PROSPECTUS SUPPLEMENT NO. 1  
(To the Prospectus dated July 25, 2001)

130,516,017 SHARES OF

RITE AID CORPORATION

COMMON STOCK

-----

STICKER SUPPLEMENT TO

PROSPECTUS

This prospectus supplement relates to the sale by selling stockholders, including their respective transferors, donees, pledgees, or successors of up to 130,516,017 shares of our common stock that the selling shareholders acquired from us in various private placements and debt for equity exchanges. We will not receive any of the proceeds from the sale of any of the shares.

You should read this prospectus supplement in conjunction with the prospectus dated July 25, 2001. This prospectus supplement is incorporated by reference into the prospectus, and all terms used herein shall have the meaning assigned to them in the prospectus. Our common stock is traded on the New York Stock Exchange under the symbol "RAD."

On October 2, 2001 we issued a press release announcing (i) our results for our second fiscal quarter ended September 1, 2001, and (ii) guidance for the second half of fiscal 2002, which are set forth below.

Results for the Second Fiscal Quarter Ended September 1, 2001

Sales for the 13-week quarter were \$3.691 billion, up 7.3 percent from \$3.439 billion reported in the prior year's second quarter.

Second quarter same store sales increased 8.9 percent versus the prior year, reflecting prescription sales growth of 11.7 percent and a 4.8 percent increase in front-end same store sales. Prescription revenue accounted for 61.0 percent of total drugstore sales and third party prescription sales represented 92.0 percent of total pharmacy sales.

Second quarter earnings before interest, taxes, depreciation and amortization, LIFO charges, gains and losses from asset disposals, and non-cash expenses (EBITDA) amounted to \$120.8 million, up 33.2 percent from the prior year's second quarter EBITDA of \$90.7 million. A change in accounting for leases, which was effective on June 27, 2001 in conjunction with the company's refinancing, lowered second quarter EBITDA by \$9.6 million; on a comparable basis EBITDA increased this year versus last by \$39.8 million or 49.1 percent. Excluding net non-operating income related to legal settlements of \$17.0 million received in the second quarter of this year and \$12.3 million received in the second quarter of last year, EBITDA was \$103.8 million or 2.8 percent of sales this year versus \$78.4

## Edgar Filing: RITE AID CORP - Form 424B3

million or 2.3 percent of sales for the second quarter of the prior year.

Interest expense for the second quarter was \$102.4 million versus \$182.1 million in the prior year's second quarter. Interest expense was comprised of \$93.2 million cash interest on indebtedness and capital lease obligations and non-cash interest of \$9.2 million.

Other non-cash expenses of \$86.9 million this quarter consisted of \$21.9 million in losses on debt modifications related to the refinancing completed on June 27; a \$31.0 million loss to mark to market \$1.0 billion of interest rate swap contracts on floating rate bank debt that was retired in the refinancing; \$26.7 million related to store closings and impairment charges; \$4.5 million for losses related to the company's investment in drugstore.com and \$2.8 million of other non-cash expenses.

Net loss from continuing operations for the second quarter was \$179.3 million or a loss per share of \$0.40 compared to a net loss from continuing operations of \$425.0 million or a loss per share of \$1.87 in the year ago period. The net loss from continuing operations would have been \$105.3 million or a loss per share of \$0.22 without non-cash expenses of \$86.9 million, net proceeds from legal settlements of \$17.0 million, \$5.6 million of non-recurring legal and accounting expenses and a \$1.6 million gain from asset sales.

During the quarter, the company relocated four stores and closed 37 stores. Stores in operation at the end of the quarter totaled 3,594.

### Guidance for the Second Half of Fiscal 2002

The company expects sales of \$7.7 billion to \$8.0 billion for the remainder of fiscal 2002 which ends March 2, 2002. Same store sales are expected to improve 8.0 percent to 10.0 percent versus the prior year.

EBITDA for the second half is expected to be \$265.0 million to \$315.0 million, bringing full year EBITDA to \$550.0 million to \$600.0 million. Excluding the effect of the change in accounting for leases of approximately \$40.0 million, full year EBITDA would be expected to be \$590.0 million to \$640.0 million.

Interest expense for the second half is expected to total approximately \$180.0 million with cash interest expense expected to be approximately \$157.0 million and non-cash interest expected to be approximately \$23.0 million.

Depreciation and amortization, including goodwill amortization, is expected to total approximately \$171.0 million with approximately \$89.0 million expected in the third fiscal quarter and \$82.0 million expected in the fourth fiscal quarter.

The company does not expect to record federal income tax expense or benefit for the remainder of fiscal 2002; state taxes of approximately \$2.5 million are expected to be recorded during the balance of fiscal 2002.

Capital expenditures for the remainder of fiscal 2002 are expected to total approximately \$70.0 million bringing full year capital expenditures to approximately \$120.0 million.

Working capital is expected to be lower on a full year basis by approximately \$100.0 million.

The company expects to generate \$125.0 million to \$175.0 million of free cash flow for fiscal 2002. Free cash flow represents the excess of

## Edgar Filing: RITE AID CORP - Form 424B3

reported EBITDA and working capital reductions over cash interest expenses, capital expenditures and amounts paid with respect to closed stores.

### Preliminary September Sales Results

Final September sales results will be reported on October 9, 2001. On a preliminary basis, same store sales for the four-week period ended September 29, 2001 were up approximately 6.0 percent over the prior year period. Pharmacy same store sales were up approximately 9.7 percent, while front-end same store sales were slightly positive. While the September 11 tragedy had a negative impact on sales on September 11 and the days following, same store sales started to recover during the second half of the month with the last two weeks up approximately 7.7 percent, including an increase in pharmacy of approximately 11.2 percent and a front-end gain of approximately 2.2 percent, compared to the same two-week period last year.
