Dear fellow Stockholders,

We are pleased to provide you with the proxy materials for our 2008 Annual Meeting of Stockholders. This year, our meeting will be held on Friday, June 20, 2008 at 10:30 a.m. Pacific Time, at our corporate office located at 157 Technology Drive, Irvine, California, 92618.

During 2007, we continued to execute on our strategy and advance the development of the drugs in our product portfolio. Some of the important accomplishments during 2007 and early 2008 included: the approval by the FDA of a new drug application for Levoleucovorin for Injection, our first proprietary product for use in the field of oncology; the initiation of two Phase 3 clinical trials for EOquin® in both the U.S. and Canada; the completion of a Phase 2b study of ozarelix for the treatment of BPH; the initiation of a Phase 1 study of SPI-1620 in patients with recurrent or progressive carcinoma; the acquisition of worldwide rights to ortataxel, a Phase 2 third-generation taxane; the addition of experienced team members to advance the Company's strategy; the raising of approximately \$32 million by issuing shares of common stock at \$6.25 per share with no warrants; and the maintenance of tight control over the Company's cash used in operations to continue to fund our important initiatives. But we still have much work to do and we need your help at the upcoming annual meeting.

At this meeting, we are asking for votes from stockholders on the important matter of the re-election of our six Board of Director members. We believe that our director nominees will continue to bring high ethical standards, significant knowledge, experience, contacts and oversight to help the Company move forward with the programs discussed above, as well as several others.

Your vote is important, and whether or not you attend the annual meeting, I encourage you to sign and return your proxy card, so that your shares of stock will be represented and your votes cast at the meeting. If you have any further questions, please contact our Vice President - Finance, Mr. Shyam Kumaria, at Spectrum Pharmaceuticals, Inc., 157 Technology Drive, Irvine, CA 92618.

We thank you for your consideration and support, and hope to see you at this year's annual meeting to learn more about our future plans for Spectrum Pharmaceuticals.

Sincerely,

Rajesh C. Shrotriya, M.D.

Officer and President*

PROXY STATEMENT

This proxy statement contains information related to the 2008 Annual Meeting of Stockholders of Spectrum Pharmaceuticals, Inc. (Spectrum, we or us) to be held on Friday, June 20, 2008, beginning at 10:30 a.m. Pacific Time, at our corporate office located at 157 Technology Drive, Irvine, California, 92618, and at any postponements or adjournments thereof. This proxy statement and the accompanying proxy are first being mailed to our stockholders on or about May 16, 2008.

QUESTIONS AND ANSWERS ABOUT THE 2008 ANNUAL MEETING AND VOTING

What is the purpose of the annual meeting?

At our annual meeting, stockholders will act upon the matters outlined in the notice of annual meeting on the cover page of this proxy statement, including the election of six directors, each for a term of one year that expires at the annual meeting in 2009 and when the director's successor has been duly elected and qualified. In addition, following the annual meeting, management will report on our performance during fiscal 2007 and early 2008.

Who is entitled to vote at the annual meeting?

Only stockholders of record at the close of business on April 21, 2008, the record date for the annual meeting, are entitled to receive notice of and to vote at the annual meeting. If you were a stockholder of record on that date, you will be entitled to vote all of the shares that you held on that date at the annual meeting, or any postponements or adjournments of the annual meeting. A list of such stockholders will be available for examination by any stockholder at the annual meeting and, for any purpose germane to the annual meeting, at our principal business office, 157 Technology Drive, Irvine, California, 92618, for a period of ten days prior to the annual meeting.

How many shares of our common stock and preferred stock are outstanding and what are the voting rights of the holders of those shares?

On April 21, 2008, the record date for the annual meeting, 31,463,896 shares of our common stock and 170 shares of our Series E Convertible Voting Preferred Stock (Series E Preferred Stock) were outstanding. Holders of the outstanding shares of our common stock on the record date will be entitled to one vote on each matter for each share of our common stock held as of such date. Our Series E Preferred Stock has voting rights and powers equal to those of our common stock. Holders of our Series E Preferred Stock as of the record date shall be entitled to vote with respect to any matter upon which holders of our common stock have the right to vote, voting together with the holders of our common stock as one class. Each holder of our Series E Preferred Stock shall be entitled to the number of votes equal to the number of shares of our common stock into which such shares of our Series E Preferred Stock could be converted on the record date at the then current conversion value, as determined pursuant to the Certificate of Designations, Rights and Preferences of the Series E Preferred Stock (the Certificate of Designations). At the current conversion value, each share of Series E Preferred Stock is entitled to 2,000 votes on each matter at the annual

meeting. Consequently, the holders of our Series E Preferred Stock shall have a total of 340,000

Table of Contents

votes on each matter at the annual meeting. Including both the outstanding common stock and the Series E Preferred Stock, voting together as one class, a total of 31,803,896 votes may be cast at the annual meeting.

Who can attend the annual meeting?

All stockholders as of the record date, or their duly appointed proxies, may attend the annual meeting. Registration will begin at 9:30 a.m., and seating will begin immediately thereafter. If you attend, please note that you may be asked to present valid picture identification, such as a driver's license or passport. Please also note that if you hold your shares in street name (that is, through a broker or other nominee), you will need to bring a copy of a brokerage statement reflecting your stock ownership as of the record date and check in at the registration desk at the annual meeting.

What constitutes a quorum?

The presence at the annual meeting of the holders of a majority of the aggregate of the outstanding shares of our common stock and our preferred stock (of which only Series E Preferred Stock is currently outstanding), which will be counted as if converted into common stock, in person or by proxy and entitled to vote, will constitute a quorum, permitting the annual meeting to conduct its business. Proxies marked withheld as to any director nominee and broker non-votes are counted by us for purposes of determining the presence or absence of a quorum at the annual meeting for the transaction of business. Broker non-votes are shares that are not voted by the broker who is the record holder of the shares because the broker is not instructed to vote on such matter by the beneficial owner and the broker does not have discretionary authority to vote on such matter.

How do I vote?

If you complete and properly sign the accompanying proxy card and return it to us, it will be voted as you direct. If you are a registered stockholder (that is, if you hold your stock in certificate form or otherwise directly and not through a broker or other nominee) and attend the annual meeting, you may deliver your completed proxy card in person. We encourage you, however, to submit the enclosed proxy card in advance of the annual meeting. In addition, ballots will be available for registered stockholders to vote in person at the annual meeting. Stockholders who hold their shares in street name may vote in person at the annual meeting only by obtaining a proxy form from the broker or other nominee that holds their shares.

Can I vote by telephone or electronically?

If you are a registered stockholder, you may not vote by telephone or electronically since we do not have that capability. If your shares are held in street name, i.e., by a broker or other nominee, please check the voting instruction card you received from your broker or nominee or contact your broker or nominee to determine whether you will be able to vote by telephone or electronically and what deadlines may apply to your ability to vote your shares by telephone or electronically.

Can I change my vote after I return my proxy card?

Yes. As a registered stockholder, you may change your vote at any time before the proxy is voted at the annual meeting by filing with our Secretary either a written notice of revocation or a duly executed proxy bearing a later date. The powers of the proxy holders will be suspended if you attend the annual meeting in person and request that your proxy be suspended, although attendance at the annual meeting will not by itself revoke a previously granted proxy. If your shares are held in street name, please check the voting instruction card you received from your broker or nominee or contact your broker or nominee to determine how to change your vote.

What is the Board's recommendation?

Unless you give other instructions on your proxy card, the persons named as proxy holders on the proxy card will vote your shares FOR election of the six nominees for director, in accordance with the recommendation of our board of directors.

Table of Contents

With respect to other business that may properly come before the annual meeting, the proxy holders will vote as recommended by our board of directors or, if no recommendation is given, in their own discretion.

What vote is required to approve the Proposal?

For Proposal No. 1, the director nominees receiving the highest number of affirmative votes cast, in person or by proxy, at the annual meeting, up to the number of directors to be elected at the annual meeting (six directors), will be elected as directors. Accordingly, abstentions will have no effect in determining which directors receive the highest number of votes. The election of directors is a matter on which a broker or other nominee has discretionary voting authority. Accordingly, no broker non-votes will result from this proposal.

In selecting and making recommendations to the board for director nominees, the Nominating and Corporate Governance Committee may consider suggestions from many sources, including our stockholders. Any such director nominations, together with appropriate biographical information and qualifications, should be submitted by the stockholder(s) to the Chairman of the Nominating and Corporate Governance Committee of the Board of Directors, c/o Spectrum Pharmaceuticals, Inc., 157 Technology Drive, Irvine, CA 92618. Director nominees submitted by stockholders are subject to the same review process as director nominees submitted from other sources such as other board members or senior management.

The Nominating and Corporate Governance Committee will consider a number of factors when reviewing potential nominees for the board. The factors which are considered by the Nominating and Corporate Governance Committee include the following: the candidate's ability and willingness to commit adequate time to board and committee matters; the fit of the candidate's skills and personality with those of other directors and potential directors in building a board that is effective, collegial and responsive to our needs; the candidate's personal and professional integrity, ethics and values; the candidate's experience in corporate management, such as serving as an officer or former officer of a publicly held company; the candidate's experience in our industry and with relevant social policy concerns; the candidate's experience as a board member of another publicly held company; whether the candidate would be independent under applicable standards; whether the candidate has practical and mature business judgment; and the candidate's academic expertise in an area of our operations.

In identifying, evaluating and selecting future potential director nominees for election at each annual meeting of stockholders and nominees for directors to be elected by the board to fill vacancies and newly created directorships, the Nominating and Corporate Governance Committee engages in a selection process. In identifying potential nominees, the Nominating and Corporate Governance Committee will consider as potential director nominees candidates recommended by various sources, including any member of the board, any of our stockholders or senior

management. In appropriate circumstances, the Nominating and Corporate Governance Committee may also hire a search firm to help locate qualified candidates. Once potential nominees are identified, they are initially reviewed by the chairman of the Nominating and Corporate Governance Committee, or in the chairman's absence, any other member of the Nominating and Corporate Governance Committee delegated to initially review director candidates. The reviewing member of the Nominating and Corporate Governance Committee will make an initial

determination in his or her own independent business judgment as to the qualifications and fit of such director candidates based on the criteria set forth above. If the reviewing member determines that it is appropriate to proceed, the Chief Executive Officer and at least one member of the Nominating and Corporate Governance Committee will interview the prospective director candidate(s). The full Nominating and Corporate Governance Committee may interview the candidates as well. The Nominating and Corporate Governance Committee will provide informal progress updates to the board and will meet to consider and recommend final director candidates to the entire board of directors. EXECUTIVE COMPENSATION**Compensation Discussion and Analysis***Compensation Philosophy and Objectives*

The Company's aggressive plans for future growth, including the launch of the Company's first proprietary product and management of multiple, large late-stage clinical trials, has shaped the Compensation Committee's executive compensation philosophy. This philosophy, including as applied to the CEO, is to attract and retain professionals of

the highest caliber, capable of leading the Company to fulfillment of its ambitious business objectives, by offering competitive compensation opportunities that reward executives for their individual contributions towards the Company's short-term and long-term objectives. Competition for attracting the best talent in the pharmaceutical industry is very intense, especially in Orange County, California, where the industry has only a small presence and the cost of living is very high. Accordingly, in light of the intense competition for highly qualified executives, the Company's executive officers are eligible for competitive salary adjustments, cash bonuses and equity compensation based upon periodic evaluations of individual and Company performance, relative to goals established at the start of the year.

The Compensation Committee believes that its compensation philosophy aligns the interests of the Company's executive officers with those of the Company's stockholders, and is necessary to incentivize individual executives to peak performance in advancing the Company's short-term and long-term business objectives. It is designed to reward hard work, dedication and the achievement of both individual and Company goals.

Table of Contents

Key Elements of Executive Compensation

The principal elements of compensation for the Company's executive officers are:

Base salary;

Cash bonuses; and

Equity incentive awards.

Base Salary. The base salaries of the Company's executive officers are established as part of an annual compensation adjustment cycle. Base salaries for the year are established at the end of the prior year or beginning of the year, i.e. the base salary for 2007 was set at the end of 2006. In establishing those salaries, the Compensation Committee considers the executive's level of responsibility, experience and individual performance, and the Company's performance, as well as information regarding salary ranges paid to executives with comparable duties in companies at a similar stage as ours.

Cash Bonuses. The Compensation Committee typically grants annual cash bonuses to executives as part of their annual overall compensation at the end of the or beginning of the next year for prior year performance, i.e. the cash bonus for 2007 performance was set in early 2008. Such cash bonuses are a reward for individual achievement of goals, as well as for enabling the Company to achieve key milestones. The amount of the bonuses is determined based upon the achievement of such milestones, reference to past bonuses paid and information regarding bonuses paid to executives with comparable duties in similar companies.

Equity Incentive Awards. While cash compensation is viewed as a reward for current and past services, equity incentive awards are important short-term and long-term compensation tools for employee retention as well as incentivizing future performance. The Compensation Committee endorses the position that granting equity incentive awards, including stock options and restricted stock, to the Company's executive officers (such equity incentive awards are a benefit offered to all employees) can be very beneficial to stockholders because it aligns management's and stockholders' interests in the enhancement of stockholder value. An executive officer receives value from these grants only if he or she remains employed by the Company during the vesting period, and, with regard to stock options, only if the Company's common stock appreciates (typically, options are granted with an exercise price equal to the closing market price of the Company's common stock on the date of grant). In addition, equity incentive awards are an important compensation tool to utilize in attracting and retaining high caliber professionals. In determining the number of shares subject to an equity incentive award, the Compensation Committee takes into account the officer's position and level of responsibility, the officer's past performance and potential future contribution, the officer's existing stock and unvested restricted stock holdings, the competitiveness of the executive officer's overall compensation arrangements, including equity awards and reference to information regarding equity awards paid to executives with comparable duties in similar companies. Typically, the Compensation Committee will grant a fewer number of shares of restricted stock than stock options because when restricted stock vests, it provides immediate value to the recipient, reduced, however, by an immediate tax liability payable by the grantee. In deciding whether to grant stock options or restricted stock, the Compensation Committee will review market factors such as the Company's stock price, the different benefits offered by each type of award, past equity grants as well as the tax impact on the executive officers of each type of grant. Typically, the Compensation Committee grants performance-based equity incentive awards once annually, however, it may make additional grants based upon a number of factors, including Company and individual achievements.

The Company also maintains a 401(k) Plan, available to all employees, to encourage employees to save for retirement. The Plan provides matching employee contributions in shares of the Company's common stock in order to, among

other things, align employees' interests with the Company's stockholders.

The Compensation Committee believes that all three principal compensation elements combined fit well into its overall compensation objectives of attracting top talent for executive positions, incentivizing such executive officers, rewarding them for achievement of individual and Company goals, and aligning the interests of executive officers with those of the Company's stockholders. The Compensation Committee also believes that it is necessary to compensate the executive officers competitively in all three principal elements in order to accomplish the above objectives.

Table of Contents

Fiscal 2007 Compensation

Because of the Company's current stage of development, the use of traditional performance standards, such as profit levels and return on equity, are not appropriate in its evaluation of executive officer performance. Therefore, executive officer compensation is based primarily on advancement of the Company's business objectives, including the achievement of product development and regulatory milestones, the acquisition of new products, the recruitment and retention of highly qualified personnel, the maintenance of adequate financial resources, and the initiation and continuation of corporate collaborations, as well as individual contributions and achievement of individual business objectives by its executive officers.

During the past four years, the Compensation Committee has, from time to time, consulted with outside legal counsel to the Compensation Committee, and independent compensation consulting firms; and has received compensation data of companies at a similar stage of development as our Company from such outside counsel and consultants, as well as from management. The Compensation Committee also received from management copies of executive employment agreements used by comparable companies. Some of the companies whose compensation data was considered included: Cell Therapeutics, Novacea, Threshold, Adventrx, Keryx, Cytogen, Genta, Progenics Pharmaceuticals, Exelixis, Telik, Pain Therapeutics, Dendreon, Depomed, La Jolla Pharmaceutical, Allos Therapeutics, Avigen, Kosan Biosciences, Sangamo Biosciences and Supergen. The Compensation Committee received input from the Company's CEO when it made its compensation determination for the other executive officers.

While the withdrawal of the satraplatin NDA by GPC Biotech in the second half of 2007, and the inconclusive verdict in the arbitration with GPC Biotech, were a disappointment, the Compensation Committee evaluated the Company's 2007 performance as very good insofar as the Company continued to execute on its strategy, and accomplished the vast majority of the goals established at the outset of 2007. Some of the important accomplishments during 2007 and early 2008 included:

the approval by the U.S. Food and Drug Administration, or FDA, of a new drug application, or NDA, for Levoleucovorin for Injection, a process which began by an NDA amendment filing in mid-2007;

the agreement with the FDA under the Special Protocol Assessment (SPA) procedure for the Phase 3 trials for EOquin® in non-invasive bladder cancer;

the initiation of two Phase 3 clinical trials for EOquin in both the U.S. and Canada, without the use of a contract research organization, or CRO, which should reduce the cost of the study and allow us to better control the execution of the study;

the scientific advice from the European Medicines Agency, or EMEA, stating that it agrees with the overall clinical development plan, design and endpoints of the Phase 3 trials for EOquin®, that the current placebo-controlled studies as designed should be sufficient for a regulatory decision regarding European registration, and that, pending a review of the study outcomes, no additional safety data would be required for registration;

the FDA's acceptance of our investigational new drug application, or IND, for ozarelix in benign prostate hypertrophy, or BPH, the FDA approval of the protocol for the Phase 2b study of ozarelix for the treatment of BPH, and the subsequent initiation and completion of enrollment in such study;

the FDA's clearance of an IND for SPI-1620 and subsequent initiation of a Phase 1 study in patients with recurrent or progressive carcinoma;

the acquisition of worldwide rights to ortataxel, a Phase 2 third generation taxane;

the addition of key individuals to advance the Company's strategy;

the completion of a financing of approximately \$32 million by issuing shares of common stock at \$6.25 per share with no warrants additional funds that will be critical for the launch of Levoleucovorin and the advancement of our clinical programs; and

the maintenance of tight control over the Company's cash used in operations.

Table of Contents

Even though the satraplatin clinical results were not positive, we received in excess of \$10 million from GPC Biotech without issuing stock and without having to spend any cash resources on the development of the drug. We are proud that we mitigated the downside of drug failure. The unfortunate reality of our industry is drugs do fail despite the valiant efforts of management, employees and partners.

Base Salary and Cash Bonuses. At the end of 2007, and then again in early 2008, the Compensation Committee, with reference to the factors discussed above, reviewed the compensation of each executive officer. Based upon its review, the Compensation Committee awarded bonuses for 2007 contributions and kept the salary levels of the Company's executive officers for 2008 the same as 2007 due to their performance in advancing the Company's business objectives as well as the very good performance of the Company, particularly the diversification of risk and advancement of the Company's product portfolio. As discussed below, the base salary of the CEO has remained unchanged since January 1, 2004.

Equity Incentive Awards. Based upon individual and Company performance in 2007, and as an incentive for continued excellence in the future, in July and December of 2007, and then in March 2008, the Compensation Committee granted equity incentive awards to the executive officers. In determining the number of shares subject to an equity incentive award, the Compensation Committee took into account the factors discussed above.

Chief Executive Officer Compensation. The Compensation Committee subscribes to the notion that an emerging growth company, like Spectrum, achieves success and ultimately substantial returns for its stockholders, based on the vision and dedication of its management team, especially its CEO. Dr. Rajesh C. Shrotriya, the Company's CEO and President, set forth a new vision for Spectrum when he was appointed CEO in 2002 and the Compensation Committee believes that he, and the team he has assembled, has done an excellent job in implementing that vision over the past five plus years. In addition, Dr. Shrotriya's qualifications as a medical doctor and his ability to lead the Company and to manage its scientific programs and business strategy make him critical to the continued successful implementation of that vision. The Compensation Committee considered these factors, as well as the same factors discussed above, in setting the compensation of Dr. Shrotriya. The Compensation Committee also made reference to the compensation of CEOs of similar companies in the pharmaceutical industry in order to ensure that the total compensation paid by the Company to Dr. Shrotriya, including salary, bonus, equity incentive awards, benefits and other compensation, was competitive. The Compensation Committee believes that a competitive compensation package is necessary because of the importance of a CEO to a small emerging growth company and in particular, one with the background, experience and track record of Dr. Shrotriya. For 2007, the Compensation Committee determined that Dr. Shrotriya continued to advance the Company's strategy and keep the Company on course during the difficult period that resulted from the satraplatin outcome; his contributions are reflected in the Company's achievements in 2007 as set forth above. In recognition of his fine performance during 2007 and as incentive for future performance, the Compensation Committee awarded a cash bonus and equity incentive awards in July and December of 2007, and then in March 2008. The Compensation Committee maintained the base salary of Dr. Shrotriya, unchanged since January 1, 2004.

Payments upon Termination of Employment or Change-in-Control

Both Dr. Shrotriya and Dr. Lenaz have employment agreements that provide for certain guaranteed severance payments and benefits if the officer is terminated by us at the expiration of the term of the agreement, if the officer's employment is terminated without cause, if the officer's employment is terminated due to a change in control or is adversely affected due to a change in control and the officer resigns. The benefits are described in this Proxy Statement below under Executive Employment Agreements, Termination of Employment and Change-in-Control Arrangements. The severance payments are designed to protect the earned benefits of the executive officers against being terminated without cause or the adverse changes that may result from a change in control of the Company. The level of payments provided under the agreements for the executives reflects the Compensation Committee's

assessment of market conditions to provide a competitive level of compensation if the executive officer is impacted by a termination without cause or a change of control of the Company as well as a recognition of the effort provided by the executive over his time of service to the Company.

Table of Contents***Impact of Accounting and Tax Treatments on Compensation.***

Effective January 1, 2006, the Company adopted SFAS No. 123(R). Under SFAS No. 123(R), we measure compensation cost for all stock-based awards at fair value on the date of grant and recognize compensation expense in the consolidated statements of operations over the service period that the awards are expected to vest. As permitted under SFAS No. 123(R), we have elected to recognize compensation cost for all options with graded vesting on a straight-line basis over the vesting period of the entire option.

As discussed above, in deciding whether to grant stock options or restricted stock, the Compensation Committee will consider the tax impact that such grants have on the executive officer.

Section 162(m) of the Internal Revenue Code currently imposes a \$1 million limitation on the deductibility, for Federal income tax purposes, of certain compensation paid to each of its five highest paid executives. In light of the Company's significant net operating losses, Section 162(m) is not considered to be a significant factor in establishing executive officer compensation at this time.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The Compensation Committee is currently comprised of Drs. Krassner and Vida, and Mr. Cybulski. None of the members of our board's Compensation Committee is or has been an officer or employee of the Company. None of our executive officers has served as a director or Compensation Committee member of any other entity, any of whose executive officers served as a director or Compensation Committee member of our board of directors.

In 2001, prior to his election to our board of directors in April 2003, Dr. Julius Vida had participated as a consultant in the in-licensing of satraplatin from Johnson Matthey, PLC. Pursuant to certain of the surviving obligations under his consulting agreement, Dr. Vida has received \$30,000 in success fees since the beginning of 2007, and he may become eligible for additional success fees equal to 3% of amounts paid by us under the license agreement with Johnson Matthey, other than royalties, in the event the contingent milestone obligations to Johnson Matthey become payable. Such fees are unrelated to his services as our director. Since the consulting agreement with Dr. Vida was entered into and terminated prior to his becoming a member of our board of directors, the approval of such agreement was not subject to our written related party transaction policy or any other policy that may have been in effect relating to approval of transactions between the Company and a member of the board of directors.

Equity Compensation Plan Information

The following table summarizes all equity compensation plans including those approved by security holders and those not approved by security holders, as of December 31, 2007.

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants or Rights	Weighted-average Exercise Price of Warrants and Rights	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (excluding securities reflected in column (a))

Equity compensation plans approved by security holders(1)	6,482,260	\$	5.91	2,059,597
Equity compensation plans not approved by security holders(2)	791,000	\$	6.37	
Employee Stock Purchase Plan approved by security holders	N/A		N/A	9,444
Total	7,273,260	\$	5.96	2,069,041

(1) We have two stock incentive plans: the 1997 Stock Incentive Plan (1997 Plan) and the 2003 Amended and Restated Incentive Award Plan (2003 Plan), (collectively, the Plans). As of December 31, 2007, we are not granting any more options pursuant to the 1997 Plan. The 2003 Plan authorizes the grant, in conjunction with all

Table of Contents

of our other Plans, of incentive awards, including stock options, for the purchase of up to a total of 30% of our issued and outstanding stock at the time of grant. Thus, the authorized and available shares may fluctuate over time.

- (2) The number represents 791,000 shares of common stock issuable upon exercise of warrants issued to non-employees of the Company under plans approved by our Board of Directors that we believe are not required to be approved by our stockholders pursuant to the rules of the NASDAQ Stock Market. We issued these warrants in circumstances that enable us to adequately compensate, without the payment in cash, for outside consultant services, primarily placement agents who assist us in raising funds for our operations, in order to conserve our cash for operating activities. The number of securities remaining available for future issuance under these types of equity compensation plans is zero; however, the Board of Directors may approve additional issuance of warrants under circumstances that it decides are appropriate. These warrants are typically exercisable for five years and have equitable anti-dilution rights for stock splits, stock dividends, reclassifications, compulsory share exchanges, distributions of indebtedness, assets, rights, warrants or subscriptions, merger, consolidation, sale of assets, tender offer or other exchanges of the entire class of common stock.

The number does not include warrants issued to investors in connection with financing transactions. As of December 31, 2007, there were outstanding investor warrants to purchase up to an aggregate of 8,861,051 shares of our Common Stock, with a weighted average exercise price of \$6.74 per share.

Further details regarding warrants issued by the Company are included in footnote 8 to our audited consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2007.

REPORT OF THE COMPENSATION COMMITTEE

The following Compensation Committee Report does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933 or the Exchange Act, except to the extent the Company specifically incorporates it by reference therein.

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with management. Based on its review and discussions with management, the Compensation Committee recommended to the board of directors that the Compensation Discussion and Analysis be included in the Company's 2008 Proxy Statement.

Executive Employment Agreements, Termination of Employment and Change-in-Control Arrangements

We have entered into employment agreements with two of our named executive officers, Dr. Shrotriya, President and Chief Executive Officer, and Dr. Lenaz, Chief Scientific Officer, expiring December 31, 2008 and

Table of Contents

July 1, 2008, respectively. The employment agreements automatically renew for a one-year term unless either party gives written notice of such party's intent not to renew the agreement at least 90 days prior to the commencement of the next year. The employment agreements require each officer to devote his full working time and effort to the business and affairs of the Company during the term of the agreement. The employment agreements provide for a minimum annual base salary with annual increases, periodic bonuses and option grants as determined by the Compensation Committee of the Board of Directors.

Under the employment agreements, each officer is entitled to receive additional employment benefits, including the right to participate in any pension or profit sharing plan and to receive life, medical, dental or other benefits. Each officer is also entitled to receive not less than four weeks per year of paid vacation. The employment agreements also provide for reimbursements of expenses incurred in performing duties for the Company, including: entertaining business prospects; maintaining and improving professional skills through continuing education; and business related travel, costs and entertainment. In addition, Dr. Shrotriya is entitled to a monthly vehicle allowance and reimbursements for automobile related expenses (including insurance and maintenance expenses).

Each officer's employment may be terminated due to expiration of the Term of his employment agreement, mutual agreement, death or disability, or by us for cause (as that term is defined in the respective employment agreements) or without cause, or by the officer at any time upon ninety days' notice. The employment agreements provide for certain guaranteed severance payments and benefits if the officer's employment is terminated by us at the expiration of the Term of the agreement, the officer is terminated without cause, if the officer's employment is terminated (other than by the officer) due to a change in control, or the officer is adversely affected (as described below) in connection with a change in control and the officer resigns. However, if the officer terminates his employment at any time upon ninety days' notice, or death or disability, he shall not be entitled to any severance.

If the officer is terminated without cause or at the expiration of the term of the employment agreement, the guaranteed severance payments include the right to receive base salary for two years after termination. The officer is also entitled to two years of medical, dental and other employee benefits following termination. The officer may elect to receive a lump sum payment representing the aggregate cash compensation (including salary, bonus, auto allowance and any other cash or equivalent compensation, other than continued vacation accrual). In the event of such lump sum election, all insurance and other non-cash benefits shall cease.

Pursuant to the terms of the employment agreement, all options held by the officer shall immediately vest and will be exercisable for up to one year from the date of termination; provided, however, that if the Board determines that the officer's employment is being terminated for the reason that the shared expectations of the officer and the Board are not being met, in the Board's judgment, then the options currently held by the officer will vest in accordance with their terms for up to one year after the date of termination, with the right to exercise those options, when they vest, for up to approximately thirteen (13) months after the date of termination.

If there is change of control of the Company, and (1) the officer's employment is involuntarily terminated or (2) the officer is adversely affected in terms of overall compensation, benefits, title, authority, reporting relationships, location of employment or similar matters and the officer elects to resign from full service to the Company, the officer shall be provided with senior executive outplacement services at an outplacement or executive search firm, and the cash compensation and all benefits to which the officer is entitled hereunder shall be discontinued twenty-four (24) months after the date of election (or earlier, if a lump sum payment of cash compensation is specified). The officer, at his election, shall have the right to request and, if requested, shall be paid the full cash value of all amounts of cash compensation due for the 24-month period (including salary, approved bonus, auto allowance, and any other cash or equivalent compensation) in a lump sum. In the event of such election, all insurance and noncash benefits shall cease.

Pursuant to the terms of the employment agreement, all options granted to officer shall vest to the same extent as provided in the case of a termination without cause. Also, if an acquirer of 100% of the Company's stock is itself a publicly held company, the Company shall make reasonable efforts to negotiate that the officer shall have the right, but not the obligation, to convert all of his vested options into options to purchase the acquirer's stock and shall have two (2) years to exercise those options, but the Company shall have no obligation to the officer if it fails to secure

such rights or concludes that pursuing such rights would materially prejudice the interest of the stockholders of the Company.

The employment agreements also provide that, upon the officer's retirement (voluntary termination after reaching the Company's retirement age or age 65, whichever occurs first), all options held by the officer will become fully vested.

Notwithstanding the terms of the executive employment agreements as discussed above, the executive's options are subject to the terms of the respective stock incentive plans and individual agreements governing such options.

In the event of the death of the officer, all compensation shall be paid based on value at time of death.

Each officer agrees during the term of his employment by the Company and thereafter that he will not disclose, other than to an authorized employee, officer, director or agent of the Company, any information relating to the Company's business, trade, practices, trade secrets or know-how or proprietary information without the Company's prior express written consent. Following termination of the officer's employment, the officer shall be permitted to continue in his usual occupation and shall not be prohibited from competing with the Company except during the two (2) year severance period and in the specific industry market segments in which the Company competes and which represent twenty percent (20%) or more of the Company's revenues. For a period of one (1) year following the termination of the officer's employment with the Company for any reason, the officer shall not directly or indirectly solicit, induce, recruit or encourage any of the Company's employees to leave their employment.
