ABOUT NEW CHARTER

With New Charter, Time Warner Cable and Bright House Networks customers will benefit from Charter's pro-customer and pro-broadband model: faster Internet for online video, affordable prices, transparent billing and commitment to American jobs.

Time Warner Cable and Bright House Networks customers will benefit from Charter's pro-customer and pro-broadband model: faster Internet for online video, affordable prices, transparent billing and commitment to American jobs.

As proof of its intention to continue pro-consumer strategies, New Charter is making legally enforceable commitments that put consumers first.

Faster speeds. Charter's slowest broadband tier is 60 Mbps, which enhances the ability of several people in the same house to watch streaming high-definition video at the same time.

Affordable, faster broadband at lower prices. New Charter will price its new 60 Mbps entry level speeds based on Charter's current model, which is less expensive than TWC and BHN's comparable offerings. Charter's pricing model offers nationally uniform pricing with no data caps, no usage-based pricing, no modem fees and no early termination fees.

Committed to Net Neutrality. Charter has long practiced network neutrality and consistently invested in interconnection capacity to avoid network congestion.

Investing in customer care. We are focused on improving New Charter's customer service and improving our relationships with our customers across our footprint. Over the last three years, Charter has brought back jobs from overseas call centers and hired thousands of people to improve our customer care services. New Charter will also return TWC call center jobs to the United States and will hire and train thousands of new employees for its customer service call centers and field technician operations.

A quicker rollout of advanced technology. We will complete the full digitization of TWC and BHN-freeing up spectrum that will allow for faster broadband speeds and more high-definition channels and On-Demand offerings.

New Charter customers will transition to Charter's new cloud-based guide. The new guide will offer intuitive search and discovery and will work on old and new set-top boxes, so consumers will get the benefits of the new guide without needing a technician to visit or to pay more for a new box.
