CONSOLIDATED STATEMENTS OF COMPREHENSIVE INCOME

(UNAUDITED—AMOUNTS IN THOUSANDS)

	Three Months Ended May 31,		Nine Months Ended May 31,	
	2014	2013	2014	2013
Net income	\$21,320	\$18,539	\$71,030	\$63,426
Other Comprehensive Income, net of tax:				
Foreign currency translation adjustments ⁽¹⁾	\$3,929	\$(2,073)	\$(8,443)	\$(5,083)
Defined benefit pension plan:				
Net gain (loss) arising during period	5	(2)	16	1
Total defined benefit pension plan	5	(2)	16	1
Unrealized gains/(losses) on change in fair value of interest rate swaps ⁽²⁾	(1,343)	2,223	(421)	1,608
Other comprehensive income (loss)	2,591	148	(8,848)	(3,474)
Comprehensive income	\$23,911	\$18,687	\$62,182	\$59,952

Translation adjustments arising in translating the financial statements of a foreign entity have no effect on the income taxes of that foreign entity. They may, however, affect: (a) the amount, measured in the parent entity's reporting currency, of withholding taxes assessed on dividends paid to the parent entity and (b) the amount of taxes assessed on the parent entity by the government of its country. The Company has determined that the reinvestment of earnings of its foreign subsidiaries are indefinite because of the long-term nature of the Company's foreign investment plans. Therefore, deferred taxes are not provided for on translation adjustments related to non-remitted earnings of the Company's foreign subsidiaries.

⁽²⁾ See Note 9 - Derivative Instruments and Hedging Activities.

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

May 31, 2014

NOTE 1 – COMPANY OVERVIEW AND BASIS OF PRESENTATION

PriceSmart, Inc.'s ("PriceSmart" or the "Company") business consists primarily of international membership shopping warehouse clubs similar to, but smaller in size than, warehouse clubs in the United States. As of May 31, 2014, the Company had 33 consolidated warehouse clubs in operation in 12 countries and one U.S. territory (six in Costa Rica, four each in Panama and Trinidad, three each in Colombia, Guatemala, Honduras and in the Dominican Republic, two in El Salvador and one each in Aruba, Barbados, Jamaica, Nicaragua and the United States Virgin Islands), of which the Company owns 100% of the corresponding legal entities (see Note 2 - Summary of Significant Accounting Policies). During May of fiscal year 2014, the Company opened its third warehouse club in Honduras in Tegucigalpa. During fiscal 2013, the Company opened its second and third clubs in Colombia. These clubs are in south and north Cali and opened in October 2012 and May 2013, respectively. In January of fiscal year 2014, the Company acquired land in the southern area of Pereira, Colombia and in the city of Medellin, Colombia and leased land in the city of Bogota, Colombia. The Company is currently constructing new warehouse clubs at these three sites and plans to open them before the end of calendar year 2014. Together with the three warehouse clubs currently operating in Colombia (one in Barranquilla and two in Cali), these three new clubs will bring the number of PriceSmart warehouse clubs operating in Colombia to six. In October 2013, the Company opened its sixth membership warehouse club in Costa Rica in La Union, Cartago. The Company continues to explore other potential sites for future warehouse clubs in Central America, the Caribbean and Colombia. The warehouse club sales and membership sign-ups experienced with the opening of the Barranquilla and Cali warehouse clubs have reinforced the Company's belief that Colombia could be a market for additional PriceSmart warehouse clubs in other Colombian cities.

Basis of Presentation - The interim consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q for interim financial reporting pursuant to the rules and regulations of the U.S. Securities and Exchange Commission ("SEC"). These interim consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2013 (the "2013 Form 10-K"). The interim consolidated financial statements include the accounts of PriceSmart, Inc., a Delaware corporation, and its subsidiaries. Inter-company transactions between the Company and its subsidiaries have been eliminated in consolidation.

The Company has evaluated subsequent events through the date and time these financial statements were issued.

Reclassifications to consolidated statement of income recorded during fiscal year 2014 for fiscal year 2013 - The Company recorded asset disposal activity during fiscal year 2013 under other income (expense), net. This activity consisted mainly of normally scheduled asset replacement and upgrades involved in operating activities. The Company has determined that these costs represent operating expenses. Therefore, the Company has accordingly recorded such asset disposal activity as operating expenses under loss/(gain) on disposal of assets starting in fiscal year 2014. The Company has made reclassifications to the consolidated statement of income for fiscal year 2013 to conform to the presentation in fiscal year 2014. These reclassifications did not impact net income. The following tables summarize the impact of this reclassification (in thousands):

Fiscal Year 2013

2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation – The interim consolidated financial statements of the Company included herein include the assets, liabilities and results of operations of the Company’s wholly owned subsidiaries and the Company’s investment in, and the Company’s share of the income (loss) of, joint ventures recorded under the equity method. All significant inter-company accounts and transactions have been eliminated in consolidation. The interim consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the SEC, and reflect all adjustments (consisting of normal recurring adjustments) that are, in the opinion of management, necessary to fairly present the financial position, results of operations, and cash flows for the periods presented. The results for interim periods are not necessarily indicative of the results for the full year. As of May 31, 2014, all of the Company’s subsidiaries were wholly owned. Additionally, the Company’s ownership interest in real estate development joint ventures as of May 31, 2014 is listed below:

Real Estate Development Joint Ventures	Countries	Ownership	Basis of Presentation
GolfPark Plaza, S.A.	Panama	50.0	% Equity ⁽¹⁾
Price Plaza Alajuela PPA, S.A.	Costa Rica	50.0	% Equity ⁽¹⁾

⁽¹⁾Joint venture interests are recorded as investment in unconsolidated affiliates on the consolidated balance sheets.

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Variable Interest Entities – The Company reviews and determines at the start of each arrangement, or subsequently if a reconsideration event occurs, whether any of its investments in joint ventures are a Variable Interest Entity (“VIE”) and whether it must consolidate a VIE and/or disclose information about its involvement in a VIE. The Company has

determined that the joint ventures for GolfPark Plaza (Panama) and Price Plaza Alajuela (Costa Rica) are VIEs. The Company has determined that it is not the primary beneficiary of the VIEs and, therefore, has accounted for these entities under the equity method.

Cash and Cash Equivalents – Cash and cash equivalents represent cash and short-term investments with maturities of three months or less when purchased and proceeds due from credit and debit card transactions, which are generally settled within a few days of the underlying transaction.

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Restricted Cash – The changes in restricted cash are disclosed within the consolidated statement of cash flows based on the nature of the restriction. The following table summarizes the restricted cash reported by the Company (in thousands):

	May 31, 2014	August 31, 2013
Short-term restricted cash:		
Restricted cash for Honduras loan	\$ 1,200	\$ 1,200
Restricted cash in Honduras for purchase of property	—	3,148
Restricted cash in Colombia for property purchase agreements	247	1,599
Restricted cash for land purchase option agreements	850	—
Other short-term restricted cash ⁽¹⁾	59	37
Total short-term restricted cash	\$ 2,356	\$ 5,984
Long-term restricted cash:		
Restricted cash for Honduras loan	\$ 1,720	\$ 1,720
Restricted cash for Colombia bank loans	24,000	32,000
Other long-term restricted cash ⁽¹⁾	1,203	1,055
Total long-term restricted cash	\$ 26,923	\$ 34,775
Total restricted cash	\$ 29,279	\$ 40,759

(1) Other short-term and long-term restricted cash consists mainly of cash deposits held within banking institutions in compliance with federal regulatory requirements in Costa Rica and Panama.

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Value Added Tax Receivable - The Company pays Value Added Tax (“VAT”) or similar taxes (“input VAT”) within the normal course of its business in most of the countries it operates in on merchandise and/or services it acquires. The Company also collects VAT or similar taxes on behalf of the government (“output taxes”) for merchandise and/or services it sells. If the output VAT exceeds the input VAT, then the difference is remitted to the government, usually on a monthly basis. If the input VAT exceeds the output VAT, this creates a VAT receivable. The Company either requests a refund of this VAT receivable or applies the balance to expected future VAT payables. In some countries where the Company operates, the governments have implemented additional collection procedures, such as requiring credit card processors to remit a portion of sales processed via credit card directly to the government. These procedures alter the natural offset of input and output VAT and generally leaves the Company with a net VAT receivable, forcing the Company to process significant refund claims on a recurring basis. These refund processes can take anywhere from several months to several years to complete.

In most countries where the Company operates, the VAT refund process is defined and structured with regular refunds or offsets. However, in one country the government has alleged that there is no defined process in the law to allow them to refund this VAT receivable. The Company together with its tax and legal advisers is currently appealing this interpretation in court and based on recent favorable jurisprudence on this matter, expects to prevail. Additionally, the government has recently begun an audit to verify the amount of this receivable as a required precursor to any refund. Therefore, the Company has not placed any type of allowance on the recoverability of this VAT receivable. The balance of the VAT receivable in this country was \$4.9 million and \$4.3 million as of May 31, 2014 and August 31, 2013, respectively.

The Company's policy for classification and presentation of VAT receivables is as follows:

- Short-term VAT receivables, recorded as Other current assets: This classification is used for any countries where the Company's subsidiary has generally demonstrated the ability to recover the VAT receivable within one year. The Company also classifies as short-term any approved refunds or credit notes to the extent that the Company expects to receive the refund or use the credit notes within one year.

- Long-term VAT receivables, recorded as Other non-current assets: This classification is used for amounts not approved for refund or credit in countries where the Company's subsidiary has not demonstrated the ability to obtain refunds within one year and/or for amounts which are subject to outstanding disputes. An allowance is provided against VAT balances in dispute when the Company does not expect to eventually prevail in its recovery. The following table summarizes the VAT receivables reported by the Company (in thousands):

	May 31, 2014	August 31, 2013
Prepaid expenses and other current assets	\$4,607	\$5,458
Other non-current assets	\$16,726	\$12,875

Lease Accounting – Certain of the Company's operating leases where the Company is the lessee (see Revenue Recognition Policy for lessor accounting) provide for minimum annual payments that increase over the expected life of the lease. The aggregate minimum annual payments are expensed on the straight-line basis beginning when the Company takes possession of the property and extending over the expected term of the related lease including renewal options when the exercise of the option is reasonably assured as an economic penalty may be incurred if the option is not exercised. The amount by which straight-line rent exceeds actual lease payment requirements in the early years of the leases is accrued as deferred rent and reduced in later years when the actual cash payment requirements exceed the straight-line expense. The Company also accounts in its straight-line computation for the effect of any “rental holidays”

and lessor-paid tenant improvements. In addition to the minimum annual payments, in certain locations, the Company pays additional contingent rent based on a contractually stipulated percentage of sales.

Merchandise Inventories - Merchandise inventories, which include merchandise for resale, are valued at the lower of cost (average cost) or market. The Company provides for estimated inventory losses and obsolescence between physical inventory counts on the basis of a percentage of sales. The provision is adjusted periodically to reflect the trend of actual physical inventory count results, with physical inventories occurring primarily in the second and fourth fiscal quarters. In addition, the Company may be required to take markdowns below the carrying cost of certain inventory to expedite the sale of such merchandise.

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Fair Value Measurements – The Company measures the fair value for all financial and nonfinancial assets and liabilities that are recognized or disclosed at fair value in the consolidated financial statements on a recurring or nonrecurring basis. The fair value of an asset is the price at which the asset could be sold in an orderly transaction between unrelated, knowledgeable and willing parties able to engage in the transaction. A liability's fair value is defined as the amount that would be paid to transfer the liability to a new obligor in a transaction between such parties, not the amount that would be paid to settle the liability with the creditor.

The Company has established a three-tier fair value hierarchy, which prioritizes the inputs used in measuring and revaluing fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions. The Company was not required to revalue any assets or liabilities utilizing Level 1 or Level 3 inputs at the balance sheet dates. The Company's Level 2 assets and liabilities revalued at the balance sheet dates, on a recurring basis, primarily included cash flow hedges (interest rate swaps and cross-currency interest rate swaps) and forward foreign exchange contracts. In addition, the Company utilizes Level 2 inputs in determining the fair value of long-term debt. The Company has elected not to revalue long-term debt because this debt will be settled at the carrying value and not at the fair market value. The Company did not make any significant transfers in and out of Level 1 and Level 2 fair value tiers during the periods reported on herein.

Nonfinancial assets and liabilities are revalued and recognized at fair value subsequent to initial recognition when there is evidence of impairment. For the periods reported, no impairment of such nonfinancial assets was recorded.

The disclosure of fair value of certain financial assets and liabilities recorded at cost is as follows:

Cash and cash equivalents: The carrying value approximates fair value due to the short maturity of these instruments.

Short-term restricted cash: The carrying value approximates fair value due to the short maturity of these instruments.

Long-term restricted cash: Long-term restricted cash primarily consists of auto renewable 3-12 month certificates of deposit, which are held as collateral on our long-term debt. The carrying value approximates fair value due to the short maturity of the underlying certificates of deposit.

Accounts receivable: The carrying value approximates fair value due to the short maturity of these accounts.

Short-term debt: The carrying value approximates fair value due to the short maturity of these instruments.

Long-term debt: The fair value of debt is generally measured using a discounted cash flow analysis based on current market interest rates for similar types of financial instruments. These inputs are not quoted prices in active markets but they are either directly or indirectly observable; therefore, they are classified as Level 2 inputs. The carrying value and fair value of the Company's debt as of May 31, 2014 and August 31, 2013 is as follows (in thousands):

May 31, 2014		August 31, 2013	
Carrying Value	Fair Value	Carrying Value	Fair Value

Edgar Filing: PRICESMART INC - Form 10-Q

Long-term debt, including current portion	\$ 94,095	\$ 100,292	\$ 73,020	\$ 72,576

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Derivatives Instruments and Hedging Activities - The Company uses derivative financial instruments for hedging and non-trading purposes to manage its exposure to changes in interest and currency exchange rates. In using derivative financial instruments for the purpose of hedging the Company's exposure to interest and currency exchange rate risks, the contractual terms of a hedged instrument closely mirror those of the hedged item, providing a high degree of risk reduction and correlation. Contracts that are effective at meeting the risk reduction and correlation criteria (effective hedge) are recorded using hedge accounting. If a derivative financial instrument is an effective hedge, changes in the fair value of the instrument will be offset in accumulated other comprehensive income (loss) until the hedged item completes its contractual term. If any portion of the hedge is deemed ineffective, the change in fair value of the hedged assets or liabilities will be immediately recognized in earnings during the period. Instruments that do not meet the criteria for hedge accounting, or contracts for which the Company has not elected hedge accounting, are valued at fair value with unrealized gains or losses reported in earnings during the period of the change. Valuation techniques utilized in the fair value measurement of assets and liabilities presented on the Company's consolidated balance sheets were not changed from previous practice during the reporting period.

Cash Flow Instruments. The Company is a party to receive floating interest rate, pay fixed-rate interest rate swaps to hedge the interest rate risk of certain U.S. denominated debt within its international subsidiaries whose functional currency is other than the U.S. dollar. The swaps are designated as cash flow hedges of interest expense risk. These instruments are considered effective hedges and are recorded using hedge accounting. The Company is also a party to receive variable interest rate, pay fixed interest rate cross-currency interest rate swaps to hedge the interest rate and currency exposure associated with the expected payments of principal and interest of U.S. denominated debt within its international subsidiaries whose functional currency is other than the U.S. dollar. The swaps are designated as cash flow hedges of the currency risk related to payments on the U.S. denominated debt. These instruments are also considered to be effective hedges and are recorded using hedge accounting. Under cash flow hedging, the effective portion of the fair value of the derivative, calculated as the net present value of the future cash flows, is deferred on the consolidated balance sheets in accumulated other comprehensive loss. If any portion of an interest rate swap is determined to be an ineffective hedge, the gains or losses from changes in fair value would be recorded directly in the consolidated statements of income. If a cash flow hedge that was previously considered effective is later determined to be an ineffective hedge, amounts previously recorded in accumulated other comprehensive gain or loss are released to earnings in the same period that the hedged transaction has been determined to be ineffective. See Note 9 - Derivative Instruments and Hedging Activities for information on the fair value of interest rate swaps and cross-currency interest rate swaps as of May 31, 2014 and August 31, 2013.

Fair Value Instruments. The Company is exposed to foreign-currency exchange-rate fluctuations in the normal course of business. The Company is also exposed to foreign-currency exchange-rate fluctuations on U.S. dollar denominated liabilities within its international subsidiaries whose functional currency is other than the U.S. dollar. From time to time, the Company manages these fluctuations, in part, through the use of non-deliverable forward foreign-exchange contracts that are intended to offset changes in cash flow attributable to currency exchange movements. The contracts are intended primarily to economically address exposure to U.S. dollar merchandise inventory expenditures made by the Company's international subsidiaries whose functional currency is other than the U.S. dollar. These contracts generally are treated for accounting purposes as fair value instruments and do not qualify for derivative hedge accounting. As a result, these contracts are valued at fair value with unrealized gains or losses reported in earnings during the period of the change. The Company seeks to mitigate foreign-currency exchange-rate risk with the use of these contracts and does not intend to engage in speculative transactions. These contracts do not contain any credit-risk-related contingent features.

The Company seeks to manage counterparty risk associated with these contracts by limiting transactions to counterparties with which the Company has an established banking relationship. There can be no assurance, however, that this practice effectively mitigates counterparty risk. The contracts are limited to less than one year in duration. See Note 9 - Derivative Instruments and Hedging Activities for information on the fair value of open, unsettled forward foreign-exchange contracts as of May 31, 2014 and August 31, 2013.

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The following table summarizes financial assets and liabilities measured and recorded at fair value on a recurring basis in the Company's consolidated balance sheet as of May 31, 2014 and August 31, 2013 (in thousands) for derivatives that qualify for hedge accounting:

Assets and Liabilities as of May 31, 2014	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Prepaid expenses and other current assets (Cross-currency interest rate swaps)	\$—	\$ 378	\$—	\$ 378
Other non-current assets - (Cross-currency interest rate swaps)	—	729	—	729
Other long-term liabilities – (Interest rate swaps)	—	(28) —	(28)
Other long-term liabilities – (Cross-currency interest rate swaps)	—	(76) —	(76)
Total	\$—	\$ 1,003	\$—	\$ 1,003
Assets and Liabilities as of August 31, 2013	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Prepaid expenses and other current assets (Cross-currency interest rate swaps)	\$—	\$—	\$—	\$—
Other non-current assets - (Cross-currency interest rate swaps)	—	1,505	—	1,505
Other long-term liabilities – (Interest rate swaps)	—	(14) —	(14)
Other long-term liabilities – (Cross-currency interest rate swaps)	—	—	—	—
Total	\$—	\$ 1,491	\$—	\$ 1,491

The Company held no derivatives as of May 31, 2014 and August 31, 2013 that did not qualify for hedge accounting. As of May 31, 2014 and August 31, 2013, the Company had no significant measurements of financial assets or liabilities at fair value on a nonrecurring basis.

Goodwill – The table below presents goodwill resulting from certain business combinations as of May 31, 2014 and August 31, 2013 (in thousands). The change in goodwill is a result of foreign exchange translation losses.

May 31, 2014	August 31, 2013	Change
--------------	-----------------	--------

Edgar Filing: PRICESMART INC - Form 10-Q

Goodwill	\$36,176	\$36,364	\$(188)
----------	----------	----------	--------	---

The Company reviews goodwill at the entity level for impairment. The Company first reviews qualitative factors for each reporting unit, in determining if an annual goodwill test is required. If the Company's review of qualitative factors indicates a requirement for a test of goodwill impairment, the Company then will assess whether the carrying amount of a reporting unit is greater than zero and exceeds its fair value established during the Company's prior test of goodwill impairment ("established fair value"). If the carrying amount of a reporting unit at the entity level is greater than zero and its established fair value exceeds its carrying amount, goodwill of the reporting unit is considered not impaired. If either the carrying amount of the reporting unit is

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

not greater than zero or if the carrying amount of the entity exceeds its established fair value, the Company performs a second test to determine whether goodwill has been impaired and to calculate the amount of that impairment.

Revenue Recognition – The Company recognizes merchandise sales revenue when title passes to the customer. Membership income represents annual membership fees paid by the Company's warehouse club members, which are recognized ratably over the 12-month term of the membership. Membership refunds are prorated over the remaining term of the membership; accordingly, no refund reserve is required to be established for the periods presented. The Company recognizes and presents revenue-producing transactions on a net of value added/sales tax basis.

The Company began offering Platinum memberships in Costa Rica during fiscal year 2013, which provides members with a 2% rebate on most items, up to an annual maximum of \$500.00. Platinum members can apply this rebate to future purchases at the warehouse club at the end of the annual membership period. The Company records this 2% rebate as a reduction of revenue at the time of the sales transaction. Accordingly, the Company has reduced warehouse sales and has accrued a liability within other accrued expenses. The rebate expires within six months of the membership renewal date. However, the Company has determined that in the absence of relevant historical experience, the Company is not able to make a reasonable estimate of rebate redemptions and accordingly has assumed a 100% redemption rate. The Company periodically reviews expired unused rebates outstanding, and the expired unused rebates are recognized as Revenues: Other income on the consolidated statements of income. The Company recognizes gift certificate sales revenue when the certificates are redeemed. The outstanding gift certificates are reflected as other accrued expenses in the consolidated balance sheets. These gift certificates generally have a one-year stated expiration date from the date of issuance. However, the absence of a large volume of transactions for gift certificates impairs the Company's ability to make a reasonable estimate of the redemption levels for gift certificates. Therefore, the Company assumes a 100% redemption rate that is the equivalent of no breakage prior to expiration of the gift certificate. The Company periodically reviews unredeemed outstanding gift certificates, and the gift certificates that have expired are recognized as Revenues: Other income on the consolidated statements of income.

Operating leases, where the Company is the lessor, with lease payments that have fixed and determinable rent increases are recognized as revenue on a straight-line basis over the expected lease term. The Company also accounts in its straight-line computation for the effect of any "rental holidays." Contingent rental revenue is recognized as the contingent rent becomes due per the individual lease agreements.

Cost of Goods Sold – The Company includes the cost of merchandise, food service and bakery raw materials, and one hour photo supplies in cost of goods sold. The Company also includes in cost of goods sold the external and internal distribution and handling costs for supplying merchandise, raw materials and supplies to the warehouse clubs. External costs include inbound freight, duties, drayage, fees, insurance, and non-recoverable value-added tax related to inventory shrink, spoilage and damage. Internal costs include payroll and related costs, utilities, consumable supplies, repair and maintenance, rent expense, building and equipment depreciation at its distribution facilities and payroll and other direct costs for in-store demonstrations.

Vendor consideration consists primarily of volume rebates, time-limited product promotions, slotting fees, demonstration reimbursements and prompt payment discounts. Volume rebates that are not threshold-based are incorporated into the unit cost of merchandise reducing the inventory cost and cost of goods sold. Volume rebates that are threshold-based are recorded as a reduction to cost of good sold when the Company achieves established purchase levels that are confirmed by the vendor in writing or upon receipt of funds. On a quarterly basis, the Company calculates the amount of rebates recorded in cost of goods sold that relates to inventory on hand and this amount is

reclassified as a reduction to inventory. Product promotions are generally linked to coupons that provide for reimbursement to the Company from vendor rebates for the product being promoted. Slotting fees are related to consideration received by the Company from vendors for preferential "end cap" placement of the vendor's products within the warehouse club. Demonstration reimbursements are related to consideration received by the Company from vendors for the in-store promotion of the vendors' products. The Company records the reduction in cost of goods sold on a transactional basis for these programs. Prompt payment discounts are taken in substantially all cases, and therefore, are applied directly to reduce the acquisition cost of the related inventory, with the resulting effect recorded to cost of goods sold when the inventory is sold.

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Selling, General and Administrative – Selling, general and administrative costs are comprised primarily of expenses associated with warehouse operations. Warehouse operations include the operating costs of the Company's warehouse clubs, including all payroll and related costs, utilities, consumable supplies, repair and maintenance, rent expense, building and equipment depreciation, and bank and credit card processing fees. Also included in selling, general and administrative expenses are the payroll and related costs for the Company's U.S. and regional purchasing and management centers.

Pre-Opening Costs – The Company expenses pre-opening costs (the costs of start-up activities, including organization costs and rent) as incurred.

Asset Impairment Costs – The Company periodically evaluates its long-lived assets for indicators of impairment. Management's judgments are based on market and operational conditions at the time of the evaluation and can include management's best estimate of future business activity. These periodic evaluations could cause management to conclude that impairment factors exist, requiring an adjustment of these assets to their then-current fair value. Future business conditions and/or activity could differ materially from the projections made by management causing the need for additional impairment charges.

Contingencies and Litigation – The Company records and reserves for loss contingencies if (a) information available prior to issuance of the consolidated financial statements indicates that it is probable that an asset had been impaired or a liability had been incurred at the date of the consolidated financial statements and (b) the amount of loss can be reasonably estimated. If one or both criteria for accrual are not met, but there is at least a reasonable possibility that a loss will occur, the Company does not record and reserve for a loss contingency but describes the contingency within a note and provides detail, when possible, of the estimated potential loss or range of loss. If an estimate cannot be made, a statement to that effect is made.

Foreign Currency Translation – The assets and liabilities of the Company's foreign operations are translated to U.S. dollars when the functional currency in the Company's international subsidiaries is the local currency and not U.S. dollars. Assets and liabilities of these foreign subsidiaries are translated to U.S. dollars at the exchange rate on the balance sheet date, and revenue, costs and expenses are translated at average rates of exchange in effect during the period. The corresponding translation gains and losses are recorded as a component of accumulated other comprehensive income or loss. These adjustments will affect net income upon the sale or liquidation of the underlying investment. Monetary assets and liabilities denominated in currencies other than the functional currency of the respective entity (primarily U.S. Dollars) are revalued to the functional currency using the exchange rate on the balance sheet date. These foreign exchange transaction gains (losses), including transactions recorded involving these monetary assets and liabilities, are recorded as Other income (expense) in the consolidated statements of income. The following table summarizes the amounts recorded for the three and nine month periods ending May 31, 2014 and 2013 (in thousands):

	Three Months Ended		Nine Months Ended	
	May 31, 2014	May 31, 2013	May 31, 2014	May 31, 2013
Currency gain (loss)	\$ 489	\$(785)) \$ 1,512	\$(1,051)

Income Taxes – The Company accounts for income taxes using the asset and liability method. Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributed to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax

bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences and carry-forwards are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is established when necessary to reduce deferred tax assets to amounts expected to be realized.

The Company and its subsidiaries are required to file federal and state income tax returns in the United States and various other tax returns in foreign jurisdictions. The preparation of these tax returns requires the Company to interpret the applicable tax laws and regulations in effect in such jurisdictions, which could affect the amount of tax paid by the Company. The Company, in consultation with its tax advisors, bases its tax returns on interpretations that are believed to be reasonable under the circumstances. The tax returns, however, are subject to routine reviews by the various federal, state and foreign taxing authorities in the jurisdictions in which the Company or one of its subsidiaries files tax returns. As part of these reviews, a taxing authority may disagree with respect to the income tax positions taken by the Company (“uncertain tax positions”) and, therefore, require the Company or one of its subsidiaries to pay additional taxes.

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The Company accrues an amount for its estimate of probable additional income tax liability. In certain cases, the impact of an uncertain income tax position on the income tax return must be recognized at the largest amount that is more-likely-than-not to be sustained upon audit by the relevant tax authority. An uncertain income tax position will not be recognized if it has less than 50% likelihood of being sustained. This requires significant judgment, the use of estimates, and the interpretation and application of complex tax laws. When facts and circumstances change, the Company reassesses these probabilities and records any changes in the consolidated financial statements as appropriate. There were no material changes in the Company's uncertain income tax positions for the periods ended May 31, 2014 and 2013. However, during the nine months ended May 31, 2014, the Company was required to make a payment to the government in one country with respect to an income tax case that it is currently appealing, but continues to believe it will eventually prevail. The total amount remitted to the government on this case as of this date is \$2.6 million. This amount has been recorded in the balance sheet as Other non-current assets, as the Company considers this a payment on account and expects to get a refund thereof upon eventually prevailing on this case.

The following tables present a reconciliation of the effective tax rate for the periods presented:

	Three Months Ended		Nine Months Ended	
	May 31, 2014	May 31, 2013	May 31, 2014	May 31, 2013
Federal tax provision at statutory rates	35.0	%	35.0	%
State taxes, net of federal benefit	0.3		0.3	
Differences in foreign tax rates	(7.1))	(5.5))
Permanent items and other adjustments	4.5		1.2	
Increase (decrease) in foreign valuation allowance	(1.8))	(0.6))
Provision for income taxes	30.9	%	30.4	%

The variance in the effective tax rate for the three-month period ended on May 31, 2014 compared to the same period of the prior year was primarily attributable to a 2.8% favorable impact resulting from a greater proportion of income falling into low tax jurisdictions and a favorable impact of 1.8% resulting from the reduction in valuation allowance against net deferred tax assets of the Company's Colombia subsidiary offset by 1.7% due to permanent adjustments relating to the tax effect of foreign currency exchange gains/losses.

The variance in the effective tax rate for the first nine months of the period ended on May 31, 2014 compared to the same period of the prior year was primarily attributable to the favorable impact of 1.1% resulting from a greater proportion of income falling into low tax jurisdictions, the favorable impact of 1.1% resulting from the reduction in valuation allowance against net deferred tax assets of the Company's Colombia subsidiary, and the offsetting impact of 0.9% due to permanent adjustments relating to the tax effect of foreign currency exchange gains/losses.

Recent Accounting Pronouncements

FASB ASC 606 ASU 2014-09 - Revenue from contracts with customers.

In May 2014, the FASB issued amended guidance on contracts with customers to transfer goods or services or contracts for the transfer of nonfinancial assets, unless those contracts are within the scope of other standards (e.g., insurance contracts or lease contracts). The guidance requires an entity to recognize revenue on contracts with customers to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance requires that an entity depict the consideration by applying the following steps:

Step 1: Identify the contract(s) with a customer.

Step 2: Identify the performance obligations in the contract.

Step 3: Determine the transaction price.

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Step 4: Allocate the transaction price to the performance obligations in the contract.

Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation.

The amendments in this ASU are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted. This amendment is to be either retrospectively adopted to each prior reporting period presented or retrospectively with the cumulative effect of initially applying this ASU recognized at the date of initial application. Adoption of this guidance is not expected to have a material impact on the Company's consolidated financial statements.

FASB ASC 405 ASU 2013-04 - Obligations resulting from joint and several liability arrangements.

In February 2013, the FASB issued amendments providing guidance for the recognition, measurement, and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this update is fixed at the reporting date, except for obligations addressed within existing guidance in U.S. GAAP. The guidance requires an entity to measure those obligations as the sum of the amount the reporting entity agreed to pay on the basis of its arrangement among its co-obligors and any additional amount the reporting entity expects to pay on behalf of its co-obligors. The guidance in this update also requires an entity to disclose the nature and amount of the obligation as well as other information about those obligations. The amendment was retrospectively effective for the Company as of September 1, 2013. Adoption of this guidance did not have a material impact on the Company's consolidated financial statements.

FASB ASC 220 ASU 2013-02 - Reporting of amounts reclassified out of accumulated other comprehensive income.

In February 2013, the FASB issued amended guidance for the presentation requirements for reclassifications out of accumulated other comprehensive income. The amendment requires the Company to provide additional information about reclassifications of accumulated other comprehensive income. The amendment was effective as of March 1, 2013. The Company adopted this guidance on March 1, 2013. Adoption of this guidance did not have a material impact on the Company's consolidated financial statements.

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

NOTE 3 – PROPERTY AND EQUIPMENT

Property and equipment are stated at historical cost. The historical cost of acquiring an asset includes the costs incurred to bring it to the condition and location necessary for its intended use. Depreciation is computed on the straight-line basis over the estimated useful lives of the assets. The useful life of fixtures and equipment ranges from three to 15 years and that of certain components of building improvements and buildings from 10 to 25 years. Leasehold improvements are amortized over the shorter of the life of the improvement or the expected term of the lease. In some locations, leasehold improvements are amortized over a period longer than the initial lease term where management believes it is reasonably assured that the renewal option in the underlying lease will be exercised as an economic penalty may be incurred if the option is not exercised. The sale or purchase of property and equipment is recognized upon legal transfer of property. For property and equipment sales, if any long-term notes are carried by the Company as part of the sales terms, the sale is reflected at the net present value of current and future cash streams.

Property and equipment consist of the following (in thousands):

	May 31, 2014	August 31, 2013
Land	\$ 123,499	\$ 100,108
Building and improvements	243,996	228,257
Fixtures and equipment	141,579	119,242
Construction in progress	34,732	23,657
Total property and equipment, historical cost	543,806	471,264
Less: accumulated depreciation	(147,057)) (132,786)
Property and equipment, net	\$ 396,749	\$ 338,478

Depreciation and amortization expense (in thousands):

	Three Months Ended May 31,		Nine Months Ended May 31,	
	2014	2013	2014	2013
Depreciation and amortization expense	\$ 7,139	\$ 6,228	\$ 20,932	\$ 17,943

The Company capitalizes interest on expenditures for qualifying assets over a period that covers the duration of the activities required to get the asset ready for its intended use, provided that expenditures for the asset have been made and interest cost is being incurred. Interest capitalization continues as long as those activities and the incurrence of interest cost continues. The amount capitalized in an accounting period is determined by applying the capitalization rate (average interest rate) to the average amount of accumulated expenditures for the qualifying asset during the period. The capitalization rates are based on the interest rates applicable to borrowings outstanding during the period. Total interest capitalized (in thousands):

	As of May 31, 2014	As of August 31, 2013

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

NOTE 4 – EARNINGS PER SHARE

The Company presents basic and diluted net income per share using the two-class method. The two-class method is an earnings allocation formula that treats a participating security as having rights to earnings that otherwise would have been available to common stockholders and that determines basic net income per share for each class of common stock and participating security according to dividends declared (or accumulated) and participation rights in undistributed earnings that would have been available to common stockholders. A participating security is defined as a security that may participate in undistributed earnings with common stock. The Company's capital structure includes securities that participate with common stock on a one-for-one basis for distribution of dividends. These are the restricted stock awards authorized within the 2002 and 2013 Equity Participation Plans/Equity Incentive Awards Plan of the Company and restricted stock units authorized within the 2001, 2002 and 2013 Equity Participation Plans/Equity Incentive Awards Plan. In addition, the Company determines the diluted net income per share by using the more dilutive of the two class-method or the treasury stock method and by including the basic weighted average of outstanding stock options in the calculation of diluted net income per share under the two-class method and including all potential common shares assumed issued in the calculation of diluted net income per share under the treasury stock method.

The following table sets forth the computation of net income per share for the three and nine months ended May 31, 2014 and 2013 (in thousands, except per share amounts):

	Three Months Ended May 31,		Nine Months Ended May 31,	
	2014	2013	2014	2013
Net income	\$ 21,320	\$ 18,539	\$ 71,030	\$ 63,426
Less: Allocation of income to unvested stockholders	(348)	(372)	(1,296)	(1,344)
Net earnings available to common stockholders	\$ 20,972	\$ 18,167	\$ 69,734	\$ 62,082
Basic weighted average shares outstanding	29,784	29,683	29,733	29,634
Add dilutive effect of stock options (two-class method)	8	9	10	10
Diluted average shares outstanding	29,792	29,692	29,743	29,644
Basic net income per share	\$ 0.70	\$ 0.61	\$ 2.35	\$ 2.09
Diluted net income per share	\$ 0.70	\$ 0.61	\$ 2.34	\$ 2.09

NOTE 5 – STOCKHOLDERS' EQUITY

Dividends

The following table summarizes the dividends declared and paid during fiscal year 2014 and 2013.

Declared	Amount	First Payment		Date Payable	Amount	Second Payment		Date Payable	Amount
		Record Date	Date Paid			Record Date	Date Paid		
1/23/14	\$ 0.70	2/14/14	2/28/14	N/A	\$ 0.35	8/15/14	N/A	8/29/14	\$ 0.35
11/27/12	\$ 0.60	12/10/12	12/21/12	N/A	\$ 0.30	8/15/13	8/30/13	N/A	\$ 0.30

The Company anticipates the ongoing payment of semi-annual dividends in subsequent periods, although the actual declaration of future dividends, the amount of such dividends, and the establishment of record and payment dates is subject to final determination by the Board of Directors at its discretion after its review of the Company's financial performance and anticipated capital requirements.

PRICESMART, INC.

Comprehensive Income and Accumulated Other Comprehensive Loss

The following tables disclose the tax effects allocated to each component of other comprehensive income (loss) (in thousands):

	Three Months Ended May 31, 2014			2013		
	Before-Tax Amount	Tax (expense) or benefit	Net-of-Tax Amount	Before-Tax Amount	Tax (expense) or benefit	Net-of-Tax Amount
Foreign currency translation adjustments ⁽¹⁾	\$3,929	\$—	\$3,929	\$(2,073)	\$—	\$(2,073)
Defined benefit pension plans:						
Net gain (loss) arising during period	6	(1)	5	1	(3)	(2)
Total defined pension plans	6	(1)	5	1	(3)	(2)
Unrealized gains (losses) on change in fair value of interest rate swaps ⁽²⁾	(1,857)	514	(1,343)	2,558	(335)	2,223
Other comprehensive income (loss)	\$2,078	\$513	\$2,591	\$486	\$(338)	\$148

	Nine Months Ended May 31, 2014			2013		
	Before-Tax Amount	Tax (expense) or benefit	Net-of-Tax Amount	Before-Tax Amount	Tax (expense) or benefit	Net-of-Tax Amount
Foreign currency translation adjustments ⁽¹⁾	\$(8,443)	\$—	\$(8,443)	\$(5,083)	\$—	\$(5,083)
Defined benefit pension plans:						
Net gain (loss) arising during period	18	(2)	16	2	(1)	1
Total defined pension plans	18	(2)	16	2	(1)	1
Unrealized gains (losses) on change in fair value of interest rate swaps ⁽²⁾	(489)	68	(421)	1,974	(366)	1,608
Other comprehensive income (loss)	\$(8,914)	\$66	\$(8,848)	\$(3,107)	\$(367)	\$(3,474)

Translation adjustments arising in translating the financial statements of a foreign entity have no effect on the income taxes of that foreign entity. They may, however, affect: (a) the amount, measured in the parent entity's reporting currency, of withholding taxes assessed on dividends paid to the parent entity and (b) the amount of taxes assessed on the parent entity by the government of its country. The Company has determined that the reinvestment of earnings of its foreign subsidiaries are indefinite because of the long-term nature of the Company's foreign investment plans. Therefore, deferred taxes are not provided for on translation adjustments related to non-remitted earnings of the Company's foreign subsidiaries.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Retained Earnings Not Available for Distribution

The following table summarizes retained earnings designated as legal reserves of various subsidiaries which cannot be distributed as dividends to PriceSmart, Inc. according to applicable statutory regulations (in thousands):

	May 31, 2014	August 31, 2013
Retained earnings not available for distribution	\$4,529	\$4,171

NOTE 6 – STOCK BASED COMPENSATION

The three types of equity awards offered by the Company are stock options (“options”), restricted stock awards (“RSAs”) and restricted stock units (“RSUs”). Compensation related to options is accounted for by applying the valuation technique based on the Black-Scholes model. Compensation related to RSAs and RSUs is based on the fair market value at the time of grant with the application of an estimated forfeiture rate. The Company recognizes the compensation cost related to these awards over the requisite service period as determined by the grant, amortized ratably or on a straight line basis over the life of the grant. The Company utilizes “modified grant-date accounting” for true-ups due to actual forfeitures at the vesting dates. The Company records the tax savings resulting from tax deductions in excess of expense for stock-based compensation as additional paid-in capital and the tax deficiency resulting from stock-based compensation in excess of the related tax deduction as a reduction in paid-in capital, based on the Tax Law Ordering method. In addition, the Company reflects the tax savings (deficiency) resulting from the taxation of stock-based compensation as a financing cash flow in its consolidated statement of cash flows, rather than as operating cash flows.

RSAs have the same cash dividend and voting rights as other common stock and are considered to be currently issued and outstanding shares of common stock. RSUs are not issued nor outstanding until vested and do not have the same dividend and voting rights as common stock. However, all outstanding RSUs have accompanying dividend equivalents, requiring payment to the employees and directors with unvested RSUs of amounts equal to the dividend they would have received had the shares of common stock underlying the RSUs been actually issued and outstanding. Payments of dividend equivalents to employees are recorded as compensation expense.

The Company adopted the 2013 Equity Incentive Award Plan (the “2013 Plan”) for the benefit of its eligible employees, consultants and non-employee directors on January 22, 2013. The 2013 Plan provides for awards covering up to (1) 600,000 shares of common stock plus (2) the number of shares that remained available for issuance as of January 22, 2013 under three equity participation plans previously maintained by the Company. The number of shares reserved for issuance under the 2013 Plan increases during the term of the plan by the number of shares relating to awards outstanding under the 2013 Plan or any of the prior plans that expire, or are forfeited, terminated, canceled or repurchased, or are settled in cash in lieu of shares. However, in no event will more than an aggregate of 1,531,818 shares of the Company’s common stock be issued under the 2013 Plan. The following table summarizes the shares authorized and shares available for future grants:

	Shares authorized for issuance (including shares originally authorized for issuance under the prior plans)	Shares available to grant	
		May 31, 2014	August 31, 2013
2013 Plan	838,766	820,916	782,385

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The following table summarizes the components of the stock-based compensation expense (in thousands), which are included in general and administrative expense and warehouse club operations in the consolidated statements of income:

	Three Months Ended May 31,		Nine Months Ended May 31,	
	2014	2013	2014	2013
Options granted to directors	\$ 27	\$ 29	\$ 64	\$ 83
Restricted stock awards	1,276	1,120	4,059	4,104
Restricted stock units	246	213	747	667
Stock-based compensation expense	\$ 1,549	\$ 1,362	\$ 4,870	\$ 4,854

The following table summarizes other information related to stock-based compensation:

	May 31, 2014	2013
Remaining unrecognized compensation cost (in thousands)	\$ 26,199	\$ 26,552
Weighted average period of time over which this cost will be recognized (years)	6	7
Excess tax benefit (deficiency) on stock-based compensation (in thousands)	\$ 1,473	\$ 1,271

The Company began issuing restricted stock awards in fiscal year 2006 and restricted stock units in fiscal year 2008. The restricted stock awards and units vest over a five to ten year period and the unvested portion of the award is forfeited if the employee or non-employee director leaves the Company before the vesting period is completed. Restricted stock awards and units activity for the period was as follows:

	Nine Months Ended May 31,	
	2014	2013
Grants outstanding at beginning of period	623,424	700,893
Granted	12,325	57,866
Forfeited	(2,048)	(2,547)
Vested	(140,182)	(130,108)
Grants outstanding at end of period	493,519	626,104

The following table summarizes the weighted average per share grant date fair value for restricted stock awards and units for the period:

	Nine Months Ended May 31,	
	2014	2013
Weighted Average Grant Date Fair Value		
Restricted stock awards and units granted	\$ 109.18	\$ 80.44
Restricted stock awards and units vested	\$ 39.47	\$ 39.06
Restricted stock awards and units forfeited	\$ 49.37	\$ 30.88

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The following table summarizes the total fair market value of restricted stock awards and units vested for the period (in thousands):

	Nine Months Ended May 31,	
	2014	2013
Total fair market value of restricted stock awards and units vested	\$ 13,222	\$ 10,102

At the vesting dates of restricted stock awards, the Company repurchases shares at the prior day's closing price per share, with the funds used to pay the employees' minimum statutory tax withholding requirements. The Company expects to continue this practice going forward. The following table summarizes this activity during the period:

	Nine Months Ended May 31,	
	2014	2013
Shares repurchased	48,808	42,434
Cost of repurchase of shares (in thousands)	\$4,601	\$ 3,286

The Company reissues treasury shares as part of its stock-based compensation programs. The following table summarizes the treasury shares reissued:

	Nine Months Ended May 31,	
	2014	2013
Reissued treasury shares	—	—

The following table summarizes the stock options outstanding:

	May 31, 2014	August 31, 2013
Stock options outstanding	23,000	28,000

Due to the substantial shift from the use of stock options to restricted stock awards and units, the Company believes stock option activity is no longer significant and that any further disclosure on options is not necessary.

NOTE 7 – COMMITMENTS AND CONTINGENCIES

Legal Proceedings

From time to time, the Company and its subsidiaries are subject to legal proceedings, claims and litigation arising in the ordinary course of business and property ownership. The Company evaluates such matters on a case by case basis, and vigorously contests any such legal proceedings or claims which the Company believes are without merit. The Company establishes an accrual for legal proceedings if and when those matters reach a stage where they present loss contingencies that are both probable and reasonably estimable. In such cases, there may be a possible exposure to loss in excess of any amounts accrued. The Company monitors those matters for developments that would affect the likelihood of a loss and the accrued amount, if any, thereof, and adjusts the amount as appropriate. If the loss contingency at issue is not both probable and reasonably estimable, the Company does not establish an accrual, but will continue to monitor the matter for developments that will make the loss contingency both probable and

reasonably estimable. If it is at least a reasonable possibility that a material loss will occur, the Company will provide disclosure regarding the contingency. The Company believes that the final disposition of the pending legal proceedings, claims and litigation will not have a material adverse effect on its financial position, results of operations or liquidity. It is possible,

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

however, that the Company's future results of operations for a particular quarter or fiscal year could be impacted by changes in circumstances relating to such matters.

Taxes

The Company is required to file federal and state tax returns in the United States and various other tax returns in foreign jurisdictions. The preparation of these tax returns requires the Company to interpret the applicable tax laws and regulations in effect in such jurisdictions, which could affect the amount of tax paid by the Company. The Company, in consultation with its tax advisors, bases its tax returns on interpretations that are believed to be reasonable under the circumstances. The tax returns, however, are subject to routine reviews by the various taxing authorities in the jurisdictions in which the Company files its returns. As part of these reviews, a taxing authority may disagree with respect to the interpretations the Company used to calculate its tax liability and therefore require the Company to pay additional taxes.

The Company accrues an amount for its estimate of probable additional income tax liability. In certain cases, the impact of an uncertain income tax position on the income tax return must be recognized at the largest amount that is more-likely-than-not to be sustained upon audit by the relevant tax authority. An uncertain income tax position will not be recognized if it has less than 50% likelihood of being sustained.

In evaluating the exposure associated with various non-income tax filing positions, the Company accrues for probable and estimable exposures for non-income tax related tax contingencies. As of May 31, 2014 and August 31, 2013, the Company had recorded within other accrued expenses a total of \$2.9 million for various non-income tax related tax contingencies.

While the Company believes the recorded liabilities are adequate, there are inherent limitations in projecting the outcome of litigation, in estimating probable additional income tax liability taking into account uncertain tax positions and in evaluating the probable additional tax associated with various non-income tax filing positions. As such, the Company is unable to make a reasonable estimate of the sensitivity to change of estimates affecting its recorded liabilities. As additional information becomes available, the Company assesses the potential liability and revises its estimates as appropriate.

Other Commitments

The Company is committed under non-cancelable operating leases for the rental of facilities and land. Future minimum lease commitments for facilities under these leases with an initial term in excess of one year are as follows (in thousands):

Years ended May 31,	Open Locations ⁽¹⁾
2015	\$8,720
2016	8,378
2017	9,064
2018	9,409
2019	9,230
Thereafter	93,239

Total	\$ 138,040	(2)
-------	------------	-----

(1) Operating lease obligations have been reduced by approximately \$597,000 to reflect sub-lease income. Certain obligations under leasing arrangements are collateralized by the underlying asset being leased.

On January 30, 2014, the Company entered into a lease agreement for approximately 126,000 usable square feet (11,667 usable square meters) of land in the city of Bogota, Colombia, upon which the Company plans to construct a new warehouse club. The lease term is for 30 years with two options to renew at the Company's discretion for ten years each. The total expected payments under the initial term of this lease are included within the table and makes up part of the total lease commitments.

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The Company will record the monthly lease expense in pre-opening expenses while the warehouse club is under construction. Upon opening, these expenses will be recognized in warehouse club operations expense.

The Company is also committed to non-cancelable construction services obligations for various warehouse club developments and expansions. As of May 31, 2014 the Company has approximately \$25.4 million in contractual obligations for construction services not yet rendered.

The Company has entered into land purchase option agreements that have not been recorded as commitments, for which the Company has recorded within the balance sheet approximately \$1.3 million in restricted cash deposits and prepaid expenses. The land purchase option agreements can be canceled at the sole option of the Company. The Company does not have a time table of when or if it will exercise these land purchase options, due to the uncertainty related to the completion of the Company's due diligence review. The Company's due diligence review includes evaluations of the legal status of the property, the zoning and permitting issues related to acquiring approval for the construction and operation of a warehouse club and any other issues related to the property itself that could render the property unsuitable or limit the property's economic viability as a warehouse club site. If the purchase option agreements are all exercised, the cash use would be approximately \$31.0 million.

See Note 10 - Unconsolidated Affiliates for a description of additional capital contributions that may be required in connection with joint ventures to develop commercial centers adjacent to PriceSmart warehouse clubs in Panama and Costa Rica.

The Company contracts for distribution center services in Mexico. The contract for this distribution center's services was renewed on December 31, 2011 for an additional three years, with the applicable fees and rates to be reviewed at the beginning of each calendar year. Future minimum service commitments related to this contract through the end of the contract term is approximately \$73,000.

NOTE 8 – DEBT

Short-term borrowings consist of lines of credit which are secured by certain assets of the Company and its subsidiaries and in some cases are guaranteed by the Company as summarized below (in thousands):

	Total Amount of	Facilities Used			Weighted average
	Facilities	Short-term	Letters of Credit	Facilities	interest rate
		Borrowings		Available	
May 31, 2014	\$35,895	\$—	\$398	\$35,497	N/A
August 31, 2013	\$35,863	\$—	\$588	\$35,275	N/A

Each of the facilities expires annually and is normally renewed.

Annual maturities of long-term debt are as follows (in thousands):

Twelve months ended May 31,	Amount
2015	\$15,742
2016	25,176
2017	15,405

2018	7,700
2019	18,600
Thereafter	11,472
Total	\$94,095

On March 31, 2014, the Company's Panama subsidiary entered into a loan agreement with The Bank of Nova Scotia. The agreement establishes a credit facility of \$34.0 million at a variable interest rate of 30-day LIBOR plus 3.5% for a five year term, monthly principal and interest payments, and a \$17.0 million principal payment due at maturity. The facility provides a five

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

year renewal option upon approval of the Bank of Nova Scotia. The loan is secured by assets of the Company's Panama subsidiary. The purpose of the loan is to repay borrowings, due to MetroBank, S.A. of \$3.2 million and to fund the Company's warehouse club expansion plans. During April 2014, the Company drew down \$24.0 million of the \$34.0 million facility and repaid the borrowings due to MetroBank, S.A. of \$3.2 million.

On March 31, 2014, the Company's Panama subsidiary entered into a loan renewal agreement with The Bank of Nova Scotia renewing for an additional five years a 5.5% fixed rate loan originally entered into on August 21, 2009. The balance on the loan as of May 31, 2014 is \$5.25 million and on August 21, 2014 will be \$5.0 million. The renewal agreement will become effective on August 21, 2014. The renewal agreement establishes a credit facility of \$5.0 million at a variable interest rate of 30-day LIBOR plus 2.5% with a floor of 5.5%, for a five year term, with monthly principal and interest payments. The facility provides a five year renewal option upon approval of the Bank of Nova Scotia.

On March 7, 2014 the Company's Honduras subsidiary entered into a loan agreement with Banco de America Central Honduras, S.A. The agreement establishes a credit facility for 286.0 million Lempiras, approximately USD \$13.8 million. The loan has a variable interest rate of 12.75%, which will be reviewed semiannually. The interest rate may not be less than 12.5%. The loan is for 10 years with a 24-month grace period on principal payments, paying interest quarterly only. Thereafter, interest and principal payments are due quarterly. This loan is secured by assets of the Company's Honduras subsidiary. On March 10, 2014, the Company drew down the full amount of the LPS 286.0 million loan.

On November 3, 2013, the Company paid down \$8.0 million of the loan agreement entered into by the Company's Colombia subsidiary on November 1, 2010, with Citibank, N.A. in New York. The original agreement established a loan facility for \$16.0 million to be disbursed in two tranches of \$8.0 million each, but the Company never drew down the second tranche. The interest rate was set at the six-month LIBOR rate plus 2.4%. The loan term was for five years with interest only payments and a balloon payment at maturity. The loan facility was renewable for an additional five-year period at the option of the Company's Colombia subsidiary, but if the Company did not draw on the facility or paid off the loan, the facility would terminate. Accordingly, since the Company has paid down this loan, this loan facility has terminated. This loan was secured by a time deposit pledged by the Company equal to the amount outstanding on the loan. The secured time deposit of \$8.0 million pledged by the Company was released on November 3, 2013.

NOTE 9 – DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Company is exposed to certain risks relating to its ongoing business operations. One risk managed by the Company using derivative instruments is interest rate risk. To manage interest rate exposure, the Company enters into hedge transactions (interest rate swaps) using derivative financial instruments. The objective of entering into interest rate swaps is to eliminate the variability of cash flows in the LIBOR interest payments associated with variable-rate loans over the life of the loans. As changes in interest rates impact the future cash flow of interest payments, the hedges provide a synthetic offset to interest rate movements.

In addition, the Company is exposed to foreign currency and interest rate cash flow exposure related to a non-functional currency long-term debt of one of its wholly owned subsidiaries. To manage this foreign currency and interest rate cash flow exposure, the Company's subsidiary entered into a cross-currency interest rate swap that converts its foreign currency denominated floating interest payments to functional currency fixed interest payments during the life of the hedging instrument. As changes in foreign exchange and interest rates impact the future cash flow of interest payments, the hedge is intended to offset changes in cash flows attributable to interest rate and foreign

exchange movements.

These derivative instruments (cash flow hedging instruments) are designated and qualify as cash flow hedges, with the effective portion of the gain or loss on the derivative reported as a component of other comprehensive income (loss) and reclassified into earnings in the same period or periods during which the hedged transaction is determined to be ineffective. There were no such amounts recorded for ineffectiveness for the periods reported herein related to the interest rate or cross-currency interest rate swaps of long-term debt.

The Company is exposed to foreign-currency exchange-rate fluctuations in the normal course of business, particularly in the case of U.S. dollar denominated liabilities within its international subsidiaries whose functional currency is other than the U.S. dollar. The Company manages these fluctuations, in part, through the use of non-deliverable forward foreign-exchange contracts that are intended to offset changes in cash flow attributable to currency exchange movements. These contracts are

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

intended primarily to economically address exposure to U.S. dollar merchandise inventory expenditures made by the Company's international subsidiaries whose functional currency is other than the U.S. dollar. Currently, these contracts do not qualify for derivative hedge accounting. The Company seeks to mitigate foreign-currency exchange-rate risk with the use of these contracts and does not intend to engage in speculative transactions. These contracts do not contain any credit-risk-related contingent features.

Cash Flow Hedges

The Company formally documents the hedging relationships for its derivative instruments that qualify for hedge accounting. As of May 31, 2014, all of the Company's interest rate swap and cross-currency interest rate swap derivative financial instruments are designated and qualify as cash flow hedges. The cross-currency interest rate swap agreements convert the Company's subsidiary's foreign currency United States dollar denominated floating interest payments on long-term debt to the functional currency fixed interest payments during the life of the hedging instrument. As changes in foreign exchange and interest rates impact the future cash flow of interest payments, the hedge is intended to offset changes in cash flows attributable to interest rate and foreign currency exchange movements. Various subsidiaries entered into interest rate swap agreements that fix the interest rate over the life of the underlying loans. These derivative financial instruments were also designated and qualified as cash flow hedges.

The following table summarizes agreements for which the Company has recorded cash flow hedge accounting transactions during the nine months ended May 31, 2014:

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Subsidiary	Date Entered into	Derivative Financial Counter-party	Derivative Financial Instruments	Initial US\$ Notional Amount	Bank US\$ loan Held with	Floating Leg (swap counter-party)	Fixed Rate for PSMT Subsidiary	Settlement Dates	Effective Period of swap

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

For the three and nine-month period ended May 31, 2014 and 2013, the Company included the gain or loss on the hedged items (that is, variable-rate borrowings) in the same line item—interest expense—as the offsetting gain or loss on the related interest rate swaps as follows (in thousands):

Income Statement Classification	Interest expense on borrowings ⁽¹⁾	Cost of swaps ⁽²⁾	Total
Interest expense for the three months ended May 31, 2014	\$137	\$405	\$542
Interest expense for the three months ended May 31, 2013	\$182	\$482	\$664
Interest expense for the nine months ended May 31, 2014	\$377	\$1,169	\$1,546
Interest expense for the nine months ended May 31, 2013	\$559	\$1,341	\$1,900

⁽¹⁾ This amount is representative of the interest expense recognized on the underlying hedged transactions.

⁽²⁾ This amount is representative of the interest expense recognized on the cross-currency interest rate swaps designated as cash flow hedging instruments.

The total notional balance of the Company's pay-fixed/receive-variable interest rate swaps and cross-currency interest rate swaps was as follows (in thousands):

Floating Rate Payer (Swap Counterparty)	May 31, 2014	August 31, 2013
RBTT	\$—	\$4,500
Scotiabank	55,770	40,000
Total	\$55,770	\$44,500

The following table summarizes the fair value of interest rate swap and cross-currency interest rate swap derivative instruments that qualify for derivative hedge accounting (in thousands, except footnote data):

	May 31, 2014		August 31, 2013	
Derivatives designated as cash flow hedging instruments	Balance Sheet Account	Fair Value	Balance Sheet Account	Fair Value
Cross currency interest rate swaps ⁽¹⁾⁽²⁾	Prepaid expenses and current assets	\$378	Prepaid expenses and current assets	\$—
Cross currency interest rate swaps ⁽¹⁾⁽²⁾	Other non-current assets	729	Other non-current assets	1,505
Interest rate swaps ⁽³⁾	Other long-term liabilities	(28)	Other long-term liabilities	(14)
Cross currency interest rate swaps ⁽¹⁾⁽²⁾	Other long-term liabilities	(76)	Other long-term liabilities	—
Net fair value of derivatives designated as hedging instruments - assets (liability) ⁽⁴⁾		\$1,003		\$1,491

⁽¹⁾ The effective portion of the cross-currency interest rate swaps was recorded to Accumulated other comprehensive (income)/loss for \$(596,000) and \$(1.0) million net of tax as of May 31, 2014 and August 31, 2013, respectively.

The Company has recorded a deferred tax liability amount with an offset to other comprehensive income - tax of

⁽²⁾ \$(435,000) and \$(497,000) as of May 31, 2014 and August 31, 2013, respectively, related to asset positions of cross-currency interest rate swaps.

- The effective portion of the interest rate swaps was recorded to Accumulated other comprehensive loss for \$19,000 and \$10,000 net of tax as of May 31, 2014 and August 31, 2013, respectively. The Company has recorded a
- (3) deferred tax asset amount with an offset to other comprehensive income - tax of \$9,000 and \$4,000 as of May 31, 2014 and August 31, 2013, respectively.
- (4) Derivatives listed on the above table were designated as cash flow hedging instruments.

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Fair Value Instruments

The Company has entered into non-deliverable forward foreign-exchange contracts. These contracts are treated for accounting purposes as fair value contracts and do not qualify for derivative hedge accounting. The use of non-deliverable forward foreign-exchange contracts is intended to offset changes in cash flow attributable to currency exchange movements. These contracts are intended primarily to economically hedge exposure to U.S. dollar merchandise inventory expenditures made by the Company's international subsidiaries whose functional currency is other than the U.S. dollar. The Company entered into non-deliverable forward foreign exchange contracts during the three and nine months ended May 31, 2014; however, there are no open contracts as of May 31, 2014 and as of August 31, 2013.

For the three and nine-month periods ended May 31, 2014 and 2013, the Company included in its consolidated statements of income the forward derivative gain or (loss) on the non-deliverable forward foreign-exchange contracts as follows (in thousands):

Income Statement Classification	Three Months Ended		Nine Months Ended	
	May 31, 2014	May 31, 2013	May 31, 2014	May 31, 2013
Other income (expense), net	\$(632) \$(168) \$(447) \$(300

NOTE 10 – UNCONSOLIDATED AFFILIATES

The Company determines whether any of the joint ventures in which it has made investments is a Variable Interest Entity ("VIE") at the start of each new venture and if a reconsideration event has occurred. At this time, the Company also considers whether it must consolidate a VIE and/or disclose information about its involvement in a VIE. A reporting entity must consolidate a VIE if that reporting entity has a variable interest (or combination of variable interests) that will absorb a majority of the VIE's expected losses, receive a majority of the VIE's expected residual returns, or both. A reporting entity must consider the rights and obligations conveyed by its variable interests and the relationship of its variable interests with variable interests held by other parties to determine whether its variable interests will absorb a majority of a VIE's expected losses, receive a majority of the VIE's expected residual returns, or both. The reporting entity that consolidates a VIE is called the primary beneficiary of that VIE.

In 2008, the Company entered into real estate joint ventures to jointly own and operate separate commercial retail centers adjacent to warehouse clubs in Panama (Golf Park Plaza, S.A.) and Costa Rica (Plaza Alajuela, S.A.). Due to the initial nature of the joint ventures and the continued commitments for additional financing, the Company determined these joint ventures are VIEs. Since all rights and obligations are equally absorbed by both parties within each joint venture, the Company has determined that it is not the primary beneficiary of the VIEs and, therefore, has accounted for these entities under the equity method. Under the equity method, the Company's investments in unconsolidated affiliates are initially recorded as an investment in the stock of an investee at cost and are adjusted for the carrying amount of the investment to recognize the investor's share of the earnings or losses of the investee after the date of the initial investment.

On December 12, 2013, the Company entered into a lease agreement for approximately 17,976 square feet (1,670 square meters) of land with Golf Park Plaza, S.A. upon which the Company is constructing its central offices in

Panama. Construction of the offices is expected to be completed during calendar year 2014. The lease term is for 15 years with three options to renew for five years each at the Company's discretion. The monthly lease expense is approximately \$8,800. For the nine months ended May 31, 2014, the Company recognized rent expense of \$52,600 for this lease.

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The table below summarizes the Company's interest in these VIEs and the Company's maximum exposure to loss as a result of its involvement with these VIEs as of May 31, 2014 (in thousands):

Entity	% Ownership	Initial Investment	Additional Contributions	Net Loss Inception to Date	Company's Variable Interest in Entity	Commitment to Future Additional Contributions ⁽¹⁾	Company's Maximum Exposure to Loss in Entity ⁽²⁾
GolfPark Plaza, S.A.	50	% \$4,616	\$1,483	\$(79)	\$6,020	\$1,017	\$7,037
Price Plaza Alajuela, S.A.	50	% 2,193	676	(28)	2,841	1,346	4,187
Total		\$6,809	\$2,159	\$(107)	\$8,861	\$2,363	\$11,224

The parties intend to seek alternate financing for the project, which could reduce the amount of contributions each party would be required to provide. The parties may mutually agree on changes to the project, which could increase or decrease the amount of contributions each party is required to provide.

⁽²⁾ The maximum exposure is determined by adding the Company's variable interest in the entity and any explicit or implicit arrangements that could require the Company to provide additional financial support.

The summarized financial information of the unconsolidated affiliates is as follows (in thousands):

	May 31, 2014	August 31, 2013
Current assets	\$1,731	\$606
Noncurrent assets	\$7,866	\$7,432
Current liabilities	\$1,028	\$999
Noncurrent liabilities	\$9	\$8

	Three Months Ended May 31,		Nine Months Ended May 31,	
	2014	2013	2014	2013
Net income (loss)	\$6	\$12	\$14	\$(4)

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

NOTE 11 – SEGMENTS

The Company and its subsidiaries are principally engaged in the operation of membership shopping warehouse clubs in 13 countries/territories that are located in Latin America and the Caribbean. In addition, the Company operates distribution centers and corporate offices in the United States. The Company's reportable segments are based on management's organization of these locations into operating segments by general geographic location, which are used by management in setting up management lines of responsibility, providing support services, and making operational decisions and assessments of financial performance. The Company's operating segments are the United States, Latin America and the Caribbean. Segment amounts are presented after converting to U.S. dollars and consolidating eliminations. Certain revenues and operating costs included in the United States segment have not been allocated, as it is impractical to do so.

The Company has made reclassifications to the consolidated statements of income recorded during fiscal year 2014 (see Note 1 - Company Overview and Basis of Presentation). These reclassifications have been made to prior fiscal year amounts to conform to the presentation in the current fiscal year. The following table summarizes the impact of these reclassifications to the amounts reported for each segment (in thousands):

Nine Month Period Ended May 31, 2013	United States Operations	Latin American Operations	Caribbean Operations	Total
Operating income -as previously reported	\$ 25,103	\$ 53,151	\$ 16,705	\$ 94,959
Reclassification - Gain/(Loss) asset disposals	—	(297) (56) (353
Operating income-as currently reported	\$ 25,103	\$ 52,854	\$ 16,649	\$ 94,606
Twelve Month Period Ended August 31, 2013	United States Operations	Latin American Operations	Caribbean Operations	Total
Operating income -as previously reported	\$ 34,132	\$ 70,383	\$ 23,420	\$ 127,935

NOTE 12 – SUBSEQUENT EVENTS

The Company has evaluated all events subsequent to the balance sheet date of May 31, 2014 through the date of issuance of these consolidated financial statements and have determined that there are no subsequent events that require disclosure.

PRICESMART, INC.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Quarterly Report on Form 10-Q contains forward-looking statements concerning PriceSmart, Inc.'s ("PriceSmart" or the "Company") anticipated future revenues and earnings, adequacy of future cash flow, projected warehouse club openings, the Company's performance relative to competitors and related matters. These forward-looking statements include, but are not limited to, statements containing the words "expect," "believe," "will," "may," "should," "project," "estimate," "anticipate," "scheduled," and like expressions, and the negative thereof. These statements are subject to risks and uncertainties that could cause actual results to differ materially, including the following risks: the Company's financial performance is dependent on international operations, which exposes the Company to various risks; any failure by the Company to manage its widely dispersed operations could adversely affect its business; the Company faces significant competition; future sales growth depends, in part, on the Company's ability to successfully open new warehouse clubs; the Company might not identify in a timely manner or effectively respond to changes in consumer trends and changes in consumer preferences for merchandise and shopping modalities, which could adversely affect its relationship with members, demand for its products and market share; the Company faces difficulties in the shipment of, and risks inherent in the importation of, merchandise to its warehouse clubs; the Company is exposed to weather and other natural disaster risks; general economic conditions could adversely impact the Company's business in various respects; the Company is subject to changes in relationships and agreements with third parties with which the Company does business and/or from which the Company acquires merchandise; the Company relies extensively on computer systems to process transactions, summarize results and manage its business, and failure to adequately maintain the Company's systems or disruptions in its systems could harm its business and adversely affect its results of operations; the Company could be subject to additional tax liabilities; a few of the Company's stockholders own approximately 28.1% of the Company's voting stock, which may make it difficult to complete some corporate transactions without their support and may impede a change in control; the loss of key personnel could harm the Company's business; the Company is subject to volatility in foreign currency exchange rates; the Company faces the risk of exposure to product liability claims, a product recall and adverse publicity; potential future impairments of long lived assets could adversely affect the Company's future results of operations and financial position; write-offs of goodwill and other intangible assets could adversely affect the Company's future results of operations and financial position; the Company faces increased public company compliance risks and compliance risks related to the Company's international operations; the Company faces increased compliance risks associated with compliance with Section 404 of the Sarbanes-Oxley Act of 2002; if remediation costs or hazardous substance contamination levels at certain properties for which the Company maintains financial responsibility exceed management's current expectations, the Company's financial condition and results of operations could be adversely impacted. The risks described above as well as the other risks detailed in the Company's U.S. Securities and Exchange Commission ("SEC") reports, including under the heading "Part II - Item 1A - Risk Factors" in the Company's Annual Report on Form 10-K filed for the fiscal year ended August 31, 2013 filed on October 30, 2013 pursuant to the Securities Exchange Act of 1934, as amended, could materially and adversely affect our business, financial condition and results of operations. These risks are not the only risks that the Company faces. The Company also could be affected by additional factors that apply to all companies operating globally and in the U.S., as well as other risks that are not presently known to the Company or that the Company currently considers to be immaterial. The Company assumes no obligation and expressly disclaims any duty to update any forward-looking statement to reflect events or circumstances after the date of this report or to reflect the occurrence of unanticipated events.

The following discussion and analysis compares the results of operations for the three and nine month periods ended May 31, 2014 and 2013 and should be read in conjunction with the consolidated financial statements and the accompanying notes included therein.

PriceSmart's business consists primarily of international membership shopping warehouse clubs similar to, but smaller in size than, warehouse clubs in the United States. The Company's ownership in all operating subsidiaries as of May 31, 2014 is 100%, and they are presented on a consolidated basis. The number of warehouse clubs in operation as of May 31, 2014 and 2013 for each country or territory are as follows:

Country/Territory	Number of Warehouse Clubs in Operation as of May 31, 2014	Number of Warehouse Clubs in Operation as of May 31, 2013	Anticipated warehouse club openings within the next 12 months
Colombia	3	3	3
Panama	4	4	—
Costa Rica	6	5	—
Dominican Republic	3	3	—
Guatemala	3	3	—
El Salvador	2	2	—
Honduras	3	2	—
Trinidad	4	4	—
Aruba	1	1	—
Barbados	1	1	—
U.S. Virgin Islands	1	1	—
Jamaica	1	1	—
Nicaragua	1	1	—
Totals	33	31	3

During May of fiscal year 2014, the Company opened its third warehouse club in Honduras in Tegucigalpa. During fiscal 2013, the Company opened its second and third clubs in Colombia. These clubs are in south and north Cali and opened in October 2012 and May 2013, respectively. In January of fiscal year 2014, the Company acquired land in the southern area of Pereira, Colombia and in the city of Medellin, Colombia and leased land in the city of Bogota, Colombia. The Company is currently constructing new warehouse clubs at these three sites and plans to open them before the end of calendar year 2014. Together with the three warehouse clubs currently operating in Colombia (one in Barranquilla and two in Cali), these three new clubs will bring the number of PriceSmart warehouse clubs operating in Colombia to six. In October 2013, the Company opened its sixth membership warehouse club in Costa Rica in La Union, Cartago.

The Company's warehouse clubs are located in Latin America and the Caribbean, and its corporate, U.S. buying operations and distribution centers are primarily located in the United States. The Company's reportable segments are based on management's organization of these locations into operating segments by general geographic location. The Company's operating segments are the United States, Latin America and the Caribbean.

General Economic Factors

Economic conditions in the Company's markets are not homogenous. Where economic conditions are stable or favorable, the Company is experiencing generally positive retail strength (in Panama, Trinidad, Guatemala, the Dominican Republic and Aruba). On the other hand, the approximate 10% devaluation of the Costa Rican colon which occurred in February has negatively impacted the purchasing power of consumers in that country. This devaluation negatively impacts warehouse sales and membership income when translated to and reported in U.S. dollars in the near term and requires the Company to increase the price of imported merchandise to maintain target margins which may negatively impact the demand for those items. In addition, there have been recent announcements of large employers planning to reduce their workforce in Costa Rica, which will likely act as a headwind to economic growth. Costa Rica is PriceSmart's largest market with six warehouse clubs and therefore can have a material impact

on the Company's financial performance. Other countries experiencing some level of slower economic and retail activity are Jamaica, Honduras and El Salvador.

The Company does not currently face direct competition from U.S. branded membership warehouse club operators. However, it does face competition from various retail formats such as hypermarkets, supermarkets, cash and carry, home improvement centers, electronic retailers and specialty stores, including those within Central America that are owned and operated by a large U.S.-based retailer. The Company has competed effectively in these markets in the past and expects to continue to do

so in the future due to the unique nature of the membership warehouse club format. However, new retail competitors may enter our markets (for example, Cost-U-Less, a cash and carry, low price operator with which the Company competes in St. Thomas, opened a location in Barbados a year ago) and existing retailers may expand (for example Wal-Mart's announcement that it intends to invest \$1.1 billion in Mexico and Central America) which could adversely impact the Company's ability to compete within these markets. Further, it is possible that U.S. warehouse club operators may decide to enter the Company's markets and compete more directly with PriceSmart in a similar warehouse club format, although the Company has no current indication that such an event is imminent.

Many PriceSmart markets are susceptible to foreign currency exchange rate volatility. Currency exchange rate changes either increase or decrease the cost to the Company's subsidiaries of imported products purchased in U.S. dollars and priced in local currency. For the nine months ended May 31, 2014, approximately 52% of the Company's net warehouse sales were comprised of products purchased in U.S. dollars and imported into the markets where PriceSmart warehouse clubs are located, but approximately 79% of the Company's net warehouse sales were in foreign currencies.

Currency exchange rate fluctuations affect the Company's consolidated sales and membership income as local-currency-denominated sales are translated to U.S. dollars. Also, as a result of local currency fluctuations, the Company revalues all U.S. dollar-denominated monetary assets and liabilities within the Company's markets that do not use the U.S. dollar as their functional currency. These monetary assets and liabilities include, but are not limited to, excess cash permanently reinvested offshore, U.S. dollar-denominated long-term debt used to finance land acquisitions and the construction of warehouse clubs, and U.S. dollar-denominated accounts payable related to the purchase of merchandise.

The Company seeks to manage its foreign exchange risk by (1) adjusting prices on goods acquired in U.S. dollars on a periodic basis to maintain its target margins after taking into account changes in exchange rates; (2) obtaining local currency loans from banks within certain markets where it is economical to do so and where management believes the risk of devaluation and the level of U.S. dollar denominated liabilities warrants this action; (3) reducing the time between the acquisition of product in U.S. dollars and the settlement of that purchase in local currency; (4) maintaining a balance between assets held in local currency and in U.S. dollars; and (5) by entering into cross-currency interest rate swaps and forward currency derivatives. The Company has local-currency-denominated long-term loans in Honduras and Guatemala and has cross-currency interest rate swaps and forward currency derivatives in Colombia. Turbulence in the currency markets can have a significant impact on the value of the foreign currencies within the countries in which the Company operates. The Company reports the gains or losses associated with the revaluation of these monetary assets and liabilities on its Consolidated Statements of Income under the heading "Other income (expense), net." Future volatility and uncertainties regarding the currencies in the Company's countries could have a material impact on the Company's operations in future periods. However, there is no way to accurately forecast how currencies may trade in the future and, as a result, the Company cannot accurately project the impact of the change in rates on the Company's future demand for imported products, reported sales, or financial results.

Business Strategy

The Company's business strategy is to offer for sale to businesses and families a limited number of stock keeping units (SKU's) covering a wide range of products at the lowest possible prices. The Company charges an annual membership fee to its customers. These fees combined with warehouse and distribution operating efficiencies and volume purchasing enable PriceSmart to operate its business on lower merchandise margins than conventional retail stores. The combination of annual membership fees, operating efficiencies and low margins enable PriceSmart to offer its members high quality merchandise at very competitive prices which, in turn, enhances the value of the PriceSmart membership.

Current and Future Management Actions

Generally, the Company's operating efficiencies, earnings and cash flow from operations improve as sales increase. Higher sales provide greater purchasing power and often result in lower product prices from the Company's suppliers. Further, increased sales permit the Company to leverage its selling, general and administrative expenses. Sales growth in our existing locations (comparable warehouse club sales) creates the highest degree of expense leverage. Therefore, the Company prioritizes initiatives that it expects will have the greatest impact on increasing sales, particularly within our existing locations. Looking forward to the next several quarters, the following items are likely to have an impact on the Company's business and the results of operations.

The Company seeks to increase sales by growing sales with existing members in its warehouse clubs, by attracting new members at both existing and new clubs and by adding new PriceSmart warehouse clubs. The Company's continued focus on initiatives to increase comparable warehouse club sales within existing warehouse clubs locations resulted in a 2.9% increase in comparable warehouse club sales for the 13-week period ended June 1, 2014 compared to the same 13-week period the prior year. During the first quarter of fiscal 2014, the Company opened its sixth membership warehouse club in Costa Rica in La Union,

Cartago, and in the most recent quarter opened its third warehouse club in Honduras. In both cases, these new clubs negatively impacted reported comparable warehouse club sales in the period as warehouse sales transferred to these new clubs from existing clubs. With the addition of these new warehouse clubs, the Company grew warehouse sales by 7.6% for the quarter ended May 31, 2014 compared to the same quarter a year ago. In addition, the Company increased the number of member accounts 10.0% over the prior year.

Effective June 1, 2012, the Company raised the annual membership fee by approximately \$5.00 in most markets. The annual fee for a Diamond membership in these markets is now approximately \$35.00 (entitling members to two cards). A membership fee helps PriceSmart offer high quality merchandise at low prices, providing value to its members. In October 2012, the Company launched the Platinum membership account in Costa Rica. Platinum members pay an annual membership fee of approximately \$75.00 for a primary membership card for which they receive an annual 2% rebate of their purchases on most items, up to a maximum annual rebate of \$500.00. Platinum members can apply this rebate to future purchases at the warehouse club at the end of the annual membership period. The Company is currently evaluating the Platinum membership program to determine if Platinum memberships should be offered in other of the Company's markets.

Logistics and distribution operations are an important part of what allows PriceSmart to deliver high quality merchandise at low prices to our members. The Company continues to explore areas to improve efficiency, lower costs and ensure a good flow of merchandise to our warehouse clubs. The Company has added local and regional distribution centers in several of its markets to improve merchandise flow and in-stock conditions and reduce operating costs, the benefit of which can be passed on to our members in the form of lower merchandise prices. The Company is evaluating whether to add additional local and regional distribution centers in certain countries.

The Company has the capability to service members through on-line sales. Members have the ability to purchase merchandise that is not stocked in their local warehouse clubs through PriceSmart's e-commerce website. These purchases are shipped from the U.S. distribution warehouse for pick-up at the member's local warehouse club location. In addition, in certain markets, members who do not reside in a city where a PriceSmart warehouse club is located can purchase in-club merchandise on-line from warehouse clubs located within their country and have it delivered to their home or office via a third party delivery service. The Company has been expanding its offerings in these alternative shopping methods, and while the percentage of sales through these channels relative to the Company's overall sales is small, the Company believes it is an important and growing way to serve its membership.

Purchasing land and constructing warehouse clubs is the Company's single largest capital investment. Securing land for warehouse club locations is challenging within the Company's markets, especially in Colombia, because suitable sites at economically feasible prices are difficult to find. In January of fiscal year 2014, the Company acquired land in the southern area of Pereira, Colombia and in the city of Medellin, Colombia and leased land in the city of Bogota, Colombia. The Company is currently constructing new warehouse clubs at these sites that are currently planned to open before the end of calendar year 2014. The Colombia land acquisitions and lease are in keeping with the Company's real estate philosophy. The Company has entered into real estate leases in the past and will likely do so in the future, but the Company's preference is to own rather than lease real estate. Real estate ownership provides a number of advantages as compared to leasing, including lower operating expenses, flexibility to expand or otherwise enhance PriceSmart buildings, long-term control over the use of the property and the residual value that the real estate may have in future years. In order to secure warehouse club locations, the Company occasionally has to purchase more land than is actually needed for the warehouse club facility. To the extent that the Company acquires property in excess of what is needed for a particular warehouse club, the Company generally plans to either sell or develop the excess property. Excess land at Alajuela and Brisas is being held for development by joint ventures formed by the Company and the sellers of the property, which commenced in fiscal year 2011. A similar development strategy is being employed for the Company's excess land at the San Fernando, Trinidad and Arroyo Hondo, Dominican Republic locations where the properties are fully owned by the Company. The recent land purchases in Colombia do not contain excess property beyond that which will be needed by the Company. The profitable sale or development of

real estate is highly dependent on real estate market conditions.

Financial highlights for the third quarter of fiscal year 2014 included:

Net warehouse club sales increased 7.6% over the comparable prior year period. The Company ended the quarter with 33 warehouse clubs compared to 31 warehouse clubs at the end of the third quarter of fiscal year 2013. Comparable warehouse club sales (that is, sales in the warehouse clubs that have been open for greater than 13 1/2 calendar months) for the 13 weeks ended June 1, 2014 grew 2.9%.

Membership income for the third quarter of fiscal year 2014 increased 8.9% to \$9.6 million.

Warehouse gross profits (net warehouse club sales less associated cost of goods sold) in the quarter increased 10.1% over the prior year period and warehouse gross profits as a percent of net warehouse club sales were 14.8%, an increase of 34

basis points from the same period last year.

• Selling, general and administrative expenses (not including pre-opening expenses and loss on the disposal of assets) increased 13 basis points as a percentage of sales compared to the third quarter of last year.

• Operating income for the third quarter of fiscal year 2014 was \$31.2 million, an increase of \$2.7 million over the third quarter of fiscal year 2013.

• The Company had a \$489,000 net gain from currency exchange transactions in the current quarter compared to a \$785,000 net loss from currency exchange transactions in the same period last year.

• Net income for the third quarter of fiscal year 2014 was \$21.3 million, or \$0.70 per diluted share, compared to \$18.5 million, or \$0.61 per diluted share, in the comparable prior year period.

Reclassifications to consolidated statement of income recorded during fiscal year 2014 for fiscal year 2013 - The Company recorded asset disposal activity during fiscal year 2013 under other income (expense), net. This activity consisted mainly of normally scheduled asset replacement and upgrades involved in operating activities. The Company has determined that these costs represent operating expenses. Therefore, the Company has accordingly recorded such asset disposal activity as operating expenses under loss/(gain) on disposal of assets starting in fiscal year 2014. The Company has made reclassifications to the consolidated statement of income for fiscal year 2013 to conform to the presentation in fiscal year 2014. These reclassifications did not impact net income. The following tables summarize the impact of this reclassification (in thousands):

	Three Months Ended				Total Fiscal
	November 30, 2012	February 28, 2013	May 31, 2013	August 31, 2013	Year 2013
Other income (expense), net – as previously reported	\$(58)	\$(312)	\$(1,034)	\$(439)	\$(1,843)
Loss/(gain) on disposal of assets, other income (expense), net reclassified to Loss/(gain) on disposal of assets, total operating expenses	57	47	249	536	889
Other income (expense), net – as currently reported	\$(1)	\$(265)	\$(785)	\$97	\$(954)

COMPARISON OF THE THREE AND NINE MONTHS ENDED MAY 31, 2014 AND 2013

The Company's fiscal second quarter ended on May 31, 2014. Unless otherwise noted, all tables present U.S. dollar amounts in thousands. Certain percentages presented are calculated using actual results prior to rounding.

Net Warehouse Club Sales

	Three Months Ended May 31,			Nine Months Ended May 31,		
	2014		2013	2014		2013
	Amount	% Change	Amount	Amount	% Change	Amount
Net warehouse club sales	\$597,885	7.6	% \$555,815	\$1,844,746	10.4	% \$1,671,269

Comparison of Three and Nine Months Ended May 31, 2014 and 2013

The Company recorded positive sales growth in nearly all countries, the exceptions being Jamaica, that has experienced a significant devaluation of its local currency over the past year (12%) and El Salvador where the Company has also experienced challenges in the economy of the country. The Company recorded double digit sales growth in Colombia, Panama and Aruba and experienced high single digit sales growth in Guatemala and Barbados. The other countries recorded sales growth between 2.5% and 7.2%. The Company opened one new warehouse club in Costa Rica and Honduras compared to the third quarter of fiscal year 2013. Sales growth in Colombia was positively impacted by the full quarter effect of the third warehouse club which opened in May of 2013. Total net warehouse club sales growth of 7.6% during the three months ended May 31, 2014 resulted from a 7.3% growth in transactions and a 0.2% growth in average ticket.

Sales for the nine months ended May 31, 2014 continued to reflect positive sales growth in all countries with the exception of Jamaica which has experienced a 12% devaluation of its currency over the past 12 months. The

additional sales of one new warehouse club in each of Colombia and Costa Rica during the nine months ended May 31, 2014, compared to the nine-month period ended May 31, 2013, contributed a 4.3% increase in sales. The Company opened a new warehouse club in Honduras on May 1, 2014, which had not yet materially affected sales growth through May 31, 2014.

Comparable Sales

The Company reports comparable warehouse club sales on a “same week” basis with 13 weeks in each quarter beginning on a Monday and ending on a Sunday. The periods are established at the beginning of the fiscal year to provide as close a match as possible to the calendar month and quarter that is used for financial reporting purposes. This approach equalizes the number of weekend days and weekdays in each period for improved sales comparison, as the Company experiences higher warehouse club sales on the weekends. Further, each of the warehouse clubs used in the calculations was open for at least 13 1/2 calendar months before its results for the current period were compared with its results for the prior period. For example, the sales related to the warehouse club opened in Cali, Colombia (“Canas Gordas”) on October 19, 2012 were not used in the calculation of comparable warehouse club sales until January 2014. Sales related to the warehouse club opened in Cali, Colombia (“Menga”) on May 3, 2013 will not be used in the calculation of comparable warehouse club sales until July 2014. Sales related to the warehouse club opened in La Union, Cartago, Costa Rica (“Tres Rios”) on October 18, 2013 will not be used in the calculation of comparable warehouse sales until January 2015. In addition, sales related to the warehouse club opened in Tegucigalpa, Honduras (“El Sauce”) on May 1, 2014 will not be used in the calculation of comparable warehouse club sales until July 2015.

Comparable warehouse club sales increased 2.9% for the 13-week period ended June 1, 2014, compared to the same 13-week period last year. The Company opened two new warehouse clubs (one in La Cartago, Costa Rica in October and one in Tegucigalpa, Honduras in May). While these new warehouse clubs are attracting new members from areas of their respective cities who were not being served by the Company, it is also resulting in some existing members, particularly those that shopped at our Zapote warehouse club in Costa Rica and our first Tegucigalpa, Honduras warehouse club, choosing to shop at the new location. This transfer of sales from a warehouse club that is included in the calculation of comparable warehouse club sales to a warehouse club that is not included in the calculation has an adverse impact on comparable warehouse club sales. Similarly, although to a lesser extent, the opening of the Cali, Colombia (“Menga”) club in May 2013 has resulted in some existing members of the initial club that opened (“Canas Gordas”) to shop now in Menga. The Company has not made a specific determination of the negative impact these openings have had on reported comparable warehouse club sales given various factors, such as whether previously existing members are now shopping more often given the greater convenience of this new club, which would make it difficult to provide an accurate assessment.

Net Warehouse Club Sales by Segments

The following tables indicate the net warehouse club sales and the percentage growth in net warehouse club sales during the three and nine months ended May 31, 2014 and 2013 in the segments in which the Company operates.

	Three Months Ended May 31, 2014				Change	2013		
	Amount	% of net sales	Increase from prior year			Amount	% of net sales	
Latin America	\$409,549	68.5	%	\$31,864	8.4	% \$377,685	68.0	%
Caribbean	188,336	31.5	%	10,206	5.7	% 178,130	32.0	%
Net warehouse club sales	\$597,885	100.0	%	\$42,070	7.6	% \$555,815	100.0	%

Nine Months Ended May 31,
2014

2013

Edgar Filing: PRICESMART INC - Form 10-Q

	Amount	% of net sales	Increase from prior year	Change	Amount	% of net sales
Latin America	\$ 1,257,502	68.2	% \$ 130,133	11.5	% \$ 1,127,369	67.5
Caribbean	587,244	31.8	% 43,344	8.0	% 543,900	32.5
Net warehouse club sales	\$ 1,844,746	100.0	% \$ 173,477	10.4	% \$ 1,671,269	100.0

Comparison of Three and Nine Months Ended May 31, 2014 and 2013

For the three and nine months ended May 31, 2014 and 2013, the higher net warehouse club sales growth in Latin America compared to the Caribbean primarily reflects the sales associated with the additional warehouse club sales in Cali, Colombia, La

Union, Costa Rica and Tegucigalpa, Honduras in the current periods compared to the prior period. We expect Latin America sales growth to continue to outpace Caribbean sales growth as the next warehouse clubs the Company expects to open are in Colombia.

Export Sales

Three Months Ended May 31, 2014					2013			
	Amount	% of net sales	Increase from prior year	Change	Amount	% of net sales		
Export sales	6,577	1.1 %	\$ 353	5.7 %	6,224	1.1 %		
Nine Months Ended May 31, 2014					2013			
	Amount	% of net sales	Increase from prior year	Change	Amount	% of net sales		
Export sales	\$ 19,062	1.0 %	\$ 3,442	22.0 %	\$ 15,620	0.9 %		

The increase in export sales was due to direct sales to a single institutional customer (retailer) in the Philippines for which the Company achieves a gross profit margin of approximately 5%, which is below the Company's warehouse club gross profit margin.

Membership Income

Three Months Ended May 31, 2014					2013			
	Amount	Increase from prior year	% Change		Amount			
Membership income	\$9,552	\$778	8.9 %		\$8,774			
Membership income % to net warehouse club sales	1.6 %				1.6 %			
Number of total accounts	1,167,402	106,213	10.0 %		1,061,189			
Nine Months Ended May 31, 2014					2013			
	Amount	Increase from prior year	% Change		Amount			
Membership income	\$28,301	\$3,528	14.2 %		\$24,773			
Membership income % to net warehouse club sales	1.5 %				1.5 %			
Number of total accounts	1,167,402	106,213	10.0 %		1,061,189			

Comparison of Three and Nine Months Ended May 31, 2014 and 2013

For the three months ended May 31, 2014, the increase in membership income reflects a growth in membership accounts. Total member accounts grew 10.0% from the prior year period, but the devaluation of the local currencies in Costa Rica and Colombia resulted in a 1.6% reduction in the membership income per member recognized. The membership renewal rate for the 12-month period ended May 31, 2014 was 85.0%.

For the nine months ended May 31, 2014, the increase in membership income reflects a growth in membership accounts and an increase in the average fee collected for new and renewing members.

Other Income

Other income consists of rental income and other miscellaneous income.

	Three Months Ended May 31, 2014			2013	
	Amount	Increase from prior year	% Change	Amount	
Other income	\$1,023	\$114	12.5	% \$909	

	Nine Months Ended May 31, 2014			2013	
	Amount	Increase from prior year	% Change	Amount	
Other income	\$2,903	\$147	5.3	% \$2,756	

Gross Margin

Warehouse Gross Profit Margin

	Three Months Ended May 31, 2014			2013		
	Amount	Increase from prior year	% to sales	Amount	% to sales	
Warehouse club sales	\$597,885	\$42,070	100.0	% \$555,815	100.0	%
Less associated cost of goods	509,684	33,957	85.2	% 475,727	85.6	%
Warehouse gross profit margin	\$88,201	\$8,113	14.8	% \$80,088	14.4	%

	Nine Months Ended May 31, 2014			2013		
	Amount	Increase from prior year	% to sales	Amount	% to sales	
Warehouse club sales	\$1,844,746	\$173,477	100.0	% \$1,671,269	100.0	%
Less associated cost of goods	1,575,623	150,227	85.4	% 1,425,396	85.3	%
Warehouse gross profit margin	\$269,123	\$23,250	14.6	% \$245,873	14.7	%

Comparison of Three and Nine Months Ended May 31, 2014 and 2013

For the three months ended May 31, 2014, warehouse gross profit margin as a percent of sales was 34 basis points higher than the third quarter of fiscal 2013. Compared to the same period a year ago, the net warehouse margins benefited from increased slotting fees related to "end cap" placements of vendor products and supplier rebates along with lower shrink and obsolescence costs which contributed to lower cost of goods sold as a percent of net warehouse sales.

For the nine months ended May 31, 2014, warehouse gross profit margin as a percent of sales was 12 basis points lower than the nine months ended on May 31, 2013, with the higher margin percentage recorded in the current quarter offset by lower margin percentages in the first two quarters of the fiscal year compared to the same periods a year ago.

Export Sales Gross Profit Margin

	Three Months Ended May 31, 2014				2013		
	Amount	Increase from prior year	% to sales		Amount	% to sales	
Export sales	\$6,577	\$353	100.0	%	\$6,224	100.0	%
Less associated cost of goods sold	6,246	339	95.0	%	5,907	94.9	%
Export sales gross profit margin	\$331	\$14	5.0	%	\$317	5.1	%

	Nine Months Ended May 31, 2014				2013		
	Amount	Increase from prior year	% to sales		Amount	% to sales	
Export sales	\$19,062	\$3,442	100.0	%	\$15,620	100.0	%
Less associated cost of goods sold	18,110	3,382	95.0	%	14,728	94.3	%
Export sales gross profit margin	\$952	\$60	5.0	%	\$892	5.7	%

Comparison of Three and Nine Months Ended May 31, 2014 and 2013

For the three and nine months ended May 31, 2014 and 2013, the increase in export sales gross margin dollars in fiscal year 2014 was due to an increase in direct sales to an institutional customer (retailer) in the Philippines for which the Company generally earns lower margins than those obtained through its warehouse club sales.

Selling, General and Administrative Expenses

Warehouse Club Operations

	Three Months Ended May 31, 2014					2013		
	Amount	% to warehouse club sales	Increase from prior year	% Change		Amount	% to warehouse club sales	
Warehouse club operations expense	\$53,617	9.0	% \$4,196	8.5	%	\$49,421	8.9	%

	Nine Months Ended May 31, 2014					2013		
	Amount	% to warehouse club sales	Increase from prior year	% Change		Amount	% to warehouse club sales	
Warehouse club operations expense	\$158,592	8.6	% \$15,116	10.5	%	\$143,476	8.6	%

Comparison of Three and Nine Months Ended May 31, 2014 and 2013

Warehouse club operations expense as a percent of net warehouse sales in the third quarter of fiscal year 2014 increased eight basis points. The additional costs associated with the new warehouse clubs in Costa Rica (Tres Rios) and Honduras (El Sauce), which were not included in the third quarter of last year and contributed a higher level of operating expense compared to the incremental sales generated by these new warehouse clubs, outweighed the positive operating expense leverage recorded across the rest of the Company. For the nine month period, the

incremental expense associated with the new warehouse clubs resulted in operating expenses remaining flat as a percent of sales at 8.6%.

General and Administrative Expenses

	Three Months Ended May 31, 2014				2013			
	Amount	% to warehouse club sales	Increase from prior year	% Change	Amount	% to warehouse club sales		
General and administrative expenses	\$ 12,604	2.1	% \$ 1,200	10.5	% \$ 11,404	2.1	%	
	Nine Months Ended May 31, 2014				2013			
	Amount	% to warehouse club sales	Increase from prior year	% Change	Amount	% to warehouse club sales		
General and administrative expenses	\$ 37,065	2.0	% \$ 2,615	7.6	% \$ 34,450	2.1	%	

Comparison of Three and Nine Months Ended May 31, 2014 and 2013

The expenses associated with the Company's corporate and U.S. buying operations grew 10.5% in the third quarter, primarily resulting from increased headcount within the Company's IT and U.S. buying departments required to support the growth of the Company. General and administrative expenses as a percentage of warehouse club sales remained flat at 2.1%. For the nine month period ending May 31, 2014 these expenses grew 7.6%.

Pre-Opening Expenses

Expenses incurred before a warehouse club is in operation are captured in pre-opening expenses.

	Three Months Ended May 31, 2014			2013	
	Amount	Increase/ (decrease) from prior year	% Change	Amount	
Pre-opening expenses	\$ 1,125	\$ 600	114.3	% \$ 525	
	Nine Months Ended May 31, 2014			2013	
	Amount	Increase/ (decrease) from prior year	% Change	Amount	
Pre-opening expenses	\$ 1,939	\$ 530	37.6	% \$ 1,409	

Comparison of Three and Nine Months Ended May 31, 2014 and 2013

The Company recorded pre-opening expenses during the third quarter of fiscal year 2014 primarily related to the property lease for the new club planned for Bogota, Colombia ("Salitre"). The Company will continue to record the monthly lease expense for this land in pre-opening expenses while the warehouse club is under construction. Upon opening, these expenses will be recognized in warehouse club operations expense. The remaining amount of pre-opening expenses in the quarter related to the Tegucigalpa, Honduras ("El Sauce") warehouse club that opened in May 2014. For the same period in the prior year, the Company recorded pre-opening expenses for costs incurred for

the north Cali, Colombia ("Menga") warehouse club which opened in May 2013.

For the nine months ended May 31, 2014, the Company recorded pre-opening expenses related to the La Union, Cartago, Costa Rica ("Tres Rios") warehouse club which opened in October 2013, the Tegucigalpa, Honduras ("El Sauce") warehouse club

which opened in May 2014 and the land lease for the Bogota, Colombia warehouse club. For the same period in the prior year, the Company recorded pre-opening expenses related to the opening of the south Cali, Colombia ("Canas Gordas") warehouse club which opened in October 2012 and the north Cali, Colombia ("Menga") warehouse club which opened in May 2013.

Loss/(Gain) on Disposal of Assets

Asset disposal activity consisted mainly of normally scheduled asset replacement and upgrades.

	Three Months Ended May 31, 2014			2013		
	Amount	Increase/ (decrease) from prior year	% Change	Amount		
Loss/(gain) on disposal of assets	\$ 558	\$ 309	124.1	%	\$ 249	

	Nine Months Ended May 31, 2014			2013		
	Amount	Increase/ (decrease) from prior year	% Change	Amount		
Loss/(gain) on disposal of assets	\$ 746	\$ 393	111.3	%	\$ 353	

Operating Income

	Three Months Ended May 31, 2014					2013				
	Amount	% to warehouse club sales	Increase/(decrease) from prior year	% Change		Amount	% to warehouse club sales	Increase/(decrease) from prior year	% Change	
Operating income	\$31,203	5.2	%	\$ 2,714	9.5	%	\$28,489	5.1	%	

	Nine Months Ended May 31, 2014					2013				
	Amount	% to warehouse club sales	Increase/(decrease) from prior year	% Change		Amount	% to warehouse club sales	Increase/(decrease) from prior year	% Change	
Operating income	\$ 102,937	5.6	%	\$ 8,331	8.8	%	\$94,606	5.7	%	

Comparison of Three and Nine Months Ended May 31, 2014 and 2013

For the three months ended May 31, 2014, operating income improved \$2.7 million compared to the prior year period, primarily due to higher sales and related merchandise margins and higher membership income. As a percentage of sales, operating income increased nine basis points, primarily resulting from higher merchandise margins. For the nine months ended May 31, 2014, operating income improved \$8.3 million compared to the prior year period. As a percentage of sales, operating income was 5.6% compared to 5.7% a year ago.

Interest Expense

	Three Months Ended May 31, 2014		2013	
	Amount	Increase/(decrease) from prior year	Amount	
Interest expense on loans	\$1,090	\$ 137	\$953	
Interest expense related to hedging activity	405	(77)	482	
Capitalized interest	(452)) 556	(1,008)
Net interest expense	\$1,043	\$ 616	\$427	
	Nine Months Ended May 31, 2014		2013	
	Amount	Increase/(decrease) from prior year	Amount	
Interest expense on loans	\$2,743	\$ (156)	\$2,899	
Interest expense related to hedging activity	1,169	(172)	1,341	
Capitalized interest	(945)) 344	(1,289)
Net interest expense	\$2,967	\$ 16	\$2,951	

Comparison of Three and Nine Months Ended May 31, 2014 and 2013

Interest expense reflects borrowings by the Company's wholly owned foreign subsidiaries to finance new warehouse club construction and land acquisition, the capital requirements of warehouse club operations, and ongoing working capital requirements.

The increase for the three months ended May, 31, 2014 was primarily due to an increase in the amounts of long-term loans outstanding during the period and a smaller portion of interest expense being capitalized in connection with the construction of warehouse clubs in Colombia. For the nine months ended May 31, 2014, the interest expense remained flat from a year ago, with lower interest expense on loans and lower interest expense related to hedging activity being offset by a lower level of offset for capitalized interest compared with the same period in the prior year. Additionally, there was a slight decrease in net interest expense incurred related to third-party loans due to lower interest rates.

Other Income (Expense), net

Other income consists of currency gain or loss.

	Three Months Ended May 31, 2014		2013	
	Amount	Increase from prior year	Amount	
Other income (expense), net	\$489	\$ 1,274	\$(785)
	Nine Months Ended May 31, 2014		2013	
	Amount	Increase from prior year	Amount	
Other income (expense), net	\$1,512	\$2,563	\$(1,051)

Comparison of Three and Nine Months Ended May 31, 2014 and 2013

For the third quarter of fiscal year 2014, the Company recorded a net currency gain of \$489,000 resulting from the revaluation of non-functional currency monetary assets and liabilities of the Company's various subsidiaries and offset by the cost associated with non-deliverable forwards in Colombia to manage currency risk. The gain in the current period primarily related to the net U.S. dollar asset position held by the Company's Costa Rican subsidiary at a time when the colon devalued thereby resulting in a revaluation gain. In the year ago period, the Company incurred a \$785,000 loss.

Provision for Income Taxes

	Three Months Ended May 31, 2014		2013	
	Amount	Change from prior year	Amount	
Current tax expense	\$9,457	\$1,028	\$8,429	
Net deferred tax provision (benefit)	77	(576)) 653	
Provision for income taxes	\$9,534	\$452	\$9,082	
Effective tax rate	30.9	%	32.9	%

	Nine Months Ended May 31, 2014		2013	
	Amount	Change from prior year	Amount	
Current tax expense	\$31,595	5,097	\$26,498	
Net deferred tax provision (benefit)	(560)) (2,316)) 1,756	
Provision for income taxes	\$31,035	\$2,781	\$28,254	
Effective tax rate	30.4	%	30.8	%

Comparison of Three and Nine Months Ended May 31, 2014 and 2013

The variance in the effective tax rate for the three-month period ended on May 31, 2014 compared to the same period of the prior year was primarily attributable to a 2.8% favorable impact resulting from a greater proportion of income falling into low tax jurisdictions and a favorable impact of 1.8% resulting from the reduction in valuation allowance against net deferred tax assets of the Company's Colombia subsidiary offset by 1.7% due to permanent adjustments relating to the tax effect of foreign currency exchange gains/losses.

The variance in the effective tax rate for the first nine months of the period ended on May 31, 2014 compared to the same period of the prior year was primarily attributable to the favorable impact of 1.1% resulting from a greater proportion of income falling into low tax jurisdictions, the favorable impact of 1.1% resulting from the reduction in valuation allowance against net deferred tax assets of the Company's Colombia subsidiary, and the offsetting impact of 0.9% due to permanent adjustments relating to the tax effect of foreign currency exchange gains/losses.

Net Income

	Three Months Ended May 31, 2014			2013
	Amount	Increase/(decrease) from prior year	% Change	Amount
Net income	\$ 21,320	\$ 2,781	15.0	% \$ 18,539

	Nine Months Ended May 31, 2014			2013
	Amount	Increase/(decrease) from prior year	% Change	Amount
Net income	\$ 71,030	\$ 7,604	12.0	% \$ 63,426

Other Comprehensive Income (Loss)

	Three Months Ended May 31, 2014			2013
	Amount	Increase/(decrease) from prior year	% Change	Amount
Other comprehensive income (loss)	\$ 2,591	\$ 2,443	1,650.7	% \$ 148

	Nine Months Ended May 31, 2014			2013
	Amount	Increase/(decrease) from prior year	% Change	Amount
Other comprehensive income (loss)	\$ (8,848)	\$ (5,374)	154.7	% \$ (3,474)

Comparison of Three and Nine Months Ended May 31, 2014 and 2013

Other comprehensive income/loss for the three and nine month periods ended May 31, 2014 resulted primarily from foreign currency translation adjustments related to the assets, liabilities, revenue, costs and expenses of the Company's subsidiaries and the recording of the unrealized gains (losses) on change in fair value of interest rate swaps. When the functional currency in the Company's international subsidiaries is the local currency and not U.S. dollars, the assets and liabilities of such subsidiaries are translated to U.S. dollars at the exchange rate on the balance sheet date, and revenue, costs and expenses are translated at average rates of exchange in effect during the period. The corresponding translation gains and losses are recorded as a component of accumulated other comprehensive income or loss. These adjustments will not affect net income until the sale or liquidation of the underlying investment. The reported other comprehensive income or loss reflects the unrealized increase or decrease in the value in U.S. dollars of the net assets of the subsidiaries as of the date of the balance sheet, which will vary from period to period as exchange rates fluctuate.

For the three months ended May 31, 2014 the Company recorded approximately \$3.9 million in other comprehensive income due to foreign currency translations and other comprehensive losses related to the change in fair value of interest rate swaps for approximately \$1.3 million, net of tax. For the nine months ended May 31, 2014, the Company recorded approximately \$8.4 million in other comprehensive losses due to foreign currency translations and other comprehensive losses related to the change in fair value of interest rate swaps for approximately \$421,000, net of tax.

LIQUIDITY AND CAPITAL RESOURCES

Financial Position and Cash Flow

The Company requires cash to fund its operating expenses and working capital requirements, including the investment in merchandise inventories, acquisition of land and construction of new warehouse clubs, expansion of existing warehouse clubs and distribution centers, acquisitions of fixtures and equipment, routine upgrades and maintenance of fixtures and equipment within existing warehouse clubs, investments in joint ventures in Panama and Costa Rica to own and operate commercial retail centers located adjacent to the new warehouse clubs, the purchase of treasury stock upon the vesting of restricted stock awards and payment of dividends to stockholders. The Company's primary sources for funding these requirements are cash and cash equivalents on hand and cash generated from operations. The Company evaluates on a regular basis whether it may need to borrow additional funds to cover any shortfall in the Company's ability to generate sufficient cash from operations to meet its operating and capital requirements. As such, the Company may enter into or obtain additional loans and/or credit facilities to provide additional liquidity when necessary.

The following table summarizes the cash and cash equivalents held by foreign subsidiaries and domestically by the Company (in thousands). Repatriation of cash and cash equivalents held by foreign subsidiaries may require the Company to accrue and pay taxes. The Company has no plans at this time to repatriate cash through the payment of cash dividends by the foreign subsidiaries to the Company and, therefore, has not accrued taxes that would be due from repatriation.

	May 31, 2014	August 31, 2013
Cash and cash equivalents held by foreign subsidiaries	\$93,401	\$75,108
Cash and cash equivalents held domestically	30,358	46,766
Total cash and cash equivalents	\$123,759	\$121,874

The Company's cash flows are summarized as follows (in thousands):

	Nine Months Ended	
	May 31, 2014	May 31, 2013
Net cash provided by (used in) continuing operating activities	\$76,193	\$66,936
Net cash provided by (used in) investing activities	(84,296) (52,863)
Net cash provided by (used in) financing activities	14,764	(10,792)
Effect of exchange rates	(4,776) (2,121)
Net increase (decrease) in cash and cash equivalents	\$1,885	\$1,160

Edgar Filing: PRICESMART INC - Form 10-Q

The Company's net cash provided by (used in) operating activities for the nine months ended May 31, 2014 and 2013 is summarized below:

	Nine Months Ended		Increase/ (Decrease)
	May 31, 2014	May 31, 2013	2014 to 2013
Net income	\$71,030	\$63,426	\$7,604
Adjustments to reconcile net income to net cash provided from (used in) operating activities:			
Depreciation and amortization	20,932	17,943	2,989
(Gain) loss on sale of property and equipment	746	356	390
Deferred income taxes	1,869	2,143	(274)
Stock-based compensation expenses	3,397	3,583	(186)
Other non-cash operating activities	(1)	6	(7)
Net non-cash related expenses	26,943	24,031	2,912
Net income from operating activities reconciled for non-cash operating activities	97,973	87,457	10,516
Changes in operating assets and liabilities not including merchandise inventories and accounts payable	(11,246)	667	(11,913)
Changes in merchandise inventories	(13,280)	(19,880)	6,600
Changes in accounts payable	2,746	(1,308)	4,054
Net cash provided by (used in) operating activities	\$76,193	\$66,936	\$9,257

Net cash provided by operating activities for the period was a result of cash generated from operating activities and the addition of cash for reconciled non-cash activities. The cash generated was offset by cash utilized to support higher merchandise inventory levels required to generate planned sales growth and the addition of two new warehouse clubs. The Company also used cash for increases in operating assets and liabilities related to increases in prepaid freight expenses, increases in local income tax prepayments and prepayments on value added taxes that are related to the increases in inventory. The use of cash associated with increases in inventory normally is partially offset by increases in accounts payable related to such inventory acquisitions. However, in the current operating period the Company increased its inventory level to support an added warehouse and higher sales volumes, resulting in an increase in the use of cash associated with the changes in inventory and accounts payable. Net income adjusted for non-cash related activities increased \$10.5 million in the current nine-month period over the same period in fiscal year 2013 primarily as a result of higher sales, gross profits and membership income growth. This \$10.5 million increase was offset by \$1.3 million of additional cash used in the current period for changes in inventory, operating assets, liabilities and accounts payable.

The Company's use of cash in investing activities for the nine months ended May 31, 2014 and 2013 is summarized below:

	Nine Months Ended		Increase/ (Decrease)
	May 31, 2014	May 31, 2013	2014 to 2013
Cash used for additions of property and equipment:			
Land acquisitions	\$21,243	\$11,412	\$9,831
Deposits for land purchase option agreements	850	—	850
Warehouse club expansion, construction, and land improvements	33,349	25,671	7,678
Acquisition of fixtures and equipment	28,182	15,300	12,882
Proceeds from disposals of property and equipment	(78)	(70)	(8)

Edgar Filing: PRICESMART INC - Form 10-Q

Capital contribution to joint ventures	750	550	200
Net cash flows used by (provided in) investing activities	\$84,296	\$52,863	\$31,433

Net cash used in investing activities increased in the first nine months of fiscal year 2014 compared to the first nine months of fiscal year 2013 by approximately \$31.4 million primarily due to an increase in cash expended for the construction and completion of a warehouse club in La Union, Cartago, Costa Rica ("Tres Rios"), the construction and completion of a warehouse club in Tegucigalpa, Honduras ("El Sauce"), the purchase of land and the ongoing construction of warehouse clubs on the land in the southern area of Pereira, Colombia and in the city of Medellin, Colombia, the ongoing construction of a warehouse club in the city of Bogota, Colombia on land the Company has leased in Bogota, Colombia and the addition of fixtures and equipment for these warehouse clubs.

Cash used in investing activities for the first nine months of fiscal year 2013 consisted primarily of expenditures for the construction of the two warehouse clubs in Cali, Colombia, the continued acquisition of fixtures and equipment for the two warehouse clubs in Cali, Colombia, the purchase of land for the purpose of building and operating warehouse clubs in Costa Rica and Honduras, the start up of construction of the warehouse club in Costa Rica, the addition of fixtures and equipment for existing warehouse clubs, and capital contributions by the Company for the joint ventures during the first nine months of fiscal year 2013.

The Company incurs approximately \$30.0 million in normal annual capital expenditures for on-going replacement of equipment and building and leasehold improvements. Additionally, the Company has either commitments or plans for capital spending for previously announced new warehouse club construction of approximately \$32.5 million. Future additional capital expenditures will be dependent on the timing of future land purchases and/or warehouse club construction activity.

The Company has entered into land purchase option agreements that have not been recorded as commitments, for which the Company has recorded within the balance sheet approximately \$1.3 million in restricted cash deposits and prepaid expenses. The land purchase option agreements can be canceled at the sole option of the Company. The Company does not have a time table of when or if it will exercise these land purchase options, due to the uncertainty related to the completion of the Company's due diligence review. The Company's due diligence review includes evaluations of the legal status of the property, the zoning and permitting issues related to acquiring approval for the construction and operation of a warehouse club and any other issues related to the property itself that could render the property unsuitable or limit the property's economic viability as a warehouse club site. If the purchase option agreements are all exercised, the cash use would be approximately \$31.0 million.

Net cash used by financing activities for the nine months ended May 31, 2014 and 2013 is summarized below:

	Nine Months Ended		Increase/ (Decrease)
	May 31, 2014	May 31, 2013	2014 to 2013
New bank loans offset by establishment of certificates of deposit held against loans and payments on existing bank loans (loan activities)	\$28,344	\$163	\$28,181
Cash dividend payments	(10,570)	(9,065)	(1,505)
Proceeds from exercise of stock options and the tax benefit related to stock options	1,591	1,396	195
Purchase of treasury stock related to vesting of restricted stock	(4,601)	(3,286)	(1,315)
Net cash provided by (used in) financing activities	\$14,764	\$(10,792)	\$25,556

Net cash provided by loan activities increased approximately \$28.2 million in the first nine months of fiscal year 2014 over the same period in fiscal year 2013 as the Company received cash from two additional loans entered into by the Company's Panama subsidiary and Honduras subsidiary for approximately \$24.0 million and \$13.7 million, respectively. The Company also received additional cash from financing activities when compared to the same

nine-month period in the prior year from the release of restricted cash related to loans of approximately \$6.0 million. These amounts were offset by repayments of long-term loans of approximately \$8.1 million under the loan agreement entered into by the Company's Colombia subsidiary on November 1, 2010 with Citibank, N.A. in New York and a long-term loan of approximately \$3.5 million under the loan agreement entered into by the Company's Panama subsidiary on September 11, 2010, with MetroBank,S.A. In addition, the nine month year on year comparison of cash provided by financing activities takes into account the Company recording in fiscal year 2013 loans entered into by its Barbados subsidiary for approximately \$3.9 million pursuant to a loan agreement with Citi Corp Merchant Bank Limited.

Net cash provided by financing activities from loan activities in the first nine months of fiscal year 2013 reflects the Company's Barbados subsidiary entering into a loan agreement with Citicorp Merchant Bank Limited. The agreement established a credit facility for BB\$8.0 million (Eight Million Barbados Dollars), approximately U.S. \$3.9 million. The release of restricted cash for approximately \$2.0 million associated with prior loans in Honduras also contributed to net cash provided by financing activities. These increases in cash were offset by cash used for regularly scheduled payments on loans during the period for approximately \$5.8 million and increased restricted cash for approximately \$3.1 million related to the purchase of property in Honduras.

The following table summarizes the dividends declared and paid during fiscal year 2014 and 2013.

Declared	Amount	First Payment			Amount	Second Payment			Amount
		Record Date	Date Paid	Date Payable		Record Date	Date Paid	Date Payable	
1/23/14	\$0.70	2/14/14	2/28/14	N/A	\$0.35	8/15/14	N/A	8/29/14	\$0.35
11/27/12	\$0.60	12/10/12	12/21/12	N/A	\$0.30	8/15/13	8/30/13	N/A	\$0.30

The Company anticipates the ongoing payment of semi-annual dividends in subsequent periods, although the actual declaration of future dividends, the amount of such dividends, and the establishment of record and payment dates is subject to final determination by the Board of Directors at its discretion after its review of the Company's financial performance and anticipated capital requirements.

Financing Activities

On March 31, 2014, the Company's Panama subsidiary entered into a loan agreement with The Bank of Nova Scotia. The agreement establishes a credit facility of \$34.0 million at a variable interest rate of 30-day LIBOR plus 3.5% for a five year term, monthly principal and interest payments, and a \$17.0 million principal payment due at maturity. The facility provides a five year renewal option upon approval of the Bank of Nova Scotia. The loan is secured by assets of the Company's Panama subsidiary. The purpose of the loan is to repay borrowings due to MetroBank, S.A. of \$3.2 million and to fund the Company's warehouse club expansion plans. During April 2014, the Company drew down \$24.0 million of the \$34.0 million facility and repaid the borrowings due to MetroBank, S.A. of \$3.2 million.

On March 31, 2014, the Company's Panama subsidiary entered into a loan renewal agreement with The Bank of Nova Scotia renewing for an additional five years a 5.5% fixed rate loan originally entered into on August 21, 2009. The balance on the loan as of May 31, 2014 is \$5.25 million and on August 21, 2014 will be \$5.0 million. The renewal agreement will become effective on August 21, 2014. The renewal agreement establishes a credit facility of \$5.0 million at a variable interest rate of 30-day LIBOR plus 2.5% with a floor of 5.5%, for a five year term, with monthly principal and interest payments. The facility provides a five year renewal option upon approval of the Bank of Nova Scotia.

On March 7, 2014 the Company's Honduras subsidiary entered into a loan agreement with Banco de America Central Honduras, S.A. The agreement establishes a credit facility for 286.0 million Lempiras, approximately USD \$13.8 million. The loan has a variable interest rate of 12.75%, which will be reviewed semiannually. The interest rate may not be less than 12.5%. The loan is for 10 years with a 24-month grace period on principal payments, paying interest quarterly only. Thereafter, interest and principal payments are due quarterly. This loan is secured by assets of the Company's Honduras subsidiary. On March 10, 2014, the Company drew down the full amount of the LPS 286.0 million loan.

On November 3, 2013, the Company paid down \$8.0 million of the loan agreement entered into by the Company's Colombia subsidiary on November 1, 2010 with Citibank, N.A. in New York. The original agreement established a loan facility for \$16.0 million to be disbursed in two tranches of \$8.0 million each, but the Company had never borrowed the second tranche. The interest rate was set at the six-month LIBOR rate plus 2.4%. The loan term was for five years with interest only payments and a balloon payment at maturity. The loan facility was renewable for an additional five-year period at the option of the Company's Colombia subsidiary, but if the Company did not draw on

the facility or paid off the loan, the facility would terminate. The Company has paid down this loan, and this loan facility has terminated. This loan was secured by a time deposit pledged by the Company equal to the amount outstanding on the loan. The secured time deposit of \$8.0 million pledged by the Company was released on November 3, 2013.

Derivatives

The Company is exposed to certain risks relating to its ongoing business operations. One risk managed by the Company using derivative instruments is interest rate risk. To manage interest rate exposure, the Company enters into hedge transactions (interest rate swaps) using derivative financial instruments. The objective of entering into interest rate swaps is to eliminate the variability of cash flows in the interest payments associated with variable-rate LIBOR loans over the life of the loans. As changes in interest rates impact the future cash flow of interest payments, the hedges provide a synthetic offset to interest rate movements.

In addition, the Company is exposed to foreign currency and interest rate cash flow exposure related to a non-functional currency long-term debt of one of its wholly owned subsidiaries. To manage this foreign currency and interest rate cash flow exposure, this subsidiary enters into cross-currency interest rate swaps that convert its U.S. dollar denominated floating interest payments to functional currency fixed interest payments during the life of the hedging instrument. As changes in foreign exchange and interest rates impact the future cash flow of interest payments, the hedges are intended to offset changes in cash flows attributable to interest rate and foreign exchange movements.

The Company is also exposed to foreign-currency exchange-rate fluctuations on U.S. dollar denominated liabilities within its international subsidiaries whose functional currency is other than the U.S. dollar. The Company manages these fluctuations, in part, through the use of non-deliverable forward foreign-exchange contracts that are intended to offset changes in cash flow attributable to currency exchange movements. The contracts are intended primarily to economically address exposure to U.S. dollar merchandise inventory expenditures made by the Company's international subsidiaries whose functional currency is other than the U.S. dollar. The Company seeks to mitigate foreign-currency exchange-rate risk with the use of these contracts and does not intend to engage in speculative transactions. Currently, these contracts do not contain any credit-risk-related contingent features. These contracts do not qualify for derivative hedge accounting. The forward currency hedges are not effective cash flow hedges because the notional amount and maturity date of the forward contract does not coincide with the accounts payable balance and due dates. The hedge ineffectiveness is measured by use of the "hypothetical derivative method," and the Company records the changes in the fair value of the forward contract related to the re-measurement of the payable at spot exchange rates as exchange rate gains or losses. The implied interest rate included within the forward contract is reflected in earnings as interest expense.

For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative is reported as a component of other comprehensive income (loss) and reclassified into earnings in the same period or periods during which the hedged transaction is determined to be ineffective. There were no such amounts for the periods reported herein.

Edgar Filing: PRICESMART INC - Form 10-Q

The following table summarizes agreements for which the Company has recorded cash flow hedge accounting transactions during the nine months ended May 31, 2014:

Subsidiary	Date Entered into	Derivative Financial Counter-party	Derivative Financial Instruments	Initial US Notional Amount (in thousands)	Bank US\$ loan Held with	Floating Leg (swap counter-party)	Fixed Rate for PSMT Subsidiary	Settlement Dates	Effective Period of swap
Panama	22-May-14	Bank of Nova Scotia ("Scotiabank")	Interest rate swap	19,800,000	Bank of Nova Scotia	Variable rate 30-day Libor plus 3.5%	4.98%	4th day of each month beginning on June 4, 2014.	May 5, 2014 - April 4, 2019
Panama	22-May-14	Bank of Nova Scotia ("Scotiabank")	Interest rate swap	3,970,000	Bank of Nova Scotia	Variable rate 30-day Libor plus 3.5%	4.98%	4th day of each month beginning on June 4, 2014	May 5, 2014 - April 4, 2019
Colombia	11-Dec-12	Bank of Nova Scotia ("Scotiabank")	Cross currency interest rate swap	8,000,000	Bank of Nova Scotia	Variable rate 3-month Libor plus 0.7%	4.79%	March, June, September and December, beginning on March 5, 2013	December 5, 2012 - December 5, 2014
Colombia	21-Feb-12	Bank of Nova Scotia ("Scotiabank")	Cross currency interest rate swap	8,000,000	Bank of Nova Scotia	Variable rate 3-month Libor plus 0.6%	6.02%	February, May, August and November beginning on May 22, 2012	February 21, 2012 - February 21, 2017
Colombia	17-Nov-11	Bank of Nova Scotia ("Scotiabank")	Cross currency interest rate swap	8,000,000	Citibank, N.A.	Variable rate 6-month Eurodollar Libor plus 2.4%	5.85%	May 3, 2012 and semi-annually thereafter	November 3, 2011 - November 3, 2013
Colombia	21-Oct-11	Bank of Nova Scotia ("Scotiabank")	Cross currency interest rate swap	2,000,000	Bank of Nova Scotia	Variable rate 3-month Libor plus 0.7%	5.30%	January, April, July and October, beginning on October 29, 2011	July 29, 2011 - April 1, 2016
Colombia	21-Oct-11	Bank of Nova Scotia ("Scotiabank")	Cross currency interest rate swap	6,000,000	Bank of Nova Scotia	Variable rate 3-month Libor plus 0.7%	5.45%	March, June, September and December, beginning on December 29, 2011	September 29, 2011 - April 1, 2016
Colombia	5-May-11	Bank of Nova Scotia ("Scotiabank")	Cross currency interest rate swap	8,000,000	Bank of Nova Scotia	Variable rate 3-month Libor plus 0.7%	6.09%	January, April, July and October, beginning on July 5, 2011	April 1, 2011 - April 1, 2016

Trinidad	20-Nov-08	Royal Bank of Trinidad & Tobago	Interest rate swaps	8,900,000	Royal Bank of Trinidad & Tobago	Variable rate 1-year Libor plus 2.75%	7.05%	Annually on August 26	September 25, 2008 - September 26, 2013
----------	-----------	---------------------------------------	------------------------	-----------	---	---	-------	--------------------------	--

The Company measures the fair value for all financial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis or on a nonrecurring basis during the reporting period. The Company has designated the interest rate swaps and cross-currency interest rate swap agreements as hedging instruments and has accounted for them under hedge accounting rules. The following table summarizes the fair value of interest rate swaps and cross-currency interest rate swaps that qualify for derivative hedge accounting (in thousands, except footnote data):

Derivative designated as cash flow hedging instruments	May 31, 2014		August 31, 2013	
	Balance Sheet Account	Fair Value	Balance Sheet Account	Fair Value
Cross currency interest rate swaps ⁽¹⁾⁽²⁾	Prepaid expenses and current assets	\$ 378	Prepaid expenses and current assets	\$ —
Cross currency interest rate swaps ⁽¹⁾⁽²⁾	Other non-current assets	729	Other non-current assets	1,505
Interest rate swaps ⁽³⁾	Other long-term liabilities	(28)	Other long-term liabilities	(14)
Cross currency interest rate swaps ⁽¹⁾⁽⁴⁾	Other long-term liabilities	(76)	Other long-term liabilities	—
Net fair value of derivatives designated as hedging instruments - assets (liability) ⁽⁴⁾		\$ 1,003		\$ 1,491

(1) The effective portion of the cross-currency interest rate swaps was recorded to Accumulated other comprehensive (income)/ loss for \$(596,000) and \$(1.0) million as of May 31, 2014 and August 31, 2013, respectively.

The Company has recorded a deferred tax liability amount with an offset to other comprehensive income - tax of

(2) \$(435,000) and \$(497,000) as of May 31, 2014 and August 31, 2013, respectively, related to asset positions of cross-currency interest rate swaps.

(3) The effective portion of the interest rate swaps was recorded to Accumulated other comprehensive loss for \$19,000 and \$10,000 net of tax as of May 31, 2014 and August 31, 2013, respectively. The Company has recorded a deferred tax asset amount with an offset to other comprehensive income - tax of \$9,000 and \$4,000 as of May 31, 2014 and August 31, 2013, respectively. There were no interest rate swaps outstanding as of May 31, 2014.

(4) Derivatives listed on the above table were designated as cash flow hedging instruments.

The Company enters from time to time into non-deliverable forward exchange contracts; as of May 31, 2014 and August 31, 2013 no open amounts for non-deliverable forward foreign exchange contracts were recorded.

Short-Term Borrowings and Long-Term Debt

Short-term borrowings consist of lines of credit which are secured by certain assets of the Company and its subsidiaries and are guaranteed by the Company as summarized below (in thousands):

	Total Amount of Facilities	Facilities Used Short-term Borrowings	Letters of Credit	Facilities Available	Weighted average interest rate
May 31, 2014	\$35,895	\$—	\$398	\$35,497	N/A
August 31, 2013	\$35,863	\$—	\$588	\$35,275	N/A

As of May 31, 2014, the Company had approximately \$25.0 million of short-term facilities in the U.S. that require the Company to comply with certain quarterly financial covenants, which include debt service and leverage ratios. As of May 31, 2014 and August 31, 2013, the Company was in compliance with respect to these covenants.

As of May 31, 2014 and August 31, 2013, the Company, together with its wholly owned subsidiaries, had \$94.1 million and \$73.0 million, respectively, outstanding in long-term borrowings. The increase during the fiscal year primarily relates to two additional loans entered into by the Company's Panama subsidiary and Honduras subsidiary for approximately \$24.0 million and \$13.7 million, respectively, offset by the repayment of a long-term loan of approximately \$8.1 million under the loan agreement entered into by the Company's Colombia subsidiary on November 1, 2010 with Citibank, N.A. in New York, the repayment of a long-term loan of approximately \$3.2 million under the loan agreement entered into by the Company's Panama subsidiary on September 11, 2010 with MetroBank, S.A. and regularly scheduled loan payments during the period of approximately \$6.1 million. Translation adjustments also decreased long-term debt, primarily due to the translation of foreign-currency-denominated debt of subsidiaries whose functional currency is not the U.S. dollar for approximately \$730,000. These foreign currency translation adjustments are recorded within Other comprehensive income. The carrying amount of the non-cash assets assigned as collateral for long-term debt was \$86.6 million and \$55.2 million as of May 31, 2014 and August 31, 2013, respectively. The carrying amount of the cash assets assigned as collateral for long-term debt was \$24.9 million and \$33.8 million as of May 31, 2014 and August 31, 2013, respectively.

As of May 31, 2014 and August 31, 2013, the Company had approximately \$68.8 million and \$55.9 million, respectively, of long-term loans in Trinidad, Barbados, Panama, El Salvador, Honduras and Colombia that require these subsidiaries to comply with certain annual or quarterly financial covenants, which include debt service and leverage ratios. During the fourth quarter, the Company determined that its Barbados subsidiary was not in compliance with a financial covenant that is measured and reported on an annual basis at the end of the Company's fiscal year. The Company obtained a written waiver from the bank on the annual measurement and reporting for this covenant with respect to any non-compliance for fiscal year 2013 and is in the process of amending the financial covenants within the underlying contract for the long-term loans in the Barbados subsidiary. As of May 31, 2014 and August 31, 2013, the Company was in compliance with all covenants or had received a written waiver from the bank with respect to any non-compliance.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements that have had, or are reasonably likely to have, a material current or future effect on its financial condition or consolidated financial statements.

Repurchase of Equity Securities and Reissuance of Treasury Shares

At the vesting dates of restricted stock awards, the Company repurchases shares from the holders of such awards at the prior day's closing price per share, with the funds used to pay the employees' minimum statutory tax withholding requirements. The Company expects to continue this practice going forward.

Nine Months Ended

Critical Accounting Estimates

The preparation of the Company's consolidated financial statements requires that management make estimates and judgments that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Some of the Company's accounting policies require management to make difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. Management continues to review its accounting policies and evaluate its estimates, including those related to contingencies and litigation, taxes and long-lived assets. The Company bases its estimates on historical experience and on other assumptions that management believes to be reasonable under the present circumstances. Using different estimates could have a material impact on the Company's financial condition and results of operations.

Contingencies and Litigation: In the ordinary course of business, the Company is periodically named as a defendant in various lawsuits, claims and pending actions and is exposed to tax risks (other than income tax). The principal risks that the Company insures against are workers' compensation, general liability, vehicle liability, property damage, employment practices, errors and omissions, fiduciary liability and fidelity losses. If a potential loss arising from these lawsuits, claims, actions and non-income tax issues is probable and reasonably estimable, the Company records the estimated liability based on circumstances and assumptions existing at the time. The estimates affecting the Company's litigation reserves can be affected by new claims filed after the balance sheet date with respect to events occurring prior to the balance sheet date and developments in pending litigation that may affect the outcome of the litigation. While the Company believes the recorded liabilities are adequate, there are inherent limitations in projecting the outcome of litigation and in evaluating the probable additional tax associated with various non-income tax filing positions. As such, the Company is unable to make a reasonable estimate of the sensitivity to change of estimates affecting its recorded liabilities. As additional information becomes available, the Company assesses the potential liability and revises its estimates as appropriate.

Income Taxes: The Company accounts for income taxes using the asset and liability method. Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences and carry-forwards are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is established when necessary to reduce deferred tax assets to amounts expected to be realized. As of May 31, 2014, the Company evaluated its deferred tax assets and liabilities and determined that a valuation allowance is necessary for certain foreign deferred tax asset balances, primarily because of the existence of significant negative objective evidence, such as the fact that certain subsidiaries are in a cumulative loss position for the past three years, indicating that certain net operating loss carry-forward periods are not sufficient to realize the related deferred tax assets.

The Company had U.S. federal and state tax net operating loss carry-forwards, or NOLs, at May 31, 2014 of approximately \$15.3 million and \$7.9 million, respectively. In calculating the tax provision, and assessing the likelihood that the Company will be able to utilize the federal deferred tax assets, the Company considered and weighed all of the evidence, both positive and negative, and both objective and subjective. The Company factored into

its analysis the inherent risk of forecasting revenue and expenses over an extended period of time and also considered the potential risks associated with its business. Because of the Company's U.S. income from continuing operations and based on projections of future taxable income in the United States, the Company was able to determine that there was sufficient positive evidence to support the conclusion that it was more likely than not that the Company would be able to realize all of its U.S. federal NOLs by generating sufficient taxable income during the carry-forward period. However, if the Company does not achieve its projections of future taxable income in the United States, the Company could be required to take a charge to earnings related to the recoverability of these deferred tax assets. Due to the deemed change of ownership (as defined in Section 382 of the Internal Revenue Code) in October 2004, there are annual limitations in the amount of U.S. taxable income that may be offset by NOLs. The NOLs generated prior to the deemed ownership change date are limited on an annual basis. The Company made a single sales factor election on its California tax returns for fiscal year 2012

and 2013, after which time application is mandatory. Application of the single sales factor significantly reduced the California apportionment factor and, therefore, California taxable income. As a result, the Company maintains a valuation allowance on substantially all of its California NOLs. The Company had net foreign deferred tax assets of \$9.6 million and \$9.8 million as of May 31, 2014 and August 31, 2013, respectively.

The Company and its subsidiaries are required to file federal and state income tax returns in the United States and various other tax returns in foreign jurisdictions. The preparation of these tax returns requires the Company to interpret the applicable tax laws and regulations in effect in such jurisdictions, which could affect the amount of tax paid by the Company. The Company, in consultation with its tax advisors, bases its tax returns on interpretations that are believed to be reasonable under the circumstances. The tax returns, however, are subject to routine reviews by the various federal, state and foreign taxing authorities in the jurisdictions in which the Company or one of its subsidiaries file tax returns. As part of these reviews, a taxing authority may disagree with respect to the income tax positions taken by the Company (“uncertain tax positions”) and, therefore, require the Company or one of its subsidiaries to pay additional taxes.

The Company accrues an amount for its estimate of probable additional income tax liability. In certain cases, the impact of an uncertain income tax position on the income tax return must be recognized at the largest amount that is more-likely-than-not to be sustained upon audit by the relevant tax authority. An uncertain income tax position will not be recognized if it has less than 50% likelihood of being sustained. This requires significant judgment, the use of estimates, and the interpretation and application of complex tax laws. When facts and circumstances change, the Company reassesses these probabilities and records any changes in the consolidated financial statements as appropriate. There were no material changes in the Company's uncertain income tax positions for the periods ended on May 31, 2014 and August 31, 2013. However, during the nine-months ended May 31, 2014, the Company was required to make a payment to the government in one country with respect to an income tax case that it is currently appealing, but the Company believes it will eventually prevail. The total amount remitted to the government on this case as of this date is \$2.6 million. This amount has been recorded in the balance sheet as Other non-current assets, as the Company considers this a payment on account and expects to get a refund thereof upon eventually prevailing on this case. The Company has not provided for U.S. deferred taxes on cumulative non-U.S. undistributed earnings as such earnings are deemed by the Company to be indefinitely reinvested. It is not practicable to determine the U.S. federal income tax liability that would be associated with such earnings because of the complexity of the computation.

Value-Added Tax Receivable: The Company pays Value Added Tax (“VAT”) or similar taxes (“input VAT”) within normal the course of its business in most of the countries it operates in on merchandise and/or services it acquires. The Company also collects VAT or similar taxes on behalf of the government (“output taxes”) for merchandise and/or services it sells. If the output VAT exceeds the input VAT, then the difference is remitted to the government, usually on a monthly basis. If the input VAT exceeds the output VAT, this creates a VAT receivable. The Company either requests a refund of this VAT receivable or applies the balance to expected future VAT payables. In some countries where the Company operates, the governments have implemented additional collection procedures, such as requiring credit card processors to remit a portion of sales processed via credit card directly to the government. These procedures alter the natural offset of input and output VAT and generally leaves the Company with a net VAT receivable, forcing the Company to process significant refund claims on a recurring basis. These refund processes can take anywhere from several months to several years to complete.

In most countries where the Company operates, the VAT refund process is defined and structured with regular refunds or offsets. However, in one country the government has alleged that there is no defined process in the law to allow them to refund this VAT receivable. The Company together with its tax and legal advisers is currently appealing this interpretation in court and based on recent favorable jurisprudence on this matter, expects to prevail. Additionally, the government has recently began an audit to verify the amount of this receivable as a required precursor to any refund. Therefore, the Company has not placed an allowance on the recoverability of this VAT receivable. The balance of the VAT receivable in this country was \$4.9 million and \$4.3 million as of May 31, 2014 and August 31, 2013, respectively.

The Company's policy for classification and presentation of VAT receivables is as follows:

- Short-term VAT receivables, recorded as Other current assets: This classification is used for any countries where the Company's subsidiary has generally demonstrated the ability to recover the VAT receivable within one year. The Company also classifies as short-term any approved refunds or credit notes to the extent that the Company expects to receive the refund or use the credit notes within one year.

- Long-term VAT receivables, recorded as Other non-current assets: This classification is used for amounts not approved for refund or credit in countries where the Company's subsidiary has not demonstrated the ability to obtain refunds within one year and/or for amounts or countries which are subject to outstanding disputes.

Long-lived Assets: The Company periodically evaluates its long-lived assets for indicators of impairment. Indicators that an asset may be impaired are:

- the asset's inability to continue to generate income from operations and positive cash flow in future periods;
- loss of legal ownership or title to the asset;
- significant changes in its strategic business objectives and utilization of the asset(s); and
- the impact of significant negative industry or economic trends.

Management's judgments are based on market and operational conditions at the time of the evaluation and can include management's best estimate of future business activity, which in turn drives estimates of future cash flows from these assets. These periodic evaluations could cause management to conclude that impairment factors exist, requiring an adjustment of these assets to their then-current fair market value. Future business conditions and/or activity could differ materially from the projections made by management causing the need for additional impairment charges. No impairment charges have been recorded during fiscal year 2014.

Recent Accounting Pronouncements

FASB ASC 606 ASU 2014-09 - Revenue from contracts with customers.

In May 2014, the FASB issued amended guidance on contracts with customers to transfer goods or services or contracts for the transfer of nonfinancial assets, unless those contracts are within the scope of other standards (e.g., insurance contracts or lease contracts). The guidance requires an entity to recognize revenue on contracts with customers to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance requires that an entity depict the consideration by applying the following steps:

- Step 1: Identify the contract(s) with a customer.
- Step 2: Identify the performance obligations in the contract.
- Step 3: Determine the transaction price.
- Step 4: Allocate the transaction price to the performance obligations in the contract.
- Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation.

The amendments in this ASU are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted. This amendment is to be either retrospectively adopted to each prior reporting period presented or retrospectively with the cumulative effect of initially applying this ASU recognized at the date of initial application. Adoption of this guidance is not expected to have a material impact on the Company's consolidated financial statements.

FASB ASC 405 ASU 2013-04 - Obligations resulting from joint and several liability arrangements.

In February 2013, the FASB issued amendments providing guidance for the recognition, measurement, and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this update is fixed at the reporting date, except for obligations addressed within existing guidance in U.S. GAAP. The guidance requires an entity to measure those obligations as the sum of the amount the reporting entity agreed to pay on the basis of its arrangement among its co-obligors and any additional amount the reporting entity expects to pay on behalf of its co-obligors. The guidance in this update also requires an entity to disclose the nature and amount of the obligation as well as other information about those obligations. The amendment was retrospectively effective for the Company as of September 1, 2013. Adoption of this guidance did not have a material

impact on the Company's consolidated financial statements.

FASB ASC 220 ASU 2013-02 - Reporting of amounts reclassified out of accumulated other comprehensive income.

In February 2013, the FASB issued amended guidance for the presentation requirements for reclassifications out of accumulated other comprehensive income. The amendment requires the Company to provide additional information about reclassifications of accumulated other comprehensive income. The amendment was effective as of March 1, 2013. The Company adopted this guidance on March 1, 2013. Adoption of this guidance did not have a material impact on the Company's consolidated financial statements.

Seasonality

Historically, the Company's merchandising businesses have experienced holiday retail seasonality in their markets. In addition to seasonal fluctuations, the Company's operating results fluctuate quarter-to-quarter as a result of economic and political events in markets served by the Company, the timing of holidays, weather, the timing of shipments, product mix, and currency effects on the cost of U.S.-sourced products which may make these products more or less expensive in local currencies and therefore more or less affordable. Because of such fluctuations, the results of operations of any quarter are not indicative of the results that may be achieved for a full fiscal year or any future quarter. In addition, there can be no assurance that the Company's future results will be consistent with past results or the projections of securities analysts.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk from changes in interest rates, foreign currency exchange rates and commodity price risk. These market risks arise in the normal course of business, and the Company does not engage in speculative trading activities. To manage the risk arising from these exposures, the Company utilizes interest rate swaps, cross-currency interest rate swaps, non-deliverable foreign currency forward contracts and loans denominated in foreign currencies. For a discussion of the Company's accounting policies for derivative instruments and further disclosures, please see Notes to Consolidated Financial Statements - Note 9 - Derivative Instruments and Hedging Activities.

Interest Rate Risk

The Company is exposed to changes in interest rates as a result of its short-term borrowings and long-term debt borrowings. The Company has mitigated a portion of its interest rate risk by managing the mix of fixed and variable rate debt and by entering into interest rate swaps and cross-currency interest rate swaps to hedge interest rate risk. The notional amount, interest payment and maturity dates of the swap match the terms of the associated debt.

The table below provides information about the Company's financial instruments that are sensitive to changes in interest rates. For debt obligations, the table represents the principal cash flows and related weighted-average interest rates by expected maturity dates. For interest rate swaps, including cross-currency interest rate swaps, the table represents the contractual cash flows and weighted-average interest rates by the contractual maturity date, unless otherwise noted. The notional amounts are used to calculate contractual cash flows to be exchanged under the contracts. The weighted-average variable rates are based upon prevailing market interest rates and the outstanding balances as of May 31, 2014.

Foreign Currency Risk

The Company has foreign currency risks related to its sales, operating expenses and financing transactions in currencies other than the U.S. dollar. As of May 31, 2014, the Company had a total of 33 consolidated warehouse clubs operating in 12 foreign countries and one U.S. territory, 26 of which operate under currencies other than the U.S. dollar. Approximately 52% of the Company's net warehouse sales are comprised of products purchased in U.S. dollars and imported into the markets where PriceSmart warehouse clubs are located, but approximately 79% of the Company's net warehouse sales are in foreign currencies. The Company may enter into additional foreign countries in the future or open additional locations in existing countries, which may increase the percentage of net warehouse sales denominated in foreign currencies.

Currency exchange rate changes either increase or decrease the cost of imported products that the Company purchases in U.S. dollars and prices in local currency. Price changes can impact the demand for those products in the market. Currency exchange rates also affect the reported sales of the consolidated company when local currency-denominated sales are translated to U.S. dollars. In addition, the Company revalues all U.S. dollar denominated assets and liabilities within those markets that do not use the U.S. dollar as its functional currency. These assets and liabilities include, but are not limited to, excess cash permanently reinvested offshore and the value of items shipped from the U.S. to the Company's foreign markets. The gain or loss associated with this revaluation, net of reserves, is recorded in other income (expense).

Foreign currencies in most of the countries where the Company operates have historically devalued against the U.S. dollar and are expected to continue to devalue. The following tables summarize by country, for those countries with functional currencies other than the U.S. dollar, the weakening of the countries' currency against the U.S. dollar (devaluation) or the strengthening of their currencies (revaluation):

Country	Revaluation/(Devaluation)	
	Nine Months Ended May 31,	
	2014	2013
	% Change	% Change
Colombia	1.91	% (3.33)
Costa Rica	(9.96)% 0.01
Dominican Republic	(0.84)% (5.32)
Guatemala	2.24	% 1.89
Honduras	(1.89)% (3.49)
Jamaica	(9.07)% (10.54)
Nicaragua	(3.72)% (3.71)
Trinidad	(0.16)% (0.36)

The Company seeks to manage its foreign exchange risk by (1) adjusting prices on goods acquired in U.S. dollars on a periodic basis to maintain its target margins after taking into account changes in exchange rates; (2) obtaining local currency loans from banks within certain markets where it is economical to do so and where management believes the risk of devaluation and the level of U.S. dollar denominated liabilities warrants this action; (3) reducing the time between the acquisition of product in U.S. dollars and the settlement of that purchase in local currency; (4) maintaining a balance between assets held in local currency and in U.S. dollars; and (5) by entering into cross-currency interest rate swaps and forward currency derivatives. The Company has local-currency-denominated long-term loans in Honduras and Guatemala and has cross-currency interest rate swaps and forward currency derivatives in Colombia. Turbulence in the currency markets can have a significant impact on the value of the foreign

currencies within the countries in which the Company operates. The Company reports the gains or losses associated with the revaluation of these monetary assets and liabilities on its Consolidated Statements of Income under the heading "Other income (expense), net." Future volatility and uncertainties regarding the currencies in the Company's countries could have a material impact on the Company's operations in future periods. However, there is no way to accurately forecast how currencies may trade in the future and, as a result, the Company cannot accurately project the impact of the change in rates on the Company's future demand for imported products, reported sales, or financial results.

The Company is exposed to foreign exchange risks related to U.S. dollar-denominated cash, cash equivalents and restricted cash, to U.S. dollar-denominated intercompany debt balances and to other U.S. dollar-denominated debt/asset balances (excluding U.S. dollar-denominated debt obligations for which the Company hedges a portion of the currency risk inherent in the interest and principle payments), within entities whose functional currency is non-U.S. dollar. The following table discloses the net effect on other income (expense) for these U.S. dollar-denominated accounts relative to hypothetical currency devaluation in the countries listed in the table above, based on balances as of May 31, 2014:

Overall weighted negative currency movement	Gains based on change in U.S. dollar denominated cash, cash equivalents and restricted cash balances (in thousands)	Losses based on change in U.S. dollar denominated inter-company balances (in thousands)	Losses based on change in U.S. dollar denominated asset/liability balances, presented (in thousands) ⁽¹⁾
5%	\$ 2,539	\$ 3,463	\$ 388
10%	\$ 5,079	\$ 6,926	\$ 777
20%	\$ 10,158	\$ 13,853	\$ 1,553

⁽¹⁾ Excludes U.S. dollar- denominated debt obligations for which the Company hedges a portion of the currency risk inherent in the interest and principal payments

The Company is also exposed to foreign exchange risks related to local-currency-denominated cash and cash equivalents, to local-currency-denominated debt obligations, to local-currency-denominated current assets and liabilities and to local-currency-denominated long-term assets and liabilities within entities whose functional currency is non-U.S. dollar. The following table discloses the net effect on other comprehensive income (loss) for these local currency denominated accounts relative to hypothetical currency devaluation in the countries listed in the table above, based on balances as of May 31, 2014:

Overall weighted negative currency movement	Other comprehensive loss on the decline in local currency denominated cash and cash equivalents and restricted cash (in thousands)	Other comprehensive gain on the decline in foreign currency denominated debt obligations (in thousands)	Other comprehensive loss on the decline in all other foreign currency denominated current assets net of current liabilities (in thousands)	Other comprehensive loss on the decline in all other foreign currency denominated long-term assets net of long-term liabilities (in thousands)
5%	\$ 2,775	\$ 1,229	\$ 2,783	\$ 13,735
10%	\$ 5,551	\$ 2,459	\$ 5,566	\$ 27,469
20%	\$ 11,101	\$ 4,918	\$ 11,132	\$ 54,939

In addition, the Company is exposed to foreign currency exchange rate fluctuations associated with its U.S. dollar-denominated debt obligations that the Company hedges. The Company hedges a portion of the currency risk inherent in the interest and principal payments associated with this debt through the use of cross-currency interest rate swaps. The terms of these swap agreements are commensurate with the underlying debt obligations. The aggregate fair value of these swaps was in a net asset position of approximately \$596,000 at May 31, 2014 and approximately \$1.0 million at August 31, 2013. A hypothetical 10% increase in the currency exchange rates underlying these swaps from the market rates at May 31, 2014 would have resulted in a further increase in the value of the swaps of approximately \$1.9 million. Conversely, a hypothetical 10% decrease in the currency exchange rates underlying these swaps from the market rates at May 31, 2014 would have resulted in a change from asset to liability position for a net decrease in the value of the swaps of approximately of \$2.4 million.

The Company uses non-deliverable forward foreign exchange contracts to address exposure to U.S. dollar merchandise inventory expenditures made by the Company's international subsidiaries whose functional currency is other than the U.S. dollar. Currently, these contracts do not qualify for derivative hedge accounting. As of May 31, 2014, there are no unsettled forward contracts.

There are certain limitations inherent in the sensitivity analysis presented, primarily due to the assumptions that exchange rates change in a parallel fashion. In addition, the analysis is unable to reflect the complex market reactions that normally would arise from the market shifts modeled. Moreover, changes in the fair value of foreign currency derivatives are offset by changes in the cash flows of the underlying hedged foreign currency transactions.

Commodity Price Risk

The increasing price of oil and certain commodities could have a negative effect on the Company's operating costs and sales. Higher oil prices can negatively impact the economic growth of the countries in which the Company operates, thereby reducing the buying power of our members. Higher oil prices can also increase the Company's operating costs, particularly utilities and distribution expenses. Inflationary pressures on various commodities also may impact consumer spending. The Company does not currently seek to hedge commodity price risk.

ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the timelines specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate, to allow timely decision regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can only provide reasonable assurance of achieving the desired control objectives, and in reaching a reasonable level of assurance, management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Also, we have investments in certain unconsolidated entities. Because we do not control or manage those entities, our control procedures with respect to those entities were substantially more limited than those we maintain with respect to our consolidated subsidiaries.

As required by SEC Rules 13a-15(e) or 15d-15(e), we carried out an evaluation as of the end of the period covered by this Quarterly Report on Form 10-Q, under the supervision and with the participation of our management, including our Principal Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon their evaluation, the Principal Executive Officer and Principal Financial Officer concluded that the Company's disclosure controls and procedures were effective at the reasonable assurance level.

In the ordinary course of business, we review our system of internal control over financial reporting and make changes to our systems and processes to improve controls and increase efficiency, while ensuring that we maintain an effective internal control environment. Changes may include such activities as implementing new, more efficient systems and automating manual processes. There has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) or 15d-15(f) of the Exchange Act) during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

The certifications required by Section 302 of the Sarbanes-Oxley Act of 2002 are filed as Exhibit 31.1 and 31.2 to this report.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this Quarterly Report on Form 10-Q, the reader should carefully consider the factors discussed in Part I, “Item 1A. Risk Factors” in the Company’s Annual Report on Form 10-K for the year ended August 31, 2013. There have been no material changes in the Company’s risk factors from those disclosed in Part I, Item 1A of the Company’s Annual Report on Form 10-K for the fiscal year ended August 31, 2013.

Available Information

The PriceSmart, Inc. website or internet address is www.pricesmart.com. On this website the Company makes available, free of charge, its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and any amendments to those reports, and the annual report to the security holders as soon as reasonably practicable after electronically filing such material with or furnishing it to the U.S. Securities and Exchange Commission (SEC). The Company’s SEC reports can be accessed through the investor relations section of its website under “SEC Filings.” All of the Company’s filings with the SEC may also be obtained at the SEC’s Public Reference Room at Room 1580, 100 F Street NE, Washington, DC 20549. For information regarding the operation of the SEC’s Public Reference Room, please contact the SEC at 1-800-SEC-0330. Additionally, the SEC maintains an internet site that contains reports, proxy and information statements and other information regarding issuers that file electronically with the SEC at www.sec.gov. The Company made available its annual report on Form 10-K and its annual Proxy Statement for the fiscal year 2013 at the internet address <http://materials.proxyvote.com/741511>.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

- (a) None.
- (b) None.
- (c) Purchase of Equity Securities by the Issuer and Affiliated Purchasers.

The following table shows the shares acquired by the Company upon purchase of restricted shares during the quarter ended May 31, 2014. Proceeds from such repurchases are withheld by the Company and used to pay withholding taxes triggered by vesting of such shares.

Period	Total Number of Shares (or Units) Purchased	Average Price Paid per Share (or Unit)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares (or Units) That May Yet be Purchased Under the Plans or

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

The Company previously reported that, in the course of voluntary enhancements to the Company's policies and procedures relating to compliance with U.S. sanctions laws, the Company had determined that 77 of the Company's approximately 2.2 million members were Cuban nationals, had suspended the shopping privileges of these members, and had reported the results of its investigation to the U.S. Office of Foreign Assets Control, or OFAC. The majority of these were Cuban ambassadors, diplomats and others working in Cuban embassies or other diplomatic missions in the countries where PriceSmart has warehouse clubs. In May 2014, OFAC approved an application filed by the Company and granted a license expressly authorizing the Company to make sales to Cuban national diplomats or consular officials and their dependents who are stationed outside Cuba. The Company also reported that it had begun screening its membership list against OFAC's list of Specially Designated Nationals (SDNs). The Company's screening for SDNs has been implemented with respect to current members, is ongoing, and has identified no U.S. sanctions violations to date relating to SDNs.
