1. To elect five Directors to the Board of Directors to serve for the upcoming annual term and until their successors are duly elected.
2. To approve discretionary authority for the Board of Directors to amend the Company's Restated Certificate of Incorporation to effect a reverse stock split at one of two ratios.

The proposal to grant the Board of Directors discretionary authority to amend the Restated Certificate of Incorporation to effect a reverse stock split at one of two ratios requires the affirmative vote of a majority of the outstanding shares of the Company's common stock.

All stockholders are cordially invited to attend the meeting in person. However, to assure your representation at the meeting, you are urged to complete, sign, date and return the enclosed proxy card as promptly as possible. THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR THE ELECTION OF EACH OF THE NOMINEES NAMED ABOVE.

REVERSE STOCK SPLIT PROPOSAL

The Company is asking stockholders to approve a proposal to grant the Board discretionary authority to effect a reverse stock split pursuant to one of two alternative ratios.

A reverse stock split would reduce the number of outstanding shares of the Company's Common Stock, and the holdings of each stockholder, according to the same formula. The proposal calls for either a 1-for-5 or 1-for-10 reverse stock split ratio. If the proposal is approved, the Board may in its discretion implement a reverse stock split using one of the two ratios included in the proposal at any time prior to June 20, 2007. The Board will also have the sole discretion not to effect any reverse stock split.

If the proposal is approved, the Board will have the discretion to effect a reverse stock split at any time prior to June 20, 2007, using one of the approved ratios, or to choose not to effect a reverse stock split at all, based on its determination of which action is in the best interests of the Company and its stockholders. The Board reserves its right to elect not to proceed, and abandon, the reverse stock split if it determines, in its sole discretion, that this proposal is no longer in the best interests of the stockholders.

The Company currently has 20,000,000 authorized shares of Common Stock. As of May 1, 2006, the Record Date for the Annual Meeting, 11,888,571 shares of Common Stock were outstanding. Authorized shares represent the number of shares of Common Stock that the Company is permitted to issue under the Company's Restated Certificate of Incorporation, as amended. The Company has not repurchased any shares of Common Stock that we have repurchased, which are referred to as treasury shares, the number of shares of Common Stock outstanding represents the number of shares of Common Stock that we have actually issued from the pool of authorized shares of Common Stock. The reverse stock split, if implemented, would have the principal effect of reducing both the outstanding number of shares of Common Stock and the authorized number of shares of Common Stock by the ratio selected by the Board and, except for the effect of fractional shares, each stockholder's proportionate ownership interest in the Company would be the same immediately before and after the reverse stock split.

Purposes of the Reverse Stock Split

The purpose of implementing a reverse stock split would be to attempt to increase the per-share trading value of the Common Stock. The Board intends to effect the proposed reverse stock split only if the implementation of a reverse stock split is determined by the Board to be in the best interest of the Company and its stockholders. If the trading price of the Common Stock increases without a reverse stock split, the Board may exercise its discretion not to implement a reverse split.

Lower priced stocks tend to have higher brokerage commissions as a percentage of the total transaction. A higher stock price after a reverse stock split should reduce this cost.

Edgar Filing: WESTERN SIZZLIN CORP - Form PRE 14A

The Common Stock is currently traded on the OTC Bulletin Board under the symbol WSZZ . The OTC Bulletin Board has no minimum stock price requirement for continued registration. Accordingly, approval of this proposal would not effect the Company s ability to continue trading on the OTC Bulletin Board.

The Board believes that stockholder approval of the two potential exchange ratios (rather than a single exchange ratio) provides the Board with the flexibility to achieve the desired results of a reverse stock split. If the stockholders approve this proposal, the Board would effect a reverse stock split only upon the Board s determination that a reverse stock split would be in the best interests of the stockholders at that time. To effect a reverse stock split, the Board would set the timing for such a split and select the specific ratio from the two ratios described in this Proxy Statement. No further action on the part of stockholders will be required to either implement or abandon the reverse stock split. If the proposal is approved by stockholders, and the Board determines to implement either of the reverse stock split ratios, the Company would communicate to the public, prior to the effective date of the reverse split, additional details regarding the reverse split, including the specific ratio selected by the Board.

You should keep in mind that the implementation of a reverse stock split does not have an effect on the actual or intrinsic value of the Company's business or your proportional ownership in the Company. You should also consider that in many cases, the market price of a company's shares declines after a reverse stock split.

Certain Risks Associated with the Reverse Stock Split

There can be no assurance that the total market capitalization of the Common Stock (the aggregate value of all of the Company's Common Stock at the then market price) after the implementation of a reverse stock split will be equal to or greater than the total market capitalization before a reverse stock split or that the per-share market price of the Common Stock following a reverse stock split will increase in proportion to the reduction in the number of shares of the Common Stock outstanding before the reverse stock split.

There can be no assurance that the market price per new share of the Common Stock after a reverse stock split will remain unchanged or increase in proportion to the reduction in the number of old shares of the Common Stock outstanding before a reverse stock split. For example, based on the closing price of the Common Stock on May 15, 2006, of \$.97 per share, if the Board were to implement the reverse stock split and utilize a ratio of 1-for-10, the Company cannot assure you that the post-split market price of the Common Stock would be \$9.70 (that is, \$.97 x 10) per share or greater. In many cases, the market price of a company's shares declines after a reverse stock split.

Accordingly, the total market capitalization of the Common Stock after a reverse stock split when and if implemented may be lower than the total market capitalization before the reverse stock split. Moreover, in the future, the market price of the Common Stock following a reverse stock split may not exceed or remain higher than the market price prior to the reverse stock split.

A decline in the market price of the Common Stock after a reverse stock split is implemented may result in a greater percentage decline than would occur in the absence of a reverse stock split, and the liquidity of the Common Stock could be adversely affected following such a reverse stock split.

If a reverse stock split is effected and the market price of the Common Stock declines, the percentage decline may be greater than would occur in the absence of a reverse stock split. The market price of the Common Stock will, however, also be based on our performance and other factors, which are unrelated to the number of shares of Common Stock outstanding. Furthermore, the liquidity of the Common Stock could be adversely affected by the reduced number of shares that would be outstanding after the reverse stock split.

Principal Effects of the Reverse Stock Split

If approved and implemented, the principal effects of a reverse stock split would include the following:

Depending upon the ratio for the reverse stock split selected by the Board, each 5 or 10 shares of the Common Stock that you own will be combined into one new share of Common Stock;

The number of shares of Common Stock issued and outstanding will be reduced proportionately, based upon the ratio selected by the Board;

The total number of shares of Common Stock the Company is authorized to issue will be reduced proportionately, based upon the ratio selected by the Board;

Appropriate adjustments will be made to stock options convertible into shares of the Common Stock granted under the Company's plans to maintain the economic value of the awards, based upon the ratio selected by the Board; and

The number of shares reserved for issuance under the Company's stock option plans will be reduced proportionately based upon the ratio selected by the Board (and any other appropriate adjustments or modifications will be made under the plans).

The Common Stock resulting from a reverse stock split will remain fully paid and non-assessable. A reverse stock split will not affect the public registration of the Common Stock under the Securities Exchange Act of 1934.

A reverse stock split would not, by itself, affect the Company's assets or business prospects. Also, if approved and implemented, a reverse stock split may result in some stockholders owning odd lots of less than 100 shares of Common Stock. Odd-lot shares may be more difficult to sell, and brokerage commissions and other costs of transactions in odd lots are generally somewhat higher than the costs of transactions in round lots of even multiples of 100 shares. The Board believes, however, that these potential effects are outweighed by the benefits of a reverse stock split.

Fractional Shares

No fractional certificates will be issued in connection with a reverse stock split. Stockholders who otherwise would be entitled to receive fractional shares because they hold a number of shares of Common Stock not evenly divisible by 5 or 10, the reverse stock split ratios, will be entitled, upon surrender of any certificate(s) representing such shares, to a cash payment in lieu thereof. The Company would arrange for a third party to aggregate the fractional shares of registered stockholders, sell them in the open market and deliver the proceeds to those stockholders. The Company will pay any brokerage commissions in connection with that sale.

Stockholders who otherwise would be entitled to receive fractional shares will only be entitled to a cash payment in lieu of such shares and will no longer have any rights as a stockholder with respect to the shares of Common Stock that would have been exchanged for such fractional shares.

Authorized Shares

A reverse stock split would affect all issued and outstanding shares of Common Stock and outstanding rights to acquire Common Stock. Upon the effectiveness of a reverse stock split, the total number of shares of Common Stock that the Company is authorized to issue would be reduced proportionately based upon the ratio selected by the Board. As of the Record Date for the Annual Meeting, the Company had 20,000,000 shares of authorized Common Stock and 11,888,571 shares of Common Stock issued and outstanding.

Accounting Matters

The par value of the Common Stock will remain at \$0.01 per share after a reverse stock split. As a result, as of the effective time, the stated capital on the Company's balance sheet attributable to the Common Stock would be reduced proportionately based on the reverse stock split ratio selected by the Board, and the additional paid-in capital account will be credited with the amount by which the stated capital is reduced. In future financial statements, the Company would restate net income or loss and other per-share amounts for periods ending before a reverse stock split to give retroactive effect to the reverse stock split.

Procedure for Effecting a Reverse Stock Split and Exchange of Stock Certificates

If stockholders approve the proposal and the Board decides to implement a reverse stock split, the Company will file with the Secretary of State of the State of Delaware a certificate of amendment to the Restated Certificate of Incorporation (as previously amended). A reverse stock split will become effective at the time and on the date of filing of, or at such later time as is specified in, the certificate of amendment, which will be referred to as the effective time and effective date, respectively. Beginning at the effective time, each certificate representing shares of Common Stock will be deemed for all corporate purposes to evidence ownership of the number of whole shares into which the shares previously represented by the certificate were combined pursuant to the reverse stock split. The text of the certificate of amendment would be in substantially the form attached hereto as Attachment 1, except that the text of the form may be altered for any changes required by the Secretary of State of the State of Delaware and changes deemed necessary or advisable by the Board, including the insertion of the effective time, effective date, and number of authorized shares and the reverse stock split ratio selected by the Board.

Upon a reverse stock split, the Company intends to treat stockholders holding the Common Stock in street name, through a bank, broker or other nominee, in the same manner as registered stockholders whose shares are registered in their names. Banks, brokers or other nominees will be instructed to effect a reverse stock split for their beneficial holders holding the Common Stock in street name. However, these banks, brokers or other nominees may have different procedures than registered stockholders for processing a reverse stock split. If you hold your shares with a bank, broker or other nominee and if you have any questions in this regard, we encourage you to contact your nominee.

Following any reverse stock split, stockholders holding physical certificates would need to exchange those certificates for new certificates and a cash payment in lieu of any fractional shares, and the Company expects that the Common Stock would receive a new CUSIP number.

If a reverse stock split is implemented, First National Bank of Omaha, our transfer agent, will advise registered stockholders of the procedures to be followed to exchange certificates in a letter of transmittal to be sent to stockholders. No new certificates will be issued to a stockholder until the stockholder has surrendered the stockholder's outstanding certificate(s), together with the properly completed and executed letter of transmittal, to the bank. Any old shares submitted for transfer, whether pursuant to a sale, other disposition or otherwise, will automatically be exchanged for new shares. **Stockholders should not destroy any stock certificate(s) and should not submit any certificate(s) until requested to do so.**

No Appraisal Rights

Stockholders do not have appraisal rights under Delaware General Corporation Law or under the Restated Certificate of Incorporation (as amended) in connection with a reverse stock split.

Reservation of Right to Abandon Reverse Stock Split

The Company reserves the right to abandon a reverse stock split without further action by the stockholders at any time before the effectiveness of the filing with the Secretary of State of the State of Delaware of the certificate of amendment to our Restated Certificate of Incorporation, even if the authority to effect a reverse stock split has been approved by the stockholders at the Annual Meeting. By voting in favor of a reverse stock split, you are expressly also authorizing the Board to determine not to proceed with, and abandon, a reverse stock split if it should so decide.

Certain Federal Income Tax Consequences

The following is a summary of the material U.S. federal income tax consequences of a reverse stock split. This discussion is based on the Internal Revenue Code, the Treasury Regulations promulgated thereunder, published statements by the Internal Revenue Service and other applicable authorities on the date of this Proxy Statement, all of which are subject to change, possibly with retroactive effect. This discussion does not address the tax consequences to holders that are subject to special tax rules, such as banks, insurance companies, regulated investment companies, personal holding companies, foreign entities, nonresident alien individuals, broker-dealers and tax-exempt entities. Further, it does not address any state, local or foreign income or other tax consequences. This summary also assumes that the shares of Common Stock held immediately prior to the effective time of the reverse stock split (the old shares) were, and the new shares received will be, held as a capital asset, as defined in the Internal Revenue Code (generally, property held for investment).

Subject to the discussion below concerning the treatment of the receipt of cash payments instead of fractional shares, the Company believes that the material U.S. federal income tax consequences of a reverse stock split would be as follows:

The Company will not recognize any gain or loss as a result of the reverse stock split.

You will not recognize any gain or loss as a result of the reverse stock split, except with respect to cash received instead of fractional shares.

The aggregate adjusted basis of the shares of each class of the Common Stock you hold following the reverse stock split will be equal to your aggregate adjusted basis immediately prior to the reverse stock split, reduced by any tax basis attributable to a fractional share.

Your holding period for the Common Stock you continue to hold after the reverse stock split will include your holding period for the Common Stock you held immediately prior to the reverse stock split.

In general, if you receive cash instead of a fractional share of the Common Stock, you will recognize capital gain or loss based on the difference between the amount of cash received and your adjusted basis in the fractional share. The capital gain or loss will constitute long-term capital gain or loss if your holding period for the Common Stock is greater than one year as of the date of the reverse stock split. The deductibility of capital losses is subject to limitations.

The Company's beliefs regarding the tax consequences of the reverse stock split is not binding on the Internal Revenue Service or the courts. **Accordingly, the Company urges you to consult with your own tax advisor with respect to all of the potential tax consequences to you of the reverse stock split.**

Vote Required

The affirmative vote of a majority of the outstanding shares of the Common Stock is required for approval of this proposal.

THE BOARD UNANIMOUSLY RECOMMENDS A VOTE FOR THE APPROVAL OF THE REVERSE STOCK SPLIT PROPOSAL.

GENERAL INFORMATION ON THE BOARD OF DIRECTORS

Board Meetings and Attendance

The Board of Directors met three times during calendar year 2005, and held three telephonic meetings. The Audit and Finance Committee held seven meetings, the Compensation Committee held two meetings, and the Nominating and Governance Committee held two meetings. All directors were present for at least 75% of the Board and committee meetings.

Board Attendance at Annual Meeting of Stockholders

Edgar Filing: WESTERN SIZZLIN CORP - Form PRE 14A

The Company has no formal policy for director attendance at the Annual Meeting, but all directors are encouraged to attend. Nine out of ten directors attended the 2005 Annual Meeting.

Compensation of Directors

Directors are paid a \$1,000 quarterly retainer plus \$1,500 and reimbursement for out-of-pocket expenses incurred for attending each Board meeting in person. Additionally, the directors receive \$500 for each telephonic Board meeting. The directors also receive stock options under the Company's two stock option plans. In 2005, each director received two grants of 10,000 stock options.

Director Independence

The Company's Common Stock is not listed on a stock exchange, but is quoted on the OTC Bulletin Board. In accordance with applicable SEC rules, the Board of Directors has determined that all directors are independent as measured by the Corporate Governance Rules applicable to companies listed on the Nasdaq Capital Market.

Communications with the Board

Stockholders desiring to communicate with the Board should send written correspondence to the Company's Secretary at the headquarters address listed in this Proxy Statement.

Board Committees

Audit and Finance Committee

The Audit and Finance Committee is comprised of Dr. Cooley (Chair) and Mr. Hontzas. The Board has determined that Dr. Cooley is an audit committee financial expert as defined by Item 401 of SEC Regulation S-K. At this time the composition of the Audit and Finance Committee does not meet the Nasdaq's requirements in that the Committee is comprised of two directors instead of the three required by Nasdaq. The Board has determined that both Dr. Cooley and Mr. Hontzas meet the special independence requirements applicable to audit committee members under Nasdaq's rules.

The Audit and Finance Committee oversees the Company's accounting and financial reporting processes and the audits of its financial statements. The Committee also monitors the independence, performance and qualifications of our independent auditors. The Audit and Finance Committee recently amended and restated its charter, a copy of which is included as Attachment 2 to this Proxy Statement. The report of the Audit and Finance Committee is included in this Proxy Statement under the heading **REPORT OF THE AUDIT AND FINANCE COMMITTEE**.

Compensation Committee

The Compensation Committee is currently comprised of Mr. Hontzas (Chair), Mr. Biglari and Dr. Cooley. The Compensation Committee considers the hiring and election of corporate officers, salary and incentive compensation policies for officers, and the granting of stock options to employees. The report of the Compensation Committee is included in this Proxy Statement under heading **EXECUTIVE COMPENSATION**.

Nominating and Governance Committee

The Nominating and Governance Committee is comprised of Mr. Greene (Chair) and Mr. Dash, both of whom are independent as measured by the Nasdaq rules applicable to this committee. The Nominating and Governance Committee assists the Board in identifying individuals qualified to become Directors by recommending nominees for election at the Annual Meeting of Stockholders or for appointment to fill vacancies on the Board, and by developing and recommending corporate governance guidelines. The Board adopted a Charter for the Nominating and Governance committee, a copy of which was appended to the 2004 Proxy Statement.

Nominees are chosen for their ability to represent all of the stockholders, and for their character, judgment, fairness and overall ability. As a group, they are expected to set the appropriate policy for the Company, and to bring to the Board of Directors broad experience in business matters and an insight and awareness of the appropriate and ever changing role that corporations should have in society. Because the advice of those facing similar problems is of particular value, executive officers of other corporations are desirable nominees.

The following personal criteria will be considered in selecting candidates for the Board of Directors:

Independence

Wisdom

Integrity

Understanding and general acceptance of our corporate philosophy

Valid business or professional knowledge and experience that can bear on our strategies and deliberations

Proven record of accomplishment

Willingness to speak one's mind

Ability to challenge and stimulate management

Future orientation

Willingness to commit time and energy

The Nominating Committee will also consider nominations from stockholders, which are made in writing to the Secretary of the Company and comply with Bylaw requirements. The recommendation must contain sufficient background information concerning the nominee to enable a proper judgment to be made as to his or her qualifications. Recommendations must also include a written statement from the candidate expressing a willingness to serve.

REPORT OF THE AUDIT AND FINANCE COMMITTEE

The Audit and Finance Committee recommends in advance the firm of independent public accountants to be retained by the Company to provide audit and audit related services. In addition, the Chair of the Audit and Finance Committee pre-approves any engagement of accountants to provide non-audit services and all such engagements are reviewed and ratified by the Committee at its next meeting.

In fulfilling its oversight responsibilities, the Audit and Finance Committee reviewed and discussed with management the audited consolidated financial statements of the Company to be set forth in the Company's 2005 Annual Report to Stockholders and the Company's Annual Report on Form 10-K for the year ended December 31, 2005. The Audit and Finance Committee also discussed with Grant Thornton LLP, independent accountants for the Company who are responsible for expressing an opinion on the conformity of those audited consolidated financial statements with accounting principles generally accepted in the United States of America, the matters required to be discussed by the Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as amended. The Statement on Auditing Standards No. 61 includes, among other items, matters relating to the conduct of an audit of the Company's consolidated financial statements under generally accepted auditing standards.

The Audit and Finance Committee has received the written disclosures and the letter from Grant Thornton LLP required by Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committee*, has considered the compatibility of nonaudit services with the auditors' independence, and has discussed with Grant Thornton LLP their independence from the Company.

In reliance on the review and discussions referred to above, the Audit and Finance Committee recommended to the Board of Directors that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for 2005 for filing with the Securities and Exchange Commission.

The foregoing report is submitted by the Audit and Finance Committee in accordance with the requirements of the Securities Exchange Act of 1934 (as amended) and the rules and regulations hereunder.

NAME	AGE	POSITION AND PRINCIPAL OCCUPATION SINCE 1999	OFFICER SINCE
Robyn B. Mabe	44	Vice President and Chief Financial Officer; Secretary/Treasurer. Mr. Verney is employed pursuant to the terms of a written Employment Agreement dated July 1, 2003, as subsequently amended by a written Binding Memorandum of Understanding dated January 4, 2005. The Agreement (as amended) provides Mr. Verney compensation in the form of a base salary, cash bonus and stock options. The salary amount is adjusted annually by the Compensation Committee. The bonus is tied to the Company and Mr. Verney meeting certain performance targets established annually by the Compensation Committee. In 2005, options to purchase 50,000 shares of the Company s Common Stock granted under the Agreement vested, and an additional 100,000 options were granted. The Agreement provides other benefits of the type available to other Company employees such as health insurance and retirement plan participation. Compensation Committee Report on Executive Compensation for the Fiscal Year Ended December 31, 2005

The Compensation Committee is responsible for reviewing and recommending to the Board annually the compensation to be paid to the President and Chief Executive Officer of the Company. The committee also oversees the compensation of all other executive officers including salary and bonus payments determined by the Chief Executive Officer.

Decisions with respect to executive compensation are made by the Compensation Committee on an individual basis, based upon a number of factors, including the provisions of any existing employment contract with an executive officer, evaluation of the executive officer s performance, the level of responsibility associated with the executive officer s office, recruitment requirements and the performance of the Company. Compensation of the executive officers of the Company has historically been structured to motivate, reward and retain the executive officers consistent with the needs of the Company from time to time. The major elements of the executive officers compensation are base salary, short-term incentive in the form of a bonus, and a long-term incentive in the form of options to purchase Common Stock, with an emphasis on annual bonuses and options.

In 2005, the Compensation Committee reviewed and established the base salary of the Chief Executive Officer based on independent competitive data, his leadership in establishing performance standards in the conduct of the Company s business, and its expectations as to his future contributions in directing the long-term success of the Company and its business. The terms of Mr. Verney s 2005 compensation (summarized in the table below) were pursuant to the Employment Agreement and Binding Memorandum of Understanding, discussed

Edgar Filing: WESTERN SIZZLIN CORP - Form PRE 14A

previously. The performance targets established in those agreements were not fully met in 2005, thus no bonus was paid under those agreements. The bonus paid to Mr. Verney in 2005 was a discretionary bonus awarded by the Committee based upon Mr. Verney's contributions to the Company in 2005.

The foregoing report is submitted by the Compensation Committee of the Board of Directors of the Company in accordance with requirements of the Securities Exchange Act of 1934 (as amended) and the rules and regulations thereunder, and is not intended to create any contractually binding employment rights for the benefit of any employee of the Company.

SECURITIES EXCHANGE ACT OF 1934**

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company's officers and Directors, and persons who own more than 10% of a registered class of the Company's equity securities, to file reports of ownership on Form 3 and changes in ownership on Form 4 or Form 5 with the Securities and Exchange Commission. Such Officers, Directors and 10% stockholders are also required by SEC rules to furnish the Company with copies of all Section 16(a) forms they file. Specifically, Mrs. Mabe was unable to file a timely Form 4 to report a stock option grant but filed a timely Form 5 reporting this transaction.

RELATED PARTY TRANSACTIONS

Mr. Pat Vezertzis, a director in 2005 and Chair of the Compensation Committee, was also a Company franchisee. The terms of his franchise were the same terms and conditions as those of non-affiliated persons. In 2005, Mr. Vezertzis paid royalties to the Company of approximately \$170,000 in connection with this franchisee relationship. Mr. Vezertzis is no longer a director.

The Board of Directors has a policy that all transactions with its officers, directors, employees and affiliates of the Company will be approved by a majority of disinterested directors of the Company or a special committee of the Board of Directors consisting of disinterested persons, and will be on terms no less favorable to the Company that such directors or committee believe would be available from unrelated third parties.

CODE OF ETHICS

The Company has adopted a Code of Ethics applicable to its directors, officers and employees. A copy of the Code of Ethics was filed as an exhibit to the Company's Annual Report on Form 10-K for 2003. The Company recently made technical amendments to the Code of Ethics to clarify the reporting points of contact for suspected violations. The Company will provide a copy of the Amended and Restated Code of Ethics to any person without charge upon the Chief Financial Officer's receipt of a written request for such a copy.

OTHER MATTERS

The Company knows of no other matters to be submitted at the 2006 Annual Meeting. If any other matters properly come before the meeting, it is the intention of the persons named in the enclosed proxy card to vote the shares they represent as the Board of Directors may recommend.

ARTICLE IV

AUTHORIZED CAPITAL STOCK

The total number of shares of capital stock which the Corporation shall have the authority to issue is () (1) shares of Common Stock, par value \$0.01 per share (the Common Stock).

Shares of the capital stock of any class or series now or hereafter authorized may be issued by the Corporation for such consideration as shall be fixed from time to time by the Board of Directors of the Corporation; provided, however, that the consideration for the issuance of shares having par value not be less than such par value. Any and all shares of stock so issued for which the consideration so fixed has been paid or delivered to the Corporation shall be declared and taken to be fully paid stock and shall not be liable to any further call or assessments thereon, and the holders of such shares shall not be liable for any further payments in respect of such shares. Subscriptions to, or the purchase price of, shares of the capital stock of any class of the Corporation may be paid for, wholly or partly, by cash, by labor done, by personal property or by real property or leases thereof. In the absence of actual fraud in the transaction, the judgment of the Board of Directors as to the value of such labor, property, real estate or leases thereof shall be conclusive.

No holder of any capital stock of the Corporation of any class or series now or hereafter authorized shall, as such holder, have any preemptive or other right to purchase or subscribe for any shares of the capital stock of any class or series which the Corporation may issue or sell, whether such shares be exchangeable for any other class or classes of the capital stock of the Corporation, whether such shares be herein or hereafter authorized or whether such shares be acquired by the Corporation after the issuance thereof, nor shall the holders of any capital stock of the Corporation of any class or series, as such holders, have any preemptive or other right to purchase or subscribe for any obligations which the Corporation may issue and sell that shall be convertible into shares of the capital stock of the Corporation of any class or classes. Nothing herein set forth shall derogate the power and authority of the Board of Directors to determine to offer to or authorize to be offered from time to time for subscription to the holders of any class or series of the capital stock or convertible obligations of the Corporation at such price or prices and upon such other terms and conditions as the Board of Directors may in its sole discretion determine and fix. Any such shares of capital stock or convertible obligations of the Corporation which the Board of Directors may determine to offer or authorize to be offered for subscription to the holders of any class or series of the capital stock of the Corporation need not, by reason of such authorization and/or offer, be offered also to the holders of any other class or series.

Notwithstanding the immediately preceding sentence, no fractional shares of New Common Stock shall be issued to the holders of record of Old Common Stock. In lieu thereof, the aggregate of all fractional shares otherwise issuable to the holders of record of Old Common Stock shall be issued to **[NAME OF THIRD PARTY]**, as agent, for

The sale of all of the fractional interests will be effected by that agent as soon as practicable after the Amendment Effective Time on the basis of prevailing market prices of the New Common Stock on the OTC Bulletin Board at the time of sale. After such sale and upon the surrender of the stockholders stock certificates, the transfer agent will pay to such holders of record their pro rata share of the net proceeds derived from the sale of the fractional interests.

Each stock certificate that, immediately prior to the Amendment Effective Time, represented shares of Old Common Stock shall, from and after the Amendment Effective Time, automatically and without the necessity of presenting the same for exchange, represent that number of whole shares of New Common Stock into which the shares of Old Common Stock represented by such certificate shall have been reclassified (as well as the right to receive cash in lieu of any fractional shares of New Common Stock as set forth above), provided, however, that each holder of record of a certificate that represented shares of Old Common Stock shall receive, upon surrender of such certificate, a new certificate representing the number of whole shares of New Common Stock into which the shares of Old Common Stock represented by such certificate shall have been reclassified, as well as any cash in lieu of fractional shares of New Common Stock to which such holder may be entitled pursuant to the immediately preceding paragraph.
