The Fund invests primarily in debt securities issued by Florida municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at June 30, 2007, 84.0% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 1.6% to 46.3% of total investments.

- (1) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At June 30, 2007, the aggregate value of the securities is \$1,881,914 or 4.9% of the Fund s net assets applicable to common shares.
- (2) Security has been issued as a leveraged inverse floater bond. The stated interest rate represents the rate in effect at June 30, 2007.
- (3) Security is subject to a shortfall agreement which may require the Fund to pay amounts to a counterparty in the event of a significant decline in the market value of the security.
- Security represents the underlying municipal obligation of an inverse floating rate obligation held by the Fund.
 Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures
- (5) Security (or a portion thereof) has been segregated to cover margin requirements on open financial future contracts.
- (6) Security has been issued as an inverse floater bond. The stated interest rate represents the rate in effect at June 30, 2007.
