credited to your account under the Plan and a cash payment will be made for any fractional Common Share credited to your account under the Plan. You may again elect to participate in the Plan at any time by calling 1-800-341-2929 or writing to the Trust at:

NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding. The common share market price is the price the market is willing to pay for shares of the trust at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions. Total return assumes an investment at the beginning of the period, reinvestment of all distributions for the period in accordance with the trust's dividend reinvestment plan, and sale of all shares at the end of the period.

The Lehman Brothers Pennsylvania Municipal Bond Index is a broad-based statistical composite of Pennsylvania municipal bonds. The index is unmanaged and should not be considered an investment. It is not possible to invest directly in an index.

Trust Report

FOR THE 6-MONTH PERIOD ENDED APRIL 30, 2005

Van Kampen Advantage Pennsylvania Municipal Income Trust is managed by the Adviser's Municipal Fixed Income team. (1) Current members include Dennis Pietrzak and John Reynoldson, Executive Directors of the Adviser; and Robert Wimmel, Vice President of the Adviser.

MARKET CONDITIONS

The six-month period ended April 30, 2005, was characterized by continued short-term interest rate increases. As crude oil prices reached record highs, the prospect of rising inflation also cast a shadow. The Federal Open Market Committee (the "Fed") raised the federal funds target rate 100 basis points during the period through a series of four, "measured" 0.25 percent tightenings to 2.75 percent by the end of April. Although rates in the short and intermediate areas of the yield curve shifted upward as the Fed tightened, long-term interest rates fell as buyers did not seem deterred by the prospect of rising inflation. As a result, the yield curve (the difference between short and longer-term yields) flattened and the long end of the municipal market handily outperformed the shorter end.

The municipal market in total posted positive returns during the period, though it was not uniformly strong. In contrast to the strong showing by longer-term bonds, shorter-term municipals were hampered by the Fed's tightening and turned in a flat to slightly negative showing. Within the investment-grade segment of the market, yield differentials between BBB-rated and AAA-rated municipal securities were slightly wider, though BBB-rated securities still outperformed high grades due to their higher coupons, while securities rated below investment grade strongly outperformed as investors sought out their higher yields.

The Fed's interest rate hikes did not appear to dampen investors' appetites for municipal bonds, as net inflows into municipal bond funds topped \$290 million during the period. The supply of new issues was modest during the closing months of 2004 (the first two months of the period) before soaring in the opening months of 2005 as long-term issuers rushed to bring securities to market in anticipation of additional interest rate increases in the near term.

The most significant development in the Pennsylvania municipal market over the period was the ongoing trend of refundings of municipal securities by issuers. Municipal borrowers were able to take advantage of rising short-term rates and relatively stable long-term rates, which in turn allowed them to refund outstanding debt. As a result, the Pennsylvania market saw a wave of refinancings, especially in education-related sectors.

F-4

PERFORMANCE ANALYSIS

The trust's return can be calculated based upon either the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding, while market price reflects the supply and demand for the shares. As a result, the two returns can differ, as they did during the reporting period. On an NAV basis, the trust outperformed its benchmark index, the Lehman Brothers Pennsylvania Municipal Bond Index. On a market price basis, the trust underperformed its benchmark.

Performance data quoted represents past performance, which is no guarantee of future results, and current performance may be lower or higher than the figures shown. Investment return, net asset value and common share market price will fluctuate and trust shares, when sold, may be worth more or less than their original cost. See Performance Summary for additional performance information and index definition.

The trust uses leverage to enhance its dividend to common shareholders. The trust borrows money at short-term rates through the issuance of preferred shares. The proceeds are reinvested in longer-term securities, taking advantage of the difference between short- and longer-term rates. The Fed's policy of raising interest rates throughout the period made the trust's borrowing activity more expensive. These expenses, however, were more than offset by the positive performance of the bonds in which the trust invested.

One of our key strategies in managing the trust was to position it for rising interest rates. This approach was largely the result of our analysis of interest rates, which remained relatively low by historical standards even after rising from their multi-decade lows earlier. First, we kept the trust's duration (a measure of interest-rate sensitivity) below that of its benchmark. Second, to limit the trust's exposure to areas of the market that would be most likely susceptible to rising rates, we also trimmed the trust's shorter-maturity bonds. We reinvested the proceeds from those sales into bonds with premium coupons and maturities between 20 and 30 years. In addition to offering relatively attractive income streams, these securities positioned the trust to benefit from any future flattening of the yield curve.

We kept the trust's exposure well diversified across the major sectors of the Pennsylvania municipal market. Much of our relative-value trading activity was focused on selling issues that had been pre-refunded, many of which were in the public education sector; and purchasing what we believed were more attractive securities in the public education sector. The trust remained focused

on investment-grade securities, with 100 percent of the portfolio rated BBB or higher at the end of the period.

There is no guarantee the security sectors mentioned will continue to perform well or be held by the trust in the future.

VAN KAMPEN ADVANTAGE PENNSYLVANIA MUNICIPAL INCOME TRUST

NOTES TO FINANCIAL STATEMENTS -- APRIL 30, 2005 (UNAUDITED)

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen Advantage Pennsylvania Municipal Income Trust (the "Trust") is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The Trust's investment objective is to seek to provide a high level of current income exempt from federal and Pennsylvania income taxes and, where possible under local law, local income and personal property taxes, consistent with preservation of capital. The Trust will invest substantially all of its assets in Pennsylvania municipal securities rated investment grade at the time of investment. The Trust commenced investment operations on September 25, 1992.

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Municipal bonds are valued by independent pricing services or dealers using the mean of the bid and asked prices or, in the absence of market quotations, at fair value based upon yield data relating to municipal bonds with similar characteristics and general market conditions. Securities which are not valued by independent pricing services or dealers are valued at fair value using procedures established in good faith by the Board of Trustees. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Trust may purchase and sell securities on a "when-issued" or "delayed delivery" basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Trust will segregate assets with the custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At April 30, 2005, the Trust had \$1,286,551 of when-issued and delayed delivery purchase commitments.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis. Bond premium is amortized and discount is accreted over the expected life of each applicable security.

D. FEDERAL INCOME TAXES It is the Trust's policy to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Trust's Investment Advisory Agreement, Van Kampen Asset Management (the "Adviser") provides investment advice and facilities to the Trust for an annual fee payable monthly of .55% of the average daily net assets of the Trust. Effective November 1, 2004, the investment advisory fee was reduced from .60% to .55%.

For the six months ended April 30, 2005, the Trust recognized expenses of approximately \$3,200 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom LLP, of which a trustee of the Trust is a partner of such firm and he and his law firm provide legal services as legal counsel to the Trust.

Under separate Accounting Services and Legal Services agreements, the Adviser provides accounting and legal services to the Trust. The Adviser allocates the cost of such services to each trust. For the six months ended April 30, 2005, the Trust recognized expenses of approximately \$19,100 representing Van Kampen Investments Inc.'s or its affiliates' (collectively "Van Kampen") cost of providing accounting and legal services to the Trust, which are reported as part of "Other" and "Legal" expenses, respectively, on the Statement of Operations.

Certain officers and trustees of the Trust are also officers and directors of Van Kampen. The Trust does not compensate its officers or trustees who are also officers of Van Kampen.

VAN KAMPEN ADVANTAGE PENNSYLVANIA MUNICIPAL INCOME TRUST

NOTES TO FINANCIAL STATEMENTS -- APRIL 30, 2005 (UNAUDITED) continued

The Trust provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Trust. The maximum annual benefit per trustee under the plan is \$2,500.

3. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments, were \$11,052,397 and \$12,738,146, respectively.

4. PREFERRED SHARES

The Trust has outstanding 1,600 Auction Preferred Shares ("APS"). Dividends are

cumulative and the dividend rate is currently reset every 28 days through an auction process. The rate in effect on April 30, 2005 was 2.950%. During the six months ended April 30, 2005, the rates ranged from 1.450% to 2.950%.

The Trust pays annual fees equivalent to .25% of the preferred share liquidation value for the remarketing efforts associated with the preferred auctions. These fees are included as a component of "Preferred Share Maintenance" expense on the Statement of Operations.

The APS are redeemable at the option of the Trust in whole or in part at the liquidation value of \$25,000 per share plus accumulated and unpaid dividends. The Trust is subject to certain asset coverage tests and the APS are subject to mandatory redemption if the tests are not met.

5. INDEMNIFICATIONS

The Trust enters into contracts that contain a variety of indemnifications. The Trust's maximum exposure under these arrangements is unknown. However, the Trust has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

6. DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument in very general terms refers to a security whose value is "derived" from the value of an underlying asset, reference rate or index.

The Trust may invest up to 15% of its net assets in "inverse floating rate obligations." The inverse floating rate obligations in which the Trust may invest are typically created through a division of a fixed-rate municipal obligation into two separate instruments, a short-term obligation and a long-term obligation. The interest rate on the short-term obligation is set at periodic auctions. The interest rate on the long-term obligation which the Trust may purchase is the rate the issuer would have paid on the fixed-income obligation, (i) plus the difference between such fixed rate and the rate on the short-term obligation, if the short-term rate is lower than the fixed rate; or (ii) minus such difference if the interest rate on the short-term obligation is higher than the fixed rate. These securities have varying degrees of liquidity and the market value of such securities generally will fluctuate in response to changes in market rates of interest to a greater extent than the value of an equal principal amount of a fixed rate security having similar credit quality, redemption provisions and maturity. These securities tend to underperform the market for fixed rate bonds in a rising interest rate environment, but tend to outperform the market for fixed rate bonds

F-20

VAN KAMPEN ADVANTAGE PENNSYLVANIA MUNICIPAL INCOME TRUST

NOTES TO FINANCIAL STATEMENTS -- APRIL 30, 2005 (UNAUDITED) continued

when interest rates decline or remain relatively stable. Although volatile, inverse floating rate obligations typically offer the potential for yields exceeding the yields available on fixed rate bonds with comparable credit quality, coupon, call provisions and maturity. These securities usually permit the investor to convert the floating rate security counterpart to a fixed rate (normally adjusted downward), and this optional conversion feature may provide a partial hedge against rising rates if exercised at an opportune time.

NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding. The common share market price is the price the market is willing to pay for shares of the trust at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions. Total return assumes an investment at the beginning of the period, reinvestment of all distributions for the period in accordance with the trust's dividend reinvestment plan, and sale of all shares at the end of the period.

The Lehman Brothers Pennsylvania Municipal Bond Index is a broad-based statistical composite of Pennsylvania municipal bonds. The index does not include any expenses, fees or sales charges, which would lower performance. The index is unmanaged and should not be considered an investment. It is not possible to invest directly in an index.

Trust Report

FOR THE 12-MONTH PERIOD ENDED OCTOBER 31, 2004

Van Kampen Pennsylvania Quality Municipal Trust is managed by the Advisor's Municipal Fixed Income team. (1) Current members include Dennis Pietrzak, Executive Director; Robert Wimmel, Vice President; and John Reynoldson, Executive Director.

MARKET CONDITIONS

The interest-rate environment of the 12 months ended October 31, 2004 was marked by two periods of steadily declining yields, with a significant sell-off in the middle. Yields fell steadily through the first half of the period, approaching the historical lows of 2003. This trend persisted until March, at which point yields reversed direction and began an upward march as prices fell. These losses were steepest in April, as a surprisingly strong employment report and signals from members of the Federal Open Market Committee (the Fed) caused investors to expect a near-term rate increase. Rates went on to decline from May through the end of the period as the market digested the Fed's newly hawkish rate stance. Investors were further comforted when, after the Fed raised rates at its June 30, 2004 meeting, its members indicated that the path of future rate increases would be measured.

Unusually, longer-maturity securities largely outperformed in this period of Fed tightening. Historically, the typical pattern in periods of tightening policy has seen yields rise across all maturities. During the review period, however, yields of shorter maturity bonds rose while those of bonds with longer maturities declined slightly.

Lower-quality municipal bonds also performed strongly in this environment, as the difference in yields (known as the "yield spread") between AAA and BBB rated bonds decreased by roughly 20 basis points for 20-year bonds. As a result, sectors with heavy exposure to lower-rated debt, such as hospitals and industrial-revenue bonds, posted higher total returns than sectors dominated by higher-rated debt.

Issuance for the first 10 months of 2004 (the final 10 months of the review period) was roughly six percent lower than in the same period in 2003. That said, 2003 was a record year, and at the current pace of issuance, 2004 could well be one of the largest years in recent memory. The strong supply met with faltering demand from mutual funds, as fund investors withdrew over \$15 billion in net cash during the period. This faltering demand was largely offset by increased participation in the market by insurance companies and individual investors.

(1) Team members may change without notice at any time.

G-4

In keeping with national patterns, issuance in the Pennsylvania market fell by 17.6 percent for the first nine months of 2004 compared to the same period one year earlier. Many local municipalities moved to take advantage of relatively low interest rates during the period by refinancing their existing debt. The state's economy remained one of the most solid in the country, and its credit ratings remained strong.

PERFORMANCE ANALYSIS

The trust's return can be calculated based upon either the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding, while market price reflects the supply and demand for the shares. As a result, the two returns can differ significantly, as they did during the reporting period. On both an NAV basis and a market price basis, the trust outperformed its benchmark, the Lehman Brothers Pennsylvania Municipal Bond Index. (See table below.)

The trust uses leverage to enhance its dividend to common shareholders. The trust borrows money at short-term rates through the issuance of preferred shares. The proceeds are reinvested in longer-term securities, taking advantage of the difference between short- and longer-term rates. The Fed's policy of raising interest rates in the final months of the period made the trust's borrowing activity more expensive. These expenses, however, were more than offset by the strong performance of the bonds we invested in, leading to the trust's outperformance versus its benchmark, which is unleveraged.

Interest rates spent much of the period at or near historic lows. Given these levels, our analysis indicated that there was little room for rates to fall further, and that as a result, rates were more likely to go up than down over the intermediate term. This analysis led us to reduce the trust's interest-rate sensitivity to a level that was near that of its benchmark. While this approach served the trust well when rates declined during the summer, it was overall a drag on performance for the one-year period.

With interest rates at such low levels, several of the trust's holdings were called away by issuers seeking to refinance their bonds at lower yields. Several of the trust's shorter maturity bonds were also prerefunded, and we sold many of

these securities to take advantage of more compelling opportunities elsewhere. We reinvested the proceeds into securities that we believed had attractive total-return prospects. Our purchases emphasized bonds in the 13- to 18-year portion of the yield curve, especially those with the relatively lower interest-rate sensitivity. These bonds offer the dual benefit of a strong income

stream and moderate vulnerability to shifting interest rates.

We continued to pursue relative-value opportunities at the long end of the market, buying securities when we believed they offered attractive value and selling them once they met our performance targets in order to reinvest the proceeds elsewhere. As part of our conservative approach to interest-rate positioning, we also trimmed the trust's holdings of highly rate-sensitive zero coupon bonds.

We remained focused on keeping the trust's risk profile within a reasonable range through attention to credit quality and diversification. By the end of the 12-month period, more than 79 percent of the trust's total investments were invested in bonds rated AAA and AA; these represent the two highest tiers of credit ratings. The portfolio was also well diversified across the major sectors of the municipal bond market. Its three largest sector exposures were higher education, public education, and general purpose.

While it is impossible to predict the exact turning point when interest rates will move decisively higher, we believe the trust remains well positioned for the near future. We will continue to comb the municipal bond markets for interesting opportunities.

There is no guarantee that any securities mentioned will continue to perform well or be held by the trust in the future.

VAN KAMPEN PENNSYLVANIA QUALITY MUNICIPAL TRUST

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2004

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen Pennsylvania Quality Municipal Trust (the "Trust") is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The Trust's investment objective is to provide a high level of current income exempt from federal and Pennsylvania income taxes and, where possible under local law, local income and personal property taxes, consistent with preservation of capital. The Trust will invest in a portfolio consisting substantially of Pennsylvania municipal obligations rated investment grade at the time of investment, but may invest up to 20% of its assets in unrated securities which are believed to be of comparable quality to those rated investment grade. The Trust commenced investment operations on September 27, 1991. Effective November 30, 2003, the Trust's investment adviser, Van Kampen Investment Advisory Corp., merged into its affiliate, Van Kampen Asset Management.

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Municipal bonds are valued by independent pricing services or dealers using the mean of the bid and asked prices or, in the absence of market quotations, at fair value based upon yield data relating to municipal bonds with similar characteristics and general market conditions. Securities which are not valued by independent pricing services or dealers are valued at fair value using procedures established in good faith by the Board of Trustees. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Trust may purchase and sell securities on a "when-issued" or "delayed delivery" basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Trust will segregate assets with the custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At October 31, 2004, the Trust had \$1,061,370 of when-issued or delayed delivery purchase commitments.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis. Bond premium is amortized and discount is accreted over the expected life of each applicable security.

D. FEDERAL INCOME TAXES It is the Trust's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

VAN KAMPEN PENNSYLVANIA QUALITY MUNICIPAL TRUST

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2004 continued

At October 31, 2004, the cost and related gross unrealized appreciation and depreciation are as follows:

Cost of investments for tax purposes.....	\$187,484,376
	=====
Gross tax unrealized appreciation.....	\$ 15,471,644
Gross tax unrealized depreciation.....	(11,716)

Net tax unrealized appreciation on investments.....	\$ 15,459,928
	=====

E. DISTRIBUTION OF INCOME AND GAINS The Trust declares and pays monthly dividends from net investment income to common shareholders. Net realized gains, if any, are distributed annually on a pro rata basis to common and preferred shareholders. Distributions from net realized gains for book purposes may include short-term capital gains, which are included as ordinary income for tax purposes.

The tax character of distributions paid during the years ended October 31, 2004 and 2003 was as follows:

	2004	2003
Distributions paid from:		
Ordinary income.....	\$ 127,385	\$ 134,602
Long-term capital gain.....	2,346,765	1,255,342
	-----	-----
	\$2,474,150	\$1,389,944
	=====	=====

Due to inherent differences in the recognition of income, expenses and realized gains/losses under accounting principles generally accepted in the United States of America and federal income tax purposes, permanent differences between financial and tax basis reporting for the 2004 fiscal year have been identified and appropriately reclassified. A permanent difference relating to excise taxes paid which are not deductible for tax purposes totaling \$1,219 was reclassified from accumulated undistributed net investment income to paid in surplus. Also, a permanent difference of \$1,077 relating to book to tax

accretion differences was reclassified from accumulated undistributed net investment income to accumulated net realized gain.

As of October 31, 2004, the components of distributable earnings on a tax basis were as follows:

Undistributed ordinary income.....	\$ 94,270
Undistributed long-term capital gain.....	549,317

F. EXPENSE REDUCTIONS During the year ended October 31, 2004, the Trust's custody fee was reduced by \$66 as a result of credits earned on cash balances.

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Trust's Investment Advisory Agreement, Van Kampen Asset Management (the "Adviser") will provide investment advice and facilities to the Trust for an annual fee payable monthly of .60% of the average daily net assets of the Trust. Effective November 1, 2004, the investment advisory fee was reduced from .60% to .55%. In addition,

VAN KAMPEN PENNSYLVANIA QUALITY MUNICIPAL TRUST

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2004 continued

the Trust paid a monthly administrative fee to Van Kampen Investments Inc. or its affiliates (collectively "Van Kampen"), the Trust's Administrator, at an annual rate of .05% of the average daily net assets of the Trust. Effective June 1, 2004, the administrative fee was reduced from .05% to .00%.

For the year ended October 31, 2004, the Trust recognized expenses of approximately \$12,700 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom LLP, counsel to the Trust, of which a trustee of the Trust is a partner who provides legal services to the Trust, and is therefore an affiliated person.

Under separate Accounting Services and Legal Services agreements, the Adviser provides accounting and legal services to the Trust. The Adviser allocates the cost of such services to each trust. For the year ended October 31, 2004, the Trust recognized expenses of approximately \$29,800 representing Van Kampen's cost of providing accounting and legal services to the Trust, which are reported as part of "Other" and "Legal" expenses, respectively, in the Statement of Operations.

Certain officers and trustees of the Trust are also officers and directors of Van Kampen. The Trust does not compensate its officers or trustees who are also officers of Van Kampen.

The Trust provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Trust. The maximum annual benefit per trustee under the plan is \$2,500.

3. CAPITAL TRANSACTIONS

At October 31, 2004, and October 31, 2003, paid in surplus related to common shares aggregated \$122,586,845 and \$122,527,815, respectively.

Transactions in common shares were as follows:

	-----	-----
Ending Shares.....	8,268,008 =====	8,264,411 =====

4. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments, were \$28,378,021 and \$31,260,038, respectively.

5. PREFERRED SHARES

The Trust has outstanding 2,600 Auction Preferred Shares ("APS"). Dividends are cumulative and the rate is currently reset through an auction process every 28 days. The rate in effect on October 31, 2004 was 1.800% and for the year ended October 31, 2004 the rates ranged from 0.917% to 1.840%.

The Trust pays annual fees equivalent to .25% of the preferred share liquidation value for the remarketing efforts associated with the preferred auctions. These fees are included as a component of "Preferred Share Maintenance" expense in the Statement of Operations.

G-22

VAN KAMPEN PENNSYLVANIA QUALITY MUNICIPAL TRUST

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2004 continued

The APS are redeemable at the option of the Trust in whole or in part at the liquidation value of \$25,000 per share plus accumulated and unpaid dividends. The Trust is subject to certain asset coverage tests, and the APS are subject to mandatory redemption if the tests are not met.

6. INDEMNIFICATIONS

The Trust enters into contracts that contain a variety of indemnifications. The Trust's maximum exposure under these arrangements is unknown. However, the Trust has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees and Shareholders of Van Kampen Pennsylvania Quality Municipal Trust:

We have audited the accompanying statement of assets and liabilities of Van Kampen Pennsylvania Quality Municipal Trust (the "Trust"), including the portfolio of investments, as of October 31, 2004, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. The Trust's financial highlights for the periods ended prior to October 31, 2000 were audited by other auditors whose report, dated December 6, 1999, expressed an unqualified opinion on those financial highlights.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2004, by correspondence with the Trust's custodian and brokers. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Van Kampen Pennsylvania Quality Municipal Trust as of October 31, 2004, the results of its operations for the year then ended, the changes in its net assets and the financial highlights for the respective stated periods, in conformity with accounting principles generally accepted in the United States of America.

VAN KAMPEN PENNSYLVANIA QUALITY MUNICIPAL TRUST

DIVIDEND REINVESTMENT PLAN

The Trust offers a dividend reinvestment plan (the "Plan") pursuant to which Common Shareholders may elect to have dividends and capital gains distributions reinvested in Common Shares of the Trust. The Trust declares dividends out of net investment income, and will distribute annually net realized capital gains, if any. Common Shareholders may join or withdraw from the Plan at any time.

If you decide to participate in the Plan, State Street Bank and Trust

Company, as your Plan Agent, will automatically invest your dividends and capital gains distributions in Common Shares of the Trust for your account.

HOW TO PARTICIPATE

If you wish to participate and your shares are held in your own name, call 1-800-341-2929 for more information and a Plan brochure. If your shares are held in the name of a brokerage firm, bank, or other nominee, you should contact your nominee to see if it would participate in the Plan on your behalf. If you wish to participate in the Plan, but your brokerage firm, bank or nominee is unable to participate on your behalf, you should request that your shares be re-registered in your own name which will enable your participation in the Plan.

HOW THE PLAN WORKS

Participants in the Plan will receive the equivalent in Common Shares valued on the valuation date, generally at the lower of market price or net asset value, except as specified below. The valuation date will be the dividend or distribution payment date or, if that date is not a trading day on the national securities exchange or market system on which the Common Shares are listed for trading, the next preceding trading day. If the market price per Common Share on the valuation date equals or exceeds net asset value per Common Share on that date, the Trust will issue new Common Shares to participants valued at the higher of net asset value or 95% of the market price on the valuation date. In the foregoing situation, the Trust will not issue Common Shares under the Plan below net asset value. If net asset value per Common Share on the valuation date exceeds the market price per Common Share on that date, or if the Board of Trustees should declare a dividend or capital gains distribution payable to the Common Shareholders only in cash, participants in the Plan will be deemed to have elected to receive Common Shares from the Trust valued at the market price on that date. Accordingly, in this circumstance, the Plan Agent will, as agent for the participants, buy the Trust's Common Shares in the open market for the participants' accounts on or shortly after the payment date. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value per share of the Common Shares, the average per share purchase price paid by the Plan Agent may exceed the net asset value

G-25

VAN KAMPEN PENNSYLVANIA QUALITY MUNICIPAL TRUST

DIVIDEND REINVESTMENT PLAN continued

of the Trust's Common Shares, resulting in the acquisition of fewer Common Shares than if the dividend or distribution had been paid in Common Shares issued by the Trust. All reinvestments are in full and fractional Common Shares and are carried to three decimal places.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Trust reserves the right to amend or terminate the Plan as applied to any dividend or distribution paid subsequent to written notice of the changes sent to all Common Shareholders of the Trust at least 90 days before the record date for the dividend or distribution. The Plan also may be amended or terminated by the Plan Agent by at least 90 days written notice to all Common Shareholders of the Trust.

COSTS OF THE PLAN

The Plan Agent's fees for the handling of the reinvestment of dividends and

distributions will be paid by the Trust. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. No other charges will be made to participants for reinvesting dividends or capital gains distributions, except for certain brokerage commissions, as described above.

TAX IMPLICATIONS

You will receive tax information annually for your personal records and to help you prepare your federal income tax return. The automatic reinvestment of dividends and capital gains distributions does not relieve you of any income tax which may be payable on dividends or distributions.

RIGHT TO WITHDRAW

Plan participants may withdraw at any time by calling 1-800-341-2929 or by writing State Street Bank and Trust Company, P.O. Box 8200, Boston, MA 02266-8200. If you withdraw, you will receive, without charge, a share certificate issued in your name for all full Common Shares credited to your account under the Plan and a cash payment will be made for any fractional Common Share credited to your account under the Plan. You may again elect to participate in the Plan at any time by calling 1-800-341-2929 or writing to the Trust at:

NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding. The common share market price is the price the market is willing to pay for shares of the trust at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions. Total return assumes an investment at the beginning of the period, reinvestment of all distributions for the period in accordance with the trust's dividend reinvestment plan, and sale of all shares at the end of the period.

The Lehman Brothers Pennsylvania Municipal Bond Index is a broad-based statistical composite of Pennsylvania municipal bonds. The index does not include any expenses, fees or sales charges, which would lower performance. The index is unmanaged and should not be considered an investment. It is not possible to invest directly in an index.

Trust Report

FOR THE 6-MONTH PERIOD ENDED APRIL 30, 2005

Van Kampen Pennsylvania Quality Municipal Trust is managed by the Advisor's

Municipal Fixed Income team.(1) Current members include Dennis Pietrzak and John Reynoldson, Executive Directors of the Adviser; and Robert Wimmel, Vice President of the Adviser.

MARKET CONDITIONS

The six-month period ended April 30, 2005, was characterized by continued short-term interest rate increases. As crude oil prices reached record highs, the prospect of rising inflation also cast a shadow. The Federal Open Market Committee (the "Fed") raised the federal funds target rate 100 basis points during the period through a series of four, "measured" 0.25 percent tightenings to 2.75 percent by the end of April. Although rates in the short and intermediate areas of the yield curve shifted upward as the Fed tightened, long-term interest rates fell as buyers did not seem deterred by the prospect of rising inflation. As a result, the yield curve (the difference between short and longer-term yields) flattened and the long end of the municipal market handily outperformed the shorter end.

The municipal market in total posted positive returns during the period, though it was not uniformly strong. In contrast to the strong showing by longer-term bonds, shorter-term municipals were hampered by the Fed's tightening and turned in a flat to slightly negative showing. Within the investment-grade segment of the market, yield differentials between BBB-rated and AAA-rated municipal securities were slightly wider, though BBB-rated securities still outperformed high grades due to their higher coupons, while securities rated below investment grade strongly outperformed as investors sought out their higher yields.

The Fed's interest rate hikes did not appear to dampen investors' appetites for municipal bonds, as net inflows into municipal bond funds topped \$290 million during the period. The supply of new issues was modest during the closing months of 2004 (the first two months of the period) before soaring in the opening months of 2005 as long-term issuers rushed to bring securities to market in anticipation of additional interest rate increases in the near term.

The most significant development in the Pennsylvania municipal market over the period was the ongoing trend of refundings of municipal securities by issuers. Municipal borrowers were able to take advantage of rising short-term rates and relatively stable long-term rates, which in turn allowed them to refund outstanding debt. As a result, the Pennsylvania market saw a wave of refinancings, especially in education-related sectors.

PERFORMANCE ANALYSIS

The trust's return can be calculated based upon either the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding, while market price reflects the supply and demand for the shares. As a result, the two returns can differ, as they did during the reporting period. On an NAV basis, the trust outperformed its benchmark index, the Lehman Brothers Pennsylvania Municipal Bond Index. On a market price basis, the trust underperformed its benchmark.

TOTAL RETURNS FOR THE SIX-MONTH PERIOD ENDED APRIL 30, 2005

BASED ON NAV	BASED ON MARKET PRICE	LEHMAN BROTHERS PENNSYLVANIA MUNICIPAL BOND INDEX
3.36%	-2.38%	1.82%

PERFORMANCE DATA QUOTED REPRESENTS PAST PERFORMANCE, WHICH IS NO GUARANTEE OF FUTURE RESULTS, AND CURRENT PERFORMANCE MAY BE LOWER OR HIGHER THAN THE FIGURES SHOWN. INVESTMENT RETURN, NET ASSET VALUE AND COMMON SHARE MARKET PRICE WILL FLUCTUATE AND TRUST SHARES, WHEN SOLD, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST. SEE PERFORMANCE SUMMARY FOR ADDITIONAL PERFORMANCE INFORMATION AND INDEX DEFINITION.

The trust uses leverage to enhance its dividend to common shareholders. The trust borrows money at short-term rates through the issuance of preferred shares. The proceeds are reinvested in longer-term securities, taking advantage of the difference between short- and longer-term rates. The Fed's policy of raising interest rates throughout the period made the trust's borrowing activity more expensive. These expenses, however, were more than offset by the positive performance of the bonds held by the trust.

One of our key strategies in managing the trust during the period was to position it for rising interest rates. This approach was largely the result of our analysis of interest rates, which remained relatively low by historical standards even after rising from their multi-decade lows earlier. First, we kept the trust's duration (a measure of interest-rate sensitivity) below that of its benchmark. Second, to limit the trust's exposure to areas of the market that would be most likely susceptible to rising rates, we also trimmed the trust's shorter-maturity bonds. We reinvested the proceeds from those sales into bonds with premium coupons and maturities between 20 and 30 years. In addition to offering relatively attractive income streams, these securities positioned the trust to benefit from any future flattening of the yield curve.

We kept the trust's exposure well diversified across the major sectors of the Pennsylvania municipal market. Much of our relative-value trading activity was focused on selling issues that had been pre-refunded, many of which were in the public education sector; and purchasing what we believed were more

H-5

attractive securities in the public education sector. The trust remained focused on investment-grade securities, with more than 95 percent of the portfolio rated BBB or higher at the end of the period.

There is no guarantee the security sectors mentioned will continue to perform well or be held by the trust in the future.

(a) As required, effective October 1, 2001, the Trust has adopted the provisions of the AIPCA Audit and Accounting Guide for Investment Companies and began accreting market discount on fixed income securities. The effect of this change for the year ended October 31, 2002 was to increase investment income per share by less than \$.01, decrease net realized and unrealized gains and losses per share by less than \$.01 and increase the ratio of net investment income to average net assets by .04%. Per share, ratios and supplemental data for periods prior to October 31, 2002 have not been restated to reflect this change in presentation.

(b) Total return based on market price assumes an investment at the market price at the beginning of the period indicated, reinvestment of all distributions for the period in accordance with the Trust's dividend reinvestment plan, and sale of all shares at the closing common share market price at the end of the period indicated.

(c) Ratios do not reflect the effect of dividend payments to preferred shareholders.

(d) Ratios reflect the effect of dividend payments to preferred shareholders.

(e) Calculated by subtracting the Trust's total liabilities (not including the preferred shares) from the Trust's total assets and dividing this by the number of preferred shares outstanding.

VAN KAMPEN PENNSYLVANIA QUALITY MUNICIPAL TRUST

NOTES TO FINANCIAL STATEMENTS -- APRIL 30, 2005 (UNAUDITED)

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen Pennsylvania Quality Municipal Trust (the "Trust") is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The Trust's investment objective is to provide a high level of current income exempt from federal and Pennsylvania income taxes and, where possible under local law, local income and personal property taxes, consistent with preservation of capital. The Trust will invest in a portfolio consisting substantially of Pennsylvania municipal obligations rated investment grade at the time of investment, but may invest up to 20% of its assets in unrated securities which are believed to be of comparable quality to those rated investment grade. The Trust commenced investment operations on September 27, 1991.

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The

preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Municipal bonds are valued by independent pricing services or dealers using the mean of the bid and asked prices or, in the absence of market quotations, at fair value based upon yield data relating to municipal bonds with similar characteristics and general market conditions. Securities which are not valued by independent pricing services or dealers are valued at fair value using procedures established in good faith by the Board of Trustees. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Trust may purchase and sell securities on a "when-issued" or "delayed delivery" basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Trust will segregate assets with the custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At April 30, 2005, the Trust had \$7,998,913 of when-issued or delayed delivery purchase commitments.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis. Bond premium is amortized and discount is accreted over the expected life of each applicable security.

D. FEDERAL INCOME TAXES It is the Trust's policy to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Trust's Investment Advisory Agreement, Van Kampen Asset Management (the "Adviser") will provide investment advice and facilities to the Trust for an annual fee payable monthly of .55% of the average daily net assets of the Trust. Effective November 1, 2004, the investment advisory fee was reduced from .60% to .55%.

For the six months ended April 30, 2005, the Trust recognized expenses of approximately \$6,600 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom LLP, of which a trustee of the Trust is a partner of such firm and he and his law firm provide legal services as legal counsel to the Trust.

Under separate Accounting Services and Legal Services agreements, the Adviser provides accounting and legal services to the Trust. The Adviser allocates the cost of such services to each trust. For the six months ended April 30, 2005, the Trust recognized expenses of approximately \$21,800 representing Van Kampen Investments Inc.'s or its affiliates' (collectively "Van Kampen") cost of providing accounting and legal services to the Trust, which are reported as part of "Other" and "Legal" expenses, respectively, in the Statement of Operations.

Certain officers and trustees of the Trust are also officers and directors of Van Kampen. The Trust does not compensate its officers or trustees who are also officers of Van Kampen.

The Trust provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to

defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Trust. The maximum annual benefit per trustee under the plan is \$2,500.

3. CAPITAL TRANSACTIONS

At April 30, 2005 and October 31, 2004, paid in surplus related to common shares aggregated \$122,586,845.

Transactions in common shares were as follows:

	SIX MONTHS ENDED APRIL 30, 2005	YEAR ENDED OCTOBER 31, 2004
Beginning Shares.....	8,268,008	8,264,411
Shares Issued Through Dividend Reinvestment.....	-0-	3,597
	-----	-----
Ending Shares.....	8,268,008 =====	8,268,008 =====

4. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments, were \$27,022,363 and \$21,619,825, respectively.

5. PREFERRED SHARES

The Trust has outstanding 2,600 Auction Preferred Shares ("APS"). Dividends are cumulative and the rate is currently reset through an auction process every 28 days. The rate in effect on April 30, 2005 was 2.500% and for the six months ended April 30, 2005 the rates ranged from 1.800% to 2.500%.

The Trust pays annual fees equivalent to .25% of the preferred share liquidation value for the remarketing efforts associated with the preferred auctions. These fees are included as a component of "Preferred Share Maintenance" expense in the Statement of Operations.

The APS are redeemable at the option of the Trust in whole or in part at the liquidation value of \$25,000 per share plus accumulated and unpaid dividends. The Trust is subject to certain asset coverage tests, and the APS are subject to mandatory redemption if the tests are not met.

6. INDEMNIFICATIONS

The Trust enters into contracts that contain a variety of indemnifications. The Trust's maximum exposure under these arrangements is unknown. However, the Trust has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

7. DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument in very general terms refers to a security whose value is "derived" from the value of an underlying asset, reference rate or index.

The Trust may invest up to 15% of its net assets in "inverse floating rate obligations." The inverse floating rate obligations in which the Trust may invest are typically created through a division of a fixed-rate municipal obligation into two separate instruments, a short-term obligation and a long-term obligation. The interest rate on the short-term obligation is set at periodic auctions. The interest rate on the long-term obligation which the

H-22

Trust may purchase is the rate the issuer would have paid on the fixed-income obligation, (i) plus the difference between such fixed rate and the rate on the short-term obligation, if the short-term rate is lower than the fixed rate; or (ii) minus such difference if the interest rate on the short-term obligation is higher than the fixed rate. These securities have varying degrees of liquidity and the market value of such securities generally will fluctuate in response to changes in market rates of interest to a greater extent than the value of an equal principal amount of a fixed rate security having similar credit quality, redemption provisions and maturity. These securities tend to underperform the market for fixed rate bonds in a rising interest rate environment, but tend to outperform the market for fixed rate bonds when interest rates decline or remain relatively stable. Although volatile, inverse floating rate obligations typically offer the potential for yields exceeding the yields available on fixed rate bonds with comparable credit quality, coupon, call provisions and maturity. These securities usually permit the investor to convert the floating rate security counterpart to a fixed rate (normally adjusted downward), and this optional conversion feature may provide a partial hedge against rising rates if exercised at an opportune time.

VAN KAMPEN PENNSYLVANIA QUALITY MUNICIPAL TRUST

DIVIDEND REINVESTMENT PLAN

The Trust offers a dividend reinvestment plan (the "Plan") pursuant to which Common Shareholders may elect to have dividends and capital gains distributions reinvested in Common Shares of the Trust. The Trust declares dividends out of net investment income, and will distribute annually net realized capital gains, if any. Common Shareholders may join or withdraw from the Plan at any time.

If you decide to participate in the Plan, State Street Bank and Trust Company, as your Plan Agent, will automatically invest your dividends and capital gains distributions in Common Shares of the Trust for your account.

HOW TO PARTICIPATE

If you wish to participate and your shares are held in your own name, call 1-800-341-2929 for more information and a Plan brochure. If your shares are held in the name of a brokerage firm, bank, or other nominee, you should contact your nominee to see if it would participate in the Plan on your behalf. If you wish to participate in the Plan, but your brokerage firm, bank or nominee is unable to participate on your behalf, you should request that your shares be re-registered in your own name which will enable your participation in the Plan.

HOW THE PLAN WORKS

Participants in the Plan will receive the equivalent in Common Shares valued on the valuation date, generally at the lower of market price or net asset value, except as specified below. The valuation date will be the dividend or distribution payment date or, if that date is not a trading day on the national securities exchange or market system on which the Common Shares are listed for trading, the next preceding trading day. If the market price per Common Share on the valuation date equals or exceeds net asset value per Common Share on that date, the Trust will issue new Common Shares to participants valued at the higher of net asset value or 95% of the market price on the valuation date. In the foregoing situation, the Trust will not issue Common Shares under the Plan below net asset value. If net asset value per Common Share on the valuation date exceeds the market price per Common Share on that date, or if the Board of Trustees should declare a dividend or capital gains distribution payable to the Common Shareholders only in cash, participants in the Plan will be deemed to have elected to receive Common Shares from the Trust valued at the market price on that date. Accordingly, in this circumstance, the Plan Agent will, as agent for the participants, buy the Trust's Common Shares in the open market for the participants' accounts on or shortly after the payment date. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value per share of the Common Shares, the average per share purchase price paid by the Plan Agent may exceed the net asset value

DIVIDEND REINVESTMENT PLAN continued

of the Trust's Common Shares, resulting in the acquisition of fewer Common Shares than if the dividend or distribution had been paid in Common Shares issued by the Trust. All reinvestments are in full and fractional Common Shares and are carried to three decimal places.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Trust reserves the right to amend or terminate the Plan as applied to any dividend or distribution paid subsequent to written notice of the changes sent to all Common Shareholders of the Trust at least 90 days before the record date for the dividend or distribution. The Plan also may be amended or terminated by the Plan Agent by at least 90 days written notice to all Common Shareholders of the Trust.

COSTS OF THE PLAN

The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Trust. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends

and distributions. No other charges will be made to participants for reinvesting dividends or capital gains distributions, except for certain brokerage commissions, as described above.

TAX IMPLICATIONS

You will receive tax information annually for your personal records and to help you prepare your federal income tax return. The automatic reinvestment of dividends and capital gains distributions does not relieve you of any income tax which may be payable on dividends or distributions.

RIGHT TO WITHDRAW

Plan participants may withdraw at any time by calling 1-800-341-2929 or by writing State Street Bank and Trust Company, P.O. Box 8200, Boston, MA 02266-8200. If you withdraw, you will receive, without charge, a share certificate issued in your name for all full Common Shares credited to your account under the Plan and a cash payment will be made for any fractional Common Share credited to your account under the Plan. You may again elect to participate in the Plan at any time by calling 1-800-341-2929 or writing to the Trust at:

APPENDIX I

ANNUAL REPORT OF VAN KAMPEN TRUST FOR INVESTMENT GRADE PENNSYLVANIA MUNICIPALS
DATED OCTOBER 31, 2004

I-1

Item 1. Report to Shareholders

The Trust's annual report transmitted to shareholders pursuant to Rule 30e-1 under the Investment Company Act of 1940 is as follows:

WHEN SOLD, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST.

NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding. The common share market price is the price the market is willing to pay for shares of the trust at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions. Total return assumes an investment at the beginning of the period, reinvestment of all distributions for the period in accordance with the trust's dividend reinvestment plan, and sale of all shares at the end of the period.

The Lehman Brothers Pennsylvania Municipal Bond Index is a broad-based statistical composite of Pennsylvania municipal bonds. The index does not include any expenses, fees or sales charges, which would lower performance. The index is unmanaged and should not be considered an investment. It is not possible to invest directly in an index.

Trust Report

FOR THE 12-MONTH PERIOD ENDED OCTOBER 31, 2004

Van Kampen Trust for Investment Grade Pennsylvania Municipals is managed by the Adviser's Municipal Fixed Income team. (1) Current members include Dennis Pietrzak, Executive Director; Robert Wimmel, Vice President; and John Reynoldson, Executive Director.

MARKET CONDITIONS

The interest-rate environment of the 12 months ended October 31, 2004 was marked by two periods of steadily declining yields, with a significant sell-off in the middle. Yields fell steadily through the first half of the period, approaching the historical lows of 2003. This trend persisted until March, at which point yields reversed direction and began an upward march as prices fell. These losses were steepest in April, as a surprisingly strong employment report and signals from members of the Federal Open Market Committee (the "Fed") caused investors to expect a near-term rate increase. Rates went on to decline from May through the end of the period as the market digested the Fed's newly hawkish rate stance. Investors were further comforted when, after the Fed raised rates at its June 30, 2004 meeting, its members indicated that the path of future rate increases would be measured.

Unusually, longer-maturity securities largely outperformed in this period of Fed tightening. Historically, the typical pattern in periods of tightening policy has seen yields rise across all maturities. During the review period, however, yields of shorter maturity bonds rose while those of bonds with longer maturities declined slightly.

Lower-quality municipal bonds also performed strongly in this environment, as the difference in yields (known as the "yield spread") between AAA and BBB rated bonds decreased by roughly 20 basis points for 20-year bonds. As a result, sectors with heavy exposure to lower-rated debt, such as hospitals and industrial-revenue bonds, posted higher total returns than sectors dominated by higher-rated debt.

Issuance for the first ten months of 2004 (the final ten months of the review

period) was roughly six percent lower than in the same period in 2003. That said, 2003 was a record year, and at the current pace of issuance, 2004 could well be one of the largest years in recent memory. The strong supply met with faltering demand from mutual funds, as fund investors withdrew over \$15 billion in net cash during the period. This faltering demand was largely offset by increased participation in the market by insurance companies and individual investors.

(1) Team members may change without notice at any time.

I-4

In keeping with national patterns, issuance in the Pennsylvania market fell by 17.6 percent for the first nine months of 2004 compared to the same period one year earlier. Many local municipalities moved to take advantage of relatively low interest rates during the period by refinancing their existing debt. The state's economy remained one of the most solid in the country, and its credit ratings remained strong.

PERFORMANCE ANALYSIS

The trust's return can be calculated based upon either the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding, while market price reflects the supply and demand for the shares. As a result, the two returns can differ significantly. On both an NAV basis and a market price basis, the trust outperformed its benchmark index, the Lehman Brothers Pennsylvania Municipal Bond Index. (See table below.)

The trust uses leverage to enhance its dividend to common shareholders. The trust borrows money at short-term rates through the issuance of preferred shares. The proceeds are reinvested in longer-term securities, taking advantage of the difference between short- and longer-term rates. The Fed's policy of raising interest rates in the final months of the period made the trust's borrowing activity more expensive. These expenses, however, were more than offset by the strong performance of the bonds we invested in, leading to the trust's outperformance versus its benchmark index, which is unleveraged.

Interest rates spent much of the period at or near historic lows. Given these levels, our analysis indicated that there was little room for rates to fall further, and that as a result, rates were more likely to go up than down over the intermediate term. This analysis led us to reduce the trust's interest-rate sensitivity to a level that was near that of its benchmark. While this approach served the trust well when rates declined during the summer, it was an overall drag on performance for the one-year period.

With interest rates at such low levels, several of the trust's holdings were called away by issuers seeking to refinance their bonds at lower yields. Several of the trust's shorter maturity bonds were also prerefunded, and we sold many of these securities to take advantage of more compelling opportunities elsewhere. We reinvested the proceeds into securities with attractive total-return prospects, emphasizing bonds in the 13- to 18-year portion of the yield curve, especially those with the relatively lower interest-rate sensitivity. These bonds offer the dual benefit of a strong income stream and moderate vulnerability to shifting interest rates.

We continued to pursue relative-value opportunities at the long end of the market, buying securities when they offered attractive value and selling them once they met our performance targets in order to reinvest the proceeds elsewhere. As part of our conservative approach to interest-rate positioning, we also trimmed the trust's holdings of highly rate-sensitive zero coupon bonds.

We remained focused on keeping the trust's risk profile within a reasonable range through attention to credit quality and diversification. By the end of the 12-month period, more than 88 percent of the trust's total investments were invested in bonds rated AAA and AA; these represent the two highest tiers of credit ratings. The portfolio was also well diversified across the major sectors of the municipal bond market. Its three largest sector exposures were general purpose, water and sewer, and health care.

While it is impossible to predict the exact turning point when interest rates will move decisively higher, we believe the trust remains well positioned for the near future. We will continue to comb the municipal bond markets for interesting opportunities.

There is no guarantee that any securities mentioned will continue to perform well or be held by the trust in the future.

VAN KAMPEN TRUST FOR INVESTMENT GRADE PENNSYLVANIA MUNICIPALS

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2004

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen Trust for Investment Grade Pennsylvania Municipals (the "Trust") is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The Trust's investment objective is to provide a high level of current income exempt from federal and Pennsylvania income taxes and, where possible under local law, local income and

personal property taxes, consistent with preservation of capital. The Trust will invest substantially all of its assets in Pennsylvania municipal securities rated investment grade at the time of investment. The Trust commenced investment operations on March 27, 1992. Effective November 30, 2003, the Trust's investment adviser, Van Kampen Investment Advisory Corp. merged into its affiliate, Van Kampen Asset Management.

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Municipal bonds are valued by independent pricing services or dealers using the mean of the bid and asked prices or, in the absence of market quotations, at fair value based upon yield data relating to municipal bonds with similar characteristics and general market conditions. Securities which are not valued by independent pricing services or dealers are valued at fair value using procedures established in good faith by the Board of Trustees. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Trust may purchase and sell securities on a "when-issued" or "delayed delivery" basis with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Trust will segregate assets with the custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At October 31, 2004, the Trust had \$1,247,110 of when-issued and delayed delivery purchase commitments.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis. Bond premium is amortized and discounts are accreted over the expected life of each applicable security.

D. FEDERAL INCOME TAXES It is the Trust's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

VAN KAMPEN TRUST FOR INVESTMENT GRADE PENNSYLVANIA MUNICIPALS

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2004 continued

At October 31, 2004, the cost and related gross unrealized appreciation and depreciation are as follows:

Cost of investments for tax purposes.....	\$182,811,415
	=====
Gross tax unrealized appreciation.....	\$ 15,243,252

Edgar Filing: VAN KAMPEN PENNSYLVANIA VALUE MUNICIPAL INCOME TRUST - Form N-14 8C/A

Gross tax unrealized depreciation.....	(25,278)

Net tax unrealized appreciation on investments.....	\$ 15,217,974
	=====

E. DISTRIBUTION OF INCOME AND GAINS The Trust declares and pays monthly dividends from net investment income to common shareholders. Net realized gains, if any, are distributed annually on a pro rata basis to common and preferred shareholders. Distributions from net realized gains for book purposes may include short-term capital gains, which are included as ordinary income for tax purposes.

The tax character of distributions paid during the years ended October 31, 2004 and 2003 was as follows:

	2004	2003
Distributions paid from:		
Ordinary income.....	\$ 194,792	\$ 50,118
Long-term capital gain.....	2,262,550	1,843,627
	-----	-----
	\$2,457,342	\$1,893,745
	=====	=====

Due to inherent differences in the recognition of income, expenses and realized gains/losses under accounting principles generally accepted in the United States of America and federal income tax purposes, permanent differences between book and tax basis reporting for the 2004 fiscal year have been identified and appropriately reclassified on the Statement of Assets and Liabilities. A permanent difference relating to expenses which are not deductible for tax purposes totaling \$5,806 was reclassified to accumulated undistributed net investment income from paid in surplus. Additionally, a permanent difference relating to book to tax accretion differences totaling \$2,037 was reclassified from accumulated undistributed net investment income to accumulated net realized gain.

As of October 31, 2004, the components of distributable earnings on a tax basis were as follows:

Undistributed ordinary income.....	\$ 111,177
Undistributed long-term capital gain.....	3,466,316

F. EXPENSE REDUCTIONS During the year ended October 31, 2004, the Fund's custody fee was reduced by \$1,890 as a result of credits earned on cash balances.

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Trust's Investment Advisory Agreement, Van Kampen Asset Management (the "Adviser") provides investment advice and facilities to the Trust for an annual fee payable monthly of .60% of the average daily net assets of the Trust. Effective November 1, 2004, the investment advisory fee was reduced from .60% to .55%. In addition,

VAN KAMPEN TRUST FOR INVESTMENT GRADE PENNSYLVANIA MUNICIPALS

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2004 continued

the Trust paid a monthly administrative fee to Van Kampen Investments Inc. or its affiliates (collectively "Van Kampen"), the Trust's Administrator, at an annual rate of .05% of the average daily net assets of the Trust. Effective June 1, 2004, the administrative fee was reduced from .05% to .00%.

For the year ended October 31, 2004, the Trust recognized expenses of approximately \$13,600 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom LLP, counsel to the Trust, of which a trustee of the Trust is a partner who provides legal services to the Trust, and is therefore an affiliated person.

Under separate Accounting Services and Legal Services agreements, the Adviser provides accounting and legal services to the Trust. The Adviser allocates the cost of such services to each trust. For the year ended October 31, 2004, the Trust recognized expenses of approximately \$30,900 representing Van Kampen's cost of providing accounting and legal services to the Trust, which are reported as part of "Other" and "Legal" expenses, respectively, in the Statement of Operations.

Certain officers and trustees of the Trust are also officers and directors of Van Kampen. The Trust does not compensate its officers or trustees who are also officers of Van Kampen.

The Trust provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Trust. The maximum annual benefit per trustee under the plan is \$2,500.

3. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments, were \$34,925,352 and \$33,931,592, respectively.

4. PREFERRED SHARES

The Trust has outstanding 2,800 Auction Preferred Shares ("APS"). Dividends are cumulative and the dividend rate is currently reset every 28 days through an auction process. The rate in effect on October 31, 2004 was 1.650%. During the year ended October 31, 2004, the rates ranged from 0.880% to 2.100%.

The Trust pays annual fees equivalent to .25% of the preferred share liquidation value for the remarketing efforts associated with the preferred auctions. These fees are included as a component of "Preferred Share Maintenance" expense in the Statement of Operations.

The APS are redeemable at the option of the Trust in whole or in part at the liquidation value of \$25,000 per share plus accumulated and unpaid dividends. The Trust is subject to certain asset coverage tests and the APS are subject to mandatory redemption if the tests are not met.

5. INDEMNIFICATIONS

The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

VAN KAMPEN TRUST FOR INVESTMENT GRADE PENNSYLVANIA MUNICIPALS

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees and Shareholders of Van Kampen Trust for Investment Grade Pennsylvania Municipals:

We have audited the accompanying statement of assets and liabilities of Van Kampen Trust for Investment Grade Pennsylvania Municipals (the "Trust"), including the portfolio of investments, as of October 31, 2004, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. The Trust's financial highlights for the periods ended prior to October 31, 2000 were audited by other auditors whose report, dated December 6, 1999, expressed an unqualified opinion on those financial highlights.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2004, by correspondence with the Trust's custodian and broker. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Van Kampen Trust for Investment Grade Pennsylvania Municipals as of October 31, 2004, the results of its operations for the year then ended, the changes in its net assets and the financial highlights for the respective stated periods, in conformity with accounting principles generally accepted in the United States of America.

VAN KAMPEN TRUST FOR INVESTMENT GRADE PENNSYLVANIA MUNICIPALS

DIVIDEND REINVESTMENT PLAN

The Trust offers a dividend reinvestment plan (the "Plan") pursuant to which Common Shareholders may elect to have dividends and capital gains distributions reinvested in Common Shares of the Trust. The Trust declares dividends out of net investment income, and will distribute annually net realized capital gains, if any. Common Shareholders may join or withdraw from the Plan at any time.

If you decide to participate in the Plan, State Street Bank and Trust Company, as your Plan Agent, will automatically invest your dividends and capital gains distributions in Common Shares of the Trust for your account.

HOW TO PARTICIPATE

If you wish to participate and your shares are held in your own name, call 1-800-341-2929 for more information and a Plan brochure. If your shares are held in the name of a brokerage firm, bank, or other nominee, you should contact your nominee to see if it would participate in the Plan on your behalf. If you wish to participate in the Plan, but your brokerage firm, bank or nominee is unable to participate on your behalf, you should request that your shares be re-registered in your own name which will enable your participation in the Plan.

HOW THE PLAN WORKS

Participants in the Plan will receive the equivalent in Common Shares valued on the valuation date, generally at the lower of market price or net asset value, except as specified below. The valuation date will be the dividend or distribution payment date or, if that date is not a trading day on the national securities exchange or market system on which the Common Shares are listed for trading, the next preceding trading day. If the market price per Common Share on the valuation date equals or exceeds net asset value per Common Share on that date, the Trust will issue new Common Shares to participants valued at the higher of net asset value or 95% of the market price on the valuation date. In the foregoing situation, the Trust will not issue Common Shares under the Plan below net asset value. If net asset value per Common Share on the valuation date exceeds the market price per Common Share on that date, or if the Board of Trustees should declare a dividend or capital gains distribution payable to the Common Shareholders only in cash, participants in the Plan will be deemed to have elected to receive Common Shares from the Trust valued at the market price on that date. Accordingly, in this circumstance, the Plan Agent will, as agent for the participants, buy the Trust's Common Shares in the open market for the participants' accounts on or shortly after the payment date. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value per share of the Common Shares, the average per share purchase price paid by the Plan Agent may exceed the net asset value

I-24

VAN KAMPEN TRUST FOR INVESTMENT GRADE PENNSYLVANIA MUNICIPALS

DIVIDEND REINVESTMENT PLAN continued

of the Trust's Common Shares, resulting in the acquisition of fewer Common Shares than if the dividend or distribution had been paid in Common Shares issued by the Trust. All reinvestments are in full and fractional Common shares and are carried to three decimal places.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Trust reserves the right to amend or terminate the Plan as applied to any dividend or distribution paid subsequent to written notice of the change sent to all Common Shareholders of the Trust at least 90 days before the record date for the dividend or distribution. The Plan also may be amended or terminated by the Plan Agent by at least 90 days written notice to all Common Shareholders of the Trust.

COSTS OF THE PLAN

The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Trust. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. No other charges will be made to participants for reinvesting dividends or capital gains distributions, except for certain brokerage commissions, as described above.

TAX IMPLICATIONS

You will receive tax information annually for your personal records and to help you prepare your federal income tax return. The automatic reinvestment of dividends and capital gains distributions does not relieve you of any income tax which may be payable on dividends or distributions.

RIGHT TO WITHDRAW

Plan participants may withdraw at any time by calling 1-800-341-2929 or by writing State Street Bank and Trust Company, P.O. Box 8200, Boston, MA 02266-8200. If you withdraw, you will receive, without charge, a share certificate issued in your name for all full Common Shares credited to your account under the Plan and a cash payment will be made for any fractional Common Share credited to your account under the Plan. You may again elect to participate in the Plan at any time by calling 1-800-341-2929 or writing to the Trust at:

NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding. The common share market price is the price the market is willing to pay for shares of the trust at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions. Total return assumes an investment at the beginning of the period, reinvestment of all distributions for the period in accordance with the trust's dividend reinvestment plan, and sale of all shares at the end of the period.

The Lehman Brothers Pennsylvania Municipal Bond Index is a broad-based statistical composite of Pennsylvania municipal bonds. The index does not include any expenses, fees or sales charges, which would lower performance. The index is unmanaged and should not be considered an investment. It is not possible to invest directly in an index.

Trust Report

FOR THE 6-MONTH PERIOD ENDED APRIL 30, 2005

Van Kampen Trust for Investment Grade Pennsylvania Municipals is managed by the Adviser's Municipal Fixed Income team. (1) Current members include Dennis Pietrzak and John Reynoldson, Executive Directors of the Adviser; and Robert Wimmel, Vice President of the Adviser.

MARKET CONDITIONS

The six-month period ended April 30, 2005, was characterized by continued short-term interest rate increases. As crude oil prices reached record highs, the prospect of rising inflation also cast a shadow. The Federal Open Market Committee (the "Fed") raised the federal funds target rate 100 basis points during the period through a series of four, "measured" 0.25 percent tightenings to 2.75 percent by the end of April. Although rates in the short and intermediate areas of the yield curve shifted upward as the Fed tightened, long-term interest rates fell as buyers did not seem deterred by the prospect of rising inflation. As a result, the yield curve (the difference between short and longer-term yields) flattened and the long end of the municipal market handily outperformed the shorter end.

The municipal market in total posted positive returns during the period, though it was not uniformly strong. In contrast to the strong showing by longer-term bonds, shorter-term municipals were hampered by the Fed's tightening and turned in a flat to slightly negative showing. Within the investment-grade segment of the market, yield differentials between BBB-rated and AAA-rated municipal securities were slightly wider, though BBB-rated securities still outperformed high grades due to their higher coupons, while securities rated below investment grade strongly outperformed as investors sought out their higher yields.

The Fed's interest rate hikes did not appear to dampen investors' appetites for municipal bonds, as net inflows into municipal bond funds topped \$290 million during the period. The supply of new issues was modest during the closing months of 2004 (the first two months of the period) before soaring in the opening months of 2005 as long-term issuers rushed to bring securities to market in anticipation of additional interest rate increases in the near term.

The most significant development in the Pennsylvania municipal market over the period was the ongoing trend of refundings of municipal securities by issuers. Municipal borrowers were able to take advantage of rising short-term rates and relatively stable long-term rates, which in turn allowed them to refund outstanding debt. As a result, the Pennsylvania market saw a wave of refinancings, especially in education-related sectors.

PERFORMANCE ANALYSIS

The trust's return can be calculated based upon either the market price or the

net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding, while market price reflects the supply and demand for the shares. As a result, the two returns can differ, as they did during the reporting period. On an NAV basis, the trust outperformed its benchmark index, the Lehman Brothers Pennsylvania Municipal Bond Index. On a market price basis, the trust underperformed its benchmark.

TOTAL RETURNS FOR THE SIX-MONTH PERIOD ENDED APRIL 30, 2005

BASED ON NAV	BASED ON MARKET PRICE	LEHMAN BROTHERS PENNSYLVANIA MUNICIPAL BOND INDEX
3.29%	-1.22%	1.82%

PERFORMANCE DATA QUOTED REPRESENTS PAST PERFORMANCE, WHICH IS NO GUARANTEE OF FUTURE RESULTS, AND CURRENT PERFORMANCE MAY BE LOWER OR HIGHER THAN THE FIGURES SHOWN. INVESTMENT RETURN, NET ASSET VALUE AND COMMON SHARE MARKET PRICE WILL FLUCTUATE AND TRUST SHARES, WHEN SOLD, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST. SEE PERFORMANCE SUMMARY FOR ADDITIONAL PERFORMANCE INFORMATION AND INDEX DEFINITION.

The trust uses leverage to enhance its dividend to common shareholders. The trust borrows money at short-term rates through the issuance of preferred shares. The proceeds are reinvested in longer-term securities, taking advantage of the difference between short- and longer-term rates. The Fed's policy of raising interest rates throughout the period made the trust's borrowing activity more expensive. These expenses, however, were more than offset by the positive performance of the bonds held by the trust.

One of our key strategies in managing the trust during the period was to position it for rising interest rates. This approach was largely the result of our analysis of interest rates, which remained relatively low by historical standards even after rising from their multi-decade lows earlier. First, we kept the trust's duration (a measure of interest-rate sensitivity) below that of its benchmark. Second, to limit the trust's exposure to areas of the market that would be most likely susceptible to rising rates, we also trimmed the trust's shorter-maturity bonds. We reinvested the proceeds from those sales into bonds with premium coupons and maturities between 20 and 30 years. In addition to offering relatively attractive income streams, these securities positioned the trust to benefit from any future flattening of the yield curve.

We kept the trust's exposure well diversified across the major sectors of the Pennsylvania municipal market. Much of our relative-value trading activity was focused on selling issues that had been pre-refunded, many of which were in the public education sector; and purchasing what we believed to be more

attractive securities in the public education sector. The trust remained focused

on investment-grade securities, with 100 percent of the portfolio rated BBB or higher at the end of the period.

(a) As required, effective November 1, 2001, the Trust has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began accreting market discount on fixed income securities. The effect of this change for the year ended October 31, 2002 was to increase net investment income per share by \$.01, decrease net realized and unrealized gains and losses per share by \$.01 and increase the ratio of net investment income to average net assets by .04%. Per share, ratios and supplemental data for periods prior to October 31, 2002 have not been restated to reflect this change in presentation.

(b) Total return assumes an investment at the common share market price at the beginning of the period indicated, reinvestment of all distributions for the period in accordance with the Trust's dividend reinvestment plan, and sale of all shares at the closing common share market price at the end of the period indicated.

(c) Ratios do not reflect the effect of dividend payments to preferred shareholders.

(d) Ratios reflect the effect of dividend payments to preferred shareholders.

(e) Calculated by subtracting the Trust's total liabilities (not including the preferred shares) from the Trust's total assets and dividing this by the number of preferred shares outstanding.

VAN KAMPEN TRUST FOR INVESTMENT GRADE PENNSYLVANIA MUNICIPALS

NOTES TO FINANCIAL STATEMENTS -- APRIL 30, 2005 (UNAUDITED)

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen Trust for Investment Grade Pennsylvania Municipals (the "Trust") is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The Trust's investment objective is to provide a high level of current income exempt from federal and Pennsylvania income taxes and, where possible under local law, local income and personal property taxes, consistent with preservation of capital. The Trust will invest substantially all of its assets in Pennsylvania municipal securities rated investment grade at the time of investment. The Trust commenced investment operations on March 27, 1992.

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Municipal bonds are valued by independent pricing services or dealers using the mean of the bid and asked prices or, in the absence of market quotations, at fair value based upon yield data relating to municipal bonds with similar characteristics and general market conditions. Securities which are not valued by independent pricing services or dealers are valued at fair value using procedures established in good faith by the Board of Trustees. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Trust may purchase and sell securities on a "when-issued" or "delayed delivery" basis with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Trust will segregate assets with the custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At April 30, 2005, the Trust had \$1,281,425 of when-issued or

delayed delivery purchase commitments.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis. Bond premium is amortized and discounts are accreted over the expected life of each applicable security.

D. FEDERAL INCOME TAXES It is the Trust's policy to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Trust's Investment Advisory Agreement, Van Kampen Asset Management (the "Adviser") provides investment advice and facilities to the Trust for an annual fee payable monthly of .55% of the average daily net assets of the Trust. Effective November 1, 2004, the investment advisory fee was reduced from .60% to .55%.

For the six months ended April 30, 2005, the Trust recognized expenses of approximately \$4,300 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom LLP, counsel to the Trust, of which a trustee of the Trust is a partner of such firm and he and his law firm provide legal services as legal counsel to the Trust.

Under separate Accounting Services and Legal Services agreements, the Adviser provides accounting and legal services to the Trust. The Adviser allocates the cost of such services to each trust. For the six months ended April 30, 2005, the Trust recognized expenses of approximately \$18,300 representing Van Kampen Investments Inc's or its affiliates' (collectively "Van Kampen") cost of providing accounting and legal services to the Trust, which are reported as part of "Other" and "Legal" expenses, respectively, on the Statement of Operations.

Certain officers and trustees of the Trust are also officers and directors of Van Kampen. The Trust does not compensate its officers or trustees who are also officers of Van Kampen.

VAN KAMPEN TRUST FOR INVESTMENT GRADE PENNSYLVANIA MUNICIPALS

NOTES TO FINANCIAL STATEMENTS -- APRIL 30, 2005 (UNAUDITED) continued

The Trust provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Trust. The maximum annual benefit per trustee under the plan is \$2,500.

3. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments, were \$15,512,197 and \$23,920,686, respectively.

4. PREFERRED SHARES

The Trust has outstanding 2,800 Auction Preferred Shares ("APS"). Dividends are cumulative and the dividend rate is currently reset every 28 days through an auction process. The rate in effect on April 30, 2005 was 2.250%. During the six months ended April 30, 2005, the rates ranged from 1.650% to 2.300%.

The Trust pays annual fees equivalent to .25% of the preferred share

liquidation value for the remarketing efforts associated with the preferred auctions. These fees are included as a component of "Preferred Share Maintenance" expense on the Statement of Operations.

The APS are redeemable at the option of the Trust in whole or in part at the liquidation value of \$25,000 per share plus accumulated and unpaid dividends. The Trust is subject to certain asset coverage tests and the APS are subject to mandatory redemption if the tests are not met.

5. INDEMNIFICATIONS

The Trust enters into contracts that contain a variety of indemnifications. The Trust's maximum exposure under these arrangements is unknown. However, the Trust has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

6. DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument in very general terms refers to a security whose value is "derived" from the value of an underlying asset, reference rate or index.

The Trust may invest up to 15% of its net assets in "inverse floating rate obligations." The inverse floating rate obligations in which the Trust may invest are typically created through a division of a fixed-rate municipal obligation into two separate instruments, a short-term obligation and a long-term obligation. The interest rate on the short-term obligation is set at periodic auctions. The interest rate on the long-term obligation which the Trust may purchase is the rate the issuer would have paid on the fixed-income obligation, (i) plus the difference between such fixed rate and the rate on the short-term obligation, if the short-term rate is lower than the fixed rate; or (ii) minus such difference if the interest rate on the short-term obligation is higher than the fixed rate. These securities have varying degrees of liquidity and the market value of such securities generally will fluctuate in response to changes in market rates of interest to a greater extent than the value of an equal principal amount of a fixed rate security having similar credit quality, redemption provisions and maturity. These securities tend to underperform the market for fixed rate bonds in a rising interest rate environment, but tend to outperform the market for fixed rate bonds

J-20

when interest rates decline or remain relatively stable. Although volatile, inverse floating rate obligations typically offer the potential for yields exceeding the yields available on fixed rate bonds with comparable credit quality, coupon, call provisions and maturity. These securities usually permit the investor to convert the floating rate security counterpart to a fixed rate (normally adjusted downward), and this optional conversion feature may provide a partial hedge against rising rates if exercised at an opportune time.

APPENDIX K
MORGAN STANLEY INVESTMENT MANAGEMENT
PROXY VOTING POLICY AND PROCEDURES

IV. POLICY STATEMENT

Introduction -- Morgan Stanley Investment Management's ("MSIM") policy and procedures for voting proxies ("Proxy Voting Policy and Procedures") with respect to securities held in the accounts of clients apply to those MSIM entities that provide discretionary investment management services and for which a MSIM entity has authority to vote proxies. The policies and procedures and general guidelines in this section will be reviewed and updated, as necessary, to address new or revised proxy voting issues. The MSIM entities covered by these policies and procedures currently include the following: Morgan Stanley Investment Advisors Inc., Morgan Stanley AIP GP LP, Morgan Stanley Investment Management Inc., Morgan Stanley Investment Management Limited, Morgan Stanley Investment Management Company, Morgan Stanley Asset & Investment Trust

Management Co., Limited, Morgan Stanley Investment Management Private Limited, Morgan Stanley Hedge Fund Partners GP LP, Morgan Stanley Hedge Fund Partners LP, Van Kampen Asset Management, and Van Kampen Advisors Inc. (each a "MSIM Affiliate" and collectively referred to as the "MSIM Affiliates").

Each MSIM Affiliate will use its best efforts to vote proxies as part of its authority to manage, acquire and dispose of account assets. With respect to the MSIM registered management investment companies (Van Kampen, Institutional and Advisor Funds) (collectively referred to as the "MSIM Funds"), each MSIM Affiliate will vote proxies pursuant to authority granted under its applicable investment advisory agreement or, in the absence of such authority, as authorized by the Boards of Directors or Trustees of the MSIM Funds. A MSIM Affiliate will not vote proxies if the "named fiduciary" for an ERISA account has reserved the authority for itself, or in the case of an account not governed by ERISA, the Investment Management or Investment Advisory Agreement does not authorize the MSIM Affiliate to vote proxies. MSIM Affiliates will, in a prudent and diligent manner, vote proxies in the best interests of clients, including beneficiaries of and participants in a client's benefit plan(s) for which the MSIM Affiliates manage assets, consistent with the objective of maximizing long-term investment returns ("Client Proxy Standard"). In certain situations, a client or its fiduciary may provide a MSIM Affiliate with a proxy voting policy. In these situations, the MSIM Affiliate will comply with the client's policy unless to do so would be inconsistent with applicable laws or regulations or the MSIM Affiliate's fiduciary responsibility.

Proxy Research Services -- To assist the MSIM Affiliates in their responsibility for voting proxies and the overall global proxy voting process, Institutional Shareholder Services ("ISS") and the Investor Responsibility Research Center ("IRRC") have been retained as experts in the proxy voting and corporate governance area. ISS and IRRC are independent advisers that specialize in providing a variety of fiduciary-level proxy-related services to institutional investment managers, plan sponsors, custodians, consultants, and other institutional investors. The services provided to MSIM Affiliates include in-depth research, global issuer analysis, and voting recommendations. While the MSIM Affiliates may review and utilize the ISS and IRRC recommendations in making proxy voting decisions, they are in no way obligated to follow the ISS and IRRC recommendations. In addition to research, ISS provides vote execution, reporting, and recordkeeping. MSIM's Proxy Review Committee (see Section IV.A. below) will carefully monitor and supervise the services provided by the proxy research services.

K-1

Voting Proxies for Certain Non-US Companies -- While the proxy voting process is well established in the United States and other developed markets with a number of tools and services available to assist an investment manager, voting proxies of non-US companies located in certain jurisdictions, particularly emerging markets, may involve a number of problems that may restrict or prevent a MSIM Affiliate's ability to vote such proxies. These problems include, but are not limited to: (i) proxy statements and ballots being written in a language other than English; (ii) untimely and/or inadequate notice of shareholder meetings; (iii) restrictions on the ability of holders outside the issuer's jurisdiction of organization to exercise votes; (iv) requirements to vote proxies in person, (v) the imposition of restrictions on the sale of the securities for a period of time in proximity to the shareholder meeting; and (vi) requirements to provide local agents with power of attorney to facilitate the MSIM Affiliate's voting instructions. As a result, clients' non-U.S. proxies will be voted on a best efforts basis only, after weighing the costs and benefits of voting such proxies, consistent with the Client Proxy Standard. ISS has been retained to provide assistance to the MSIM Affiliates in connection

with voting their clients' non-US proxies.

III. GENERAL PROXY VOTING GUIDELINES

To ensure consistency in voting proxies on behalf of its clients, MSIM Affiliates will follow (subject to any exception set forth herein) these Proxy Voting Policies and Procedures, including the guidelines set forth below. These guidelines address a broad range of issues, including board size and composition, executive compensation, anti-takeover proposals, capital structure proposals and social responsibility issues and are meant to be general voting parameters on issues that arise most frequently. The MSIM Affiliates, however, may, pursuant to the procedures set forth in Section IV. below, vote in a manner that is not in accordance with the following general guidelines, provided the vote is approved by the Proxy Review Committee and is consistent with the Client Proxy Standard.

VI. GUIDELINES

A. MANAGEMENT PROPOSALS

1. When voting on routine ballot items, unless otherwise determined by the Proxy Review Committee, the following proposals will be voted in support of management.
 - o Selection or ratification of auditors.
 - o Approval of financial statements, director and auditor reports.
 - o General updating/corrective amendments to the charter.
 - o Approval of the payment of a dividend.
 - o Proposals to limit Directors' liability and/or broaden indemnification of Directors.
 - o Proposals requiring that a certain percentage (up to 66%) of the company's Board members be independent Directors.
 - o Proposals requiring that members of the company's compensation, nominating and audit committees be comprised of independent or unaffiliated Directors.
- K-2
- o Proposals recommending set retirement ages or requiring specific levels of stock ownership by Directors.
 - o Proposals to eliminate cumulative voting.
 - o Proposals to eliminate preemptive rights.
 - o Proposals for confidential voting and independent tabulation of voting results.
 - o Proposals related to the conduct of the annual meeting except those proposals that relate to the "transaction of such other business which may come before the meeting."

2. Election of Directors. In situations where no conflict exists, and where no specific governance deficiency has been noted, unless otherwise determined by the Proxy Review Committee, will be voted in support of nominees of management.

Unless otherwise determined by the Proxy Review Committee, a withhold vote will be made where:

- (i) A nominee has, or any time during the previous three years had, a relationship with the issuer (e.g., investment banker, counsel or other professional service provider, or familial relationship with a senior officer of the issuer) that may impair his or her independence;
 - (ii) A direct conflict exists between the interests of the nominee and the public shareholders; or
 - (iii) Where the nominees standing for election have not taken action to implement generally accepted governance practices for which there is a "bright line" test. These would include elimination of dead hand or slow hand poison pills, requiring Audit, Compensation or Nominating Committees to be composed of independent directors and requiring a majority independent board.
3. The following non-routine proposals, which potentially may have a substantive financial or best interest impact on a shareholder, unless otherwise determined by the Proxy Review Committee, will be voted in support of management.

CAPITALIZATION CHANGES

- o Proposals relating to capitalization changes that eliminate other classes of stock and voting rights.
- o Proposals to increase the authorization of existing classes of common stock (or securities convertible into common stock) if. (i) a clear and legitimate business purpose is stated; (ii) the number of shares requested

K-3

is reasonable in relation to the purpose for which authorization is requested; and (iii) the authorization does not exceed 100% of shares currently authorized and at least 30% of the new authorization will be outstanding.

- o Proposals to create a new class of preferred stock or for issuances of preferred stock up to 50% of issued capital.
- o Proposals for share repurchase plans.
- o Proposals to reduce the number of authorized shares of common or preferred stock, or to eliminate classes of

preferred stock.

- o Proposals to effect stock splits.
- o Proposals to effect reverse stock splits if management proportionately reduces the authorized share amount set forth in the corporate charter. Reverse stock splits that do not adjust proportionately to the authorized share amount will generally be approved if the resulting increase in authorized shares coincides with the proxy guidelines set forth above for common stock increases.

COMPENSATION

- o Proposals relating to Director fees, provided the amounts are not excessive relative to outer companies in the country or industry.
- o Proposals for employee stock purchase plans that permit discounts up to 15%, but only for grants that are part of a broad based employee plan, including all non-executive employees.
- o Proposals for the establishment of Employee Stock Option Plans and other employee ownership plans.

ANTI-TAKEOVER MATTERS

- o Proposals to modify or rescind existing supermajority vote requirements to amend the charters or bylaws.
 - o Proposals relating to the adoption of anti-greenmail provisions provided that the proposal: (i) defines greenmail; (ii) prohibits buyback offers to large block holders not made to all shareholders or not approved by disinterested shareholders; and (iii) contains no anti-takeover measures or other provisions restricting the rights of shareholders.
4. The following non-routine proposals, which potentially may have a substantive financial or best interest impact on the shareholder, unless otherwise determined by the Proxy Review Committee, will be voted against (notwithstanding management support).

K-4

- o Proposals to establish cumulative voting rights in the election of directors.
- o Proposals relating to capitalization changes that add classes of stock which substantially dilute the voting interests of existing shareholders.
- o Proposals to increase the authorized number of shares of existing classes of stock that carry preemptive rights or super-voting rights.
- o Proposals to create "blank check" preferred stock.

- o Proposals relating to changes in capitalization by 100% or more.
 - o Compensation proposals that allow for discounted stock options that have not been offered to employees in general.
 - o Proposals to amend bylaws to require a supermajority shareholder vote to pass or repeal certain provisions.
 - o Proposals to indemnify auditors.
5. The following types of non-routine proposals, which potentially may have a substantive financial or best interest impact on an issuer, will be voted as determined by the Proxy Review Committee.

CORPORATE TRANSACTIONS

- o Proposals relating to mergers, acquisitions and other special corporate transactions (i.e., takeovers, spin-offs, sales of assets, reorganizations, restructurings and recapitalizations) will be examined on a case-by-case basis. In all cases, ISS and IRRC research and analysis will be used along with MSIM Affiliates' research and analysis, including, among other things, MSM internal company-specific knowledge.
- o Proposals relating to change-in-control provisions in non-salary compensation plans, employment contracts, and severance agreements that benefit management and would be costly to shareholders if triggered.
- o Proposals relating to shareholders rights plans that allow appropriate offers to shareholders to be blocked by the board or trigger provisions that prevent legitimate offers from proceeding.
- o Proposals relating to Executive/Director stock option plans. Generally, stock option plans should meet the following criteria:
 - (i) Whether the stock option plan is incentive based;
 - (ii) For mature companies, should be no more than 5% of the issued capital at the time of approval;

K-5

- (iii) For growth companies, should be no more than 10% of the issued capital at the time of approval.

ANTI-TAKEOVER PROVISIONS

- o Proposals requiring shareholder ratification of poison pills.
- o Proposals relating to anti-takeover and related

provisions that serve to prevent the majority of shareholders from exercising their rights or effectively deter the appropriate tender offers and other offers.

B. SHAREHOLDER PROPOSALS

1. The following shareholder proposals will be supported, unless otherwise determined by the Proxy Review Committee:

- o Proposals requiring auditors to attend the annual meeting of shareholders.
- o Proposals requiring non-U.S. companies to have a separate Chairman and CEO.
- o Proposals requiring that members of the company's compensation, nominating and audit committees be comprised of independent or unaffiliated Directors.
- o Proposals requiring that a certain percentage of the company's members be comprised of independent and unaffiliated Directors.
- o Proposals requiring confidential voting.
- o Proposals to reduce or eliminate of supermajority voting requirements.
- o Proposals requiring shareholder approval for shareholder rights plan or poison pill.
- o Proposals to require the company to expense stock options.

2. The following shareholder proposals will be voted as determined by the Proxy Review Committee.

VII. ADMINISTRATION OF PROXY POLICIES AND PROCEDURES

A. PROXY REVIEW COMMITTEE

1. The MSIM Proxy Review Committee ("Committee") is responsible for creating and implementing MSIM's Proxy Voting Policy and Procedures and, in this regard, has expressly adopted them.
- (a) The Committee, which is appointed by MSIM's Chief Investment Officer ("CIO"), consists of senior investment professionals who represent the different investment disciplines and geographic locations of the firm. The Committee is responsible for establishing MSIM's proxy voting policy and guidelines and determining how MSIM will vote proxies on an ongoing basis.
 - (b) The Committee will periodically review and have the authority to amend, as necessary, these Proxy Voting Policy and Procedures and establish and direct voting positions consistent with the Client Proxy Standard.
 - (c) The Committee will meet at least monthly to (among other matters): (1) address any outstanding issues relating to

K-7

MSIM's Proxy Voting Policy and Procedures; and (2) review proposals at upcoming shareholder meetings of MSIM portfolio companies in accordance with this Policy including, as appropriate, the voting results of prior shareholder meetings of the same issuer where a similar proposal was presented to shareholders. The Committee, or its designee, will timely communicate to ISS MSIM's Proxy Voting Policy and Procedures (and any amendments to them and/or any additional guidelines or procedures it may adopt).

- (d) The Committee will meet on an ad hoc basis to (among other matters): (1) authorize "split voting" (i.e., allowing certain shares of the same issuer that are the subject of the same proxy solicitation and held by one or more MSIM portfolios to be voted differently than other shares) and/or "override voting" (i.e., voting all MSIM portfolio shares in a manner contrary to the Proxy Voting Policy and Procedures); (2) review and approve upcoming votes, as appropriate, for matters for which specific direction has been provided in these Policy and Procedures; and (3) determine how to vote matters for which specific direction has not been provided in these Policy and Procedures. Split votes will generally not be approved within a single Global Investor Group team. The Committee may take into account ISS and IRRC recommendations and the research as well as any other relevant information they may request or receive.
- (e) In addition to the procedures discussed above, if the Committee determines that an issue raises a potential material conflict of interest, or gives rise to the appearance of a potential material conflict of interest, the Committee will request a special committee to review, and recommend a course of action with respect to, the conflict(s) in question ("Special Committee"). The Special Committee shall be comprised of the Chairman of the Proxy Review Committee, the Compliance Director for the area of the firm involved or his/her designee, a senior portfolio manager (if practicable, one who is a member of the Proxy Review Committee) designated by the Proxy Review Committee and MSIM's Chief Investment Officer or his/her designee. The Special Committee may request the assistance of MSIM's General Counsel or his/her designee and will have sole discretion to cast a vote. In addition to the research provided by ISS and IRRC, the Special Committee may request analysis from MSIM Affiliate investment professionals and outside sources to the extent it deems appropriate.
- (f) The Committee and the Special Committee, or their designee(s), will document in writing all of their decisions and actions, which documentation will be maintained by the Committee and the Special Committee, or their designee(s), for a period of at least 6 years. To the

K-8

extent these decisions relate to a security held by a MSIM U.S. registered investment company, the Committee

and Special Committee, or their designee(s), will report their decisions to each applicable Board of Trustees/Directors of those investment companies at each Board's next regularly scheduled Board meeting. The report will contain information concerning decisions made by the Committee and Special Committee during the most recently ended calendar quarter immediately preceding the Board meeting.

- (g) The Committee and Special Committee, or their designee(s), will timely communicate to applicable portfolio managers, the Compliance Departments and, as necessary, ISS, decisions of the Committee and Special Committee so that, among other things, ISS will vote proxies consistent with their decisions.

B. IDENTIFICATION OF MATERIAL CONFLICTS OF INTEREST

1. If there is a possibility that a vote may involve a material conflict of interest, the vote must be decided by the Special Committee in consultation with MSIM's General Counsel or his/her designee.
2. A material conflict of interest could exist in the following situations, among others:
 - (a) The issuer soliciting the vote is a client of MSIM or an affiliate of MSIM and the vote is on a material matter affecting the issuer;
 - (b) The proxy relates to Morgan Stanley common stock or any other security issued by Morgan Stanley or its affiliates; or
 - (c) Morgan Stanley has a material pecuniary interest in the matter submitted for a vote (e.g., acting as a financial advisor to a merger or acquisition for which Morgan Stanley will be paid a success fee if completed).

C. PROXY VOTING REPORTS

1. MSIM will promptly provide a copy of these Policy and Procedures to any client requesting it. MSIM will also, upon client request, promptly provide a report indicating how each proxy was voted with respect to securities held in that client's account.
2. MSIM's legal department is responsible for filing an annual Form N-PX on behalf of each registered management investment company for which such filing is required, indicating how all proxies were voted with respect to such investment company's holdings.

NOTES TO PRO FORMA FINANCIAL STATEMENTS
JANUARY 31, 2005
(Unaudited)

1. SIGNIFICANT ACCOUNTING POLICIES

The Acquiring Trust, Van Kampen Pennsylvania Value Municipal Income Trust (the "Acquiring Trust") is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The

Acquiring Trust's investment objective is to provide a high level of current income exempt from federal and Pennsylvania income taxes and, where possible under local law, local income and personal property taxes, consistent with preservation of capital. The Acquiring Trust will invest substantially all of its assets in Pennsylvania municipal securities rated investment grade at the time of investment. The Acquiring Trust commenced investment operations on April 30, 1993.

The following is a summary of significant accounting policies consistently followed by the Acquiring Trust in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Municipal bonds are valued by independent pricing services or dealers using the mean of the bid and asked prices or, in the absence of market quotations, at fair value based upon yield data relating to municipal bonds with similar characteristics and general market conditions. Securities which are not valued by independent pricing services or dealers are valued at fair value using procedures established in good faith by the Board of Trustees. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Acquiring Trust may purchase and sell securities on a "when-issued" or "delayed delivery" basis with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Acquiring Trust will segregate assets with the custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis. Bond premium is amortized and discount is accreted over the expected life of each applicable security.

D. FEDERAL INCOME TAXES It is the Acquiring Trust's policy to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

E. DISTRIBUTION OF INCOME AND GAINS The Acquiring Trust declares and pays monthly dividends from net investment income to common shareholders. Net realized gains, if any, are distributed annually on a pro rata basis to common and preferred shareholders. Distributions from net realized gains for book purposes may include short-term capital gains, which are included as ordinary income for tax purposes.

"Section 5.3 Mandatory Indemnification.

(a) Subject to the exceptions and limitations contained in paragraph (b) below:

(i) every person who is or has been a Trustee or officer of the Trust shall be indemnified by the Trust to the fullest extent permitted by law against all liability and against all expenses reasonably incurred or paid by him in connection with any claim, action, suit or proceeding in which he becomes involved as a party or otherwise by virtue of his being or having been a Trustee or officer and against amounts paid or incurred by him in the settlement thereof;

(ii) the words "claim," "action," "suit," or "proceeding" shall apply to all claims, actions, suits or proceedings (civil, criminal, administrative or other, including appeals), actual or threatened; and the words "liability" and "expenses" shall include, without limitation, attorneys' fees, costs, judgments, amounts paid in settlement, fines, penalties and other liabilities.

(b) No indemnification shall be provided hereunder to a Trustee or officer:

(i) against any liability to the Trust or its Shareholders by reason of a final adjudication by the court or other body before which the proceeding was brought that he engaged in willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his office;

(ii) with respect to any matter as to which he shall have been finally adjudicated not to have acted in good faith in the reasonable belief that his action was in the best interest of the Trust;

(iii) in the event of a settlement or other disposition not involving a final adjudication as provided in paragraph (b) (i) or (b) (ii) resulting in a payment by a Trustee or officer, unless there has been either a determination that such Trustee or officer did not engage in willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his office by the court or other body approving the settlement or other disposition or a reasonable determination, based upon a review of readily available facts (as opposed to a full trial-type inquiry) that he did not engage

in such conduct:

(A) by vote of a majority of the Disinterested Trustees acting on the matter (provided that a majority of the Disinterested Trustees then in office act on the matter); or

(B) by written opinion of independent legal counsel.

(c) The rights of indemnification herein provided may be insured against by policies maintained by the Trust, shall be severable, shall not affect any other rights to which any Trustee or officer may now or

Nothing contained herein shall affect any rights to indemnification to which personnel of the Trust other than Trustees and officers may be entitled by contract or otherwise under law.

(d) Expenses of preparation and presentation of a defense to any claim, action, suit, or proceeding of the character described in paragraph (a) of this Section 5.3 shall be advanced by the Trust prior to final disposition thereof upon receipt of an undertaking by or on behalf of the recipient to repay such amount if it is ultimately determined that he is not entitled to indemnification under this Section 5.3, provided that either

(i) such undertaking is secured by a surety bond or some other appropriate security or the Trust shall be insured against losses arising out of any such advances; or

(ii) a majority of the Disinterested Trustees acting on the matter (provided that a majority of the Disinterested Trustees then in office act on the matter) or an independent legal counsel in a written opinion shall determine, based upon a review of readily available facts (as opposed to a full trial-type inquiry), that there is reason to believe that the recipient ultimately will be found entitled to indemnification.

As used in this Section 5.3, a "Disinterested Trustee" is one (i) who is not an "Interested Person" of the Trust (including anyone who has been exempted from being an "Interested Person" by any rule, regulation or order of the Commission), and (ii) against whom none of such actions, suits or other proceedings or another action, suit or other proceeding on the same or similar grounds is then or had been pending."
