ITEM 8.01 OTHER EVENTS

On September 20, 2007, Tenneco Inc. announced its intention to close its Wissembourg, France manufacturing facility, which produces emission control products for original equipment manufacturers. The company will consult with work councils and local government authorities on the intended closure and potential impact of this announcement on the approximately 180 people employed at the facility. The potential closure is dependent on discussions with employee work councils and, if completed, Tenneco expects it would take up to a \$17 million restructuring charge, beginning as early as the fourth quarter 2007 and through 2008. Tenneco expects that a majority of the restructuring charge would consist of cash expenditures.

A copy of the company's press release, dated September 20, 2007, is filed as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.
