**PROXY STATEMENT
FOR THE 2018 ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD MAY 23, 2018**

GENERAL INFORMATION

Our Board of Directors (the "Board") solicits your proxy on our behalf for the 2018 Annual Meeting of Stockholders (the "Annual Meeting") and at any postponement or adjournment of the Annual Meeting for the purposes set forth in this Proxy Statement and the accompanying Notice of 2018 Annual Meeting of Stockholders (the "Notice"). The Annual Meeting will be held at 8:00 a.m. Eastern Time on May 23, 2018, virtually at www.virtualshareholdermeeting.com/ESPR2018. This Proxy Statement is scheduled to be sent or made available to stockholders on or about April 13, 2018.

In this Proxy Statement the terms "Esperion," "the company," "we," "us," and "our" refer to Esperion Therapeutics, Inc. The mailing address of our principal executive offices is Esperion Therapeutics, Inc., 3891 Ranchero Drive, Suite 150, Ann Arbor, MI 48108.

Record Date	March 26, 2018.
Quorum	A majority of the shares of all issued and outstanding stock entitled to vote on the record date must be present in person or represented by proxy to constitute a quorum.
Shares Outstanding	26,751,588 shares of common stock outstanding as of March 26, 2018.
Voting	There are four ways a stockholder of record can vote: (1) By Internet: You may vote over the Internet by following the instructions provided in the Notice or, if you receive your proxy materials by U.S. mail, by following the instructions on the proxy card. (2) By Telephone: If you receive your proxy materials by U.S. mail, you may vote by telephone by following the instructions on the proxy card. (3) By Mail: If you receive your proxy materials by U.S. mail, you may complete, sign and return the accompanying proxy card in the postage-paid envelope provided.

Table of Contents

- (4) Directly at the Annual Meeting: If you are a stockholder as of the record date, you may vote directly at the meeting by going to www.virtualshareholdermeeting.com/ESPR2018 and using your unique control number that was included in the Notice of Availability of Proxy Materials you received in the mail. Submitting a proxy will not prevent a stockholder from attending the Annual Meeting, revoking their earlier-submitted proxy, and voting directly at the meeting. Voting directly at the Annual Meeting will revoke and replace any previous proxies or voting instructions submitted.

In order to be counted, proxies submitted by telephone or Internet must be received by 11:59 p.m. Eastern Time on May 22, 2018. Proxies submitted by U.S. mail must be received before the start of the Annual Meeting.

If you hold your shares through a bank or broker, please follow their instructions.

Revoking Your Proxy

Stockholders of record may revoke their proxies by attending the Annual Meeting and voting directly at the meeting, by filing an instrument in writing revoking the proxy or by filing another duly executed proxy bearing a later date with our Secretary before the vote is counted or by voting again using the telephone or Internet before the cutoff time (your latest telephone or Internet proxy is the one that will be counted). If you hold shares through a bank or broker, you may revoke any prior voting instructions by contacting that firm.

Votes Required to Adopt Proposals

Each share of our common stock outstanding on the record date is entitled to one vote on any proposal presented at the Annual Meeting:

For Proposal One, the election of directors, the three nominees receiving the plurality of votes entitled to vote and cast will be elected as directors.

For Proposal Two, a majority of the shares properly cast for and against such matter is necessary for the approval of the non-binding advisory resolution to approve the compensation of our named executive officers.

For Proposal Three, an affirmative vote of a majority of the shares properly cast for and against such matter, directly or represented by proxy, and voting on such matter is required to ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2018.

Table of Contents

Effect of Abstentions and Broker Non-Votes

Abstentions with respect to and votes withheld from any nominee, and "broker nonvotes" (*i.e.* where a broker has not received voting instructions from the beneficial owner and for which the broker does not have discretionary power to vote on a particular matter) are counted as present for purposes of determining the presence of a quorum. With respect to the election of directors, you may vote "for" or "withhold" authority to vote for each of the nominees. Shares voting "withheld" have no effect on the election of directors. With respect to the proposals to approve the advisory vote on the compensation of our named executive officers and the ratification of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2018, you may vote "for", "against" or "abstain" from such proposal. Abstentions are not counted as votes cast and thus will have no effect on such proposals.

Under the rules that govern brokers holding shares for their customers, brokers who do not receive voting instructions from their customers have the discretion to vote uninstructed shares on routine matters, but do not have discretion to vote such uninstructed shares on non-routine matters. Only Proposal Three, the ratification of the appointment of Ernst & Young LLP, is considered a routine matter where brokers are permitted to vote shares held by them without instruction. If your shares are held through a broker, those shares will not be voted in the election of directors or the proposal to approve the advisory vote on the

compensation of our named executive officers, unless you affirmatively provide the broker instructions on how to vote. "Broker non-votes" are not counted as votes cast and will have no effect on the outcome of such proposals.

Voting Instructions

If you complete and submit your proxy voting instructions, the persons named as proxies will follow your instructions. If you submit proxy voting instructions but do not direct how your shares should be voted on each item, the persons named as proxies will vote **FOR** the election of the nominees for director, **FOR** the approval of the advisory resolution on the compensation of our named executive officers and **FOR** the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2018. The persons named as proxies will vote on any other matters properly presented at the Annual Meeting in accordance with their best judgment, although we have not received timely notice of any other matters that may be properly presented for voting at the Annual Meeting.

Voting Results

We will announce preliminary results at the Annual Meeting. We will report final results by filing a Form 8-K within four business days after the Annual Meeting. If final results are not available at that time, we will provide preliminary voting results in the Form 8-K and will provide the final results in an amendment to the Form 8-K as soon as they become available.

Additional Solicitation/Costs

We are paying for the distribution of the proxy materials and solicitation of the proxies. As part of this process, we reimburse brokerage houses and other custodians, nominees and fiduciaries for their reasonable out-of-pocket

expenses for forwarding proxy and solicitation materials to our stockholders. Proxy solicitation expenses that we will pay include those for preparation, mailing, returning and tabulating the proxies. Our directors, officers, and employees may also solicit proxies on our behalf in person, by telephone, email or facsimile, but they do not receive additional compensation for providing those services.

Table of Contents

**PROPOSAL ONE
ELECTION OF CLASS II DIRECTORS**

Number of Directors; Board Structure

Our Board is divided into three staggered classes of directors as nearly equal in number as possible. One class is elected each year at the Annual Meeting of stockholders for a term of three years. The term of the Class II directors expires at the Annual Meeting. The term of the Class III directors expires at the 2019 Annual Meeting and the term of the Class I directors expires at the 2020 Annual Meeting. After the initial terms expire, directors are expected to be elected to hold office for a three-year term or until the election and qualification of their successors in office.

Nominees

Based on the recommendation of the nominating and corporate governance committee of our Board, our Board has nominated Jeffrey Berkowitz, J.D., Antonio M. Gotto, Jr., M.D., D.Phil., and Nicole Vitullo for election as Class II directors to serve for three-year terms ending at the 2021 Annual Meeting or until their successors are elected and qualified. Each of the nominees is a current member of our Board and has consented to serve if elected.

Unless you direct otherwise through your proxy voting instructions, the persons named as proxies will vote all proxies received "for" the election of each nominee. If any nominee is unable or unwilling to serve at the time of the Annual Meeting, the persons named as proxies may vote for a substitute nominee chosen by the present Board. In the alternative, the proxies may vote only for the remaining nominees, leaving a vacancy on the Board. The Board may fill such vacancy at a later date or reduce the size of the Board. We have no reason to believe that any of the nominees will be unwilling or unable to serve if elected as a director.

Recommendation of the Board

THE BOARD RECOMMENDS THAT YOU VOTE "FOR" THE ELECTION OF EACH OF THE FOLLOWING NOMINEES.

The biographies of each of the nominees and continuing directors below contain information regarding each such person's service as a director, business experience, director positions held currently or at any time during the last five years and the experiences, qualifications, attributes or skills that caused the nominating and corporate governance committee to determine that the person should serve as a director of the company. In addition to the information presented below regarding each such person's specific experience, qualifications, attributes and skills that led the Board and its nominating and corporate governance committee to the conclusion that he or she should serve as a director, we also believe that each of our directors has a reputation for integrity, honesty and adherence to high ethical standards. Each of our directors has demonstrated business acumen and an ability to exercise sound judgment, as well as a commitment of service to our company and our Board. Finally, we value our directors' experience in relevant areas of business management and on other boards of directors and board committees.

Our corporate governance guidelines also dictate that a majority of the Board be comprised of independent directors whom the Board has determined have no material relationship with the company and who are otherwise "independent" directors under the published listing requirements of the NASDAQ Stock Market.

CORPORATE GOVERNANCE

Board Independence

Our Board has determined that all members of the Board, except Mr. Mayleben and Dr. Newton, are independent, as determined in accordance with the rules of the NASDAQ Stock Market. In making such independence determination, the Board considered the relationships that each such non-employee director has with us and all other facts and circumstances that the Board deemed relevant in determining their independence, including the beneficial ownership of our capital stock by each non-employee director. In considering the independence of the directors listed above, our Board considered the association of our directors with the holders of more than 5% of our common stock. The composition and functioning of our Board and each of our committees complies with all applicable requirements of the NASDAQ Stock Market and the rules and regulations of the Securities and Exchange Commission (the "SEC"). There are no family relationships among any of our directors or executive officers.

At least annually, the Board will evaluate all relationships between us and each director in light of relevant facts and circumstances for the purposes of determining whether a material relationship exists that might signal a potential conflict of interest or otherwise interfere with such director's ability to satisfy his or her responsibilities as an independent director. Based on this evaluation, the Board will make an annual determination of whether each director is independent within the meaning of NASDAQ's, the SEC's, and our applicable committees' independence standards.

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics that applies to all of our employees, officers and directors, including those employees responsible for financial reporting. The current version of the Code of Business Conduct and Ethics is available on our website at <http://investor.esperion.com/corporate-governance.cfm>. A copy of the Code of Business Conduct and Ethics may also be obtained, free of charge, upon a request directed to: Esperion Therapeutics, Inc., 3891 Ranchero Drive, Suite 150, Ann Arbor, MI 48108, Attention: Chief Financial Officer. We intend to disclose any amendment or waiver of a provision of the Code of Business Conduct and Ethics that applies to our principal executive officer, principal financial officer, principal accounting officer, or persons performing similar functions, by posting such information on our website (available at <http://www.esperion.com>) and/or in our public filings with the SEC.

Corporate Governance Guidelines

The Board has adopted corporate governance guidelines to assist and guide its members in the exercise of its responsibilities. These guidelines should be interpreted in accordance with any requirements imposed by applicable federal or state law or regulation, NASDAQ and our certificate of incorporation and bylaws. Our corporate governance guidelines are available in the corporate governance section of our website at <http://investor.esperion.com/corporate-governance.cfm>. Although these corporate governance guidelines have been approved by the Board, it is expected that these guidelines will evolve over time as customary practice and legal requirements change. In particular, guidelines that encompass legal, regulatory or exchange requirements as they currently exist will be deemed to be modified as and to the extent that such legal, regulatory or exchange requirements are modified. In addition, the guidelines may also be amended by the Board at any time as it deems appropriate.

Board and Committee Meetings

The Board meets on a regularly scheduled basis during the year to review significant developments affecting us and to act on matters requiring their approval. It also holds special meetings when

important matters require action between scheduled meetings. Members of senior management regularly attend meetings to report on and discuss their areas of responsibility. During 2017, the Board held 7 meetings and acted by unanimous written consent three times. The Board has three standing committees:

the audit committee, which held four meetings in 2017;

the compensation committee, which held nine meetings and acted by unanimous written consent three times in 2017; and

the nominating and corporate governance committee, which held four meetings in 2017.

Each of the incumbent directors of the Board attended at least 75% of the aggregate of all meetings of the Board and all meetings of committees of our Board upon which they served (during the periods that they served) during 2017 except for Dr. Gotto, who attended 71% of the total meetings of the Board and committees of our Board upon which he served. The Board of Directors regularly holds executive sessions of the independent directors. Executive sessions do not include employee directors or directors who do not qualify as independent under NASDAQ and SEC rules.

Annual Meeting Attendance

It is our policy that members of our Board are encouraged to attend annual meetings of our stockholders. All of our directors at the time of our 2017 Annual Meeting of stockholders attended that meeting.

Committees

Our bylaws provide that the Board may delegate responsibility to committees. The Board has three standing committees: an audit committee, a compensation committee, and a nominating and corporate governance committee. The Board has also adopted a written charter for each of the three standing committees. Each committee charter is available in the corporate governance section of our website at <http://investor.esperion.com/corporate-governance.cfm>.

Compensation Committee

Drs. Braunstein and Goldstein and Ms. Vitullo currently serve on the compensation committee, which is chaired by Dr. Goldstein. Our Board has determined that each member of the compensation committee is "independent" as that term is defined in the applicable NASDAQ Stock Market rules, is an "outside director" for purposes of Section 162(m) of the Internal Revenue Code (the "Code") and is "non-employee director" for purposes of Rule 16b-3 promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). applicable NASDAQ Stock Market rules. The nominating and corporate governance committee's responsibilities include:

developing and recommending to the Board of Directors criteria for Board and committee membership;

establishing procedures for identifying and evaluating Board candidates, including nominees recommended by stockholders;

identifying individuals qualified to become members of the Board;

recommending to the Board the persons to be nominated for election as directors and to each of the Board's committees;

developing and recommending to the Board a set of corporate governance guidelines; and

overseeing the evaluation of the Board and management.

Our Board may establish other committees from time to time.

Identifying and Evaluating Director Nominees

The Board is responsible for selecting its own members. The Board delegates the selection and nomination process to the nominating and corporate governance committee, with the expectation that other members of the Board, and of management, will be requested to take part in the process as appropriate.

Generally, the nominating and corporate governance committee identifies candidates for director nominees in consultation with management, through the use of search firms or other advisors, through the recommendations submitted by stockholders or through such other methods as the nominating and corporate governance committee deems to be helpful to identify candidates. Once candidates have been identified, the nominating and corporate governance committee confirms that the candidates meet all of the minimum qualifications for director nominees established by the nominating and corporate governance committee. The nominating and corporate governance committee may gather information about the candidates through interviews, detailed questionnaires, comprehensive background checks or any other means that the nominating and corporate governance committee deems to be appropriate in the evaluation process. The nominating and corporate governance committee then meets as a group to discuss and evaluate the qualities and skills of each candidate, both on an individual basis and taking into account the overall composition and needs of the Board. Based on the results of the evaluation process, the nominating and corporate governance committee recommends candidates for the Board's approval as director nominees for election to the Board.

Minimum Qualifications

The nominating and corporate governance committee will consider, among other things, the following qualifications, skills and attributes when recommending candidates for the Board's selection as nominees for the Board and as candidates for appointment to the Board's committees. The nominee shall have the highest personal and professional integrity, shall have demonstrated exceptional ability and judgment, and shall be most effective, in conjunction with the other nominees to the Board, in collectively serving the long-term interests of the stockholders.

In evaluating proposed director candidates, the nominating and corporate governance committee may consider, in addition to the minimum qualifications and other criteria for Board membership approved by the Board from time to time, all facts and circumstances that it deems appropriate or advisable, including, among other things, the skills of the proposed director candidate, his or her depth

Table of Contents

and breadth of professional experience or other background characteristics, his or her independence and the needs of the Board.

Stockholder Recommendations

Stockholders may submit recommendations for director candidates to the nominating and corporate governance committee by sending the individual's name and qualifications to our Secretary at Esperion Therapeutics, Inc., 3891 Ranchero Drive, Suite 150, Ann Arbor, MI 48108, who will forward all recommendations to the nominating and corporate governance committee. The nominating and corporate governance committee will evaluate any candidates recommended by stockholders against the same criteria and pursuant to the same policies and procedures applicable to the evaluation of candidates proposed by directors or management.

Stockholder Communications

The Board provides to every securityholder the ability to communicate with the Board, as a whole, and with individual directors on the Board through an established process for securityholder communication. For a securityholder communication directed to the Board of Directors as a whole, securityholders may send such communication to the attention of the Lead Independent Director of the Board via U.S. Mail or Expedited Delivery Service to: Esperion Therapeutics, Inc., 3891 Ranchero Drive, Suite 150, Ann Arbor, MI 48108, Attn: Lead Independent Director.

For a securityholder communication directed to an individual director in his or her capacity as a member of the Board, securityholders may send such communication to the attention of the individual director via U.S. Mail or Expedited Delivery Service to: Esperion Therapeutics, Inc., 3891 Ranchero Drive, Suite 150, Ann Arbor, MI 48108, Attn: [Name of Individual Director].

We will forward by U.S. Mail any such securityholder communication to each director, and the Lead Independent Director of the Board in his or her capacity as a representative of the Board, to whom such securityholder communication is addressed to the address specified by each such director and the Lead Independent Director of the Board, unless there are safety or security concerns that mitigate against further transmission.

Board Leadership Structure

The positions of our Executive Chairman of the Board and Chief Executive Officer have historically been separated at Esperion. We do not currently have an Executive Chairman or Chairman of the Board.

Since July 2015, Nicole Vitullo has served as our lead independent director. As the lead independent director, Ms. Vitullo is responsible for coordinating the activities of the independent directors. Among other things, the lead independent director has the following specific responsibilities:

presiding at all executive sessions of independent directors;

serving as liaison between the Chief Executive Officer of the Board and the independent directors;

approving information sent to the Board;

approving Board meeting agendas;

approving Board meeting schedules to assure that there is sufficient time for discussion of all agenda items;

having the authority to call meetings of the independent directors of the Board; and

if requested by major stockholders, ensuring that he or she is available for consultation and direct communication.

Board's Role in Risk Oversight

Our Board oversees the management of risks inherent in the operation of our business and the implementation of our business strategies. Our Board performs this oversight role by using several different levels of review. In connection with its reviews of the operations and corporate functions of our company, our Board addresses the primary risks associated with those operations and corporate functions. In addition, our Board reviews the risks associated with our company's business strategies periodically throughout the year as part of its consideration of undertaking any such business strategies.

Each of our Board committees also oversees the management of our company's risk that falls within the committee's areas of responsibility. In performing this function, each committee has full access to management, as well as the ability to engage advisors. Our Chief Financial Officer reports to the audit committee and is responsible for identifying, evaluating and implementing risk management controls and methodologies to address any identified risks. In connection with its risk management role, our audit committee meets privately with representatives from our independent registered public accounting firm and our Chief Financial Officer. The audit committee oversees the operation of our risk management program, including the identification of the primary risks associated with our business and periodic updates to such risks, and reports to our Board regarding these activities. The compensation committee also plays a role in that it is charged, in overseeing our overall compensation programs, with assessing whether these compensation programs create risks that are reasonably likely to have a material adverse effect on us.

Risks Related to Compensation Policies and Practices

In establishing and reviewing our compensation philosophy and programs, our compensation committee considers whether such programs encourage unnecessary or excessive risk taking. We believe that our executive and other compensation programs do not encourage excessive or unnecessary risk taking. This is primarily due to the fact that our compensation programs are designed to encourage our executive officers and other employees to remain focused on both short-term and long-term strategic goals. As a result, we do not believe that our compensation programs are reasonably likely to have a material adverse effect on us.

PROPOSAL TWO
ADVISORY VOTE ON NAMED EXECUTIVE OFFICER COMPENSATION

Our Board is committed to excellence in governance. As part of this commitment, and as required by Section 14A(a)(1) of the Exchange Act, our Board is providing our stockholders with an opportunity to cast a non-binding advisory vote on the compensation of our named executive officers.

As described below under "Executive Officer and Director Compensation Compensation Discussion and Analysis," we have developed a compensation program that is designed to attract and retain key executives responsible for our success and motivate management to enhance long-term stockholder value. The executive compensation program is designed to reward short-term and long-term performance and to align the financial interests of our executive officers with the interests of our stockholders. We believe our executive compensation program strikes an appropriate balance between the implementation of responsible, measured compensation practices and the effective provision of incentives for our named executive officers to exert their best efforts for our success.

We are asking for stockholder approval, on an advisory basis, of the compensation of our named executive officers as disclosed in this Proxy Statement, which include the disclosures in the "Executive Officer and Director Compensation" and "Compensation Discussion and Analysis" sections below, the compensation tables and the narrative discussion following the compensation tables in this Proxy Statement. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the policies and practices described in this Proxy Statement. For the reasons discussed above, our Board unanimously recommends that our stockholders vote in favor of the following resolution:

"RESOLVED, that the Company's stockholders hereby approve, on an advisory basis, the compensation of the named executive officers, as disclosed in the Company's proxy statement for the 2018 Annual Meeting of Stockholders pursuant to the compensation disclosure rules of the SEC, including the Compensation Discussion and Analysis, Summary Compensation Table and the other compensation related tables and disclosure."

As this vote is advisory, it will not be binding upon our Board or the compensation committee and neither our Board nor the compensation committee will be required to take any action as a result of the outcome of this vote. However, the Board and the compensation committee value the opinion of our stockholders and the compensation committee will carefully consider the outcome of this vote when evaluating our executive compensation policies and practices and making future compensation decisions.

Vote Required

For approval, this proposal must receive the affirmative vote of the majority of shares properly cast on the proposal. Abstentions and broker non-votes will have no effect on Proposal Two.

Recommendation of the Board

THE BOARD RECOMMENDS THAT YOU VOTE "FOR" THE ADVISORY RESOLUTION APPROVING OUR NAMED EXECUTIVE OFFICER COMPENSATION.

PROPOSAL THREE
RATIFICATION OF THE APPOINTMENT OF
OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We have appointed Ernst & Young LLP as our independent registered public accounting firm to perform the audit of our financial statements for the fiscal year ending December 31, 2018, and we are asking you and other stockholders to ratify this appointment. Ernst & Young LLP has served as our independent registered public accounting firm since 2008.

The audit committee annually reviews the independent registered public accounting firm's independence, including reviewing all relationships between the independent registered public accounting firm and us and any disclosed relationships or services that may impact the objectivity and independence of the independent registered public accounting firm, and the independent registered public accounting firm's performance. As a matter of good corporate governance, the Board determined to submit to stockholders for ratification the appointment of Ernst & Young LLP. A majority of the votes properly cast is required in order to ratify the appointment of Ernst & Young LLP. In the event that a majority of the votes properly cast do not ratify this appointment of Ernst & Young LLP, we will review our future appointment of Ernst & Young LLP.

We expect that a representative of Ernst & Young LLP will attend the Annual Meeting and the representative will have an opportunity to make a statement if he or she so chooses. The representative will also be available to respond to appropriate questions from stockholders.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Registered Public Accounting Firm

We have adopted a policy on under which the audit committee must pre-approve all audit and permissible non-audit services to be provided by the independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. Pre-approval would generally be requested annually, with any pre-approval detailed as to the particular service, which must be classified in one of the four categories of services listed below. The audit committee may also, on a case-by-case basis, pre-approve particular services that are not contained in the annual pre-approval request. In connection with this pre-approval policy, the audit committee also considers whether the categories of pre-approved services are consistent with the rules on accountant independence of the SEC and the Public Company Accounting Oversight Board.

In addition, in the event time constraints require pre-approval prior to the audit committee's next scheduled meeting, the audit committee has authorized its Chairperson to pre-approve services. Engagements so pre-approved are to be reported to the audit committee at its next scheduled meeting.

The following table sets forth the fees billed by Ernst & Young LLP for audit, audit-related, tax and all other services rendered for 2017 and 2016:

The information contained in this audit committee report shall not be deemed to be (1) "soliciting material," (2) "filed" with the SEC, (3) subject to Regulations 14A or 14C of the Exchange Act, or (4) subject to the liabilities of Section 18 of the Exchange Act. In addition, this report shall not be deemed filed under either the Securities Act or the Exchange Act.

This report is submitted by the audit committee of the Board. The audit committee consists of the three directors whose names appear below. None of the members of the audit committee is an officer or employee of Esperion, and the Board has determined that each member of the audit committee is "independent" for audit committee purposes as that term is defined under Rule 10A-3 of the Exchange Act, and the applicable NASDAQ Stock Market rules. The Board has designated Dr. Braunstein as an "audit committee financial expert," as defined under the applicable rules of the SEC. The audit committee operates under a written charter adopted by the Board.

The audit committee's general role is to assist the Board in monitoring our financial reporting process and related matters. Its specific responsibilities are set forth in its charter.

The audit committee has reviewed the company's financial statements for 2017 and met with management, as well as with representatives of Ernst & Young LLP, the company's independent registered public accounting firm, to discuss the financial statements. The audit committee also discussed with members of Ernst & Young LLP the matters required to be discussed by the Auditing Standard No. 16, as amended (AICPA *Performance Standards* Vol. 1. AU Section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T.

In addition, the audit committee received the written disclosures and the letter from Ernst & Young LLP required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the audit committee concerning independence, and discussed with members of Ernst & Young LLP its independence.

Based on these discussions, the financial statement review and other matters it deemed relevant, the audit committee recommended to the Board that the company's audited financial statements for 2017 be included in its Annual Report on Form 10-K for 2017.

EXECUTIVE OFFICER AND DIRECTOR COMPENSATION

Compensation Discussion and Analysis

Our primary objective with respect to executive compensation is to attract and retain individuals who possess knowledge, experience and skills that we believe are important to our business of developing and commercializing oral therapies for the treatment of patients with elevated low-density lipoprotein cholesterol ("LDL-C"). Specifically, our executive compensation program is designed to:

attract and retain individuals with superior ability and managerial experience;

align our executive officers' incentives with our corporate strategies, business goals and the long-term interests of our stockholders; and

increase incentives to achieve key strategic performance goals by linking incentive award opportunities to the achievement of performance goals and by providing a portion of the target total direct compensation opportunity for our executive officers in the form of ownership in the Company.

This section discusses the principles underlying our policies and decisions with respect to the compensation of our executive officers who are named in the Summary Compensation Table below, or our "named executive officers," and all material factors relevant to an analysis of these policies and decisions. Our named executive officers during 2017 were:

Tim M. Mayleben, our President and Chief Executive Officer

Narendra D. Lalwani, Ph.D., FAHA, DABT, our Executive Vice President, Research and Development, and Chief Operating Officer

Mary P. McGowan, M.D., our Chief Medical Officer

Management Changes

Effective January 1, 2018, Richard B. Bartram, who until such date served as our Vice President, Finance, was promoted to the position of Chief Financial Officer and became our principal financial officer. Dr. McGowan, our Chief Medical Officer, resigned effective as of March 31, 2018.

Consideration of 2017 Advisory Vote on Executive Compensation

At our 2017 Annual Meeting of Stockholders, we conducted our annual non-binding advisory vote on the compensation of our named executive officers, commonly referred to as a "say-on-pay" vote, in accordance with Section 14A of the Exchange Act. The 2017 say-on-pay vote received strong support from our stockholders, with over 90% of the votes cast on this proposal voted in support of the compensation paid to our named executive officers. While this vote is considered to be a non-binding advisory vote, our compensation committee and Board of Directors carefully consider the voting results. Given the strong level of support evidenced by the 2017 say-on-pay vote, our compensation committee decided to maintain our general approach to executive compensation and made no significant changes to our executive compensation program during 2017. However, the compensation committee will continue to monitor the executive compensation program to ensure it aligns the interests of our named executive officers with the interests of our stockholders and adequately addresses any stockholder concerns that may be expressed in future votes.

Consistent with the recommendation of our Board and the preference of our stockholders as reflected in the non-binding advisory vote on the frequency of future "say-on-pay" votes conducted at our 2016 Annual Meeting of Stockholders, our stockholders will have an opportunity annually to cast a non-binding annual advisory vote to approve the compensation of our named executive officers.

Executive Summary

We are the lipid management company, a late-stage pharmaceutical company focused on developing and commercializing complementary, convenient, cost-effective, once-daily, oral therapies for the treatment of patients with elevated LDL-C. Through scientific and clinical excellence, and a deep understanding of cholesterol biology, the experienced lipid management team at Esperion is committed to developing new LDL-C lowering therapies that will make a substantial impact on reducing global cardiovascular disease; the leading cause of death around the world. Bempedoic acid and the company's lead product candidate, the bempedoic acid / ezetimibe combination pill, are targeted therapies that have been shown to significantly reduce elevated LDL-C levels in patients with hypercholesterolemia, including patients inadequately treated with current lipid-modifying therapies.

The goal of our compensation committee is to ensure that our executive compensation program is aligned with the interests of our stockholders and our business goals and that the total compensation paid to each of our named executive officers is fair, reasonable and competitive. The key elements of our executive compensation program include:

base salary, to enable us to attract and retain the talent needed to continue to drive our business;

an annual cash incentive plan, tied to the achievement of pre-determined quantitative and qualitative corporate performance goals; and

long-term incentive compensation in the form of equity awards, which are typically subject to multi-year vesting based on continued service and are primarily in the form of stock options, the value of which depends on the market price of our common stock.

Our executive compensation program incorporates the following best practices:

a significant portion of our named executive officers' total compensation opportunity is based on performance;

no named executive officer is entitled to "single-trigger" cash severance payments;

no named executive officer is entitled to receive any tax "gross-up" payments or reimbursements;

we do not allow repricing of stock options without stockholder approval;

our compensation committee retains independent compensation consultants to assist it in discharging its responsibilities on executive compensation; and

our compensation committee regularly reviews our compensation programs to ensure they are designed to create and maintain stockholder value and do not encourage excessive risk taking.

We target the total cash compensation for our named executive officers with reference to the median of the competitive market. In addition, in accordance with our "pay-for-performance" philosophy, a significant portion of executive compensation is performance-based, subject to increase when results exceed corporate goals and reduction when results fall below our target goal levels. We consider stock options to be performance-based compensation because they only have intrinsic value if the market price of our common stock increases over time.

Determining and Setting Executive Compensation

Our executive compensation program is designed to attract, motivate and retain qualified and talented executives, incent them to achieve our business and development goals and reward them for superior short-term and long-term performance. In particular, our executive compensation program is intended to reward the achievement of specified pre-established quantitative and qualitative corporate performance goals and individual performance goals and to align the interests of our named executive officers with those of our stockholders.

Our compensation committee, which is comprised entirely of independent directors, is primarily responsible for developing and implementing our compensation policies and establishing and approving the compensation for our executive officers. The compensation committee oversees our compensation and benefit plans and policies, administers our equity incentive plans and reviews and approves annually all compensation decisions relating to our executive officers, including our CEO. Our compensation committee operates under a written charter adopted by our Board, which provides that the compensation committee has overall responsibility for:

periodically reviewing and assessing our processes and procedures for the consideration and determination of executive compensation;

reviewing and approving grants and awards under incentive-based compensation plans and equity-based plans; and

determining the type and level of compensation of our CEO and our other executive officers.

Edgar Filing: Esperion Therapeutics, Inc. - Form DEF 14A

In reviewing and approving these matters, our compensation committee considers such matters as it deems appropriate, including our financial and operating performance, the alignment of the interests

of our executive officers and our stockholders and our ability to attract and retain qualified and committed individuals. In determining the appropriate compensation levels for our CEO, the compensation committee meets outside the presence of our CEO and other executive officers. With respect to the compensation levels of our other executive officers, the compensation committee meets outside the presence of all executive officers except our CEO. Our CEO annually reviews the performance of each of the other named executive officers with the compensation committee.

Our compensation committee has the authority under its charter to engage the services of consulting firms or other outside advisors to assist it in designing our compensation programs and in making compensation decisions. In 2017, our compensation committee engaged Compensia as its compensation consultant. Our compensation committee has assessed the independence of Compensia consistent with NASDAQ listing standards and has concluded that the engagement of Compensia does not raise any conflict of interest. In addition, the Company provides data for and subscribes to "off-the-shelf" surveys produced by Radford, an Aon Hewitt Company, which our management team uses for non-executive compensation and benefits planning purposes.

Competitive Market Data

In evaluating the total compensation of our named executive officers, our compensation committee, using information gathered by Compensia, establishes as a reference source a peer group of publicly traded, national and regional companies in the biopharmaceutical and biotechnology industries that is selected based on a balance of the following criteria:

industry;

size (market capitalization);

development stage of lead product candidate; and

similarity/relevance (small molecule, therapeutic area, etc.).

Our compensation committee annually evaluates the composition of our peer group and adjusts its composition for factors such as recent acquisitions of peer companies, new markets that we have entered or changes in the technology market landscape. Based on these criteria, our peer group for 2017, referred to as our 2017 peer group, was approved by our compensation committee and was comprised of the companies listed below. We believe that our 2017 peer group continues to be aligned with our strategic vision and positions us to attract, retain and engage high performing leaders:

Accelaron Pharma, Inc.

Agios Pharmaceuticals, Inc.

Alder BioPharmaceuticals, Inc.

Amicus Therapeutics, Inc.

We believe that the compensation practices of our 2017 peer group provided the compensation committee with an appropriate understanding of the competitive market when evaluating and determining the compensation of our named executive officers during 2017. However, due to the nature of our business, we compete for executive talent with many public companies, including pharmaceutical companies, that are larger and more established than we are or that possess greater resources than we do, or with smaller private companies that may be able to offer greater equity compensation potential, as well as with prestigious academic and non-profit institutions. In addition, the assessment of our compensation practices against the competitive market (based on the peer group data) is just one of several factors that inform our compensation committee's judgment in setting executive compensation. Our executive compensation decisions are made on a case-by-case basis and comparability to specific percentile rankings do not, in and of themselves, determine individual target compensation opportunities.

Accordingly, in 2017, our compensation committee generally set compensation levels for our executive officers with reference to the following:

base salaries between approximately the 50th to 75th percentile of the base salaries of the companies in our 2017 peer group;

annual cash incentive award opportunities between approximately the 50th to 75th percentile of the companies in our 2017 peer group;

total annual long-term incentive awards in the form of stock options, between the 50th and 75th percentile of the companies in our 2017 peer group; and

target total direct compensation at the 50th percentile of compensation paid to similarly situated executives at the companies in our 2017 peer group.

Although, our compensation committee uses the target guidelines set forth above as a reference, it also considers other factors, including market conditions, the recommendation of our CEO with respect to executive officers other than himself, the experience level of the named executive officer and his or her performance against established corporate goals, in determining actual compensation amounts.

Other Key Performance Factors in Determining Executive Compensation

As the biopharmaceutical industry is characterized by very long product development cycles, including lengthy research and development periods and rigorous approval phases involving human testing and governmental regulatory approval, many of the traditional measures for evaluating performance, such as product sales, revenues and profits are inappropriate for a development-stage biopharmaceutical company.

Edgar Filing: Esperion Therapeutics, Inc. - Form DEF 14A

Instead, the specific performance factors our compensation committee considers when determining the compensation of our named executive officers include:

research and development achievements which advance the development of the bempedoic acid / ezetimibe combination pill and bempedoic acid;

Table of Contents

successful initiation, progression and completion of clinical studies for the bempedoic acid / ezetimibe combination pill and bempedoic acid;

successful completion of non-clinical activities for the bempedoic acid / ezetimibe combination pill and bempedoic acid;

the achievement of regulatory goals; and

the establishment and maintenance of key business activities and strategic relationships, which include financings.

These performance factors are considered by our compensation committee in connection with our annual performance reviews described below and are a critical component in the determination of annual cash and equity incentive awards for our named executive officers.

Annual Compensation Decisions

Our compensation committee conducts an annual performance review of each of our named executive officers and approves the target compensation opportunity of each named executive officer based, in part, on this review. During the first quarter of each year, annual corporate goals are determined by our Board and set forth in writing. Before the end of each year, our compensation committee determines cash incentive compensation award amounts for such year as well as the compensation levels for each named executive officer for the following year after carefully reviewing overall corporate goals, determining achievement of the established corporate goals and, in the case of executive officers other than our CEO, the achievement of individual performance goals.

Any merit-based increases in base salary and the size of annual stock option grants are based on the achievement of these corporate performance goals and individual performance goals, a review of competitive market data (based on our peer group), and consideration of the other factors described above. Cash awards made under our 2017 annual cash incentive compensation program were based upon achievement of the corporate goals approved by our Board and, for our named executive officers other than our CEO, individual performance.

During the last quarter of each year, our CEO evaluates our corporate performance and each of our other named executive officer's individual performance, as compared to the pre-established corporate goals and the named executive officer's individual goals for that year. Based on this evaluation, our CEO recommends to our compensation committee any increases in base salary, annual stock option grants and/or cash awards under our annual cash incentive compensation program. Our compensation committee, with input from our Board, evaluates our CEO individual performance and determines whether to adjust his base salary, grant him an annual stock option and/or make a cash award under our annual cash incentive compensation program.

Typically, our compensation committee grants annual stock options, and determines adjustments to base salary and the amount of any annual cash incentive compensation award, at its last regularly scheduled meeting of the year. Our compensation committee may also review the compensation of our named executive officers throughout the course of the year. With respect to year-end reviews, any adjustments to base salary are effective at the beginning of the following year.

Executive Compensation Components

The primary elements of our executive compensation program are base salary, annual cash incentive compensation opportunities, annual equity incentive awards and broad-based health and welfare benefits programs. We have not adopted any formal guidelines for allocating total compensation between long-term and short-term compensation, cash compensation and non-cash compensation, or among different forms of non-cash compensation. With the exception of our 2017

Table of Contents

annual cash incentive compensation program, we do not have any pre-established target levels for allocations or apportionment by type of compensation.

Annual Cash Compensation*Base Salary*

We provide base salaries to our named executive officers to compensate them with a fair and competitive base level of compensation for services rendered during the year. Typically, our compensation committee determines the base salary for each named executive officer based on his or hers responsibilities and experience, as well as the recommendation of our CEO for named executive officers other than himself, and the other factors described above. In addition, our compensation committee reviews and considers the level of base salary paid by companies in our peer group for similar positions.

During 2017, our compensation committee reviewed Mr. Mayleben's base salary and, effective April 1, 2017, determined to increase his annual base salary for 2017 by \$30,000 to better align to the competitive market. The base salaries of our other named executive officers remained the same as 2016 levels.

The table below sets forth the adjustments to base salary, in dollars and as a percentage, for our named executive officers for 2017:

Name	2016 Base Salary (\$)	2017 Base Salary (\$)	Increase (%)
Tim M. Mayleben	535,000	565,000	6
Narendra D. Lalwani, Ph.D., FAHA, DABT	390,000	390,000	
Mary P. McGowan, M.D.	395,000	395,000	

Annual Cash Incentive Compensation

In 2017, eligible employees, including our named executive officers, had the opportunity to earn cash bonuses under our 2017 cash incentive compensation program, based on our achievement of the 2017 corporate performance goals approved by our compensation committee and, for our named executive officers other than the CEO, based on their achievement of their individual performance goals, each as determined by the compensation committee. Each of our named executive officers was given a target annual cash incentive opportunity, expressed as a percentage of his or her annual base salary as set forth in his or her respective employment agreement.

In December 2017, our CEO evaluated our corporate performance against the 2017 corporate goals approved by our compensation committee and each of our other named executive officer's individual performance against his or her individual performance goals for the year. Based on this evaluation, our CEO recommended cash bonus payments under our 2017 cash incentive compensation program for each named executive officer other than himself. Also in December 2017, the compensation committee assessed our performance against the pre-established 2017 corporate base and stretch performance goals described below and, with input from our CEO, assessed the performance of our named executive officers against their individual performance goals for 2017.

The 2017 base corporate performance goals approved by our compensation committee, the relative weightings assigned to each goal, and our actual achievement during the year as a percentage of the

target performance level and the weighted performance against these corporate goals for 2017, are set forth in the table below.

2017 Corporate Base Goals	Relative Weighting (%)	Actual Achievement for 2017 (as a % of target)	Weighted Performance (%)
Advance the bempedoic acid LDL-C lowering program by reaching confirmation with FDA on the Phase 3 development program for, advance business development initiatives, or complete a financing to further fund the development program	25	100	25
Complete enrollment of the bempedoic acid pivotal Phase 3 long-term safety study (i.e. Study 1)	25	100	25
Complete enrollment of the three pivotal Phase 3 efficacy studies (i.e. Study 2, Study 3 and Study 4)	30	100	30
Reach confirmation with FDA on the Phase 3 development program for the bempedoic acid / ezetimibe combination pill to support approval of an LDL-C lowering indication	10	100	10
Initiate and report positive top-line results from Phase 2 (1002-038) "Triplet Oral Therapy" study	10	100	10
Approved 2017 Corporate Base Performance Level	100		100

In addition, the compensation committee set the following stretch corporate goals for 2017: (1) increase awareness of bempedoic acid in the medical community and (2) file an IND for NASH. If the stretch goals were fully achieved, the named executive officers could receive up to 130% of the portion of their target bonus amounts determined based upon the achievement of corporate goals.

Our compensation committee set certain of our 2017 corporate goals to be very aggressive and at challenging levels, such that the attainment of all of our corporate goals would require a high level of effort and execution on the part of the named executive officers.

During 2017, we made significant progress towards achieving our clinical development and business goals for the year and our compensation committee determined that we had achieved each of our base and stretch corporate goals at target, resulting in payout of the portion of cash bonuses under our 2017 cash incentive compensation program based upon achievement of corporate goals at 130% of target, taking into consideration the following significant corporate achievements:

we received confirmation from the FDA that Esperion's LDL-C lowering program is adequate to support approval of an LDL-C lowering indication for bempedoic acid;

we received confirmation from the FDA that the Phase 3 development program for the bempedoic acid / ezetimibe combination pill was adequate to support approval of an LDL-C lowering indication;

we completed and reported positive top line results from our Phase 2 Triplet Oral Therapy clinical study;

we closed an underwritten offering of 3,565,000 shares of our common stock, at a public offering price of \$49.00 per share, with net proceeds to us of \$164.0 million and extended our cash

operations through anticipated NDA approvals of bempedoic acid and the bempedoic acid / ezetimibe combination pill;

we completed enrollment in our global pivotal Phase 3 efficacy and long term safety studies for bempedoic acid;

we initiated the pivotal Phase 3 study for the bempedoic acid / ezetimibe combination pill;

we significantly increased awareness of bempedoic acid in the medical community; and

we filed an IND for NASH indication.

In addition to the corporate goals described above, 2017 bonus amounts for Drs. Lalwani and McGowan were based on their individual performance for 2017, with a focus on individual contributions that were intended to drive achievement of our corporate goals.

Based on our overall performance in 2017 and the individual performance of our named executive officers other than our CEO, in December 2017, the compensation committee approved cash bonuses for 2017 performance to our named executive officers as follows:

Name	2017 Target Award (% of Base Salary)	2017 Target Award Opportunity (\$)	2017 Actual Bonus Payment (\$)	2017 Actual Bonus Payment (% of Target Award Opportunity)
Tim M. Mayleben	55	310,750	404,000	130
Narendra D. Lalwani, Ph.D., FAHA, DABT	40	156,000	203,000	130
Mary P. McGowan, M.D.	35	138,250		

Long-Term Incentive Compensation

Long-term incentive compensation, in the form of equity awards, are granted to our named executive officers in the discretion of our compensation committee under the terms of our Amended and Restated 2013 Stock Option and Incentive Plan (the "2013 Plan"). Our compensation committee believes that equity awards that may be earned over time can be an effective vehicle for aligning team and individual performance with the achievement of our longer-term strategic and financial goals, and with stockholders' interests. These equity awards are designed to:

reward demonstrated leadership and performance;

align our named executive officers' interests with those of our stockholders;

retain our named executive officers through the term of the awards;

maintain competitive levels of executive equity incentive compensation; and

motivate our named executive officers for outstanding future performance.

The market for qualified and talented executives in the biopharmaceutical industry is highly competitive and we compete for talent with many companies, including major pharmaceutical companies, that have greater resources than we do. Accordingly, we believe long-term incentive compensation in the form of equity awards is a crucial component of any competitive executive compensation package we offer.

Edgar Filing: Esperion Therapeutics, Inc. - Form DEF 14A

Historically, our equity awards have generally been in the form of options to purchase shares of our common stock. We typically grant stock options to each of our named executive officers upon commencement of employment, annually in conjunction with our review of individual performance or

Table of Contents

in connection with a promotion or as a special incentive. We may also grant additional awards from time to time to our named executive officers to reward demonstrated leadership and performance, align our named executive officers' interests with those of our stockholders, retain our named executive officers through the term of the awards, maintain competitive levels of executive equity incentive compensation and motivate our named executive officers for outstanding future performance.

All stock options granted to our named executive officers are approved by our compensation committee and, other than stock options granted to new hires, or those made in connection with a promotion, are typically granted as of the beginning of the year. The size of these stock option grants varies among our named executive officers based on their positions and annual performance assessments. All stock options granted to our named executive officers have exercise prices equal to the fair market value of our common stock on the date of grant, so that the recipient will not realize any value from his or her options unless our share price increases above the exercise price. Accordingly, this portion of our named executive officers' compensation is "at risk" and is directly aligned with stockholder value creation.

In addition, the stock options granted to our named executive officers typically vest over four years, which we believe provides an incentive to our named executive officers to create value over the long-term and to remain with the Company. In 2017, our compensation committee granted stock options to Mr. Mayleben and Drs. Lalwani and McGowan, each of which are described below.

In January 2017, our compensation committee granted Mr. Mayleben an option to purchase 140,000 shares of our common stock, Dr. Lalwani an option to purchase 55,000 shares of our common stock and Dr. McGowan an option to purchase 50,000 shares of our common stock. Each of these options is subject to our standard four-year vesting schedule.

In February 2017, our compensation committee granted Mr. Mayleben an option to purchase 171,100 shares of our common stock, Dr. Lalwani an option to purchase 10,800 shares of our common stock and Dr. McGowan an option to purchase 140,000 shares of our common stock. These long-term incentive awards were granted in order to maintain competitive levels of executive equity incentive compensation with the market and reinforce the alignment of our key employees' interests with those of our stockholders. Each of these options is subject to our standard four-year vesting schedule.

For additional information regarding the equity awards granted to our named executive officers in 2017, including the vesting terms of such awards, see the "2017 Grants of Plan-Based Awards Table" and the "2017 Outstanding Equity Awards at Fiscal Year-End Table" below.

Employee Benefits

In addition to the primary elements of compensation described above, our named executive officers are also eligible to participate in broad-based employee benefits programs available to all of our employees, including health insurance, life and disability insurance and our 401(k) plan. We match 50% of the salary contributed to the Esperion Therapeutics' 401(k) plan by our employees, including our named executive officers, up to a maximum of 6% of their base salary.

Severance and Change in Control Arrangements

We have entered into employment agreements with each of our named executive officers that provide for specified payments and benefits in connection with a termination of employment by the Company without cause or a resignation by the executive officer for good reason. Our goal in providing severance and change in control payments and benefits is to offer sufficient cash continuity protection such that our named executive officers will focus their full time and attention on the requirements of the business rather than the potential implications for their respective positions. We prefer to have certainty regarding the potential severance amounts payable to our named executive officers, rather

Table of Contents

than negotiating severance at the time that a named executive officer's employment terminates. We have also determined that accelerated vesting provisions with respect to equity awards upon a qualifying termination of employment in connection with a change in control of the Company are appropriate because they encourage our named executive officers, to stay focused on the business in those circumstances, rather than focusing on the potential implications for them personally. In addition, these employment agreements with our named executive officers contain non-solicitation, non-competition and confidentiality provisions. None of the employment agreements with our named executive officers provide for tax gross-ups or other reimbursement for tax amounts they might pay.

For a description of severance and change in control arrangements with our named executive officers, see "Employment Arrangements with our Named Executive Officers" and "Estimated Payments and Benefits upon Termination or Change in Control" below.

Other Compensation Policies

Hedging and Pledging Prohibitions

Our insider trading policy expressly prohibits short sales of our securities (including short sales "against the box") and derivative transactions of our stock by our named executive officers, the non-employee members of our Board and specified other employees. Our insider trading policy expressly prohibits, without the advance approval of our audit committee, purchases or sales of puts, calls or other derivative securities of the Company or any derivative securities that provide the economic equivalent of or monetization transactions accomplished through the use of prepaid variable forwards, equity swaps, collars and exchange funds.

In addition, our insider trading policy expressly prohibits our named executive officers, the non-employee members of our Board and specified other employees from purchasing our securities on margin or borrowing against Company securities held in a margin account or, without the advance approval of our audit committee, pledging our securities as collateral for a loan or modifying an existing pledge.

Income Tax Considerations

None of our executive officers or non-employee members of our Board are entitled to a gross-up or other reimbursement for tax amounts they might pay pursuant to Section 4999 or Section 409A of the Code. Sections 280G and 4999 of the Code provide that executive officers, directors who hold significant stockholder interests and certain other service providers could be subject to significant additional taxes if they receive payments or benefits in connection with a change in control of our Company that exceed certain limits, and that we or our successor could lose a deduction on the amounts subject to the additional tax.

Generally, Section 162(m) of the Code disallows a federal income tax deduction for public corporations of remuneration in excess of \$1 million paid for any fiscal year "covered employees" of the Company. With respect to taxable years before January 1, 2018, remuneration in excess of \$1 million was exempt from this deduction limit if it qualified as "performance-based compensation" within the meaning of Section 162(m). In 2017, the compensation committee endeavored to structure compensation to maintain deductibility under Section 162(m) of the Code to the extent practicable while maintaining the ability to provide a competitive compensation program for our named executive officers

Recently-enacted tax legislation, effective for taxable years beginning after December 31, 2017, (1) expands the scope of Section 162(m) such that all named executive officers are "covered employees" and anyone who was a named executive officer in any year after 2016 will remain a covered employees for as long as he or she (or his or her beneficiaries) receive compensation from the

Table of Contents

Company and (2) eliminates the exception to the deduction limit for commission-based compensation and performance-based compensation except with respect to certain grandfathered arrangements in effect as of November 2, 2017 that are not subsequently materially modified. Accordingly, compensation paid to our named executive officers in excess of \$1 million will not be deductible unless it qualifies for the transition relief applicable to certain arrangements in place as of November 2, 2017, as described above.

The compensation committee believes that stockholder interests are best served if the committee retains maximum flexibility to design executive compensation programs that meet stated business objectives. For these reasons, the compensation committee, while considering tax deductibility as a factor in determining executive compensation, may not limit such compensation to those levels that will be deductible, particularly in light of the elimination of the expansion of the covered employee group and the elimination of the exception for performance-based compensation.

We provide these benefits to promote retention and ease the consequences to the named executive officer of an unexpected termination of employment. These arrangements are also intended to preserve morale and productivity in the face of the potentially disruptive impact of a change in control of the Company. These payments and benefits also allow our named executive officers to focus on the value of strategic alternatives to stockholders without concern for the impact on their own continued employment, as each of their offices is at heightened risk of turnover in the event of a change in control.

Table of Contents**Estimated Payments and Benefits Upon Termination or Change in Control**

The amount of compensation and benefits payable to each of our named executive officers in various termination of employment and change in control situations, assuming that the triggering event occurred on December 31, 2017, has been estimated in the tables below. The closing price of the Company's common stock on the NASDAQ Global Market as of December 29, 2017, the last trading day of 2017, was \$65.84 per share. The value of the unvested stock options was calculated by multiplying the number of unvested option shares subject to vesting acceleration as of December 31, 2017, by the difference between the closing price of the Company's common stock as of December 29, 2017, and the exercise price for such unvested option shares.

CEO Pay Ratio						

Pursuant to a mandate of the Dodd-Frank Act, the SEC adopted a rule requiring annual disclosure of the ratio of the median employee's total annual compensation to the total annual compensation of our Chief Executive Officer.

We believe that our compensation philosophy must be consistent and internally equitable to motivate our employees to create stockholder value. The purpose of this disclosure is to provide a measure of pay equity within the organization.

As illustrated in the table below, our 2017 CEO to median employee pay ratio was 12:1.

Chief Executive Officer 2017 Annual Total Compensation	\$ 5,013,460
Median Employee 2017 Annual Total Compensation	\$ 409,294
Ratio of CEO to Median Employee Compensation	12:1

We identified our median employee by using 2017 base salaries, our consistently applied compensation measure, for all individuals, excluding our CEO, who were employed by us on December 31, 2017 (annualized in the case of permanent full-time and part-time employees who joined the Company during 2017). After identifying the median employee, we calculated the annual total compensation for that employee using the same methodology used for our CEO's annual total compensation as disclosed in the Summary Compensation Table, including base salary, bonus, stock awards, option awards, non-equity plan compensation, and all other compensation.

The pay ratio reported above is a reasonable estimate calculated in a manner consistent with SEC rules, based on our internal records and the methodology described above. The SEC rules for identifying the median compensated employee allow companies to adopt a variety of methodologies, to apply certain exclusions and to make reasonable estimates and assumptions that reflect their employee populations and compensation practices. Accordingly, the pay ratio reported by other companies may not be comparable to the pay ratio reported above, as other companies have different employee populations and compensation practices and may use different methodologies, exclusions, estimates and assumptions in calculating their own pay ratios.

Director Compensation Policy

We adopted a non-employee director compensation policy that became effective upon our initial public offering. Effective April 9, 2018, each of the non-employee members of our Board is entitled to the following equity compensation pursuant to this policy:

Upon initial election to our Board, each non-employee director receives an initial equity grant of an option to purchase 18,700 shares of our common stock, with an exercise price equal to the fair market value of our common stock on the date of grant, that vests in equal monthly installments over three years, provided, however, that all vesting ceases if the director resigns from our Board or otherwise ceases to serve as a director, unless our Board determines that the circumstances warrant continuation of vesting.

Each continuing non-employee member of our Board receives an annual equity grant of an option to purchase 10,100 shares of our common stock, with an exercise price equal to the fair market value of our common stock on the date of grant, that vests on the earlier of the one-year anniversary of the grant date and the company's next Annual Meeting of Stockholders, provided, however, that all vesting ceases if the director resigns from our Board or otherwise ceases to serve as a director, unless our Board determines that the circumstances warrant continuation of vesting. The number of options granted is pro-rated based on the number of calendar days served by such director during the applicable year.

Effective April 9, 2018, each of the non-employee members of our Board also annually receives a \$40,000 cash retainer for general availability and participation in meetings and conference calls of our Board. Additionally, the audit committee chairperson annually receives a \$20,000 cash retainer, each audit committee member (other than the chairperson) annually receives a \$10,000 cash retainer, the compensation committee chairperson annually receives a \$15,000 cash retainer, each compensation committee member (other than the chairperson) annually receives a \$7,500 cash retainer, the nominating and corporate governance committee chairperson annually receives a \$10,000 cash retainer and each nominating and corporate governance committee member (other than the chairperson) annually receives a \$5,000 cash retainer. The lead independent director receives an additional annual cash retainer of \$20,000. The amounts for such annual retainers are pro-rated based on the number of calendar days served by such director during the applicable year.

We reimburse each member of our Board who is not an employee for reasonable travel and other expenses in connection with attending meetings of our Board or committees thereof.

The following table provides compensation information for the fiscal year ended December 31, 2017, for each member of our Board, other than those whose information is reflected in the Summary Compensation Table. Mr. Mayleben did not receive any compensation for his services as a director

Our policy governing transactions in our securities by the non-employee members of our Board of Directors, officers and employees permits our officers, directors and certain other persons to enter into trading plans complying with Rule 10b5-1 under the Exchange Act. Generally, under these trading plans, the individual relinquishes control over the transactions once the trading plan is put into place. Accordingly, sales under these plans may occur at any time, including possibly before, simultaneously with, or immediately after significant events involving our company.

Further, when stockholders are entitled to vote on a transaction with a related party, the material facts of the related party's relationship or interest in the transaction are disclosed to the stockholders, who must approve the transaction in good faith.
