REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Plan Participants and Plan Administrator of

Chicago and North Western Railway Company

Profit Sharing and Retirement Savings Program

Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of the Chicago and North Western Railway Company Profit Sharing and Retirement Savings Program (the "Program") as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Program as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Program's management. Our responsibility is to express an opinion on the Program's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Program in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Report on Supplemental Schedule

The supplemental schedule listed in the table of contents, has been subjected to audit procedures performed in conjunction with the audit of the Program's financial statements. The supplemental schedule is the responsibility of the Program's management. Our audit procedures included determining whether the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, such schedule is fairly stated, in all material respects, in relation to the financial statements as a whole.

/s/ Deloitte & Touche LLP

Omaha, Nebraska

June 27, 2018

We have served as the auditor of the Program since 1995.

CHICAGO AND NORTH WESTERN RAILWAY COMPANY
PROFIT SHARING AND RETIREMENT SAVINGS PROGRAM

NOTES TO THE FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2017 and 2016

1. DESCRIPTION OF PLAN

The following description of the Chicago and North Western Railway Company Profit Sharing and Retirement Savings Program (the “Program”) is provided for general information only. Participants should refer to the Program document for more complete information.

General — The Program was initially established to provide retirement benefits to eligible employees of Chicago and North Western Railway Company (the “Company”) and other common control employers who adopt the Program. The Program is sponsored by Union Pacific Railroad Company (“Railroad”). Vanguard Fiduciary Trust Company (“VFTC”) serves as the trustee of the Program. The Program is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions — The Program was frozen effective December 31, 1995. No new participants or contributions are allowed in the Program after December 31, 1995.

Notes Receivable from Participants — Participants are eligible to take a loan from their fund accounts, subject to the following limits. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of (a) one-half of their account balance or (b) \$50,000, taking into consideration additional loan balances under the Program and any other qualified plan maintained by Union Pacific Corporation (the “Corporation”) or its subsidiaries. Loan transactions are treated as a transfer from the investment fund(s) to the loan fund and as the loan is repaid, all principal and interest payments are credited to the investment fund(s) in accordance with the participant’s applicable investment election. Loan terms cannot exceed 59 consecutive calendar months, except the loan term may be up to 15 years if the loan will be used to purchase the participant’s principal residence. The loans are secured by the balance in the participant’s account and bear a fixed rate of interest set by the Program administrator based on interest rates being charged on similar loans. Principal and interest is paid ratably, generally through monthly payroll deductions. As of December 31, 2017 and 2016, participant loans have maturities through 2022 at interest rates ranging from 3.25% to 4.25%, respectively.

Participant Accounts — Individual accounts are maintained for each Program participant. Participants may direct the investment of their account into various investment options offered by the Program or may elect to participate in the Vanguard Advisers Managed Account Program (“Managed Account Program”). The Managed Account Program is a program in which certain participants may delegate ongoing, discretionary investment management decisions with respect to their account to Vanguard Advisers, Inc. Each participant’s account is credited with an allocation of the Program’s earnings (losses) based on the type of investments selected and their performance. Allocations are based on each participant’s account balance by investment type. If a participant does not provide investment direction with respect to an amount credited to their account, such amount is invested in a default investment option designated under the Program. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting — Participants at all times have a 100% vested interest in their accounts.

Distributions to Participants — Under the terms of the Program, distributions are to be paid in the form of a joint and survivor annuity. A participant's account may, as elected by the participant (with spousal consent when required), be paid to him/her in a lump sum. In order to provide a joint and survivor annuity (or single life annuity where spousal consent is obtained or there is no spouse), the participant's account balance is transferred to the Chicago and North Western Railway Company Supplemental Pension Plan (the "Supplemental Pension Plan") for payment of the annuity. The annuity may, at the option of the Program administrator, be purchased from a third-party institution or paid from the assets of the Supplemental Pension Plan. A required minimum distribution option is available at age 70 1/2. A terminated participant may defer distribution until the earlier of the participant's required beginning date, as defined in the Program, or the participant's death. If distribution is deferred until the participant's required beginning date, the participant may elect (with spousal consent when required) distribution either in a single sum or in the form of monthly, quarterly, semi-annual or annual installments. Such single sum distribution must be made (or installments begin) no later than the participant's required beginning date. A distribution of a single sum payment of the portion of a participant's account invested in the Union Pacific Common Stock Fund is distributed in cash unless shares of stock are elected at the time of distribution. If the participant remains employed with the Railroad after attaining age 70 1/2, the participant must commence distribution of his/her account no later than the April 1st of the year following the year in which the participant terminates employment.

In-service withdrawals, including withdrawals of rollover contributions, hardship withdrawals, and withdrawals after age 59 1/2, may be made by a participant from his or her account in accordance with the Program's provisions.

Program Administration — From November 1, 2014, through March 31, 2016, the Program was administered by the Assistant Vice President, Compensation & Benefits, Union Pacific Railroad Company. Effective April 1, 2016, the Program is administered by the Senior Vice President and Chief Human Resource Officer of Union Pacific Railroad Company. Investment management fees for the Program's investment options are netted against investment earnings. Expenses incurred administering the Program, including participant recordkeeping expenses, are payable from Program assets. The Railroad has the option, but not the obligation, to pay Program administrative expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties — The Program utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the value of the participants' account balances and amounts reported in the financial statements.

Investment Valuation and Income Recognition — Investments are reported at fair value with the exception of fully benefit-responsive investment contracts. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Dividend income is recorded as of the ex-dividend date. Dividends are reinvested in a related participant fund. Interest income is recorded on the accrual basis. Purchases and sales of securities are recorded as of the trade date. Net appreciation (depreciation) includes the Program's gains and losses on investments bought and sold as well as held during the year.

For fully benefit-responsive contracts held by a defined contribution plan, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the program. The statements of net assets available for benefits present the fully benefit-responsive investment contracts at contract value. The statements of changes in net assets available for benefits are also prepared on a contract value basis.

Notes Receivable from Participants — Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Program document.

Administrative Expenses — Administrative expenses of the Program are paid as described in the section "Program Administration" in Note 1. All investment management and transaction fees directly related to the Program investments are paid by the Program. Management fees and operating expenses charged to the Program for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments. Program administrative expenses of \$21,477 and \$21,717 were paid in 2017 and 2016, respectively.

Distributions to Participants — Distributions are recorded when paid. There were no amounts allocated to accounts of persons who have elected to withdraw from the Program, but have not yet been paid at December 31, 2017 or 2016.

New Accounting Standards — In February 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2017-06, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting. The ASU clarifies the presentation and disclosure requirements for an employee benefit plan's interest in a master trust. This standard is effective for fiscal years beginning after December 15, 2018, and should be applied retrospectively. Early adoption is permitted. The Company is currently evaluating the impact of this standard on the financial statements.

3. FAIR VALUE MEASUREMENTS

Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, established a single authoritative definition of fair value, set a framework for measuring fair value, and requires additional disclosures about fair value measurements. In accordance with ASC 820, the Program classifies its investments into a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1 — Quoted market prices in active markets for identical assets or liabilities.

Level 2 — Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3 — Unobservable inputs that are not corroborated by market data.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Methodologies — Valuation methodologies maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used to determine the fair value for each investment category and the fair value hierarchy tier to which each investment category has been assigned.

Company Stock Funds — These funds are invested exclusively in common stock issued by the Corporation along with a small amount of cash held for liquidity purposes. The unit price (value) for shares of these funds is computed daily based on the closing price of Union Pacific common stock on the New York Stock Exchange, the number of shares of stock held by the funds, and the amount of cash held in the funds. Employer stock funds are classified as Level 2 investments.

Mutual Funds (Including the Domestic Stock and International Stock Funds, Balanced Fund, Money Market Fund, and Bond Funds) — The shares of mutual funds are actively traded in a public exchange and the quoted prices at which these securities trade in the exchange are readily available. These quoted prices are used to determine the net asset values of mutual fund shares held by the Union Pacific Corporation Master Trust (“Master Trust”) at year-end.

Common/Collective Trusts — The Target Retirement Trusts invest in Vanguard mutual funds. While the trust units are not actively traded in a public exchange, the underlying mutual fund investments held by the trusts are actively traded in a public exchange. The readily observable quoted share prices for the underlying mutual fund investments are used to determine the net asset value of the trusts at year-end.

A summary of the Master Trust assets measured at fair value on a recurring basis set forth by level within the fair value hierarchy as of December 31, 2017 and 2016, is presented in the following tables:

	December 31, 2017			
	Quoted Prices in Active			
	Markets for Identical	Significant Other	Significant	
	Assets	Observable Inputs	Unobservable Inputs	
	(Level 1)	(Level 2)	(Level 3)	Total
Investments at fair value:				
Company Stock Funds	-	\$ 766,657,504	-	\$ 766,657,504
Total investments in the fair value hierarchy	-	\$ 766,657,504	-	766,657,504
Investments measured at net asset value*				
Mutual Funds				1,523,588,307
Common/Collective Trusts				1,227,789,336
Total investments at net asset value				2,751,377,643
Total investments at fair value				\$ 3,518,035,147

	December 31, 2016			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Investments at fair value:				
Company Stock Funds	-	\$ 665,022,759	-	\$ 665,022,759
Total investments in the fair value hierarchy	-	\$ 665,022,759	-	665,022,759
Investments measured at net asset value*				
Mutual Funds				1,917,064,681
Common/Collective Trusts				427,030,869
Total investments at net asset value				2,344,095,550
Total investments at fair value				\$ 3,009,118,309

* In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Transfers between Levels — The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. The Program's policy is to recognize transfers between the levels at the actual date of the event.

The Program evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2017 and 2016, there were no transfers in to or out of Levels 1, 2, or 3.

The following tables summarize investments for which fair value is measured at net asset value as of December 31, 2017 and 2016, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Program.

	December 31, 2017			
	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Mutual Funds	\$ 1,523,588,307	n/a	Daily	None
	1,227,789,336	n/a	Daily	None

Common/Collective
Trusts

8

	December 31, 2016			
	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Mutual Funds	\$ 1,917,064,681	n/a	Daily	None
Common/Collective Trusts	427,030,869	n/a	Daily	None

4. MASTER TRUST

At December 31, 2017 and 2016, the Program participated in a Master Trust with other retirement plans sponsored by the Corporation or its subsidiaries. The investment assets of the Master Trust are held at VFTC. Use of the Master Trust permits the commingling of the trust assets of a number of benefit plans of the Corporation and its subsidiaries for investment and administrative purposes. Although assets are commingled in the Master Trust, VFTC maintains supporting records for the purpose of allocating the net investment income (loss) of the investment accounts to the various participating plans. The investment valuation methods for investments held by the Master Trust are discussed in Note 3.

The Program's interest in the Master Trust, as a percentage of net assets held by the Master Trust, as of December 31, 2017 and 2016, is presented in the following tables:

	2017	2016
Master Trust		
Investments at fair value	\$ 3,518,035,147	\$ 3,009,118,309
Investments at contract value	368,744,104	403,568,842
Total investments in Master Trust	\$ 3,886,779,251	\$ 3,412,687,151
Program's portion of investments at fair value	\$ 51,384,160	\$ 51,985,923
Program's portion of investments at contract value	19,637,413	20,657,547
Program interest in Master Trust	\$ 71,021,573	\$ 72,643,470
Portion allocated to the Program	1.83%	2.13%

Investment income for the Master Trust for the years ended December 31, 2017 and 2016, is as follows:

	2017	2016
Net appreciation in fair value	\$ 567,299,182	\$ 301,759,663
Interest and dividends	79,211,080	75,681,422
Total investment income of Master Trust	\$ 646,510,262	\$ 377,441,085
Program's portion of Master Trust investment income	\$ 9,619,417	\$ 6,249,286

While the Program participates in the Master Trust, each participant's account is allocated earnings (or losses) consistent with the performance of the funds in which the participant's account is invested. Therefore, the investment income (loss) of the Master Trust may not be allocated evenly among the plans participating in the Master Trust.

The Master Trust provides to participants a stable value investment option (the Union Pacific Fixed Income Fund) that includes traditional Guaranteed Investment Contracts (GICs) and synthetic GICs. These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Program. Traditional GICs are maintained in a general account by VFTC, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Synthetic GICs simulate the performance of a traditional GIC through an issuer's guarantee of a specific interest rate (a benefit-responsive wrapper contract) and a portfolio of financial instruments that are owned by the Master Trust. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of these contracts will track current market yields on a trailing basis.

The following table represents the disaggregation of contract value between types of investment contracts held by the Program:

	2017	2016
Synthetic investment contracts	\$ 341,558,176	\$ 366,191,984
Traditional investment contracts	13,875,324	15,788,176
Money Market fund	14,129,489	21,380,884
Other	(818,885)	207,798
Total investments at contract value	\$ 368,744,104	\$ 403,568,842

5. FEDERAL INCOME TAX STATUS

The Program has obtained a tax determination letter dated November 15, 2016, in which the Internal Revenue Service (IRS) stated that the Program, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Program has been amended since receiving the determination letter, the Railroad and Program management believe that the Program and related Master Trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Program's financial statements. Program management made a Voluntary Compliance Program submission to the IRS on December 30, 2015. The submission seeks to correct the failure to distribute the segregated account of an alternate payee of a participant in accordance with the Program's terms intended to comply with the required minimum distribution rules of Section 401(a)(9) of the Code and the regulations thereunder. The Program received a compliance statement from the IRS dated June 23, 2016, with respect to this submission.

GAAP requires Program management to evaluate tax positions taken by the Program and recognize a tax liability (or asset) if the Program has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Program is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Program administrator believes the Program and the related Master Trust are no longer subject to income tax examinations for years prior to 2014.

6. PROGRAM TERMINATION

Although it has not expressed any intent to do so, the Railroad, the Program sponsor, has the right under the Program, at any time, to terminate the Program subject to the provisions of ERISA. Regardless of such actions, the principal and income of the Program remains for the exclusive benefit of the Program's

participants and beneficiaries. The Railroad may direct VFTC either to distribute the Program's assets to the participants, or to continue the Trust and distribute benefits as though the Program had not been terminated.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The Master Trust investments include the Union Pacific Common Stock Fund, which is invested in the common stock of the Corporation. The Corporation is the parent holding company of the Program sponsor and, therefore, these transactions qualify as party-in-interest transactions. At December 31, 2017 and 2016, the Program's interest in the Master Trust's investment in the Union Pacific Common Stock Fund had a cost basis of \$1,734,157 and \$1,747,459, respectively. During the years ended December 31, 2017 and 2016, the Program recorded dividend income of \$102,518 and \$104,395, respectively.

The Master Trust also invests in various funds managed by VFTC. VFTC is the trustee as defined by the Program and, therefore, these transactions qualify as party-in-interest transactions.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

A reconciliation of changes in net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2017 and 2016, is as follows:

	2017	2016
Net (decrease) increase in net assets at contract value	\$ (1,642,297)	\$ 196,580
Change in adjustment from contract value to fair value for benefit-responsive investment contracts	-	(330,612)
Net decrease in net assets per Form 5500 -- at fair value	\$ (1,642,297)	\$ (134,032)
