\$500,000, \$350,000 and \$250,000, respectively. For calendar year 2001, each officer received an annual bonus based on certain objective performance criteria of the Company. The annual bonus for calendar year 2001 for each of Robert Greenberg, Michael Greenberg and David Weinberg was \$500,109, \$1,162,895 and \$987,895, respectively.

Each of Robert Greenberg, Michael Greenberg and David Weinberg entered into an amendment to their respective employment agreements with the Company on February 29, 2000. For calendar year 1999, each executive officer agreed to forego his annual bonus based on the Company's return on equity, and in lieu thereof, Michael Greenberg and David Weinberg agreed to annual cash bonuses of \$165,000 and \$150,000, respectively. Robert Greenberg did not receive an annual cash bonus for calendar year 1999.

Each of the three executive officers agrees not to compete, directly or indirectly, with the Company or disclose confidential information regarding the Company during the term of their respective agreements; provided that each of them may own less than 5% of the stock of a public company that competes with the Company. The employment agreements entitle the executive officers to participate in the Company's Stock Option Plan and to receive certain insurance and other employee benefits established by the Company for its employees.

If an executive officer's amended employment agreement is terminated by the officer without good reason, by mutual agreement, upon death of the officer, or for cause, which includes any dishonest act, commission of a crime, material injury to the Company's financial condition or business reputation or malfeasance, misfeasance or non-feasance, then the officer will receive, through the date of termination, (i) his base salary, (ii) any bonus due and (iii) any benefits under the agreement. If the executive officer is terminated without cause or the officer terminates the employment agreement for good reason, which includes the Company's breach of a material term without cure or diminution of the officer's duties without his consent, then the officer will receive, for the remainder term of the agreement, (i) his base salary, (ii) performance-based bonus and (iii) any benefits under the agreement. During a period of total disability, the executive officer will receive his base salary, less any amounts paid under insurance policies provided by the Company, for the remaining term of the employment agreement. The Company has agreed that upon any merger, reorganization, sale or disposition of assets or otherwise, the successor company will be required to assume each awarded employment agreement.

Stock Option Plan

In January 1998, the Company's Board of Directors and stockholders adopted the Stock Option Plan, which provides for the grant of qualified incentive stock options (ISOs) that meet the requirements of Section 422 of the Internal Revenue Code of 1986, as amended (the Code), stock options not so qualified (NQSOs), deferred stock and restricted stock awards (Awards). The Stock Option Plan may be administered by either the Board of Directors or a committee of directors appointed by the Board of Directors (the Committee). ISOs may be granted to the officers and key employees of the Company or any of its subsidiaries. The exercise price for any ISO granted under the Stock Option Plan may not be less than 100% (or 110% in the case of ISOs granted to an employee who is deemed to own in excess of 10% of the outstanding Class A Common Stock) of the fair market value of the shares of Class A Common Stock at the time the option is granted. The exercise price for any NQSO granted under the Stock Option Plan may not be less than 85% of the fair market value of the shares of Class A Common Stock at the time the option is granted. The purpose of the Stock Option Plan is to provide a means of performance-based compensation in order to attract and retain qualified personnel and to provide an incentive to those whose job performance affects the Company.

The Stock Option Plan originally authorized the grant of options to purchase, and Awards of, an aggregate of up to 5,215,154 shares of the Company's Class A Common Stock. By action at the Annual Meeting of Stockholders on June 1, 2001, the number of shares of Class A Common Stock authorized for issuance under the Stock Option Plan was increased by an additional 3,000,000 shares so that the Stock Option Plan authorizes the grant of options to purchase and awards of an aggregate of up to 8,215,154 shares of the Company's Class A Common Stock. The number of shares reserved for issuance under the Stock

Table of Contents

Option Plan is subject to anti-dilution provisions for stock splits, stock dividends and similar events. If an option granted under the Stock Option Plan expires or terminates, or an Award is forfeited, the shares subject to any unexercised portion of such option or Award will again become available for the issuance of further options or Awards under the Stock Option Plan.

Under the Stock Option Plan, the Company may make loans available to stock option holders, subject to the Committee's approval, in connection with the exercise of stock options granted under the Stock Option Plan. If shares of Class A Common Stock are pledged as collateral for such indebtedness, such shares may be returned to the Company in satisfaction of such indebtedness. If so returned, such shares shall again be available for issuance in connection with future stock options and Awards under the Stock Option Plan.

No options or Awards may be granted under the Stock Option Plan after January 14, 2008, provided that the Company's Board of Directors does not otherwise amend or terminate the Stock Option Plan prior to such date.

Options granted under the Stock Option Plan will become exercisable according to the terms of the grant made by the Board of Directors or the Committee. Awards will be subject to the terms and restrictions of the award made by the Board of Directors or the Committee. The Board of Directors and the Committee have discretionary authority to select participants from among eligible persons and to determine at the time an option or Award is granted, and in the case of options, whether it is intended to be an ISO or a NQSO, and when and in what increments shares covered by the option may be purchased. Under current law, ISOs may not be granted to any individual who is not also an officer or employee of the Company or any subsidiary.

The exercise price of any option granted under the Stock Option Plan is payable in full (i) in cash, (ii) by surrender of shares of the Company's Class A Common Stock already owned by the option holder having a market value equal to the aggregate exercise price of all shares to be purchased, (iii) by cancellation of indebtedness owed by the Company to the option holder, (iv) by a full recourse promissory note executed by the option holder, (v) by arrangement with a broker or (vi) by any combination of the foregoing. The terms of any promissory note may be changed from time to time by the Board of Directors to comply with applicable Internal Revenue Service or Securities and Exchange Commission regulations or other relevant pronouncements.

The Board of Directors may from time to time revise or amend the Stock Option Plan and may suspend or discontinue it at any time. However, no such revision or amendment may impair the rights of any participant under any outstanding stock option or Awards without such participant's consent or may, without stockholder approval, increase the number of shares subject to the Stock Option Plan or decrease the exercise price of a stock option to less than 100% of fair market value on the date of grant (with the exception of adjustments resulting from changes in capitalization), materially modify the class of participants eligible to receive options or Awards under the Stock Option Plan, materially increase the benefits accruing to participants under the Stock Option Plan or extend the maximum option term under the Stock Option Plan.

In the event of a change of control, all outstanding stock options and Awards will fully vest and any indebtedness incurred in connection with the Stock Option Plan will be forgiven. A change of control occurs when (i) any person becomes the beneficial owner, directly or indirectly, of 50 or more of the combined voting power of the Company's securities, (ii) during any consecutive two-year period, individuals who at the beginning of such period constitute the Board of Directors, and any new director, with certain exceptions, who was approved by at least two-thirds of the directors still in office who either were directors at the beginning of the period or whose election or nomination for election was previously so approved, cease for any reason to constitute at least a majority of the Board of Directors, (iii) in some circumstances, the stockholders approve a merger or consolidation, or (iv) the stockholders approve the complete liquidation, sale or disposition of all or substantially all of the Company's assets.

As of March 31, 2002, options to purchase 4,426,657 shares of Class A Common Stock were outstanding at a per share exercise price ranging from \$2.78 to \$29.45. The Company has 2,212,266 shares of Class A Common Stock underlying options available for grant.

Employee Stock Purchase Plan

The Company's 1998 Employee Stock Purchase Plan (the "1998 Purchase Plan") was adopted by the Company's Board of Directors and stockholders in July 1998 and amended by its Board of Directors in June 2000. The 1998 Purchase Plan, which is intended to qualify under Section 423 of the Code, contains consecutive, overlapping, twelve month offering periods. Each offering period includes two six-month purchase periods. The offering periods generally start on the first trading day on or after January 1 and July 1 of each year. The initial offering period commenced on July 1, 1999. A total of 2,781,415 shares of Class A Common Stock was initially reserved for issuance under the 1998 Purchase Plan, which is adjusted annually for increases equal to the lesser of (i) 1,000,000 shares, (ii) 1% of the outstanding shares of Class A Common Stock on such date, or (iii) such lesser amount as may be determined by the Company's Board of Directors.

Employees are eligible to participate if they are customarily employed by the Company or any designated subsidiary for at least 20 hours per week and more than five months in any calendar year. However, any employee who (i) immediately after the grant of a stock purchase right owns stock possessing 5% or more of the total combined voting power or value of all classes of the capital stock of the Company or (ii) whose rights to purchase stock under all employee stock purchase plans of the Company accrue at a rate which exceeds \$25,000 worth of stock for each calendar year may not be granted an option to purchase stock under the 1998 Purchase Plan.

The 1998 Purchase Plan permits participants to purchase Class A Common Stock through payroll deductions of up to 15% of the participant's compensation. Compensation is defined as the participant's base straight time gross earnings, including commissions, payments for overtime, incentive bonuses and performance bonuses. Amounts deducted and accumulated by the participant are used to purchase shares of Class A Common Stock at the end of each purchase period. The price of stock purchased under the 1998 Purchase Plan is 85% of the lower of the fair market value of the Class A Common Stock at the beginning of the offering period or at the end of the purchase period. The maximum number of shares a participant may purchase during a single offering period is determined by dividing \$25,000 by the fair market value of a share of the Company's Class A Common Stock on the first day of the offering period. Participants may end their participation at any time during an offering period, and they will be paid their payroll deductions to date. Participation ends automatically upon termination of employment with the Company.

Rights granted under the 1998 Purchase Plan are not transferable by a participant other than by will, the laws of descent and distribution, or as otherwise provided under the 1998 Purchase Plan.

The 1998 Purchase Plan provides that, in the event of a merger of the Company with or into another corporation or a sale of all or substantially all of the Company's assets, each outstanding stock purchase right may be assumed or substituted for by the successor corporation. If the successor corporation refuses to assume or substitute for the outstanding stock purchase right, the offering period then in progress will be shortened and a new purchase date will be set so that shares of Class A Common Stock are purchased with the participant's accumulated payroll deductions prior to the effective date of such transaction.

The Board of Directors has the authority to amend or terminate the 1998 Purchase Plan, except that no such action may adversely affect any outstanding rights to purchase stock under the 1998 Purchase Plan, provided that the Board of Directors may terminate an offering period on any exercise date if the Board determines that the termination of the 1998 Purchase Plan is in the best interests of the Company and its stockholders. Notwithstanding anything to the contrary, the Board of Directors may in its sole discretion amend the 1998 Purchase Plan to the extent necessary and desirable to avoid unfavorable financial accounting consequences by altering the purchase price for any offering period, shortening any offering period or allocating remaining shares among the participants. Unless terminated sooner by the Board of Directors, the 1998 Purchase Plan will terminate on June 30, 2008.

As of March 31, 2002, 493,378 shares of the Company's Class A Common Stock had been purchased by the Company's employees at the average price of \$6.13 per share, which was an aggregate purchase price of \$3,023,000.

Table of Contents**401(k) Plan**

The Company has in place a contributory retirement plan (the 401(k) Plan) for all full time employees age 21 and older with at least 12 months of service, which is designed to be tax deferred in accordance with the provisions of Section 401(k) of the Code. The 401(k) Plan provides that each participant may contribute up to 15% of his or her salary and the Company may make a contribution equal to a percentage of salary contributed by the participant to his or her plan account at the end of each plan year. Under the 401(k) Plan, employees may elect to enroll on January 1 and July 1 of any plan year, provided that they have been employed by the Company for at least one year. The 401(k) Plan was amended in April 2001 to allow employees to enroll after six months of service.

Subject to the rules for maintaining the tax status of the 401(k) Plan, an additional Company contribution may be made at the Company's discretion. Company matching contributions are made at the discretion of the Company. The Company's contributions to the 401(k) Plan in 2001, 2000 and 1999 were \$703,000, \$500,000 and \$259,000, respectively. As its contribution to the 401(k) Plan in 2001, the Company issued 48,072 shares of its Class A common stock, which contain certain restrictions regarding the subsequent sale of those shares.

Compensation Committee Interlocks and Insider Participation

The Company's Compensation Committee consists of Messrs. Kosinski, Poletti and Siskind. Until April 16, 2002, Robert Greenberg served on the board of directors and the compensation committee of Stage II Apparel Corp., whose President and Chief Executive Officer is Richard Siskind. Other than as described above, none of the executive officers of the Company serves on the board of directors or on the compensation committee of any other entity, which has officers who serve on the Company's Board of Directors or on the Company's Compensation Committee.

Report of the Audit Committee

The Audit Committee of the Company's Board of Directors (the Audit Committee) is currently comprised of three independent directors and acts under a written Audit Committee Charter adopted by the Board of Directors on May 31, 2000. Each of the members of the Audit Committee is independent, as defined by the Audit Committee Charter and listing standards of the New York Stock Exchange.

The Audit Committee has reviewed and discussed the Company's audited financial statements with the Company. The Audit Committee has discussed with the independent auditors the matters required to be discussed by Statement on Audit Standards No. 61, as may be modified or supplemented. In addition, the Audit Committee has received from the independent auditors the written disclosures required by the Independence Standards Board Standard No. 1, which requires the written disclosure of all relationships between the Company and its independent auditors that, in the independent auditor's professional judgment, may reasonably be thought to bear on independence and confirmation that, in its professional judgment, it is independent of the company that it is auditing.

During the fiscal year ended December 31, 2001, the Company retained KPMG LLP to provide services as follows:

Audit Fee	Financial Information Systems Design and Implementation Fee	All Other Fees
\$279,000	\$ 0	\$ 1,252,000

The Audit Committee has considered whether the independent auditors' provision of services other than audit services is compatible with maintaining auditor independence and has concluded it has.

Table of Contents

Based on review and the discussions referred to above, the Audit Committee recommended to the Company's Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2001 for filing with the Securities and Exchange Commission.

Report of the Compensation Committee

The Compensation Committee of the Company's Board of Directors administers the policies governing the Company's executive compensation program. All issues pertaining to executive compensation are reviewed by the Compensation Committee and approved by the Company's Board of Directors. The Compensation Committee is comprised solely of three independent directors.

The Compensation Committee believes that executive compensation should reward sustained earnings and long-term value created for stockholders and reflect the business strategies and long-range plans of the Company. The guiding principles affecting executive compensation are to: (1) attract and retain key high caliber executives; (2) provide levels of compensation competitive with those offered by the Company's competitors and (3) motivate executives to enhance earnings and long-term stockholder value by linking stock performance on a total returns basis with long-term incentive compensation.

The Company's executive compensation philosophy is to set base salary at a conservative market rate and then to provide performance-based variable compensation which allows total compensation to fluctuate according to the Company's earnings as well as to value received by its stockholders. Targeted levels of executive compensation are set at levels consistent with others in the Company's industry, determined after comparison, with such compensation increasingly weighted towards programs contingent upon the Company's level of annual and long-term performance.

Each executive officer's compensation is comprised of up to three principal components: base salary, bonus and any stock options or Awards granted pursuant to the Company's Stock Option Plan. Base salary and bonus are determined by the executive officer's employment agreement or executive management and are reviewed at least annually by the Compensation Committee. See Executive Compensation for a description of the allocation of base salary and bonus. Robert Greenberg, Michael Greenberg, David Weinberg and Philip Paccione each received an annual bonus based on certain objective performance criteria of the Company for 2001 of \$500,109, \$1,162,895, \$987,895 and \$165,107, respectively. The Compensation Committee believes that the total compensation package of the executive officers should be linked to certain objective performance criteria of the Company and to the total return of the Company's stock, both on an absolute basis and relative to similar companies. The Company uses stock options to align the long-range interests of its executive officers with the interests of stockholders. The amount of stock options that may be granted to each executive officer is determined by taking into consideration the officer's position with the Company, overall individual performance, the Company's performance and an estimate of the long-term value of the award considering current base salary and any cash bonus awarded.

The Compensation Committee applies the foregoing principles and policies in examining the compensation of Robert Greenberg, the Company's Chief Executive Officer. The Compensation Committee believes that Mr. Greenberg, as Chief Executive Officer, significantly and directly influences the Company's overall performance. Pursuant to his amended employment agreement with the Company, the Chief Executive Officer's compensation for 2001 consisted of a base salary of \$500,109.

Section 162(m) was added to the Code as part of the Omnibus Budget Reconciliation Act of 1993. Section 162(m) limits the deduction for compensation paid to the Chief Executive Officer and the other Named Executive Officers to the extent that compensation of a particular executive exceeds \$1,000,000,

Table of Contents

unless such compensation was based upon performance goals determined by a compensation committee consisting solely of two or more outside directors, the material terms of which are approved by a majority vote of the stockholders prior to the payment of such remuneration, or paid pursuant to a binding contract that was in effect on February 17, 1993. While the tax impact of any compensation arrangement is one factor to be considered, such impact is evaluated in light of the Compensation Committee's overall compensation philosophy. The Compensation Committee intends to establish executive officer compensation programs that will maximize the Company's tax deduction if the Compensation Committee determines that such actions are consistent with its philosophy and in the best interests of the Company and its stockholders. However, from time to time, the Compensation Committee may award compensation which is not fully deductible if the Compensation Committee determines that such award is consistent with its philosophy and in the best interest of the Company and its stockholders.

The Compensation Committee will review the Company's existing compensation program to determine the deductibility of the future compensation paid or awarded pursuant thereto and will seek guidance with respect to changes to the Company's existing compensation program that will enable the Company to continue to attract and retain key individuals while optimizing the deductibility to the Company of amounts paid as compensation.

The Compensation Committee believes that its overall executive compensation program will be successful in providing competitive compensation appropriate to attract and retain highly qualified executives and also to encourage increased performance from the executive group which will create added stockholder value.
