1st QUARTER REPORT

Central Fund is currently 97.8% invested in gold and silver bullion. At January 31, 2004 Central Fund's gold holdings were 390,170 fine oz. of physical bullion and 5,261 fine oz. of gold bullion certificates. Silver holdings were 19,520,142 oz. of physical bullion and 245,572 oz. of silver bullion certificates. The physical bullion is unencumbered and held in safekeeping in allocated, segregated and insured vault storage by a Canadian chartered bank. Central Fund continues to fulfil its mandate as "The Sound Monetary Fund".

On behalf of the Board of Directors:

FINANCIAL REVIEW

Results of Operations Change in Net Assets

Net assets increased by approximately \$92,747,000 during the three months ended January 31, 2004. Of that amount, \$71,451,000 was the result of the issuance of 15,050,000 Class A shares through a public offering on December 19, 2003. The shares were issued at a premium to net asset value such that there was no dilution of existing Class A shareholders' interests. Details of this public offering are provided in Note 3 to the accompanying financial statements. The \$21,296,000 balance of the increase in net assets was the result of higher prices of gold and silver, less operating costs, at January 31, 2004 compared to October 31, 2003 as described below.

Net Asset Value per Class A Share

	U.S. \$	Cdn. \$
October 31, 2003	\$ 4.35	\$ 5.74
Changes due to:		
Gold price	.06	.08
Silver price	.36	.48
Weaker Cdn. \$	N/A	.03
Other	.04	.05
Total changes	.46	.64
January 31, 2004	\$ 4.81	\$ 6.38

The \$0.46, or a 10.6% increase in net assets per Class A share, expressed in U.S. dollar terms, during the past three months was due primarily to the 3.5% increase in the price of gold and the 21.2% increase in the price of silver during the period. Net assets per Class A share, expressed in Canadian dollar terms, increased at a rate of 11.1%, being \$0.64 per Class A share. The increase described above was facilitated by the 0.5% increase in the U.S. dollar relative to the Canadian dollar. The components of the change in net asset value per Class A share in U.S. and Canadian dollars are summarized in the adjacent table.

Results of Operations Net Loss

The net loss, being the costs of stewardship for the three months ended January 31, 2004 was \$499,301 compared to \$334,333 in 2003. Since January 31, 2003, net assets have increased by approximately \$123,939,000 or 76%. The Company has used the bulk of the proceeds of

two non-dilutive Class A share issues over the past twelve months to purchase gold and silver bullion, primarily in bar form. Certain expenses, such as administration fees that are scaled, and taxes, vary in proportion to net asset levels, or, in the case of stock exchange fees (included in shareholder information), with the total market value of Class A shares. Safekeeping fees and bullion insurance costs increased as a result of the purchases of additional physical gold and silver bullion discussed above.

Despite an increase in overall expense levels, the operating expenses (before taxes), as a percentage of average net assets, declined to 0.14% for the three months ended January 31, 2004 compared to 0.17% for the same three-month period in 2003. For the twelve months ended January 31, 2004, the operating expense ratio was 0.61% compared to 0.71% for the prior twelve-month period.

Liquidity and Capital Resources

Central Fund's dollar liquidity objective is to hold cash reserves primarily for the payment of operating expenses, taxes and Class A share dividends. Should Central Fund not have sufficient currency to meet its cash requirements, a nominal portion of Central Fund's monetary bullion holdings may be sold to fund tax and dividend payments, provide working capital, and pay for redemptions of Class A shares, if any.

For the three months ended January 31, 2004, Central Fund's cash reserves increased by \$2,488,235 as amounts used to pay operating expenses, taxes and the Class A share dividend were more than offset by amounts retained in interest-bearing cash deposits for working capital purposes from the public offering in December 2003. Management monitors Central Fund's cash position with an emphasis on maintaining its mandate to hold maximum amounts of gold and silver bullion.

Notes:

- The accounting policies used in the preparation of these unaudited interim financial statements conform with those presented in Central Fund's October 31, 2003 audited annual financial statements. These interim financial statements do not include all of the disclosures included in the annual financial statements and accordingly should be read in conjunction with the annual financial statements.
- Details of gold and silver bullion holdings at January 31, 2004, are as follows:

Holdings	Gold	Silver

January 31, 2004	U.S. \$399.75	U.S. \$6.2250

- On December 19, 2003, the Company, through a public offering, issued 15,050,000 Class A shares for proceeds of \$71,951,040 net of underwriting fees of \$2,997,960. Costs relating to this public offering were approximately \$500,000 and net proceeds were approximately \$71,451,040.
- The Company used the net proceeds from this public offering to purchase 98,386 fine ounces of gold at a cost of \$40,328,690 and 4,919,333 ounces of silver at a cost of \$28,015,600, in physical bar form. The balance of the net proceeds of approximately \$3,106,750 was retained by the Company in interest bearing cash deposits for working capital purposes.
- Contributed surplus is used to eliminate any deficit that may arise from losses and for the payment of the Class A shares' stated dividend. Accordingly, \$499,301 (2003, \$334,333) has been transferred from contributed surplus on January 31, 2004 and 2003 representing the net loss for the three months then ended. This change does not affect the net asset value of the Company.

Notes:

5. Under Canadian generally accepted accounting principles, the Company records the unrealized appreciation (depreciation) of its investments as a component of shareholders' equity. Under accounting principles generally accepted for investment companies in the United States, these amounts are reflected in the statements of income or loss. Under United States principles, net income for the three months ending January 31, 2004 would be \$21,295,515; (2003, \$16,645,961). The net assets of the Company are identical under both Canadian and United States generally accepted accounting principles.
