(Unaudited)

**1. Basis of Presentation**

The condensed consolidated balance sheet as of July 31, 2006, the condensed consolidated statements of income and comprehensive income for the three months ended July 31, 2006 and 2005, and the condensed consolidated statements of cash flows for the three months ended July 31, 2006 and 2005 have been prepared by the Company, without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows at July 31, 2006 and for all periods presented have been made.

H&R Block, the Company, we, our and us are used interchangeably to refer to H&R Block, Inc. or to H&R Block, Inc. and its subsidiaries, as appropriate to the context.

Certain reclassifications have been made to prior year amounts to conform to the current year presentation. These reclassifications had no effect on our results of operations or stockholders' equity as previously reported. In March 2006, the Office of Thrift Supervision (OTS) approved the charter of H&R Block Bank (HRB Bank). The bank commenced operations on May 1, 2006, at which time we realigned certain segments of our business to reflect a new management reporting structure. The previously reported Investment Services segment, H&R Block Mortgage Corporation (HRBMC), which was previously included in the Mortgage Services segment, and H&R Block Bank have been combined in the Consumer Financial Services segment. Presentation of prior-year results reflects the new segment alignment. See note 11 for additional information on this new segment.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the financial statements and notes thereto included in our April 30, 2006 Annual Report to Shareholders on Form 10-K.

Operating revenues of the Tax Services and Business Services segments are seasonal in nature with peak revenues occurring in the months of January through April. Therefore, results for interim periods are not indicative of results to be expected for the full year.

**2. Earnings (Loss) Per Share**

Basic and diluted loss per share is computed using the weighted average shares outstanding during each period. The dilutive effect of potential common shares is included in diluted earnings per share except in those periods with a loss. Diluted earnings per share excludes the impact of shares of common stock issuable upon the lapse of certain restrictions or the exercise of options to purchase 32.9 million shares and 33.7 million shares of stock for the three months ended July 31, 2006 and 2005, respectively, as the effect would be antidilutive due to the net loss recorded during the period.

The weighted average shares outstanding for the three months ended July 31, 2006 decreased to 323.7 million from 330.7 million last year, primarily due to purchases of treasury shares. The effect of these purchases was partially offset by the issuance of treasury shares related to our stock-based compensation plans.

During the three months ended July 31, 2006 and 2005, we issued 1.4 million and 2.5 million shares of common stock, respectively, pursuant to the exercise of stock options, employee stock purchases and awards of nonvested shares, in accordance with our stock-based compensation plans.

Edgar Filing: H&R BLOCK INC - Form 10-Q

During the three months ended July 31, 2006, we acquired 8.4 million shares of our common stock, of which 8.1 million shares were purchased from third parties with the remaining shares swapped or surrendered to us, at an aggregate cost of \$186.3 million. During the three months ended July 31, 2005, we acquired 4.6 million shares of our common stock, of which 4.4 million shares were purchased from third parties with the remaining shares swapped or surrendered to us, at an aggregate cost of \$131.6 million.

**Table of Contents****3. Mortgage Banking Activities**

Activity related to trading residual interests in securitizations consists of the following:

| Three months ended July 31,                               | 2006      | (in 000s)<br>2005 |
|---|-----------|-------------------|
| Balance, beginning of period                              | \$        | \$                |
| Additions resulting from securitization of mortgage loans | 63,424    | 96,967            |
| Cash received   | (4,546)   |                   |
| Accretion   | 909       |                   |
| Change of fair value                                      | (461)     | 3,495             |
| Residuals securitized in NIM transactions                 |           | (42,480)          |
| Balance, end of period                                    | \$ 59,326 | \$ 57,982         |

At July 31, 2006 and 2005, we had \$59.3 million and \$58.0 million, respectively, in residual interests classified as trading securities, which are included in marketable securities trading on the condensed consolidated balance sheet. These residual interests are the result of the initial securitization of mortgage loans and those held at July 31, 2006 are expected to be securitized in a NIM transaction during our second quarter. There were no such trading securities recorded as of April 30, 2006. Cash received on trading residual interests is included in operating activities in the condensed consolidated statements of cash flows.

Activity related to available-for-sale residual interests in securitizations consists of the following:

| Three months ended July 31,                           | 2006       | (in 000s)<br>2005 |
|---|------------|-------------------|
| Balance, beginning of period                          | \$ 159,058 | \$ 205,936        |
| Additions from net interest margin (NIM) transactions |            | 2,109             |
| Cash received   | (4,567)    | (24,031)          |
| Accretion   | 12,600     | 30,777            |
| Impairment of fair value                              | (17,266)   | (11,875)          |
| Other   |            | (330)             |
| Changes in unrealized holding gains, net              | (4,046)    | (9,379)           |
| Balance, end of period                                | \$ 145,779 | \$ 193,207        |

Cash flows from available-for-sale residual interests of \$4.6 million and \$24.0 million were received from the securitization trusts for the three months ended July 31, 2006 and 2005, respectively. Cash received on available-for-sale residual interests is included in investing activities in the condensed consolidated statements of cash flows.

Aggregate net unrealized gains on available-for-sale residual interests not yet accreted into income totaled \$40.1 million at July 31, 2006 and \$44.1 million at April 30, 2006. These unrealized gains are recorded net of deferred taxes in other comprehensive income, and may be recognized in income in future periods either through accretion or upon further securitization or sale of the related residual interest.

Activity related to mortgage servicing rights (MSRs) consists of the following:

| Three months ended July 31,               | 2006       | (in 000s)<br>2005 |
|---|------------|-------------------|
| Balance, beginning of period              | \$ 272,472 | \$ 166,614        |
| Additions                                 | 50,122     | 49,306            |
| Amortization and impairment of fair value | (47,328)   | (27,212)          |
| Balance, end of period                    | \$ 275,266 | \$ 188,708        |

Estimated amortization of MSRs for fiscal years 2007 through 2011 is \$120.9 million, \$92.1 million, \$40.4 million, \$15.9 million and \$6.0 million, respectively.

---

**Table of Contents**

The key weighted average assumptions we used to estimate the cash flows and values of the residual interests initially recorded during the three months ended July 31, 2006 and 2005 are as follows:

|   |                                     |        |
|---|-------------------------------------|--------|
| Three months ended July 31,                                 | 2006                                | 2005   |
| Estimated credit losses                                     | 3.51%                               | 2.70%  |
| Discount rate   | 18.00%                              | 21.57% |
|   | LIBOR forward curve at closing date |        |
| Variable returns to third-party beneficial interest holders |                                     |        |

The key weighted average assumptions we used to estimate the cash flows and values of the residual interests and MSR's at July 31, 2006 and April 30, 2006 are as follows:

|   |                                       |                   |
|---|---------------------------------------|-------------------|
|   | July 31,<br>2006                      | April 30,<br>2006 |
| Estimated credit losses                                     | 3.10%                                 | 3.07%             |
| Discount rate residual interests                            | 20.24%                                | 21.98%            |
| Discount rate MSR's   | 18.00%                                | 18.00%            |
|   | LIBOR forward curve at valuation date |                   |
| Variable returns to third-party beneficial interest holders |                                       |                   |

We originate both adjustable and fixed rate mortgage loans. A key assumption used to estimate the cash flows and values of the residual interests and MSR's is average annualized prepayment speeds. Prepayment speeds include voluntary prepayments, involuntary prepayments and scheduled principal payments. Prepayment rate assumptions are as follows:

|                                 | Prior to<br>Initial<br>Rate Reset<br>Date | Months Outstanding After<br>Initial Rate Reset Date<br>Zero -<br>3 | Remaining<br>Life |
|---------------------------------|---|--|-------------------|
| Adjustable rate mortgage loans: |   |  |                   |
| With prepayment penalties       | 31%                                       | 72%  | 39%               |
| Without prepayment penalties    | 35%                                       | 52%  | 34%               |
| Fixed rate mortgage loans:      |   |  |                   |
| With prepayment penalties       | 30%                                       | 48%  | 38%               |

For fixed rate mortgages without prepayment penalties, we use an average prepayment rate of 32% over the life of the loans. Prepayment rate is projected based on actual paydown including voluntary, involuntary and scheduled principal payments.

Expected static pool credit losses are as follows:

|                | Mortgage Loans Securitized in Fiscal Year |       |       |       |       |       |       |
|----------------|---|-------|-------|-------|-------|-------|-------|
|                | Prior<br>to<br>2002                       | 2002  | 2003  | 2004  | 2005  | 2006  | 2007  |
| As of:         |   |       |       |       |       |       |       |
| July 31, 2006  | 4.75%                                     | 2.69% | 2.12% | 2.20% | 2.29% | 3.19% | 3.51% |
| April 30, 2006 | 4.75%                                     | 2.69% | 2.13% | 2.18% | 2.48% | 3.05% |       |

Edgar Filing: H&R BLOCK INC - Form 10-Q

|                |       |       |       |       |       |
|----------------|-------|-------|-------|-------|-------|
| April 30, 2005 | 4.52% | 2.53% | 2.08% | 2.30% | 2.83% |
| April 30, 2004 | 4.46% | 3.58% | 4.35% | 3.92% |       |

Static pool credit losses are calculated by summing the actual and projected future credit losses and dividing them by the original balance of each pool of assets.

At July 31, 2006, the sensitivities of the current fair value of the residual interests and MSR's to 10% and 20% adverse changes in the above key assumptions are as presented in the following table. These sensitivities are hypothetical and should be used with caution. As the figures indicate, changes in fair value based on a 10% variation in assumptions generally cannot be extrapolated because the relationship of the change in assumption to the change in fair value may not be linear. Also in this table, the effect of a variation of a particular assumption on the fair value of the retained interest is calculated without changing any other assumptions; in reality, changes in one factor may result in changes in another, which might magnify or counteract the sensitivities.

| Discount rate:                                 |                         |                            |                                     |                      |                   |                   |
| Adverse 10%                                    | \$ impact on fair value | \$ (5,305)                 | \$ (2,021)                          | \$ (1,090)           | \$ (4,473)        |                   |
| Adverse 20%                                    | \$ impact on fair value | (10,255)                   | (3,987)                             | (2,139)              | (8,813)           |                   |
| Variable interest rates (LIBOR forward curve): |                         |                            |                                     |                      |                   |                   |
| Adverse 10%                                    | \$ impact on fair value | \$ (3,988)                 | \$ (29,141)                         | \$ 756               | Not<br>applicable |                   |
| Adverse 20%                                    | \$ impact on fair value | (10,171)                   | (55,963)                            | 1,357                | Not<br>applicable |                   |

Increases in prepayment rates related to available-for-sale NIM residuals can generate a positive impact to fair value when reductions in estimated credit losses and increases in prepayment penalties exceed the adverse impact to accretion from accelerating the life of the available-for-sale residual interest.

Mortgage loans that have been securitized at July 31, 2006 and April 30, 2006, past due sixty days or more and the related credit losses incurred are presented below:

|                                    |  | (in 000s)   |                   |  |                   |  |           |

#### 4. Goodwill and Intangible Assets

Changes in the carrying amount of goodwill for the three months ended July 31, 2006 consist of the following:

|                             | April 30,<br>2006 | Additions | Other  | (in 000s)<br>July 31, 2006 |
|-----------------------------|-------------------|-----------|--------|----------------------------|
| Tax Services                | \$ 376,515        | \$ 1,683  | \$ (9) | \$ 378,189                 |
| Mortgage Services           | 136,586           |           |        | 136,586                    |
| Business Services           | 397,516           | 2,147     |        | 399,663                    |
| Consumer Financial Services | 189,835           |           |        | 189,835                    |
| Total goodwill              | \$ 1,100,452      | \$ 3,830  | \$ (9) | \$ 1,104,273               |

We test goodwill for impairment annually at the beginning of our fourth quarter, or more frequently if events occur indicating it is more likely than not the fair value of a reporting unit's net assets has been reduced below its carrying value. No such events were identified within any of our segments during the three months ended July 31, 2006.

**Table of Contents**

Intangible assets consist of the following:

|                                     | July 31, 2006               |                             |                   | April 30, 2006              |                             |                   | (in 000s) |

| Customer relationships              | 293,000                     | (244,167)                   | 48,833            | 293,000                     | (235,010)                   | 57,990            |           |
| <b>Total intangible assets</b>      | <b>\$ 585,629</b>           | <b>\$ (380,528)</b>         | <b>\$ 205,101</b> | <b>\$ 585,201</b>           | <b>\$ (365,707)</b>         | <b>\$ 219,494</b> |           |

Amortization of intangible assets for the three months ended July 31, 2006 and 2005 was \$15.0 million and \$15.2 million, respectively. Estimated amortization of intangible assets for fiscal years 2007 through 2011 is \$56.7 million, \$38.9 million, \$15.7 million, \$13.3 million and \$11.8 million, respectively.

In October 2005, we acquired all outstanding common stock of American Express Tax and Business Services, Inc. for an aggregate purchase price of \$190.7 million. The preliminary purchase price allocations are subject to change and will be adjusted based upon resolution of several matters including, but not limited to, determination of the post-closing adjustment and final purchase price, determination of final liabilities relating to planned exit activities and determination of the tax basis of acquired assets and liabilities, and deferred tax balances of the acquired business.

**5. Derivative Instruments**

A summary of our derivative instruments as of July 31, 2006 and April 30, 2006, and gains or losses incurred during the three months ended July 31, 2006 and 2005 is as follows:

|                                   | Asset (Liability) Balance at |                   | Gain (Loss) for the<br>Three<br>Months Ended July 31, |            | (in 000s) |

Edgar Filing: H&R BLOCK INC - Form 10-Q

|                               |          |           |           |           |
|-------------------------------|----------|-----------|-----------|-----------|
| Prime short sales             | (1,176)  | 777       | (561)     | 996       |
| Forward loan sale commitments | (5,121)  | 1,961     | (7,082)   |           |
| Interest rate caps            |          |           |           | 640       |
|                               | \$ 9,479 | \$ 14,534 | \$ 13,243 | \$ 26,086 |

The notional amount of interest rate swaps to which we were a party at July 31, 2006 was \$3.9 billion, with a weighted average duration of 1.9 years. The notional value and the contract value of our forward loan sale commitments at July 31, 2006 was \$3.2 billion and \$3.3 billion, respectively.

None of our derivative instruments qualify for hedge accounting treatment as of July 31, 2006 or April 30, 2006.

**6. Stock-Based Compensation**

Beginning May 1, 2006, we adopted Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment, (SFAS 123R) under the modified prospective approach. Under SFAS 123R, we continue to measure and recognize the fair value of stock-based compensation consistent with our past practice under Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation, which we adopted on May 1, 2003 under the prospective transition method. The adoption of SFAS 123R did not have a material impact on our consolidated financial statements.

**Table of Contents**

The following is a comparison of reported and pro forma results had compensation cost for all stock-based compensation grants been determined in accordance with SFAS 123 for the three months ended July 31, 2005.

(in 000s, except per share amounts)

|  |             |
|--|-------------|
| Net loss as reported   | \$ (27,994) |
| Add: Stock-based compensation expense included in reported net loss, net of related tax effects                              | 5,765       |
| Deduct: Total stock-based compensation expense determined under fair value method for all awards, net of related tax effects | (8,309)     |
| Pro forma net loss   | \$ (30,538) |
| Basic and diluted loss per share:  |             |
| As reported  | \$ (0.08)   |
| Pro forma  | (0.09)      |

Stock-based compensation expense of \$10.5 million and the related tax benefits of \$3.7 million are included in our results for the three months ended July 31, 2006.

SFAS 123R requires the reclassification, in the statement of cash flows, of the excess tax benefits from stock-based compensation from operating cash flows to financing. As a result, we classified \$1.1 million as a cash inflow from financing activities rather than as an operating activity for the three months ended July 31, 2006.

We have four stock-based compensation plans which have been approved by our shareholders. As of July 31, 2006, we had approximately 21.7 million shares reserved for future awards under these plans. We issue shares from our treasury stock to satisfy the exercise or release of stock-based awards.

Our 2003 Long-Term Executive Compensation Plan provides for awards of options (both incentive and nonqualified), nonvested shares, performance nonvested share units and other stock-based awards to employees. These awards are granted to employees and entitle the holder to shares or the right to purchase shares of common stock as the award vests, typically over a three-year period with one-third vesting each year. Nonvested shares receive dividends during the vesting period and performance nonvested share units receive cumulative dividends at the end of the vesting period. We measure the fair value of options on the grant date or modification date using the Black-Scholes option valuation model. We measure the fair value of nonvested shares and performance nonvested share units based the average of the high and low quoted price of our common stock on the grant date. Generally, we expense the grant-date fair value, net of estimated forfeitures, over the vesting period on a straight-line basis. Upon adoption of SFAS 123R, awards granted to employees who are of retirement age, or reach retirement age at least one year after the grant date but prior to the end of the service period of the award, are expensed over the shorter of the two periods. Options are granted at a price equal to the fair market value of our common stock on the grant date and have a contractual term of ten years.

Our 1999 Stock Option Plan for Seasonal Employees provides for awards of nonqualified options to employees. These awards are granted to seasonal employees in our Tax Services segment and entitle the holder to the right to purchase shares of common stock as the award vests, typically over a two-year period. We measure the fair value of options on the grant date using the Black-Scholes option valuation model. We expense the grant-date fair value, net of estimated forfeitures, over the service period. Options are granted at a price equal to the fair market value of our common stock on the grant date, are exercisable during September through November in each of the two years following the calendar year of the grant and have a contractual term of 29 months.

Our 1989 Stock Option Plan for Outside Directors provides for awards of nonqualified options to outside directors. These awards are granted to outside directors and entitle the holder to the right to purchase shares of common stock. We measure the fair value of options on the grant date using the Black-Scholes option valuation model. These awards vest immediately upon issuance and are therefore fully expensed on the grant date. Options are granted at a price equal to the fair market value of our common stock on the grant date and have a contractual term of ten years.

**Table of Contents**

Our 2000 Employee Stock Purchase Plan (ESPP) provides employees the option to purchase shares of our Common Stock through payroll deductions. The purchase price of the stock is 90% of the lower of either the fair market value of our Common Stock on the first trading day within the Option Period or on the last trading day of the Option Period. The Option Periods are six-month periods beginning on January 1 and July 1 each year. We measure the fair value of options on the grant date utilizing the Black-Scholes option valuation model in accordance with FASB Technical Bulletin 97-1, Accounting under Statement 123 for Certain Employee Stock Purchase Plans with a Look-Back Option. We expense the grant-date fair value over the six-month vesting period.

A summary of options for the three months ended July 31, 2006 is as follows:

|                                  |        |                     | (in 000s, except per share amounts) |                                 |

|                                  | Shares | Exercise Price      | Remaining<br>Contractual<br>Term    |                                 |
| Outstanding, beginning of period | 26,048 | \$ 21.40            |                                     |                                 |
| Granted                          | 4,943  | 23.86               |                                     |                                 |
| Exercised                        | (460)  | 14.84               |                                     |                                 |
| Forfeited or expired             | (191)  | 22.98               |                                     |                                 |
| Outstanding, end of period       | 30,340 | 21.89               | 5 years                             | \$ 80,521                       |
| Exercisable, end of period       | 18,301 | \$ 19.35            | 4 years                             | \$ 75,626                       |
| Exercisable and expected to vest | 28,547 | 21.70               | 5 years                             | \$ 80,265                       |

The total intrinsic value of options exercised during the three months ended July 31, 2006 and 2005 were \$0.5 million and \$7.8 million, respectively. We utilize the Black-Scholes option pricing model to value our options on the grant date. We estimated the expected volatility using our historical stock price data. We also used historical exercise and forfeiture behaviors to estimate the options expected term and our forfeiture rate. The following assumptions were used to value options during the periods:

| Three months ended July 31,      | 2006            | 2005            |
|----------------------------------|-----------------|-----------------|
| Options management and director: |                 |                 |
| Expected volatility              | 23.67% - 29.06% | 27.05% - 27.30% |
| Expected term                    | 4 - 7 years     | 5 years         |
| Dividend yield                   | 2.15% - 2.35%   | 1.71%           |
| Risk-free interest rate          | 4.77% - 5.10%   | 3.65% - 3.75%   |
| Weighted-average fair value      | \$ 5.17         | \$ 7.42         |

A summary of nonvested shares and performance nonvested share units for the three months ended July 31, 2006 is as follows:

|                                  | Shares | (shares in 000s)<br>Weighted Average<br>Grant Date Fair<br>Value |
|----------------------------------|--------|--|
| Outstanding, beginning of period | 2,455  | \$ 25.27   |
| Granted                          | 944    | 23.93  |
| Released                         | (738)  | 25.01  |
| Forfeited                        | (77)   | 24.63  |
| Outstanding, end of period       | 2,584  | 24.95  |

**Table of Contents**

The total fair value of shares vesting during the three months ended July 31, 2006 and 2005 was \$17.6 million and \$16.3 million, respectively. Upon the grant of nonvested shares and performance nonvested share units, unearned compensation cost is recorded as an offset to additional paid in capital and is amortized as compensation expense over the vesting period. As of July 31, 2006, we had \$57.1 million of total unrecognized compensation cost related to these shares. This cost is expected to be recognized over a weighted-average period of two years.

**7. Supplemental Cash Flow Information**

The following transactions were treated as non-cash investing activities in the condensed consolidated statement of cash flows:

| Three months ended July 31,      | 2006   | (in 000s)<br>2005 |
|----------------------------------|--------|-------------------|
| Residual interest mark-to-market | \$ 531 | \$ 12,942         |
| Additions to residual interests  |        | 2,109             |

**8. Regulatory Requirements**

## Registered Broker-Dealer

HRBFA is subject to regulatory requirements intended to ensure the general financial soundness and liquidity of broker-dealers. At July 31, 2006, HRBFA's net capital of \$124.2 million, which was 26.4% of aggregate debit items, exceeded its minimum required net capital of \$9.4 million by \$114.8 million.

Pledged securities at July 31, 2006 totaled \$42.5 million, an excess of \$5.9 million over the margin requirement.

Pledged securities at April 30, 2006 totaled \$53.0 million, an excess of \$9.9 million over the margin requirement.

## Banking

HRB Bank is subject to various regulatory capital guidelines and requirements administered by Federal banking agencies. Failure to meet minimum capital requirements can trigger certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on HRB Bank's operations. Under these capital adequacy guidelines and the regulatory framework for prompt corrective action, HRB Bank must meet specific capital guidelines that involve quantitative measures of HRB Bank's assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. HRB Bank's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require HRB Bank to maintain minimum amounts and ratios of capital to assets. As shown in the table below, at June 30, 2006, the most recent date of reporting to Federal banking agencies, HRB Bank is categorized as well capitalized for regulatory purposes, which is the highest classification. There are no conditions or events since June 30, 2006 that management believes have changed the Bank's category. At July 31, 2006, management believes that HRB Bank meets all capital adequacy requirements to which it is subject. However, events beyond management's control, such as fluctuations in interest rates or a downturn in the economy in areas in which HRB Bank's loans or securities are concentrated, could adversely affect future earnings and consequently, HRB Bank's ability to meet its future capital requirements.

**Table of Contents**

HRB Bank's capital amounts and ratios as of June 30, 2006 are presented in the table below:

|  | (dollars in 000s) |        |  |       |
|--|-------------------|--------|--|-------|
|  | Actual            |        | Minimum Required<br>to<br>Qualify as Well<br>Capitalized |       |
|  | Amount            | Ratio  | Amount   | Ratio |
| Tier 1 capital to adjusted total assets (leverage)     | \$ 160,270        | 33.70% | \$ 23,776  | 5.0%  |
| Total risk-based capital to total risk-weighted assets | \$ 161,393        | 67.20% | \$ 24,017  | 10.0% |

Additionally, H&R Block, Inc. is now subject to a three percent minimum ratio of adjusted tangible capital to adjusted total assets, as defined by the OTS.

**Table of Contents****9. Commitments and Contingencies**

Changes in the deferred revenue liability related to our Peace of Mind (POM) program are as follows:

| Three months ended July 31,                | (in 000s)  |            |
|--|------------|------------|
|  | 2006       | 2005       |
| Balance, beginning of period               | \$ 141,684 | \$ 130,762 |
| Amounts deferred for new guarantees issued | 511        | 408        |
| Revenue recognized on previous deferrals   | (28,738)   | (23,900)   |
| Balance, end of period                     | \$ 113,457 | \$ 107,270 |

The following table summarizes certain of our other contractual obligations and commitments:

| As of   | (in 000s)     |                |
|---|---------------|----------------|
|   | July 31, 2006 | April 30, 2006 |
| Commitment to fund mortgage loans                   | \$ 3,664,877  | \$ 4,032,045   |
| Commitment to sell mortgage loans                   | 3,185,000     | 3,052,688      |
| Commitment to fund Franchise Equity Lines of Credit | 75,965        | 75,909         |
| Contingent business acquisition obligations         | 22,845        | 24,482         |

In the normal course of business, we maintain recourse with standard representations and warranties customary to the mortgage banking industry. Violations of these representations and warranties, such as early payment defaults by borrowers, may require us to repurchase loans previously sold. In accordance with these loan sale agreements, we repurchased loans previously sold into the secondary market with an outstanding principal balance of \$92.3 million and \$60.0 million during the three months ended July 31, 2006 and 2005, respectively. Repurchased loans are normally sold in subsequent sale transactions. We established a liability related to the potential loss we expect to incur on repurchase of loans previously sold and premium recapture, totaling \$104.0 million and \$33.4 million at July 31, 2006 and April 30, 2006, respectively. This liability relates to loans not yet repurchased. On an ongoing basis, we monitor the adequacy of this liability, which is established upon the initial sale of the loans, and is included in accounts payable, accrued expenses and other current liabilities in the condensed consolidated balance sheets. During the three months ended July 31, 2006 we experienced higher early payment defaults, resulting in an increase in actual and expected loan repurchase activity. As a result, we increased our reserves accordingly. In establishing our reserves, we assumed all loans that are currently delinquent and subject to contractual repurchase terms will be repurchased, and that 5% of loans previously sold but not yet subject to contractual repurchase terms will be repurchased. Based on historical experience, we assumed 30% of all loans we repurchase will cure with no loss incurred, and of those that do not cure, we assumed an average 15% loss severity.

HRB Bank is a member of the Federal Home Loan Bank (FHLB) of Des Moines, which extends credit availability to member banks based on eligible collateral and asset size. At July 31, 2006, HRB Bank had FHLB advance capacity of \$198.0 million, but no amounts had been drawn on this facility.

We routinely enter into contracts that include embedded indemnifications that have characteristics similar to guarantees, including obligations to protect counterparties from losses arising from the following: (a) tax, legal and other risks related to the purchase or disposition of businesses; (b) penalties and interest assessed by Federal and state taxing authorities in connection with tax returns prepared for clients; (c) indemnification of our directors and officers; and (d) third-party claims relating to various arrangements in the normal course of business. Typically, there is no stated maximum payment related to these indemnifications, and the term of indemnities may vary and in many cases is limited only by the applicable statute of limitations. The likelihood of any claims being asserted against us and the ultimate liability related to any such claims, if any, is difficult to predict. While we cannot provide assurance that such

claims will not be successfully asserted, we believe the fair value of these guarantees and indemnifications is not material as of July 31, 2006.

**Table of Contents**

## Restructuring Charge

During fiscal year 2006, we initiated a restructuring plan to reduce costs within our mortgage operations. Changes in the restructuring charge liability during the three months ended July 31, 2006 are as follows:

|                            | Accrual Balance<br>as of April 30,<br>2006 | Cash<br>Payments | (in 000s)<br>Accrual<br>Balance<br>as of July 31,<br>2006 |
|----------------------------|--|------------------|---|
| Employee severance costs   | \$ 1,737                                   | \$ (1,737)       | \$  |
| Contract termination costs | 5,821                                      | (2,889)          | 2,932   |
|                            | \$ 7,558                                   | \$ (4,626)       | \$ 2,932  |

The remaining liability related to this restructuring charge is included in accounts payable, accrued expenses and other current liabilities on our condensed consolidated balance sheet and relates to lease obligations for vacant space resulting from branch office closings.

**10. Litigation and Related Contingencies**

We have been named as a defendant in numerous lawsuits throughout the country regarding our RAL programs (the RAL Cases). The RAL Cases have involved a variety of legal theories asserted by plaintiffs. These theories include allegations that, among others, (i) disclosures in the RAL applications were inadequate, misleading and untimely; (ii) the RAL interest rates were usurious and unconscionable; (iii) we did not disclose that we would receive part of the finance charges paid by the customer for such loans; (iv) untrue, misleading or deceptive statements in marketing RALs; (v) breach of state laws on credit service organizations; (vi) breach of contract, unjust enrichment, unfair and deceptive acts or practices; (vii) violations of the federal Racketeer Influenced and Corrupt Organizations Act; (viii) violations of the federal Fair Debt Collection Practices Act and unfair competition with respect to debt collection activities; and (ix) we owe, and breached, a fiduciary duty to our customers in connection with the RAL program.

The amounts claimed in the RAL Cases have been very substantial in some instances. We have successfully defended against numerous RAL cases, some of which were dismissed on our motions for dismissal or summary judgment, and others were dismissed voluntarily by the plaintiffs after denial of class certification. Other cases have been settled, with the combined pretax expense for such settlements in fiscal year 2006 totaling \$70.2 million. During the three months ended July 31, 2006, the 2006 settlements were paid in full.

One RAL class action case and a state attorney general lawsuit are still pending, with the amounts claimed on a collective basis being very substantial. The ultimate cost of this litigation could be substantial. We believe we have meritorious defenses to the remaining RAL Cases and we intend to defend them vigorously. There can be no assurances, however, as to the outcome of the pending RAL Cases individually or in the aggregate or the associated impact on our financial statements.

We are also a party to claims and lawsuits pertaining to our electronic tax return filing services, our POM guarantee program, our Express IRA product, business valuation services and tax planning services. These claims and lawsuits include actions by individual plaintiffs, as well as cases in which plaintiffs seek to represent a class of similarly situated customers. The amounts claimed in these claims and lawsuits are substantial in some instances, and the ultimate liability with respect to such litigation and claims is difficult to predict. We intend to continue defending these cases vigorously, although there are no assurances as to their outcome.

In addition we and certain of our current and former directors and officers are party to several putative class actions alleging violations of certain securities laws, and certain of our current and former officers and directors are

defendants in several putative shareholder derivative actions, which have purportedly been brought on behalf of the Company and in which the Company is named as a nominal defendant. The putative securities class actions allege, among other things, deceptive, material and misleading financial statements, failure to prepare financial statements in accordance with generally accepted accounting principles and concealment of the potential for lawsuits stemming from the allegedly fraudulent nature of our operations. The shareholder derivative cases

**Table of Contents**

pertain primarily to our recent financial restatement and certain of our products and business activities and generally allege breach of fiduciary duty, abuse of control, gross mismanagement, waste and unjust enrichment. The amounts claimed in these claims and lawsuits are substantial in some instances, and the ultimate liability with respect to such litigation and claims is difficult to predict. We intend to continue defending these cases vigorously, although there are no assurances as to their outcome.

In addition to the aforementioned types of cases, we are parties to claims and lawsuits that we consider to be ordinary, routine disputes incidental to our business (Other Claims and Lawsuits), including claims and lawsuits concerning the preparation of customers' income tax returns, tax planning services, the fees charged customers for various services, investment products, relationships with franchisees, contract disputes, employment matters and civil actions, arbitrations, regulatory inquiries and class actions arising out of our business as a broker-dealer and provider of investment products and as a servicer of mortgage loans. We believe we have meritorious defenses to each of the Other Claims and Lawsuits and are defending them vigorously. Although we cannot provide assurance we will ultimately prevail in each instance, we believe that amounts, if any, required to be paid in the discharge of liabilities or settlements pertaining to Other Claims and Lawsuits will not have a material adverse effect on our consolidated financial statements. Regardless of outcome, claims and litigation can adversely affect us due to defense costs, diversion of management attention and time, and publicity related to such matters.

**11. Segment Information**

Information concerning our operations by reportable operating segment is as follows:

|  | (in 000s)       |                      |                      |                                   |             |              |              |

HRB Bank commenced operations on May 1, 2006, at which time we realigned certain segments of our business to reflect a new management reporting structure. The previously reported Investment Services segment, HRBMC (which was previously included in the Mortgage Services segment), and HRB Bank are now reported in the Consumer Financial Services segment. Presentation of prior-year results reflects the new segment alignment.

The Consumer Financial Services segment is primarily engaged in offering advice-based brokerage services and investment planning through HRBFA, mortgage loans through HRBMC and full-service banking through HRB Bank. HRB Bank offers traditional banking services, including

**Table of Contents**

checking and savings accounts, home equity lines of credit, individual retirement accounts, certificates of deposit and prepaid debit card deposit accounts. HRB Bank also purchases loans from Option One Mortgage Corporation (OOMC) to hold for investment purposes. HRBMC originates non-prime loans for sale to OOMC and prime loans for sale to other third-party buyers.

All intersegment transactions are eliminated in consolidation. The largest intersegment revenue transactions include gains recognized on loans sold to HRB Bank by OOMC and mortgage fees earned by HRBMC on loans sold to OOMC.

**12. New Accounting Pronouncements**

In June 2006, FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48), was issued. The interpretation requires that a tax position meet a more-likely-than-not recognition threshold for the benefit of the uncertain tax position to be recognized in the financial statements and provides guidance on the measurement of the benefit. The interpretation also requires interim period estimated tax benefits of uncertain tax positions to be accounted for in the period of change rather than as a component of the annual effective tax rate. The provisions of this standard are effective as of the beginning of our fiscal year 2008. We are currently evaluating what effect the adoption of FIN 48 will have on our consolidated financial statements.

In June 2006, Emerging Issues Task Force Issue No. 06-3, How Sales Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement (That Is, Gross Versus Net Presentation) (EITF 06-3) was issued. EITF 06-3 requires disclosure of the presentation of taxes on either a gross (included in revenues and costs) or a net (excluded from revenues) basis as an accounting policy decision. The provisions of this standard are effective for interim and annual reporting periods beginning after December 15, 2006. We do not expect the adoption of EITF 06-3 to have a material impact on our consolidated financial statements.

In March 2006, Statement of Financial Accounting Standards No. 156, Accounting for Servicing of Financial Assets An Amendment of FASB Statement No. 140, (SFAS 156), was issued. The provisions of this standard require mortgage servicing rights to be initially valued at fair value. SFAS 156 allows servicers to choose to subsequently measure their servicing rights at fair value or to continue using the amortization method under SFAS 140. The provisions of this standard are effective as of the beginning of our fiscal year 2008. We are currently evaluating what effect the adoption of SFAS 156 will have on our consolidated financial statements.

In February 2006, Statement of Financial Accounting Standards No. 155, Accounting for Certain Hybrid Instruments An Amendment of FASB Statements No. 133 and 140 (SFAS 155), was issued. The provisions of this standard establish a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation. The standard permits a hybrid financial instrument to be accounted for in its entirety if the holder irrevocably elects to measure the hybrid financial instrument at fair value, with changes in fair value recognized currently in earnings. The provisions of this standard are effective as of the beginning of our fiscal year 2008. Our residual interests typically have interests in derivative instruments embedded within the securitization trusts. If we elect to account for our residual interests on a fair value basis, changes in fair value will impact earnings in the period in which the change occurs. We are currently evaluating what effect the adoption of SFAS 155 will have on our consolidated financial statements.

Exposure Draft Amendment of SFAS 140

In August 2005, the Financial Accounting Standards Board (FASB) issued an exposure draft which amends Statement of Financial Accounting Standards No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. This exposure draft seeks to clarify the derecognition requirements for financial assets

and the initial measurement of interests related to transferred financial assets that are held by a transferor. Our current off-balance sheet warehouse facilities (the Trusts) in our Mortgage Services segment would be required to be consolidated in our financial statements based on the provisions of the exposure draft. We will

-16-

---

**Table of Contents**

continue to monitor the status of the exposure draft and consider what changes, if any, could be made to the structure of the Trusts to continue to derecognize mortgage loans transferred to the Trusts. At July 31, 2006, the Trusts held loans and debt totaling \$4.2 billion, which we would be required to consolidate into our financial statements under the provisions of this exposure draft. The final standard for this exposure draft is scheduled to be issued in the second quarter of calendar year 2007.

**13. Condensed Consolidating Financial Statements**

Block Financial Corporation (BFC) is an indirect, wholly owned consolidated subsidiary of the Company. BFC is the Issuer and the Company is the Guarantor of the Senior Notes issued on April 13, 2000 and October 26, 2004. These condensed consolidating financial statements have been prepared using the equity method of accounting. Earnings of subsidiaries are, therefore, reflected in the Company's investment in subsidiaries account. The elimination entries eliminate investments in subsidiaries, related stockholder's equity and other intercompany balances and transactions.

**Table of Contents****ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****RESULTS OF OPERATIONS**

H&R Block is a diversified company delivering tax services and financial advice, investment, mortgage and banking services, and business and consulting services. For more than 50 years, we have been developing relationships with millions of tax clients and our strategy is to expand on these relationships. Our Tax Services segment provides income tax return preparation services, electronic filing services and other services and products related to income tax return preparation to the general public in the United States, Canada, Australia and the United Kingdom. Our Mortgage Services segment offers a full range of home mortgage services through Option One Mortgage Corporation (OOMC). RSM McGladrey Business Services, Inc. (RSM) is a national accounting, tax and business consulting firm primarily serving midsized businesses. Our Consumer Financial Services segment offers investment services through H&R Block Financial Advisors, Inc. (HRBFA), full-service banking through H&R Block Bank (HRB Bank) and mortgage services through H&R Block Mortgage Corporation (HRBMC).

**Our Mission**

To help our clients achieve their financial objectives  
by serving as their tax and financial partner.

Key to achieving our mission is the enhancement of client experiences through consistent delivery of valuable services and advice. Operating through multiple lines of business allows us to better meet the changing financial needs of our clients.

The analysis that follows should be read in conjunction with the tables below and the condensed consolidated income statements found on page 2.

**Three months ended July 31, 2006 compared to July 31, 2005**

Tax Services revenues increased \$8.8 million, or 15.5%, for the three months ended July 31, 2006 compared to the prior year.

Tax preparation and related fees increased \$2.0 million, or 8.6%, for the current quarter. This increase is primarily due to improved performance in our Canadian operations coupled with an increase of 8.7% in the average fee per U.S. client served.

Other service revenues increased \$6.1 million, or 20.9%, primarily due to an increase in the recognition of deferred fee revenue from our POM guarantees, which resulted from a more favorable claims pattern.

-20-

---

**Table of Contents**

Total expenses increased \$17.5 million, or 8.7%, for the three months ended July 31, 2006. Cost of services increased \$19.0 million, or 12.5%, from the prior year. Our real estate expansion efforts have contributed to a total increase of \$5.1 million across all cost of services categories. Compensation and benefits increased \$3.2 million, or 7.6%, primarily due to severance costs associated with district realignments. Occupancy expenses increased \$8.4 million, or 14.1%, primarily as a result of higher rent expenses due to a 10.0% increase in company-owned offices under lease and a 6.2% increase in the average rent. Other cost of services increased \$8.3 million, or 20.7%, due to \$3.3 million in additional corporate shared services for information technology projects, coupled with increases in travel expenses and expenses associated with our POM guarantee.

Selling, general and administrative expenses decreased \$1.5 million, or 3.0%, primarily due to a \$2.7 million decrease in corporate shared services and a \$2.5 million decrease in legal expenses, partially offset by a \$2.9 million increase in corporate wages.

The pretax loss was \$153.1 million for the three months ended July 31, 2006 compared to a loss of \$144.5 million in the prior year.

**RAL Litigation**

We are named as a defendant in one pending class-action lawsuit and one pending state attorney general lawsuit alleging that we engaged in wrongdoing with respect to the RAL program. We believe we have strong defenses to these lawsuits and will vigorously defend our position. Nevertheless, the amounts claimed in these lawsuits are, in some instances, very substantial. In fiscal year 2006, we entered into settlement agreements regarding several RAL Cases, with the combined pretax expense for such settlements totaling \$70.2 million. There can be no assurances as to the ultimate outcome of the remaining pending RAL Cases, or as to their impact on our financial statements. See additional discussion of RAL Litigation in note 10 to the consolidated financial statements and in Part II, Item 1, Legal Proceedings.

**Table of Contents****MORTGAGE SERVICES**

This segment is primarily engaged in the origination and acquisition of non-prime mortgage loans through an independent broker network and its relationship with HRBMC, the sale and securitization of mortgage loans and residual interests, and the servicing of non-prime loans.

**Three months ended July 31, 2006 compared to July 31, 2005**

Mortgage Services revenues decreased \$135.4 million, or 44.4%, for the three months ended July 31, 2006 compared to the prior year. Revenues decreased primarily as a result of a decline in gains on sales of mortgage loans, partially offset by higher loan servicing revenue.

The following table summarizes the key drivers of loan origination volumes and related gains on sales of mortgage loans:

| Three months ended July 31,  | (dollars in 000s) |         |
|------------------------------|-------------------|---------|

(1) Includes all direct sales and back office sales support associates.

(2) Percentage of loans funded divided by total applications in the period.

(3) Defined as gain on sale of mortgage loans (including gain or loss on derivatives, mortgage servicing rights and net of direct origination and acquisition expenses) divided by origination volume.

Gains on sales of mortgage loans decreased \$118.6 million and our net gain on sale - gross margin declined 103 basis points from the prior year. These decreases resulted primarily from higher loss provisions for loan repurchases recorded during the current quarter, lower premiums on loan sales and lower origination volumes, partially offset by improved cost of acquisition.

During the quarter we experienced higher early payment defaults, resulting in an increase in actual and expected loan repurchase activity. As a result, we recorded total loss provisions of \$102.1 million during the three months ended July 31, 2006, which included \$9.8 million in premium recapture reserves, compared to \$16.9 million in the prior year.

**Table of Contents**

The provision recorded in the current quarter consists of \$46.1 million recorded on loans sold during the current quarter and \$56.0 million related to loans sold in prior quarters. Loss provisions as a percent of origination volume increased 102 basis points over the prior year. In establishing loss reserves on recent production, we've assumed all loans that are currently delinquent and subject to contractual repurchase terms will be repurchased, and that 5% of loans previously sold but not yet subject to contractual repurchase terms will be repurchased. Based on historical experience, we assumed 30% of all loans we repurchase will cure with no loss incurred, and of those that do not cure, we assumed an average 15% loss severity. See additional discussion of our reserves and repurchase obligations in note 9 to our condensed consolidated financial statements.

Market interest rates, based on the two-year swap, increased from an average of 4.06% last year to 5.51% in the current quarter. However, our WAC increased only 116 basis points, up to 8.68% from 7.52% in the prior year. These changes in interest rates, coupled with the higher loss provisions, caused our premium on loan sales to decline 72 basis points, to 1.58% from 2.30% last year.

The value of MSR's recorded in the first quarter increased to 64 basis points from 47 basis points in the prior year due to changes in our assumptions used to value MSR's and other factors. However this increase was offset by a decline in origination volumes, which resulted in a net increase of \$0.8 million in gains on sales of mortgage loans.

Our cost of acquisition improved 56 basis points to 0.52% primarily as a result of a decrease in the cost to acquire loans from HRBMC and lower third-party broker commissions.

For the three months ended July 31, 2006, gains on sales of mortgage loans includes \$10.4 million in gains on sales of loans to HRB Bank and \$8.5 million in acquisition costs paid to HRBMC to purchase its non-prime loans, both of which are eliminated in consolidation.

To mitigate the risk of short-term changes in market interest rates related to our loan originations, we use interest rate swaps, forward loan sale commitments and rate-lock equivalents. We generally enter into interest rate swap arrangements related to existing loan applications with rate-lock commitments and for rate-lock commitments we expect to make in the next two to three weeks. During the current quarter, we recorded a net \$12.5 million in gains, compared to \$23.9 million in the prior year, related to our various derivative instruments. See note 5 to the condensed consolidated financial statements.

During the current quarter, our available-for-sale residual interests performed worse than expected in our internal valuation models, with higher credit losses and interest rates than originally modeled. We recorded impairments of \$17.3 million in gains on sales of mortgage assets. We also recorded favorable pretax mark-to-market adjustments, which increased the fair value of our residual interests \$3.4 million during the quarter. These adjustments were recorded, net of write-downs of \$2.9 million and deferred taxes of \$0.2 million, in other comprehensive income and will be accreted into income throughout the remaining life of those residual interests. Future changes in interest rates or other assumptions, based on market conditions or actual loan pool performance, could cause additional adjustments to the fair value of the residual interests and could cause changes to the accretion of these residual interests in future periods.

Accretion of residual interests of \$13.5 million for the three months ended July 31, 2006 represents a decrease of \$17.3 million from the prior year. This decrease is primarily due to the sale of previously securitized residual interests during fiscal year 2006 and lower write-ups to residual interest balances.

**Table of Contents**

The following table summarizes the key metrics related to our loan servicing business:

|   | (dollars in 000s) |               |
|---|-------------------|---------------|
| Three months ended July 31,                       | 2006              | 2005          |
| Average servicing portfolio:                      |                   |               |
| With related MSR's                                | \$ 63,562,956     | \$ 49,635,474 |
| Without related MSR's                             | 10,443,256        | 20,070,745    |
|   | \$ 74,006,212     | \$ 69,706,219 |
| Ending servicing portfolio:                       |                   |               |
| With related MSR's                                | \$ 64,187,360     | \$ 52,015,774 |
| Without related MSR's                             | 10,333,107        | 18,526,932    |
|   | \$ 74,520,467     | \$ 70,542,706 |
| Number of loans serviced                          | 439,707           | 451,310       |
| Average delinquency rate                          | 7.33%             | 4.28%         |
| Weighted average FICO score                       | 621               | 621           |
| Weighted average interest rate (WAC) of portfolio | 7.93%             | 7.43%         |
| Carrying value of MSR's                           | \$ 275,266        | \$ 188,708    |

Loan servicing revenues increased \$18.8 million, or 20.8%, compared to the prior year. The increase reflects a higher average loan servicing portfolio. The average servicing portfolio for the three months ended July 31, 2006 increased \$4.3 billion, or 6.2%, to \$74.0 billion. The annualized rate earned on our entire servicing portfolio was 35 basis points for the current quarter, compared to 37 basis points in the prior year.

Total expenses for the three months ended July 31, 2006 were essentially flat compared to the prior year. Cost of services increased \$14.3 million as a result of a higher average servicing portfolio during the current quarter and increased amortization of MSR's.

Cost of other revenues decreased \$21.1 million, primarily due to \$16.6 million in lower compensation and benefits as a result of the restructuring in the prior year. Occupancy expenses decreased \$5.1 million primarily due to the closing of certain offices during the fourth quarter of fiscal year 2006.

Selling, general and administrative expenses increased \$7.0 million due primarily to a \$5.3 million reduction in costs allocated to HRBMC.

The pretax loss for the three months ended July 31, 2006 was \$4.9 million compared to income of \$130.7 million in the prior year.

**Table of Contents****BUSINESS SERVICES**

This segment offers middle-market companies accounting, tax and consulting services, wealth management, retirement resources, payroll and benefits services, corporate finance and financial process outsourcing.

**Three months ended July 31, 2006 compared to July 31, 2005**

Business Services revenues for the three months ended July 31, 2006 increased \$78.3 million, or 61.7%, from the prior year. This increase was primarily due to the acquisition of American Express Tax and Business Services, Inc. (AmexTBS) as of October 1, 2005, which increased accounting, tax and consulting revenues \$72.4 million.

Capital markets revenues declined due to a decline in the number of business valuation projects. Other service revenues increased \$3.1 million due to growth in our financial process outsourcing and wealth management services.

Total expenses increased \$86.1 million, or 64.4%, for the three months ended July 31, 2006 compared to the prior year. Cost of services increased \$62.8 million, due to increases in compensation and benefits and occupancy expenses. Compensation and benefits increased \$50.0 million, primarily due to the AmexTBS acquisition. Increases in the

number of personnel and the average wage per employee, driven by marketplace competition for professional staff, also contributed to the increase. Occupancy expenses increased \$11.1 million primarily due to the AmexTBS acquisition.

Selling, general and administrative expenses increased \$22.3 million primarily due to acquisitions and additional costs associated with our business development initiatives.

The pretax loss for the three months ended July 31, 2006 of \$14.6 million compares to a pretax loss of \$6.8 million in the prior year.

**Table of Contents****CONSUMER FINANCIAL SERVICES**

This segment is primarily engaged in offering advice-based brokerage services and investment planning through HRBFA, full-service banking through HRB Bank and prime and non-prime mortgage loans through HRBMC. HRBFA, HRB Bank and HRBMC, our Block-branded businesses, are focused on increasing client loyalty and retention by offering expanded financial services to our retail tax clients. HRBFA offers our customers traditional brokerage services, as well as annuities, insurance, fee-based accounts, online account access, equity research and focus lists, model portfolios, asset allocation strategies, and other investment tools and information. HRB Bank offers traditional banking services including checking and savings accounts, home equity lines of credit, individual retirement accounts, certificates of deposit and prepaid debit card deposit accounts. HRB Bank also purchases loans from OOMC to hold for investment purposes and HRBFA utilizes HRB Bank for certain FDIC-insured deposits for its customers. HRBMC originates mortgage loans for sale to OOMC or other third-party buyers.

(1) Total revenues, less interest expense and loan loss reserves on mortgage loans held for investment.

**Three months ended July 31, 2006 compared to July 31, 2005**

Consumer Financial Services revenues, net of interest expense and loan loss reserves, for the three months ended July 31, 2006 decreased \$21.8 million, or 17.7%, from the prior year, primarily due to lower gains on sales of mortgage loans.

Edgar Filing: H&R BLOCK INC - Form 10-Q

Financial advisor production revenue, which consists primarily of fees earned on assets under administration and commissions on customer trades, increased \$1.9 million, or 4.2%, over the prior year due primarily to higher annuitized revenues, partially offset by declining transactional revenues. The following table summarizes the key drivers of production revenue:

| Three months ended July 31,                              | 2006       | 2005       |
|--|------------|------------|
| Customer trades  | 224,048    | 226,378    |
| Average revenue per trade                                | \$ 112.68  | \$ 126.71  |
| Ending balance of assets under administration (billions) | \$ 31.1    | \$ 30.0    |
| Annualized productivity per advisor                      | \$ 195,000 | \$ 180,000 |

Gain on sale of mortgage loans decreased \$27.0 million, or 47.9%, from the prior year primarily due to a 37.5% decline in origination volumes, coupled with lower margins on mortgage loans sold. Origination volumes fell primarily due to a decline in applications as well as a decline in the closing ratio. HRBMC sells its non-prime loans to OOMC and its prime loans to other third-party buyers. For the three months ended July 31, 2006, gains on sales of mortgage loans includes \$8.5 million in gains on loans sold to OOMC, which is eliminated in consolidation.

Net interest revenue on margin lending and other increased \$1.0 million, or 7.9%, from the prior year, as a result of higher interest rates earned, partially offset by a decline in average margin balances.

-28-

**Table of Contents**

Net interest revenue on banking activities totaled \$3.7 million for the three months ended July 31, 2006. The following table summarizes the key drivers of net interest revenue on banking activities:

| Three months ended July 31, | (in 000s)  |      |
|-----------------------------|------------|------|
|                             | 2006       | 2005 |
| Average loans               | \$ 380,866 | N/A  |
| Average investments         | \$ 20,879  | N/A  |
| Average deposits            | \$ 247,445 | N/A  |

Total segment expenses decreased \$17.7 million, or 14.0%, over the prior year. Cost of other revenues decreased \$21.3 million, or 60.6%, primarily as a result of the restructuring of our mortgage operations in fiscal year 2006.

Selling, general and administrative expenses increased \$2.1 million, or 5.1%, primarily due to expenses of HRB Bank, which opened May 1, 2006.

The pretax loss for Consumer Financial Services for the three months ended July 31, 2006 was \$7.8 million compared to the prior year loss of \$3.7 million.

**FINANCIAL CONDITION**

These comments should be read in conjunction with the condensed consolidated balance sheets and condensed consolidated statements of cash flows found on pages 1 and 3, respectively.

**CAPITAL RESOURCES & LIQUIDITY BY SEGMENT**

Our sources of capital include cash from operations, issuances of common stock and debt. We use capital primarily to fund working capital requirements, pay dividends, repurchase our shares and acquire businesses.

**Cash From Operations.** Cash used in operations totaled \$458.4 million and \$310.5 million for the three months ended July 31, 2006 and 2005, respectively. The increase in cash used in operating activities is primarily due to a \$155.1 million increase in income tax payments.

**Issuance of Common Stock.** We issue shares of common stock, in accordance with our stock-based compensation plans, out of treasury shares. Proceeds from the issuance of common stock totaled \$13.2 million and \$32.3 million for the three months ended July 31, 2006 and 2005, respectively.

**Dividends.** Dividends paid totaled \$40.5 million and \$36.5 million for the three months ended July 31, 2006 and 2005, respectively.

**Share Repurchases.** On June 7, 2006, our Board approved an additional authorization to repurchase 20.0 million shares. During the three months ended July 31, 2006, we repurchased 8.1 million shares pursuant to this authorization and a prior authorization at an aggregate price of \$180.9 million or an average price of \$22.22 per share. There are 22.4 million shares remaining under these authorizations at July 31, 2006. We plan to continue to purchase shares on the open market in accordance with this authorization, subject to various factors including the price of the stock, the availability of excess cash, our ability to maintain liquidity and financial flexibility, securities law restrictions, targeted capital levels and other investment opportunities available.

**Debt.** We plan to refinance our \$500.0 million in Senior Notes, which are due in April 2007.

**Restricted Cash.** We hold certain cash balances that are restricted as to use. Cash and cash equivalents restricted totaled \$345.7 million at July 31, 2006 compared to \$394.1 million at April 30, 2006. Consumer Financial Services held \$315.0 million of this total segregated in a special reserve account for the exclusive benefit of its broker-dealer customers. Restricted cash held by Mortgage Services totaled \$17.8 million and is held primarily for outstanding commitments to fund mortgage loans. Restricted cash of \$12.7 million at July 31, 2006 held by Business Services is related to funds held to pay payroll taxes on behalf of its customers.

**Table of Contents**

**Segment Cash Flows.** A condensed consolidating statement of cash flows by segment for the three months ended July 31, 2006 follows. Generally, interest is not charged on intercompany activities between segments.

| Operations                  | \$ (299,762)    | \$ 188,852           | \$ 41,412            | \$ 45,464                         | \$ (434,381) | \$ (458,415)              |
| Investing                   | (7,373)         | (1,599)              | (7,096)              | (138,613)                         | (16,340)     | (171,021)                 |
| Financing                   | (36,534)        |                      | (5,599)              | 394,222                           | (26,943)     | 325,146                   |
| Net intercompany            | 322,395         | (178,397)            | (38,562)             | (252,750)                         | 147,314      |                           |

Net intercompany activities are excluded from investing and financing activities within the segment cash flows. We believe that by excluding intercompany activities, the cash flows by segment more clearly depicts the cash generated and used by each segment. Had intercompany activities been included, those segments in a net lending situation would have been included in investing activities, and those in a net borrowing situation would have been included in financing activities.

**Tax Services.** Tax Services has historically been our largest provider of annual operating cash flows. The seasonal nature of Tax Services generally results in a large positive operating cash flow in the fourth quarter. Tax Services used \$299.8 million in its current three-month operations to cover off-season costs and working capital requirements. This segment used \$7.4 million in investing activities primarily related to capital expenditures and acquisitions, and used \$36.5 million in financing activities related to book overdrafts.

**Mortgage Services.** This segment primarily generates cash as a result of the sale and securitization of mortgage loans and residual interests, and as its residual interests begin to cash flow. Mortgage Services provided \$188.9 million in cash from operating activities primarily due to higher accounts payable and escrow deposits, and loan sales exceeding loan originations during the three months ended July 31, 2006. Cash flows used in investing activities consist of \$7.2 million in capital expenditures, partially offset by \$4.6 million in cash receipts on available-for-sale residual interests.

We believe the sources of liquidity available to the Mortgage Services segment are sufficient for its needs.

**Business Services.** Business Services funding requirements are largely related to receivables for completed work and work in process. We provide funding sufficient to cover their working capital needs. This segment provided \$41.4 million in operating cash flows during the first three months of the year. Business Services used \$7.1 million in investing activities primarily related to capital expenditures.

**Consumer Financial Services.** In the first three months of fiscal year 2007, Consumer Financial Services provided \$45.5 million in cash from its operating activities primarily due to the timing of cash deposits that are restricted for the benefit of its broker-dealer customers. The segment also used \$138.6 million in investing activities primarily for the purchase of mortgage loans held for investment and provided \$394.2 million in financing activities due primarily to \$404.0 million in FDIC-insured deposits held at HRB Bank.

To finance our prime mortgage loan originations, we utilize an on-balance sheet warehouse facility with capacity up to \$25 million. This annual facility bears interest at one-month LIBOR plus 140 to 200 basis points. As of July 31, 2006 and April 30, 2006, the balance outstanding under this facility was \$5.9 million and \$1.6 million, respectively.

HRB Bank is a member of the FHLB of Des Moines, which extends credit availability to member banks based on eligible collateral and asset size. At July 31, 2006, HRB Bank had FHLB advance capacity of \$198.0 million, but no amounts had been drawn on this facility.

We believe the funding sources for Consumer Financial Services are stable. Liquidity risk within this segment is primarily limited to maintaining sufficient capital levels to obtain securities lending liquidity to support margin borrowing by customers.

**Table of Contents**

**OFF-BALANCE SHEET FINANCING ARRANGEMENTS**

There have been no material changes in our off-balance sheet financing arrangements from those reported at April 30, 2006 in our Annual Report on Form 10-K.

**COMMERCIAL PAPER ISSUANCE AND SHORT-TERM BORROWINGS**

There have been no material changes in our commercial paper program from those reported at April 30, 2006 in our Annual Report on Form 10-K.

**CONTRACTUAL OBLIGATIONS AND COMMERCIAL COMMITMENTS**

There have been no material changes in our contractual obligations and commercial commitments from those reported at April 30, 2006 in our Annual Report on Form 10-K.

**REGULATORY ENVIRONMENT**

In March 2006, the OTS approved the federal savings bank charter of HRB Bank. The bank commenced operations on May 1, 2006, at which time H&R Block, Inc. became a savings and loan holding company. As a savings and loan holding company, H&R Block, Inc. is subject to regulation by the OTS. Federal savings associations are subject to extensive regulation and examination by the OTS, their primary federal regulator, as well as the Federal Deposit Insurance Corporation (FDIC). H&R Block, Inc. is now subject to a three percent minimum ratio of adjusted tangible capital to adjusted total assets, as defined by the OTS, and HRB Bank is subject to various OTS capital requirements. A banking institution's capital category depends upon where its capital levels are in relation to relevant capital measures, which include a risk-based capital measure, a leverage ratio capital measure, a tangible equity ratio measure, and certain other factors. See note 8 to the condensed consolidated financial statements for additional discussion of regulatory capital requirements and classifications.

HRB Bank is an indirect wholly-owned subsidiary of H&R Block, Inc. and is insured by the FDIC. If an insured institution fails, claims for administrative expenses of the receiver and for deposits in U.S. branches (including claims of the FDIC as subrogee of the failed institution) have priority over the claims of general unsecured creditors. In addition, the FDIC has authority to require H&R Block, Inc. to reimburse it for losses it incurs in connection with the failure of HRB Bank or with the FDIC's provision of assistance to a banking subsidiary that is in danger of failure.

Other than the items discussed above, there have been no material changes in our regulatory environment from those reported at April 30, 2006 in our Annual Report on Form 10-K.

**CRITICAL ACCOUNTING POLICIES**

The following discussion is an update to previous disclosure regarding certain of our critical accounting policies and should be read in conjunction with the complete critical accounting policies disclosures included in our Annual Report on Form 10-K for the year ended April 30, 2006. For all of our critical accounting policies, we caution that future events rarely develop precisely as forecasted, and estimates routinely require adjustment and may require material adjustment.

**Gains on Sales of Mortgage Assets**

We sell substantially all of the non-prime mortgage loans we originate to warehouse trusts (the Trusts) which are qualifying special purpose entities (QSPEs), with servicing rights generally retained. Prime mortgage loans are sold in loan sales, servicing released, to third-party buyers. Gains on sales of mortgage assets are recognized when control of the assets is surrendered (when loans are sold to third-party buyers, including the Trusts) and are based on the difference between net proceeds received (cash proceeds less recourse obligations) and the allocated cost of the assets sold. We determine the allocated cost of assets sold based on the relative fair values of net proceeds (i.e. the loans sold), retained MSR and the beneficial interest in Trusts, which represents our residual interest in the ultimate expected outcome from the disposition of the loans by the Trusts.

The following is an example of a hypothetical gain on sale calculation:

|   |              |
|---|--------------|
|   | (in<br>000s) |
| Acquisition cost of underlying mortgage loans | \$ 1,000,000 |

|  |            |              |
|--|------------|--------------|
| Fair values:   |            |              |
| Net proceeds   |            |              |
| Cash received  | \$ 999,000 |              |
| Less recourse obligation   | (4,000)    | \$ 995,000   |
| Beneficial interest in Trusts  |            | 20,000       |
| MSRs   |            | 7,000        |
|  |            | \$ 1,022,000 |
| Computation of gain on sale:   |            |              |
| Net proceeds   |            | \$ 995,000   |
| Less allocated cost ( $\$995,000 / \$1,022,000 \times \$1,000,000$ )                   |            | 973,581      |
| Recorded gain on sale  |            | \$ 21,419    |
| Recorded beneficial interest in Trusts ( $\$20,000 / \$1,022,000 \times \$1,000,000$ ) |            | \$ 19,570    |
| Recorded value of MSRs ( $\$7,000 / \$1,022,000 \times \$1,000,000$ )                  |            | \$ 6,849     |
| Recorded liability for recourse obligation   |            | \$ 4,000     |

Variations in the assumptions we use affect the estimated fair values and the reported gains on sales. Gains on sales of mortgage loans totaled \$45.6 million and \$181.0 million for three months ended July 31, 2006 and 2005, respectively.

**Table of Contents**

Our recourse obligation relates to potential losses that could be incurred related to the repurchase of sold loans or indemnification of losses as a result of early payment defaults or breaches of other representations and warranties customary to the mortgage banking industry.

The substantial majority of loan repurchases or indemnification for losses occurs within nine months from the date the loans are sold. We estimate the fair value of the recourse liability at the time the loan is sold. Provisions for losses are charged to gain on sale of mortgage loans and credited to the recourse liability while actual losses are charged to the liability. We evaluate, and adjust if necessary, the fair value of the recourse obligation quarterly based on current information and trends in underlying loan performance. The amount of losses we expect to incur related to the repurchase of sold loans depends primarily on the frequency of early payment defaults, the rate at which defaulted loans subsequently become current on payments (cure rate), the propensity of the buyer of the loans to demand recourse under the loan sale agreement and the severity of loss incurred on loans which have been repurchased. The frequency of early payment defaults, cure rates and loss severity may vary depending on the creditworthiness of the borrower and economic factors such as home price appreciation and interest rates. To the extent actual losses related to repurchase activity are different from our estimates, the fair value of our recourse obligation will increase or decrease.

During the quarter ended July 31, 2006 we experienced higher early payment defaults, resulting in an increase in actual and expected loan repurchase activity. As a result, we recorded total loss provisions of \$102.1 million during the three months ended July 31, 2006, which included \$9.8 million in premium recapture reserves, compared to \$16.9 million in the prior year. Loss provisions recorded in the current quarter consist of \$46.1 million recorded on loans sold during the current quarter and \$56.0 million related to loans sold in prior quarters. At July 31, 2006, we assumed that substantially all loans that failed to make timely payments according to contractual early payment default provisions will be repurchased, and that 5% of loans will be repurchased from sales that have not yet reached the contractual date upon which repurchases can be determined. Based on historical experience and review of current early payment default, cure rate and loss severity trends, we assumed 30% of all loans we repurchase will cure with no loss incurred, and of those that do not cure, we assumed an average 15% loss severity.

Based on our analysis as of July 31, 2006, we estimated our liability for recourse obligations to be \$104.0 million. The sensitivity of the recourse liability to 10% and 20% adverse changes in loss assumptions is \$10.4 million and \$20.8 million, respectively.

**Valuation of MSRs**

MSRs are recorded when we sell to third-parties with the servicing of those loans retained. At the time of the loan sale, we determine and record on our balance sheet the allocated historical cost of the MSRs attributable to loans sold, as illustrated above. These MSRs are amortized into expense over the estimated life of the underlying loans. MSRs are carried at the lower of cost or market (LOCOM). On a quarterly basis, MSRs are assessed to determine if our carrying value exceeds fair value. Fair value is estimated using a discounted cash flow approach by stratifying the MSRs based on underlying loan characteristics, including the calendar year the loans are sold. To the extent fair value is less than carrying value we record an impairment charge and adjust the carrying value of the MSRs.

A market price of our MSRs is not readily available because non prime MSRs are not actively traded in the marketplace. Therefore, the fair value of our MSRs is estimated using a discounted cash flow approach, using valuation methods and assumptions we believe incorporate assumptions used by market participants. Certain of these assumptions are subjective and require a high level of management judgment. MSR valuation assumptions are reviewed and approved by management on a quarterly basis. In determining the assumptions to be used to value MSRs, we review the historical performance of our MSRs, including backtesting of the performance of certain individual assumptions (comparison of actual results to those expected). In addition, we periodically review third-party valuations of certain of our MSRs and peer group MSR valuation surveys to assess the reasonableness of our valuation assumptions and resulting fair value estimates.

Critical assumptions used in our discounted cash flow model include mortgage prepayment speeds, discount rates, costs to service and ancillary income. Variations in our assumptions could materially affect the estimated fair values. Changes to our assumptions are made when current trends and market data indicate that new trends have developed. Certain assumptions, such as ancillary interest income, may change from quarter to quarter as market conditions and

projected interest rates change. Other assumptions, such as expected prepayment speeds, discount rates and costs of servicing may change less frequently as they are less sensitive to near-term market conditions.

Prepayment speeds may be affected by economic factors such as home price appreciation, market interest rates, the availability of other credit products to our borrowers, and customer payment patterns. Prepayment speeds include the impact of all borrower prepayments including full payoffs, additional principal payments and the impact of loans paid off due to foreclosure liquidations. As market interest rates decline, prepayment speeds will generally increase as customers refinance existing mortgages under more favorable interest rate terms. As prepayment speeds increase, anticipated cash flows will generally decline resulting in a potential reduction, or impairment, to the fair value of the capitalized MSR. Alternatively, an increase in market interest rates may cause a decrease in prepayment speeds, and an increase in fair value of MSR. Many of our loans include prepayment penalties during the first two to three years. Prepayment penalties tend to lower prepayment speeds during the early life of our loans, regardless of market interest rate movements, therefore decreasing the sensitivity of expected prepayment speeds to changes in interest rates. Prepayment speeds are estimated based on historical experience and third-party market sources. Changes are made as necessary to ensure such estimates reflect current market conditions specific to our individual MSR stratas.

-33-

---

**Table of Contents**

Discount rates are determined by reviewing market rates used by market participants. These rates may vary based on economic factors such as market perception of risk and changes in the risk-free interest rates. Changes are made as necessary to ensure such estimates reflect current market conditions for MSR assets.

Costs to service includes the cost to process loan payments, make payments to bondholders, collect delinquent accounts and administrative foreclosure activities. Market trends and changes to underlying expenses are evaluated to determine if updates to assumptions are necessary. The economic factors affecting costs to service include unemployment rates, the housing market and the cost of labor. Higher unemployment may lead to higher delinquency and foreclosure rates resulting in higher costs to service loans. The housing market, including home price appreciation rates, impacts sale prices for homes in foreclosure and our borrowers' ability to refinance or sell their properties in the event that they can no longer afford their homes, thus impacting delinquencies and foreclosures.

Ancillary fees and income include late charges, non-sufficient funds fees, collection fees and interest earning funds held in deposit. These fees could be impacted by state legislation efforts, customer behavior, fee waiver policies and industry trends.

During the period from July 31, 2005 to the current quarter ended July 31, 2006, assumptions used in valuing MSRs have been updated. The significant changes and their impact, both in dollars and basis points of loans sold during the quarter of initial implementation, are outlined below beginning with the most recent changes.

| Description      | Change  | Impact                        | (dollars in 000s)   |
|------------------|---|-------------------------------|---------------------|
|                  |   |                               | Quarter Implemented |
| Ancillary fees   | Decreased average number of days of interest collected related to prepayments | (\$3,677) or (5) basis points | July 31, 2006       |
| Discount rate    | 15% to 18%  | (\$2,555) or (3) basis points | January 31, 2006    |
| Costs to service | Decreased the number of days of interest paid to investors                    | \$12,893 or 11 basis points   | October 31, 2005    |

During the quarter ended July 31, 2006, we updated our assumption related to the average number of days of interest collected on funds received as a result of prepayments (Ancillary fees on the table above). We decreased the average number of days of interest collected following a review of the servicing portfolio data. During the quarter ended January 31, 2006, we increased the discount rate assumption (Discount rate on the table above) used to determine the fair value of MSRs from 15% to 18% as a result of an analysis of third party data including rates used by other market participants. During the quarter ended October 31, 2005, we updated our assumption for number of days of interest paid to investors (Costs to service on the table above) on monthly loan prepayments upon the completion of a review of the historical performance of the servicing portfolio. The cumulative net impact of the changes outlined above and other less significant changes made during the period from July 31, 2005 to July 31, 2006 was an increase of approximately 5 basis points for MSRs initially recorded in the current quarter compared to the prior year quarter.

The changes outlined above are applied not only when we determine the allocated historical cost of MSRs, but are also used in our evaluation of the fair value of the MSR portfolio in conjunction with our impairment review. The changes in assumptions primarily impact the recognition of our initial MSR value through calculation of the gain on sale of mortgage assets. Because MSRs are recorded at LOCOM, we are unable to adjust our MSR portfolio value upward, thus have not recognized the positive impact of the assumption changes on the MSR portfolio as a whole.

MSRs with a book value of \$275.3 million are included in our condensed consolidated balance sheet at July 31, 2006. While changes in any assumption could impact the value of our MSRs, the primary drivers of significant changes to the value of our MSRs are prepayment speeds, discount rates, costs to service and ancillary fees. Below is a table showing the effect of a variation of a particular assumption on the fair value of our MSRs without changing any other assumptions. In reality, changes in one factor may result in changes in another, which might magnify or counteract the sensitivities.

#### FORWARD-LOOKING INFORMATION

In this report, and from time to time throughout the year, we share our expectations for our future performance. These forward-looking statements are based upon current information, expectations, estimates and projections regarding the Company, the industries and markets in which we operate, and our assumptions and beliefs at that time. These statements speak only as of the date on which they are made, are not guarantees of future performance, and involve certain risks, uncertainties and assumptions, which are difficult to predict. Therefore, actual outcomes and results could materially differ from what is expressed, implied or forecast in these forward-looking statements. Words such as believe, will, plan, expect, intend, estimate, approximate, and similar expressions may identify such forward-looking statements.

#### RECONCILIATION OF NON-GAAP FINANCIAL INFORMATION

We report our financial results in accordance with generally accepted accounting principles (GAAP). However, we believe certain non-GAAP performance measures and ratios used in managing the business may provide additional meaningful comparisons between current year results and prior periods. Reconciliations to GAAP financial measures are provided below. These non-GAAP financial measures should be viewed in addition to, not as an alternative for, our reported GAAP results.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

There have been no material changes in our market risks from those reported at April 30, 2006 in our Annual Report on Form 10-K.

**ITEM 4. CONTROLS AND PROCEDURES****EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES**

As of the end of the period covered by this Form 10-Q, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures. The controls evaluation was done under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective as of the end of the period covered by this Quarterly Report on Form 10-Q.

**CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING**

There were no changes that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS**

The information below should be read in conjunction with the information included in note 10 to our condensed consolidated financial statements.

**RAL LITIGATION**

We reported in our annual report on Form 10-K for the year ended April 30, 2006, certain events and information regarding lawsuits throughout the country regarding our refund anticipation loan programs (collectively, RAL Cases ). The RAL Cases have involved a variety of legal theories asserted by plaintiffs. These theories include allegations that, among other things, disclosures in the RAL applications were inadequate, misleading and untimely; the RAL interest rates were usurious and unconscionable; we did not disclose that we would receive part of the finance charges paid by the customer for such loans; untrue, misleading or deceptive statements in marketing RALs; breach of state laws on credit service organizations; breach of contract, unjust enrichment, unfair and

**Table of Contents**

deceptive acts or practices; violations of the federal Racketeer Influenced and Corrupt Organizations Act; violations of the federal Fair Debt Collection Practices Act and unfair competition with respect to debt collection activities; and that we owe, and breached, a fiduciary duty to our customers in connection with the RAL program.

The amounts claimed in the RAL Cases have been very substantial in some instances. We have successfully defended against numerous RAL Cases, some of which were dismissed on our motions for dismissal or summary judgment, and others were dismissed voluntarily by the plaintiffs after denial of class certification. Other cases have been settled, with one settlement resulting in a pretax expense of \$43.5 million in fiscal year 2003 (the Texas RAL Settlement ) and other settlements resulting in a combined pretax expense in fiscal year 2006 of \$70.2 million (the 2006 Settlements ). During the three months ended July 31, 2006, the 2006 settlements were paid in full.

We believe we have meritorious defenses to the remaining RAL Cases and we intend to defend them vigorously. There can be no assurances, however, as to the outcome of the pending RAL Cases individually or in the aggregate. Likewise, there can be no assurances regarding the impact of the RAL Cases on our financial statements. We have accrued our best estimate of the probable loss related to the RAL Cases. The following is updated information regarding the pending RAL Cases that are attorney general actions or class actions or putative class actions:

*Lynne A. Carnegie, et al. v. Household International, Inc., H&R Block, Inc., et al.*, (formerly Joel E. Zawikowski, et al. v. Beneficial National Bank, H&R Block, Inc., Block Financial Corporation, et al.) Case No. 98 C 2178, United States District Court for the Northern District of Illinois, Eastern Division, instituted on April 18, 1998. This case constitutes one of the 2006 Settlements. On April 19, 2006, we entered into a settlement agreement regarding this case, subject to final court approval. The settlement was approved by the court on August 28, 2006.

**PEACE OF MIND LITIGATION**

*Lorie J. Marshall, et al. v. H&R Block Tax Services, Inc., et al.*, Civil Action 2003L000004, in the Circuit Court of Madison County, Illinois, is a class action case filed on January 18, 2002, that was granted class certification on August 27, 2003. Plaintiffs' claims consist of five counts relating to the Peace of Mind (POM) program under which the applicable tax return preparation subsidiary assumes liability for additional tax assessments attributable to tax return preparation error. The plaintiffs allege that the sale of POM guarantees constitutes (i) statutory fraud by selling insurance without a license, (ii) an unfair trade practice, by omission and by cramming (*i.e.*, charging customers for the guarantee even though they did not request it or want it), and (iii) a breach of fiduciary duty. In August 2003, the court certified the plaintiff classes consisting of all persons who from January 1, 1997 to final judgment (i) were charged a separate fee for POM by H&R Block or a defendant H&R Block class member; (ii) reside in certain class states and were charged a separate fee for POM by H&R Block or a defendant H&R Block class member not licensed to sell insurance; and (iii) had an unsolicited charge for POM posted to their bills by H&R Block or a defendant H&R Block class member. Persons who received the POM guarantee through an H&R Block Premium office and persons who reside in Alabama are excluded from the plaintiff class. The court also certified a defendant class consisting of any entity with names that include H&R Block or HRB, or are otherwise affiliated or associated with H&R Block Tax Services, Inc., and that sold or sells the POM product. The trial court subsequently denied the defendants' motion to certify class certification issues for interlocutory appeal. Discovery is proceeding. No trial date has been set.

There is one other putative class action pending against us in Texas that involves the POM guarantee. This case is being tried before the same judge that presided over the Texas RAL Settlement, involves the same plaintiffs' attorneys that are involved in the Marshall litigation in Illinois, and contains similar allegations. No class has been certified in this case.

We believe the claims in the POM actions are without merit, and we intend to defend them vigorously. The amounts claimed in the POM actions are substantial, however, and there can be no assurances as to the outcome of these pending actions individually or in the aggregate. Likewise, there can be no assurances regarding the impact of these actions on our consolidated financial statements.

**Table of Contents****EXPRESS IRA LITIGATION**

On March 15, 2006, the New York Attorney General filed a lawsuit in the Supreme Court of the State of New York, County of New York (Index No. 06/401110) entitled *The People of New York v. H&R Block, Inc. and H&R Block Financial Advisors, Inc.* The complaint alleges fraudulent business practices, deceptive acts and practices, common law fraud and breach of fiduciary duty with respect to the Express IRA product. The complaint seeks equitable relief, disgorgement of profits, damages and restitution, civil penalties and punitive damages. A number of civil actions were subsequently filed against us concerning the matter. We intend to defend these cases vigorously, but there are no assurances as to their outcome.

**SECURITIES AND SHAREHOLDER DERIVATIVE LITIGATION**

Six shareholder derivative actions purportedly brought on behalf of the Company (which is named as a nominal defendant) are pending against certain of the Company's current and former directors and officers. These cases generally involve allegations of breach of fiduciary duty, abuse of control, gross mismanagement, waste and unjust enrichment pertaining to (i) the Company's restatement of financial results due to errors in determining the Company's state effective income tax rate and (ii) certain of the Company's products and other business activities. We intend to defend these cases vigorously, but there are no assurances as to their outcome. These are *Hibbard v. H&R Block, Inc., et al.*, in the United States District Court for the Western District of Missouri, Case No. 06-CV-06059 (instituted on May 16, 2006); *Gottlieb v. H&R Block, et al.*, in the United States District Court for the Western District of Missouri, Case No. 06-CV-00496 (instituted on June 5, 2006); *Lebowitz v. H&R Block, et al.*, in the United States District Court for the Western District of Missouri, Case No. 06-CV-00496 (instituted on June 5, 2006); *Staehr v. H&R Block, Inc., et al.*, in the United States District Court for the Western District of Missouri, Case No. 06-CV-00284 (instituted on April 5, 2006); *Momentum Partners v. H&R Block, et al.*, in the United States District Court for the Western District of Missouri, Case No. 06-CV-00465 (instituted on June 8, 2006); and *Iron Workers Local 16 Pension Fund v. H&R Block, et al.*, in the United States District Court for the Western District of Missouri, Case No. 06-CV-00466 (instituted on June 8, 2006).

In addition to the shareholder derivative actions, three putative class actions alleging violations of certain securities laws are pending against the Company and certain of its current and former officers and directors. These actions allege, among other things, deceptive, material and misleading financial statements, failure to prepare financial statements in accordance with generally accepted accounting principles and concealment of the potential for lawsuits stemming from the allegedly fraudulent nature of the Company's operations. The actions seek unspecified damages and equitable relief. We intend to defend these cases vigorously, but there are no assurances as to their outcome. These cases are *Nettie v. H&R Block, Inc. and Mark A. Ernst* in the United States District Court for the Western District of Missouri, Case No. 06-CV-0235 (instituted on March 17, 2006); *Winters v. H&R Block, Inc., et al.*, in the United States District Court for the Western District of Missouri, Case No. 06-CV-00243 (instituted on March 20, 2006); and *Kadagian v. H&R Block, Inc., et al.*, in the United States District Court for the Western District of Missouri, Case No. 06-CV-00574 (instituted on March 24, 2006).

**OTHER CLAIMS AND LITIGATION**

As reported previously, the NASD brought charges against HRBFA regarding the sale by HRBFA of Enron debentures in 2001. A hearing for this matter commenced in May 2006 and was recessed until the fall of 2006. We intend to defend the NASD charges vigorously, although there can be no assurances regarding the outcome and resolution of the matter.

As part of an industry-wide review, the IRS is investigating tax-planning strategies that certain RSM clients utilized during fiscal years 2000 through 2003. Specifically, the IRS is examining these strategies to determine whether RSM complied with tax shelter reporting and listing regulations and whether such strategies were abusive as defined by the IRS. If the IRS were to determine that RSM did not comply with the tax shelter reporting and listing regulations, it might assess fines or penalties against RSM. Moreover, if the IRS were to determine that the tax planning strategies were inappropriate, clients that utilized the strategies could face penalties and interest for underpayment

**Table of Contents**

of taxes. Some of these clients are seeking or may attempt to seek recovery from RSM. There can be no assurance regarding the outcome of and resolution of this matter.

We have from time to time been party to claims and lawsuits not discussed herein arising out of our business operations. These claims and lawsuits include actions by state attorneys general, individual plaintiffs, and cases in which plaintiffs seek to represent a class of similarly situated customers. The amounts claimed in these claims and lawsuits are substantial in some instances, and the ultimate liability with respect to such litigation and claims is difficult to predict. Some of these claims and lawsuits pertain to RALs, the electronic filing of customers' income tax returns, the POM guarantee program, business valuation services and our Express IRA program. We believe we have meritorious defenses to each of these claims, and we are defending or intend to defend them vigorously, although there is no assurance as to their outcome.

In addition to the aforementioned types of cases, we are parties to claims and lawsuits that we consider to be ordinary, routine litigation incidental to our business, including claims and lawsuits (Other Claims) concerning investment products, the preparation of customers' income tax returns, the fees charged customers for various products and services, losses incurred by customers with respect to their investment accounts, relationships with franchisees, denials of mortgage loans, contested mortgage foreclosures, other aspects of the mortgage business, intellectual property disputes, employment matters and contract disputes. We believe we have meritorious defenses to each of the Other Claims, and we are defending them vigorously. While we cannot provide assurance that we will ultimately prevail in each instance, we believe the amount, if any, we are required to pay in the discharge of liabilities or settlements in these Other Claims will not have a material adverse effect on our consolidated financial statements.

**ITEM 1A. RISK FACTORS**

**Consumer Financial Services.** H&R Block, Inc. is a savings and loan holding company, and HRB Bank is a federal savings bank, which is subject to regulation by the OTS and FDIC. Federal and state laws and regulations govern numerous matters including: changes in the ownership or control of banks and bank holding companies; maintenance of adequate capital and the financial condition of a financial institution; permissible types, amounts and terms of extensions of credit and investments; permissible non-banking activities; the level of reserves against deposits; and restrictions on dividend payments. If we do not comply with these regulations, it could result in regulatory actions and negative publicity, which could adversely affect our results of operations.

Other than the item discussed above, there have been no material changes in our risk factors from those reported at April 30, 2006 in our Annual Report on Form 10-K.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES**

A summary of our purchases of H&R Block common stock during the first quarter of fiscal year 2007 is as follows:

|                  | Total<br>Number of Shares<br>Purchased <sup>(1)</sup> | Average<br>Price<br>Paid<br>per<br>Share | Total Number<br>of Shares<br>Purchased as<br>Part of<br>Publicly<br>Announced<br>Plans or<br>Programs <sup>(2)</sup> | (shares in 000s)<br>Maximum<br>Number<br>of Shares that<br>May<br>Be Purchased<br>Under<br>the Plans or<br>Programs <sup>(2)</sup> |
|------------------|---|--|--|--|
| May 1 - May 31   | 6,633   | \$ 22.02                                 | 6,633  | 3,862  |
| June 1 - June 30 | 158   | \$ 22.92                                 | 156  | 23,706   |
| July 1 - July 31 | 1,579   | \$ 23.21                                 | 1,354  | 22,352   |

<sup>(1)</sup> We purchased 227,344 shares in connection

with the funding of employee income tax withholding obligations arising upon the exercise of stock options or the lapse of restrictions on nonvested shares.

- (2) On June 9, 2004, our Board of Directors approved the repurchase of 15.0 million shares of H&R Block, Inc. common stock. On June 7, 2006, our Board approved an additional authorization to repurchase 20.0 million shares. These authorizations have no expiration date.
