History

First Washington is a mortgage loan originator in the home mortgage loan industry and currently concentrates its business in Washington, D.C., Maryland and Virginia.

On May 17, 2002, the Company acquired Opportunity Knocks, LLC, a Maryland limited liability company ("Opportunity Knocks"). Opportunity Knocks is in the business of acquiring, refurbishing and selling real estate in the Washington D.C. area. Opportunity Knocks specializes in HUD properties.

Arcadian's major asset is the Altamont Wind Generation Facility, which is an existing electricity generation facility located on approximately 4000 acres in the Altamonte Pass, east of San Francisco, CA (the "Wind Farm"). The Wind Farm has about 1300 wind turbines at present which were installed in the 1980's, approximately 600 of which are still operable. The Wind Farm will be re-powered with new 950 KW state-of-the-art turbines. The Wind Farm is zoned and permitted for up to 114 megawatts, and the infrastructure includes the wind turbines, 300 miles of transmission lines, a 150 MW substation and an interconnection to the PG&E grid. The ground leases extend to 2036 with options to renew. The Wind Farm will be re-powered with a \$150 million credit facility. Financing for the initial 60 MW re-power is \$68 million, with 20% equity supplied by the \$14 million value of the existing plant. The cost to produce electricity is approximately 4.5 cents per KWH, and is eligible for up to 3.5 cents of tax credits. Sale price of the electricity should be in the range of 6.9 cents per KWH with annual revenue in the \$5 Million range without calculating green tickets or tax credits and other incentives.

Edgar Filing: VOLT INC - Form 10KSB

The Company is in the planning stages to re-power and activate its Wind Farm. However, due to the uncertainty surrounding the Chapter 11 Reorganization Proceeding of Pacific Gas and Electric Company pending in the United States Bankruptcy Court in the Northern District of California, the Company is unsure of when it will be able to activate the Wind farm.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

THE FOLLOWING DISCUSSION OF THE FINANCIAL CONDITION AND RESULTS OF OPERATIONS OF THE COMPANY SHOULD BE READ IN CONJUNCTION WITH THE FINANCIAL STATEMENTS AND NOTES THERETO INCLUDED ELSEWHERE IN THIS REPORT.

THIS DISCUSSION CONTAINS FORWARD-LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES, AND THE COMPANY'S ACTUAL RESULTS MAY DIFFER MATERIALLY FROM THOSE ANTICIPATED IN THESE FORWARD-LOOKING STATEMENTS AS A RESULT OF CERTAIN FACTORS, INCLUDING, BUT NOT LIMITED TO COMPETITION AND OVERALL MARKET AND ECONOMIC CONDITIONS.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

The Company continues to diversify the operating subsidiaries to take advantage of profitable opportunities in both the alternative energy field, loan origination and real estate. The first year of operations were devoted to research and development of a forwarding moving business plan targeting the acquisition of asset based projects with long term revenue streams and related businesses which can produce consistent revenues with high earnings and good future growth with minimal risk.

The Company is proceeding with the redevelopment planning of the Altamaont Pass Wind Farm. However, the redevelopment is not expected to be completed in the near term due to the uncertainty of both the state of California's energy problems and legislative solutions and the Chapter 11 Reorganization Proceeding of Pacific Gas and Electric Company pending in the United States Bankruptcy

Edgar Filing: VOLT INC - Form 10KSB

Court in the Northern District of California.

The Wolverine Power Hydroelectric acquisition is still being pursued. However, the Federal Energy Regulatory Commission (FERC) and other due diligence issues need to be resolved before the transaction could be completed. The Wolverine Power Hydroelectric acquisition would add approximately \$1,000,000 in annual revenue.

Research and development is continuing in the Company's photovoltaic division for the patented paint-on solar electric cell process of which the licensing rights were acquired last year.

In January, 2002, the company entered into a joint venture with Opportunity Knocks, LLC to purchase, refurbish and then sell residential real estate in Washington, D.C., Virginia and Maryland. Opportunity Knocks specializes in HUD homes and in particular the HUD gifting program which allows first time homeowners to qualify for a HUD insured mortgage. The purchasers will be pre-approved for mortgages. Opportunity Knocks' clients are primarily police officers, firefighters, and government and union workers who are first time home buyers. The Company plans to expand this business to New York, New Jersey, Pennsylvania, California, Florida and other selected states. In March, 2002, the Company obtained approval from two banks for a revolving credit line in the amount of \$2,250,000 to purchase homes in bulk from HUD, the Veterans Administration banks and others. The Company expects to increase its credit line to \$5,000,000 and is actively engaged in procuring properties for clients. The estimated turn-around from purchase to rehab to resale should be 45 to 90 days average. The Company currently has pre-approved mortgage applicants on the waiting list and will process additional applicants as needed. A typical transaction usually averages \$200,000 and yields a projected net profit of 18% to 22% to the companies.

On May 17, 2002, the Company acquired Opportunity Knocks and First Washington Financial Corporation for cash and stock. First Washington is a mortgage company and processes Opportunity Knocks' clients as well as outside mortgage originations in their normal course of business.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Principles of Consolidation

Intercompany transactions and balances have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments and other short-term investments with an initial maturity of three months or less to be cash or cash equivalents.

The Company maintains cash and cash equivalent balances at several financial institutions which are insured by the Federal Deposit Insurance Corporation up to \$100,000.

Property and Equipment

Property and equipment are stated at cost. Depreciation is computed primarily using the straight-line method over the estimated useful life of the assets.

Furniture and fixtures	7 years
Office and computer equipment	3-5 years
Wind Farm	40 years

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue Recognition

The Company sold merchandise and revenue was recorded under the accrual method of accounting.

First Washington records commission income upon the closing of their respective transactions.

Advertising

Advertising costs are typically expensed as incurred. Advertising expense was approximately \$-0- and \$830 for the years ending September 30, 2002 and 2001, respectively.

Income Taxes

The income tax benefit is computed on the pretax loss based on the current tax law. Deferred income taxes are recognized for the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year-end based on enacted tax laws and statutory tax rates.

Fair Value of Financial Instruments

The carrying amount reported in the consolidated balance sheets for cash and cash equivalents, notes receivable, accounts payable and accrued expenses approximate fair value because of the immediate or short-term maturity of these financial instruments.

Earnings Per Share of Common Stock

Historical net income per common share is computed using the weighted average number of common shares outstanding. Diluted earnings per share (EPS) includes additional dilution from common stock equivalents, such as stock issuable pursuant to the exercise of stock options and warrants.

In June 2001, the FASB issued Statement No. 142 "Goodwill and Other Intangible Assets". This Statement addresses financial accounting and reporting for acquired goodwill and other intangible assets and supersedes APB Opinion No. 17, Intangible Assets. It addresses how intangible assets that are acquired individually or with a group of other assets (but not those acquired in a business combination) should be accounted for in financial statements upon their acquisition. This Statement also addresses how goodwill and other intangible assets should be accounted for after they have been initially recognized in the financial statements. F-13-

VOLT INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
 SEPTEMBER 30, 2002 AND 2001

NOTE 8- LITIGATION

In September of 1999, the Deerbrook Publishing Group, Inc. ("Deerbrook") leased a computer driven aspect image center (printer for film) used to make separation for printing (the "aspect image center") and certain other computer equipment from Copelco Capital, Inc. ("Copelco"). All of the equipment was delivered to the Deerbrook's then printing operation in Phoenix, Arizona, and installed. Shortly thereafter, Deerbrook ceased printing for itself and its customers. The equipment was returned to Copelco. In August of 2000, Copelco brought suit in the United States District Court for the District of Arizona, cause no. CIV '00-1620 PHX ROS, to recover its alleged damages \$155,398 for Deerbrook's return of the leased equipment plus continuing interest at the rate of one and one-third percent per month and attorneys fees and costs. The Company does not believe that Copelco has mitigated its damages and further believes that Copelco has either sold the equipment or otherwise disposed of same in a manner which was not commercially reasonable. The Copelco claims will be vigorously defended against. Any possible loss from this litigation will be less than one percent (1%) of the Company's net assets and will be immaterial. Since the change in control of the Company on April 6, 2001, there have been no legal proceedings brought against Volt.

NOTE 9- PROVISION FOR INCOME TAXES

Deferred income taxes will be determined using the liability method for the temporary differences between the financial reporting basis and income tax basis of the Company's assets and liabilities. Deferred income taxes will be measured based on the tax rates expected to be in effect when the temporary differences are included in the Company's consolidated tax return. Deferred tax assets and liabilities are recognized based on anticipated future tax consequences attributable to differences between financial statement carrying amounts of assets and liabilities and their respective tax bases.

At September 30, 2002 and 2001, deferred tax assets consist of the following:

	2002	2001
	----	-----
Net operating loss carryforwards	\$168,923	\$ 257,670

Edgar Filing: VOLT INC - Form 10KSB

Less: valuation allowance	(168,923)	(257,670)
	-----	-----
	\$ -0-	\$ -0-
	=====	=====

At September 30, 2002 and 2001, the Company had federal net operating loss carryforwards in the approximate amounts of \$496,833 and \$757,853, respectively, available to offset future taxable income. The Company established valuation allowances equal to the full amount of the deferred tax assets due to the uncertainty of the utilization of the operating losses in future periods.

F-14-

VOLT INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) SEPTEMBER 30, 2002 AND 2001

NOTE 10- PENDING ACQUISITIONS, MERGERS AND BUSINESS COMBINATIONS

The Company is currently negotiating and concluding its due diligence with Wolverine Power Corporation, which owns hydroelectric plants in Michigan. Wolverine Power Corporation has long-term power sales contracts to Consumers Electric Corp., a NYSE company. Revenue approximating \$1,000,000 annually, will be realized by the Company when and if the transaction is completed.

NOTE 11- SUBSEQUENT EVENT

In October 2002, the Company reached an agreement with Mortgage-Matic of Greenbelt, MD to merge the operations of Mortgage-Matic with First Washington. Mortgage-Matic concentrates their business on FHA insured loans in the \$200,000 range. This accounts for approximately 70% of its business. The merger should facilitate a streamlining of the processing and underwriting procedures of the companies.

In November 2002, the Corporation closed on a line of credit with a bank in the amount of \$750,000. The loan proceeds will be used to commence the operations of Opportunity Knocks.
