#### **Report of Independent Auditors**

To the Participants and the Administrative and Investment Committee for the Edwards Lifesciences Corporation Employee Benefit Plans:

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Edwards Lifesciences Corporation 401(k) Savings and Investment Plan (the "Plan") at December 31, 2002 and 2001, and the changes in net assets available for benefits for the years ended December 31, 2002 and 2001 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

#### Edwards Lifesciences Corporation 401(k) Savings and Investment Plan Notes to Financial Statements

### 1. Description of the Plan

The following description of the Edwards Lifesciences Corporation 401(k) Savings and Investment Plan (the "Plan") is provided for general information purposes only. The Plan was created effective April 1, 2000 in connection with the spin-off of Edwards Lifesciences Corporation (the "Company") from Baxter International Inc. ("Baxter"). The Baxter International Inc. and Subsidiaries Investment Incentive Plan assets relating to the Company's U.S. employees were transferred to the Plan at the time of the spin-off. Participants should refer to the Plan document for more complete information.

#### General

The Plan is a defined contribution retirement plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Participation in the Plan is available to employees of the Company who have met certain eligibility requirements, as described below.

## Eligibility

Employees become eligible to participate in the Plan on the first day of the month following one full month of employment. Eligible individuals are those who are U.S. employees of the Company, or a subsidiary, division or facility of the Company that has adopted the Plan, other than:

- U.S. employees covered by a collective bargaining agreement unless the agreement provides for coverage under the Plan.
- 2.

Employees otherwise excluded from the groups of employees to whom the Plan is extended; and

3.

Individuals who perform services under a written or verbal agreement that classifies them as independent contractors or that otherwise contains a waiver of participation in the Plan, regardless of such individual's employment status under common law

#### Plan Administration

The Plan is administered by the Administrative and Investment Committee for the Edwards Lifesciences Corporation Employee Benefit Plans (the "Committee"). The Committee has authority, responsibility and control over the management of the assets of the Plan. Members of the Committee are appointed by the Board of Directors of the Company and are currently employees of the Company. State Street Bank and Trust Company ("Trustee") serves as trustee of the Plan assets and CitiStreet Institutional and Total Benefits Outsourcing provides record keeping services for the Plan.

#### Contributions

The Plan allows tax deferred contributions intended to qualify under Section 401(k) of the Internal Revenue Code ("IRC"). Eligible participants may make pre-tax contributions up to 15%, limited to \$11,000 for the year ended 2002, of their eligible annual compensation within certain limitations. The Company matches the first three percent of the participant's annual eligible compensation contributed to the Plan on a dollar for dollar basis. The Company matches the next two percent of the participant's annual eligible compensation to the Plan on a 50% basis. In addition, each participant who is an hourly manufacturing employee is eligible to receive discretionary profit sharing contributions in an amount targeted at three percent of such participant's annual base pay based on the achievement of certain

4

performance measures. Also, certain employees are eligible for transitional contributions related to the spin-off from Baxter, as described more fully in the Plan document.

#### Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions and the allocation of the participant's share of the Plan's net earnings and losses, net of certain investment management fees. Allocations are based on participant account balances, as defined.

#### Vesting

Participants are immediately fully vested in their plan accounts (other than their Company matching contributions) plus actual earnings thereon. Vesting in a participant's Company matching contributions plus actual earnings thereon is based on years of continuous service. A participant vests in Company matching contributions in annual increments of 20% and, therefore, is 100% vested after five years of credited service. On termination of service due to death, disability, or attainment of normal retirement age, a participant shall become fully vested.

#### Investment Options

Upon enrollment in the Plan, a participant may direct contributions in any of the following investment options:

## **Commingled Funds:**

General Equity Fund Funds are invested in stocks of U.S. companies of all sizes and types that have strong prospects for future earnings growth.

Composite Fund Funds are invested in a fixed income fund and a fund which invests in the common stocks of those companies listed in the Standard & Poor's 500 Stock index.

Stable Income Fund Funds are invested in a portfolio of investment contracts purchased from insurance companies. These contracts provide a guaranteed interest rate and are included in the general assets of the Plan.

S&P 500 Equity Index Fund Funds are invested in the common stocks of those companies listed in the Standard & Poor's 500 Stock index.

International EAFE Equity Index Fund Funds are invested in the stocks of companies in Europe, Australia and the Far East, known as "EAFE" countries.

*Advice Funds* Funds can be invested in the above funds as well as a fund that invests in the common stocks of those companies listed in the Russell 2000 Stock index. This option provides participants with ongoing investment advice from professional financial advisors.

#### **Self Managed Funds:**

Self managed funds This is a brokerage option that allows participants to invest in approximately 200 different mutual funds.

5

#### **Common Stock Funds:**

Edwards Common Stock Fund Funds are invested primarily in Company common stock.

Baxter Common Stock Fund (for certain eligible employees) Funds are invested primarily in Baxter common stock. Effective April 1, 2000, participants may no longer elect that contributions be invested in the fund, nor may they transfer any existing account balances into the fund.

#### Participant Loans

Participants may borrow an amount ranging from a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. The loans bear interest based on the applicable prime rate at the time of issuance plus 1%, which interest rates presently range from 5.25% to 10.50%, and have a maximum term of five years (or ten years if used to acquire a home). The loans are collateralized by the participants' vested interest in their accounts and any additional collateral as the Committee may require. Principal and interest are generally paid ratably through payroll deductions.

#### Payment of Benefits

On termination of service or otherwise becoming eligible to receive benefits, a participant may elect to receive a lump-sum amount equal to the value of the participant's account, receive periodic installments or transfer the balance in the participant's account to another qualified plan. Vested accounts of \$5,000 or less will be automatically paid in a lump-sum amount.

A participant may make withdrawals from the participant's accounts (except as provided in the Plan document) upon reaching age 59<sup>1</sup>/<sub>2</sub>, becoming fully vested and completing five years of Plan participation. Withdrawals may also be made for financial hardship, which is determined pursuant to the provisions of the IRC. Upon making a hardship withdrawal, a participant may not make additional pre-tax contributions for a period of 6 months from the date of the withdrawal payment.

#### Administrative Expenses

Substantially all investment manager, trustee and administrative fees incurred in the administration of the Plan were paid from the assets of the Plan.

#### **Forfeitures**

A participant's nonvested balance is forfeited at the time of termination of employment. Such forfeitures may be used to offset future Company matching contributions.

#### 2. Summary of Significant Accounting Policies

#### Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

6

Investment Valuation and Income Recognition

Investments in commingled funds are valued based on information provided by the Trustee. The value ascribed by the Trustee is based on closing prices of the underlying securities on the valuation date. The financial statements of the commingled funds are audited annually by independent auditors.

Investments in mutual funds are valued based on the closing market price on the valuation date.

Investments in common stock are valued based on the closing stock price on the valuation date.

Participant loans are valued at the unpaid principal amount of the loan, which is estimated to approximate fair value.

Purchases and sales of securities are reflected on a trade date basis. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date. The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and unrealized appreciation (depreciation) on those investments.

The assets of the Plan are held in a master trust. The master trust contains the assets of the Plan and the Edwards Lifesciences Corporation of Puerto Rico Savings and Investment Plan. Net assets, investment income, and gains and losses are allocated to the Plan based on its proportionate share of the master trust. The Plan's proportionate interest in the master trust at December 31, 2002 and 2001 was 95% and 96%, respectively.

Payment of Benefits

Benefits to participants are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and related notes to the financial statements. Changes in such estimates may affect amounts reported in future periods.

Risks and Uncertainties

The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

7

#### 3. Investments

Investments representing five percent or more of the Plan's net assets are summarized as follows:

December 31,

#### December 31,

|  | 2002             | 2001             |
|--|------------------|------------------|
| Principal Accumulation Return Fund                         | \$<br>38,959,526 | \$<br>33,565,608 |
| S&P 500 Flagship Fund Series A                             | 25,613,176       | 20,952,933       |
| Edwards Lifesciences Corporation Common Stock              | 14,864,004       | 15,595,867       |
| US Growth & Income Fund Series A                           | 13,461,119       | 18,935,875       |
| Baxter International Inc. Common Stock                     | 8,162,309        | 17,610,856       |
| Passive Bond Market Index Securities Lending Fund Series A | 4,515,409        | 12,671,733       |

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

#### Years Ended December 31,

|                        | <br>2002           | 2001         |
|------------------------|--------------------|--------------|
| Common stock           | \$<br>(8,565,266)  | 9,830,660    |
| Commingled investments | (11,076,424)       | (7,423,217)  |
| Mutual Funds           | (146,847)          | (194,510)    |
|                        | <br>               |              |
|                        | \$<br>(19,788,537) | \$ 2,212,933 |
|                        |                    |              |

#### 4. Distribution Priorities upon Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to reduce, suspend or discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, the account balance of each participant will become 100% vested and all assets, net of expenses, will be distributed to the participants or the participants' beneficiaries.

#### 5. Tax Status of the Plan

The Company has received a favorable determination letter from the Internal Revenue Service on the Plan's federal income tax status. Although the Plan has since been amended, the Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code.

## 6. Related Parties

(a)

At December 31, 2002 and 2001, the Plan held units of participation in certain commingled funds and short-term investment funds of the Trustee and held shares of common stock of the Company. These transactions are allowable party-in-interest transactions under ERISA and the regulations promulgated thereunder.
